## LFG – Liquid fuels and gas

The rules in the LFG – Liquid fuels and gas chapter only apply to facilities and structures operated by a network utility operator.

## Rules

LFG-RI	Below ground pipelines for the conveyar	nce of liquid fuels and gas
All zones	(I) Activity status: PER	(2) Activity status where
	Activity-specific standards:	compliance not achieved: DIS
	(a) Below ground pipelines for the	
	conveyance of liquid fuels and	
	gas that comply with all of the following:	
	<ul> <li>(i) Any aboveground sections of pipeline must comply with the following:</li> </ul>	
	<ol> <li>Not exceed 25m in length, and</li> </ol>	
	(2) Not exceed 300mm in diameter.	0
	(ii) Gas pipelines must not exceed a gauge pressure of 2,000 kilopascals; and	
	(iii) Is not located within an Identified Area.	
LFG-R2	Below ground pipelines located within an	n Identified Area
All zones	(I) Activity status: PER	(2) Activity status where
	Activity-specific standards:	compliance not achieved: DIS
	<ul> <li>(a) Below ground pipelines for the conveyance of liquid fuels and gas, located within an Identified Area that comply with the following:</li> </ul>	
	(i) There are no aboveground sections of pipeline within the Identified Area; and	
	(ii) Gas pipelines must not exceed a gauge pressure of 2,000 kilopascals.	
LFG-R3	Storage facilities and pump stations for liquid fuels and gas	
All zones	(I) Activity status: PER	(2) Activity status where
	Activity-specific standards:	compliance not achieved: DIS
	(a) Storage facilities and pump stations for liquid fuels and gas that comply with all of the following:	
	(i) Is not located within an Identified Area; and	

## Part 2: District-wide matters / Energy, infrastructure and transport / LFG - Liquid fuels and gas

(ii) Is not located on a road, or	
unformed road.
