

OTCB Report

June 2019

S Jackson

Skate Park...

Funding notification 4th June Lotteries to be confirmed

Need to make decision on exact location providing we now have the money.. Potential to move closer to the Youth Centre.

Trails ...

Visited with Tamahere and Te Kowhai trails groups to help understand the processes and systems they have used to get the Trails in place

They tend to take an easement model rather than ownership as Council generally do want to own the land

Some great planting beneath the residential housing

History shared through Signage

Tuakau Toilets

Would like a formal update from Council as to installation date...Still no site plan and no Install date

Dr John Lightbody reserve

Duncan McDougal has not responded to email requests for update on when a meeting will happen with TCSS and user groups to help form a visual plan for the Reserve management plan document

This needs to have some urgency if we want to have the plan done prior to upgrading the Skatepark and Youth centre

Youth Centre Building

Met with Jae Parker Centre Co-ordinator and Councillor Church to discuss there desires for the facility ..Looking for more space both short and long term ...Could be done as two separate projects

Contacted two Draftsmen to get cost on providing drawings for a short term solution Tim Dobbs (Too much current workload) Karl Ngatai (Will come back to us with a outline of costs)
