The specification of the acoustic barrier must be at a height of no less than that illustrated on figure 16.4.18A below and a length along the entire common boundary between Lot 2 DP199997 and Lots 3 and 4 DP 492007 (excluding the Collector Road on the Precinct Plan and 5m front yard setback – Rule 20.3.4.1). The application shall be accompanied by an acoustic design report to ensure that the acoustic barrier will meet the requirements listed in this rule and that it will perform as an effective acoustic barrier. The design and effectiveness of the acoustic barrier shall be based on the requirement to reduce the extent of the unmitigated 45 dB L<sub>Aeq</sub> noise contour illustrated on figure 16.4.18B below. The Pokeno Industry Buffer illustrated on Lot 2 DP199997 is based on compliance with and implementation of this rule.</a></p>

- (vi) Design of the Hilltop Parks and adjoining park edge roads. Road design and alignments should avoid where possible and otherwise minimise visual and physical disturbance or mitigate through plantings within the Environmental Protection Area, of the upper flanks of Transmission and Potters Hills identified within the hilltop parks and the Environmental Protection Area.
- (vii) Potential effects on the safe and efficient operation of Bluff and Pioneer Roads (including where these intersect with State Highway 1) from roading connections to Cole Road.
- (viii) The design of, and potential effects on, the safe and efficient operation of the intersections of:
  - a. Yashili Drive and Gateway Park Drive;
  - b. Gateway Park Drive and Hitchen Road; and
  - c. Gateway Park Drive and McDonald Road.

- (x) Accessible, safe and secure pedestrian and cycling connections within the Precinct and to the existing transport network and public facilities.
- (xi) Provision within the Precinct design for future public transport.
- (xii) Ownership and ongoing management of the Environmental Protection Area Provision of planting, management plans for weed and pest control and their implementation, ownership and ongoing management of the Environmental Protection Area. Legal mechanisms to retain in perpetuity Environmental Protection Areas and prevent further subdivision of them (such as appropriate covenants, consent notice or vesting in Council).
- (xiii) Design of earthworks (contours and aspect), lot orientation and landscape treatment between the 40 dba noise contour and the Pokeno Industry Buffer on the planning maps to minimise possible reverse sensitivity effects on nearby Heavy Industrial Zoned activities. Landscape design, plant selection and implementation of plantings (including planting with initial stages of subdivision) within the Pokeno Industry Buffer / Environmental Protection Area to screen or

	<p><u>otherwise minimise views from future dwellings between the 40 dba noise contour and the Pokeno Industry Buffer to the Heavy Industry Zone.</u></p> <p>(xiv) <u>The provision of cultural impact or cultural values assessments and the manner which subdivision respond to those assessments in respect to the design of subdivisions, the hilltop parks and enhancements achieved within the Environmental Protection Area and Significant Natural Areas.</u></p>

**Consequential amendment to Rules 20.2.2.1A.P2.(b) and Rule 21.2.2.1A P2.(b) from the Council Section 42A Report Reply Version from Hearing 7:**

(b) Noise measured within any site in any zone, other than the General Industrial and Heavy Industrial Zone, that does not exceed the permitted noise limits for that zone. For sites adjoining the Havelock Precinct (Appendix XX), the noise rating level from any activity must not exceed:

- i. 55dB  $L_{Aeq}$  from 7am to 10pm every day, 45 dB  $L_{Aeq}$  from 10pm to 7am the following day and 75 dB  $L_{AFmax}$  from 10pm to 7am the following day measured from any site outside of the Pokeno Industry Buffer illustrated on the planning maps (compliance with the noise standard must not be measured from the Residential Zone boundary for this Precinct).
- ii. Until the acoustic barrier has been constructed and made acoustically effective in accordance with Rule 16.4.18 RD1 (a)(iv), the noise rating level from activities on Lots 3 and 4 DP 492007 must not exceed 55dB  $L_{Aeq}$  from 7am to 10pm every day, 45 dB  $L_{Aeq}$  from 10pm to 7am the following day and 75 dB  $L_{AFmax}$  from 10pm to 7am the following day measured from the unmitigated 45 dB  $L_{Aeq}$  noise contour illustrated on figure 16.4.18B. When Rule 16.4.18 RD1 (a)(iv) has been satisfied, clause (b)(i) above applies.

**Insert new Policy in Chapter 4 as follows:**

Policy 4.1.11 Policy - Pokeno

(iv) Subdivision and development shall minimise the potential for reverse sensitivity effects to arise on the Havelock Precinct's eastern boundary with Heavy and Industrial zoned land through a combination of physical separation, orientation, landscape treatment and building design.
