Tena Koe,

I did say I would send through Scope again for your review and to give us a price for iwi liaison/CIA – so please see attached.

Also, just confirming you are still available to meet on site at Huntly on Friday 11<sup>th</sup> October, 10.30am ☺ thanks

Kind Regards,

Kate Madsen

Kia Ora Norm,

Just sent through meeting invite – hope everyone can make it!

I believe we are still waiting on a price from you for the CIA? I have attached the scope for your reference :)

Look forward to hearing from you

Kind Regards,

Kia ora

Once I get my new email address I will flick through to you.

Thanks for the heads up. I'm keen to complete the CIA asap, once you have an overview and approved the scope.

Tena koe, Norm.

Best of luck finishing up everything :) Thanks for letting us know – in terms of where we are at, Gleeson are keen to get applications lodged as soon as possible.

Fill Area 5 (which is the closest to the quarry entrance) is needed for overburden disposal, as the current overburden site is almost at capacity, so there is some urgency with that one to keep the quarry operational. This is to be a separate application to the managed fill proposal in Fill Areas 2-4, and will involve separate district and regional applications, which we are busy pulling together.

In terms of the managed fill applications, we are aiming to lodge end of October if possible, but want to get out and meet with adjoining neighbours to the north of the site in the next week or so. As we have informed Tine, Gleeson have asked for other quotes in regard to bat studies and mitigation options, so we are getting prices from Wildlands and T&T (who bought Kessell Ecology) for this work.

Emma Cowan at the regional council is arranging for pre-application peer reviews to be undertaken on geotechnical, ecology and erosion and sediment control reports, in order to provide feedback to Gleeson at an early stage, so these are being arranged this week.

That's about it for now – we may be down in Hamilton to view council files next week, so will stay in touch. Do you have a new email contact address?

Kind Regards,

Kate Madsen

Kia ora, I'm in my final week at Boffa, so have been busy with completing projects/reports.

I will endeavour to get the scope by end of week or mid next week.

OK?

Kia Ora Norm,

Hope you are well.

Thank you for availing yourself to meet with us on the 6<sup>th</sup> of August 2019 in order to discuss the Culture Impact Assessment for the proposed fill sites located at the Huntly Quarry (Riverview Road).

At the time of the meeting you were still awaiting a “formal” delegation from Waikato Tainui in order to conduct the Culture Assessment, has this since been received?

Below is a table with all of the expert reports. I did not want to flood you with unnecessary information, so I have only uploaded the reports in bold for now as I know these were the ones specifically referred to during our meeting.

Please let me know which other expert reports you would like me to upload.
