

MTZ – Matangi zone

The relevant district-wide chapter provisions apply in addition to this chapter.

Purpose

The MTZ – Matangi zone is a mixed-use zone within Matangi village, covering the site of the former Matangi dairy factory, which includes listed heritage items. The intent of the zone is to enable the site to develop as a commercial hub whilst providing for community activities and some residential development. Issues include heritage conservation, maintenance of residential amenity within and outside the zone, and limitations on the onsite disposal of wastewater and stormwater. There is no public reticulated three waters infrastructure currently available at Matangi. Matangi is not identified as a primary commercial or industrial centre in the district plan or strategic documents. Commercial and industrial development at any significant scale at Matangi could weaken the viability of primary centres elsewhere.

Objectives

- MTZ-O1 Mixed use environment.
Development that provides for commercial, residential, business and light industrial activities.
- MTZ-O2 Commercial and office activities.
New commercial and office activities primarily operate from within the commercial precinct.
- MTZ-O3 Commercial and industrial centres.
Development does not undermine the primacy, function and vitality of regional, district or local commercial or industrial centres.
- MTZ-O4 Adverse effects of land use and development.
The health and well-being of people and the environment are protected from the adverse effects of land use and development.
- MTZ-O5 Residential amenity.
Industrial and commercial activities have minimal adverse effects on residential amenity within and outside the zone.
- MTZ-O6 Development scale.
Development is of an appropriate scale to manage its adverse effects.
- MTZ-O7 Urban form.
Development achieves a flexible and high-quality urban form.
- MTZ-O8 Wastewater and stormwater disposal areas.
Adequate open space is reserved within the zone for onsite wastewater and stormwater disposal.

Policies

MTZ-P1 Range of activities.

- (1) Enable mixed uses, a diverse range of activities, services and trading formats that provide employment opportunities;
- (2) Maintain and enhance residential amenity by managing non-residential activities which generate high levels of noise, motor vehicle traffic and activities operating outside normal business hours;
- (3) Discourage activities, which have noxious, offensive, or undesirable qualities;
- (4) Promote the zone as a focal point for local community activities and events through built form, size, scale, and diversity of activity in a manner that serves the local community; and
- (5) Maintain heritage through the repurposing and reusing of existing buildings where possible.

MTZ-P2 Provide for a mixture of commercial activities.

- (1) Commercial activity in the identified commercial precinct provides for small scale convenience retail and community activities;
- (2) Detached residential units are discouraged from establishing in the Commercial Precinct; and
- (3) Maintain the commercial viability within the commercial precinct while:
 - (a) Providing for mixed use developments ensuring that residential activities are located above ground floor; and
 - (b) Avoiding residential activity located at ground level.

MTZ-P3 Range of commercial activities.

- (1) Provide for a range of commercial activities that meet the needs of the local community;
- (2) Ensure commercial development and activity is at a scale that will not compromise the function, role and amenity of commercial and centre zones; and
- (3) Commercial activities enhance vitality and amenity while providing for a range of commercial and community activities and facilities at a scale for the local community.

MTZ-P4 Light industry activities.

- (1) Enable development of light industrial activities;
- (2) Development of industrial activities is at a scale that will not compromise the function or role of industrial zones;
- (3) Manage new building scale and design to limit shading and building dominance on neighbouring residential and rural zones; and
- (4) Manage adverse effects of light industry to minimise the effects on amenity in other zones, particularly the GRZ – General residential zone, GRUZ – General rural zone and public interface on Tauwhare Road.

- MTZ-P5 High quality urban form.
- (1) Ensure development enhances the Tauwhare Road frontage;
 - (2) Require buildings with street frontages to promote street activation, provide building continuity along the frontage, pedestrian amenity and safety and visual quality;
 - (3) Utilise urban design and Crime Prevention through Environmental Design (CPTED) principles in the design of development;
 - (4) Development addresses, responds and is sympathetic to the heritage values of the site;
 - (5) On-site parking is to be located and designed in such a manner as to avoid or mitigate adverse effects on pedestrian amenity and the streetscape; and
 - (6) Landscaping is used for buffering and boundary softening.
- MTZ-P6 Managing development scale.
- (1) Development is of a scale and size that will minimise the potential adverse effects on surrounding residential, rural, roading and public infrastructure;
 - (2) The scale and form of new development is to:
 - (a) Provide for a safe, accessible and attractive environment;
 - (b) Facilitate the integration of retail shopping, administration and commercial services, residential, community activities and light industrial activities;
 - (c) Maintain small scale focussed retail activities appropriate for the Matangi community;
 - (d) Manage adverse effects on the surrounding environment, particularly at the interface with residential areas; and
 - (e) Ensure wastewater and stormwater can be disposed of within the zone, by provision of appropriate onsite disposal systems and open space.
 - (3) Maintain amenity of adjoining GRZ – General residential and GRUZ – General rural zoned properties by:
 - (a) Requiring buildings to be setback from boundaries; and
 - (b) Ensuring buildings adjacent to boundaries adjoining GRZ – General residential and GRUZ – General rural zoned land will be of a form and scale that will enable the effects of activities in the building to be managed.
- MTZ-P7 Managing adverse effects.
- (1) Minimise the adverse effects of land use and development on internal and external residential and rural amenity by:
 - (a) Ensuring that the noise levels are compatible with the surrounding residential environment;
 - (b) Limiting the timing and duration of noise-generating activities, including construction and demolition activities;
 - (c) Maintaining appropriate setback distances between high noise environments and sensitive land uses;

- (d) Managing the location of sensitive land uses, particularly in relation to lawfully established noise generating activities;
- (e) Requiring acoustic insulation where sensitive activities are located within high noise environments;
- (f) Managing the adverse effects of glare and lighting to adjacent sites;
- (g) Managing the location, colour, content, and appearance of signs directed at traffic to ensure signs do not distract, confuse or obstruct road users;
- (h) Discouraging signs with adverse effects from illumination, light spill, flashing or reflection;
- (i) Providing for signage that is compatible with the character and sensitivity of the surrounding environment;
- (j) Managing adverse visual effects of outdoor storage through screening or landscaping;
- (k) Ensuring that development does not compromise the safety and efficiency of the local road and rail networks; and
- (l) Ensuring that wastewater and stormwater from each land use or development is managed through adequate disposal systems.

Rules

Advice note:

Additional consent may be required for subdivision and change of use where contaminated soil is reasonably likely to harm human health, under the Resource Management (National Environmental Standard for Assessing and Managing Contaminants in Soil to Protect Human Health) Regulations 2011.

Land use – activities

In addition to the activity-specific standards listed below, permitted activities must also comply with all relevant Land-use effects standards and Land-use building standards in this chapter, as well as the standards in Part 2 / District-wide matters / General district-wide matters.

| | |
|--|--|
| MTZ-R1 | Community facility |
| (1) Activity status: PER Activity-specific standards: Nil. | (2) Activity status where compliance not achieved: n/a |
| MTZ-R2 | Light industry |
| (1) Activity status: PER Activity-specific standards: (a) The activity is not located in the PREC19 – Matangi commercial precinct; and (b) Ancillary retail associated with Light Industry is limited to the greater of 150m ² per tenancy or 20% of the total gross floor area per tenancy. | (2) Activity status where compliance not achieved: RDIS Council’s discretion is restricted to the following matters: (a) Adverse effects of non-compliance with activity-specific standards; (b) Positive effects on the community or the natural environment; (c) The extent to which the activity is able to avoid, remedy or mitigate adverse |
