Kia Ora,

Thanks for that clarification. So would it be yourself that would complete the CIA or would you just be coordinating with Waahi Whaanui Trust – and is it only Waahi Whaanui Trust that we need input from?

Teena koe Kate.

Lorraine is the lead environmental advisor at Waikato Raupatu Lands Trust who essentially processes resource consents on behalf of Waikato Tainui.

She endorses local mana whenua engagement and leadership in responding to relevant resource consent applications accordingly.

Waahi Whaanui Trust is the mandated authority for our area of Raahui Pookeeka.

A Cultural Impact Assessment is a typical response to this matter.

Naaku nei

Hi Norm,

No, not as yet. I was hoping you might of!

Just wanting to be sure that we are approaching iwi consultation in an inclusive manner, and that we initiate contact as soon as possible. Gleeson are very keen to lodge applications for both overburden deposits (from the quarry) and importation of managed fill material as soon as possible – geotech investigations should be starting in the next week or so, and other experts are being engaged and instructed this week (E&SC, stormwater, contamination, visual landscape, ecology, archaeology, traffic and noise). This is getting underway much quicker than we anticipated, sorry. I am just waiting on the final working plan for the fill areas to send to you (and other experts).

Do you think I need to call Lorraine directly, or is this something you normally do (in terms of liaising with Waikato-Tainui)? Your advice appreciated :)

Nga mihi nui

Kate

**Subject:** Archaeologist

Kia Ora Norm,

Hope your week is going well – can't believe it is Thursday already.

In terms of an archaeologist to look at Huntly Quarry, was it CFG Heritage at all (Matthew Campbell)? And have you worked with Lorraine Dixon from Waikato Tainui? It has been suggested I speak with her.

We are very keen to initiate consultation as soon as possible, at least to have an initial introduction and be able to speak broadly in regard to future quarry development. Look forward to hearing from you :)

Kind Regards,  
Kate Madsen
