

TKAZ – Te Kowhai Airpark zone

The relevant district-wide chapter provisions apply in addition to this chapter.

Purpose

The TKAZ – Te Kowhai Airpark zone provides for aircraft operations and includes provisions to facilitate the development of Te Kowhai Airpark.

Objectives

TKAZ-O1 Te Kowhai Airpark.

To use and develop Te Kowhai Airpark as a strategically significant, safe and economically- sustainable airpark that meets the current and future needs of the aviation community.

TKAZ-O2 Amenity outcomes.

The adverse effects of airpark activities are managed to ensure acceptable amenity outcomes.

TKAZ-O3 Aerodrome reverse sensitivity.

The operational needs of Te Kowhai Airpark are not compromised by noise-sensitive activities with the potential for reverse sensitivity conflict.

Policies

TKAZ-P1 Development.

- (1) Facilitate development of Te Kowhai Airpark by providing for a diversity of residential and commercial opportunities which leverage off existing aerodrome infrastructure.
- (2) Develop Te Kowhai Airpark in accordance with the Te Kowhai Airpark Framework Plan in APP10 – Te Kowhai Aerodrome.
- (3) Enable educational facilities where they have a functional need to locate within the Te Kowhai Airpark Zone while managing potential adverse effects of the activities on the environment.

TKAZ-P2 Servicing.

Development is to be adequately serviced with respect to essential services, water supply (including for firefighting purposes), wastewater treatment and disposal and stormwater treatment and disposal.

TKAZ-P3 Precinct-based development.

- (1) Provide a precinct based approach that enables the strategic development and management of Te Kowhai Airpark such that:
 - (a) PREC27 – Te Kowhai runway and operations precinct – provides for a runway, runway strip and associated aircraft operations;

- (b) PREC28 – Te Kowhai commercial precinct – provides for commercial activity which supports the airpark and the aviation sector;
- (c) PREC29 – Te Kowhai medium density residential precinct – provides for medium density residential activities;
- (d) PREC30 – Te Kowhai residential precinct – provides for low density residential development and a transitional higher density airside overlay; and
- (e) All precincts - have taxiway connectivity with the runway.

TKAZ-P4 Alignment of activities.

On-site activities must be consistent with the precinct functions and / or must be consistent with the use of the taxiway network, both as identified in the Te Kowhai Airpark Framework Plan.

TKAZ-P5 Commercial activity.

Provide for commercial activities that support Te Kowhai Airpark and the aviation sector, including hangars, workshops and refuelling facilities.

TKAZ-P6 Existing and future operations.

- (1) Te Kowhai Aerodrome's existing and future operational needs are safeguarded through mechanisms such as airspace protection (Obstacle Limitation Surface) and noise control boundaries.
- (2) Buildings, structures, trees and other vegetation do not create a potential hazard to the flight paths of aircraft or any other operations associated with Te Kowhai Aerodrome.
- (3) Noise-sensitive activities within the noise control boundaries must achieve appropriate internal noise levels taking into account adverse noise effects on human health and amenity values.

TKAZ-P7 Future connectivity with Te Kowhai Village.

Provide for future connectivity between Te Kowhai Airpark and Te Kowhai village in the Te Kowhai Airpark Framework Plan.

TKAZ-P8 Airpark standards.

- (1) Manage adverse airpark effects through the application of general and airpark-specific performance standards including:
 - (a) Noise;
 - (b) Hazardous substances;
 - (c) Building setbacks;
 - (d) Minimum site areas; and
 - (e) Subdivision allotment size; and.
 - (f) Hours of operation for aircraft operations.
- (2) Ensure that bulk and location standards provide for the unique operational requirements of an airpark whilst at the same time achieving appropriate levels of amenity.

- (3) Limit the establishment and / or operation of a flight training school except where effects on amenity are appropriately managed and it is compatible with surrounding land uses.
- (4) Limit circuit training from being undertaken unless the effects on amenity are appropriately managed and it is compatible with surrounding land uses.
- (5) Ensure adverse effects of educational facilities, including adverse effects on land transport networks, are minimised to maintain amenity and character in the Te Kowhai Airpark Zone and are in keeping with the primary use of the precincts.

TKAZ-P9 Aerodrome reverse sensitivity

- (1) Manage reverse sensitivity risk by:
 - (a) Ensuring that noise-sensitive activities within the Te Kowhai Airpark Noise Control Boundaries are acoustically insulated to appropriate standards; and
 - (b) Ensuring that Te Kowhai aerodrome operates within the noise limits specified by the Te Kowhai Airpark Noise Control Boundaries.
