---

Hi Norm,

Thank you for always willing to assist and going the extra mile.
Yes, that would be great, we urgently need to get fill area 5 consultation closed out, a formal response from Iwi and a decision from Council otherwise the quarry would need to stop operations.

Please let me know what we can do to assist.

Kind regards,

Biance Schoeman

I will do my best. Been in council meetings al day. Just got home after training so I will need to do it first thing in morn.

I have always endeavored to help and get things over the line so I will get something to you just for fill area 5 tommorow.
Is that ok?

Kia Ora Norm,

Just wanted to check whether we are still on track to receive something tomorrow in order to potentially close out the consultation for FA 5 to submit to Council?

Please let me know if there is anything that I can assist with.

Kind regards,
Biance Schoeman

Kia Ora Norm,

Thank you for the quick confirmation.
Apologies for the typing error, I was hoping that the OOS might be ready by **Friday 29 January 2021** (February only has 28 days)
Even if this is only for FA5. Please let me know if there is anything that I can assist with to have the OOS as soon as possible.

Apologies for the confusion.

Kind regards,
Biance Schoeman

Teenaa koe Biance.

Yes, thanks, the notes capture our conversation this morning as reflected in the meeting discussion with Te Roopa Putaiao at Waahi Whaanui Trust yesterday.

I have added our CEO into the email for transparency purposes on progressing the relevant workstreams.

Yes, I will send through a OOS by Friday 29th, which needs to be circulated via TRP first.

Importance: High

Kia ora Norm,

Thank you for the feedback from yesterday's hui.

I am sorry to hear that only a few members attended as I know that you spend a lot of time preparing and scheduling these meetings.

My understanding of our discussion and the way forward is:

- You presented the Presentation we send through (email below) which included the quarry fill area 5, quarry regional renewals and quarry deepening application.
- No specific concerns or issues were raised by the members opposing the proposals.
- Questions were raised about the wetland drainage, written warning and Gleeson's response/mitigation.
- The next steps required as agreed to by the members are:
    - An offer of service will be drafted (by yourself) detailing the services and costs associated with the members and yourself representing WWT and attending Hui's.
    - The offer of service will be submitted to the Applicant for approval/agreement.
    - Once agreed, the offer of service will be provided to all members of the WWT in order to ensure internal alignment and collaboration to work together on proposals.
    - The agreed offer of service will allow (1) a formal closeout and response for FA5 and (2) the continuation of services such as drafting the CIA for the quarry deepening.

As discussed, although the three proposals (FA5, Regional renewals and quarry deepening) all relate to the quarry and the quarry operations, we do not want FA5 to be held up by the renewals and deepening should this still require more discussions with the members and drafting of the CIA. When drafting the offer of service, can you please consider this and should the best approach be to split the offer of services in order for FA5 to be closed out asap, that would be greatly appreciated. **All three proposals are however critical for the continuation of the quarry operations.**

Please confirm whether the key points outlined above is correct. Would we be able to receive the offer of service by **Friday 29 February**?
Time is running out for the quarry as there are only certain activities that can happen before winter.

Your assistance and support is appreciated.

Kind regards,
Biance Schoeman

Subject: Gleeson Quarries Hui with Waahi Whaanui Trust - 26 January 2021_ Draft Presentation

Ata mārie Norm,

Hope you are well.
Please find attached the draft presentation to be presented and discussed at the Hui next week (26 January 2021) for your review and comment.
We have focused the presentation on the quarry resource consents – Fill Area 5, the renewal consents and the proposed deepening of the quarry.

Please feel free to give us a call should you wish to discuss in more detail.
Your assistance is greatly appreciated.

Kind regards,
Biance Schoeman

Subject: FW: Gleeson Quarries Hui with Waahi Whaanui Trust - 17 December 2020

Kia ora Norm,

Ngā mihi o te tau hou.
May 2021 be a blessed and prosperous year for you and your family.

We are refreshed and excited to work on resolutions to resolve any outstanding matters in order to progress on the Gleeson resource consent applications.

Application	Status
Fill Area 5	Attached is the final draft of the minutes for the Hui held on 17 December 2020. Would it be possible to please confirm whether you endorse the attached and that the resource consent application for FA5 can move forward.
Managed Fill	Any updates yet on a possible Hui date to meet and discuss this application? We are anticipating feedback from the Council within the next two weeks about the wetland assessment.
Quarry Deepening	The application to deepen the quarry as briefly discussed at 17 December 2020 Hui, was lodged on 18 December 2020. If we could discuss this application at the next possible hui it would be greatly appreciated as the quarry needs this consent in order to access the material for the continuation of the quarry as soon as possible.

Regional consents	These consents are the replacement consents that allows the quarry to continue operating. At the moment we are addressing the s92 matters raised by the WRC. One of matters that we need to address is the CIA – can you please assist with the progress of the CIA.

We appreciate all your support and assistance with the application and facilitating the Hui's.

Please let me know if there is anything that we can assist with.

Kind regards,
Biance Schoeman

Kia ora Norm,

Thank you for all your efforts in scheduling the hui held last week.
Please find attached the draft notes for your review and attendees register.

I will be sending the presentation of the meeting to Wikitoria today. Are you happy for me to include the draft notes in her email as well?

Please let us know if you need any assistance organising the next hui to discuss the remaining resource consent application (regional renewals, quarry deepening and managed fill). Shawn is only available from the 5 -13th of January. The rest of us are flexible in January for meeting dates, depending on who you want to be present.

Have a great festive season with your family and Meri Kirihimete.

Nga mihi aroha,

Biance Schoeman

Kia ora taatou

Following numerous emails and attempts to consolidate all members (new and old) I am calling a meeting for **Te Roopu Putaiao for this Thursday 17 December at 1pm at Waahi Whaanui Trust.**

The key agenda items will be:

- Review of Te Roopu Putaiao Terms of Reference
- Presentation by Paua Planning for Gleeson and Cox Fill area 5 application
- General environmental update and planning for 2021

I have previously sent the Gleeson and Cox CIA for the managed fill, alongside other associated information.

Therefore please send in a representative of your marae if you as the primary rep cannot make the meeting.
