Good afternoon,

Through hard work, collaborative consultation and perseverance, Gleeson Quarries has finally been granted consent by the Waikato Regional Council for a new overburden disposal area associated with the quarry known as Fill Area 5.

Based on positive discussions and feedback, we are also anticipating a decision from the Waikato District Council during this week.

In accordance with the WRC Consent (APP141137) - Schedule one: Condition 2 & 4, we would like to invite you to avail yourself for a Pre-Construction site meeting on the 29th of March 2021 @ 12:00pm.

The Pre-Construction meeting will focus on and discuss the following items:

1. Commencement of works scheduled for 30 March 2021
2. ESC & Water monitoring
3. Ecological monitoring
4. Cultural Monitoring

Please let me know should you wish to discuss any other items in order to prepare accordingly.

We will communicate should any of the information listed above change.

Please refer to map image below for a location map of Fill Area 5.

Kind Regards,

Biance Schoeman
