SUPPLEMENTARY EVIDENCE

- 1 I am providing this supplementary evidence to address an error in the historic aircraft movements first incorporated into the Section 32 report for the Airpark Zone,¹ and subsequently reproduced in Mr Darran Humpheson's evidence.
- 2 At paragraph [35] of his evidence Mr Humpheson refers to the peak in movements of "*over 30,000 movements in 2008*". Based on the historic movement data held by NZTE I confirm that this figure is incorrect. The correct number of movements in 2008 was 14,537.
- 3 The graph Mr Humpheson reproduces at paragraph [35] of his evidence is a graph from Appendix 13 of the Section 32 report. This graph was included in error by the planner preparing the Section 32 report. I am unsure as to the source of the historic movements used in this graph. However, I can confirm that the historic peak number of movements was the 14,537 movements recorded in 2008.
