NZTE OPERATIONS LIMITED		823		OPPOSE	THE Proposed changes are severely impinging our rights to facilitate our development to its full potential whilst we have placed no restrictions on them. Its costly to move the runway to the south and bring noise control onto their property they are therefore using our properties to achieve their proposed requirements when their property is able to contain the noise boundaries. Collectively we own approximately 750m along the airfields northern boundary.	To be disallowed.

Use additional sheets if necessary.

SubMission 2<sup>nd</sup> round

We wish to be heard

We are eligible as have previous submitted in the first round of submission

We are directly next to the actual airstrip in Te Kowhai where the new owners are proposing to expand their operations to include Instrument Flight Rules (IFR) and all that accompanying changes that come with it should it go ahead.

Our Submission considerations last October were based on the report from the acoustic specialist Hegley that was in the original proposed plan of NZTE with consultation based and discussed on their report.

NZTE presented another proposal from Marshall Day acoustics which was dated 8/10/18 but not presented until mid January 2019, which have damning effect over our property.

They have entered this information by means of Submitting on their plans which is where we are opposing this submission.

We are especially concerned with the implications of this over our and neighbouring properties which would require building on land not owned by them to make us to have to apply for Resource consents to build and do not think we should have to. All for their business venture.

Please note: we tried to oppose the whole submission but there was not the capacity to do this.

We would like to be heard and we will represent the people on the form.
