

APPENDIX 5 – EXISTING RESOURCE CONSENTS

WAIKATO REGIONAL CONSENTS – HISTORIC		
Consent No.	Description	Expiry date
861509	Discharge up to 895 litres per second of treated quarry and overburden runoff to the Waikato River	13 December 1999
900068	Discharge up to 160 litres per second of treated quarry runoff to an unnamed tributary of the Waikato River	13 December 1999
900069	Discharge up to 1486 litres per second of treated quarry runoff to an unnamed tributary of the Waikato River	13 December 1999
880119	Discharge up to 2140 cubic metres of treated quarry overburden runoff per day to an unnamed tributary of the Waioateatua Stream	13 December 1999
960987	Discharge up to 25 litres per second of treated stormwater from an overburden stripping area	30 September 2009
960988	Divert up to 240 litres per second of clean stormwater around an overburden disposal site	30 September 2009

WAIKATO REGIONAL CONSENTS - EXPIRING		
Consent No.	Description	Expiry date
103160	Water Permit: Surface water take Take up to 1200 cubic metres of water per day from the Waikato River for dust suppression and aggregate processing purposes.	14 July 2020
103161	Water Permit: Diversion Divert and discharge clean stormwater runoff from surrounding farmland and rehabilitated quarry workings into an unnamed tributary of the Waikato River.	14 July 2020
103162	Land use consent: Land Disturbance To carry out works in a high risk area during the extension of the current overburden disposal area and the maintenance of bunds that run alongside natural waterways that run through the quarry.	14 July 2020
103163	Discharge permit: Discharge to water Discharge settled stormwater and process water at various locations around the quarry.	14 July 2020
103164	Discharge permit: Discharge to land To place up to 700,000 m ³ of overburden onto the ground at the southern overburden disposal site, for metal extraction, purposes, where contaminants emanating from (stormwater runoff) may enter an unnamed tributary of the Waioateatua Stream.	14 July 2020
103165	Water permit: Groundwater take To take up to 20 cubic metres of water per day from an underground source, for pit de-watering purposes.	14 July 2020
103166	Discharge contaminants to air Discharge contaminants into the air.	14 July 2020

APPENDIX 5 – EXISTING RESOURCE CONSENTS

WAIKATO REGIONAL CONSENTS - CURRENT		
Consent No.	Description	Expiry date
120768	Land use consent: Land disturbance Undertake earthworks and vegetation clearance for quarrying purposes within a high risk erosion area.	30 June 2045
120769	Water Permit: Diversion Divert an ephemeral watercourse in association with quarrying activities.	30 June 2045
141137	To deposit approximately 182,600m ³ of overburden material from the existing quarry in a gully (referred to as Fill Area 5) on a site legally described as Lot 9, DP 1278 (small northern section of fill area) & Lot 10, DP 1278	31 March 2036
141137.01.01	Land use consent: Land disturbance To undertake earthworks in High Risk Erosion Areas in association with Overburden Fill Area 5 at 310 Riverview Road	31 March 2036
141137.02.01	Discharge Permit: Land- solid waste To discharge overburden to land at Fill Area 5	31 March 2036
141137.03.01	Water Permit: Diversion Divert surface water, divert and reclaim a stream that flows into the Waikato River in association with Overburden disposal at Fill Area 5 - Huntly Quarry	31 March 2036
141137.04.01	Water Permit: Other To discharge stormwater to land and to water in association with the operation of overburden Fill Area 5	31 March 2036

WAIKATO REGIONAL CONSENTS – IN PROGRESS		
Consent No.	Description	Lodged date
141755.01.01	Surface water take Take up to 1200 cubic metres of water per day from the Waikato River for dust suppression and aggregate processing purposes	9 April 2020
141755.02.01	Diversion Divert clean stormwater around quarry activities and to divert stormwater from within the site to stormwater treatment ponds	9 April 2020
141755.03.01	Land – disturbance Earthworks and vegetation clearance within high risk erosion areas associated with quarry operations.	9 April 2020
141755.04.01	Discharge Permit: Land – Stormwater Discharge settled stormwater & process water at various locations around the quarry	9 April 2020
141755.05.01	Discharge Permit: Land - Solid Waste Discharge overburden on to the ground	9 April 2020
141755.06.01	Land Use consent: Bed – structure	9 April 2020

APPENDIX 5 – EXISTING RESOURCE CONSENTS

	To authorise an existing water intake structure located within the Waikato River	
120768.01.02	Land Use consent: Land disturbance Undertake earthworks and vegetation clearance for quarrying purposes within a high risk erosion area	
142715.01.02	Surface water Take To divert groundwater and take surface water	
142715.01.04	Damming and Diversion Damming and Diversion of Storm Water in association with Earthworks to deepen the quarry floor at 300 Riverview Road, Huntly	

WAIKATO DISTRICT CONSENTS		
Consent No.	Description	Expiry date
69 00 14	To remove native vegetation and deposit overburden at a rate of approximately 150 000m ³ per year for a period up to 8 years ¹ .	n/a
LUC0035/11	To extend the boundaries of the quarry and establish an Overburden Disposal Area. Variations to the 2010 consent were subsequently granted in September 2014, March 2018, September 2018 and September 2019 ² . The expansion of the quarry extended the lifespan of the quarry for the next 30-50 years dependent upon the rate of extraction. Overall, the rate of extraction has increased from 900,000 tonnes per annum (average of 550,000 tonnes over a five-year period) to 1,800,000 tonnes per annum.	n/a
LUC0176/20	To remove overburden material from the existing quarry and deposit the overburden material in an identified gully referred to as Fill Area 5	

¹ WDC No. 69 000 14 5

² LUC0035/11.01; LUC0035/11.02; LUC0035/11.03, LUC0035/11.05
