Tēnā koe John,

Education provision for the Sleepyhead Development

Thank you for meeting with myself, Anna Manukau and Tiki Mossop to discuss education provision for the proposed Sleepyhead development.

As per our discussions, the Ministry of Education has assessed the potential impact of your development on our schools, and is planning for how these students can be accommodated in the future.

I understand that you have had discussions with Ohinewai School, and can confirm that our intention is to expand the existing school to accommodate students from the Sleepyhead development.

Anna and Tiki will continue to work with you as the Private Plan Change and the development progress.

Nāku noa nā

Alison Harold
