

PROPOSED DISTRICT PLAN (STAGE I)

SUMMARY OF SUBMISSIONS **BY CHAPTER**

Plan chapter: Section A Plan Overview and Strategic Directions

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.14		
Plan chapter	Section A Plan Overview and Strategic Directions		
Summary of Decision Requested	Amend Chapter 1 to show that the requirements of the 2017 National Policy Statement on Urban Capacity (NPS-UDC) have been considered.		
Decision Reasons:	<ul style="list-style-type: none"> The National Policy Statement for Urban Development Capacity (NPS-UDC) impacts multiple chapters and sections of the Proposed Plan, relating to the provision of sufficient feasible zoned and serviced housing and business land is provided for. Because of the proposed approach to 'live' zone new urban growth areas there are a number of areas of concern regarding this, in particular in relation to the zoning of new areas of land for urban development where it is unclear what infrastructure is available or is proposed to be provided. There is also limited direction for staging which may affect the efficient delivery of infrastructure. The submission includes suggested options. 		
Point Number	81.75		
Plan chapter	Section A Plan Overview and Strategic Directions		
Summary of Decision Requested	Amend Chapter 1: Introduction to include additional information for the matters it covers to be better understood and by separating its contents into discrete chapters. In particular, discussion of the district's Issues, the Strategic Direction proposed to address these, and that related to Ngaa Iwi o Tainui ki te Waikato Takiwa, Settlement Acts /Co-management/Rivers Vision and Strategies/ Joint Management Agreement should all be provided with separate chapters or sections.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers that several of the matters covered in this chapter are of such significance that there should be more emphasis placed on them, including through provision of more detailed information, and separation into standalone plan chapters. 		

Submitter Number:	271	Submitter:	Dave and Fransiska Falconer
Point Number	271.2		
Plan chapter	Section A Plan Overview and Strategic Directions		
Summary of Decision Requested	Add a southbound on/exit ramp near Kimihia Road or McVie Road, Huntly, to divert as much traffic away as possible from Taupiri Mountain Cemetery.		
Decision Reasons:	<ul style="list-style-type: none"> The Maori King, in the late 1860's, wept when he was informed of the intended route of the main rail trunk line alongside state highway 1 effectively cutting the access to the sacred burial ground. Mount Taupiri is a sacred mountain and burial ground for Waikato Iwi and Kingitanga. Parking and access became difficult because the State Highway and railway lie largely on gentler sloping land at the foot of the slopes of Taupiri Mountain Parking is required to be on the other side of the North Island transport system in a small and constrained area beside the Waikato River and Mangawara Stream. Many mourners attending Tangi often cause disruption to traffic, out of necessity. Mourners attending funerals have to manage 70kph traffic and then when the trains come it is formidable, as it is required to blow its horn amidst all the mourners and ceremony. Any reduction in traffic will be a much welcome outcome 		
Point Number	271.3		
Plan chapter	Section A Plan Overview and Strategic Directions		
Summary of Decision Requested	Restore the town name of Huntly to its original name of Rahui Pokeka.		
Decision Reasons:	<ul style="list-style-type: none"> The Council need to be mindful of cultural value/impact assessments such as honoring urupa rather than factor the Huntly access to the Expressway The Council should be acknowledging 2.12.1, the significant legal power of Tangata Whenua and areas of significance such as urupa. It is a matter of utmost urgency and an obligation under 2.12.1 (iii) The Council had dismissed the submitters previously "At this stage Council is not looking to rename Huntly". 		

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.6		
Plan chapter	Section A Plan Overview and Strategic Directions		
Summary of Decision Requested	No specific decision sought, however submission refers to Section A Plan Overview and Strategic Directions.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	388	Submitter:	Sony Karen
Organisation:	Tangata Whenua Working Group		

Point Number	388.2
Plan chapter	Section A Plan Overview and Strategic Directions
Summary of Decision Requested	Retain the discussion of statutory responsibilities that are required of the Treaty of Waitangi, the Waikato River Settlement Act 2010, and the Resource Management Act, among others.
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.

Submitter Number:	651	Submitter:	Jon Muller
Organisation:	GE Free New Zealand		
Point Number	651.5		
Plan chapter	Section A Plan Overview and Strategic Directions		
Summary of Decision Requested	Amend Section A Plan Overview and Strategic Directions to include a section on Genetically Modified organisms.		
Decision Reasons:	<ul style="list-style-type: none"> The conclusion of the Inter Council Working Party on GMO Risk Evaluation of Management Options found that local regulation is highly necessary when it comes to GMO release in the region. 		

Submitter Number:	751	Submitter:	Chanel Hargrave and Travis Miller
Point Number	751.33		
Plan chapter	Section A Plan Overview and Strategic Directions		
Summary of Decision Requested	No specific decision is sought, but submission considers that the Proposed Waikato District Plan lacks provision of residential land supply as required by the Future Proof Strategy.		
Decision Reasons:	<ul style="list-style-type: none"> Does not provide residential land supply as required by the Future Proof Strategy. 		
Point Number	751.38		
Plan chapter	Section A Plan Overview and Strategic Directions		
Summary of Decision Requested	No specific decision is sought, but the submission supports the direction of the Proposed Waikato District Plan as it gives effect to the National Policy Statement on Urban Development Capacity through rezoning of land and allows for some intensification of existing urban areas.		
Decision Reasons:	No reasons provided.		

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.163		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction		
Summary of Decision Requested	Add an applied mechanism to address various issues including sections 1.4.4(a) and 1.4.4(b) The urban environment and 1.5.1(b) and 1.5.1(c) Compact urban development on a district wide basis for every town and village.		
Decision Reasons:	<ul style="list-style-type: none"> This statement directly contradicts the approach taken by the Council to have a large Country Living Zone at Tamahere. There appears to be no applied mechanisms to facilitate an efficient outcome on a district wide basis for every town and village, such that the District Plan appears to directly encourage a wide dispersed ad-hoc development in the rural zone. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.347		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction		
Summary of Decision Requested	Amend the purpose and status of the objectives in Chapter 1 Introduction. AND Add a stand-alone chapter containing all of the strategic objectives.		
Decision Reasons:	<ul style="list-style-type: none"> The Introduction chapter is unclear in its purpose and is unclear in its legal effect. The Introduction chapter contains strategic objectives but it is not clear whether these are part of the Plan or have more of an advisory role and status. The Introduction contains strategic objectives but if they are to be Objectives, they would benefit from more visibility in the plan through creation of a new strategic objectives chapter. 		
Point Number	697.348		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction		
Summary of Decision Requested	Delete unnecessary text from Chapter 1 Introduction.		

AND

Amend Chapter 1 Introduction so that it is more focused on performing an introductory role to the District Plan.

Decision Reasons:

- There is a lot of detail in Chapter 1 Introduction which may not be necessary.
- There is a risk that references to Council strategies become out of date when Council reviews those strategies.

Submitter Number: 923 **Submitter:** Waikato District Health Board

Point Number 923.100

Plan chapter Section A Plan Overview and Strategic Directions > Chapter 1: Introduction

Summary of Decision Requested **Amend** Chapter 1 (and/or s32 Analysis) to show the requirements of the 2017 National Policy Statement for Urban Development Capacity have been considered, which may include the following:

- Identifying which of the District's towns and villages are to be the focus for urban growth and development;
- Indicating the extent to which each of these areas are currently serviced with necessary infrastructure to protect and promote health and wellbeing, e.g. potable water;
- Clarifying whether structure/master planning or other detailed investigations have been done for these areas, and if not, when this is expected to occur;
- Addressing the issue of how areas identified for growth that currently have no supporting infrastructure (including community infrastructure) are to be sustainably managed through the plan provisions to ensure health and wellbeing is not negatively impacted.

Decision Reasons:

- National Policy Statement for Urban Development Capacity impacts multiple chapters and sections of the plan, related to the provision of sufficient feasible zoned and serviced housing and business land is provided for.
- Proposed approach to 'live zone' new urban growth areas, leads to a concern related to zoning new areas of land for urban development where it is unclear what infrastructure is available or proposed to be provided.
- Provision of core and community infrastructure within the built environment impacts on health and wellbeing outcomes.

Point Number 923.91

Plan chapter Section A Plan Overview and Strategic Directions > Chapter 1: Introduction

Summary of Decision Requested **Amend** Chapter 1 to more clearly state the strategic objectives and policies in each policy chapter, and identify how they relate to each other and the issues.

Decision Reasons:

- Several chapters in the Plan include strategic objectives and policies, and the relationship between these and what might be termed non-strategic objectives and policies and resource management issues identified in Chapter 1 is not clear.
- Within Chapter 1 the relationship between the various strategic provisions within 1.4, 1.5 and 1.12 is unclear, in particular whether there is a hierarchy between these provisions.

Point Number 923.93

Plan chapter Section A Plan Overview and Strategic Directions > Chapter 1: Introduction

Summary of Decision Requested **Amend** Chapter One: Introduction by establishing a stronger objective, policy and rule framework than is proposed for un-serviced urban residential areas where there is uncertainty about the funding, staging and timing for infrastructure provision.

Decision Reasons:

- The amendments are requested to ensure activities of an urban nature, including subdivision, are not provided for prior to structure planning processes being undertaken and without certainty about the funding, timing and staging of infrastructure provision and so subdivision, use and development is not compromised in these areas for future development.
- The submitter is concerned provisions do not adequately address how subdivision and development activities will be managed where a 'live' residential zoning is proposed for un-serviced land within urban towns and villages.
- No obvious strategy as to how Council intends to manage these areas, how long the transition to urban use will be for particular areas, how Council is achieving its Future Proof land allocation obligations, or any framework evaluating other non-identified 'live zoning' areas.
- Proposed Plan creates a highly uncertain development environment for communities as to where and how future urban growth will be provided for, and how health and wellbeing outcomes will be managed in parallel to managing growth.

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.1 What is a district plan?

Submitter Number: 35 **Submitter:** Malcolm Titchmarsh

Point Number 35.1

Plan chapter Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.1 What is a district plan?

Summary of Decision Requested No decision sought, but submission refers to Section 1.1 What is a District Plan.

Decision Reasons:

- No reasons provided.

Submitter Number: 372 **Submitter:** Steve van Kampen

Organisation: Auckland Council

Point Number 372.1

Plan chapter Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.1 What is a district plan?

Summary of Decision Requested	No specific decision sought, but submission seeks clarification over the exclusion of Chapter 11 from the Proposed Waikato District Plan.
Decision Reasons:	<ul style="list-style-type: none"> The submission queries the value and process for a 'stage 2' plan change and how/when it will be included into the plan. The submission questions what impact a stage 2 plan change will have on provisions included in the proposed plan, particularly those relating to the implications of climate change such as developable areas, floor levels and restrictions on coastal development.

Submitter Number:	567	Submitter:	Ngati Tamaoho Trust
Point Number	567.1		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.1 What is a district plan?		
Summary of Decision Requested	Amend Section 1.1 - What is a district plan?, fourth sentence of the first paragraph as follows: <i>...effects of land use activities. <u>Rules set within the Plan are a minimum requirement, not an aspiration but a starting point.</u> It must include...</i>		
Decision Reasons:	<ul style="list-style-type: none"> Does not feel that the proposed district plan covers environmental future effects. 		

Submitter Number:	798	Submitter:	Ngati Te Ata
Point Number	798.3		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.1 What is a district plan?		
Summary of Decision Requested	Amend Section 1.1 What is a district plan? as follows: <i>...It must include objectives and policies and rules to manage the environmental effects of land use activities. <u>Rules set within the Plan are a minimum requirement, not an aspiration but a starting point.</u></i>		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.2 What is the purpose of the Waikato District Plan

Submitter Number:	35	Submitter:	Malcolm Titchmarsh
Point Number	35.2		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.2 What is the purpose of the Waikato District Plan		
Summary of Decision Requested	No decision sought, but submission refers to Section 1.2 What is the purpose of the Waikato District Plan.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.34		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.2 What is the purpose of the Waikato District Plan		
Summary of Decision Requested	Amend Section 1.2 What is the purpose of the Waikato District Plan, by correcting the population figure for Hamilton City, so that the second to last sentence in clause (c) reads as follows: <i>(c) ... The district is located between two large urban centres - Auckland, with a population of over 1 million and lies to the north, and Hamilton with a population of over 110,000 <u>more than 165,000</u>, which lies to the south.</i> AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The notified population figure of 110,000 is outdated as the 2017 figure for Hamilton City has been estimated to be more than 165,000. 		

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.3 Background

Submitter Number:	35	Submitter:	Malcolm Titchmarsh
Point Number	35.3		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.3 Background		
Summary of Decision Requested	No decision sought, but submission refers to Section 1.3 Background.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district

Submitter Number:	12	Submitter:	Carl Ammon
Point Number	12.1		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district		
Summary of Decision Requested	Retain Chapter 1.4 Issues for Waikato District, except for the amendments sought below AND Amend Chapter 1.4 Issues for Waikato District to better address environmental issues associated with the agriculture, forestry and extractive industries; and to provide a clearer stance on addressing issues of water quality, soil conservation and the restoration of natural biodiversity.		
Decision Reasons:	<ul style="list-style-type: none">The Waikato is a region with a strong agricultural base, but it is also growing economically and in population. The proposed plan lacks a strong vision of the need to address environmental matters and gives the impression that farming has priority over the environment. The two need to be progressed together.		

Submitter Number:	367	Submitter:	Liam McGrath
Organisation:	Mercer Residents and Ratepayers Committee		
Point Number	367.32		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district		
Summary of Decision Requested	Retain Section 1.4 Issues for Waikato District.		
Decision Reasons:	<ul style="list-style-type: none">No reasons provided.		

Submitter Number:	606	Submitter:	Bill Wasley
Organisation:	Future Proof Implementation Committee		
Point Number	606.1		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district		
Summary of Decision Requested	Retain Section 1.4 Issues for Waikato district.		
Decision Reasons:	<ul style="list-style-type: none">The issues are consistent with the principles outlined in section 1.3 of the Future Proof Strategy.The submitter particularly supports the issues identified in section 1.4.4 on the urban environment.		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.7		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district		
Summary of Decision Requested	Amend the Proposed District Plan to incorporate the relevant issues outlined in Section 1.4 Issues for Waikato district into the respective chapters of the Plan. AND Any consequential changes necessary to give effect to the relief sought and/or concerns raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none">The submitter considers the purpose of the plan would be better served if the issues for the district were incorporated into the respective chapters of the plan rather than contained in a separate section.		

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.1 Demographic trends

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.154		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.1 Demographic trends		
Summary of Decision Requested	Amend Section 1.4.1(a) Demographic trends to use five to ten year forecasts instead of 45 to 50 year forecasts.		
Decision Reasons:	<ul style="list-style-type: none">The projection of 147,000 in the district is likely to be too low.A five to ten year forecast is more meaningful to correlate.		

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.1 Demographic trends > 1.4.1.3 Uneven population growth across the district

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.155		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.1 Demographic trends > 1.4.1.3 Uneven population growth across the district		
Summary of Decision Requested	Develop and add applied plans to Section 1.4.1.3(a) Uneven population growth across the district, to grow every town and village in this District, developed in conjunction with owners and development professionals.		
Decision Reasons:	<ul style="list-style-type: none"> • Council needs to be more proactive in terms of Town and Village growth that can readily occupy growth. • Matangi, Huntly, Taupiri, Te Uku, Whatawhata/Karakariki, Ngaruawahia, Tauwhare, Tuakau and Mercer can all be worked towards as key recipients of growth, but little is acknowledged outside of Pokeno, Te Kauwhata and Te Kowhai. 		

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.2 Economic growth

Submitter Number:	797	Submitter:	Fonterra Limited
Point Number	797.1		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.2 Economic growth		
Summary of Decision Requested	Retain Section 1.4.2 Economic growth as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The provisions provide appropriate recognition of the significance of primary industry to the district's economy. 		

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.2 Economic growth > 1.4.2.1 Economic sectors

Submitter Number:	797	Submitter:	Fonterra Limited
Point Number	797.2		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.2 Economic growth > 1.4.2.1 Economic sectors		
Summary of Decision Requested	Retain Section 1.4.2.1 Economic sectors as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The provisions provide appropriate recognition to the significance of the dairy sector to the district's economy. 		

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.2 Economic growth > 1.4.2.3 Challenges

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.156		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.2 Economic growth > 1.4.2.3 Challenges		
Summary of Decision Requested	Add to 1.4.2.3 (a) Challenges clear Council applied mechanism that achieves and facilitates the desired outcomes listed in the objectives in a focused way that addresses all likely localities for demand in the District.		
Decision Reasons:	<ul style="list-style-type: none"> • Council needs to concentrated on growth patterns and it is requested to approach MPS and Central Government to facilitate. • The need is more urgent that it may appear. • A greater applied focus on growth of other towns and villages is needed by Council. • The growth of rural villages, such as Matangi, can help offset the stated depopulation in clause 1.4.1.3 of rural areas that is anticipated, by placing persons with rural interests in rural locations. • Smaller towns close to industrial areas are also robust for the likely workforce to decide to establish. • The approach above would assist to trigger needed renewal and investment in our region. • This would also assist to address Objective 1.4.2.3 (a) (iii) being skills shortages. 		
Point Number	695.157		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.2 Economic growth > 1.4.2.3 Challenges		
Summary of Decision Requested	No specific decision sought, but submission states that the current sprawl of the Country Living Zone at Tamahere with 5000m2 lots which directly contradicts the intent of Section 1.4.2.3(a)(vi) Challenges.		
Decision Reasons:	<ul style="list-style-type: none"> • Serviced lots of 1,000m2 around Matangi could house five times as many parties and reduce land resources by 80% per allotment. 		

Submitter Number:	771	Submitter:	Alison Brown
Organisation:	Bathurst Resources Ltd and BT Mining Ltd		
Point Number	771.2		

Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.2 Economic growth > 1.4.2.3 Challenges
Summary of Decision Requested	<p>Amend Section 1.4.2.3 (viii) Challenges as follows:</p> <p>(a) <i>Economic development challenges facing the district are as follows:</i></p> <p>...</p> <p>(viii) <u>A perceived decline in the mining sector which needs to be addressed by making provision for existing mining activities to expand into areas outside the existing Coal Mining and Aggregate Extraction Areas while addressing with coal resources in particular becoming increasingly difficult and expensive to access, as well as public concerns about the ground environmental impacts of coal and mineral mining in the region, are a concern, considering its share of the district's GDP.</u></p> <p>AND</p> <p>Any consequential amendments necessary to address the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> • Rotowaro coalfield is currently subject to exploration permits held by BT Mining Ltd and where the resource is currently drilled. • The submitter does not accept that there is a decline in the coal mining sector and provided no absolute barriers are put in the way, the submitter expects to be able to continue to economically mine coal in the district. • The past record of rehabilitation of areas subject to coal mining shows that it is a transitory activity on the land, which can be returned to other productive uses post mining. • The controls placed on coal mining through various permissions required, provide appropriate controls to ensure that effects on the environment are properly managed.

Submitter Number:	794	Submitter:	Middlemiss Farm Holdings Limited
Point Number	794.1		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.2 Economic growth > 1.4.2.3 Challenges		
Summary of Decision Requested	<p>Amend Section 1.4.2.3 Challenges as follows:</p> <p>(a) <i>Economic development challenges facing the district are as follows:</i></p> <p>(j) <u>Growth across the district is uneven. Population and associated economic growth is occurring predominantly in the north (Tuakau, Pokeno, Te Kauwhata) and in the south around the Hamilton periphery. This challenge, which can be managed, is also an opportunity as new residents and businesses diversify and strengthen the economic base of the District</u></p> <p>...</p> <p>(vi) <u>Soil resources, including soil quality, are under threat due to where subdivision and intensification of land use is inappropriate.</u></p> <p>...</p> <p>(ix) <u>With growth pressure in both the Urban and Rural sectors, maintaining and enhancing the natural ,and ensuring the sustainability of ecosystem services.</u></p> <p>AND</p> <p>Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Based on the Council's own evidence there is no doubt that a significant resource management issue for the District is biodiversity loss, which continues to be at risk due to vegetation clearance, stock intrusion, animal and pest degradation, degradation of the margins for estuarine wetlands by stock. • The submitter is concerned that the Proposed District Plan is largely focused on only protecting existing Significant Natural Areas and ignores restoring, linking and expanding indigenous biodiversity that does not qualify as Significant Natural Areas. • There is no regulatory framework to increase indigenous vegetation and wetlands to a target vegetation cover of 30%, actively manage areas that can be considered Significant Natural Areas in the future, increase vegetation cover on steep and erosion prone land, incentivize fencing of riparian areas, incentivize the creation of new corridors, pest control, enrichment planting and restoration. • No comprehensive research supports the claim that incentive-based planting in the district has resulted in sporadic, adhoc development. • There appears to be no robust analysis of the success or failures of the limited amount of enhancement subdivision that has previously been undertaken in the Franklin part of the District that had these provisions. • Several court decisions including Di Andre Estates Ltd v Rodney District Council, Arrigato Investments v Auckland Regional Council, Omaha Park and Cabra v Auckland Council are useful for establishing current best practice to meet the requirements of Part 2 of the RMA. • <i>Cabra v Auckland Council</i> case law notes that the Council could not use the fact that there may be issues with weeds, or poor fencing, as a reason to oppose the inclusion of incentive provisions in the Plan, because it had the authority and responsibility to monitor consent conditions. There are a range of enforcement mechanisms available to a council, and the ability to recover costs from a consent holder, that mean managing compliance in these areas should not be onerous for a council. • The court in the <i>Cabra</i> case has taken a far sighted and future oriented approach to the maintenance and enhancement of biodiversity. • The Proposed District Plan does not give effect to the New Zealand Coastal Policy Statement. • The Proposed District Plan does not give effect to the National Policy Statement for Freshwater Management. • The Proposed District Plan does not adopt the vision of the Waikato River Settlement Act as there is not a strong emphasis in the vision on restoration. • The Proposed District Plan does not give effect to the Waikato Regional Policy Statement. • The submitter supports appropriate protection of high-class soils were practicable and where they are alternatives to using this land. However, sustainable land management may mean that subdivision on these soils is not always inappropriate. 		

Submitter Number:	797	Submitter:	Fonterra Limited
Point Number	797.3		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.2 Economic growth > 1.4.2.3 Challenges		
Summary of Decision Requested	<p>Retain Section 1.4.2.3 Challenges, except for the amendments sought below;</p> <p>AND</p> <p>Amend Section 1.4.2.3 Challenges to include (or words to similar effect):</p> <p><u>Primary production and processing activities are increasingly subject to reverse sensitivity effects.</u></p> <p>AND</p> <p>Any consequential amendments or further relief to give effect to the concerns raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Supports the identification of the challenges facing economic activity. • Considers additional reference needs to be made to reverse sensitivity effects. • The challenges have the potential to impose additional restrictions and costs on primary production and processing activities. 		

Submitter Number:	860	Submitter:	Aggregate and Quarry Association (AQA) and Straterra
Point Number	860.1		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.2 Economic growth > 1.4.2.3 Challenges		

Summary of Decision Requested	Retain Section 1.4.2.3 (a)(v) Challenges.
Decision Reasons:	<ul style="list-style-type: none"> Note that the environmental impacts of extraction can be managed and so the negative impacts on growth from this are minimal. The positive impacts on growth from the extractives sector are significant.
Point Number	860.19
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.2 Economic growth > 1.4.2.3 Challenges
Summary of Decision Requested	Retain Section 1.4.2.3 (a)(viii) Challenges.
Decision Reasons:	<ul style="list-style-type: none"> Note that extractive industries are a higher value use of land than farming, that it is a temporary use of land and that it earns high wealth off a relatively small footprint. With respect to coal mining while reserves in existing license/permit areas are being depleted there are still significant coal resources in the Waikato region and the Waikato district and provision should be made to access those resources without the imposition of undue costs.

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.35		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.2 Economic growth > 1.4.2.3 Challenges		
Summary of Decision Requested	Add the following new clauses to Section 1.4.2.3 Challenges: <i>(x) The retention and development of Maori Freehold land in both urban and rural areas.</i> <i>(xi) Lack of housing, training and employment opportunities for Maaori in west coast communities.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter agrees that the Waikato district faces huge challenges and has identified some that specifically affect Maori landowners of multiply owned lands which need to be included. 		

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.3 The Rural environment

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.7		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.3 The Rural environment		
Summary of Decision Requested	No specific decision sought, however submission refers to Section 1.4.3 The Rural Environment.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.35		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.3 The Rural environment		
Summary of Decision Requested	Retain Section 1.4.3.1(b) The Rural environment, except for the amendment sought below. AND Amend Section 1.4.3.1(b) The Rural environment, to include fragmentation of rural land. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Ad hoc development on the city boundary can also have an adverse effect on future urban use and therefore the fragmentation of rural land needs to be included as an effect. The submitter agrees that excessive rural lifestyle development can have adverse effects which should be avoided. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.9		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.3 The Rural environment		
Summary of Decision Requested	Amend Section 1.4.3 (b) The Rural environment as follows: In addition, <u>rural activities contribute to the parts of the rural environment parts of the districts which are valued for their landscape, character and amenity values.</u> AND Any consequential changes necessary to give effect to the relief sought and/or concerns raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The rural ideal of landscapes or amenity are largely dynamic working landscapes which are there as a result of the activities you would expect to find in the 		

rural zone. It is important to establish that understanding in the contextual sections of the plan.

Submitter Number:	771	Submitter:	Alison Brown
Organisation:	Bathurst Resources Ltd and BT Mining Ltd		
Point Number	771.3		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.3 The Rural environment		
Summary of Decision Requested	Retain Section 1.4.3(a) The Rural Environment as notified.		
Decision Reasons:	<ul style="list-style-type: none">• Supports the recognition of mineral resources in the rural areas, the need to site mining operations where the mineral resources are located.• Supports the recognition of the fact that the introduction of other activities may have the potential to curtail these activities.		

Submitter Number:	794	Submitter:	Middlemiss Farm Holdings Limited
Point Number	794.2		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.3 The Rural environment		
Summary of Decision Requested	Amend Section 1.4.3 The Rural environment as follows: <i>(a) The district benefits from an extensive rural area which contains a range of attributes necessary for productive rural activities, including a variety of soils, mineral resource and landscapes that are able to sustain diverse range of economic activities. A productive rural area is important to the economic health of the district and wider subregion, and needs to be recognised as a productive resource.</i> <i>(b) In addition, the rural parts of the district are valued for their landscape, character and amenity values and indigenous habitats and waterways.</i> AND Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none">• Based on the Council's own evidence there is no doubt that a significant resource management issue for the District is biodiversity loss, which continues to be at risk due to vegetation clearance, stock intrusion, animal and pest degradation, degradation of the margins for estuarine wetlands by stock.• The submitter is concerned that the Proposed District Plan is largely focused on only protecting existing Significant Natural Areas and ignores restoring, linking and expanding indigenous biodiversity that does not qualify as Significant Natural Areas.• There is no regulatory framework to increase indigenous vegetation and wetlands to a target vegetation cover of 30%, actively manage areas that can be considered Significant Natural Areas in the future, increase vegetation cover on steep and erosion prone land, incentivize fencing of riparian areas, incentivize the creation of new corridors, pest control, enrichment planting and restoration.• No comprehensive research supports the claim that incentive-based planting in the district has resulted in sporadic, adhoc development.• There appears to be no robust analysis of the success or failures of the limited amount of enhancement subdivision that has previously been undertaken in the Franklin part of the District that had these provisions.• Several court decisions including Di Andre Estates Ltd v Rodney District Council, Arrigato Investments v Auckland Regional Council, Omaha Park and Cabra v Auckland Council are useful for establishing current best practice to meet the requirements of Part 2 of the RMA.• <i>Cabra v Auckland Council</i> case law notes that the Council could not use the fact that there may be issues with weeds, or poor fencing, as a reason to oppose the inclusion of incentive provisions in the Plan, because it had the authority and responsibility to monitor consent conditions. There are a range of enforcement mechanisms available to a council, and the ability to recover costs from a consent holder, that mean managing compliance in these areas should not be onerous for a council.• The court in the <i>Cabra</i> case has taken a far sighted and future oriented approach to the maintenance and enhancement of biodiversity.• The Proposed District Plan does not give effect to the New Zealand Coastal Policy Statement.• The Proposed District Plan does not give effect to the National Policy Statement for Freshwater Management.• The Proposed District Plan does not adopt the vision of the Waikato River Settlement Act as there is not a strong emphasis in the vision on restoration.• The Proposed District Plan does not give effect to the Waikato Regional Policy Statement.• The submitter supports appropriate protection of high-class soils where they are alternatives to using this land. However, sustainable land management may mean that subdivision on these soils is not always inappropriate.		

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.38		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.3 The Rural environment		
Summary of Decision Requested	Retain the references to mineral resources and extraction as a productive rural activity in Section 1.4.3 The Rural environment, particularly Section 1.4.3.1 Rural activities and Section 1.4.3.2 Protecting the rural environment.		
Decision Reasons:	<ul style="list-style-type: none">• The extraction of mineral resources is a productive rural activity and existing extractive activities contribute to the wellbeing of the district.• These activities cannot be located within urban setting or where it will become vulnerable to reverse sensitivity issues.		

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.3 The Rural environment > 1.4.3.1 Rural activities

Submitter Number:	281	Submitter:	Zeala Ltd
Organisation:	Trading as Aztech Buildings		
Point Number	281.2		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.3 The Rural environment > 1.4.3.1 Rural activities		
Summary of Decision Requested	Amend Section 1.4.3.1 (a) Rural Activities as follows: <i>Productive rural activities are those activities that use rural resources for economic gain or which cannot be carried out easily or appropriately in an urban setting. Farming activities including dairy, dry stock, horse breeding, training, honey production, horticulture, pig and poultry, mining, and forestry are all significant industries in economic terms for the Waikato district.</i>		
Decision Reasons:	<ul style="list-style-type: none">• Farming Activities includes a prescriptive list of activities. This list is not inclusive of all things that could be deemed farming activities and differs from the definition of farming within the Proposed Plan.		

- Deleting the list does not detract from the Strategic Direction of the document.

Submitter Number:	394	Submitter:	Gweneth Sophie Francis
Point Number	394.1		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.3 The Rural environment > 1.4.3.1 Rural activities		
Summary of Decision Requested	<p>Delete Section 1.4.3.1 (c) Rural activities.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential or further additional relief, as is appropriate to give effect to the intent of the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • There is no evidence of the vulnerability of rural areas in the manner suggested. 		

Submitter Number:	433	Submitter:	Mischa Davis
Organisation:	Auckland Waikato Fish and Game Council		
Point Number	433.32		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.3 The Rural environment > 1.4.3.1 Rural activities		
Summary of Decision Requested	<p>Retain Section 1.4.3.1 Rural Activities, except for the amendments sought below</p> <p>AND</p> <p>Amend Section 1.4.3.1 (b) Rural Activities as follows:</p> <p><i>(b) ... The recreational use of the rural environment is also important to the district, with activities such as hunting, fishing, tramping, and cycling being very important in terms of tourism and for the benefit of residents within the district, including those living in urban areas.</i></p> <p>AND/OR</p> <p>Any alternative relief to address the issues and concerns raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • While rural recreational opportunities are important for tourism (from outside the district), it is also important to provide these same opportunities to the district's residents and particularly given urban population increase. • The significant recreational and cultural aspect of the district deserves recognition, particularly given the projected increasing footprint of settlement and industry. 		

Submitter Number:	574	Submitter:	TaTa Valley Limited
Point Number	574.19		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.3 The Rural environment > 1.4.3.1 Rural activities		
Summary of Decision Requested	Retain the second sentence of Section 1.4.3.1 (b) Rural activities, regarding recreational use.		
Decision Reasons:	<ul style="list-style-type: none"> • The recreational use of the rural environment is also important to the district, with activities such as hunting, fishing, tramping, and cycling being very important in terms of tourism. 		
Point Number	574.8		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.3 The Rural environment > 1.4.3.1 Rural activities		
Summary of Decision Requested	<p>Amend Section 1.4.3.1 (a) Rural activities, as follows:</p> <p><i>Productive rural activities are those activities that use rural resources for economic gain or which cannot be carried out easily or appropriately in an urban setting. Farming activities, including dairy, dry stock, horse breeding/training, honey production, horticulture, pig and poultry, mining, and forestry are all significant industries in economic terms for the Waikato district. These activities also provide tourism opportunities to showcase the district's rural character and activities.</i></p> <p>AND</p> <p>Any consequential amendments and other relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Seeks additional wording to reflect that productive rural activities can also be important opportunities for rural tourism that builds on the Waikato's rural character.

Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.3 The Rural environment > 1.4.3.1 Rural activities		
Summary of Decision Requested	Retain Section 1.4.3.1 Rural activities as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Supports the recognition of mineral resources in the rural areas, the need to site mining operations where the mineral resources are located. Supports the recognition of the fact that the introduction of other activities may have the potential to curtail these activities. 		

Submitter Number:	794	Submitter:	Middlemiss Farm Holdings Limited
Point Number	794.3		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.3 The Rural environment > 1.4.3.1 Rural activities		
Summary of Decision Requested	Amend Section 1.4.3.1 Rural Activities as follows: <i>(a) Productive rural activities are include those activities that use rural resources for economic gain or which cannot be carried out easily or appropriately in an urban setting. Farming activities, including dairy, dry stock, horse breeding/training, honey production, horticulture, pig and poultry, mining, and forestry are all significant industries in economic terms for the Waikato district. <u>Other productive rural activities include housing for people working in rural environments and ecosystem services that provide inputs for rural production (such as clean water) and assimilate output pollutants (such as nitrate and sediment run off).</u></i> <i>(b) Rural-based activities that do not use rural resources directly include rural service industries and major facilities such as Hampton Downs. The recreational use of the rural environment is also important to the district, with activities such as hunting, fishing, tramping, and cycling being very important in terms of tourism. Lifestyle uses can be sensitive to the effects of mining, farming and horticulture operations and other significant activities. There is therefore potential for conflict between rural activities and other land uses. Excessive Lifestyle development in rural areas can have a number of adverse effects that need to be avoided <u>managed</u>. These effects may include the loss of rural amenity, rural production, and high quality soils, resulting in the potential for reverse sensitivity conflicts, demands for improved rural infrastructure and services that are difficult to provide economically, and reduced growth in urban areas, which affects the prosperity of urban areas. However, through a design led site development process, and robust assessment criteria, rural residential development can be integrated into working rural environments in appropriate locations.</i> <i>(c) Rural areas are vulnerably to small-scale change that, cumulatively, can have a profound effect on their efficient use for rural production and other rural activities. The continued modification of the rural environment through land use subdivision, and development as a result of residential and commercial growth, can adversely affect their natural and physical qualities and character. These qualities and character are important in maintaining investment in rural activities, which proportionally contribute the most to the district's GDP and provide a context to the development and sustainability of rural towns and villages.</i> AND Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.

Summary of Decision Requested	<p>Retain Section 1.4.3.2 Protecting the rural environment as notified.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Supports the recognition of mineral resources in the rural areas, the need to site mining operations where the mineral resources are located. Supports the recognition of the fact that the introduction of other activities may have the potential to curtail these activities. 		
Submitter Number:	794	Submitter:	Middlemiss Farm Holdings Limited
Point Number	794.4		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.3 The Rural environment > 1.4.3.2 Protecting the rural environment		
Summary of Decision Requested	<p>Amend Section 1.4.3.2 Protecting the rural environment as follows:</p> <p>(a) The continued use of the rural areas for productive rural activities and other land and soil resource-dependent rural-based activities, as well as access to and the extraction of mineral resources, are important to the economic health and well-being of the district and wider subregion. It is therefore necessary to ensure that the continued, effective operations of farming activities or productive rural activities are not adversely affected by manage growth in lifestyle activities including rural residential development. A key focus is to ensure that resource does not become so fragmented that its attraction for activities that require a rural setting is diminished.</p> <p>(b) Activities affecting landscape, historic and amenity values including rural character, recreational activities, high quality soils, significant mineral resources and ecological values need to be managed to avoid adverse effects on the environment, including cumulative effects. This should occur through limiting-managing the extent to which non-rural activities are able to establish in the Rural Zone. There is a need to uphold the increased level of control the Council has placed over subdivision activities in the Rural and Country Living Zones, particularly within the north Waikato and around the Hamilton City boundary. Any additional areas for rural residential development should be considered within identified growth areas of towns or villages. Non-rural activities must occur in towns, villages and defined growth areas, and the expansion of such areas should be managed so that adverse effects on rural areas are minimised.</p> <p>(c) In line with the Regional Policy Statement, the district plan must ensure that rural-residential built development is directed away from natural hazard areas, regionally significant industry, high class soils, primary production activities on high class soils, electricity transmission, and locations identified as likely renewable energy generation sites and from identified significant mineral resources and their identified access routes.</p> <p>(d) Rural areas also contain degraded natural and physical resources, including soil, water and indigenous habitats, because of inappropriate rural productive activities. For example, the loss of indigenous biodiversity and habitats in the Waikato District is significant, and the mauri of the Waikato River has been compromised and it is no longer a healthy and reliable food source for tangata whenua. Degraded natural and physical resources urgently need protection, enhancement and restoration, including the establishment of new ecological habitats. This work is expensive and labour intensive to undertake at the scale required to meet the Purpose of the Act. In situ incentivised subdivision is an important method to manage the demand for residential/lifestyle growth in rural areas, while at the same time achieving significant environmental restoration benefits.</p> <p>AND</p> <p>Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Based on the Council's own evidence there is no doubt that a significant resource management issue for the District is biodiversity loss, which continues to be at risk due to vegetation clearance, stock intrusion, animal and pest degradation, degradation of the margins for estuarine wetlands by stock. The submitter is concerned that the Proposed District Plan is largely focused on only protecting existing Significant Natural Areas and ignores restoring, linking and expanding indigenous biodiversity that does not qualify as Significant Natural Areas. 		

- There is no regulatory framework to increase indigenous vegetation and wetlands to a target vegetation cover of 30%, actively manage areas that can be considered Significant Natural Areas in the future, increase vegetation cover on steep and erosion prone land, incentivize fencing of riparian areas, incentivize the creation of new corridors, pest control, enrichment planting and restoration.
- No comprehensive research supports the claim that incentive-based planting in the district has resulted in sporadic, adhoc development.
- There appears to be no robust analysis of the success or failures of the limited amount of enhancement subdivision that has previously been undertaken in the Franklin part of the District that had these provisions.
- Several court decisions including *Di Andre Estates Ltd v Rodney District Council*, *Arrigato Investments v Auckland Regional Council*, *Omaha Park and Cabra v Auckland Council* are useful for establishing current best practice to meet the requirements of Part 2 of the RMA.
- *Cabra v Auckland Council* case law notes that the Council could not use the fact that there may be issues with weeds, or poor fencing, as a reason to oppose the inclusion of incentive provisions in the Plan, because it had the authority and responsibility to monitor consent conditions. There are a range of enforcement mechanisms available to a council, and the ability to recover costs from a consent holder, that mean managing compliance in these areas should not be onerous for a council.
- The court in the *Cabra* case has taken a far sighted and future oriented approach to the maintenance and enhancement of biodiversity.
- The Proposed District Plan does not give effect to the New Zealand Coastal Policy Statement.
- The Proposed District Plan does not give effect to the National Policy Statement for Freshwater Management.
- The Proposed District Plan does not adopt the vision of the Waikato River Settlement Act as there is not a strong emphasis in the vision on restoration.
- The Proposed District Plan does not give effect to the Waikato Regional Policy Statement.
- The submitter supports appropriate protection of high-class soils where they are practicable and where they are alternatives to using this land. However, sustainable land management may mean that subdivision on these soils is not always inappropriate.

Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.4 The urban environment		
Summary of Decision Requested	Retain Section 1.4.4 The urban environment, subject to the amendments sought in previous submissions for Policy 4.6.3 to show that the requirements of the 2017 National Policy Statement on Urban Capacity (NPS-UDC) have been considered.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the stated approach of maintaining the productive capacity of Waikato District's rural resource and ensuring that population growth and urban development results in high – amenity urban areas. • The 'centres based' approach to retail development in Waikato District is also supported, as is accommodation of growth in a more compact urban form that is underpinned by robust master and structure planning exercises and aligned with the agreed Future Proof settlement pattern. • These approaches assist to some extent with giving effect to the WRPS' policies in respect of a strategic, integrated approach to growth and the provision of infrastructure, but should more clearly articulate the district's responsibilities and proposed responses in respect of urban growth management (see submission points on NPS-UDC – submission points 81.14 and 81.15). 		

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.8		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.4 The urban environment		
Summary of Decision Requested	No specific decision sought, however submission refers to Section 1.4.4 The Urban environment.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	433	Submitter:	Mischa Davis
Organisation:	Auckland Waikato Fish and Game Council		
Point Number	433.34		

Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.4 The urban environment		
Summary of Decision Requested	<p>Amend Section 1.4.4 (a) The Urban Environment as follows:</p> <p><i>(a) A key issue for the district is to maintain the <u>ecological integrity, natural hydrological characteristics and processes, soil stability, landscape, recreational and amenity values and productive capacity of the rural resource</u> ...</i></p> <p>AND/OR</p> <p>Any alternative relief to address the issues and concerns raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The notified statement in (a) only recognises the productive capacity of the rural resource and there are other values relevant to urbanisation and population increase. The linkages between the urban and rural environment should be acknowledged. 		

Submitter Number:	524	Submitter:	Anna Noakes
Point Number	524.7		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.4 The urban environment		
Summary of Decision Requested	<p>Retain Section 1.4.4 The urban environment, except for the amendments sought below</p> <p>AND</p> <p>Amend Section 1.4.4 (a) The urban environment, as follows:</p> <p><i>A key issue for the district is to maintain <u>and enhance</u> the productive capacity...</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> The impact of urban development on the rural environment should not restrict the productive capacity of the rural resource to existing levels. The policy should allow for enhanced rural productivity. 		

Submitter Number:	598	Submitter:	Withers Family Trust
Point Number	598.2		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.4 The urban environment		
Summary of Decision Requested	<p>Amend Section 1.4.4(a) The urban environment, as follows:</p> <p><i>(a) A key issue for the district is to maintain <u>and enhance</u> the productive capacity of the rural resource and ensure that population growth and associated built development is managed in a way that results in efficient and high-amenity urban areas.</i></p> <p>...</p>		
Decision Reasons:	<ul style="list-style-type: none"> The impact of urban development on the rural environment should not restrict the productive capacity of the rural resource to existing levels. The policy should therefore allow for enhanced rural productivity. 		

Submitter Number:	797	Submitter:	Fonterra Limited
Point Number	797.6		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.4 The urban environment		
Summary of Decision Requested	Retain Section 1.4.4 The urban environment as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The provisions provide appropriate recognition of the need to manage urban development to ensure the productive capacity of rural resources. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.7		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.4 The urban environment		
Summary of Decision Requested	Retain Issue 1.4.4- The Urban Environment as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the stated intent to maintain the Waikato District's rural resources and ensuring population growth and urban development results in high-amenity urban areas. The 'centers-based' approach of retail development is also supported, as is consolidating growth to achieve compact urban form as this better aligns with the agreed Future Proof settlement pattern. If accompanied by quality pedestrian infrastructure this will enable walkability, increased physical activity, and therefore improved health and wellbeing outcomes. A commitment to robust and comprehensive master planning and structure planning that is co-developed with local communities will help enable strong local 'place making' and positive community health and wellbeing outcomes. 		

Submitter Number:	924	Submitter:	Alice Barnett
Organisation:	Genesis Energy Limited		
Point Number	924.3		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.4 The urban environment		

Summary of Decision Requested	Add clause (c) to Section 1.4.4- Urban Environment as follows: <i>(c) In line with the Regional Policy Statement, the district plan must ensure that urban development recognises, provides for and protects existing and proposed regionally significant industry and regionally significant infrastructure.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter notes that the Proposed District Plan states that protecting the rural environment for such things as productive rural activities is a key focus for the plan and that a key issue for the urban environment is the maintenance of the productive capacity of rural resource. Whilst the submitter does not disagree with these, it considers that this must be achieved within a context that also protects existing and new regionally significant infrastructure and regionally significant industry. This is recognised in 1.4.3.2 (c) but not with respect to the urban environment in section 1.4.4. 		

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.37		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.4 The urban environment		
Summary of Decision Requested	Amend section 1.4.4(a) The urban environment, to clarify what the following sentence means: <i>Commercial activity should be of a size or function that does not compromise the vitality and viability of the primary commercial centres.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter seeks further clarification. 		

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.5 Maaori Freehold Land

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.38		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.4 Issues for Waikato district > 1.4.5 Maaori Freehold Land		
Summary of Decision Requested	No specific decision sought, but the submitter supports the acknowledgement in Section 1.4.5 Maaori Freehold Land of the burden placed on Maori landowners to satisfy Te Ture Whenua Maori Act and the Resource Management Act 1991 when attempting to utilise their land.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the plan's acknowledgement of the extra burden placed on Maori landowners to satisfy both Te Ture Whenua Maori Act and the Resource Management Act. 		

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions?

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.90		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions?		
Summary of Decision Requested	Amend Section 1.5.6 (c) Transport and logistics to correctly reference the Waikato Regional Land Transport Plan (RLTP). AND Amend Section 1.5 Transport and logistics to reference the development of a Hamilton to Auckland passenger rail service that will run through the Waikato District.		
Decision Reasons:	<ul style="list-style-type: none"> Section 1.5.6(a) Transport and logistics talks about the need to promote a more regional and holistic consideration of the interactions between land use and transport infrastructure. There is an opportunity to reference the RLTP, as a document that sets out the strategic framework for land transport in the Waikato Region, including funding. Note Section 1.5.6(c) references the Regional Land Transport Strategy. This has now been replaced under the Land Transport Management Act by the Regional Land Transport Plan and the Proposed District Plan needs to be updated to reflect this. The Proposed Plan's statement in section 1.5.6(c) that public passenger transport will be supported by urban subdivision designs that promote efficient transport routes aligns with regional planning documents. Note that discussion of commuter rail services in section 1.5.6(d) only talks about advocacy for a passenger rail service extension between Pukekohe and Pokeno. The potential for a Hamilton to Auckland passenger rail service currently being investigated should also be acknowledged. 		

Submitter Number:	372	Submitter:	Steve van Kampen
Organisation:	Auckland Council		
Point Number	372.12		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions?		
Summary of Decision Requested	Amend Section 1.5 What does this mean for Waikato district strategic objectives and directions? to include a strategic recognition regarding reverse sensitivity.		
Decision Reasons:	<ul style="list-style-type: none"> No reason provided. 		

Point Number	372.2
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions?
Summary of Decision Requested	Amend the title to Section 1.5 to read as follows: 1.5 What does this mean for Waikato District strategic objectives and directions?
Decision Reasons:	<ul style="list-style-type: none"> Proposed amendments will explicitly identify that the matters listed in section 1.5 are the district strategic objectives and directions of the Plan.
Point Number	372.3
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions?
Summary of Decision Requested	Amend Section 1.5 to provide for outcomes identified in the Hamilton-Auckland Corridor Plan, Interim Rail Business Case and Future Proof Strategy Phase 2 review AND Amend maps to provide for outcomes identified in the Hamilton - Auckland Corridor Plan, Interim Rail Business Case and Future Proof Strategy Phase 2 review.
Decision Reasons:	<ul style="list-style-type: none"> Section 1.5 -There is work underway producing the Hamilton-Auckland Corridor Plan and Interim Rail Business Case, and also carrying out the Phase 2 review of the Future Proof Growth Strategy. These processes will generate a vision for managing urban growth and development in significant parts of the Waikato District that may differ in some respects from that in the Proposed Plan as currently written.
Point Number	372.4
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions?
Summary of Decision Requested	Add to Section 1.5 - What does this mean for Waikato district strategic objectives and directions?, a new section for High Class soils as a matter of strategic direction.
Decision Reasons:	<ul style="list-style-type: none"> The protection of high class soils is a significant issue and requires its own strategic direction and objective in section 1.5.1.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.8		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions?		
Summary of Decision Requested	Amend the Proposed District Plan to incorporate the relevant issues outlined in Section 1.5 What does this mean for Waikato district strategic objectives and directions? into the respective chapters of the Plan. AND Any consequential changes necessary to give effect to the relief sought and/or concerns raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers the purpose of the plan would be better served if the issues for the district were incorporated into the respective chapters of the plan rather than contained in a separate section. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.91		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions?		
Summary of Decision Requested	Amend Section 1.5 What does this mean for Waikato district strategic objectives and directions? (including sections 1.5.1, 1.5.2 and 1.5.3) to emphasise the importance of giving priority to residential intensification in existing urban areas. The submission provides the following addition to Section 1.5.4 Urban Growth as an example: <u><i>d) Urban growth and residential development should focus on a compact urban form with growth concentrated in and around existing town centres and urban settlements.</i></u> AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the compact urban model for concentrating growth in and around existing urban settlements (towns and villages) in the Waikato District. However, more emphasis and priority needs to be placed on the compact urban model approach than allowing for urban sprawl/expansion. Residential intensification in and around towns and villages should be emphasised. This approach is weakened when new land is rezoned for suburban housing at the edges of existing urban settlements. This type of development starts to create urban sprawl and widespread residential suburban homes. The compact urban model is lost when intensification spreads instead of concentrating in and around existing centres. The consequences of such development lead to commercial services and other amenities popping up at the edge of towns and villages which reduces the amenity and vitality of existing centres. 		

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.39		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions?		
Summary of Decision Requested	Add a new section within Chapter 1.5 What does this mean for the Waikato district strategic objectives and directions?as follows (or words to similar effect): <u><i>Mineral extraction</i></u> <u><i>Waikato District contains a number of established extractive industries, including sand mining and coal mining, along with areas where extraction of mineral resources may potentially occur in the future. These activities are important to the economic wellbeing of the district, and should be effectively and efficiently utilised in a sustainable manner. These activities are commonly located in rural areas where reverse sensitivity can be an issue for established extractive industries.</i></u> AND		

Any other further or consequential amendments required.

Decision Reasons:

- The extraction of mineral resources is a productive rural activity and existing extractive activities contribute to the wellbeing of the district.
- These activities cannot be located within urban setting or where it will become vulnerable to reverse sensitivity issues.
- Productive rural activities, and mineral extraction in particular, need to be addressed in the strategic objectives and directions.

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.1 Compact urban development

Summary of Decision Requested	Retain Sections 1.5.1 Compact urban development and 1.5.1 and 1.5.1(a) Compact urban development.		
Decision Reasons:	<ul style="list-style-type: none">• Supports Identifying compact urban development as one of the strategic directions of the plan to ensure growth occurs around existing established centres.		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.37		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.1 Compact urban development		
Summary of Decision Requested	Retain the intent of Section 1.5.1 Compact urban development, except for the amendments sought below AND Amend Section 1.5.1(a) Compact urban development, italics below and either list or include a map of those towns and villages where growth is anticipated: <i>(a) The Future Proof Strategy seeks a shift in the existing pattern of land use towards accommodating growth through a more compact urban form based on concentrating growth in and around Hamilton (67%) and the larger settlements of the district (21%).</i> AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none">• The Future Proof Strategy seeks that growth is emphasised in towns and selected villages, however Section 1.5.1 needs to make it clear that growth in the Waikato District is not intended to be concentrated around Hamilton's boundaries.• The submitter supports the approach of ensuring compact urban development.		
Point Number	535.38		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.1 Compact urban development		

Summary of Decision Requested	Retain Section 1.5.1(b) Compact urban development.
Decision Reasons:	<ul style="list-style-type: none"> The expressed settlement pattern is consistent with Future Proof and the Waikato Regional Policy Statement.
Point Number	535.39
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.1 Compact urban development
Summary of Decision Requested	Retain Section 1.5.1 (c) Compact urban development.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports an integrated approach to growth and greater planning for infrastructure, services, transportation and facilities. Dialogue is welcomed on how cross boundary services (such as public transport) are provided, including the support of Huntly and Raglan residents who work in Hamilton, to minimise single car trips.

Submitter Number:	581	Submitter:	Penny Gallagher
Organisation:	Synlait Milk Ltd		
Point Number	581.1		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.1 Compact urban development		
Summary of Decision Requested	Retain Section 1.5.1(c) Compact Urban development as notified.		
Decision Reasons:	<ul style="list-style-type: none"> This clause recognises the need for an integrated approach to growth to provide certainty to landowners and to inform long-term investment decisions. Synlait relies on Council to implement policies to integrate infrastructure with development, including wastewater, water and roading in a manner that anticipates and provide for heavy industry at the 45 McDonald Road, Pokeno site. Reliant on the Council to implement policies that will protect significant capital investment in the dairy industry from sensitive activities that may demand more restrictive environmental conditions. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.164		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.1 Compact urban development		
Summary of Decision Requested	No specific decision sought, however the submission requests Council to demonstrate how Objective 1.5.1 (b) Compact urban development is going to be achieved by rezoning of land around towns and key villages. The submission states that Country Living Zone lots could be smaller and serviced near key villages and towns to avoid the minimum 2,500m2 regional plan requirement for non-reticulated sites.		
Decision Reasons:	<ul style="list-style-type: none"> This is not readily apparent how the likely demand is without taking up large tracts or rural production land for the Country Living Zone. Council's 'one site fits all' approach could be more flexible and tailored to locality specific approaches to lot sizes.

Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the District's settlement pattern as it is consistent with Future Proof and the Regional Policy Statement. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.165		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.4 Urban growth		
Summary of Decision Requested	No specific decision sought, however submission considers that it is unclear from the objectives and policies how the Regional Policy Statement Policy 6.17.1 will be		

realistically achieved without a strong applied focus and mechanism on developing towns and villages (in regards to Section 1.5.4(c) Urban Growth).

Decision Reasons:

- Policy 6.17.1 of the WRPS 2016 states that the WDC shall include provisions in the District Plan to give effect to Policy 6.17.
- It remains unclear from reading the objectives and policies how this is going to be realistically achieved.
- Leaving it all to prevail in a one-size-fits-all Country Living Zone ad-hoc approach to manage rural demand is likely to undermine achieving the urban form objectives.
- Latent rural demand - which has been a strong growth driver in recent years - does not yet appear to be managed through a robust planning approach.

Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure

Summary of Decision Requested	Retain Sections 1.5.5 (f) and (g) Services and general infrastructure.
Decision Reasons:	<ul style="list-style-type: none"> Supports the directive for consultation between the organisations responsible for the infrastructure, developers, adjoining landowners and iwi and adjoining consent outcomes. Support strategic recognition of reverse sensitivity.
Point Number	372.9
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure
Summary of Decision Requested	Retain Section 1.5.5 (e) Services and general infrastructure.
Decision Reasons:	<ul style="list-style-type: none"> Support the directive for consultation between the organisations responsible for the infrastructure, developers, adjoining landowners, and iwi and adjoining consent authorities.

Submitter Number:	394	Submitter:	Gwenith Sophie Francis
Point Number	394.4		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure		
Summary of Decision Requested	<p>Amend Section 1.5.5 Services and general infrastructure, to signal that land close to urban infrastructure (main roads, and water or wastewater services) will be prioritised for urbanisation.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential or further additional relief, as is appropriate to give effect to the intent of the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The Proposed Waikato District Plan fails to appropriately identify the issues and challenges facing Waikato District; The Proposed Waikato District Plan fails to have appropriate regard to relevant National Policy Statements including that on Urban Development Capacity; The Proposed Waikato District Plan fails to have appropriate regard to the Regional Policy Statement and/or misapplies the strategic direction of that document; and Council has failed to undertake an adequate section 32 analysis, particular with respect to the extent and location of potential countryside living; The Proposed Waikato District Plan fails to identify sufficient and appropriately located areas for countryside living - particularly where there is good access to appropriate infrastructure. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.1		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure		
Summary of Decision Requested	<p>Retain the intent of Section 1.5.5(f) Services and general infrastructure except for the amendments sought below;</p> <p>AND</p> <p>Amend Section 1.5.5(f) Services and general infrastructure to strengthen when and with whom.</p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter would invite stronger direction being stated to ensure a clear understanding of the importance of having dialogue with both iwi and adjoining councils. The submitter is particularly seeking direction from the Proposed District Plan on when users and potential consent applicants are to engage with the City on proposals within the City's Area of Interest. 		
Point Number	535.2		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure		
Summary of Decision Requested	Retain Section 1.5.5(g) Services and general infrastructure.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports an integrated approach to growth and the need for greater planning for infrastructure, services, transportation and facilities. The submitter welcomes dialogue on how cross-boundary services (such as public transport) are provided to Huntly or Raglan residents who work in Hamilton, to minimise single car trips. 		
Point Number	535.45		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure		
Summary of Decision Requested	<p>Amend Section 1.5.5(a) Services and general infrastructure, by clarifying what core services are anticipated to be shared and actively work together to discuss intentions and their implications for Hamilton City Council.</p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter is concerned what is meant by the sentence in clause (a) which reads: "Development patterns that promote the efficient use of new and existing infrastructure and services across boundaries can contribute significantly to improved cost effectiveness, to the general health and wellbeing of communities and help safeguard the environment ..." Separate service agreements and funding mechanisms agreed with Hamilton City Council would need to be secured if services are to be shared and there should be no assumption that this will occur. 		

Point Number	535.46
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure
Summary of Decision Requested	Amend Section 1.5.5(b) Services and general infrastructure, by clarifying what core services are anticipated to be shared and actively work together to understand what core services are anticipated to be shared and the implications of this on Hamilton City Council. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.
Decision Reasons:	<ul style="list-style-type: none"> The submitter is concerned what is implied by the sentence in clause (b) which reads: "It is important that the district share the provision of core services with neighbouring council service providers, particularly in the north and south." Separate service agreements and funding mechanisms agreed with Hamilton City Council would need to be secured if services are to be shared and there should be no assumption that this will occur.
Point Number	535.47
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure
Summary of Decision Requested	Retain Section 1.5.5(c) Services and general infrastructure.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports a consistent approach to infrastructure and the effects of it across territorial boundaries.
Point Number	535.48
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure
Summary of Decision Requested	Retain Section 1.5.5 (d) Services and general infrastructure.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the need for a consistent approach to infrastructure and the effects of it across territorial boundaries.
Point Number	535.49
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure
Summary of Decision Requested	Retain Section 1.5.5(e) Services and infrastructure.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports consultation between relevant parties when cross-boundary issues are considered.
Point Number	535.92
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure
Summary of Decision Requested	Retain the intent of Section 1.5.5 Services and general infrastructure, except for the amendments outlined elsewhere in the submission.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of the issue subject to the specific amendments sought below.

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.2		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure		
Summary of Decision Requested	Retain Section 1.5.5 (a) Services and general infrastructure, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports recognition within the section that inappropriate subdivision and use and development can adversely affect regional infrastructure. 		
Point Number	576.3		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure		
Summary of Decision Requested	Retain Section 1.5.5 (d) Services and general infrastructure, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports recognition within the section of the need for a consistent approach, and protection of regionally and nationally significant infrastructure. Such an approach is consistent with the NPSET. 		
Point Number	576.4		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure		
Summary of Decision Requested	Retain Section 1.5.5 (f) Services and general infrastructure, except for the amendments sought below AND Amend Section 1.5.5 (f) Services and general infrastructure as follows: <i>(f) There are key transmission lines located in the district. <u>The transmission of electricity in the National Grid plays a vital role in the well-being of New Zealand, its people and communities. The national significance of the National Grid is recognised in the National Policy Statement on Electricity Transmission 2008. Environmental effects of the National Grid are often experienced at a district level while the benefits of the National Grid extend to a regional or national level. These effects are a result of particular physical</u></i>		

characteristics and operational/technical requirements and may not always be able to be avoided or mitigated. The lines are critical for ensuring an efficient and secure supply of electricity throughout the district and beyond. In accordance with the National Policy Statement on Electricity Transmission 2008 and the Regional Policy Statement, the Council is required to manage development to ensure that any third party subdivision, land use and development in the transmission corridor does not affect the ongoing operation, maintenance, upgrading, and development of the lines or result in any incompatibility or reverse sensitivity effects. It is important that Council manages third party activities subdivision, land use and development in the vicinity...

AND

Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.

Decision Reasons:

- The submitter supports Section 1.5.5 (f) as the clause accurately reflects the issue of the effect of subdivision, land use and development activities on the National Grid.
- The submitter prefers the term 'subdivision, land use and development' over 'third party' in this context as it more appropriately relates to the activity as opposed to tenure.
- However, while the statement is supported, subdivision, land use and development are only one component of matters identified in the NPSET (refer to Policies 10 and 11 of the NPSET).
- Policy 1 of the NPSET requires recognition of the National Grid, and Policies 2-9 relate to managing the environmental effects of transmission.
- In order to give effect to the NPSET, the submitter supports amendment to the section to recognize the other two matters provided in the NPSET, being the benefits of the National Grid, and the environment effects of transmission.

Submitter Number:	581	Submitter:	Penny Gallagher
Organisation:	Synlait Milk Ltd		
Point Number	581.2		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure		
Summary of Decision Requested	Retain Section 1.5.5(c) Services and general infrastructure as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The clause recognises that growth should be managed to avoid, remedy or mitigate conflicts or incompatibilities (including reverse sensitivity effects) • Synlait relies on Council to implement policies to integrate infrastructure with development, including wastewater, water and roading in a manner that anticipates and provide for heavy industry at the 45 McDonald Road, Pokeno site. • Reliant on the Council to implement policies that will protect significant capital investment in the dairy industry from sensitive activities that may demand more restrictive environmental conditions. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.166		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure		
Summary of Decision Requested	No specific decision sought, however the submission considers Section 1.5.6(d) Transport and Logistics is uninformed, open ended and inaccurate.		
Decision Reasons:	<ul style="list-style-type: none"> • The rail systems investment is small compared to the road corridor has not been realigned and upgraded like the road. • The last significant investment between Hamilton and Auckland was the doubling of part of the rail route in the 1930s. • Most of the route is prone to rail buckling due to poor engineering standards. • The 40km/hr maximum in 22 degrees Celsius between Hamilton and Auckland does not compare to the 115km/hr maximum in 40 degrees in Australian rails. • Queensland tilt trains (passenger, diesel, electric) travel over similar terrain as in between Auckland and Hamilton, at 160km/hr. • Rail is best suited to bulk volumes of freight and passengers between key centres due to its greater fuel efficiency from steel wheel on steel rail for the same tonne moved. • Rail does not have the significant subsidisation that road funding has from various sources. • Rail use improves safety, reduces fuel energy use per tonne moved when ideal capacities are available, and allows road investment and capacity to last longer. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.12		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure		
Summary of Decision Requested	Retain 1.5.5- Services and general infrastructure as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Compact urban form if accompanied by quality pedestrian infrastructure will improve health and wellbeing outcomes. 		

Submitter Number:	924	Submitter:	Alice Barnett
Organisation:	Genesis Energy Limited		
Point Number	924.4		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure		
Summary of Decision Requested	<p>Amend Section 1.5.5 (d)-Services and general infrastructure as follows or words to like effect:</p> <p><i>The district needs to ensure the protection of regionally and nationally-significant infrastructure, to e.g. electricity generation infrastructure and energy corridor, road and rail transport corridors, gas and transmission corridors and water infrastructure</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • The use of "i.e." in the paragraph leads the reader to a specific interpretation limited to the infrastructure listed. The submitter submits that it would be more appropriate to use "e.g." to ensure that the listed infrastructure are identified as examples (and not an exhaustive list) of the regionally and nationally significant infrastructure. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.2		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.5 Services and general infrastructure		
Summary of Decision Requested	Retain Section 1.5.5(a), (b), (c), (d), (e) and (g) Services and Infrastructure as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Like other long linear networks, the rail network is unable to easily be relocated. Therefore, KiwiRail submits that mitigation of the effects of new or altered development in the surrounding area and managing reverse sensitivity effects (a) is fundamental to ensuring that the rail network can operate and be maintained efficiently, as well as ensuring that the residents and communities of the region are provided with an appropriate quality of life. Land transport networks need to be integrated and coordinated (b) and (e) and protected from the adverse effects of other activities (c). Consistent Plan wide provisions which enable the effective and efficient operation of infrastructure and protect it from incompatible activities being established in close proximity is important for KiwiRail in continuing to provide rail services within the District (d). In addition, the rail network is infrastructure that has the potential to adversely impact on the social and economic wellbeing, as well as the health and safety, of the community if not able to operate efficiently, effectively and safely. KiwiRail therefore support Council in working to ensure that the infrastructure is protected and can operate appropriately (g). 		

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.6 Transport and logistics

Point Number	535.3		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.6 Transport and logistics		
Summary of Decision Requested	Retain the intent of Section 1.5.6 Transport and logistics, except for the amendments sought below. AND Amend Section 1.5.6(a) Transport and logistics, by placing greater emphasis on the regional management of transport. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of issue 1.5.6 Transport and logistics but considers that greater emphasis needs to be placed on the regional management of transport. The submitter supports the statement that reads: "There is a need to promote a more regional and holistic consideration of the interactions between land use and transport infrastructure." 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.350		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.6 Transport and logistics		
Summary of Decision Requested	Amend Rule 1.5.6(e) Transport and logistics to remove the reference to international as follows: ... Hamilton Airport, located just outside the district, provides national and international passenger and freight services....		
Decision Reasons:	The Hamilton Airport no longer accommodates international flights.		

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		

Point Number	831.16
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.6 Transport and logistics
Summary of Decision Requested	Amend Section 1.5.6 Transport and logistics, to acknowledge the parking issues in towns and recreation areas and preferred solutions, such as pay and display and sign posting.
Decision Reasons:	<ul style="list-style-type: none"> • New Zealand Transport Agency's AADT figures indicate traffic has roughly doubled in the last couple of decades. Additional parking has been provided, but it is never enough. • The Raglan Community Board has expressed interest in pay and display.
Point Number	831.77
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.6 Transport and logistics
Summary of Decision Requested	Amend Section 1.5.6 Transport and Logistics, to include the importance and effect of Ultra Fast Broadband in allowing businesses to develop and reduce transport needs.
Decision Reasons:	<ul style="list-style-type: none"> • Internet and broadband are each only mentions in the definition section of the Proposed District Plan. • Facilitate rollout of Ultra Fast Broadband to allow businesses to connect with the global business community. • Raglan Club and Yacht Club are in Raglan's town centre and have had problems associated with them, including noise and financial viability.

Point Number	923.13		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.6 Transport and logistics		
Summary of Decision Requested	Retain 1.5.6- Transport and logistics as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Compact urban form if accompanied by quality pedestrian infrastructure will improve health and wellbeing outcomes. 		
Point Number	923.15		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.6 Transport and logistics		
Summary of Decision Requested	Amend Clause 1.5.6 (c)- Transport and Logistics to correctly reference the Waikato Regional Land Transport Plan.		
Decision Reasons:	<ul style="list-style-type: none"> • Clause 1.5.6 (c) Should reference the Waikato Regional Land Transport Plan, as it includes objectives and policy related to transport and logistics and transport, and land use and land transport integration. • 1.5.6 (c) References the Regional Land Transport Strategy which has now been replaced under the Land Transport Management Act by the Regional Land Transport Plan. • Is important in promoting connected communities and positive public health and wellbeing outcomes. 		
Point Number	923.17		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.6 Transport and logistics		
Summary of Decision Requested	Amend Clause 1.5.6 (c)- Transport and Logistics to correctly reference the Waikato Regional Public Transport Plan.		
Decision Reasons:	<ul style="list-style-type: none"> • The narrative on public transport and urban subdivision would benefit from reference to Regional Public Transport Plan, containing specific objectives, policies, services and service frequencies for public transport in the Waikato District. • Important in promoting connected communities and positive public health and wellbeing outcomes. 		

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.39		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.6 Transport and logistics		
Summary of Decision Requested	Consider an alternative transport route in the event that State Highway 23 is inaccessible.		
Decision Reasons:	<ul style="list-style-type: none"> • Dual routes should be considered in case accidents occur on State Highway 23. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.3		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.6 Transport and logistics		
Summary of Decision Requested	Retain Section 1.5.6(a) and (d) Transport and Logistics as notified.		

Decision Reasons:

- KiwiRail supports recognition of the importance of land transport networks to the District (a) and the rail network (d) as significant infrastructure networks and seeks that recognition is provided for the social, economic, environmental, and health and safety benefits to the community that arise from those networks.

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.7 Natural environment

Submitter Number: 330 **Submitter:** Andrew and Christine Gore

Point Number 330.13

Plan chapter Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.7 Natural environment

Summary of Decision Requested No specific decision sought, however submission refers to Section 1.5.7 Natural Environment.

Decision Reasons:

- No reasons provided.

Submitter Number: 535 **Submitter:** Lance Vervoort

Organisation: Hamilton City Council

Point Number 535.4

Plan chapter Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.7 Natural environment

Summary of Decision Requested **Retain** Section 1.5.7(a) Natural Environment, except for the amendments sought below.

AND

Amend 1.5.7(a) Natural environment, by deleting the reference to "adjoining authorities" and replacing with "adjoining territorial authorities".

AND

Any consequential amendments and/or additional relief required to address the matters raised in the submission.

Decision Reasons:

- The term "adjoining authorities" is ambiguous whereas "adjoining territorial authorities" may provide clarity.

Submitter Number: 680 **Submitter:** Federated Farmers of New Zealand

Point Number 680.12

Plan chapter Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.7 Natural environment

Summary of Decision Requested **Delete** Section 1.5.7(a) Natural environment

OR

Amend Section 1.5.7(a) Natural environment as follows

The Council will ensure that adjoining authorities ~~and the regional council~~ are informed of ~~any~~ resource consent applications received for vegetation clearance located on the district boundary. The location of indigenous vegetation...

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter considers this section to be an unnecessary duplication of the cross-boundary issues addressed under Section 1.5.3 and 1.5.7.1(a).
- In most vegetation-clearance situations, it would be completely unnecessary to involve all adjoining authorities and the regional council. In fact, it may only occasionally be appropriate for such involvement in relation to cross-boundary clearance of significant indigenous vegetation.

Point Number 680.13

Plan chapter Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.5 What does this mean for Waikato district strategic objectives and directions? > 1.5.7 Natural environment

Summary of Decision Requested **Add** to Section 1.5.7 Natural environment new provisions as follows:

(#) Reconciling the tension between the private cost and public benefit of protecting and managing the District's natural environment.

(##) Increase public recognition and understanding of the District's natural environment, the associated values and the respective responsibility that the public and private landowners assume in its ongoing management and protection.

(###) Develop a range of non-regulatory mechanisms that encourage, assist and facilitate the protection, maintenance or enhancement of the District's Significant Natural Areas and Outstanding Natural Landscapes.

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter states that this requested relief relates to their submission points raised in Section Two General Comments above. In this regard, Sections 2.15 and 2.16 of the submission read as follows:

Our members strongly support a planning approach which recognises that landowners play a principle role as managers (and financiers) of the region's natural and physical resources. They also support plans that are truly effects-based and do not unnecessarily inhibit or pose constraints on farming activity. Landowners are proactive resource managers who rely on their properties natural and physical resources for their farming business. It is entirely in their best interest to manage their land sustainably.

Farmers are the most efficient agents for achieving on-farm good practice, as farmers are where the 'rubber hits the road' for land management. To that end, Federated Farmers actively encourage non-regulatory methods to achieve and encourage good practices. There are substantial existing drivers for farmers to ensure that their on-farm practices meet environmental standards. The lack of non-regulatory methods proposed in the PDP is a significant concern.

Organisation:	Tainui		
Point Number	942.46		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.6 Ngaa Iwi o Tainui ki te Waikato Takiwa		
Summary of Decision Requested	Amend Section 1.6(c) Ngaa Iwi o Tainui ki te Waikato Takiwa to recognise that Tainui Hapu Environmental Management Committee is a mandated organisation under the Resource Management Act for the Tainui Iwi of Whaingaroa.		
Decision Reasons:	<ul style="list-style-type: none"> Section 35A of the Resource Management Act provides for groups that represent hapu for the purposes of the Resource Management Act to request that the Crown includes the required information for that hapu in the record which can be accessed by relevant local authorities. While it is acknowledged that Te Whakakitenga o Waikato Incorporated Society (Waikato Tainui) are recognised for Raupatu matters, the submitter does not agree they should be authoritative representative of their 12 hapu for Resource Management issues. All matters regarding decision-making about resource management within the Tainui rohe remain with Tainui.

Submitter Number: 330 **Submitter:** Andrew and Christine Gore

Point Number 330.36

Plan chapter Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.10 Integration of district plan with other plans and documents > 1.10.3 The Relationship between district plans and other resource management planning documents > 1.10.3.4 National Environmental Standards

Summary of Decision Requested No specific decision sought, however submission refers to Section 1.10.3.4 National Environmental Standards.

Decision Reasons:

- No reasons provided.

Submitter Number: 680 **Submitter:** Federated Farmers of New Zealand

Point Number 680.19

Plan chapter Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.10 Integration of district plan with other plans and documents > 1.10.3 The Relationship between district plans and other resource management planning documents > 1.10.3.4 National Environmental Standards

Summary of Decision Requested **Amend** Section 1.10.3.4 (b) National Environmental Standards as follows:

National Environmental Standards are regulations issued under sections 43 and 44 of the RMA and apply nationally. This means that each regional, city or district council must enforce the same standard. In some circumstances, councils can impose stricter standards. The land use activities over which respective NESs apply will be considered as permitted activities under this plan.

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter understands the hierarchy of planning instruments and Council's intent to not duplicate land use controls for activities to which respective National Environmental Standards ('NESs') apply.
- The submitter considers it appropriate for the Proposed District Plan to be more explicit in terms of the relationship between the NESs and the rules framework within the plan. This lack of connection between the two is of particular concern when a 'catch all' rule like NCS is proposed.

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district

Submitter Number: 12 **Submitter:** Carl Ammon

Point Number 12.3

Plan chapter Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district

Summary of Decision Requested **Retain** Section 1.12 Strategic directions and objectives for the district, in particular the focus on limiting urban spread and loss of productive and valuable land, except for the amendments sought below

AND

Amend Section 1.12 Strategic directions and objectives for the district to provide a stronger priority on environmental issues in respect to water and soil and the restoration of the natural environment.

AND

Amend Section 1.12 Strategic directions and objectives for the district to provide greater flexibility for alternative approaches in the urban development model, like housing.

Decision Reasons:

- This strategy means that little change will occur and the scale of degradation will outweigh the areas being preserved and protected.
- These are good strategies, but lack a brave and vital level of aspiration.
- Focusing on limiting urban spread and loss of productive and valuable land is a positive.
- Providing greater flexibility for alternative approaches in areas like housing is afforded to address the urban development model that has prevailed to date.

Decision Reasons:

Submitter Number: 330 **Submitter:** Andrew and Christine Gore

Point Number 330.45

Plan chapter Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district

Summary of Decision Requested No specific decision sought, however submission refers to Section 1.12 Strategic directions and objectives for the district.

Decision Reasons:

- No reasons provided.

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.3		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district		
Summary of Decision Requested	<p>Amend Section 1.12 Strategic directions and objectives for the district to include clarification in 1.12 as to the purpose of the strategic directions and objectives and how they function within the wider framework of the Plan.</p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the direction of the provisions in 1.12 however, the purpose and status of these provisions is unclear. Clarification is required as to how they work within the wider framework of the Proposed District Plan. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.92		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district		
Summary of Decision Requested	Retain Section 1.12 Strategic directions and objectives for the district as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the strategic directions and objectives to achieve a more compact and concentrated urban form over the next 30 years in the Waikato district, in particular to provide a wide variety of housing forms and offering a range of affordable options. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.23		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district		
Summary of Decision Requested	Amend Sections 1.12.1-1.12.8- Strategic directions and objectives for the District by redrafting them as a set of specific objectives and policies.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Sections 1.12.1-1.12.8 in part, but seeks clarity in whether these provisions are to be considered as strategic objectives or strategic desired outcomes. The distinction between objectives and outcomes is significant for evaluation of resource consent applications pursuant to section 104 RMA. 		

Submitter Number:	939	Submitter:	David Totman
On behalf of:	Waipa District Council		
Point Number	939.2		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district		
Summary of Decision Requested	Retain the strategic directions and objectives as set out in Section 1.12- Strategic directions and objectives for the district.		
Decision Reasons:	<ul style="list-style-type: none"> Waipa Council is supportive of the Proposed Waikato District Plan's strategic directions and objectives as a Future Proof partner. 		

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.1 Strategic direction

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.46		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.1 Strategic direction		
Summary of Decision Requested	No specific decision sought, however submission refers to Section 1.12.1 Strategic direction.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	445	Submitter:	Heather Perring
Organisation:	BTW Company		
Point Number	445.1		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.1 Strategic direction		

Summary of Decision Requested	Retain the urban growth and strategic development directions in Section 1.12.1 Strategic direction AND Amend or add provisions to encourage structure planned growth cells and comprehensively developed areas where they are in accordance with urban design guidelines and settlement patterns, and where it can be demonstrated that the adverse effects of land use and development can be adequately avoided, remedied or mitigated.
Decision Reasons:	<ul style="list-style-type: none"> • BTW Company supports the strategic direction of the Proposed District Plan - in particular Section 1.12.1 master planning approach for meeting the National Policy Statement - Urban Development Capacity housing supply targets and Future Proof growth objectives, as a flexible and integrated basis for achieving quality and efficient urban growth outcomes for the Waikato District. • The submitter also supports the rezoning of land to residential around existing towns or villages. • However, the use of master or structure planning has not been carried through to all relevant sections of the Proposed District Plan to comprehensively and effectively implement this strategic direction.

Submitter Number:	524	Submitter:	Anna Noakes
Point Number	524.10		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.1 Strategic direction		
Summary of Decision Requested	Retain Section 1.12.1 Strategic direction, except for the amendments sought below AND Delete Section 1.12.1.(b) and (c) Strategic direction.		
Decision Reasons:	<ul style="list-style-type: none"> • Oppose in part. • The policy relating to the use of Master Plans where adherence to the Plans may change the activity status of a proposal is questioned. • The Environment has questioned the legality of the use of Structure Plans/Master Plans and the like where the activity status of a proposal is determined through such documents. • The need for owners of properties within a 'Structure Plan' area to collaborate over development in accordance with 'required' Structure Plan provisions is questionable. • Future Proof is a dynamic document and will undergo change throughout the term of the plan and reference to the current document may be misleading. • It is not clear in the document what is meant by Master Plans and where they are referenced in the rules 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.5		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.1 Strategic direction		
Summary of Decision Requested	Amend Section 1.12.1 Strategic direction, to provide an understanding of the location and forms of development that are sought and how the district will accommodate the growth projected in the National Policy Statement - Urban Development Capacity. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • This section of the Proposed Plan is one of the key opportunities for Council to signal how it wishes to manage and grow its district. • While there are some general references to the Future Proof Strategy, the need for master planning and the need to consider the National Policy Statement - Urban Development Capacity, this section could be strengthened to help the reader better understand any particular geographical focus and what forms of development Council wishes to foster. In particular - how Council intends on prioritising growth in its towns and villages, how it intends to accommodate the growth projected in work that has responded to the National Policy Statement - Urban Development Capacity and what way it is building in commitments to a compact urban form. 		

Submitter Number:	598	Submitter:	Withers Family Trust
Point Number	598.4		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.1 Strategic direction		
Summary of Decision Requested	Delete Section 1.12.1 (b) and (c) Strategic direction.		
Decision Reasons:	<ul style="list-style-type: none"> • The policy relating to the use of master plans where adherence to the plans may change the activity status of a proposal is questioned. The Environment court has questioned the legality of structure plans and master plans and the like which determine the activity status of a proposal. Further, it is not clear what is meant by master plans and where they are referenced in the rules (despite reference to them in Policy 4.7.14). 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.2		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.1 Strategic direction		
Summary of Decision Requested	Retain Section 1.12.1 Strategic direction, except for the amendments sought below AND Amend Section 1.12.1 Strategic direction to include a new clause (g) as follows : <i>Work is currently being undertaken on the Hamilton-Auckland Corridor Plan. This work will generate a vision for managing urban growth and development in significant parts of the Waikato District. It is anticipated that plan changes will be required to reflect the contents of the Corridor Plan once finalised.</i>		

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- There is work underway to develop the Hamilton - Auckland Corridor Plan. This work will generate a vision for managing urban growth and development in significant parts of the Waikato District that may differ in some respects from that in the PWDP as currently drafted.
- Changes will be required to the Proposed Waikato District Plan to reflect the Hamilton to Auckland Corridor Plan in the future by way of plan change or variation. In the meantime the submitter requests that the PWDP is amended to recognise that work is being undertaken at the current time in this area.

Point Number

942.4

Plan chapter

Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.1 Strategic direction

Summary of Decision Requested

Add the following activities as permitted activities on Maori Freehold Land on Riria Kereopa Drive:

- Facilities for surface water activities;
- Recreation;
- Kohanga reo;
- Education facilities;
- Public toilets;
- Camp site, grocery or boating store and marae;
- Restaurant;
- Conference facilities;
- Traveller's accommodation.

AND

Amend Section 1.12.1 Strategic Direction to recognise the Tihei Mauriora Plan.

Decision Reasons:

- The submitter has requested provisions to facilitate and bring to fruition the vision contained in the Tihei Mauriora Plan.
- This Tihei Mauriora Plan was presented and taken in to account in two previous District Plans.
- The submitter seeks an exception from the Maori Freehold Rules to have this plan accepted in its entirety as there are several stages to complete, before long term benefits to whanau and the local community of employment and self-sufficient economic growth can be realised.

Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.2 Natural environment

Summary of Decision Requested

Amend Section 1.12.2 Natural Environment as follows:

(a) A district that values protects its natural habitat and ecological values and retains its significant landscape features.

(b) A district that acknowledges the tension between the private cost and public benefit of maintaining or enhancing the District's natural environment.

(c) A district that where retains the natural character of its rural areas and has access to the public open space is available for public enjoyment and use and well used by the community.

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter considers the Proposed District Plan to be overly simplistic and unbalanced in its identification of the significant issues and strategic direction being taken by the district.

- The lack of recognition or acknowledgement that tensions can be created when private cost is over relied on to achieve public benefit is a significant concern for our members.
- There are impacts caused by natural environment and historic heritage provisions as many of these sites are located on private land. Our members value the natural environment and historic heritage, but often the unknown costs or implications of a policy approach can create a perception that these areas are a liability rather than an asset.
- When developing policies around the natural environment and heritage, the impacts on resource users must be addressed. Council's mechanisms to manage or enhance them should include encouragement for resource users. If the effects on landowners are ignored it could be perceived that natural environment resources are a hindrance and a liability, resulting in negative consequences all around.
- The submitter seeks policies which provide recognition of the private efforts which have created public good resources, and non-regulatory methods that assist landowners help to create win-win outcomes - which should be the ultimate goal.
- Furthermore, the submitter considers the purpose and intent of (c) in the notified version of the Proposed District Plan to be unclear and confusing as presently worded, and seek that this be set forth more clearly.

Decision Reasons:

Plan chapter: Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.3 Built environment

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.77		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.3 Built environment		
Summary of Decision Requested	Amend Section 1.12.3 Built environment to clarify whether these are to be considered as strategic objectives or desired outcomes. If they are to be objectives, rewrite in the style of objectives, indicate the connections to relevant policies, and consider other relief sought for a separate chapter on the Strategic Direction of the Proposed Plan, and whether these sections would sit better there.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports section 1.12.3 in part, but seeks clarity about whether these provisions are to be considered as strategic objectives, or desired strategic directions/outcomes. 		

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.48		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.3 Built environment

Plan chapter

Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.8 Strategic objectives

Summary of Decision Requested

Retain the objective of ensuring that subdivisions are located, designed and staged to support infrastructure such as stormwater, parks and open space networks.
AND

Provide the important linkages from future planned urban development settlements in both residential and commercial areas to the expressway, and to invest in areas that are along the transport corridor.

Decision Reasons:

- It is important to ensure that subdivisions are located, designed and staged to support infrastructure such as stormwater, parks and open space networks.
- The Plan needs to utilise the Waikato Expressway, which is set to be completed in 2020.
- Connectivity is important to unlock the district's growth potential.
- The new expressway will result in different patterns of development along with providing alternative transport options. Monitoring this closely and providing local links to the new expressway is important.
- Providing these linkages aligns with Waikato Economic Development Roadmap 2012 and 2015, which was designed to improve connections and the districts infrastructure.
- The submitters support the council working with Auckland Council, Auckland Transport and the New Zealand Transport Agency considering the extending passenger rail service between Pukekohe and Pokeno, and its eventual extension to Hamilton City.
- It is vital that future urban growth is developed close to the transport hubs. This will support transport in either direction and the district's connectivity to Auckland.

Plan chapter

Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.8 Strategic objectives

Summary of Decision Requested

Add two new clauses (vii) and (viii) to Section 1.12.8 (b) Strategic objectives as follows:

(b) In summary, the overarching directions include the following:

...

(vii) promote the on-going operation and development of rural production activities, including rural industry and services

(viii) plan for future development and growth that supports the district's rural communities and rural economy.

AND

Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- The directions in Section 1.12.8 (b) fail to recognise the need to provide and plan for growth of the rural economy and communities.
- The section 32 report notes that the rural area contains up to 72% of the district businesses and 52% of the population. Planning for future rural growth is as important as planning for future urban growth.
- It is relevant that a direction should be included to ensure the on-going vitality and sustainable growth of rural communities.

Submitter Number: 680 **Submitter:** Federated Farmers of New Zealand

Point Number 680.22
Plan chapter Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.8 Strategic objectives

Summary of Decision Requested **Amend** Section 1.12.8 (b) (vi) Strategic objectives as follows :

(vi) Protect and enhance public green open space, outstanding landscapes and areas of cultural, ecological, historic, and environmental significance from inappropriate use and development.

AND

Add to Section 1.12.8 (b) Strategic objectives the following:

(vii) Reconciling the tension between the private cost and public benefit of maintaining or enhancing the District's natural environment and historic heritage.

(viii) Acknowledge the continued use of rural areas for productive rural activities and other land and soil resource-dependent rural-based activities, as well as access to and the extraction of mineral resources, are important to the economic health and well-being of the district and wider subregion.

(ix) Active participation of landowners is seen as vital to the maintenance and enhancement of indigenous biodiversity. The Council will work with landowners, recognise their stewardship and current management practices, and will promote the use of non-regulatory methods, including assistance with the establishment of protective covenants, service delivery, education, and other incentives.

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter is disappointed at the urban-centric focus and nature of this summary of strategic objectives. The importance of the primary production sector to this district should be a key consideration for the overarching direction of this plan.
- Rural landowners take great pride in their work, stewardship of their land and their economic contribution to their local community.
- Section 1.4.2 (page 7) states that economic growth can be largely attributed to primary industry, which as of 2014 accounts for more than a third of the district's GDP.
- Submitter asks to adopt a more balanced and considered approach to the strategic objectives of this Proposed District Plan. One which is more consistent with the purpose and intent of the Resource Management Act 1991 ('RMA') and direction in the Waikato Regional Policy Statement ('WRPS').

Submitter Number: 742 **Submitter:** Kim Harris-Cottle

Plan chapter Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.8 Strategic objectives

Summary of Decision Requested **Retain** Section 1.12.8 Strategic objectives, except for the amendments sought

AND

Amend 1.12.8 Strategic objectives to delete reference to "paragraphs 4.1.1 - 4.1.7" and replace with "paragraphs 1.12.1 - 1.12.7".

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- This reference appears to be an error.

Submitter Number: 827 **Submitter:** New Zealand Steel Holdings Ltd

Point Number 827.40
Plan chapter Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.8 Strategic objectives

Summary of Decision Requested **Amend** Section 1.12.8 Strategic objectives as follows (or words to similar effect):

(a) The matters set out in paragraphs 1.4.1.1 - 4.1.7.4.4 provide the overarching...

(vi) Supporting productive rural activities, including mineral extraction...

AND

Any other further or consequential amendments required.

Decision Reasons:

- The extraction of mineral resources is a productive rural activity and existing extractive activities contribute to the wellbeing of the district.
- These activities cannot be located within urban setting or where it will become vulnerable to reverse sensitivity issues.
- Productive rural activities, and mineral extraction in particular, need to be addressed in the strategic objectives and directions.

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.4		
Plan chapter	Section A Plan Overview and Strategic Directions > Chapter 1: Introduction > 1.12 Strategic directions and objectives for the district > 1.12.8 Strategic objectives		
Summary of Decision Requested	<p>Amend Section 1.12.8 Strategic objectives as follows (or similar amendments to achieve the requested relief):</p> <p><i>(a) The matters set out in paragraphs 4.1.1 – 4.1.7, 1.12.1 – 1.12.7 provide the overarching directions for the development of the objectives, policies and other provisions within the district plan.</i></p> <p><i>(b) In summary, the overarching directions include the following:</i></p> <p><i>(i) Urban development takes place within areas identified for the purpose in a manner which utilises and integrates land and infrastructure most efficiently</i></p> <p>AND</p> <p><i>Any consequential amendments to link and/or accommodate the requested changes.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> There is a need to plan for and protect regionally significant infrastructure from the adverse effects of inappropriate urban development. The two elements should be integrated, supportive and beneficial. Urban development should not only be sited so as to utilise existing or planned infrastructure most effectively, it must also be located where it minimizes impacts on infrastructure (such as regional land transport networks) to allow them to operate effectively. The concept of integration of both infrastructure and development is a critical Plan theme which should be referenced here by changing the policy so that it promotes integration. Paragraph 1.12.8 refers to "paragraphs 4.1.1-4.1.7", which appears to be an error and should presumably refer to 1.12.1-1.12.7. 		

Plan chapter: Section B Objectives and Policies

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.191		
Plan chapter	Section B Objectives and Policies		
Summary of Decision Requested	<p>Amend Chapters 6: Infrastructure and 14 : Infrastructure and Energy to include a policy and rule framework that will provide for the ongoing maintenance, repair, replacement and upgrade of flood and drainage scheme infrastructure.</p> <p>OR</p> <p>Alternatively provide specifically for flood protection and drainage scheme infrastructure in the policies and rule frameworks for each zone. (Refer to original submission for full details)</p>		
Decision Reasons:	<ul style="list-style-type: none"> Given the national significance of flood and drainage scheme infrastructure (similar to the protection of national rail network, state highways etc.), relevant objectives and policies should be included to ensure its continued functioning (maintenance, repair, replacement and upgrades). This includes the related structures for examples pump sheds, transformers, etc. and the upgrades of this infrastructure as required should be included in the appropriate rules. Currently there is limited recognition of the nationally significant infrastructure in terms of issues, objectives and policies, and only limited activities are provided for as rules, for example the exemption of pump sheds from building setback requirements in relation to waterbodies. The permitted activity standards across all zones do not provide adequately for the ongoing maintenance, renewal and operation. The submitter states that the best fit (and their preference) is for the provisions sought to be contained within Chapters 6 and 14 to provide a district wide framework. An example of the framework has been attached to the submission (Appendix 1).

Plan chapter	Section B Objectives and Policies		
Summary of Decision Requested	<p>Amend Chapter 1 Introduction, section 1.4 issues, to include a discussion relating to the Historic Heritage issues for the Waikato District and to use the Historic heritage issue contained within the S32 document as a basis for that discussion.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter is concerned that the resource management "issue" found in the s32 document (page 16) "<i>Activities that damage or destroy historic heritage lead to the loss of tangible connections to the communities social, cultural and economic past</i>" is not discussed within section 1.4 Issues for the Waikato District. Other issues have been discussed and a case made for the resolution of the issue. The two small references made to heritage as part of discussions related to other issues within section 1.4 of this Chapter are not a sufficient base on which to establish the policy and rule frameworks that exists in the plan. It is important that this section of the plan identify the historic heritage issue that is an existing or potential problem that must be resolved to promote the purpose of the Resource Management Act. A discussion around the historic heritage issue within this section would also assist the reader in understanding the cascade of resource management provisions related to heritage.

Summary of Decision Requested	<p>Amend objectives and policies to enable the subdivision, use and development of the property at 231 Tahuna Road, 52, 56 and 58 Lumsden Road, Ohinewai as sought within the submission.</p> <p>OR</p> <p>Add objectives and policies to enable the subdivision, use and development of the property at 231 Tahuna Road, 52, 56 and 58 Lumsden Road, Ohinewai as sought within the submission.</p> <p>AND</p> <p>Amend the Proposed District Plan as necessary to support the relief set out in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> To provide for the subdivision, use and development of the Property. 		

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		
Point Number	831.12		
Plan chapter	Section B Objectives and Policies		
Summary of Decision Requested	<p>Amend Rule 14.11.1 P2 Activity-specific condition 14.11.1.2 and Rule 14.11.2 RD2 to give effect to Policy 4.2.7 Site Coverage and Permeable Surfaces and Policy 6.4.7 Stormwater</p> <p>AND</p> <p>Amend Rule 14.11.1 P2 Activity-specific condition 14.11.1.2 to replace the universal 70% impermeable cover with individual limits to suit each catchment.</p> <p>AND</p> <p>Add rules to support the following:</p> <ul style="list-style-type: none"> on-site stormwater disposal sufficient capacity to enable disposal of stormwater best practice low impact design on-site treatment minimising of impervious surfaces retaining pre-development hydrological conditions not increasing the flow of stormwater runoff not reducing storage capacity on-site a stormwater management plan for each catchment promoting clear water reuse and groundwater recharge 		
Decision Reasons:	<ul style="list-style-type: none"> No scientific stormwater plan for Raglan has been completed, though a settling pond at Aro Aro was designed in 2011 as a filtration wetland for the stormwater. Pollutants such as copper are at or near their limits and addition of more sites with 70% impermeable cover will exacerbate the pollution. Application of Rule 14.11.2 RD2 without clear scientific evidence of effects will make pollution even worse. 		
Point Number	831.25		
Plan chapter	Section B Objectives and Policies		
Summary of Decision Requested	Add provisions in Policy 8.1.3 Esplanade reserves and walkways and Rule 16.5.3 Restricted Discretionary Activities, to implement Waikato District Council's Walking, Cycling and Bridle Trails Strategy to create links within new developments as well as existing developments that currently have no safe alternative to car use, such as Greenslade Road.		
Decision Reasons:	<ul style="list-style-type: none"> The Waikato District Council Walking, Cycling and Bridle Trails Strategy is made relevant in provision 1.10.2.3 Waikato Region strategies and plans, however it is not implemented in the Proposed District Plan. Policy 4.1.8 Integration and connectivity recognizes the need to provide "good access to facilities and services by a range of transport modes through the provision of integrated networks of roads, public transport, cycle and pedestrian routes." Policy 4.1.10 Tuakau, Policy 4.1.11 Pokeno, Policy 4.1.12 Te Kauwhata, Policy 4.1.14 Taupiri, Policy 4.1.15 Ngaruawahia, Policy 4.1.16 Horotiu and Policy 4.1.17 Te Kowhai all mention walking and cycling provisions, though means and locations are unclear. Policy 4.1.18 Raglan does not mention cycling and walking despite its large pedestrian and cycle use. Provision 1.4.2.2 states that parts of State Highway 1 will offer opportunities for some town centre improvements and cycle/walk ways. However, nowhere in the Proposed District Plan is it indicated that where some might be, may be a land use issue. Waikato District Council said that detailed rules for walk/cycle ways are not appropriate within a District Plan, yet there are detailed transport provisions. There is strong public support for harbour and coastal walkways. Encourage environmental tourism. The lack of progress indicated that opportunities are not taken with subdivisions and that more details need to be included in the District Plan. 		
Point Number	831.32		
Plan chapter	Section B Objectives and Policies		
Summary of Decision Requested	Add a new provision that replicates the intent of Objective 8.4.1 Community hub in the context of Raglan and encourages the provision of a youth hub, art space and conference venue.		

Decision Reasons:	<ul style="list-style-type: none"> • There is little provision for youth in Whaingaroa. This proposal was made in the RN Youth snapshot and seems likely to be supported. • RN Arts snapshot identified this need. • A conference venue was suggested at the start of public consultation. No large venues exist in Whaingaroa.
Point Number	831.71
Plan chapter	Section B Objectives and Policies
Summary of Decision Requested	No specific decision is sought, but the submitter considers that it is not clear that the policies sufficiently identify and protect significant natural areas.
Decision Reasons:	<ul style="list-style-type: none"> • The 2013 Waikato District Council Statement of the Environment report said "there is evidence to indicate that over 50 per cent of remaining indigenous cover is classified as threatened and much of this land is not legally protected." • The New Zealand Biodiversity Strategy set the 2020 goal as "A net gain has been made in the extent and condition of natural habitats and ecosystems important for indigenous biodiversity. Scarce and fragmented habitats have increased in area and are in better ecological health due to improved connections and the sustainable management of surrounding areas. Some modified habitats are restored."

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.22		
Plan chapter	Section B Objectives and Policies		
Summary of Decision Requested	No specific decision sought, however the submitter seeks to ensure that the Proposed District Plan takes into account higher order documents with regards to infrastructure.		
Decision Reasons:	<ul style="list-style-type: none"> • Give effect to higher order documents. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.16		
Plan chapter	Section B Objectives and Policies		
Summary of Decision Requested	Amend Integration of District Plan with other plans and documents section 1.10.2.3- Waikato Region Strategies and Plans to correctly reference the Waikato Regional Land Transport Plan.		
Decision Reasons:	<ul style="list-style-type: none"> • Clause 1.5.6 (c) Should reference the Waikato Regional Land Transport Plan, as it includes objectives and policy related to transport and logistics and transport, and land use and land transport integration. • Is important in promoting connected communities and positive public health and wellbeing outcomes. 		
Point Number	923.92		
Plan chapter	Section B Objectives and Policies		
Summary of Decision Requested	Amend Strategic Objectives and Policies in each Policy Chapter so they relate more strongly to the purpose of the RMA as encapsulated by section 5 in terms of objectives related to the natural and built environment resources and their contributions to community health and wellbeing outcomes.		
Decision Reasons:	<ul style="list-style-type: none"> • Considered to be a general absence of links to health and wellbeing considerations (in accordance with the purpose of section 5 RMA) within these strategic issues and objectives. • Clarity on how these provisions relate to the objectives with Section B of the Plan. 		

Plan chapter: Section B Objectives and Policies > Chapter 2: Tangata Whenua

Submitter Number:	44	Submitter:	William Ormsby
Organisation:	Maniapoto Maori Trust Board		
Point Number	44.1		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua		
Summary of Decision Requested	<p>Amend clause (c) in Section 2.10 Iwi Management Plans, as follows:</p> <p><i>2.10 Iwi Management Plans The Waikato-Tainui Environmental Plan and the Maniapoto Iwi Management Plans are redress instruments of Treaty settlements: AND</i></p> <p><i>(1) A local authority served under section 15(a), preparing, reviewing, or changing a Resource Management Act 1991 planning document must recognise the environmental plan in the same manner as would be required under the Resource Management Act 1991 for any planning document recognised by an iwi authority,</i></p> <p><i>(2) A consent authority considering an application for a resource consent under section 104 of the Resource Management Act 1991 must have regard to the environmental plan, if it considers that section 104(1)(c) applies to the plan,</i></p> <p><i>(3) A person carrying out functions or exercising powers under sections 12 to 14 of the Fisheries Act 1996 must recognise and provide for the environmental plan to the extent to which its contents relate to the functions or powers,</i></p> <p><i>(4) A person carrying out functions or exercising powers under the conservation legislation in relation to the Waipa River and its catchment must have particular regard to the environmental plan to the extent to which its contents relate to the functions or powers.</i></p> <p><i>NOTE: It is Council's responsibility to show HOW it gives EFFECT to the Iwi Management Plans and how the Iwi Management Plan is APPLIED within the context of the Proposed District Plan and ALL of its chapters.</i></p>		
Decision Reasons:	Nga wai o Maniapoto (Waipa River) Act 2012		

- The overarching purpose of this Act is to restore and maintain the quality and integrity of the waters that flow into and form part of the Waipa River for present and future generations, and the care and protection of the mana tuku iho o Waiwaia.

Co-governance and Co-management

- Arrangements between the Crown and river iwi ushered in a new era of Crown-iwi co-management of the Waikato and Waipa River catchment. Co-management provides iwi with mechanisms to manage the river in partnership with central and local government.
- The co-governance co-management arrangements allow for, joint management agreements, participation in specific and defined river-related resource consent decision-making, recognition of the Waikato-Tainui environmental plan and Ko Ta Maniapoto o Mahere Taiao & Ko Ta Maniapoto Mahere ika mo te Waipa and other river iwi plans and provision for regulations relating to fisheries and other matters managed under conservation legislation; and an integrated river management plan.

Joint Management Agreement with the Waikato District Council

- Te Awa o Waipa is a taonga to Maniapoto. Maniapoto have a deep-felt obligation and desire to restore, maintain and protect all of the waters that flow and/or fall within the Maniapoto rohe (Nga Wai o Maniapoto), whether the waters are above, on or underground. Te Mana o Te Wai (the quality and integrity of the waters) is paramount. The obligation includes the waters that flow into and form part of the Waipa River. The relationship between Maniapoto and the Waipa River is historic, intellectual, physical and spiritual.
- Historically, Te Mana o Te Wai was such that it provided all manner of sustenance to Maniapoto including physical and spiritual nourishment that has, over generations, maintained the quality and integrity of Maniapoto marae, whanau, hapu and iwi. To Maniapoto the Waipa River has mana and in turn represents the mana of Maniapoto.

The Waipa River is a single indivisible entity that flows from Pekepeke to its confluence with the Waikato River and includes its waters, banks, bed (and all minerals under it) and its streams, waterways, tributaries, lakes, fisheries, vegetation, floodplains, wetlands, islands, springs, geothermal springs, water column, airspace and substratum as well as its metaphysical elements with its own mauri.

Point Number	164.1		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua		
Summary of Decision Requested	No decision sought, but submission states support for Chapter 2 Tangata whenua.		
Decision Reasons:	<ul style="list-style-type: none"> Allows autonomy, growth and independence. 		

Submitter Number:	188	Submitter:	Sheryl Tukiri
Point Number	188.1		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua		
Summary of Decision Requested	Retain Chapter 2 Tangata Whenua as notified.		
Decision Reasons:	<ul style="list-style-type: none"> These changes are allowing Maori to use the land and develop the land for more of the whanau and are protecting Maori heritage, especially for future generation (Mokopuna). 		
Decision Reasons:			

Submitter Number:	286	Submitter:	Lorraine Dixon
Organisation:	Waikato-Tainui		
Point Number	286.18		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua		
Summary of Decision Requested	Amend the description of 333 Old Taupiri Road to remove the incorrect reference to a Paa site.		
Decision Reasons:	<ul style="list-style-type: none"> The 467 Hakarimata Road site was a pre-1900 paa site, and the Old Taupiri Road site (Hopuhopu) was not. This places overly restrictive controls on this site and no historical Paa site zoning should apply or whatever the new definition or zoning is applied to this site. 		
Point Number	286.19		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua		
Summary of Decision Requested	No specific decision sought but the submission supports the introduction of Concept Management Plans. AND Amend the Proposed District Plan to provide greater clarity as to what information must be provided when developing a Concept Management Plan. AND Provide further information as to how Concept Management Plans will be implemented as part of a Resource Management Act process. AND Provide greater clarity as to the application of the plan if a Concept Management Plan is not developed. AND Provide greater clarity as to who resources the development of Concept Management Plans and what council information and assistance will be provided to marae and/or trusts.		
Decision Reasons:	<ul style="list-style-type: none"> The ability of marae or trusts to develop Maaori Freehold Land has historically proven challenging and any initiative that remedies this is generally supported. Aside from the RMA issues around Concept Management Plans, Waikato-Tainui understands the key benefits being the development of papakainga housing and the ability to futureproof in some situations future land use. This is supported provided additional resource consents are not required to satisfy district plan requirements. 		

- Waikato-Tainui seek additional information as to the implementation of the plans. Whilst the introduction of Concept Management Plans and the potential for reduce regulation is positive, Waikato-Tainui want to ensure that the development of these plans is not overly onerous. Waikato-Tainui do not want to see individual marae or Maaori freehold land owners required to provide a Concept Management Plan and then still require further resource consents application to satisfy district plan requirements.
- The development and process of Concept Management Plan requires greater explanation in the proposed plan. Whilst Waikato-Tainui support ease of development on marae and Maaori freehold land, the potential still remains for a lengthy consenting process.
- Clarification is also sought in the proposed plan as to the application of the plan zoning when a Concept Management Plan is not developed. It is presumed that this means the underlying zone applies and this could create issues for those located in Residential and Rural Zones. It is understood that marae and papakainga housing will default to Discretionary Activity status without an approved Concept Management Plan. This would appear to be a restrictive activity status for what could be small scale development.

Point Number 286.9

Plan chapter Section B Objectives and Policies > Chapter 2: Tangata Whenua

Summary of Decision Requested No specific decision sought but the submission supports the introduction of a specific chapter addressing Tangata whenua concerns, issues and opportunities.

Decision Reasons:

- The Tangata whenua Chapter discusses statutory responsibilities that are required of the Treaty of Waitangi, The Waikato River Settlement Act 2010 and the Resource Management Act amongst others. It is important to Waikato-Tainui that this recognition of responsibilities and commitments that the crown has made are acknowledged throughout the plan and how it is implemented.

Submitter Number: 328 **Submitter:** Paula Dudley

Point Number 328.1

Plan chapter Section B Objectives and Policies > Chapter 2: Tangata Whenua

Summary of Decision Requested Retain Chapter 2 Tangata Whenua.

Decision Reasons:

- No reasons provided.

Submitter Number: 330 **Submitter:** Andrew and Christine Gore

Point Number 330.55

Plan chapter Section B Objectives and Policies > Chapter 2: Tangata Whenua

Summary of Decision Requested No specific decision sought, however submission refers to Chapter 2 Tangata Whenua.

Decision Reasons:

- No reasons provided.

Submitter Number: 379 **Submitter:** Lisa Gardiner

Organisation: Ngati Haua Iwi Trust

Point Number 379.2

Plan chapter Section B Objectives and Policies > Chapter 2: Tangata Whenua

Summary of Decision Requested Retain Chapter 2 – Tangata Whenua, which specifically addresses tangata whenua concerns, issues, and opportunities.

Decision Reasons:

- This aligns to key principles of the Ngati Haua Environmental Management Plan.
- Chapter 2 of the Proposed Plan summarises the importance of Iwi Management Plans in terms of not only articulating the aspirations of tangata whenua, but also highlighting the requirements under the RMA for territorial authorities to take into account these documents when preparing or changing a district plan.

Point Number 379.4

Plan chapter Section B Objectives and Policies > Chapter 2: Tangata Whenua

Summary of Decision Requested Amend Chapter 2 Tangata Whenua, to include specific reference to the Ngati Haua Environmental Management Plan.

AND

Amend the Proposed District Plan, including Section C (Rules) to make consequential amendments to give effect to the matters raised in the submission and relief sought.

- Decision Reasons:**
1. The submitter has developed a Ngati Haua Environmental Management Plan 'Te Rautaki Tamata Ao 'Turoa o Haua' in collaboration with our marae, who identified their aspirations and priorities in becoming fully functional, sustainable and fulfilling the principles of Tumuakitanga and Kingitanga.
 2. The Environmental Management Plan documents the aspirations and priorities for Waimakariri Marae, Te Iti o Haua Marae, Rukumoana Marae, Kai-a-te-mata Marae and Raungaiti Marae.
 3. The vision of the plan is to restore belief that 'We are a noble and self-sustaining people, from days past, today and forevermore'.
 4. The Mission is to protect, manage and grow our Ngati Haua resources to support the Kingitanga through Te Tumuaki o Te Kingitanga and grow the overall well-being of Ngati Haua.
 5. The Environmental Management Plan provides an opportunity for Ngati Haua Iwi Trust to align specific aspirations for collective impact across the Marae. It also provides an opportunity for local authorities, central government and other agencies to see how they can work with Ngati Haua to collaborate on projects and/or provide technical support, advice, funding or opportunities for capacity building.
 6. The Environmental Management Plan is an expression of our values, frustrations, aspirations and position statements in relation to our taiao. Many of these are common for all people (e.g. clean air and water) and many are specific to us, as Ngati Haua (e.g. protection of our wahi tapu).
 7. The Environmental Management Plan enables us to exercise our responsibilities as Kaitiaki, in particular ensuring that we can:
 - a. Restore the mauri of our taiao
 - b. Swim in, drink from and gather food from our rivers and streams

- c. Provide for the cultural, social and economic wellbeing of our people.
 - d. Revitalize our traditional knowledge and practices.
 - e. Build the capability of our future kaitiaki.
8. The submitter wishes to ensure their responsibilities as kaitiaki within the Environmental Management Plan, are taken into account within the Proposed Waikato District Plan as required under section 74(2A) of the RMA.

Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.2 Background
Summary of Decision Requested	<p>Amend Section 2.2 Background to apply the Resource Management definitions, as follows:</p> <p><u>Tangata Whenua: In relation to a particular area means the iwi, or hapu, that holds mana whenua over that area.</u></p> <p><u>Mana Whenua: Means customary authority exercised by an iwi or hapu in an identified area.</u></p> <p>AND</p> <p>Amend Section 2.2 Background to recognise that Waikato-Tainui do not have authority or Tangata Whenua status in Raglan. Tangata Whenua in Whaingaroa are only those that can whakapapa to Whaingaroa.</p>
Decision Reasons:	<ul style="list-style-type: none"> Waikato-Tainui do not have authority or tangata whenua status in Raglan. Tainui iwi and hapu of the West Coast harbours have not ceded their sovereignty to Waikato-Tainui and do not hold the mandate to speak on behalf of the rohe for Te Whaanga 2B3B2 and 2B1 Ahu Whenua Trust on matters that concern future developments, growth, progress and the relationship with Waikato District Council. Council must not confuse the identity and status of tangata whenua and other hapu and/or iwi with its obligations under the RMA to all tangata whenua groups within Waikato District. The only tangata in Whaingaroa are those that can Whakapapa to Whaingaroa: <ul style="list-style-type: none"> - Ko Karioi te Maunga - Ko Whaingaroa te Moana - Ko Tainui te Waka - Ko Tainui te Iwi - Ko Ngati Koata, Ngati Hounuku, Ngati Te Ikanahi, Ngati Kahu, Te Paetoka, Ngati Pukoro, Ngati Tira, Ngati Rua Aruhe, Ngati Heke, Ngati Tahau, Ngati Te Kore nga hapu.

Submitter Number:	377	Submitter:	Rangimonehu Kereopa
Organisation:	Pareaute Kereopa Whanau Trust		
Point Number	377.1		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.2 Background		
Summary of Decision Requested	<p>Amend Section 2.2 (a) Background - to apply the Resource Management Act definitions, as follows:</p> <p><u>Tangata whenua: In relation to a particular area, means the iwi, or hapu, that holds mana whenua over that area.</u></p> <p><u>Mana whenua: Means customary authority exercised by an iwi or hapu in an identified area.</u></p> <p>AND</p> <p>Amend Section 2.2 (a) Background which states that Waikato-Tainui is Tangata Whenua of the Waikato district.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Waikato-Tainui is not 'The Tangata Whenua of the Waikato District'. The terminology is quite important to get correct, as Waikato-Tainui do not have authority or Tangata whenua status in Raglan. Tainui iwi and hapu of the West Coast Harbour of Raglan have not ceded their sovereignty to Waikato-Tainui. Waikato-Tainui do not hold our mandate to speak on our behalf re: future developments, growth or progress of our rohe. Nor have we given up any type of relationship that us here as Tangata whenua are striving to build with Waikato District Council. Waikato-Tainui is not 'the' Tangata whenua, as if to proclaim that they are an entity that has a higher status than other iwi, hapu and marae in the Waikato district. Waikato-Tainui Iwi Authority was established to receive settlement funds from the Crown as a result of Raupatu. Waikato District Council must not confuse the identity and status of Tangata whenua and other hapu and or iwi with its obligation under the RMA to all Tangata whenua groups within the Waikato district. The submitter asserts that Tangata whenua in Whaingaroa are only those that can whakapapa to Whaingaroa. 		
Decision Reasons:

Tainui

Point Number

942.5

Plan chapter

Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.2 Background

Summary of Decision Requested

No specific decision is sought for Section 2.2 Background, but the submitter seeks recognition of whanau and hapu who have the ultimate responsibility for ensuring the mauri and taonga inherited from tupuna are not negatively affected through resource consents and activities.

Decision Reasons:

- The submitter supports the attempt to recognise the encumbrances placed on tangata whenua in terms of land use and development in both Te Ture Whenua Maori Act and the Resource Management Act.
- The submitter also understands the need to recognise statutory obligations and take into account iwi management plans.
- While Waikato Tainui is currently recognised through a raupatu land settlement as being iwi authority, it is likely during the term of this planning process that the resolution of the West Coast treaty claims will see other iwi given the recognition they deserve.

Point Number

942.6

Plan chapter

Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.2 Background

Summary of Decision Requested

Amend Section 2.2(a) Background to recognise all whanau, hapu and iwi within the district. eg. Tainui, Nga Uri o Mahanga/Hourua, Ngati Whakamarurangi and Ngati Tamainupo/Nga Tokotoru.

Decision Reasons:

- Waikato Tainui are a corporate organisation established in 1995 to receive and manage the raupatu land settlement.
- The district is home to a diverse range of people including Whanau, hapu and iwi of many rohe and they are the tangata whenua who have interests in and around the district and Whaingaroa harbour area.
- They practice kaitiakitanga and are obliged to make decisions regarding activities that impact upon our people, environment and future.

Point Number

942.7

Plan chapter

Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.2 Background

Summary of Decision Requested

Amend Section 2.2(b) Background, as follows:

The Waikato River is the tuupuna (ancestor) of Waikato-Tainui from which Tainui derive their name. Tainui relates to the sea, waka and the people who descend from the original people of an area that includes Waikato. Tainui also refers to a confederation of the 12 hapu of Whaingaroa, The Kingitanga movement ...

Decision Reasons:

- No reasons provided.

Point Number	300.3		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.8 Concept Management Plan		
Summary of Decision Requested	Retain Section 2.8 Concept Management Plan contained in Chapter 2 Tangata Whenua which supports the submission of the Whaingaroa Kite Whenua, Tihei Mauriora land to develop Te Kopua lands for a future cultural theme park.		
Decision Reasons:	<ul style="list-style-type: none"> The plan for the cultural theme park aligns with the hapu, iwi aspirations and vision of Tuaiwa Rickard for Te Kopua lands. Supports any updated version of the plan to be submitted. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.359		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.8 Concept Management Plan		
Summary of Decision Requested	Amend 2.8 Concept Management Plan to replace references to the "concept plan" and "the plan" with the words "Concept Management Plan"		
Decision Reasons:	<ul style="list-style-type: none"> • Consistency of terminology. • Concept Management Plan is a defined term. 		

Submitter Number:	984	Submitter:	Glenda Raumati
On behalf of:	Trustee Turangawaewae Trust Board		
Point Number	984.20		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.8 Concept Management Plan		
Summary of Decision Requested	<p>No specific decision sought but the submission supports the introduction of Concept Management Plans</p> <p>AND</p> <p>Amend the Proposed District Plan to provide greater clarity as to what information must be provided when developing a Concept Management Plan.</p> <p>AND</p> <p>Provide further information as to how Concept Management Plans will be implemented as part of a Resource Management Act process.</p> <p>AND</p> <p>Provide greater clarity as to the application of the plan if a Concept Management Plan is not developed.</p> <p>AND</p> <p>Provide greater clarity as to who resources the development of Concept Management Plans and what council information and assistance will be provided to marae and/or trusts.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The ability of marae or trusts to develop Maori Freehold Land has historically proven challenging and any initiative that remedies this is generally supported. • Turangawaewae Trust Board seek additional information as to the implementation of the plans. Whilst the introduction of Concept Management Plans and the potential for reduce regulation is positive, Turangawaewae Trust Board want to ensure that the development of these plans is not overly onerous. Turangawaewae Trust Board do not want to see individual marae or Maaori freehold land owners required to provide a Concept Management Plan and then still require further resource consents application to satisfy district plan requirements. • The development and process of Concept Management Plan requires greater explanation in the proposed plan. Whilst Turangawaewae Trust Board support ease of development on marae and Maori freehold land, the potential still remains for a lengthy consenting process. • Clarification is also sought in the proposed plan as to the application of the plan zoning when a Concept Management Plan is not developed. It is presumed that this means the underlying zone applies and this could create issues for those located in Residential and Rural Zones. It is understood that marae and papakainga housing will default to Discretionary Activity status without an approved Concept Management Plan. This would appear to be a restrictive activity status for what could be small scale development. • Aside from the RMA issues around Concept Management Plans, Turangawaewae Trust Board understands the key benefits being the development of papakainga housing and the ability to futureproof in some situations future land use. This is supported provided additional resource consents are not required to satisfy district plan requirements. 		

Plan chapter: Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.9 Examples of a Concept Management Plan

Submitter Number:	367	Submitter:	Liam McGrath
Organisation:	Mercer Residents and Ratepayers Committee		
Point Number	367.43		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.9 Examples of a Concept Management Plan		
Summary of Decision Requested	Retain Section 2.9 Examples of a Concept Management Plan.		
Decision Reasons:	<ul style="list-style-type: none"> • An ideal example for Mercer Domain. 		

Plan chapter: Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.10 Iwi Management Plans

Submitter Number:	152	Submitter:	Rolande Paekau
Organisation:	Te Whaanga 2B3B2 & 2B1 Ahu Whenua Trust		
Point Number	152.5		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.10 Iwi Management Plans		
Summary of Decision Requested	<p>Retain Section 2.10 Iwi Management Plans as notified</p> <p>AND</p> <p>Create an Iwi Management Plan fund for Tangata Whenua, dedicated to hapu and marae to develop and implement their respective plans.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports Iwi Management Plans. • Recommends that Council contributes towards a dedicated funding pool or budget to implement Iwi Management Plans throughout Waikato District and therefore enable iwi, hapu and marae to develop their respective plans. • An Iwi Management Plan will inform and guide Council in respect to consulting with the right people/tangata whenua in the development of master plans, blueprints and community plans as per Council's obligations under section 35(A) of the Resource Management Act 1991 and the Local Government Act 2002. 		

- Supports an Iwi Management Plan Fund for Tangata Whenua. This is a critical gap for Council who are seeking to develop Master Plans, Blueprints and community plans.

Submitter Number:	435	Submitter:	Jade Hyslop
Point Number	435.1		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.10 Iwi Management Plans		
Summary of Decision Requested	Amend Section 2.10 (a) Tangata Whenua Iwi Management Plans to so that the use of Iwi/Hapu management plans must be adhered to (not merely considered) by working in partnership with iwi representatives/planners.		
Decision Reasons:	<ul style="list-style-type: none"> • Iwi Management Plans should have equal status to the District Plan. • District Council Planners should sit down with Iwi Authority/Planners for directive on how to use and understand Iwi Management Plans. 		

Plan chapter: Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.11 Strategic Objective – Tautoko te Whakaturanga

Submitter Number:	435	Submitter:	Jade Hyslop

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		

Point Number	559.8
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.12 Objective -Whakapapa (connection to nature)
Summary of Decision Requested	Retain Strategic Objective 2.12 Whakapapa (connection to nature).
Decision Reasons:	<ul style="list-style-type: none"> • Supports Strategic Objective 2.12 Strategic Objective Whakapapa (connection to nature) as this objective provides for the relationship of traditional resources on all lands not just Maaori owned land. • It also gives effect to Part 2 s6 Matters of national importance, in particular s6(e) and s6(f).

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.23		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.12 Objective -Whakapapa (connection to nature)		
Summary of Decision Requested	Amend Objective 2.12 (a) -Whakapapa (connection to nature) as follows: <i>Relationships with ancestral lands, water, sites, waahi tapu and other taonga are protected <u>from inappropriate subdivision, use and development</u>, and enhanced <u>where appropriate</u>.</i> AND Any consequential changes needed to give effect to this relief:		
Decision Reasons:	<ul style="list-style-type: none"> • This aspect of <i>whakapapa</i> should be addressed in the Proposed District Plan, and should relate to the effects of land use. • This is in keeping with a general theme across our submission which seeks to ensure WDC restricts the Proposed District Plan provisions to matters that district councils have the jurisdiction to regulate. 		

Plan chapter: Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.12 Objective -Whakapapa (connection to nature) > 2.12.1 Policy- Whanaungatanga (relationship to nature)

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.9		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.12 Objective -Whakapapa (connection to nature) > 2.12.1 Policy- Whanaungatanga (relationship to nature)		
Summary of Decision Requested	Retain Policy 2.12.1(a) Whanaungatanga (relationship to nature).		
Decision Reasons:	<ul style="list-style-type: none"> • Supports Policy 2.12.1 Whanaungatanga (relationship to nature) as it gives effect to Part 2 s6 Matters of national importance, in particular s6(e) and s6(f). 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.24		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.12 Objective -Whakapapa (connection to nature) > 2.12.1 Policy- Whanaungatanga (relationship to nature)		
Summary of Decision Requested	Amend Policy 2.12.1 (a) Whanaungatanga (relationship to nature) as follows: <i>(a) Recognise the relationship of Tangata Whenua with areas of significance, including waahi tapu, urupaa, maunga and other landforms, mahinga kai, and indigenous flora and consider these matters through provisions which <u>trigger requirement for resource consent or Notice of Requirement for Designation, which may include:</u></i> ... AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter understands the purpose and intent of this policy but considers it appropriate for the Proposed District Plan to include detail as to how this policy will be implemented. It is difficult to determine how and when the provisions listed in Points (i-vii) will be required. • The resource consent and/or designation process is the most appropriate method to incorporate the stated provisions - as and when necessary. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.9		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.12 Objective -Whakapapa (connection to nature) > 2.12.1 Policy- Whanaungatanga (relationship to nature)		
Summary of Decision Requested	Amend Section 2.12.1(a)(vii) Whanaungatanga (relationship to nature) so that "other land" is objectively defined and care is exercised as to which land this policy applies to, without limiting the natural and legal right of Maori to express and recognise their relationship with the land.		
Decision Reasons:	<ul style="list-style-type: none"> • This aspect is fully supported upon land owned or managed by Maori or in areas of high cultural importance such as the Waikato River margins. • Some cultural symbols in public places can sometimes have underlying/implicit religion/belief values overtones. • Caution needs to be exercised in terms of sensitivity to others with respect to this in the type of symbol being displayed.

Organisation:	Tainui		
Point Number	942.9		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.15 Objective Waikatotanga (way of life)		
Summary of Decision Requested	Amend Objective 2.15 Waikatotanga (way of life) to clarify.		
Decision Reasons:	<ul style="list-style-type: none"> There are hapu and iwi who do not identify or practice Waikatotanga within the Waikato District. 		

Plan chapter: Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.15 Objective Waikatotanga (way of life) > 2.15.1 Policy- Ngaa taonga tuku iho (Maaori Sites and Areas of Significance)

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.15		
Plan chapter	Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.15 Objective Waikatotanga (way of life) > 2.15.1 Policy- Ngaa taonga tuku iho (Maaori Sites and Areas of Significance)		
Summary of Decision Requested	Retain Policy 2.15.1 Ngaa taonga tuku iho (Maaori sites and areas of significance), except for the amendments sought below. AND Amend Policy 2.15.1 Ngaa taonga tuku iho (Maaori sites and areas of significance) as follows: <i>Maaori sites and areas of significance and waahi tapu</i> <i>(a) Ensure subdivision, use and development does not compromise the cultural and spiritual significance of areas, including waahi tapu, urupaa, maunga and other landforms, mahinga kai, and indigenous flora and fauna.</i>		

(b) Area and sites of significance to Maaori including waahi tapu sites and waahi tapu areas are protected from adverse effects of development or activities on those sites, including inappropriate modification.

(c) Avoid the destruction areas and sites of significance to Maaori and Waahi Tapu Sites and Waahi Tapu Areas.

Decision Reasons:

- Submitter supports in parts Policy 2.15.1 as the submitter is concerned that these policies do not explicitly address the matters of modification or destruction.
- Inclusion of these matters within this policy would contribute to a policy and rules cascade that assesses these matters.
- Currently these activities are not addressed in the Plan rules and amendment is being sought to include these matters into the rules.

Submitter Number: 680 **Submitter:** Federated Farmers of New Zealand

Point Number 680.26

Plan chapter Section B Objectives and Policies > Chapter 2: Tangata Whenua > 2.15 Objective Waikatotanga (way of life) > 2.15.1 Policy- Ngaa taonga tuku iho (Maaori Sites and Areas of Significance)

Summary of Decision Requested **Amend** Policy 2.15.1 Ngaa taonga tuku iho (Maaori Sites and Areas of Significance) as follows:

(a) Ensure new subdivision, use and development does not compromise...

(b) ~~Areas and sites of significance to Maaori including waahi tapu sites and waahi tapu areas are protected from adverse effects of inappropriate land use change development or activities on those sites.~~

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- Not all subdivision, development or land use should be subject to this policy. There are many legitimate and expected activities which should be able to continue without undue restriction. Submitter accepts that changes to existing land use activities may need to be assessed against potential adverse effects on these sites and areas.

Plan chapter: Section B Objectives and Policies > Chapter 3: Natural Environment

Submitter Number:	12	Submitter:	Carl Ammon
Point Number	12.4		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment		
Summary of Decision Requested	Amend Chapter 3 Natural Environment to strengthen the requirement for development to protect and improve biodiversity.		
Decision Reasons:	<ul style="list-style-type: none"> • In this section there is a positive focus. However it is timid and vague in its commentary. • There is a pressing need to address problems such as climate change and ecological degradation. • Need to address the harm caused in the past in the main urban centres, agriculture and forestry. • Development rules do not drive the aims of protecting biodiversity. For example developers should be obliged to set aside and restore natural areas in subdivision proposals. Presently little effort is made and areas are not protected even where established. The submission uses examples of the Te Ahiawa subdivision which restored significant native plants, improved water quality and soil protection, but are not formally protected. • Excessive development as a rule is harmful and leaves a legacy for the future. Those planning subdivision should have to meet very high standards of environmental care and restoration. The costs associated with development will save money in the future and avoid problems with sewage, storm water, water supply, traffic congestion etc. • The focus of Significant Natural Areas is positive but is a drop in the bucket and hides attention on the wider issues of degrading the natural environment. The classification needs extending to all the main valleys and waterways from mountain to the sea.

Point Number	164.2		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment		
Summary of Decision Requested	No specific decision sought, but submission states support for Chapter 3 Natural Environment.		
Decision Reasons:	<ul style="list-style-type: none"> • Allows autonomy, growth and independence. 		

Submitter Number:	286	Submitter:	Lorraine Dixon
Organisation:	Waikato-Tainui		
Point Number	286.13		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment		
Summary of Decision Requested	No specific decision sought but submission supports the identification of areas of high and outstanding natural character and outstanding natural features and landscapes, and the engagement of experts in this field and with mana whenua.		
Decision Reasons:	<ul style="list-style-type: none"> • No reason provided. 		
Point Number	286.14		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment		
Summary of Decision Requested	Amend the Proposed District Plan to include the Waikato River in its entirety as both an Outstanding Natural Feature and an Outstanding Natural Landscape AND Amend the Proposed District Plan maps to include the Waikato River in its entirety as both an Outstanding Natural Feature and an Outstanding Natural Landscape.		
Decision Reasons:	<ul style="list-style-type: none"> • Waikato-Tainui do not support the assessment of the non-inclusion of the Waikato River as an Outstanding Natural Feature and/or Landscape. 		

- Waikato-Tainui do not believe that parts of the Waikato River can be cut into sections and not viewed holistically.
- The assessment of the Waikato River as an Outstanding Natural Feature and Landscape is both a historic and contemporary issue. A variety of legislative and policy directions have been developed that support the identification of the Waikato River as an Outstanding Natural Feature and Landscape.
- The Waikato-Tainui Raupatu Claims (Waikato River) Settlement Act 2010 talks of the significance and holistic nature of the Waikato River is viewed. The submission quotes Part 2, Settlement redress through legislation (8).
- This acknowledgement by the Crown, that the Waikato River should be considered in its entirety and not divided, as it has been assessed in the Proposed District Plan, provides what the river settlement legislation was seeking.
- The Vision and Strategy for the Waikato River was required to be included without amendment in the Waikato Regional Policy Statement. The Regional Policy Statement review assessed the Waikato River as an Outstanding Natural Feature and Landscape. This was removed in the decision's version on the basis that the Waikato River had been modified too significantly, in particular the part of the river flowing through Hamilton City to be deemed an Outstanding Natural Feature or Landscape and that the necessary assessments and understanding of the cultural significance has not been undertaken to support the rivers inclusion.
- Fast forward to the current situation where Waikato District Council are assessing the river at a more detailed district level, that does not include Hamilton City. In addition Waikato District Council have a greater understanding of the cultural significance of the Waikato River to Waikato-Tainui through the engagement process.
- The Proposed Plan and maps provide for the Waikato River as an Outstanding Natural Feature, only from the river Delta to inside the river mouth. Waikato-Tainui are of the opinion the Waikato River is an Outstanding Natural Feature in its entirety and the reasons for it not attaining regional significance was based on interpretation and lack of work on behalf of those researching the cultural significance of the river.
- The Waikato River is recognised by statute and is the subject of a previously unique authority that funds the restoration and protection annually. Alone this legislative weight potentially justifies its status as an Outstanding Natural Feature and Landscape at a district level.
- Of more importance is the cultural connection that Waikato-Tainui have with the Waikato River. Whilst the landscape assessment attached to the Proposed Plan does not support the entire river being included, it does as a starting point provide justification as to how the assessment was made (submission refers to the Proposed Plan Appendix 3).
- The cultural and heritage values do not neatly fit into the specific feature or landscape assessment criteria, however engagement with iwi and understanding the districts identity should have seen the Waikato River included as an Outstanding Natural Feature or Landscape or both. The lines that are blurred on the margins of the river by wetlands, tributaries, islands and river use in general only add to the rivers significance. Because the river does not sit neatly as an Outstanding Natural Feature or Outstanding Natural Landscape, that it should be considered both, and afforded the highest protection rather than defaulting to a partial categorisation that undermines its significance.
- The assessment criteria used appears to isolate features or places, rather than taking a more holistic approach. If this had been the case Waikato-Tainui assume that the Waikato River would have been deemed Outstanding; both as a landscape and a feature.

Point Number 286.15

Plan chapter Section B Objectives and Policies > Chapter 3: Natural Environment

Summary of Decision Requested Amend the Proposed District Plan after undertaking a natural character assessment for the Waikato River to determine if there are any areas of high or outstanding natural character.

Decision Reasons:

- Waikato-Tainui have concerns that no natural character assessment has been undertaken for the Waikato River.

Submitter Number: 394 **Submitter:** Gwenith Sophie Francis

Point Number 394.6

Plan chapter Section B Objectives and Policies > Chapter 3: Natural Environment

Summary of Decision Requested Add a new objective to Chapter 3 Natural Environment, to encourage the restoration and/or rehabilitation of indigenous ecosystems to encourage new significant ecological areas to be established to replace, in part, what has been lost.

AND

Amend the Proposed District Plan to make consequential or further additional relief, as is appropriate to give effect to the intent of the submission.

- Decision Reasons:**
- The Proposed Waikato District Plan fails to set realistic and achievable goals for subdivision reliant on the protection, enhancement or establishment of significant ecological areas and therefore set the bar too high which then creates a disincentive for achieving good biodiversity outcomes.
 - The Proposed Waikato District Plan fails to appropriately identify the issues and challenges facing Waikato District;
 - The Proposed Waikato District Plan fails to have appropriate regard to the Regional Policy Statement and/or misapplies the strategic direction of that document; and
 - Council has failed to undertake an adequate section 32 analysis with respect to subdivision opportunities for ecological enhancement or protection.

Point Number 394.7

Plan chapter Section B Objectives and Policies > Chapter 3: Natural Environment

Summary of Decision Requested Add new policies to Chapter 3 Natural Environment to implement the additional objective requested (in submission point 394.6) which provide, inter alia, subdivision incentives for creating areas with significant indigenous biodiversity value, including the encouragement, establishment or protection of:

(i) Significant linkages between large (significant) areas of native bush, wetland, scrubland and dunelands;

(ii) Significant enhancement of an area which is already significant in terms of bush or natural values;

(iii) Significant restoration or enhancement of areas which are largely depleted, highly modified or destroyed in terms of native biodiversity within the district;

(iv) Compensation, mitigation or remediation to offset the adverse effects of subdivision or development.

AND

Amend the Proposed District Plan to make consequential or further additional relief, as is appropriate to give effect to the intent of the submission.

- Decision Reasons:**
- The Proposed Waikato District Plan fails to set realistic and achievable goals for subdivision reliant on the protection, enhancement or establishment of significant ecological areas. The lack of uptake of such enhancement subdivision means that the biodiversity outcomes envisaged are unlikely to be achieved;
 - The Proposed Waikato District Plan fails to appropriately identify the issues and challenges facing Waikato District;
 - The Proposed Waikato District Plan fails to have appropriate regard to the Regional Policy Statement and/or misapplies the strategic direction of that document; and
 - Council has failed to undertake an adequate section 32 analysis with respect to subdivision opportunities for ecological enhancement or protection.

Submitter Number: 493 **Submitter:** Jackie Colliar

Point Number 493.5

Plan chapter Section B Objectives and Policies > Chapter 3: Natural Environment

Summary of Decision Requested Amend the Proposed District Plan and maps to include the Waikato River in its entirety as both an Outstanding Natural Feature and Outstanding Natural Landscape.

- Decision Reasons:**
- Submission does not support the assessment of and non-inclusion of the Waikato River as an Outstanding Natural Feature and/or Landscape in its entirety.
 - The submitter believes that the Waikato River must be viewed holistically and therefore do not believe that parts of the Waikato River can be cut into sections.

- The assessment of the Waikato River as Outstanding Natural Feature and Landscape is both a historic and contemporary issue. Beyond the rich history of the Waikato River pre and post European settlement, a variety of legislative and policy directions have been developed; that support the identification of the Waikato River as an Outstanding Natural Feature.
- The Proposed Plan and maps provide for the Waikato River as an Outstanding Natural Feature, only from the river delta to inside the river mouth. Submitter considers the Waikato River is an Outstanding Natural Feature in its entirety and the reasons for it not attaining regional significance was based on interpretation and a lack of work on behalf of those researching the cultural significance of the river.

Summary of Decision Requested	Delete Chapter 3: Natural Environment.		
Decision Reasons:	<ul style="list-style-type: none"> • Chapter 3 and Council's maps do not meet Waikato Regional Policy Statement requirement that significant indigenous areas be identified on Council maps. • Maps do not show all significant area of bush (mainly Kahikatea) throughout the District. 		

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		
Point Number	831.1		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment		
Summary of Decision Requested	Add areas of significant indigenous vegetation or habitat and rules in consultation with LENZ and environmental groups.		
Decision Reasons:	<ul style="list-style-type: none"> • The 2013 Waikato District Council Statement of the Environment report said "there is evidence to indicate that over 50 per cent of remaining indigenous cover is classified as threatened and much of this land is not legally protected." • The New Zealand Biodiversity Strategy set the 2020 goal as "A net gain has been made in the extent and condition of natural habitats and ecosystems important for indigenous biodiversity. Scarce and fragmented habitats have increased in area and are in better ecological health due to improved connections and the sustainable management of surrounding areas. Some modified habitats are restored." 		
Point Number	831.44		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment		
Summary of Decision Requested	Amend Chapter 3 Natural Character; to recognise that new development should not encroach on nature and that all natural character areas (not just those of higher value) be protected through tools such as cat free covenants and similar rules imposed by the Palmerston North District Plan.		
Decision Reasons:	<ul style="list-style-type: none"> • The Natural Character has been lost in most of the district, so it is important that any new development shows environmental awareness and does not encroach on nature. • Cats are major predators of native wildlife, so new developments close to natural character areas should be cat free. 		
Point Number	831.47		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment		
Summary of Decision Requested	No specific decision is sought, however the submitter seeks that the Council publicly notifies and informs adjoining authorities and the Regional Council of all resource consent applications for vegetation clearance.		
Decision Reasons:	<ul style="list-style-type: none"> • The 2013 Waikato District Council Statement of the Environment report said "there is evidence to indicate that over 50 per cent of remaining indigenous cover is classified as threatened and much of this land is not legally protected." • The New Zealand Biodiversity Strategy set the 2020 goal as "A net gain has been made in the extent and condition of natural habitats and ecosystems important for indigenous biodiversity. Scarce and fragmented habitats have increased in area and are in better ecological health due to improved connections and the sustainable management of surrounding areas. Some modified habitats are restored." 		

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.13		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment		
Summary of Decision Requested	Retain the objectives and policies in Chapter 3 Natural Environment that protect an enhance the natural environment.		

Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the objectives and policies.
Point Number	942.40
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment
Summary of Decision Requested	Retain the objectives and policies in Chapter 3 Natural Environment.
Decision Reasons:	<ul style="list-style-type: none"> The coastal montane area between Bryant Home and Pauake stream is largely owned by tangata whenua and remained natural until the incursions of the public in the mid 1950s brought a road, subdivisions, walling tracks and development. This destroyed habitats and impacted negatively on the biodiversity within the Karioi Native Reserve. The submitter supports the objectives and policies in Chapter 3 drafted to protect and enhance the natural environment outlined.

Plan chapter: Section B Objectives and Policies > Chapter 3: Natural Environment > 3.1 Indigenous Vegetation and Habitats

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.92		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.1 Indigenous Vegetation and Habitats		
Summary of Decision Requested	Amend Chapter 3.1 Indigenous Vegetation and Habitats to provide for the opportunity to offset non-significant biodiversity.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter is generally supportive of Section 3.1 indigenous Vegetation and Habitats. However a number of amendments are sought in order to give effect to the WRPS and New Zealand Coastal Policy Statement. No Hierarchy or offsetting for non-significant biodiversity as per 11.1/ 11.1.3 WRPS. 		
Point Number	81.94		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.1 Indigenous Vegetation and Habitats		
Summary of Decision Requested	Amend Chapter 3.1 Indigenous Vegetation and Habitats to provide a mitigation hierarchy for indigenous biodiversity outside of an Significant Natural Area.		
Decision Reasons:	<ul style="list-style-type: none"> Policy 3.2.4 provides for offsetting where there are significant residual effects on indigenous biodiversity outside of an SNA. However, there is no policy that sets out a mitigation hierarchy for indigenous biodiversity outside of an SNA. It is important to link offsetting to a mitigation hierarchy to ensure that adverse effects are avoided, remedied or mitigated before offsetting significant residual adverse effects is considered. Implementation Method 11.1.3 of the WRPS provides direction in terms of biodiversity offsets for indigenous biodiversity outside of SNAs. Implementation Method 11.1.3 (a)(ii) states that district plans should promote biodiversity offsets as a way to achieve no net loss of indigenous biodiversity where significant residual adverse effects are unable to be avoided, remedied or mitigated. 		
Point Number	81.96		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.1 Indigenous Vegetation and Habitats		
Summary of Decision Requested	Amend Section 3.1 Indigenous Vegetation and Habitats to ensure that policies related to indigenous biodiversity outside of Significant Natural Area are not under section 3.2 Significant Natural Areas.		
Decision Reasons:	<ul style="list-style-type: none"> There are provisions in section 3.2 SNAs that apply to indigenous biodiversity outside of an SNA. Implementation Method 11.1.3 of the WRPS provides direction in terms of biodiversity offsets for indigenous biodiversity outside of SNAs. Implementation Method 11.1.3 (a)(ii) states that district plans should promote biodiversity offsets as a way to achieve no net loss of indigenous biodiversity where significant residual adverse effects are unable to be avoided, remedied or mitigated. 		

Submitter Number:	367	Submitter:	Liam McGrath
Organisation:	Mercer Residents and Ratepayers Committee		
Point Number	367.44		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.1 Indigenous Vegetation and Habitats		
Summary of Decision Requested	Retain Section 3.1 Indigenous Vegetation and Habitats.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.28		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.1 Indigenous Vegetation and Habitats		
Summary of Decision Requested	Add new policy to Section 3.1 Indigenous Vegetation and Habitats as follows: <u>(a) The Council recognises landowners' stewardship of the land and will work with landowners to promote the use of non-regulatory methods; including assistance with the establishment of protective covenants, service delivery, education, and other incentives in protecting and enhancing ecological sites, geological features, and the values of outstanding natural features and landscapes; and ensure current land management practices help achieve this.</u> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> Enhancement goals require active management on behalf of both Council and landowners if the goals are to be met. Submitter is concerned at the lack of understanding and recognition within the planning framework of the role landowners play with regards to achieving protection and enhanced biodiversity and ecosystem values across the district, regional and country. 		

- Active participation of landowners is practically necessary and essential to the successful protection and enhancement of ecological sites, geological features, and the values of outstanding natural features and landscapes.

Plan chapter: Section B Objectives and Policies > Chapter 3: Natural Environment > 3.1 Indigenous Vegetation and Habitats > 3.1.1 Objective – Biodiversity and ecosystems

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.93		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.1 Indigenous Vegetation and Habitats > 3.1.1 Objective – Biodiversity and ecosystems		
Summary of Decision Requested	Amend Objective 3.1.1 Biodiversity and ecosystems to clearly state that the outcome that is being worked towards is to achieve no net loss.		
Decision Reasons:	<ul style="list-style-type: none"> • The Proposed District Plan does not clearly state that it seeks to maintain or enhance biodiversity in order to work towards achieving no net loss. • Policy 11.1(a), Implementation Method 11.1.3 and 11.2.2 of the WRPS seek to achieve no net loss.

Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.1 Indigenous Vegetation and Habitats > 3.1.1 Objective – Biodiversity and ecosystems		
Summary of Decision Requested	Retain Objective 3.1.1- Biodiversity and ecosystems as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports this objective. 		

Submitter Number:	794	Submitter:	Middlemiss Farm Holdings Limited
Point Number	794.5		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.1 Indigenous Vegetation and Habitats > 3.1.1 Objective – Biodiversity and ecosystems		
Summary of Decision Requested	<p>Amend Objective 3.1.1 Biodiversity and ecosystems as follows:</p> <p><i>(a) Indigenous biodiversity values and the life-supporting capacity of indigenous ecosystems are maintained or enhanced.</i></p> <p><i>(b) New areas of indigenous biodiversity are established.</i></p> <p>AND</p> <p>Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Based on the Council's own evidence there is no doubt that a significant resource management issue for the District is biodiversity loss, which continues to be at risk due to vegetation clearance, stock intrusion, animal and pest degradation, degradation of the margins for estuarine wetlands by stock. • The submitter is concerned that the Proposed District Plan is largely focused on only protecting existing Significant Natural Areas and ignores restoring, linking and expanding indigenous biodiversity that does not qualify as Significant Natural Areas. • There is no regulatory framework to increase indigenous vegetation and wetlands to a target vegetation cover of 30%, actively manage areas that can be considered Significant Natural Areas in the future, increase vegetation cover on steep and erosion prone land, incentivize fencing of riparian areas, incentivize the creation of new corridors, pest control, enrichment planting and restoration. • No comprehensive research supports the claim that incentive-based planting in the district has resulted in sporadic, adhoc development. • There appears to be no robust analysis of the success or failures of the limited amount of enhancement subdivision that has previously been undertaken in the Franklin part of the District that had these provisions. • Several court decisions including <i>Di Andre Estates Ltd v Rodney District Council</i>, <i>Arrigato Investments v Auckland Regional Council</i>, <i>Omaha Park</i> and <i>Cabra v Auckland Council</i> are useful for establishing current best practice to meet the requirements of Part 2 of the RMA. • <i>Cabra v Auckland Council</i> case law notes that the Council could not use the fact that there may be issues with weeds, or poor fencing, as a reason to oppose the inclusion of incentive provisions in the Plan, because it had the authority and responsibility to monitor consent conditions. There are a range of enforcement mechanisms available to a council, and the ability to recover costs from a consent holder, that mean managing compliance in these areas should not be onerous for a council. • The court in the <i>Cabra</i> case has taken a far sighted and future oriented approach to the maintenance and enhancement of biodiversity. • The Proposed District Plan does not give effect to the New Zealand Coastal Policy Statement. • The Proposed District Plan does not give effect to the National Policy Statement for Freshwater Management. • The Proposed District Plan does not adopt the vision of the Waikato River Settlement Act as there is not a strong emphasis in the vision on restoration. • The Proposed District Plan does not give effect to the Waikato Regional Policy Statement. 		

- The submitter supports appropriate protection of high-class soils where practicable and where they are alternatives to using this land. However, sustainable land management may mean that subdivision on these soils is not always inappropriate.

Plan chapter: Section B Objectives and Policies > Chapter 3: Natural Environment > 3.1 Indigenous Vegetation and Habitats > 3.1.2 Policies

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.97		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.1 Indigenous Vegetation and Habitats > 3.1.2 Policies		
Summary of Decision Requested	<p>Amend Policy 3.1.2(c) Policies as follows:</p> <p>(c) <i>Provide for the removal of Manuka or Kanuka <u>for domestic firewood or arts and crafts</u> on a sustainable basis.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • The level of Manuka or Kanuka removal identified in 22.2.7 P2 and the purpose of that removal is acceptable to the submitter. However, further detail needs to be added to the policy to ensure that the effects of this type of clearance remain minor. • This is in line with the WRPS Implementation Method 11.1.4. 		

Submitter Number:	585	Submitter:	Lucy Roberts
Organisation:	Department of Conservation		
Point Number	585.40		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.1 Indigenous Vegetation and Habitats > 3.1.2 Policies		
Summary of Decision Requested	<p>Amend Policy 3.1.2(a)(i) Policies as follows:</p> <p>(a) <i>Enable activities that maintain or enhance indigenous biodiversity including:</i></p> <p>(i) <i>planting and reintroducing eco-sourced using indigenous species suitable to the habitat;</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Request recognition of potential initiatives to reintroduce fauna as components of habitats. • Eco-sourcing refers to plants grown from seeds or propagules collected from the naturally occurring vegetation close to the restoration site. Application of this principle will support species adapting to local conditions. • To avoid plant species not native to Waikato District becoming invasive and impacting on the local native vegetation, eco-sourced indigenous plants should be used. 		
Point Number	585.41		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.1 Indigenous Vegetation and Habitats > 3.1.2 Policies		
Summary of Decision Requested	<p>Amend Policy 3.1.2 (a)(iii) Policies as follows:</p> <p><i>Enable activities that maintain or enhance indigenous biodiversity including:</i></p> <p>...</p> <p>(iii) <i>biosecurity works <u>including management of plant diseases</u>.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Plant diseases such as kauri dieback and myrtle rust present immediate threats to indigenous species. Recognising plant diseases will provide better acknowledgement of the potential risks from these diseases. 		
Point Number	585.42		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.1 Indigenous Vegetation and Habitats > 3.1.2 Policies

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.29		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.1 Indigenous Vegetation and Habitats > 3.1.2 Policies		
Summary of Decision Requested	<p>Amend Policy 3.1.2 (a) Policies as follows:</p> <p>(a) Enable-Incentivise activities that maintain or enhance indigenous biodiversity including:</p> <p>(i) planting using indigenous species suitable to the habitat;</p> <p>(ii) the removal or management of pest plant and animal species;</p> <p>(iii) biosecurity works.</p> <p>AND</p> <p>Add to Policy 3.1.2 (a) Policies as follows:</p> <p><u>(d) Encouraging voluntary planting of indigenous plant specimens suitable to each habitat, whilst anticipating flexibility to appropriately manage planted vegetation in a way that is integrated with other land management practices.</u></p> <p>AND</p> <p>Add to Policy 3.1.2 new Policies as follows:</p> <p><u>(d) Council will coordinate with other agencies and organisations in identifying risks, requirements, opportunities and effective methods for maintaining and enhancing Waikato's biodiversity and will support landowners with a range of regulatory and non-regulatory initiatives to maintain and enhance biodiversity.</u></p> <p><u>(e) Consider additional subdivision opportunities where significant biodiversity gains can be achieved in the following priority areas or locations:</u></p> <p><u>(i) Peat lakes and rivers: by permanently providing significant buffer areas around peat lakes and rivers; or</u></p> <p><u>(ii) Wetlands, kahikatea stands, riparian margins and bush stands on the low lands, by providing permanent protection; or</u></p> <p><u>(iii) Significant natural areas being aggregated to form one large more ecologically sustainable area and being permanently protected; or</u></p> <p><u>(iv) Biodiversity corridors: by the permanent protection of significant areas of indigenous forest within biodiversity (indigenous forest) corridors; or</u></p> <p><u>(v) Biodiversity corridors: by permanently protecting significant riparian or wetland areas within identified biodiversity, (river or stream) corridors.</u></p> <p>AND</p> <p>Any consequential amendments needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Submitter supports the enabling intent of this policy, however the proposed rules framework designed to implement this policy are not consistent. Activities such as the removal or management of pest plant and animal species can require vegetation clearance and earthworks for conservation fencing to exclude stock or pests. The proposed rules only enable the vegetation clearance activity under Rule 22.2.7, P1(a)(ii), earthworks for a new fence or track would require a Restricted Discretionary resource consent as per Rule 22.2.3.3, RD1(a). This requirement introduces consent costs, on top of labour and materials and creates time constraints – all of which have the ability to stifle good intentions and hinder rather than enable activities which ultimately maintain or enhance indigenous biodiversity. It is widely accepted that the enhancement indigenous vegetation and ecosystems is difficult to achieve without assistance and co-operation from landowners and other parties. Landowners need support from a range of authorities and agencies for initiatives to protect and maintain biodiversity.

Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas		
Summary of Decision Requested	Amend Section 3.2 Significant Natural Areas to ensure that policies related to indigenous biodiversity outside of Significant Natural Area are not under section 3.2 Significant Natural Areas,		
Decision Reasons:	<ul style="list-style-type: none"> • There are provisions in section 3.2 SNAs that apply to indigenous biodiversity outside of an SNA. • Implementation Method 11.1.3 of the WRPS provides direction in terms of biodiversity offsets for indigenous biodiversity outside of SNAs. • Implementation Method 11.1.3 (a)(ii) states that district plans should promote biodiversity offsets as a way to achieve no net loss of indigenous biodiversity where significant residual adverse effects are unable to be avoided, remedied or mitigated.

Organisation:	Mercer Residents and Ratepayers Committee		
Point Number	367.45		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas		
Summary of Decision Requested	Retain Section 3.2 Significant Natural Areas.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	381	Submitter:	Rawiri Bidois
Point Number	381.1		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas		
Summary of Decision Requested	Council shall provide rates relief for the loss of use to the private landowner where an identified Significant Natural Area is located on private land.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter considers the idea of applying restrictions to the Significant Natural Areas for environmental and aesthetic purposes is meritorious to the council community and its ratepayers. However in doing so ignores two important points: <ul style="list-style-type: none"> - Firstly, by council applying the Significant Natural Area identifier, the private landowner is being robbed of the freehold and unfettered use of that land for ever, and for no compensation. The submitter considers this amounts to the same as was done to Maori in the 1800's (Eg: Raupatu, Public Works takings of the Tokanui land block for the Waikeria Prison at one end and Hospital at the other etc etc), with the flick of the pen. - Additionally it is difficult to believe and trust the machinery of Local and Central government, that they won't change the rules in the future to accommodate new best practise thinking of the time, to the detriment of the current thinking. eg: Significant Natural Area today turned into a highway tomorrow, or tree planting for Carbon Credits the day after. - Secondly, the council will be socialising the gains to the community, at the expense of the private landowner. 		
Decision Reasons:			

Submitter Number:	574	Submitter:	TaTa Valley Limited
Point Number	574.10		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas		
Summary of Decision Requested	Amend Section 3.2 - Significant Natural Areas and related rules, to apply a bespoke approach for the management of indigenous biodiversity on the TaTa Valley site as outlined in the proposed provisions (refer to Appendix A of the submission). AND Any consequential amendments and other relief to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • Opposes the approach (including rules) to the management of Significant Natural Area's on their land and seeks the application of a bespoke approach to the management of indigenous biodiversity and Significant Natural Area's on the TaTa Valley Resort site. • Approach recognises that some areas of indigenous biodiversity will be removed to allow for development of the resort but overall biodiversity across the site will be maintained through a combination of ecological mitigation, enhancement, offset, compensation and protection. • Submission notes that proposed areas of Significant Natural Areas for removal are identified on the Precinct Plan (Areas A and B), attached to the submission as Appendix A. • Submission also notes that this approach is informed by a report from Wildlands Consultants Ltd. 		

Submitter Number:	587	Submitter:	Bruce Cameron
Point Number	587.3		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas		
Summary of Decision Requested	Amend the Significant Natural Areas to be confirmed through direct consultation with the landowner.		
Decision Reasons:	<ul style="list-style-type: none"> • The Significant Natural Areas must only come about with direct consultation with the landowner. The landowners are the ones that need to drive it with support from Council.

--------------------------	-----	-------------------	--------------------------------

Point Number	827.1
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas
Summary of Decision Requested	No specific decision sought, but submission does not oppose section 3.2 Significant Natural Areas provided that the amendments are made to Policy 3.2.6 as sought below.
Decision Reasons:	<ul style="list-style-type: none"> There is a need to recognise the ironsand mining operations at Waikato North Head.

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		
Point Number	831.56		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas		
Summary of Decision Requested	<p>Delete Policy 3.2.6 Providing for vegetation clearance</p> <p>AND</p> <p>Add policies that will increase natural habitats.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports bush regeneration, such as that at Wainui Bush Reserve. The Proposed District Plan makes no attempt to indicate how much bush has been lost, or will be lost by these and other provisions in the Proposed District Plan. Screening with trees should be applied to improve and protect views from Raglan and its beaches. Much of the attraction of Raglan derives from its beaches and the north shore of the harbour having rural aspects. New subdivisions could diminish that attraction and an active policy of tree planting to establish belts of trees screening those views would help to protect the rural image. Alternatively, the Proposed District Plan could ban development which would detract from those views. 		

Submitter Number:	862	Submitter:	Havelock Village Limited
Point Number	862.28		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas		
Summary of Decision Requested	<p>Amend the objectives and policies within section 3.2 Significant Natural Areas and related rules for Significant Natural Areas and biodiversity to provide greater flexibility and to enable development subject to appropriate mitigation or offsetting.</p> <p>AND</p> <p>Any consequential amendments or alternative relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The objectives and policies in section 3.2 relating to Significant Natural Areas are overly restrictive.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.30		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.1 Objective – Significant Natural Areas		
Summary of Decision Requested	<p>Amend Objective 3.2.1 Significant Natural Areas as follows:</p> <p>(a) <i>Indigenous biodiversity in Significant Natural Areas is protected and enhanced <u>through a range of regulatory and non-regulatory methods.</u></i></p> <p>AND</p> <p>Any consequential amendments needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter considers it important for the Objective to provide more direction and context. It is important to be clear that enhancement goals require a different approach to protection which can be achieved, in part via regulation. Regulation can control use but not induce the active management required to achieve enhancement. • The submitter recognises that protection of significant indigenous vegetation and significant habitats of indigenous fauna is a RMA Section 6(c) obligation, and that biodiversity is important to all New Zealanders. This does not however justify the one dimensional approach the Proposed District Plan has adopted. • Farmers play a fundamental role in the on-going active management and protection of biodiversity on private land in the district and invest hundreds and thousands of dollars in weed and pest control on their own land, every single year. • It more appropriate to provide support, advice and encouragement through contestable funds to landowners when it comes to protection of ecosystems supporting significant indigenous vegetation and significant habitats of indigenous fauna. It is through such non-regulatory methods that Council can ensure the greatest landowner buy-in and ultimately the best environmental gains. 		

Submitter Number:	747	Submitter:	Ryburn Lagoon Trust Limited
Point Number	747.2		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.1 Objective – Significant Natural Areas		
Summary of Decision Requested	<p>Amend Objective 3.2.1 Significant Natural Areas to acknowledge that enhancement may not always be practicable or achievable and restoration is a desirable management outcome with the following amendments:</p> <p><i>Indigenous biodiversity in Significant Natural Areas is protected and enhanced restored or enhanced where appropriate.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to provide other such relief and consequential amendments as to give effect to the relief sought in the submissions.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The Waikato Regional Policy Statement requires, at Policy 11.2, that significant indigenous vegetation and the significant habitats of indigenous fauna be protected by ensuring the characteristics that contribute to its significance are not adversely affected to the extent that the significance of the vegetation or habitat is reduced. This is consistent with RMA 1991 s6(c) requirements. • Proposed District Plan Objective 3.2.1 also seeks enhancement as an outcome. The Objective should acknowledge that enhancement of Significant Natural Areas may not always be practicable or achievable and that in addition, restoration is also a desirable management outcome. 		

Submitter Number:	794	Submitter:	Middlemiss Farm Holdings Limited
Point Number	794.7		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.1 Objective – Significant Natural Areas

Point Number	81.99		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.2 Policy - Identify and Recognise		
Summary of Decision Requested	Retain Policy 3.2.2 Identify and Recognise.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the approach of identification and mapping of SNAs. This approach provides landowners with greater certainty and assists with achieving Policy 11.2 of WRPS. 		

Submitter Number:	202	Submitter:	Tom Hockley
Point Number	202.1		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.2 Policy - Identify and Recognise		

Summary of Decision Requested	Amend Policy 3.2.2(b) Identify and Recognise, to ensure that the proposed Significant Natural Areas related regulations are only accepted with the full voluntary participation of the landowner.
Decision Reasons:	<ul style="list-style-type: none"> The proposed Plan, as it is currently presented, effectively removes a significant degree of the submitters rights and amenity over/of the land they purchased, without appropriate compensation. Previous correspondence from the Council recognised that "The reason many of these areas still exist is because past generations of farmers and landowners valued and looked after them." The submitters now find it perplexing that they are no longer trusted to continue that approach without coercion. The imposition of the proposed SNAs significantly devalues the affected properties. The submitter purchased this land because other properties had similar encumbrances. Landowners also have plans. In the submitters' case, forestry and agriculture are options that they have considered, but chose to leave that portion of land in order to enjoy it as it is. There seems to be no recognition in the proposed Plan of the fact that landowners have made commitments and investments, in accordance with their own (heretofore) legitimate and responsible plans, which are now considered illegal. This approach is counterproductive. The best means of achieving conservation is by the acquisition of suitable land tracts, zoning and caring for them appropriately. By these means, all ratepayers would then share the cost burden, and all would be able to share the enjoyment of visiting those areas. Other alternatives include the "Bush Tenancy" method recently used in Victoria, Australia. That arrangement protects large eligible tracts of land by voluntary contracts. The economic benefits of this dwarf carbon-tax scenarios.

Submitter Number:	349	Submitter:	Kim Robinson
On behalf of:	Lochiel Farmlands Limited		
Point Number	349.1		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.2 Policy - Identify and Recognise		
Summary of Decision Requested	Add the criteria for each Significant Natural Area, as these are what should be relevant when assessing appropriate for Significant Natural Areas.		
Decision Reasons:	<ul style="list-style-type: none"> Section 32 analysis noted that mapping was mainly a desktop exercise. Rules don't identify the characteristics being protected. This submission point applies equally to all Significant Natural Areas. 		

Submitter Number:	372	Submitter:	Steve van Kampen
Organisation:	Auckland Council		
Point Number	372.24		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.2 Policy - Identify and Recognise		
Summary of Decision Requested	Amend Policy 3.2.2 (a) Identify and Recognise as follows: <i>Identify significant indigenous vegetation and habitats of indigenous fauna in accordance with the Waikato Regional Policy Statement <u>and include identified significant ecological areas in the Auckland Unitary Plan which cross the Waikato-Auckland territorial boundary</u>, as Significant Natural Areas.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Submitter seeks alignment with the Auckland Unitary Plan – Operative in Part in relation to the identification and protection of Significant Natural Areas in close proximity to the common territorial authority boundary. Ensure areas identified in the Unitary Plan follow through into the Waikato District. 		

Submitter Number:	575	Submitter:	Fulton Hogan Limited
Point Number	575.6		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.2 Policy - Identify and Recognise		
Summary of Decision Requested	Retain Policy 3.2.2 (b) Identify and Recognise, except for the amendments sought below. AND Amend Policy 3.2.2 (b) Identify and Recognise, as follows (or words to similar effect): <i>(b) Recognise and protect Significant Natural Areas by ensuring the characteristics that contribute to their significance are not adversely affected by <u>activities other than mineral and aggregate extraction</u>.</i> AND Amend the Proposed District Plan to make consequential and additional amendments as necessary to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Fulton Hogan supports the intent of the policy but seeks amendments, noting that the RPS specifically protects mineral extraction activities, which is currently not achieved by the proposed wording of Policy 3.2.2. Proposed amendments make it clear that extraction activities may removal stands of indigenous vegetation without impacting on the characteristics that contribute to the significance of SNA. While not a matter for the relief sought on this submission point, the submission notes that Fulton Hogan request that the SNA overlays imposed over its properties are removed in their entirety, so as to ensure that the commercial viability of these quarries are not unreasonably obstructed.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.31		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.2 Policy - Identify and Recognise		
Summary of Decision Requested	<p>Amend Policy 3.2.2 (a) Identify and Recognise, as follows:</p> <p><i>(a) Identify significant indigenous vegetation and habitats of indigenous fauna in accordance with the Waikato Regional Policy Statement and identify as Significant Natural Areas on a Schedule in the plan and planning maps.</i></p> <p><i>(i) The sites currently identified on the planning maps are for information purposes only and have no legal effect until a robust identification process, including ground-truthing, has been undertaken.</i></p> <p><i>(b) Recognise and protect Significant Natural Areas by ensuring the characteristics that contribute to their significance are not adversely affected.</i></p> <p><i>(i) Ensure landowners are informed of the characteristics relating to their specific site and the activities which may adversely affect them.</i></p> <p><i>(c) Where a proposed activity requires a resource consent solely as a result of an area being identified as a significant natural area (SNA) and the site has not been ground-truthed, Council will meet the costs of the ground-truthing assessment to confirm the status and boundaries of the significant natural area. The assessment will be carried out by a Council approved suitably qualified and experienced ecologist prior to an application for resource consent being lodged.</i></p> <p>AND</p> <p>Any consequential amendments needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • FFNZ understand the intent of this policy and the link to the significance criteria in the Waikato Regional Policy Statement (WRPS) • FFNZ support the principle of a policy that seeks to identify areas of national importance and consider that a targeted planning response is more appropriate than general catch all rules which elevate all areas of biodiversity to a significance status until proven otherwise; • However, this position increases the importance of the process used to identify the sites, as with significance comes protection and acceptance that extra land use controls may be required to meet RMA obligations. It would be very rare to find a landowner who would not want to look after an area which is truly significant, but frustrations and resentment will result from a flawed identification process. • In this regard we are unsure what the method or process which will be used to implement the identification assessment required of Policy 3.2.2(a) and as such cannot assess the merits or otherwise of the process going forward. • With regards to SNA sites which have been included in the PDR, FFNZ seek that these be withdrawn until a robust identification process has been undertaken. Many sites have been mapped as SNAs which didn't categorically meet the WRPS significance criterion. It is our submission that identification of sites using aerial photography and desktop analysis with only a very small percentage of sites visited to ground-truth information, means the level of confidence in the process is not sufficiently high enough to incorporate these sites into the plan with the degree of regulation proposed to be applied over these areas. • There are many potential deficiencies in relying only on desktop studies, including outdated information, not understanding the purpose or origins of features that may be identified (such as 'wetland areas' for example - which may have been deliberately constructed for water storage purposes) and not being able to properly evaluate and understand the values of a feature, or ground slope. • FFNZ also urge WDC to be strategic and practical in its approach and focus limited resources on working first with those landowners who are engaged and keen to be involved in the first instance. There is little to be gained by backing reluctant landowners into an expensive and protracted litigious battle using public money that would be better spent achieving good outcomes on the ground not on paper. 		

Submitter Number:	691	Submitter:	McPherson Resources Limited
Point Number	691.3		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.2 Policy - Identify and Recognise		
Summary of Decision Requested	<p>Amend Policy 3.2.2 (b) Identify and Recognise, as follows (or words to similar effect):</p> <p><i>(b) Recognise and protect Significant Natural Areas by ensuring the characteristics that contribute to their significance are not adversely affected by <u>activities other than mineral and aggregate extraction</u>.</i></p> <p>AND</p> <p>Any consequential amendments or alternative relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> To ensure that mineral extraction industry (particularly the McPherson Quarry) is not unreasonably hindered by the existence of indigenous forestry in near proximity to the quarry itself This is in line with the Regional Policy Statement, which makes specific reference to the importance of mineral extraction and the benefits to be derived for the region from allowing further extraction of the same. 		

Submitter Number:	747	Submitter:	Ryburn Lagoon Trust Limited
Point Number	747.3		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.2 Policy - Identify and Recognise		
Summary of Decision Requested	<p>Amend Policy 3.2.2 - Identify and recognise as follows (or similar such amendments to give effect to the relief sought in this submission):</p> <p><i>(a) Identify significant indigenous vegetation and habitats of indigenous fauna in accordance with the Waikato Regional Policy Statement and identify as Significant Natural Areas.</i></p> <p><i>(b) Recognise and protect Significant Natural Areas by ensuring the characteristics that contribute to their significance are not adversely affected <u>to the extent that the significance of the vegetation or habitat is reduced</u>.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to provide other such relief and consequential amendments as to give effect to the relief sought in the submissions.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Proposed Policy 3.2.2 applies a no adverse effects approach to managing effects on the characteristics of Significant Natural Areas. This goes beyond the requirements of the Waikato Regional Policy Statement, which seeks to ensure that the characteristics that contribute to areas of significant indigenous vegetation and significant habitats of indigenous fauna are not adversely affected to the extent that the significance of the vegetation or habitat is reduced. The policy should be tempered to recognise that the characteristics that contribute to the significance of the Significant Natural Area are not adversely affected to the extent that the significance of the vegetation or habitat is reduced. 		

Submitter Number:	794	Submitter:	Middlemiss Farm Holdings Limited
Point Number	794.8		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.2 Policy - Identify and Recognise		
Summary of Decision Requested	<p>Amend Policy 3.2.2 Identify and Recognise as follows:</p> <p><i>(a) Identify significant indigenous vegetation and habitats of indigenous fauna in accordance with the Waikato Regional Policy Statement and identify as Significant Natural Areas.</i></p> <p><i>(b) Recognise and protect Significant Natural Areas by ensuring the characteristics that contribute to their significance are not adversely affected.</i></p> <p><i>(c) <u>Incentivise subdivision for ecological enhancement where it will maintain and support the viability of existing Significant Natural Areas.</u></i></p> <p>AND</p> <p>Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Based on the Council's own evidence there is no doubt that a significant resource management issue for the District is biodiversity loss, which continues to be at risk due to vegetation clearance, stock intrusion, animal and pest degradation, degradation of the margins for estuarine wetlands by stock. The submitter is concerned that the Proposed District Plan is largely focused on only protecting existing Significant Natural Areas and ignores restoring, linking and expanding indigenous biodiversity that does not qualify as Significant Natural Areas. There is no regulatory framework to increase indigenous vegetation and wetlands to a target vegetation cover of 30%, actively manage areas that can be considered Significant Natural Areas in the future, increase vegetation cover on steep and erosion prone land, incentivize fencing of riparian areas, incentivize the creation of new corridors, pest control, enrichment planting and restoration. No comprehensive research supports the claim that incentive-based planting in the district has resulted in sporadic, adhoc development. There appears to be no robust analysis of the success or failures of the limited amount of enhancement subdivision that has previously been undertaken in the Franklin part of the District that had these provisions. Several court decisions including Di Andre Estates Ltd v Rodney District Council, Arrigato Investments v Auckland Regional Council, Omaha Park and Cabra v Auckland Council are useful for establishing current best practice to meet the requirements of Part 2 of the RMA. <i>Cabra v Auckland Council</i> case law notes that the Council could not use the fact that there may be issues with weeds, or poor fencing, as a reason to oppose the inclusion of incentive provisions in the Plan, because it had the authority and responsibility to monitor consent conditions. There are a range of enforcement mechanisms available to a council, and the ability to recover costs from a consent holder, that mean managing compliance in these areas should not be onerous for a council. The court in the <i>Cabra</i> case has taken a far sighted and future oriented approach to the maintenance and enhancement of biodiversity. The Proposed District Plan does not give effect to the New Zealand Coastal Policy Statement. The Proposed District Plan does not give effect to the National Policy Statement for Freshwater Management. The Proposed District Plan does not adopt the vision of the Waikato River Settlement Act as there is not a strong emphasis in the vision on restoration. The Proposed District Plan does not give effect to the Waikato Regional Policy Statement. The submitter supports appropriate protection of high-class soils where practicable and where they are alternatives to using this land. However, sustainable land management may mean that subdivision on these soils is not always inappropriate. 		

Plan chapter: Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.3 Policy - Management hierarchy

Submitter Number:	81	Submitter:	Waikato Regional Council
--------------------------	----	-------------------	--------------------------

Point Number	81.102
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.3 Policy - Management hierarchy
Summary of Decision Requested	<p>Amend Policy 3.2.3 Management hierarchy as follows:</p> <p>(a) <i>Recognise and protect indigenous biodiversity within Significant Natural Areas by:</i></p> <p>(i) avoiding the significant <i>avoiding the significant</i> adverse effects of vegetation clearance and the disturbance of habitats unless specific activities need to be enabled;</p> <p>(ii) <i>remedying any effects that cannot be avoided; then</i></p> <p>(iii) <i>mitigating any effects that cannot be remedied; and</i></p> <p>(iv) <i>after remediation or mitigation has been undertaken, offset any significant residual more than minor</i> adverse effects in accordance with Policy 3.2.4.</p>
Decision Reasons:	<ul style="list-style-type: none"> Policy 3.2.3 is generally supported; however, some amendments are required to ensure that the Policy gives effect to Implementation Method 11.2.2 of the WRPS. Policy 3.2.3(a)(i) states that significant adverse effects will be avoided unless specific activities need to be enabled. Firstly, the policy sets the bar at 'significant adverse effects' being avoided. Implementation Method 11.2.2(b) of the WRPS requires that all adverse effects are avoided. Secondly, no further guidance is provided on what the specific activities that need to be enabled are. This is potentially referring to those circumstances covered by Policy 3.2.1 of the Proposed Plan, however it is not clear. Implementation Method 11.1.4 of the WRPS recognises that some activities with minor adverse effects on indigenous biodiversity may be permitted. In addition, Policy 3.2.3(a)(iv) requires that any significant residual adverse effects be offset. WRPS Method 11.2.2(d) requires offsets where more than minor residual adverse effects remain. 'Significant' is a much higher threshold than 'more than minor' and may result in residual adverse effects not being addressed.

Submitter Number:	575	Submitter:	Fulton Hogan Limited
Point Number	575.7		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.3 Policy - Management hierarchy		
Summary of Decision Requested	<p>Retain Policy 3.2.3 Management hierarchy, except for the amendments sought below.</p> <p>AND</p> <p>Amend Policy 3.2.3 Management hierarchy, as follows:</p> <p>(i) <i>avoiding the significant adverse effects of vegetation clearance and the disturbance of habitats unless specific activities need to be enabled such as mineral and aggregate extraction activities;</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential and additional amendments as necessary to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Support the intent of this policy but concerned that it would hinder the lawful operations of existing quarries. Amendment is sought as the removal of indigenous forestry may be necessary to support growth of the district and region. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.5		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.3 Policy - Management hierarchy		
Summary of Decision Requested	Retain Policy 3.2.3 Management hierarchy, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Significant Natural Areas are identified on the planning maps and feature widely across the district. Although not defined in the Proposed District Plan, SNA are those areas containing significant habitats of indigenous fauna and flora. The submitter supports the identification of such areas, and the hierarchy approach provided within Policy 3.2.3, and in particular the reference within clause (i) to 'unless specific activities need to be enabled'. The reference is supported as it recognises that there are some activities (for example the National Grid) which in some circumstances may need to be enabled. The policy gives effect to Policy 8 of the NPSET which recognises that within the rural environment, planning and development of the National Grid should seek to avoid adverse effects on outstanding natural landscapes, areas of high natural character and areas of high recreation value and amenity and existing sensitive activities. 		

Submitter Number:	580	Submitter:	Andrew Feierabend
Organisation:	Meridian Energy Limited		
Point Number	580.13		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.3 Policy - Management hierarchy		
Summary of Decision Requested	<p>Retain Policy 3.2.3 Management Hierarchy, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 3.2.3(a)(iv) Management Hierarchy as follows:</p> <p>(iv) <i>after remediation or mitigation has been undertaken, provide for managing residual effects by means of <u>environmental compensation or biodiversity offsets</u> in accordance with Policy 3.2.4.</i></p> <p>AND</p> <p>Amend the Proposed District Plan as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Environmental compensation is an important method in the toolbox of approaches to managing adverse effects and should be explicitly included in the management hierarchy particularly for the consideration of large infrastructure projects. 		

Submitter Number:	585	Submitter:	Lucy Roberts
Organisation:	Department of Conservation		
Point Number	585.46		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.3 Policy - Management hierarchy		
Summary of Decision Requested	<p>Retain Policy 3.2.3 Management hierarchy, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 3.2.3 Management hierarchy as follows:</p> <p>(a) <i>Recognise and protect indigenous biodiversity within Significant Natural Areas by:</i></p> <p>(i) <i>avoiding the significant adverse effects of vegetation clearance and the disturbance of habitats unless specific activities need to be enabled as a preference;</i></p> <p>...</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Generally supports Policy 3.2.3, however seek amendments to ensure the policy gives effect to the Waikato Regional Policy Statement and is consistent with the Guidance for Biodiversity Offsetting. • Avoidance of adverse effects should apply to all activities before other measures are considered.

Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.3 Policy - Management hierarchy		
Summary of Decision Requested	Retain Policy 3.2.3 Management hierarchy as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The submission conditionally supports this policy, which submitter understands is drafted to give effect to the Waikato Regional Policy Statement. • The submitter supports a planning response which is focused on more robust and ground-truthed Significant Natural Area identification and which may impact on and require amendments to rules. 		

Submitter Number:	691	Submitter:	McPherson Resources Limited
Point Number	691.4		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.3 Policy - Management hierarchy		
Summary of Decision Requested	<p>Amend Policy 3.2.3 (a)(i) Management hierarchy, as follows (or words to similar effect):</p> <p>(a) <i>Recognise and protect indigenous biodiversity within Significant Natural Areas by:</i></p> <p>(i) <i>avoiding the significant adverse effects of vegetation clearance and the disturbance of habitats unless specific activities need to be enabled, <u>such as for mineral and aggregate extraction activities</u>;</i></p> <p>AND</p> <p>Any consequential amendments or alternative relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> To ensure that mineral extraction industry (particularly the McPherson Quarry) is not unreasonably hindered by the existence of indigenous forestry in near proximity to existing quarries This is in line with Regional Policy Statement which makes specific reference to the importance of mineral extraction and the benefits to be derived for the region from allowing further extraction of the same. In the event that the SNA overlay is not removed from the McPherson's property Policy 3.2.4 needs to be amended to ensure the McPherson's quarry can offer up such biodiversity offsets, even if it impacts on an area with the SNA overlay. McPherson Supports the use of biodiversity offsetting as they accept that operations involving mineral and aggregate extraction can sometimes result in residual adverse effects. It is appropriate to provide policy guidance that can be used in circumstances where applications received are non-complying but would be acceptable based on the use of a biodiversity offset. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.5		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.3 Policy - Management hierarchy		
Summary of Decision Requested	Retain Policy 3.2.3 Management hierarchy as notified.		
Decision Reasons:	<ul style="list-style-type: none"> It is appropriate to enable some activities within Significant Natural Areas (SNAs) despite adverse effects occurring. 		

Submitter Number:	797	Submitter:	Fonterra Limited
Point Number	797.8		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.3 Policy - Management hierarchy		
Summary of Decision Requested	Retain Policy 3.2.3 Management hierarchy as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The provisions provide appropriate recognition of the need to enable activities within Significant Natural Areas. 		

Submitter Number:	924	Submitter:	Alice Barnett
Organisation:	Genesis Energy Limited		
Point Number	924.8		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.3 Policy - Management hierarchy		
Summary of Decision Requested	<p>Amend Policy 3.2.3 (a) (iv)- Management Hierarchy as follows:</p> <p>iv.) <i>After remediation or mitigation has been undertaken, offset <u>or compensate</u> any significant residual adverse effects <u>in accordance with Policy 3.2.4.</u></i></p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the general approach to management of Significant Natural Areas (SNA) as detailed in Policy 3.2.3 and 3.2.4. The submitter considers that there may be circumstances where it is impractical for "no net loss" to be achieved. In that regard, the submitter considers that environmental compensation be included as a mechanism to manage effects, specifically for regionally significant industry and regionally significant infrastructure. This approach has been used widely around New Zealand in District Plans for managing biodiversity. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.5		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.3 Policy - Management hierarchy		
Summary of Decision Requested	Retain Policy 3.2.3 Management Hierarchy as notified.		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail supports the management of Significant Natural Areas and the recognition that where development is necessary these effects on Significant Natural Area values can be managed by a suite of options including avoiding, remedying, mitigating and offsetting. The rail network is not able to be easily relocated and given the function it provides for the region and the country, the rail network may cross or run parallel Significant Natural Areas. Given KiwiRail's operational need to maintain existing corridor, it is important that it is able to utilise the measures identified in the Policy to address any adverse environmental effects. 		

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.103		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.4 Policy – Biodiversity Offsetting		
Summary of Decision Requested	Amend Policy 3.2.4 Biodiversity Offsetting to address biodiversity offsets in relation to indigenous biodiversity outside of Significant Natural Areas.		
Decision Reasons:	<ul style="list-style-type: none"> As currently worded, Policy 3.2.4(a) addresses biodiversity offsets in both SNA's and indigenous biodiversity outside of SNAs. The rest of the Policy only addresses offsets in relation to SNAs. It is important that offsetting in relation to indigenous biodiversity outside of SNA's is also subject to a robust assessment framework. Outside of SNA's, WRPS Implementation Method 11.1.3(a)(ii) promotes biodiversity offsets where significant residual adverse effects remain. Within SNA's, WRPS Method 11.2.2(d) requires offsets where more than minor residual adverse effects remain. Policy 3.2.4 is intended to apply to both SNA and indigenous biodiversity outside of SNA. However it comes under section 3.2 SNAs. 		
Point Number	81.249		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.4 Policy – Biodiversity Offsetting		
Summary of Decision Requested	Amend Policy 3.2.4 Biodiversity Offsetting to require offsetting of more than minor residual adverse effects on Significant Natural Areas.		
Decision Reasons:	<ul style="list-style-type: none"> As currently worded, Policy 3.2.4(a) addresses biodiversity offsets in both SNA's and indigenous biodiversity outside of SNAs. The rest of the Policy only addresses offsets in relation to SNAs. It is important that offsetting in relation to indigenous biodiversity outside of SNA's is also subject to a robust assessment framework. Outside of SNA's, WRPS Implementation Method 11.1.3(a)(ii) promotes biodiversity offsets where significant residual adverse effects remain. Point Number	924.9		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.4 Policy – Biodiversity Offsetting		
Summary of Decision Requested	<p>Amend Policy 3.2.4- Biodiversity Offsetting as follows:</p> <p>(a) Allow for a biodiversity offset <u>or compensatory measure</u> to be offered by a resource consent applicant where an activity will result in significant residual adverse effects on a Significant Natural Area, or on indigenous biodiversity outside such Significant Natural Areas.</p> <p>(b) Within a Significant Natural Area, a biodiversity offset <u>or compensatory measure</u> will only be considered appropriate where adverse effects have been avoided, remedied or mitigated in accordance with the hierarchy established in Policy 3.2.3; and</p> <p>(i) The biodiversity offset is consistent with the framework detailed in Appendix 6 Biodiversity Offsetting; and</p> <p>(ii) The biodiversity offset can achieve no net loss of indigenous biodiversity:</p> <p style="padding-left: 40px;">A. Preferably in the affected area of Significant Natural Area;</p> <p style="padding-left: 40px;">Or</p> <p style="padding-left: 40px;">B. Where that is not practicable, in the ecological district in which the affected area of Significant Natural Area is located.</p> <p><u>(iii) Environmental compensation will be considered for effects associated with operation, maintenance and enhancement of regionally significant industry and regionally significant infrastructure.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the general approach to management of Significant Natural Areas (SNA) as detailed in Policy 3.2.3 and 3.2.4. • The submitter considers that there may be circumstances where it is impractical for "no net loss" to be achieved. In that regard, the submitter considers that environmental compensation be included as a mechanism to manage effects, specifically for regionally significant industry and regionally significant infrastructure. This approach has been used widely around New Zealand in District Plans for managing biodiversity. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.6		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.4 Policy – Biodiversity Offsetting		
Summary of Decision Requested	<p>Retain Policy 3.2.4(b) Biodiversity offsetting except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 3.2.4(b)(ii) Biodiversity offsetting as follows (or similar amendments to achieve the requested relief):</p> <p>the biodiversity offset can achieve an equivalent level of no-net-loss of indigenous biodiversity;</p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • KiwiRail supports the management of Significant Natural Areas and the recognition that where development is necessary Significant Natural Area values are protected by avoiding, remedying, mitigating and offsetting any effects. • KiwiRail has a narrow, linear corridor which cannot easily be relocated nor can the effects of works to maintain it be completely avoided be times. The ability to offset is important for linear infrastructure providers, such as KiwiRail, where functional and locational constraints apply. • Offsetting and its application to projects are part of the RMA framework, and the term is not exclusive to biodiversity values e.g. this could include a financial offset. In some cases, it may not be possible to achieve a 100% 'no net loss' and the policy should be broadened to accommodate acceptable proposals. • It is noted that the imperative is inconsistent with Policy 11.1 of the Regional Policy Statement.

--------------------------	-----	-------------------	----------------------------------

Point Number	680.34
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.5 Policy - Biodiversity in the coastal environment
Summary of Decision Requested	Retain Policy 3.2.5 Biodiversity in the coastal environment as notified.
Decision Reasons:	<ul style="list-style-type: none"> Conditional support is extended to this policy, which submitter understands is drafted to give effect to the NZ Coastal Policy Statement and Waikato Regional Policy Statement. Support is conditional on a more robust Significant Natural Area identification process being undertaken.

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.7		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.5 Policy - Biodiversity in the coastal environment		
Summary of Decision Requested	Retain Policy 3.2.5(a) Biodiversity, except for the amendments sought below AND Amend Policy 3.2.5(a) Biodiversity in the coastal environment as follows: <i>Avoid the adverse effects of subdivision use and development within Significant Natural Areas of the coastal environment (except where there is a need for regionally significant infrastructure to be located in the coastal environment) on: ...</i> AND Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter recognises the need to protect Significant Natural Areas in the coastal environment. However this policy needs to recognise the need for some infrastructure to be located, operated and maintained within this environment. It is important that existing infrastructure located in areas of high value is able to be maintained and upgraded to ensure its continuing safe and efficient operation. 		

Plan chapter: Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.6 Policy - Providing for vegetation clearance

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.251		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.6 Policy - Providing for vegetation clearance		
Summary of Decision Requested	Retain Policy 3.2.6 Providing for vegetation clearance, except for the amendments sought below. AND Amend Policy 3.2.6 Providing for vegetation clearance to recognise that only clearance with minor adverse effects in relation to the maintenance or protection of indigenous biodiversity will be enabled as a permitted activity.		
Decision Reasons:	<ul style="list-style-type: none"> Policy 3.2.6 gives effect to Implementation Method 11.1.4 of the WRPS. However, for clarity and consistency with the WRPS it is suggested that the opening statement be amended to refer to minor adverse effects, as this is the basis for the activities listed in the WRPS Implementation Method. 		
Point Number	81.252		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.6 Policy - Providing for vegetation clearance		
Summary of Decision Requested	Retain Policy 3.2.6 Providing for vegetation clearance, except for the amendments sought below. AND Amend or Relocate Policy 3.2.6 Providing for vegetation clearance so that it is clear that it applies to both SNA's and indigenous biodiversity outside of Significant Natural Areas.		
Decision Reasons:	<ul style="list-style-type: none"> The activities in Policy 3.2.6 are provided for as permitted activities in the rules (just as they are for SNA, but different thresholds apply). However, this Policy falls under the heading 3.2 SNAs. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.8		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.6 Policy - Providing for vegetation clearance		
Summary of Decision Requested	Delete Policy 3.2.6 (a)(iv) Providing for vegetation clearance. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Any vegetation clearance within a Significant Natural Area is inappropriate because the protection of significant vegetation and significant habitats of indigenous fauna is a matter of national importance and should therefore not be eroded through a harvesting activity. 		

Submitter Number:	553	Submitter:	Malibu Hamilton
Point Number	553.13		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.6 Policy - Providing for vegetation clearance		
Summary of Decision Requested	Retain Policy 3.2.6(b) Providing for vegetation clearance.		
Decision Reasons:	<ul style="list-style-type: none"> The New Zealand Coastal Policy Statement 2010 in Policy (d) recognises Tangata whenua needs for papakāinga, marae. The Waikato Regional Policy Statement, 2016 also has Policy 6.4 Marae and papakāinga provisions. The Future Proof Strategy Planning for Growth November 2017 has Priority 15 that seeks developments of papakāinga housing that meets the needs and aspirations in the sub-region. RMA sections 6(e), 7(a), and 8 set out legal obligations when managing the natural and physical resources of the region to Tangata whenua. 		
Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.6		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.6 Policy - Providing for vegetation clearance		
Summary of Decision Requested	Retain Policy 3.2.6 Providing for vegetation clearance, except for the amendments sought below AND Add a new clause (v) to Policy 3.2.6 (a) Providing for vegetation clearance as follows (or equivalent references to Regionally significant infrastructure or the National Grid): <u>(v) associated with the operation, maintenance and upgrading of infrastructure</u> AND Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the provision of policy providing for the clearance of indigenous vegetation in Significant Natural Areas for certain circumstances as the policy recognizes there are some activities for which clearance is required. The submitter supports expansion of the policy to recognise vegetation associated with the operation, maintenance and upgrading of infrastructure. Such policy recognition would reflect the permitted activity rule 14.3.1. P5, and the need for vegetation clearance around the National Grid for safety reasons. While the submitter has recommended the policy apply to infrastructure generally, it would support the policy being specific to Regionally Significant Infrastructure (noting that this term is not defined or widely used in the Proposed District Plan), or the National Grid.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.35		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.6 Policy - Providing for vegetation clearance		
Summary of Decision Requested	<p>Amend Policy 3.2.6 (b) Providing for vegetation clearance as follows:</p> <p><i>(b) Provide for the clearance of indigenous vegetation in Significant Natural Areas for the construction of building platforms, services, access, vehicle parking and on-site manoeuvring and the development of Maori Freehold Land by...</i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Conditional support is extended to this policy which FFNZ understand is drafted to give effect to the WRPS. Support is conditional on a more robust SNA identification process being undertaken. • Furthermore, FFNZ seek a better balance being struck between environmental, social and economic wellbeing. Farmers typically need to undertake a variety of types of vegetation clearance as part of day-to-day farming activity for the purpose of matters including the following: <ul style="list-style-type: none"> -Vegetation clearance around farm buildings, airstrips and helpads, farm access tracks, waterway crossings, culverts and bridges, farm infrastructure such as telecommunications facilities, water supply pipelines, dams and troughs, fertiliser storage areas, hazardous substance storage and handling areas, silage pits, stock mustering areas for dairy sheds, shearing sheds and marshalling yards. -Pest plant/weed control, including invasive weed clearance from riparian margins -Pasture maintenance -Maintenance of rural fire breaks • These types of minor vegetation clearance include clearance of all types of vegetation, including indigenous vegetation. These activities are undertaken in the context of the relatively wide open spaces and low population and development densities that characterise rural areas. • Enabling these types of routine minor vegetation clearance is important for efficient resource management in order to support the economic, social and cultural well-being of communities in the district. Farmers should not be subject to undue delays and costs from triggering resource consent requirements for minor clearance of indigenous vegetation where there is little or no environmental benefit. • FFNZ are also unsure why land tenure is an appropriate trigger to determine different land use controls related to biodiversity outcomes, and seek that reference to particular land tenure be deleted from this policy. 		
Decision Reasons:			

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.360		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.6 Policy - Providing for vegetation clearance		
Summary of Decision Requested	Delete the word "firewood" from Policy 3.2.6 (b)(vi) Providing for vegetation clearance.		
Decision Reasons:	Removing duplication.		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.8		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.6 Policy - Providing for vegetation clearance		
Summary of Decision Requested	Retain Policy 3.2.6(a) Providing for vegetation clearance, except for the amendments sought below AND Add new sub-clauses to Policy 3.2.6(a) Providing for vegetation clearance as follows: <u>(v) operating maintaining or upgrading existing infrastructure</u> <u>(vi) the construction and operation of new regionally significant infrastructure where there is a need for that infrastructure to be located within the Significant Natural Area</u> AND Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Some clearance of indigenous vegetation within Significant Natural Areas is appropriate. However, the submitter seeks that this policy recognises the need to operate and maintain regionally significant infrastructure. It is important that existing infrastructure located in areas of high value is able to be maintained and upgraded to ensure its continuing safe and efficient operation. This approach is consistent with Method 11.1.4 of the Regional Policy Statement. 		

Submitter Number:	797	Submitter:	Fonterra Limited
Point Number	797.9		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.6 Policy - Providing for vegetation clearance		
Summary of Decision Requested	Retain Policy 3.2.6 Providing for vegetation clearance as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The provisions provide appropriate recognition of the need to provide for vegetation clearance to enable the maintenance of farm tracks, drains and fences. 		

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.2		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.6 Policy - Providing for vegetation clearance		
Summary of Decision Requested	Add a clause (v) to Policy 3.2.6 Providing for vegetation clearance as follows (or words to similar effect): <u>(v) located in the Aggregate Extraction Area in Waikato North Head</u>		
Decision Reasons:	<ul style="list-style-type: none"> The mining licence authorises all land use activities associated with ironsand mining operation at WNH. No further authorisation is required under the Resource Management Act 1991, including for vegetation clearance. Accordingly Policies 3.2.2 to 3.2.5 and 3.2.7 should not apply to the mine site and an exception should be included in Policy 3.2.6

Point Number	587.11		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.7 Policy - Managing Significant Natural Areas		
Summary of Decision Requested	Amend the Proposed District Plan to recognise that landowners need the ability to clear bush and prepare building sites within a Significant Natural Areas.		
Decision Reasons:	Landowners need the ability to clear bush and soil for building sites within an Significant Natural Area.		
Point Number	587.4		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.7 Policy - Managing Significant Natural Areas		
Summary of Decision Requested	Amend Policy 3.2.7(a)(i) Managing Significant Natural Areas, to enable conservation subdivision with transferable titles to support stock exclusion from Significant Natural Areas.		
Decision Reasons:	<ul style="list-style-type: none"> Provides the landowner an opportunity to sell the title and afford to undertake fencing to exclude stock from the Significant Natural Area. Gives the landowner an incentive to conserve the Significant Natural Area and does not require Council to financially contribute. 		
Point Number	587.7		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.7 Policy - Managing Significant Natural Areas		
Summary of Decision Requested	Amend Policy 3.2.7 Managing Significant Natural Areas, to not require fencing of a Significant Natural Area if no transferable title is granted or other sources of financing are available.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		
Point Number	587.9		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.7 Policy - Managing Significant Natural Areas		
Summary of Decision Requested	Amend the Proposed District Plan to include provisions enabling one transferable title per Significant Natural Area or one transferable title per 3ha area or part thereof.		
Decision Reasons:	<ul style="list-style-type: none"> Provides the landowner an opportunity to sell the title and afford to undertake fencing to exclude stock from the Significant Natural Area. Gives the landowner an incentive to conserve the Significant Natural Areas and does not require Council to financially contribute. Just recognising Significant Natural Areas on council maps is going to achieve nothing.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.36		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.7 Policy - Managing Significant Natural Areas		
Summary of Decision Requested	<p>Add to Policy 3.2.7 Managing Significant Natural Areas a new clause (b) as follows:</p> <p><i>(b) Recognise that management of Significant Natural Areas on private land requires public investment in a range of incentives such as:</i></p> <p><i>(i) Rates remissions or rebates for land retired for biodiversity purposes;</i></p> <p><i>(ii) Reimbursements or discounts for products and fencing material for stock exclusion;</i></p> <p><i>(iii) Resource consent fee discounts and waivers;</i></p> <p><i>(iv) Providing native plants seedlings;</i></p> <p><i>(v) Pest animal and weed control assistance;</i></p> <p><i>(vi) Contestable fund for biodiversity projects;</i></p> <p><i>(vii) Transferable development rights;</i></p> <p><i>(viii) Education and information on types of vegetation and habitat, and why they are important;</i></p> <p><i>(ix) Assistance for landowners going through a QEII process, or applying for Landcare Trust funding.</i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Waikato District Council need to prioritise and ground-truth identification and management of Significant Natural Areas in order to ensure landowners are not unnecessarily subject to onerous costs and time delays. This is the outcome when usual and expected farming activities are subject to resource consent conditions to protect patches of indigenous vegetation. Submitter has concerns that the district's ratepayers will not be able to afford to adequately protect areas of indigenous vegetation which accurately meet the significance criteria let alone the 'wish list' which has currently been created by the inadequate identification process. Waikato District Council also need to acknowledge the role landowners play in managing Significant Natural Areas where these are found on private land, and to have policy which incentivises a range of management tools to enable the appropriate management of Significant Natural Areas. 		

Submitter Number:	691	Submitter:	McPherson Resources Limited
Point Number	691.6		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.7 Policy - Managing Significant Natural Areas		
Summary of Decision Requested	<p>Amend 3.2.7 Policy (a)(v) Managing Significant Natural Areas, as follows (or words to similar effect):</p> <p><i>(v) Avoiding physical and legal fragmentation <u>where practicable</u>.</i></p> <p>OR</p> <p>Amend Policy 3.2.7 (a)(v) Managing Significant Natural Areas, as follows if the Council does not want to remove the words "physical" (or words to similar effect):</p> <p><i>(v) Avoiding physical and legal fragmentation <u>where practicable</u>.</i></p> <p>AND</p> <p>Any consequential amendments or alternative relief to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> To cater for the existing situation at the McPherson Quarry, where the Significant Natural Area has long been physically separated by the quarry activities. 		

- The aim of the proposed change is to retain the ability to have extractive industries within the district in a way that acknowledges that in some instances, physical separation is already existing and a necessity to allow for the continued extraction of minerals.
- The use of the word 'physical' unreasonably limits the ability to continue extracting aggregate at the McPherson Quarry, in that it would hinder the ability to grow the footprint of the quarry.
- Quarry activities naturally require the expansion of the quarry footprint over time, as and when a certain area is exhausted of the particular resource being extracted. For the McPherson Quarry, which has been in operation for over 60 years in the same location, the footprint will continue to expand slowly and over a long period of time (between 50-100 years) meaning that the effects of the growth can be managed to ensure that the environmental effects are reasonable.

Submitter Number:	794	Submitter:	Middlemiss Farm Holdings Limited
Point Number	794.9		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.7 Policy - Managing Significant Natural Areas		
Summary of Decision Requested	<p>Amend Policy 3.2.7 (a) (i) Managing Significant Natural Areas as follows:</p> <p><i>(a) Promote the management of Significant Natural Areas in a way that protects their long-term ecological functioning and indigenous biodiversity values, through such means as:</i></p> <p><i>(i) permanently excluding stock through voluntary covenants and conservation incentive subdivisions</i></p> <p>AND</p> <p>Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Based on the Council's own evidence there is no doubt that a significant resource management issue for the District is biodiversity loss, which continues to be at risk due to vegetation clearance, stock intrusion, animal and pest degradation, degradation of the margins for estuarine wetlands by stock. • The submitter is concerned that the Proposed District Plan is largely focused on only protecting existing Significant Natural Areas and ignores restoring, linking and expanding indigenous biodiversity that does not qualify as Significant Natural Areas. • There is no regulatory framework to increase indigenous vegetation and wetlands to a target vegetation cover of 30%, actively manage areas that can be considered Significant Natural Areas in the future, increase vegetation cover on steep and erosion prone land, incentivize fencing of riparian areas, incentivize the creation of new corridors, pest control, enrichment planting and restoration. • No comprehensive research supports the claim that incentive-based planting in the district has resulted in sporadic, adhoc development. • There appears to be no robust analysis of the success or failures of the limited amount of enhancement subdivision that has previously been undertaken in the Franklin part of the District that had these provisions. • Several court decisions including Di Andre Estates Ltd v Rodney District Council, Arrigato Investments v Auckland Regional Council, Omaha Park and Cabra v Auckland Council are useful for establishing current best practice to meet the requirements of Part 2 of the RMA. • <i>Cabra v Auckland Council</i> case law notes that the Council could not use the fact that there may be issues with weeds, or poor fencing, as a reason to oppose the inclusion of incentive provisions in the Plan, because it had the authority and responsibility to monitor consent conditions. There are a range of enforcement mechanisms available to a council, and the ability to recover costs from a consent holder, that mean managing compliance in these areas should not be onerous for a council. • The court in the <i>Cabra</i> case has taken a far sighted and future oriented approach to the maintenance and enhancement of biodiversity. • The Proposed District Plan does not give effect to the New Zealand Coastal Policy Statement. • The Proposed District Plan does not give effect to the National Policy Statement for Freshwater Management. • The Proposed District Plan does not adopt the vision of the Waikato River Settlement Act as there is not a strong emphasis in the vision on restoration. • The Proposed District Plan does not give effect to the Waikato Regional Policy Statement. • The submitter supports appropriate protection of high-class soils were practicable and where they are alternatives to using this land. However, sustainable land management may mean that subdivision on these soils is not always inappropriate. 		

Plan chapter: Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.8 Policy – Incentivise subdivision

On behalf of:	Raglan Naturally		
Point Number	831.87		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.8 Policy – Incentivise subdivision		
Summary of Decision Requested	<p>Delete Policy 3.2.8 Incentivise subdivision</p> <p>AND</p> <p>Add policies that will increase habitats.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports bush regeneration, such as that at Wainui Bush Reserve. • The Proposed District Plan makes no attempt to indicate how much bush has been lost, or will be lost by these and other provisions in the Proposed District Plan. • Screening with trees should be applied to improve and protect views from Raglan and its beaches. • Much of the attraction of Raglan derives from its beaches and the north shore of the harbour having rural aspects. • New subdivisions could diminish that attraction and an active policy of tree planting to establish belts of trees screening those views would help to protect the rural image. • Alternatively, the Proposed District Plan could ban development which would detract from those views. 		

Submitter Number:	986	Submitter:	Pam Butler
--------------------------	-----	-------------------	------------

On behalf of:	KiwiRail Holdings Limited (KiwiRail)
Point Number	986.8
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.2 Significant Natural Areas > 3.2.8 Policy – Incentivise subdivision
Summary of Decision Requested	Amend Policy 3.2.8 – Incentivise subdivision as follows (or similar amendments to achieve the requested relief): 3.2.8 Policy - Incentivise subdivision that Protects Significant Natural Areas (a) Incentivise appropriate subdivision in the Rural zone when there is which provides for the legal and physical protection of Significant Natural Areas, provided the areas are of a suitable size and quality to achieve a functioning ecosystem. AND Any consequential amendments to link and/or accommodate the requested changes.
Decision Reasons:	<ul style="list-style-type: none"> The policy can be read as though widespread subdivision in the Rural zone is encouraged rather than the object, which is to incentivise the legal protection of Significant Natural Areas where rural subdivision is otherwise appropriate. KiwiRail would be concerned if the policy promoted subdivision which could have adverse effects on land transport infrastructure by being encouraged where it otherwise does not meet the Rural subdivision rules. As notified, the policy could be read as supporting ad-hoc rural subdivision and not as it is intended to be, which is to incentivise sustainable subdivision in and around Significant Natural Areas.

Plan chapter: Section B Objectives and Policies > Chapter 3: Natural Environment > 3.3 Outstanding Natural Features and Landscapes

Submitter Number:	8	Submitter:	Geoscience Society of New Zealand
Point Number	8.5		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.3 Outstanding Natural Features and Landscapes		
Summary of Decision Requested	Add into Section 3.3 Outstanding Natural Features, criteria for identifying Outstanding Natural Features, similar to that in the Auckland Unitary Plan, Northland Regional Plan and other local districts: <u>Assessment criteria for identifying ONFs</u> <i>(a) the extent to which the landform, feature or geological site contributes to the understanding of the geology or evolution of the biota in the region, New Zealand or the earth;</i> <i>(b) the rarity or unusual nature of the site or feature;</i> <i>(c) the extent to which the feature is an outstanding representative example of the diversity of district's natural landforms and geological features;</i> <i>(d) the extent to which the landform, geological feature or site is part of a recognizable group of features (e.g. caves and karst group; South Auckland volcanoes group);</i> <i>(e) the extent to which the landform or geological feature contributes to the aesthetic value or visual legibility of the wider landscape;</i> <i>(f) the extent of community association with, or public appreciation of, the values of the feature or site;</i> <i>(g) the potential value of the feature or site for public education;</i> <i>(h) the potential value of the feature or site to provide additional understanding of the geological or biotic history;</i> <i>(i) the state of preservation of the feature or site;</i> <i>(j) the extent to which a feature or site is associated with an historically important natural event, geologically related industry, or individual involved in earth science research;</i> <i>(k) the importance of the feature or site to Mana Whenua.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Providing criteria for potential outstanding natural features are the most critical action for District Plans. Council officers and public need to have clarity as to what the criteria are for identifying outstanding natural features and how consent applications can be assessed against the values of individual outstanding natural features. 		

Submitter Number:	81	Submitter:	Waikato Regional Council

Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.3 Outstanding Natural Features and Landscapes		
Summary of Decision Requested	Amend Section 3.3 Outstanding Natural Features and Landscapes to require that adverse effects of activities on the values and characteristics of Outstanding Natural Feature Landscapes are avoided in the coastal environment.		
Decision Reasons:	<ul style="list-style-type: none"> The policy framework under section 3.3 takes the same approach to Outstanding natural features and landscapes (ONFL) regardless of whether they are in the coastal environment or outside of the coastal environment. Policy 6.2(c), Implementation Method 12.1.1 (a)(i) of the WRPS and Policy 15 of the New Zealand Coastal Policy Statement require that the adverse effects of activities on ONFL are avoided. Policy 3.3.3 (iv) of the Proposed Plan talks about avoiding, however that is only in the context of two specific activities; extractive industries and earthworks. 		
Point Number	81.106		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.3 Outstanding Natural Features and Landscapes		
Summary of Decision Requested	Amend Section 3.3 Outstanding Natural Features and Landscapes to ensure that, for areas outside of the coastal environment, the hierarchy set out in Implementation Method 12.1.1 (a)(ii) of the WRPS is reflected. I.e. avoid adverse effects, where avoidance is not possible remedy or mitigate.		
Decision Reasons:	<ul style="list-style-type: none"> For areas outside of the coastal environment, the policy framework in section 3.3 does not reflect the mitigation hierarchy that is expressed in Implementation Method 12.1.1 (a)(ii) of the WRPS that is avoid adverse effects of activities on the values and characteristics of ONFL, and if avoidance is not possible remedy or mitigate the adverse effects. 		
Point Number	81.107		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.3 Outstanding Natural Features and Landscapes		
Summary of Decision Requested	Amend Section 3.3 Outstanding Natural Features and Landscapes to address cumulative adverse effects.		

Decision Reasons:	<ul style="list-style-type: none"> The policies do not specifically address cumulative adverse effects as required by Policy 12.1 of the WRPS.

Point Number	367.46		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.3 Outstanding Natural Features and Landscapes		
Summary of Decision Requested	Retain Section 3.3 Outstanding Natural Features and Landscapes.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	368	Submitter:	Ian McAlley
Point Number	368.3		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.3 Outstanding Natural Features and Landscapes		
Summary of Decision Requested	Amend Section 3.3 Outstanding Natural Features and Landscapes, to ensure that limitations on development only apply to Outstanding Natural Features and Landscapes that are specifically identified in the District Plan.		
Decision Reasons:	<ul style="list-style-type: none"> Policy 3.3.3 refers to 'features' without a capital 'F'. If there are to be limitations with respect to Outstanding Natural Features these must only be with regard to those 'Features' specifically identified in the District Plan. Unclear referencing of Outstanding Natural Features and Landscapes creates uncertainty in terms of being able to effectively assess the issues associated with a particular project. Clarity is required to ensure that relevant objectives and policies of the District Plan can be administered with both efficiency and certainty. 		

Submitter Number:	984	Submitter:	Glenda Raumati
On behalf of:	Trustee Turangawaewae Trust Board		
Point Number	984.17		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.3 Outstanding Natural Features and Landscapes		
Summary of Decision Requested	No specific decision sought but submission supports the identification of areas of high and outstanding natural character and outstanding natural features and landscapes, and the engagement of experts in this field and with mana whenua.		
Decision Reasons:	<ul style="list-style-type: none"> No reason provided. 		
Point Number	984.18		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.3 Outstanding Natural Features and Landscapes		
Summary of Decision Requested	Amend the Proposed District Plan to include the Waikato River in its entirety as both an Outstanding Natural Feature and an Outstanding Natural Landscape AND Amend the Proposed District Plan maps to include the Waikato River in its entirety as both an Outstanding Natural Feature and an Outstanding Natural Landscape.		
Decision Reasons:	<ul style="list-style-type: none"> Turangawaewae Trust Board do not support the assessment of, and the non-inclusion of the Waikato River as an Outstanding Natural Feature and/or Landscape. Turangawaewae Trust Board do not believe that parts of the Waikato River can be cut into sections and not viewed holistically. The assessment of the Waikato River as an Outstanding Natural Feature and Landscape is both a historic and contemporary issue. A variety of legislative and policy directions have been developed that support the identification of the Waikato River as an Outstanding Natural Feature and Landscape. The Waikato-Tainui Raupatu Claims (Waikato River) Settlement Act 2010 talks of the significance and holistic nature of the Waikato River is viewed. The submission quotes Part 2, Settlement redress through legislation (8). This acknowledgement by the Crown that the Waikato River should be considered in its entirety and not divided, as it has been assessed in the Proposed District Plan, provides what the river settlement legislation was seeking. The Vision and Strategy for the Waikato River was required to be included without amendment in the Waikato Regional Policy Statement. The Regional Policy Statement review assessed the Waikato River as an Outstanding Natural Feature and Landscape. This was removed in the decision's version on the basis that the Waikato River had been modified too significantly, in particular the part of the river flowing through Hamilton City to be deemed an Outstanding Natural Feature or Landscape and that the necessary assessments and understanding of the cultural significance has not been undertaken to support the rivers inclusion. Fast forward to the current situation where Waikato District Council are assessing the river at a more detailed district level, that does not include Hamilton City. In addition Waikato District Council have a greater understanding of the cultural significance of the Waikato River to Waikato-Tainui through the engagement process. The Proposed Plan and maps provide for the Waikato River as an Outstanding Natural Feature, only from the river Delta to inside the river mouth. Turangawaewae Trust Board are of the opinion the Waikato River is an Outstanding Natural Feature in its entirety and the reasons for it not attaining regionally significance was based on interpretation and lack of work on behalf of those researching the cultural significance of the river. The Waikato River is recognised by statute and is the subject of a previously unique authority that funds the restoration and protection annually. Alone this legislative weight potentially justifies its status as an Outstanding Natural Feature and Landscape at a district level. Of more importance is the cultural connection that Waikato-Tainui have with the Waikato River. Whilst the landscape assessment attached to the Proposed Plan does not support the entire river being included, it does as a starting point provide justification as to how the assessment was made (submission refers to the Proposed Plan Appendix 3). The cultural and heritage values do not neatly fit into the specific feature or landscape assessment criteria, however engagement with iwi and understanding the districts identity should have seen the Waikato River included as an Outstanding Natural Feature or Landscape or both. The lines that are blurred on the margins of the river by wetlands, tributaries, islands and river use in general only add to the rivers significance. Because the river does not sit neatly as an Outstanding Natural Feature or Outstanding Natural Landscape, that it should be considered both, and afforded the highest protection rather than defaulting to a partial categorisation that undermines its significance. The assessment criteria used appears to isolate features or places, rather than taking a more holistic approach. If this had been the case Waikato-Tainui assume that the Waikato River would have been deemed Outstanding; both as a landscape and a feature.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.39		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.3 Outstanding Natural Features and Landscapes > 3.3.2 Policy – Recognising values and qualities		
Summary of Decision Requested	<p>Amend Policy 3.3.2 (a) Recognising values and qualities, as follows:</p> <p>(a)...</p> <p>(vi) existing water reservoirs and dams;</p> <p>(vii) existing pastoral farming activities on the margins of these areas.</p> <p>(b) ...</p> <p>(vi) existing pastoral farming activities on the margins of these areas.</p> <p>(c) ...</p> <p>(v) existing pastoral farming activities on the margins these areas.</p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter understands the policy in the context of the Waikato Regional Policy Statement. However, the Proposed District Plan must ensure that ONFs and ONLs (which have been identified over private farmland), enable farming activities that contribute to the values and qualities of pastoral working landscapes. These are dynamic and changing, and it is not appropriate for the Proposed District Plan to seek to 'freeze' landscape character by rendering farming land use and development as 'static' in this context. • Farmers have a legitimate right to be able to use their land resource in a way that meets their social and economic wellbeing. This includes being able to respond to a range of variables including economic drivers and market trends and adapt, through change. It is accepted that adverse effects need to be managed to an appropriate standard. However, the Proposed District Plan policy framework as proposed, will force unduly onerous and unnecessary assessment requirements on resource consent applicants for little or no environmental benefit if it only focuses on recognising existing farms and farming infrastructure. The Proposed District Plan policy should instead emphasise values and attributes, and the type of farming activities which give rise to these, rather than restricting recognition specifically to existing activities.

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		

Point Number	986.9
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.3 Outstanding Natural Features and Landscapes > 3.3.2 Policy – Recognising values and qualities
Summary of Decision Requested	<p>Add a new clause (vii) to Policy 3.3.2(b) Recognising values and qualities (or similar amendments to achieve the requested relief);</p> <p>(b)Recognise the attributes of the Waikato River delta and wetlands, Whangamarino Wetland and Lake Whangape identified as Outstanding Natural Features, including;</p> <p>...</p> <p>(vii) existing infrastructure, including land transport networks</p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>
Decision Reasons:	<ul style="list-style-type: none"> As a continuous linear network KiwiRail's railway corridor is located within some Outstanding Natural Landscape areas. The policy should include recognition that the location of significant land infrastructure in these areas is an attribute similar to the farming and recreational activities also noted.

Plan chapter: Section B Objectives and Policies > Chapter 3: Natural Environment > 3.3 Outstanding Natural Features and Landscapes > 3.3.3 Policy - Protection from inappropriate subdivision, use and development

Submitter Number:	395	Submitter:	Ministry of Business, Innovation and Employment
Organisation:	New Zealand Petroleum and Minerals		
Point Number	395.1		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.3 Outstanding Natural Features and Landscapes > 3.3.3 Policy - Protection from inappropriate subdivision, use and development		
Summary of Decision Requested	<p>Amend Policy 3.3.3 (a) (iv) Protection from inappropriate subdivision, use and development as follows (or similar wording):</p> <p><i>(iv) Avoiding, <u>remedying, mitigating, offsetting or compensating</u> the adverse effects of extractive industries and earthworks.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential or similar amendments as necessary to address the matters raised in submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> NZPM recognises that Outstanding Natural Features and Outstanding Natural Landscapes are valued areas for a range of reasons and agrees that the attributes of these areas should be protected from inappropriate subdivision, use and development. NZPM does not oppose a more stringent management regime however a requirement to avoid absolutely all adverse effects of extractive industries effectively equates to a prohibition of mining activities in these areas. A requirement to avoid, remedy and mitigate adverse effects is consistent with Part 2 of the RMA whilst ensuring inappropriate mining activities are avoided in Outstanding Natural Features and Outstanding Natural Landscapes. Offsetting and compensation is consistent with 2017 amendments to the RMA which inserted section 104(ab). Relief sought is consistent with mitigation hierarchy promoted by the Business and Biodiversity Offsets Programme. Amendment will ensure Policy 3.3.3 is better aligned with Objective 5.4.1 and assist therefore in plan integration.

Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.3 Outstanding Natural Features and Landscapes > 3.3.4 Policy - The relationships of Maaori with natural resources and land		
Summary of Decision Requested	Retain Policy 3.3.4 The relationships of Maaori with natural resources and land, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the principle of this policy which recognises that balance and compromise is required to be struck between the competing values of resource use and resource protection. • The submitter expects this principle as expressed in 3.3.4 (b) to be applied consistently and a better balance struck in relation to use and development of private land within Outstanding Natural Landscapes and Outstanding Natural Features. 		

Plan chapter: Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes

Submitter Number:	328	Submitter:	Paula Dudley
Point Number	328.4		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes		
Summary of Decision Requested	Retain Section 3.4 Significant Amenity Landscapes.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	367	Submitter:	Liam McGrath
Organisation:	Mercer Residents and Ratepayers Committee		
Point Number	367.47		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes		
Summary of Decision Requested	Retain Section 3.4 Significant Amenity Landscapes.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	368	Submitter:	Ian McAlley
Point Number	368.4		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes		
Summary of Decision Requested	Amend Objective 3.4.1(a) Significant Amenity Landscapes, to clearly identify that the objective only relates to specifically identified Significant Amenity Landscapes.		
Decision Reasons:	<ul style="list-style-type: none"> • Unclear referencing of Significant Amenity Landscapes creates uncertainty in terms of being able to effectively assess the issues associated with a particular project. • Certainty is required to enable appropriate planning to occur, both for Council and for private landowners. • Clarity is required to ensure that relevant objectives and policies of the District Plan can be administered with both efficiency and certainty. 		

Submitter Number:	862	Submitter:	Havelock Village Limited
Point Number	862.31		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes		
Summary of Decision Requested	<p>Add a schedule that reflects the outcomes of the Waikato District Landscape Study, which notes the attributes and features that lend itself to the Significant Amenity Landscape status;</p> <p>OR</p> <p>If a schedule is not included, delete all Significant Amenity Landscapes from the Proposed District Plan;</p> <p>AND</p> <p>Any consequential amendments and alternative relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • There is a Significant Amenity Landscapes on the submission site. • It is understood that the Waikato District Landscape Study was prepared to support the mapping of the Significant Amenity Landscapes and it sets out the areas of Significant Amenity Landscapes and their attributes. • It is considered that these attributes should be included in the District Plan as a schedule. • Without this detail it is difficult to efficiently assess a resource consent application against the objective and policies. • Objective 3.4.1 (a), Policy 3.4.2 (a) and Policy 3.4.3 (a) (v) all make reference to attributes and features of Significant Amenity Landscapes. • The Significant Amenity Landscape appears to be a rollover of the previous District Plan notation with no ground truthing undertaken to confirm if the attributes listed in the study are still applicable in this location. • Attributes onsite are not aligned to those described in the study. • An expert assessment has been undertaken (see Appendix O of the submission) which recommends its deletion. 		

Submitter Number:	575	Submitter:	Fulton Hogan Limited
Point Number	575.4		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes > 3.4.1 Objective – Significant amenity landscapes		
Summary of Decision Requested	Retain Objective 3.4.1, provided that the Significant Natural Areas, Outstanding Natural Features and Outstanding Natural Landscapes are removed as sought elsewhere in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Fulton Hogan support the objective to recognise and protect SAL in the district as they make up character which Waikato District is known for. Seek amendments as the proposed district plan includes Outstanding Natural Features, Outstanding Natural Landscapes and Significant Amenity Landscapes over existing lawfully established quarries which limits the ability for expansion of these quarries, which will hinder the financial prosperity of the same. This could cause social and economic harm to the company and community.

Point Number	680.42		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes > 3.4.1 Objective – Significant amenity landscapes		
Summary of Decision Requested	<p>Add a new clause (b) to Objective 3.4.1 Significant amenity landscapes, as follows:</p> <p><i>(b) These areas will be identified and applied over public land only in recognition that zone specific rules are designed, in part, to manage adverse effects on amenity values created by private land use, where appropriate.</i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter understands the intent of this objective is to meet Waikato Regional Policy Statement (WRPS) Policy 12.3 direction. 		

- The WRPS does not explicitly require the amenity values of rural landscapes to be identified and managed. The submitter views the extra overlay of SAL objectives, polices and rules as they relate to rural activities on private land are an unnecessary duplication of rural zone rules.
- The submitter is opposed to any protection of a rural ideal, landscape or amenity that largely involves working landscapes there as a result of the activities you would expect to find in the rural zone.
- The submitter does not support unnecessary controls on activities in the rural area.
- The submitter is concerned at the lack of landowner involvement in the process of identifying significant amenity landscapes and understand that substantial areas of some farmland has been included.

Point Number	648.47		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes > 3.4.2 Policy – Recognising Significant Amenity Landscapes		
Summary of Decision Requested	Retain Policy 3.4.2 - Recognising Significant Amenity Landscapes as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Policy 6.1.10 in Infrastructure section directly addresses infrastructure in 'Identified Areas,' requiring a consideration of the values and attributes of these areas where new infrastructure or significant upgrades are required in these areas. • Policy 6.1.10 will need to be read in conjunction with Natural Environment provisions where assessing proposals in these areas. • Submitter considers Natural Environment provisions, as drafted, set out a workable framework for assessing telecommunications infrastructure in these areas, particularly where assessed in conjunction with Policy 6.1.10. • Submitter wishes to preserve its standing on these provisions should changes be sought by other parties. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.43		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes > 3.4.2 Policy – Recognising Significant Amenity Landscapes		
Summary of Decision Requested	<p>Amend Policy 3.4.2 (a) Recognising Significant Amenity Landscapes, as follows:</p> <p><i>(a) Recognise the attributes which contribute to identified Significant Amenity Landscapes.</i></p> <p><i>(i) This policy will be implemented by the relevant zone rules which control effects of land use relative to the zone.</i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter understands the intent of this policy is to meet Waikato Regional Policy Statement Policy (WRPS) 12.3 direction. However, the WRPS does not explicitly require the amenity values of rural landscapes to be identified and managed. • The extra overlay of Significant Amenity Landscape objectives, polices and rules (as they relate to rural activities on private land) serve no useful purpose. These are an unnecessary duplication of other Rural Zone rules that control amenity through provisions for managing building bulk and location and certain earthworks. • The submitter opposes any 'protection' of rural pastoral landscape amenity or characteristic over farmland, no matter how 'significant' such amenity may seem and oppose any associated restriction on land use within farmland, aimed at such protection. Farmland is a 'working landscape' that is always changing as a result of the rural-based activities that would be expected to be found within rural areas. Any restrictions aimed at protecting rural farmland amenity are completely unnecessary and do not achieve any environment benefit. Rather they only serve to burden farmers with undue delay and cost in having to seek resource consents in order to carry out routine farming activity and associated development. 		

Submitter Number:	575	Submitter:	Fulton Hogan Limited
Point Number	575.13		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes > 3.4.3 Policy – Maintaining and enhancing Significant Amenity Landscapes		
Summary of Decision Requested	Retain Policy 3.4.3 Maintaining and enhancing Significant Amenity Landscapes, provided that the Significant Amenity Landscape overlay is removed, as sought elsewhere in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Supports intent to protect Significant Amenity Landscapes across the district but, seeks removal of the overlay from the Tuakau Quarry (subject to a separate submission point).

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.44		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes > 3.4.3 Policy – Maintaining and enhancing Significant Amenity Landscapes		
Summary of Decision Requested	Amend Policy 3.4.3 Maintaining and enhancing Significant Amenity Landscapes as follows: <i>Policy 3.4.3 Maintaining and or where appropriate, enhancing the attributes of Significant Amenity Landscapes</i>		
Decision Reasons:	<p>(a) <i>Maintain and, where appropriate, enhance the attributes of identified Significant Amenity Landscapes, during subdivision, land use and development, in particular by:</i></p> <ul style="list-style-type: none"> (i) requiring buildings and structures to be integrated into the Significant Amenity Landscape to minimise any visual impacts; (ii) <i>managing the adverse effects of building platforms, buildings, driveways and roads through appropriate subdivision design;</i> (iii) <i>recognising and providing for the continuation development of rural production farming activities within hill country landscapes and volcanic features;</i> 		

(iv) managing the adverse effects of earthworks; and

(v) promoting and encouraging maintenance and enhancement of their attributes.

(b) Note: There are no rules relating specifically to Significant Amenity Landscapes in Chapter 22. However, where discretionary or non-complying activity resource consents are required under rules of this Plan, and where those activities are located within significant amenity landscapes, the proposed activities will be assessed in terms of their consistency with this policy.

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter's relief in this respect is contingent on relief sought in relation to Objective 3.4.1 and Policy 3.4.2.
- The proposed policy as drafted contains a number of unnecessary duplications and is inconsistent with the enabling approach adopted under 3.4.4.
- The potential adverse effects associated with new development can be addressed under (ii). Non rural development earthworks will be addressed under (ii) so (iv) is an unnecessary duplication which may capture farming related earthworks inappropriately.
- The activities that have attributes which contribute to amenity values should be enabled and so it is important to acknowledge this in (iii), but it is broader than just farming. The proposed amendments are required to ensure a consistent planning response is adopted. Reference to made to the enabling intent of 3.4.4(b), which appropriately prioritises economic, social and cultural wellbeing over second tier amenity landscapes.
- The Waikato Regional Policy Statement doesn't require rules as such. Rather, the overarching requirement to 'maintain and enhance' can be achieved by recognising all types of farming activity as contributing to rural landscape amenity, and excluding it from requirement for resource consent.
- Implementing the policy can be achieved when *discretionary activity* or *non-complying activity* status is triggered as a result of other resource consent requirements in the Proposed District Plan. An assessment of the adverse effects of the proposed activity can be considered, if appropriate, at that time, against significant landscape amenity values and the ability to avoid, remedy or mitigate those effects.

Submitter Number:	731	Submitter:	Jean Tregidga
Point Number	731.11		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes > 3.4.3 Policy – Maintaining and enhancing Significant Amenity Landscapes		
Summary of Decision Requested	Amend Policy 3.4.3 (a) Maintaining and enhancing Significant Amenity Landscapes, by inserting an additional sub-clause (vi) as follows: <i>(vi) recognising historic farming and forestry operations that continue today.</i>		
Decision Reasons:	<ul style="list-style-type: none">• In the event that the policy is not deleted, the requested sub-clause (a)(vi) adopts words from Policy 3.5.3 (Protecting the natural character qualities of the coastal environment) about historic land use which are equally appropriate to Significant Natural Areas, Outstanding Natural Features and Outstanding Natural Landscapes which are mapped on this submitter's properties at Lyons Road, Mangatawhiri.		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.33		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes > 3.4.3 Policy – Maintaining and enhancing Significant Amenity Landscapes		
Summary of Decision Requested	Amend Policy 3.4.3(a)(i) Maintaining and enhancing Significant Amenity Landscapes as follows: <i>(i) requiring buildings and structures (excluding support structures) to be integrated into the Significant Amenity Land to minimise any visual impacts;</i> OR Add an introduction to Chapter 6 Infrastructure to clearly state that these objectives and policies supersede underlying zone and overlay objectives and policies.		
Decision Reasons:	<ul style="list-style-type: none">• Support structures come in standard sizes and materials to meet a functional need and achieve electrical safety requirements.• They cannot be painted or planted around to mitigate visual effects.• Support structures and lines are already in the existing environment of Significant Amenity Landscapes and does not detract from these areas.• Given the narrow width of the narrow width of support structures and limited visibility of the lines existing within these landscapes, it is considered they be excluded from this policy.

Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes > 3.4.4 Policy - The relationships of Maaori with their resources and land		
Summary of Decision Requested	Retain Policy 3.4.4 (a), (b) and (c) - The relationships of Maaori with natural resources and land.		
Decision Reasons:	<ul style="list-style-type: none">• The submitter supports Policy 3.4.4 (a), (b) and (c) as these policies give effect to s6(e) of the Resource Management Act.		

Submitter Number:	574	Submitter:	TaTa Valley Limited
Point Number	574.12		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes > 3.4.4 Policy - The relationships of Maaori with their resources and land		
Summary of Decision Requested	Amend Policy 3.4.4 (a) The relationships of Maaori with their resources and land, if Significant Amenity Landscapes are retained in the Proposed District Plan, by elaborating on ways in which the relationship of Maaori with Significant Amenity Landscapes can be provided for.		

AND

Any consequential amendments and other relief to give effect to the matters raised in the submission.

Decision Reasons:

- Policy 3.4.4(a) does not state how the relationship can be provided for and this creates uncertainty for applicants and processing planners when assessing a consent against this policy.

Submitter Number: 644 **Submitter:** Spark New Zealand Trading Limited

Point Number 644.47

Plan chapter Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes > 3.4.4 Policy - The relationships of Maori with their resources and land

Summary of Decision Requested Retain Policy 3.4.4 The relationships of Maori with their resources and land, as notified.

Decision Reasons:

- Policy 6.1.10 in Infrastructure section directly addresses infrastructure in 'Identified Areas,' requiring a consideration of the values and attributes of these areas where new infrastructure or significant upgrades are required in these areas.
- Policy 6.1.10 will need to be read in conjunction with Natural Environment provisions where assessing proposals in these areas.
- Submitter considers Natural Environment provisions, as drafted, set out a workable framework for assessing telecommunications infrastructure in these areas, particularly where assessed in conjunction with Policy 6.1.10.
- Submitter wishes to preserve its standing on these provisions should changes be sought by other parties.

Submitter Number: 646 **Submitter:** Vodafone New Zealand Limited

Point Number 646.48

Plan chapter Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes > 3.4.4 Policy - The relationships of Maori with their resources and land

Summary of Decision Requested Retain Policy 3.4.4- The relationships of Maori with their resources and land as notified.

Decision Reasons:

- Policy 6.1.10 in the Infrastructure section directly addresses infrastructure in "Identified Areas," requiring consideration of the values and attributes of these areas where new infrastructure or significant upgrades are required in such areas.
- Policy 6.1.10 needs to be read in conjunction with the Natural Environment provisions where assessing proposals in Identified Areas.
- Natural Environment Provisions as drafted set out a workable framework for assessing telecommunications infrastructure.
- Submitter wishes to preserve its standing on such provisions should changes be sought by other parties.

Submitter Number: 648 **Submitter:** Chorus New Zealand Limited

Point Number 648.49

Plan chapter Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes > 3.4.4 Policy - The relationships of Maori with their resources and land

Summary of Decision Requested Retain Policy 3.4.4 - The relationships of Maori with their resources and land as notified.

Decision Reasons:

- Policy 6.1.10 in Infrastructure section directly addresses infrastructure in 'Identified Areas,' requiring a consideration of the values and attributes of these areas where new infrastructure or significant upgrades are required in these areas.
- Policy 6.1.10 will need to be read in conjunction with Natural Environment provisions where assessing proposals in these areas.

- Submitter wishes to preserve its standing on these provisions should changes be sought by other parties.

Submitter Number: 680 **Submitter:** Federated Farmers of New Zealand

Point Number 680.45

Plan chapter Section B Objectives and Policies > Chapter 3: Natural Environment > 3.4 Significant Amenity Landscapes > 3.4.4 Policy - The relationships of Maori with their resources and land

Summary of Decision Requested Retain Policy 3.4.4 The relationships of Maori with their resources and land, as notified.

Decision Reasons:

- The submitter supports the principle of this policy which recognises that balance and compromise is required to be stuck between the competing values of resource use and resource protection, but this is contingent on our relief sought in relation to Objective 3.4.1 and Policies 3.4.2 and 3.4.3.
- The submitter expects this principle as expressed in 3.4.4(b) to be applied consistently across the district regardless of the land title.

Plan chapter: Section B Objectives and Policies > Chapter 3: Natural Environment > 3.5 Natural Character

Submitter Number: 367 **Submitter:** Liam McGrath

Organisation: Mercer Residents and Ratepayers Committee

Point Number 367.48

Plan chapter Section B Objectives and Policies > Chapter 3: Natural Environment > 3.5 Natural Character

Summary of Decision Requested Retain Section 3.5 Natural Character.

Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.
--------------------------	--

Submitter Number:	368	Submitter:	Ian McAlley
Point Number	368.5		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.5 Natural Character		
Summary of Decision Requested	Amend Section 3.5 Natural Character, to ensure that any limitations to development are only for those areas specifically identified in the District Plan as having High and Outstanding Natural Character.		
Decision Reasons:	<ul style="list-style-type: none"> Unclear referencing of Natural Character creates uncertainty in terms of being able to effectively assess the issues associated with a particular project. Certainty is required to enable appropriate planning to occur, both for Council and for private landowners. Clarity is required to ensure that relevant objectives and policies of the District Plan can be administered with both efficiency and certainty. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.93		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.5 Natural Character		
Summary of Decision Requested	Amend the Proposed District Plan to clarify what is meant by 'high' and 'very high' natural character areas such as through additional or amended definitions of the terms. AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally supports the objectives and policies of the Natural Character. However, it is unclear to what is 'high' and 'very high' natural character areas mean. The words are outlined in Policies 3.5.2(b)(ii) however there is no definition or explanation to the meanings of high and very high natural character areas. 		

Submitter Number:	984	Submitter:	Glenda Raumati
On behalf of:	Trustee Turangawaewae Trust Board		
Point Number	984.19		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.5 Natural Character		
Summary of Decision Requested	Amend the Proposed District Plan after undertaking a natural character assessment for the Waikato River to determine if there are any areas of high or outstanding natural character.		
Decision Reasons:	<ul style="list-style-type: none"> Turangawaewae Trust Board have concerns that no natural character assessment has been undertaken for the Waikato River. 		

Plan chapter: Section B Objectives and Policies > Chapter 3: Natural Environment > 3.5 Natural Character > 3.5.1 Objectives – Natural character

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.109		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.5 Natural Character > 3.5.1 Objectives – Natural character		
Summary of Decision Requested	Retain Objective 3.5.1 Natural character.		
Decision Reasons:	<ul style="list-style-type: none"> Objective 3.5.1 is supported as it gives effect to Objective 3.22 of the WRPS. 		

Submitter Number:	433	Submitter:	Mischa Davis
Organisation:	Auckland Waikato Fish and Game Council		
Point Number	433.41		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.5 Natural Character > 3.5.1 Objectives – Natural character		
Summary of Decision Requested	Retain Objective 3.5.1 (b) - Natural Character as notified.		
Decision Reasons:	<ul style="list-style-type: none"> This objective supports Method 12.1.1 of the Waikato Regional Policy Statement which requires district plans to identify and provide for the protection of the values and characteristics of outstanding natural features and landscapes from inappropriate subdivision, use and development. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
--------------------------	-----	-------------------	----------------------------

Point Number	576.8
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.5 Natural Character > 3.5.1 Objectives – Natural character
Summary of Decision Requested	Retain Objective 3.5.1 Natural Character, as notified.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the mapping of such areas and their clear identification as it assists plan users and provides clarity as to the application of the Proposed District Plan provisions. The submitter supports reference within the objective to 'inappropriate' as such reference is consistent with Section 6(a) of the RMA, Waikato RPS Objectives 3.12 and 3.22, and also recognises that not all development is to be avoided, rather the emphasis is on that which is inappropriate.

Submitter Number:	585	Submitter:	Lucy Roberts
Organisation:	Department of Conservation		
Point Number	585.3		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.5 Natural Character > 3.5.1 Objectives – Natural character		
Summary of Decision Requested	Amend Objective 3.5.1 Natural Character as follows: (a) The high and Outstanding Natural Character of the coastal environment...		
Decision Reasons:	<ul style="list-style-type: none"> Section 6(a) of the RMA and Policy 13 of the New Zealand Coastal Policy Statement requires consideration of all natural character in the coastal environment.

Point Number	680.47		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.5 Natural Character > 3.5.2 Policies – Recognising natural character		
Summary of Decision Requested	Delete Policy 3.5.2 Recognising natural character AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter understands the coastal environment and rivers and lakes are particularly valued for natural character qualities which are predominant in these areas and the RMA section 6(a) and the Waikato Regional Policy Statement Policy 12.2 requirements. In the submitter's view, Policies 3.5.3 and 3.5.4 achieve those goals more appropriately, with Policy 3.5.2 being an unnecessary duplication, which has the ability to cause confusion and uncertainty leading to unnecessarily onerous requirements for assessment in resource consent applications. It is important to note the planning map legend includes overlays as 'coastal environment', 'natural character', 'outstanding natural landscapes'. There are no overlays on the legend which match the areas specified under 3.5.2(b). 		

Plan chapter: Section B Objectives and Policies > Chapter 3: Natural Environment > 3.5 Natural Character > 3.5.3 Policy - Protecting the natural character qualities of the coastal environment

Submitter Number:	585	Submitter:	Lucy Roberts
Organisation:	Department of Conservation		

Point Number	585.4
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.5 Natural Character > 3.5.3 Policy - Protecting the natural character qualities of the coastal environment
Summary of Decision Requested	Amend Policy 3.5.3(a)(iv) Protecting the natural character qualities of the coastal environment, as follows: (a) <i>Protect the qualities of outstanding and high natural character areas in the coastal environment from inappropriate subdivision, use and development by:</i> ... (iv) <i>avoiding activities that damage the stability of functioning identified coastal dune systems;</i>
Decision Reasons:	<ul style="list-style-type: none"> Part of the functioning of coastal dune systems involves a level of instability and this should be reflected in the policy. All dune systems should be covered and not just those identified, to ensure protection for any which may have been overlooked during the mapping process.

Point Number	695.11		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.5 Natural Character > 3.5.4 Policy - Protecting the natural character of wetlands, and lakes and rivers and their margins		
Summary of Decision Requested	Delete Policy 3.5.4(a)(iii) Protecting the natural character of wetlands, and lakes and rivers and their margins.		
Decision Reasons:	<ul style="list-style-type: none"> • Policy 3.5.4(a)(iii) is meaningless • It is too open ended • It has no threshold required by s95 and 104 of the Act to define a potential or actual effect or assisting to write certain resource conditions • Development cannot consolidate with existing development unless it adjoins such land and connections have been provided for in that previous development. • It is very unclear as to what extent does the "natural character and landscape values have already been compromised" mean to the user of the Plan. • All development takes up land - "sprawling" is not defined as to what it means in terms of an identifiable threshold or ration of area and a reference to an objective definition or source may assist. 		

Point Number	695.12
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.5 Natural Character > 3.5.4 Policy - Protecting the natural character of wetlands, and lakes and rivers and their margins
Summary of Decision Requested	Amend Policy 3.5.4(a)(iv) Protecting the natural character of wetlands, and lakes and rivers and their margins to include a reference to a specific rule, or requirement of the Resource Management Act, is placed here to assist the reader.
Decision Reasons:	<ul style="list-style-type: none"> Open ended subjective statements will only frustrate applicants as it provides no certainty what is actually to be complied with.

On behalf of:	Raglan Naturally		
Point Number	831.65		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.5 Natural Character > 3.5.4 Policy - Protecting the natural character of wetlands, and lakes and rivers and their margins		
Summary of Decision Requested	Retain Policy 3.5.4 Protecting the natural character of wetlands, and lakes and rivers and their margins, and the associated rules.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the restoration of wetlands. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.10		
Plan chapter	Section B Objectives and Policies > Chapter 3: Natural Environment > 3.5 Natural Character > 3.5.4 Policy - Protecting the natural character of wetlands, and lakes and rivers and their margins		
Summary of Decision Requested	Amend Policy 3.5.4(a)(iv) Protecting the natural character of wetlands, and lakes and rivers and their margins as follows (or similar amendments to achieve the requested relief): (iv)requiring appropriate setbacks of new activities from wetlands, lakes and rivers. AND Any consequential amendments to link and/or accommodate the requested changes.		
Decision Reasons:	<ul style="list-style-type: none"> This clause is unreasonably restrictive for linear land transport networks like KiwiRail. KiwiRail supports Council in requiring activities to be setback from rivers, lakes and the coastal marine area, however this policy as worded gives no recognition to existing encroachments or where activities have a functional and operational need to be located in these areas. The rail network is not able to be easily relocated and frequently crosses watercourses 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment

Submitter Number:	12	Submitter:	Carl Ammon
Point Number	12.5		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment		
Summary of Decision Requested	Amend Chapter 4 Urban Environment to be flexible to address the needs in varying communities, share costs for infrastructure, and protect the cultural identity of areas when under growth pressures and add more emphasis on cycling, walking, small buses and public areas rather than cars and retail.		
Decision Reasons:	<ul style="list-style-type: none"> The directions in this chapter are positive. The challenge is to be flexible enough to address the needs in varying communities. Smaller areas cannot afford all of the costs for infrastructure including sewage and water. Other areas need to have their cultural identity protected when under growth pressures and the short sighted drive to provide parking when people taking a bus ride or parking a little further out of town may be a better option. More emphasis is needed on cycling, walking, small buses and putting public areas ahead of cars and retail interests. In Raglan, areas were granted by Maori as common use places for people, children and families to enjoy and these are under pressure for car parks. 		
Decision Reasons:

Point Number	697.361		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment		
Summary of Decision Requested	<p>Amend in Chapter 4 Urban Environment lists of matters to the following format:</p> <ol style="list-style-type: none"> Semi colon at the end of each matter; and Inclusion of the word 'and' at the end of the penultimate matter 		
Decision Reasons:	There is inconsistency in the way lists of matters have been set out.		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.27		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment		
Summary of Decision Requested	Add a new policy (or policies) to explicitly 'give effect to' Objective 4.1.1 - Strategic.		
Decision Reasons:	<ul style="list-style-type: none"> There is no corresponding policy that gives effect to Objective 4.1.1, and it is therefore unclear how Council intends to achieve the objective. 		
Point Number	923.94		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment		

Summary of Decision Requested	Amend Chapter Four: Urban Environment by establishing a stronger objective, policy and rule framework than is proposed for un-serviced urban residential areas where there is uncertainty about the funding, staging and timing for infrastructure provision.
Decision Reasons:	<ul style="list-style-type: none"> The amendments are requested to ensure activities of an urban nature, including subdivision, are not provided for prior to structure planning processes being undertaken and without certainty about the funding, timing and staging of infrastructure provision and so subdivision, use and development is not compromised in these areas future development. The submitter is concerned provisions do not adequately address how subdivision and development activities will be managed where a 'live' residential zoning is proposed for un-serviced land within urban towns and villages. No obvious strategy as to how Council intends to manage these areas, how long the transition to urban use will be for particular areas, how Council is achieving its Future Proof land allocations obligations, or any framework evaluating other non-identified 'live zoning' areas. Proposed Plan creates a highly uncertain development environment for communities as to where and how future urban growth will be provided for, and how health and wellbeing outcomes will be managed in parallel to managing growth.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction

Submitter Number:	182	Submitter:	Kirriemuir Trustee Limited
Point Number	182.5		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction		
Summary of Decision Requested	Retain the Objectives and Policies in Section 4.1 Strategic Direction as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The provisions provide a suitable framework to facilitate a residential environment. 		

Submitter Number:	243	Submitter:	Shaun McGuire
Point Number	243.1		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction		
Summary of Decision Requested	Retain Section 4.1 Strategic Direction and its policies and objectives.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the growth direction for Tuakau. 		
Decision Reasons:			

Submitter Number:	299	Submitter:	2SEN Limited and Tuakau Estates Limited
Point Number	299.1		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction		
Summary of Decision Requested	Retain Section 4.1 Strategic Direction as notified except where specific modification is sought elsewhere in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> It provides a suitable framework to facilitate a residential environment.

Organisation:	Mercer Residents and Ratepayers Committee		
Point Number	367.49		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction		
Summary of Decision Requested	Retain Section 4.1 Strategic Direction.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.10		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction		
Summary of Decision Requested	Amend Section 4.1 Strategic Direction, by creating a separate strategic direction for towns and villages. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The objective and policy framework does not adequately differentiate between towns and villages. A Residential Zone and Village Zone create different forms of development and different ranges of effects. While there are some specific objectives and policies for various places, the overall strategic direction for 		

villages and towns appears to be interchangeable and both are the primary focus of growth.

- The proposed Village zoning addressed in Chapter 4 would result in densities and characteristics that are similar to the Country Living Zone. This zoning is problematic for Te Kowhai, in particular, because the provisions will enable a large area of rural residential development near Hamilton's boundary with potential pressure on this city's infrastructure and services.

Point Number 535.11

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction

Summary of Decision Requested **Retain** Objective 4.1.1(b) Strategic Direction except for the amendments sought below

AND

Amend Objective 4.1.1(b) - Strategic Direction, so that it aligns with the medium and long term housing targets in the National Policy Statement - Urban Development Capacity plus a buffer for the 2018-2046 period.

AND

Any consequential amendments and/or additional relief required to address the matters raised in the submission.

Decision Reasons:

- The submitter supports the intent of this objective but it needs to reflect the requirements of the National Policy Statement - Urban Development Capacity for housing over the medium and long term, including the required buffer.

Submitter Number: 749 **Submitter:** Housing New Zealand Corporation

Point Number 749.94

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction

Summary of Decision Requested **Amend** Objectives and Policies in Section 4.1 Strategic Direction to emphasise:

- The compact urban development model for concentrating growth in and around existing towns and villages, and
- Avoid unplanned encroachment into rural land through being contained within defined urban areas to avoid rural residential fragmentation and rural land subdivision.

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- The submission provides examples of amendments in subsequent submission points.
- The submitter generally supports the objectives and policies set out in 4.1.1 to 4.1.5 and 4.1.8, however more emphasis and alignment is needed in the provisions to align with the strategic objectives and directions set out in 1.5.1, 1.5.2, and 1.5.4.
- The submitter supports the compact urban development model and wants to ensure this is carried through into the plan's objectives, policies and rules.
- The submitter is seeking an additional new residential zone 'Medium Density Residential Zone' is introduced into the Proposed WDP (reasons outlined later in this submission). An amendment will be required to 4.1.5 Policy – Density to include a minimum density target (number of households per hectare) for the new residential zone. This number will need to be significantly higher than the residential zone.

Submitter Number: 764 **Submitter:** Ambury Properties Limited

Point Number 764.4

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction

Summary of Decision Requested **Add** a new policy for Ohinewai to provide a policy framework for the subdivision, use and development of the Industrial, Business and Residential zoned land at 231 Tahuna Road, 52, 56 and 58 Lumsden Road, Ohinewai, as sought in the submission.

OR

Amend Policy 4.1.13 Huntly to provide a policy framework for the subdivision, use and development of the Industrial, Business and Residential zoned land at 231 Tahuna Road, 52, 56 and 58 Lumsden Road, Ohinewai, as sought in the submission.

AND

Amend the Proposed District Plan as necessary to support the relief set out in the submission.

Decision Reasons:

- To provide a framework for the subdivision, use and development of the Industrial, Business and Residential land within the submitter's property.

Submitter Number: 923 **Submitter:** Waikato District Health Board

Point Number 923.25

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction

Summary of Decision Requested **Retain** Section 4.1- Strategic Direction.

Decision Reasons:

- The strategic direction will assist with giving effect to the direction contained with the Future Proof Strategy including its identified settlement pattern. These also assist to give effect to the Waikato Regional Policy Statement. Policies may need to be updated to align with the Hamilton to Auckland Corridor Plan.

Submitter Number: 942 **Submitter:** Angeline Greensill

Organisation: Tainui

Point Number 942.17

Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction
Summary of Decision Requested	Add a character statement of Raglan to the Proposed District Plan and ensure that the small seaside town is not compromised by future multi-storey development.
Decision Reasons:	<ul style="list-style-type: none"> The submitter does not want Raglan to lose its unique identity. Since post -2nd world war, towns like Raglan have changed dramatically with the closure of centralised government agencies like the Post Office, Banks, Dance Halls, Picture theatres, hotels and small specialist stores and are being replaced with supermarkets, boutiques, cafes, petrol stations, boutique tourist accommodation, IT and outdoor pursuits, signage and hire companies. In 2018 small towns are beginning to look alike and are losing their unique character which made them attractive to those who came, saw economic opportunities to exploit the natural resources and thus began changing the place.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.110		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic		
Summary of Decision Requested	Retain Objective 4.1.1 Strategic, except for the amendments sought below OR Amend Objective 4.1.1 Strategic to ensure that these provisions provide a focused, integrated strategic direction in respect of the districts urban environments. OR Add to Objective 4.1.1 Strategic additional Objectives to ensure that these provisions provide a focused, integrated strategic direction in respect of the district's urban environments.		
Decision Reasons:	<ul style="list-style-type: none"> Objective 4.1.1 is supported in part as they will assist to some extent with giving effect to the WRPS and the Future Proof Strategy Planning for Growth 2017's (Future Proof Strategy's) direction for Waikato District's urban environment. Amendments (or additional objectives) are required to: provide more focussed, integrated strategic direction for the district's urban environments; relating to accommodating urban growth and development in Waikato District; and give effect to the National Policy Statement on Urban Development Capacity (NPS-UDC) and the WRPS. 		
Point Number	81.112		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic		
Summary of Decision Requested	Amend Objective 4.1.1 Strategic as follows to: <ul style="list-style-type: none"> - Clarify whether it applies to both urban and rural communities - More explicitly refer to planned growth and development that is integrated with infrastructure provision; - Specify what proportion of the additional dwellings to be created between 2018-2045 are to be provided within the 10 year timeframe for this district plan and whether they will be serviced; and - Identify what portion of the additional dwellings to be provided are anticipated to be located within the district's urban environments. 		
Decision Reasons:	<ul style="list-style-type: none"> The Objective fails to provide direction on other matters critical to ensuring thriving, sustainable urban environments, including the management of natural or ecological values in the urban environment and management of conflicts between rural and urban environments or different types of urban activities, such as those of an industrial and residential nature. The submitter considers that additional strategic objectives should be included to address these matters. To meet the requirements of the NPS-UDC there should also be an objective that sets out the district's minimum targets for sufficient, feasible development capacity for housing, with associated policies. (Note: WRPS Policies 6.1, 6.3, 6.14, 6.16 and 6.17).

Organisation:	Property Council New Zealand		
Point Number	198.7		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic		
Summary of Decision Requested	Amend Objective 4.1.1 Strategic to be more ambitious and flexible to incorporate Future Proof Phase 2 and the upcoming Statistics NZ data.		
Decision Reasons:	<ul style="list-style-type: none"> To adequately plan for population growth and housing demand. 		

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.5		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic		
Summary of Decision Requested	Amend Objective 4.1.1(a) Strategic as follows: <i>Liveable, safe, thriving and connected communities that are sustainable, efficient, and coordinated.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Decision making is dependent upon the strategic direction The inclusion of the word safe within the strategic objective would ensure that in all decision making about the urban environment there would be an obligation to consider keeping communities safe. To prevent victimisations caused by crime and road related offending, injury or death To make people safe and feel safe. 		

Submitter Number:	310	Submitter:	Fiona McNabb
Organisation:	Whaingaroa Raglan Affordable Housing Project		
Point Number	310.3		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic		
Summary of Decision Requested	Amend Objective 4.1.1 (a) Strategic, to read as follows: <i>(a) Liveable, thriving, and connected communities that are sustainable, <u>affordable</u>, efficient and co-ordinated.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Only mention of affordability in the District Plan is in the strategic directions section 1.12.3 which calls for 'affordable options.' Affordability should be a core principle of the District Plan in order to support overarching goal of objective 4.1.1 (a). Current housing models and forecasts predict a widening disparity between portion of community who can and those who cannot afford housing. Lack of affordability now affects all at and below the median income and extends into the 3rd quarter of income. Strategy for the District Plan should recognise the environment that now surrounds housing affordability and impact is having on communities. Plan should enable innovative housing developments that deliver highly affordable housing options for all income streams. 		

Submitter Number:	326	Submitter:	Charlie Young
Organisation:	Raglan Chamber of Commerce		
Point Number	326.1		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic		
Summary of Decision Requested	Amend Objective 4.1.1 (a) Strategic, as follows: <i>Liveable, thriving, and connected communities that are sustainable, <u>affordable</u>, efficient and coordinated.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The only mention of affordability in the District Plan is in the strategic directions section 1.12.3 calling for 'affordable options.' Affordability should be a core principle of the district plan. Current housing models and forecasts predict a widening disparity between portion of community who can and those who cannot afford housing. Lack of affordability now affects all those at and below the median income and extends into the 3rd quarter of income. Strategy for District Plan should recognise the environment that surrounds housing affordability and the impact it's having on communities. Plan should enable innovative housing developments that deliver highly affordable housing options for all income streams. Housing developments have a focus on providing good quality homes which meet the needs of individual communities at a cost that enables those at all income levels to afford a decent place to live are supported in the consent and development processes. Clearly housing affordability throughout District needs to be supported. Lack of affordable housing is having a severe impact on businesses trying to retain staff in communities. Other NZ District Councils have recognized housing crisis and have activated affordable housing policies and initiatives.

Organisation:	BTW Company		
Point Number	445.3		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic		
Summary of Decision Requested	Amend Objective 4.1.1 (b) Strategic, to provide flexibility for Future Proof updates, as follows: <i>(b) An additional 13,300-17,500 <u>or greater</u> dwellings are created during the period 2018-2045.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The review of the Future Proof Strategy may result in amendments to the settlement pattern and future growth targets. The Proposed District Plan does not include flexibility to accommodate such changes. The requested developer-led structure planning approach would provide a flexible tool to open up new growth areas without having to effect significant variations to the district plan. 		

Submitter Number:	451	Submitter:	Steven & Teresa Hopkins
Point Number	451.2		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic		
Summary of Decision Requested	Retain Objective 4.1.1 Strategic.		
Decision Reasons:	<ul style="list-style-type: none"> Supports this objective for additional dwellings throughout the Waikato District. 		

Submitter Number:	524	Submitter:	Anna Noakes
Point Number	524.11		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic		
Summary of Decision Requested	Retain Objective 4.1.1 Strategic, except for the amendments sought below AND Amend the policies associated with Objective 4.1.1 (a) and (b) Strategic, to provide policies and support for additional residential zoning opportunities to cater for anticipated demand for the next 27 years; AND		

Amend the Planning Maps to increase the residential zoned areas around existing established communities in line with Future Proof expectations.

Decision Reasons:

- **4.1.1 (a) and (b) Support sustainable communities and the objective of providing for 13,300 - 17,500 additional dwellings with the District 2018-2045.**

Submitter Number: 567 **Submitter:** Ngati Tamaoho Trust

Point Number 567.3

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic

Summary of Decision Requested **Add** clause (c) to Objective 4.1.1 - Strategic, as follows:
(c) natural waterbodies are maintained or enhanced within integrated development for all towns
and promote park edge development for all open spaces, especially adjacent to waterbodies.

Decision Reasons:

- No reasons provided.

Submitter Number: 579 **Submitter:** Simon Ash

Organisation: Lakeside Developments 2017 Limited

Point Number 579.34

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic

Summary of Decision Requested **Retain** Objective 4.1.1 Strategic as notified.

Decision Reasons:

- Objective recognises the need to clearly provide for significant growth in the Waikato and that this growth is focused around existing towns and villages, such as Te Kauwhata.

Submitter Number: 598 **Submitter:** Withers Family Trust

Point Number 598.5

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic

Summary of Decision Requested **Retain** Objective 4.1.1 (a) and (b) Strategic.

Decision Reasons:

- This objective supports sustainable communities and will provide for 13,300-17,500 additional dwellings within the district in the period 2018-2045.

Submitter Number: 606 **Submitter:** Bill Wasley

Organisation: Future Proof Implementation Committee

Point Number 606.5

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic

Summary of Decision Requested **Amend** Section 4.1 Strategic Direction in Chapter 4 Urban Environment, so that a distinction is made between the growth of towns and villages and a greater concentration of growth in the townships.

Decision Reasons:

- The focus of future urban growth should be in the townships.
- Greater distinction is needed between towns and villages.
- The submitter supports the strategic direction outlined in Section 4.1.

Submitter Number: 662 **Submitter:** Blue Wallace Surveyors Ltd

Point Number 662.34

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic

Summary of Decision Requested **Retain** Objective 4.1.1 Strategic, except for the amendments sought below
 AND

Amend Objective 4.1.1 (b) Strategic as follows:
(b) Amend additional 13,300 – 17,500 dwellings are created during the period 2018 - 2045 to reflect market demands.

Decision Reasons:

- Supports in part the objective as it sets a worthy goal regarding future urban residential development across the district.
- The objective stresses a dwelling quantum which will act as a rigid formula being applied across the district over a time frame that does not correspond to the life of the Proposed District Plan.
- Setting a specifically quantified target for residential growth is problematic when unknown variables are considered.
- Clause (b) should be amended or removed to enable adaptability.

Submitter Number: 693 **Submitter:** Alstra (2012) Limited

Point Number	693.1
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic
Summary of Decision Requested	Retain Objective 4.1.1 - Strategic as notified.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the Waikato District Council's vision for liveable communities within the Waikato district that are sustainable coordinated and efficient while protecting existing intensive farming operations from growth that could negatively impact these operations.

Point Number	824.6		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic		
Summary of Decision Requested	Amend Objective 4.1.1 (a) Strategic, as follows: <i>(a) Liveable, thriving, and communities that are sustainable, affordable, efficient and co-ordinated.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The only mention of affordability in the plan is in section 1.12.3 which calls for "affordable options." Affordability should be a core principle of the District Plan in order to support the overarching goal of the objective. Lack of affordability now affects all at and below the median income and extends into the third quarter of income. Strategy for the District Plan should recognize the environment that now surrounds housing affordability and the impact that this is having on our communities. The plan should enable innovative housing developments that deliver highly affordable housing options for all income streams. 		

Submitter Number:	862	Submitter:	Havelock Village Limited
Point Number	862.3		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic		
Summary of Decision Requested	Retain Objective 4.1.1 Strategic Objective.		
Decision Reasons:	<ul style="list-style-type: none"> Supports providing for additional dwellings across the district, particularly within Pokeno. Supports consolidating additional growth around existing centres. Havelock Village helps achieve both of these objectives. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.26		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic		
Summary of Decision Requested	Amend Objective 4.1.1- Strategic to more explicitly refer to planned growth and development that is integrated with infrastructure (core and community infrastructure).		
Decision Reasons:	<ul style="list-style-type: none"> Objective 4.1.1 is supported in part as it will assist to some extent with giving effect to the direction contained within the Future Proof Strategy including its identified settlement pattern and the Waikato Regional Policy Statement. A broad range of infrastructure is need to support community wellbeing, and if well integrated as part of a local community's urban form, can enable physical and mental wellbeing, and community connectedness. 		

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.14		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic		
Summary of Decision Requested	Amend Objective 4.1.1(b) Strategic to identify the towns and their predicted housing development to cater for growth based on evidence.		
Decision Reasons:	<ul style="list-style-type: none"> 13,330 to 17,500 dwellings will be built over the next 27 years around existing towns and villages where infrastructure and services can be efficiently and economically provided. There is no indication as to where this growth will occur, or in fact whether this is supported by evidence. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.11		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.1 Objective – Strategic		
Summary of Decision Requested	Retain Objective 4.1.1(a) Strategic as notified.		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail supports the objective as it recognises the interconnected nature of land use and transport planning. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.2 Objective – Urban growth and development

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.111		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.2 Objective – Urban growth and development		
Summary of Decision Requested	Retain Objective 4.1.2 Urban growth and development, except for the amendments sought below AND Amend Objective 4.1.2 Urban growth and development to ensure that these provisions provide a focused, integrated strategic direction in respect of the district's urban environments. OR Add to Objective 4.1.1 Urban growth and development additional Objectives to ensure that these provisions provide a focused, integrated strategic direction in respect of the district's urban environments.		
Decision Reasons:	<ul style="list-style-type: none"> Objective 4.1.2 is supported in part as they will assist to some extent with giving effect to the WRPS and the Future Proof Strategy Planning for Growth 2017's (Future Proof Strategy's) direction for Waikato District's urban environment. Amendments (or additional objectives) are required to: provide more focussed, integrated strategic direction for the district's urban environments; relating to accommodating urban growth and development in Waikato District; and give effect to the National Policy Statement on Urban Development Capacity (NPS-UDC) and the WRPS. 		
Point Number	81.113		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.2 Objective – Urban growth and development		
Summary of Decision Requested	Amend Objective 4.1.2 Urban Growth and Development to: <ul style="list-style-type: none"> Clarify that urban growth and development is only to occur within and around towns and villages identified in the settlement pattern set out in the Future Proof Strategy and WRPS; and Direct that urban growth and development will only occur where there is existing or planned supporting infrastructure. 		
Decision Reasons:	<ul style="list-style-type: none"> The Objective fails to provide direction on other matters critical to ensuring thriving, sustainable urban environments, including the management of natural or ecological values in the urban environment and management of conflicts between rural and urban environments or different types of urban activities, such as those of an industrial and residential nature. The submitter considers that additional strategic objectives should be included to address these matters. To meet the requirements of the NPS-UDC there should also be an objective that sets out the district's minimum targets for sufficient, feasible development capacity for housing, with associated policies. (Note: WRPS Policies 6.1, 6.3, 6.14, 6.16 and 6.17). This submission point is the same as that of 81.117 except that it refers to Objective 4.1.1 rather than 4.1.2. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.101		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.2 Objective – Urban growth and development		
Summary of Decision Requested	Retain Objective 4.1.2 Urban growth and development, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the consolidation of urban growth in and around existing towns and villages in the district, where that does not compromise rural production activities. 		

Submitter Number:	466	Submitter:	Brendan Balle
Organisation:	Balle Bros Group Limited		
Point Number	466.32		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.2 Objective – Urban growth and development		
Summary of Decision Requested	Retain Objective 4.1.2 Urban growth and development as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the consolidation of future settlement in and around towns and villages, if the rezoning protects high-class soils where it is appropriate to do so. It is noted that the rezoned land in and around Tuakau is predominantly located on high-class soils, which is currently inconsistent with the objectives and policies of the Plan. 		

Submitter Number:	524	Submitter:	Anna Noakes
Point Number	524.12		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.2 Objective – Urban growth and development		
Summary of Decision Requested	Retain Objective 4.1.2 (a) Urban growth and development, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support Objective 4.1.2 (a) in consolidating growth around existing towns/villages. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.12		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.2 Objective – Urban growth and development		
Summary of Decision Requested	Retain Objective 4.1.2 Urban growth and development except for the amendments sought below. AND Add to Objective 4.1.2 Urban growth and development, a table/map that identifies growth areas. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The Proposed Plan appears to be relatively permissive for growth in and around all existing towns and villages. A map/table that identifies growth areas will provide parameters as to where these growth locations are. 		

Submitter Number:	579	Submitter:	Simon Ash
Organisation:	Lakeside Developments 2017 Limited		
Point Number	579.35		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.2 Objective – Urban growth and development		
Summary of Decision Requested	Retain Objective 4.1.2 Urban growth and development, except for the amendments sought below AND Amend Objective 4.1.2 Urban growth and development as follows: <i>(a) Future settlement pattern is consolidated in and around existing towns and villages in the district <u>and along the rail corridor.</u></i> AND Amend the Proposed District Plan to make any amendments or consequential changes that are necessary to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Objective recognises the need to clearly provide for significant growth in the Waikato and that this growth is focused around existing towns and villages, such as Te Kauwhata. Considers that growth along the rail corridor should be provided for. 		

Submitter Number:	598	Submitter:	Withers Family Trust
Point Number	598.6		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.2 Objective – Urban growth and development		
Summary of Decision Requested	Retain Objective 4.1.2 - Urban growth and development.		
Decision Reasons:	<ul style="list-style-type: none"> This objective will consolidate growth around existing towns and villages. 		
Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.50		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.2 Objective – Urban growth and development		
Summary of Decision Requested	Retain Objective 4.1.2 Urban growth and development, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support is extended to the recognition that future settlement development is appropriately directed to existing areas with infrastructure and services. 		
Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.95		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.2 Objective – Urban growth and development		
Summary of Decision Requested	<p>Amend 4.1.2 Objective – Urban growth and development as follows (or similar wording):</p> <p>(a) <i>Future settlement pattern is consolidated in and around existing towns and villages in the district to support a compact urban form.</i></p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally supports the objectives and policies set out in 4.1.1 to 4.1.5 and 4.1.8, however more emphasis and alignment is needed in the provisions to align with the strategic objectives and directions set out in 1.5.1, 1.5.2, and 1.5.4. The submitter supports the compact urban development model and wants to ensure this is carried through into the plan's objectives, policies and rules. 		
Submitter Number:	764	Submitter:	Ambury Properties Limited
Point Number	764.2		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.2 Objective – Urban growth and development		
Summary of Decision Requested	<p>Amend Objective 4.1.2 Urban growth and development as follows:</p> <p>(a) <i>Future settlement pattern is consolidated in and around existing <u>and planned</u> towns and villages in the district.</i></p> <p>AND</p> <p>Amend the Proposed District Plan as necessary to support the relief set out in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> To be consistent with the purpose and principles of the Resource Management Act. Promote the sustainable management of natural and physical resources. Enable people and communities to provide for their social and economic wellbeing. Meet the foreseeable needs of future generations. Provide industrial, business and residential land to give effect to the National Policy Statement on Urban Development Capacity. Consistent with sound resource management practice. The objectives of the Proposed District Plan are supportive of economic growth and new development and therefore support the rezoning of the property. This submission demonstrates that it is not always possible for a large industrial development with requirements for long term expansion to be located within an existing township. There is a need to recognise that development is also to be consolidated in new towns and villages where this is planned for. 		
Submitter Number:	862	Submitter:	Havelock Village Limited
Point Number	862.34		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.2 Objective – Urban growth and development		
Summary of Decision Requested	Retain Objective 4.1.2- Urban growth and development.		
Decision Reasons:	<ul style="list-style-type: none"> Supports providing additional dwellings across the district, particularly within Pokeno. Supports consolidating additional growth around existing centres. Havelock Village helps achieve both of these objectives. 		
Submitter Number:	923	Submitter:	Waikato District Health Board

Point Number	923.28
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.2 Objective – Urban growth and development
Summary of Decision Requested	Amend Objective 4.1.2- Urban growth and development to state more clearly that urban growth and development is only to occur within and around towns and villages identified in the Future Proof Strategy settlement pattern and Waikato Regional Policy Statement.
Decision Reasons:	<ul style="list-style-type: none"> Objective 4.1.2 is supported in part as it will assist to some extent with giving effect to the direction contained within the Future Proof Strategy including its identified settlement pattern and with giving effect to the Waikato Regional Policy Statement.

On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.12		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.2 Objective – Urban growth and development		
Summary of Decision Requested	Retain Objective 4.1.2 Urban growth and development as notified		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail support that there is a focus on consolidating growth near existing settlements. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.114		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	Amend Policy 4.1.3 Location of development OR Amend Policy 4.1.3 Location of development to include additional policy for urban residential activities that is similar to Policy 4.1.6. The additional policy should specify: - Which of the plan's residential zones are to apply in the district's urban towns and villages; - That rural-residential subdivision and development is not to occur in urban areas; - Exactly what is meant by the term 'infrastructure' as used in the policy, for example if it includes on-site waste water treatment, such as might be used in rural towns and villages; and - That urban residential development is to occur primarily in accordance with the Future Proof Strategy (and any additional locations identified through the Future Proof update and Auckland to Hamilton Spatial Plan currently underway) where infrastructure to support development of an urban nature is or will be available over the term of the district plan; and whether and which of these locations are identified as priority growth areas for the district.		
Decision Reasons:	<ul style="list-style-type: none"> Policy direction similar to that contained in Policy 4.1.6 in respect of the zoning and location of commercial and industrial development should be included in respect of residential development. The policy should identify the zones that provide for urban scale residential development; the specific towns and villages where it is envisaged that residential growth and development is to occur, consistent with the Future Proof Strategy, and giving effect to the WRPS; and which of these the district intends to prioritise for growth and infrastructure provision over the term of the plan. Stage 2 of the Future Proof Strategy Update may have changes to the current settlement pattern, and these should be reflected in the district plan provisions. 		
Point Number	81.115		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	Amend Policy 4.1.3 Location of development to take into account high class soils, significant natural areas, outstanding natural features and landscapes, natural character and hazards.		
Decision Reasons:	<ul style="list-style-type: none"> Policy 4.1.3 also directs the location of urban development, however, does not take into account consideration of high class soils, SNAs, outstanding natural features and landscapes, natural character and hazards. This policy should be expanded to take these into account, giving effect to the WRPS provisions such as Policies 14.2, 13.2, 12.1 and 6.1 among others. (Note: WRPS Policies 6.1, 6.3, 6.6, 6.14 and Section 6A). 		

Submitter Number:	182	Submitter:	Kirriemuir Trustee Limited
Point Number	182.9		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	Retain Policy 4.1.3 (b) Location of development, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The Future Proof Strategy recognises Tuakau as a R2 growth area. 		

Submitter Number:	299	Submitter:	2SEN Limited and Tuakau Estates Limited
Point Number	299.5		

Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	Retain Policy 4.1.3 (b) Location of development as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The Future Proof Strategy recognizes Tuakau as a R2 growth area. 		

Submitter Number:	343	Submitter:	Michael Briggs

Point Number	343.1		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	Amend Policy 4.1.3 (b) Location of development, to clarify the indicative nature of the Future Proof Strategy urban limits. AND Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the planned and sustainable growth intention of Policy 4.1.3(b). However, while the indicative urban limits on Map 1 of the Future Proof Strategy identify growth to the west of Raglan, the strategy identifies that "These limits, which are shown on Maps 1 and 2, are still indicative and will remain so until further development analysis, for example structure planning, has been completed," and "The indicative urban limits will not necessarily prevent changes to these limits if further development analysis determines such changed to be appropriate". 		

Submitter Number:	344	Submitter:	Burton Trust
Point Number	344.1		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	Delete the date "2017" from Policy 4.1.3(b) Location of development.		
Decision Reasons:	<ul style="list-style-type: none"> By removing the "2017" date it will remain a current policy through out the life of the Proposed Plan, including when Phase 2 of Future Proof is completed, when the Future Development Strategy is completed and also when Future Proof may be amended again in the future. 		
Point Number	344.2		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	Add new Policy 4.1.3(c) as follows: <i>(c) Identify and investigate potential future growth area options to meet long term demand.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Work is continuing on Phase 2 of Future Proof, the Hamilton Growth Corridor and Future Development Strategy so it is appropriate to identify medium and long term options for future investigations. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.85		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	Amend Policy 4.1.3 Location of development, by expanding the policy to avoid the location of development on high class soils. AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter opposes the policy direction for the location of development. This should be expanded to avoid high class soils even if this conflicts with the Future Proof Strategy Planning for Growth 2017 which was deficient in not considering this matter. 		

Submitter Number:	445	Submitter:	Heather Perring
Organisation:	BTW Company		
Point Number	445.11		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	Add a new policy after Policy 4.1.3 Location of development, as follows: <i>Structure Planning</i> <i>Provide for and encourage planned, integrated and flexible development through both developer and council led structure planning for areas consistent with the Future Proof settlement pattern, and in accordance with relevant urban design guidelines.</i> <i>Encourage residential development within those approved structure planned areas through permitted activity status where effects can be managed.</i> <i>Multi-unit developments</i> <i>Encourage comprehensive residential developments outside of structure planned areas, by way of multi-unit developments.</i>		

Decision Reasons:	<ul style="list-style-type: none"> Facilitates increased growth by structure planning and development within approved structure planned areas and encourage the take up of the multi-unit development activity. The submitter supports the strategic direction of the Proposed District Plan, in particular Section 1.12.1. The use of master or structure planning has not been carried through to all relevant sections of the Proposed District Plan to comprehensively and effectively implement this strategic direction. Structure planning would provide a flexible tool to open up new growth areas aligned with Future Proof without having to effect significant variations to the Proposed District Plan. Developer led and Council led structure planning should be encouraged to reach up front agreements with local communities on the essential bulk and location standards to create developments suited to the location rather than a 'one size fits all' approach or ad hoc development. Provisions are needed to enable well planned multi-unit developments on smaller sites, rather than across a multiple owned structure planned area.
Point Number	445.4
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development
Summary of Decision Requested	<p>Amend Policy 4.1.3 (b) Location of development to create flexibility for Future Proof updates, as follows:</p> <p><i>(b) Locate urban growth areas only where they are consistent with the Future Proof Strategy Planning for Growth 2017 and any subsequent updates.</i></p>
Decision Reasons:	<ul style="list-style-type: none"> The review of the Future Proof Strategy may result in amendments to the settlement pattern and future growth targets. The Proposed District Plan does not include flexibility to accommodate such changes. The requested developer-led structure planning approach would provide a flexible tool to open up new growth areas without having to effect significant variations to the district plan.

Submitter Number:	464	Submitter:	Perry Group Limited
Point Number	464.1		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	<p>Amend Policy 4.1.3 Location of development, as follows:</p> <p><i>(a) Subdivision and development of a residential, commercial and industrial nature is to occur within <u>or near</u> towns and villages where infrastructure and services can be efficiently and economically provided.</i></p> <p><i>(b) Locate Give preference to urban growth areas only where they are consistent with the Future Proof Strategy Planning for Growth 2017, <u>any amended Future Proof documents, the Corridor Plan, and any central government directives on land use.</u></i></p> <p>AND</p> <p>Any consequential amendments or further relief to address the concerns raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> It will promote the sustainable management of resources. It will achieve the purpose of the Resource Management Act 1991. It is not contrary to Part 2 and other provisions of the Resource Management Act 1991. Economic benefits exist through the promotion and development of tourism and recreation in the corridor. 		

Submitter Number:	466	Submitter:	Brendan Balle
Organisation:	Balle Bros Group Limited		
Point Number	466.33		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	<p>Amend Policy 4.1.3 Location of development to avoid development on high-class soils where it can demonstrate that the area provides opportunity for viable primary production activities.</p> <p>Specific regard should be given to:</p> <ul style="list-style-type: none"> Topography Productivity Sustainability (specifically avoidance of soil pests and diseases, suitably consented irrigation water) Reverse sensitivity Economic viability 		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports directing the location of development and considers that this should be expanded to avoid development on high-class soils where viable commercial vegetable production activities can occur. There is a scarcity of elite soils in this area. It is noted that high-class soils are one component of a viable commercial vegetable production operation with other considerations including topography, productivity, sustainability (specifically avoidance of soil pests and diseases; suitably consented irrigation water), reverse sensitivity and economic viability. Specific regard should be given to: Topography, Productivity, Sustainability (specifically avoidance of soil pests and diseases; suitably consented irrigation water), Reverse sensitivity, and Economic viability. 		

Submitter Number:	524	Submitter:	Anna Noakes
Point Number	524.13		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	<p>Amend Policy 4.1.3 (b) Location of development, as follows:</p> <p><i>Locate urban growth areas only where they are consistent with legislative requirements and strategic documents such as Future Proof the Future Proof Strategy Planning for Growth 2017.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Urban Growth should align with the Waikato Regional Policy Statement informed through Future Proof, however the Future Proof settlement patterns are to be updated 2018/19 to take into account legislative reforms such as the National Policy Statement and Urban Development Capacity and strategic requirements. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.13		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	<p>Retain Policy 4.1.3(a) Location of development except for the amendments sought below.</p> <p>AND</p> <p>Amend Policy 4.1.3(a) Location of development as follows:</p> <p><i>(a) Subdivision and development of a residential, commercial and industrial nature is to occur within towns and villages where infrastructure and services can be efficiently and economically provided: <u>in a coordinated manner with other development; and</u></i></p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The requested expansion of Policy 4.1.3(a) will ensure that the Proposed Plan recognises that, even if infrastructure can be provided, this should be in the context of all other existing and planned infrastructure investment to ensure that growth is coordinated. Both clauses (a) and (b) need to be satisfied when considering the location of development. 		
Point Number	535.14		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	<p>Retain Policy 4.1.3(b) Location of development except for the amendments sought below.</p> <p>AND</p> <p>Add to Policy 4.1.3(b) Location of development a table/map that identifies the growth areas.</p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Clarification could be provided as to what the urban growth location areas are. The reference to Future Proof is welcomed.

Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	<p>Retain Policy 4.1.3 Location of development, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 4.1.3 Location of development, as follows:</p> <p><i>(a) Subdivision and development of a residential, commercial and industrial nature is to occur within towns and villages, <u>and along the rail corridor</u>, where infrastructure and services can be efficiently and economically provided.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make any amendments or consequential changes that are necessary to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Policy recognises the need to clearly provide for significant growth in the Waikato and that this growth is focused around existing towns and villages, such as Te Kauwhata. Considers that growth along the rail corridor should be provided for. 		

Submitter Number:	598	Submitter:	Withers Family Trust
Point Number	598.7		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	<p>Retain Policy 4.1.3 (b) Location of development, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 4.1.3(b) Location of development as follows:</p> <p><i>(b) Locate urban growth areas only where they are consistent with <u>legislative requirements and strategic documents such as Future Proof, the Future Proof Strategy Planning for Growth 2017.</u></i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Urban growth should align with the Waikato Regional Policy Statement which is informed by Future Proof. However, the Future Proof Strategy is to be updated in 2018/2019 in accordance with legislative reform which includes the National Policy Statement - Urban Development Capacity and strategic requirements. 		

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.35		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		

Summary of Decision Requested	Amend Policy 4.1.3 Location of Development as follows: <i>(a) Subdivision and development of a residential, commercial and industrial nature is to occur within <u>and adjacent to</u> towns and villages where infrastructure and services can be efficiently and economically provided.</i> <i>(b) Locate urban growth areas only where they are consistent with the <u>relevant Strategic Growth documents for the district</u> Future Proof Strategy Planning for Growth 2017.</i>
Decision Reasons:	<ul style="list-style-type: none"> The submitter agrees with this policy to the extent that residential urban growth is to occur in a logical pattern that is reflective of well-considered growth strategy. The proposed wording of the policy is too restrictive and need not state that only urban growth be enabled within the 2017 Future Proof Strategy. Limiting growth to the 2017 iteration of the strategy is limiting, and will result in future drafting fixes over the life of the District Plan.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.51		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	Retain Policy 4.1.3 Location of development, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this policy as it is aimed at ensuring future settlement development is appropriately directed to existing areas with infrastructure and services.

Summary of Decision Requested	Retain Policy 4.1.3 Location of development, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Supports the intent of this policy as it seeks the integration of land use, infrastructure and funding and is consistent with the Regional Policy Statement. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.96		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	Amend Policy 4.1.3 Location of development as follows (or similar wording): <i>(b) Locate urban growth areas only where they are consistent with the Future Proof Strategy Planning for Growth 2017 <u>and within existing urban limits.</u></i> <i>(c) <u>Where possible, urban subdivision, use and development in the rural environment is avoided.</u></i> AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally supports the objectives and policies set out in 4.1.1- 4.1.5 and 4.1.8, however more emphasis and alignment is needed in the provisions to align with the strategic objectives and directions set out in 1.5.1, 1.5.2, and 1.5.4. The submitter supports the compact urban development model and wants to ensure this is carried through into the plan's objectives, policies and rules. 		
Decision Reasons:			

Submitter Number:	764	Submitter:	Ambury Properties Limited
Point Number	764.3		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	Amend Policy 4.1.3(a) Location of development as follows: <i>(a) Subdivision and development of a residential, commercial and industrial nature is to occur within <u>existing and planned</u> towns and villages where infrastructure and services can be efficiently and economically provided for.</i> AND Amend the Proposed District Plan as necessary to support the relief set out in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> To be consistent with the purpose and principles of the Resource Management Act. Promote the sustainable management of natural and physical resources. Enable people and communities to provide for their social and economic wellbeing. Meet the foreseeable needs of future generations. Provide industrial, business and residential land to give effect to the National Policy Statement on Urban Development Capacity. Consistent with sound resource management practice. The policies of the Proposed District Plan are supportive of economic growth and new development and therefore support the rezoning of the property. This submission demonstrates that it is not always possible for a large industrial development with requirements for long term expansion to be located within an existing township. There is a need to recognise that development is also to be consolidated in new towns and villages where this is planned for. 		

Submitter Number:	862	Submitter:	Havelock Village Limited
Point Number	862.4		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	Retain Policy 4.1.3 Location of Development		
Decision Reasons:	<ul style="list-style-type: none"> Supports this policy as it focuses development on urban growth areas identified in the Future Proof strategy. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.29		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.3 Policy - Location of development		
Summary of Decision Requested	Amend Policy 4.1.3- Location of Development, however amendments sought are unclear. OR Add additional policy for urban residential activities to Chapter 4: Urban Environment similar to Policy 4.1.6- Commercial and industrial activities.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter notes that as a result of the Stage 2 update of the Future Proof Strategy and the Auckland-Hamilton Corridor Plan development, there may be changes to the current settlement pattern and should be reflected in the district plan provisions. Employment and essential infrastructure and services are key determinants of health and wellbeing for the Waikato District residents. Core and social infrastructure is critical to enabling and supporting quality urban developments, liveability and health and wellbeing for local communities. Policy 4.1.3 policy direction is similar to that contained in Policy 4.1.6 in respect to zoning and location of commercial and industrial development. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.4 Policy – Staging of development

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.116		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.4 Policy – Staging of development		
Summary of Decision Requested	Amend Policy 4.1.4 – Staging of development to include details on how subdivision, use and development of new urban areas within urban towns and villages is to be integrated and staged in areas where a 'live' zoning is proposed, but where infrastructure does not currently exist or is not planned to be provided over the timeframe of the district plan.		
Decision Reasons:	<ul style="list-style-type: none"> This policy is supported as it will assist with ensuring a co-ordinated approach to infrastructure provisions and integration of growth and infrastructure provision, however, it does not provide clear guidance on how infrastructure and staging of development will be integrated. (Note: WRPS Policies 6.1, 6.3, 6.14 and Section 6A).

Submitter Number:	579	Submitter:	Simon Ash
Organisation:	Lakeside Developments 2017 Limited		

Point Number	579.36
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.4 Policy – Staging of development
Summary of Decision Requested	Retain Policy 4.1.4 Staging of developments as notified.
Decision Reasons:	<ul style="list-style-type: none"> Policy recognises the need to clearly provide for significant growth in the Waikato and that this growth is focused around existing towns and villages, such as Te Kauwhata.

Submitter Number:	598	Submitter:	Withers Family Trust
Point Number	598.8		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.4 Policy – Staging of development		
Summary of Decision Requested	Retain Policy 4.1.4 Staging of development.		
Decision Reasons:	<ul style="list-style-type: none"> An integrated and staged approach to development is appropriate where it is supported by infrastructure. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.10		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.4 Policy – Staging of development		
Summary of Decision Requested	Retain Policy 4.1.4 Staging of Development, except for the amendments sought below AND Amend Policy 4.1.4 Staging of Development as follows: (i) ensure that subdivision, use and development in new urban areas is (ii) located, designed, and staged to adequately support ensure that it is adequately serviced by existing or planned infrastructure, community facilities, open space networks and local services; and (iii) efficiently and effectively integrated and staged to support infrastructure, stormwater management networks, park, and open space networks. AND Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Supports the intent of this policy as it seeks the integration of land use, infrastructure and funding and is consistent with the Regional Policy Statement. However, the proposed wording of policy 4.1.4 does not provide adequate certainty; in particular "new urban areas" are not described/defined; and it is not clear what "support" means. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.30		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.4 Policy – Staging of development		
Summary of Decision Requested	Retain Policy 4.1.4- Staging of development as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the policy's intent to help ensure subdivision, use and development in new urban areas is located, designed and staged to adequately support existing or planned infrastructure, community facilities, open space networks and local services. Infrastructure and services can enable positive health and wellbeing outcomes. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density
--

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.117		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density		
Summary of Decision Requested	Amend Policy 4.1.5 Density to indicate that in the Residential zone closest to Business Town Centre zones, it is anticipated that a higher density per hectare is to be achieved.		
Decision Reasons:	<ul style="list-style-type: none"> It is anticipated that a higher density per hectare is to be achieved. The submitter is concerned that the proposed densities for the Residential and Village zones do not accurately reflect the Future Proof density targets and the WRPS' Policy 6.15 Density targets for the Future Proof area. The WRPS targets are expressed as average gross density targets, are specific to greenfield developments for identified towns in Waikato District, and there are no specific densities provided for the district's established urban environments. Higher minimum densities than those proposed are more appropriate for established residential areas immediately adjacent to the Business Town Centre zones. Higher residential densities around this zone would better support public transport and other infrastructure, the commercial vitality of the town centre and promote people living, working and playing in their local town centres. The submitter notes that the draft North Waikato Integrated Growth Management Programme Business Case states that a density of approximately 17 dwellings per hectare would be required to support a commuter train service at Tuakau. The submission notes that this submission point should be read in conjunction with submission 81.18 		

Point Number	81.118
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density
Summary of Decision Requested	Amend Policy 4.1.5 Density to indicate a higher minimum density than is currently proposed for serviced sites within the Village Zone.
Decision Reasons:	<ul style="list-style-type: none"> Concerned that the proposed minimum density of 8-10 households per hectare for sites in the Village Zone where public reticulated services can be provided does not give effect to the WRPS' Policy 6.15, which seeks to achieve compact urban environments. The density proposed for the Village Zone is equivalent to the WRPS' direction for density in greenfield developments in Waikato's rural villages, and is an average gross density target. Densities for these serviced sites should more resemble those in the Residential Zone. This would assist with promoting a more compact, sustainable urban form and supporting efficient infrastructure provision.

Submitter Number:	386	Submitter:	Pokeno Village Holdings Limited
Point Number	386.7		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density		
Summary of Decision Requested	Delete the density targets for Pokeno (as contained in Policy 4.1.5(b) Density). OR Amend Policy 4.1.5 Density to be "greater than 10 dwellings per hectare" in accordance with the Regional Policy Statement		
Decision Reasons:	<ul style="list-style-type: none"> The Proposed District Plan provides no guidance as to how density per hectare will be calculated. For example: <ul style="list-style-type: none"> It is assumed that every hectare of residential zoned land will achieve 12-15 households per hectare; It is unclear whether this includes or excludes areas of environmental protection, roads and reserves; For structure plan areas, it is unclear whether density per hectare will be assessed as an average over the whole area Given the lack of guidance it is assumed that every hectare of residential land is required to achieve 12-15 households per hectare but this approach does not reflect the reality of environmental constraints within the residential zone or the policy direction to provide residential choice. The various residential blocks in Pokeno achieve densities between 10.5-13.8 lots per hectare which are consistent with the Regional Policy Statement requirements of greater than 10 dwellings per hectare. 		

Submitter Number:	397	Submitter:	Horotiu Properties Limited
Point Number	397.2		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density		
Summary of Decision Requested	Amend Policy 4.1.5 (c) Density, as follows: <i>(c) Achieve a minimum density of 8-10 households per hectare in the Village Zone where public reticulated services can be provided.</i> AND Amend the Proposed District Plan to make any consequential amendments necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> It is feasible that the development in the Village Zone could be serviced by reticulated services that are privately owned and managed. The policy should not be limited to only publicly owned infrastructure networks. 		

Submitter Number:	524	Submitter:	Anna Noakes
Point Number	524.40		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density		
Summary of Decision Requested	Retain Policy 4.1.5 (b) Density.		
Decision Reasons:	<ul style="list-style-type: none"> Support the minimum density requirements but notes that physical/geotechnical limitation and market trends may impede achieving minimum requirements especially when existing land holdings are in fragmented ownership. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.16		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density		
Summary of Decision Requested	Retain Policy 4.1.5 Density except for the amendments sought below. AND Amend Policy 4.1.5 Density, by including a greater range of densities, canvassing growth in both greenfield and fill areas; AND Amend subdivision rules as a consequential amendment. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> One of the key principles of the Waikato Regional Policy Statement and Future Proof is accommodating residential growth in existing towns. The submitter supports opportunities to grow these towns rather than additional greenfield areas. 		

- While the density targets are supported, the policy needs to respond to the Housing and Business Development Capacity Assessment by including a greater range of densities.
- The proposed densities should reflect greenfield growth and create infill opportunities within existing towns, including higher density housing in existing centres.
- This amended policy could affect subdivision rules and multi-unit standards.

Submitter Number:	579	Submitter:	Simon Ash
Organisation:	Lakeside Developments 2017 Limited		
Point Number	579.38		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density		
Summary of Decision Requested	Retain Policy 4.1.5 Density as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Policy recognises the need to clearly provide for significant growth in the Waikato and that this growth is focused around existing towns and villages, such as Te Kauwhata. • Supports the identification of minimum densities as this provides guidance on the nature and form of future development. 		

Submitter Number:	598	Submitter:	Withers Family Trust
Point Number	598.9		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density		
Summary of Decision Requested	Retain Policy 4.1.5(b) but the submitter notes that physical/geotechnical limitations, market trends and fragmented land ownership may impede achieving these minimum density requirements.		
Decision Reasons:	<ul style="list-style-type: none"> • Achieving a minimum density of 12-15 households per hectare in the Residential Zone may be impeded due to physical/geotechnical limitations, market trends and fragmented land ownership. 		

Submitter Number:	602	Submitter:	Greig Metcalfe
Point Number	602.34		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density		
Summary of Decision Requested	<p>Amend Policy 4.1.5(c) - Density, as follows:</p> <p><i>(c) Achieve a minimum density of 8-10 households per hectare in the Village Zone where public reticulated services can be provided.</i></p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • It is feasible for development in the Village Zone to be serviced by privately owned and managed reticulation (i.e. community scale) and therefore the policy should not be limited to publicly owned infrastructure networks. 		

Submitter Number:	658	Submitter:	Koning Family Trust and Martin Koning
Point Number	658.1		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density		
Summary of Decision Requested	<p>Amend Policy 4.1.5 Density, as follows:</p> <p><i>Residential development responds to its context and seeks to achieve, over time, the following average gross density targets:</i></p> <p>Achieve a minimum density of:</p> <p><i>(i) 12-15 households per hectare in the Residential Zone</i></p> <p><i>(ii) 8-10 households per hectare in the Village Zone where public reticulated services can be provided.</i></p> <p>AND</p> <p>Any further relief or amendments as necessary to support the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Future Proof and the WRPS provides direction on the desired density of greenfield development throughout the sub-region. • Future Proof and the WRPS recognise that these densities are to be achieved over time and are targets across the towns such as Huntly, Ngaruawahia and Raglan. • Policy 4.1.5 is worded in such a way that provides little flexibility in the density of future greenfield development and removes the flexibility and long-term nature of achieving the target densities embedded in the higher order policy documents. • The policy should be worded to be consistent with the density targets embedded in these documents, which allows development to respond to its location and context, with higher densities located in appropriate locations near urban centres or areas of amenity and lower densities where there are topographical, geographical and physical constraints. • Allowing for this balance to occur will also assist in providing a range of housing typologies and housing choice while giving effect to the intent of the higher order strategic growth documents. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
--------------------------	-----	-------------------	----------------------------------

Point Number	680.52
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density
Summary of Decision Requested	Retain Policy 4.1.5 Density as notified.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this policy, which is designed to reduce urban sprawl and the subsequent pressures that are placed on Council infrastructure and services.

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.11		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density		
Summary of Decision Requested	Retain Policy 4.1.5(a) Density, except for the amendments sought below AND Amend Policy 4.1.5(a) Density as follows: Encourage <u>Ensure</u> higher density housing and retirement villages to be <u>are</u> located <u>where they have safe efficient and effective access to</u> near to and support commercial centres, community facilities, public transport and open space <u>without being reliant on private vehicle use.</u> AND Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Policy 4.1.5(a) needs an amendment to provide a stronger directive that higher density development will occur in the locations specified. This amendment will also ensure that there is consistency with Objective 4.2.16(b). The focus of the Policy also needs to be amended to make it clear that development should be sited where it has safe and efficient access to facilities and infrastructure, thus creating liveable communities. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.97		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density		
Summary of Decision Requested	Amend Policy 4.1.5 Density as follows (or similar wording): (a) <u>Encourage higher density housing and retirement villages to be located near to and support existing town commercial centres, community facilities, public transport, key strategic transport corridors and open space.</u> (b) <u>Achieve a minimum density of 12-15 households per hectare in the Residential Zone.</u> (c) <u>Achieve a minimum density of 30 households per hectare in the Medium Density Residential Zone.</u> (d) ... AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally supports the objectives and policies set out in 4.1.1-4.1.5 and 4.1.8, however more emphasis and alignment is needed in the provisions to align with the strategic objectives and directions set out in 1.5.1, 1.5.2, and 1.5.4. The submitter supports the compact urban development model and wants to ensure this is carried through into the plan's objectives, policies and rules. Housing New Zealand is seeking an additional new residential zone 'Medium Density Residential Zone' is introduced into the Proposed District Plan (reasons outlined later in this submission). An amendment will be required to 4.1.5 Policy – Density to include a minimum density target (number of households per hectare) for the new residential zone. This number will need to be significantly higher than the residential zone. 		

Submitter Number:	780	Submitter:	John Lawson (Whaingaroa Environmental Defence Incorpora
On behalf of:	Whaingaroa Environmental Defence Incorporated Society		
Point Number	780.16		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density		
Summary of Decision Requested	Amend Policy 4.1.5 Density to identify density ranges for each street.		
Decision Reasons:	<ul style="list-style-type: none"> A minimum density of 12-15 households per hectare is imprecise (is it 12, 15, or what, where and why?) and not suitable for parts of the Residential Zone. Some streets could take much more and some less. Submitter opposes the policy unless sites are assessed for wildlife, stormwater, visual attraction and transport factors.

Point Number	825.16		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density		
Summary of Decision Requested	Amend Policy 4.1.5 Density to identify density ranges for each street.		

Decision Reasons:	<ul style="list-style-type: none"> A minimum density of 12-15 households per hectare is imprecise (is it 12, 15, or what, where and why?) and not suitable for parts of the Residential Zone. Some streets could take much more and some less. Submitter opposes the policy unless sites are assessed for wildlife, stormwater, visual attraction and transport factors.
--------------------------	---

Submitter Number:	862	Submitter:	Havelock Village Limited
Point Number	862.5		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density		
Summary of Decision Requested	<p>Amend Policy 4.1.5 Density to recognise that different housing densities may be appropriate in certain locations, particularly where such density has been included as part of an approved master plan;</p> <p>OR</p> <p>If the above relief is not accepted, add site specific objectives and policies for Havelock Village, including a new Policy 4.2.20;</p> <p>AND</p> <p>Any consequential amendments or alternative relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Supports encouraging higher density housing around the identified amenity features (commercial centres, community facilities, public transport and open space). Supports the approach of achieving the minimum density across the urban environment. However, the minimum density should not be applied like a rule and there needs to be recognition in the Proposed District Plan that it is not always feasible to achieve that level of density in all developments. Certain locations, such as Havelock Village, can contribute to achieving the required number of dwellings but at slightly lower densities in order to achieve better landscape and amenity outcomes. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.31		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density		
Summary of Decision Requested	<p>Retain Policy 4.1.5-Density, except for the amendments sought below;</p> <p>AND</p> <p>Amend Policy 4.1.5 (b)- Density to indicate that in the Residential Zone closest to a Business Town Centre, it is anticipated that a higher minimum density per hectare is to be achieved.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the policy's intent to help ensure subdivision, use and development in new urban areas is located, designed and staged to adequately support existing or planned infrastructure, community facilities, open space networks and local services. Policy 4.1.5 is supported in part as it is consistent with density provisions identified in the Future Proof Strategy. However, the submitter suggests more ambitious minimum density targets for the Residential Zone be specified as this will enable compact urban form, access to essential services and community connectedness. Higher minimum densities than are proposed are more appropriate for established residential areas immediately adjacent to the Business Town Centre zones. Higher residential densities would better support public transport and other infrastructure, the commercial vitality of the town centre and promotes people living, working, learning and playing within their local town centres. 		
Point Number	923.32		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.5 Policy – Density		
Summary of Decision Requested	Amend the Proposed District Plan to provide for higher density and mixed use developments close to train stations that have been signaled for potential re-opening.		
Decision Reasons:	<ul style="list-style-type: none"> Enabling higher public transport levels of service improves access to essential services for local residents, which has a link to the proposed inter-regional passenger rail service and proposed train stops between Hamilton and Auckland.

Point Number	464.2		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.6 Policy – Commercial and industrial activities		
Summary of Decision Requested	Add a new clause (c) to Policy 4.1.6 Commercial and industrial activities, as follows: <u>(c) Encourage linkages and connections between commercial, industrial, and residential activities.</u> AND Any consequential amendments or further relief to address the concerns raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • It will promote the sustainable management of resources. • It will achieve the purpose of the Resource Management Act 1991. • It is not contrary to Part 2 and other provisions of the Resource Management Act 1991. • Cycling and walking should be promoted for a healthy and active lifestyle. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.17		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.6 Policy – Commercial and industrial activities		
Summary of Decision Requested	Amend Policy 4.1.6 Commercial and industrial activities, so that it reads as a policy and reflects the difference between commercial and industrial activities, their intended location and management of effects. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • At present the wording does not provide clear directive to link into the Objective for Urban Environment. • The submitter seeks clarity through a well defined set of policies within 4.1.6 to reflect the difference between Commercial and Industrial activities, the intended locations for such activities, and management of effects. 		

Submitter Number:	548	Submitter:	Murray & Cathy McWatt
Organisation:	Grander Investments Limited		
Point Number	548.5		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.6 Policy – Commercial and industrial activities		
Summary of Decision Requested	Retain Policy 4.1.6 (a) Commercial and Industrial Activities, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Industrial and commercial activities are enabled by appropriate zoning and provisions. 		
Point Number	548.6		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.6 Policy – Commercial and industrial activities		
Summary of Decision Requested	Amend Policy 4.1.6 (b) Commercial and Industrial Activities, as follows: "Industry is only to be located in <u>enabled in</u> identified Industrial Zones and the industrial strategic growth nodes of..."		
Decision Reasons:	<ul style="list-style-type: none"> • Wording of the policy too restrictive. • Industry outside these nodes may have a local function or support an already established operation. • Refer to submission for suggested policy amendment. 		

Submitter Number:	581	Submitter:	Penny Gallagher
Organisation:	Synlait Milk Ltd		
Point Number	581.3		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.6 Policy – Commercial and industrial activities		
Summary of Decision Requested	Retain Policy 4.1.6(b) Commercial and industrial activities.		
Decision Reasons:	<ul style="list-style-type: none"> • Synlait's development at 45 McDonald Road is consistent with policy 4.1.6(b). • Pokeno is identified as an "industrial strategic growth node". • As an industrial strategic growth node, the provision of infrastructure and services is a strategic and regionally important matter. • A range of industrial activity is provided for in this location and protected from sensitive activities which may undermine the efficient operation of the activity/site of strategic importance. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.12		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.6 Policy – Commercial and industrial activities		
Summary of Decision Requested	<p>Retain Policy 4.1.6 Commercial and industrial activities, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 4.1.6 Commercial and industrial activities as follows:</p> <p>(a) Provide for commercial and industrial development activities in the following zones:</p> <p>(i) Business Town Centre; and</p> <p>(ii) Business</p> <p>(iii) Industrial</p> <p>(iv) Heavy Industrial</p> <p>(b) Industry is only to be located in identified Industrial Zones and the industrial strategic growth nodes of:</p> <p>(i) Tuskau</p> <p>(ii) Pokeno</p> <p>(iii) Huntly; and</p> <p>(iv) Horotiu</p> <p><u>Provide for industrial activities only in the following zones:</u></p> <p>(i) <u>Industrial</u></p> <p>(ii) <u>Heavy Industrial</u></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of Policy 4.1.6 to provide certainty regarding the intended location of commercial and industrial activities. Commercial activities should not be provided for in the Industrial Zone, and vice versa for industrial activities in the Commercial Zone. However, the lack of definitions for the terms used could lead to confusion as to the application. Chapter 13 includes definitions for "commercial activity", "commercial services", "retail activity", "industrial activity" and "rural industry". Policy 4.1.6 refers to "commercial and industrial development" within certain zones, including the Heavy Industrial Zone; this implies heavy industrial activities are included in the meaning of the term "industrial development". Clause (b) of the policy is in conflict with clause (a). It is unclear whether rural and heavy industrial activities are a subset of industrial activities. 		
Submitter Number:	781	Submitter:	Ministry of Education
Point Number	781.3		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.6 Policy – Commercial and industrial activities		
Summary of Decision Requested	<p>Amend 4.1.6 Policy - Commercial and industrial activities, so that education facilities are included as follows:</p> <p>4.1.6 Policy - <u>Education</u>, commercial and industrial activities</p> <p>(a) Provide for <u>education facilities</u>, commercial and industrial development in the following zones:</p> <p>...</p>		
Decision Reasons:	<ul style="list-style-type: none"> There are no policies that currently provide for education facilities. Education facilities such as tertiary education institutions, work skill training centres and early childhood education centres may need to be located within commercial and industrial areas for the convenience of parents and students. 		
Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.33		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.6 Policy – Commercial and industrial activities		
Summary of Decision Requested	Retain Policy 4.1.6- Commercial and Industrial Activities as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Policy is supported as this will assist with giving effect to the Waikato Regional Policy Statements' policy direction regarding the location of commercial and industrial activities. 		
Submitter Number:	924	Submitter:	Alice Barnett
Organisation:	Genesis Energy Limited		
Point Number	924.13		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.6 Policy – Commercial and industrial activities		
Summary of Decision Requested	<p>Retain Policy 4.1.6 Commercial and industrial activities, except for the amendments sought below</p> <p>AND</p>		

Amend Policy 4.1.6 (a)- Commercial and Industrial activities as follows:

(a) Provide for commercial and industrial development in the following zones:

(i) Business Town Centre;

(ii) Business;

(iii) Industrial; ~~and~~

(iv) Heavy Industrial; and

(v) Electricity generation within the Huntly Power Station Heavy Industrial Zone.

Decision Reasons:

- The submitter supports the direction of Policy 4.1.6 that commercial and industrial activities be provided for in the Heavy Industrial Zone, which is what the Huntly Power Station has been zoned as.
- However, the submitter also considers that electricity generation activities should also be provided within the Huntly Power Station Heavy Industrial Zone.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.7 Objective – Character of towns

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.120		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.7 Objective – Character of towns		
Summary of Decision Requested	Amend Objective 4.1.7 Character of towns to ensure that these provisions provide a focused/integrated and strategic direction in respect of the district's urban environments. OR Amend Objective 4.1.7 Character of towns to add additional objectives to better support and align with the matters covered by the associated policies, including that the existing residential and commercial character of the district's urban environments is to be maintained and enhanced by new growth and development.		
Decision Reasons:	<ul style="list-style-type: none">• Provisions supported in part, but the submitter considers however that the Objective, including its title, does not align well with the content of the associated policies insofar as the policies address a broader range of matters than are included in the Objective, including subdivision, density, landscape characteristics and reverse sensitivity issues.• The submitter considers that the objective should be amended, or new objectives added, to ensure better alignment with related policies. For example, the objective should address the issue of new development connecting well with the existing built environment.• The submission includes some detail about why they support the provisions (in part).• The submission notes the relevant sections of the WRPS.		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.43		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.7 Objective – Character of towns		
Summary of Decision Requested	Retain Objective 4.1.7 Character of Towns except for the amendments sought below. AND Amend Objective 4.1.7 Character of Towns as follows: (a) <i>Development in the residential, village, industrial and business zones is attractive, connected and reflects the existing character <u>and historic heritage values</u> of towns.</i>		
Decision Reasons:	<ul style="list-style-type: none">• The submitter supports Objective 4.1.7 in part, as the policy does not reflect that many of the town contain important heritage items or have heritage precincts.• These heritage values need to be recognised at the time of development and would not be fully captured through the use of just the word "character" within this policy.• This policy needs to be amended to avoid adverse effects on heritage at the time of development.		

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.36		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.7 Objective – Character of towns		
Summary of Decision Requested	Amend Objective 4.1.7(a) Character of towns as follows: (a) <i>Development in the Residential, Village, Industrial and Business zones is attractive, connected and reflects the existing character of towns.</i>		
Decision Reasons:	<ul style="list-style-type: none">• The objective is worded in such a way that potentially is confusing for plan users.• The objective encourages development, however the statement requiring that it "reflects the existing character" is not analogous with development and growth.• Growth is not always possible to undertake without altering existing character.		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.538		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.7 Objective – Character of towns		

Summary of Decision Requested	Amend Objective 4.1.7 Character of Towns as follows: <i>Development in the Residential, Village, Industrial, <u>Industrial Heavy, Business Town Centre and Business</u> zones is attractive...</i>
Decision Reasons:	Provides additional clarification to the policy to ensure all relevant zones are considered.

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.34		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.7 Objective – Character of towns		
Summary of Decision Requested	Amend Objective 4.1.7-Character of Towns to provide better alignment with the associated policies OR Add to Section 4.1- Strategic Direction additional objectives that better support and align with matters covered by the associated policies, including that the existing residential and commercial character of the district's urban environments is to be maintained and enhanced by new growth and development.		
Decision Reasons:	<ul style="list-style-type: none"> Provisions are supported in part as they assist with giving effect to the Waikato Regional Policy Statement and the Future Proof Strategy in respect of seeking to ensure connectivity and integration between new and existing development, and high amenity values in urban areas. Reference to townships that are connected is particularly supported as this serves to contribute to strong health and wellbeing outcomes for communities. Is considered however that links to the WRPS and the Future Proof Strategy and other forms of guidance could be much stronger in order to manage the ongoing development of the district's townships. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.8 Policy – Integration and connectivity

Submitter Number:	198	Submitter:	Katherine Wilson
Organisation:	Property Council New Zealand		
Point Number	198.14		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.8 Policy – Integration and connectivity		
Summary of Decision Requested	Amend the Proposed District Plan to have a multi-pronged approach and strategically support building both up and out to ensure that the district is not limiting itself.		
Decision Reasons:	<ul style="list-style-type: none"> The overarching direction of focusing urban growth in existing urban communities that have capacity for expansion is limiting its future growth potential. To ensure that the district is not limiting itself. The submitter generally supports a staged infrastructure provision relating to developments outside of expanding city limits; they do not want to see overzealous limitations of urban development as this will likely result in a failure to meet future demand of housing, employment opportunities and a lack of required infrastructure. A more forward-thinking and strategic multi-pronged approach to development across Waikato is required. Supporting simultaneous nodes of development will ensure that future demand is met, and provides certainty to allow developers to plan beyond the 2063 growth predictions. 		
Point Number	198.2		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.8 Policy – Integration and connectivity		
Summary of Decision Requested	Retain the Proposed District Plan's approach to focus urban development and growth primarily into existing towns and villages near necessary infrastructure such as transport nodes.		
Decision Reasons:	<ul style="list-style-type: none"> Urban growth in the Waikato District is a fine balancing act between the need to foster and enhance growth to keep up with demand, and the need to protect its rich soils and landscapes. Tightening land control may deter investment resulting in developers believing Waikato is 'closed for business'. In contrast, no strategic plan and loose controls will have environmental impacts and may result in fragmented pocket communities. A carefully managed strategic plan is required to meet the regions interests and effectively plan for growth. It is important to ensure people live in or near cities with good transport options, to have access to economic and social opportunities. 		

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.6		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.8 Policy – Integration and connectivity		
Summary of Decision Requested	Retain Policy 4.1.8 Integration and Connectivity AND Add to Policy 4.1.8(iv) Integration and connectivity a new line that reads: <u><i>D. National Guidelines for Crime Prevention through Environmental Design in New Zealand.</i></u> AND Add a new appendix to Chapter 29 Appendices - the National Guidelines for Crime Prevention through Environmental Design in New Zealand.		
Decision Reasons:	<ul style="list-style-type: none"> To ensure that CPTED is an obligatory consideration and influence in the manner in which development occurs. In any subdivision design CPTED should be an obligatory consideration to ensure people are safe and feel safe and to prevent victimisations. 		

- It is inadequate for the CPTED guidelines to appear only as a reference document within an appendix. CPTED guidelines must be an obligatory consideration for any development, at present they are not and the current location and wording does not highlight their significance and importance to safety.
- At present, the National CPTED Guidelines referred to in Appendix 3.1 page 7 that is listed at 4.1.8(iv) A. The context is very light and the National CPTED Guidelines are only included as a reference document to provide further useful information in relation to subdivision design.
- This will ensure that Waikato District Council actively demonstrates the commitment that is signed up to as part of the New Zealand Urban Design Protocol voluntary agreement.

Submitter Number:	464	Submitter:	Perry Group Limited
Point Number	464.3		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.8 Policy – Integration and connectivity		
Summary of Decision Requested	<p>Add a new point (c) to Policy 4.1.8 Integration and connectivity, as follows:</p> <p><u>(c) Encourage greater connectivity and integration between commercial, industrial, and residential activities.</u></p> <p>AND</p> <p>Any consequential amendments or further relief to address the concerns raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • It will promote the sustainable management of resources. • It will achieve the purpose of the Resource Management Act 1991. • It is not contrary to Part 2 and other provisions of the Resource Management Act 1991. • Residential and Industrial can live suitably together to create a live, work, play lifestyle for Horotiu.

Decision Reasons:	<ul style="list-style-type: none"> • The Transport Agency supports Policy 4.1.8, including particularly clause (a)(i) as it supports transport choice and accessibility. • The Transport Agency's focus is on providing a connected land transport system that enables safe access to resilient, liveable communities. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.35		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.8 Policy – Integration and connectivity		
Summary of Decision Requested	Amend Policy 4.1.8- Integration and connectivity to provide more detailed guidance about the future urban outcomes (including residential, business and industrial uses) for the centres, particularly in relation to density, location of growth areas, the time and staging of new development and its integration with existing towns.		
Decision Reasons:	<ul style="list-style-type: none"> • Provisions are supported in part as they assist with giving effect to the Waikato Regional Policy Statement and the Future Proof Strategy in respect of seeking to ensure connectivity and integration between new and existing development, and high amenity values in urban areas. • Is considered however that links to the WRPS and the Future Proof Strategy and other forms of guidance could be much stronger in order to manage the ongoing development of the district's townships. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.13		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.8 Policy – Integration and connectivity		
Summary of Decision Requested	<p>Amend Policy 4.1.8 (a)(i)– Integration and connectivity as follows (or similar amendments to achieve the requested relief):</p> <p>(i) Providing good access to facilities and services by a range of transport modes through the provision of integrated networks of roads, rail, public transport, cycle, and pedestrian routes;</p>		

AND

Add a new clause (v) to Policy 4.1.8(a) Integration and connectivity as follows (or similar amendments to achieve the requested relief):

(v) Avoiding or managing reverse sensitivity effects on the strategic transport infrastructure networks

AND

Any consequential amendments to link and/or accommodate the requested changes.

Decision Reasons:

- Policy 4.1.3 (a) and (b) cover integration and connectivity issues. The railway network provides for freight transport which is an essential part of meeting the District's economic and social wellbeing. Rail should therefore be added to the policy.
- Urban development locating near land transport networks need to address reverse sensitivity effects on infrastructure which is largely dealt with in the Objectives and Policies in Chapter 6. However, given urban development needs to address certain restrictions relating to setbacks and acoustic protection across the Plan and not just in specific growth areas, there should be some mention of reverse sensitivity in this part of the Plan and in a 'location' policy topic. This higher tier policy would then apply to all the specific growth nodes which follow.
- Submissions are made to each of the nodes following 4.1.8 Policy – Integration and connectivity, in case this submission is not accepted. The purpose and principles of the Resource Management Act 1991 (the Act) are stated in Part 2. The rail network is a physical resource that needs to be sustainably managed through the Plan. Of specific relevance to the issue of safety (a key concern for KiwiRail), is that the Act seeks to enable people and communities to provide for their well-being and their health and safety. Section 7 of the Act identifies 'other matters' which need to be given particularly regard to in achieving the purpose of the Act. These include the efficient use and development of natural and physical resources.
- Part 2 of the Act also supports the efficient use and development of the rail network while also enabling people and communities to provide for their well-being and their health and safety. An appropriate balance needs to be achieved between ensuring the rail network is efficiently utilised and adjacent development can be facilitated, without compromising safety of people and communities.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.9 Policy – Maintaining Landscape Characteristics

Submitter Number:	368	Submitter:	Ian McAlley
Point Number	368.6		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.9 Policy – Maintaining Landscape Characteristics		
Summary of Decision Requested	Amend Policy 4.1.9(a) maintaining Landscape Characteristics, to recognise that subdivision and development processes on land zoned for a particular purpose will change the shape, contour and landscape characteristics of this land.		
Decision Reasons:	<ul style="list-style-type: none">• Policy 4.1.9(a) needs to be amended to recognise that subdivision and development processes on land zoned for a particular purpose will change the shape, contour and landscape characteristics of this land and to 'maintain' these characteristics may not be possible when integrating the engineering requirements of the development such as roading and/or development platforms.• Where land is not protected for its landscape or natural character attributes, it must be available for development in a manner that is efficient and achieves the desired urban form outcome.• The term "fundamental" is subjective and open to wide interpretation.		

Submitter Number:	862	Submitter:	Havelock Village Limited
Point Number	862.6		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.9 Policy – Maintaining Landscape Characteristics		
Summary of Decision Requested	Amend Policy 4.1.9 Maintaining Landscape Characteristics as follows: <i>(a) Where practicable, ensure that the fundamental shape, contour and landscape characteristics are maintained during subdivision and development or alternatively any adverse effects on these characteristics are mitigated.</i> OR If the above relief is not accepted, add site specific objectives and policies for Havelock Village, including a new Policy 4.2.20; AND Any consequential amendments or alternative relief to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none">• Supports the policy acknowledging the importance of the natural landscape characteristics, however the policy unduly constrains subdivision and development.• Some landscapes have the capacity to visually absorb any landscape or visual effects.• Natural landscape elements can help integrate and screen the presence of subdivision and development in the environment.• Some landscapes are not of a high quality which is predominantly due to previous degradation.• Subdivision or development can take place that affects the shape, contour and landscape characteristics but preserves the integrity of the landform whilst providing views and vistas form the landscape.		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.36		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.9 Policy – Maintaining Landscape Characteristics		
Summary of Decision Requested	Amend Policy 4.1.9- Maintaining Landscape Characteristics to provide more detailed guidance about the future urban outcomes (including residential, business and industrial uses) for the centres, particularly in relation to density, location of growth areas, the time and staging of new development and its integration with existing towns.		
Decision Reasons:	<ul style="list-style-type: none">• Provisions are supported in part as they assist with giving effect to the Waikato Regional Policy Statement and the Future Proof Strategy in respect of seeking to ensure connectivity and integration between new and existing development, and high amenity values in urban areas.• Is considered however that links to the WRPS and the Future Proof Strategy and other forms of guidance could be much stronger in order to manage the ongoing development of the district's townships.

Plan chapter

Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.10 Policy – Tuakau

Summary of Decision Requested

Amend Policy 4.1.10 Tuakau to reconsider the location of Tuakau residential growth, taking into account the viability of primary production activities in this location.

Specific regard should be given to:

- Topography
- Productivity
- Sustainability (specifically avoidance of soil pests and diseases, suitably consented irrigation water)
- Reverse sensitivity
- Economic viability

AND

Amend Policy 4.1.10 Tuakau to include farming activities and commercial vegetable production with regard to protection from the effects of reverse sensitivity.

Decision Reasons:

- The submitter supports the intention of this policy; however, consider that the area zoned residential to the north and northwest of Tuakau should be reconsidered, particularly with regard to protecting high-class soils.
- The area of rezoned residential land is currently largely market garden land located on high-class soils.
- With limited soils available for this land use and the Waikato Regional Council Healthy Rivers Plan Change 1 restricting a change in land use, it is unlikely that the activities will be able to move.
- Specific assessment should be undertaken with regard to factors that contribute to viable commercial vegetable production activities such as: topography, productivity, sustainability (specifically avoidance of soil pests and diseases; suitably consented irrigation water), reverse sensitivity, and economic viability.

Summary of Decision Requested

Amend Policy 4.1.10 (a)(ii) Tuakau, as follows:

(ii) ~~Existing intensive~~ Rural production activities including farming and intensive farming operations, and industrial activities are protected from the effects of reverse sensitivity by considering the location of new residential development; and...

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter is concerned at the focus of this policy. Consideration of reverse sensitivity effects created when new residential development occurs within an existing non-residential environment, should be applied much wider than to just intensive farming and industrial activities.
- Submitter considers that sensitive activities in rural areas can result in creating unreasonable expectations of the amenity of rural areas among people who are unaccustomed to rural environments. This would result in complaints about normal farming activities, and create unreasonable expectations that such effects to be avoided or mitigated in every instance, which would drive opposition to farming activity, making it even harder for farmers to be able to efficiently utilise the rural land resource for farming

Plan chapter

Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.10 Policy – Tuakau

Summary of Decision Requested

Amend Policy 4.1.10 Tuakau to include desired outcomes sought from the relevant Town Centre Character Statement (Appendix 10) if the policy matter is not already addressed, and emphasise residential intensification close to and around existing town centres and urban settlements.

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- The submitter generally supports the policies set out in 4.1.11-4.1.18.
- There are desired outcomes sought in each town and village with regard to development. These are identified in Appendix 10: Town Centre Character Statements in the Proposed District Plan.
- The submitter opposes the inclusion of Town Centre Character Statements in the Proposed District Plan, and seeks the deletion of all Town Centre Character Statements from the Proposed WDP (reasons outlined later in submission).
- Any desired outcomes sought from each town and village as currently shown in the Town Centre Character Statement should be written out into policies to the respective town centre and village in section 4.1.11-4.1.18, if the policy matter is not already listed or included. Emphasis should be placed on residential intensification close to and around existing centres and urban settlements.

Plan chapter

Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.10 Policy – Tuakau

Summary of Decision Requested

Amend Policy 4.1.10- Tuakau to provide more detailed guidance about the future urban outcomes (including residential, business and industrial uses) for the centres, particularly in relation to density, location of growth areas, the time and staging of new development and its integration with existing towns.

Decision Reasons:	<ul style="list-style-type: none"> Provisions are supported in part as they assist with giving effect to the Waikato Regional Policy Statement and the Future Proof Strategy in respect of seeking to ensure connectivity and integration between new and existing development, and high amenity values in urban areas. Is considered however that links to the WRPS and the Future Proof Strategy and other forms of guidance could be much stronger in order to manage the ongoing development of the district's townships.

On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.16		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.12 Policy - Te Kawwhata		
Summary of Decision Requested	<p>Add a new clause (vii) to Policy 4.1.12(b) Te Kawwhata as follows (or similar amendments to achieve the requested relief):</p> <p>(vii) Avoids or manages reverse sensitivity effects on strategic transport infrastructure networks.</p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail seeks specific recognition that reverse sensitivity effects (which includes those on the land transport network) are required to be addressed in Te Kawwhata. KiwiRail has recently canvassed reverse sensitivity issues with the developer in this area via Plan Change 20. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.13 Policy – Huntly

Submitter Number:	732	Submitter:	Lucy Smith
Organisation:	Terra Firma Mining Ltd		
Point Number	732.9		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.13 Policy – Huntly		
Summary of Decision Requested	<p>Amend Policy 4.1.13 (a)(iii) Huntly, as follows:</p> <p><i>4.1.13 Policy - Huntly</i></p> <p><i>(a) Huntly is developed to ensure:</i></p> <p>...</p> <p><i>(iii) Development is avoided on areas where the geotechnical risk, ecological risk and the risk from any other hazards cannot be appropriately managed or mitigated, with hazard, geotechnical and ecological constraints.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Notified sub-clause (a)(iii) does not recognise the distinction between hazard and risk or attempt to quantify what is an acceptable level of risk. It could therefore be interpreted to mean that any land in Huntly with a geotechnical issue, no matter how small, should not be developed. The policy should recognise that it is the geotechnical (or other) risk that must be managed or mitigated. The wording confuses hazard with risk. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.16		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.13 Policy – Huntly		
Summary of Decision Requested	<p>Retain Policy 4.1.13 Huntly, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 4.1.13(ii) Huntly as follows:</p> <p><i>Reverse sensitivity effects from strategic transport infrastructure networks on National Routes and Regional Arterials in accordance with Table 14.12.5.6 are avoided or minimised.</i></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the development of accessible, liveable and resilient communities, and therefore supports the intent of Policy 4.1.13. The submitter supports the intent of clause (ii), however reverse sensitivity refers to effects of a new sensitive land use on an already established land use such as a transport corridor as well as any human health effects. We also note that other external processes such as the Hamilton to Auckland Corridor Plan will influence the direction of development in this area. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
--------------------------	-----	-------------------	---------------------------------

Point Number	749.101
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.13 Policy – Huntly
Summary of Decision Requested	Amend Policy 4.1.13 Huntly to include desired outcomes sought from the relevant Town Centre Character Statement (Appendix 10) if the policy matter if not already addressed, and emphasise residential intensification close to and around existing town centres and urban settlements. AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally supports the policies set out in 4.1.11-4.1.18. Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.14 Policy – Taupiri		
Summary of Decision Requested	<p>Amend Policy 4.1.14 Taupiri to include desired outcomes sought from the relevant Town Centre Character Statement (Appendix 10) if the policy matter is not already addressed, and emphasise residential intensification close to and around existing town centres and urban settlements.</p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter generally supports the policies set out in 4.1.11-4.1.18. • There are desired outcomes sought in each town and village with regard to development. These are identified in Appendix 10: Town Centre Character Statements in the Proposed District Plan. • The submitter opposes the inclusion of Town Centre Character Statements in the Proposed District Plan, and seeks the deletion of all Town Centre Character Statements from the Proposed District Plan (reasons outlined later in submission). • Any desired outcomes sought from each town and village as currently shown in the Town Centre Character Statement should be written out into policies to the respective town centre and village in section 4.1.11-4.1.18, if the policy matter is not already listed or included. Emphasis should be placed on residential intensification close to and around existing centres and urban settlements. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.41		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.14 Policy – Taupiri		
Summary of Decision Requested	<p>Amend Policy 4.1.14- Taupiri to provide more detailed guidance about the future urban outcomes (including residential, business and industrial uses) for the centres, particularly in relation to density, location of growth areas, the time and staging of new development and its integration with existing towns.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Provisions are supported in part as they assist with giving effect to the Waikato Regional Policy Statement and the Future Proof Strategy in respect of seeking to ensure connectivity and integration between new and existing development, and high amenity values in urban areas. • Is considered however that links to the WRPS and the Future Proof Strategy and other forms of guidance could be much stronger in order to manage the ongoing development of the district's townships. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.18		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.14 Policy – Taupiri		
Summary of Decision Requested	<p>Add a new clause (v) to Policy 4.1.14 (a) Taupiri as follows (or similar amendments to achieve the requested relief):</p> <p>Reverse sensitivity effects on the strategic transport infrastructure networks are avoided or managed.</p> <p>OR</p> <p>Add a new clause (v) to Policy 4.1.8(a) Integration and connectivity as follows (or similar amendments to achieve the requested relief):</p> <p>(v) Avoiding or remedying reverse sensitivity effects on the strategic transport infrastructure networks</p> <p>so that this applies equally to all towns and growth nodes in Chapter 4</p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The North Island Main Trunk Line will continue to pass through Taupiri township. Growth can impact the line and any crossings or a greater of lesser degree depending upon location of new development and this should be added to the policy to enable development proposals to be assessed to achieve sustainable growth. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.15 Policy – Ngaruawahia

Submitter Number:	197	Submitter:	Jeska McHugh
Organisation:	NZ Pork		
Point Number	197.2		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.15 Policy – Ngaruawahia		
Summary of Decision Requested	Retain Policy 4.1.15 Ngaruawahia.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports a policy directive of avoidance of potential reverse sensitivity effects on existing intensive farming activities in Ngaruawahia. 		

Submitter Number:	445	Submitter:	Heather Perring
Organisation:	BTW Company		
Point Number	445.12		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.15 Policy – Ngaruawahia		
Summary of Decision Requested	<p>Amend Policy 4.1.15 Ngaruawahia, to provide more certainty for development of the growth cells on the likely timing of the shut down of the poultry farms and consider whether the 300m buffer (set out in Rule 16.4.7 RD1 (a)(iii)(A) is really necessary based on actual effects rather than rolling over a rule automatically from an older version of the plan.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Some of the growth cells (around Ngaruawahia and Horotiu) are subject to limitations given the existing intensive farming activities, major roads, servicing difficulties or archaeological sites. These limitations may therefore affect achievement of the growth targets. 		

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.38		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.15 Policy – Ngaruawahia		
Summary of Decision Requested	<p>Retain Policy 4.1.15 Ngaruawahia, except for the amendments sought below</p> <p>and</p> <p>Amend Policy 4.1.15(a)(iv) Ngaruawahia as follows:</p> <p><i>(iv) Future neighbourhood centres, roads, parks, pedestrian and cycle networks are developed in <u>general</u> accordance with the Ngaruawahia section of the Ngaruawahia, Hopuhopu, Taupiri, Horotiu, Te Kowhai & Glen Massey Structure Plan, <u>as well as in consideration of site specific natural and physical features:</u> and</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> As provided for in the applicable planning maps, residential growth to the north of the township, in the vicinity of Starr Road, represents a sensible approach given connectivity to transportation corridors, transport integration, and developable land integration with existing residential land use to the south. The land surrounding Starr Road is proposed to be zoned from Rural Zone to Residential Zone contains an area that has been used in the past for intensive farming activities. The intensive land use has not yet been discontinued and consequently will not be constrained under sub-clause (ii) of the policy. The flat developable nature of the land in and surrounding Starr Road will integrate with residential land use to the south west, and therefore represents an efficient zone change reflective of urban development demand for the township. The submitter disagrees with the proposed wording of clause (iv) as a demonstrable issue arises regarding overt design limitations being imposed on development from high level strategic plan mapping. An over-adherence to the high-level design outcomes as envisaged in the structure plan map will not represent sustainable management of natural and physical resources. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
--------------------------	-----	-------------------	----------------------------------

Point Number	680.54
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.15 Policy – Ngaruawahia
Summary of Decision Requested	<p>Amend Policy 4.1.15 (a) Ngaruawahia as follows:</p> <p>(a) Ngaruawahia is developed to ensure:</p> <p>(i) Existing intensive Rural production activities including farming and intensive farming operations and industrial activities are protected from the effects of reverse sensitivity when locating new residential development;...</p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>
Decision Reasons:	<ul style="list-style-type: none"> The submitter is concerned at the current focus of the Policy. The consideration of reverse sensitivity effects created when new residential development occurs within an existing non-residential environment should be applied much wider than to just intensive farming and industrial activities. The submitter considers that it could result in creating unreasonable expectations of the amenity of the area and perpetuate reverse sensitivity issues with people unaccustomed to the rural environment complaining about normal farming activities and expecting those effects to be avoided or mitigated in every instance.

Submitter Number:	693	Submitter:	Alstra (2012) Limited
Point Number	693.3		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.15 Policy – Ngaruawahia		
Summary of Decision Requested	Retain Policy 4.1.15 Ngaruawahia as notified, particularly Policy 4.1.15(a)(ii).		
Decision Reasons:	<ul style="list-style-type: none"> Alstra appreciates the Council's efforts to single them out for protection within this policy and believe that this provides a clear direction to potential developers of the new residential areas that these existing operations will be protected. Alstra appreciates that they are faced with a double-edged sword with this proposed approach to zoning in Ngaruawahia. Should this zoning be confirmed, Alstra will be able to realise the residential value of the property but are also faced with a potential increase in neighbours on small blocks creating reverse sensitivity effects. Alstra accepts this situation as inevitable given a growing Ngaruawahia and reiterate that with strong policy direction and implementation methods they can be adequately protection by this development, until such time as the intensive farms cease to exist. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation

Submitter Number:	464	Submitter:	Perry Group Limited
Point Number	464.4		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.16 Policy – Horotiu		
Summary of Decision Requested	<p>Amend Policy 4.1.16 Horotiu, as follows:</p> <p>(a) Horotiu is developed to ensure:</p> <p>(i) Future residential areas are connected to <u>or near</u> the existing village;</p> <p>(ii) Future residential development does not <u>minimises</u> impact on the existing local road network;</p> <p>(iii) <u>Future residential development acknowledges the benefits of Horotiu's proximity to Hamilton City;</u></p> <p>(iii) Effects on amenity from the strategic transport infrastructure are appropriately mitigated <u>Reverse sensitivity effects from the strategic transport infrastructure networks are avoided or minimised</u></p> <p>(iv) <u>The strategic industrial node is protected by having an acoustic overlay on neighbouring sensitive land uses while recognising the importance of current and future residential activities;</u></p> <p>(v) <u>Future roads, parks, pedestrian and cycle networks are developed in accordance with the Horotiu section of Ngaaruwahia, Hapuhopu, Taupiri, Horotiu, Te Kowhai and Glen Massey Structure Plan.</u></p> <p>AND</p> <p>Any consequential amendments or further relief to address the concerns raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> It will promote the sustainable management of resources. It will achieve the purpose of the Resource Management Act 1991. It is not contrary to Part 2 and other provisions of the Resource Management Act 1991. It will meet the reasonably foreseeable needs of future generations by enabling growth and further land for residential development at Horotiu and the wider District. It will enable the social, economic and cultural well-being of the Horotiu community. Horotiu is changing into a more urbanised village and so needs sufficient local centre amenities to service its population such as shops, and other services. Residential zoning at Horotiu is supported by links to Horotiu Village, the Horotiu Primary School and opportunities to align with the Te Awa Lakes Special Housing Area, which is on adjacent land. Horotiu can act as a gateway for a recreation hub that includes the Te Awa River Ride to Ngaruawahia, then onto Hakarimata Reserve and beyond. There is the opportunity to strengthen connections from Horotiu back other surrounding areas by cycle way, river and potentially train. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.18		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.16 Policy – Horotiu		
Summary of Decision Requested	<p>Amend Policy <u>4.1.16</u> Horotiu, to ensure that cross boundary impacts are included, particularly involving infrastructure, physical and social impacts on Hamilton;</p> <p>AND</p>		

Amend the relevant objectives and policies to ensure that land around existing industrial nodes is safeguarded for future industrial use.

AND

Any consequential amendments and/or additional relief required to address the matters raised in the submission.

Decision Reasons:

- The proposed zoning changes within Horotiu to accommodate additional residential development is opposed because the policy does not recognise Horotiu's location directly on the boundary with Hamilton. Instead, the focus is on connections with the existing village, avoiding impacts on the existing road networks and minimising or avoiding reverse sensitivity effects from strategic transport infrastructure that does not impact on the existing local road network.
- Horotiu is one of the strategic industrial nodes identified in the Waikato Regional Policy Statement and Future Proof and the Proposed Plan does not appear to provide for any additional industrial land supply. Recent work to satisfy the requirements of the National Policy Statement - Urban Development Capacity suggests that additional industrial land is needed in Waikato in the longer term and it may therefore be prudent to safeguard land for future industrial use around these industrial nodes.

Organisation:

New Zealand Transport Agency

Point Number

742.17

Plan chapter

Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.16 Policy – Horotiu

Summary of Decision Requested

Retain Policy 4.1.16 Horotiu, except for the amendments sought below

AND

Amend Policy 4.1.16 Horotiu as follows:

(a)(ii) ~~Future~~ Residential development does not impact on the safety and efficiency of the existing local road network;

(a)(iii) Reverse sensitivity effects ~~from the strategic transport infrastructure networks on National Routes and Regional Arterials in accordance with Table 14.12.5.5~~ are avoided or minimised;

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter supports the development of accessible, liveable and resilient communities.
- Policy 4.1.16 refers to 'future residential areas' and 'future residential development'. However, the planning maps do not appear to identify any future residential growth areas in, or near, Horotiu. It needs to be clarified where these future residential areas are and how they will be identified and developed.
- Any future residential growth areas in Horotiu should go through a structure plan process (and associated plan change).
- The submitter supports the intent of clause (a)(iii), however reverse sensitivity refers to effects of a new sensitive land use on an already established land use such as a transport corridor as well as any human health effects.

Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.16 Policy – Horotiu
Summary of Decision Requested	Amend Policy 4.1.16(a)(iii) Huntly as follows (or similar amendments to achieve the requested relief): (iii) Reverse sensitivity effects on/from the strategic transport infrastructure networks are avoided or managed; AND Any consequential amendments to link and/or accommodate the requested changes.
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail supports the specific recognition that reverse sensitivity effects (which includes those on the land transport network) are required to be addressed in Horotiu, but considers the wording needs to be amended to more accurately capture the concept of reverse sensitivity.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.17 Policy - Te Kowhai

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.19	Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.17 Policy - Te Kowhai
Summary of Decision Requested	Amend Policy 4.1.17 Te Kowhai, to ensure the type and quantum of growth at Te Kowhai is in accordance with the Waikato Regional Policy Statement and Future Proof and avoids effects on Hamilton. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter is concerned that the type and quantum of growth proposed for Te Kowhai is not in accordance with either Waikato Regional Policy Statement or Future Proof requirements. The impact of growth in this area has also not been considered with regards to potential impact on Hamilton's infrastructure, or how such effects would be mitigated. The policy is referring to residential development in the Village zoning, being with lower density (3000m² sections) serviced by on site non-reticulated wastewater, water and storm water networks, or higher density (1000m² sections) serviced by public reticulated networks. The policy also refers to the need to maintain open space character and rural landscape, while the village is still a key area of 'residential growth'. The policy, with its size requirements, reads more like a rule or implementation method. The quantum of potential development increases significantly from the existing plan and introduces a range of new areas including an Air Park subdivision, which were previously either zoned Rural or Country living. The submitter was not able to locate, within either in the Proposed Plan or the accompanying supporting information, what this quantum of new development could be. It would be helpful if Waikato District Council could supply data and its understanding as to how much growth will be provided for in this area, which would help us to better understand the impacts of the proposals. There is a mixed message created by the term 'residential growth', when in reality, the proposals appear to create a much bigger Country Living enclave on the outskirts of Hamilton is of concern to Hamilton City Council. Such large section sizes do not create the densities required for efficient, affordable and practical infrastructure such as reticulated networks or public transport. The lot sizes, even with the desire to control the location of future dwellings, will also not avoid issues with land fragmentation, should the area ever be fully urbanised in the future. The large increase in housing, has not been matched with a policy setting focused on place-making. The policy framework does not include mention of the need to consider cross-boundary effects, even though the village is very near the boundary with Hamilton. There is a significant difference between the subdivision rules, based on whether sites can or cannot be serviced with public infrastructure. It would therefore be helpful to understand what work has been done in terms of providing servicing solutions for 3-waters and what modelling and/or assessment has been undertaken to understand transport/traffic impacts of the two subdivision options. Such an analysis would provide better information as to how much subdivision can be expected in the area. 		

Submitter Number:	602	Submitter:	Greig Metcalfe
Point Number	602.35	Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.17 Policy - Te Kowhai
Summary of Decision Requested	Amend Policy 4.1.17(a) - Te Kowhai, as follows: <i>(a) The scale and density of residential development in Te Kowhai Village Zone achieves:</i> <i>(i) Lower density (3000m² sections-lots) where the development can be serviced by on-site non-reticulated wastewater, water and stormwater networks; or</i> <i>(ii) higher density (1000m² sections-lots) where the development can be serviced by public reticulated wastewater, water and stormwater networks;</i> AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> It is feasible for development in the Village Zone to be serviced by reticulation that is privately owned and managed (i.e. community scale) and therefore this policy should not be limited to publicly owned and managed infrastructure networks. The term "sections" is not defined and should be replaced by the defined term "lot".

Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan		
Summary of Decision Requested	<p>Amend Direction Policy 4.1.18 (iii)- Raglan as follows:</p> <p><i>Rangitahi is the only area that provides for the medium term future growth...</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Other districts (e.g. Queenstown Lakes District Council) require components of all developments to deliver a portion of affordable housing, however Waikato District Council does not. • Raglan has no affordable housing as part of their plan and the cost to buy a section is likely to exceed \$575,000. • Raglan median household income is calculated at \$47,500 and Stats NZ suggests affordability range for this income is \$323,000 (20% deposit), which is far below the lowest range of housing likely to be able to be constructed within Rangitahi development. • Retaining the word "only" will create a bias in affordability only attainable for household incomes above \$90,500. 		
Point Number	310.5		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan		
Summary of Decision Requested	<p>Amend Policy 4.1.18 (iii)- Raglan to read as follows:</p> <p><i>Rangitahi is the only area that will provides for the medium term future growth and is above the multiple median of affordability for Raglan. Developments that propose affordable housing to cater for the quartiles below the multiple median and that are developed in a manner that connects to the existing town and maintains and enhances the natural environment will be considered as preferred options for additional green fields development.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Will require a negotiated definition of 'affordable' and acceptance the 'multiple median' is the international standard by which housing affordability is determined. • Rangitahi has no affordable housing as part of their plan, therefore the cost to buy a section and build is likely to exceed \$575,000. • Raglan median household income is calculated at \$47,500 and Stats NZ suggests affordability range for this income is \$323,000 (20% deposit), which is far below the lowest range of housing likely to be able to be constructed within Rangitahi development. 		

Submitter Number:	326	Submitter:	Charlie Young
Organisation:	Raglan Chamber of Commerce		
Point Number	326.2		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan		
Summary of Decision Requested	<p>Amend Urban Environment Strategic Direction Policy 4.1.18(iii) Raglan, to remove the word "only" and allow other developments that support affordable development to occur by replacing with the following wording:</p> <p><i>Rangitahi will provide for medium term growth above the multiple median of affordability for Raglan. Developments that propose affordable housing to cater for the quartiles below the multiple median and that are developed in a manner that connects to the existing town and maintains and enhances the natural environment will be considered as preferred options for additional green fields development.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • This will require a negotiated definition of 'affordable' and acceptance that the 'multiple median' is the international standard by which housing affordability is determined. • Housing developments have a focus on providing good quality homes which meet the needs of individual communities at a cost that enables those at all income levels to afford a decent place to live are supported in the consent and development processes. • Clearly housing affordability throughout District needs to be supported. • Lack of affordable housing is having a severe impact on businesses trying to retain staff in communities. 		

- Other NZ District Councils have recognised housing crisis and have activated affordable housing policies and initiatives.
- Other districts, e.g. Queenstown Lakes District Council, require compulsory components of all developments to deliver a portion of affordable housing within the development, of which Waikato District Council currently doesn't.
- Rangitahi has no affordable housing as part of plan and cost to buy a section/build likely to exceed \$575,000.
- Raglan median household income is calculated at \$47,500 and Stats NZ's affordability range for this household income is \$323,000-\$387,000, far below the lowest range of housing able to be constructed within Rangitahi development.
- Retaining 'only' will create a bias in affordability only attainable for household income above \$90,500.
- Housing developments have a focus on providing good quality homes which meet the needs of individual communities at a cost that enables those at all income levels to afford a decent place to live are supported in the consent and development processes.
- Clearly housing affordability throughout District needs to be supported.
- Lack of affordable housing is having a severe impact on businesses trying to retain staff in communities.
- Other NZ District Councils have recognized housing crisis and have activated affordable housing policies and initiatives.

Submitter Number: 343 **Submitter:** Michael Briggs
On behalf of: Rangitahi Limited **Organisation:** Harrison Grierson Cosultants Limited

Point Number 343.2
Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan

Summary of Decision Requested **Retain** Policy 4.1.18 Raglan, except for the amendments sought below
 AND
Amend Policy 4.1.18 Raglan to include the medium to long future growth area.
 AND
Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.

Decision Reasons:

- Policy 4.1.18(a)(iii) confirms that the Rangitahi Structure Plan area is the only area that provides for the medium term future growth in Raglan.
- While there are some areas of Residential Zoned land around the Raglan township that are yet to be developed, the areas are relatively small in relation to the Rangitahi Structure Plan area.
- Given the strong demand that has been experienced for lots at Rangitahi, the submitter agrees that the Rangitahi Structure Plan area will only provide for short to medium growth and considers that a medium to long term future growth area also needs to be identified and planned for through the Proposed Plan.

Submitter Number: 435 **Submitter:** Jade Hyslop

Point Number 435.21
Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan

Summary of Decision Requested **Amend** Policy 4.1.18 Raglan, as follows:
 (a) *Raglan is developed to ensure*
 (i) *Infill and redevelopment of existing sites occurs, subject to development of a Structure Plan to identify where this can be done without loss of character, trees or other natural features.*
 (ii) *A variety of housing densities is provided for and adequate housing reserved for low cost rentals and purchases by permanent residents.*

Decision Reasons:

- There is a housing shortage in Raglan available to local people at affordable prices, not of buildings.
- Number of houses empty has risen to a third.
- Providing additional holiday homes will do nothing to solve the housing problem.
- Rangitahi will provide amply for foreseeable growth.
- It is planned to have good walking and cycling links within Rangitahi but no links to Raglan CBD, no ferry or bus service, thus need good car alternatives.
- Raglan CBD already has parking and congestion problems at peak times, never mind adding another 500 cars from Rangitahi.

Submitter Number: 499 **Submitter:** Adrian Morton

Point Number 499.1
Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan

Summary of Decision Requested **Amend** Policy 4.1.18 Raglan, to include the following (as a minimum):

- Consideration to Naturally Raglan documentation shall provide development guidance
- Development shall complement and maintain the Raglan's built form and character form that reflects its harbour setting and is compatible with Raglan's seaside village character.
- Protection of the coastal environment and character
- All residential development will utilise the Waikato Urban Design Guidelines Residential Subdivision'
- Town Development shall utilise the WDC Character statements – Raglan Town Centre as the minimum basis for any new buildings/development within the town
- Any development within the town centre (or overlay areas) shall be notified for public consultation
- The ongoing development of cycling and pedestrian facilities and links to the rural community
- Raglan is a place to work and live rather than a place of commuters

Decision Reasons:

- The policy for Raglan is totally inadequate and needs to be greatly expanded to ensure the character, amenity and aspirations of Raglan can be managed, maintained and achieved.
- Needs greater focus needs to be given to the vision and aspirations expressed by the community.
- The development and character assessment needs more work to define the character areas and the design guidelines/outcomes sought, in consultation with Raglan area residents.

Point Number 499.2
Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan

Summary of Decision Requested	Amend Policy 4.1.18 Raglan, to require housing for the elderly in all new developments and designate the former Lazarus village to prevent it being sold off and redeveloped.		
Decision Reasons:	<ul style="list-style-type: none"> • Supports WVED's submission that states that the former Lazarus village is on fairly level ground, and is well suited to house Raglan's elderly. • The former Lazarous village should be restored. Without protection there is the risk that it will be permanently lost. 		

Submitter Number:	553	Submitter:	Malibu Hamilton
Point Number	553.3		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan		
Summary of Decision Requested	Amend Policy 4.1.18(a)(iii) Raglan, as follows: <i>Rangitahi is the only area that provides for the medium term future growth and is developed in a manner that connects to the existing town and maintains and enhances the natural environment.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The policy is restrictive for other areas to be developed in residential zones. • Several infill sections available along with Lorezen Bay Structure Plan area will contribute to medium term growth. 		

Submitter Number:	658	Submitter:	Koning Family Trust and Martin Koning
Point Number	658.2		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan		
Summary of Decision Requested	Amend Policy 4.1.18(iii) Raglan, as follows: <i>(iii) Rangitahi and other areas around the Raglan urban area are the primary locations for the only area that provides for the medium term growth and is developed in a manner that connects to the existing town and maintains and enhances the natural environment.</i> AND Any further relief or amendments as necessary to support the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • This policy identifies that Rangitahi is the only area that is to provide for medium term growth in Raglan. • This policy is inconsistent with the broad direction set within the NPS - UDC which seeks to create competition in the land development market. • The NPS identifies that Councils must respond to projected development capacity information to ensure adequate development capacity is available in the short, medium and long term. • Where Council's are in identified high growth areas, demand projections must include a margin of at least an extra 20% in the short to medium terms and an extra 15% in the long term. • The Future Proof sub-region shows capacity to demand deficit in Raglan and Ngarunui Beach. • Considered inappropriate to restrict medium term growth to one location. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.541		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan		
Summary of Decision Requested	Amend Policy 4.1.18 Raglan as follows: <i>There are walkable connections between the town centre, the Papahua Reserve and Raglan Wharf.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The policy is not clear as to what form the connections sought are. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.106		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan		
Summary of Decision Requested	Amend Policy 4.1.18 Raglan to include desired outcomes sought from the relevant Town Centre Character Statement (Appendix 10) if the policy matter is not already addressed, and emphasise residential intensification close to and around existing town centres and urban settlements. AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter generally supports the policies set out in 4.1.11-4.1.18. • There are desired outcomes sought in each town and village with regard to development. These are identified in Appendix 10: Town Centre Character Statements in the Proposed District Plan. • The submitter opposes the inclusion of Town Centre Character Statements in the Proposed District Plan, and seeks the deletion of all Town Centre Character Statements from the Proposed District Plan (reasons outlined later in submission). • Any desired outcomes sought from each town and village as currently shown in the Town Centre Character Statement should be written out into policies to the respective town centre and village in section 4.1.11-4.1.18, if the policy matter is not already listed or included. Emphasis should be placed on residential intensification close to and around existing centres and urban settlements. 		

Submitter Number:	757	Submitter:	Karen White
--------------------------	-----	-------------------	-------------

Point Number	757.1
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan
Summary of Decision Requested	<p>Amend Policy 4.1.8 Raglan to include the following as a minimum:</p> <ul style="list-style-type: none"> • Consideration to Naturally Raglan documentation shall provide development guidance. • Development shall complement and maintain Raglans built form and character that reflects its harbor setting and is compatible with Raglans seaside village character. • Protection of the coastal environment and character. • All residential development to utilise the Waikato Urban Design Guidelines "Residential Subdivision". • Town Development shall utilize the WDC Character statements - Raglan Town Centre as the minimum basis for any new buildings/development within the town. • Any development within the town centre (or overlay areas) shall be notified for public consultation. • The ongoing development of cycling and pedestrian facilities and links to the rural community. • Raglan is a place to work and live rather a place of commuters.
Decision Reasons:	<ul style="list-style-type: none"> • Policy 4.1.8 is totally inadequate. • Needs to be expanded to ensure the character, amenity and aspirations of Raglan can be managed, maintained and achieved. • Greater focus must be given to vision and aspirations expressed by community, particularly with WDC's support of developing Raglan Naturally and since WDC recently consented the appalling development of 11 apartments on corner of Wainui Rd/Stewart Street. • Although the 2005 development/character assessment has been re-vitalized into WDC Raglan Character Statement (2018), it needs considerable more work to define character areas and expand on the design guidelines/outcomes sought, which must be done in consultation with Raglan area residents.

Submitter Number:	780	Submitter:	John Lawson (Whaingaroa Environmental Defence Incorpora
On behalf of:	Whaingaroa Environmental Defence Incorporated Society		
Point Number	780.17		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan		
Summary of Decision Requested	<p>Amend Policy 4.1.18 Raglan, as follows:</p> <p>(a) <i>Raglan is developed to ensure:</i></p> <p>(i) <i>Infill and redevelopment of existing sites occurs, <u>subject to development of a Structure Plan to identify where this can be done without loss of character, trees, or other natural features.</u></i></p> <p>(ii) <i>A variety of housing densities is provided for <u>and adequate housing reserved for low cost rentals and purchases by permanent residents:</u></i></p> <p>(iii) <i>Rangitahi is the only area that provides for the medium term future growth and is developed in a manner that connects <u>has cycle, footway and public transport connections</u> to the existing town and maintains and enhances the natural environment; and</i></p> <p>(iv) <i>There are <u>good quality cycle, footway and public transport</u> connections between the town centre, the Papahua Reserve and Raglan Wharf.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • 2009 Raglan Structure Plan Issues and Options report said: "In simple terms the existing District Plan already zones enough land in the immediate Raglan area to provide for around 1.6 times the amount of land that will be needed up to 2061." • Rangitahi development will add 500 houses. • There is a lack of detailed population figures but it is apparent that Raglan needs infill and redevelopment. Without the detailed analysis of sites, it is likely that some would lose their character, trees and other features. Opposes Policy unless sites are differentiated. • There is a housing shortage in Raglan, but the shortage is for housing available to local people at affordable prices. Providing more holiday homes will not solve housing problem. • Rangitahi will provide for future growth and will have good walking and cycle links within it, but not to the CBD and no ferry/bus service. CBD has parking and congestion issues at peak times without adding cars from Rangitahi. Therefore good alternatives to cars are needed. • Papahua Reserve and Raglan Wharf need to account for 4.1.12 (b)(v) "particularly walking and cycling" provision, along with the proposal in Raglan Naturally to provide for a free shuttle. 		

Submitter Number:	788	Submitter:	Susan Hall
Point Number	788.12		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan		
Summary of Decision Requested	<p>Amend Policy 4.1.18 Raglan, as follows:</p> <p>(a) <i>Raglan is developed to ensure:</i></p> <p>(i) <i>Infill and redevelopment of existing sites occurs, <u>subject to development of a Structure Plan to identify where this can be done without loss of character, trees, or other natural features.</u></i></p> <p>(ii) <i>A variety of housing densities is provided for <u>and adequate housing reserved for low cost rentals and purchases by permanent residents:</u></i></p> <p>(iii) <i>Rangitahi is the only area that provides for the medium term future growth and is developed in a manner that connects <u>has cycle, footway and public transport connections</u> to the existing town and maintains and enhances the natural environment; and</i></p> <p>(iv) <i>There are <u>good quality cycle, footway and public transport</u> connections between the town centre, the Papahua Reserve and Raglan Wharf.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • There is a housing shortage in Raglan, but that is a shortage of housing available to local people at affordable prices, not of buildings. About a quarter of houses were empty at the 2006 census and that had risen to a third at the 2013 census. • Providing additional holiday homes will do nothing to solve the housing problem. • Rangitahi will provide amply for foreseeable growth. Currently it is planned to have good walking and cycling links within Rangitahi, but no such links to Raglan CBD. Raglan CBD already has parking and congestion problems at peak times, without adding another 500 cars from Rangitahi. Therefore, good alternatives to cars need to be provided. • The submitter bikes from home to work, however feels very unsafe on the roads. 		

- This policy needs to take account of Policy 4.1.12 (b) (v), "particularly walking and cycling" provision, especially for the connections between the town centre, the Papahua Reserve, and the beaches, and Raglan Wharf.
- This policy needs to take account Raglan Naturally's 2001 proposal "to provide a free shuttle service between the central business area and the beaches e.g. a free, council supported electric bus to run on the hour to the beach and back to town centre.
- Parking at the beach is overflowing out onto Wainui Road now in summer, as it has reached maximum capacity.

On behalf of:	Raglan Naturally		
Point Number	831.40		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan		
Summary of Decision Requested	<p>Amend Policy 4.1.18 Raglan to read as follows:</p>		

(a) Raglan is developed to ensure:

(i) Infill and redevelopment of existing sites occurs, subject to development of a Structure Plan to identify where this can be done without loss of character, trees, or other natural features;

(ii) A variety of housing densities is provided for and adequate housing reserved for low cost rentals and purchases by permanent residents;

(iii) Rangitahi is the only area that provides for the medium term future growth and is developed in a manner that has cycle, footway and public transport connections to the existing towns and maintains and enhances the natural environment; and

(iv) There are good quality cycle, footway and public transport connections between the town centre, the Papahua Reserve and Raglan Wharf.

(v) That Raglan is limited in size to walking distance.

Decision Reasons:

- Supports the submission by the Whaingaroa Raglan Affordable Housing Project.
- The 2009 Raglan Structure Plan Issues and Options report said that "In simple terms the existing District Plan already zones enough land in the immediate Raglan area to provide for around 1.6 times the amount of land that will be needed up to 2061."
- In the absence of detailed population figures, it is not apparent that Raglan needs infill and redevelopment.
- Without a detailed analysis of sites it is likely that some would lose their character, trees and other features.
- Raglan Naturally opposes the policy unless the sites are differentiated.
- There is a housing shortage in Raglan, but that is a shortage of housing available to local people at affordable prices. About a quarter of the houses were empty at the 2008 census and that has risen to a third at the 2013 census.
- Rangitahi will provide amply for foreseeable growth, however good alternatives to cars need to be provided.
- Connections between the town centre, Papahua Reserve and Raglan Wharf needs to replicate what is sought within Policy 4.1.12(b)(v) Te Kawhata.
- Limiting the size of the township for walking distance is a new suggestion, but could limit extra car use.

Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan

Summary of Decision Requested

Provide plans showing potential infill areas and statistics to justify redevelopment or infilling is necessary in the context of Policy 4.1.18(a)(i) Raglan.

Decision Reasons:

- The submitter opposes infill and redevelopment until such areas are identified on planning maps.
- Development such as apartment dwellings in wrong locations may impact on wildlife, character of place, cultural and natural environment.

Point Number

942.19

Plan chapter

Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan

Summary of Decision Requested

Retain Policy 4.1.18(iv) Raglan

Decision Reasons:

- The submitter acknowledges that connections are already happening.
- The three bridges connecting Nihinihi, Papahua and Te Kopua at Raglan West with the township and is a popular walk with locals and visitors.

Point Number

942.20

Plan chapter

Section B Objectives and Policies > Chapter 4: Urban Environment > 4.1 Strategic Direction > 4.1.18 Policy – Raglan

Summary of Decision Requested

Add a new clause to Policy 4.1.18 Raglan as follows:

(v) Roads, parks, pedestrian and cycle networks are developed as part of subdivision development contributions.

Decision Reasons:

- Although Raglan is a town that has the Karioi classic event, a mountain bike park and a high percentage of electric bike users, there is no reference in the Raglan section to cycling or walking.

Point Number	326.3		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone		
Summary of Decision Requested	Add a new policy and objective to Section 4.2 Residential Zone, as follows (or similar wording): <u>Objective: To provide for a range of opportunities for affordable housing that enables low and moderate income people to live in the district in accommodation that suits their needs.</u> <u>Policy 1: Enable affordable housing by allowing residential densities that make economical and best use of available land in existing residential areas.</u> <u>Policy 2: New housing development will include affordable housing as part of the development plan.</u> <u>Policy 3: Allow access for developers of affordable housing to lower cost structure of consent and regulation requirements.</u> <u>Policy 4: Encourage multi-unit residential developments subject to appropriate safeguards to amenities and the environment.</u> <u>Policy 5: Take into account the positive effects for the community of affordable housing when assessing resource consent applications.</u>		
Decision Reasons:	<ul style="list-style-type: none"> Affordability of housing should be enabled by the objectives and Rules of the District Plan. Housing developments have a focus on providing good quality homes which meet the needs of individual communities at a cost that enables those at all income levels to afford a decent place to live are supported in the consent and development processes. Clearly housing affordability throughout District needs to be supported. Lack of affordable housing is having a severe impact on businesses trying to retain staff in communities. Other NZ District Councils have recognized housing crisis and have activated affordable housing policies and initiatives. Policies need to be incorporated into the district plan.

Organisation:	Mercer Residents and Ratepayers Committee		
Point Number	367.1		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone		
Summary of Decision Requested	Retain Section 4.2 Residential Zone.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.66		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone		
Summary of Decision Requested	Add a new objective to Section 4.2 Residential Zone, as follows: <u>Objective 4.2.2(g)</u> <i>To recognise and provide for non-residential activities that contribute to the health, safety and wellbeing of the community while managing their potential adverse effects to ensure that the activities complement the amenity values of the District's residential areas.</i>		
	AND		
	Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The provisions for non-residential activities in the Residential Zone focus on the management of effects rather than the opportunities of the activity. Emergency services have a functional and operational need to be located in close proximity to the communities they serve. This objective will better achieve the purpose of the RMA by providing for the health and safety of people and communities. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.107		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone		
Summary of Decision Requested	Add a new chapter with Objectives and Policies for a "Medium Density Residential Zone" into the Proposed District Plan, as outlined in Attachment 2 to the submission.		
	AND		
	Amend the Proposed District Plan to provide for consequential changes or further amendments required to give effect, and reference, the new residential zone. The submitter provides the example that wherever the Residential and Village Zones are referenced or compact urban form or medium to higher density residential living, the new residential zone 'Medium Density Residential Zone' will need to be referenced and included (where applicable and appropriate).		
	AND		
	Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> The amalgamation of former residential zones under the Waikato and Franklin sections of the Operative Waikato District Plan into one 'Residential Zone' does not alone enable residential intensification and housing options close to and within existing town centres and urban settlements. The provisions of the residential zones do not sufficiently encourage housing choices that are necessary to support the social and economic demands of the Waikato District. The two proposed residential zones – Residential Zone and Village Zone – do not encourage sufficient housing choice and variety in residential built form to support changing demographics, lifestyles, rising housing costs, future housing demands and population growth in the Waikato District. There is no differentiation in height, bulk and density controls for residential activities in the Residential and Village zones. To this end, Housing New Zealand proposes an additional new Residential Zone 'Medium Density Residential Zone' is introduced into the District Plan around key centres and urban settlements. The proposed new zone will enable apartment, terrace housing and multi-unit developments close to and around centres. This will support economic and residential growth in and close to town centres and settlements, and will provide certainty to landowners, developers and service providers for long-term investment decisions. All of which will improve the health and well-being of the wider community. 		
Point Number	749.108		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone		
Summary of Decision Requested	Amend the Objectives and Policies in Section 4.2 - Residential Zone to clearly state the outcome sought.		
	AND		
	Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally opposes the objectives and policies of the 'Residential Zone' as notified. A lot of the objectives and policies read as an assessment criterion. Objectives and policies need to clearly state the outcome sought 		

Submitter Number:	822	Submitter:	Bob MacLeod
Point Number	822.5		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone		
Summary of Decision Requested	Add a new objective and policies to Section 4.2 Residential Zone, as follows: <u>Objective: To provide for a range of opportunities for affordable housing that enables low and moderate income people to live in the district in accommodation that suits their needs.</u>		

Policies:

- 1) Enable affordable housing by allowing residential densities that make economical and best use of available land in existing residential areas.
- 2) New housing developments will include affordable housing as part of the development plan.
- 3) Allow access for developers of affordable housing to lower cost structure of consent and regulation requirements.
- 4) Encourage multi-unit residential developments subject to appropriate safeguards to amenities and the environment.
- 5) Take into account the positive effects for the community of affordable housing when assessing resource consent applications.

Decision Reasons:

- Affordability of housing should be enabled by the objectives and rules of the district plan.
- Submission makes reference to the Raglan Housing study 2018 and Whaingaroa/Raglan Affordable Housing Project.

Plan chapter

Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone

Summary of Decision Requested

Add objectives and policies to Section 4.2 Residential Zone, as follows:

Objective: To provide for a range of opportunities for affordable housing that enables low and moderate income people to live in the district in accommodation that suits their needs.

Policy 1: enable affordable housing by allowing residential densities that make economical and best use of available land in existing residential areas.

Policy 2: new housing developments will include affordable housing as part of the development plan.

Policy 3: allow access for developers of affordable housing to lower cost structure of consent and regulation requirements.

Policy 4: encourage multi-unit residential developments subject to appropriate safeguards to amenities and the environment.

Policy 5: take into account the positive effects for the community of affordable housing when assessing resource consent applications.

Decision Reasons:

- Affordability of housing should be enabled by the objectives and rules of the plan.

862

Submitter:

Havelock Village Limited

Point Number

862.10

Plan chapter

Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone

Summary of Decision Requested

Add a new policy within section 4.2 Residential Zone (after Policy 4.2.19), as follows (See Appendix E and N of the submission for the Master Plan and Precinct Plans):

4.2.20 Policy – Havelock Village

Development of Havelock Village shall occur, generally in accordance with the Havelock Village Masterplan and Precinct Plans. This includes a mixture of lot sizes and areas to be protected and set aside to protect significant landscape and ecological values.

AND

Any consequential amendments or alternative relief to give effect to the matters raised in the submission.

Decision Reasons:

- It is appropriate to include a policy which specifically provides for the Havelock Village Masterplan and Precinct Plan.

Point Number

862.11

Plan chapter

Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone

Summary of Decision Requested

Retain Objective 4.2.20 Maintain residential purpose.

Decision Reasons:

- Supports safeguarding the residential purpose of residential areas.
- Non-residential activities have the potential to adversely affect the residential character and amenity values of a residential areas.
- Therefore, the presence of non-residential activities should be limited.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.1 Objective – Residential Character

Plan chapter

Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.1 Objective – Residential Character

Summary of Decision Requested

Retain Objective 4.2.1 Residential Character as notified

Decision Reasons:

Supports this objective as an appropriate unambiguous high-level statement in the Proposed Waikato District Plan regarding development within residential areas and provides a suitable policy context.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.2 Policy – Character

Submitter Number:

368

Submitter:

Ian McAlley

Point Number	368.11
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.2 Policy – Character
Summary of Decision Requested	Delete Policy 4.2.2 Character OR Amend the Proposed District Plan to identify the view points from public spaces and extent of views to be retained.
Decision Reasons:	<ul style="list-style-type: none"> Character is vague as to its application, to require roads to follow natural contours could potentially be contradictory to the applicable engineering standards and therefore limit the safety and/or multi modal transport efficiency of a development. Further, requiring the promotion of views and vistas from public spaces to the hinterland beyond is uncertain unless the view points have been identified in the District Plan and the extent of views to be retained is also identified. Unless this certainty can be provided these Policies should be deleted.

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.41		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.2 Policy – Character		
Summary of Decision Requested	Retain Policy 4.2.2 Character.		
Decision Reasons:	<ul style="list-style-type: none"> Notes that this policy does not align with several other policies proposed by Council as they relate to structure plans e.g. Policy 4.1.15 and 4.1.14. Acknowledges that urban growth needs to be considered in the context of a strategic plan, however an appropriate level of flexibility is needed in structure plans to allow for on-site variables that may not be provided for in the structure plan. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.3 Objective – Residential built form and amenity

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.9		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.3 Objective – Residential built form and amenity		
Summary of Decision Requested	Retain Objective 4.2.3 Residential built form and amenity as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The ensure that there is an obligation to consider safety, reducing victimisation, making people safe and feel safe. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.45		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.3 Objective – Residential built form and amenity		
Summary of Decision Requested	Amend Objective 4.2.3 (a)-Residential built form and amenity as follows: <i>(a) Maintain neighbourhood residential amenity values, <u>promote urban design protocols (Appendix 3.3)</u>, and facilitate safety in the Residential Zone.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Objective 4.2.3 in principle but requests that it include promotion of the urban design protocols and guidelines as reference in Appendix 3.3- Town Centre Guidelines, to optimize health and wellbeing outcomes for all residents. The purpose of the principles is to guide the design of environments, products and communications and describe the concepts of designing all products and the built environment to be aesthetic and usable to the greatest extent possible by everyone, regardless of age, disability or status. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.4 Policy – Front setback

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.10		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.4 Policy – Front setback		
Summary of Decision Requested	Amend Policy 4.2.4(a)(iii) Front setback as follows: <i>Providing for passive surveillance to roads, avoiding windowless walls to the street <u>and conforming to national guidelines for CPTED principles.</u></i>		
Decision Reasons:	<ul style="list-style-type: none"> To ensure that there is an obligation to consider national guidelines for CPTED, reducing victimisation, making people safe and feel safe. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.5 Policy – Setback: Side boundaries

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.42		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.5 Policy – Setback: Side boundaries		
Summary of Decision Requested	<p>Retain Policy 4.2.5 Setback: Side boundaries, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 4.2.5(b) Setback: Side boundaries as follows:</p> <p>(b) <i>Reduced side boundary setbacks occur only generally, where it:</i></p> <p>(i)...</p> <p>(ii) <i>Retains trees on the site; or</i></p> <p>(iii) <i>Written approval for the encroachment has been provided by the abutting landowner.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Support in part as the policy provides a degree of flexibility in regard to side yard performance standards in the Residential Zone. • A further clause should be included to recognise the written approvals from affected parties, such as neighbouring landowners. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.13		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.5 Policy – Setback: Side boundaries		
Summary of Decision Requested	<p>Add a new clause (iv) to Policy 4.2.5(a) Setback: Side boundaries as follows:</p> <p><i>(iv) For property and building maintenance.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		
Point Number	695.14		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.5 Policy – Setback: Side boundaries		
Summary of Decision Requested	Delete Policy 4.2.5(b)(i) and (ii) Setback - Side boundaries.		
Decision Reasons:	<ul style="list-style-type: none"> • It is too restrictive. • There are other reasons for reduced side yard setback, such as the presence of infrastructure. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.71		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.5 Policy – Setback: Side boundaries		
Summary of Decision Requested	<p>Amend Policy 4.2.5 – Setback: Side boundaries as follows (or similar amendments to achieve the requested relief):</p> <p>4.2.5 Policy – Setback: Side boundaries</p> <p>(a) Require development to have sufficient side boundary setbacks to provide for:</p> <p>...</p> <p>(c) Manage Reverse sensitivity by providing sufficient setbacks buildings to provide for residents' safety and amenity.</p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The policies applying to each zone requiring setbacks from the railway corridor should include reference to the purpose of the setback. • Existing and sought changes to the Plans objectives lend sufficient support the need for setbacks for amenity and safety, and the efficient integration of development and infrastructure. • Adding an additional item to these plan sections will also facilitate assessment of situations where the proposed 5 metre Building setback - railway corridor rule cannot be met, or it is inappropriate to require compliance. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.7 Policy – Site Coverage and Permeable Surfaces

Submitter Number:	435	Submitter:	Jade Hyslop
Point Number	435.20		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.7 Policy – Site Coverage and Permeable Surfaces		
Summary of Decision Requested	<p>Add rules for each catchment to Section C Rules to support the following:</p> <ul style="list-style-type: none"> • Onsite storm water disposal; • Sufficient capacity to enable disposal of storm water; • Best practice low impact design; • On-site treatment; 		

- Minimises impervious surfaces;
- Retains pre-development hydrological conditions;
- Not increase the flow of storm water runoff;
- Not reduce storage capacity on-site; and
- Storm water catchment management plan.
- Promotes clean water reuse and groundwater recharge.

AND

Amend Section C Rules to provide individual limits to suit each catchment rather than permitting up to 70% impermeable cover everywhere.

Decision Reasons:

- Oppose Policies 4.2.7 and 6.4.7 as the only rules implementing them in Raglan are discretionary and ill-defined.
- No scientific storm water plan for Raglan completed, though a settling pond at AroAro was designed in 2011 as a filtration wetland for the storm water.
- Pollutants such as copper are at or near their limits and 70% impermeable.
- Application of Rule 14.11.1.2 RD2 discretion without scientific evidence will make pollution even worse.

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.15		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.7 Policy – Site Coverage and Permeable Surfaces		
Summary of Decision Requested	Amend Policy 4.2.7(b) Site Coverage and Permeable Surfaces to remove the words "lawns and gardens."		
Decision Reasons:	<ul style="list-style-type: none"> • It is solely the right of a land owner to decide if they want lawns and gardens or not on their property and not be directed by Council Planners that they must have this. • Council will not maintain the lawn and garden for owners. • The key requirement of the permeable surface is that it is required to comply. 		

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		
Point Number	831.13		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.7 Policy – Site Coverage and Permeable Surfaces		
Summary of Decision Requested	Add rules that support Policy 4.2.7 Site Coverage and Permeable Surfaces.		
Decision Reasons:	<ul style="list-style-type: none"> • Supports having sufficient open space to provide for landscaping, on-site stormwater disposal in the Residential Zone, but objects that they do not appear to have any corresponding rules, except for Te Kowhai Airpark Zone Rule 27.3.3. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.8 Policy – Excessive building scale

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.1		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.8 Policy – Excessive building scale		
Summary of Decision Requested	Amend Policy 4.2.8 Excessive building scale by changing the heading as follows: <i>Policy - Excessive - Building Scale</i> AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the intent of the policy, however, does not agree the word 'excessive' needs to be included. • The policy should focus on building scale and should not be qualified in terms of scale and size. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.10 Policy – Daylight and outlook

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.11		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.10 Policy – Daylight and outlook		
Summary of Decision Requested	Amend Policy 4.2.10(c) Daylight and outlook as follows: <i>Maintain and enhance attractive open space character of residential areas by ensuring that development is compatible in scale to surrounding activities and structures and has generous on-site landscaping, screening and street planting, <u>conforming to the national guidelines for CPTED.</u></i>		
Decision Reasons:	<ul style="list-style-type: none"> • To ensure that there is an obligation to consider national guidelines for CPTED, reducing victimisation, making people safe and feel safe. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
--------------------------	-----	-------------------	------------------------------

Point Number	695.16
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.10 Policy – Daylight and outlook
Summary of Decision Requested	Amend Policy 4.2.10(a) Daylight and outlook as follows: <i>Maintain adequate daylight, and enable opportunities for passive solar gain by providing for the progressive reduction in the heights of buildings.</i> AND Consider adding a link to a rule or a source for context for Policy 4.2.10(a) Daylight and outlook.
Decision Reasons:	<ul style="list-style-type: none"> • The phrase has no context and is meaningless. • The reduction of the height of buildings on a flat site could lead to less exposure to sunlight. • There are other means of providing solar access.
Point Number	695.17
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.10 Policy – Daylight and outlook
Summary of Decision Requested	Amend Policy 4.2.10(b) Daylight and outlook as follows: <i>Require the height, bulk and location of development to maintain sunlight access and privacy, and to minimise <u>non-compliant</u> visual dominance effects on adjoining sites <u>where they are demonstrated to the satisfaction of council that they cannot be reasonably avoided due to constraints such as steep topography in relation to effects of works and costs.</u></i>
Decision Reasons:	<ul style="list-style-type: none"> • Visual dominance can only occur through a non-compliance or an effect greater than a permitted activity equivalent comparison.
Point Number	695.18
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.10 Policy – Daylight and outlook
Summary of Decision Requested	Amend Policy 4.2.10(c) Daylight and outlook as follows: <i>Maintain and enhance attractive open space character of residential areas by ensuring that development is compatible in scale to surrounding activities and structures and has generous <u>compliant</u> on-site landscaping, screening and street planting, <u>as set out in design guide xyz as stated as being applicable to the proposal in that design guide.</u></i>
Decision Reasons:	<ul style="list-style-type: none"> • The term "generous" is too open ended and has no context or reference. • Council would have to develop a design guide to source will assist applicants with a specific requirements they are to achieve. • Open-ended uncertainty frustrates applicants and leads to delays ad costs from arguments with Council Planners as to what represents a satisfactory outcome.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.12 Policy – Outdoor living court – Multi- unit development

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.12		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.12 Policy – Outdoor living court – Multi- unit development		
Summary of Decision Requested	Amend Policy 4.2.12(a) Outdoor Living Court Multi-unit development as follows: <i>Enable multi-unit development to provide usable, <u>safe</u> and accessible outdoor living courts in alternative ways...</i>		
Decision Reasons:	<ul style="list-style-type: none"> • To ensure that there is an obligation to consider national guidelines for CPTED, reducing victimisation, making people safe and feel safe. 		

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.43		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.12 Policy – Outdoor living court – Multi- unit development		
Summary of Decision Requested	Retain Policy 4.2.12 Outdoor living court - Multi-unit development, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • It provides for flexibility in development through urban design. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.2		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.12 Policy – Outdoor living court – Multi- unit development		
Summary of Decision Requested	Delete Policy 4.2.12 Outdoor living court – Multi- unit development. AND Amend Policy 4.2.18(a) - Multi unit Development as follows: <i>Ensure multi-unit residential subdivision and development is designed in a way that:</i> i. <i>provides a range of housing types;</i> ii. Addresses and <i>Integrates with adjacent residential development, town centres and public open space;</i> iii. Addresses <i>Manages and responds to the constraints of the site, including topography <u>topography</u>, natural features and heritage values;</i> iv. <i>Provides usable and accessible outdoor living courts that maximises light access, functionality and privacy;</i> v. <i>Supports an integrated transport network, including walking and cycling connections to public open space network;</i> vi. Maintains the amenity values of neighbouring sites.		

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- There is an existing policy proposed on Multi-unit development (Policy 4.2.18)
- There is no need to differentiate and create a separate policy on outdoor living court related to multi-unit development. It is best the policy words are added into 4.2.18(a).

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.13 Policy – Outdoor living court – Retirement villages

Submitter Number: 297 **Submitter:** Dave Glossop

Organisation: Counties Manukau Police

Point Number 297.13

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.13 Policy – Outdoor living court – Retirement villages

Summary of Decision Requested **Amend** Policy 4.2.13(a) Outdoor living court – Retirement villages as follows:
Require outdoor living courts or communal outdoor living courts to be usable, ~~and~~ accessible and safe (conforming to the national guidelines for CPTED).

Decision Reasons:

- To ensure that there is an obligation to consider national guidelines for CPTED, reducing victimisation, making people safe and feel safe.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.14 Objective – Earthworks

Submitter Number: 368 **Submitter:** Ian McAlley

Point Number 368.7

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.14 Objective – Earthworks

Summary of Decision Requested **Amend** Objective 4.2.14 – Earthworks, to read as follows;
Earthworks facilitate efficient subdivision, use and development.

Decision Reasons:

- Every effort should be made to integrate the significant majority of the earthworks required for the development of individual house lots with the overall bulk subdivision earthworks. This significantly reduces the requirement for secondary earthworks and reduces both on-site and off-site effects related to erosion, sediment, dust and noise from machinery.
- Designing and undertaking of earthworks as a 'cut to fill balance' significantly limits on-site and/or off-site movement of material
- Earthworks, amendments proposed to recognise the focus of earthworks must be to enable the overall efficient development of the subdivision, as earthworks can be a significant component of the works. Furthermore the earthworks profile is often dictated by the engineering requirements of providing roads and services at appropriate gradients, in turn able to provide efficient and safe connection to individual lots.

Submitter Number: 524 **Submitter:** Anna Noakes

Point Number 524.43

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.14 Objective – Earthworks

Summary of Decision Requested **Retain** Objective 4.2.14 Earthworks, as notified.

Decision Reasons:

- Earthworks that facilitate residential subdivision is supported

Submitter Number: 598 **Submitter:** Withers Family Trust

Point Number 598.10

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.14 Objective – Earthworks

Summary of Decision Requested **Retain** Objective 4.2.14 Earthworks.

Decision Reasons:

- Earthworks that facilitate residential subdivision are supported.

Submitter Number: 662 **Submitter:** Blue Wallace Surveyors Ltd

Point Number 662.44

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.14 Objective – Earthworks

Summary of Decision Requested **Retain** Objective 4.2.14 Earthworks, as notified.

Decision Reasons:

- Supports the objective in that subdivision development and assessment by Council is undertaken concurrently under the consents process, and that this process is inclusive of earthworks.

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.14		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.15 Policy - Earthworks		
Summary of Decision Requested	<p>Add to Policy 4.2.15 Earthworks a new line as follows:</p> <p><u>Manage the earthworks site to ensure that resources at the site are safe and to minimise the risk of victimisation</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Development sites are crime attractors • Vehicles, tools and diesel have previously been targeted by criminals • The inclusion of this wording ensures that there is an obligation through council policy to consider safety at development sites • This should result in a reduction in victimisations, making people safe and feel safe. 		

Submitter Number:	368	Submitter:	Ian McAlley
Point Number	368.8		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.15 Policy - Earthworks		
Summary of Decision Requested	<p>Amend Policy 4.2.15(a)(iv) - Earthworks, to read as follows:</p> <p><u>The importation and exportation of cleanfill is avoided in the Residential Zone.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Every effort should be made to integrate the significant majority of the earthworks required for the development of individual house lots with the overall bulk subdivision earthworks. This significantly reduces the requirement for secondary earthworks and reduces both on-site and off-site effects related to erosion, sediment, dust and noise from machinery. • The amendment proposed is to promote a 'cut to fill balance' in earthworks design in order to reduce the earthworks period and avoid off-site effects from earthworks resulting from the importation or exportation on or off a site of large volumes of material. The exception is the removal of unsuitable material, contaminated material or excess topsoil from development sites. • Designing and undertaking of earthworks as a 'cut to fill balance' significantly limits on-site and/or off-site movement of material 		
Point Number	368.9		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.15 Policy - Earthworks		
Summary of Decision Requested	<p>Delete Policy 4.2.15(d) - Earthworks.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • If land has been zoned for residential purposes then the shape, contour and landscape characteristics of the land will change, because it will be converted from open land, likely in horticultural or pastoral use, to urban development. Unless the land is specifically identified and protected for its landscape and/or character attributes the most important outcome is the efficient development of the land to achieve the use it is zoned for. Creating an attractive development will be a product of the design and construction of the subdivision, not the retention of existing land-form. Issues related to the change in the appearance of the land need to have been addressed at the time the zone was changed. 		

Submitter Number:	466	Submitter:	Brendan Balle

Point Number	466.35		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.15 Policy - Earthworks		
Summary of Decision Requested	<p>Amend Policy 4.2.15 (c) Earthworks to include provision for ancillary rural earthworks associated with existing activities</p> <p>AND</p> <p>Amend Policy 4.2.15 Earthworks to consider reverse sensitivity issues associated with ancillary rural earthworks associated with existing activities.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Where rezoning has included high-class soils that are currently used for commercial vegetable production, then ancillary rural earthworks should be enabled and this policy should reflect this. • The policy should also consider the reverse sensitivity issues likely to develop from residential development occurring around ongoing commercial vegetable production activities that are unable to relocate elsewhere. 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.45		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.15 Policy - Earthworks		
Summary of Decision Requested	<p>Add to Policy 4.2.15 Earthworks a new clause 'f' as follows:</p> <p>(a) ...</p> <p><u>(f) Earthworks are designed and undertaken in a manner that they do not adversely affect historic heritage and cultural values.</u></p>		

Decision Reasons:

- The submitter supports Policy 4.2.15 Earthworks in part as this policy does not reflect the need to provide for the protection of historic and cultural values at the time of earthworks.
- The policy needs to be amended to reflect the need to give effect to s6 of the RMA.

Submitter Number: 695 **Submitter:** Sharp Planning Solutions Ltd

Point Number 695.20
Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.15 Policy - Earthworks
Summary of Decision Requested Delete Policy 4.2.15(a)(iv) Earthworks.
 OR
 Amend Policy 4.2.15(a)(iv) Earthworks to refer to "unauthorised clean-fill" instead of "clean-fill".

Decision Reasons:

- It is ultra-vires.
- It lacks any comprehension of building and development requirements.
- If it meant to refer to unauthorised clean-fill, it should state so.
- The statement is objected to it (in its present form).
- The stated prohibition on importation of all clean-fill would make almost all development impossible.
- Building sand, crushed stone, shells or bark for gardens can all be regarded as clean-fill if received from an authorised source.
- Some sites need earth brought in to address drainage or where building of the soil level is required for stability and building platform integrity.

Point Number 695.21
Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.15 Policy - Earthworks
Summary of Decision Requested Delete Policy 4.2.15(d) Earthworks.
 OR
 Amend Policy 4.2.15(d) Earthworks to refer to minimising earthworks to maintain the fundamental shape, contour and landscape characteristics where otherwise possible.

Decision Reasons:

- It is ultra-vires
- It lacks any comprehension of building and development requirements.
- Altering fundamental shape, contour and landscape cannot be avoided in some scenarios to achieve a suitable and safe building development outcome.
- If the intended outcome is to minimise earthworks then this is what the clause should state.

Point Number 695.22
Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.15 Policy - Earthworks
Summary of Decision Requested Amend Policy 4.2.15(e) Earthworks to identify which sites this applies to as a planning overlay on the Proposed District Plan maps.
 OR
 Amend Policy 4.2.15(e) Earthworks to provide a reference document source for applicants to refer to determine to what extent they need to comply.

Decision Reasons:

- This clause has no context as to how it is intended to be applied.
- Subjective open-ended statements frustrate applicants.

Submitter Number: 742 **Submitter:** Kim Harris-Cottle

Organisation: New Zealand Transport Agency

Point Number 742.19
Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.15 Policy - Earthworks
Summary of Decision Requested Retain Policy 4.2.15 Earthworks, except for the amendments sought below
 AND
 Amend Policy 4.2.15(b) Earthworks as follows:
Earthworks are designed and undertaken in a manner that ensures the stability and safety of surrounding land, buildings, infrastructure and structures.
 AND
 Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- Policy 4.2.15(b) seeks to ensure that earthworks do not undermine surrounding land, buildings and structures. For the avoidance of doubt, add infrastructure to this list.

Submitter Number: 746 **Submitter:** The Surveying Company

Point Number 746.107
Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.15 Policy - Earthworks
Summary of Decision Requested Delete Policy 4.2.15 (a) (iv)- Earthworks
 OR
 Amend Policy 4.2.15 (a) (iv)- Earthworks to enable land to be developed for residential activities as follows:

The importation of cleanfill is avoided in the Residential Zone except where it is required to enable land to be developed for residential purposes.

OR

Amend Policy 4.2.15 (a) (iv)- Earthworks to enable land to be developed for residential activities as follows:

The inappropriate importation of clean fill is avoided in the Residential Zone where it is not required to enable greenfield land to be developed.

Decision Reasons:

- Clean fill may be required in residential zoned sites to enable greenfield land to be developed for residential purposes. The requirement to avoid filling in all circumstances may restrict the ability to develop residential land where balanced cut to fill earthworks are inappropriate or cannot be achieved.
- This policy is contradictory to the Objective 4.2.14(a)-Earthworks which states that earthworks facilitate subdivision, use and development.
- Policy 4.2.15(iv) should be amended to avoid this contradiction.

Submitter Number: 751 **Submitter:** Chanel Hargrave and Travis Miller

Point Number 751.43

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.15 Policy - Earthworks

Summary of Decision Requested Delete Policy 4.2.15(a)(iv) Earthworks

OR

Amend Policy 4.2.15(a)(iv) Earthworks to ensure fill can be imported where required to enable land to be developed for residential activities as follows:

The importation of cleanfill is avoided in the Residential Zone, except where it is required to enable land to be developed for residential purposes.

OR

Amend Policy 4.2.15(a)(iv) Earthworks to ensure fill can be imported where required to enable land to be developed for residential activities follows:

~~The importation of cleanfill is avoided in the Residential Zone.~~ The inappropriate importation of cleanfill is avoided in the Residential Zone where it is not required to enable greenfield land to be developed.

Decision Reasons:

- Cleanfill may be required in Residential Zoned sites to enable greenfield development and to avoid filling in all circumstances may restrict the ability to develop residential land.
- The policy contradicts Objective 4.2.14(a) which states that earthworks facilitate subdivision, use and development.
- Policy 4.2.15 (iv) should be amended to avoid this contradiction.

Submitter Number: 986 **Submitter:** Pam Butler

On behalf of: KiwiRail Holdings Limited (KiwiRail)

Point Number 986.21

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.15 Policy - Earthworks

Summary of Decision Requested **Amend** Policy 4.2.15(b) as follows

(or similar amendments to achieve the requested relief);

Earthworks are designed and undertaken in a manner that ensures the stability and safety of surrounding land, buildings, infrastructure and structures.

AND

Any consequential amendments to link and/or accommodate the requested changes.

Decision Reasons:

- Policy 4.2.15(b) seeks to ensure that earthworks do not undermine surrounding land, buildings and structures. KiwiRail seeks to add the word infrastructure to the policy to recognise the need to protect it from adjacent earthworks activity.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.16 Objective – Housing options

Submitter Number: 81 **Submitter:** Waikato Regional Council

Point Number 81.126

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.16 Objective – Housing options

Summary of Decision Requested Retain Objective 4.2.16 Housing options.

Decision Reasons:

- The submitter supports this objective as it assists with giving effect to the WRPS' direction relating to the integration of land use with public transport: WRPS Policies 6.1; Policy 6.3 and Section 6A.

Submitter Number: 535 **Submitter:** Lance Vervoort

Organisation: Hamilton City Council

Point Number 535.20

Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.16 Objective – Housing options

Summary of Decision Requested Retain Objective 4.2.16 Housing options.

Decision Reasons:

- The submitter supports the focus on a range of housing options within the Residential Zone.

Submitter Number:	606	Submitter:	Bill Wasley
Organisation:	Future Proof Implementation Committee		
Point Number	606.10		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.16 Objective – Housing options		
Summary of Decision Requested	Retain Objective 4.2.16 Housing options.		
Decision Reasons:	<ul style="list-style-type: none"> This is consistent with a key Future Proof principle relating to providing housing choices. 		

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.45		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.16 Objective – Housing options		
Summary of Decision Requested	Retain Objective 4.2.16 Housing options, except for the amendments sought below AND Amend Objective 4.2.16(a) Housing options as follows: <i>(a) A wide range of housing options occurs in the Residential Zones of Huntly, Ngaruawahia, Pokeno, Raglan, Te Kauwhata, Taupiri and Tuakau...</i>		
Decision Reasons:	<ul style="list-style-type: none"> Supports the objective in part as it is important for high-level recognition in the district plan for housing diversity. Taupiri should be explicitly included in the objective. The inclusion of Taupiri is due to the increased residential density and growth in the village post the Waikato Expressway. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.20		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.16 Objective – Housing options		
Summary of Decision Requested	Retain Objective 4.2.16(b) Housing options as notified, except for the amendments sought below. AND Add a High Density Residential Zone to the Proposed District Plan with supporting objectives, policies and rules. AND Amend planning maps to show the location of a High Density Residential Zone. AND Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the development of accessible, liveable and resilient communities. The submitter supports the intent of Objective 4.1.16(b) as it supports a mode shift for trips in urban areas from private vehicles to a focus on a more accessible transport system with a variety of modes such as walking, cycling and public transport. The use of a higher density residential zone would provide a clearer and more robust (regulatory) signal to applicants of Council's expectations for the density of development in locations close to the Business Town Centre Zone and transport networks. This approach would also provide stronger support for Policy 4.2.18(a)(iv). 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.108		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.16 Objective – Housing options		
Summary of Decision Requested	Retain Objective 4.2.16 Housing options, except for the amendments sought below AND Add to Objective 4.2.16- Housing options as follows: <u>Multi-unit development including low rise apartments is promoted within walking distance to existing Town Centres, public amenities and public transport.</u> <u>Smaller lots size and multi-unit development promoted within new greenfield sites where the land is within walking distance to amenities and reserves.</u>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Objectives 4.2.16 and 4.2.17 as they give effect to the strategic direction outlined in Section 4.1 and promote variety in the future housing stock to help achieve Objectives 4.1.2 and 4.1.5. Enabling denser housing options gives effect to the Future Proof Strategy identified in 1.5.1 of the Plan that seeks a shift in the existing pattern of land use towards accommodating growth through a more compact urban form based on concentrating growth in and around Hamilton (67%) and the larger settlements of the district (21%). This involves a reduction in the relative share of the population outside of the subregion's existing major settlements through tighter control over rural-residential development and encouraging greater urban densities in existing settlements. The Plan needs to provide more direction through the objectives and policies on this issue. As the Plan has one residential zone it needs to identify through the objectives and policies locations where medium density development is appropriate and encourage higher densities in appropriate locations. The Plan should specify that multi-unit development and smaller lots are encouraged close to Town Centres, public amenities and public transport stations. This will ensure the Strategic objectives and met by encouraging higher densities within a walkable distance to existing amenities. Diversity and a range of housing choice should also be promoted within greenfield sites. The rural areas of Tuakau contain versatile soils that are used for rural production activities. These soils contribute significantly to both regional and national food supply. 		

- Intensification of urban land at higher densities should be encouraged within Tuakau residential areas to ensure that land supply requirements meet while preserving the soil resources.
- The maximisation of the lands residential development potential will future proof the capacity of land supply to avoid further encroachment into the rural area past the lifetime of this Plan.
- Intensification and higher densities should be encouraged in appropriate locations to avoid additional sprawl into the rural areas.

Submitter Number:	751	Submitter:	Chanel Hargrave and Travis Miller
Point Number	751.44		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.16 Objective – Housing options		
Summary of Decision Requested	<p>Retain Objective 4.2.16 Housing options, except for the amendments below.</p> <p>AND</p> <p>Add to Objective 4.2.16 Housing Objectives the following:</p> <p><u>Multi-unit development including low rise apartments is promoted within walking distance to existing Town Centres, public amenities and public transport.</u></p> <p><u>Smaller lots size and multi-unit development promoted within new greenfield sites where the land is within walking distance to amenities and reserves.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Gives effect to the strategic direction outlined in section 4.1 and promotes the variety in the future housing stock to help achieve 4.1.2 and 4.1.5. • Enabling densified housing options give effect to the Future Proof Strategy identified in 1.5.1 of the Plan that seeks a shift in the existing pattern of land use towards accommodating growth through a compact urban form. • Involves a reduction in the relative share of the population outside of the subregion's existing major settlements through tighter control over rural-residential development and encouraging greater urban densities in existing settlements. • The Plan should specify that multi-unit development and smaller lots are encouraged close to the Town Centres, public amenities and public transport stations. • Diversity and a range of housing choice should also be promoted within greenfield sites. The rural areas of Tuakau contain versatile soils that are used for rural production activities. These soils contribute significantly to both regional and national food supply. • The maximisation of the lands residential development potential will future proof the capacity of land supply to avoid further encroachment into the rural area. • Intensification and higher densities should be encouraged to avoid additional sprawl into rural areas.

Point Number	923.50		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.18 Policy – Multi-unit development		
Summary of Decision Requested	Retain Policy 4.2.18- Multi-unit development as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this objective as it assists with giving effect to the Future Proof Strategy and the Waikato Regional Policy Statements' directions relating to the integration of land use with public transport and walking and cycling. Directions in these documents linked to housing typology and multiple unit dwellings should enable increased levels of physical activity if accompanied by parallel improvements in access to accessible public transport services and infrastructure, and safe and accessible walking and cycling infrastructure. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.19 Policy – Retirement villages

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.20		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.19 Policy – Retirement villages		
Summary of Decision Requested	Add to Policy 4.2.19(a) Retirement villages a new line as follows: <u>Conforming to the national guidelines for CPTED.</u>		
Decision Reasons:	<ul style="list-style-type: none"> To ensure that there is an obligation to consider national guidelines for CPTED, reducing victimisation, making people safe and feel safe. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.21 Policy – Maintain residential purpose

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.67		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.21 Policy – Maintain residential purpose		
Summary of Decision Requested	Retain Policy 4.2.21 Maintain residential purpose, to the extent that the provision anticipates non-residential activities in the Residential Zone. AND Amend Policy 4.2.21 - Maintain residential purpose as follows: <i>Restrict the establishment of non-residential commercial or industrial activities, unless the activity has a strategic or operational need to locate within a residential zone, and the effects of such activities on the character or amenity of residential zones are insignificant.</i> AND Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand (FENZ) supports in part Policy 4.2.21 to the extent that the provision anticipate non-residential activities in the Residential Zone, but considers that the provisions focus on the management of effects, rather than an outcome that provides clear direction in relation to the appropriateness of some non-residential activities in the Residential Zone. For instance, providing for emergency services that have a functional and operational need to be located in close proximity to the communities they serve. Amendments sought better achieve the purpose of the RMA by providing for the health and safety of people and communities. 		

Submitter Number:	862	Submitter:	Havelock Village Limited
Point Number	862.35		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.21 Policy – Maintain residential purpose		
Summary of Decision Requested	Retain Policy 4.2.21- Maintain residential purpose.		
Decision Reasons:	<ul style="list-style-type: none"> Supports safeguarding the residential purpose of residential areas. Non-residential activities have the potential to adversely affect the residential character and amenity values of a residential area. Therefore, the presence of non-residential activities should be limited.

Decision Reasons:	<ul style="list-style-type: none"> The grammar is incorrect. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.22		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.23 Policy – Non-residential activities		
Summary of Decision Requested	<p>Retain Policy 4.2.23 Non-residential activities, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 4.2.23 (a) (iv) Non-residential activities by replacing 'strategic roads' with the appropriate terminology consistent with the road categories described in Table 14.12.5.5.</p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of Policy 4.2.23 and in particular the recognition that different roads perform different functions (4.2.23(a)(iv)); and that adverse effects on the surrounding transport network should be minimised (4.2.23(a)(v)B). The submitter notes that the term 'strategic road' is not defined in the Proposed District Plan. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.26 Policy – Neighbourhood centres in structure plan areas

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.25		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.26 Policy – Neighbourhood centres in structure plan areas		
Summary of Decision Requested	Amend Policy 4.2.26(a)(ii) Neighbourhood centres in structure plan areas to replace "provide" with "plan" and define the walkable catchment in relationship to the catchment.		
Decision Reasons:	<ul style="list-style-type: none"> The statement is not well considered. It needs to be revised. The walkable catchment requirement would potentially restrict the size of neighbourhood centres and could create an inefficient dispersal or resources and infrastructure where more than one would be needed when on that is larger could do the task efficiently provided that it does not overly tax the roading system. The work "provide" implies that such centres must wait for development to occur around them and be retrofitted. 		

Submitter Number:	862	Submitter:	Havelock Village Limited
Point Number	862.12		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.26 Policy – Neighbourhood centres in structure plan areas		
Summary of Decision Requested	<p>Add a new clause to Policy 4.2.26 Neighbourhood centres in structure plan areas, as follows:</p> <p><i>Provide for new neighbourhood centres within structure plan areas or masterplan areas, that:</i></p> <p>(i) <i>Are for the daily retail and service needs of the community; and</i></p> <p>(ii) <i>Are located within a walkable catchment; <u>and</u></i></p> <p>(iii) <i>Provide for residential activities above the ground floor.</i></p>		

OR

If the above relief is not accepted, add site specific objectives and policies for Havelock Village, including a new Policy 4.2.20;

AND

Any consequential amendments or alternative relief to give effect to the matters raised in the submission.

Decision Reasons:

- Seeks to enable Neighbourhood Centres to provide for residential activities above the ground floor.
- With a focus on Neighbourhood Centres being within a walkable catchment and convenient for the community they serve, it is logical that residential activities are provided for.
- It is also noted that the Business Zone and Business Town Centre Zone in the Proposed Waikato District Plan, and the Neighborhood Centre Zone in the Auckland Unitary Plan provide for residential activities above ground floor.

Submitter:

Waikato District Health Board

Point Number

923.51

Plan chapter

Section B Objectives and Policies > Chapter 4: Urban Environment > 4.2 Residential Zone > 4.2.26 Policy – Neighbourhood centres in structure plan areas

Summary of Decision Requested

Retain Policy 4.2.26- Neighborhood centres in structure plans as notified.

Decision Reasons:

- Neighborhood centres provide a really important function to support local communities to have access to commercial and community facilities.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone

Submitter Number:

378

Submitter:

Fire and Emergency New Zealand

Point Number

378.70

Plan chapter

Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone

Summary of Decision Requested

Add a new objective to Section 4.3 Village zoning, as follows:

To recognise and provide for non-residential activities that contribute to the health, safety and wellbeing of the community while managing their potential adverse effects to ensure that the activities complement the amenity values of the District's Village Zone areas.

AND

Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- The provisions focus on the management of effects, rather than an outcome that provides clear direction in relation to the appropriateness of some non-residential activities in the Village Zone.
- Emergency services have a functional and operational need to be located in close proximity to the communities they serve.
- These amendments better achieve the purpose of the RMA by providing for the health and safety of people and communities.

Submitter Number:

535

Submitter:

Lance Vervoort

Organisation:

Hamilton City Council

Point Number

535.22

Plan chapter

Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone

Summary of Decision Requested

Amend Section 4.3 Village Zone, to better define the purpose of the Village Zone which has more alignment with the objectives and policies relating to rural amenity. The Village Zone needs to better consider cross-boundary impacts of growth.

AND

Any consequential amendments and/or additional relief required to address the matters raised in the submission.

Decision Reasons:

- The submitter is concerned that the overall strategic direction of the Proposed Plan directs growth similarly to towns and villages.
- Preferably there would be a strong objective and policy framework to direct growth opportunities to existing towns, rather than comparatively large lots within the villages which would weaken sub-regional infrastructure planning for public transport and 3-waters.
- It would create densities that may make accommodating future growth projections difficult.
- Policies in Section 4.3 (e.g. 4.3.2- Character) are very similar to the those of section 5.6 Country living Zone.
- In many ways, the purpose of these two separate zones are very similar, and both, if occurring in the outskirts of Hamilton, cause some concern for Hamilton City Council. In the past, development within the Country living Zone has caused cross-boundary issues within Hamilton, including the road networks, provided little impetus to improve passenger transport patronage and placed strain on existing facilities. The new Village Zone, particularly when located in the outskirts of Hamilton, has the potential to have the same cross-boundary issues.
- Given the Village Zone (1000m² to 3000m²) accommodates smaller lot sizes than the Country Living Zone (5,000m²), the cross boundary impacts are arguably exacerbated.

697

Submitter:

Waikato District Council

Point Number

697.545

Plan chapter

Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone

Summary of Decision Requested

Add to Chapter 4.3 Village Zone Objectives and Policies to add two new policies numbered 4.3.16 and 4.3.17 as follows:

4.3.16 Policy – Outdoor living court – Retirement villages

(a) Require outdoor living courts or communal outdoor living courts to be usable and accessible.

4.3.17 Policy – Retirement villages

(a) Provide for the establishment of new retirement villages and care facilities that:

(i) Offer a diverse range of housing types, including care facilities, for the particular needs and characteristics of older people.

(ii) Promote visual integration with the street scene, neighbourhoods and adjoining sites;
(iii) Are comprehensively designed and managed and offer a variety of accommodation and accessory services that meet the needs of residents, including those requiring care or assisted living;
(iv) Housing and care facilities for older people can require higher densities;
(v) Provide high quality on-site amenity; and
(vi) Integrate with local services and facilities, including public transport.
(b) Enable alterations and additions to existing retirement villages that:
(i) Promote visual integration with the street scene, neighbourhoods and adjoining sites;
(ii) Recognise that housing and care facilities for older people can require higher densities;
(iii) Provide high quality on-site amenity; and
(iv) Integrate with local services and facilities, including public transport and alternative transport modes.

Decision Reasons:

- To provide consistency with Residential Zone for proposed retirement village provisions in the Village Zone, there is a need to include additional policies.

Submitter Number: 749 **Submitter:** Housing New Zealand Corporation

Point Number: 749.4
Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone

Summary of Decision Requested: Retain Objectives and Policies in Section 4.3 Village Zone as notified.

Decision Reasons:

- The submitter supports the objectives and policies of the Village Zone.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.1 Objective – Village Zone character

Submitter Number: 81 **Submitter:** Waikato Regional Council

Point Number: 81.129
Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.1 Objective – Village Zone character

Summary of Decision Requested: Amend Objective 4.3.1 Village Zone character to include a description or explanation of the character and purpose of the Village Zone including anticipated intensity of development.

Decision Reasons:

- Submitter seeks amendments to provisions to provide greater clarity about critical elements of the character of the Village Zone that is to be maintained, (for example, the rationale behind the desired intensity of development) and to make a stronger correlation between infrastructure provision and the outcomes sought in terms of the zone.
- The submitter is concerned that in combination, the minimum density of 8-10 households per hectare for Village Zone sites proposed in Policy 4.1.5 Density where public reticulated services can be provided, and the requirement for a 3000m² minimum lot size (Rule 24.4.1) promote a rural rather than an urban outcome for the Village Zone.
- This would not achieve the sustainable, compact urban form necessary to support efficient, effective transport and other infrastructure services.
- The submitter is also of the view that the density policy and subdivision rule promote a settlement pattern that will be difficult to change if additional, more intensive development is required to provide for future growth around the district's urban settlements.

Submitter Number: 923 **Submitter:** Waikato District Health Board

Point Number: 923.52
Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.1 Objective – Village Zone character

Summary of Decision Requested: Amend Objective 4.3.1- Village Zone character to include a stronger description of the character and purpose of the Village Zone including anticipated intensity of development.

Decision Reasons:

- Should be amended to make a stronger correlation between infrastructure provision and the outcomes sought in terms of the zone, and to provide a stronger description as to what the Village Zone characteristics are that the objective seeks to maintain. This is significant given that absence of any meaningful description as to the purpose of the Village Zone.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.2 Policy – Character

Submitter Number: 81 **Submitter:** Waikato Regional Council

Point Number: 81.130
Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.2 Policy – Character

Summary of Decision Requested: Amend Policy 4.3.2 Character to provide greater clarity about the character of the Village Zone; to make a stronger correlation between infrastructure provision and the outcomes sought in terms of the Village zone; and to remove reference to 'semi-rural character'.

Decision Reasons:

- Submitter seeks amendments to the provisions to provide greater clarity about critical elements of the character of the Village Zone that is to be maintained, (for example, the rationale behind the desired intensity of development) and to make a stronger correlation between infrastructure provision and the outcomes sought in terms of the zone.
- The submitter is concerned that in combination, the minimum density of 8-10 households per hectare for Village Zone sites proposed in Policy 4.1.5 Density where public reticulated services can be provided, and the requirement for a 3000m² minimum lot size (Rule 24.4.1) promote a rural rather than an urban outcome for the Village zone. This would not achieve the sustainable, compact urban form necessary to support efficient, effective transport and other infrastructure services.
- The submitter is also of the view that the density policy and subdivision rule promote a settlement pattern that will be difficult to change if additional, more intensive development is required to provide for future growth around the district's urban settlements.
- The 'semi-rural character' reference is inappropriate for a zone that is to be used to manage activities in an urban environment.

Point Number	419.86		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.3 Policy – Future development – Tuakau and Te Kowhai		
Summary of Decision Requested	Amend Policy 4.3.3 Future development - Tuakau and Te Kowhai, by expanding the policy to recognise the unique situation of Tuakau to the Pukekohe 'hub' of nationally significant rural production land. AND Amend Policy 4.3.3 Future development - Tuakau and Te Kowhai, to address the actual and potential effects of reverse sensitivity for rural production activities at the rural/urban interface. AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter opposes the lack of recognition of the unique situation of Tuakau to the Pukekohe 'hub' of nationally significant rural production land. 		

Submitter Number:	466	Submitter:	Brendan Balle
Organisation:	Balle Bros Group Limited		
Point Number	466.36		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.3 Policy – Future development – Tuakau and Te Kowhai		
Summary of Decision Requested	Amend Policy 4.3.3 Future development – Tuakau and Te Kowhai by expanding policy to protect high-class soils for commercial vegetable production, taking into account the viability of commercial vegetable production activities in this location. Specific regard should be given to: <ul style="list-style-type: none"> Topography Productivity Sustainability (specifically avoidance of soil pests and diseases, suitably consented irrigation water) Reverse sensitivity Economic viability AND Amend Policy 4.3.3 Future development – Tuakau and Te Kowhai to ensure that reverse sensitivity matters are acknowledged and addressed through the Plan.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the consolidation of future settlement in and around towns and villages, if the rezoning protects high-class soils where it is appropriate to do so, for reasons outlined elsewhere in this submission in relation to viable commercial vegetable production operations. It is noted that the rezoned land in and around Tuakau is predominantly located on high-class soils, which is inconsistent with the objectives and policies of the Plan and is likely to lead to reverse sensitivity issues. Specific regard should be given to: Topography, Productivity, Sustainability (specifically avoidance of soil pests and diseases; suitably consented irrigation water), Reverse sensitivity, and Economic viability. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.23		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.3 Policy – Future development – Tuakau and Te Kowhai		
Summary of Decision Requested	No specific decision sought, but submission opposes further growth in Te Kowhai and Policy 4.3.3 Future development Tuakau and Te Kowhai.		
Decision Reasons:	<ul style="list-style-type: none"> Growth is not opposed per se, just the type and amount included in the current proposal. The policy encourages future development in Te Kowhai when services are available, however the submitter questions if further growth as identified is appropriate at Te Kowhai. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.26		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.3 Policy – Future development – Tuakau and Te Kowhai		
Summary of Decision Requested	Amend Policy 4.3.3(a) Future development - Tuakau and Te Kowhai by replacing with the following wording: <u>Enable infrastructure and service availability so that future subdivision and development in Tuakau and Te Kowhai provides for suitable building and access locations to be identified.</u>		
Decision Reasons:	<ul style="list-style-type: none"> This statement is back to front and does not make sense. Buildings and access cannot be located to enable future development as development would be current when that occurs. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.54		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.3 Policy – Future development – Tuakau and Te Kowhai		
Summary of Decision Requested	<p>Amend Policy 4.3.3- Future Development- Tuakau and Te Kowhai to provide greater clarity about the urban outcomes sought for the Village Zone, including anticipated development density</p> <p>AND</p> <p>Remove reference to "semi-rural character"; and make a stronger correlation between infrastructure provision and the outcome sought for the zone.</p>		
Decision Reasons:	<ul style="list-style-type: none"> In respect of the Future Proof Strategy, clarity is required as to whether the villages are considered urban 'settlements' or part of the rural environment, with the Plan being ambiguous on this point. Given the plan's approach of consolidating development around existing towns and villages, it is not considered suitable that villages are described as being semi-rural. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.5 Policy – Building Setbacks

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.27		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.5 Policy – Building Setbacks		
Summary of Decision Requested	<p>Amend Policy 4.3.5(a) Building setbacks as follows:</p> <p><i>Maintain existing and promote new vistas and views between new buildings in the Village Zone when viewed from a road.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> The word "new" needs to be placed elsewhere in the phrase as the vista would already be existing (it cannot be new) whether it be from a building, a road, or any other place - before or after the building is built. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.72		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.5 Policy – Building Setbacks		
Summary of Decision Requested	<p>Add a new clause (b) to Policy 4.3.5 Building setbacks as follows (or similar amendments to achieve the requested relief):</p> <p><i>(a) Maintain existing and promote new vistas and views between buildings in the Village Zone when viewed from a road.</i></p> <p><i>(b) Manage Reverse sensitivity by providing sufficient setbacks buildings to provide for residents' safety and amenity.</i></p> <p>AND</p> <p><i>Any consequential amendments to link and/or accommodate the requested changes.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> The policies applying to each zone requiring setbacks from the railway corridor should include reference to the purpose of the setback. Existing and sought changes to the Plans objectives lend sufficient support the need for setbacks for amenity and safety, and the efficient integration of development and infrastructure. Adding an additional item to these plan sections will also facilitate assessment of situations where the proposed 5 metre Building setback - railway corridor rule cannot be met, or it is inappropriate to require compliance. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.6 Policy – Front setback character

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.28		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.6 Policy – Front setback character		
Summary of Decision Requested	Amend Policy 4.3.6(a) Front setback character to consider new/anticipated development.		
Decision Reasons:	<ul style="list-style-type: none"> Consider Pokeno Design Guide for the Pokeno Village. The statement is supported in principle. 		

Submitter Number:	697	Submitter:	Waikato District Council
--------------------------	-----	-------------------	--------------------------

Point Number	697.543
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.6 Policy – Front setback character
Summary of Decision Requested	Amend Policy 4.3.6(a) Front setback character as follows: <i>Maintain the existing <u>open and unbuilt</u> character of streets <u>through the use of setbacks</u>.</i>
Decision Reasons:	<ul style="list-style-type: none"> Provides additional clarification to the policy.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.7 Policy – Excessive building scale

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.29		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.7 Policy – Excessive building scale		
Summary of Decision Requested	Amend Rule 4.3.7(a) Excessive building scale as follows: Enable development <i>shall only exceed height, bulk and form only where it is in keeping with and does not detract from the amenity values of the street which are existing and (where a design guide is available) any development proposal balances the anticipated amenity values with those which are existing.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The relief sought provides for appropriate step-change of development. Incorrect tense used. It encourages non-compliance. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.8 Policy – Residential amenity and function

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.71		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.8 Policy – Residential amenity and function		
Summary of Decision Requested	Retain Policy 4.3.8 Residential amenity and function, to the extent that the provision anticipates non-residential activities in the Village Zone AND Amend Policy 4.3.8(ii)- Residential amenity and function as follows: <i>(ii) Provide for the health, <u>safety</u>, and well-being of the community.</i> AND Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> FENZ supports in part Policy 4.3.8 to the extent that these provisions anticipate non-residential activities in the Village Zone, but considers that the provisions focuses on the management of effects, rather than an outcome that provides clear direction in relation to the appropriateness of some non-residential activities in the Village Zone. For instance providing for emergency services that have a functional and operational need to be located in close proximity to the communities they serve. Amendments sought will better achieve the purpose of the RMA by providing for the health and safety of people and communities. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.55		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.8 Policy – Residential amenity and function		
Summary of Decision Requested	Amend Policy 4.3.8 (a) (ii)- Residential Amenity and Function as follows: <i>Provide for the health, <u>safety</u>, and well-being of the community.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Submitter supports Policy 4.3.8 to the extent that recognition is given to the health and wellbeing of communities. However, recommends that the wording better reflects section 5 of the RMA which also refers to the safety of the community. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.11 Policy – Maintain residential function

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.132		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.11 Policy – Maintain residential function		
Summary of Decision Requested	Retain Policy 4.3.11 Maintain residential function.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this Policy, as it will assist with giving effect to the WRPS' policy direction relating to the Future Proof settlement pattern. (Note: WRPS Policies 6.1, 6.14 and Section 6A). 		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.72		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.11 Policy – Maintain residential function		
Summary of Decision Requested	<p>Retain Policy 4.3.11 Maintain residential function, to the extent that these provisions anticipate non-residential activities in the Village Zone</p> <p>AND</p> <p>Amend Policy 4.3.11 Maintain residential function as follows:</p> <p><i>Restrict the establishment of non-residential, commercial or industrial activities, unless the activity has a strategic or operational need to locate within the Village Zone, and the effects of such activities on the character and amenity are insignificant.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Fire and Emergency New Zealand supports in part Policy 4.3.11 to the extent that these provisions anticipate non-residential activities in the Village Zone, but considers that the provisions focus on the management of effects, rather than an outcome that provides clear direction in relation to the appropriateness of some non-residential activities within the Village Zone. For instance providing for emergency services that have a functional and operational need to be located in close proximity to the communities they serve. • The amendments sought will better achieve the purpose of the RMA by providing for the health and safety of people and communities. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.544		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.11 Policy – Maintain residential function		
Summary of Decision Requested	<p>Amend Policy 4.3.11(a) Maintain residential function as follows:</p> <p><i>... a strategic or operational need to locate within the Village Zone, and not compromise the effects of such activities on the character and amenity of the Village Zones are insignificant.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Re-wording provides additional clarification to the policy. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.56		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.11 Policy – Maintain residential function		
Summary of Decision Requested	Retain Policy 4.3.11- Maintain Residential function as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter supports this policy as it will assist with giving effect to the Waikato Regional Policy Statement's policy direction relating to the Future Proof settlement pattern. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.12 Policy – Non-residential activities

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.21		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.12 Policy – Non-residential activities		
Summary of Decision Requested	<p>Add to Policy 4.3.12(a)(iii) Non-residential activities a new line as follows:</p> <p><i><u>Conforming to the national guidelines for CPTED.</u></i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • To ensure that there is an obligation to consider national guidelines for CPTED, reducing victimisation, making people safe and feel safe. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.15 Policy - Earthworks

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.15		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.15 Policy - Earthworks		
Summary of Decision Requested	<p>Add to Policy 4.3.15 Earthworks a new line as follows:</p> <p><i><u>Manage the earthworks site to ensure that resources at the site are safe and to minimise the risk of victimisation</u></i></p>		

Decision Reasons:	<ul style="list-style-type: none"> • Development sites are crime attractors • Vehicles, tools and diesel have previously been targeted by criminals • The inclusion of this wording ensures that there is an obligation through council policy to consider safety at development sites • This should result in a reduction in victimisations, making people safe and feel safe.
--------------------------	---

Submitter Number:	466	Submitter:	Brendan Balle
Organisation:	Balle Bros Group Limited		
Point Number	466.37		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.15 Policy - Earthworks		
Summary of Decision Requested	<p>Amend Policy 4.3.15 (c) Earthworks to include provision for ancillary rural earthworks associated with existing activities.</p> <p>AND</p> <p>Amend Policy 4.3.15 Earthworks to consider reverse sensitivity issues associated with ancillary rural earthworks associated with existing activities.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Where rezoning has included high-class soils that are currently used for commercial vegetable production, then earthworks provisions must also cater for ongoing earthworks activities associated with this land use and the policy should reflect this. • Policy should also consider the reverse sensitivity issues likely to develop from residential development occurring around ongoing commercial vegetable production activities that are unable to relocate elsewhere. 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.46		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.15 Policy - Earthworks		
Summary of Decision Requested	<p>Add a new clause 'f' to Policy 4.3.15 Earthworks as follows:</p> <p>(a) ...</p> <p><u>(f) Earthworks are designed and undertaken in a manner that they do not adversely affect historic heritage and cultural values.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports Policy 4.3.15 Earthworks in part as this policy does not reflect the need to provide for the protection of historic and cultural values at the time of earthworks. • The policy needs to be amended to reflect the need to give effect to s6 of the RMA. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.143		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.15 Policy - Earthworks		
Summary of Decision Requested	<p>Delete Policy 4.3.15(d) Earthworks.</p> <p>OR</p> <p>Amend Policy 4.3.15(d) Earthworks to refer to minimising earthworks to maintain the fundamental shape, contour and landscape characteristics where otherwise possible.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • It is ultra-vires. • It lacks any comprehension of building and development requirements. • Altering fundamental shape, contour and landscape cannot be avoided in some scenarios to achieve a suitable and safe building development outcome. • If the intended outcome is to minimise earthworks then this is what the clause should state. 		
Point Number	695.30		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.15 Policy - Earthworks		
Summary of Decision Requested	<p>Amend Policy 4.3.15(d) Earthworks as follows:</p> <p>Subdivision and development occurs in a manner that maintains fundamental shape, contour and landscape characteristics. That earthworks shall be to the extent necessary to enable the development, and where practical shall try to maintain the shape, contour and landscape characteristic.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The objective is unachievable, as earthworks will often change the fundamental shape, contour and landscape, especially if large scale. • It is ultra-vires. • It lacks any comprehension of building and development requirements. • Altering fundamental shape, contour and landscape cannot be avoided in some scenarios to achieve a suitable and safe building development outcome. • If the intended outcome is to minimise earthworks then this is what the clause should state. 		
Point Number	695.31		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.3 Village Zone > 4.3.15 Policy - Earthworks		
Summary of Decision Requested	No specific decision sought for Policy 4.3.15(e), however submission considers common clauses for all development should be under one section in the District Plan to avoid unnecessary repetition.		
Decision Reasons:	<ul style="list-style-type: none"> • It is ultra-vires. • It lacks any comprehension of building and development requirements. • Altering fundamental shape, contour and landscape cannot be avoided in some scenarios to achieve a suitable and safe building development outcome. • If the intended outcome is to minimise earthworks then this is what the clause should state.

Summary of Decision Requested	<p>Amend Objective 4.4.1 (a)- Adverse effects of land use and development as follows:</p> <p><i>The health, <u>safety</u> and wellbeing of people communities and the environment are protected from the adverse effects of land use and development.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Objective 4.4.1- Adverse effects of land use and development to the extent that recognition is given to the health and wellbeing of communities and communities are protected from the adverse effects of land use and development, however recommends that the wording better reflects section 5 of the RMA which also refers to the safety of the community. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.4 Residential and Village Zones - Noise, lighting, outdoor storage, signs and odour > 4.4.2 Policy – Noise

Submitter Number:	182	Submitter:	Kirriemuir Trustee Limited
Point Number	182.10		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.4 Residential and Village Zones - Noise, lighting, outdoor storage, signs and odour > 4.4.2 Policy – Noise		
Summary of Decision Requested	Retain Policy 4.4.2 Noise, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The policy seeks to ensure lawfully established activities are protected and that setbacks are provided. This is agreed and will need to be supported with robust planning (for lawful establishment) and technical (acoustic) reporting where any setback is proposed. 		

Submitter Number:	299	Submitter:	2SEN Limited and Tuakau Estates Limited
Point Number	299.6		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.4 Residential and Village Zones - Noise, lighting, outdoor storage, signs and odour > 4.4.2 Policy – Noise		
Summary of Decision Requested	Retain Policy 4.4.2 Noise as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The policy seeks to ensure lawfully established activities are protected and that setbacks are provided. This is agreed and will need to be supported with robust planning (for lawful establishment) and technical (acoustic) reporting where any setback is proposed. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.23		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.4 Residential and Village Zones - Noise, lighting, outdoor storage, signs and odour > 4.4.2 Policy – Noise		
Summary of Decision Requested	Retain Policy 4.4.2 Noise as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of this policy, in particular clauses (iii)-(v). These clauses are consistent with the Transport Agency's approach to managing the reverse sensitivity effects from activities sensitive to noise on the state highway network. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		

Point Number	986.22
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.4 Residential and Village Zones - Noise, lighting, outdoor storage, signs and odour > 4.4.2 Policy – Noise
Summary of Decision Requested	<p>Retain Policy 4.4.2 Noise, particularly clauses (iii)-(v) as amended below</p> <p>AND</p> <p>Amend Policy 4.4.2(a) Noise as follows (or similar amendments to achieve the requested relief):</p> <p><i>(iii) Maintaining appropriate setback distances between high noise environments and sensitive land uses noise-sensitive activities;</i></p> <p><i>(iv) Managing the location of sensitive land uses and noise-sensitive activities, particularly in relation to lawfully-established high noise generating activities; and</i></p> <p><i>(v) Requiring acoustic insulation where noise-sensitive activities are located within high noise environments.</i></p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>
Decision Reasons:	<ul style="list-style-type: none"> • KiwiRail supports the policy, particularly clauses (iii)-(v). These clauses support noise sensitive activities managing reverse sensitivity effects on the railway corridor including through both setbacks and acoustic design. • The terminology used in the policy is 'sensitive land uses'. The policy should be expanded to include 'noise' sensitive activities (as this is also defined in the Plan). A separate KiwiRail submission seeks that the definitions of 'noise sensitive' and 'sensitive' land uses be clarified or combined.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.4 Residential and Village Zones - Noise, lighting, outdoor storage, signs and odour > 4.4.3 Policy – Artificial outdoor lighting

Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.4 Residential and Village Zones - Noise, lighting, outdoor storage, signs and odour > 4.4.5 Policy – Objectionable odour		
Summary of Decision Requested	Retain Policy 4.4.5 Objectionable odour, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The policy seeks to ensure lawfully established activities are protected and that setbacks are provided. This is agreed and will need to be supported with robust planning (for lawful establishment) and technical (acoustic) reporting where any setback is proposed. 		

Submitter Number:	299	Submitter:	2SEN Limited and Tuakau Estates Limited
Point Number	299.7		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.4 Residential and Village Zones - Noise, lighting, outdoor storage, signs and odour > 4.4.5 Policy – Objectionable odour		
Summary of Decision Requested	Retain Policy 4.4.5 Objectionable odour as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The policy seeks to ensure lawfully established activities are protected and that setbacks are provided. This is agreed and will need to be supported with robust planning (for lawful establishment) and technical (acoustic) reporting where any setback is proposed. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.4 Residential and Village Zones - Noise, lighting, outdoor storage, signs and odour > 4.4.6 Policy – Signage

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.32		

Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.4 Residential and Village Zones - Noise, lighting, outdoor storage, signs and odour > 4.4.6 Policy – Signage
Summary of Decision Requested	Amend Policy 4.4.6 Signage to include restrictions on the number of signs on a premises.
Decision Reasons:	<ul style="list-style-type: none"> • Many signs are superfluous to advise traffic of safety, speed or directions. • This avoids signage clutter.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.4 Residential and Village Zones - Noise, lighting, outdoor storage, signs and odour > 4.4.7 Policy – Managing the adverse effects of signs

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.26		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.4 Residential and Village Zones - Noise, lighting, outdoor storage, signs and odour > 4.4.7 Policy – Managing the adverse effects of signs		
Summary of Decision Requested	Retain Policy 4.4.7 Managing the adverse effects of signs as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The intention of this policy is in line with the Police Prevention First Model (taking every opportunity to prevent harm) and the Safer Journeys Strategy (reducing and preventing road related trauma) and the target to reduce road deaths every year by 5 percent. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.33		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.4 Residential and Village Zones - Noise, lighting, outdoor storage, signs and odour > 4.4.7 Policy – Managing the adverse effects of signs		
Summary of Decision Requested	Amend Policy 4.4.7 Managing the adverse effects of signs to include restrictions on the number of signs on a premises.		
Decision Reasons:	<ul style="list-style-type: none"> • Many signs are superfluous to advise traffic of safety, speed or directions. • This avoids signage clutter. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.24		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.4 Residential and Village Zones - Noise, lighting, outdoor storage, signs and odour > 4.4.7 Policy – Managing the adverse effects of signs		
Summary of Decision Requested	Retain Policy 4.4.3 Artificial outdoor lighting as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports Policy 4.4.3(c). 		
Point Number	742.25		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.4 Residential and Village Zones - Noise, lighting, outdoor storage, signs and odour > 4.4.7 Policy – Managing the adverse effects of signs		
Summary of Decision Requested	Retain Policy 4.4.7 Managing the adverse effects of signs, except for the amendments sought below AND Amend Policy 4.4.7 Managing the adverse effects of signs as follows: (a) The location, colour, content, and appearance of signs directed at or visible to road users <u>traffic</u> is controlled to ensure signs they do not distract, confuse or obstruct motorists, pedestrians and other road users adversely affect safety of road users... (b) Discourage <u>Signs that generate adverse effects from illumination, light spill, flashing, moving, or reflection are avoided.</u> AND Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the recognition in Policy 4.5.37 of the potential adverse effects of signs on people using the land transport system but seeks minor amendments. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.23		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.4 Residential and Village Zones - Noise, lighting, outdoor storage, signs and odour > 4.4.7 Policy – Managing the adverse effects of signs		

Summary of Decision Requested	<p>Retain Policy 4.4.7 Managing the adverse effects of signs except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 4.4.7(a) Managing the adverse effects of signs as follows (or similar amendments to achieve the requested relief):</p> <p><i>(a)The location, colour, content, and appearance of signs directed at traffic is controlled to ensure signs do not distract, confuse or obstruct motorists, pedestrians and other road and transport users;</i></p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>
Decision Reasons:	<ul style="list-style-type: none"> • KiwiRail supports the policy as it provides for the assessment of the effects of signs on land transport safety. This is reflected in the minor amendment sought.

Point Number	81.135		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.3 Policy – Commercial purpose: Business Town Centre Zone		
Summary of Decision Requested	Retain Policy 4.5.3 Commercial purpose: Business Town Centre Zone.		
Decision Reasons:	<ul style="list-style-type: none"> This Policy assists with giving effect to the WRPS' policy direction relating to the Future Proof settlement pattern and commercial development in the Future Proof area. (Note: WRPS Policies 6.1, 6.14, 6.16, Section 6A; and Table 6-4). 		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.74		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.3 Policy – Commercial purpose: Business Town Centre Zone		
Summary of Decision Requested	Retain Policy 4.5.3 Commercial purpose: Business Town Centre Zone.		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand supports Policy 4.5.3 as the provision anticipates non-commercial activities in the Business Town Centre Zone providing for a range of activities, including community activities and facilities. 		

Submitter Number:	588	Submitter:	Peter Buchan
Organisation:	Woolworths NZ Ltd		
Point Number	588.30		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.3 Policy – Commercial purpose: Business Town Centre Zone		
Summary of Decision Requested	Retain Policy 4.5.3 Commercial purpose: Business Town Centre Zone in respect of the Proposed District Plan is intended purpose for the Business Town Centre Zone, so long as the amendments sought elsewhere in this submission are incorporated into the Proposed Waikato District Plan.		

Decision Reasons:	<ul style="list-style-type: none"> The policy is supported in respect of the Proposed Waikato District Plan's intended purpose for the Business Town Centre Zone, with amendments sought.
--------------------------	--

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.6		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.3 Policy – Commercial purpose: Business Town Centre Zone		
Summary of Decision Requested	<p>Amend Policy 4.5.3 Commercial purpose: Business Town Centre Zone as follows:</p> <p>(a) <i>The role of the business town centres in Raglan, Huntly, Ngaruawahia, Te Kauwhata, Pokeno and Tuakau is strengthened by ensuring that:</i></p> <p>(i) <i>They are recognised and maintained as the primary retail, administration, commercial service and civic centre for each town; and</i></p> <p>(ii) <i>The scale of commercial activities supports their continued viability as the primary retail, administration and commercial service centre for each town; and</i></p> <p>(iii) <i>Enhances their vitality and amenity while providing for a range of commercial, residential and community activities and facilities; and</i></p> <p>(iv) <i>Opportunities for higher intensity residential development are provided to support a compact, urban form.</i></p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of the objectives and policies of the Business Town Centre Zone; however, there is no recognition in the policies that support residential activity to occur in the zone. The Business Town Centre Zone enables residential on upper floors, and therefore the policies of the zone should recognise that residential development will occur in the centres. 		

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		
Point Number	831.15		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.3 Policy – Commercial purpose: Business Town Centre Zone		
Summary of Decision Requested	<p>Amend Policy 4.5.3 Commercial Purpose: Business Town Centre Zone, to acknowledge the importance of Ultra Fast Broadband in allowing businesses to develop and reduce transport needs.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Internet and broadband are each only mentions in the definition section of the Proposed District Plan. Facilitate rollout of Ultra Fast Broadband to allow businesses to connect with the global business community. Raglan Club and Yacht Club are in Raglan's town centre and have had problems associated with them, including noise and financial viability. 		
Point Number	831.76		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.3 Policy – Commercial purpose: Business Town Centre Zone		
Summary of Decision Requested	<p>Amend Policy 4.5.3 Commercial purpose: Business Town Centre Zone, to acknowledge entertainment venues</p> <p>AND</p> <p>Add policies and rules for control and support of clubs in town centres.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Internet and broadband are each only mentioned in the definition section of the Proposed District Plan. Facilitate rollout of Ultra Fast Broadband to allow businesses to connect with the global business community. Raglan Club and Yacht Club are in Raglan's town centre and have had problems associated with them, including noise and financial viability.

Point Number	588.33		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.10 Policy – Retail: Business Town Centre Zone and Business Zone		
Summary of Decision Requested	<p>Amend Policy 4.5.10 Policy - Retail: Business Town Centre Zone and Business Zone as follows:</p> <p>(a) Locate small scale retail activities <u>and key commercial activities, including supermarkets</u> within the Business Town Centre Zone and discourage <u>other</u> large scale <u>retail</u> activities from establishing within the Business Town Centre Zone.</p> <p>(b) Locate <u>other</u> large scale <u>retain</u> and commercial activities to within the Business Zone.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential or alternative relief to give effect to the specific amendments sought.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Supports the overarching centres focus of the Proposed Waikato District Plan. Understand the intention to achieve high intensity yet fine grained town centres across the District, recognising the unique character of each settlement, however a failing in this approach is the absence of provision for supermarkets within the Business Town Centre. Supermarkets are recognised as retail anchors for centres and commercial development and act as a catalyst for investment by others. The scale and function of supermarkets unique operational and functional requirements can be managed through consideration of design, bulk and location. It is important to recognise that urban design aspirations should not be used to veto the operational and functional requirements of commercial activities in commercial zones. Supports the current approach in the Proposed District Plan that does not preclude consideration of 'out-of-centre' supermarkets where it can be demonstrated that the activity will not have adverse effects in terms of vitality and amenity of centres, nor traffic effects. Seek a number of amendments to the centre specific objectives and policies in Chapter 4.5 to ensure that the sensible outcome sought by Objective 4.5.12 is not overlooked in favour of prescriptive urban design controls.

Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.11 Policy - Residential upper floors: Business Town Centre Zone and Business Zone		
Summary of Decision Requested	Delete Policy 4.5.11(a)(ii)- Residential upper floors: Business Town Centre Zone and Business Zone.		
Decision Reasons:	<ul style="list-style-type: none"> • There may be circumstances where ground floor residences are appropriate, especially where dealing with zone or heritage interfaces. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.7		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.11 Policy - Residential upper floors: Business Town Centre Zone and Business Zone		

Summary of Decision Requested	<p>Amend Policy 4.5.11 Residential upper floors: Business Town Centre Zone and Business Zone as follows:</p> <p>4.5.11 Policy - Residential upper floors in the Business Town Centre Zone and Business Zone</p> <p>a) Maintain the commercial viability of the Business Town Centre Zone and Business Zone while:</p> <p>i. Providing for mixed use developments, ensuring residential activities are located in appropriate locations and in some cases above ground floor; and</p> <p>ii. Avoiding residential activity located at ground level where it undermines commercial retail frontage and activity.</p> <p>AND</p> <p>Add a new policy to Section 4.5 to address residential upper floors in the Business Zone as follows:</p> <p><u>4.5.11A Policy - Residential upper floors in the Business Zone</u></p> <p><u>a) Maintain the commercial viability of the Business Zone while:</u></p> <p><u>(i) Providing for mixed use developments, ensuring residential activities are located above ground floor; and</u></p> <p><u>(ii) Minimising residential activity located at ground level.</u></p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of the policy, however disagrees that residential activity should be limited to upper floors in a Business Town Centre Zone. In some cases and locations, where appropriate, mixed use development could be provided at ground level in a Business Town Centre Zone. Residential on upper floors in a Business Zone can remain as it is appropriate.

Submitter Number:	862	Submitter:	Havelock Village Limited
Point Number	862.39		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.11 Policy - Residential upper floors: Business Town Centre Zone and Business Zone		
Summary of Decision Requested	<p>Amend Policy 4.5.11 (a) Residential upper floors: Business Town Centre Zone and Business Zone, as follows:</p> <p>(a) Maintain the commercial viability of the Business Town Centre Zone and Business Zone and Neighbourhood Centre while:</p> <p>(i) Providing for mixed use developments, ensuring residential activities are located above ground floor; and</p> <p>(ii) Avoiding residential activity located at ground floor.</p> <p>OR</p> <p>If the above relief is not accepted, add site specific objectives and policies for Havelock Village including a new policy 4.2.20;</p> <p>AND</p> <p>Any consequential amendments or alternative relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter seeks to enable Neighbourhood Centres to provide for residential activities above the ground floor. With a focus on Neighbourhood Centres being within a walkable catchment and convenient for the community they serve, it is logical that residential activities are provided for. It is also noted that the Business zone and Business Town Centre Zone in the Proposed Waikato District Plan and the Neighbourhood Centre Zone in the Auckland Unitary Plan all currently provide for residential activities above ground floor. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.46		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.11 Policy - Residential upper floors: Business Town Centre Zone and Business Zone		
Summary of Decision Requested	<p>Add to Policy 4.5.11 (a)- Residential Upper Floors: Business Town Centre Zone and Business Zone as follows:</p> <p><u>(iii) Provide for mixed use developments which promote urban design protocols.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Policy 4.5.11 in principle but requests that it include promotion of the urban design protocols and guidelines as referenced in Appendix 3.3- Town Centre Guidelines. The purpose of the principles is to guide the design of environments, products and communications and describe the concepts of designing all products and the built environment to be aesthetic and usable to the greatest extent possible by everyone, regardless of age, disability or status.

Point Number	695.37		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.14 Policy – Raglan Town Centre		
Summary of Decision Requested	Delete Policy 4.5.14(a)(ii) Raglan Town Centre.		
Decision Reasons:	<ul style="list-style-type: none"> This statement is not well considered and should be deleted. In commercial areas with shops with footprints, it is impossible to not access a site by vehicle across a footpath where an access exists. Clause (a)(i) addresses the sought requirement, by stating 'prioritising and providing for pedestrian movement and safety.' This is all that needs to be stated. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
--------------------------	-----	-------------------	---------------------------------

Point Number	749.10
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.14 Policy – Raglan Town Centre
Summary of Decision Requested	Amend Policy 4.5.14 Raglan Town Centre to include desired outcomes sought from the relevant Town Centre Character Statement (Appendix 10) if the policy matter is not already addressed AND Amend Policy 4.5.14 Raglan Town Centre to remove reference to Town Centre Character Statements. AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally supports the policies set out in 4.5.14 to 4.5.19. There are desired outcomes sought in each town and village with regard to development. These are identified in Appendix 10: Town Centre Character Statements in the Proposed District Plan. The submitter opposes the inclusion of Town Centre Character Statements in the Proposed District Plan, and seeks the deletion of all Town Centre Character Statements from the Proposed District Plan (reasons outlined later in submission). Any desired outcomes sought from each town and village as currently shown in the Town Centre Character Statement should be written out into policies to the respective town centre and village in section 4.5.14 to 4.1.19, if the policy matter is not already listed or included. .

Submitter Number:	788	Submitter:	Susan Hall
Point Number	788.2		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.14 Policy – Raglan Town Centre		
Summary of Decision Requested	Delete Policy 4.5.14 (a)(v)F Raglan Town Centre.		
Decision Reasons:	<ul style="list-style-type: none"> The Proposed District Plan is hard to understand for the average person. The Raglan Naturally Plan is the 'true voice' of Raglan, and should form the basis of the planning in this area. 1.6.1 of the Proposed District Plan currently says "Raglan will retain its seaside village character as it grows, while protecting the harbour:" Raglan Naturally has firm regulations around this. Most of the coast is visible from Raglan, is part of its character and should therefore have the same protection, e.g. no apartment style housing and no development of buildings that repeat the same shape and design along the front of a section. Views should be protected, not just from peoples house, but also as people walk around the town. The sea and mountain views are what makes Raglan special, not with the tall buildings. 		

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		
Point Number	831.19		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.14 Policy – Raglan Town Centre		
Summary of Decision Requested	Delete Policy 4.5.14(a)(v)(F) Raglan Town Centre.		
Decision Reasons:	<ul style="list-style-type: none"> Most of the street corners have single storey buildings, which are, or should be, listed as heritage buildings. Raglan Town Centre is characterised by small scale buildings (one or two levels with narrow frontages). Encourage new development that is sympathetic to the existing main street built form and the surrounding context, whilst still promoting the eclectic and artistic nature of the town. Some of the attractive variety could be lost if all the town centre becomes two storey. A possible alternative could be similar to Hamilton's Special Character Areas. 		
Point Number	831.20		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.14 Policy – Raglan Town Centre		
Summary of Decision Requested	Amend Policy 4.5.14 Raglan Town Centre, to discourage and prevent use of widely used franchise signs and symbols.		
Decision Reasons:	<ul style="list-style-type: none"> It should also prevent use of widely used franchise signs and symbols, so as to maintain the image of freedom from mass development. Development can take place, but it needs to avoid changing Raglan's character and the way to do that is to have public debate on those which may change the character. 		
Point Number	831.21		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.14 Policy – Raglan Town Centre		
Summary of Decision Requested	Retain Policy 4.5.14 (a)(i) Raglan Town Centre, particularly the words "prioritising and providing for pedestrian movement and safety".		
Decision Reasons:	<ul style="list-style-type: none"> Supports a central business district mall, in whole or part. 		

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.23		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.14 Policy – Raglan Town Centre		
Summary of Decision Requested	Retain Policy 4.5.14 Raglan Town Centre AND No specific decision sought, but submission opposes Policy 4.5.14(a)(v)(F) Raglan Town Centre, particularly the change from one storey to two storeys.		

Decision Reasons:

- The submitter supports the policy but opposes a changes from one to two storeys which would change the character of Raglan's main street.

Plan chapter

Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.15 Policy – Huntly Town Centre

Summary of Decision Requested**Amend** Policy 4.5.15 Huntly Town Centre to include desired outcomes sought from the relevant Town Centre Character Statement (Appendix 10) if the policy matter is not already addressed

AND

Amend Policy 4.5.15 Huntly Town Centre to remove reference to Town Centre Character Statements.

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.**Decision Reasons:**

- The submitter generally supports the policies set out in 4.5.14 to 4.5.19.
- There are desired outcomes sought in each town and village with regard to development. These are identified in Appendix 10: Town Centre Character Statements in the Proposed District Plan.
- The submitter opposes the inclusion of Town Centre Character Statements in the Proposed District Plan, and seeks the deletion of all Town Centre Character Statements from the Proposed District Plan (reasons outlined later in submission).
- Any desired outcomes sought from each town and village as currently shown in the Town Centre Character Statement should be written out into policies to the respective town centre and village in section 4.5.14-4.5.19, if the policy matter is not already listed or included.

Organisation:	Woolworths NZ Ltd		
Point Number	588.37		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.16 Policy – Ngaaruwaahia Town Centre		
Summary of Decision Requested	<p>Amend Policy 4.5.16 Policy - Ngaaruwaahia Town Centre as follows:</p> <p>(a) Development maintains and enhances the role of the Ngaaruwaahia Town Centre by:</p> <p>(i) Maintaining wide footpaths, prioritising and providing for pedestrian movement and safety;</p> <p>(ii) Maintaining a pedestrian focus by discouraging vehicle access across footpaths;</p> <p>(iii) Promoting improved pedestrian and cycle linkages with Te Awa River ride, Ngaaruwaahia swimming pool and town centre;</p> <p>(iv) Providing for an appropriate building scale and narrow frontages;</p> <p>(v) Protecting and enhancing the character of the existing buildings centre through new built form being consistent with the outcomes of the Town Centre Character Statement for Ngaaruwaahia Town Centre (Appendix 10.2), in particular by:</p> <p>A. Recognising and promoting Ngaaruwaahia's cultural and heritage value set within the setting of the Waikato River and Hakerimata Range.</p> <p>B. Encouraging the preservation and promotion of Maori heritage;</p> <p>C. Providing transparent facades and window displays at ground level;</p> <p>D. Providing continuous suspended verandahs sheltering footpaths;</p> <p>E. Providing parking, loading and storage where rear access to buildings exists; and</p> <p>F. Promoting active street frontages by developing up to the street boundary.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential or alternative relief to give effect to the specific amendments sought.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Supports the overarching centres focus of the Proposed Waikato District Plan. Understand the intention to achieve high intensity yet fine grained town centres across the District, recognising the unique character of each settlement, however a failing in this approach is the absence of provision for supermarkets within the Business Town Centre. Supermarkets are recognised as retail anchors for centres and commercial development and act as a catalyst for investment by others. The scale and function of supermarkets unique operational and functional requirements can be managed through consideration of design, bulk and location. It is important to recognise that urban design aspirations should not be used to veto for the operational and functional requirements of commercial activities in commercial zones. Seek a number of amendments to the centre specific objectives and policies in Chapter 4.5 to ensure that the sensible outcome sought by Objective 4.5.12 is not overlooked in favour of prescriptive urban design controls. The detail in this policy is more appropriately covered by standards or assessment criteria.

AND

Amend the Proposed District Plan to make consequential or alternative relief to give effect to the specific amendments sought.

Decision Reasons:

- The content of these repetitive policies is more appropriately addressed in standards and assessment criteria.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > Business Town Centre Zone

Submitter Number: 588 **Submitter:** Peter Buchan
Organisation: Woolworths NZ Ltd

Point Number 588.43
Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > Business Town Centre Zone
Summary of Decision Requested Delete Policy 4.5.22 Landscaping - Business Town Centre Zone.
AND
Amend the Proposed District Plan to make consequential or alternative relief to give effect to the specific amendments sought.

Decision Reasons:

- The content of these repetitive policies is more appropriately addressed in standards and assessment criteria.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.23 Policy – Height: Business Town Centre Zone

Submitter Number: 588 **Submitter:** Peter Buchan
Organisation: Woolworths NZ Ltd

Point Number 588.44
Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.23 Policy – Height: Business Town Centre Zone
Summary of Decision Requested Delete Policy 4.5.23 Height - Business Town Centre Zone.
AND
Amend the Proposed District Plan to make consequential or alternative relief to give effect to the specific amendments sought.

Decision Reasons:

- The content of these repetitive policies is more appropriately addressed in standards and assessment criteria.

Submitter Number: 749 **Submitter:** Housing New Zealand Corporation

Point Number 749.16
Plan chapter Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.23 Policy – Height: Business Town Centre Zone
Summary of Decision Requested Amend Policy 4.5.23 Height: Business Town Centre Zone as follows:
a) Ensure the height of new buildings is complementary to, and promotes, a high intensity and compact built form of three storeys in each town. Ensure the height of new buildings is complementary to, and promotes, the existing character of the business town centre within each town.
AND
Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- The submitter supports this policy with a minor amendment to change the word 'character' to 'built form'.
- Character could imply the look and visual qualities of a building.
- Built form implies the height and scale of a building in an area, not the characteristics of buildings.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.24 Policy – New buildings: Business Town Centre Zone

Decision Reasons:	<ul style="list-style-type: none"> Housing New Zealand supports the intent of the 4.5.24 Policy – New Buildings: Business Town Centre Zone, however seeks the deletion of the town centre urban design guidelines from the Proposed District Plan (reasons outlined later in submission). 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > Character

Submitter Number:	588	Submitter:	Peter Buchan
Organisation:	Woolworths NZ Ltd		
Point Number	588.46		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > Character		
Summary of Decision Requested	Delete Objective 4.5.25 Character - Business Zone. AND Amend the Proposed District Plan to make consequential or alternative relief to give effect to the specific amendments sought.		
Decision Reasons:	<ul style="list-style-type: none"> The content of this repetitive objective is more appropriately addressed in standards and assessment criteria. 		

Submitter Number:	633	Submitter:	Alan Henderson
Organisation:	Van Den Brink Group		
Point Number	633.41		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > Character		
Summary of Decision Requested	No specific decision requested, but submission opposes Objective 4.5.25 Business Zone Character, where this is inconsistent with the submitter's primary relief to have their landholding re-zoned as Business.		
Decision Reasons:	<ul style="list-style-type: none"> The objective only requires maintenance of character - this is not consistent with developing new business areas to support residential growth. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.26 Policy – Landscaping of onsite parking areas – Business Zone

Organisation:	Van Den Brink Group		

Point Number	633.44
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.28 Policy – Height: Business Zone
Summary of Decision Requested	Retain Policy 4.5.28 Height - Business Zone, insofar as it gives effect to the relief sought.
Decision Reasons:	<ul style="list-style-type: none"> • Supports intention of these policies to manage effects in the Business Zone (and on other more sensitive activities in adjoining zones) subject to the relief sought by the submitter.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.29 Policy – New buildings: Business Zone

Submitter Number:	588	Submitter:	Peter Buchan
Organisation:	Woolworths NZ Ltd		
Point Number	588.1		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.29 Policy – New buildings: Business Zone		
Summary of Decision Requested	Delete Policy 4.5.29 New Buildings - Business Zone. AND Amend the Proposed District Plan to make consequential or alternative relief to give effect to the specific amendments sought.		
Decision Reasons:	<ul style="list-style-type: none"> • The content of these repetitive policies is more appropriately addressed in standards and assessment criteria. 		

Submitter Number:	589	Submitter:	Z Energy Ltd
Point Number	589.4		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.29 Policy – New buildings: Business Zone		
Summary of Decision Requested	Amend Policy 4.5.29 New Buildings: Business Zone, as follows: <i>(a) New buildings within the Business Zone are consistent with the Waikato District Council Urban Design Guidelines Town Centres (Appendix 3.3), and in particular:</i> <i>(i) Responds to the specific site characteristics and wider street;</i> <i>(ii) Promotes architectural form, building features and placement;</i> <i>(iii) Provides landscape and open space design that responds to the characteristics and qualities of the area;</i> <i>(iv) Minimises visual and visual amenity impacts of accessways and parking facilities; and</i> <i>(v) Accommodates pedestrian access and safety.</i> <u>Except that where an activity has a specific functional or operational design or layout requirement, to consider (i) - (v) in the context of the following:</u> <i>(i) the investment in existing activities;</i> <i>(ii) the nature of the existing environment;</i> <i>(iii) the degree to which new buildings have been designed to address the street and the street edge, to the degree practicable, and otherwise to mitigate the visual impact of blank walls, including through design features or landscaping; and</i> <i>(iv) the degree to which visibility of and for pedestrians is maintained and pedestrian movements along the footpath can be prioritised.</i> AND Amend the Proposed District Plan, including consequential amendments, to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • Does not make satisfactory provision for the continued use and redevelopment of existing commercial use and redevelopment of existing commercial sites. • There is a need to recognise that there are business activities which have a different form and function, but which are appropriately located in a business environment. • Service stations are activities that provide important functions for the public and the design requirements of service stations mean that many of the requirements within the Proposed District Plan will not be able to be met. It is important that their operating requirements are accommodated. To do otherwise would be inefficient and ineffective and will generate greater costs than benefits. 		

Submitter Number:	633	Submitter:	Alan Henderson

Summary of Decision Requested	Retain Policy 4.5.32 Adjoining site amenity as notified.
Decision Reasons:	<ul style="list-style-type: none"> No reason provided.

Submitter Number:	633	Submitter:	Alan Henderson
Organisation:	Van Den Brink Group		
Point Number	633.49		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.32 Policy – Adjoining site amenity		
Summary of Decision Requested	Delete Policy 4.5.32(a)(ii) Adjoining site amenity to reduce height adjoining residential or reserve zoned land. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Policy 4.5.31 Reverse sensitivity is a duplicate of Policy 4.5.42 Adjoining site amenity. The policy is not supported by the rules and is inconsistent with the relief sought elsewhere in the submission. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.19		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.32 Policy – Adjoining site amenity		
Summary of Decision Requested	Retain Policy 4.5.32 Adjoining site amenity, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this policy. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > Reverse sensitivity

Submitter Number:	588	Submitter:	Peter Buchan
Organisation:	Woolworths NZ Ltd		
Point Number	588.3		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > Reverse sensitivity		
Summary of Decision Requested	Delete Policy 4.5.33 Reverse sensitivity. AND Amend the Proposed District Plan to make consequential or alternative relief to give effect to the specific amendments sought.		
Decision Reasons:	<ul style="list-style-type: none"> No reason provided. 		

Submitter Number:	633	Submitter:	Alan Henderson
Organisation:	Van Den Brink Group		
Point Number	633.48		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > Reverse sensitivity		
Summary of Decision Requested	Retain Policy 4.5.33 Reverse Sensitivity, insofar as it gives effect to the relief sought.		
Decision Reasons:	<ul style="list-style-type: none"> Supports the intention of the objective to protect amenity values, subject to the relief sought elsewhere in the submission. Policy 4.5.33 is a duplicate of Policy 4.5.31. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.40		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > Reverse sensitivity		
Summary of Decision Requested	Delete Policy 4.5.33 Reverse sensitivity.		
Decision Reasons:	<ul style="list-style-type: none"> This clause repeats itself in intent with slightly different working as in Policy 4.5.31 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.76		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > Reverse sensitivity		
Summary of Decision Requested	<p>Add a new clause (b) to Policy 4.5.33 Reverse sensitivity as follows (or similar amendments to achieve the requested relief):</p> <p><i>(a) Reverse sensitivity is managed by ensuring residential activities and development within the Business Town Centre Zone and Business Zone are acoustically insulated to mitigate the adverse effects of noise.</i></p> <p><i>(b) Reverse sensitivity is managed by providing sufficient setbacks to provide for residents' safety and amenity.</i></p> <p>AND</p> <p><i>Any consequential amendments to link and/or accommodate the requested changes.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> The policies applying to each zone requiring setbacks from the railway corridor should include reference to the purpose of the setback. Existing and sought changes to the Plans objectives lend sufficient support the need for setbacks for amenity and safety, and the efficient integration of development and infrastructure. Adding an additional item to these plan sections will also facilitate assessment of situations where the proposed 5 metre Building setback - railway corridor rule cannot be met, or it is inappropriate to require compliance. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.36 Policy – Signage

Submitter Number:	588	Submitter:	Peter Buchan
Organisation:	Woolworths NZ Ltd		
Point Number	588.6		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.36 Policy – Signage		
Summary of Decision Requested	<p>Amend Policy 4.5.36 Signage as follows:</p> <p><i>(a) In the Business Town Centre and Business Zone provide for:</i></p> <p><i>i. The establishment of signs where they are associated with the activity carried out on the site on which they are located;</i></p> <p><i>ii. Public information signs that are of benefit to community well-being; and</i></p> <p><i>iii. Establishment of signage to support the commercial function and vibrancy of the zones with controls on the site, location, appearance and number of signs to ensure they do not detract from the visual amenity of the surrounding environment, including avoiding, remedying or mitigating adverse effects arising from illumination, light spill, flashing or reflection;</i></p> <p><i>iv. Control of the location, colour, content and appearance of signs directed at traffic are controlled to ensure signs do not distract, confuse or obstruct motorists, pedestrians and other road users;</i></p> <p><i>v. the placement of signs that do not obstruct the free movement of:</i></p> <p><i>A. Pedestrians along the footpath;</i></p> <p><i>B. Vehicle use of the road carriageway.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential or alternative relief to give effect to the specific amendments sought.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Assessment of signage in commercial zones needs to consider the importance of corporate branding for consistency and cohesion and ensure that consideration sites along the urban design aspirations for the centres in the district. Businesses need to be instantly recognisable for customers and not "watered down" to achieve a character

Decision Reasons:	<ul style="list-style-type: none">The submitter supports Policy 4.5.38 (a)(iii).		

Submitter Number:	825	Submitter:	John Lawson
Point Number	825.30		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > 4.5.38 Policy – Artificial outdoor lighting		
Summary of Decision Requested	Add a new clause (iv) to Policy 4.5.38 Artificial outdoor lighting as follows (or similar wording): <u><i>iv. Artificial outdoor lighting is installed and operated so that light spill does not contribute to pollution of the night sky,</i></u>		
Decision Reasons:	<ul style="list-style-type: none">Light pollution can cause adverse impacts to wildlife and migratory birds and disrupt their normal patterns of behaviour. Collectively our villages and towns contribute to the wider adverse impacts. All exterior lighting should have shields to force lighting towards the ground.While there are rules such as 6.2.3 relating to glare and artificial light spill that must not exceed 10 lux measured horizontally and vertically within any other site, there are no policies dealing with the adverse effects of night sky pollution. As there is a rush to LED use because of cost savings, LED lights need to be coated with phosphor that converts the blue light to yellow to avoid the adverse effects of blue light.		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > Earthworks

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.16		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > Earthworks		

Summary of Decision Requested	Add to Policy 4.5.41 Earthworks a new line as follows: <u>Manage the earthworks site to ensure that resources at the site are safe and to minimise the risk of victimisation</u>
Decision Reasons:	<ul style="list-style-type: none"> • Development sites are crime attractors • Vehicles, tools and diesel have previously been targeted by criminals • The inclusion of this wording ensures that there is an obligation through council policy to consider safety at development sites • This should result in reduced victimisations, making people safe and feel safe.

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.52		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.5 Business and Business Town Centre Zones > Earthworks		
Summary of Decision Requested	Retain Policy 4.5.41 Earthworks, except for the amendments sought below. AND Add a new clause 'b' to Policy 4.5.41 Earthworks as follows: (a)... (b) <u>Earthworks are designed and undertaken in a manner that they do not adversely affect historic heritage and cultural values.</u>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports Policy 4.5.41 Earthworks in part as this policy does not reflect the need to provide for the protection of historic and cultural values at the time of earthworks. • The policy needs to be amended to reflect the need to give effect to s6 of the Resource Management Act.

Point Number	581.7		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.6 Industrial and Heavy Industrial Zones		
Summary of Decision Requested	<p>Add a new objective and policy that recognises the adverse effects arising from General Industrial and Heavy Industrial Zones may require different management approaches with more lenient standards in the Heavy Industrial Zone being appropriate.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The current wording of Objective 4.6.6 is about managing effects on sensitive activities and ecosystem values outside industrial zones. It does not consider managing adverse effects between the two industrial zones. • Managing effects approach should include the location of the zones. • The role of the General Industrial Zone is to provide a buffer between Heavy industrial Zones and more sensitive zones. • This policy approach would in turn enable different standards of management of environmental effects between the two zones, allowing the Heavy Industrial Zone to provide for heavier activities which have more noise, odour, heavy traffic etc.

Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.6 Industrial and Heavy Industrial Zones > 4.6.3 Policy – Maintain a sufficient supply of industrial land		
Summary of Decision Requested	Retain Policy 4.6.3 Maintain a sufficient supply of industrial land as notified insofar as it gives effect to the relief sought.		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter supports intention of the policy to enable a sufficient supply of Industrial Zoned land. • Support the policy insofar as it gives effect to the relief sought. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.6 Industrial and Heavy Industrial Zones > 4.6.4 Policy – Maintain industrial land for industrial purposes

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.140		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.6 Industrial and Heavy Industrial Zones > 4.6.4 Policy – Maintain industrial land for industrial purposes		
Summary of Decision Requested	Retain Policy 4.6.4 Maintain industrial land for industrial purposes.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports this Policy as it will assist with maintaining the Future Proof settlement pattern, retaining industrial activities primarily within identified industrial nodes and managing reverse sensitivity issues. (Note WVRPS Policies 6.1, 6.14 and Section 6A.) 		

Submitter Number:	302	Submitter:	Jeremy Talbot
On behalf of:	EnviroWaste New Zealand Limited	Organisation:	Barker & Associates Limited

Point Number	302.35
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.6 Industrial and Heavy Industrial Zones > 4.6.4 Policy – Maintain industrial land for industrial purposes
Summary of Decision Requested	Retain Rule 4.6.4 Maintain industrial land for industrial purposes insofar as it gives effect to the relief sought.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intention of the policy to enable ancillary activities related to industrial activities; however, this is not reflected in the Land Use provisions.

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.59		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.6 Industrial and Heavy Industrial Zones > 4.6.4 Policy – Maintain industrial land for industrial purposes		
Summary of Decision Requested	Retain Policy 4.6.4 Maintain industrial land for industrial purposes, to the extent that it anticipates ancillary non-industrial activities in the Industrial Zone AND Add new clause (b) to Policy 4.6.4 Maintain industrial land for industrial purposes, as follows: <i>(b) Enable emergency services facilities that provide for the health, safety and well-being of the community and that service or support and identified local need.</i> AND Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand supports in part Policy 4.6.4 to the extent that the provision anticipates ancillary non-industrial activities in the Industrial Zone, but considers that the provisions focus on the management of effects, rather than an outcome that provides clear direction in relation to the appropriateness of some non-industrial activities in the Industrial Zones. For instance providing for emergency services that have a functional and operational need to be located in close proximity to the communities they serve. Amendments sought better achieve the purpose of the RMA by providing for the health and safety of people and communities.

Point Number	81.142		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.6 Industrial and Heavy Industrial Zones > 4.6.7 Policy – Management of adverse effects within industrial zones		
Summary of Decision Requested	Retain Policy 4.6.7 Management of adverse effects within industrial zones.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports this Policy as it assists with giving effect to the WRPS direction relating to the need to have regard to reverse sensitivity effects. (Note WRPS Policy 6.1 and Section 6A) • The submission should be read in conjunction with submission point 81.146 (submission on Objective 4.6.6). 		
Submitter Number:	302	Submitter:	Jeremy Talbot
On behalf of:	EnviroWaste New Zealand Limited	Organisation:	Barker & Associates Limited
Point Number	302.38		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.6 Industrial and Heavy Industrial Zones > 4.6.7 Policy – Management of adverse effects within industrial zones		

Summary of Decision Requested	Retain the intent of Policy 4.6.7 Management of adverse effects within industrial zones insofar as it gives effect to the relief sought.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intention of this objective to manage adverse effects on sensitive activities in other zones and ecosystems; however, the provisions are unnecessarily restrictive and could be modified as per the submitter's relief to achieve the same outcome.

Submitter Number:	465	Submitter:	Buckland Marine Limited
Point Number	465.9		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.6 Industrial and Heavy Industrial Zones > 4.6.7 Policy – Management of adverse effects within industrial zones		
Summary of Decision Requested	Amend Policy 4.6.7 Management of adverse effects within industrial zones, as follows: (a) <i>Manage adverse effects including visual impact from buildings, parking, loading spaces and outdoor storage, lighting, noise, odour and traffic by managing the location of industrial uses, bulk and form of buildings, landscaping and screening where appropriate.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the management of adverse effects from within the Industrial Zone. It is considered that road frontage is an important aspect for many industrial premise and requiring screening at the interface with roads is impractical. Landscaping is supported if it is consistent with the nature and purpose of the Industrial Zone and does not impact on the proposed land use. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.72		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.6 Industrial and Heavy Industrial Zones > 4.6.7 Policy – Management of adverse effects within industrial zones		
Summary of Decision Requested	Retain Policy 4.6.7 - Management of adverse effects within industrial zones as notified.		
Decision Reasons:	Supports policy 4.6.7 as notified.		

Submitter Number:	581	Submitter:	Penny Gallagher
Organisation:	Synlait Milk Ltd		
Point Number	581.8		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.6 Industrial and Heavy Industrial Zones > 4.6.7 Policy – Management of adverse effects within industrial zones		
Summary of Decision Requested	Amend Policy 4.6.7 Management of adverse effects within industrial zones to address management of adverse effects through the location of zones (relative to more sensitive environments) and the use of the General Industrial Zone as a buffer.		
Decision Reasons:	<ul style="list-style-type: none"> Managing effects approach should include the location of the zones. The role of the General Industrial Zone is to provide a buffer between Heavy Industrial Zones and more sensitive zones. This policy approach would in turn enable different standards of management of environmental effects between the two zones, allowing the Heavy Industrial Zone to provide for heavier activities which have more noise, odour, heavy traffic etc. 		
Point Number	581.9		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.6 Industrial and Heavy Industrial Zones > 4.6.7 Policy – Management of adverse effects within industrial zones		
Summary of Decision Requested	Amend Policy 4.6.7 Management of adverse effects within industrial zones so that "significant" adverse effects from heavy industrial sites are managed and mitigated where practicable but otherwise that adverse effects (that are not significant) should be considered consistent with the environmental outcomes anticipated for heavy industrial activity.		
Decision Reasons:	<ul style="list-style-type: none"> The policy approach for management of adverse effects does not distinguish between general and heavy industrial zones. There needs to be an appropriate zone for Heavy industry which allows heavy industry to produce adverse effects with a more lenient threshold than general industry and general industry should buffer those zones from sensitive activities. There is no policy for protecting heavy industry within Heavy Industrial Zones from encroaching residential and sensitive activities. 		

Submitter Number:	633	Submitter:	Alan Henderson
Organisation:	Van Den Brink Group		
Point Number	633.8		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.6 Industrial and Heavy Industrial Zones > 4.6.7 Policy – Management of adverse effects within industrial zones		
Summary of Decision Requested	Retain Policy 4.6.7 Management of adverse effects within industrial zones, insofar as it gives effect to the relief sought.		
Decision Reasons:	<ul style="list-style-type: none"> Supports the intention of the objective to manage adverse effects on sensitive activities in other zones and ecosystems. The provisions are unnecessarily restrictive and could be modified to achieve the same outcome. 		

Submitter Number:	766	Submitter:	Nicky Hogarth
Organisation:	Holcim (New Zealand) Limited		

Point Number	766.40
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.6 Industrial and Heavy Industrial Zones > 4.6.7 Policy – Management of adverse effects within industrial zones
Summary of Decision Requested	Retain Policy 4.6.7 Management of adverse effects within industrial zones insofar as it gives effect to the relief sought.
Decision Reasons:	<ul style="list-style-type: none"> • Submitter supports the intention of this objective to manage adverse effects on sensitive activities in other zones and ecosystems, however provisions are unnecessarily restrictive and could be modified as per the submitter's relief to achieve the same outcome.

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.67		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.6 Industrial and Heavy Industrial Zones > 4.6.7 Policy – Management of adverse effects within industrial zones		
Summary of Decision Requested	Retain Policy 4.6.7- Management of adverse effects within industrial zones.		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter supports this Policy as it assists with giving effect to the Waikato Regional Policy Statement's direction relating to the need to have regard to reverse sensitivity effects, which can have potential to negatively impact community health and wellbeing. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.73		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.6 Industrial and Heavy Industrial Zones > 4.6.7 Policy – Management of adverse effects within industrial zones		
Summary of Decision Requested	<p>Add a new clause (b) to Policy 4.6.7 Management of adverse effects within industrial zones as follows (or similar amendments to achieve the requested relief):</p> <p><i>(a) Manage adverse effects including visual impact from buildings, parking, loading spaces and outdoor storage, lighting, noise, odour and traffic by managing the location of industrial uses, bulk and form of buildings, landscaping and screening at the interface with roads and environmentally sensitive areas.</i></p> <p><i>(b) Manage Reverse sensitivity by providing sufficient setbacks buildings to provide for residents' safety and amenity.</i></p> <p>AND</p> <p><i>Any consequential amendments to link and/or accommodate the requested changes.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • The policies applying to each zone requiring setbacks from the railway corridor should include reference to the purpose of the setback. • Existing and sought changes to the Plans objectives lend sufficient support the need for setbacks for amenity and safety, and the efficient integration of development and infrastructure. • Adding an additional item to these plan sections will also facilitate assessment of situations where the proposed 5 metre Building setback - railway corridor rule cannot be met, or it is inappropriate to require compliance. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.6 Industrial and Heavy Industrial Zones > 4.6.8 Policy – Specific activities within Nau Mai Business Park

Point Number	81.143		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.1 Objective – Subdivision and Land Use Integration		
Summary of Decision Requested	Retain Objective 4.7.1 Subdivision and Land Use Integration.		
Decision Reasons:	<ul style="list-style-type: none"> This will give effect to the WRPS Policies 6.1, 6.3 and Section 6A regarding a planned, co-ordinated approach to subdivision, use and development and infrastructure provision. 		

Submitter Number:	368	Submitter:	Ian McAlley
Point Number	368.12		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.1 Objective – Subdivision and Land Use Integration		
Summary of Decision Requested	Amend Objective 4.7.1 Subdivision and land use integration, to read as follows: <i>Subdivision layout and design facilitates the land use outcomes sought for the residential, business, industrial, reserve and specific purpose zones, ensuring development occurs in the most efficient means possible to achieve the defined purpose of the zone.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Objective 4.7.1 'Subdivision and Land Use Integration' should be amended to recognise that where land has been zoned for a particular purpose efficient and effective development of land for that purpose is the focus of the process after the land has been rezoned. 		
Decision Reasons:			

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.46		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.1 Objective – Subdivision and Land Use Integration		
Summary of Decision Requested	Retain Objective 4.7.1 Subdivision and Land Use Integration, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The objective provides a suitable context in which urban development policies are to be derived. 		

Submitter Number:	862	Submitter:	Havelock Village Limited
Point Number	862.40		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.1 Objective – Subdivision and Land Use Integration		

Summary of Decision Requested	Retain Objective 4.7.1 Subdivision and Land Use Integration
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports promoting the connection between subdivision layout design and the land use outcomes sought for the identified zones.

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.68		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.1 Objective – Subdivision and Land Use Integration		
Summary of Decision Requested	Retain Objective 4.7.1- Subdivision and land use integration as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Will give effect to the Waikato Regional Policy Statement Policies 6.1, 6.3 and Section 6A regarding a planned, coordinated approach to subdivision, use and development and infrastructure provision, and recognises the significance of community safety through environmental design. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > Layout and Design

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.554		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > Layout and Design		
Summary of Decision Requested	Delete the heading “Layout and Design” that is between Objective 4.7.1 Subdivision and land Use Integration and Policy 4.7.2 Subdivision location and design.		
Decision Reasons:	<ul style="list-style-type: none"> Provides consistency of layout and is superfluous. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.2 Policy – Subdivision location and design

Submitter Number:	198	Submitter:	Katherine Wilson
Organisation:	Property Council New Zealand		
Point Number	198.21		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.2 Policy – Subdivision location and design		
Summary of Decision Requested	Retain Policy 4.7.2 Layout and Design – Subdivision location and design.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter has long supported the development of infrastructure, buildings and designs that support quality urban design. Quality urban design is important in contributing to the overall design of the community and landscape. Urban design principles are important to ensure that buildings are functional and sustainable. 		

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.62		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.2 Policy – Subdivision location and design		
Summary of Decision Requested	Retain Policy 4.7.2 Subdivision location and design except for the amendments sought below. AND Add to Policy 4.7.2(a) subdivision location and design a new point as follows: <i>(g)(v), promote safe communities through quality urban design, including conforming to the national guidelines for CPTED.</i> AND Add to Policy 4.7.2 Subdivision location and design a new point between (vi) and (vii) as follows: <i>Ensure adequate accessibility for emergency services and other services vehicles (including the provision of an adequate turning circle and road widths when roads are in use and taking into consideration parked vehicles at the road side.)</i>		
Decision Reasons:	<ul style="list-style-type: none"> To ensure that there is an obligation to consider safety and CPTED, reducing victimisation, making people safe and feel safe. To ensure that there is an obligation to consider access by emergency services and other service vehicles. This is of specific concern and has been problematic in some new development under the authority of Auckland Council. 		

Submitter Number:	302	Submitter:	Jeremy Talbot
On behalf of:	EnviroWaste New Zealand Limited	Organisation:	Barker & Associates Limited

Point Number	302.39
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.2 Policy – Subdivision location and design
Summary of Decision Requested	Add an exclusion to Policy 4.7.2 Subdivision location and design for Industrial Zones. AND Amend the Proposed District Plan to make consequential amendments or additional amendments to address the matters raised in the submission.
Decision Reasons:	<ul style="list-style-type: none"> The policy requires subdivision design and layout to adhere to a grid pattern, which enables public viewing for all urban zones, which are unnecessarily restrictive for industrial development. As industrial areas are generally of a "lower amenity" than town center or residential areas, and subject to less pedestrian thoroughfare, there is no reason to require industrial areas to adhere to the same amenity standards as residential and other higher amenity zones.

Submitter Number:	368	Submitter:	Ian McAlley
Point Number	368.13		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.2 Policy – Subdivision location and design		
Summary of Decision Requested	Delete Policy 4.7.2 (a)(i) Subdivision location and design.		
Decision Reasons:	<ul style="list-style-type: none"> Policy 4.7.2 (a)(i) should be deleted, consideration of these matters should have occurred at the time the land was being zoned. 		
Point Number	368.39		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.2 Policy – Subdivision location and design		
Summary of Decision Requested	Delete Policy 4.7.2 (a)(iii) Subdivision location and design.		
Decision Reasons:	<ul style="list-style-type: none"> Policy 4.7.2 (a)(iii) should be deleted, "view sharing" appears to be an undefined term and therefore is difficult to provide for it. 		
Point Number	368.40		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.2 Policy – Subdivision location and design		
Summary of Decision Requested	Delete Policy 4.7.2 (a)(vii) Subdivision location and design.		
Decision Reasons:	<ul style="list-style-type: none"> Policy 4.7.2 (a)(vii) should be deleted, promotion of a grid layout is a design nicety which does not suit all sites because of shape and/or topography and/or existing road connections. Also some of the indicative roading layouts contained in the Proposed Plan are not shown in a grid pattern, therefore there is incongruence within the Proposed Plan. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.87		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.2 Policy – Subdivision location and design		
Summary of Decision Requested	Add a new clause (viii) to Policy 4.7.2 (a) Subdivision location and design, as follows: <i>(a) Ensure subdivision, is located and designed to:</i> ... <i>(viii) recognises and addresses issues at the rural/urban interface.</i> AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> While reverse sensitivity is addressed in Policy 4.7.11 as an urban outcome, Policy 4.7.2 Subdivision location and design, would also be improved by putting this at the forefront of subdivision location and design consideration.

Point Number	662.47		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.2 Policy – Subdivision location and design		
Summary of Decision Requested	<p>Amend Policy 4.7.2(a)(vii) Subdivision location and design as follows:</p> <p><u>(vii) Promote consistent grid layout where it suits character and topographical constraints.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the policy in part as a grid layout is the most efficient subdivision design, hence the current wording of the policy is considered redundant. Notes that that clause (viii) runs contrary to Policy 4.7.3(vii). 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.43		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.2 Policy – Subdivision location and design		
Summary of Decision Requested	<p>Delete Policy 4.7.2(a)(vii) Subdivision location and design.</p>		
Decision Reasons:	<ul style="list-style-type: none"> It does not achieve good quality subdivision design. It directly promotes static predictable roads that promote inappropriately fast and unsafe driving in residential areas. 		

- A consistent grid layout is an obsolete form of subdivision design.
- A slight variation of short block lengths (not in excess of 200m) curved streets and where appropriate narrowed design of roading can assist safety through wider berms and visibility of public space.
- Fencing to front building lines instead of the front boundary assists this.
- Roads in a residential area are a place to exercise, for kids to play and to provide surveillance and interaction opportunity between neighbours.
- Roads are not just a place for cars.

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.70		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.3 Policy – Residential subdivision		
Summary of Decision Requested	Retain Policy 4.7.3- Residential Subdivision as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Will give effect to the Waikato Regional Policy Statement Policies 6.1, 6.3 and Section 6A regarding a planned, coordinated approach to subdivision, use and development and infrastructure provision and recognises the significance of community safety through environmental design. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.4 Policy – Lot sizes

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.200		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.4 Policy – Lot sizes		
Summary of Decision Requested	Amend Policy 4.7.4 (b) Lot sizes to support appropriate urban outcomes for the Village Zone, and provide for more intense development in locations immediately adjacent to Business Town Centre Zones.		
Decision Reasons:	<ul style="list-style-type: none"> Submitter is concerned in Policy 4.7.4(b) that the minimum lot sizes in the Village Zone (particularly Te Kowhai and Tuakau) appear to promote rural outcomes rather than urban outcomes, and will not achieve the sustainable, compact urban form necessary to support efficient, effective transport and infrastructure. The submitter is generally supportive of the min site area (450m2) for urban residential areas across the district but notes their other submission points seeking higher densities and more intensive subdivision pattern in the Residential Zone immediately adjacent to the Business Town Centre zones. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.88		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.4 Policy – Lot sizes		
Summary of Decision Requested	Add a new clause (c) to Policy 4.7.4 Lot sizes, as follows: <i>(c) encourage a density of development that supports intensification of existing urban areas rather than urban sprawl on to rural production land.</i> AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Achieving sufficient density is an outcome to support infrastructure provision and is important to encourage intensification and avoid urban sprawl onto rural production land. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.46		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.4 Policy – Lot sizes		
Summary of Decision Requested	Amend Policy 4.7.4 lot size to include shape, required setbacks, and slope, especially for Raglan and Pokeno.		
Decision Reasons:	<ul style="list-style-type: none"> Minimum lot sizes are only one factor of good quality subdivision design. Account needs to be taken for shape, required setbacks and slope to provide a viable building platform. From the submitter's experience of subdivision, especially in and around Pokeno and Raglan, these factors need to be taken account of with rules designed to accommodate these considerations. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.97		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.4 Policy – Lot sizes		

Summary of Decision Requested	<p>Retain Policy 7.4.7 Lot sizes, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 4.7.4- Lot sizes as follows:</p> <p><i>(a) Minimum lot size and dimension of lots enables the achievement of the character and density outcomes of each zone; and</i> <i>(b) Smaller lots size and multi-unit development promoted within walking distance to existing Town Centres, public amenities and public transport.</i> <i>(c) Smaller lots size and multi-unit development promoted within new greenfield sites where the land is within walking distance to amenities and reserves.</i> <i>(d) Avoid undersized lots in the Village Zone.</i></p>
Decision Reasons:	<ul style="list-style-type: none"> • Support Policy 4.7.4 (a). • This policy needs to be expanded to cover multi-unit development. • There is a need to promote intensification to achieve compact development to support future public transport. • For public transport to be viable higher densities within walking distance from a transport station needs to be promoted. • The policy needs to reflect that in residential areas the density is higher. • This is important for Tuakau and Pokeno where a commuter train from Auckland to Hamilton is under discussion. • As the Plan has one residential zone it needs to identify through the objectives and policies locations where medium density development is appropriate and encourage higher densities in appropriate locations. • The Plan should specify that multi-unit development and smaller lots are encouraged close to Town Centres, public amenities and public transport stations. • This will ensure the Strategic objectives are met by encouraging higher densities within a walkable distance to existing amenities. • The rural areas of Tuakau contain versatile soils that are used for rural production activities. • These soils contribute significantly to both regional and national food supply. • Intensification of urban land at higher densities should be encouraged within Tuakau residential areas to ensure that land supply requirements meet while preserving the soil resources. • The maximisation of the lands residential development potential will future proof the capacity of land supply to avoid further encroachment into the rural area past the lifetime of this Plan. • Intensification and higher densities should be encouraged in appropriate locations to avoid additional sprawl into the rural areas.

Submitter Number:	751	Submitter:	Chanel Hargrave and Travis Miller
Point Number	751.1		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.4 Policy – Lot sizes		
Summary of Decision Requested	<p>Retain Policy 4.7.4(a) Lot sizes except for the amendments sought below.</p> <p>AND</p> <p>ADD two new clauses to Policy 4.7.4 Lot sizes as follows:</p> <p><i>(b) Smaller lots size and multi-unit development promoted within walking distance to existing Town Centres, public amenities and public transport.</i> <i>(c) Smaller lots size and multi-unit development promoted within new greenfield sites where the land is within walking distance to amenities and reserves.</i> <i>(d) Avoid undersized lots in the Village Zone.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • The policy needs to be expanded to cover multi-unit development. There is a need to promote intensification to achieve compact development to support future public transport. • Policy needs to reflect that in residential areas the density is higher. • This is important for Tuakau and Pokeno, where a commuter train from Auckland to Hamilton is under discussion. • The Residential Zone needs to provide for medium density development appropriately. • The rural areas of Tuakau contain versatile soils which are used for rural production activities and contribute significantly to both regional and national food supply. Intensification within Tuakau residential areas should be encouraged to avoid further encroachment into the rural area past the lifetime of this Plan. 		

Submitter Number:	862	Submitter:	Havelock Village Limited
Point Number	862.14		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.4 Policy – Lot sizes		
Summary of Decision Requested	Retain Policy 4.7.4 Lot sizes		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the use of minimum lot sizes and dimensions to enable the achievement of the character and density outcomes sought for each zone. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.71		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.4 Policy – Lot sizes		
Summary of Decision Requested	Amend Policy 4.7.4- Lot Sizes to support appropriate urban outcomes for the Village Zone.		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter is concerned that in Policy 4.7.4 (b) the minimum lot sizes in the Village Zone (particularly Te Kowhai and Tuakau) appear to promote rural rather than urban outcomes, and will not achieve the sustainable, compact urban form necessary to support efficient, effective transport and infrastructure and walkability. 		
Point Number	923.72		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.4 Policy – Lot sizes		
Summary of Decision Requested	Amend Policy 4.7.4- Lot Sizes to provide for more intense development in locations immediately adjacent to Business Town Centre Zones.		
Decision Reasons:	<ul style="list-style-type: none"> • While generally supportive of the minimum site area of 450m2 for urban residential areas across the district, there are locations where higher densities and a more intensive subdivision pattern is suitable, to promote walkable neighbourhoods and connectivity with commercial and community services. This is relevant in particular locations within the Residential Zone immediately adjacent to the Business Town Centre Zones. 		

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.201		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.5 Policy – Servicing requirements		
Summary of Decision Requested	Retain Policy 4.7.5 Servicing requirements.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this Policy as it will assist with giving effect to the 'WRPS' policy direction in regard to a planned, co-ordinated approach to subdivision, use and development and infrastructure provision, achieving compact urban environments, and having regard to reverse sensitivity effects.

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.33		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.7 Policy – Achieving sufficient development density to support the provision of infrastructure services		
Summary of Decision Requested	<p>Retain Policy 4.7.7 Achieving sufficient development density to support the provision of infrastructure services, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 4.7.7 Achieving sufficient development density to support the provision of infrastructure services, to address the inconsistency with Policy 4.7.6 Co-ordination between servicing and development and subdivision.</p> <p>AND</p> <p>Define the terms "maximum potential yield" and "minimum potential yield."</p> <p>AND</p> <p>Amend Policy 4.7.7 Achieving sufficient development density to support the provision of infrastructure services, to recognise that other constraints may also affect yield beyond geotechnical constraints including the need to achieve good urban design outcomes and provide for land transport infrastructure.</p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of Policy 4.7.7, however notes it is inconsistent with Policy 4.7.6 which requires all development and subdivision to be located in an area subject to an approved structure plan. The submitter supports structure planning as a tool, particularly for new areas of development. The submitter requests clarification where and when it is appropriate to develop without a structure plan and the inconsistencies between the policies is addressed. There is insufficient clarity regarding the terms "maximum potential yield" and "minimum potential yield". The Transport Agency considers the policy needs to ensure that good urban design is not compromised to achieve "maximum potential yield". Requiring a development to maximise the potential yield purely on the number of lots (which is presumably the measure intended) may lead to compromises in other areas, such as provision of infrastructure (as they will be restricted to the absolute minimum rather than what is optimal) and lead to loss of amenity, etc. In addition, there may be other constraints on yield apart from geotechnical constraints.

Organisation:	Holcim (New Zealand) Limited		
Point Number	766.43		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.7 Policy – Achieving sufficient development density to support the provision of infrastructure services		
Summary of Decision Requested	Retain Policy 4.7.7(a) Achieving sufficient development density to support the provision of infrastructure services, to the extent that the industrial lot sizes are retained or reduced.		
Decision Reasons:	<ul style="list-style-type: none"> • Policy 4.7.7(a) supports maximising yield for subdivision, of which submitter supports to the extent industrial lot sizes are retained or reduced. • Proposed lot sizes are considered as a minimum for the efficient use of land designated for industrial activities, whilst enabling provision for industrial subdivision. • The Policy in its current form would also support a reduction in the average or minimum lot size. 		

Submitter Number:	862	Submitter:	Havelock Village Limited
Point Number	862.17		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.7 Policy – Achieving sufficient development density to support the provision of infrastructure services		
Summary of Decision Requested	Retain Policy 4.7.7 Achieving sufficient development density to support the provision of infrastructure services		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports maximising the potential yield for a zone to support the provision of infrastructure. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.75		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.7 Policy – Achieving sufficient development density to support the provision of infrastructure services		
Summary of Decision Requested	Review the extent of the live zoning and its ability to be serviced with infrastructure. OR Consider including much stronger development staging rules which are linked to the provision of infrastructure and development of structure plans.		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter supports this policy as it will assist with giving effect to the Waikato Regional Policy Statement's policy direction in regard to a planned, coordinated approach to subdivision, use and development and infrastructure provision, achieving compact urban environments, and having regard to reverse sensitivity effects, which can have potential to negatively impact community health and wellbeing. • The submitter has concerns around the approach of 'live zoning' significant areas of land rather than undertaking a staged approach. Should council continue with live zoning there should be a much stronger approach to staging which is tied to infrastructure provision and structure planning. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.8 Policy – Staging of subdivision

Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.11 Policy – Reverse sensitivity		
Summary of Decision Requested	Amend Policy 4.7.11 (b) Reverse sensitivity, as follows: <i>(b) Avoid potential reverse sensitivity effects of locating new dwellings in the vicinity of <u>farming including horticulture</u>, an intensive farming, extraction industry or industrial activity.</i> AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> A policy of avoidance of potential reverse sensitivity effects should not be limited to existing intensive farming and industrial activities in Tuakau. 		

Submitter Number:	451	Submitter:	Steven & Teresa Hopkins
Point Number	451.4		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.11 Policy – Reverse sensitivity		
Summary of Decision Requested	Amend Policy 4.7.11 (b) Reverse sensitivity, as follows: Avoid <u>Manage</u> potential reverse sensitivity effects of locating new dwellings in the vicinity of an intensive farming, extraction industry or industrial activity.		
Decision Reasons:	<ul style="list-style-type: none"> The use of the word 'avoid' makes this policy too onerous with regards to the relationship between sensitive activities and effects-intensive activities. Multiple options exist for the mitigation of potential reverse sensitivity. 		

Submitter Number:	464	Submitter:	Perry Group Limited
Point Number	464.7		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.11 Policy – Reverse sensitivity		
Summary of Decision Requested	Amend Policy 4.7.11 Reverse sensitivity, as follows: <u>Reverse sensitivity effects can be mitigated in many circumstances (for example, through consent conditions or land covenants).</u> <i>(a) Development and subdivision design minimises reverse sensitivity effects arising from current uses on adjacent sites, adjacent activities, or the wider environment; and</i> <i>(b) Avoid, minimise or appropriately mitigate potential reverse sensitivity effects of locating new dwellings in the vicinity of an intensive farming, extraction industry or industrial activity.</i> AND Any consequential amendments or further relief to address the concerns raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> It will promote the sustainable management of resources. It will achieve the purpose of the Resource Management Act 1991 ("the RMA"). It is not contrary to Part 2 and other provisions of the RMA. 		

Submitter Number:	466	Submitter:	Brendan Balle
Organisation:	Balle Bros Group Limited		
Point Number	466.39		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.11 Policy – Reverse sensitivity		
Summary of Decision Requested	Amend Policy 4.7.11 Reverse sensitivity to avoid potential reverse sensitivity effects of locating new dwellings near existing commercial vegetable production activities.		
Decision Reasons:	<ul style="list-style-type: none"> Minimising reverse sensitivity should include commercial vegetable production activities. 		

Submitter Number:	524	Submitter:	Anna Noakes
Point Number	524.20		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.11 Policy – Reverse sensitivity		
Summary of Decision Requested	Retain Policy 4.7.11 Reverse sensitivity, except for the amendments sought below AND Amend the Proposed District Plan to encourage new residential areas to be developed where topographical or physical constraints provide a natural separation between conflicting land uses,(eg roads/rails lines, significant planted areas as the buffer) in accordance with Policy 4.7.11(a) and (b) Reverse sensitivity.		
Decision Reasons:	<ul style="list-style-type: none"> Support in part. While the Policies discuss protecting against reverse sensitivity, identified areas for Residential development with communities such as Pokeno do not contain any buffer between the proposed residential and existing rural environment. Residential development, has the potential to impact on existing farming operations whether or not they are intensive in nature, and/or may be negatively impacted by existing farming practices. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.10		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.11 Policy – Reverse sensitivity		
Summary of Decision Requested	Retain the recognition of reverse sensitivity in Policy 4.7.11 Reverse sensitivity, except for the amendments sought below. AND Amend Policy 4.7.11 (b) Reverse sensitivity, as follows (or equivalent references to Regionally Significant Infrastructure or the National Grid): <i>(b) Avoid potential reverse sensitivity effects of locating new dwellings in the vicinity of an intensive farming, <u>infrastructure</u>, extraction industry or industrial activity.</i> AND Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter would support specific recognition of the reverse sensitivity effects of locating new dwellings in the vicinity of infrastructure. The inclusion of reference to infrastructure would not be inconsistent with the notified references to intensive farming and extractive or industrial activities. It is noted that while the sought amendment refers to 'Infrastructure' to align with the terminology used in the Proposed District Plan, the submitter would support the reference being specific to Regionally Significant Infrastructure or the National Grid. The submitter supports the provision of policy providing for the clearance of Indigenous vegetation in Significant Natural Areas for certain circumstances as the policy recognizes there are some activities for which clearance is required. 		

Submitter Number:	598	Submitter:	Withers Family Trust
Point Number	598.26		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.11 Policy – Reverse sensitivity		
Summary of Decision Requested	Retain Policy 4.7.11 Reverse sensitivity. AND Amend the Proposed District Plan to encourage new Residential areas to be developed where topographical or physical constraints provide a natural separation between conflicting land uses, for example, roads, railway lines, significant planted areas could be used as a buffer.		
Decision Reasons:	<ul style="list-style-type: none"> While policies discuss protecting against reverse sensitivity, areas identified for residential development (such as Pokeno) are not buffered from rural activities and may therefore give rise to reverse sensitivity issues between proposed residential and existing rural environment. Residential development has the potential to impact on existing farming operations whether or not they are intensive in nature and/or may be negatively impacted by existing farming practices. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.48		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.11 Policy – Reverse sensitivity		
Summary of Decision Requested	Amend Policy 4.7.11(b) Reverse sensitivity as follows: <i>Avoid potential reverse sensitivity effects of locating new dwellings in the <u>buffer setback</u> vicinity of an <u>existing</u> (or <u>approved</u>), intensive farming, extraction industry or industrial activity unless the written approval of the activity operator has been obtained.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The clause needs to be re-phrased to be able to be practically applied. 		

- The above indicates that such activities should be shown on the Planning Maps as an overlay.

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.35		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.11 Policy – Reverse sensitivity		
Summary of Decision Requested	<p>Retain Policy 4.7.11 Reverse sensitivity, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 4.7.11 Reverse sensitivity as follows:</p> <p>(a) <i>Development and subdivision design minimises <u>potential for</u> reverse sensitivity...; and</i></p> <p>(b) <i>Avoid potential <u>for</u> reverse sensitivity effects of locating new dwellings in the vicinity of an intensive farming, extraction industry or industrial activity, <u>or infrastructure</u>.</i></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the intent of Policy 4.7.11 but requests minor amendments to recognise infrastructure as an existing land use. 		

Submitter Number:	771	Submitter:	Alison Brown
Organisation:	Bathurst Resources Ltd and BT Mining Ltd		
Point Number	771.9		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.11 Policy – Reverse sensitivity		
Summary of Decision Requested	Retain Policy 4.7.11(b) Reverse Sensitivity as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Supports the recognition of reverse sensitivity issues. 		

Submitter Number:	797	Submitter:	Fonterra Limited
Point Number	797.10		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.11 Policy – Reverse sensitivity		
Summary of Decision Requested	Retain Policy 4.7.11 Reverse sensitivity as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The provisions provide appropriate direction in respect of the avoidance of reverse sensitivity effects. 		

Submitter Number:	860	Submitter:	Aggregate and Quarry Association (AQA) and Straterra
Point Number	860.4		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.11 Policy – Reverse sensitivity		
Summary of Decision Requested	<p>Retain Policy 4.7.11(b) Reverse sensitivity</p> <p>AND</p> <p>Amend Policy 4.7.11 (b) Reverse sensitivity to include areas set aside where new mines and quarries may be located.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Due to the nature of the extractive sector and its impacts - including noise, vibration and dust, it is for the benefit and comfort of residents as well as the general public, to not allow new dwellings in the vicinity of extraction activity. • The same should also apply to areas set aside where new mines and quarries may be located. 		

Submitter Number:	862	Submitter:	Havelock Village Limited
Point Number	862.21		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.11 Policy – Reverse sensitivity		
Summary of Decision Requested	<p>Amend Policy 4.7.11 Reverse Sensitivity as follows:</p> <p>Avoid <u>Manage</u> potential reverse sensitivity effects of locating new dwellings in the vicinity of an intensive farming, extraction industry or industrial activity.</p> <p>OR</p> <p>If the above relief is not accepted, add site specific objectives and policies for Havelock Village, including a new Policy 4.2.20;</p> <p>AND</p> <p>Any consequential amendments or alternative relief to give effect to the matters raised in the submission.</p>		

Decision Reasons:	<ul style="list-style-type: none"> The proposed policy requires potential reverse sensitivity effects to be 'avoided'. This wording is too restrictive and does not recognise the potential for reverse sensitivity effects to be managed through appropriate design measures.
--------------------------	---

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.79		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.11 Policy – Reverse sensitivity		
Summary of Decision Requested	<p>Review the extent of the live zoning and its ability to be serviced with infrastructure.</p> <p>OR</p> <p>Consider including much stronger development staging rules which are linked to the provision of infrastructure and development of structure plans.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Submitter supports this policy as it will assist with giving effect to the Waikato Regional Policy Statement's policy direction in regard to a planned, coordinated approach to subdivision, use and development and infrastructure provision, achieving compact urban environments, and having regard to reverse sensitivity effects, which can have potential to negatively impact community health and wellbeing. The submitter has concerns around the approach of 'live zoning' significant areas of land rather than undertaking a staged approach. Should council continue with live zoning there should be a much stronger approach to staging which is tied to infrastructure provision and structure planning. 		

Submitter Number:	924	Submitter:	Alice Barnett
Organisation:	Genesis Energy Limited		
Point Number	924.46		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.11 Policy – Reverse sensitivity		
Summary of Decision Requested	<p>Amend Policy 4.7.11 - Reverse Sensitivity as follows:</p> <p><i>(b) Avoid potential reverse sensitivity effects of locating new dwelling sensitive activities in the vicinity of an intensive farming, extraction industry or industrial activity.</i></p> <p>AND</p> <p>Add clause (c) to Policy 4.7.11 - Reverse Sensitivity as follows:</p> <p><i>(c) <u>Avoid potential reverse sensitivity effects of locating new sensitive activities in the vicinity of Regionally Significant Industry or Regionally Significant Infrastructure.</u></i></p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Policy 4.7.11 Reverse Sensitivity but considers it be amended to explicitly refer to existing and proposed regionally significant industry and regionally significant infrastructure in the same way it refers to intensive farming, extraction industry and industrial activity and to replace "dwellings" with "sensitive activities." 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.24		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.11 Policy – Reverse sensitivity		
Summary of Decision Requested	<p>Retain Policy 4.7.11 Reverse sensitivity except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 4.7.11(a) Reverse sensitivity as follows (or similar amendments to achieve the requested relief):</p> <p><i>(a) <u>Development and subdivision design minimises reverse sensitivity effects on adjacent sites, adjacent lawfully established activities (including infrastructure) or the wider environment; and</u></i></p> <p><i>(b) <u>Avoid the potential for reverse sensitivity effects from the location of new dwellings in the vicinity of an intensive farming, extraction industry or industrial activity, or infrastructure;</u></i></p> <p><i>(c) <u>Development of noise-sensitive activities is designed to avoid or mitigate reverse sensitivity effects on transport networks</u></i></p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail supports the policy which seeks to ensure that any urban development addresses reverse sensitivity effects. While there are policies in the Infrastructure section supporting this, it is important that the effects of subdivision on the safety and efficiency of existing network utilities such as land transport networks are considered at the time of subdivision. Good subdivision design can address many issues for example; stormwater arrangements, noise bunds and lot design. The addition of the term 'lawfully established activities' reflects its use in 5.6.3 Policy – Subdivision within the Country Living Zone. In addition, there are no targeted policies relating to KiwiRail's standards to manage reverse sensitivity effects. The requested changes relate to the setbacks (i.e. adjacent to the corridor, acoustic controls, access at level crossings) and other mitigation required to achieve sustainable development. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.12 Policy – Boundary adjustments and relocations

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.49		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.12 Policy – Boundary adjustments and relocations		

Summary of Decision Requested	Delete Policy 4.7.12(a) Boundary adjustments and relocations.
Decision Reasons:	<ul style="list-style-type: none"> This is a superfluous statement as it states the obvious and does not require the applicant to undertake any specific action. It clutters the Proposed District Plan with unnecessary statements.

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.13 Policy – Residential Zone – Te Kauwhata Ecological and West Residential Areas

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.209		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.13 Policy – Residential Zone – Te Kauwhata Ecological and West Residential Areas		
Summary of Decision Requested	Amend Policy 4.7.13 (a)(i) Residential Zone – Te Kauwhata Ecological and West Residential Areas as follows: Promote Protect the natural features and landscapes of the Whangamarino Wetland and Lake Waikare;		
Decision Reasons:	<ul style="list-style-type: none"> To promote consistency with the WRPS, Policy 4.7.13 (a)(i) should read 'protect' rather than promote the natural features and landscapes of Whangamarino Wetland and Lake Waikare. 		

Submitter Number:	368	Submitter:	Ian McAlley
Point Number	368.41		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.13 Policy – Residential Zone – Te Kauwhata Ecological and West Residential Areas		
Summary of Decision Requested	Amend Policy 4.7.13 (b) Residential zone Te Kauwhata Ecological and West Residential Areas, as follows: (b)Subdivision is designed and located in the Te Kauwhata West Residential Area to achieve the minimum lot size. and recognise the views of natural features and landscapes. OR Delete Policy 4.7.13 -Residential Zone -Te Kauwhata Ecological and West Residential Areas and rely on the standard Residential Zone provisions.		
Decision Reasons:	<ul style="list-style-type: none"> Achieving the minimum lot size will still not achieve the applicable outcomes sought in terms of residential density under the Waikato Regional Policy Statement and therefore the standard Residential Zone provisions are more applicable. The recognition of "the views of natural features and landscapes" is a vague concept open to too much subjective interpretation to be applicable and therefore should be deleted from the Policy. The Te Kauwhata West Residential Area proposed minimum and average lot size will not achieve the applicable outcomes sought in terms of residential density under the Waikato Regional Policy Statement. As such the Proposed Plan will not be giving effect to the Regional Policy Statement, therefore the standard Residential Zone provisions are more applicable. Policy 4.7.13 – Residential Zone – Te Kauwhata Ecological and West Residential Areas (b) only requires that "Subdivision is designed and located in the Te Kauwhata West Residential Area to achieve the minimum lot size ..." therefore the proposed average lot size, being significantly larger than the minimum is not supported by the applicable policy. 		

Plan chapter: Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.14 Policy – Structure and master planning

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.208		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.14 Policy – Structure and master planning		
Summary of Decision Requested	Retain Policy 4.7.14 Structure and master planning.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this Policy as it will assist with giving effect to the WRPS' policy direction in regard to a planned, co-ordinated approach to subdivision, use and development and infrastructure provision, achieving compact urban environments, and having regard to reverse sensitivity effects. 		

Submitter Number:	368	Submitter:	Ian McAlley
Point Number	368.42		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.14 Policy – Structure and master planning		
Summary of Decision Requested	Amend Policy 4.7.14 Structure and Master Planning to clarify that it only refers to structure or master plans that are contained within the notified version of the Proposed Plan.		
Decision Reasons:	<ul style="list-style-type: none"> Policy 4.7.14 – Structure and master planning needs to be amended to clarify that it only refers to structure or master plans that are contained within the notified version of the Proposed Plan, otherwise new provisions within the Proposed Plan could be referring to documents outside of the Plan that submitters have not had the chance to consider and submit on. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.91		

Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.14 Policy – Structure and master planning		
Summary of Decision Requested	Amend Policy 4.7.14 (a) Structure and master planning, as follows: <i>(a) Ensure that development and subdivision within approved structure or master plan areas is integrated with the development pattern and infrastructure requirements specified in an approved structure or master plan <u>and addresses issues at the rural/urban interface.</u></i>		
	AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Structure or master plans in other areas of the Pukekohe 'hub' have failed to account for the relationship of rural production activities at the rural/urban interface.

Organisation:	BTW Company		
Point Number	445.7		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.14 Policy – Structure and master planning		
Summary of Decision Requested	Retain 4.7.14 Policy - Structure and master planning as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Developer led and Council led structure planning should be encouraged to reach up front agreements with local communities on the essential bulk and location standards to create developments suited to the location rather than a 'one size fits all' approach or ad hoc development. 		

Submitter Number:	524	Submitter:	Anna Noakes
Point Number	524.21		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.14 Policy – Structure and master planning		
Summary of Decision Requested	Delete from Policy 4.7.14 Structure and master planning the references to Structure Plans and Master Plans.		
Decision Reasons:	<ul style="list-style-type: none"> Opposed to the reference to Structure Plans/Master Plans. The Environment Court has questioned the legality of the use of Structure Plans/Master Plans and the like where the activity status of a proposal is determined through such documents. The need for owners of properties within a 'Structure Plan' area to collaborate over development in accordance with 'required' Structure Plan provisions is questionable. It is not clear in the document what is meant by Master plans and where they are referenced in the rules. 		

Submitter Number:	581	Submitter:	Penny Gallagher
Organisation:	Synlait Milk Ltd		
Point Number	581.10		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.14 Policy – Structure and master planning		
Summary of Decision Requested	Amend Policy 4.7.14 Structure and master planning to refer to approved structure or master plans that are either included within or incorporated by reference into the Proposed District Plan.		
Decision Reasons:	<ul style="list-style-type: none"> This scenario would mean that landowners and developers may be forced to comply with a Structure Plan which they have not had any ability to submit on in accordance with Schedule 1 processes of the RMA. 		

Submitter Number:	598	Submitter:	Withers Family Trust
Point Number	598.32		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.14 Policy – Structure and master planning		
Summary of Decision Requested	Delete Policy 4.7.14 Structure and master planning.		
Decision Reasons:	<ul style="list-style-type: none"> Oppose reference to structure plans/master plans. The Environment Court has questioned the legality of structure plans and master plans and the like which determine the activity status of a proposal. 		

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.1		
Plan chapter	Section B Objectives and Policies > Chapter 4: Urban Environment > 4.7 Urban Subdivision and development > 4.7.14 Policy – Structure and master planning		
Summary of Decision Requested	Amend Policy 4.7.14 Structure and master planning as follows (or words to similar effect): <i>(a) Ensure that development and subdivision within approved structure or master plan areas is integrated, <u>where physically reasonable</u>, with the <u>general</u> development pattern and infrastructure requirements specified <u>conceptually provided for</u> in an approved structure or master plan.</i>		

Decision Reasons:	<ul style="list-style-type: none"> It is important to note that the function of high-level growth planning documents should not unreasonably constrain specific land use within the district. There has been little to no on-site investigations as to the location of intersections or transportation corridors thus resulting in unreasonable constraints. Supports the aim to integrate land use developments with preceding approved structure plans, however seeks that appropriate flexibility is provided to account for specific on-site variables.

Point Number	697.555		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment		
Summary of Decision Requested	<p>Amend Chapter 5 Rural Environment navigation box as follows:</p> <p>The following objectives and policies apply to the Rural Zone. Specific policies apply to Hamilton's Urban Expansion Area (Objective 5.5.1 and Policies 5.5.1 and 5.5.2) and the following Specific Areas: · Agricultural Research Centres (Policy 5.3.16) · Huntly Power Station Coal and Ash Water (Policy 5.3.17) · Whaanga Coast Development Areas (Policy 5.3.18); and · Hamilton's Urban Expansion Area (Objective 5.5.1 and Policies 5.5.1 and 5.5.2).</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Would provide clarity to the reader by rearranging the content. 		

Submitter Number:	724	Submitter:	Sue Robertson
Organisation:	Tamahere Community Committee		
Point Number	724.14		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment		
Summary of Decision Requested	<p>Retain Chapter 5: Rural Environment provisions which address the protection of quality soils so they remain for production of food.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Quality soils need to remain available for food production. 		

Submitter Number:	738	Submitter:	Shand Properties Limited
Point Number	738.3		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment		
Summary of Decision Requested	<p>Amend Chapter 5 to clarify the scope of the application of the objectives and policies in the "Rural Environment" and which zone(s) the objectives and policies apply to.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • It is not clear which of the "Rural Environment" objectives and policies apply just in the Rural Zone and which apply to other zones in the "Rural Environment" chapter, including the Country living Zone. For example under the Chapter 5 heading it states "The following objectives and policies apply to the Rural Zone", but the chapter structure and the wording in some of the objectives and policies suggest they may be intended to have wider application. 		

Submitter Number:	821	Submitter:	The Poultry Industry Association of New Zealand; I Brinks NZ Chicken; The Egg Producers Federation of
Point Number	821.5		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment		
Summary of Decision Requested	<p>Add to Chapter 5 Rural Environment a separate policy for poultry hatcheries, as follows:</p> <p><u>To enable, poultry hatchery operations to be located where the anticipated effects are consistent with the underlying zone.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Include a separate policy for poultry in the Rural Zone. 		

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.34		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment		
Summary of Decision Requested	<p>Add provisions within Chapter 5: Rural Environment as follows (or words to similar effect), if the Waikato North Head mine sites retains a Rural Zone</p> <p><u>Objective</u></p> <p><u>(1) The iron sand resource at Waikato North Head is effectively and efficiently utilised.</u></p> <p><u>Policies</u></p> <p><u>(1) Provide for iron sand mining and associated activities at the Aggregate Extraction Area identified at Waikato North Head.</u></p> <p><u>(2) Avoid, remedy or mitigate any significant adverse effects associated with activities at the Aggregate Extraction Area identified at Waikato North Head that require resource consent under the Waikato District Plan.</u></p> <p>AND</p> <p>Add rules to Chapter 22 Rural Zone to enable specified activities within the Aggregate Extraction Area at Waikato North Head to be a permitted activity (see submission for specific details).</p> <p>AND</p> <p>Any other further or consequential amendments required.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Alternative to the specific zone, New Zealand Steel proposes to amend the applicable provisions within the Rural Zone. 		

- The Aggregate Extraction Area overlay may be amended to be made appropriate to the Waikato North Head site with update provisions which recognise the existing activities and the extent of future authorised activities, along with providing for reverse sensitivity issues adjacent to the site.
- The Proposed District Plan currently contains no specific rules which relate to mining activities within the Aggregate Extraction area, and therefore it is unclear how the Rural Zone rules apply.
- Given the context of the site, the submitter considers the Rural Zone permitted activity conditions are inappropriate, including those relating to earthworks and building height and therefore specific rules relating to the Aggregate Extraction Area would be more appropriate.

Submitter Number:	833	Submitter:	Phil Page
On behalf of:	Mainland Poultry Limited		
Point Number	833.8		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment		
Summary of Decision Requested	Amend Chapter 5 Rural Environment to provide for poultry farming where it can meet the performance standards.		
Decision Reasons:	<ul style="list-style-type: none"> • Poultry farming does not result in adverse effects on soils or in contamination of soils or water and is therefore more consistent with the policies and objectives of the Proposed District Plan and the Regional Policy Statement, than other intensive farming and many permitted farming activities.

Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment		
Summary of Decision Requested	Amend the Objective 5.1 The Rural Environment to maintain, enhance and improve the environment.		
Decision Reasons:	<ul style="list-style-type: none"> • Most money gained from mining exploits does not get re-invested locally and employment opportunities are short-sighted. • Long term physical and psychological effects on workers and local residents are not considered. Most rural employees, who are farmers, travel long distances and are sleep deprived. They are unable to hold jobs of their own and therefore fall back on benefits or take sick leave. • Income from consents and applications should be future-proofed to provide benefit to all locals, rather than being limited to rehabilitation at the conclusion of works. Roads in the vicinity of the submitter's property are rarely upgraded to accommodate the extra traffic burden. • Planting required in the resource consent is only along one boundary and only follows one road. This means that sound in every direction is not absorbed and there is an ugly visual impact from all directions of travel. • Noise has impacted on mating seasons and the browsing patterns of animals. 		

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.129		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment		
Summary of Decision Requested	Amend Section 5.1 The Rural Environment so that urban subdivision use and development is appropriate to circumstance, in particular for properties such as the submitters' at 295 Kay Road, Horsham Downs.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitters' property has been dislocated from rural land use by the Waikato expressway and Resolution Drive. • It is unreasonable to have an objective that limits urban subdivision in an area that is marked future urban. • Landowners such as the submitters are penalised by development. • Fragmentation by NZTA/Alliance road development and future demand by Hamilton City for Housing. 		
Point Number	330.140		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment		
Summary of Decision Requested	Amend Section 5.1 The Rural Environment so that it does have primacy over all other objectives as it is not suitable for all properties.		
Decision Reasons:	<ul style="list-style-type: none"> • Objective 5.1.1 is not suitable for all properties in particular those such as the submitters' property. • The submitters' property has been dislocated from rural land use by the Waikato expressway and Resolution Drive. • It is unreasonable to have an objective that limits urban subdivision in an area that is marked future urban. • Landowners such as the submitters are penalised by development. • Fragmentation by NZTA/Alliance road development and future demand by Hamilton City for Housing. 		

Submitter Number:	406	Submitter:	Barry Green
Organisation:	Rushala Farm Ltd		
Point Number	406.1		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment		
Summary of Decision Requested	No specific decision sought, but the submission indicates opposition to Section 5.1 The Rural Environment, and states: "Been told what and how we can subdivide our land".		
Decision Reasons:	<ul style="list-style-type: none"> • Consider it should be the right of the landowner who pays rates to have input into subdivision • Land use is the only way a farmer can survive. • Council does not understand the costs involved in compliance and restraints mean that farming is becoming less viable. 		

- Subdivision is a way that some farmers can survive and reduce their debt.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.56		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment		
Summary of Decision Requested	<p>Amend Chapter 5 Rural Environment, to include a new policy as follows:</p> <p><u>5.1.2 Policy – enabling growth</u></p> <p><u>(g) Provide for the growth and efficient operation of primary, productive land use and rural production activities in the Rural Zone.</u></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • This new policy is required as consequential relief sought in relation to Objective 5.1.1. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.140		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment		
Summary of Decision Requested	Amend Section 5.1: The Rural Environment as necessary to reflect and give effect to the amendments sought throughout the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter is generally supportive of the Rural Zone objectives and policies, however, seek any changes necessary to give effect to the amendments sought throughout the submission. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.21		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment		
Summary of Decision Requested	Retain Objective 5.1 - The Rural Environment as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports this objective. 		

Submitter Number:	761	Submitter:	Lyndendale Farms Limited
Point Number	761.12		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment		
Summary of Decision Requested	<p>Amend Section 5.1- The Rural Environment, Section 5.2- Productive Versatility of Rural Resources and Section 5.3- Rural Character and Amenity to provide for Retirement Village Development within the Rural Zone, only at 180 Horsham Downs Road, Horsham Downs.</p> <p>AND</p> <p>Amend the Proposed District Plan to make any consequential amendments that are required to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The Rural Zone is considered an appropriate zone for a Retirement Village. • Amendments are required to the Rural Zone policy framework for the Rural Zone to recognize and provide for the Retirement Village development at 180 Horsham Downs Road. 		

Submitter Number:	781	Submitter:	Ministry of Education
Point Number	781.4		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment		
Summary of Decision Requested	<p>Add a new policy in Chapter 5: Rural Environment to provide for education facilities in the rural environment as follows:</p> <p><u>Policy - Education Facilities within the Rural Environment</u></p> <p><u>To allow activities which are compatible with the role, function and predominant character of the Rural Environment, while managing the effects of the activities on the environment, including;</u></p> <p><u>Education facilities</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • There are no policies that currently provide for education facilities in the rural environment. • Education facilities such as schools, community education, early childhood education, tertiary education institutions, work skills training centres, outdoor education centres and sports training establishments located within rural areas are essential social infrastructure required to support rural areas. 		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment > 5.1.1 Objective – The rural environment

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.210		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment > 5.1.1 Objective – The rural environment		
Summary of Decision Requested	Amend Objective 5.1.1(a)(i) The rural environment to incorporate peat soils as follows (for example): <i>high class soils and peat soils are protected for productive rural activities.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The Objective gives effect to WRPS Implementation Method 14.2.1 regarding high class soils and supporting productive rural activities; • WRPS Provisions related to the Built Environment, including 6.1.5 and 6A regarding urban subdivision, use and development. • Peat soils form a substantial component of Waikato District's soils, and are another valuable soil resource for the District. • There is an opportunity to also seek peat soils to be protected for productive rural activities in this objective, giving effect to Policy 14.5 of the WRPS. 		

Submitter Number:	197	Submitter:	Jeska McHugh
Organisation:	NZ Pork		
Point Number	197.4		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment > 5.1.1 Objective – The rural environment		
Summary of Decision Requested	Amend Objective 5.1.1 The rural environment, as follows: <i>(a) Subdivision, use and development within the rural environment where:</i> <i>(i) high class soils and rural production land is are protected for productive rural activities;</i> <i>(ii) productive rural activities are supported, while maintaining or enhancing the rural environment;</i> <i>(iii) urban subdivision, use and development in the rural environment is avoided.</i> <i>(iv) managing the opportunities for countryside living in rural areas in ways that provide for rural-residential development in close proximity to urban areas and the larger towns and villages while minimising the loss of rural production land.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports a strong strategic objective for the rural environment • The objective should be extended to the projection of rural land for productive purposes as while high-class soils are important, so too is the productive capacity of rural land more generally. • The submitters suggest the strategic directive should also contain a direction on managing countryside living. 		

Submitter Number:	281	Submitter:	Zeala Ltd
Organisation:	Trading as Aztech Buildings		
Point Number	281.4		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment > 5.1.1 Objective – The rural environment		
Summary of Decision Requested	Retain Objective 5.1.1 (a)(i) and (ii) The rural environment.		
Decision Reasons:	<ul style="list-style-type: none"> • The primacy of this Objective is supported. • Productivity of the Rural Sector is of National importance. • Primary Objective of Rural Environment recognises this importance. • Rules need to be consistent with this Policy. 		

Submitter Number:	311	Submitter:	Harpal Singh-Sandhu
Point Number	311.1		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment > 5.1.1 Objective – The rural environment		
Summary of Decision Requested	Retain Objective 5.1.1 The rural environment, except for the amendments sought below AND Amend Objective 5.1.1 The rural environment, as follows: <i>(a) Subdivision, use and development within the rural environment where:</i> <i>(i) high class soils are reasonably and appropriately protected for productive rural activities;</i> <i>(ii) productive rural activities are supported, while maintaining or enhancing the rural environment;</i> <i>(iii) urban subdivision, use and development in the rural environment is avoided.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter generally supports the principle that typical urban subdivision, use and development should not be encouraged within the rural environment, particularly within properties with high-class soils. • Reasonable and appropriate subdivision that supports the amenity and purpose of the rural environment and communities should be considered, with particular regard to sites that do not sufficiently support the overall operation of rural activities. 		

Submitter Number:	330	Submitter:	Andrew and Christine Gore

Point Number	676.1		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment > 5.1.1 Objective – The rural environment		
Summary of Decision Requested	Retain Objective 5.1.1 – The Rural Environment; AND Amend the Proposed District Plan to provide a definition for "productive rural activities" which should include both production of raw products and also the processing of such products and ancillary activities as are acceptable within the Rural Zone; AND Any further or consequential amendments necessary to address the concerns raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Given the significance of the objective for the application of policies and rules within the Rural Zone, a definition of productive rural activities should be provided. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.55		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment > 5.1.1 Objective – The rural environment		
Summary of Decision Requested	Amend Objective 5.1.1 (a) The rural environment, as follows: (a) Subdivision, use and development within the rural environment where: (i) high class <u>and versatile</u> soils are protected <u>for primary productive use and to maintain the productive land resources for future generations</u> rural activities ; (ii) productive primary productive use and rural activities are supported and enabled in a manner which does not reduce existing primary productive use or compromise existing and future primary productive use options; while maintaining or enhancing the rural environment; (iii) urban subdivision use and development in the rural environment is avoided <u>the use and development of rural resources enables people and communities to provide for their economic, social and cultural wellbeing</u> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> Agriculture is significant to the district, both in economic terms and for the basis of district identity as a thriving and successful rural region. 		

- Primary production activities such as dairying, dry stock and horticulture make significant contributions to the economic, social and cultural well-being of the district. The submitter believes that the Proposed District Plan needs to adopt a more balanced and considered response between resource use and resource protection.
- Any decisions, policies or rules relating to the sustainable management of the district's rural land and soils must recognise the economic, social and cultural wellbeing that rural activities provide to the district and wider region.
- The submitter supports a high priority being given to maintaining the productive capacity of rural land resource. Sustaining the primary sector activities dependent on this land is critical to providing for current and future generations, however it is difficult to do this too prescriptively. For example, a stony soil that may be identified as appropriate for alternative non rural use may be highly productive for one particular land use.
- The submitter supports a flexible approach to managing the effects of land use on the soils of the district, one that is based on flexible, enabling objectives and policies.
- The submitter considers these amendments are required to better meet the Waikato Regional Policy Statement Objective 3.25 Values of soils and Policy 14.2 directives.

Submitter Number:	686	Submitter:	Reid Crawford Farms Limited
Point Number	686.2		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment > 5.1.1 Objective – The rural environment		
Summary of Decision Requested	Retain Objective 5.1.1 The Rural environment, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The Waikato District encompasses valuable areas of high class soils that are of primary importance for food production both regionally and nationally. • Supports the strength of the wording of the objective. • Protecting these soils from adverse effects of inappropriate use and development is of national importance and is recognised with a NPS for Versatile Land and High Class Soils under consideration. • Urban subdivision is an inefficient use of rural production land. Urban subdivision, particularly ad-hoc subdivision, may undermine the integrated development of identified townships and expansion areas. 		

Submitter Number:	693	Submitter:	Alstra (2012) Limited
Point Number	693.2		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment > 5.1.1 Objective – The rural environment		
Summary of Decision Requested	Retain Objective 5.1.1 The Rural Environment as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Supports the vision to ensure that subdivision, use and development within the rural environment are contained or restricted especially where (ii) and (iii) are concerned • While it is the intention of the Council to seek the zoning of the two Alstra properties on Great South and River Roads as Residential, from Rural, they are still rural activities that can be impacted by urban style by urban style subdivision • These activities are specifically located within the rural environment to counteract the perceived effect on the urban dweller, provided appropriate rules are put in place to provide reverse sensitivity protection for these ongoing operations. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.50		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment > 5.1.1 Objective – The rural environment		
Summary of Decision Requested	No specific decision sought with regards to Objective 5.1.1(a)(i) The rural environment, but the submission states that the matter of high class soils fragmentation could be fully solved/avoided by: <ul style="list-style-type: none"> • Ensuring any Rural Zoned lots over 20ha can undertake a transferable rural lot subdivision; and • On lesser sized Rural Zones land where high class soils exist, enabling a rural lot transfer option. <p>AND</p> <p>Council should reconsider the exclusion of transferable rural lot rights.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • This is option is not currently provided for. • This would eliminate any concern over fragmenting high-class soils and reduction of viable production land in the area. • The certificate of title would record the parent land has had such a subdivision and cannot be further subdivided under that provision via a Section 221 consent notice. • Created lots would have to occur within a define zoned location, not on the subdivided site (except to prove viability). • It will eliminate the need to fragment high class soil on lesser sized rural zoned land, where high class soils exist. • The relief sought is consistent with the Proposed District Plan objective to protect rural land soil resources.

Point Number	746.100		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment > 5.1.1 Objective – The rural environment		
Summary of Decision Requested	Retain Objective 5.1.1- The rural environment as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The Waikato District encompasses valuable areas of high class soils that are of primary importance for food production both regionally and nationally. • Protecting these soils from adverse effects of inappropriate use and development that may impact their life-supporting capacity is of national importance, this is now being recognised with a national policy statement for Versatile Land and High Class Soils under consideration. • Urban subdivision is an inefficient use of rural production land. Urban subdivision, particularly ad-hoc subdivision, may undermine the integrated development of identified townships and expansion areas. • The submitter supports the strength of wording in this objective and agrees that urban development within the Rural Environment is an outcome contrary to the intent of the Proposed Plan and should be avoided. 		

Submitter Number:	777	Submitter:	Radio New Zealand Limited
Point Number	777.1		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment > 5.1.1 Objective – The rural environment		
Summary of Decision Requested	<p>Retain Objective 5.1.1 The rural environment, especially Objective 5.1.1(a)(iii), except for the amendments sought below;</p> <p>AND</p> <p>Amend 5.1.1 Objective - The rural environment as follows:</p> <p><i>Subdivision, use and development is <u>provided for</u> within the rural environment where:</i></p> <p>...</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Supports the policy. • The requested text results in this objective being expressed more clearly. 		

Submitter Number:	794	Submitter:	Middlemiss Farm Holdings Limited
Point Number	794.11		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment > 5.1.1 Objective – The rural environment		
Summary of Decision Requested	<p>Amend Objective 5.1.1 The rural environment as follows:</p> <p><i>Objective 5.1.1 is the strategic objective for the rural environment and has primacy over all other objectives in Chapter 5.</i></p> <p><i>(a) Subdivision, use and development within the rural environment where:</i></p> <p><i>(i) high class soils are protected for productive rural activities;</i></p> <p><i>(ii) productive rural activities are supported, while maintaining and enhancing the rural environment;</i></p> <p><i>(iii) urban subdivision, use and development in the rural environment is avoided, <u>and other subdivision is managed.</u></i></p> <p>AND</p> <p>Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Based on the Council's own evidence there is no doubt that a significant resource management issue for the District is biodiversity loss, which continues to be at risk due to vegetation clearance, stock intrusion, animal and pest degradation, degradation of the margins for estuarine wetlands by stock. • The submitter is concerned that the Proposed District Plan is largely focused on only protecting existing Significant Natural Areas and ignores restoring, linking and expanding indigenous biodiversity that does not qualify as Significant Natural Areas. • There is no regulatory framework to increase indigenous vegetation and wetlands to a target vegetation cover of 30%, actively manage areas that can be considered Significant Natural Areas in the future, increase vegetation cover on steep and erosion prone land, incentivize fencing of riparian areas, incentivize the creation of new corridors, pest control, enrichment planting and restoration. • No comprehensive research supports the claim that incentive-based planting in the district has resulted in sporadic, adhoc development. • There appears to be no robust analysis of the success or failures of the limited amount of enhancement subdivision that has previously been undertaken in the Franklin part of the District that had these provisions. • Several court decisions including <i>Di Andre Estates Ltd v Rodney District Council</i>, <i>Arrigato Investments v Auckland Regional Council</i>, <i>Omaha Park</i> and <i>Cabra v Auckland Council</i> are useful for establishing current best practice to meet the requirements of Part 2 of the RMA. • <i>Cabra v Auckland Council</i> case law notes that the Council could not use the fact that there may be issues with weeds, or poor fencing, as a reason to oppose the inclusion of incentive provisions in the Plan, because it had the authority and responsibility to monitor consent conditions. There are a range of enforcement mechanisms available to a council, and the ability to recover costs from a consent holder, that mean managing compliance in these areas should not be onerous for a council. • The court in the <i>Cabra</i> case has taken a far sighted and future oriented approach to the maintenance and enhancement of biodiversity. • The Proposed District Plan does not give effect to the New Zealand Coastal Policy Statement. • The Proposed District Plan does not give effect to the National Policy Statement for Freshwater Management. • The Proposed District Plan does not adopt the vision of the Waikato River Settlement Act as there is not a strong emphasis in the vision on restoration. • The Proposed District Plan does not give effect to the Waikato Regional Policy Statement. • The submitter supports appropriate protection of high-class soils were practicable and where they are alternatives to using this land. However, sustainable land management may mean that subdivision on these soils is not always inappropriate. 		

Submitter Number:	797	Submitter:	Fonterra Limited
Point Number	797.11		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment > 5.1.1 Objective – The rural environment		
Summary of Decision Requested	Retain Objective 5.1.1 The Rural environment as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Supports the primacy of the objective and the clear direction set out in respect of support for productive rural activities and resources. 		

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.41		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.1 The Rural Environment > 5.1.1 Objective – The rural environment		
Summary of Decision Requested	<p>Amend Objective 5.1.1(a)(ii) The rural environments as follows (or words to similar effect):</p> <p><i>(ii) productive rural activities <u>and other activities including mineral extraction</u> are supported...</i></p> <p>AND</p> <p>Any other further or consequential amendments required.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The extraction of mineral resources is a productive rural activity and existing extractive activities contribute to the wellbeing of the district. • These activities cannot be located within urban setting or where it will become vulnerable to reverse sensitivity issues. • Productive rural activities, and mineral extraction in particular, need to be addressed in the strategic objectives and directions.

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.2 Productive Versatility of Rural Resources

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.211		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.2 Productive Versatility of Rural Resources		
Summary of Decision Requested	Retain Section 5.2 Productive Versatility of Rural Resources.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the objective and policies of this section, noting the inclusion of maintaining and enhancing high class soils, natural ecosystems, freshwater and coastal water bodies and their catchments, and protection of indigenous biodiversity. 		
Point Number	81.216		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.2 Productive Versatility of Rural Resources		
Summary of Decision Requested	Add to Objective 5.2 Production Versatility of Rural Resources an additional policy to recognise and provide for the key features of peat soils.		
Decision Reasons:	<ul style="list-style-type: none"> To give effect to WRPS Policy 14.5 there is an opportunity to create a policy around peat soils, and their inherent value and limitations. The purpose of this policy is to: <ul style="list-style-type: none"> Recognise that peat soils may limit the location of development, Recognise the productive capacity of peat soils, Encourage the sustainable management, and where possible, the enhancement of peat soils. 		

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.130		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.2 Productive Versatility of Rural Resources		
Summary of Decision Requested	Amend Section 5.2 Productive Versatility of Rural Resources to recognise that where the surrounding ecosystem has already been changed by development that the best use forward is the option. This could include developments with best practice to prevent further deterioration of those ecosystems, such as appropriate subdivision and appropriate productive rural activity.		
Decision Reasons:	<ul style="list-style-type: none"> The health and wellbeing of the submitters land has already been compromised by the large-scale projects bordering the property. The natural ecosystem is already altered irreparably. 		

Submitter Number:	367	Submitter:	Liam McGrath
Organisation:	Mercer Residents and Ratepayers Committee		
Point Number	367.4		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.2 Productive Versatility of Rural Resources		
Summary of Decision Requested	Retain Section 5.2 Productive Versatility of Rural Resources.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	394	Submitter:	Gwenith Sophie Francis
Point Number	394.11		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.2 Productive Versatility of Rural Resources		
Summary of Decision Requested	<p>Amend Section 5.2 Productive Versatility of Rural Resources by rewriting, so that:</p> <p>(i) increased and efficient utilisation of the rural land resource is enabled;</p> <p>(ii) the capacity and versatility of high class soils is maintained and enhanced where those soils are (or are likely to be) part of a farming unit that has sufficient critical area and where the soils are located in areas which have available allocable water and nutrient capacity; and</p> <p>(iii) Delete or rewrite Policy 5.2.2 - High class soils to give effect to the above and/or the protection of high class soils is limited to tracts of land which are large enough to be commercially viable and with available water and nutrient budgets; and</p> <p>(iv) Delete or rewrite Policy 5.2.3 Effects of subdivision and development on soils to give effect to the above and/or the protection of high class soils is limited to tracts of land which are large enough to be commercially viable and with available water and nutrient budgets.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential or further additional relief, as is appropriate to give effect to the intent of the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The Proposed Waikato District Plan fails to appropriately identify the issues and challenges facing Waikato District; The Proposed Waikato District Plan fails to have appropriate regard to relevant National Policy Statements including the National Policy Statement for Freshwater Management and the National Policy Statement on Urban Development Capacity; The Proposed Waikato District Plan fails to have appropriate regard to the Regional Policy Statement and/or misapplies the strategic direction of that document; and The Proposed Waikato District Plan fails to provide practical solutions to the challenges facing farming in the northern part of the Waikato District and places undue emphasis on the protection of versatile soils without acknowledging other limitations for farming such soils. The Proposed Waikato District Plan fails to recognise that farms need large water reservoirs to make irrigation feasible. Irrigation is unlikely to occur without access to such reservoirs. 		
Submitter Number:	416	Submitter:	Barry Green
Point Number	416.1		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.2 Productive Versatility of Rural Resources		
Summary of Decision Requested	No specific decision sought, but submission opposes Section 5.2 Productive Versatility of Rural Resources, and effects of subdivision and development on soils.		
Decision Reasons:	<ul style="list-style-type: none"> It should be the right of the landowner who pays the rates to have input into subdivision and land use as this is the only way a farmer can survive. Farming is become a less viable option because of costs of compliance and subdivision is a way that some farmers can reduce their debt. 		
Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.2 Productive Versatility of Rural Resources > 5.2.1 Objective - Rural resources			
Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.212		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.2 Productive Versatility of Rural Resources > 5.2.1 Objective - Rural resources		
Summary of Decision Requested	Amend Objective 5.2.1 Rural resources wording to incorporate peat soils.		
Decision Reasons:	<ul style="list-style-type: none"> Peat soils form a substantial component of Waikato District's soils, and are another valuable soil resource for the District. There is an opportunity to also seek peat soils to be protected for productive rural activities in this objective, aligning with Policy 14.5 of the WRPS. 		
Point Number	81.213		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.2 Productive Versatility of Rural Resources > 5.2.1 Objective - Rural resources		
Summary of Decision Requested	<p>Amend Objective 5.2.1 (a)(ii) Rural resources as follows:</p> <p><i>The health and wellbeing of rural land and natural ecosystems <u>and biodiversity</u>;</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> To ensure that biodiversity is adequately considered this should be included with this objective, giving effect to WRPS provisions Policies 11.1 and 11.2.

Plan chapter

Section B Objectives and Policies > Chapter 5: Rural Environment > 5.2 Productive Versatility of Rural Resources > 5.2.1 Objective - Rural resources

Summary of Decision Requested

Delete Objective 5.2.1 Rural resources.

AND

Any consequential changes necessary to give effect to the relief sought and/or concerns raised in the submission

Decision Reasons:

- The submitter opposes this policy and remind Waikato District Council that it is the Regional Council's role to control land use for the purpose of soil conservation. The district council's role, as directed by the Waikato Regional Policy Statement (WRPS), is to ensure land use is managed in a way that does not decline the availability of high class soils for primary production due to inappropriate subdivision, use or development (WRPS Policy I4.2).
- The relief sought in relation to Objective 5.1.1 above will better meet RMA and the WRPS requirements and renders 5.2.1(a)(i) unnecessary and inappropriate. Submitter is unsure what resource management issue 5.2.1(a)(ii) is trying to address or what 'rural land' means in this context.
- Objective 5.2.1 is also, in part, an unnecessary duplication of resource management issues which are being addressed under Chapter 3 Natural Environment.
- There are other elements of the objective which are also outside the functions of a district council.

Summary of Decision Requested

Retain Objective 5.2.1 - Rural resources, except for the amendments sought below

AND

Amend Objective 5.2.1 (a) (i)- Rural resources as follows:

(a) *Maintain or enhance the:*

(i) *Inherent life-supporting capacity, accessibility, and versatility of soils, in particular high class soils.*

Decision Reasons:

- The submitter supports policy (i) which seeks to maintain or enhance the life-supporting capacity and versatility of soils.
- Accessibility to versatile land is also a key consideration in managing this resource and that we suggest 'accessibility' be included in this policy.

- The submitter supports the enhancement and/or restoration of natural ecosystems, surface and ground water quality, and the natural characteristics of fresh waterbodies and coastal waters as set in sub-parts ii, iii and iv of this Policy.
- A method of enhancement should be incentivising the stock exclusion, restoration of biodiversity, and protection of waterways through rural subdivision.
- Providing for conservation lot subdivision via enhancement and/or restoration would enable this policy.

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.2 Productive Versatility of Rural Resources > 5.2.2 Policy - High class soils

Submitter Number: 81 **Submitter:** Waikato Regional Council

Point Number 81.214

Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.2 Productive Versatility of Rural Resources > 5.2.2 Policy - High class soils		
Summary of Decision Requested	Retain Policy 5.2.2 High class soils.		
Decision Reasons:	<ul style="list-style-type: none"> This objective and associated policies are supported due to how they give effect to WRPS provisions such as 14.2 and 14.2.1. Policy 14.2 of the WRPS seeks to avoid a decline in the availability of high class soils for primary production due to inappropriate subdivision, use or development. The Proposed District Plan provisions acknowledge the impacts that land fragmentation and other use and development, can have on high class soils.

Submitter Number:	794	Submitter:	Middlemiss Farm Holdings Limited
Point Number	794.13		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.2 Productive Versatility of Rural Resources > 5.2.2 Policy - High class soils		
Summary of Decision Requested	Amend Policy 5.2.2 High class soils as follows: <i>(a) Soils, in particular high class soils, are retained for their primary productive value.</i> <i>(b) Ensure the adverse effects of activities do not compromise the physical, chemical and biological properties of high class soils.</i> AND Add the distinction between "elite" and "prime" high class soils into the Proposed District Plan (similar to the Auckland Unitary Plan) to better manage soil resources, including appropriate changes to the objectives, policies and rules. AND Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Based on the Council's own evidence there is no doubt that a significant resource management issue for the District is biodiversity loss, which continues to be at risk due to vegetation clearance, stock intrusion, animal and pest degradation, degradation of the margins for estuarine wetlands by stock. The submitter is concerned that the Proposed District Plan is largely focused on only protecting existing Significant Natural Areas and ignores restoring, linking and expanding indigenous biodiversity that does not qualify as Significant Natural Areas. There is no regulatory framework to increase indigenous vegetation and wetlands to a target vegetation cover of 30%, actively manage areas that can be considered Significant Natural Areas in the future, increase vegetation cover on steep and erosion prone land, incentivize fencing of riparian areas, incentivize the creation of new corridors, pest control, enrichment planting and restoration. No comprehensive research supports the claim that incentive-based planting in the district has resulted in sporadic, adhoc development. There appears to be no robust analysis of the success or failures of the limited amount of enhancement subdivision that has previously been undertaken in the Franklin part of the District that had these provisions. Several court decisions including <i>Di Andre Estates Ltd v Rodney District Council</i>, <i>Arrigato Investments v Auckland Regional Council</i>, <i>Omaha Park</i> and <i>Cabra v Auckland Council</i> are useful for establishing current best practice to meet the requirements of Part 2 of the RMA. <i>Cabra v Auckland Council</i> case law notes that the Council could not use the fact that there may be issues with weeds, or poor fencing, as a reason to oppose the inclusion of incentive provisions in the Plan, because it had the authority and responsibility to monitor consent conditions. There are a range of enforcement mechanisms available to a council, and the ability to recover costs from a consent holder, that mean managing compliance in these areas should not be onerous for a council. The court in the <i>Cabra</i> case has taken a far sighted and future oriented approach to the maintenance and enhancement of biodiversity. The Proposed District Plan does not give effect to the New Zealand Coastal Policy Statement. The Proposed District Plan does not give effect to the National Policy Statement for Freshwater Management. The Proposed District Plan does not adopt the vision of the Waikato River Settlement Act as there is not a strong emphasis in the vision on restoration. The Proposed District Plan does not give effect to the Waikato Regional Policy Statement. The submitter supports appropriate protection of high-class soils were practicable and where they are alternatives to using this land. However, sustainable land management may mean that subdivision on these soils is not always inappropriate.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.59		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.2 Productive Versatility of Rural Resources > 5.2.3 Policy - Effects of subdivision and development on soils		
Summary of Decision Requested	Amend Policy 5.2.3 (a) and (b) Effects of subdivision and development on soils, as follows: <i>(a) Subdivision, use and development minimises the fragmentation of productive rural land, particularly where high class soils are located.</i> <i>(b) Subdivision which provides a range of lifestyle and economic options is <u>managed in a way that ensures rural resources, character and environmental values are retained, directed away from high class soils and/or where indigenous biodiversity is being protected.</u></i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers that subdivision and development policies and planning should provide for managed growth in rural communities. While land use change, subdivision and land development activities in rural areas may result in the loss of productive land, there is a need to recognise that farmers may need to undertake small lot subdivision for a number of reasons, including: providing for farm succession, disposing of surplus dwellings and for providing on-farm accommodation for family members and employees, and rearrangement of lot boundaries to enable more efficient land management. Considered, well-managed growth in rural communities provides for diversity and vibrancy in rural areas, sustains essential community infrastructure, and provides employment flexibility and opportunities. The submitter considers that there are benefits to enabling subdivision and other rural-residential opportunities, however, this should be done in a way that appropriately protects rural character and enables and maintains a reasonable use of productive land. 		

- FFNZ oppose the protection of rural landscapes or amenity on farmland which is characterised by ever-changing working landscapes, that are largely there as a result of farming activities that you would expect to find in a rural zone.
- Furthermore, they consider that land use and subdivision don't need to be controlled to protect areas of significant indigenous vegetation where there are clearly no more than minor effects, or where the effects can be successfully mitigated through permitted or controlled activity standards.

Decision Reasons:

Submitter Number:	794	Submitter:	Middlemiss Farm Holdings Limited
Point Number	794.34		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.2 Productive Versatility of Rural Resources > 5.2.3 Policy - Effects of subdivision and development on soils		
Summary of Decision Requested	<p>Amend Policy 5.2.3 Effects of subdivision and development on soils as follows:</p> <p><i>(a) Subdivision, use and development minimises the fragmentation of productive rural land, particularly where high class soils are located.</i></p> <p><i>(b) Subdivision which provides a range of lifestyle options is directed away from high class soils and/or where indigenous biodiversity is being protected, <u>where practicable</u>.</i></p> <p>AND</p> <p>Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Based on the Council's own evidence there is no doubt that a significant resource management issue for the District is biodiversity loss, which continues to be at risk due to vegetation clearance, stock intrusion, animal and pest degradation, degradation of the margins for estuarine wetlands by stock. • The submitter is concerned that the Proposed District Plan is largely focused on only protecting existing Significant Natural Areas and ignores restoring, linking and expanding indigenous biodiversity that does not qualify as Significant Natural Areas. • There is no regulatory framework to increase indigenous vegetation and wetlands to a target vegetation cover of 30%, actively manage areas that can be considered Significant Natural Areas in the future, increase vegetation cover on steep and erosion prone land, incentivize fencing of riparian areas, incentivize the creation of new corridors, pest control, enrichment planting and restoration. • No comprehensive research supports the claim that incentive-based planting in the district has resulted in sporadic, adhoc development. • There appears to be no robust analysis of the success or failures of the limited amount of enhancement subdivision that has previously been undertaken in the Franklin part of the District that had these provisions. • Several court decisions including Di Andre Estates Ltd v Rodney District Council, Arrigato Investments v Auckland Regional Council, Omaha Park and Cabra v Auckland Council are useful for establishing current best practice to meet the requirements of Part 2 of the RMA. 		

- *Cabra v Auckland Council* case law notes that the Council could not use the fact that there may be issues with weeds, or poor fencing, as a reason to oppose the inclusion of incentive provisions in the Plan, because it had the authority and responsibility to monitor consent conditions. There are a range of enforcement mechanisms available to a council, and the ability to recover costs from a consent holder, that mean managing compliance in these areas should not be onerous for a council.
- The court in the *Cabra* case has taken a far sighted and future oriented approach to the maintenance and enhancement of biodiversity.
- The Proposed District Plan does not give effect to the New Zealand Coastal Policy Statement.
- The Proposed District Plan does not give effect to the National Policy Statement for Freshwater Management.
- The Proposed District Plan does not adopt the vision of the Waikato River Settlement Act as there is not a strong emphasis in the vision on restoration.
- The Proposed District Plan does not give effect to the Waikato Regional Policy Statement.
- The submitter supports appropriate protection of high-class soils were practicable and where they are alternatives to using this land. However, sustainable land management may mean that subdivision on these soils is not always inappropriate.

Summary of Decision Requested	Add new Objective to Section 5.3 Rural Character and Amenity as follows: <u>Objective 5.3.x</u> <u>To recognise and provide for non-rural activities that contribute to the health, safety and wellbeing of the community while managing their potential adverse effects to ensure that the activities complement the amenity values of the District's rural areas.</u>		
	AND		
	Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • Amendments sought better achieve the purpose of the RMA by providing for the health and safety of people and communities. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.57		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity		
Summary of Decision Requested	Add a new policy within Section 5.3 Rural Character and Amenity, as follows:		

Rural character and amenity includes the following elements:

(a) A rural working environment

(b) Some activities are seasonal in nature

(c) Intensity of development reflecting the rural production environment, such as buildings and structures for rural production and domestic purposes

(d) Varying levels of noise associated with seasonal and intermittent rural production activities.

(e) Relatively open space and low density of development.

(f) Odours, noise and dust typical of rural activities.

(g) Generally low levels of vehicle traffic with seasonal fluctuations.

(h) The presence of large numbers of farmed animals and extensive areas of plant vine or fruit crops and areas of forestry.

(i) Accessory buildings and structures (including crop support and artificial crop protection structures) across the landscape.

AND

Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- The submitter seeks a new policy to clearly identify and recognise the rural character and amenity.
- This is important to ensure the appropriate and effective implementation of the proposed planning framework which seeks to avoid or minimise adverse effects on rural character and amenity.

Plan chapter

Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity

Summary of Decision Requested

Add a new policy in section 5.3 Rural Character and Amenity, as follows:

5.3.19 - Public access to wetlands, streams, rivers, lakes and the coast

(a) Opportunities for public access to wetlands, streams, rivers, lakes and the coast are supported by;

(i) Settlement development and growth providing access to wetlands, streams, rivers, lakes and the coast;

(ii) Esplanade reserves or strips providing access to wetlands, streams, rivers, lakes and the coast at subdivision stage;

(iii) Public access to and along the margins of wetlands, streams, rivers, lakes with high natural character, and conservation, recreation, amenity, heritage and cultural values are maintained and enhanced.

AND/OR

Any alternative relief to address the issues and concerns raised in the submission.

Decision Reasons:

- The Proposed District Plan needs to support opportunities for public access to and along wetlands, rivers, lakes and the coast.

Submitter Number:

577

Submitter:

Dilworth Trust Board

Point Number

577.1

Plan chapter

Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity

Summary of Decision Requested

Add a new policy to Section 5.3 - Rural Character and Amenity, as follows:

5.3.19 Policy – Specific area – Dilworth School – Rural Campus

(a) Recognise and protect the continued operation and ongoing development of the Dilworth School – Rural Campus.

(b) Provide for the operation and development of education facilities and boarding and accommodation activities that are integral to the Dilworth School – Rural Campus, and which complement the surrounding rural environment.

AND

Amend the Proposed District Plan for any further or other consequential relief required to give effect to the relief sought in this submission

Decision Reasons:

- The proposed Rural Zone provisions do not appropriately provide for the Rural Campus.
- The Proposed objectives and policies for the Rural Zone enable rural activities and manage effects from non-rural activities but submission seeks amendments to afford protection to lawfully established non-rural activities, including future expansions.
- Any future development of non-rural activities may conflict with the outcomes that are otherwise anticipated by the Rural Zone.
- Submission supports for area specific provisions. The nature of the Rural Campus is such that it is appropriate to include specific policies to relate to, recognise, and protect the activity, similar to the policies that are included for other 'Specific Areas' in the Rural Zone.

No comprehensive research supports the claim that incentive-based planting in the district has resulted in sporadic, adhoc development. There appears to be no robust analysis of the success or failures of the limited amount of enhancement subdivision that has previously been undertaken in the Franklin part of the District that had these provisions. Several court decisions including Di Andre Estates Ltd v Rodney District Council, Arrigato Investments v Auckland Regional Council, Omaha Park and Cabra v Auckland Council are useful for establishing current best practice to meet the requirements of Part 2 of the RMA. Cabra v Auckland Council case law notes that the Council could not use the fact that there may be issues with weeds, or poor fencing, as a reason to oppose the inclusion of incentive provisions in the Plan, because it had the authority and responsibility to monitor consent conditions. There are a range of enforcement mechanisms available to a council, and the ability to recover costs from a consent holder, that mean managing compliance in these areas should not be onerous for a council. The court in the Cabra case has taken a far sighted and future oriented approach to the maintenance and enhancement of biodiversity. The Proposed District Plan does not give effect to the New Zealand Coastal Policy Statement. The Proposed District Plan does not give effect to the National Policy Statement for Freshwater Management. The Proposed District Plan does not adopt the vision of the Waikato River Settlement Act as there is not a strong emphasis in the vision on restoration. The Proposed District Plan does not give effect to the Waikato Regional Policy Statement. The submitter supports appropriate protection of high-class soils were practicable and where they are alternatives to using this land. However, sustainable land management may mean that subdivision on these soils is not always inappropriate. 		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.1 Objective - Rural character and amenity

Submitter Number:	197	Submitter:	Jeska McHugh
Organisation:	NZ Pork		
Point Number	197.5		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.1 Objective - Rural character and amenity		
Summary of Decision Requested	Retain Objective 5.3.1 Rural character and amenity.		
Decision Reasons:	<ul style="list-style-type: none"> NZPork supports an objective seeking to maintain rural character and amenity subject to a good understanding on what those characteristics and amenity is for the rural area as developed through the policy framework. 		

Submitter Number:	332	Submitter:	Gwyneth & Barrie Smith
Point Number	332.6		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.1 Objective - Rural character and amenity		
Summary of Decision Requested	<p>Retain Objective 5.3.1 Rural character and amenity, except for the amendment sought below</p> <p>AND</p> <p>Amend Objective 5.3.1 Rural character and amenity, as follows:</p> <p>(a) <u>Rural character and amenity are maintained while recognising the localised character of different parts of the District.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> Need to recognise the variation of what defines rural character and amenity across the district. The district encompasses a variety of landscapes and activities, including coastal areas, hill country which comprise of large landholdings and pastoral uses and smaller landholdings. Consideration of rural character should take into account the unique variables of the locality including land holding pattern, built form, landuse activities, vegetation and geomorphology.

Summary of Decision Requested	<p>Retain Objective 5.3.1 Rural character and amenity, except for the amendments sought below</p> <p>AND</p> <p>Amend Objective 5.3.1 - Rural character and amenity as follows:</p> <p>(a) <i>Rural character and amenity are maintained <u>while recognising the localised character of different parts of the District.</u></i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Supports in part the intent of this objective but considers that the variation in rural character and amenity values needs to be recognised. • The Waikato District encompasses coastal areas, hill country comprising large landholdings used primarily for pastoral use, and smaller landholdings (particularly in the north) used for higher value productive activities such as intensive cropping and greenhouses. • Rural character should take into account the unique variables, including local landholding patterns, built form, land uses, vegetation and geomorphology. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.60		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.1 Objective - Rural character and amenity		
Summary of Decision Requested	<p>Amend Objective 5.3.1 (a) Rural character and amenity, as follows:</p> <p>(a) <i>The values which contribute to rural character and amenity are maintained.</i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the intent of the objective. However, some amendment is required to ensure the plan is appropriately focused and consistent with broader policy direction. • The submitter considers that there are benefits to enabling a range of land use opportunities within the Rural Zone, and that this should be done in a way that appropriately maintains the values that contribute to the rural character and amenity of the zone. • The submitter opposes the protection of rural landscapes or amenity on farmland which is characterised by ever-changing working landscapes, that are largely there as a result of farming activities that would be expected to be found in a rural area. • A focus on 'values' would introduce a degree of flexibility that is necessary to recognising the evolving nature of rural farming areas.

Organisation:	Synlait Milk Ltd		
Point Number	581.13		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.2 Policy - Productive rural activities		
Summary of Decision Requested	Add a new clause (iv) to Policy 5.3.2 Productive rural activities as follows: <i>(iv) Encourage the adoption of sustainable farming practices to ensure long-term operation of farming as part of the rural economy.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • Supports the adoption of best practice in farming. • Synlait "Lead with Pride" programme recognises and rewards suppliers who achieve dairy farming practice. Synlait considers a similar policy should be incorporated into the Proposed District Plan to support long-term economic use and land use within a quality rural environment. 		

Submitter Number:	636	Submitter:	Anna Noakes
Point Number	636.4		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.2 Policy - Productive rural activities		
Summary of Decision Requested	Amend Policy 5.3.2 Productive rural activities, to include Intensive Farming.		
Decision Reasons:	<ul style="list-style-type: none"> • Policy is not clearly defined and open for interpretation. • Intensive farming relies on the productive capacity of soils on the site. 		

Submitter Number:	676	Submitter:	T&G Global Limited
Point Number	676.2		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.2 Policy - Productive rural activities		
Summary of Decision Requested	Retain Policy 5.3.2 – Productive Rural Activities.		
Decision Reasons:	<ul style="list-style-type: none"> • Productive rural activities should be specifically provided for within rural areas to ensure the achievement of the objectives specified for that zone, and the efficient use of resources. • The submitter is concerned to ensure that reverse sensitivity effects of locating incompatible land uses within the Rural Zone are addressed within the provisions of the District Plan on the basis that such activities detract from the stated objectives for that zone. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.61		

Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.2 Policy - Productive rural activities
Summary of Decision Requested	<p>Retain Policy 5.3.2 Productive rural activities, as notified, subject to the amendment sought below:</p> <p>5.3.2 Policy - Productive <u>Rural production activities</u></p> <p>(a) Recognise and protect the continued operation of the rural environment as a productive working environment by:</p> <p>(i) Recognising that buildings and structures associated with farming and forestry and other operational structure for productive rural activities contribute to rural character and amenity values;</p> <p>(ii) Ensuring productive rural activities contribute to rural character and amenity values</p> <p>(iii) Providing for lawfully-established rural activities and protecting them from sensitive land uses <u>and reverse sensitivity effects</u>.</p> <p>(iv) <u>Recognising the use and development of rural resources enables people and communities to provide for their economic, social and cultural wellbeing.</u></p> <p>AND</p> <p>Any consequential changes necessary to give effect to the relief sought and/or concerns raised in the submission</p>
Decision Reasons:	<ul style="list-style-type: none"> The activities required to operate in the rural environment should be the overall focus of this policy. Submitter is not sure what is meant by 'productive rural activities' in this context and believe Waikato District Council (WDC) has inadvertently used the terms 'productive rural activities' and 'rural production activities' interchangeably. They are not interchangeable in our view. It is also important to acknowledge that change may occur as new markets and technologies are created. Therefore, production techniques will need to adapt and such change is not detrimental to rural amenity. A good example is the rise of viticulture in New Zealand over the last 20 years and the change from pastoral landscapes to vineyards. Farmers want the opportunity to continue to innovate and invest and adopt in new technologies and retain the flexibility to respond to markets. Submitter acknowledges that WDC has an important role to play in ensuring the Proposed District Plan does not stifle primary production with overly restrictive and unnecessary land use controls. That important goal can be achieved with acceptance of the relief sought across the submission.

Submitter Number:	794	Submitter:	Middlemiss Farm Holdings Limited
Point Number	794.36		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.2 Policy - Productive rural activities		
Summary of Decision Requested	<p>Amend Policy 5.3.2 Productive rural activities as follows:</p> <p>(a) Recognise and protect <u>enable</u> the continued operation of the rural environment as a productive working environment by:</p> <p>(i) Recognising that buildings and structures associated with farming and forestry and other operational structures for productive rural activities contribute to rural character and amenity values;</p> <p>(ii) Ensuring productive rural activities are supported by appropriate rural industries and services;</p> <p>(iii) Providing for lawfully-established rural activities and protecting them from sensitive land uses.</p> <p>AND</p> <p>Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Based on the Council's own evidence there is no doubt that a significant resource management issue for the District is biodiversity loss, which continues to be at risk due to vegetation clearance, stock intrusion, animal and pest degradation, degradation of the margins for estuarine wetlands by stock. The submitter is concerned that the Proposed District Plan is largely focused on only protecting existing Significant Natural Areas and ignores restoring, linking and expanding indigenous biodiversity that does not qualify as Significant Natural Areas. There is no regulatory framework to increase indigenous vegetation and wetlands to a target vegetation cover of 30%, actively manage areas that can be considered Significant Natural Areas in the future, increase vegetation cover on steep and erosion prone land, incentivize fencing of riparian areas, incentivize the creation of new corridors, pest control, enrichment planting and restoration. No comprehensive research supports the claim that incentive-based planting in the district has resulted in sporadic, adhoc development. There appears to be no robust analysis of the success or failures of the limited amount of enhancement subdivision that has previously been undertaken in the Franklin part of the District that had these provisions. Several court decisions including Di Andre Estates Ltd v Rodney District Council, Arrigato Investments v Auckland Regional Council, Omaha Park and Cabra v Auckland Council are useful for establishing current best practice to meet the requirements of Part 2 of the RMA. <i>Cabra v Auckland Council</i> case law notes that the Council could not use the fact that there may be issues with weeds, or poor fencing, as a reason to oppose the inclusion of incentive provisions in the Plan, because it had the authority and responsibility to monitor consent conditions. There are a range of enforcement mechanisms available to a council, and the ability to recover costs from a consent holder, that mean managing compliance in these areas should not be onerous for a council. The court in the <i>Cabra</i> case has taken a far sighted and future oriented approach to the maintenance and enhancement of biodiversity. The Proposed District Plan does not give effect to the New Zealand Coastal Policy Statement. The Proposed District Plan does not give effect to the National Policy Statement for Freshwater Management. The Proposed District Plan does not adopt the vision of the Waikato River Settlement Act as there is not a strong emphasis in the vision on restoration. The Proposed District Plan does not give effect to the Waikato Regional Policy Statement. The submitter supports appropriate protection of high-class soils were practicable and where they are alternatives to using this land. However, sustainable land management may mean that subdivision on these soils is not always inappropriate.

Point Number 302.44

Plan chapter Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.3 Policy – Industrial and commercial activities

Summary of Decision Requested **Add** provision to Policy 5.3.3(b) Industrial and commercial activities for industrial and commercial activities where effects on rural character can be mitigated.
AND

Amend the Proposed District Plan to make consequential amendments or additional amendments to address the matters raised in the submission.

Decision Reasons:

- It is appropriate that provision is made for industrial and commercial activities in rural areas where their effects can be appropriately managed.

Submitter Number: 419 **Submitter:** Lucy Deverall

Organisation: Horticulture New Zealand

Point Number 419.59

Plan chapter Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.3 Policy – Industrial and commercial activities

Summary of Decision Requested **Amend** Policy 5.3.3 Industrial and commercial activities, to further clarify and refine the policy

OR

Amend Policy 5.3.3 Industrial and commercial activities by combining it with Policy 5.3.9 Non-rural activities.

AND

Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- The submitter supports avoiding locating industrial and commercial activities in rural areas that do not have a genuine functional connection with the rural land or soil resource.
- There is some confusion between this policy and Policy 5.3.9 Non-rural activities, which appears to cover the same activities and could potentially be combined.
- Rural industry is defined but it is not clear what "services" or "commercial activities" are anticipated or accommodated in the rural areas by this policy.

Point Number	691.10		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.3 Policy – Industrial and commercial activities		
Summary of Decision Requested	<p>Retain Policy 5.3.3 Industrial and commercial activities, except for the amendments sought below;</p> <p>AND</p> <p>Add clause (c) to Policy 5.3.3 Industrial and commercial activities, as follows (or words to similar effect):</p> <p><u>(c) Allowing for mineral and aggregate extraction activities insofar as they are existing in the Rural Zone.</u></p> <p>This relief is sought in the event that any part of the submission from point 691.1 to 691.15 is not accepted by WDC;</p> <p>AND</p> <p>Any consequential amendments or alternative relief to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The change requested by the addition of (c) is to ensure that aggregate and mineral extraction activities are still specifically catered for in the Rural Zone, being the most appropriate zone for activities of this kind based on location of the resource and the types of effects created by such activities. This industry is of both regional and district-wide importance and protection of the same is consistent with the Regional Policy Statement (which safeguards mineral extraction to ensure that the region can continue to grow). The submitter supports the restriction of Industrial and Commercial activities in the Rural Zone.

Point Number	794.37		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.3 Policy – Industrial and commercial activities		
Summary of Decision Requested	Retain Policy 5.3.3 Industrial and commercial activities.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.44		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.3 Policy – Industrial and commercial activities		
Summary of Decision Requested	<p>Amend Policy 5.3.3(b) Industrial and commercial activities as follows (or words to similar effect):</p> <p><u>(b) Avoid locating industrial and commercial activities in rural areas that do not have a genuine functional connection with the rural land or soil resource or other resources (such as minerals).</u></p> <p>AND</p> <p>Any other further or consequential amendments required.</p>		
Decision Reasons:	<ul style="list-style-type: none"> This policy should recognise that other resources that create a locational requirement. Supports the ability to locate industrial and commercial activities in rural areas where there is a genuine functional requirement to do so. 		

Submitter Number:	924	Submitter:	Alice Barnett
Organisation:	Genesis Energy Limited		
Point Number	924.47		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.3 Policy – Industrial and commercial activities		
Summary of Decision Requested	<p>Add clause (c) to Policy 5.3.3- Industrial and Commercial Activities as follows:</p> <p><u>(c) Provide for the existing coal and ash transport and management facilities associated with the Huntly Power Station.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers that the matters listed should be extended to include the coal transport and ash management activities associated with the Huntly Power Station. 		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.4 Policy - Density of dwellings and buildings within the rural environment

Submitter Number:	197	Submitter:	Jeska McHugh
Organisation:	NZ Pork		

Point Number	197.7
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.4 Policy - Density of dwellings and buildings within the rural environment
Summary of Decision Requested	Retain Policy 5.3.4 – Density of dwellings and buildings within the rural environment.
Decision Reasons:	<ul style="list-style-type: none"> The submitters support the policy recognizing the need for dwellings to support workers accommodation while noting the method provides a size limitation that would not support a family unit.

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.132		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.4 Policy - Density of dwellings and buildings within the rural environment		
Summary of Decision Requested	Amend Policy 5.3.4 Density of dwellings and buildings within the rural environment to allow urban development to take place in an amended environment that preserves the rural character, by less intensive urbanisation.		
Decision Reasons:	<ul style="list-style-type: none"> It must be addressed where property is a Future Urban Zone and has restrictions on rural amenity imposed by current development 		

Submitter Number:	394	Submitter:	Gwenith Sophie Francis
Point Number	394.13		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.4 Policy - Density of dwellings and buildings within the rural environment		
Summary of Decision Requested	Delete Policy 5.3.4 (a) Density of dwellings and buildings within the rural environment OR Amend Policy 5.3.4 (a) Density of dwellings and buildings within the rural environment to encourage clustering AND/OR Amend the Proposed District Plan to make consequential or further additional relief, as is appropriate to give effect to the intent of the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The Proposed Waikato District Plan fails to appropriately identify the issues and challenges facing Waikato District; The Proposed Waikato District Plan fails to have appropriate regard to relevant National Policy Statements including the National Policy statement for Freshwater Management and the National Policy Statement on Urban Development Capacity; The Proposed Waikato District Plan fails to have appropriate regard to the Regional Policy Statement and/or misapplies the strategic direction of that document; The Proposed Waikato District Plan fails to provide practical solutions to the challenges facing farming in the northern part of Waikato District and places undue emphasis on the protection of versatile soils without acknowledging limitations for farming such soils; Council has failed to undertake an adequate section 32 analysis, particularly with respect to the extent and location of countryside living zone, subdivision opportunity for ecological enhancement or protection and provision of innovative subdivision developments such as farm parks; and The Proposed Waikato District Plan fails to identify sufficient and appropriately located areas for countryside living - particularly where there is good access to appropriate infrastructure. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.60		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.4 Policy - Density of dwellings and buildings within the rural environment		
Summary of Decision Requested	Retain Policy 5.3.4 Density of dwellings and buildings within the rural environment, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Dwellings to support workers accommodation are a critical requirement of many rural production activities. The policy is supported, however the method limits the accommodation unit size to be too small to support a farm worker family situation or seasonal workers accommodation that might require a shared living arrangement.

Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.4 Policy - Density of dwellings and buildings within the rural environment		
Summary of Decision Requested	Retain Policy 5.3.4 Density of dwellings and buildings within the rural environment as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this policy. 		

Submitter Number:	676	Submitter:	T&G Global Limited
--------------------------	-----	-------------------	--------------------

Point Number	676.3
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.4 Policy - Density of dwellings and buildings within the rural environment
Summary of Decision Requested	Retain Policy 5.3.4 (b) – Density of dwellings and buildings within the rural environment.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Policy 5.3.4-Density of dwellings and buildings within the rural environment insofar as that policy recognises at sub-paragraph (b) that additional dwellings are needed to support workers' accommodation for productive rural activities. It is important to consider the accommodation of rural workers as part of the support within the Rural Zone for productive rural activities This policy should inform the rules within the Proposed Plan for minor dwellings within the Rural Zone.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.63		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.4 Policy - Density of dwellings and buildings within the rural environment		
Summary of Decision Requested	Amend Policy 5.3.4 Density of dwellings and buildings within the rural environment, as follows: <i>(a) Shall be at a density and scale Retain open spaces to ensure rural character is maintained.</i> <i>(b) Additional dwellings shall be directly associated with the scale and intensity of the farming activities on site support workers' accommodation for large productive rural activities.</i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter is concerned with Council's reference within the policy to retain open spaces. Open space is one element which contributes to the rural character. Prioritising this value over others has the potential to create perverse outcomes. The submitter has concerns at the priority given to workers' accommodation and consider the policy should also recognise that farm properties may require extra dwellings which are occupied by non-staff, for example, other family members living on the farm who may not be employed on the property. There will be situations such as farm succession where retired family members will continue to live on the property. Furthermore, the term 'worker' may not cover the situation where more than one owner of the property resides on the farm in separate housing, as they aren't technically 'staff'. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.556		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.4 Policy - Density of dwellings and buildings within the rural environment		
Summary of Decision Requested	Add to Policy 5.3.4 Density of dwellings and building with the rural environment two new policies as follows: <i>(c) <u>Additional dwellings and buildings do not compromise the rural character and amenity of the surrounding locality.</u></i> <i>(d) <u>Provide for a minor dwelling, where it:</u></i> <i>(i) <u>is located within proximity to the principal dwelling on a site; and</u></i> <i>(ii) <u>maintains rural character and amenity.</u></i>		
Decision Reasons:	<ul style="list-style-type: none"> Additional policy (c) is required in order to make it clear that additional dwellings (i.e. second dwellings) and buildings are supported in the rural environment, provided they do not compromise rural character and amenity. Additional policy (d) is required to provide clear direction on minor dwellings to ensure rule 22.3.2 (minor dwelling) where the rule cannot be met given that it is a Discretionary activity. 		

Submitter Number:	777	Submitter:	Radio New Zealand Limited
Point Number	777.2		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.4 Policy - Density of dwellings and buildings within the rural environment		
Summary of Decision Requested	Retain Policy 5.3.4(a) Density of dwelling and buildings within the rural environment, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the retention of open spaces to ensure that rural character is maintained. 		

Submitter Number:	794	Submitter:	Middlemiss Farm Holdings Limited
Point Number	794.38		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.4 Policy - Density of dwellings and buildings within the rural environment		
Summary of Decision Requested	Amend Policy 5.3.4 Density of dwellings and buildings within the rural environment as follows: <i>(a) Retain open spaces to ensure rural character is maintained.</i> <i>(b) Additional dwellings support workers' accommodation for large productive rural activities.</i> <i>(c) <u>Require site specific design responses for subdivision provisions that avoid, remedy and mitigate, any potential significant adverse effects of buildings on rural character and amenity.</u></i> AND Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Based on the Council's own evidence there is no doubt that a significant resource management issue for the District is biodiversity loss, which continues to be at risk due to vegetation clearance, stock intrusion, animal and pest degradation, degradation of the margins for estuarine wetlands by stock. 		

- The submitter is concerned that the Proposed District Plan is largely focused on only protecting existing Significant Natural Areas and ignores restoring, linking and expanding indigenous biodiversity that does not qualify as Significant Natural Areas.
- There is no regulatory framework to increase indigenous vegetation and wetlands to a target vegetation cover of 30%, actively manage areas that can be considered Significant Natural Areas in the future, increase vegetation cover on steep and erosion prone land, incentivize fencing of riparian areas, incentivize the creation of new corridors, pest control, enrichment planting and restoration.
- No comprehensive research supports the claim that incentive-based planting in the district has resulted in sporadic, adhoc development.
- There appears to be no robust analysis of the success or failures of the limited amount of enhancement subdivision that has previously been undertaken in the Franklin part of the District that had these provisions.
- Several court decisions including Di Andre Estates Ltd v Rodney District Council, Arrigato Investments v Auckland Regional Council, Omaha Park and Cabra v Auckland Council are useful for establishing current best practice to meet the requirements of Part 2 of the RMA.
- *Cabra v Auckland Council* case law notes that the Council could not use the fact that there may be issues with weeds, or poor fencing, as a reason to oppose the inclusion of incentive provisions in the Plan, because it had the authority and responsibility to monitor consent conditions. There are a range of enforcement mechanisms available to a council, and the ability to recover costs from a consent holder, that mean managing compliance in these areas should not be onerous for a council.
- The court in the *Cabra* case has taken a far sighted and future oriented approach to the maintenance and enhancement of biodiversity.
- The Proposed District Plan does not give effect to the New Zealand Coastal Policy Statement.
- The Proposed District Plan does not give effect to the National Policy Statement for Freshwater Management.
- The Proposed District Plan does not adopt the vision of the Waikato River Settlement Act as there is not a strong emphasis in the vision on restoration.
- The Proposed District Plan does not give effect to the Waikato Regional Policy Statement.
- The submitter supports appropriate protection of high-class soils were practicable and where they are alternatives to using this land. However, sustainable land management may mean that subdivision on these soils is not always inappropriate.

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.5 Policy – Earthworks activities

Point Number	636.3		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.6 Policy - Intensive farming activities		
Summary of Decision Requested	Delete Policy 5.3.6 (a) Intensive farming activities.		
Decision Reasons:	<ul style="list-style-type: none"> Policy is not clearly defined and open for interpretation. 		
Decision Reasons:			
Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.65		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.6 Policy - Intensive farming activities		
Summary of Decision Requested	<p>Amend Policy 5.3.6 Intensive farming activities, as follows:</p> <p><i>(a) Enable Recognise that intensive farming activities may be increasingly required as the twin pressures on land required for urban growth and food production increases, provided they operate in accordance with industry best practice and management of adverse effects both on-site and any neighbouring sites.</i></p> <p><i>(b) Ensure that intensive farming activities operate in such a way as to appropriately manage adverse effects both on-site and on any neighbouring sites.</i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Policy 5.3.6 is misguided and an unnecessary duplication as written. 		

- The management of potential adverse effects from an intensive farming activity is addressed under Policy 5.3.7(h) and as such the second part of this policy is not required.
- The Proposed District Plan is short-sighted and not sufficiently future focused in its current response to intensive farming activities. Although NZ is a pastoral farming nation, intensive farming is a relevant way to increase production and reduce overhead costs. Increasing land prices mean that the ability to purchase large tracts of land for extensive production is becoming less viable. Policy about management of effects associated with intensive farming should be a separate policy.

Organisation:	Trading as Aztech Buildings		
Point Number	281.8		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.7 Policy - Reverse sensitivity effects		
Summary of Decision Requested	Add a new line to Policy 5.3.7 (a) Reverse sensitivity effects as follows: <i>(vi) buildings associated with rural production.</i>		

Decision Reasons:	<ul style="list-style-type: none"> This Policy should recognise that farming/the rural environment may also contain large buildings/structures associated with rural production such as covered feed pads, wintering barns, glass houses, barns, implement sheds etc. Further having large rural buildings which may house farming stock, either on a temporary or permanent basis, enables the better mitigation of one of the potential adverse effects of ruminant stock (effluent disposal) by separated stormwater from animal effluent whilst the animals are housed. This type of mitigation is supported at a Regional Council level. Housing animals also results in increased productivity, reduction in waste product and reduced pugging.
Point Number	281.9
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.7 Policy - Reverse sensitivity effects
Summary of Decision Requested	Retain Policy 5.3.7(h) Reverse sensitivity effects. AND Amend rules to be consistent with this policy.
Decision Reasons:	<ul style="list-style-type: none"> Rural rules need to be consistent with this policy as discussed in other submission points. Support the enabling policy with regard to Intensive farming where best practice is followed with regard to mitigating the potential adverse effects of operations.

Submitter Number:	402	Submitter:	Tuakau Proteins Limited
--------------------------	-----	-------------------	-------------------------

Point Number	402.4
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.7 Policy - Reverse sensitivity effects
Summary of Decision Requested	<p>Amend Policy 5.3.7 Reverse sensitivity effects, as follows (or words to similar effect):</p> <p>(a) <i>Recognise the following features are typical of the rural environment and the effects are accepted and able to be managed:</i></p> <p>(i) <i>Large numbers of animals being farmed, extensive areas of plants, vines or fruit crops, plantation forests and farm forests;</i></p> <p>(ii) <i>Noise, odour, dust, traffic and visual effects associated with the use of land for farming, horticulture, forestry, farm quarries;</i></p> <p>(iii) <i>Existing mineral extraction and processing activities;</i></p> <p>(iv) <i>Minor dwellings;</i></p> <p>(v) <i>Papakāinga housing developments within Maori freehold land;</i></p> <p>(vi) <u>Rural industry</u>;</p> <p>(b) <i>Avoid adverse effects outside the site and where those effects cannot be avoided, they are to be mitigated.</i></p> <p>(c) <u>Reduce and/or mitigate</u> the adverse effects of reverse sensitivity through the use of setbacks and the design <u>and location of</u> subdivisions and development.</p> <p>(d) <i>The scale, intensity and timing and duration of activities are managed to ensure compatibility with the amenity and character of the rural environment.</i></p> <p>(e) <i>Enable the use of artificial outdoor lighting for night time work.</i></p> <p>(f) <i>Ensure glare and light spill from artificial lighting in the rural environment does not:</i></p> <p>(i) <i>Compromise the safe operation of the road transport network; and</i></p> <p>(ii) <i>Detract from the amenity of other sites within the surrounding environment.</i></p> <p>(g) <i>Frost fans are located and operated to ensure adverse effects on the surrounding environment are minimised.</i></p> <p>(h) <i>Provide for intensive farming activities <u>and rural industry</u>, recognising the potential adverse effects that need to be managed, including noise, visual amenity, rural character or landscape effects, and odour.</i></p> <p>AND</p> <p>Any consequential amendments and/or additional relief to give effect to the concerns raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> With regard to reverse sensitivity in the rural environment, rural industry should be recognised as being typical in the rural environment and the effects are to be accepted. To specifically include rural industry in the list of features in the rural environment is important to ensure consistent direction in the objectives and policies in the Proposed District Plan relating to reverse sensitivity. Whilst Tuakau Protein Limited is located now in the Industrial zone, it is surrounded by the Rural Zone, and as a rural industry this should be accepted as an appropriate land use. It is also noted that the existing policy direction in the Franklin section of the Waikato District Plan in Objective 17C.2.1.4 refers to rural industry specifically. It is considered important to also provide a policy basis to ensure that when considering applications to subdivide and develop in the Rural Zone, that the location of subdivision itself needs to be considered in terms of reverse sensitivity mitigation, assisting in reducing rather than mitigating adverse effects.

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.62		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.7 Policy - Reverse sensitivity effects		
Summary of Decision Requested	<p>Amend Policy 5.3.7 Reverse sensitivity effects, as follows:</p> <p>(a) <i>Recognise the following features are typical of the rural environment and the effects are accepted and able to be managed:</i></p> <p>(i) <i>Large numbers of animals being farmed, extensive areas of <u>commercial vegetable production</u>, plants, vines or fruit crops, plantation forests and farm forests;</i></p> <p>...</p> <p>(c) <u>Avoid or mitigate</u> the adverse effects of reverse sensitivity through the use of setbacks and the design of subdivisions and development.</p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the recognition that extensive areas of plants, vines or fruit crops are typical features of the rural environment. Commercial vegetable production is defined term in Waikato Regional Plan Change 1. The design of subdivisions and development should, in the first instance, seek to avoid reverse sensitivity through the use of setbacks and design.

Point Number	553.37		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.7 Policy - Reverse sensitivity effects		
Summary of Decision Requested	Retain Policy 5.3.7 (a)(v) Reverse sensitivity effects.		
Decision Reasons:	<ul style="list-style-type: none"> The New Zealand Coastal Policy Statement 2010 in Policy (d) recognises Tangata whenua needs for papakāinga, marae. The Waikato Regional Policy Statement, 2016 also has Policy 6.4 Marae and papakāinga provisions. The Future Proof Strategy Planning for Growth November 2017 has Priority 15 that seeks developments of papakāinga housing that meets the needs and aspirations in the sub-region. RMA sections 6(e), 7(a), and 8 set out legal obligations when managing the natural and physical resources of the region to Tangata whenua. 		

Submitter Number:	575	Submitter:	Fulton Hogan Limited
Point Number	575.29		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.7 Policy - Reverse sensitivity effects		
Summary of Decision Requested	<p>Retain Policy 5.3.7 (h) Reverse sensitivity effects, except for the amendments sought below;</p> <p>AND</p> <p>Amend Policy 5.3.7 (h) Reverse sensitivity effects, as follows (or words to similar effect):</p> <p><i>(h) Provide for intensive farming activities <u>and mineral and aggregate extraction activities</u>, recognising the potential adverse effects that need to be managed, including noise, visual amenity, rural character or landscape effects, and odour.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential and additional amendments as necessary to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Submission supports the policy but seeks the amendment to ensure that not only established quarries, but potentially new mineral or aggregate extraction activities are able to be established in the Rural Zone. Noting that it is vital to the survival of the aggregate extraction industry. 		

Submitter Number:	587	Submitter:	Bruce Cameron
Point Number	587.2		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.7 Policy - Reverse sensitivity effects		
Summary of Decision Requested	No specific decision sought, but the submission states (with reference to policy 5.3.7 Reverse sensitivity effects) that intensive farming must operate within their own boundaries and any setbacks must not extend into neighbouring properties and must not affect neighbouring properties in any activities they wish to carry out within their boundaries.		
Decision Reasons:	<ul style="list-style-type: none"> Intensive farming must not affect neighbouring properties in any activities they wish to carry out within their boundaries. 		

Submitter Number:	676	Submitter:	T&G Global Limited
Point Number	676.4		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.7 Policy - Reverse sensitivity effects		
Summary of Decision Requested	<p>Retain Policy 5.3.7(a)(iv) – Reverse Sensitivity Effects</p> <p>AND</p> <p>Amend Policy 5.3.7 - Reverse Sensitivity Effects to provide explicit recognition of workers' accommodation within the rural environment.</p> <p>AND</p> <p>Any further or consequential amendments necessary to address the concerns raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Policy 5.3.7 – Reverse Sensitivity Effects in so far as it recognises minor dwellings as a typical and accepted feature of the rural environment. The accommodation of seasonal and other horticultural or agricultural workers within the rural environment is an important aspect of the continuing function of productive rural activities. The nature of such a use does not give rise to reverse sensitivity effects in the same way as other residential activities because rural workers are aware of and familiar with the effects associated with rural production activities. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
--------------------------	-----	-------------------	----------------------------------

Point Number	680.66
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.7 Policy - Reverse sensitivity effects
Summary of Decision Requested	<p>Amend Policy 5.3.7 (a) and (b) and (c) Reverse sensitivity effects, as follows:</p> <p>(a) <i>Recognise the following features are typical of the rural environment and the effects are accepted and able to be managed:</i></p> <p>(i) <i>Large numbers of animals being farmed, extensive areas of plants, vines or fruit crops, plantation forests and farm forests;</i></p> <p>(ii) <i>Noise, odour, dust, traffic and visual effects <u>including buildings and structures</u> associated with the use of land for farming, horticulture, forestry, farm quarries;</i></p> <p>(iii) Existing <i>mineral extraction and processing activities;</i></p> <p>(iv) <i>Minor dwellings;</i></p> <p>(v) <i>Papakaainga housing developments within Maaori Freehold land.</i></p> <p>(b) <i>Manage activities to ensure that adverse effects (other than minor effects) are avoided, remedied or mitigated. Avoid adverse effects outside the site and where those effects cannot be avoided, they are to be mitigated.</i></p> <p>(c) <i>Mitigate the adverse effects of reverse sensitivity through the use of setbacks and the design of subdivisions and development <u>where appropriate.</u></i></p> <p>...</p> <p>AND</p> <p>Add to Policy 5.3.7 Reverse sensitivity effects a new clause (i) as follows:</p> <p>(i) <i>Ensure that land use activities that are sensitive to the effects of rural activities do not constrain the operation of rural activities.</i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of Policy 5.3.7, which is in part to raise awareness of the types of activities and associated effects which are considered appropriate within the rural environment. It is appropriate for the plan to be clear and upfront that farming activities must be able to function effectively and not be unduly restricted by new and encroaching activities being established within the rural zone. Amendments are required to ensure the plan accurately implements reverse sensitivity principles. The submitter accepts that where possible unacceptable nuisance effects such as noise and odour should be contained within the property boundary. However, farming requirements and weather conditions mean that even with the best intention it is not always possible to avoid a level of nuisance effect. In such instances (which are generally intermittent and temporary) it is imperative that the Plan clearly allows for this to ensure the farm business is not unduly impacted upon. This could include such activities as harvesting contractors and farmers working through the night to harvest crops due to short weather windows, odour from the feeding out of silage in neighbouring paddock, and short term odour from the spreading of effluent on pasture. These effects are not unreasonable to expect in the Rural Zone, and that therefore 5.3.7(b) is inappropriate as presently worded. We consider that it could result in creating unreasonable expectations of the amenity of the Rural Zone, and perpetuate reverse sensitivity issues with people unaccustomed to the rural environment complaining about normal farming activities and expecting those effects to be avoided or mitigated in every instance. Farming in a rural area is a lawfully established existing activity Noise, lighting, odour and dust can be quite reasonable effects as a consequence of normal farming activities as outlined in (a) there are some concerns as to how (a) and (b) are to be read together, along with reference to the avoiding, or mitigating of usual and expected effects within the rural environment. The methods used to give effect to this policy must not place undue constraints on either the existing land use or the potential land use activity. Any decisions as to separation distance as a method to address such issues must be based on a case by case assessment and not an automatic planning response. The submitter supports adopting an approach for low probability and low impact scenarios of incurring occasional relatively minor adverse effects rather than imposing external buffer zones. Submitter is opposed to use of blanket external buffer zones as a proxy for triggering resource consent, as it places restrictions on adjoining landowners who have no responsibility for the adverse effect, and who receive no compensation for the restrictions placed on their activities. That said, it may be appropriate for sensitive activities to avoid locating within close proximity to activities that may emit objectionable odours and discharges.

Submitter Number:	691	Submitter:	McPherson Resources Limited
Point Number	691.11		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.7 Policy - Reverse sensitivity effects		
Summary of Decision Requested	<p>Retain Policy 5.3.7(a)(iii) Reverse sensitivity effects, as notified.</p> <p>This relief is sought in the event that any part of the submission from point 691.1 to 691.15 is not accepted by WDC.</p>		
Decision Reasons:	<ul style="list-style-type: none"> McPherson supports the specific protection of existing mineral extraction and processing in the Rural Zone, because insofar as these types of activities are located outside of a specific 'Aggregate Extraction Area', they are best performed in the rural environment. 		

Submitter Number:	693	Submitter:	Alstra (2012) Limited
Point Number	693.5		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.7 Policy - Reverse sensitivity effects		
Summary of Decision Requested	Retain Policy 5.3.7 – Reverse sensitivity effects as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Alstra supports the WDC in terms of effects of reverse sensitivity. This is especially true in the sense that in a typical rural environment of the Waikato District, including around the periphery of urban areas where Alstra currently operates. Alstra considers it key that reverse sensitivity can be managed through implementation methods of Council and appropriate design of development taking into consideration these existing activities

Plan chapter

Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.7 Policy - Reverse sensitivity effects

Summary of Decision Requested

Amend Policy 5.3.7 Reverse sensitivity effects as follows (or words to similar effect):

(a) Recognise the following features are typical of the rural environment and the effects are accepted and able to be managed:

...

(iii) ~~Existing~~ Mineral extraction and processing activities;

...

(c) Mitigate the adverse effects of reverse sensitivity through the use of setbacks and design of subdivisions and development.

(cc) Avoid locating sensitive activities in a buffer area adjoining an Aggregate Extraction Area, unless those sensitive activities can avoid compromising existing and future mineral extraction...

...

OR

Add a comparable policy regarding reverse sensitivity in the event that a specific Maoro Mining Zone is introduced.

AND

Any other further or consequential amendments required.

Decision Reasons:

- New Zealand Steel wishes to see provisions to effectively manage potential reverse sensitivity effects on the mine site.
- The mine is important to the social and economic wellbeing of the district and wider New Zealand.
- The Proposed District Plan should manage sensitive land uses within the vicinity of the mine site.
- Supports the inclusion of mineral extraction and processing activities in relation to reverse sensitivity.
- Seeks to address sensitive land use in the buffer area adjacent to the Aggregate Extraction Areas.

Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.8 Policy - Effects on rural character and amenity from rural subdivision

Summary of Decision Requested

Retain Policy 5.3.8 Effects on rural character and amenity from rural subdivision, except for the amendments sought below

AND

Amend Policy 5.3.8 Effects on rural character and amenity from rural subdivision as follows:

(a) Protect productive rural areas by directing urban forms of subdivision, use, and development to within the boundaries of towns and villages.

~~(b) Ensure development does not compromise the predominant open space, character and amenity of rural areas.~~

(c) Ensure subdivision, use and development minimise the effects or ribbon development.

(d) Rural hamlet subdivision and boundary relocations ensure the following:

(i) Protection of rural land for productive purposes;

(ii) Maintenance of the localised rural character and amenity of the surrounding rural environment;

(iii) Minimisation of cumulative effects.

(e) Subdivision, use and development opportunities ensure that localised rural character and amenity values are maintained.

Decision Reasons:

- Policy 5.3.8(b) duplicates (d)(ii) and (e) which both seek to ensure that rural character and amenity are maintained.
- Not all rural areas comprise open space character and amenity. It is recognised that the district's rural character is varied in nature and comprises landscapes, landforms and structures.
- These are also areas of active and dynamic primary production and associated activities rather than necessarily benign landscapes.
- It should be recognised that rural landscapes can be visually altered by structures and buildings such as greenhouses and packhouses.
- These are recognised as important components of primary production activities and form part of the rural environment and are generally considered rural in appearance and value.

Point Number	419.63		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.8 Policy - Effects on rural character and amenity from rural subdivision		
Summary of Decision Requested	Retain Policy 5.3.8 Effects on rural character and amenity from rural subdivision, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The policy provides clear direction for managing effects on rural character and amenity from rural subdivision. 		

Submitter Number:	433	Submitter:	Mischa Davis
Organisation:	Auckland Waikato Fish and Game Council		
Point Number	433.5		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.8 Policy - Effects on rural character and amenity from rural subdivision		
Summary of Decision Requested	Add a new clause to Policy 5.3.8 Effects on rural character and amenity from rural subdivision, as follows: <i>(g) Ensure that the form and location of subdivision does not compromise public access to rivers, streams, lakes and wetlands and the quality of these environments.</i> AND/OR Any alternative relief to address the issues and concerns raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The recreational values of waterbodies can be constrained by limited public access. Fish and Game has a statutory obligation to maintain and enhance access to sports fisheries and game bird hunting areas and public spaces can be fragmented by the subdivision process if not carefully managed. Furthermore, section 6(d) of the Resource Management Act notes that the maintenance and enhancement of public access to and along the coastal marine area, lakes and rivers is a matter of national importance and the Waikato Regional Policy Statement places an obligation on Council to recognise the importance of public access to these areas.

Point Number	680.67		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.8 Policy - Effects on rural character and amenity from rural subdivision		
Summary of Decision Requested	<p>Amend Policy 5.3.8 (e) Effects on rural character and amenity from rural subdivision, as follows:</p> <p>(e) Subdivision, use and development opportunities ensure that rural character and amenity values are maintained. Subdivision within the Rural Zone should give particular consideration to anticipated rural land use and development and recognise that integrated and well planned subdivision design:</p> <p><u>(i) Creates desirable places to live.</u></p> <p><u>(ii) Results in the efficient and effective land use.</u></p> <p><u>(iii) Provides for anticipated future land use and development.</u></p> <p><u>(iv) Recognises the physical layout and underlying topography of the site.</u></p> <p><u>(v) Integrates with existing utility services and infrastructure.</u></p> <p><u>(vi) Gives effect to any relevant outline development plan or structure plan.</u></p> <p><u>(vii) Implements best practice urban design principles</u></p> <p><u>(viii) Enables efficient utilisation of productive farmland through appropriate provision for rearranging property ownership to enable management of farmland according to landowner need</u></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter understands the intent of the policy but consider Waikato District Council's focus on rural character and amenity betrays a lack of understanding of the broader issues and drivers for subdivision within a rural environment. • Subdivision is primarily a process of defining (or redefining) land parcel boundaries. However, for farmers and other large landowners, land is a critical asset, and there are important implications arising from regulation of subdivision that need to be appropriately considered. 		

- Submitter agrees that inappropriately designed or located subdivision can result in the inefficient use of natural and physical resources that can give rise to adverse environmental effects. These concerns should be appropriately addressed through the Proposed District Plan (PDP) in a way that provides certainty for developers and landowners, and which aligns subdivision provisions with Council's broader strategic planning.
- It is also important that the PDP recognises that unnecessary constraints on otherwise appropriate subdivision can also result in adverse effects. In considering the proposed rules around subdivision, the submission seeks to ensure there is a degree of flexibility for landowners in the rural area who need subdivision enabled in order to facilitate efficient management of the land resource. This recognises that economic and social drivers for subdivision may differ between farming operations, and that these different drivers often require different treatment.
- Farmers undertake low impact subdivision for a variety of reasons. These vary from diversifying their business into tourism operations (lodgings and or associated tourism development and infrastructure), providing for or disposing of a surplus dwelling on the property where a neighbouring farm is purchased, providing for a family member or staff member to live on the farm or to implement a succession plan for multiple siblings through small lot subdivision, or for boundary adjustment of boundary relocation to promote the more efficient administration of farm land.
- A farm may be valued considerably beyond its underlying productive capacity, simply because of the farm's proximity to the urban centre and urban infrastructure, or the amenity afforded by proximity to a desirable locality, such as coastal areas. However, these reflect a piece of land's potential value for other land uses, and do not reflect its value for farming per-se. This situation can result in a farmer having to pay considerably more in rates or facing significantly increased opportunity costs from continuing to farm the land, as opposed to subdividing the property for some other land use. This in-turn creates a significant economic driver for subdivision. This tautological driver of land value needs to be carefully managed if NZ is to avoid losing valuable productive farmland in favour of non-farming development and use.
- This situation can be exacerbated where returns from farming are variable, due to a variety of factors including: weather conditions, economic conditions, individual property circumstances and market demands, which disrupt farming continuity. Therefore enabling diversification, flexibility, responsiveness and cash flow, are critically important to retaining the viability of farming.

AND

Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.

Decision Reasons:

- Based on the Council's own evidence there is no doubt that a significant resource management issue for the District is biodiversity loss, which continues to be at risk due to vegetation clearance, stock intrusion, animal and pest degradation, degradation of the margins for estuarine wetlands by stock.
- The submitter is concerned that the Proposed District Plan is largely focused on only protecting existing Significant Natural Areas and ignores restoring, linking and expanding indigenous biodiversity that does not qualify as Significant Natural Areas.
- There is no regulatory framework to increase indigenous vegetation and wetlands to a target vegetation cover of 30%, actively manage areas that can be considered Significant Natural Areas in the future, increase vegetation cover on steep and erosion prone land, incentivize fencing of riparian areas, incentivize the creation of new corridors, pest control, enrichment planting and restoration.
- No comprehensive research supports the claim that incentive-based planting in the district has resulted in sporadic, adhoc development.
- There appears to be no robust analysis of the success or failures of the limited amount of enhancement subdivision that has previously been undertaken in the Franklin part of the District that had these provisions.
- Several court decisions including Di Andre Estates Ltd v Rodney District Council, Arrigato Investments v Auckland Regional Council, Omaha Park and Cabra v Auckland Council are useful for establishing current best practice to meet the requirements of Part 2 of the RMA.
- *Cabra v Auckland Council* case law notes that the Council could not use the fact that there may be issues with weeds, or poor fencing, as a reason to oppose the inclusion of incentive provisions in the Plan, because it had the authority and responsibility to monitor consent conditions. There are a range of enforcement mechanisms available to a council, and the ability to recover costs from a consent holder, that mean managing compliance in these areas should not be onerous for a council.
- The court in the *Cabra* case has taken a far sighted and future oriented approach to the maintenance and enhancement of biodiversity.
- The Proposed District Plan does not give effect to the New Zealand Coastal Policy Statement.
- The Proposed District Plan does not give effect to the National Policy Statement for Freshwater Management.
- The Proposed District Plan does not adopt the vision of the Waikato River Settlement Act as there is not a strong emphasis in the vision on restoration.
- The Proposed District Plan does not give effect to the Waikato Regional Policy Statement.
- The submitter supports appropriate protection of high-class soils were practicable and where they are alternatives to using this land. However, sustainable land management may mean that subdivision on these soils is not always inappropriate.

Plan chapter

Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.8 Policy - Effects on rural character and amenity from rural subdivision

Summary of Decision Requested

Retain Policy 5.3.8 Effects on rural character and amenity from rural subdivision, except for the amendments sought below;

AND

Amend Policy 5.3.8 Effects on rural character and amenity from rural subdivision, as follows:

~~(b) Ensure development does not compromise the predominant open space, character and amenity of rural areas.~~

...

(d) Rural hamlet subdivision and boundary relocations ensure the following:

(i) Protection of rural land for productive purposes;

(ii) Maintenance of the localised rural character and amenity of the surrounding rural environment;

(iii) Minimisation of cumulative effects.

(e) Subdivision, use and development opportunities ensure that localised rural character and amenity values are maintained.

Decision Reasons:

- Support in part Policy 5.3.8 with amendments.
- Policies 5.3.8(b), (d)(ii) and (e) are duplicates which seek to ensure that rural character and amenity are maintained.
- Not all rural areas comprise open space character and amenity. The district's rural character is varied in nature and comprises landscapes, landforms and structures and are areas of active and dynamic primary production and associated activities rather than necessarily benign landscapes.
- Rural landscapes can be visually altered by structures and buildings such as greenhouses and packhouses and are recognised as important components of primary production activities which form part of the rural environment.

Plan chapter

Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.8 Policy - Effects on rural character and amenity from rural subdivision

Summary of Decision Requested

Retain Policy 5.3.8 Effects on rural character and amenity from rural subdivision, except for the amendments sought below

AND

Amend Policy 5.3.8 Effects on rural character and amenity from rural subdivision, as follows:

(a) Protect productive rural areas by directing urban forms of subdivision, use and development to within the boundaries of towns and villages.

~~(b) Ensure development does not compromise the predominant open space, character and amenity of rural areas.~~

...

(d) Rural hamlet subdivision and boundary relocations ensure the following:

(i) Protection of rural land for productive purposes;

(ii) Maintenance of the localised rural character and amenity of the surrounding rural environment;

(iii) Minimisation of cumulative effects.

(e) Subdivision, use and development opportunities ensure that localised rural character and amenity values are maintained.

Decision Reasons:	<ul style="list-style-type: none"> • Policy 5.3.8(b) duplicates Policy 5.3.8(d)(ii) and (e) which both seek to ensure that rural character and amenity are maintained. • Not all rural areas comprise open space character and amenity. The district's rural character is varied in nature and comprises landscapes, landforms and structures. These are also areas of active and dynamic primary production and associated activities rather than necessarily benign landscapes. • It should be recognised that structures and buildings such as greenhouses and pack houses could visually alter rural landscapes. However, these are recognized as important components of primary production activities, form part of the rural environment and are generally considered rural in appearance and value.

Fire and Emergency New Zealand

Point Number

378.62

Plan chapter

Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.9 Policy - Non-rural activities

Summary of Decision Requested

Retain Policy 5.3.9 Non-rural activities, to the extent that it anticipates non-rural activities in the Rural Zone

AND

Amend Policy 5.3.9 Non-rural activities, as follows:

(a) Manage any non-rural activities, including equestrian centres, horse training centres, emergency service facilities, forestry and rural industries, to achieve a character, scale, intensity and location that are in keeping with rural character and amenity values,

(b) Avoid buildings and structures dominating land on adjoining properties, public reserves, the coast or waterbodies; and

(c) Enable non-rural activities that provide for the health, safety and well-being of the community and that service or support an identified local need.

AND

Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- Fire and Emergency New Zealand supports Policy 5.3.9 to the extent that these provisions anticipate non-rural activities in the Rural Zone, but considers that the provisions focus on the management of effects, rather than an outcome that provides clear direction in relation to the appropriateness of some non-rural activities in the Rural Zone. For instance providing for emergency services that have a functional and operational need to be located in close proximity to the communities they serve.
- Amendments sought better achieve the purpose of the RMA by providing for the health and safety of people and communities.

Summary of Decision Requested	Retain Policy 5.3.10 Temporary events.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.11 Policy - Home occupations

Submitter Number:	499	Submitter:	Adrian Morton
Point Number	499.4		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.11 Policy - Home occupations		
Summary of Decision Requested	Amend Policy 5.3.11 to include "promote". AND Amend the Proposed District Plan to remove the requirement for resource consent for home occupations; OR Amend the Proposed District Plan to make it easier and cheaper to obtain permission for a home office.		

Decision Reasons: There are real benefits in promoting and supporting occupation activities, including improved productivity by removing travel time, less travel and resulting in better environmental outcomes and promotes sustainable rural communities.

Submitter Number: 680 **Submitter:** Federated Farmers of New Zealand

Point Number 680.69

Plan chapter Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.11 Policy - Home occupations

Summary of Decision Requested **Retain** Policy 5.3.11 Home occupations, as notified.

Decision Reasons:

- The submitter supports the enabling intent of this policy. It is important to provide for small scale diverse business opportunities within the rural zone with can help to sustain a vibrant rural community.

Submitter Number: 757 **Submitter:** Karen White

Point Number 757.4

Plan chapter Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.11 Policy - Home occupations

Summary of Decision Requested **Amend** Policy 5.3.11 (a) Home occupations to include "promote" and make it easier for people working from home.

Decision Reasons:

- Make it easier for people working from home to achieve Policy 5.3.11.
- Avoid the high costs associated with applying for resource consents.
- There are a number of real benefits in promoting and supporting occupation activities such as improved productivity by removing travel time, less travel and resulting in better environmental outcomes while promoting sustainable rural communities.

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.13 Policy - Waste management activities

Submitter Number: 302 **Submitter:** Jeremy Talbot

On behalf of: EnviroWaste New Zealand Limited **Organisation:** Barker & Associates Limited

Point Number 302.45

Plan chapter Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.13 Policy - Waste management activities

Summary of Decision Requested **Amend** Policy 5.3.13(b) Waste management activities to provide for waste management facilities that may not be completely compatible with the rural environment.
AND

Amend the Proposed District Plan to make consequential amendments or additional amendments to address the matters raised in the submission.

Decision Reasons:

- It is difficult for waste management facilities to be compatible with rural environments; however, rural land acts as an effective buffer for their effects, which should be acknowledged by the policy.

Submitter Number: 367 **Submitter:** Liam McGrath

Organisation: Mercer Residents and Ratepayers Committee

Point Number 367.7

Plan chapter Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.13 Policy - Waste management activities

Summary of Decision Requested **Add** a point to Policy 5.3.13 Waste management activities, to ensure no leeching into nearby waterways.

Decision Reasons:

- There is a need to monitor or be aware of what materials and waste are or have been deposited at quarries and land fills.
- There is a great risk for certain substances to leech back into soil and waterways, contaminating them and deeming them unusable.

Submitter Number: 548 **Submitter:** Murray & Cathy McWatt

Organisation: Grander Investments Limited

Point Number 548.12

Plan chapter Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.13 Policy - Waste management activities

Summary of Decision Requested **Amend** Policy 5.3.13(a) Waste Management Activities, as follows:

Provide for the rehabilitation of existing quarry sites, including landfill and cleanfill activities, where siting is appropriate, environmental effects are managed and there is environmental gain...

Decision Reasons:

- There is a surplus of fill material making it difficult to dispose of waste.
- The Proposed Plan does not recognise disposal of surplus of material as an essential part of the construction process or need to provide within the Rural Zone.
- Seeks to revise Policy to provide for Landfills Classes 1-5 in the Rural Zone to recognise the economic and social wellbeing of the District.

Submitter Number:	575	Submitter:	Fulton Hogan Limited
Point Number	575.31		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.13 Policy - Waste management activities		
Summary of Decision Requested	<p>Retain Policy 5.3.13 Waste management activities, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 5.3.13 (a)Waste management activities, as follows (or words to similar effect):</p> <p><i>Provide for the rehabilitation of existing quarry sites <u>upon decommission</u>, including landfill and cleanfill activities, where there is an environmental gain.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential and additional amendments as necessary to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Support the provision but seek amendment so that rehabilitation occurs upon decommission (unless a particular site lends itself to ongoing rehabilitation, which will be determined by site specific factors). Wants to ensure that once extractive processes of the quarry are no longer viable and/or equitable, the proposed district plan will encourage restoration of the landscape. The original state of the environment may not be able to be achieved but with then right steps, quarry sites will be able to blend into the environment after being decommissioned.

Decision Reasons:	<ul style="list-style-type: none"> Waste management facilities should not be located within the identified outstanding landscape or natural character areas and significant natural areas. 		
Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.70		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.13 Policy - Waste management activities		
Summary of Decision Requested	Retain Policy 5.3.13 Waste management activities, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter broadly supports the intent of this policy with the focus of (b) and (c) on waste management facilities appropriate. 		
Submitter Number:	691	Submitter:	McPherson Resources Limited
Point Number	691.13		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.13 Policy - Waste management activities		
Summary of Decision Requested	<p>Amend Policy 5.3.13 (a) Waste management activities, as follows (or words to similar effect):</p> <p><i>(a) Provide for the rehabilitation of existing quarry sites <u>upon decommission</u>, including land and clean fill activities, where there is an environmental gain.</i></p> <p>This relief is sought in the event that any part of the submission from point 691.1 to 691.16 is not accepted by WDC.</p> <p>AND</p> <p>Any consequential amendments or additional relief to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> McPherson supports the provision for rehabilitation of existing quarry sites, insofar as any rehabilitation carries out upon decommission of such quarries. The McPhersons want to ensure that once extractive processes of the quarry are no longer viable and/or equitable, that the landscape is restored as much as possible. As it is, based on the make-up of the McPherson Quarry (being one coherent site), the site does not lend itself well to staged rehabilitation as the entirety of the site is likely to be used for the duration of the quarry being in operation. As such, it is proposed that the words 'upon decommission' is added for certainty as to when rehabilitation is required.

Point Number	723.11		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.13 Policy - Waste management activities		
Summary of Decision Requested	Retain Policy 5.3.13 Waste Management Activities.		
Decision Reasons:	<ul style="list-style-type: none"> Reasons not provided. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.4		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.13 Policy - Waste management activities		
Summary of Decision Requested	<p>Amend Policy 5.3.13 (a)- Waste management activities as follows:</p> <p>(a) Provide for the rehabilitation of existing quarry sites, including landfill and cleanfill activities, <u>where siting is appropriate, environmental effects are managed and there is environmental gain.</u></p> <p>AND</p> <p>Amend Policy 5.3.13- Waste management activities to provide for landfills - Classes 1-5 in the Rural Zone, subject to appropriate siting.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports, in part, the inclusion of Policy 4.6.2. Due to the extensive growth in the Auckland and Waikato Regions, there is a surplus of fill material and it is becoming increasingly difficult to find locations to dispose of this material. The Proposed Plan in no way recognises disposal of surplus material as an essential part of the construction process or the need to provide for it within the Rural Zone. The Franklin Section of the Waikato District Plan recognises landfills (including cleanfill) as an Essential Service under Section 15. In particular Objective 15.1.1.1 of the Franklin Section recognises the importance to the economic and social well-being of the district and the essential nature of network and other utilities and other essential services and to provide for their development, operation and maintenance. While the Industrial Zone provides for effects associated with waste management activities (dust, traffic), this land is in relatively short supply (compared with Rural Zone) and as such cleanfills often seek to locate in the Rural Zone. To recognise the necessity of these facilities to the economic, health and wellbeing of the District. 		

Submitter Number:	860	Submitter:	Aggregate and Quarry Association (AQA) and Straterra
Point Number	860.6		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.13 Policy - Waste management activities		
Summary of Decision Requested	<p>Retain Policy 5.3.13 (a) Waste management activities</p> <p>AND</p> <p>Add a similar policy for mining sites.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The rehabilitation of quarry sites brings huge benefits for the community in the form of biodiversity or wet land sinks or a recreational or residential areas. The same applies to mining sites and this needs to be recognised by the plan. 		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.14 Policy - Signs

Organisation:	Auckland Waikato Fish and Game Council		
Point Number	433.6		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.14 Policy - Signs		
Summary of Decision Requested	Retain Policy 5.3.14 (d) Signs, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Fish and Game signs, which would qualify under the definition of 'advertising sign', are a fundamental aspect of managing game bird shooting and sports fish angling activities and are permitted throughout much of New Zealand. 		

Submitter Number:	450	Submitter:	Alison Green
Organisation:	Rushala Farm Ltd		
Point Number	450.4		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.14 Policy - Signs		
Summary of Decision Requested	No specific decision sought, but the submitter refers to Policy 5.3.14 (b) Signs.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers that local landowners need to be consulted regarding what gets done in their area and cites an example of huge and wasteful costs that have been incurred with the painting of double yellow lines on Kaiaua Road which has made it more dangerous for all local residents. 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.56		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.14 Policy - Signs		
Summary of Decision Requested	Retain Policy 5.3.14 Signs, except for the amendments sought below.		

AND

Amend Policy 5.3.14(e) Signs as follows:

(e) Provide for ~~appropriate~~ signage on heritage items, notable trees and Maaori sites of significance for the purpose of identification ~~or~~ ~~and~~ interpretation.

Decision Reasons:

- The submitter supports Policy 5.3.14 Signs in part as the policy broadly assumes at (e) that signage can be placed on heritage buildings for both identification and interpretation.
- The policy needs to be amended to a slightly more cautious approach given the sensitive nature of heritage items, and Maaori sites of significance to an inappropriate design or quantity of signage.

Andrew and Christine Gore

Point Number

330.134

Plan chapter

Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.15 Policy – Noise and vibration

Summary of Decision Requested

Amend Policy 5.3.15 Noise and vibration to mitigate adverse effects of large-scale roading developed next to urbanisation at the source, and the ecological management area must be considered in the mitigation as future proofing.

Decision Reasons:

- This policy does not go far enough.
- The submitters' property is a Future Urban Zone.
- The submitters' property is under the overlay of ecological area.
- The NZTA/Alliance roading is not sufficiently noise mitigated in the mitigating plan for this type of development.
- Urbanisation will be sensitive to noise effect. This is proven throughout the North Island where housing and large expressways intersect.
- To plan an ecological area should have excellent noise management.
- Lower noise is essential for the movement of any wildlife who rely on acoustic vibration. By allowing extensive roading into this proposed ecological area, the ecosystem has been irreparably altered.
- It is noted that noise being experienced currently in the proposed ecological area is unacceptable for an ecological management area.
- All effort should be made to minimize any more effect into the environment by noise.
- Noise policy needs to directly address the potential traffic noise effect from the unfinished road projects, and finished road projects to ensure the basin area can be promoted as ecological.
- Noise levels should be subject to tighter environmental control.

Summary of Decision Requested	Retain Policy 5.3.15 (v) Noise and Vibration, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Shotgun noise associated with recreational hunting should be permitted and considered as a potential reverse sensitivity effect when urban and lifestyle encroachment occurs near traditionally hunted sites. 		

Submitter Number:	499	Submitter:	Adrian Morton
Point Number	499.5		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.15 Policy – Noise and vibration		
Summary of Decision Requested	Amend Policy 5.3.15 Noise and vibration to include: <ul style="list-style-type: none"> Defined flight path corridors for recreational and training light aircraft that avoid rural properties; Fly avoidance/exclusion zones; and Noise control of aircraft engines. 		
Decision Reasons:	<ul style="list-style-type: none"> The number and frequency of light aircraft movement and noise within the area has increased dramatically over the past 10 years. The amenity is affected by the noise of small/light aircraft. The situation is likely to get worse with the demand for pilots and more local people flying. WDC need to map areas of low habitation and define acceptable flight path routes. The variation in engine noise of light aircraft needs to be managed. There are potential effects on resident's well-being and health. 		

Submitter Number:	575	Submitter:	Fulton Hogan Limited
--------------------------	-----	-------------------	----------------------

Point Number	575.32
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.15 Policy – Noise and vibration
Summary of Decision Requested	<p>Retain Policy 5.3.15 Noise and vibration, except for the amendments sought below;</p> <p>AND</p> <p>Amend Policy 5.3.15 (a)(iii) Noise and vibration, as follows (or words to similar effect):</p> <p><i>(iii) Maintaining appropriate buffers between high noise environments and noise sensitive activities <u>insofar as that is practicable</u>...</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential and additional amendments as necessary to give effect to the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> Supports the principal of policy but seek amendments as quarrying and aggregate extraction create large amounts of noise and vibration from time to time which may make compliance with the policy challenging. Amendment will ensure that existing quarry sites (such as the Fulton Hogan quarries) can continue their operations without additional requirements insofar as noise and vibration buffers are concerned.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.71		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.15 Policy – Noise and vibration		
Summary of Decision Requested	<p>Amend Policy 5.3.15 (a) (ii) Noise and vibration, as follows:</p> <p><i>(ii) Limiting the timing and duration of noise-generating activities which are not anticipated within rural areas:</i></p> <p>AND</p> <p>Delete Policy 5.3.15 (a) (viii) Noise and vibration.</p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> In relation in 5.3.7, submitter considers plan provisions should acknowledge the issue of 'reverse sensitivity' when addressing 'noise and vibration effects' and that there must be provision to allow for a reasonable level of noise associated with agricultural activity within the rural zone – both in daylight hours and through the night. There will be situations for example where farm machinery will be used for making hay or harvesting crops outside the hours prescribed in Rule 22.2.1.1 (P2); newly weaned animals will also be making noise outside of any specified hours. Such noises and vibrations must legitimately be expected in a rural zone. There is concern that the policy as currently worded will create unreasonable expectations of the amenity of the Rural Zone, and perpetuate reverse sensitivity issues with people unaccustomed to the rural environment complaining about normal farming activities and expecting those effects to be controlled in every instance. 		

Submitter Number:	691	Submitter:	McPherson Resources Limited
Point Number	691.14		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.15 Policy – Noise and vibration		
Summary of Decision Requested	<p>Retain the intent of Policy 5.3.15 Noise and Vibration, except for the amendments sought below;</p> <p>AND</p> <p>Amend Policy 5.3.15 (a)(iii) Noise and vibration, as follows (or words to similar effect):</p> <p><i>(a) Adverse effects of noise and vibration are minimised by:</i></p> <p>...</p> <p><i>(iii) Maintaining appropriate buffers between high noise environments and noise sensitive activities <u>insofar as that is practicable</u>;</i></p> <p>This relief is sought in the event that any part of the submission from point 691.1 to 691.15 is not adopted by WDC.</p> <p>AND</p> <p>Any consequential amendments or additional relief to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> McPherson supports the principle and intent of this policy in relation to noise and vibration With quarrying and aggregate extraction, a large amount of noise and vibration is occasionally generated as the aggregate is extracted from the ground. As such, compliance with the policy as currently worded may prove challenging. To ensure that existing quarry sites such as the McPherson Quarry can continue its operations without additional requirements insofar as noise and vibration buffers are concerned. 		

Submitter Number:	693	Submitter:	Alstra (2012) Limited
Point Number	693.6		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.15 Policy – Noise and vibration		
Summary of Decision Requested	Retain Policy 5.3.15 – Noise and vibration as notified.		
Decision Reasons:	<ul style="list-style-type: none"> With the understanding that noise is a common occurrence when it comes to intensive farming, Alstra supports the noise and vibration policy, particularly on the basis that existing activities should be protected from noise sensitive activities. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd

On behalf of:	Winstone Aggregates		
Point Number	723.12		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.15 Policy – Noise and vibration		
Summary of Decision Requested	Retain Policy 5.3.15 Noise and Vibration.		
Decision Reasons:	<ul style="list-style-type: none"> Reasons not provided. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.40		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.15 Policy – Noise and vibration		
Summary of Decision Requested	<p>Retain Policy 5.3.15 Noise and vibrations, except for the amendment sought below</p> <p>AND</p> <p>Amend Policy 5.3.15(a)(vi) Noise and vibrations as follows:</p> <p><i>Requiring acoustic insulation where sensitive <u>land use</u> activities are located within high noise environments <u>including near existing and designated State Highways, the Airport Noise</u> ...</i></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of Policy 5.3.15 to manage the adverse effects of noise and vibration. Vehicles on state highways can produce adverse effects that extend beyond the state highway boundary, such as: noise and vibration, emissions, lighting/glare, and dust. Development that establishes near state highways needs to take into account the potential for these effects to be experienced and should be designed to avoid/mitigate them. In particular, noise sensitive activities such as dwellings can be affected by road-traffic noise and vibration, which can lead to annoyance and sleep disturbance potentially resulting in adverse health effects. The submitter therefore seeks recognition of state highways within this policy. 		

Submitter Number:	757	Submitter:	Karen White
Point Number	757.5		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.15 Policy – Noise and vibration		
Summary of Decision Requested	<p>Amend Policy 5.3.15 Noise and vibration to include the provision for defined flight path corridors for recreational and schools/training light aircraft that avoid rural properties, fly avoidance/exclusion zones and noise control of aircraft engines.</p> <p>AND</p> <p>Amend Policy 5.3.15 Noise and vibration to include a total ban on engine stall on all rural land/housing and only allowed way offshore.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Number and frequency of light aircraft movement and noise within the area has increase dramatically over the past 10 years, mainly due to CTC training international pilots based out of Hamilton falling within flight routes. The Amenity of the quiet rural community is consistently being eroded and affected by frequency and noise of small/light aircraft either flying to Raglan Airport or by use of the air space by CTC Aviation Training facility who frequently circle for hours. With high demand for pilots worldwide and the increase in local people flying more regularly the situation is likely to get worse. Waikato District Council needs to map areas of low habitation and define acceptable flight path routes. Engine stall exercises are not only daunting but increases noise when they thrust engines back on. Variation in engine noise of light aircraft varies dramatically. Measures need to go beyond mere flying height or decibel requirement as effects on a very low decibel environment is incredibly intrusive and affects resident's wellbeing and health.

Point Number	860.10		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.15 Policy – Noise and vibration		
Summary of Decision Requested	Retain Policy 5.3.15 (a)(vii) Noise and vibration.		
Decision Reasons:	<ul style="list-style-type: none"> No reason provided. 		
Point Number	860.7		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.15 Policy – Noise and vibration		
Summary of Decision Requested	Retain Policy 5.3.15 (a)(i) Noise and Vibration.		
Decision Reasons:	<ul style="list-style-type: none"> Support but note this emphasises the importance of dealing with reverse sensitivity impacts so that the area surrounding extractive sites is able to accommodate sounds and vibrations necessarily associated with the sector and that there are not incompatible land uses within the surrounding areas. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.27		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.15 Policy – Noise and vibration		
Summary of Decision Requested	<p>Retain Policy 5.3.15 Noise and vibration except for the amendments sought below</p> <p>AND</p>		

Amend Policy 5.3.15(a)(vi) as follows (or similar amendments to achieve the requested relief):

(vi) Requiring acoustic insulation where sensitive land use activities are located within high noise environments, including near the railway corridor, the Airport Noise Outer Control Boundary, Huntly Power Station, the Gun Club Noise Control Boundary.

AND

Any consequential amendments to link and/or accommodate the requested changes.

Decision Reasons:

- KiwiRail supports the policy which recognises that reverse sensitivity effects occur and need to be managed through managing the location of sensitive land uses in relation to lawfully-established activities, including by maintaining appropriate buffers between high noise environments and noise sensitive activities.
- The railway corridor operates 24/7 and can produce adverse effects that extend beyond the corridor boundary, such as noise and vibration, emissions, lighting/glare and dust.
- Development near the railway corridor needs to take into account the potential for these effects to be experienced and should be designed to avoid/mitigate them.

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.16 Policy – Specific area - Agricultural research centres

Submitter Number:	637	Submitter:	Livestock Improvement Corporation
Point Number	637.1		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.16 Policy – Specific area - Agricultural research centres		
Summary of Decision Requested	Delete Policy 5.3.16 Specific Area- Agricultural Research Centres AND Add the following new Objectives and Policies: <u>5.7 Specific Area – Agricultural Research Centres</u> <u>5.7.1 Objective – Specific Area – Agricultural Research Centres</u> <i>To recognise, provide for and protect the continued operation and development of Agricultural Research Centres that are an integral part of the agricultural sector.</i> <u>5.7.1.1 Policy – Operation and Development of Agricultural Research Centres</u> <i>Enable the continued operation and development of the Livestock Improvement Corporation and DairyNZ Agricultural Research Centres by providing for a wide range of agricultural research activities and rural activities that complement each other.</i>		
Decision Reasons:	AND Any consequential amendments and/or additional relief required to address the matters raised in the submission. <ul style="list-style-type: none">• Policy 5.3.16(a) focuses on recognising and protecting the continued operation of Agricultural Research Centres, but does not adequately recognise and provide for the future development of these facilities.• This is inconsistent with the parallel Policy 6.8.4 in the Operative District Plan (submission sets this out).• The submitter seeks that provision for future development of Agricultural Research Centres be continued in the relevant policy framework of the Proposed District Plan.• Policy 5.3.16 is one of the various policies listed to implement Objective 5.3 Rural Character and Amenity.• Policy 5.3.16 is focused on recognising and protecting Agricultural Research Centres so is not considered relevant to rural character and amenity issues.• In comparison, the Operative District Plan includes Objective 6.8.1 which is relevant to Agricultural Research Centres (submission sets out objective). Objective 6.8.1 is supported by four policies in the Operative District Plan.• The submitter considers that the Proposed District Plan should continue the same approach by including an Objective and Policy specific to Agricultural Research Centres.

Point Number	639.1		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.16 Policy – Specific area - Agricultural research centres		
Summary of Decision Requested	Delete Policy 5.3.16 Specific Area- Agricultural Research Centres AND Add the following new Objectives and Policies: <u>5.7 Specific Area – Agricultural Research Centres</u> <u>5.7.1 Objective – Specific Area – Agricultural Research Centres</u> <i>To recognise, provide for and protect the continued operation and development of Agricultural Research Centres that are an integral part of the agricultural sector.</i> <u>5.7.1.1 Policy – Operation and Development of Agricultural Research Centres</u> <i>Enable the continued operation and development of the Livestock Improvement Corporation and DairyNZ Agricultural Research Centres by providing for a wide range of agricultural research activities and rural activities that complement each other.</i> Amend Rule 22.5.2 Permitted Activities – Agricultural and Horticultural Research as follows: P22 A staff facility that is incidental to agricultural or horticultural research that includes: <ol style="list-style-type: none">1. A dwelling located at least 200m from the site containing Inghams Feed Mill in Hamilton City Council's jurisdiction;2. A recreational facility;3. Social club;4. Cafeteria or café.		
Decision Reasons:	AND Any consequential amendments and/or additional relief required to address the matters raised in the submission. <ul style="list-style-type: none">• Policy 5.3.16(a) focuses on recognising and protecting the continued operation of Agricultural Research Centres, but does not adequately recognise and provide for the future development of these facilities.• This is inconsistent with the parallel Policy 6.8.4 in the Operative District Plan (submission sets this out).• The submitter seeks that provision for future development of Agricultural Research Centres be continued in the relevant policy framework of the Proposed District Plan.		

- Policy 5.3.16 is one of the various policies listed to implement Objective 5.3 Rural Character and Amenity.
- Policy 5.3.16 is focused on recognising and protecting Agricultural Research Centres so is not considered relevant to rural character and amenity issues.
- In comparison, the Operative District Plan includes Objective 6.8.1 which is relevant to Agricultural Research Centres (submission sets out objective). Objective 6.8.1 is supported by four policies in the Operative District Plan.
- The submitter considers that the Proposed District Plan should continue the same approach by including an Objective and Policy specific to Agricultural Research Centres.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.72		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.16 Policy – Specific area - Agricultural research centres		
Summary of Decision Requested	Retain Policy 5.3.16 Specific area - Agricultural research centres, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter supports recognition of the need for research centres. 		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.17 Policy – Specific area - Huntly Power Station – Coal and ash water

Submitter Number:	860	Submitter:	Aggregate and Quarry Association (AQA) and Straterra
Point Number	860.8		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.17 Policy – Specific area - Huntly Power Station – Coal and ash water		
Summary of Decision Requested	Retain Policy 5.3.17 (b) Specific area - Huntly Power Station - Coal and ash water.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	924	Submitter:	Alice Barnett
Organisation:	Genesis Energy Limited		
Point Number	924.15		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.17 Policy – Specific area - Huntly Power Station – Coal and ash water		
Summary of Decision Requested	<p>Amend Policy 5.3.17 (b)- Specific Area- Huntly Power Station- Coal and ash water as follows:</p> <p><i>(b) Provide for specific facilities that include the handling, stockpiling and haulage of coal and the disposal management of coal ash and associated water within identified areas in close proximity to Huntly Power Station.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports Policy 5.3.17 as it recognises and provides for facilities that are integral to the operation of the Huntly Power Station. • It is appropriate that the overlay in the planning maps specifies the area in which these activities occur and facilities are located. • Policy 5.3.17 (b) Incorrectly lists the facilities as being for disposal of coal ash but those facilities provide for the management of the coal ash. The submitter considers this policy should be amended to correctly reflect the purpose for which the ash management site exists. • Policy 5.3.17 does not list coal stockpiling in this specific area but this is an activity that is undertaken within the identified area and is integral to the operation of Huntly Power Station. 		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.18 Policy – Specific area - Whaanga Coast Development Areas

Submitter Number:	553	Submitter:	Malibu Hamilton
Point Number	553.36		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.18 Policy – Specific area - Whaanga Coast Development Areas		
Summary of Decision Requested	Retain Policy 5.3.18 Specific area – Whaanga Coast Development Areas.		
Decision Reasons:	<ul style="list-style-type: none"> • The New Zealand Coastal Policy Statement 2010 in Policy (d) recognises Tangata whenua needs for papakāinga, marae. • The Waikato Regional Policy Statement, 2016 also has Policy 6.4 Marae and papakāinga provisions. • The Future Proof Strategy Planning for Growth November 2017 has Priority 15 that seeks developments of papakāinga housing that meets the needs and aspirations in the sub-region. • RMA sections 6(e), 7(a), and 8 set out legal obligations when managing the natural and physical resources of the region to Tangata whenua. 		

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		

Point Number	831.66
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.3 Rural Character and Amenity > 5.3.18 Policy – Specific area - Whaanga Coast Development Areas
Summary of Decision Requested	No specific decision is requested, but the submitter seeks to protect the wild and natural character of the Whaanga Coast with reference to Policy 5.3.18 Specific Area - Whaanga Coast Development Areas.
Decision Reasons:	<ul style="list-style-type: none"> The coast retains a relatively wild landscape and should be free from commercial development.

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries

Submitter Number:	771	Submitter:	Alison Brown
Organisation:	Bathurst Resources Ltd and BT Mining Ltd		
Point Number	771.14		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries		
Summary of Decision Requested	Retain Section 5.4 Minerals and extractive industries, except for the amendments sought elsewhere in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Supports the recognition of the importance of mining to the district (and indeed Waikato Region). To enable the continuation of coal mining in the district it is appropriate to identify Coal Mining Resource Areas, as has been done for aggregates, to provide for future expansion of coal mining particularly in the Rotowaro coalfield. 		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries > 5.4.1 Objective – Minerals and extractive industries

Submitter Number:	395	Submitter:	Ministry of Business, Innovation and Employment
Organisation:	New Zealand Petroleum and Minerals		
Point Number	395.2		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries > 5.4.1 Objective – Minerals and extractive industries		
Summary of Decision Requested	Retain Objective 5.4.1 Minerals and extractive industries, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> NZPM supports the intent of this objective to ensure that mining resource use can provide economic, social and environmental benefits to the Waikato District. 		

Submitter Number:	575	Submitter:	Fulton Hogan Limited
Point Number	575.5		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries > 5.4.1 Objective – Minerals and extractive industries		
Summary of Decision Requested	<p>Retain Objective 5.4.1- Minerals and extractive industries, except for the amendments sought below</p> <p>AND</p> <p>Amend Objective 5.4.1 - Minerals and extractive industries, as follows (or words to similar effect):</p> <p><i>Mineral resource use <u>and mineral and aggregate extraction activities</u> provide economic, social and environmental benefits to the district <u>and these activities are protected.</u></i></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential and additional amendments as necessary to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Fulton Hogan support this objective based on the fact that it provides a level of protection for the mineral resource industry. By inserting the proposed words, the protection is strengthened which is key, given that this industry is vital to this district and contributes an important share of its GDP. This approach is supported by the RPS, particularly Objective 3.10 and Policies 4.4 and 6.8, which specifically protect regionally significant industries and recognise the importance of mineral extraction to sustain anticipated regional growth. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.73		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries > 5.4.1 Objective – Minerals and extractive industries		
Summary of Decision Requested	Retain Objective 5.4.1 Minerals and extractive industries, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter agrees with the Objective. 		

Submitter Number:	691	Submitter:	McPherson Resources Limited
--------------------------	-----	-------------------	-----------------------------

Point Number	691.2
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries > 5.4.1 Objective – Minerals and extractive industries
Summary of Decision Requested	<p>Retain Objective 5.4.1 Mineral and extractive industries, except for the amendments sought below</p> <p>AND</p> <p>Amend Objective 5.4.1 Mineral and extractive industries as follows (or words to similar effect):</p> <p><i>Mineral resource use <u>and mineral and aggregate extraction activities</u> provides economic, social and environmental benefits to the district <u>and are protected</u>.</i></p> <p>AND</p> <p>Any consequential amendments or alternative relief to give effect to the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> • Submitter supports this objective as it provides a level of protection for the industry, which includes quarry operations • Protection is strengthened which is key, given that this industry is vital to this district in that contributes an important share of its GDP. • This is supported by the Regional Policy Statement, particularly Objective 3.10 and Policies 4.4 and 6.8, which specifically protect regionally significant industries and recognize the importance of mineral extraction to sustain anticipated regional growth.

Submitter Number:	723	Submitter:	Tyler Sharratt

Point Number	723.5		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries > 5.4.1 Objective – Minerals and extractive industries		
Summary of Decision Requested	<p>Amend Objective 5.4.1: Minerals and Extractive Industries, as follows:</p> <p><i>(a) Mineral resource use <u>and extractive industries</u> provides economic, social and environmental benefits to the district.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Proposed objective doesn't read properly. • It states "Mineral use provides," whereas it makes sense to say "Minerals and Extractive Industries provide..." 		

Submitter Number:	797	Submitter:	Fonterra Limited
Point Number	797.15		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries > 5.4.1 Objective – Minerals and extractive industries		
Summary of Decision Requested	Retain Objective 5.4.1 Minerals and extractive industries as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Supports the recognition of economic value of the districts mineral resources. 		

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.48		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries > 5.4.1 Objective – Minerals and extractive industries		
Summary of Decision Requested	<p>Amend Objective 5.4.1 Minerals and extractive industries as follows (or words to similar effect):</p> <p><i>(a) Mineral resource use provides economic <u>and</u> social <u>and environmental</u> benefits to the district.</i></p> <p>AND</p> <p>Any other further or consequential amendments required.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Unclear how mineral resource use can be required to provide environmental benefits. • The use of 'environmental benefits' incorrectly implies that the environment is limited to the natural environment and does not include social and economic elements. • Supports acknowledgement of the benefits of mineral use to the district. 		

Submitter Number:	860	Submitter:	Aggregate and Quarry Association (AQA) and Straterra
Point Number	860.9		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries > 5.4.1 Objective – Minerals and extractive industries		
Summary of Decision Requested	Retain Objective 5.4.1 (a) Minerals and extractive industries.		
Decision Reasons:	<ul style="list-style-type: none"> • The minerals and extractive sectors continue to contribute \$2453 million in GDP and directly employ 6,050 people jobs, across New Zealand. The Waikato District has one of the larger extractive sectors in the country. • In addition to this, the sector's outputs (coal, rock sand, and gravel etc.) are crucial to the growth of the district within the infrastructure and energy sectors. 		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries > 5.4.2 Policy – Access to minerals and extractive industries

Submitter Number:	395	Submitter:	Ministry of Business, Innovation and Employment
--------------------------	-----	-------------------	---

Organisation:	New Zealand Petroleum and Minerals
Point Number	395.3
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries > 5.4.2 Policy – Access to minerals and extractive industries
Summary of Decision Requested	<p>Retain Policy 5.4.2 Access to minerals and extractive industries, which enables mineral use and extractive industries, except for the amendment sought below.</p> <p>AND</p> <p>Amend Policy 5.4.2- Access to minerals and extractive industries as follows (or similar wording):</p> <p>Protecting and enabling Access to minerals use and extractive industries</p> <p>(a) Enable extractive industries provided that adverse effects are appropriately avoided, remedied, or mitigated, offset or compensated.</p> <p>(b) Protect access to, and extraction of, mineral resources by:</p> <p>(i) Identifying lawfully established existing extractive industries in Aggregate Extraction Areas and Coal mining Areas on planning maps;</p> <p>(ii) Identifying the site of a potential extractive industry within an Aggregate Resource Area on planning maps;</p> <p>(c) Ensure that lawfully established extractive industries are not compromised by new subdivision, use or development;</p> <p>(d) Avoid the location of any sensitive land use within specified buffer areas which otherwise risks the effective operation of <u>an existing lawfully established</u> extractive industry.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential or similar amendments as necessary to address the matters raised in submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> NZPM generally supports the intent of this policy to protect and enable mineral use and extractive industries. Amendments make the title more aligned with the intent and focus of the policy. Ensures that offsetting and compensation are options available to manage residual adverse effects of mining activities that cannot be avoided, remedied and mitigated. Removes unnecessary references to 'lawfully established' extractive industries.

Submitter Number:	575	Submitter:	Fulton Hogan Limited
Point Number	575.14		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries > 5.4.2 Policy – Access to minerals and extractive industries		
Summary of Decision Requested	<p>Retain Policy 5.4.2 Access to minerals and extractive industries, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 5.4.2 (a) and (b) Access to minerals and extractive industries, as follows (or words to similar effect):</p> <p>a. Enable extractive industries provided that adverse effects are avoided, remedied or mitigated <u>insofar as it is reasonable and practicable while still ensuring that the industry remains viable</u>.</p> <p>b. Protect access to, and extraction of, mineral resources by:</p> <p>i. Identifying lawfully established extractive industries in <u>or outside of</u> Aggregate Extraction Areas and Coal Mining Areas on planning maps;</p> <p>ii. Identifying the site of a potential extractive industry within <u>or outside of</u> an Aggregate Resource Area on planning maps;</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential and additional amendments as necessary to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Submission supports the policy but seeks amendments as the protection afforded by the policy only extends to existing quarries and not new extractive industries. It provides no protection to new extractive industries, as such properties would have to apply for a plan change. Aggregate is a significant and economically vital natural resource and contributes to the economic and social wellbeing of the area. 		

Submitter Number:	591	Submitter:	Stevenson Waikato Ltd
Point Number	591.6		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries > 5.4.2 Policy – Access to minerals and extractive industries		
Summary of Decision Requested	<p>Amend Policy 5.4.2 Access to minerals and extractive industries as follows:</p> <p>(a) Enable extractive industries, provided that adverse effects are avoided, remedied or mitigated.</p> <p>(b) Protect access to, and <u>enable the</u> extraction of, mineral resources by:</p> <p>(i) Identifying lawfully established extractive industries in Aggregate Extraction Areas and Coal Mining Areas on planning maps <u>and enabling extractive industry within those areas</u>;</p> <p>(ii) Identifying the site of a potential extractive industry within an Aggregate Resource Areas on planning maps <u>and enabling the expansion of extractive industry from within adjacent Aggregate Extraction Areas</u>;</p> <p>(c) Ensure that lawfully established extractive industries <u>within Aggregate Extraction Areas and Aggregate Resource Areas</u> are not compromised by new subdivision, use or development;</p> <p>(d) Avoid the location of any sensitive land use within <u>500 metres of Aggregate Extraction Areas and Aggregate Resource Areas in the case of a rock resource and 200 metres in the case of a sand resource</u> specified buffer areas otherwise risk the effective operation of a lawfully established extractive industry.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The policy does not give effect to the Waikato Regional Policy Statement or Objectives 5.4.2 or 5.4.1 of the Proposed District Plan. The policy should protect access to and extraction of mineral resources by enabling that access and extraction within the areas identified for that purpose. Where Aggregate Resource Areas are adjacent to Aggregate Extraction Areas it is clear they provide expansion areas for the lawfully established extractive industry and this should be recognised in the policy. Vague reference to "specified buffer areas" needs to be made specific and apply not only to existing extractive industry. It is unnecessary to repeat "lawfully established" when referring to extractive industry within the Aggregate Extraction Area as by definition all such industry within such an area has been lawfully established. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
--------------------------	-----	-------------------	----------------------------------

Point Number	680.74
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries > 5.4.2 Policy – Access to minerals and extractive industries
Summary of Decision Requested	Retain Policy 5.4.2 Access to minerals and extractive industries, as notified.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this policy approach provided that it doesn't inadvertently capture farm quarries in any resource consent process.

Submitter Number:	691	Submitter:	McPherson Resources Limited
Point Number	691.7		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries > 5.4.2 Policy – Access to minerals and extractive industries		
Summary of Decision Requested	Retain the intent of Policy 5.4.2 Access to minerals and extractive industries, except for the amendments sought below. AND Amend 5.4.2 – Access to minerals and extractive and industries as follows (or words to similar effect): <i>(a) Enable extractive industries provided that adverse effects are avoided, remedied or mitigated <u>insofar as it is reasonable and practicable while still ensuring that the industry remains viable</u>.</i> <i>(b) Protect access to, and extraction of, mineral resources by:</i> <i>(i) Identifying lawfully established extractive industries in <u>or outside of</u> Aggregate Extraction Areas and Coal Mining Areas on planning maps;</i> <i>(ii) Identifying the site of a potential extractive industry within <u>or outside of</u> an Aggregate Resource Area on planning maps;</i> <i>(c)...</i> AND Any consequential amendments or alternative relief to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Supports the intention of this policy as it aims at safeguarding the operation of mineral and extractive industries in the Rural Zone. Based on the reference to "Aggregate Extraction Areas" and "Aggregate Resource Areas", the protection only extends to those quarries which are currently operating. It provides no protection to new extractive industries across the district, as such properties would have to apply for a Plan change in order to have the same level of protection Aggregate is a significant and economically vital natural resource for the Waikato District, which attributes to the economic and social wellbeing of the local area. It does so not only by supplying employment opportunities but also by ensuring that brown and blue rock can be sourced locally and used both within the district as well as within the wider region. This helps ensure that the construction cost of regional and district projects is kept at a minimum, as the distance which the aggregate has to travel is reduced 		

Submitter Number:	723	Submitter:	Tyler Sharratt
On behalf of:	Winstone Aggregates		
Point Number	723.6		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries > 5.4.2 Policy – Access to minerals and extractive industries		
Summary of Decision Requested	Amend Policy 5.4.2 (d) Access to minerals and extractive industries, as follows: <i>(d) Avoid the location of any sensitive land use within the specified buffer areas which otherwise risks the effective operation of a lawfully established extractive industry <u>or a site identified as an Aggregate Resource Area</u>.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Wording of (d) does not protect any identified Aggregate Resource Area. Clause (d) needs to include both the established extractive industry and Aggregate Resource Area to prevent the identified resource from being sterilised or subject to development constraints due to reverse sensitivity issues. There is no point having an overlay if there is no policy that adequately protects them. 		

Submitter Number:	771	Submitter:	Alison Brown
Organisation:	Bathurst Resources Ltd and BT Mining Ltd		
Point Number	771.11		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.4 Minerals and Extractive Industries > 5.4.2 Policy – Access to minerals and extractive industries		
Summary of Decision Requested	Add a new clause (iii) to Policy 5.4.2(b) Access to minerals and extractive industries as follows: <i>(b) Protect access to, and extraction of, mineral resources by:</i> ... <i>(iii) Identifying the site of a potential coal extractive industry within the Coal Mining Resource Area on the <u>planning maps</u>.</i> AND Add a definition for "Coal Mining Resource Area" to Chapter 13: Definitions as follows: <u>Coal Mining Resource Area means an area identified on the planning maps.</u> AND Add a Coal Mining Resource Area Overlay to the Planning Maps to areas subject to significant coal deposits in the Waikato District and as a minimum this should cover the indicative Rotowaro Coalfield as attached in the original submission. AND Any consequential amendments necessary to give effect to Coal Mining Resource Areas.		

Decision Reasons:	<ul style="list-style-type: none"> To enable the continuation of coal mining in the district, it is appropriate to identify Coal Mining Resource Areas, as has been done for aggregates, to provide for future expansion of coal mining particularly into the Rotowaro coalfield.

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.5 Hamilton's Urban Expansion Area

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.135		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.5 Hamilton's Urban Expansion Area		
Summary of Decision Requested	Amend Section 5.5 Hamilton's Urban Expansion Area for those under the Rural Zone to be able to develop according to rural rules unless the land is acquisitioned by Hamilton City Council. This is especially for the submitters' property at 295 Kay Road RD1, Horsham Downs.		
Decision Reasons:	<ul style="list-style-type: none"> Land cannot be unreasonably protected for Hamilton urban development. This is an unrealistic and unfair objective for small landholders such as the submitters' who have been subjected to land fragmentation by large-scale development. As landowners of a small Land holding, 4ha, they should not have their land which is also a Rural Zone protected just for the Hamilton urban expansion In their situation, they cannot use the productive rural land due to fragmentation by large NZTA/ Alliance roading projects. They should be able to use the land for appropriate rural use, such as a rural supporting business, e.g. veterinary clinic. They should be able to develop a rurally sensitive subdivision. They should not be put in a holding pattern by Hamilton urban expansion objectives. They should be able to develop a Hamilton Country Living Zone such as 5.6 (Rural Environment - Country Living Zone). 		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.5 Hamilton's Urban Expansion Area > 5.5.1 Objective – Hamilton's Urban Expansion Area

Submitter Number:	535	Submitter:	Lance Vervoort

Point Number	535.53		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.5 Hamilton's Urban Expansion Area > 5.5.1 Objective – Hamilton's Urban Expansion Area		
Summary of Decision Requested	Retain Objective 5.5.1 Hamilton's Urban Expansion Area.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this objective as it sets out a key mechanism to ensure the future urban development potential of the land in the identified areas is not compromised. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.75		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.5 Hamilton's Urban Expansion Area > 5.5.1 Objective – Hamilton's Urban Expansion Area		
Summary of Decision Requested	Amend Objective 5.5.1 (a) Hamilton's Urban Expansion Area, as follows: <i>(a) Protect land within Hamilton's Urban Expansion Area for future urban development whilst:</i> AND Add to Objective 5.5.1 (a) Hamilton's Urban Expansion Area new clause (i), as follows: <i>(i) Ensuring that existing rural production activities and industrial activities are protected from the effects of reverse sensitivity when locating new residential development</i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports co-ordinated future planning with regards to urban expansion, however this must not be at the expense of lawfully established activities. 		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.5 Hamilton's Urban Expansion Area > 5.5.2 Policy – Activities within Hamilton's Urban Expansion Area

Submitter Number:	535	Submitter:	Lance Vervoort
--------------------------	-----	-------------------	----------------

Organisation:	Hamilton City Council
Point Number	535.54
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.5 Hamilton's Urban Expansion Area > 5.5.2 Policy – Activities within Hamilton's Urban Expansion Area
Summary of Decision Requested	<p>Amend Objective 5.5.1(a) Hamilton's Urban Expansion Area, as follows:</p> <p>(a) Manage <u>Avoid</u> subdivision, use and development within Hamilton's Urban Expansion Area to ensure that future urban development is not compromised.</p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> The current wording 'manage' does not provide appropriate direction and ability to protect land in the Urban Expansion Area from inappropriate subdivision, development and use and therefore future urban use can be compromised. The Urban Expansion area, with its objectives, policies and activity controls are key to ensuring a greater development potential in the future to occur in an integrated and functional manner.

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.12		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.5 Hamilton's Urban Expansion Area > 5.5.2 Policy – Activities within Hamilton's Urban Expansion Area		
Summary of Decision Requested	<p>Amend Policy 5.5.2 Activities within Hamilton's Urban Expansion Area, as follows:</p> <p>(a) Manage <u>urban</u> subdivision, use and development within Hamilton's Urban Expansion Area to ensure that future urban development is not compromised, <u>recognising existing Infrastructure within the Area and ensuring the ongoing operation, maintenance, upgrading and development of the Infrastructure is not compromised.</u></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Hamilton's Urban Expansion Area is identified on the planning map 27 and features the National Grid 110kV Hamilton - Meremere B Line. The submitter is not opposed to the development of the identified expansion area, subject to recognition of the existing National Grid Infrastructure and imposition of an appropriate National Grid corridor, and recognition that in the future, the existing line may require upgrade or development. Given the presence of the existing National Grid, the submitter seeks amendment to the policy wording to clarify that it is urban development which is to be managed to ensure further urban development is not compromised, and that the ongoing operation, maintenance, upgrading and development of the National Grid is not compromised. 		

Submitter Number:	797	Submitter:	Fonterra Limited
Point Number	797.17		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.5 Hamilton's Urban Expansion Area > 5.5.2 Policy – Activities within Hamilton's Urban Expansion Area		
Summary of Decision Requested	<p>Amend Policy 5.5.2 (a) Activities within Hamilton Urban Expansion Area as follows (or words to similar effect):</p> <p><i>Manage</i> subdivision, use and development within Hamilton's Urban Expansion Area to <u>avoid reverse sensitivity effects in respect of the Te Rapa Dairy Manufacturing Facility and to ensure that future urban development is not compromised.</u></p> <p>AND</p> <p>Any consequential amendments or further relief to give effect to the concerns raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Urban Expansion Area includes land in close proximity to the Te Rapa Dairy Manufacturing Facility. Additional reference is required to ensure that reverse sensitivity effects in respect to the factory are avoided. 		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone

Submitter Number:	367	Submitter:	Liam McGrath
Organisation:	Mercer Residents and Ratepayers Committee		
Point Number	367.9		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone		
Summary of Decision Requested	Retain Section 5.6 Country Living Zone.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.63		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone		
Summary of Decision Requested	<p>Add a new Objective to Section 5.6 Country Living Zone, as follows:</p> <p><u>Objective 5.6.x</u></p>		

To recognise and provide for non-residential activities that contribute to the health, safety and wellbeing of the community while managing their potential adverse effects to ensure that the activities complement the amenity values of the District's Country Living areas.

AND

Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- To better achieve the purpose of the RMA by providing for the health and safety of people and communities.

Submitter Number: 394 **Submitter:** Gwenith Sophie Francis

Point Number 394.29

Plan chapter Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone

Summary of Decision Requested **Add** objectives and policies to Section 5.6 Country Living Zone, that:

(i) Require sufficient areas within the northern part of the district are zoned countryside living to provide additional housing choices, particularly where there is reasonable access to Pukekohe and Tuakau;

(ii) Identify opportunities for countryside living zones to be reticulated with wastewater where it is located close to wastewater infrastructure; and

(iii) Zone land around Parker Lane and Cameron Town Road as countryside living

AND/OR

Amend other plan provisions as consequential or additional amendments as necessary to give effect to the relief sought.

AND

Amend the Proposed District Plan to make consequential or further additional relief, as is appropriate to give effect to the intent of the submission.

Decision Reasons:

- The Proposed Waikato District Plan fails to appropriately identify the issues and challenges facing Waikato District;
- The Proposed Waikato District Plan fails to have appropriate regard to the Regional Policy Statement and/or misapplies the strategic direction of that document;
- Council has failed to undertake an adequate section 32 analysis, particularly with respect to the extent and location of countryside living zone.
- The Proposed Waikato District Plan fails to identify sufficient and appropriately located areas for countryside living - particularly where there is good access to appropriate infrastructure.

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.561

Plan chapter Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone

Summary of Decision Requested **Add** a new policy 5.6.19 for amendments to existing retirement villages as follows:

5.6.19 Policy – Amendments to existing retirement villages within the Country Living Zone.

(a) Enable alterations and additions to existing retirement villages within the Country Living Zone.

Decision Reasons:

- This policy is to support the proposed restricted discretionary activity rule for retirement villages in the rural zone.

Submitter Number: 738 **Submitter:** Shand Properties Limited

Point Number 738.2

Plan chapter Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone

Summary of Decision Requested **Retain** Section 5.6 Country Living Zone Objectives and Policies.

Decision Reasons:

- The proposed objectives and policies generally provide an appropriate framework for implementing rules for assessing and managing effects of activities.

Submitter Number: 765 **Submitter:** Tamahere Eventide Home Trust

On behalf of: Atawhai Assisi Retirement Village

Point Number 765.19

Plan chapter Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone

Summary of Decision Requested **Add** new Policy 5.6.X (a) Tamahere Eventide as follows:

(a) Enable the existing Tamahere Eventide activities to continue and support their redevelopment and expansion, provided they do not have a significant adverse effect on the character and amenity of the Country Living Zone.

AND

Any consequential amendments that are required to give effect to the above submission.

Decision Reasons:

- The intent of the proposed policy 5.6.8 is also applicable to Tamahere Eventide Retirement Village, but would not apply because a Retirement Village is not considered a 'non-residential activity.'

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.1 Objective – Country Living Zone

Plan chapter

Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.3 Policy – Subdivision within the Country Living Zone

Summary of Decision Requested

Add a clause to Policy 5.6.3 Subdivision within the Country Living Zone, as follows:

(vi) where sites are in close to a village Zone, subdivision can be between 5,000m² and 3000m² unreticulated.

AND

Amend the Proposed District Plan to include all necessary, consequential or further relief required to give effect to the submission.

Decision Reasons:

- Some activities are appropriate in the rural environment and the effects are to be accepted.
- To specifically include urban activities in the list of features in the rural environment where a site is in close proximity to an urban village is appropriate.
- It is important to ensure consistent direction in the objectives and policies in the Proposed Waikato District Plan relating to reverse sensitivity.
- Whilst JTQL is located in the Rural Zone, it is surrounded by the Country Living Zone, Residential Zone and adjacent to the Waikato Expressway.
- The Tamahere Village Zone is within 800m of the site and is therefore no longer appropriately zoned as Rural.
- It is important to also provide a policy basis to ensure that when considering applications to subdivide and develop in the Rural Zone and Country Side Living Zone, that the location of the subdivision itself needs to be considered in terms of reverse sensitivity mitigation.
- This will assist in reducing the adverse effects of reverse sensitivity instead of only mitigating them.

Auckland Waikato Fish and Game Council

Point Number	433.8
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.3 Policy – Subdivision within the Country Living Zone
Summary of Decision Requested	Retain Policy 5.6.3 (a)(v) Subdivision within the Country Living Zone, as notified.
Decision Reasons:	<ul style="list-style-type: none"> Existing game bird hunting activities are often constrained by surrounding land use, and generally becomes untenable when this land use changes; for example, when urban and lifestyle encroachment occurs near traditionally hunted sites. Recreational game bird hunting is a very popular activity in the rural environment. The game bird season involves the discharge of shotgun noise. This is not like other constant noises rather it is very brief in duration. Game bird hunting begins at 6:30am in the morning and concludes at 6:30pm at night for the length of the season. Introducing new dwelling areas near areas of recreational significance to hunters can have implications on the future of hunting in these areas. For example, complaints can be made under the Arms Act 1983 which makes clear that anyone discharging a firearm in a public place so as to deliberately endanger, frighten or annoy any other person is guilty of a serious offence. Shotgun noise may also be a particular issue for public places such as any equestrian arena in the vicinity of maimais used during the game bird hunting season. Method 6.1.2 'Reverse sensitivity' of the RPS requires local authorities to have particular regard to the potential for reverse sensitivity when assessing resource consent applications, preparing, reviewing or changing district plans. It states that particular consideration should be given to discouraging new sensitive activities near existing and planned land uses or activities that could be subject to effects including the discharge of noise, which could lower the amenity values of the surrounding area.

Submitter Number:	466	Submitter:	Brendan Balle

On behalf of:	KiwiRail Holdings Limited (KiwiRail)		

Point Number 986.28

Plan chapter Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.3 Policy – Subdivision within the Country Living Zone

Summary of Decision Requested **Retain Policy 5.6.3 Subdivision within the Country Living Zone as notified.**

Decision Reasons:

- KiwiRail supports the policy's direction that existing infrastructure is not to be compromised by inappropriate subdivision, building and development, and that lawfully established activities are to be protected from reverse sensitivity effects in the zone.

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.4 Policy – Building setbacks

Submitter Number: 765 **Submitter:** Tamahere Eventide Home Trust

On behalf of: Atawhai Assisi Retirement Village

Point Number 765.11

Plan chapter Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.4 Policy – Building setbacks

Summary of Decision Requested **Retain Policy 5.6.4- Building setbacks, insofar as it seeks to maintain the existing spaciousness between adjoining sites (as opposed to the internal boundaries within a development).**

Decision Reasons:

- Approach is consistent with the other submission points in relation to Rule 23.3.7, which seeks amendments so that the building setbacks only apply to the external boundaries of the Tamahere Eventide site.

Submitter Number: 769 **Submitter:** Tamahere Eventide Trust

On behalf of: Tamahere Eventide Retirement Village

Point Number 769.10

Plan chapter Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.4 Policy – Building setbacks

Summary of Decision Requested **Retain Policy 5.6.4- Building setbacks.**

Decision Reasons:

- The submitter supports Policy 5.6.4 insofar as it seeks to maintain the existing spaciousness between adjoining sites.
- The approach is consistent with submission in relation to Rule 23.3.7 elsewhere in the submission.

Submitter Number: 986 **Submitter:** Pam Butler

On behalf of: KiwiRail Holdings Limited (KiwiRail)

Point Number 986.74

Plan chapter Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.4 Policy – Building setbacks

Summary of Decision Requested **Add a new clause (b) to Policy 5.6.4 Building setbacks as follows (or similar amendments to achieve the requested relief):**

(a) Maintain the existing spaciousness between buildings with adjoining sites.

(b) Manage Reverse sensitivity by providing sufficient setbacks buildings to provide for residents' safety and amenity.

AND

Any consequential amendments to link and/or accommodate the requested changes.

Decision Reasons:

- The policies applying to each zone requiring setbacks from the railway corridor should include reference to the purpose of the setback.
- Existing and sought changes to the Plans objectives lend sufficient support the need for setbacks for amenity and safety, and the efficient integration of development and infrastructure.
- Adding an additional item to these plan sections will also facilitate assessment of situations where the proposed 5 metre Building setback - railway corridor rule cannot be met, or it is inappropriate to require compliance.

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.5 Policy – Scale and intensity of development

Submitter Number: 765 **Submitter:** Tamahere Eventide Home Trust

On behalf of: Atawhai Assisi Retirement Village

Point Number 765.12

Plan chapter Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.5 Policy – Scale and intensity of development

Summary of Decision Requested **Amend Policy 5.6.5- Scale and intensity of development as follows:**

Minimise the adverse effects of development created by excessive building scale, overshadowing, building bulk, excessive site coverage or loss of privacy, except where such development correlates to existing site development.

OR

	<p>Add a new policy for Tamahere Eventide.</p> <p>AND</p> <p>Any consequential amendments that are required to give effect to the above submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> Amendments are required to Policy 5.6.5 so that it does not apply to existing development or an existing Retirement Village.

Submitter Number:	769	Submitter:	Tamahere Eventide Trust
On behalf of:	Tamahere Eventide Retirement Village		
Point Number	769.11		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.5 Policy – Scale and intensity of development		
Summary of Decision Requested	<p>Amend Policy 5.6.5- Scale and intensity of development to include the additional wording as follows:</p> <p><u>Except where such development correlates to existing site development</u></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Amendments are required to Policy 5.6.5 so that it does not apply to existing development or an existing Retirement Village. 		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.7 Policies - Earthworks

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.18		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.7 Policies - Earthworks		
Summary of Decision Requested	<p>Add to 5.6.7 (Rural Environment – Country Living Zone – Policies - Earthworks) a new line as follows:</p> <p><u>Manage the earthworks site to ensure that resources at the site are safe and to minimise the risk of victimisation</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> Development sites are crime attractors Vehicles, tools and diesel have previously been targeted by criminals The inclusion of this wording ensures that there is an obligation through council policy to consider safety at development sites This should result in reduced victimisations, making people safe and feel safe. 		

Submitter Number:	433	Submitter:	Mischa Davis
Organisation:	Auckland Waikato Fish and Game Council		
Point Number	433.9		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.7 Policies - Earthworks		
Summary of Decision Requested	<p>Delete Policy 5.6.7 (a)(iii) Earthworks.</p> <p>AND/OR</p> <p>Any alternative relief to address the issues and concerns raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Assessing changes to natural water flows and established drainage paths is a function of Waikato Regional Council. Therefore, retaining clause (a)(iii) is considered a duplicate function. 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.55		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.7 Policies - Earthworks		
Summary of Decision Requested	<p>Retain Policy 5.6.7 Earthworks, except for the amendments sought below.</p> <p>AND</p> <p>Amend Policy 5.6.7(e) Earthworks as follows:</p> <p><i>(d) Subdivision and development occurs in a manner that maintains shape, contour, and landscape characteristics and avoids adverse effects on historic heritage and cultural values.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Policy 5.6.7 Earthworks activities in part as this policy does not reflect the need to provide for the protection of historic and cultural values at the time of earthworks. The policy needs to be amended to reflect the need to give effect to s6 of the Resource Management Act. 		

Submitter Number:	585	Submitter:	Lucy Roberts
Organisation:	Department of Conservation		
Point Number	585.7		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.7 Policies - Earthworks		
Summary of Decision Requested	Amend Policy 5.6.7 Earthworks to address the management of kauri dieback and measures to prevent the spread of the disease.		
Decision Reasons:	<ul style="list-style-type: none"> The disease is threatening kauri with functional extinction and requires collaborative work to manage the disease and control any further spread. Any land disturbance within three times the radius of the canopy of the dripline of a kauri tree can cause potential contamination of an uninfected site and spread of disease. The Director-General considers that provisions of the Thames Coromandel District Plan as appropriate be adopted into the Proposed Waikato District Plan. 		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.8 Policy – Non-residential activities

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.37		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.8 Policy – Non-residential activities		
Summary of Decision Requested	Add to Policy 5.6.8 Non-residential activities a new point as follows: <i>(b) ensure any non-residential activities and associated buildings, structures and facilities conform to the national guidelines for CPTED</i>		
Decision Reasons:	<ul style="list-style-type: none"> To ensure that there is an obligation to consider CPTED, reducing victimisation, making people safe and feel safe 		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.65		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.8 Policy – Non-residential activities		
Summary of Decision Requested	Retain Policy 5.6.8 Non-residential activities, to the extent that it anticipates non-residential activities in the Country Living Zone AND Amend Policy 5.6.8 Non-residential activities, as follows: <i>(a) Limit the establishment of commercial or industrial non-residential activities within the Country Living Zone unless they:</i> <i>(ii) Provide for the health, safety and well-being of the community and that service or support an identified local need.</i> AND Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand supports in part Policy 5.6.8 to the extent that these provisions anticipate non-residential activities in the Country Living Zone, but considers that the provisions focus on the management of effects, rather than an outcome that provides clear direction in relation to the appropriateness of some non-residential activities in the Country Living Zone. For instance providing for emergency services that have a functional and operational need to be located in close proximity to the communities they serve. Amendments sought better achieve the purpose of the RMA by providing for the health and safety of people and communities. 		

Submitter Number:	389	Submitter:	Jonathan Quigley
Organisation:	J and T Quigley Ltd		
Point Number	389.7		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.8 Policy – Non-residential activities		
Summary of Decision Requested	Add a new clause (iii) to Policy 5.6.8 Non-residential activities, as follows: <i>(iii) Are in close proximity (within 1 km) to a Village Living Zone and include early childhood education.</i> AND Amend the Proposed District Plan to include all necessary, consequential or further relief required to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Childcare facilities should be considered as providing for the health and well being of the community. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.55		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.8 Policy – Non-residential activities		

Summary of Decision Requested	Retain Policy 5.6.8 Non-residential activities.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of this policy which is to limit the establishment of non-residential activities in the Country Living Zone and therefore ensure that existing commercial centres are maintained.

Submitter Number:	765	Submitter:	Tamahere Eventide Home Trust
On behalf of:	Atawhai Assisi Retirement Village		
Point Number	765.13		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.8 Policy – Non-residential activities		
Summary of Decision Requested	<p>Add a new policy for Tamahere Eventide after policy 5.6.8 Non-residential activities as follows:</p> <p><u>Policy 5.6.X: Tamahere Eventide</u></p> <p><i>(g) Permit additions and expansions at Tamahere Eventide where they:</i></p> <p><i>(i) Have functional need to locate within the Country Living Zone; and</i></p> <p><i>(ii) Provide for the health and wellbeing of the community.</i></p> <p>AND</p> <p>Any consequential amendments that are required to give effect to the above submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The intent of the proposed policy 5.6.8 is also applicable to Tamahere Eventide Retirement Village, but would not apply because a Retirement Village is not considered a 'non-residential activity.' 		

Submitter Number:	769	Submitter:	Tamahere Eventide Trust
On behalf of:	Tamahere Eventide Retirement Village		
Point Number	769.12		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.8 Policy – Non-residential activities		
Summary of Decision Requested	<p>Add a new Policy to Section 5.6 Country Living Zone for Atawhai Assisi as follows:</p> <p><u>Policy 5.6.8 (g): Atawhai Assisi</u></p> <p><i>(g) Permit additions and expansions at Atawhai Assisi where they:</i></p> <p><i>(i) Have a functional need to locate within the Country Living Zone; and</i></p> <p><i>(ii) Provide for the health and well-being of the community.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The intent of current Country Living Zone Policy 5.6.8- Non-residential activities is also applicable to Atawhai Assisi Retirement, but would not apply because a Retirement Village is not considered a 'non-residential activity.' 		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.9 Policy – Existing non-residential activities

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.1		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.9 Policy – Existing non-residential activities		
Summary of Decision Requested	Retain Policy 5.6.9 Existing non-residential activities.		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand supports the policy as a number of existing fire stations in the Waikato region are within the Rural environment therefore provision to enable fire service facilities to continue to function, re-development, or if necessary, expand, they can do so grounded on an effects based approach. 		

Submitter Number:	769	Submitter:	Tamahere Eventide Trust
On behalf of:	Tamahere Eventide Retirement Village		
Point Number	769.13		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.9 Policy – Existing non-residential activities		
Summary of Decision Requested	<p>Add a new Policy to Section 5.6 Country Living Zone as follows:</p> <p><u>Policy 5.6.9 (g): Atawhai Assisi</u></p> <p><i>(g) Enable the existing Atawhai Assisi activities to continue and support their redevelopment and expansion, provided they do not have a significant adverse effect on the character and amenity of the Country Living Zone.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The intent of Country Living Zone Policy 5.6.9- Existing non-residential activities is also applicable to Atawhai Assisi Retirement Village, but would not apply 		

because it is not considered a 'non-residential activity.'

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.13 Policy – Enabling signage

Submitter Number:	433	Submitter:	Mischa Davis
Organisation:	Auckland Waikato Fish and Game Council		
Point Number	433.10		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.13 Policy – Enabling signage		
Summary of Decision Requested	Retain Policy 5.6.13 Enabling signage, as notified.		
Decision Reasons:	<ul style="list-style-type: none">Fish and Game has a statutory role to main and enhance access to sports fisheries and game bird hunting areas. Signage is therefore a fundamental aspect of managing game bird shooting and sports fish angling activities and is accepted as a permitted activity throughout much of New Zealand.		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.14 Policy – Managing the adverse effects of signs

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.28		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.14 Policy – Managing the adverse effects of signs		
Summary of Decision Requested	Retain Policy 5.6.14 Managing the adverse effects of signs as notified.		
Decision Reasons:	<ul style="list-style-type: none">The intention of this policy is in line with the Police Prevention First Model (taking every opportunity to prevent harm) and the Safer Journeys Strategy (reducing and preventing road related trauma) and the target to reduce road deaths every year by 5 percent.		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.42		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.14 Policy – Managing the adverse effects of signs		
Summary of Decision Requested	Retain Policy 5.6.14 Managing the adverse effects of signs, except for the amendments sought below AND Amend Policy 5.6.14 Managing the adverse effects of signs, as follows: <i>(a) The location, colour, content, and appearance of signs directed at or visible to road users traffic is controlled to ensure signs they do not distract, confuse or obstruct motorists, pedestrians and other road users adversely affect safety of road users..."</i> AND Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none">The submitter supports the intent of Policy 5.6.14 and requests that it is amended to clarify that it relates to all signage visible or directed at traffic.The submitter also seeks the wording of Policy 5.6.14 to be aligned with Policy 5.3.14(b) (and the submitter's proposed amendments to Policy 5.3.14(b)).		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.15 Policy – Artificial outdoor lighting

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.25		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.15 Policy – Artificial outdoor lighting		
Summary of Decision Requested	Retain Policy 5.6.15 Artificial outdoor lighting, except for the amendments sought below. AND Add to Policy 5.6.15 Artificial outdoor lighting a new line as follows: <i>(d) Conform to the national guidelines for CPTED.</i>		
Decision Reasons:	<ul style="list-style-type: none">To ensure that there is an obligation to consider security and CPTED, reducing victimisation, making people safe and feel safe.		

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.136		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.15 Policy – Artificial outdoor lighting		
Summary of Decision Requested	Amend Policy 5.6.15 Artificial outdoor lighting to control adverse effects of large project lighting and any other lighting in an ecological management area with low light emission tolerance.		
Decision Reasons:	<ul style="list-style-type: none"> • This policy does not go far enough • An ecological management area should be managing for environmentally sensitive lower light spill tolerance. • Dark sky area should be promoted • Specific mitigation policy should be in place for road lighting spill. • Permissible Lux light level should be lower. • If this is an ecological area then a dark sky area should be promoted. It is noted that there is no significant dark sky area in this central area of the north island. It is also noted that light spill is being experienced currently in the proposed ecological area that is unacceptable for an ecological management area. • The light spill should be strictly controlled. Lighting should be subject to tighter environmental control. 		
Point Number	330.60		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.15 Policy – Artificial outdoor lighting		
Summary of Decision Requested	No specific decision sought, however submission refers to Policy 5.6.15 Artificial outdoor lighting.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.43		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.15 Policy – Artificial outdoor lighting		
Summary of Decision Requested	Retain Policy 5.6.15 Artificial outdoor lighting as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter supports Policy 5.6.15(c). 		

Plan chapter: Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.16 Policy – Noise

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.61		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.16 Policy – Noise		
Summary of Decision Requested	No specific decision sought, however submission refers to Policy 5.6.16 Noise.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.44		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.16 Policy – Noise		
Summary of Decision Requested	Retain Policy 5.6.16 Noise, except for the amendments sought below AND Amend Policy 5.6.16(a)(v) Noise, as follows: <i>Requiring acoustic insulation where sensitive <u>land use</u> activities are located within high noise environments, <u>including near existing and designated State Highways.</u></i> AND Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the intent of Policy 5.6.16. • Vehicles state highways can produce adverse effects that extend beyond the state highway boundary, such as: noise and vibration, emissions, lighting/glare, and dust. • Development that establishes near highways needs to take into account the potential for these effects to be experienced and should be designed to avoid/mitigate them. In particular, noise sensitive activities such as dwellings can be affected by road-traffic noise and vibration, which can lead to annoyance and sleep disturbance potentially resulting in adverse health effects. • The submitter therefore seeks recognition of state highways as high noise environments within this policy. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.29		
Plan chapter	Section B Objectives and Policies > Chapter 5: Rural Environment > 5.6 Country Living Zone > 5.6.16 Policy – Noise		
Summary of Decision Requested	<p>Retain Policy 5.6.16 Noise, particularly clauses (iii)-(v) as amended below</p> <p>AND</p> <p>Amend Policy 5.6.16 Noise as follows (or similar amendments to achieve the requested relief):</p> <p><i>(iii) Maintaining appropriate setback distances between high noise environments and sensitive land uses and noise-sensitive activities</i></p> <p><i>(iv) Managing the location of sensitive land uses and noise-sensitive activities, particularly in relation to lawfully-established high noise-generating activities;</i></p> <p><i>(v) Requiring acoustic insulation where noise sensitive activities are located within high noise environments.</i></p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail supports the policy, in particular clauses (iii)-(v). These clauses support noise sensitive activities managing reverse sensitivity effects on the railway corridor, including through both setbacks and acoustic design. The terminology used in the policy is 'sensitive land uses'. The policy should be expanded to include 'noise' sensitive activities (as this is also defined in the Plan). A separate KiwiRail submission seeks that the definitions of 'noise sensitive' and 'sensitive' land uses be clarified or combined. 		

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.190		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure		
Summary of Decision Requested	<p>Amend Chapter 6: Infrastructure to explicitly provide for the protection of waterways and public drainage networks by suggested additions to Policies 6.4.2 and 6.4.7 or, alternatively, reflect this outcome in the specific objectives and policies for each zone.</p> <p>Refer to suggested wording and examples in original submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> There are no provisions proposed to protect the existing drainage networks from being over loaded from residential, rural residential, industrial and commercial developments that discharge additional stormwater volumes into existing WRC drainage managed catchments. An example is the Butcher road rural residential expansion without any form of suitably maintained road berm drainage disposal system. There is an opportunity to incorporate provisions that align with Waikato Regional Council stormwater management plan standards. For example, any subdivision or development of land in an existing Waikato Regional Council managed drainage catchment should be designed to avoid adverse effects on the drainage catchment, or result in no additional flows, as this can affect the cost of maintenance and operation, which are then passed onto ratepayers. 		

Submitter Number:	164	Submitter:	Hilini Kepa
Point Number	164.4		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure		
Summary of Decision Requested	No specific decision sought, but submission states support for Chapter 6 Infrastructure and Energy.		
Decision Reasons:	<ul style="list-style-type: none"> Allows autonomy, growth and independence. 		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.39		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure		
Summary of Decision Requested	<p>Add an introduction to Chapter 6 Infrastructure as follows (or words to similar effect):</p> <p><u>Introduction</u></p> <p><u>The provisions within this chapter of the district plan apply across the district in all zones. The underlying zone objectives and policies do not apply to infrastructure activities unless specifically referred to within this chapter.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> Prefer a clear statement indicating that the underlying zone and overlay objectives and policies do not apply to infrastructure activities unless specifically referred to within this chapter. 		

Submitter Number:	942	Submitter:	Angeline Greensill
--------------------------	-----	-------------------	--------------------

Organisation:	Tainui
Point Number	942.26
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure
Summary of Decision Requested	No specific decision sought, but the submitter supports the objectives and most of the policies within Chapter 6 Infrastructure and Energy.
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.

Submitter Number:	945	Submitter:	First Gas Limited
Point Number	945.33		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure		
Summary of Decision Requested	<p>Amend Section 6.2 National Grid of the Proposed District Plan, as sought in the submission.</p> <p>OR</p> <p>Add a definition for "Regionally Significant Infrastructure" and corresponding objective and policy framework for "Regionally Significant Infrastructure" in order to give effect to the Waikato Regional Policy Statement.</p> <p>AND</p> <p>Any consequential amendments and other relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally supports the intent of the chapter but notes that regionally significant infrastructure is neither defined in the District Plan nor is the term used in the objective and policy framework. The submitter is of the opinion that its transmission pipeline is nationally significant and seeks that those provisions referencing the National Grid be amended to also include reference to the gas transmission pipeline. First Gas acknowledges that its distribution pipeline differs from its transmission pipeline in this regard. Alternatively, the District Plan should include a definition for, and corresponding objective and policy framework for Regionally Significant Infrastructure in order to give effect to the RPS for Waikato. 		

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure

Submitter Number:	367	Submitter:	Liam McGrath
Organisation:	Mercer Residents and Ratepayers Committee		
Point Number	367.10		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure		
Summary of Decision Requested	Retain Section 6.1 General Infrastructure.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.14		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure		
Summary of Decision Requested	<p>Retain Section 6.1 General Infrastructure, except for the amendments sought below</p> <p>AND</p> <p>Add to Section 6.1 General Infrastructure a preface with the following note:</p> <p><u><i>In addition to Sections 6.2, 6.3, 6.4 and 6.5, the following objective and policies apply, unless otherwise stated.</i></u></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter's understanding of the Proposed District Plan is that while Section 6.2 is specific to the National Grid, Section 6.1 Infrastructure also applies to the National Grid because it is included within the definition of Infrastructure provided within Chapter 13 Definitions. For the avoidance of doubt, the submitter supports specific reference that Section 6.1 also applies to The National Grid (and to Sections 6.3—Section 6.5). On the basis Sections 6.1 and 6.2 both apply to the National Grid; the submitter makes the following comments (as provided in the following submission points) to Chapter 6.1. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.23		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure		
Summary of Decision Requested	Retain the objectives and policies in Section 6.1 General infrastructure as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the objectives and policies in section 6.1. The submitter notes particular support for the following policies: 6.1.9, 6.1.10, 6.1.11, 6.1.12 and 6.1.13 		

Submitter Number:	924	Submitter:	Alice Barnett
Organisation:	Genesis Energy Limited		
Point Number	924.16		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure		
Summary of Decision Requested	<p>Add a new Policy to Section 6.1 - General Infrastructure as follows:</p> <p><u>6.1.X Policy- Regionally Significant Infrastructure</u></p> <p>a. <u>Have particular regard to the benefits that can be gained from the development and use of regionally significant infrastructure (as defined in the Waikato Regional Policy Statement 2016); and</u></p> <p>b. <u>Protect the effectiveness and efficiency of existing and planned regionally significant infrastructure.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers that existing and proposed regionally significant infrastructure should be explicitly recognised and provided for in the Infrastructure section of the Plan. Policy 6.6 in the Waikato Regional Policy Statement requires that the effectiveness and efficiency of existing and planned regionally significant infrastructure is protected and that particular regard is given to the benefits that can be gained from the development and use of regionally significant infrastructure. 		

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.1 Objective – Development, operation and maintenance of infrastructure

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.32		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.1 Objective – Development, operation and maintenance of infrastructure		
Summary of Decision Requested	Retain Objective 6.1.1 (a) Development, operation and maintenance of infrastructure as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Counties Power supports the development, operation and maintenance of infrastructure across the Waikato. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.73		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.1 Objective – Development, operation and maintenance of infrastructure		
Summary of Decision Requested	<p>Retain Objective 6.1.1 (a) Development, operation and maintenance of infrastructure, except for the amendments sought below</p> <p>AND</p> <p>Amend Objective 6.1.1 (a) Development, operation and maintenance of infrastructure, as follows:</p> <p>(a) <u>Infrastructure is developed, operated and maintained and upgraded to benefit the social, economic, cultural and environmental wellbeing of the district, region and nation.</u></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the policy recognition of the benefits of infrastructure. However, amendment is sought to refer to 'upgrade', as well as the insertion of recognition of the regional and national benefits given infrastructure can have wider benefits than those at a district level. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.87		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.1 Objective – Development, operation and maintenance of infrastructure		
Summary of Decision Requested	Retain Objective 6.1.1 Development, operation and maintenance of infrastructure, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Supports this objective as notified and the inclusion of an infrastructure chapter. 		

Submitter Number:	644	Submitter:	Spark New Zealand Trading Limited
Point Number	644.18		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.1 Objective – Development, operation and maintenance of infrastructure		
Summary of Decision Requested	Retain Objective 6.1.1- Development, operation and maintenance of infrastructure as notified.		
Decision Reasons:	<ul style="list-style-type: none"> These provisions are generally consistent with the policy framework in the draft National Planning Standard for Infrastructure. These provisions are considered to provide a workable policy framework for telecommunications infrastructure. 		

Submitter Number:	646	Submitter:	Vodafone New Zealand Limited
Point Number	646.18		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.1 Objective – Development, operation and maintenance of infrastructure		
Summary of Decision Requested	Retain Objective 6.1.1- Development, operation and maintenance of infrastructure as notified.		
Decision Reasons:	<ul style="list-style-type: none"> This is generally consistent with the policy framework in the draft National Planning Standard for Infrastructure. These provisions are considered to provide a workable policy framework for telecommunications infrastructure. 		

Submitter Number:	648	Submitter:	Chorus New Zealand Limited
Point Number	648.18		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.1 Objective – Development, operation and maintenance of infrastructure		
Summary of Decision Requested	Retain Objective 6.1.1 - Development, operation and maintenance of infrastructure as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The provisions are generally consistent with the policy framework in the draft National Planning Standard for Infrastructure. The provisions are considered to provide a workable policy framework for telecommunications infrastructure. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.76		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.1 Objective – Development, operation and maintenance of infrastructure		
Summary of Decision Requested	Retain Objective 6.1.1 Development, operation and maintenance of infrastructure, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports a single objective aimed at social, economic, cultural and environmental benefits. 		

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.23		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.1 Objective – Development, operation and maintenance of infrastructure		
Summary of Decision Requested	Retain Objective 6.1.1 Development, operation and maintenance of infrastructure.		
Decision Reasons:	<ul style="list-style-type: none"> Objective 6.1.1 acknowledges the importance of infrastructure. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.45		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.1 Objective – Development, operation and maintenance of infrastructure		
Summary of Decision Requested	<p>Retain Objective 6.1.1 Development, operation and maintenance of infrastructure, except for the amendments sought below</p> <p>AND</p> <p>Amend Objective 6.1.1 Development, operation and maintenance of infrastructure, as follows:</p> <p><i>Infrastructure is developed, operated and maintained to benefit the enhance social, economic, cultural and environmental well-being of the district.</i></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of Objective 6.1.1 but requests that it is amended to recognise the wider benefits of infrastructure within and beyond the district. 		

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.11		

Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.1 Objective – Development, operation and maintenance of infrastructure		
Summary of Decision Requested	Retain Objective 6.1.1 Development, operation and maintenance of infrastructure as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Supports the inclusion of specific provisions that provide for, recognise and enable infrastructure, which is considered to cover the water supply system for the mining site and the pump station at Allcock Road and which should include the slurry pipeline infrastructure. 		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.34		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.1 Objective – Development, operation and maintenance of infrastructure		
Summary of Decision Requested	Retain Objective 6.1.1 Development, operation and maintenance of infrastructure as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Provide objectives and policies for the development, operation and maintenance of infrastructure and recognise the role they play in social, economic, cultural and environmental well-being of the district. This sentiment is supported by the submitter. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.85		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.1 Objective – Development, operation and maintenance of infrastructure		
Summary of Decision Requested	Retain Objective 6.1.1- Development, operation and maintenance of infrastructure as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Submitter supports the objective as it states clearly the importance of infrastructure provision to achieving social, economic, cultural and environmental wellbeing. 		

Submitter Number:	924	Submitter:	Alice Barnett
Organisation:	Genesis Energy Limited		
Point Number	924.17		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.1 Objective – Development, operation and maintenance of infrastructure		
Summary of Decision Requested	Retain Objective 6.1.1-Development, operation and maintenance of infrastructure in the same or similar form.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this objective and recommends it is retained in the same or similar form. 		

Submitter Number:	945	Submitter:	First Gas Limited
Point Number	945.34		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.1 Objective – Development, operation and maintenance of infrastructure		
Summary of Decision Requested	Retain Objective 6.1.1 Development, operation and maintenance of infrastructure.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally supports the inclusion of Objective 6.1.1 which recognises the benefit of infrastructure to the social, economic, cultural and environmental well-being of the district. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.30		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.1 Objective – Development, operation and maintenance of infrastructure		
Summary of Decision Requested	<p>Amend Objective 6.1.1 Development, operation and maintenance of infrastructure as follows (or similar amendments to achieve the requested relief):</p> <p>(a) Infrastructure is developed, operated and maintained to benefit the social, economic, cultural and environmental wellbeing of the district.</p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail supports the objective seeking that infrastructure is developed, operated and maintained to benefit the social, economic, cultural and environmental 		

well-being of the district but requests that it is amended to have a wider focus, to include national and district benefits of infrastructure but seeks an amendment to recognise the wider benefits of infrastructure within and beyond the district.

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.2 Policy - Development, operation and maintenance

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.38		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.2 Policy - Development, operation and maintenance		
Summary of Decision Requested	<p>Add to Policy 6.1.2(a) Development, operation and maintenance, a new point as follows:</p> <p><u>(vii) the need to conform to the national guidelines for CPTED</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> To ensure that there is an obligation to consider CPTED, reducing victimisation, making people safe and feel safe. 		

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.33		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.2 Policy - Development, operation and maintenance		
Summary of Decision Requested	<p>Retain Policy 6.1.2 (a) (i-vi) Development, operation and maintenance, as notified.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Policy provides for all services that Counties Power carries out. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.68		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.2 Policy - Development, operation and maintenance		
Summary of Decision Requested	<p>Add Clause (vii) to Policy 6.1.2 (a) Development, operation and maintenance, as follows:</p> <p><i>(a) Provide for the development, operation, maintenance, repair, replacement, upgrading and removal of infrastructure throughout the district by recognising:</i></p> <p>...</p> <p><u>(vii) potential for impacts on affected landowners and property on which infrastructure is located.</u></p> <p>AND</p> <p>Amend Chapter 14 Infrastructure and Energy, to ensure that minor upgrading is clearly defined and does not include development or increase voltage of electricity lines.</p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter recognises the need to provide for infrastructure but considers that impacts on affected landowners should be recognised. In addition, the extent of "upgrading" needs to be defined so that it does not include development in terms of scale and effects. 		

Submitter Number:	567	Submitter:	Ngati Tamaoho Trust
Point Number	567.8		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.2 Policy - Development, operation and maintenance		
Summary of Decision Requested	<p>Add a new clause (vii) to Policy 6.1.2 - Development, operation and maintenance, as follows:</p> <p><u>(vii) is environmentally sustainable.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.74		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.2 Policy - Development, operation and maintenance		
Summary of Decision Requested	<p>Retain Policy 6.1.2 Development, operation and maintenance, as notified.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Policy 6.1.2 as it appropriately recognises the need to provide for infrastructure, and the range of influences and considerations that are associated with the development, operation, maintenance, repair, replacement, upgrading and removal of infrastructure. The policy gives effect to Policies 1-4 of the NPSET. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.88		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.2 Policy - Development, operation and maintenance		
Summary of Decision Requested	Retain Policy 6.1.2 Development, operation and maintenance, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support policy as notified. 		
Submitter Number:	580	Submitter:	Andrew Feierabend
Organisation:	Meridian Energy Limited		
Point Number	580.24		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.2 Policy - Development, operation and maintenance		
Summary of Decision Requested	Retain Policy 6.1.2 Development, operation and maintenance, except for the amendments sought below AND Amend Policy 6.1.2(a)(iii) to reference "site" as plural as follows: <i>(iii) Locational constraints related to the need to access suitable resources or sites;</i> AND Amend the Proposed District Plan as necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Minor editorial matter to ensure the policy does not limit its application. Many forms of infrastructure will involve multiple sites. 		
Submitter Number:	644	Submitter:	Spark New Zealand Trading Limited
Point Number	644.19		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.2 Policy - Development, operation and maintenance		
Summary of Decision Requested	Retain Policy 6.1.2- Development, operation and maintenance as notified.		
Decision Reasons:	<ul style="list-style-type: none"> These provisions are generally consistent with the policy framework in the draft National Planning Standard for Infrastructure. These provisions are considered to provide a workable policy framework for telecommunications infrastructure. 		
Submitter Number:	646	Submitter:	Vodafone New Zealand Limited
Point Number	646.19		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.2 Policy - Development, operation and maintenance		
Summary of Decision Requested	Retain Policy 6.1.2- Development, operation and maintenance as notified.		
Decision Reasons:	<ul style="list-style-type: none"> This is generally consistent with the policy framework in the draft National Planning Standard for Infrastructure. These provisions are considered to provide a workable policy framework for telecommunications infrastructure.

Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.2 Policy - Development, operation and maintenance		
Summary of Decision Requested	Retain Policy 6.1.2 Development, operation and maintenance as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Provide for the development, operation and maintenance of infrastructure and recognise the role they play in social, economic, cultural and environmental well-being of the district. Recognises the functional and operational needs of infrastructure and is supported, along with the new definitions of these terms in Chapter 13. Recognises the importance of allowing for flexibility for operators to use new technological advances. 		

Submitter Number:	924	Submitter:	Alice Barnett
Organisation:	Genesis Energy Limited		
Point Number	924.18		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.2 Policy - Development, operation and maintenance		
Summary of Decision Requested	Retain Policy 6.1.2- Development, operation and maintenance in the same or similar form.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this policy and recommends it is retained in the same or similar form. 		

Submitter Number:	945	Submitter:	First Gas Limited
Point Number	945.35		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.2 Policy - Development, operation and maintenance		
Summary of Decision Requested	Add a new clause (vii) to Policy 6.1.2 Development, operation and maintenance as follows: <i>(vii) the need to access infrastructure.</i> AND Any consequential amendments and other relief to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the inclusion of Policy 6.1.2 and in particular the acknowledgement that linear infrastructure has locational, functional and operational constraints. The submitter seeks the addition of an additional sub policy to address access. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.31		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.2 Policy - Development, operation and maintenance		
Summary of Decision Requested	Retain Policy 6.1.2 Development, operation and maintenance as notified.		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail supports the policy which provides for the ongoing use, maintenance and development of infrastructure throughout the District. KiwiRail supports policy 6.1.2 as it recognises the benefits infrastructure delivers to the District by enabling network utility operators to operate, maintain, repair, replace, upgrade or remove network utilities in a way which enables the efficient on going use and development of assets. Like other linear networks, the rail network is unable to easily be relocated and therefore supports recognition of issues such as functional need and locational constraints as part of this policy.

Summary of Decision Requested	Retain Policy 6.1.3 (a) (i-iii) Technological advancements as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Counties Power supports the use of new technology and the reuse of redundant infrastructure and structures. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.75		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.3 Policy - Technological advances		
Summary of Decision Requested	Retain Policy 6.1.3 Technological advances, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> This policy is supported as it recognises technological advances. Given the 10-year life of the plan and the ever-changing technological advances, the recognition of flexibility is supported. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.89		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.3 Policy - Technological advances		

Summary of Decision Requested	Retain Policy 6.1.3 Technological advances, as notified.
Decision Reasons:	<ul style="list-style-type: none"> Support policy as notified and the inclusion of an infrastructure chapter.

Submitter Number:	644	Submitter:	Spark New Zealand Trading Limited
Point Number	644.30		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.3 Policy - Technological advances		
Summary of Decision Requested	<p>Amend Policy 6.1.3- Technological advances by replacing it with the following wording as proposed in the draft National Planning Standard for Network Utilities or other changes of like effect:</p> <p><u>Provide flexibility for network utilities to adopt new technologies that:</u></p> <p><u>1. Improve access to, and efficient use of, networks and services;</u></p> <p><u>2. Allow for the re-use of redundant services and structures;</u></p> <p><u>3. Increase resilience, safety or reliability of networks and services;</u></p> <p><u>4. Result in environmental benefits and enhancements; or</u></p> <p><u>5. Promote environmentally sustainable outcomes including green infrastructure and the increased the utilisation of renewable resources.</u></p> <p>OR</p> <p>Amend Policy 6.1.3- Technological advances by using "or" rather than "and" to remove the conjunctive nature of the clauses.</p> <p>AND</p> <p>Any consequential amendments necessary as a result of the amendments to grant the relief sought.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Policy 6.1.3 seeks to provide flexibility to use new technologies subject to a number of conjunctive limbs (i.e. all have to be met). It is unclear how clause (iii) would be interpreted where a new technology may have a significant community benefit but does necessarily reduce environmental effects. Wording of the equivalent policy in the draft National Planning Standard for Network Utilities is a preferred approach to promoting the use of technological advances, as it provides alternative means to satisfy the policy. Draft National Planning Standard for Network Utilities provisions are being used as best practice by stakeholders for discussion with councils undertaking plan reviews and the content of submissions. 		

Submitter Number:	646	Submitter:	Vodafone New Zealand Limited

Any consequential amendments necessary as a result of the amendments to grant the relief sought.

Decision Reasons:

- Policy 6.1.3 seeks to provide flexibility to use new technologies subject to a number of conjunctive limbs (i.e. all have to be met).
- It is unclear how clause (iii) would be interpreted where a new technology may have a significant community benefit but does not necessarily reduce environmental effects.
- Wording of the equivalent policy in the draft National Planning Standard for Network Utilities is a preferred approach to promoting the use of technological advances, as it provides alternative means to satisfy the policy.
- Draft National Planning Standard for Network Utilities provisions are being used as best practice by stakeholders for discussion with councils undertaking plan reviews and the content of submissions.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.78		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.3 Policy - Technological advances		
Summary of Decision Requested	Retain Policy 6.1.3 Technological advances as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter supports making infrastructure more accessible, especially within rural areas. Submitter is opposed to policy which favours granting access for infrastructure maintenance that unnecessarily infringes on rights of farmers to be able to manage their properties or compromises the safety and efficiency of their farming operations. 		

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.25		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.3 Policy - Technological advances		
Summary of Decision Requested	Retain Policy 6.1.3 Technological advances.		
Decision Reasons:	<ul style="list-style-type: none"> • Supports Policy 6.1.3 as it promotes energy-efficient and sustainable design technologies which is in line with WEL's policies. • Policy 6.1.3 is consistent with 7(ba), 7(i) and 7(j) of the RMA. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.48		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.3 Policy - Technological advances		
Summary of Decision Requested	<p>Retain Policy 6.1.3 Technological advances, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 6.1.3(a)(ii) Technological advances as follows: <i>Allow for the re-use of redundant infrastructure and structures and the upgrading of existing infrastructure where appropriate; and ...</i></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter requests an amendment to Policy 6.1.3 to recognise that technological advances may also result in/require the upgrading of existing infrastructure. 		

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.13		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.3 Policy - Technological advances		
Summary of Decision Requested	Retain Policy 6.1.3 Technological advances as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Supports the inclusion of specific provisions that provide for, recognise and enable infrastructure, which is considered to cover the water supply system for the mining site and the pump station at Allcock Road and which should include the slurry pipeline infrastructure. 		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.36		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.3 Policy - Technological advances		
Summary of Decision Requested	Retain Policy 6.1.3 Technological advances as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Provide for the development, operation and maintenance of infrastructure and recognise the role they play in social, economic, cultural and environmental well-being of the district. 		

- Recognises the importance of allowing for flexibility for operators to use new technological advances.

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.32		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.3 Policy - Technological advances		
Summary of Decision Requested	Retain Policy 6.1.3 Technological advances as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • This policy allows for the ongoing improvements created by technological advances and their implementation throughout utility networks. Given the fast pace of change it is important the new operational equipment is enabled to be rolled out quickly under the Plan. 		

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.4 Policy – Infrastructure benefits

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.35		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.4 Policy – Infrastructure benefits		
Summary of Decision Requested	Retain Policy 6.1.4 (a) (i-vii) Infrastructure benefits as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Counties Power supports the recognition of the benefits and the importance of infrastructure. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.69		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.4 Policy – Infrastructure benefits		
Summary of Decision Requested	Delete Policy 6.1.4(a)(iv) Infrastructure benefits. AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • Policy 6.1.4 includes managing adverse effects on the environment as an infrastructure benefit. • It is unclear how adverse effects on the environment are considered a benefit. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.76		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.4 Policy – Infrastructure benefits		
Summary of Decision Requested	Retain Policy 6.1.4 Infrastructure benefits, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The recognition of the benefits of infrastructure within Policy 6.1.4 is supported, and gives effect to Policy 1 of the NPSET, and Waikato RPS Objective 3.5(e), Policy 4.4, and Policy 6.6. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.90		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.4 Policy – Infrastructure benefits		
Summary of Decision Requested	Retain Policy 6.1.4 Infrastructure benefits, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Supports this policy as notified and the inclusion of an infrastructure chapter.
