Kia Ora Wikitoria,

Appreciate the phone call today. As discussed, I should be able to send through our assessment against the objectives and policies of the WTEP by this weekend for your consideration.

In addition, as discussed, I attach the decision we received from WRC in regard to disposal of overburden in Fill Area 5, adjacent to the Gleeson Quarry in Huntly.

The other applications we need to hui with Waikato-Tainui over are:

- Fill Area 3 – Cleanfill and Managed Fill Disposal Site north of the Huntly Quarry (compensation/mitigation/betterment provided)

- Huntly Quarry renewals of Regional Consents to operate the quarry (water take, discharge etc) – Norm is aware of these and discussions have been held as to his preparation of a CIA on behalf of Waahi Whaanui Trust) – this application is lodged with WRC and going through the assessment process (on hold right now).

- Application to excavate rock from the quarry pit floor – which triggers groundwater consent. This is a 'zero net take' application, as any groundwater is to be discharged to the Waikato River.

I will also include you in any correspondence related to the condition (see attached consent – Schedule One General Conditions) in regard to developing a Maatauranga Maaori Environmental Management Plan.

I look forward to catching up again soon.

Kind Regards,
Kate Madsen
Director – Paua Planning
