

Appendix 3. Recommended text changes – MDRZ

The MDRZ is a new zone that did not form part of the Proposed Plan as notified. As such all of the proposed MDRZ provisions are new text. New recommended text is typically shown in s42a reports as red underline or strikethrough. In this case, because the MDRZ provisions have been developed by Kainga Ora as a submitter, showing all new text as red underline with my further amendments is considered to be unnecessarily confusing. The below recommended text uses the wording put forward by Kainga Ora as the base. This base is shown as plain text. My amendments recommended in this report are shown as red underline.

The exception to this is several discrete amendments put forward by Kainga Ora seeking changes to existing Chapter 4 policies¹. These changes are shown as blue underline to enable them to be readily identified as changes sought by the submitter (and which I support). They are shown simply so the Panel has the benefit of having all changes relevant to this topic consolidated in the same place.

Chapter 4 Urban Environment

4.1.7 Objective – Character of towns

(a) Development in the General Residential, Village, Medium Density Residential, Industrial and Business zones is attractive, connected and reflects ~~the existing character of towns-an appropriate urban form outcome for each zone.~~

4.1.5 Policy – Density

(a) Encourage higher density housing and retirement villages to be located near to and support commercial centres, community facilities, public transport and open space.

(b) Achieve a minimum density of 12-15 households per hectare in the Residential Zone.

(c) Achieve a minimum density of 8-10 households per hectare in the Village Zone where public reticulated services can be provided.

(d) Achieve a minimum density of 30 households per hectare in the Medium Density Residential Zone where public reticulated services can be provided.

New Zone Statement, Objectives and Policies for Medium Density Residential Zone to be included in Chapter 4 of the Proposed WDP

Zone Statement - Medium Density Residential

The purpose of the Medium Density Residential zone is to enable the more efficient use of residentially zoned land and infrastructure by providing for a higher intensity of residential development than typically found in the General Residential Zone. The zone provides for this development within a walkable catchment of town centres, strategic transport corridors and

¹ Supplementary planning evidence of Mr Philip Stickney, 19th February 2021

community facilities, or as part of large master-planned growth areas². The MDRZ is The MDRZ zone will:

- Provide greater housing supply to respond to anticipated growth;
- Reduce pressure for residential development on the urban fringe and beyond;
- Relieve anticipated pressures (exacerbated by adopting sprawl to accommodate urban growth) on the road transport network by providing housing close to town / business centres where utilising both public and active modes of transport to access places of employment, retail and entertainment is readily achievable / viable);
- Provide greater diversity / choice of housing; and
- Coordinates delivery of infrastructure and services.

The zone provisions enable a variety of dwelling sizes and typologies to be delivered which provides opportunity for greater housing variety and choice. Development in the zone is guided by rules which encourage innovation and flexibility in design responses. The Matters of Discretion for development enable appropriate design outcomes regarding:

- The contribution the development makes to the zone having regard to the planned urban form and intensity the zone provides for;
- The creation of safe and high-quality residential neighbourhoods;
- The on-site amenity for residents such as high-quality outdoor spaces;
- The amenity effects on adjoining sites such as privacy and shading; and
- The provision of three waters infrastructure to service the development.

4.2A Medium Density Residential Zone

4.2A.1 Objective – Housing Typology

- a) Achieve greater housing choice for the community in response to changing demographics and housing needs.

4.2A.2 Policy – Housing Typology and Type

- a) Enable a variety of housing typologies in the Medium Density Residential Zone including apartments, terrace housing and duplexes.

4.2A.3 Objective – Efficient Use of Land and Infrastructure

- a) Land and infrastructure near the Business Town Centre Zone, Business Zone and close to public transport networks, strategic transport corridors and community facilities is

² Consequential amendment to the relief sought by Pokeno West Ltd [97]

efficiently used for medium density residential living resulting in a compact urban settlement pattern.

4.2A.4 Policy - Efficient Use of Land and Infrastructure

- a) Enable land adjacent to the Business and Business Town Centre Zones and within a walkable catchment of transport networks, or where integrated into master-planned growth areas in close proximity to neighbourhood centres or publicly accessible open space³, to be used for higher intensity residential living.
- b) Recognise the social, economic and environmental benefits arising from higher density development being situated closer to community facilities and the Business and Business Town Centre Zones when considering development proposals.
- c) Recognise the economic and environmental benefits of higher density development that efficiently utilises existing and planned investment in transport and three waters infrastructure.

~~4.2A.5 Policy – Bankart Street and Wainui Street~~

- ~~a) Provide for the ongoing change in the mixture of residential and commercial activities bordering identified commercial areas at Raglan.⁴~~

4.2A.6 Objective – Residential Amenity

- a) Achieve a level of residential amenity commensurate with a medium density environment – comprising primarily townhouses and low-rise apartments.

4.2A.7 Policy – Building Form, Massing and Coverage

- a) Enable residential development within the Zone that:
 - (i) Is of a height and bulk that manages daylight access and a reasonable standard of privacy for residents; and
 - (ii) Manages visual dominance effects on adjoining sites.

4.2A.8 Policy – Streetscape, Yards and Outdoor Living Courts

- a) Enable residential development that contributes to attractive and safe streets and public open spaces by:
 - (i) providing for passive surveillance to public open spaces and streets through siting of dwellings and rooms, façade design and fencing/landscaping.
 - (ii) Incorporating front yard landscaping that will enhance streetscape amenity;
 - (iii) Minimising the prevalence of garage doors, carparking and driveways fronting the street.

³ Consequential amendment to the relief sought by Pokeno West Ltd [97]

⁴ Amendment recommended by Ms Birmingham in her s42a report on Raglan. Ms Birmingham has recommended that the MDRZ does not cover the Bankart/ Wainui Street area and therefore this policy is not needed.

- b) Require development to have sufficient side yard setbacks to provide for:
 - (i) Landscaping and permeable surfaces;
 - (ii) Privacy;
 - (iii) Sunlight and daylight;
 - (iv) Useable and accessible outdoor living space; and
 - (v) Driveways and accessways.
- c) Require the provision of Outdoor Living Spaces that are attractive and functional whilst enabling flexibility and innovation in the provision of such spaces by recognising the varying means by which suitable outdoor spaces can be provided for a particular form of development including shared outdoor spaces, roof terraces or other communal outdoor living spaces.

4.2A.9 Policy – Changes to Amenity Values

- a) Recognise that the planned urban built form may result in changes to the amenity values and characteristics of the urban character over time.

4.2A.10 Objective – Activities

- a) An appropriate mix of complementary and compatible activities is enabled to support residential growth.

4.2A.11 Policy – Home Occupations

- a) Provide for home occupations to allow flexibility for people to work from their homes.
- b) Manage adverse effects on residential amenity through limiting home occupations to a scale that is compatible with the primary residential purpose of the zone.

4.2A.12 Policy – Non-Residential Activities

- a) Maintain the Medium Density Residential Zone primarily for residential activities while also:
 - (i) Ensuring community facilities within the Zone:
 - A. are suitably located;
 - B. are of a limited scale and intensity that is compatible with the Medium Density Residential Zone;
 - C. contribute to the amenity of the neighbourhood; and
 - D. support the social and economic well-being of the residential community.
 - (ii) Avoiding the establishment of new non-residential activities (except home occupations) on rear sites, or sites located on cul-de-sacs; and

- (iii) Ensuring that the design and scale of non-residential activities and associated buildings mitigates adverse effects related to traffic generation, access, noise, vibration, outdoor storage of materials and light spill.
- b) Enabling existing non-residential activities to continue and support their redevelopment and expansion provided they do not have a significant adverse effect on the character and amenity of the Medium Density Residential Zone.

4.2A.13 Policy - Temporary Events

- a) Enable temporary events and associated temporary structures, provided any adverse effects on the residential environment are managed by:
 - (i) Limits on the timing, number and duration of events; and
 - (ii) Meeting the permitted noise limits for the zone.

4.2A.14 Objective – Earthworks

- a) Earthworks facilitate subdivision, use and development while avoiding, mitigating or remedying potential adverse effects .

4.2A.15 Policy - Earthworks

- a) Manage the effects of earthworks to ensure that:
 - (i) Erosion and sediment loss is avoided or mitigated;
 - (ii) Changes to natural water flows and established drainage paths are mitigated;
 - (iii) Adjoining properties and public services are protected;
 - (iv) The importation of cleanfill is avoided in the Medium Density Residential Zone.
- b) Earthworks are designed and undertaken in a manner that ensures the stability and safety of surrounding land, buildings and structures.
- c) Manage the amount of land being disturbed at any one time to avoid, remedy or mitigate adverse construction noise, vibration, dust, lighting and traffic effects.
- d) Manage the geotechnical risks to ensure the ground remains sound, safe and stable for the intended land use.

Chapter 16A:

Medium Density Residential Zone

Chapter 16A: Medium Density Residential Zone

- 1) The rules that apply to activities in the Medium Density Residential Zone are contained in Rule 16A.1 Land Use – Activities, Rule 16A.2 Land Use – Effects and Rule 16A.3 Land Use – Building.
- 2) The rules that apply to subdivision in the Medium Density Residential Zone are contained in Rule 16A.4.
- 3) The activity status tables and standards in the following chapters also apply to activities in the Medium Density Residential Zone:
 - 14 Infrastructure and Energy;
 - 15 Natural Hazards and Climate Change (Placeholder).
- 4) The following symbols are used in the tables:
 - a) P Permitted activity
 - b) C Controlled activity
 - c) RD Restricted discretionary activity
 - d) D Discretionary activity
 - e) NC Non-complying activity
 - f) PR Prohibited activity

16A.1 Land Use - Activities

16A.1.1 Prohibited Activities

- 1) The following activity is a prohibited activity. No application for resource consent for a prohibited activity can be made and a resource consent must not be granted.

PR1	Any building, structure, objects or vegetation that obscure the sight line of the Raglan navigation beacons for vessels entering Whaingaroa (Raglan Harbour) (refer to Appendix 7).

16A.1.3 Restricted Discretionary Activities

- (1) The activities listed below are restricted discretionary activities.
- (2) Discretion to grant or decline consent and impose conditions is restricted to the matters of discretion set out in the following table.

RD1	Any permitted activity that does not comply with the Activity Specific Conditions.	Council's discretion shall be restricted to any of the following matters: (a) Consideration of the effects of the standard not met. (b) Measures to avoid, remedy or mitigate adverse effects. (c) Cumulative effects.

16A.1.4 Discretionary Activities

- (1) The activities listed below are discretionary activities.

D1	Commercial activity that does not comply with one or more the Activity Specific Conditions
D2	Any activity that is not listed as Prohibited, Permitted or Restricted Discretionary.

16A.2 Land Use – Effects

16A.2.1 Noise

- (1) Rules 16A.2.1.1 and 16A.2.1.2 provide the permitted noise levels generated by land use activities.
- (2) Rule 16A.2.1.1 Noise – general provides permitted noise levels in the Medium Density Residential Zone.
- (3) Rule 16A.2.1.2 Noise – Construction provides the noise levels for construction activities

16A.2.1.1 Noise – General

P1	Noise generated by emergency generators and emergency sirens.
P2	a) Noise measured within any other site in the Medium Density Residential Zone must not exceed: (i) 50dB L _{Aeq(15min)} , 7am to 7pm, every day;

16A.2.4 Earthworks

- (1) Rule 16A.2.4.1 – General, provides the permitted rules for earthworks activities for the Medium Density Residential Zone.
- (2) There are specific standards for earthworks within rules:
 - (a) Rule 16A.2.4.3 – Significant Natural Areas.

16A.2.4.1 Earthworks – General

P1	<p>a) Earthworks (excluding the importation of fill material) within a site must meet all of the following conditions:</p> <ul style="list-style-type: none"> (i) Be located more than 1.5 m horizontally from any waterway, open drain or overland flow path; (ii) Not exceed a volume of 1000m³; (iii) Not exceed an area of 1ha over any consecutive 12 month period; (iv) The total depth of any excavation or filling does not exceed 1.5m above or below ground level; (v) The slope of the resulting cut, filled areas or fill batter face in stable ground, does not exceed a maximum of 1:2 (1 vertical to 2 horizontal); (vi) Earthworks must not result in any instability of land or structures at or beyond the boundary of the site where the land disturbance occurs; (vii) Areas exposed by earthworks are revegetated to achieve 80% ground cover within 6 months of the commencement of the earthworks; (viii) Sediment resulting from the earthworks is retained on the site through implementation and maintenance of erosion and sediment controls; (ix) Do not divert or change the nature of natural water flows, water bodies or established drainage paths.
P2	<p>Earthworks for the purpose of creating a building platform for residential purposes within a site, including the use of imported cleanfill material imported fill material must meet the following condition:</p> <p>(a) Be carried out in accordance with NZS 4431:1989 Code of Practice for Earth Fill for Residential Development.</p>
P3	<p>a) Earthworks for purposes other than creating a building platform for residential purposes within a site, using imported fill material must meet all of the following conditions:</p> <ul style="list-style-type: none"> (i) Not exceed a total volume of 50m³;

	<ul style="list-style-type: none"> (ii) Not exceed a depth of 1.5m; (iii) The slope of the resulting filled area in stable ground must not exceed a maximum slope of 1:2 (1 vertical to 2 horizontal); (iv) Earthworks must not result in any instability of land or structures at or beyond the boundary of the site where the land disturbance occurs; (v) Areas exposed by filling are revegetated to achieve 80% ground cover within 6 months of the commencement of the earthworks; (vi) Sediment resulting from the filling is retained on the site through implementation and maintenance of erosion and sediment controls; (vii) Do not divert or change the nature of natural water flows, water bodies or established drainage paths
RD1	<p>a) Earthworks that do not comply with Rule 16A.2.4.1 P1, P2 or P3.</p> <ul style="list-style-type: none"> (i) The Council's discretion shall be restricted to any of the following matters: (ii) Amenity values and landscape effects; (iii) Volume, extent and depth of earthworks; (iv) Nature of fill material; (v) Contamination of fill material; (vi) Location of the earthworks in relation to waterways, significant indigenous vegetation and habitat; (vii) Compaction of the fill material; (viii) Volume and depth of fill material; (ix) Geotechnical stability; (x) Flood risk, including natural water flows and established drainage paths; and (xi) Land instability, erosion and sedimentation.
NC1	Earthworks involving the importation of controlled fill material to a site.

16A.2.4.3 Earthworks - Significant Natural Areas

P1	<p>a) Earthworks for the maintenance of existing tracks, fences or drains within an identified Significant Natural Area and must meet all of the following conditions:</p> <ul style="list-style-type: none"> (i) Maximum volume of 50m³ in a single consecutive 12 month period; (ii) Maximum area of 250m² in a single consecutive 12 month period; and (iii) Not include importing any fill material.
RD1	<p>a) Earthworks that do not comply with Rule 16A.2.4.3 P1.</p> <p>b) Council's discretion shall be restricted to the following matters:</p>

	<ul style="list-style-type: none"> (i) The location of earthworks in relation to waterways, significant indigenous vegetation or habitat; (ii) The protection of adverse effects on the Significant Natural Area values.
D1	Earthworks within an identified Significant Natural Area not provided for in Rule 16A.2.4.3 P1 or RD1.

16A.2.5 Hazardous Substances

P1	<ul style="list-style-type: none"> a) The use, storage or disposal of any hazardous substance where: <ul style="list-style-type: none"> (i) The aggregate quantity of any hazardous substance of any hazard classification on a site is less than the quantity specified in the Medium Density Residential Zone in Table 5.1 contained within Appendix 5 (Hazardous Substances).
P2	<ul style="list-style-type: none"> a) The storage or use of radioactive materials is: <ul style="list-style-type: none"> (i) an approved equipment for medical and diagnostic purposes; or (ii) specified as an exempt activity or article in the Radiation Safety Act and Regulations 2017.
D1	The use, storage or disposal of any hazardous substances that does not comply with Rule 16A.2.5 P1 or P2.

16A.2.6 Notable Trees

- (1) Rules 16A.2.6.1 to 16A.2.6.4 provide permitted rules for works on notable trees, which are identified in Schedule 30.2 (Notable Trees) as follows:
- (2) Rule 16A.2.6.1 - Removal or destruction;
- (3) Rule 16A.2.6.2 – Trimming;
- (4) Rule 16A.2.6.3 - Activities within the dripline

16A.2.6.1 Notable Trees – Removal or Destruction

P1	Removal or destruction of a notable tree identified in Schedule 30.2 (Notable Trees) where certification is provided to Council from a works arborist that states that the tree is dead, dying, diseased or is unsafe in accordance with Appendix 11 Tree Removal Certificate.
RD1	<ul style="list-style-type: none"> o Removal or destruction of a notable tree identified in Schedule 30.2 (Notable Trees) that does not comply with Rule 16A.2.6.1 P1. o Council's discretion is restricted to any of the following matters: <ul style="list-style-type: none"> (i) Timing and manner in which the activity is carried out; (ii) Effects on amenity values; and (iii) Effects on heritage values.

RD1	<p>a) Any activity that does not comply with Rule 16A.2.6.3 PI.</p> <ul style="list-style-type: none"> (i) Council's discretion shall be restricted to any of the following matters: (ii) Location of activity in relation to the tree; (iii) Timing and manner in which the activity is carried out; (iv) Remedial measures; (v) Effect on the health of the tree; and (vi) Amenity values.

16A.2.7 Signs

- (1) Rule 16A.2.7.1 Signs – general provides permitted standards for any sign, including real estate signs, across the entire Medium Density Residential Zone.
- (2) Rule 16A.2.7.2 Signs – effects on traffic applies specific standards for signs that are directed at road users.

16A.2.7.1 Signs – General

P1	A public information sign erected by a government agency.
P2	<p>a) A sign must comply with all of the following conditions:</p> <ul style="list-style-type: none"> (i) It is the only sign on the site;
