Kia ora Kimai,

We do appreciate your quick response on this – ka pai. Would you like to be provided with information and kept in the loop in regard to the separate managed fill application behind the quarry? Wikitoria Tane has been to site and is cognisant with the application also; it is on hold at the moment, pending assessment against the new National Environmental Statement for Freshwater.

Kind Regards,
Kate Madsen

Kia ora Kate and Norm

Thanks for your email. I have talked with our kaumātua and we are happy to tautoko Waahi Whaanui Trust as the primary mana whenua group involved in the Gleeson Quarries development (Huntly). Please let me know if you have any further questions.

Ngā mihi,
Kimai

Kia Ora Kimai,

I understand Norm Hill (cc'd in) has been in contact with you previously in regard to Gleeson Quarries/Managed Fill and their resource consent applications, and I am following up in order to check in regard to this consultation with Tamainupo. Norm has previously provided a CIA on behalf of Waahi Whaanui Trust, and we have adopted the recommendations of that CIA into the draft consent conditions.

It may be best (if you are available) for me to come down next week and meet with you to fill in the gaps. Norm is also arranging a final meeting with representatives of the Waahi Whaanui Trust, so it may work to meet on the same day, and Norm can attend also. I have attached a summary of the most urgent application for the quarry – this is within the Quarry Extraction Overlay Area in the WDP, and is to fill a gully with overburden (cleanfill from the quarry to expose the rock). I trust you will find it explains things well, but happy to discuss in person at a time that suits.

I look forward to hearing back. Nga mihi,

Kind Regards,
Kate Madsen
