Kia ora Norman

Can you please tell me what is being done to stop these truckloads of Gleeson dumping their Auckland asbestos and rubbish in our backyard. How was this passed without notifying every tangata whenua of Rahuipokeka. Who was involved in the decisions made. Note these double trailer trucks dump from 9am to 3pm every day of the week. I also know our neighbours are not happy with the toxic asbestos.

And how is it justified that the big landfill where they are dumping asbestos into doesn't leak back into our Waikato awa and our lakes Puketerini. This is our drinking water and our resource to our people our town. TWOA Waka ama use Puketerini all swimmers use this lake. Have you Norman viewed that landfill and asked the hard questions concerning our water awa lakes. I find this very disturbing and sad that this has happened. How can this be stopped to ask all Rahuipokeka to comment is this good for our town. No its not Auckland rubbish dumped in our backyard.

Waiting on your reply.

Te Wairemana.

Ata marie ki a koutou katoa, and Hori thanks for the reminder from last week. The presentation is servers as a reminder of the last 3 months of lock-down due to COVID-19 but also informs those staff who were absent and have yet to return to work.

Over the last 3 days of last week, we began the administration process of setting up

our workplace. A lot of moves and changes have transpired over 3 months and since returning to the worksite some 'hic-ups' with technology has occurred. We are nearly 'fully' functioning although there are minor connections to our printers so that staff can print their case-notes from the last 3 months work!! Kia kaha whanau. You done good!!

Any queries regarding your 'tools of trade' please send an email or contact main office. I hope you have a great day.
