

## Report for Onewhero-Tuakau Community Board meeting 4 June 2019

Lionel Petersen

- a. Remuneration and Child care – Don't support child car allowance because there is only one pot from which to pay Councillors and CB members. The allowance will come out and the salaries will come from what is left. Council will not vote for a bigger pot because salaries are fixed by the Remunerations Authority.
- b. Tuakau Town Toilet. This project need to get a boot to get the job done. Months and months are too long.
- c. Harrisville Road bridge – Again it is a WHEN question.
- d. Tuakau Library – we are going to get what we are given despite what we say.
- e. Have the recycling bins for Tuakau been recycled?
- f. How is the Lightbody Reserve design progressing?
- g. Bridges of the Waikato – Do we need to harp on about them or will they be closed one by one so that 'Over the River' can be declared as a Republic.
- h. Swimming pool charges – Is a donation from the CB Discretionary Fund a proper solution to the under usage of the pool? Does Council know about the kids swimming in the stream? Does Council have a responsibility to encourage the learning of save water skills and save swimming practices?
- i. Youth Centre build - How long does it take to get a small job done?
- j. Is the Liquor Bylaw review happening or has it been placed on the next 'bylaws' review?
- k. What's happening with the Port Waikato toilets – Any progress there?
- l. What's happened to the Onewhero School House project?
- m. Little Libraries – Watch out that the Tuakau Library extension/rebuild is deemed unnecessary?
- n. Will our ROADS survive the wet weather?
- o. Only THREE more meetings until the election. Who have you talked into seeking election?
