# MRZ – Medium density residential zone [000078, 000058, 000084, 000059] {000044}

The relevant district-wide chapter provisions apply in addition to this chapter.

# **Purpose**

The purpose of the MRZ – Medium density residential zone is to enable more efficient use of residentially zoned land and infrastructure by providing for a higher intensity of residential development than typically found in the GRZ – General residential zone. The MRZ – Medium density residential zone provides for this form of development within a walkable catchment of town centres, strategic transport corridors and community facilities. The zone will:

- Provide greater housing supply to respond to anticipated growth;
- Reduce pressure for residential development on the urban fringe and beyond;
- Relieve anticipated pressures on the road transport network (which are exacerbated by adopting sprawl to accommodate urban growth). This will be achieved by providing housing close to town and business centres where the use of both public and active modes of transport to access places of employment, retail and entertainment is readily achievable and/or viable;
- Provide greater diversity / choice of housing; and
- Coordinate delivery of infrastructure and services.

The zone provisions enable a variety of dwelling sizes and typologies to be delivered which provides opportunity for greater housing variety and choice. Development within the zone is guided by rules which encourage innovation and flexibility in design responses. The rules provide design guidance for up to 3 dwellings on site, allowing compliant smaller scale developments to be enabled in a manner that maximises opportunities on smaller existing sites. Developments of more than 3 dwellings are subject to a more intensive design assessment process with matters of discretion which provide the primary guidance for assessment, including the intensity of development and enabling appropriate design outcomes regarding:

- The contribution the development makes to the zone having regard to the planned urban form and intensity the zone provides for;
- The creation of safe and high-quality residential neighbourhoods;
- The on-site amenity for residents such as high-quality outdoor spaces;
- The amenity effects on adjoining sites such as privacy and shading; and
- The provision of three waters infrastructure to service the development.

## Objectives

### MRZ-OI V Housing typology. [000058, 000078, 000084, 000059] {000044}

Achieve greater housing choice for the community in response to changing demographics and housing needs.

## MRZ-O2 Efficient use of land and infrastructure. [000058, 000078, 000084, 000059] {000044}

Land and infrastructure near the TCZ – Town Centre Zone, LCZ – Local centre zone and COMZ – Commercial zone and close to public transport networks, strategic transport corridors and community facilities is efficiently used for medium density residential living, resulting in a compact urban settlement pattern.

#### MRZ-O3 Residential amenity. [000058, 000078, 000084, 000059] {000044}

Achieve a level of residential amenity commensurate with a medium density environment comprised of primarily townhouse and low-rise apartments.

#### MRZ-O4 Activities. [000058, 000078, 000084, 000059] {000044}

An appropriate mix of complementary and compatible activities is enabled to support residential growth.

#### Policies

MRZ-PI Housing typology and type. [000058, 000078, 000084, 000059] {000044}

Enable a variety of housing typologies including apartments, terrace housing and duplexes.

- MRZ-P2 Efficient use of land and infrastructure. [000058, 000078, 000084, 000059] {000044}
- (1) Enable land to be used for higher intensity residential living where such land is:
  - (a) Adjacent to the TCZ Town centre zone, LCZ Local centre zone, COMZ Commercial zone and within a walkable catchment of transport networks; or
  - (b) Integrated into master-planned growth areas in close proximity to neighbourhood centres or publicly accessible open space.
- (2) Recognise the social, economic and environmental benefits arising from higher density development being situated closer to community facilities and the TCZ Town centre zone, LCZ Local centre zone and COMZ Commercial zone when considering development proposals.
- (3) Recognise the economic and environmental benefits of higher density development that efficiently utilises existing, and planned, investment in both transport and three waters infrastructure.

#### MRZ-P3 Building form, massing and coverage. [000058, 000078, 000084, 000059] {000044}

- (1) Enable residential development that:
  - (a) Is of a height and bulk that manages daylight access and a reasonable standard of privacy for residents; and
  - (b) Manages visual dominance effects on adjoining sites.
- MRZ-P4 Streetscape, yards and outdoor living spaces. [000058, 000078, 000084, 000059] {000044}
- (1) Enable residential development that contributes to attractive and safe streets and public open spaces by:
  - (a) Providing for passive surveillance to public open spaces and streets through the siting of dwellings and rooms, façade design and fencing / landscaping;
  - (b) Incorporating front yard landscaping that will enhance streetscape amenity; and

- (c) Minimising the prevalence of garage doors, carparking and driveways fronting the street.
- (2) Require development to have sufficient side yard setbacks to provide for:
  - (a) Landscaping and permeable surfaces;
  - (b) Privacy to adjoining sites;
  - (c) Sunlight and daylight; and
  - (d) Driveways and accessways.
- (3) Require the provision of outdoor living spaces that:
  - (a) Are attractive, functional and accessible; and
  - (b) Provide a reasonable standard of privacy for residents and to adjoining sites.
- (4) Enable flexibility and innovation in the provision of outdoor living spaces by recognising the varying means by which suitable spaces can be provided for a particular form of development; including shared outdoor spaces, roof terraces or other communal outdoor living spaces.
- MRZ-P5 Changes to amenity values. [000058, 000078, 000084, 000059] {000044}

Recognise that the planned urban built form may result in changes to the amenity values and characteristics of the urban character over time.

#### MRZ-P6 Home businesses. [000058, 000078, 000084, 000059] {000044}

- (1) Provide for home businesses to allow flexibility for people to work from their homes.
- (2) Manage adverse effects on residential amenity through limiting home occupations to a scale that is compatible with the primary residential purpose of the zone.

#### MRZ-P7 Non-residential activities. [000058, 000078, 000084, 000059] {000044}

- (1) Maintain the zone primarily for residential activities while also:
  - (a) Ensuring community facilities:
    - (i) Are suitably located;
    - (ii) Are of a limited scale and intensity that is compatible with the zone;
    - (iii) Contribute to the amenity of the neighbourhood; and
    - (iv) Support the social and economic well-being of the residential community.
  - (b) Avoiding the establishment of new non-residential activities (except home occupations) on rear sites, or sites located on cul-de-sacs; and
  - (c) Ensuring that the design and scale of non-residential activities and associated buildings mitigates adverse effects related to traffic generation, access, noise, vibration, outdoor storage of materials and light spill.
- (2) Enabling existing non-residential activities to continue and support their redevelopment and expansion, provided they do not have a significant adverse effect on character and amenity.

# Rules

Land use – activities

In addition to the activity-specific standards listed below, permitted activities must also comply with all relevant Land-use building standards in this chapter, as well as the standards in Part 2 / District-wide matters / General district-wide matters.
