

# Publicly Notified Resource Consent Application at 310 Riverview Road Huntly

Gleeson Managed Fill Limited has applied to Waikato District Council and Waikato Regional Council for a resource consent to establish and operate a managed fill activity - bundled application for district and regional council land use consents. The proposed activity seeks to import material to deposit within identified gullies (Fill Areas 2-4) located north of an existing quarry within the same site. Up to 300,000m<sup>3</sup> of fill is to be deposited per annum and combined the fill areas will have an estimated capacity of 2,009,200m<sup>3</sup>. The fill areas are proposed to accept overburden from the quarrying activities on the site; imported managed fill and cleanfill, including construction & demolition material which may include asbestos containing soil and material, peat, marine sediment, and acid sulphate soils.

Submissions close on Tuesday 16th August 2022.
