Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.2 Building setback sensitive land use

Summary of Decision Requested **Retain** Rule 22.3.7.2. Building setback - sensitive land use.

Decision Reasons:

- Building setbacks create separation for sensitive activities based on zone and site size. Specific rules for sensitive activities are included.

Submitter Number: 419 **Submitter:** Lucy Deverall

Organisation:	Horticulture New Zealand
Point Number	419.32
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.2 Building setback sensitive land use
Summary of Decision Requested	<p>Retain Rule 22.3.7.2 Building setback sensitive land use, except for the amendments sought below</p> <p>AND</p> <p>Add two new clauses (x) and (xi) to Rule 22.3.7.2 P1 (a) Building setback sensitive land use, as follows:</p> <p>(a) <i>Any building for a sensitive land use must be set back a minimum of:</i></p> <p>...</p> <p><i>(x) 100m from the boundary of another site containing a rural industry or services activity,</i></p> <p><i>(xi) 100m from the boundary of another site containing a farming activity where the sensitive land use is not a residential activity,</i></p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the proposed rule which places the onus on the sensitive activity to be set back from existing activities. This is an effective means of managing reverse sensitivity effects. However, this should be extended to ensure setbacks from all existing farming activities, including rural industry activities, which generate legitimate farm noise and spraying effects that are often hampered by reverse sensitivity effects. Care must be taken in differentiating between residential activities and other sensitive activities such as education facilities and hospitals. The submitter purports that many of these sensitive activities are not appropriate for the Rural Zone at all. The potential for reverse sensitivity effects is amplified and the ability to manage or mitigate reverse sensitivity effects becomes more difficult. Managing notification requirements to sensitive activities that are not residential activities becomes even more complicated as those facilities then have to notify all individuals who may be present at the time.
Point Number	419.47
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.2 Building setback sensitive land use
Summary of Decision Requested	<p>Add a new clause (vii) to Rule 22.3.7.2 P1 (a) Building setbacks - Sensitive land use, as follows:</p> <p>(a) <i>Any new building or alteration to an existing building for a sensitive land use must be set back a minimum of:</i></p> <p>...</p> <p><i>(vii) 100m from any boundary adjoining a Rural Zone where the sensitive activity is not a residential activity,</i></p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> An additional standard is sought to ensure adequate management of the rural-urban interface and to avoid and mitigate the potential for reverse sensitivity effects between sensitive land uses and legitimate farming activities. Greater setbacks should be provided to avoid or mitigate reverse sensitivity effects.

Submitter Number:	461	Submitter:	Donna-Maria Lincoln
Point Number	461.1		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.2 Building setback sensitive land use		
Summary of Decision Requested	<p>No specific decision sought, but submission states support for Rule 22.3.7.2 Building setback - sensitive land use.</p> <p>AND</p> <p>No specific decision sought, but submission expresses concern that a major and minor dwelling cannot be built on each of the 4 titles on the property at 100 McGovern Road, Waerenga.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter purchased this property in 2015 with the intention of building a primary dwelling and minor dwelling on each of their four titles located at 100 McGovern Road, Waerenga. The current regime does not enable these developments, contrary to what Council advised at the time of purchase. 		
Decision Reasons:			

Submitter Number:	489	Submitter:	Ann-Maree Gladding
Point Number	489.15		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.2 Building setback sensitive land use		
Summary of Decision Requested	<p>Amend Rule 22.3.7.2 P1 (iv) and (v) Building setback sensitive land use, to add text to clarify that the setback distances are taken from the actual extraction area only and not from the legal boundaries of the title that contains the extraction area;</p> <p>OR</p> <p>Amend the definition of "Aggregate Extraction Area" in Chapter 13 Definitions, to clarify that the setback distances are taken from the actual extraction area only and not from the legal boundaries of the title, that contains the extraction area.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The Council has interpreted the current operative rule incorrectly on subdivisions, and it has cost the submitter's clients a lot of money to legally clarify. 		
Point Number	489.16		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.2 Building setback sensitive land use		
Summary of Decision Requested	<p>Amend Rule 22.3.7.2 P1 (vii) Building setback sensitive land use, to be 300m from the actual intensive farming activity, rather than the boundary of the site. Submission seeks rewording and clarification of the rule.</p>		
Decision Reasons:	<ul style="list-style-type: none"> If there is an intensive farming activity at one end of a very large site, it is unfair that a neighbouring property at the other end of the site (potentially several 		

- 100 meters away) cannot subdivide or develop because they are within 300m of the site boundary.
- It just does not make logical sense.
- One neighbouring property may be 301m away from the activity and can subdivide or develop, however a property that may be a 1000m or more away from the activity cannot because they are still within 300m of the site boundary.

Submitter Number:	575	Submitter:	Fulton Hogan Limited
Point Number	575.21		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.2 Building setback sensitive land use		
Summary of Decision Requested	<p>Retain Rule 22.3.7.2 (a) Building setback sensitive land use except for the amendments sought below</p> <p>AND</p> <p>Amend Rule 22.3.7.2 (a) Building setbacks sensitive land use, as follows (or word to similar effect):</p> <p>(a) Any building for a sensitive land use must be set back a minimum of...</p> <p>(iv) 200m from an Aggregate Extraction Area, <u>mineral or aggregate extraction activities</u> containing a sand resource;</p> <p>(v) 500m from an Aggregate Extraction Area, <u>mineral or aggregate extraction activities</u> containing a rock resource;...</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential and additional amendments as necessary to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Mineral and aggregate extraction can result in effects which give rise to reverse sensitivity. By ensuring that appropriate setback rules apply not only to those quarries which are subject to the proposed overlays but also to others (including future quarries which would need to apply for a Plan change to have the same level of protection), this will provide sufficient safeguards for the industry going forward from reverse sensitivity. 		

Submitter Number:	580	Submitter:	Andrew Feierabend
Organisation:	Meridian Energy Limited		
Point Number	580.10		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.2 Building setback sensitive land use		
Summary of Decision Requested	<p>Add a new clause (x) into Rule 22.3.7.2PI (a) Building setback sensitive land use, as follows:</p> <p><i>(x) the distance necessary to ensure wind turbine noise from any authorised or lawfully established large-scale wind farm does not exceed 40 dBA measured at the sensitive land use in accordance with NZS6808:2010.</i></p> <p>AND</p> <p>Amend the Proposed District Plan as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Non-compliance with this rule triggers a discretionary activity status. The same reverse sensitivity noise issues arise for lawfully established large-scale wind farms and they equally warrant the protection of a minimum setback distance. Inclusion of a setback distance for large-scale wind farms is necessary to give effect to Objective 6.1.6 and Policy 6.1.7 addressing reverse sensitivity. The minimum setback would be specified by NZS 6808:2010

Point Number	680.230		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.2 Building setback sensitive land use		
Summary of Decision Requested	<p>Retain Rule 22.3.7.2 Building setback sensitive land use, as notified, if the changes sought to the definition of "Sensitive land use" are accepted.</p> <p>OR</p> <p>Delete Rule 22.3.7.2 PI (a)(vii) Building setback sensitive land use from the rule.</p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p> <p>AND</p> <p>Any consequential amendments to Chapter 23: Country Living Zone to address areas of existing farmland zoned as Country Living Zone.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter understands the intent of these rules and extends conditional support if the definition of sensitive land use is amended as per their relief sought in an earlier submission. The current definition captures homestay activities which they consider is unduly onerous and unnecessary given the nature of that activity. 		

Submitter Number:	691	Submitter:	McPherson Resources Limited
Point Number	691.20		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.2 Building setback sensitive land use		
Summary of Decision Requested	<p>Amend Rule 22.3.7.2 PI (a) Building setback sensitive land use as follows (or words to similar effect):</p> <p>(a) Any building for a sensitive land use must be set back a minimum of:</p> <p>..</p>		

(iv) 200m from an Aggregate Extraction Area, mineral or aggregate extraction activities containing a sand resource;

(v) 500m from an Aggregate Extraction Area, mineral or aggregate extraction activities containing a rock resource;

AND

Any consequential amendments or alternative relief to address the matters raised in the submission.

Decision Reasons:

- Mineral and aggregate extraction can result in effects which give rise to reverse sensitivities. This has the potential to threaten the commercial viability of existing and/or future extractive industries, which is of detriment to not only quarry operators but also to the whole district, which relies heavily on this industry for its GDP.
- By ensuring the appropriate setback rules apply not only to those quarries which are subject to the proposed overlays but also to others (including future quarries which would need to apply for a Plan change to have the same level of protection), it will provide sufficient safeguarding for the industry going forward.

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.2 Building setback sensitive land use

Summary of Decision Requested

Retain Rule 22.3.7.2 P1 Building setback sensitive land use, except for the amendments sought below

AND

Amend Rule 22.3.7.2 P1 (a)(ii) Building setbacks sensitive land use as follows:

~~15m~~ **35m** from a national route or regional arterial road;

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter supports the intent of Rule 22.3.7.2 but considers that the proposed setback of 25m from the Waikato Expressway has the potential to result in adverse effects on health and wellbeing and reverse sensitivity effects.
- A setback of 35m from the Waikato Expressway (as per the Operative District Plan) will better avoid reverse sensitivity matters consistent with the policy direction in the Proposed District Plan.
- The submitter notes the proposed setbacks will not be sufficient to avoid adverse effects on occupiers on their own and buildings will also require acoustic treatment. Relief sought in this respect assumes submission points regarding acoustic treatment are accepted.

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.2 Building setback sensitive land use

Summary of Decision Requested

Amend Rule 22.3.7.2 Building Setback -Sensitive land use after further consideration of its effect on applications for poultry farming activities

OR

Delete the setback distances in relation to poultry farming in Rule 22.3.7.2 Building Setback -Sensitive land use

Decision Reasons:

- Rule 22.3.7.2(a)(vii) sets an arbitrary distance for all 'intensive farming' which is not necessarily reflective of the effects of a poultry farm.
- It results in all properties within 300m of the boundary of a site proposed for a poultry farming operation being considered as adversely affected for notification purposes. This because the establishment of a new poultry farm would restrict a neighbour's ability to establish a potential dwelling or minor dwelling (or other residential activity like a sleepout) as a permitted activity in the future. Furthermore, this is not a breach of poultry farm activity rule and can't be included as a consent requirement in the application.
- The setback distance needs to be justified, amended or deleted so that it does not unduly result in the notification of applications for new poultry farms.
- In addition, any setback should be taken from the intensive farming activity itself, not the site boundary of the activity. This is because the effects that the setback is trying to mitigate are generated by/from the activity, not the site boundary. If an intensive farming activity decides to expand in the future within the site boundary then the effects of this on the receiving environment will simply need to be addressed at that time and the application considered on its merits.
- Poultry farms also generally establish on large rural sites and therefore a 300m sensitive building setback from the boundary (and not the activity) is even more significant. This is evidenced when a poultry farm is located in just one corner or at one end of a large (eg 40-100 hectare) property. When combined with Rule 22.1.3(e)(i), there is a total setback of 600m that affect poultry farm applications (ie 300m from the their site boundary to be a restricted discretionary activity and 300m from any dwelling/minor dwelling (or other sensitive activity like a sleepout) that is either existing or potentially able to be constructed on neighbouring land.
- It is almost impossible for a site to be found in the District where the 'Building setback sensitive land use' rule would not affect the establishment/notification of a poultry farm.
- The submitter was unable to find in Council's Section 32 report for the Rural Zone the justification for a 300m setback.

Summary of Decision Requested	<p>Amend Rule 22.3.7.2 Building setback sensitive land use as follows (or similar amendments to achieve the requested relief):</p> <p>Building setback sensitive land use</p> <p>P1 Sensitive land use</p> <p>(a) Any new building or alteration to an existing building for a sensitive land use must be set back a minimum of:</p> <p>(i) 5m from the designated boundary of the railway corridor</p> <p>...</p> <p>P2 Railway corridor</p> <p>any new buildings or alterations to an existing building must be setback 5 metres from any designated railway corridor boundary.</p> <p>OR</p> <p>Retain Rule 22.3.7.2 P1(a)(i) Building setback sensitive land use if the primary relief above is not accepted</p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail seeks that a 5metre setback apply to all new building development adjacent to operational railway corridor boundaries (i.e. not just sensitive land uses). Ensuring all new structures in all zones are set back from the rail corridor allows access and maintenance to occur without the landowner or occupier needing to gain access to the rail corridor- potentially compromising their own safety. Setting back buildings from the rail corridor boundary is a means of ensuring people's health and wellbeing through good design. Construction of buildings in close proximity to the rail corridor has significant safety risk if it is not managed appropriately in accordance with relevant standards. A 5m setback is not an acoustic setback. It allows for vehicular access to the backs of buildings (e.g. a cherry picker) and would also allow scaffolding to be erected safely. This in turn fosters visual amenity as lineside properties can then be regularly maintained. 		

- A setback is the most efficient method of ensuring intensification does not result in additional safety issues for activities adjacent to the rail corridor, whilst not restricting the ongoing operation and growth of activity within the rail corridor.
- The proposed provisions would require any development within the setback to obtain consent with matters of discretion relating to:
 - (i) location, design and use of the proposed building or structure as it relates to the rail network
 - (ii) impacts on the safe operation, maintenance and development of the rail network
 - (iii) construction and maintenance management.
- The relief provides for the rejection of the primary relief. This setback applies only to sensitive land use buildings which does not achieve the safety and amenity benefits sought throughout the district.

Plan chapter: Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.3 Building – Te Kowhai Noise Buffer

Submitter Number:	823	Submitter:	NZTE Operations Limited
Point Number	823.16		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.3 Building – Te Kowhai Noise Buffer		
Summary of Decision Requested	<p>Delete Rule 22.3.7.3– Building – Te Kowhai Noise Buffer.</p> <p>AND</p> <p>Amend the Proposed District Plan for any consequential relief required to give effect to this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • This change is a consequential amendment of introducing new Te Kowhai Airpark Airport Noise Control Boundaries. • The Te Kowhai Noise Buffer is no longer required as the noise from Taxiing aircraft is proposed to be controlled by the new proposed Te Kowhai ANCB's, therefore Rule 22.3.7.3 can be deleted. 		

Plan chapter: Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.4 Building – Noise Sensitive Activities

Submitter Number:	580	Submitter:	Andrew Feierabend
Organisation:	Meridian Energy Limited		
Point Number	580.11		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.4 Building – Noise Sensitive Activities		
Summary of Decision Requested	<p>Add to Rule 22.3.7.4 P1 Building - Noise Sensitive Activities a new clause (b), as follows:</p> <p><i>(b) Construction of, or addition, or alteration to a building containing a noise-sensitive activity is permitted provided the building is set back from any authorised or lawfully established large-scale wind farm by a distance necessary to ensure wind turbine noise does not exceed 40 dBA measured at the noise-sensitive activity in accordance with NZS6808:2010.</i></p> <p>AND</p> <p>Amend the Proposed District Plan as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Non-compliance with this rule results in a discretionary activity status. • The same reverse sensitivity effects relating to noise issues arise for lawfully established large-scale wind farms and they equally warrant the protection of a minimum setback distance. • Inclusion of a setback distance of large-scale wind farms is necessary to give effect to Objective 6.1.6 and Policy 6.1.7 to address reverse sensitivity. • Setback could be specified by reference to the relevant standard NZS 6808:2010 or as a minimum distance proxy to protect against reverse sensitivity effects. 		

Submitter Number:	581	Submitter:	Penny Gallagher
Organisation:	Synlait Milk Ltd		
Point Number	581.33		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.4 Building – Noise Sensitive Activities		
Summary of Decision Requested	<p>Amend Rule 22.3.7.4 Building setback - Noise sensitive areas to include a requirement for noise sensitive activities to be setback from a Heavy Industrial Zone boundary.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The Proposed District Plan fails to protect noise sensitive activities for Heavy Industrial zones and/or prevent reverse sensitivity effects from encroaching housing and sensitive activities. Encroachment of housing and sensitive activities may result in restrictions on the efficient operation of heavy industrial activities within the Heavy Industrial Zone. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.811		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.4 Building – Noise Sensitive Activities		
Summary of Decision Requested	<p>Add new rules to Rule 22.3.7.2 Building setback - sensitive land use, as follows:</p> <p><u>22.3.7.2 Building setback - Sensitive land use</u></p> <p><u>P2</u></p> <p><i>(a) Any building for a sensitive land use must be set back a minimum of:</i></p> <p><i>(i) 10m from the centre line of any electrical distribution or transmission lines, not associated with the National Grid, that operate at a voltage of up to 110kV;</i></p> <p><i>(ii) 12m from the centre of line of any electrical distribution or transmission lines, not associated with the National Grid, that operate at a voltage of 110kV or more.</i></p> <p><u>P3</u></p> <p><i>(a) Within the National Grid yard, alterations or additions to a building used for an existing sensitive land use must comply with all the following conditions:</i></p>		

(i) Not increase the building height or footprint; and
(ii) Comply with the New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663 under all National Grid transmission line operating conditions; and
(iii) Locate a minimum 12m from the outer visible foundation of any National Grid tower and locate a minimum 12m from any pole and associated stay wire, unless Transpower has given written approval in accordance with clause 2.4.1 of the New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663
 D1
 Any building for a sensitive land use that does not comply with Rule 22.3.7.2 P1 or P2.
NC1
 Any activity within the National Grid Yard that does not comply with Rule 22.3.7.2 P3.
NC2
 Any new building for a sensitive land use within the National Grid Yard.
NC3
 Any change of use of an existing building to a sensitive land use within the National Grid Yard.
NC4
 The establishment of any new sensitive land use within the National Grid Yard

Decision Reasons:

- This is to replicate the rule regarding sensitive land uses from Chapter 14 into Chapter 22 for increased clarity and usability of the Plan.

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.4 Building – Noise Sensitive Activities

Summary of Decision Requested

Retain Rule 22.3.7.4 Building- Noise Sensitive Activities, except for the amendments sought below

AND

Add to Rule 22.3.7.4 P1 (a) Building - Noise sensitive activities a new clause as follows:

(iv) 100m of a state highway.

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter supports Rule 22.3.7.4, but seeks an additional standard to include a 100m set back from a state highway.
- The submitter notes the proposed setbacks will not be sufficient to avoid adverse effects on occupiers, and buildings will also require acoustic treatment. Relief sought in this respect assumes submission points regarding acoustic treatment are accepted.

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.5 Building setback – water bodies
Summary of Decision Requested	Delete Rule 22.3.7.5 P1 Building setback - water bodies. OR Delete Rule 22.3.7.5 P1 (a)(ii) Building setback - water bodies.
Decision Reasons:	<ul style="list-style-type: none"> Remove the requirement for a 23m building setback from a bank of a river. Neither river or water body is defined within the Proposed District Plan, and therefore the setback could apply to a water course of any size. This setback will also apply outside a SNA, landscape or natural character area.
Point Number	349.21
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.5 Building setback – water bodies
Summary of Decision Requested	Amend Rule 22.3.7.5D1 Building setback - water bodies, to be considered a restricted discretionary activity rather than discretionary activity and to read: DRD1
Decision Reasons:	<ul style="list-style-type: none"> Remove the requirement for a 23m building setback from a bank of a river. Neither river or water body is defined within the Proposed District Plan, and therefore the setback could apply to a water course of any size. This setback will also apply outside a Significant Natural Area, landscape or natural character area.

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.35		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.5 Building setback – water bodies		
Summary of Decision Requested	Retain Rule 22.3.7.5 Building setback - Waterbodies.		
Decision Reasons:	<ul style="list-style-type: none"> The standard will safeguard the wellbeing of communities in accordance with the purpose of the RMA and the purpose of Fire and Emergency New Zealand in the effective protection of lives, property and the surrounding environment. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.33		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.5 Building setback – water bodies		
Summary of Decision Requested	Amend Rule 22.3.7.5 P1 (a) Building setback - water bodies, as follows: (a) Any building must be set back a minimum of: (i) 22 <u>30</u> m from the margin of any: A. Lake; and B. Wetland (ii) 22 <u>20</u> m from the bank of any river (other than the Waikato River and Waipa River); (iii) 28 <u>20</u> m from the banks of the Waikato River and Waipa River; and ... AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter has sought an exclusion of artificial crop protection structures from the definition of "building". Should this be rejected, the submitter seeks that artificial crop protection structures be excluded from this rule. These are permeable structures with materials consisting of fabric and poles. Minimal works are required so there would be minimal land disturbance and minimal risk of sediment in water bodies. Should the land be subdivided, the structures are easily removable such that the ability to take esplanade is not impeded. The section 32 reports do not seem to provide any explanation for the proposed setbacks from waterbodies. The Auckland Unitary Plan provides a setback of 30m from any lake and a 20m riparian setback and this is considered appropriate to incorporate in the Waikato District Plan. 		
Point Number	419.34		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.5 Building setback – water bodies		
Summary of Decision Requested	Amend Rule 22.3.7.5P2 Building setback - water bodies as follows: (a) A public amenity of up to 25m ² , and a pump shed within any building setback identified in Rule 22.3.7.5P1 <u>and</u> (b) <u>a pump shed must be setback a minimum of 5m from any waterbody.</u> AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> It is necessary and more efficient for pump stations to locate in close proximity to water bodies. 		

Submitter Number:	466	Submitter:	Brendan Balle
Organisation:	Balle Bros Group Limited		

Point Number	466.22
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.5 Building setback – water bodies
Summary of Decision Requested	Amend Rule 22.3.7.5 P1 Building setback to change the setback to 30m from a lake and 20m from a watercourse.
Decision Reasons:	<ul style="list-style-type: none"> The submitter opposes the designated setbacks and consider that it would be more appropriate for these to align with existing setbacks of 30m from a lake and 20m from a watercourse. Wetland as described in the RMA includes permanently or intermittently wet areas, shallow water, and land water margins that support a natural ecosystem of plants and animals that are adapted to wet conditions. Without a size requirement or specification to indigenous vegetation it is considered that this could refer to any intermittently wet area that has plant life and therefore careful consideration should be given to required setback.

Submitter Number:	471	Submitter:	Andrew Wood
Organisation:	CKL		
Point Number	471.12		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.5 Building setback – water bodies		
Summary of Decision Requested	Amend Rule 22.3.7.5 P1 Building setback - water bodies, as follows: <i>PI (a) Any building must be set back a minimum of <u>32m</u>:</i> <i>(i) 32m from the margin of any:</i> <i>A. Lake; with a bed area of 8ha or more or and</i> <i>B. Wetland with an area greater than 1ha; and</i> <i>(ii) 23m from the C. river bank of any river other than the Waikato River and Waipa River whose bed has an average width 3m or more; and</i> AND Any consequential amendments necessary.		
Decision Reasons:	<ul style="list-style-type: none"> There needs to be parameters as to when this rule applies. Existing parameters from the Operative District Plan are sought. 		

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.14		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.7 Building setbacks > 22.3.7.5 Building setback – water bodies		
Summary of Decision Requested	Amend Rule 22.3.7.5 P1 Building setback - waterbodies as follows: <i>(a) Any building must be set back a minimum of:</i> <i>(i) 32m from the margin of any;</i> <i>A. Lake <u>over 4ha</u>; and</i> <i>B. Wetland;</i> ... <i>(y) 10m from a managed wetland</i>		
Decision Reasons:	<ul style="list-style-type: none"> Opposes the use of the generic term "wetland" when requiring setbacks. Such all-encompassing terminology is inappropriate for use within the Proposed District Plan as it will have a significant impact on land development that may not carry any reasonable environmental benefit. Seeks that setbacks for man-made stormwater infrastructure and/or modified waterbodies be identified under all applicable waterbody setback rules as 10m. Notwithstanding the above, as a "lake" can constitute a large array of waterbodies, a starting point of 4ha should be used in the Proposed District Plan before the setback applies.

Point Number

559.110

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.8 Heritage items > 22.3.8.3 All heritage items – alteration or addition

Summary of Decision Requested

Retain Rule 22.3.8.3 RD1 All heritage items – Alterations or additions, except for the amendments sought below.

AND

Amend Rule 22.3.8.3 RD1 as follows:

(a) ~~Any activity that does not comply with Rule 22.3.8.3 PI- Any alteration or addition to a heritage item in Schedule 30.1 Heritage items.~~

(b) Council's discretion is restricted to the following matters:

(i) Location, form, scale, style, materials and appearance; ~~and~~

(ii) Effects on heritage values;

(iii) Effects on the setting of the heritage item.

Decision Reasons:

- The submitter supports that additions and alterations are a restricted discretionary activity.

- The existing restricted discretionary activity should be amended to include any alteration or addition to a heritage building to ensure that any potential to negatively impact on the building is captured through the resource consent process.
- Further amendments are also required to address relevant matters to achieve an appropriate level of assessment.

Point Number 559.297

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.8 Heritage items > 22.3.8.3 All heritage items – alteration or addition

Summary of Decision Requested Delete Rule 22.3.8.3 P1 All heritage items – Alterations or additions.

Decision Reasons:

- The submitter has concerns regarding the permitted activity rule related to alterations or additions.
- Concerned that that only protecting the significant physical features or specified facades of buildings has the potential for adverse effects on the heritage values of the entire building
- Works that are located out of public view or that do not involve significant features could have the potential to adversely affect or undermine heritage values.
- The rule ignores the intrinsic heritage values of the whole of the heritage items.
- Alterations and additions under this rule as a permitted activity could cumulatively impact on the overall building, not just the significant features or specified facades.
- In addition it is incorrect to assume that works that are located out of public view or that do not involve significant features are unimportant and do not have the potential to adversely affect or undermine heritage values.
- Any alterations or additions should be assessed through a resource consent process to consider the holistic impact of the proposed works on the historic heritage item, ensuring minimal loss of heritage fabric, and that the design, form, scale, workmanship, location of works and the curtilage and setting are respected.

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.814

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.8 Heritage items > 22.3.8.3 All heritage items – alteration or addition

Summary of Decision Requested Amend Rule 22.3.8.3 P1 (a) All heritage items - alterations or additions, as follows:

(a) Alteration or addition to a heritage item listed in Schedule 30.1 (Historic Heritage Items) where must comply with the following conditions:
(i) No significant feature of interest is removed, destroyed or damaged; and
(ii) Alterations or additions are not visible from a public place.

Decision Reasons:

- Additional words in this rule provide clarity.

Plan chapter: Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.8 Heritage items > 22.3.8.4 All heritage items – maintenance or repair

Submitter Number: 559 **Submitter:** Sherry Reynolds

On behalf of: Heritage New Zealand Lower Northern Office

Point Number 559.118

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.8 Heritage items > 22.3.8.4 All heritage items – maintenance or repair

Summary of Decision Requested Retain Rule 22.3.8.4 P1 All heritage items – Maintenance or repair, except for amendments sought below.

AND

Amend Rule 22.3.8.4 P1 All heritage items – Maintenance or repair as follows:

(a) Maintenance or repair of a heritage item listed in Schedule 30.1 (Historic Heritage Items), where:
~~*(b) No significant feature of interest is destroyed or damaged;*~~
(b) Replacement materials are the same as, or similar to, the original in terms of colour, texture, form and design to the original that it replaces, form, style and appearance.

Decision Reasons:

- The submitter supports Rule 22.3.8.4 P1 All heritage items – Maintenance or repair in part only.
- The permitted activity of maintenance and repair should occur in alignment with the definition of such works.
- Any proposed works not within the scope of the defined term should be assessed as an alteration or addition.
- The permitted activity and definition both need to be amended to offer a greater level of guidance to plan users.

Point Number 559.125

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.8 Heritage items > 22.3.8.4 All heritage items – maintenance or repair

Summary of Decision Requested Delete Rule 22.3.8.4 RD1 All heritage items – Maintenance or repair.

Decision Reasons:

- The submitter is concerned regarding the restricted discretionary activity relating to repairs and maintenance.
- When works on a heritage building no longer fit within the defined terms of maintenance and repair, they elevate into additions or alteration that are assessed under a related rule.
- Using this type of rule cascade sets a clear framework for those undertaking works on their heritage building.

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.815

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.8 Heritage items > 22.3.8.4 All heritage items – maintenance or repair
Summary of Decision Requested	Amend Rule 22.3.8.4 P1 (a) All heritage items - maintenance or repair, as follows: <i>(a) Maintenance or repair of a heritage item listed in Schedule 30.1 (Historic Heritage Items) where must comply with the following conditions:</i> <i>(i) No significant feature of interest is destroyed or damaged; <u>and</u></i> <i>(ii) Replacement materials are the same as, or similar to, the original in terms of form, style and appearance.</i>

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.3 Land Use - Building > 22.3.8 Heritage items > 22.3.8.5 All heritage items – all site development

Summary of Decision Requested **Amend** Rule 22.3.8.5 RD1 (b)(iv) All heritage items - all site development, as follows:
(iv) The relationship of the heritage item with the setting- including the area between the front of the heritage item and the road.

Decision Reasons:

- Additional words in this rule provide clarity.

Plan chapter: Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision

Submitter Number: 14 **Submitter:** Steve Cochrane

Point Number 14.1

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision

Summary of Decision Requested **Amend** Section 22.4 Subdivision to provide for 2500m2 lot sizes in Matangi.

Decision Reasons:

- The District Plan does not reflect the needs of some of the residents.
- Older residents not able to maintain grounds as large as they used to.
- For properties over 1 hectare, some parts are screened off and this seems a waste. The need to have livestock is not always convenient as the residents get older.
- The submitter lives in an area of elite soil types, but as these lifestyle sites are unproductive it would seem more effective to follow Waipa District and Matamata-Piako District Council's by allowing smaller lifestyle sites of 2500m2
- The Waikato Regional Council will permit a septic tank on this size site.
- Matangi has existing infrastructure with businesses, services and schooling. For the community to thrive or be sustained there needs to be growth.

Submitter Number: 302 **Submitter:** Jeremy Talbot

On behalf of: EnviroWaste New Zealand Limited **Organisation:** Barker & Associates Limited

Point Number 302.29

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision

Summary of Decision Requested **Delete** from Section 22.4 Subdivision the arbitrary title date from all rules.
 AND
Amend the Proposed District Plan to make consequential amendments or additional amendments to address the matters raised in the submission.

Decision Reasons:

- There is no justification to have an arbitrary title date for further subdivision or boundary adjustments. Potential fragmentation issues can be dealt via other less arbitrary mechanisms.

Submitter Number: 330 **Submitter:** Andrew and Christine Gore

Point Number 330.141

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision

Summary of Decision Requested **Amend** the Proposed District Plan to allow small land holdings such as 4ha to be sensitivity developed as Country Living Zones, in particular land that has been fragmented by publicly driven projects such as the expressway.

Decision Reasons:

- The submitters are in a Rural Zone, and should be able to subdivide a rural subdivision and build a business that supports the Rural Zone.
- As a property owner that has been fragmented by NZTA/Alliance roading projects, the submitters are no longer able to produce off the land.
- As a property owner under a future Urban Zone, the submitters cannot intensively farm the land with agriculture.
- The submitters are penalized because of development around them.
- Their land is 4ha and is too small to be economic on its own. With all of the boundary constraints, they should be able to develop a rural subdivision that meets ecological management and Waikato river basin management requirements.
- They cannot be in a holding pattern of prohibited activity by either the Waikato District Council or the Hamilton City Council. They own the land, the WDC and the HCC do not.

Point Number 330.155

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision

Summary of Decision Requested No specific decision sought, however submission refers to Rule 22.4 Subdivision.

Decision Reasons:

- No reasons provided.

Submitter Number: 391 **Submitter:** Lachie Cameron and Donna Watts

Point Number 391.1

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision
Summary of Decision Requested	<p>Add new Rule 22.4.10 Subdivision - Country Living Hamlet, as follows (or similar wording and alternative activity status as necessary):</p> <p><u>22.4.10 Subdivision- Country Living Hamlet</u></p> <p>RD1</p> <p><i>(a) Subdivision to create a Country Living Hamlet within the Rural Zone must comply with the following conditions:</i></p> <p><i>(i) The Record of Title to be subdivided must be at least 104.5ha in area;</i></p> <p><i>(ii) The Record of Title must contain lots which are not contiguous;</i></p> <p><i>(iii) The lot to be developed must have a maximum area of 4.5 ha;</i></p> <p><i>A. This lot must be subdivided in accordance with Chapter 23 Country Living Zone and is not subject to Chapter 22 Rural Zone.</i></p> <p><i>(b) Council's discretion is restricted to the following matters:</i></p> <p><i>(i) Subdivision layout and design including dimension, shape and orientation of the proposed lots;</i></p> <p><i>(ii) Effects on rural character and amenity values;</i></p> <p><i>(iii) Effects on landscape values;</i></p> <p><i>(iv) Potential for reverse sensitivity effects.</i></p> <p>NCL</p> <p><i>(a) Subdivision that does not comply with Rule 22.4.10 RD1.</i></p>
Decision Reasons:	<ul style="list-style-type: none"> • Addition of new rule will allow small land holdings physically separated from larger land holdings (held in the same title) to be better utilised as Country Living Hamlets. • There are already areas within the Rural Zone which feature small pockets of Country Living type development, therefore a Country Living Hamlet will not look unfitting within the Rural Zone. • Developments under the proposed rule will be developed in accordance with the Country Living Rules, Objectives and Policies which will allow for components of rural living to be maintained. • The restrictive nature of proposed Rule 22.4.10 will mean only a very limited amount of properties will be entitled to subdivide under this rule. • Lot 2 DPS 2534 can no longer be used in the dairy operation due to the increase in traffic on Te Ohaki Road as it is too small to undertake its own rural based operation. • Further development can be supplied onsite which meets requirements of Country Living Zone and sufficient space has been provided to all proposed lots to support onsite waste water and storm water disposal. • The site at 821 Ohaki Road, Huntly is capable of providing high levels of amenity being adjacent to the Waikato River with views out across the river to the Waikato-Tainui Whenua Raahui Wildlife Refuge Reserve Islands help to provide favorable conditions for Country Living developments. • An esplanade reserve has been proposed along the boundary adjoining the river, and a public walkway is also proposed to allow access to the reserve and river. • There is only a small amount of Country Living land around Huntly. • The location of the submission site provides suitable connection to Hamilton and Auckland, which provides an opportunity to work in larger towns whilst living in a rural setting.

Submitter Number:	394	Submitter:	Gweneth Sophie Francis
Point Number	394.22		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision		
Summary of Decision Requested	<p>Add a new rule to Section 22.4 Subdivision for farm park subdivision, that provides for:</p> <p>(i) 1 new site per 4 ha from a parent title that is at least 20 ha, provided that the new sites are clustered, less than 5000m2 and;</p> <p>(ii) Development is lined with a farm management plan to ensure long term environmentally sustainable farming practices.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential or further additional relief, as is appropriate to give effect to the intent of the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The Proposed Waikato District Plan fails to appropriately identify the issues and challenges facing Waikato District; • The Proposed Waikato District Plan fails to have appropriate regard to the Regional Policy Statement and/or misapplies the strategic direction of that document; • The Proposed Waikato District Plan fails to provide practical solutions to the challenges facing farming in the northern part of Waikato District and places undue emphasis on the protection of versatile soils without acknowledging other limitations for farming such soils; • Council has failed to undertake an adequate section 32 analysis with respect to innovative subdivision developments such as farm parks. 		

Submitter Number:	424	Submitter:	Grant Ryan
Point Number	424.3		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision		
Summary of Decision Requested	No specific decision sought, but submission opposes the restrictions on subdivision of high-class soils, especially on Pook Road, Pukekohe, in Rule 22.4 Subdivision.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitters have a total of 9.45ha which is uneconomic as a rural property to farm, and currently operate a high value plant breeding operation from this site. • If they wanted to expand they would need to sell and relocate and the ability to sell 9.45ha as an economic unit rural is not feasible. • They have 19 lifestyle properties and rural activity with reverse sensitivity is becoming a challenge. 		

Submitter Number:	433	Submitter:	Mischa Davis
Organisation:	Auckland Waikato Fish and Game Council		
Point Number	433.61		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision		
Summary of Decision Requested	Add two new subdivision rules in Rule 22.4.1.6 that provides for Environmental Benefits Lots, as follows:		

Discretionary activity

An environmental benefit lot subdivision is a discretionary activity if the following conditions are met:

1. The site to be subdivided offers the opportunity to achieve at least one of the following:

a) Restoration or enhancement of an identified under-represented ecosystem; or

b) Restoration of indigenous biodiversity; or

c) Enhancement of indigenous biodiversity; or

d) Creation of a buffer to an under-represented or threatened indigenous ecosystems; or

e) Creation of an ecological stepping stone or corridor to link indigenous ecosystems; or

f) Restoration or enhancement of a wetland or dune habitat; or

g) Legal protection and restoration or enhancement of a modified or degraded area of natural character.

2. The area to be set aside for restoration or enhancement and protection is at least the equivalent to the total area of new lots created; and

3. The minimum area of new lot created is 5000m²; and

4. The application is accompanied by a report prepared by a suitably qualified professional that:

a) Identifies the area/feature to be created, restored or enhanced and protected; and

b) Confirms that the area/feature, or part of it, (where it forms part of a larger natural area) that has been identified for protection and restoration or enhancement will provide the greatest biodiversity gains or outcomes for the protection of natural character for the site; and

c) Includes a management plan specifying the steps to be taken to create, restore or enhance the area/feature and its ongoing management and monitoring requirements to ensure that the biodiversity gains are maintained.

d) Specifies how the area/feature will be legally protected in perpetuity; and

5. The new lots created are not dependent upon public water and wastewater infrastructure.

6. No more than four environmental benefit lots are created per lot.

Non-complying activity

Any activity that does not meet a condition for a discretionary activity is a non-complying activity.

AND/OR

Any alternative relief to address the issues and concerns raised in the submission.

Decision Reasons:

- The conservation lot provision has had variable success in producing environmental gains and the notified rule limits the possible biodiversity gains.
- The aim of the new rule is to recreate and restore or enhance areas of natural character or indigenous biodiversity that might not yet be identified as significant but have the potential to be in the future.

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision

Summary of Decision Requested

Amend Rule 22.4 Subdivision, by replacing the term "lot" with "Record of Title".

AND

Any consequential amendments necessary.

Decision Reasons:

- Need consistency in terminology
- Need to avoid complication of any boundary relocation involving an amalgamation.

Submitter Number:

624

Submitter:

Glenn Soroka & Louise Meredith

Organisation:

Trustees of the Pakau Trust

Point Number

624.1

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision

Summary of Decision Requested

Add new Rural Zone subdivision rules in Rule 22.4 Subdivision, to recognise Pakau Trust's residual entitlement of 35 Environmental Lots which can be used as transferable rural title rights as follows:

Rule 22.4.XX Pakau Trust Entitlement Rule

For the purpose of Rule 22.4.XX, 35 transferable rural lot rights exist, that were secured by the protection of 204 hectares of significant indigenous vegetation at Klondyke Road, Port Waikato. Those transferable rural lot rights may be utilised under Rule 22.4.XXX where:

(i) The number of transferable rural lot rights available, will reduce by the number utilised at each receiving property when a survey plan is lodged for the subdivision approved at that receiving property;

(ii) A subdivision plan is only required for the receiver property;

(iii) Transferable rural lot rights cannot be generated on any other donor property.

Rule 22.4.XXX Transferable Rural Lot Right Subdivision

RDI

(a) Transferable Rural Lot Right Subdivisions utilising transferable rural lot rights under Rule 22.4.XX [Pakau Trust Entitlement Rule] must comply with all of the following conditions:

(i) The Record of Title to be subdivided must be 1 hectare or greater in area;

(ii) The additional lots must have a proposed area of between 2500m² and 1.6 hectares;

(iii) One transferable lot right originating under Rule 22.4.XX [Pakau Trust Entitlement Rule] shall be utilised for every two additional lots created on the receiver property;

(b) For the purposes of this rule a subdivision plan is required only, for the receiver property and not the donor property.

(c) Council's discretion is restricted to the following matters on the receiving property;

(i) subdivision layout and design including dimensions, shape and orientation of the proposed lots;

- (ii) effects on rural character and landscape values;
- (iii) potential for reverse sensitivity effects;
- (iv) extent of earthworks required for building platforms and accessways.

DL

Transferable rural lot right subdivision that does not comply with Rule 22.4.XXX RDL

AND

Amend the Proposed District Plan further with any necessary consequential or other relief that addresses Pakau Trust's concerns.

Decision Reasons:

- The Proposed District Plan fails to provide an appropriate opportunity for, and recognition of, the protection in perpetuity of significant indigenous vegetation.
- The cost to a property owner of protecting and maintaining, in perpetuity, significant stands of indigenous vegetation are substantial, in real financial terms.
- The property owner foregoes development potential, and subdivision of that property, where a significant environmental and community benefit is achieved by the protection of significant indigenous vegetation.
- In effect, the legal protection of significant indigenous vegetation provides a public benefit, at the expense of the private property owner. This should be recognised and compensated for.
- The subdivision application lodged in April 2012 secured Pakau Trust's entitlement to 64 Environmental Lots - 29 of which have been used and 35 remain to be used as transferable rural lot rights.
- Transferable rural lot rights enable an environmental feature to be protected while relocating the development potential elsewhere on appropriate receiver properties.
- Pakau Trust's position is unique.

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision

Summary of Decision Requested

Amend Rule 22.4 Subdivision, as follows:

22.4 Subdivision - Rules

Decision Reasons:

- Additional words in this rule provide clarity.

Point Number

697.821

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision

Summary of Decision Requested

Add a new clause (h) to Rule 22.4.1(3) Subdivision, as follows:

(h) Rule 22.4.8A – subdivision within the National Grid Corridor.

AND

Amend consequential renumbering

AND

Add a new rule after Rule 22.4.8 as follows:

22.4.8A Subdivision within the National Grid Corridor.

RDL

(a) The subdivision of land within the National Grid Corridor must comply with all of the following conditions:

(i) All allotments intended to contain a sensitive land use must provide a building platform for the likely principal building(s) and any building(s) for a sensitive land use located outside of the National Grid Yard, other than where the allotments are for roads, access ways or infrastructure; and

(ii) The layout of allotments and any enabling earthworks must ensure that physical access is maintained to any National Grid support structures located on the allotments, including any balance area.

(b) Council's discretion is restricted to the following matters:

(i) The subdivision layout and design in regard to how this may impact on the operation, maintenance, upgrading and development of the National Grid;

(ii) The ability to provide a complying building platform outside of the National Grid Yard;

(iii) The risk of electrical hazards affecting public or individual safety, and the risk of property damage;

(iv) The nature and location of any vegetation to be planted in the vicinity of National Grid transmission lines.

NCL

Any subdivision of land within the National Grid Corridor that does not comply with one or more of the conditions of Rule 22.4.8A RDL.

Decision Reasons:

- This is to replicate the subdivision rule within the National Grid Corridor from Chapter 14 into Chapter 22 for increased clarity and usability of the Plan.

746.115

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision

Summary of Decision Requested

Add a new rule to Section 22.4-Subdivision as follows:

Subdivisions of land containing mapped off-road walkways/trails/cycleways

RDL

(a) The subdivision where walkways/trails/cycleways shown on the planning maps are to be provided as part of the subdivision must comply with all of the following conditions:

(i) The walkway/trail/cycle way is at least 3 metres wide and is designed and constructed for shared pedestrian and cycle use, as per Rule 14.12.1 PB (Transportation);

(ii) The walkway/trail/cycleway is generally in accordance with the walkway/trail/cycleway route shown on the planning maps;

(iii) The walkway/trail/cycleway is shown on the plan of subdivision and vested in the Council.

b) Council's discretion shall be restricted to the following matters:

(i) Alignment of the walkway/trail/cycleway;

(ii) Drainage in relation to the walkway/trail/cycleway;

(iii) Standard of design and construction of the walkway/trail/cycleway;

(iv) Land stability;

(v) Amenity matters including batter slopes; and

(vi) Connection to reserves.

DL

A subdivision that does not comply with the above Rule.

Decision Reasons:

- The inclusion of trails/cycleways on the Planning Maps needs to be reflected in the plan provisions, particularly subdivision provisions.

Point Number	746.65
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision
Summary of Decision Requested	<p>Add full provisions for transferable rural lot subdivision within the Rural Zone to Chapter 22 Rural Zone;</p> <p>AND</p> <p>Add the Operative Waikato District Plan - Franklin Section Rule 22B.12 - Transferable Rural Lot Right including the provision to transfer "approved lots" to Chapter 22 Rural Zone.</p>
Decision Reasons:	<ul style="list-style-type: none"> There continues to be a demand for countryside living properties, and when there is no supply, the land values escalate. Land values can increase to the point where it becomes more economical to subdivide land to use for country lifestyle residential, rather than to use it for primary production. This would severely affect the districts primary focus to preserve the primary productive capabilities A large number of lots created for horticulture still remain. These are dispersed across the areas of land with little regard for locational constraints and loss of prime soils if developed as a countryside living property. It is appropriate to provide further countryside living on rural lots that have less versatile soils and can absorb adverse effects, and where redistribution of existing vacant lots/consented lots is achieved. Incentives can be offered for the transfer of existing titles of vacant lots and consented lots into such developments. Many small rural lots that are located in areas of prime/high quality soil do not have houses or other buildings on them. If all these titles were to be fully developed, the consequences would be major. The rural area would change in character and use, from rural to country living. This would have wide-ranging adverse effects on the rural economy, business sector and sustainability of prime/versatile soils. It will provide an opportunity to transfer the title created off the property to another locality that is more appropriate and can absorb the development. There are environment benefits to this subdivision mechanism within the Waikato District for the reasons discussed above and below: <ul style="list-style-type: none"> It enables the ability to transfer existing titles and consented titles that contain prime/high quality soils to other more suitable locations within the district that can better absorb development. It enables land that has prime/high quality soils to be amalgamated together to allow larger farming units that are more efficient to operate as a rural production farming unit. It enables the transfer of lots created by environmental protection (conservation lots) to localities that can better absorb the development and are more attractive in terms of distance to amenities, town and the motorway. These transfers will ensure the parent title can continue to operate as a larger and more productive farming unit.

Summary of Decision Requested	Delete all references to the title date within Rules 22.4 Subdivision. AND Any additional or consequential relief to give effect to the matters raised in the submission.
Decision Reasons:	<ul style="list-style-type: none"> No justification to have an arbitrary title date for further subdivision or boundary adjustments. Potential fragmentation issues can be dealt via other less arbitrary mechanisms.

Submitter Number:	782	Submitter:	Jack Macdonald
Point Number	782.1		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision		
Summary of Decision Requested	Amend Chapter 22.4 Subdivision by enabling transferable rural lot right subdivision as a restricted discretionary activity and discretionary activity throughout the Waikato District.		
Decision Reasons:	<ul style="list-style-type: none"> The transferable Rural Lot process allows for the transfer of existing titles or consented conservation lots to more appropriate areas in the district. There is no net increase in the overall number of development rights across the district. On the whole the submitter believes that the process has been working well for many years in the Former Franklin area and is an effective mechanism for promoting development in more appropriate areas whilst protecting high quality versatile soils. To remove the provision for Transferable Rural Lot subdivisions and making it a prohibited activity is unnecessary and compromises the current and proposed objectives for the rural area. The natural outcome of the Transferable Rural Lot process is to transfer existing/consented titles from less intensively developed outlying areas to the more intensively developed central areas. It seeks to manage growth in the rural zones and to avoid the wide dispersal of lots and protection of larger rural blocks. The Transferable Rural Lot provisions of the former Franklin District Plan were designed to protect and enhance the potential use of high quality versatile soils by encouraging the transfer of surplus titles to more environmentally sustainable locations. This is consistent with the draft District Plan objectives and policies and the objectives of the Resource Management Act 1991. The fact that the former Franklin District is now administered by Waikato District Council does not remove the underlying objectives of wiser use of resources. The same resources remain in the same district. The fact that the administering authority may want a consistent set of subdivision rules across the district is not relevant. By prohibiting the transfer of lots within the District, the proposed objectives and policies may not be able to be met. In particular the removal of the process: <ul style="list-style-type: none"> Will prevent the consolidation of existing titles Will not promote the protection of productive land or versatile soils within the District; Will not assist in the reorganisation of the wide dispersal of and reduction in rural titles, and will negate opportunities for the retention of land versatility and larger lot sizes in rural areas and for productive farming units to better manage the use of soils and rural land; Will not promote positive effects on the rural environment, rural character and rural amenity; Will not reduce reverse sensitivity effects when existing title rights are developed in rural production areas of the District; and Will not promote positive effects on the rural environment, rural character and rural amenity; Will not reduce reverse sensitivity effects when existing title rights are developed in rural production areas of the District; and Will not promote outcomes that are consistent with the rural objectives and policies. The majority of transferable rural lot subdivision applications in the Waikato District are removing titles for the larger productive land holdings, thus reducing or eliminating adverse effects on unplanned and scattered rural residential development in the more remote rural Waikato, and reducing the burden on infrastructure, particularly in more remote areas. If these rights are now restricted to where they currently are within the Waikato District, they will result in the uptake and development of latent capacity in outlying areas of the District, which is inconsistent with and contrary to the objectives and policies.

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision		
Summary of Decision Requested	No specific decision sought, but the submission supports any opportunity for 95 Jericho Road, Pukekohe East that is available under any rules in the Proposed District Plan, including for sites with older titles and larger than 20ha. AND Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter support further subdivision opportunities at 95 Jericho Road, Pukekohe East. 		
Point Number	794.32		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision		
Summary of Decision Requested	Amend the provisions within Chapter 22.4 Subdivision, to provide for incentivised subdivision rules to enable ecological benefit within the rural area as a restricted discretionary activity as follows: <i>(b) In situ opportunity in all rural zones but which are subject to overlay rules for outstanding landscapes, features etc.</i> <i>(c) Lot yields</i> <ul style="list-style-type: none"> <i>Restoration planting: 1 new lot for every 2ha minimum</i> <i>Retirement succession: 1 new lot for every 4ha minimum</i> <i>Wetland establishment: 1 new lot for ever 0.5ha establishment (excluding buffer areas)</i> <i>Riparian protection: 1 new lot for ever 1.5ha minimum (minimum width of 10m and an average minimum of 1.5m either side of the stream bank or wetland)</i> <i>(d) the submitter considers whether a maximum cap be applied</i> <i>(e) lots with sizes ranging between 5000m² and 1.5ha.</i> <i>(f) clustering of lots is encouraged but not required as it is a design response issue and site dependent.</i> AND		

Amend the provisions within Chapter 22.4 Subdivision for incentivise subdivision rules to enable ecological benefit within rural areas by incorporating the following Restricted Discretionary Assessment Criteria as follows:

(g) Site specific design led approach to the identification of protection/enhancement areas, lot boundaries and building platforms;

(b) Priority, provided for the LENZ 4 most at-risk land, wetlands and streams;

(c) Opportunity for linkages to other existing or future ecological areas;

(d) The qualities and features of the resources to be protected/enhanced;

(e) Locating accessways and building platforms, where practicable;

- *off elite soils;*
- *where reverse sensitivity risk is managed;*
- *to maintain rural production (broadly defined); and*
- *to maintain and enhance rural amenity values.*

(f) The ecological and other benefits of the enhancement; and

(g) Legal long-term protection and maintenance mechanisms.

AND

Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.

Decision Reasons:

- Introduce the Auckland Unitary Plan provisions because the natural and physical environments of the Auckland Region and the Waikato District are reasonably similar and addresses issues such as the protection of high-class soils, Significant Ecological Areas, the need for ecological enhancement, and the need to manage growth in rural areas are common in both jurisdictions.
- Based on the Council's own evidence there is no doubt that a significant resource management issue for the District is biodiversity loss, which continues to be at risk due to vegetation clearance, stock intrusion, animal and pest degradation, degradation of the margins for estuarine wetlands by stock.
- The submitter is concerned that the Proposed District Plan is largely focused on only protecting existing Significant Natural Areas and ignores restoring, linking and expanding indigenous biodiversity that does not qualify as Significant Natural Areas.
- There is no regulatory framework to increase indigenous vegetation and wetlands to a target vegetation cover of 30%, actively manage areas that can be considered Significant Natural Areas in the future, increase vegetation cover on steep and erosion prone land, incentivize fencing of riparian areas, incentivize the creation of new corridors, pest control, enrichment planting and restoration.
- No comprehensive research supports the claim that incentive-based planting in the district has resulted in sporadic, adhoc development.
- There appears to be no robust analysis of the success or failures of the limited amount of enhancement subdivision that has previously been undertaken in the Franklin part of the District that had these provisions.
- Several court decisions including Di Andre Estates Ltd v Rodney District Council, Arrigato Investments v Auckland Regional Council, Omaha Park and Cabra v Auckland Council are useful for establishing current best practice to meet the requirements of Part 2 of the RMA.
- Cabra v Auckland Council case law notes that the Council could not use the fact that there may be issues with weeds, or poor fencing, as a reason to oppose the inclusion of incentive provisions in the Plan, because it had the authority and responsibility to monitor consent conditions. There are a range of enforcement mechanisms available to a council, and the ability to recover costs from a consent holder, that mean managing compliance in these areas should not be onerous for a council.
- The court in the Cabra case has taken a far sighted and future oriented approach to the maintenance and enhancement of biodiversity.
- The Proposed District Plan does not give effect to the New Zealand Coastal Policy Statement.
- The Proposed District Plan does not give effect to the National Policy Statement for Freshwater Management.
- The Proposed District Plan does not adopt the vision of the Waikato River Settlement Act as there is not a strong emphasis in the vision on restoration.
- The Proposed District Plan does not give effect to the Waikato Regional Policy Statement.
- The submitter supports appropriate protection of high-class soils were practicable and where they are alternatives to using this land. However, sustainable land management may mean that subdivision on these soils is not always inappropriate.

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.52		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision		
Summary of Decision Requested	<p>Add a new discretionary activity rule within Section 22.4 Subdivision as follows:</p> <p><i>DJ Subdivision of land within 200m of an Aggregate Extraction Area</i></p> <p>AND</p> <p>Any other further or consequential amendments required.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The intent of the Aggregate Extraction Area is to identify existing extractive industries, and manage reverse sensitivity issues. • The subdivision rules apply only to the Aggregate Extraction Area and not to the 200m buffer area adjacent to that. • The application of the Aggregate Extraction Area is not consistent with its intent. • Seeks the same buffer area as that applied to the Building setback for sensitive land use. 		

Submitter Number:	922	Submitter:	John Rowe
Point Number	922.1		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision		
Summary of Decision Requested	<p>Amend Chapter 22.4 Subdivision by enabling transferable rural lot right subdivision as a restricted discretionary activity and discretionary activity throughout the Waikato District.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The transferable Rural Lot process allows for the transfer of existing titles or consented conservation lots to more appropriate areas in the district. • There is no net increase in the overall number of development rights across the district. • On the whole the submitter believes that the process has been working well for many years in the Former Franklin area and is an effective mechanism for promoting development in more appropriate areas whilst protecting high quality versatile soils. • To remove the provision for Transferable Rural Lot subdivisions and making it a prohibited activity is unnecessary and compromises the current and proposed objectives for the rural area. • The natural outcome of the Transferable Rural Lot process is to transfer existing/consented titles from less intensively developed outlying areas to the more intensively developed central areas. • It seeks to manage growth in the rural zones and to avoid the wide dispersal of lots and protection of larger rural blocks. • The Transferable Rural Lot provisions of the former Franklin District Plan were designed to protect and enhance the potential use of high quality versatile soils by encouraging the transfer of surplus titles to more environmentally sustainable locations. • This is consistent with the draft District Plan objectives and policies and the objectives of the Resource Management Act 1991. • The fact that the former Franklin District is now administered by Waikato District Council does not remove the underlying objectives of wiser use of resources. • The same resources remain in the same district. Point Number 943.53

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision

Summary of Decision Requested Amend Section 22.4 Subdivision, to replace the term "Lot" with Record of Title" throughout the section.

Decision Reasons:

- Ensures consistent use of terminology and avoids complicating any boundary relocation by way of amalgamation.

Plan chapter: Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1

Submitter Number: 69 **Submitter:** Lucy Stallworthy

Point Number 69.2

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1

Summary of Decision Requested Amend Rule 22.4.1.6 Conservation lot subdivision which applies to the Hamilton Basin to the area around the northern boundary of the Waikato along the boundary with Auckland, particularly around the Tuakau, Puni, Mauku, south side of Pukekohe Hill area (Tramway / Settlement / Cameron Town Roads) to enable them to receive 1 new title in this area if they have between 1-2ha of Significant Natural Area protected.

AND/OR

Amend the fourth row in the table in Rule 22.4.1.6 Conservation lot subdivision to read as follows:

~~2~~ha to less than 5ha

Decision Reasons:

Submitter considers the rules should be amended as:

- There are a lot of small areas of bush / wetland and streams in this area that need protection but are not necessarily 2ha or greater in size.
- A rule such as that suggested by the submitter would provide an incentive to protect these natural area.
- This area is very highly developed already with market gardens, the natural areas that are remaining need to be protected.
- It is also an area that is already highly subdivided with lots of lifestyle properties so it makes sense to allow a little more subdivision in these areas provided the natural areas are preserved.
- The rural character would in fact be enhanced as it could lead to more areas not being turned into market gardens.
- By limiting to areas around watercourses / streams / wetlands would also lead to water quality improvements.
- Small natural areas provide a refuge for wildlife and if they are dotted around the area can be like a series of refuges for wildlife as they move around the area.

Submitter Number: 70 **Submitter:** Ben Stallworthy

Point Number 70.2

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1

Summary of Decision Requested Amend Rule 22.4.1.6 Conservation Lot Subdivision, to allow for 1 new title around Pukekohe and Tuakau where there is 1-2 ha in a conservation area

AND

Amend Rule 22.4.1.6 Conservation Lot Subdivision, to allow the creation of new titles around Pukekohe and Tuakau where there is less than 1ha in a conservation area,

AND

Amend Rule 22.4.1.6 Conservation Lot Subdivision, to enable creation of 2 new titles where there is a conservation area between 2-5ha.

Decision Reasons:

- There are a lot of small natural areas that need to be protected and this would encourage land owners to protect these areas.
- There is so much market gardening around this area and very little natural areas.
- Allowing two titles from protecting 2-5ha would encourage people to enlarge the small natural areas they do have.
- Enabling subdivision through planting around streams like the Puni/Mauku stream would encourage people to protect the stream.
- Many of the areas around Cameron Town/Settlement/Tramway Road are already subdivided with lifestyle blocks and market gardens.
- Need to allow more limited housing in exchange for protecting what naturalness is left and adding to it.

Point Number 418.17

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1

Summary of Decision Requested No specific decision sought, but submission opposes Rule 22.4.1 Subdivision.

Decision Reasons:

- No reasons provided.

Submitter Number:	424	Submitter:	Grant Ryan
Point Number	424.1		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1		
Summary of Decision Requested	Amend Rule 22.4.1 Subdivision - General to be less restrictive for areas that have already been allowed to subdivide.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter has 19 lifestyle blocks on Pook Road, Pukekohe so that area is no longer rural. A review of the Rural Zone and its restrictions is most logical. 		

Submitter Number:	434	Submitter:	Ben Young
Organisation:	Madsen Lawrie Consultants Ltd		
Point Number	434.1		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1		
Summary of Decision Requested	Amend Rule 22.4.1 Subdivision so that the issue date regarding a Record of Title is changed to the operative date of the Proposed Plan for all titles, especially for Franklin titles.		
Decision Reasons:	<ul style="list-style-type: none"> The Proposed District Plan is incorporating Franklin section titles that have not had this opportunity for subdivision previously, so they should not be penalised by the implementation of the date restriction. The date restriction is only relevant to the Waikato section of the current District Plan. The submitter currently has a title much older than 6 December 1997 and wishes to make an application in the future for subdivision. Part of the submitter's land is in the process of purchase under the Public Works Act 1981 for the relocation of State Highway 2. This transaction will generate a title date newer than 6 December 1997 and therefore preclude a potential subdivision proceeding as a Restricted Discretionary Activity. The submitter has no control over this procedure and therefore should not be penalised for a subdivision creating a date newer than the cutoff date. 		
Point Number	434.3		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1		
Summary of Decision Requested	Amend Rule 22.4.1 Subdivision so that exceptions to this rule are noted (such as those classified as Prohibited Subdivision) as it currently in the Operative District Plan.		
Decision Reasons:	<ul style="list-style-type: none"> Specification of exceptions will ease interpretation and understanding of the rule. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.235		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1		
Summary of Decision Requested	<p>Add a new Controlled Activity rule to Section 22.4 Subdivision as follows:</p> <p><u>Subdivision to adjust a common boundary – Controlled activity</u></p> <p><u>Despite rule 22.4.1.2, subdivision is a controlled activity if:</u></p> <p><i>(1) the result of the subdivision is to adjust a common boundary between two viable certificates of title, and</i></p> <p><i>(2) no additional certificates of title are created, and</i></p> <p><i>(3) the subdivision creates certificates of title having substantially the same area, shape, location and access as before the subdivision, and</i></p> <p><i>(4) no additional potential for permitted activity dwellings and no additional subdivision potential is created beyond that which already existed prior to the subdivision occurring.</i></p> <p><u>Control is reserved over</u></p> <ul style="list-style-type: none"> <u>area and shape of certificates of title</u> <u>easements</u> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p> <p>AND</p> <p>Any consequential amendments to Chapter 23: Country Living Zone to address areas of existing farmland zoned as Country Living Zone.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers that subdivision to create a boundary adjustment should be a controlled activity as there is little or no risk of adverse effect that cannot be appropriately managed by matters of control. 		

Submitter Number:	814	Submitter:	Jenny Goodwright
Organisation:	Awaroa Farm Ltd		
Point Number	814.2		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1		
Summary of Decision Requested	Amend Rule 22.4 Subdivision and 22.4.1 PR4 (a) Prohibited subdivision, to maintain the Transferable Rural Lot subdivision provisions.		
Decision Reasons:	<ul style="list-style-type: none"> The Transferable rural lot process simply reshuffles existing titles or lots created through environmental bush protection to more appropriate areas within the district. There is no increase in the number of development rights. Will end up with land locked titles that no one will be able to build on. This will not help the housing shortage.

Point Number	276.8
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision
Summary of Decision Requested	Delete the Prohibited Activity Status from Rural subdivision rules (Rule 22.4.1.1 Prohibited Subdivision).
Decision Reasons:	<ul style="list-style-type: none"> • Many farmers want the right to split off a block that can be used for family members to build on or to sell during hard times and generate some income. • If the record of title is large (over 20ha) then splitting off a small block (for example between 2500m2 and 5000m2) has minimal effects on losing those high quality soils. The Plan should allow this. • Similarly, if the record of title is small to begin with (less than 4ha) and is not a viable productive rural block, then splitting off a small block as per above, is not going to result in a loss of productive land. The Plan should allow this. • Prohibited activity status is too restrictive.

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.1 PR1 Prohibited subdivision, to be a non-complying activity.		
Decision Reasons:	<ul style="list-style-type: none"> • It is acknowledged that the high-class soils should be protected for rural land use practices. Inappropriate subdivision and land use should be directed away from locations/properties with high-class soils to ensure that the rural capabilities of the land are retained. • There are pockets of land that are considered high class soils, however they cannot be easily used to support the overall operation of a rural land use and activity. This results in an inefficient use of a resource that could otherwise be used to provide properties and housing for members of the community that are not directly employed in rural businesses, but support other business and institutions (e.g. schools, stores) within the local community. • It is supported that high-class soils be protected, however it should not be considered a prohibited activity, particularly because such subdivision may be considered appropriate in various circumstances. Therefore, such proposed subdivision should be considered a non-complying activity.

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.1 Prohibited subdivision, by deleting all references to a prohibited activity.		
Decision Reasons:	<ul style="list-style-type: none"> • A prohibited activity status for subdivision represents an abrogation of resource management principles in respect of land use, development and subdivision in the Rural Zone. • Subdivision is the principal method for providing for land use activity in the Rural Zone that achieves the economic, social and cultural well-being of the rural community. This is achieved through the underlying creation of titles providing for rural investment. • Planning can not predict the future opportunities for rural investment and therefore must leave subdivision available as a technique for achieving the purpose of the RMA. • The prohibited activities provisions in Rule 22.4.1 have no foundation in the objectives and policies of the district plan. Prohibited activities are not mentioned in Chapter 5. • Accordingly, providing for prohibited activity subdivision is contrary to the purpose of the RMA, in particular section 5.

Point Number	330.138
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision
Summary of Decision Requested	Amend Rule 22.4.1.1 PR1 Prohibited subdivision to not apply to land that is fragmented by projects the council supports, in particular by other publicly driven projects such as expressway development.
Decision Reasons:	<ul style="list-style-type: none"> The submitters are in a Rural Zone, and should be able to subdivide a rural subdivision and build a business that supports the Rural Zone. As a property owner that has been fragmented by NZTA/Alliance roading projects, the submitters are no longer able to produce off the land. As a property owner under a future Urban Zone, the submitters cannot intensively farm the land with agriculture. The submitters are penalized because of development around them. Their land is 4ha and is too small to be economic on its own. With all of the boundary constraints, they should be able to develop a rural subdivision that meets ecological management and Waikato river basin management requirements. They cannot be in a holding pattern of prohibited activity by either the Waikato District Council or the Hamilton City Council. They own the land, the WDC and the HCC do not.

Point Number	332.9		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.1 Prohibited subdivision, to change the activity status for PR1, PR2, PR3 and PR4 from prohibited to non-complying AND Amend all references to "lot" with the term "Record of Title".		
Decision Reasons:	<ul style="list-style-type: none"> With regards to PR2 and PR3, there may be circumstances where the subdivision of high class soils has overall positive effects that can be supported by the objectives and policies. However, it is fanciful to think that every subdivision on high class soil would result in a significant adverse effect on the environment. There are circumstances where it may be unavoidable to create an additional record of title. The rule relies on the definition of 'high class soils' within the Proposed District Plan and may not be versatile due to a range of factors identified through case law. It is unreasonable to prohibit the creation of lots that accommodate existing and well-established rural activities and it is appropriate for these to be subdivided from other rural activities on the site. There may be circumstances where subdivision enables more significant opportunities for economic well being and the efficient and effective operation of the activity. Commercial reasons may necessitate subdivision including the desire to sell or lease the business, rather than having no other option but to dispose of the entire property or invest more capital. Prohibited activity status prevents opportunities for subdivision where there is a significant capital investments and the intensive rural activity will continue to be commercially viable and sustainably following is subdivision. . PR4 unreasonably restricts the subdivision potential over and above what is necessary to avoid undermining the intent of the rule under which these records of title were created. While subdividing lots amalgamated under section 22b of the Franklin Section require more attention, this should merit a non-comply activity status only. The objectives and policies of the Proposed District Plan should be sufficiently strong to ensure that the subdivision of land with high class soils is protected from inappropriate subdivision and development. The change in terms from "lot" to "record of title" is necessary to capture multiple lots and hold them in one Record of Title. e.g. roads or streams bisecting land.

Point Number	355.10		

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision
Summary of Decision Requested	Amend the activity status for Rule 22.4.1.1 PR1, PR2, PR3 and PR4 Prohibited subdivision from Prohibited to Non-Complying Activities.
Decision Reasons:	<ul style="list-style-type: none"> There may be circumstances where the subdivision of high class soils has overall positive effects that can be supported by the objectives and policies. Relocating consented lots within a holding (multiple Records of Title held in the same ownership) may produce a better outcome from a farming and landscape perspective. In some instances it may be unavoidable to create an additional Record of Title. The rule relies on a definition of "High Class Soils". High class soils as defined in the Proposed Plan (relying on soil classification only), may not be versatile due to a range of factors identified through case law. It is unreasonable to prohibit the creation of lots that accommodate existing and well-established rural activities which are viable and sustainable such as greenhouses, packhouse, packing sheds, intensive farming, poultry hatcheries or commercial orchards. Rural activities do not need to be held on the same certificate of title as other rural activities. Subdivision may enable more opportunities for economic wellbeing and the efficient and effective operation of the activity. Commercial reasons could necessitate subdivision including the desire to sell or lease the business, rather than disposal of the entire property or the need to invest more capital in the operation. This activity status prevents opportunities for subdivision where there is a significant capital investment, particularly in buildings and the intensive rural activity will continue to be commercially viable and sustainable following separation from other rural activities on the site. PR4 unreasonably restricts subdivision potential over what is necessary to avoid undermining the intent of the rule under which these Record of Title were created. Rule 22B of the Franklin Section the donor certificates of title had to meet a minimum area of 1ha each, however, there is no maximum, with many donor Records of Title ranging upwards from 20ha prior to the amalgamation. Under the Franklin Section of the District Plan there was no corresponding rule that limited any further subdivision of the donor lot. While subdividing lots amalgamated under Section 22b of the Franklin Section require closer scrutiny this should merit a Non-Complying Activity status. The land affected may contain qualifying Significant Natural Areas or may be able to relocate boundaries without creating an outcome that may compromise the prior transferable subdivision. The objectives and policies of the Proposed Plan should be sufficiently strong to ensure that the subdivision of land containing high class soils is protected and that subdivision in the Urban Expansion Zone does not undermine the integrated and efficient development of this zone.

Summary of Decision Requested	<p>Amend Rule 22.4.1.1 Prohibited subdivision after reviewing the property size and the restrictions to subdivide on high-class soils when there are no better options.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter farms on 9.45ha only due to a low land use activity with their plant breeding operation; this land size is uneconomic for a general farm operation. If and when the submitter is required to expand they would need to sell to buy a larger property. To sell 9.45ha as a rural property would not be viable. The ability to sell as lifestyle would be more economic. They currently have 19 lifestyle properties on Pook Road, Pukekohe. No one else is farming or operating a rural property, so to restrict them after everyone else has already capitalized would be unreasonable.

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision
Summary of Decision Requested	Amend Rule 22.4.1.1 PR3 (c) Prohibited subdivision to include any title where the title date is newer than 6 December 1997 as a result of land required under the Public Works Act 1981 or the Local Government 1974.
Decision Reasons:	<ul style="list-style-type: none"> The submitter currently has a title much older than 6 December 1997 and wishes to make an application in the future for subdivision. Part of the submitter's land is in the process of purchase under the Public Works Act 1981 for the relocation of State Highway 2. This transaction will generate a title date newer than 6 December 1997 and therefore preclude a potential subdivision proceeding as a Restricted Discretionary Activity. The submitter has no control over this procedure and therefore should not be penalised for a subdivision creating a date newer than the cutoff date.

Point Number	489.1		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision		
Summary of Decision Requested	<p>Amend Rule 22.4.1.1 PR4 (a) Prohibited subdivision, to maintain and allow for Transferable Rural Lot subdivisions as a Restricted Discretionary and Discretionary activity throughout the Waikato District.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The transferable rural lot process simply allows for the transfer of existing titles or consented conservation lots (still allowed for under the draft district plan) to more appropriate areas in the district, there is no net increase in the overall number of development rights across the district. • The process has been working well for many years in the former Franklin Area and is an effective mechanism for promoting development in more appropriate areas whilst protecting high quality versatile soils. • For a transferable rural lot subdivision to be a prohibited activity is unnecessary and it compromises the current and proposed objectives for the rural area. 		

- The natural outcome of the transferable rural lot process is to transfer existing and consented titles from less intensively developed outlying areas to the more intensively developed central areas.
- It seeks to manage growth in the Rural Zone and to avoid the wide dispersal of lots and protection of larger rural blocks.
- The Transferable Rural Lot Provisions of the former Franklin District Plan were designed to protect and enhance the potential use of high quality versatile soils, by encouraging the transfer of surplus Titles to more environmentally sustainable locations. This is consistent with the Draft District Plan objectives and Policies and the Objectives of the Resource Management Act 1991.
- The fact that the former Franklin District is now administered by WDC does not remove the underlying objectives of wiser use of resources. The same resources remain in the same district. The fact that the administrating authority may want a consistent set of subdivision rules across the district is not relevant.
- It will prevent the consolidation of existing titles;
- It will not promote the protection of productive land or versatile soils within the District;
- It will not assist in the reorganisation of the wide dispersal of and a reduction in rural titles, and will negate opportunities for the retention of land versatility and larger lot sizes in rural areas and for productive farming units to better manage the use of soils and rural land;
- It will not promote positive effects on the rural environment, rural character and rural amenity;
- It will not reduce reverse sensitivity effects when existing title rights are developed in rural production areas of the District;
- It will not promote outcomes that are consistent with the rural objectives and policies of the draft District Plan.
- The majority of transferable rural lot subdivision applications in the Waikato District are removing titles from the larger productive land holdings, thus reducing or eliminating adverse effects on unplanned and scattered rural residential development in the more remote rural Waikato, and reducing the burden on infrastructure, particularly in more remote areas. If these rights are now restricted to where they currently are within the Waikato District, they will result in the uptake and development of latent capacity in outlying areas of the District, which is inconsistent with and contrary to the objectives and policies.

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision		
Summary of Decision Requested	Amend the activity status for Rule 22.4.1.1 PR1, PR2, PR3, PR4 Prohibited subdivision, from Prohibited to Non-Complying Activities.		
Decision Reasons:	<ul style="list-style-type: none"> • There may be circumstances where the subdivision of high class soils has overall positive effects that can be supported by the objectives and policies. Relocating consented lots within a holding (multiple Records of Title held in the same ownership) may produce a better outcome from a farming and landscape perspective. • In some instances it may be unavoidable to create an additional Record of Title. • The rule relies on a definition of "High Class Soils". High class soils as defined in the Proposed Plan (relying on soil classification only), may not be versatile due to a range of factors identified through case law. • It is unreasonable to prohibit the creation of lots that accommodate existing and well-established rural activities which are viable and sustainable such as greenhouses, packhouse, packing sheds, intensive farming, poultry hatcheries or commercial orchards. • Rural activities do not need to be held on the same certificate of title as other rural activities. Subdivision may enable more opportunities for economic wellbeing and the efficient and effective operation of the activity. • Commercial reasons could necessitate subdivision including the desire to sell or lease the business, rather than disposal of the entire property or the need to invest more capital in the operation. • This activity status prevents opportunities for subdivision where there is a significant capital investment, particularly in buildings and the intensive rural activity will continue to be commercially viable and sustainable following separation from other rural activities on the site. • PR4 unreasonably restricts subdivision potential over what is necessary to avoid undermining the intent of the rule under which these Record of Title were created. Rule 22B of the Franklin Section the donor certificates of title had to meet a minimum area of 1ha each, however, there is no maximum, with many donor Records of Title ranging upwards from 20ha prior to the amalgamation. under the Franklin Section of the District Plan there was no corresponding rule that limited any further subdivision of the donor lot. While subdividing lots amalgamated under Section 22b of the Franklin Section require closer scrutiny this should merit a Non-Complying Activity status. The land affected may contain qualifying Significant Natural Areas or may be able to relocate boundaries without creating an outcome that may compromise the prior transferable subdivision. • The objectives and policies of the Proposed Plan should be sufficiently strong to ensure that the subdivision of land containing high class soils is protected and that subdivision in the Urban Expansion Zone does not undermine the integrated and efficient development of this zone.

Rule 22B of the Franklin Section the donor certificates of title had to meet a minimum area of 1ha each, however, there is no maximum, with many donor Records of Title ranging upwards from 20ha prior to the amalgamation. Under the Franklin Section of the District Plan there was no corresponding rule that limited any further subdivision of the donor lot. While subdividing lots amalgamated under Section 22b of the Franklin Section require closer scrutiny this should merit a Non-Complying Activity status. The land affected may contain qualifying Significant Natural Areas or may be able to relocate boundaries without creating an outcome that may compromise the prior transferable subdivision. • The objectives and policies of the Proposed Plan should be sufficiently strong to ensure that the subdivision of land containing high class soils is protected and that subdivision in the Urban Expansion Zone does not undermine the integrated and efficient development of this zone.

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision		
Summary of Decision Requested	Amend the activity status for Rules 22.4.1.1 PR1, PR2, PR3 and PR4 Prohibited subdivision from prohibited activities to non-complying activities.		
Decision Reasons:	<ul style="list-style-type: none"> • Oppose the Prohibited Activity status for rural subdivision activities under Rule 22.4.1.1. • Submitter suggests that Prohibited Activities be considered as non-complying. • With regards to PR2 and PR3 there may be circumstances where the subdivision of high class soils has overall positive effects that can be supported by the objectives and policies. Relocating consented lots within a holding (multiple Records of Title held in the same ownership) may produce a better outcome from a farming and landscape perspective. • There are some circumstances it may be unavoidable to create an additional Record of Title, i.e. where it is limited to parcels and held together by covenant. • The rule relies on a definition of <u>High Class Soils</u>. High class soils as defined in the Proposed Plan, (relying on soil classification only), may not be versatile due to a range of factors identified through case law. • It is unreasonable to prohibit the creation of lots that accommodate existing and well-established rural activities are viable and sustainable and permanent nature and it is appropriate for these to be subdivided from other rural activities on the site. Established rural activities include greenhouses, packhouse, packing sheds, intensive farming, poultry hatcheries or commercial orchards. • Rural activities do not need to be held on the same certificate of title as other rural activities. Subdivision may enable more opportunities for economic wellbeing and the efficient and effective operation of the activity. • Commercial reasons could necessitate subdivision including the desire to sell or lease the business rather than disposal of the entire property or the need to invest more capital in the operation. • Prevents opportunities for subdivision where there is a significant capital investment, particularly in buildings and the intensive rural activity will continue to be commercially viable and sustainable following separation from other rural activities on the site. • PR4 unreasonably restricts subdivision potential over what is necessary to avoid undermining the intent of the rule under which these Record of Title were created. Rule 22B of the Franklin Section the donor certificates of title had to meet a minimum area of 1ha each, however, there is no maximum, with many donor Records of Title ranging upwards from 20ha prior to the amalgamation. Decision Reasons:

- Submitter seeks that the word 'lot' as used in these rules be changed for 'Record of Title.'
- It may be necessary to create multiple lots and hold them in one Record of Title. This may occur when a stream or a public road bisects land held together in one Record of Title.

Point Number 529.13

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision

Summary of Decision Requested **Amend** Rule 22.4.1.1 Prohibited subdivision, to replace the term 'lot' with 'Record of Title'.

Decision Reasons:

- Submitter seeks that the word 'lot' as used in these rules be changed to 'Record of Title.'
- It may be necessary to create multiple lots and hold them in one Record of Title. This may occur when a stream or a public road bisects land held together in one Record of Title.

Point Number 529.9

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision

Summary of Decision Requested **Amend** the activity status for Rules 22.4.1.1 PR1, PR2, PR3, PR4 Prohibited subdivision, from prohibited to non-complying activities.

Decision Reasons:

- Oppose the Prohibited Activity status for rural subdivision activities and they should be considered non-complying activities.
- There may be circumstances where the subdivision of high class soils has overall positive effects that can be supported by the objectives and policies. Relocating consented lots within a holding (multiple Records of Title held in the same ownership) may produce a better outcome from a farming and landscape perspective.
- In some instances it may be unavoidable to create an addition of Record of Title.
- The rule relies on a definition of High Class Soils. High class soils as defined in the Proposed Plan, (relying on soil classification only), may not be versatile due to a range of factors identified through case law.
- It is unreasonable to prohibit the creation of lots that accommodate existing and well-established rural activities which are viable and sustainable such as greenhouses, packhouse, packing sheds, intensive farming, poultry hatcheries or commercial orchards.

- Rural activities do not need to be held on the same certificate of title as other rural activities. Subdivision may enable more opportunities for economic wellbeing and the efficient and effective operation of the activity.
- Commercial reasons could necessitate subdivision including the desire to sell or lease the business rather than disposal of the entire property or the need to invest more capital in the operation.
- Prevents opportunities for subdivision where there is a significant capital investment, particularly in buildings and the intensive rural activity will continue to be commercially viable and sustainable following separation from other rural activities on the site.
- PR4 unreasonably restricts subdivision potential over what is necessary to avoid undermining the intent of the rule under which these Record of Title were created. Rule 22B of the Franklin Section the donor certificates of title had to meet a minimum area of 1ha each, however, there is no maximum, with many donor Records of Title ranging upwards from 20ha prior to the amalgamation. It is noted that under the Franklin Section of the District Plan there was no corresponding rule that limited any further subdivision of the donor lot. While subdividing lots amalgamated under Section 22b of the Franklin Section require closer scrutiny this should merit a Non-Complying Activity status. The land affected may contain qualifying Significant Natural Areas or may be able to relocate boundaries without creating an outcome that may compromise the prior transferable subdivision.
- The objectives and policies of the Proposed Plan should be sufficiently strong to ensure that the subdivision of land containing high class soils is protected and that subdivision in the Urban Expansion Zone does not undermine the integrated and efficient development of this zone.

Point Number	662.15		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision		

Summary of Decision Requested	Delete Rule 22.4.1.1 PR1 Prohibited subdivision AND Add a cascading objective, policy and rule set whereby subdivision of Rural and Country Living Zone within the Urban Expansion Area is a Non-Complying Activity and will be subject to an approved Concept Plan of development.
Decision Reasons:	<ul style="list-style-type: none"> Recognises that land within the Urban Expansion area is being preserved so as to enable future urban growth that is aligned with strategic agreements between Hamilton City Council and Waikato District Council; however prohibiting the future use of the area is too heavy handed. Urban expansion boundary across the country are subject to a higher level of land use management, whereby a well-considered and strategic concept land development plan can precede subdivision scheme plans. Market conditions and the rights of landowners should not be unreasonably withheld through limited district plan provisions. Rather a collaborative approach between all parties should be supported whilst aligning with their primary objectives in serving the local communities in a fair and reasonable manner.
Point Number	662.16
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision
Summary of Decision Requested	Amend Rule 22.4.1.1 PR2 Prohibited subdivision from a Prohibited activity to a Non-Complying activity.
Decision Reasons:	<ul style="list-style-type: none"> Acknowledges that subdivision of the district's rural resource needs to be carefully and responsibly managed by Council, however, such management is poorly provided for in the Proposed District Plan. Fundamentally opposed to the use of prohibition as a land management tool. A non-complying rule is more appropriate.
Point Number	662.17
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision

Summary of Decision Requested	Amend Rule 22.4.1.1 Prohibited subdivision to be a Discretionary activity instead of Prohibited Activity status. AND Any consequential changes needed to give effect to this relief. AND Any consequential amendments to Chapter 23: Country Living Zone to address areas of existing farmland zoned as Country Living Zone.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter is opposed to the use of prohibited activity status in this regard. The absolute nature of this approach is unnecessary and unduly restrictive. 		

Submitter Number:	686	Submitter:	Reid Crawford Farms Limited
Point Number	686.12		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.1 Prohibited subdivision to replace all references to "lot" with "Record of Title."		
Decision Reasons:	<ul style="list-style-type: none"> It may be necessary to create multiple lots and hold them in one Record of Title. This may occur where a stream or a public road bisects land held together in one Record of Title. 		
Point Number	686.9		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision		
Summary of Decision Requested	Amend the activity status for Rule 22.4.1.1 Prohibited subdivision PR1, PR2, PR3 and PR4, from Prohibited to Non Complying activities.		
Decision Reasons:	<ul style="list-style-type: none"> There may be circumstances where the subdivision of high class soils has overall positive effects that can be supported by the objectives and policies. It is fanciful to think that every subdivision on high class soil would result in a significant adverse effect on the environment. Relocating consented lots within a holding (multiple Records of Title held in the same ownership) may produce a better outcome from a farming and landscape perspective. There are circumstances where it may be unavoidable to create an additional Record of Title, i.e. where a title is limited as to parcels and held together by covenant. The rule relies on a definition of High Class Soils. High class soils as defined in the Proposed Plan, (relying on soil classification only), may not be versatile due to a range of factors identified through case law. It is unfair and unreasonable to prohibit the creation of lots that accommodate existing and well-established rural activities where these are of a viable, sustainable and permanent nature and it is appropriate for these to be subdivided from other rural activities on the site. Established rural activities include greenhouses, packhouses, packing sheds, intensive farming, poultry hatcheries or commercial orchard activities. Rural activities do not need to be held on the same certificate of title as other rural activities, and there may be circumstances where subdivision enables more significant opportunities for economic wellbeing and the efficient and effective operation of the activity. A number of commercial reasons could necessitate subdivision including the desire to sell or lease the business rather than having no other option but to dispose of the entire property, or the need to invest more capital in the operation. 		

- The prohibited activity status prevents opportunities for subdivision where there is a significant capital investment, particularly in buildings and the intensive rural activity will continue to be commercially viable and sustainable in the long-term following its separation from other rural activities on the site.
- PR4 states any subdivision of a lot previously amalgamated for the purpose of a transferable lot subdivision is prohibited. This rule may unreasonably restrict the subdivision potential over and above what is necessary to avoid undermining the intent of the rule under which these Records of Title were created.
- Under Rule 22B of the Franklin Section, the donor certificates of title had to meet a minimum area of 1ha each. However there is no maximum, with many donor Records of Title ranging upwards from 20ha prior to the amalgamation. We also note that under the Franklin Section of the District Plan there were no corresponding rules that limited any further subdivision of the donor lot. While subdividing lots amalgamated under Section 22B of the Franklin Section require closer scrutiny this should merit a Non-Complying status only. The land affected may contain qualifying Significant Natural Areas or may be able to relocate boundaries with a neighbour without creating an outcome that may compromise the prior transferable subdivision.
- The objectives and policies of the Proposed Plan should be sufficiently strong to ensure that the subdivision of land containing high class soils is protected in the Rural Zone from inappropriate subdivision and development and that subdivision in the Urban Expansion Area does not undermine the integrated and efficient development of this zone.

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision		
Summary of Decision Requested	<p>Amend the activity status for Rule 22.4.1.1 PR1, PR2, PR3 and PR4 -Prohibited subdivision from Prohibited to Non-Complying Activities.</p>		
Decision Reasons:	<ul style="list-style-type: none"> There may be circumstances where the subdivision of high class soils has overall positive effects that can be supported by the objectives and policies. It is fanciful to think that every subdivision on high class soil would result in a significant adverse effect on the environment. Relocating consented lots within a holding (multiple Records of Title held in the same ownership) may produce a better outcome from a farming and landscape perspective. There are circumstances where it may be unavoidable to create an additional Record of Title, i.e. where a title is limited as to parcels and held together by covenant. The rule relies on a definition of High Class Soils. High class soils as defined in the Proposed Plan, (relying on soil classification only), may not be versatile due to a range of factors identified through case law. It is unfair and unreasonable to prohibit the creation of lots that accommodate existing and well-established rural activities where these are of a viable, sustainable and permanent nature and it is appropriate for these to be subdivided from other rural activities on the site. Established rural activities include greenhouses, packhouses, packing sheds, intensive farming, poultry hatcheries or commercial orchard activities. Rural activities do not need to be held on the same certificate of title as other rural activities, and there may be circumstances where subdivision enables more significant opportunities for economic wellbeing and the efficient and effective operation of the activity. A number of commercial reasons could necessitate subdivision including the desire to sell or lease the business rather than having no other option but to dispose of the entire property, or the need to invest more capital in the operation. The prohibited activity status prevents opportunities for subdivision where there is a significant capital investment, particularly in buildings and the intensive rural activity will continue to be commercially viable and sustainable in the long-term following its separation from other rural activities on the site. PR4 states any subdivision of a lot previously amalgamated for the purpose of a transferable lot subdivision is prohibited. This rule may unreasonably restrict the subdivision potential over and above what is necessary to avoid undermining the intent of the rule under which these Records of Title were created. Under Rule 22B of the Franklin Section, the donor certificates of title had to meet a minimum area of 1ha each. However there is no maximum, with many donor Records of Title ranging upwards from 20ha prior to the amalgamation. It is noted that under the Franklin Section of the District Plan there were no corresponding rules that limited any further subdivision of the donor lot. While subdividing lots amalgamated under Section 22B of the Franklin Section require closer scrutiny this should merit a Non-Complying status only. The land affected may contain qualifying Significant Natural Areas or may be able to relocate boundaries with a neighbour without creating an outcome that may compromise the prior transferable subdivision. The objectives and policies of the Proposed Plan should be sufficiently strong to ensure that the subdivision of land containing high class soils is protected in the Rural Zone from inappropriate subdivision and development and that subdivision in the Urban Expansion Area does not undermine the integrated and efficient development of this zone.

Summary of Decision Requested	Delete Rule 22.4.1.1 Prohibited Subdivision. AND Any additional or consequential relief to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • Effects on soil classification can be managed in other ways (i.e. objectives and policies) which are far more consistent with an effects based approach to resource management. • There should be no prohibited activity subdivisions. 		

Submitter Number:	794	Submitter:	Middlemiss Farm Holdings Limited
Point Number	794.19		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision		
Summary of Decision Requested	Delete Rule 22.4.1.1 Prohibited subdivision; AND Add more enabling provisions for subdivision. AND Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • Based on the Council's own evidence there is no doubt that a significant resource management issue for the District is biodiversity loss, which continues to be at risk due to vegetation clearance, stock intrusion, animal and pest degradation, degradation of the margins for estuarine wetlands by stock. • The submitter is concerned that the Proposed District Plan is largely focused on only protecting existing Significant Natural Areas and ignores restoring, linking and expanding indigenous biodiversity that does not qualify as Significant Natural Areas. • There is no regulatory framework to increase indigenous vegetation and wetlands to a target vegetation cover of 30%, actively manage areas that can be considered Significant Natural Areas in the future, increase vegetation cover on steep and erosion prone land, incentivize fencing of riparian areas, incentivize the creation of new corridors, pest control, enrichment planting and restoration. • No comprehensive research supports the claim that incentive-based planting in the district has resulted in sporadic, adhoc development. • There appears to be no robust analysis of the success or failures of the limited amount of enhancement subdivision that has previously been undertaken in the Franklin part of the District that had these provisions. • Several court decisions including Di Andre Estates Ltd v Rodney District Council, Arrigato Investments v Auckland Regional Council, Omaha Park and Cabra v Auckland Council are useful for establishing current best practice to meet the requirements of Part 2 of the RMA. • <i>Cabra v Auckland Council</i> case law notes that the Council could not use the fact that there may be issues with weeds, or poor fencing, as a reason to oppose the inclusion of incentive provisions in the Plan, because it had the authority and responsibility to monitor consent conditions. There are a range of enforcement 		

mechanisms available to a council, and the ability to recover costs from a consent holder, that mean managing compliance in these areas should not be onerous for a council.

- The court in the *Cabra* case has taken a far sighted and future oriented approach to the maintenance and enhancement of biodiversity.
- The Proposed District Plan does not give effect to the New Zealand Coastal Policy Statement.
- The Proposed District Plan does not give effect to the National Policy Statement for Freshwater Management.
- The Proposed District Plan does not adopt the vision of the Waikato River Settlement Act as there is not a strong emphasis in the vision on restoration.
- The Proposed District Plan does not give effect to the Waikato Regional Policy Statement.
- The submitter supports appropriate protection of high-class soils where practicable and where they are alternatives to using this land. However, sustainable land management may mean that subdivision on these soils is not always inappropriate.

Point Number	877.19		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision		
Summary of Decision Requested	Amend the activity status of Rule 22.4.1.1 PR1, PR2, PR3 and PR4 Prohibited Subdivision, from Prohibited Activities to Non-Complying.		
Decision Reasons:	<ul style="list-style-type: none"> In PR2 and PR3, there may be circumstances where the subdivision of high class soils has overall positive effects that can be supported by the objectives and policies. Not every subdivision on high-class soil would result in a significant adverse effect on the environment. Relocating consented lots within a holding, (multiple Records of Title held in the same ownership) may produce a better outcome from a farming and landscape perspective. There are circumstances where it may be unavoidable to create an additional Record of Title, i.e. where a title is limited as to parcels and held together by covenant. The rule relies on a definition of High Class Soils. This definition may not be versatile due to a range of factors identified through case law. It is unfair and unreasonable to prohibit the creation of lots when they are of a viable, sustainable and permanent nature and it is appropriate for these to subdivide from other rural activities on the site. 		

- Rural activities do not need to be held on the same certificate of title as other rural activities, and there may be circumstances where subdivision enables more significant opportunities for economic wellbeing and the efficient and effective operation of the activity.
- Commercial reasons could necessitate subdivision including the desire to sell or lease the business rather than having no other option but to dispose of the entire property, or the need to invest more capital in the operation.
- The prohibited activity status prevents opportunities for significant capital investment, particularly in buildings and the intensive rural activity will continue to be commercially viable and sustainable in the long-term following its separation from other rural activities on the site.
- The Proposed Plan should be sufficiently strong to ensure that the subdivision of land containing high-class soils is protected in the Rural Zone from inappropriate subdivision and development, and that subdivision in the Urban Expansion Zone does not undermine the integrated and efficient development of this zone.

Point Number 877.20

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision

Summary of Decision Requested **Amend** Rule 22.4.1.1 Prohibited subdivision to change all of the references from "lot" to "Record of Title".

Decision Reasons:

- It may be necessary to create multiple lots and hold them in one Record of Title. This may occur where a stream or a public road bisects land held together in one Record of Title.

Submitter Number: 943 **Submitter:** McCracken Surveys Limited

Point Number 943.26

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision

Summary of Decision Requested **Amend** Rule 22.4.1.1 PR1 Prohibited subdivision, as follows:
Any subdivision within the Urban Expansion Area involving the creation of any additional ~~lot~~ record of title excluding one containing a dwelling existing as at 18 July 2018.

Decision Reasons:

- Subdivision of existing dwellings can assist with the creation of large land holdings suitable for future urban development.

Point Number 943.27

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision

Summary of Decision Requested **Amend** Rule 22.4.1.1 PR3 (c) (i) Prohibited subdivision, as follows:
(i) Where the record of Title was created as a result of a boundary relocation or boundary adjustment under the former District Plan, a boundary relocation or adjustment between Records of Title that existed prior to 6 December 1997; (refer to Rule 22.4.1.4); or

Decision Reasons:

- No reason provided.

Point Number 943.29

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision

Summary of Decision Requested **Add** clause (v) to Rule 22.4.1.1 PR3 (b) Prohibited subdivision, as follows:
(b) Exceptions to PR3(a) are where an additional lot is created by any of the following:
(i) Conservation lot subdivision (Rule 22.4.1.6);
(ii) Reserve lot subdivision (Rule 22.4.1.7);
(iii) Access allotment or utility allotment using Rule 14.12 (Transportation);
(iv) Subdivision of Maaori Freehold Land (Rule 22.4.1.3);
v) Rural Hamlet (Rule 22.4.1.5).

AND

In the event that the relief sought in relation to Rule 22.4 is not accepted, **add** clause (vi) to Rule 22.4.1.1 PR3 (b) Prohibited subdivision, as follows:

vi) Boundary Relocation (Rule 22.4.1.4).

Decision Reasons:

- No reasons provided.

Submitter Number: 972 **Submitter:** Mark Scobie

Point Number 972.10

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision

Summary of Decision Requested **Amend** the activities in Rule 22.4.1.1 PR1, PR2, PR3 and PR4 Prohibited Subdivision from Prohibited activities to Non-Complying activities.

Decision Reasons:

- In PR2 and PR3, there may be circumstances where the subdivision of high class soils has overall positive effects that can be supported by the objectives and policies. Not every subdivision on high-class soil would result in a significant adverse effect on the environment. Relocating consented lots within a holding, (multiple Records of Title held in the same ownership) may produce a better outcome from a farming and landscape perspective.
- There are circumstances where it may be unavoidable to create an additional Record of Title, i.e. where a title is limited as to parcels and held together by covenant.
- The rule relies on a definition of High Class Soils. This definition may not be versatile due to a range of factors identified through case law.
- It is unfair and unreasonable to prohibit the creation of lots when they are of a viable, sustainable and permanent nature and it is appropriate for these to subdivide from other rural activities on the site.
- Rural activities do not need to be held on the same certificate of title as other rural activities, and there may be circumstances where subdivision enables more significant opportunities for economic wellbeing and the efficient and effective operation of the activity.
- Commercial reasons could necessitate subdivision including the desire to sell or lease the business rather than having no other option but to dispose of the entire property, or the need to invest more capital in the operation.
- The prohibited activity status prevents opportunities for significant capital investment, particularly in buildings and the intensive rural activity will continue to be commercially viable and sustainable in the long-term following its separation from other rural activities on the site.
- PR4 may unreasonably restrict the subdivision potential over what is necessary to avoid undermining the intent of the rule under which these Records of Title were created (Rule 22B – Franklin Section). Under Rule 22B of the Franklin Section the donor certificates of title had to meet a minimum area of 1ha each, however, there is no maximum, with many donor Records of Title ranging upwards from 20ha prior to the amalgamation.

- In the Franklin Section of the District Plan, there was no corresponding rule that limited any further subdivision of the donor lot. While subdividing lots amalgamated under Section 22b of the Franklin Section require scrutiny this should merit a Non-Complying Activity status only. The land affected may contain qualifying Significant Natural Areas or may be able to relocate boundaries with a neighbor without creating an outcome that may compromise the prior transferable subdivision.
- The Proposed Plan should be sufficiently strong to ensure that the subdivision of land containing high-class soils is protected in the Rural Zone from inappropriate subdivision and development, and that subdivision in the Urban Expansion Zone does not undermine the integrated and efficient development of this zone.

Submitter Number:	982	Submitter:	Joanne & Kevin Sands
Point Number	982.10		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.1 PR1, PR2, PR3 and PR4 Prohibited subdivision, by changing the activity status from Prohibited to Non-Complying activities.		
Decision Reasons:	<ul style="list-style-type: none"> • There may be circumstances where a subdivision of high-class soils has overall positive effects supported by objectives and policies. Relocating consented soils within a landholding may produce a better outcome from farming and landscape perspectives. • Sometimes the creation of an additional Record of Title is unavoidable. For example, where a title is limited as to parcels and the land parcels are held together by a covenant. • The subdivision rule relies on a definition of high-class soils, which are defined in the Proposed District Plan, yet they may not be versatile due to a range of factors (not just the classification of soil). • It is unfair to prohibit the creation of lots that accommodate well-established, viable and sustainable rural activities (such as greenhouses, packhouses, packing sheds, intensive farming, poultry hatcheries and commercial orchards) which are appropriate to separate from other rural activities on the site. This can result in economic wellbeing and a more efficient and effective operation of those types of activities. • Commercial reasons could necessitate subdivision, such as selling or leasing the business, rather than having no other option but to sell the entire property or invest in more capital. • PR4 may unreasonably restrict subdivision over and above what is necessary to avoid undermining the intent of Franklin Section Rule 22B in the Operative District Plan and therefore a non-complying activity status is more appropriate. For example, the land may be able to subdivide using a Significant Natural Area or the boundary relocation rule without compromising the intent of the transferable development right subdivision rule. • Objectives and policies should be sufficiently strong to protect high class soils from inappropriate subdivision and development and not compromise future urban development in the Urban Expansion Area. 		
Point Number	982.11		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.1 Prohibited subdivision, by replacing the term "lot" with "Record of Title".		
Decision Reasons:	<ul style="list-style-type: none"> • It may be necessary to create multiple lots and hold them together in one Record of Title. This may occur where a stream or a public road physically separates land parcels that are held in one Record of Title.

Organisation:	Koch Farms Limited		
Point Number	985.6		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.1 Prohibited subdivision		
Summary of Decision Requested	Amend the activity status for Rules 22.4.1.1 PR1, PR2, PR3 and PR4 Prohibited subdivision from prohibited activities to non-complying activities.		
Decision Reasons:	<ul style="list-style-type: none"> • Oppose the Prohibited Activity status for rural subdivision activities under Rule 22.4.1.1. • With regards to PR2 and PR3 there may be circumstances where the subdivision of high class soils has overall positive effects that can be supported by the objectives and policies. Relocating consented lots within a holding (multiple Records of Title held in the same ownership) may produce a better outcome from a farming and landscape perspective. • There are some circumstances it may be unavoidable to create an additional Record of Title, i.e. where it is limited to parcels and held together by covenant. The rule relies on a definition of High Class Soils. High class soils as defined in the Proposed Plan, (relying on soil classification only), may not be versatile due to a range of factors identified through case law. • It is unreasonable to prohibit the creation of lots that accommodate existing and well-established rural activities are viable and sustainable and permanent nature and it is appropriate for these to be subdivided from other rural activities on the site. Established rural activities include greenhouses, packhouse, packing sheds, intensive farming, poultry hatcheries or commercial orchards. • Rural activities do not need to be held on the same certificate of title as other rural activities. Subdivision may enable more opportunities for economic wellbeing and the efficient and effective operation of the activity. • Commercial reasons could necessitate subdivision including the desire to sell or lease the business rather than disposal of the entire property or the need to invest more capital in the operation. • Prevents opportunities for subdivision where there is a significant capital investment, particularly in buildings and the intensive rural activity will continue to be commercially viable and sustainable following separation from other rural activities on the site. • PR4 unreasonably restricts subdivision potential over what is necessary to avoid undermining the intent of the rule under which these Record of Title were created. Rule 22B of the Franklin Section the donor certificates of title had to meet a minimum area of 1ha each, however, there is no maximum, with many donor Records of Title ranging upwards from 20ha prior to the amalgamation. It is noted that that under the Franklin Section of the District Plan there was no corresponding rule that limited any further subdivision of the donor lot. While subdividing lots amalgamated under Section 22b of the Franklin Section require closer scrutiny this should merit a Non-Complying Activity status. The land affected may contain qualifying Significant Natural Areas or may be able to relocate boundaries without creating an outcome that may compromise the prior transferable subdivision. • The objectives and policies of the Proposed Plan should be sufficiently strong to ensure that the subdivision of land containing high class soils is protected and that subdivision in the Urban Expansion Zone does not undermine the integrated and efficient development of this zone.

Decision Reasons:	<ul style="list-style-type: none"> • It may be necessary to create multiple lots and hold them in one Record of Title. This may occur when a stream or a public road bisects land held together in one Record of Title. 		

Plan chapter: Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision

Submitter Number:	28	Submitter:	Roko Ulrich
Point Number	28.1		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	<p>Retain 22.4.1.2 General subdivision to enable the creation of a new 1.6ha lot from the 23ha at 2603 Highway 22, Glen Murray, except for the amendments sought below.</p> <p>AND</p> <p>Amend Rule 22.4.1.2 General subdivision to allow the new 1.6ha site to be net of the accessway.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The existing old farm house is not suitable for retirement purposes. Due to steep topography, any new dwelling would need to use the existing access and be located at the rear of the farm. 		

Submitter Number:	61	Submitter:	Anthony Viner
Point Number	61.1		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Delete Rule 22.4.1.2 RD1(a)(ii) General Subdivision requiring a minimum of 20ha to subdivide in the Rural Zone.		
Decision Reasons:	<ul style="list-style-type: none"> The restriction of subdivision to lots larger than 20ha is inappropriate for small lots in areas already fragmented such as Summerfield Lane, Tamahere. None of the criteria in Policy 5.3.8 for rural zones are compromised by providing for smaller lots in areas such as this. 		
Point Number	61.2		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.2 RD1(a)(iv) General Subdivision to reduce minimum lot sizes in the Rural Zone from 8,000m ² -1.6ha to 5,000m ² .		
Decision Reasons:	<ul style="list-style-type: none"> 5000m² is sufficient to maintain the values stated in Policy 5.3.8, and is the Waikato District conventional minimum lot size. In the specific case of the proposed subdivision it is already surrounded by many lots of about 5000m². 		

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.167		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.2(a)(ii) General subdivision to increase the subdivision threshold to 40ha.		
Decision Reasons:	<ul style="list-style-type: none"> Rule 22.4.1.2 acknowledges the role of high class soils and to limit the extent of rural land fragmentation. As currently written a minimum 20ha lot size is required before subdivision can be considered. In Rule 22.4.1.2 (a)(ii) a threshold set at 20 ha has the effect of increasing the area of land within the district for which subdivision may be permitted, thus increasing the potential for more fragmentation of rural land (and high class soils) than would otherwise be the case (with a 40 ha threshold). It may also lead to more diffuse rural residential development. This is inconsistent with policy 5.2.3(a) of the proposed plan around minimising the fragmentation of productive rural land. 		
Point Number	81.168		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.2(a)(v) General subdivision to clarify that a property scale/site specific Land Use Capability Assessment is required.		
Decision Reasons:	<ul style="list-style-type: none"> In Rule 22.4.1.2(a)(v) it is important that the Land Use Capability Assessment be prepared at a suitable scale to reflect the specific property or properties. An assessment using regionally available data will not be sufficient to assess the class of soils on a site. 		
Point Number	81.169		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.2(a)(v) General subdivision to provide for a minimum of 90% high class soils in the parent lot, and a maximum of 10% high class soils in the child lot.		
Decision Reasons:	<ul style="list-style-type: none"> Rule 22.4.1.2(a)(v) also seeks that one lot must contain a minimum of 80% of the high class soils, while the other lot may consist of up to 20% of high class soils. Clarification is needed that the parent lot is required to have the higher percentage of high class soils. To more effectively give effect to objectives and policies regarding high class soils a higher level of high class soils should be retained in the parent lot, and a 90%/10% split should apply. 		
Point Number	81.170		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Add to 22.4.1.2(b) General subdivision the matters of discretion to include the availability of water supply, wastewater services and stormwater management.		
Decision Reasons:	<ul style="list-style-type: none"> There is no assessment criteria relating to water supply, wastewater services and stormwater management. This should be included to promote the integration of infrastructure and land use and subdivision, giving effect to WRPS Policy 6.3.

Summary of Decision Requested	<p>Retain Rule 22.4.1.2 General subdivision, except for the amendments sought below</p> <p>AND</p> <p>Amend the 1.6ha maximum lot size in Rule 22.4.1.2 General Subdivision (specific amendments not stated in the submission).</p>		
Decision Reasons:	<ul style="list-style-type: none"> To have greater flexibility for establishing a range of rural activities within the new lot. 		

Submitter Number:	106	Submitter:	Bruce and Dorothy Chipman
Point Number	106.5		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Retain Rule 22.4.1.2 (a)(i) – (ii) General Subdivision.		
Decision Reasons:	<ul style="list-style-type: none"> Submitter supports the inclusion of General Subdivision rules. 		
Point Number	106.6		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Add a performance standard to Rule 22.4.1.2 (a)(iv) General Subdivision that allows for smaller lots around existing dwellings that follow the fenced curtilage, driveway, effluent disposal and any reserve area.		
Decision Reasons:	<ul style="list-style-type: none"> General Subdivision creating a child lot around an existing dwelling should be able to be smaller than 8,000m2. Where curtilage is established and a farming regime in place, flexibility in lot size should be provided to ensure that the existing farming regime can continue. 		
Point Number	106.7		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Delete Rule 22.4.1.2 (a)(v) General Subdivision, in relation to the 80/20 provision for high class soil.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter agrees with the intent of this rule, which is to design subdivision to avoid the fragmentation and loss of the high class soils. The strict and arbitrary 80/20 requirement may not necessarily result in the best layout, design or environmental outcome for the site. Would like to see matters relating to the retention of high class soils and the maintenance of productivity/farming systems addressed as a matter of discretion for the General Subdivision provisions. The requirement to include Landuse Capability Reporting with every subdivision under the General Provisions becomes an additional compliance cost that does not result in a better outcome. There is no analysis in the s32 report as to why the 80/20 rule was chosen as a method. 		
Point Number	106.8		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	<p>Add the following matter of discretion to Rule 22.4.1.2 General Subdivision, as follows:</p> <p><u>(b)(vii) effects on rural productivity and fragmentation of high class soils.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> Council's planners should be able to have discretion of where these are required to adequately assess the effects of the subdivision. Would like to see matters relating to the retention of high class soils and the maintenance of productivity /farming systems addressed as a matter of discretion for the General Subdivision provisions.

Point Number	332.12		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Retain Rule 22.4.1.2(a)(i)-(iii) General subdivision.		
Decision Reasons:	<ul style="list-style-type: none"> • Support the inclusion of the general subdivision rules. 		
Point Number	332.13		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Retain Rule 22.4.1.2 General subdivision, except for the amendments sought below AND Amend Rule 22.4.1.2 General subdivision to include a discretionary activity rule as follows: <u>DL</u> <i>(a) General subdivision around an existing dwelling and associated curtilage that does not comply with Rule 22.4.1.2(iv) RD1.</i> <i>(b) General subdivision around established rural activities that does not comply with Rule 22.4.1.2(iv) RD1.</i> ...		
Decision Reasons:	<ul style="list-style-type: none"> • The creation of an additional vacant lot between 8,000m2 and 1.6ha is supported. • Creating a child lot around an existing dwelling, where a curtilage and farming regime is established will provide flexibility in lot size to ensure that farming can continue. It ensures practical location of boundaries. • A discretionary rule should also be provided for lots less than 8,000m2 and greater than 1.6ha where they contain an existing dwelling. There may be site specific factors that create a unique situation that is conducive to the the proposed lot size whilst achieving the objectives and policies. • The creation of lots that accommodate existing and well-established rural activities with a viable, sustainable and permanent nature can be appropriately subdivided from other other activities on the site should be provided for. • Lots greater than 1.6ha may need an assessment on productive potential of the land. 		
Point Number	332.14		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Delete Rule 22.4.1.2(a)(v) General subdivision AND Amend Rule 22.4.1.2(b)(vi) General subdivision as follows:		

RD1

(a) Subdivision must comply with all of the following conditions:

....

(v) Land containing high class soil (as determined by a Land Use Capability Assessment prepared by a suitably qualified person) must be contained within the boundaries of only two lots as follows;

~~A. one lot must contain a minimum of 90% of the high class soil, and~~

~~B. the other lot may contain up to 20% of high class soil.~~

(b) Council's discretion is restricted to the following matters:

....

(vi) Effects on rural productivity and fragmentation of high class soils.

...."

Decision Reasons:

- There is no analysis of this rule in the section 32 report regarding relevance or practicality.
- Agree with the intent to design subdivision to avoid the fragmentation of high class soils.
- The strict 80/20 requirement of this rule may not result in the best layout, design or farming outcome for the site.
- The objectives and policies given primacy to the protection of high class soils. The submitter would like to see the matters relating to the retention of high class soils and maintenance of productivity/farming systems be addressed as a matter of discretion. The objectives and policies with the matters of discretion will be strong enough to avoid adverse outcomes on high class soils.
- The 80/20 split will result in the necessary inclusion of Landuse Capability Reporting with every subdivision application under the general provisions and this will become an additional compliance cost and box ticking exercise for Council.

Point Number	345.3		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.2(a)(v) General subdivision, to reduce the minimum lot size to 5000m2 and increase the upper limit to 3ha, or a percentage of the total land area.		
Decision Reasons:	<ul style="list-style-type: none">• In the interests of keeping as much land in rural production as possible the minimum should be reduced to 5000m2.• To give the ability for someone, who wants to produce something and needs a larger area, the upper limit should be increased to 3ha, which could be a viable orchard area in the right conditions.• It could be limited to a certain percentage of the total land area, e.g. 10%, which equates to 2ha of a 20ha farm and 4ha of a 40ha farm.		
Point Number	345.4		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Delete Rule 22.4.1.2(a)(v) General subdivision.		
Decision Reasons:	<ul style="list-style-type: none">• The high class soils limit is unnecessarily complex and unnecessary given the small size of excised block relative to the balance block.• It could create a situation where the lifestyle block is forced onto unsuitable land, particularly when a large block is largely low productive land but has a small buildable area, and this type of land is quite possible.• The small lifestyle block may be more productive than the larger block.• The limit in size of the small block will sufficiently take care of this issue.

Point Number	354.2		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Delete restrictions in Rule 22.4.1.2(a)(i) General Subdivision for Record of Title date. OR Amend Rule 22.4.1.2(a)(i) if the Rural Zone is tiered, e.g. any lot less than 8,000m2 cannot be further divided.		
Decision Reasons:	<ul style="list-style-type: none">• Rule outdated• Should be removed from current plan structure• Could be incorporated in a different form if the Rural Zone is tiered, e.g. lots less than 8,000m2 cannot be further subdivided.		
Point Number	354.3		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Delete restrictions in Rule 22.4.1.2(a)(ii) General Subdivision for minimum qualifying title size of 20ha, particularly for those properties where bordering titles are less than the 20 hectare limit.		
Decision Reasons:	<ul style="list-style-type: none">• In areas where surrounding/bordering titles are less than 20 ha, this part of the rule needs removing.• Some property sizes are approximately 5,000m2, 2, 4, 6 and 17 ha e.g. Te Puroa and Waipa Heights Roads.		
Point Number	354.4		

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested	Amend restrictions in Rule 22.4.1.2(a)(iv) General Subdivision, requiring the additional lot size being between 8,000m2 and 1.6ha.
Decision Reasons:	<ul style="list-style-type: none"> The upper limit of this rule is not realistic and requires increasing or being negotiable. For example where a block is less than 20ha in an already subdivided area or a larger property where subdivision is required for inheritance or family reasons. Sizes should be negotiable or tiered in the Rural zone. There needs to be a distinction between 'life style' properties and larger properties.
Point Number	354.5
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested	Amend restrictions in Rule 22.4.1.2(v) General Subdivision, such that the high class soil criteria is negotiable in some circumstances.
Decision Reasons:	<ul style="list-style-type: none"> In some circumstances percentage should be negotiable. Rural Zoning encompasses all rural classified land regardless of size, contour, locations or what subdivision have been allowed in the past for example Te Puroa Road, Waipa Heights Road, Hill Side Heights Road, Huntly, Kimihia and James Road, Huntly. Need to consider Waikato Regional Council requirements to fence off waterways or retire areas at risk of erosion. This will further reduce areas of smaller properties rendering them less able to generate income if the percentage of area is significant due to multiple waterways on a property. Property at 495 Te Puroa Road has three different water sources in the bottom of each gully. Due to property at 495 Te Puroa Road being under 20 hectares this will reduce the amount of land available for our use. Subdivision is already part of the character of the immediate area and should be considered correct and proper use of the land.
Point Number	354.6
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested	Delete Rule 22.4.1.2 (a)(iii) General Subdivision.
Decision Reasons:	<ul style="list-style-type: none"> This part of the rule should not be applied to all subdivision. If the Rural Zone is tiered, this could be addressed an applied to those larger properties with a commercial land use.

Submitter Number:	355	Submitter:	Scott & Tina Ferguson
Point Number	355.5		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Retain Rule 22.4.1.2 (a)(i) – (iii) General Subdivision, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the inclusion of the General Subdivision rules. 		
Point Number	355.6		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.2 General Subdivision to create new discretionary activities, as follows: <u>DI</u> <u>(a) General subdivision around an existing dwelling and associated curtilage that does not comply with Rule 22.4.1.2 (iv) RD I.</u> <u>(b) General subdivision around established rural activities that does not comply with Rule 22.4.1.2 (iv) RD I.</u>		
Decision Reasons:	<ul style="list-style-type: none"> General Subdivision creating a child lot around an existing dwelling, where a curtilage is established and farming regime is already in place on the balance lot, should be provided flexibility in lot size to ensure that the existing farming regime can continue. Ensure the boundaries proposed are a practical outcome to ensure the most efficient ongoing management of the land. A lot size consistent with the established farming regime will avoid the redevelopment of farm tracks and fence lines to access what is a relatively small piece of land. *A discretionary rule should also be provided for lots less than 8,000m2 and greater than 1.6ha where they contain an existing dwelling. There may be site specific factors that create a unique situation that is conducive to the proposed lot size whilst remaining consistent with the objectives and policies. For lots smaller than 8000m2, it is only necessary to confirm the provision of services within the lot boundaries. Lots greater than 1.6ha may need an assessment with respect to the productive potential of the land. If the land comprises existing curtilage around the house then the lot will not result in any unreasonable effects with respect to the productive potential of the balance land. If the land comprises productive potential, then a Farm Management report should be provided to demonstrate that the both the proposed lot and the balance lot are sized to ensure rural land uses continue to predominate. Creation of lots that accommodate existing and well-established rural activities where these are of a viable, sustainable and permanent nature, and it is appropriate for these to be subdivided from other rural activities on the site should be provided for. 		
Point Number	355.7		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Delete Rule 22.4.1.2(a)(v) General Subdivision AND Add a new matter of discretion to Rule 22.4.1.2 (b) General Subdivision, as follows: <u>(b)(vi) Effects on rural productivity and fragmentation of high class soils.</u>		
Decision Reasons:	<ul style="list-style-type: none"> The strict and arbitrary 80/20 requirement of this rule though may not necessarily result in the best layout, design or farming outcome for the site. The objectives and policies (5.1.1, 5.2) give primacy to the protection of high class soils. In addition to the objectives and policies (5.2), the submitter would like to see matters relating to the retention of high class soils and the maintenance of productivity/farming systems addressed as a matter of discretion for the General Subdivision provisions. The strength of the objectives and policies together with expanded matters of discretion are sufficiently strong to ensure adverse outcomes on high class soils are avoided. The requirement to demonstrate the 80/20 split will result in the necessary inclusion of Landuse Capability Reporting to demonstrate that this exact figure is met. This becomes an additional compliance cost that does not necessarily result in a better environmental outcome. Council's Consent Planners should have the discretion of where these are required in accordance with the recommended matter of discretion.

Point Number	365.1		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.2 General Subdivision, to add a new restricted discretionary activity for records of title containing no high class soils and to allow a minimum lot area of 4ha on properties that do not contain high class soils as follows: RD1 <u>A1 - Record of Title containing High Class Soil:</u> (a) RD2 <u>A2 - Record of Title containing no High Class Soil:</u> (g) <u>Subdivision must comply with all of the follow conditions:</u> (i) <u>The Record of Title to be subdivided must not have previously been used to gain an additional subdivision entitlement under this Rule. (Note: A consent notice will be required on new Titles created under this Rule confirming no further subdivision under this Rule may be made);</u>		

(ii) The Record of Title to be subdivided must be at least 20 hectares in area;

(iii) The proposed subdivision must create no more than one additional lot, excluding an access allotment.

(iv) The additional lot must have a minimum lot area of 4ha;

(b) Council's discretion is restricted to the following matters:

...

Decision Reasons:

- There are many cases where there are rural sites that do not contain high class soils that could be potentially subdivided down to smaller sizes without compromising productivity or the character and amenity of the rural zone.
- This could be achieved by making a larger minimum lot size (with no maximum) and providing a one-time only provision to ensure subdivision retains rural character and amenity and ensures lot sizes are sufficiently sized for productive use.

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision

Summary of Decision Requested

Amend Rule 22.4.1.2 General Subdivision, by including additional provisions to permit additional subdivision to occur that does not have a detrimental impact on amenity and economic values on the rural environment.

Decision Reasons:

- Recognising that fragmentation of rural land and loss of productive and versatile land is not ideal, the rules as currently written encourage this by only permitting the subdivision of larger farms, rather than allowing smaller blocks of 10-20 acres the opportunity to subdivide one lot from their property allowing two titles.
- These size blocks still provide low density housing, are most likely not of a size to be productive and are not likely to be amalgamated into a large more economically viable block. Yet they are also unable to subdivide.
- In many circumstances, having the opportunity to create another title and subdivide results in income directed back into the property and further opportunities to diversify.

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision

Summary of Decision Requested

Retain Rule 22.4.1.2 General subdivision, as subdivision is a restricted discretionary activity, except for the amendments sought below

AND

Amend Rule 22.4.1.2 General subdivision, as follows:

(a) Subdivision must comply with all of the following conditions...

x. Proposed lots must be connected to water supply sufficient for firefighting purposes.

(b) Council's discretion is restricted to the following matters...

x. Provision of infrastructure, including water supply for firefighting purposes.

AND

Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- Fire and Emergency New Zealand generally supports Rule 22.4.1.2 as subdivision of land in the Rural Zone is a Restricted Discretionary activity, however, Fire and Emergency New Zealand requires that proposed lots shall be connected to public-reticulated water supply or water supply sufficient for firefighting purposes
- Subdivision that does not comply is a Non-Complying activity.
- The changes sought promotes consistency across all zones in the District Plan.

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	No specific decision sought, but submission opposes the use of the 6 th December 1997 CT date in Rule 22.4.1.2 (a)(i) General subdivision.		
Decision Reasons:	<ul style="list-style-type: none"> The CT date should be brought forward to the date the Proposed District Plan is operative. The rule should be inclusive of the whole of the District and not reference a redundant and archaic rule that relates to only part of the district. If the CT date of the 6th December 1997 is persisted with, then further exceptions need to be made to include titles with a title date newer than the 6th of December 1997 that were created by transferable rural lot right subdivision. 		
Point Number	420.5		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Retain Rule 22.4.1.2 (a)(ii) General subdivision as notified requiring a minimum of 20ha parent title size.		
Decision Reasons:	No reason provided.		
Point Number	420.6		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		

Summary of Decision Requested	Amend Rule 22.4.1.2 (a)(iii) General subdivision as follows: <i>The proposed subdivision must create no more than one additional lot, excluding an access allotment, <u>for every compliant parent certificate of title.</u></i>
Decision Reasons:	<ul style="list-style-type: none"> • Clause (iii) needs to be clarified. • As the rule reads in its current form, it is not clear that subdivision must not create more than one lot for every compliant parent certificate of title. • The rule could be interpreted that no more than one lot is created per subdivision regardless of number of compliant parent certificate of titles that are involved.
Point Number	420.7
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested	Amend Rule 22.4.1.2 (a)(iv) General subdivision to reduce the minimum lot size from 8,000m2 to 4,000m2.
Decision Reasons:	<ul style="list-style-type: none"> • A minimum lot size requirement of 4,000m2 will allow for some flexibility while still provided generous-sized lots that are appropriate in the rural zone. • A minimum lot size of 8,000m2 will only serve to fragment rural land and potentially designate productive land for inappropriate use in large residential lots. • For many people 8,000m2 is not a manageable sized lot and rural usage of the land within many 8,000m2 lots will not be utilised to its full potential. • Waikato Regional Council has a 2,500m2 minimum in the rural zone, which should be considered when designating lot minimum area to minimise urban sprawl and best maintain the rural land resources in the district. • This is relevant for the Franklin area as subdivision is currently allowable to 2,500m2 and for future development to be consistent with existing development a smaller lot size than 8,000m2 would be more appropriate.

Summary of Decision Requested	Amend Rule 22.4.1.2 (a)(i) General subdivision, so exceptions to the rule (i.e those that are classified as Prohibited Subdivision) are noted or deferred to this rule as is the case in the current Operative Plan.		
Decision Reasons:	<ul style="list-style-type: none"> Specifications of exceptions to this rule will ease interpretation and understanding of the rule. 		
Point Number	456.6	Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested	Amend Rule 22.4.1.2 (a) (i) General subdivision, by matching the issue of title date with the operative date of the Proposed Plan, if not for all titles then amend for the Franklin titles.		
Decision Reasons:	<ul style="list-style-type: none"> The issue of title date should be brought up to the Operative date of the Proposed Plan. If not for all titles then certainly for Franklin titles which have not had the use of this rule in the past. The Proposed Plan is incorporating Franklin section titles that have not had this opportunity for subdivision previously so should not be penalised by the implementation of the date restriction which is only relevant to the Waikato section of the current District Plan. The date is a reference to a redundant plan and pre-historic rule. 		
Point Number	456.7	Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested	Retain minimum size for subdivision entitlement of 20ha in Rule 22.4.1.2 (a) (ii) General subdivision.		
Decision Reasons:	<ul style="list-style-type: none"> The minimum parent title size is appropriate for the Rural area and will serve to not fragment land within the District. 		
Point Number	456.8	Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested	Amend Rule 22.4.1.2 (a) (iii) General subdivision, as follows: <i>The proposed subdivision must create no more than one additional lot, excluding an access allotment, for every compliant parent certificate of title.</i>		

Decision Reasons:	<ul style="list-style-type: none"> As the Rule reads in its current form it is not clear that subdivision must not create more than one lot per every compliant parent certificate of title. It could be interpreted that no more than one lot is created per subdivision regardless of the number of compliant parent certificate of titles that are involved.
Point Number	456.9
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested	Amend Rule 22.4.1.2 (a) (iv) General subdivision, by reducing the minimum lot size to 4,000m2.
Decision Reasons:	<ul style="list-style-type: none"> A minimum lot size requirement 4,000m2 will allow for some flexibility while still providing generous sized lots appropriate in the Rural zone. A minimum lot size of 8,000m2 will only serve to fragment Rural land and potentially designate productive land for inappropriate use in large Residential lots. For many people 8,000m2 is not a manageable sized lot and rural usage of the land within many 8,000m2 lots will not be utilised to its full potential. The Regional Council has a 2,500m2 minimum in the Rural zone which should be considered when designating lot minimum area so as to minimise urban sprawl and best maintain the Rural land resources in the District. This is particularly relevant for the Franklin area as subdivision is currently allowable to 2,500m2 and for future development to be consistent with existing development a smaller lot size than 8,000m2 would be more appropriate.

Point Number	471.18		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.2 General Subdivision so that a subdivision activity that fails a rule defaults to either a restricted discretionary activity or discretionary activity at worst. AND Any consequential amendments necessary.		
Decision Reasons:	<ul style="list-style-type: none"> Non-complying activities should be strategically used where subdivision is generally discouraged. Having all rule non-compliances (no matter how minor) default to a non-complying activity is not good planning practice. The submitter states that a restricted discretionary activity is entirely appropriate and that a discretionary activity should be considered 'at worst'. 		
Point Number	471.19		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Delete Rule 22.4.1.2 RD1 (a)(v) General subdivision, which relates to the required percentages of high class soil within the proposed lots. AND Any consequential amendments necessary.		
Decision Reasons:	<ul style="list-style-type: none"> The rule is confusing, difficult to administer and complicates the consenting process. 		

Submitter Number:	489	Submitter:	Ann-Maree Gladding
Point Number	489.12		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Delete Rule 22.4.1.2 RD1 (a)(v) General subdivision.		
Decision Reasons:	<ul style="list-style-type: none"> Subdivision rules have to be clear and easy to understand and not open for interpretation between the Council planner and developer / agent as it wastes everyone's time and money. This rule doesn't seem to make any logical or practical sense and will be far too difficult to administer or interpret correctly in the rural environment and the potential gains are negligible. The rule will trigger an expensive Land use Capability Report for the very small amount of soil proposed. The General Subdivision rule allows for a 2-lot subdivision of a 20 hectare sized lot, with one of the lots being between 8000m² and 1.6 hectares. It is unclear if this rule means that if one has a 20 hectare sized title that has 1 hectare of high class soil, 80% of that high class soil can be on the smaller lot and 20% on the larger lot, or if it is the other way round. The objectives and policies promote the protection of high-class soil, which is encouraged but this rule makes compliance harder than it needs to be with no actual gain. Due to the size restrictions on the new lot being created (8000m² - 1.6 ha), the maximum amount of high class soil that could ever be removed from production is 8% of the overall property (based on a 20 hectare sized site) size that would never be bigger enough to be economically productive in the first place. Most titles eligible for this subdivision opportunity will be much larger than 20 hectares, so the overall potential loss of high class soil in terms of an overall percentage will be significantly less and negligible in terms of the overall scale of the rural property. Too much emphasis is put on the percentage of high class soils on a particular property, it would be more appropriate to be in terms of the actual size of the high class soils. For instance, a larger rural property that only has say 10% high class soils may have significantly more high-class soil than a smaller property that has say 80% high class soils. The percentage rule does not practically achieve what it intends to. 		
Point Number	489.2		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		

Summary of Decision Requested	Amend Rule 22.4.1.2 RD1 (a)(iv) General subdivision, as follows: <i>(iv) The additional lot must have a proposed area of between 8,000m² 4,000m² and 1.6 ha;</i>
Decision Reasons:	<ul style="list-style-type: none"> In the submitters experience with rural subdivisions and discussions with numerous farm owners, the proposed area range of between 8,000m² – 1.6ha would be too large for a rural lifestyle block and will force developers to turn potentially productive farming paddocks into areas that will not be utilised for farming and may become neglected. The best maintenance of open pasture (all classes of soils) is grazing animals. The lots created will be too small to be productive or grazed, yet they are too big to be easily managed as lifestyle properties. If a rural site owner is subdividing off an existing farm cottage for instance, the house and curtilage area will be approx. 2000m². This will result in at least 6000m² of potentially productive farming land being wasted or not utilised. The high-class soil rule will restrict this to some degree but just because an area of land is not classified as 'high class soil', it doesn't mean that it can't be used for productive purposes or add valuable support to a farming operation.

Submitter Number:	507	Submitter:	Whitford Farms Limited
Point Number	507.5		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Retain Rule 22.4.1.2(a)(i-iii) General Subdivision, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the inclusion of the General Subdivision rules. 		
Point Number	507.6		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Add a new discretionary activity to Rule 22.4.1.2 General subdivision as follows: <u>DL</u> <i>(g) General subdivision around an existing dwelling and associated curtilage that does not comply with Rule 22.4.1.2. (iv) RD1.</i> <i>(b) General subdivision around established rural activities that does not comply with Rule 22.4.1.2. (iv) RD1.</i>		
Decision Reasons:	<ul style="list-style-type: none"> General Subdivision creating a child lot around an existing dwelling, where a curtilage is established and farming regime is already in place on the balance lot, should be provided flexibility in lot size to ensure that the existing farming regime can continue. Ensure the boundaries proposed are a practical outcome to ensure the most efficient ongoing management of the land. A lot size consistent with the established farming regime will avoid the redevelopment of farm tracks and fence lines to access what is a relatively small piece of land. A discretionary rule should also be provided for lots less than 8,000m² and greater than 1.6ha where they contain an existing dwelling. There may be site specific factors that create a unique situation that is conducive to the proposed lot size whilst remaining consistent with the objectives and policies. For lots smaller than 8000m², it is only necessary to confirm the provision of services within the lot boundaries. Lots greater than 1.6ha may need an assessment with respect to the productive potential of the land. If the land comprises existing curtilage around the house then the lot will not result in any unreasonable effects with respect to the productive potential of the balance land. If the land comprises productive potential, then a Farm Management report should be provided to demonstrate that the both the proposed lot and the balance lot are sized to ensure rural land uses continue to predominate. Creation of lots that accommodate existing and well-established rural activities where these are of a viable, sustainable and permanent nature, and it is appropriate for these to be subdivided from other rural activities on the site should be provided for. 		
Point Number	507.7		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Delete Rule 22.4.1.2(a)(v) General subdivision (80/20 Rule) AND Add a new matter of discretion to Rule 22.4.1.2(b) General subdivision as follows: <i>(b)(vi) Effects on rural productivity and fragmentation of high class soils.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The strict and arbitrary 80/20 requirement of this rule though may not necessarily result in the best layout, design or farming outcome for the site. The objectives and policies (5.1.1, 5.2) give primacy to the protection of high class soils. In addition to the objectives and policies (5.2), the submitter would like to see matters relating to the retention of high class soils and the maintenance of productivity/farming systems addressed as a matter of discretion for the General Subdivision provisions. The strength of the objectives and policies together with expanded matters of discretion are sufficiently strong to ensure adverse outcomes on high class soils are avoided. The requirement to demonstrate the 80/20 split will result in the necessary inclusion of Landuse Capability Reporting to demonstrate that this exact figure is met. This becomes an additional compliance cost that does not necessarily result in a better environmental outcome. Council's Consent Planners should have the discretion of where these are required in accordance with the recommended matter of discretion. 		
Point Number	507.8

Point Number	512.5		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	<p>Retain Rule 22.4.1.2 General subdivision, except for the amendments sought below</p> <p>AND</p> <p>Amend Rule 22.4.1.2 General subdivision to create new discretionary activities, as follows:</p> <p><u><i>DI</i></u></p> <p><u><i>(a) General subdivision around an existing dwelling and associated curtilage that does not comply with Rule 22.4.1.2. (iv) RDI.</i></u></p> <p><u><i>(b) General subdivision around established rural activities that does not comply with Rule 22.4.1.2. (iv) RDI.</i></u></p>		
Decision Reasons:	<ul style="list-style-type: none"> Support Rule 22.4.1.2 (a)(iv) in part with amendments. General Subdivision creating a child lot around an existing dwelling, where a curtilage is established and farming regime is already in place on the balance lot, should be provided flexibility in lot size to ensure that the existing farming regime can continue. Ensure the boundaries proposed are a practical outcome to ensure the most efficient ongoing management of the land and note meet an arbitrary rule. A lot size consistent with the established farming regime will avoid the redevelopment of farm tracks and fence lines to access what is a relatively small piece of land. A discretionary rule should also be provided for lots less than 8,000m² and greater than 1.6ha where they contain an existing dwelling. There may be site specific factors that create a unique situation that is conducive to the proposed lot size whilst remaining consistent with the objectives and policies. For lots smaller than 8000m², it is only necessary to confirm the provision of services within the lot boundaries. Lots greater than 1.6ha may need an assessment with respect to the productive potential of the land. If the land comprises existing curtilage around the house then the lot will not result in any unreasonable effects with respect to the productive potential of the balance land. If the land comprises productive potential, then a Farm Management report should be provided to demonstrate that the both the proposed lot and the balance lot are sized to ensure rural land uses continue to predominate. 		

- Creation of lots that accommodate existing and well-established rural activities where these are of a viable, sustainable and permanent nature, and it is appropriate for these to be subdivided from other rural activities on the site should be provided for.

Point Number 512.6
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested **Delete** Rule 22.4.1.2(a)(v) General subdivision 80/20 Rule.

AND
Add a new matter of discretion to Rule 22.4.1.2 (b) General subdivision as follows:
(b)(vi) Effects on rural productivity and fragmentation of high class soils.

Decision Reasons:

- There is no analysis in s32 regarding the relevance or practicality of this rule.
- Submitter address with the intent of this rule which is to design subdivision to avoid the fragmentation of the high class soils.
- However, the strict and arbitrary 80/20 requirement of this rule though may not necessarily result in the best layout, design or farming outcome for the site.
- The objectives and policies (5.1.1, 5.2) give primacy to the protection of high class soils.
- In addition to the objectives and policies (5.2), the submitter would like to see matters relating to the retention of high class soils and the maintenance of productivity/farming systems addressed as a matter of discretion for the General Subdivision provisions. The strength of the objectives and policies together with expanded matters of discretion are sufficiently strong to ensure adverse outcomes on high class soils are avoided.
- The requirement to demonstrate the 80/20 split will result in the necessary inclusion of Landuse Capability Reporting to demonstrate that this exact figure is met. This becomes an additional compliance cost with every subdivision application under the General provisions that does not necessarily result in a better environmental outcome. Council's Consent Planners should have the discretion of where these are required in accordance with the recommended matter of discretion.

Point Number 512.8
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested **Retain** Rule 22.4.1.2(a)(iv) General subdivision.

Decision Reasons:

- Creation of a vacant lot between 8,000m2 and 1.6ha is supported as a Restricted Discretionary activity.

Submitter Number: 513 **Submitter:** Vanoo Limited

Point Number 513.5
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested **Retain** Rule 22.4.1.2(a)(i-iii) General subdivision as notified.

Decision Reasons:

- The submitter supports the inclusion of the General Subdivision rules.

Point Number 513.6
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested **Retain** Rule 22.4.1.2 General subdivision, except for the amendments sought below

AND
Amend Rule 22.4.1.2 General subdivision to create new discretionary activities as follows:
DI
(a) General subdivision around an existing dwelling and associated curtilage that does not comply with Rule 22.4.1.2. (iv) RD1.
(b) General subdivision around established rural activities that does not comply with Rule 22.4.1.2. (iv) RD1.

Decision Reasons:

- Supports Rule 22.4.1.2 (a)(iv) in part with amendments.
- General Subdivision creating a child lot around an existing dwelling, where a curtilage is established and farming regime is already in place on the balance lot, should be provided flexibility in lot size to ensure that the existing farming regime can continue.
- Ensure the boundaries proposed are a practical outcome to ensure the most efficient ongoing management of the land and not meet an arbitrary rule. A lot size consistent with the established farming regime will avoid the redevelopment of farm tracks and fence lines to access what is a relatively small piece of land.

- Oppose Rule 22.4.1.2 (a)(v).
- Submitter agrees with intent of this rule, however there is no analysis in the s32 regarding this relevance or practicality of this rule.
- The strict and arbitrary 80/20 requirement of this rule though may not necessarily result in the best layout, design or farming outcome for the site.
- The objectives and policies (5.1.1, 5.2) give primacy to the protection of high class soils. In addition to the objectives and policies (5.2), the submitter would like to see matters relating to the retention of high class soils and the maintenance of productivity/farming systems addressed as a matter of discretion for the General Subdivision provisions. The strength of the objectives and policies together with expanded matters of discretion are sufficiently strong to ensure adverse outcomes on high class soils are avoided.
- The requirement to demonstrate the 80/20 split will result in the necessary inclusion of Landuse Capability Reporting with every subdivision application under the General provisions to demonstrate that this exact figure is met. This becomes an additional compliance cost that does not necessarily result in a better environmental outcome. Council's Consent Planners should have the discretion of where these are required in accordance with the recommended matter of discretion.

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision

Summary of Decision Requested

Retain Rule 22.4.1.2(a)(iv) General subdivision.

Decision Reasons: • Creation of an vacant lot between 8,000m² and 1.6ha is supported as a Restricted Discretionary Activity.

Submitter Number: 521 **Submitter:** Max and Denise Irwin
Organisation: A Irwin & Son Limited

Point Number 521.5
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision

Summary of Decision Requested **Retain** Rule 22.4.1.2(a)(i), (ii) and (iii) General Subdivision, as notified.

Decision Reasons: • Supports the inclusion of the General Subdivision rules.

Point Number 521.6
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision

Summary of Decision Requested **Retain** Rule 22.4.1.2 General subdivision, except for the amendments sought below
AND

Add a new discretionary activity to Rule 22.4.1.2 General subdivision, as follows:

DL

(g) General subdivision around an existing dwelling and associated curtilage that does not comply with Rule 22.4.1.2. (iv) RD1.

(b) General subdivision around established rural activities that does not comply with Rule 22.4.1.2. (iv) RD1.

Decision Reasons:

- Support Rule 22.4.1.2 (a)(iv) in part.
- General Subdivision creating a child lot around an existing dwelling, where a curtilage is established and farming regime is already in place on the balance lot, should be provided flexibility in lot size to ensure that the existing farming regime can continue.
- Ensure the boundaries proposed are a practical outcome to ensure the most efficient ongoing management of the land and not meet an arbitrary rule. A lot size consistent with the established farming regime will avoid the redevelopment of farm tracks and fence lines to access what is a relatively small piece of land.
- A discretionary rule should also be provided for lots less than 8,000m² and greater than 1.6ha where they contain an existing dwelling. There may be site specific factors that create a unique situation that is conducive to the proposed lot size whilst remaining consistent with the objectives and policies.
- For lots smaller than 8000m², it is only necessary to confirm the provision of services within the lot boundaries
- Lots greater than 1.6ha may need an assessment with respect to the productive potential of the land. If the land comprises existing curtilage around the house then the lot will not result in any unreasonable effects with respect to the productive potential of the balance land. If the land comprises productive potential, then a Farm Management report should be provided to demonstrate that the both the proposed lot and the balance lot are sized to ensure rural land uses continue to predominate.
- Creation of lots should be provided for that accommodate existing and well-established rural activities where these are of a viable, sustainable and permanent nature, and it is appropriate for these to be subdivided from other rural activities on the site.

Point Number 521.7
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision

Summary of Decision Requested **Delete** Rule 22.4.1.2(a)(v) General Subdivision (80/20 Rule);
AND

Add new matters of discretion to rule 22.4.1.2(b), as follows:

(vi) Effects on rural productivity and fragmentation of high class soils.

Decision Reasons:

- Rule 22.4.1.2 (a)(v) is opposed.
- There is no analysis in the s32 regarding this relevance or practicality of this rule.
- Submitter agrees with the intent of this rule however the strict and arbitrary 80/20 requirement of this rule though may not necessarily result in the best layout, design or farming outcome for the site.
- The objectives and policies (5.1.1, 5.2) give primacy to the protection of high class soils. In addition to the objectives and policies (5.2), the submitter would like to see matters relating to the retention of high class soils and the maintenance of productivity/farming systems addressed as a matter of discretion for the General Subdivision provisions. Submitter Number: 530 **Submitter:** John Van Lieshout

Point Number 530.5
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested **Retain** Rule 22.4.1.2 General subdivision, except for the amendments sought below
AND
Add a new discretionary activity to Rule 22.4.1.2 General subdivision, as follows:
DI (g) General subdivision around an existing dwelling and associated curtilage that does not comply with Rule 22.4.1.2 (iv) RDI.
(b) General subdivision around established rural activities that does not comply with Rule 22.4.1.2 (iv) RDI.

Decision Reasons:

- Support Rule 22.4.1.2 (a)(iv) in part.
- This rule should enable a lot to be created around an existing dwelling and curtilage so that the farming regime can continue.
- This will avoid redevelopment of farm tracks and fencelines for a relatively small lot.
- There may be situations where it is appropriate to create a new lot that is less than 8000m² or larger than 1.6ha which is consistent with objectives and policies.
- For lots smaller than 8000m², it is only necessary to confirm that services can be provided.
- A farm management report may be provided that confirms productive rural capacity for any lot greater than 1.6ha and the balance lot.

Point Number 530.6

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested	Delete Rule 22.4.1.2 (a)(v) General subdivision AND Add a matter of discretion to Rule 22.4.1.2(b) General subdivision as follows: <i>(vi) Effects on rural productivity and fragmentation of high class soils.</i>
Decision Reasons:	<ul style="list-style-type: none"> • Rule 22.4.1.2 (a)(v) is opposed. • The section 32 analysis does not justify this rule. • Submitter agrees with the intent of the rule, however the 80/20 percentage requirement may not result in the best layout, design or farming outcome. • Objectives and policies (5.1.1 and 5.2) and the expanded matters of discretion are sufficiently strong to avoid adverse outcomes on high class soils. • The rule will mean that every subdivision application will require a land use capability report to demonstrate compliance with the 80/20 percentage requirement which is costly and this should be a matter of discretion rather than necessary.
Point Number	530.7
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested	Retain Rule 22.4.1.2 (a)(iv) General Subdivision.
Decision Reasons:	<ul style="list-style-type: none"> • The creation of an additional vacant lot between 8000m2 and 1.6ha is supported. • The creation of any additional lot between 8000m2 and 1.6ha as a restricted discretionary activity is supported.
Point Number	530.8

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.73		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	<p>Amend Rule 22.4.1.2 RD1 (a) (ii) General subdivision, as follows:</p> <p><u>(a)(ii) The Record of Title to be subdivided must be at least 20 40 hectares in area;</u></p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Further fragmentation of land, particularly near Hamilton's boundary, is inappropriate because of impact on the city's infrastructure and demand for unplanned services. It is estimated that approximately 254 properties could be subdivided within Hamilton's 'Area of Interest' if the 20 ha parent lot size is retained. This number would reduce to approximately 119 properties using a 40 ha parent lot size. Increasing the threshold to 40 ha would be in line with Waipa District and would ensure the sustainable management of the 'Area of Interest' for future urban growth.

Point Number	680.236		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.2 RD1 General subdivision, to make subdivision of lots with a minimum area of 20ha a Controlled Activity in the Rural Zone, with appropriate matters of control. AND Any consequential changes needed to give effect to this relief. AND Any consequential amendments to Chapter 23: Country Living Zone to address areas of existing farmland zoned as Country Living Zone.		
Decision Reasons:	<ul style="list-style-type: none"> • Lots which are a minimum of 20ha in area should be a <i>controlled activity</i> in the Rural Zone, with a controlled activity standard that requires all lots to be a minimum size of 20 ha (in addition to other appropriate matters of control). • There is little or no risk of adverse effects to the environment from such subdivision that cannot be managed by appropriate matters of control, or where subdivision raises other issues, such as natural hazard risk, traffic safety risk, or management of environmentally sensitive areas, etc through more careful consideration of effects through an alternative activity pathway whereby discretion is reserved to some restricted extent. • Subdivision of lots which are a minimum of 20ha in area should otherwise be provided for as a controlled activity in the Rural Zone. Lots which are 20ha minimum are a practical size for land management for various sorts of farming activity including grazing for dry stock and dairy standoff. If these can be acquired by farmers with relative certainty, this would enable farming communities to more efficiency provide for their social and economic wellbeing. • Where subdivision cannot achieve a standard of minimum 20ha lot area, the subdivision could trigger to a <i>restricted discretionary activity</i> status provided that any lot is at least 8,000m² in area, and the Council's suggested criteria for high class soil can also apply. 		
Point Number	680.237		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.2 NCI General subdivision, from Non-complying activity status to Discretionary activity status. AND Any consequential changes needed to give effect to this relief. AND Any consequential amendments to Chapter 23: Country Living Zone to address areas of existing farmland zoned as Country Living Zone.		

Decision Reasons:

- The submitter is opposed to the use of non-complying activity status in this regard. The approach is unnecessary and unduly restrictive.

Submitter Number: 686 **Submitter:** Reid Crawford Farms Limited

Point Number 686.14
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested Retain Rule 22.4.1.2 (a) (iv) as a restricted discretionary activity for lots between 8,000m2 and 1.6ha.

Decision Reasons:

- Supports the creation of an additional vacant lot between 8,000m2 and 1.6ha.
- Supports the additional lot between 8,000m2 and 1.6ha as a restricted discretionary activity.

Point Number 686.15
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested Add a new discretionary activity to Rule 22.4.1.2 General Subdivision, as follows:

DI

(g) General subdivision around an existing dwelling and associated curtilage that does not comply with Rule 22.4.1.2 (iv) RDI.

(b) General subdivision around established rural activities that does not comply with Rule 22.4.1.2 (iv) RDI.

Decision Reasons:

- General subdivision creating a child lot around an existing dwelling, where a curtilage is established and farming regime is already in place on the balance lot, should be provided flexibility in lot size to ensure that the existing farming regime can continue.
- This will ensure the boundaries proposed are practical to ensure the most efficient ongoing management of the land and not to meet an arbitrary rule.
- A lot size consistent with the established farming regime will avoid the redevelopment of farm tracks and fence lines to access what is a relatively small piece of land.
- A discretionary rule should be provided for lots less than 8,000m2 and greater than 1.6ha where they contain an existing dwelling.
- There may be site specific factors that create a unique situation that is conducive to the proposed lot size whilst remaining consistent with the objectives and policies and achieving the anticipated environmental results.
- For lots smaller than 8,000m2 it is only necessary to confirm the provision of services within the lot boundaries.
- Lots greater than 1.6ha may need an assessment with respect to the productive potential of the land.
- If the land comprises existing curtilage around the house then the lot will not result in any unreasonable effects with respect to the productive potential of the balance land.
- If the land comprises productive potential, then a Farm Management Report should be provided to demonstrate that the both the proposed lot and the balance lot are sized to ensure rural land uses continue to predominate.
- The creation of lots that accommodate existing and well-established rural activities should be provided for where these are of a viable, sustainable and permanent nature and it is appropriate for these to be subdivided from other activities on the site.

Point Number 686.16
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested Delete Rule 22.4.1.2 RD1 (a)(v) General Subdivision (the 80/20 rule);

AND

Add a new matter of discretion to Rule 22.4.1.2 RD1 (b) General Subdivision, as follows:

(b)(vi) Effects on rural productivity and fragmentation of high class soils.

Decision Reasons:

- There is no analysis in the s32 report regarding the relevance or practicality of this rule.
- The submitter agrees with the intent of this rule, which is to design subdivision to avoid the fragmentation of the high class soils.
- The strict and arbitrary 80/20 requirement of this rule may not necessarily result in the best layout, design or farming outcome for the site.
- The objectives and policies (5.1.1, 5.2) give primacy to the protection of high class soils.
- In addition to the objectives and policies (5.2), the submitter would like to see matters relating to the retention of high class soils and the maintenance of productivity/farming systems addressed as a matter of discretion for the General Subdivision provisions.
- The strength of the objectives and policies together with expanded matters of discretion are sufficiently strong to ensure adverse outcomes on high class soils are avoided.
- The requirement to demonstrate the 80/20 split will result in the necessary inclusion of Landuse Capability Reporting with every subdivision application under the General Provisions to demonstrate that this exact figure is met. This becomes an additional compliance cost that does not necessarily result in a better environmental outcome. Consent planners should have the discretion of where these are required in accordance with the recommended matter of discretion.

Submitter:

Jack Macdonald

Point Number 782.13

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision

Summary of Decision Requested **Delete** Rule 22.4.1.2 (v) General Subdivision regarding high class soils.

Decision Reasons:

- Land Use Capability Assessments are expensive and the 80%/20% requirement is difficult to understand given the objective of retaining high class soil.
- It would be more appropriate for the rule to refer to the actual size of the high class soils. For instance, a larger rural property that only has 10% high class soils may have significantly more of these soils than a smaller property that has 80% high class soils.
- The rule is open to interpretation.
- This rule will be difficult to administer.
- This rule makes compliance harder with no actual gain.

Point Number 782.2

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision

Summary of Decision Requested **Amend** Rule 22.4.1.2 RDI (a) (iv) General subdivision, as follows:

RD1 (a) Subdivision must comply with all of the following conditions:

...

(iv) The additional lot must have a proposed area of between ~~8,000m2~~ 4000m2 and 1.6 ha;

Decision Reasons:

- A lot area range of 8000m2-1.6ha will result in a lifestyle block that is too large and will force developers to turn potentially productive farming paddocks into areas that will not be used for farming and become neglected.
- The best maintenance of open pasture (all classes of soils) is grazing animals.
- The lots created will be too small to be productive or grazed, yet they are too big to be easily managed as lifestyle properties.

- If a landowner is subdividing off an existing farm cottage, the house and curtilage area will be approximately 2000m².
- This will result in at least 6000m² of potentially productive farming land being wasted or not utilised.
- The high class soil rule will restrict this to some degree because an area of land is not classified as 'high class soil', it doesn't mean that it can't be used for productive purposes or add valuable support to a farming operation.

Decision Reasons:	<ul style="list-style-type: none"> • As the rule reads in its current form it is not clear that subdivision must not create more than one lot per every compliant parent certificate of title. • It could be interpreted that no more than one lot is created per subdivision regardless of the number of compliant parent certificate of titles that are involved. 		

Point Number	838.23
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision
Summary of Decision Requested	Amend Rule 22.4.1.2(a)(iv) General subdivision to reduce the minimum lot size to 4,000m2.
Decision Reasons:	<ul style="list-style-type: none"> A minimum lot size requirement of 4,000m2 will allow for some flexibility while still providing generous sized lots appropriate in the Rural Zone. A minimum lot size of 8,000m2 will only serve to fragment rural land and potentially designate productive land for inappropriate use in large residential lots. 8000m2 is not a manageable sized lot and rural usage of the land within many 8000m2 lots will not be utilised to its full potential. Regional council has a 2,500m2 minimum in the Rural Zone which should be considered when designating lot minimum area so as to minimise urban sprawl and best maintain the rural land resources in the district. This is particularly relevant for the Franklin area as subdivision is currently allowable to 2,500m2 and for future development to be consistent with existing development a smaller lot size than 8,000m2 would be more appropriate.

Point Number	872.5		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Retain Rule 22.4.1.2(a)(i), (ii) and (iii) General Subdivision, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Supports inclusion of the General Subdivision rules. 		
Point Number	872.6		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Add a new discretionary activity to Rule 22.4.1.2 General subdivision, as follows: <u>DI</u> <i>(g) General subdivision around an existing dwelling and associated curtilage that does not comply with Rule 22.4.1.2. (iv) RD1.</i> <i>(b) General subdivision around established rural activities that does not comply with Rule 22.4.1.2. (iv) RD1.</i>		
Decision Reasons:	<ul style="list-style-type: none"> General Subdivision creating a child lot around an existing dwelling, where a curtilage is established and farming regime is already in place on the balance lot, should be provided flexibility in lot size to ensure that the existing farming regime can continue. Ensure the boundaries proposed are a practical outcome to ensure the most efficient ongoing management of the land. A lot size consistent with the established farming regime will avoid the redevelopment of farm tracks and fence lines to access what is a relatively small piece of land. A discretionary rule should also be provided for lots less than 8,000m² and greater than 1.6ha where they contain an existing dwelling. There may be site specific factors that create a unique situation that is conducive to the proposed lot size whilst remaining consistent with the objectives and policies. For lots smaller than 8000m², it is only necessary to confirm the provision of services within the lot boundaries Lots greater than 1.6ha may need an assessment with respect to the productive potential of the land. If the land comprises existing curtilage around the house then the lot will not result in any unreasonable effects with respect to the productive potential of the balance land. If the land comprises productive potential, then a Farm Management report should be provided to demonstrate that the both the proposed lot and the balance lot are sized to ensure rural land uses continue to predominate. Creation of lots should be provided for that accommodate existing and well-established rural activities where these are of a viable, sustainable and permanent nature, and it is appropriate for these to be subdivided from other rural activities on the site. 		
Point Number	872.7		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Delete Rule 22.4.1.2(a)(v) General Subdivision (80/20 Rule); AND Add a new matter of discretion to Rule 22.4.1.2(b) as follows: <i>(vi) Effects on rural productivity and fragmentation of high class soils.</i>		
Decision Reasons:	<ul style="list-style-type: none"> There is no analysis in the s32 regarding this relevance or practicality of this rule. The strict and arbitrary 80/20 requirement of this rule though may not necessarily result in the best layout, design or farming outcome for the site. The objectives and policies (5.1.1, 5.2) give primacy to the protection of high class soils. In addition to the objectives and policies (5.2), the submitter would like to see matters relating to the retention of high class soils and the maintenance of productivity/farming systems addressed as a matter of discretion for the General Subdivision provisions. The strength of the objectives and policies together with expanded matters of discretion are sufficiently strong to ensure adverse outcomes on high class soils are avoided. The requirement to demonstrate the 80/20 split will result in the necessary inclusion of Landuse Capability Reporting to demonstrate that this exact figure is met. This becomes an additional compliance cost that does not necessarily result in a better environmental outcome. Council's Consent Planners should have the discretion of where these are required in accordance with the recommended matter of discretion.

Submitter Number:	922	Submitter:	John Rowe
Point Number	922.13		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Delete Rule 22.4.1.2 (v) General Subdivision regarding high class soils.		
Decision Reasons:	<ul style="list-style-type: none"> Land Use Capability Assessments are expensive and the 80%/20% requirement is difficult to understand given the objective of retaining high class soil. It would be more appropriate for the rule to refer to the actual size of the high class soils. For instance, a larger rural property that only has 10% high class soils may have significantly more of these soils than a smaller property that has 80% high class soils. The rule is open to interpretation. This rule will be difficult to administer. This rule makes compliance harder with no actual gain. 		
Point Number	922.14		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Delete Rural Zone - General Subdivision Rule 22.4.1.2(a)(v) regarding high class soils.		
Decision Reasons:	<ul style="list-style-type: none"> Subdivision rules have to be clear and easy to understand and not open for interpretation. The submitter believes that this rule doesn't seem to make any logical or practical sense and will be far too difficult to administer or interpret correctly in the rural environment and the potential gains are negligible. The rule will trigger an expensive Landuse Capability Report for a very small amount of soil (8000m2 - 1.6ha as proposed). The General Subdivision rule allows for a 2 lot subdivision of a 20 hectare sized lot, with one of the lots being 8000m2 and 1.6ha. Does this rule mean that if you have a 20 hectare sized title that has 1 hectare of high class soil, 80% of that high class soil can be on the smaller lot? And 20% on the larger lot? Or is it the other way round? The objectives and policies promote the protection of high class soil which is encouraged but this rule makes compliance harder than it needs to be with no actual gains. Due to the size restrictions on the new lot created (8000m2 - 1.6ha), the maximum amount of high class soil that could ever be removed from production is 8% of the overall property (based on a 20 hectare sized site) size that would never be bigger enough to be economically productive in the first place. Most titles eligible for this subdivision opportunity will be much larger than 20 hectares, so the overall potential loss of high class soil in terms of an overall percentage will be significantly less and negligible in terms of the overall scale of the rural property. Too much emphasis is put on the percentage of high class soils on a particular property. It would be more appropriate to be in terms of the actual size of the high class soils. For example a larger rural property that has only 10% high class soils may have significantly more high class soil than a smaller property that has say 80% high class soils. The percentage rule doesn't practically achieve what it intends to. 		
Point Number	922.2		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.2 RD1 (a) (iv) General subdivision, as follows: <i>RD1 (a) Subdivision must comply with all of the following conditions:</i> ... <i>(iv) The additional lot must have a proposed area of between 8,000m2 4000m2 and 1.6 ha;</i>		
Decision Reasons:	<ul style="list-style-type: none"> A lot area range of 8000m2 - 1.6ha will result in a lifestyle block that is too large and will force developers to turn potentially productive farming paddocks into areas that will not be used for farming and become neglected. The best maintenance of open pasture (all classes of soils) is grazing animals. The lots created will be too small to be productive or grazed, yet they are too big to be easily managed as lifestyle properties. If a landowner is subdividing off an existing farm cottage, the house and curtilage area will be approximately 2000m2. This will result in at least 6000m2 of potentially productive farming land being wasted or not utilised. The high class soil rule will restrict this to some degree because an area of land is not classified as 'high class soil', it doesn't mean that it can't be used for productive purposes or add valuable support to a farming operation.

Council's Consent Planners should have the discretion of where these are required in accordance with the recommended matter of discretion. 		

Submitter Number:	982	Submitter:	Joanne & Kevin Sands
Point Number	982.5		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision		
Summary of Decision Requested	Add a new discretionary activity (D1) to Rule 22.4.1.2 General subdivision, as follows: <u>DI (a) General subdivision around an existing dwelling and associated curtilage that does not comply with Rule 22.4.1.2 (iv) RD1</u> <u>(b) General subdivision around established rural activities that does not comply with Rule 22.4.1.2 (iv) RD1</u>		
Decision Reasons:	<ul style="list-style-type: none"> This rule should enable a lot to be created around an existing dwelling and curtilage so that the farming regime can continue. This will avoid redevelopment of farm tracks and fencelines for a relatively small lot. There may be situations where it is appropriate to create a new lot that is less than 8000m2 or larger than 1.6ha which is consistent with objectives and policies. For lots smaller than 8000m2, it is only necessary to confirm that services can be provided. 		

- A farm management report may be provided that confirms productive rural capacity for any lot greater than 1.6ha and the balance lot.

Point Number 982.6
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision

Summary of Decision Requested **Delete** Rule 22.4.1.2 (a)(v) General subdivision;
 AND
Add a new matter of discretion to Rule 22.4.1.2 (b) General subdivision, as follows:
(vi) Effects on rural productivity and fragmentation of high class soils.

- Decision Reasons:**
- The section 32 analysis does not justify this rule.
 - The 80/20 percentage requirement may not result in the best layout, design or farming outcome.
 - Objectives and policies (5.1.1 and 5.2) and the expanded matters of discretion are sufficiently strong to avoid adverse outcomes on high class soils.
 - The rule will mean that every subdivision application will require a land use capability report to demonstrate compliance with the 80/20 percentage requirement which is costly and this should be discretionary rather than necessary.

Point Number 982.7
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision

Summary of Decision Requested **Retain** Rule 22.4.1.2 (a)(i-iii) General subdivision, as notified.

- Decision Reasons:**
- The submitter supports the inclusion of general subdivision provisions.

Point Number 982.8
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision

Summary of Decision Requested **Retain** Rule 22.4.1.2 (a)(iv) General subdivision, as notified.

- Decision Reasons:**
- The creation of an additional vacant lot between 8,000m2 and 1.6ha is supported.
 - The creation of any additional lot between 8,000 and 1.6ha as a restricted discretionary activity is supported.

Submitter Number: 985 **Submitter:** Neil Crispe
Organisation: Koch Farms Limited

Point Number 985.10
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision

Summary of Decision Requested **Add a new discretionary activity to Rule 22.4.1.2 General subdivision, as follows:**
DI
(a) General subdivision around an existing dwelling and associated curtilage that does not comply with Rule 22.4.1.2, (iv) RDI.
(b) General subdivision around established rural activities that does not comply with Rule 22.4.1.2, (iv) RDI.

- Decision Reasons:**
- General Subdivision creating a child lot around an existing dwelling, where a curtilage is established and farming regime is already in place on the balance lot, should be provided flexibility in lot size to ensure that the existing farming regime can continue.
 - Ensure the boundaries proposed are a practical outcome to ensure the most efficient ongoing management of the land and not meet an arbitrary rule. A lot size consistent with the established farming regime will avoid the redevelopment of farm tracks and fence lines to access what is a relatively small piece of land.
 - A discretionary rule should also be provided for lots less than 8,000m2 and greater than 1.6ha where they contain an existing dwelling. There may be site specific factors that create a unique situation that is conducive to the proposed lot size whilst remaining consistent with the objectives and policies.
 - For lots smaller than 8000m2, it is only necessary to confirm the provision of services within the lot boundaries.
 - Lots greater than 1.6ha may need an assessment with respect to the productive potential of the land. If the land comprises existing curtilage around the house then the lot will not result in any unreasonable effects with respect to the productive potential of the balance land. If the land comprises productive potential, then a Farm Management report should be provided to demonstrate that the both the proposed lot and the balance lot are sized to ensure rural land uses continue to predominate.
 - Creation of lots should be provided for that accommodate existing and well-established rural activities where these are of a viable, sustainable and permanent nature, and it is appropriate for these to be subdivided from other rural activities on the site.

Point Number 985.11
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.2 General subdivision

Summary of Decision Requested **Delete** Rule 22.4.1.2(a)(v) General Subdivision (80/20 Rule);
 AND
Add new matters of discretion to Rule 22.4.1.2(b) General subdivision, as follows:
(vi) Effects on rural productivity and fragmentation of high class soils.

- Decision Reasons:**
- There is no analysis in the s32 regarding this relevance or practicality of this rule.
 - The submitter agrees with the intent of this rule which is to design subdivision to avoid fragmentation of the high class soils. However, the strict and arbitrary 80/20 requirement of this rule though may not necessarily result in the best layout, design or farming outcome for the site.
 - The objectives and policies (5.1.1, 5.2) give primacy to the protection of high class soils. In addition to the objectives and policies (5.2), the submitter would like to see matters relating to the retention of high class soils and the maintenance of productivity/farming systems addressed as a matter of discretion for the General Subdivision provisions. The strength of the objectives and policies together with expanded matters of discretion are sufficiently strong to ensure adverse outcomes on high class soils are avoided.
 - The requirement to demonstrate the 80/20 split will result in the necessary inclusion of Landuse Capability Reporting with even subdivision application under the general provisions to demonstrate that this exact figure is met. This becomes an additional compliance cost that does not necessarily result in a better environmental outcome. Council's Consent Planners should have the discretion of where these are required in accordance with the recommended matter of discretion.

Point Number	171.4		

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation
Summary of Decision Requested	Amend Rule 22.4.1.4 (RD1) Boundary Relocation to ensure that a boundary relocation can occur in relation to the submitter's property in McWatt Road, where the smallest title is 9965m2 and the two titles are currently separated by an unformed paper road (see screen shot attached to submission).
Decision Reasons:	<ul style="list-style-type: none"> The submitter's smallest title on 130 McWatt Road is separated from our other nearest title by way of a paper road. The location of the paper roads will make development of this smallest site difficult, particularly given the building setback requirements from roads for habitable buildings. As a result, the submitter is seeking that the boundary relocation provisions be adjusted to enable them to relocate the boundaries between the smallest title and the next closest title, notwithstanding that there is currently a paper road separating the two titles. The submitter will approach the Council about potentially stopping one part of the paper road.

Submitter Number:	276	Submitter:	Ted and Kathryn Letford
Point Number	276.13		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation		
Summary of Decision Requested	Amend Rule 22.4.1.4 RD1 (a)(iv) Boundary relocation, for the lots to be smaller than 8000m2. AND Retain the absence of the requirement for boundary relocation titles to be held in common ownership in Rule 22.4.1.4 Boundary relocation.		
Decision Reasons:	<ul style="list-style-type: none"> Rural farmers do not want to lose too much land, but want ability for smaller blocks. Support removing requirement for boundary relocation titles to be held in common ownership, which is an improvement on the Operative District Plan. 		

Submitter Number:	323	Submitter:	Dorothy Chipman
Point Number	323.1		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation		
Summary of Decision Requested	No specific decision sought, but submission states support in part for rule 22.4.1.4 Boundary relocation and expresses desire to be able to relocate a boundary within one farming property from the Waikato area to the Franklin area.		
Decision Reasons:	<ul style="list-style-type: none"> Submitter has 3 titles adjacent to each other, 2 covered under the Waikato and 1 under the Franklin District Council. Would like to move a title which can be created from the Waikato area to the Franklin area. Have gone to considerable unnecessary expense to try and relocate the extra title to the Franklin area. Will allow retention of a large land holding more suitable for productive farming by keeping titles in a small rural hamlet together and leaving remaining titles in a productive farming enterprise and make landholdings larger. Unfairly restrained by boundary relocation due to being situated over 2 differing councils with a paper road bisecting the property. There will be a definite advantage in keeping productive soils from subdivided by keeping land together under a boundary relocation. 		

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.159		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation		
Summary of Decision Requested	No specific decision sought, however submission refers to Rule 22.4.1.4 Boundary relocation.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	332	Submitter:	Gwyneth & Barrie Smith
Point Number	332.10		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation		
Summary of Decision Requested	Retain Rule 22.4.1.4 Boundary relocation, except for the amendments sought below AND Amend Rule 22.4.1.4 Boundary Relocation as follows: RD1 (a) <i>The boundary relocation must:</i> (i) <i>Relocate a common boundary or boundaries between two <u>or more</u> existing Records of Title <u>or consented lots</u> that existed prior to 18 July 2018;</i> ... (b) <i>Council's discretion is restricted to the following matters:</i> ... (i) <i>effects on high class soils, farm management and productivity.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Support the inclusion of boundary relocation provisions and flexibility to allow large rural landholdings to provide a logical lot arrangement that supports farming activities. Boundary relocations typically result in positive effects through the enhancement of the farming system and allows for the relocation of house sites to favourable locations. Seek that provision be made for the relocation of the boundaries of adjacent consented lots and records of title held in common ownership as per the Franklin section of the Operative District Plan. Consider the retention of the date, 18 July 2018 is appropriate and will allow for scrutiny of those records of title and consented lots created under the Transferable and Environmental Lot rules of the previous sections of the district plan. Consider it appropriate to include a matter of discretion to acknowledge the effects on high class soils, farm management and productivity in combination with the objectives and policies within Chapter 5 to provide a robust framework to ensure adverse effects on high class soils are avoided.

OR

Add a clause to Rule 22.4.1.4 (a) (iv) Boundary relocation, enabling boundary relocation for pre-existing lots smaller than 8,000m2 that have been created via compliance with the Operative District Plan- Franklin section in the event that the reduction of the minimum lot size of 2,500m2 is not accepted.

Decision Reasons:

- Under the current Operative Waikato District Plan Franklin Section there is provision for lot size of down to 2,500m2 in the Rural Zone therefore, by imposing a minimum lot size requirement of 8,000m2 for lots resulting from boundary relocation it would preclude lots less than 8,000m2 that have been created under the current Franklin section of the District Plan from being able to undertake boundary relocation subdivision in the future.
- A minimum lot size of 8,000m2 will only serve to fragment Rural land and potentially designate productive land for inappropriate use in large Residential lots.
- For many people, 8,000m2 is not a manageable sized lot and rural usage of the land within many 8,000m2 lots will not be utilised to its full potential.
- This will not promote efficient rural usage and jeopardises Policy 5.2.2 of the Proposed District Plan.
- The Regional Council has a 2,500m2 minimum in the Rural Zone which should be considered and implemented when designating the minimum lot area so as to minimise urban sprawl and best maintain and enable efficient usage of Rural land resources in the District.

Decision Reasons:

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation		
Summary of Decision Requested	Amend Rule 22.4.1.4 RD1 (a)(i) Boundary relocation, as follows: (i) Relocate a common boundary or boundaries between two <u>or more</u> Records of Title that existed prior to 18 July 2018; AND Any consequential amendments necessary.		
Decision Reasons:	<ul style="list-style-type: none"> Boundary relocations between more than two Records of Title will be necessary from time to time. There is no reason why boundary relocations should not be able to occur between Records of Title that are created after 18 July 2018. 		
Point Number	471.28		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation		
Summary of Decision Requested	Amend Rule 22.4.1.4 Boundary relocation, so that a subdivision activity that fails a rule defaults to either a restricted discretionary activity or discretionary activity at worst. AND Any consequential amendments necessary.		
Decision Reasons:	<ul style="list-style-type: none"> Non-complying activities should be strategically used where subdivision is generally discouraged. Having all rule non-compliances (no matter how minor) default to a non-complying activity is not good planning practice. The submitter states that a restricted discretionary activity is entirely appropriate and that a discretionary activity should be considered 'at worst'. 		

Submitter Number:	489	Submitter:	Ann-Maree Gladding
Point Number	489.3		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation		
Summary of Decision Requested	Delete Rule 22.4.1.4 RD1 (a)(i) Boundary relocation; OR Amend Rule 22.4.1.4 RD1 Boundary relocation, to allow for more than two existing titles and allow for boundary adjustments to titles created after 18th July 2018.		
Decision Reasons:	<ul style="list-style-type: none"> Many landholdings in the Waikato District are made up of several titles and the proposed Boundary Relocation and Rural Hamlet rules will restrict logical 		

layouts that are usually site specific to particular rural properties. Boundary adjustments are a legitimate way to adjust legal boundaries to facilitate access to the land and soil resource, all that generally changes is lines on the title plan and nothing physical on the actual site, the potential for adverse effects are generally minimal.

- The assumption is that the intent of Rule (a) (i) is to prevent making new Conservation lots or the additional title created from the General subdivision rule that is larger. The trouble is that this intent will now potentially restrict or make boundary adjustments tougher for larger rural blocks that may have a title created after 18 July 2018. These newer titles could have been subject to another minor boundary adjustment or could be the larger balance lot of a General Subdivision application. The submitter does not think that a further boundary relocation of these larger lots should be a discretionary activity as it then becomes too restrictive on these larger land holdings that may be relocating boundaries for legitimate reasons. Rule (a) (i) does not recognise the legitimate need to adjust rural lot boundaries to support rural land use and create a better environmental outcome, it also doesn't allow for the logical restructure of landholdings with more than two existing larger titles.

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation		
Summary of Decision Requested	Retain Rule 22.4.1.4 RD I Boundary relocation to the extent that there is no longer the requirement for boundaries subject to this rule to be under the same		

ownership, except for the amendments sought below

AND

Amend Rule 22.4.1.4 RD1(a)(iv) Boundary relocation as follows:

(iv) Create one lot of at least ~~82,000~~2 in area.

Decision Reasons:

- Amend this rule so that it aligns with the amendments sought within Rule 22.4.1.2 RD1.
- The amendment sought will enable greater flexibility for rural subdivision and allow retiring farmers to retain their rural lifestyle without the more onerous maintenance requirements.

Submitter Number: 680 **Submitter:** Federated Farmers of New Zealand

Point Number 680.238

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation

Summary of Decision Requested **Amend** Rule 22.4.1.4 RD1 Boundary relocation from Restricted Discretionary Activity status to a Controlled Activity status in the Rural Zone.

AND

Amend Rule 22.4.1.4 RD1 (b) Boundary relocation, as follows:

(b) ~~Council's discretion is restricted reserves control over~~ to the following matters:

(i) ~~Amalgamation of land subdivision layout and design including dimension, shape and orientation of the proposed lots;~~

(ii) ~~Any change in vehicle access from a road as a result of the proposed new lot boundaries effects on rural character and amenity values;~~

(iii) ~~Easements effects on landscape values; and~~

(iv) ~~Potential for reverse sensitivity effects.~~

AND

Any consequential changes needed to give effect to this relief.

AND

Any consequential amendments to Chapter 23: Country Living Zone to address areas of existing farmland zoned as Country Living Zone.

Decision Reasons:

- There is a continuing need to provide for subdivision such as boundary adjustments and amalgamations, in order to provide for efficient property management.
- The risk to the environment from subdivision for boundary relocation is low because no new lots are being created and there is no overall intensification of land use. Therefore, there is no need to manage boundary relocation as a restricted discretionary activity, and that boundary relocation can, and should be, dealt with via controlled activity status and appropriate matters of control.

Submitter Number: 683 **Submitter:** Carolyn Watson

Point Number 683.1

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation

Summary of Decision Requested **Retain** Rule 22.4.1.4 Boundary relocation and the flexibility to allow rural properties to rationalise large landholdings to provide a logical lot arrangement that better supports the farming activity, except for the amendments sought below;

AND

Amend Rule 22.4.1.4 RD1(a)(i) Boundary relocation, as follows:

(a) ~~The boundary relocation must:~~

(i) ~~Relocate a common boundary or boundaries between two or more existing Records of Title or consented lots that existed prior to 18 July 2018;~~

Decision Reasons:

- Many farms in the district are held in multiple Records of Titles which have the ability to be relocated.
- The boundary relocation rule should reflect the operative Franklin Section rule which enables an existing title or consented lot to be relocated within a property or, alternatively, within properties where boundaries are shared and are in common ownership. These types of boundary relocations typically result in positive effects by enhancing the productive farming system and allowing for the relocation of potential house sites to more favourable locations.
- Rural boundary relocations are typically undertaken where land is exchanged between two Records of Title to accommodate the existing farming activity, or when a farmer owns multiple titles and wants to create a small rural lot for a dwelling and hold the balance of the farm in one Record of Title.

Point Number 683.2

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation

Summary of Decision Requested **Add** a new matter of discretion to Rule 22.4.1.4 RD1(b) Boundary relocation, as follows:

(b) ~~Council's discretion is restricted to the following matters:~~

...

(v) ~~effects on high class soils, farm management and productivity.~~

Decision Reasons:

- The relocation of a lot created under the transferable development right rules in the operative Franklin Section from an area that does not contain high class soils to an area that does contain high class soils would create an adverse outcome. The requested matters of discretion would work with the proposed objectives and policies in Chapter 5 (Rural Environment) to provide a robust framework to ensure that adverse effects on high class soils are avoided.

Submitter Number: 686 **Submitter:** Reid Crawford Farms Limited

Point Number 686.18

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation

Summary of Decision Requested **Retain** Rule 22.4.1.4 Boundary relocation as notified, except for amendments sought below;

AND

Amend Rule 22.4.1.4 Boundary Relocation, as follows:

(a) *The boundary relocation must:*

(i) Relocate a common boundary or boundaries between two or more existing Records of Title or consented lots that existed prior to 18th July 2018.

(b) Council's discretion is restricted to the following matters:

....

(v) Effects on high class soils, farm management and productivity.

Decision Reasons:

- Support inclusion of boundary relocations and flexibility to allow rural properties to rationalise large landholdings to provide logical lot arrangement that better support the farming activity.
- Rural boundary relocations typically result in positive effects through enhancement of the productive farming system and allowing relocation of potential house sites to more favorable locations.
- Many farms in the district held in multiple Records of Title and have ability to relocate boundaries and create General and Conservation Lots under proposed provisions.
- Submitter would like to see provision made for relocation of the boundaries of adjacent consented lots and Records of Title in the Franklin Section of the District Plan (22.B.15.1).
- Consider retention of the date 18 July 2018 as appropriate, as this would allow for closer scrutiny and a higher activity status for those Records of Title and consented lots created under the Transferable and Environmental lot rule of the previous section of the District Plan which had restrictions on size.
- Relocation of a lot created under the previous Transferable Lot Rules from an area containing no high class soils to a high classed soil area would create an adverse outcome.
- Inclusion of high class soils a matter of discretion together with proposed objectives and policies in Chapter 5 (Rural Environment) would give council a robust framework to avoid adverse effects on high class soils.

Waikato District Council

Point Number

697.827

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation

Summary of Decision Requested

Amend Rule 22.4.1.4 Boundary relocation, as follows:

(a) *The boundary relocation must:*

(i) Relocate a common boundary or boundaries between two existing viable Records of Title. ~~that existed prior to 18 July 2018;~~

(ii) The Records of Title must form a continuous landholding;

(iii) Not result in any additional lot;

(iv) ~~Create one lot of~~ All lots created by the subdivision must be at least 8,000m² in area.

(b) Council's discretion is restricted to the following matters:

(i) subdivision layout and design including dimension, shape and orientation of the proposed lots;

(ii) effects on rural character and amenity values;

(iii) effects on landscape values; ~~and~~

(iv) potential for reverse sensitivity effects; and

(v) Fragmentation and usability of land for rural purposes.

Decision Reasons:

- Rule 22.4.1.4 requires qualifying records of title to be "viable". A definition has been proposed for this. In respect to condition (a)(iv) it requires re-worded to ensure that all lots created by the subdivision are at least 8,000m².
- Matter of discretion (v) has been added to ensure that applications assess the fragmentation and usability of land for rural purposes as part of their applications.

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation

Summary of Decision Requested

Amend Rule 22.4.1.4- Boundary relocation as follows:

(a) *The boundary relocation must:*

(i) Relocate a common boundary or boundaries between two or more existing Records of Title or consented lots that existed prior to 18 July 2018.

Decision Reasons:

- Boundary relocation provisions support flexibility to allow rural properties to rationalise large landholdings to provide a logical lot arrangement that better supports the farming activity.
- Boundary relocations typically result in positive effects through the enhancement of the productive farming system and allow for the relocation of potential house sites to more favourable locations.
- Many farms in the District are held in multiple Records of Title, and have the ability to relocate boundaries and create General and Conservation Lots under the proposed provisions.
- The submitter would like to see provision made for the relocation of the boundaries of adjacent consented lots and Records of Title held in common ownership as per the Franklin Section of the District Plan
- Retention of the date, 18 July 2018 is appropriate as it would allow for closer scrutiny and a higher activity status for those Records of Title and consented lots created under the Transferable and Environmental Lot rules of the previous sections of the District Plan which had restrictions on size.

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation
Summary of Decision Requested	Add a new matter of discretion to Rule 22.4.1.4-Boundary relocation as follows: <i>Effects on high class soils, farm management and productivity.</i>
Decision Reasons:	<ul style="list-style-type: none"> Relocation of a lot created under the previous Transferable Lot Rules from an area that contained no high class soils to high class soils would create an adverse outcome. The inclusion of high class soils as a matter of discretion together with the proposed objectives and policies in Chapter 5 (Rural Environment), would provide Council with a robust framework to ensure that adverse effects on high class soils were avoided.

Point Number	751.50		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation		
Summary of Decision Requested	Amend Rule 22.4.1.4 RD1 (a) (i) Boundary relocation as follows: (a) <i>The boundary relocation must:</i> (i) <i>Relocate a common boundary or boundaries between two or more existing Records of Title or consented lots that existed prior to 18 July 2018.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Support the inclusion of boundary relocation provisions to support and allow rural properties to rationalise large landholdings. Rural boundary relocation typically is undertaken where land is exchanged between two Records of Title to accommodate the existing farming activity or when a farmer owns multiple titles and wants to create a small rural lot for a dwelling and hold the balance of the farm in one Record of Title. Boundary relocation typically result in positive effects on productive farming systems. The submitter would like to see provision made for the relocation of the boundaries of adjacent consented lots and Records of Title held in common ownership as per the Franklin Section of the Operative District Plan. Consider the retention of the date 18 July 2018 to be appropriate to allow for closer scrutiny and a higher activity status for those Records of Title and consented lots created under the Transferable and Environmental Lot rules of the previous section of the District Plan which had restrictions on size.

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation		
Summary of Decision Requested	Add a new matter of discretion to Rule 22.4.1.4 RD1 (b) as follows: <i>(v) Effects on high class soils, farm management and productivity.</i>		
Decision Reasons:	This will provide Council with a robust framework to ensure adverse effects on high class soils are avoided.		

Submitter Number:	782	Submitter:	Jack Macdonald
Point Number	782.3		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation		
Summary of Decision Requested	Delete Rule 22.4.1.4 (a)(i) Boundary relocation. OR Amend Rule 22.4.1.4 (a)(i) Boundary relocation to allow application of this rule to more than two existing Records of Title.		
Decision Reasons:	<ul style="list-style-type: none"> The rule needs to allow for two or more existing titles as many landholdings in the Waikato District are comprised of several titles and the proposed rule will therefore restrict logical layouts. Titles created after 18 July 2018 may be the result of a minor boundary adjustment or the balance of a general subdivision application and it is unreasonable to a discretionary activity test to apply in this instance if rural land use is to be supported and better environmental outcomes achieved. Boundary relocations are a legitimate way to adjust legal boundaries and the potential adverse effects of moving a boundary or title are generally minimal. The assumption is that the intent of Rule (a)(i) is to prevent making new conservation lots or the additional title created from the General subdivision rule, larger in size. This intent will now potentially restrict or make boundary adjustments tougher for larger rural blocks that may have a title created after 18 July 2018 for whatever reason. These newer titles could have been subject to another minor boundary adjustment or could be the larger balance lot of a General subdivision application. The submitter does not think that a further boundary relocation of these larger lots should be a discretionary activity as it then becomes too restrictive on larger land holdings that may be relocating boundaries for legitimate reasons. Rule (a)(i) does not recognise the legitimate need to adjust rural lot boundaries to support rural land use and create a better environmental outcome. It also doesn't allow for the logical restructure of landholdings with more than two existing larger titles. It also doesn't allow for the logical restructure of landholdings with more than two existing larger titles. What if the two titles subject to the boundary relocation are less than 8000m2 to begin with?

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation		
Summary of Decision Requested	Delete Rule 22.4.1.4 Boundary relocation; AND Add more enabling provisions as a replacement. AND Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> To enable appropriate subdivision. 		

Submitter Number:	838	Submitter:	Madsen Lawrie Consultants
--------------------------	-----	-------------------	---------------------------

Point Number	838.10
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation
Summary of Decision Requested	Amend Rule 22.4.1(a)(iv) Boundary relocation to reduce the minimum lot size resulting form boundary relocation to at least 4,000m2, if not 2,500m2. OR Amend Rule 22.4.1.4(a)(iv) Boundary relocation to include a specific clause enabling boundary relocation for pre-existing lots smaller than 8,000m2 that have been previously created via compliance with the Franklin Section of the Operative Waikato District Plan.
Decision Reasons:	<ul style="list-style-type: none"> Under the Operative Waikato District Plan Franklin Section, there is provision for lot size of down to 2,500m2 in the Rural Zone. By imposing a minimum lot size requirement of 8,000m2 for lots resulting from boundary relocation it would preclude lots smaller than 8,000m2 that have been created under the current Franklin section of the Operative District Plan from being able to undertake boundary relocation subdivision in the future. A minimum lot size of 8,000m2 will only serve to fragment rural land and potentially designate productive land for inappropriate use in large residential lots. 8,000m2 is not a management sized lot and rural usage of the land will not be utilised to its full potential.
Point Number	838.24
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation
Summary of Decision Requested	Amend Rule 22.4.1.4(a)(i) Boundary relocation to remove specification of a date for titles undergoing the boundary relocation.
Decision Reasons:	<ul style="list-style-type: none"> Imposing a specific date that the titles undergoing boundary relocation have to have been issued before is an excessive restriction and constraints of this level are not appropriate for boundary relocation. It is unclear as to what will be achieved by the imposition of such a date.

Submitter Number:	877	Submitter:	Leigh Michael Shaw & Bradley John Hall
Point Number	877.21		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation		
Summary of Decision Requested	Retain Rule 22.4.1.4 Boundary relocation, except for the amendments sought below. AND Amend Rule 22.4.1.4 RD1 Boundary relocation as follows: 22.4.1.4 Boundary relocation or Adjustment (a) The boundary relocation or adjustment must: (i) Relocate a common boundary or boundaries between two or more existing Records of Title that existed prior to 18 July 2018. (ii) no additional potential for permitted activity dwellings and no additional subdivision potential is created beyond that which already existed prior to the subdivision occurring. The Records of Title must form a continuous landholding. (iii) The boundary relocation or adjustment must not result in the creation of additional titles. Not result in any additional lot. (iv) Create one lot of at least 8000m2 in area.		
Decision Reasons:	<ul style="list-style-type: none"> The submitters support the inclusion of boundary relocation provisions and support flexibility to allow rural properties to rationalise large landholdings to provide a logical lot arrangement that better supports the farming activity. The rule should also recognise that land is exchanged between two Records of Title to accommodate the existing farming activity (one farmer may be leasing land from another and they wish to formalize this arrangement), or when a farmer owns multiple titles and wants to create a small rural lot for a dwelling and hold the balance of the farm together in one Record of Title Boundary relocations or adjustments typically result in positive effects through the enhancement of the productive farming system and allows for the relocation of potential house sites to more favourable locations It may be necessary to create multiple lots and hold them in one Record of Title The use of the date is inappropriate, as this would allow for closer scrutiny and a higher activity status for no apparent benefit.

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.4 Boundary relocation
Summary of Decision Requested	No specific decision sought, but submission states: This rule prevents, as a Restricted Discretionary activity, the common need to relocate an approved but not issued small allotment (8000m ² to 1.6ha) created by subdivision to another part of a farm and record of title that is continuous. Where for example, a farm is held in three continuous titles two of which are under 20ha and cannot be subdivided. The larger title is subdivided and consent is granted to create the small lot and the balance land. The small lot prior to issuance of a title should simultaneously be able to be relocated to the third and continuous title. The third might contain low quality soils so the parent larger lot retains the benefit of the land area (that may well be High Quality Soils) or is relocation within the land holding being better suited to a small lot such as being remote from the centre of farm operations.
Decision Reasons:	<ul style="list-style-type: none"> No reason provided.

Plan chapter: Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.5 Rural Hamlet Subdivision

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.171		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.5 Rural Hamlet Subdivision		
Summary of Decision Requested	Add to Rule 22.4.1.5 (b) Rural Hamlet Subdivision the matters of discretion to include the availability of water supply, wastewater services and stormwater management.		
Decision Reasons:	<ul style="list-style-type: none"> There is no assessment criteria relating to water supply, wastewater services and stormwater management. This should be included to promote the integration of infrastructure and land use and subdivision, giving effect to WRPS Policy 6.3. 		
Point Number	81.173		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.5 Rural Hamlet Subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.5(v) Rural Hamlet Subdivision to provide for a minimum 40ha balance lot.		
Decision Reasons:	<ul style="list-style-type: none"> A threshold set at 20 ha has the effect of increasing the area of land within the district for which subdivision may be permitted, thus increasing the potential for more fragmentation of rural land (and high class soils) than would otherwise be the case (with a 40 ha threshold). It may also lead to more diffuse rural residential development. This is inconsistent with policy 5.2.3(a) of the Proposed Plan around minimising the fragmentation of productive rural land. 		

Submitter Number:	106	Submitter:	Bruce and Dorothy Chipman
Point Number	106.10		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.5 Rural Hamlet Subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.5 Rural Hamlet Subdivision as follows: <i>(a) Subdivision to create a Rural Hamlet must comply with all of the following conditions:</i> ... <i>(iii) Each proposed lot has a minimum area of <u>5,000m²</u> 8,000m².</i> <i>(iv) Each proposed lot has a maximum area of <u>1.0ha + 4ha</u>.</i> <i>(b) Council's discretion is restricted to the following matters:</i> ... <i>(vi) <u>Effects on rural productivity and fragmentation of high class soils.</u></i>		
Decision Reasons:	<ul style="list-style-type: none"> Allow for relocation of consented General Lots within a continuous landholding as part of a Rural Hamlet, where farmers have multiple titles. Would have positive outcomes through the provision of shared infrastructure and maintenance of the production systems. It will limit the wide dispersal of lots and enable subdivision layout to account for effects from intensive farming or mineral extraction activities. Rural hamlets can be difficult to achieve in reality and hamlet design needs to specifically respond to the site circumstances and it may be more appropriate to have smaller size lots to ensure the benefits of Hamlet design are achieved. 		

- The design guide should ensure that a response to the landscape context is more important than meeting performance standards relating to lot size and should allow for a reduction in the lot size.
- Rural Character and amenity values will be maintained by the 20ha + balance surrounding the Hamlet.
- Five lots at 1.6ha would take up 8ha of land and would visually result in dispersed rural housing and not a Hamlet and would result in a loss of productive land.

489.13

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.5 Rural Hamlet Subdivision

Summary of Decision Requested

Amend Rule 22.4.1.5 NC1 Rural Hamlet Subdivision, to become a discretionary activity if Rules 22.4.1.5 RD1 (a)(i-v) are not met rather than a non-complying activity status.

Decision Reasons:

- Making a rural subdivision application a Non-Complying activity for creating a better overall result for that particular environment is too restrictive and needs to at least become a Discretionary activity.
- The submitters are currently working on a subdivision where they are restructuring eight existing contiguous titles on a large landholding. The title structure is currently very untidy with titles made up of various parcels at other ends of the property. They will be relocating the titles around existing development on the property or locations that will have least effect on the rural landscape, whilst trying to preserve a larger balance for rural production; they are simply bringing some logical structure to the landholding. This same application would be a non-complying application under the proposed rules, which does not seem right.
- In some cases (like the above), it may also be better and cleaner to have two large balance lots say if they are over 100 hectares in size. This rule needs rethinking, as the submitter does not think it will work as well as it could do 'on the ground'. This rule is only going to work effectively on a small minority of rural properties, especially in the upper Waikato District.

Point Number

489.4

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.5 Rural Hamlet Subdivision

Summary of Decision Requested

Amend Rule 22.4.1.5 RD1 (a)(i) Rural Hamlet Subdivision to remove the maximum number of titles (5) that can be proposed for the subdivision.

AND

Amend Rule 22.4.1.5 Rural Hamlet subdivision to be a more workable approach.

Decision Reasons:

- The current draft Rural Hamlet subdivision rule will not be a workable provision for better restructuring existing titles on many rural properties, especially larger landholdings.
- The rural zone varies drastically throughout the district from open flat countryside predominantly used for dairy farming, to more undulating hilly terrain with scattered mature vegetation predominantly used for dry-stock farming. Often, the most logical subdivision layout on rural properties that preserve the largest area of land for productive purposes and have the least potential for adverse effects on the surrounding environment, are influenced by site specific characteristics such as topography, vegetation, road frontage and existing built development on that particular property. In an ideal world, all new lots clustered together as a hamlet styled subdivision would be great but (unlike the residential zoned land) planning ideology such as the proposed only works on a small minority of the rural zoned land in the District and provision or more desecration needs to be allowed for to cater for these other landholdings.

- In the rural environment especially in the upper Waikato, these physical restraints greatly restrict such a logical layout. Often it may be a far better result for that particular environment to position the existing titles around existing development on the property or at other ends of the property from each other, which could be kilometres apart and accessed off different public roads.

Point Number	697.828		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.5 Rural Hamlet Subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.5 RD1(a) Rural Hamlet Subdivision, as follows: <p>(a) <i>Subdivision to create a Rural Hamlet must comply with all of the following conditions:</i></p> <p>(i) <i>It results in a <u>single cluster of 3 to 5</u> proposed lots being clustered together;</i></p>		

- (iii) All existing Records of Title form one continuous landholding;
- (iii) Each proposed lot has a minimum area of 8,000m².
- (iv) Each proposed lot has a maximum area of 1.6ha;
- (v) The proposed balance lot has a minimum area of 20ha; and
- (vi) It does not create any additional lots beyond the number of existing viable Records of Title.

Decision Reasons:

- Providing the wording "a single cluster of" makes it clear to the applicant that proposed lots must be clustered together.

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.110		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.5 Rural Hamlet Subdivision		
Summary of Decision Requested	<p>Amend Rule 22.4.1.5 RD1 (a)-Rural Hamlet Subdivision to allow for the relocation of consented lots to ensure lots can be clustered within a Hamlet and reduce the lot size requirements to ensure from a visual, character and farming perspective that a Rural Hamlet is achieved. The amendments sought are as follows:</p> <p>(a) Subdivision to create a Rural Hamlet must comply with all of the following conditions:</p> <p>(i) It results in 3 to 5 proposed lots being clustered together;</p> <p>(ii) All existing Records of Title <u>and/or consented lots</u> form one continuous landholding;</p> <p>(iii) Each proposed lot has a minimum of 8,000 5,000m²;</p> <p>(iv) Each proposed lot has a maximum area of 1.6ha;</p> <p>...</p> <p>AND</p> <p>Amend the matters of discretion in Rule 22.4.1.5 RD1 (b)- Rural Hamlet Subdivision as follows:</p> <p>(b) Council's discretion is restricted to the following matters:</p> <p>(i) subdivision layout and design including dimension, shape and orientation of the proposed lots <u>and specified building areas</u>;</p> <p>...</p> <p><u>(vii) effects on rural productivity and fragmentation of high class soils.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports subdivision provisions for Hamlet subdivision in the Rural Zone. When designed well positive benefits of Rural Hamlets include shared infrastructure, improved and enhancement of the productive farming system, and providing housing and lifestyle choices within the District. • The submitter seeks the inclusion of consented lots, including General and Conservation Lots, in the Hamlet provisions. This would have positive outcomes through the provision of shared infrastructure, enhancement of the production systems. It would also limit the wide dispersal of lots and enable subdivision layout to account for effects from intensive farming or mineral extraction activities. • Rural Hamlets can be difficult to achieve in reality and Hamlet design needs to specifically respond to the site circumstances and it may be more appropriate to have smaller size lots to ensure the benefits of Hamlet design are achieved. The purpose of Rural Hamlets is to allow for compact design within a rural setting, dwellings within a Hamlet borrow their rural character and amenity from adjoining rural production land. • Five lots at 1.6ha would take up 8ha of land and would visually result in dispersed rural housing, not a Hamlet. The Hamlet provisions should ensure that a response to the landscape context is more important than meeting performance standards relating to lot size and should allow for a reduction in the lot size. • Rural character and amenity values will be maintained by the over 20ha balance lot surrounding the Hamlet.

Summary of Decision Requested	Amend Rule 22.4.1.5 (v)- Rural Hamlet Subdivision to provide for a minimum 40ha balance lot.
Decision Reasons:	<ul style="list-style-type: none"> This is inconsistent with Policy 5.2.3 (a)- Effects of subdivision and development on soils around minimising fragmentation of productive rural land.

Submitter Number:	938	Submitter:	Neil and Linda Porritt
Point Number	938.2		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.5 Rural Hamlet Subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.5 Rural Hamlet Subdivision, as follows: RD1 (a) Subdivision to create a Rural Hamlet must comply with all of the following conditions: (i) It results in 3 to 5 proposed lots being clustered together; (ii) All existing Records of Title form one continuous landholding; (iii) Each proposed lot has a minimum area of 8,000 5,000m² ; (iv) Each proposed lot has a maximum area of 1.6ha; (v) The proposed balance lot has a minimum area of 20ha; and (vi) It does not create any additional lots beyond the number of existing Records of Title. (b) Council's discretion is restricted to the following matters: (i) subdivision layout and design including dimension, shape and orientation of the proposed lots; (ii) effects on rural character and amenity values; (iii) effects on landscape values; (iv) potential for reverse sensitivity effects; (v) extent of earthworks including earthworks for the location of building platforms and access ways. D1 Rural Hamlet Subdivision that does not comply with Rule 22.4.1.5 RD1, conditions (a)(ii)-(iv). NC1 Rural Hamlet Subdivision that does not comply with Rule 22.4.1.5 RD1, condition (a)(i).		
Decision Reasons:	<ul style="list-style-type: none"> Proposed Rule 22.4.1.5 will serve the relevant objectives and policies of the plan better if the conditions for Restricted Discretionary subdivision are more versatile in terms of the maximum number of clustered lots and the minimum lot size. (conditions (a)(i) and (iii)). The Rule will operate more effectively if a subdivision that does not comply with conditions RD1 (a)(ii)-(vi) is considered as a Discretionary activity. 		

Submitter Number:	943	Submitter:	McCracken Surveys Limited
Point Number	943.41		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.5 Rural Hamlet Subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.5 (a)(i) and (iii) - Rural Hamlet Subdivision, to clarify to confirm that to meet the proposed rule, six existing continuous Records of Title can be relocated to allow for the maximum 5 small lots between 8000m ² and 1.6 Ha and one balance allotment greater than 20 Ha AND Amend the heading of Rule 22.4.1.5 - Rural Hamlet Subdivision as follows: 22.4.1.5 Rural Hamlet Boundary Relocation Subdivision		
Decision Reasons:	<ul style="list-style-type: none"> The rule appears to limit the potential multiple relocation of existing titles to 5 titles. Three to five lot clustering is not consistent with the potential number of Records of Title that can be relocated over time and eventually each contains a dwelling. 		
Point Number	943.68		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.5 Rural Hamlet Subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.5 RD1 (i) and (iii) Rural Hamlet Subdivision to enable up to 8 Records of Title to be relocated to form an 8 Lot cluster and the minimum lot size reduced to 5,000m ² or less.		
Decision Reasons:	<ul style="list-style-type: none"> Up to 8 Records of Title can be relocated to form an 8 lot cluster and that the minimum lot area is reduced to 5000m² or less (more residential than lifestyle); Has the combined effect of creating a Hamlet that can reasonable be visually integrated in the rural environment subject to landscaping as well as provide an incentive for multiple title land owners to utilise available poor quality soil to locate the hamlets without a significant degree of inconsistency with rural objectives and policy. Provides an improved incentive for landowners with multiple titles not to construct a dwelling in each existing title and create scattered dwellings in the zone. There are ongoing technological advances in farming to lower costs and improve efficiencies to help offset productivity. The fact farmers are willing to subdivide land or relocate existing titles indicates that such cadastral changes do not have adverse effects on their farming operations and by extension the district productive nature of rural farmland.

Summary of Decision Requested	No specific decision is sought, but the submission opposes Rule 22.4.1.6 RDI(a) Conservation Lot Subdivision.		
Decision Reasons:	<ul style="list-style-type: none"> If the Waikato District Council is intent on defining a piece of the submitter's land as being of public interest, then those public benefits should be accounted for by a transaction. If perceived value of conservation lots are assessed on a per hectare basis, then the real ongoing costs and liabilities to landowners must be calculated and compensated on a per hectare basis. All conservation lots, regardless of size will require an ongoing commitment and liability to the landowners for maintenance and management. All Significant Natural Areas should be eligible for compensation which is in proportion to the size of the Significant Natural Area and its' conservation lot. Many landowners do not wish to subdivide their land, or their land is unsuitable for subdivision, therefore a subdivision incentive is not an option. Monetary compensation must be offered.

Point Number	276.15		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.6 RD1 (vi) and (vii) Conservation lot subdivision, to enable smaller lots.		
Decision Reasons:	<ul style="list-style-type: none"> • Support in principal. • The minimum lot size is too large at 8000m2. • Provision to cater for smaller lots should be available and will result in larger balance rural land blocks. 		

Submitter Number:	279	Submitter:	Robbie Bennett
Point Number	279.1		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.6 (a) (vi) Conservation lot subdivision to allow for a minimum lot size of 5,000m2.		
Decision Reasons:	<ul style="list-style-type: none"> • 5,000m2 lot size still retains rural character. • Subdivision of properties that contain indigenous vegetation need good incentive to protect, and 5,000m2 would encourage this. • There are properties west of Ngaruawahia, that often have a LUC of 4- 6e. Class 1-3e soils would still be protected. • The Country Living Zone allows for properties to have a minimum lot size of 5,000m2. • By allowing 5,000m2 there is more potential to support the rural communities , (in particular rural schools). • There are Rural Zoned properties on sealed roads within 10km of a township (eg Ngaruawahia). More rates to contribute to the maintenance of the roads. • The neighbouring council of Waipa allows for 5,000m2 which will mean Waikato District will be consistent with our neighbouring council.

Summary of Decision Requested	Retain Rule 22.4.1.6 Conservation lot subdivision, allowing an extra subdivision right to protect ecological areas and for the contiguous area to be determined by an experienced and suitably qualified ecologist.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	332	Submitter:	Gwyneth & Barrie Smith
Point Number	332.15		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision		
Summary of Decision Requested	Retain Rule 22.4.1.6 Conservation lot subdivision, except for the amendments sought below AND Amend Rule 22.4.1.6 Conservation lot subdivision as follows: RD1 (a) <i>The subdivision must comply with all of the following conditions:</i>		

(i) The lot must contain:

A. a contiguous area of existing Significant Natural Area either as shown on the planning maps or as determined by an experienced and suitably qualified ecologist which meets; or
B. a contiguous area to be enhanced and/or restored;

in accordance with the table below:

...

(ii) The area of Significant Natural Area or area to be enhanced and/or restored, is assessed by a suitably qualified person as satisfying at least one criteria in Appendix 2 (Criteria for Determining Significance of Indigenous Biodiversity);

(iii) The Significant Natural Area or area to be restored is not already subject to ~~a conservation covenant pursuant to the Reserves Act 1977 or the Queen Elizabeth II National Trust Act~~ legal protection.

(iv) The subdivision proposes to legally protect all areas of Significant Natural Area or area to be restored ~~by way of a conservation covenant pursuant to the Reserves Act 1977 or the Queen Elizabeth National Trust Act~~.

(v) An ecological management plan is prepared to address the ongoing management of the covenant protected area to ensure that the Significant Natural Area area to be protected is a self-sustaining and that plan:

A. Addresses fencing requirement for the covenant protected area;

B. Addresses ongoing pest plan and animal control;

C. Identifies any enhancement and/or restoration or edge planting required within the covenant area to be protected.

...

(b) Council's discretion is restricted to the following matters:

(i) Subdivision layout and proximity of building platforms to Significant Natural Area the area to be protected;

(ii) Matters contained in an ecological management plan for the covenant protected area;

(iii) Effects of the subdivision on localised rural character and amenity values;

(iv) Extent of earthworks including earthworks for the location of building platform and access ways;

(v) Mechanism of legal protection for the area to be protected.

DI

(a) Conservation lot subdivision around an existing dwelling and associated curtilage that does not comply with Rule 22.4.1.6(vi-vii) RD1.

(b) Conservation lot subdivision around established rural activities that does not comply with Rule 22.4.1.6(vi-vii) RD1.

...

Decision Reasons:

- Support the incentivisation of legally and physically protecting Significant Natural Areas and other areas of existing biodiversity.
- There is no provision for ecological enhancement and/or restoration in the Conservation Lot Rule. The Proposed District Plan should be enabling or improving both biodiversity and water quality within the Waikato Catchment and incentivising/restoring areas that meet one or more criteria outlined in Appendix 2.
- Incentivising through subdivision would assist in offsetting the cost of enhancing and restoring.
- Seeks the inclusion of provisions that enable ecological enhancement and/or restoration of appropriate areas to be included in the Conservation Lot Subdivision rules. This includes appropriate features as noted in Appendix 2 of the Proposed District Plan or areas identified as Significant Natural Areas that do not meet the minimum size requirements for subdivision without additional enhancement and/or restoration planting. Minimum areas for enhancement should be in accordance with rule 22.4.1.6.
- This rule requires legal protection only, suggest leaving the mechanism of protection to the discretion of Council when assessing the application.
- Flexibility for lot size around an existing dwelling avoids unnecessary fragmentation of productive farming land and could be addressed as a matter of discretion.

DI
(a) Conservation lot subdivision around an existing dwelling and associated curtilage that does not comply with Rule 22.4.1.6(vi-vii) RD1.
(b) Conservation lot subdivision around established rural activities that does not comply with Rule 22.4.1.6(vi-vii) RD1.

Decision Reasons: No reasons provided.

Point Number 362.17

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested **Amend** clauses (a) and (b) in Rule 22.4.1.6 (a) Conservation Lot subdivision, as follows:
(a) The subdivision must comply with all of the following conditions:
(i) The lot must contain a contiguous area of existing Significant Natural Area either as shown on the planning maps or as determined by an experienced and suitably qualified ecologist, or a contiguous area, to be enhanced and/or restored in accordance with the table below:
...
(iii) The area of Significant Natural Area, or area to be enhanced and/or restored, is assessed by a suitably qualified person as satisfying at least one criteria in Appendix 2 (Criteria for Determining Significance of Indigenous Biodiversity);
(iii) The Significant Natural Area, or area to be restored, is not already subject to a conservation covenant pursuant to the Reserves Act 1977 or the Queen Elizabeth II National Trust Act 1977 legal protection;
(iv) The subdivision proposes to legally protect all areas of Significant Natural Area, or area to be restored, by way of a conservation covenant pursuant to the Reserves Act 1977 or the Queen Elizabeth II National Trust Act 1977;
(v) An ecological management plan is prepared to address ongoing management of the covenant protected area to ensure that the Significant Natural Area area to be protected is self-sustaining and that plan:
A. Addresses fencing requirements for the covenant protected area;
B. Addresses ongoing pest plant and animal control;
C. Identifies any enhancement and/or restoration or edge planting required within the covenant area to be protected;
(vi) All proposed lots are a minimum size of 8,000m2;
(vii) All proposed lots excluding the balance lot, must each have a maximum area of 1.6ha;
(viii) This rule or its equivalent in a previous district plan has not previously been used to gain an additional subdivision entitlement;
(b) Council's discretion is restricted to the following matters:
(i) Subdivision layout and proximity of building platforms to Significant Natural Area the area to be protected;
(ii) Matters contain in an ecological management plan for the covenant protected area;
(iii) Effects of the subdivision on localised rural character and amenity values;
(iv) Extent of earthworks including earthworks for the location of building platforms and access ways.

Decision Reasons:

- Support the incentivisation of legally and physically protecting Significant Natural Areas and other areas of existing biodiversity which offers positive benefits for the Region.
- There is no provision for ecological enhancement and/or restoration in the Conservation Lot rules.
- There are significant biodiversity and water quality benefits to be gained from ecological enhancement particularly along waterways and wetland areas.
- Water quality is a key issue identified in the Regional Policy Statement and the Vision and Strategy.
- Recognised in the rural objectives and policies which seek enhancement of surface and ground water quality and the natural characteristics of waterways.
- The plan should be enabling of improving biodiversity and water quality within the Waikato Catchment and incentivise enhancement and/or restoration of areas that meet criteria in Appendix 2.
- Re-vegetation costs approximately \$45,000 per hectare.
- Incentivisation through subdivision would assist in offsetting this cost and encourage enhancement and/or restoration.
- Seek that provisions for ecological enhancement and/or restoration of appropriate areas be included.
- Minimum areas for enhancement and/or restoration should be in accordance with Rule 22.4.1.6.
- Rule 22.4.1.6 ii requires the legal protection of the conservation feature.
- Other forms of legal protection, such as the vesting of the conservation area in Council ownership (esplanade reserve) or by S221 consent notice may be appropriate.
- Suggest that this rule require legal protection only and leave the mechanism of protection to discretion of Council.
- Rule 22.4.1.6 (vi) requires a minimum area of 8,000m², flexibility for lot area should be provided where dwellings or established rural activities exist. This avoids unnecessary fragmentation of productive land. This could be addressed as a matter of discretion.

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested

Amend Rule 22.4.1.6 RD1(a) Conservation Lot Subdivision, as follows:

(a)(i) *The lots must contain an ~~contiguous~~ area of existing Significant Natural Area either as shown on the planning maps or as determined by an experienced and suitably qualified ecologist in accordance with the table below:*

Contiguous area to be legally protected (hectares)	Maximum number of new Records of Title
Between 1ha and 2ha in area within the Hamilton Basin	4
Less than 2ha in all other areas	10
2ha to less than 5ha	2+
5ha or more to less than 10ha	3+
10ha or more	3
...	

(vii) *In cases where high class soils exist onsite, and exist within the parent title, all proposed lots...*

AND

Add a new clause to Rule 22.4.1.6 RD1(a) Conservation Lot Subdivision as follows:

(viii) *In cases where no high class soils exist onsite, or exist within the parent title, all proposed lots excluding the balance lot, there is no maximum lot size;*

Decision Reasons:

- Current requirement for both contiguous areas of significance and the minimum lot area are too restrictive.
- These requirements provide no incentive for potential protection for future generations in cases where the current area is less than the minimums or segregated by some feature but still containing a Significant Natural Area.
- Council still maintain discretion for areas less than two hectares.
- By removing the requirements for the areas to be "contiguous", Council may find that proposals could be made to reinstate land between non-contiguous areas as part of possible future Significant Natural Areas.
- Where this rule is utilised, there should be different lot sizes for areas of land that do and do not contain high class soils.

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested

Amend Rule 22.4.1.6 Conservation lot subdivision, by incorporating the provisions from the Auckland Council District Plan (Rodney Section) 2011 and any directly linked assessment criteria and appendices referred to in those provisions to enable subdivision for protection of Significant Natural Areas. Refer to the submission which sets out these Rodney Section provisions in full.

AND

Amend the Proposed District Plan to make consequential or further additional relief, as is appropriate to give effect to the intent of the submission.

Decision Reasons:

- The Proposed Waikato District Plan fails to set realistic and achievable goals for subdivision reliant on the protection, enhancement or establishment of significant ecological areas;
- Allowing greater lot yields would provide an incentive for this type of subdivision; and
- Council has failed to undertake an adequate section 32 analysis with respect to subdivision opportunities for ecological enhancement.

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision		
Summary of Decision Requested	<p>Amend Rule 22.4.1.6 RD1 (a)(vi) Conservation lot subdivision, to reduce the minimum lot size requirement from 8,000m² to 2,500m² or 4,000m².</p>		
Decision Reasons:	<ul style="list-style-type: none"> A minimum lot size of 8,000m² is not appropriate for all properties and areas. 		

- The Franklin region has been allowed to subdivide down to 2,500m² in the Rural Zone and this needs to be considered and incorporated into any future District Plan, especially if future development is to be in keeping with the existing rural character and amenity of areas within Franklin.
- A minimum lot size of 8,000m² is very generous and has a high probability of resulting in fragmentation of rural land
- A minimum lot size of 8,000m² will potentially designate productive land for inappropriate use in large residential lots.
- For many people, 8,000m² is not a manageable sized lot and will result in rural land not being utilised to its full potential.
- Regional Council has a 2,500m² minimum in the Rural Zone, which should be considered and implemented to minimise urban sprawl, and best maintain and enable efficient use of rural land resources in the district.

Point Number 441.12

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested **Amend** Rule 22.4.1.6 RD1 (a)(vii) Conservation lot subdivision, to increase the maximum lot size for proposed lots (excluding the balance lot) to more than 1.6ha.

Decision Reasons:

- There should be the opportunity to make lots larger than 1.6ha if it is appropriate for the site and will enhance rural activities or is more in character with the surrounding area.

Point Number 441.3

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested **Retain** the indicated areas to be legally protected and the resultant maximum number of new records of title in Rule 22.4.1.6 RD1 (a)(i) Conservation Lot Subdivision, as notified.

Decision Reasons:

- The proposed contiguous areas required for the production of new records of title are achievable and appropriate within the region and will serve to protect generous regions of Significant Natural Areas.

Organisation:	Madsen Lawrie Consultants		
Point Number	447.1		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision		
Summary of Decision Requested	Retain the indicated contiguous areas to be legally protected and the resultant maximum number of new records of title in Rule 22.4.1.6 (a)(i) Conservation lot subdivision.		
Decision Reasons:	<ul style="list-style-type: none"> The proposed contiguous areas required for the production of new records of title are achievable and appropriate within the region and will serve to protect generous regions of significant natural areas. 		
Point Number	447.10		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.6 (viii) Conservation lot subdivision, to remove reference to "or its equivalent in a previous District Plan".		
Decision Reasons:	<ul style="list-style-type: none"> This rule appears to preclude any protection of existing unprotected Qualifying or Significant Natural Features that would since the previous environmental lot subdivision qualify for protection under the proposed rules. This rule should instead reference any feature protected under the proposed plan only. 		
Point Number	447.3		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.6 (a)(vi) Conservation lot subdivision, to reduce the minimum lot size requirement from 8,000m ² to 2,500m ² or 4,000m ² .		
Decision Reasons:	<ul style="list-style-type: none"> A minimum lot size of 8,000m² is not appropriate for all properties and areas. The Franklin region has been allowed to subdivide down to 2,500m² in the Rural Zone and this needs to be considered and incorporated into any future District Plan, especially if future development is to be in keeping with the existing rural character and amenity of areas within Franklin. A minimum lot size of 8,000m² is very generous and has a high probability of resulting in fragmentation of rural land and will potentially designate productive land for inappropriate use in large residential lots. For many people 8,000m² is not a manageable sized lot and rural usage of the land within many 8,000m² lots will not be utilised to its full potential. Waikato Regional Council has a 2,500m² minimum in the rural zone which should be considered and implemented when designating the minimum lot area so as to minimise urban sprawl and best maintain and enable efficient usage of rural land resources in the district. 		
Point Number	447.4		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Submitter Number: 466 **Submitter:** Brendan Balle

Organisation: Balle Bros Group Limited

Point Number 466.26

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested **Amend** Rule 22.4.1.6 RD1 (a)(i) Conservation lot subdivision to remove "Less than 2ha in all other areas" and replace with "between 1ha and 2ha in all other areas = 1 maximum number of new Records of Title".

Decision Reasons:

- The submitter supports the intention of the Conservation Lot subdivision but consider that the number of lots obtained should be relative to the inherent quality to the feature to be protected and not just size.
- The submitter understands that the Significant Natural Area would need to be previously identified, or determined by an ecologist, however, not all features are equal and that in some cases it may be suitable to grant a Record of Title for areas between 1 hectare and 2 hectares in areas other than the Hamilton Basin.
- There should be a 1 hectare minimum for all areas and restricted discretion should also include provision to assess the feature relative to section 11A of the Waikato Regional Policy Statement.
- Factors such as flora, fauna, under-represented habitat or ecosystem type, uncommon systems, healthy and representative example of type, self-supporting capability, ecological sequence, ecological buffer, linkage or corridor and edge effects should all be considered in the assessment to determine the appropriate size of the feature.
- A 1 hectare densely populated, healthy, block in proximity to other features may offer more ecological value than a less dense, isolated feature and should at least be considered for subdivision.
- The submitter questions the value of relying solely on a pre-determined Significant Natural Area, which is unlikely to have been ground truthed, and may not in fact meet the criteria of section 11A.
- The location of created lots is important to ensure that reverse sensitivity from surrounding rural land uses is minimised.

Point Number 466.27

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested **Add** a new discretionary rule to Rule 22.4.1.6 Conservation lot subdivision to allow for transferable development right subdivision. (Refer to Section E39 of the Auckland Unitary Plan for an example).

Decision Reasons:

- The submitter supports enabling transferable rural site subdivision to incentivize the protection of indigenous vegetation in the rural environment while avoiding fragmentation of productive areas.
- It is considered that Waikato District Council should adopt a similar approach to Auckland Council whereby protection of indigenous vegetation that met specified criteria, resulted in titles that could be transferred out of the rural zone to other specified zones.

Point Number 466.71

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested **Amend** Rule 22.4.1.6 Conservation lot subdivision to allow for ground truthing of Significant Natural Areas.

Decision Reasons:

- The submitter supports the intention of the Conservation Lot subdivision but consider that the number of lots obtained should be relative to the inherent quality to the feature to be protected and not just size.
- The submitter understands that the Significant Natural Area would need to be previously identified, or determined by an ecologist, however, not all features are equal and that in some cases it may be suitable to grant a Record of Title for areas between 1 hectare and 2 hectares in areas other than the Hamilton Basin.
- There should be a 1 hectare minimum for all areas and restricted discretion should also include provision to assess the feature relative to section 11A of the Waikato Regional Policy Statement.
- Factors such as flora, fauna, under-represented habitat or ecosystem type, uncommon systems, healthy and representative example of type, self-supporting capability, ecological sequence, ecological buffer, linkage or corridor and edge effects should all be considered in the assessment to determine the appropriate size of the feature.

- Further definition of this term will aid in the interpretation of the rule and will assist in the identification of areas eligible for subdivision under this rule.

Point Number 467.6

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested **Amend** Rule 22.4.1.6 (a)(vi) Conservation lot subdivision, to reduce the minimum lot size requirement from 8,000m² to 4,000m² or 2,500m².

Decision Reasons:

- A minimum lot size of 8,000m² is not appropriate for all properties and areas.
- The Franklin region has been allowed to subdivide down to 2,500m² in the Rural Zone and this should be considered and incorporated into any future District Plan, especially if future development is to be in keeping with the existing rural character and amenity of areas within Franklin.
- A minimum lot size of 8,000m² is very generous, has a high probability of resulting in fragmentation of rural land, and will potentially designate productive land for inappropriate use in large residential lots.
- For many people, 8,000m² is not a manageable sized lot and rural land will not be utilised to its full potential.
- Waikato Regional Council requires a 2,500m² minimum lot size in the Rural Zone, which should be considered and implemented to minimise urban sprawl, and best maintain and enable efficient use of rural land resources in the district.

Point Number 467.7

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested **Amend** Rule 22.4.1.6 (a)(vii) Conservation lot subdivision, to increase the maximum lot size for proposed lots (excluding the balance lot) to more than 1.6ha.

Decision Reasons:

- There should be opportunity to make lots larger than 1.6ha if it is appropriate for the site and will enhance rural activities or is more in character with the surrounding area.

Point Number 467.8

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested **Amend** Rule 22.4.1.6 (a)(viii) Conservation lot subdivision, as follows:

This rule or its equivalent in a previous District Plan has not previously been used to gain an additional subdivision entitlement;

Decision Reasons:	<ul style="list-style-type: none"> This rule appears to preclude any protection of existing unprotected qualifying Significant Natural Features that would qualify for protection since the previous environmental lot subdivision. This rule should only reference any feature protected under the Proposed District Plan.

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested**Amend** Rule 22.4.1.6 RD1 (a) Conservation lot subdivision, to allow for conservation lot subdivisions by way of riparian planting;

AND

Amend Rule 22.4.1.6 RD1 (a) Conservation lot, to provide clarification on enhancement planting to Significant Natural Areas.**Decision Reasons:**

- The draft Conservation Lot subdivision rules are generally positive but further allowance can still be made for additional lots through riparian planting of streams and rivers. This will provide incentive for farmers to plant the sides of their waterways, which will obviously bring significant ecological gain to the district. Under the current draft rules, it is unclear if it is saying that the current amount of native vegetation in the Waikato District is adequate.
- The cost to a property owner of protecting, and maintaining, in perpetuity, significant stands of vegetation are substantial, in real financial terms. The cost of appropriate bush covenant fencing alone is currently around \$30 per meter. Including planting costs and ongoing maintenance of the plants and fences, the costs quickly escalate into the hundreds of thousands of dollars. Farmers are becoming more and more acceptable to riparian planting on their properties but this significant cost will need to be offset to incentivise this ecological enhancement.
- As a close and recent example, under the former Franklin District Council Plan within the Auckland jurisdiction, a significant number of property owners underwent significant ecological riparian planting. Unfortunately through the introduction of the Auckland Unitary Plan, there is no longer any workable provision for conservation lots through riparian planting which has brought about a significant drop in riparian planting. This is all because there is no more incentive for property owners to plant, the submitter subsequently advises the Council to not to make the same mistake as Auckland.
- The usual signoff requirements with ecologists certifying that the riparian planting is self-sustaining would still be applicable.

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested**Add** a new discretionary activity to Rule 22.4.1.6 Conservation lot subdivision, as follows:**DL****a) Conservation lot subdivision around an existing dwelling and associated curtilage that does not comply with Rule 22.4.1.6(vi-vii) RD1.****(b) Conservation lot subdivision around established rural activities that does not comply with Rule 22.4.1.6(vi-vii) RD1.****Decision Reasons:**

- Rule 22.4.1.6.vi requires a minimum area of 8000m², flexibility for lot area should be provided where the lot boundaries encompass an existing dwelling curtilage or established rural activities. This avoids unnecessary fragmentation of productive farming land. This could be addressed as a Matter of Discretion.

Point Number

514.17

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested**Retain** Rule 22.4.1.5 Conservation lot subdivision, except for the amendments sought below

AND

Amend Rule 22.4.1.6 Conservation lot Subdivision, as follows:*(i) The lot must contain:*

- A, a contiguous area of existing Significant Natural Area either as shown on the planning maps or as determined by an experienced and suitably qualified ecologist which meets; or**
B, a contiguous area, to be enhanced and/or restored;

*in accordance with the table below:**(ii) The area of Significant Natural Area, or area to be enhanced and/or restored, is assessed by a suitably qualified person as satisfying at least one criteria in Appendix 2 (Criteria for Determining Significance of Indigenous Biodiversity);**(iii) The Significant Natural Area or area to be restored is not already subject to ~~a conservation covenant pursuant to the Reserves Act 1977 or the Queen Elizabeth II National Trust Act legal protection.~~**iv) The subdivision proposes to legally protect all areas of Significant Natural Area or area to be restored by way of a covenant pursuant to the Reserves Act 1977 or the Queen Elizabeth II National Trust Act.**(v) An ecological management plan is prepared to address ongoing management of the ~~covenant-protected~~ area to ensure that the ~~Significant Natural Area~~ area to be protected is self sustaining and that plan:**A. Addresses fencing requirements for the ~~covenant-protected~~ area;**B. Addresses ongoing pest plant and animal control;**C. Identifies any enhancement and/or restoration or edge planting required within the ~~covenant~~ area to be protected;**(b) Council's discretion is restricted to the following matters:**(i) Subdivision layout and proximity of building platforms to ~~Significant Natural Area~~ the area to be protected;**(ii) Matters contained in an ecological management plan for the ~~covenant-protected~~ area;**(iii) Effects of the subdivision on localised rural character and amenity values;**(iv) Extent of earthworks including earthworks for the location of building platforms and access ways.**(v) Mechanism of legal protection for the area to be protected.***Decision Reasons:**

- Incentivising legal and physical protection of Significant Natural Areas and other areas of existing biodiversity offers positive benefits for the Region.
- Significant biodiversity and water quality benefits can be gained from ecological enhancement along waterways and wetland areas. Water quality is a key issue in the Regional Policy Statement and Vision and Strategy.
- Enhancement is also recognised in corresponding rural objectives and policies in regards to surface water and ground water quality and the natural character of waterways.
- The plan should be enabling of improving both biodiversity and water quality within the Waikato Catchment.
- Revegetation approximately costs \$45,000 per hectare, excluding fencing of revegetated areas from stock. Incentivising through subdivision would assist in offsetting costs associated with revegetation and fencing.
- Provisions for ecological enhancement and/or restoration of appropriate areas be included in the Conservation Lot Subdivision rules. Appropriate features to be restored should meet one or more criteria in Appendix 2: Criteria for Determining Significance of Indigenous Biodiversity, or areas identified as Significant Natural Areas that don't meet the minimum size requirements for subdivision without additional enhancement and/or restoration planting. Minimum areas for enhancement and/or restoration should be in accordance with Rule 22.4.1.6.

- Rule 22.4.1.6 does not cover all forms of legal protection. The rule should require legal protection only and leave the mechanism of protection to the discretion of Council (e.g. encumbrance, bond, consent notice, covenant or vesting as a reserve).
- Rule 22.4.1.6.vi requires a minimum area of 8000m2, flexibility for lot area should be provided where the lot boundaries encompass an existing dwelling curtilage or established rural activities. This avoids unnecessary fragmentation of productive farming land. This could be addressed as a Matter of Discretion.

Decision Reasons:

Submitter Number: 529 **Submitter:** Wilcox Properties Limited

Point Number 529.11
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision
Summary of Decision Requested Add a new discretionary activity to Rule 22.4.1.6 Conservation lot subdivision, as follows:
DI
a. Conservation lot subdivision around an existing dwelling and associated curtilage that does not comply with Rule 22.4.1.6 (vi-vii) RDI.
b. Conservation lot subdivision around established rural activities that does not comply with Rule 22.4.1.6 (vi-vii) RDI.

Decision Reasons:

- Rule 22.4.1.6 vi requires a minimum area of 8000m2, flexibility for lot area should be provided where the lot boundaries encompass an existing dwelling curtilage or established rural activities. This avoids unnecessary fragmentation of productive farming land. This could be addressed as a Matter of Discretion.

Point Number 529.17
Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested **Retain** Rule 22.4.1.6 Conservation lot subdivision, except for the amendments sought below
AND
Amend Rule 22.4.1.6 Conservation lot subdivision as follows:
The lot must contain:
A. a contiguous area of existing Significant Natural Area either as shown on the planning maps or as determined by an experienced and suitably qualified ecologist which meets; or
B. a contiguous area, to be enhanced and/or restored
in accordance with the table below: (see table in PDP)
i. The area of Significant Natural Area, or area to be enhanced and/or restored is assessed by a suitably qualified person as satisfying at least one criteria in Appendix 2 (Criteria for Determining Significance of Indigenous Biodiversity);
ii. The Significant Natural Area, or area to be restored is not already subject to a conservation covenant pursuant to the Reserves Act 1977 or the Queen Elizabeth II National Trust Act 1977 legal protection.
iii. The subdivision proposes to legally protect all areas of Significant Natural Area or area to be restored, by way of a conservation covenant pursuant to the Reserves Act 1977 or the Queen Elizabeth II National Trust Act 1977;
iv. An ecological management plan is prepared to address ongoing management of the covenant-protected area to ensure that the Significant Natural Area area to be protected is self-sustaining and that plan:
A. Addresses fencing requirements for the covenant-protected area;
B. Addresses ongoing pest plant and animal control;
C. Identifies any enhancement and/or restoration or edge planting required within the covenant-area to be protected.
(b) Council's discretion is restricted to the following matters:
i. Subdivision layout and proximity of building platforms to Significant Natural Area-the area to be protected;
ii. Matters contained in an ecological management plan for the covenant-protected area;
iii. Effects of the subdivision on localised rural character and amenity values;
iv. Extent of earthworks including earthworks for the location of building platforms and access ways.
v. Mechanism of legal protection for the area to be protected

Decision Reasons:

- Support rules 22.4.1.6 in part.
- Incentivisation of the protection of Significant Natural Area and existing biodiversity offer positive benefits.
- There is no provision for ecological enhancement/restoration in the Conservation Lot Rules. There are significant biodiversity and water quality benefits to be gained by enhancement.
- Water quality is a key issue identified in the Regional Policy Statement and The Vision and Strategy.
- It is recognised in the Rural Objectives and Policies which seek enhancement of surface and ground water quality and the natural characteristics of waterways.
- Incentivising through subdivision would assist in offsetting the cost of enhancement/restoration.

Point Number	567.36		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.6 Conservation lot subdivision by adding a separate box for wetland protection.		
Decision Reasons:	<ul style="list-style-type: none"> A wetland over 2 Ha in size is large and not many remaining and as such, does not create much of an incentive to protect remaining wetlands. The rule is confusing. 		

Submitter Number:	571	Submitter:	Michael James Honiss
On behalf of:	MK & NL Honiss		
Point Number	571.1		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision		
Summary of Decision Requested	Retain Rule 22.4.1.6 Conservation lot subdivision; specifically the minimum 1ha of significant natural area required for a conservation lot subdivision.		
Decision Reasons:	<ul style="list-style-type: none"> Supports the reduction in contiguous area to a minimum of 1 Ha. The submitter has already undertaken significant investment in enhancement of a gully area identified as "significant" on their property and long tailed bats roost in the gully area. Strongly endorse Council's initiatives in protecting the significant flora and fauna. 		

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.21		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision		
Summary of Decision Requested	<p>Retain Rule 22.4.1.6 RD1 Conservation lot subdivision, except for the amendments sought below</p> <p>AND</p> <p>Amend Rule 22.4.1.6 RD1(a)(i) Conservation lot subdivision as follows:</p> <p><i>(i) The lot must contain a contiguous area of existing Significant Natural Area, or environmental conditions favourable to extending a Significant Natural Area, either as shown on the planning maps or as...</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Supports the rule in part on the principle that a contiguous area of land containing ecological significance should not be fragmented, nor should spatially separate areas of land containing ecological significance be considered as one area due to non-connectivity. • Considers that land immediately abutting ecologically Significant Natural Area due to landform/topography or other shared environmental attribute should also be used to calculate conservation allotment provisions. • The land abutting Significant Natural Areas are often sharing habitat criteria and hence should be recognised as holding inherent ecological values. • Need to recognise the landowner's ability to rehabilitate peripheral areas of Significant Natural Areas. • Such an amendment will have a measurable, positive environmental effect that can be managed in perpetuity. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.240		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision		
Summary of Decision Requested	<p>Amend Rule 22.4.1.6 RD1 (a)(iii) Conservation lot subdivision, as follows:</p> <p><i>(iii) The Significant Natural Area is not already subject to a conservation covenant pursuant to the Reserves Act 1977 or the Queen Elizabeth II National Trust Act 1977, unless the landowner who set up the covenant (or their successors in title) had not previously subdivided an equivalent qualifying conservation lot in exchange for such protection covenant(s);</i></p> <p>...</p> <p><i>(vii) This rule of its equivalent in a previous district plan has not previously been used to gain an additional subdivision entitlement;</i></p> <p><i>(b) Where subdivision to create a conservation lot may be inappropriate due to the sensitive nature of the location, or unsuitability due to natural hazard risk or traffic safety hazard risk or inability to service the lot with on-site potable water and fire-fighting water supply or on-site domestic sewage treatment and disposal, landowners may apply to transfer an entitlement for a qualifying conservation lot to more appropriate location.</i></p> <p><i>(c) (b) Council's discretion is restricted to the following matters:...</i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p> <p>AND</p> <p>Any consequential amendments to Chapter 23: Country Living Zone to address areas of existing farmland zoned as Country Living Zone.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the intention, with the exception of (iii), and ask why penalise those who have been proactive? The conservation lot subdivision can be retrospective as provision (viii) makes sure there is no double dipping which is understandable. • In some cases, farmers may have previously set up conservation covenants such as QE2 etc on worthy natural features within their farmland, but have not had the advantage of being able to subdivide a conservation lot in exchange for that past undertaking. In the submitter's view, where a farmer has previously sought to protect a natural feature through such conservation covenant, the ability to subdivide one or more qualifying conservation lots should be recognised. • The protection of suitable natural features can be encouraged through incentives such as additional subdivision rights that can be transferred to another location, if the locality where the natural feature in question is situated, is too sensitive to allow conservation lots in that location. It should be feasible to enable some form of Transferable Development Right to create one or more qualifying conservation lots elsewhere in exchange for the protection of a natural feature, by way of a restricted discretionary activity. 		

Submitter Number:	686	Submitter:	Reid Crawford Farms Limited
Point Number	686.10		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision		
Summary of Decision Requested	<p>Amend Rule 22.4.1.6 Conservation lot subdivision, as follows:</p> <p><i>(i) The lot must contain:</i></p> <p><i>(A) a contiguous area of existing Significant Natural Area either as shown on the planning maps or as determined by an experienced and suitably qualified ecologist which meets; or</i></p> <p><i>(B) a contiguous area, to be enhanced and/or restored;</i></p> <p><i>In accordance with the table below:</i></p> <p><i>(ii) The area of Significant Natural area, or area to be enhanced and/or restored, is assessed by a suitably qualified person as satisfying at least one criteria in Appendix 2 (Criteria for Determining Significance of Indigenous Biodiversity);</i></p> <p><i>(iii) The Significant Natural Area or area to be restored is not already subject to legal protection a conservation covenant pursuant to the Reserves Act 1977 or the Queen Elizabeth II National Trust Act;</i></p> <p><i>(iv) The subdivision proposes to legally protect all areas of Significant Natural Area or area to be restored by way of a conservation covenant pursuant to the Reserves Act 1977 or the Queen Elizabeth National Trust Act;</i></p> <p><i>(v) An ecological management plan is prepared to address the ongoing management of the covenant-protected area to ensure that Significant Natural Area area to be protected is self-sustaining and that plan:</i></p> <p>A. Addresses fencing requirement for the covenant <u>protected</u> area;</p> <p>B. Addresses ongoing pest plan and animal control;</p> <p>C. Identifies any enhancement <u>and/or restoration or edge</u>-planting required within the covenant area to be protected.</p> <p><i>(vi) All proposed lots... (vii) Subdivision entitlement.</i></p> <p><i>(b) Council's discretion is restricted to the following matters.</i></p> <p><i>(i) Subdivision layout and proximity of building platforms to Significant Natural Area <u>the area to be protected</u>;</i></p> <p><i>(ii) Matters contained in an ecological management plan for the covenant <u>protected</u> area.</i></p> <p><i>(iii) Effects of the subdivision on <u>localised</u> rural character and amenity values;</i></p> <p><i>(iv) Extent of earthworks including earthworks for the location of building platform and access ways.</i></p> <p><i>(v) <u>Mechanism of legal protection for the area to be protected.</u></i></p>		

Decision Reasons:	<ul style="list-style-type: none"> Support the incentivisation of legally and physically protecting Significant Natural Areas and other areas of existing biodiversity which offers positive benefits for the Region. There is no provision for ecological enhancement and/or restoration in the Conservation Lot rules. There are significant biodiversity and water quality benefits to be gained from ecological enhancement particularly along waterways and wetland areas. Water quality is a key issue identified in the RPS and the Vision and Strategy. Recognised in the rural objectives and policies which seek enhancement of surface and ground water quality and the natural characteristics of waterways. The plan should be enabling of improving biodiversity and water quality within the Waikato Catchment and incentivise enhancement and/or restoration of areas that meet criteria in Appendix 2. Re-vegetation costs approximately \$45,000 per hectare. Incentivisation through subdivision would assist in offsetting this cost and encourage enhancement and/or restoration. Seek that provisions for ecological enhancement and/or restoration of appropriate areas be included. Minimum areas for enhancement and/or restoration should be in accordance with Rule 22.4.1.6. Rule 22.4.1.6 ii requires the legal protection of the conservation feature. Other forms of legal protection, such as the vesting of the conservation area in Council ownership (esplanade reserve) or by S221 consent notice may be appropriate. Submitter suggests that this rule require legal protection only and leave the mechanism of protection to discretion of Council. Rule 22.4.1.6 (vi) requires a minimum area of 8,000m2 but flexibility for lot area should be provided where dwellings or established rural activities exist. This avoids unnecessary fragmentation of productive land. This could be addressed as a matter of discretion.
Point Number	686.13
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision
Summary of Decision Requested	Add new discretionary activity to Rule 22.4.1.6 Conservation lot subdivision, as follows: <u>DL</u> <i>(g) Conservation lot subdivision around an existing dwelling and associated curtilage that does not comply with Rule 22.4.1.6 (vi-viii) RD1.</i> <i>(b) Conservation lot subdivision around established rural activities that does not comply with Rule 22.4.1.6 (vi-vii) RD1.</i>
Decision Reasons:	<ul style="list-style-type: none"> Supports the incentivisation of legally and physically protecting Significant Natural Areas and other areas of existing biodiversity which offers positive benefits for the Region. There is no provision for ecological enhancement and/or restoration in the Conservation Lot rules. Water quality is a key issue identified in the RPS and the Vision and Strategy. This is recognised in the rural objectives and policies which seek enhancement of surface and ground water quality and the natural characteristics of waterways. The plan should be enabling of improving biodiversity and water quality within the Waikato Catchment and incentivise enhancement and/or restoration of areas that meet criteria in Appendix 2. Point Number	724.11		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision		
Summary of Decision Requested	Retain Rule 22.4.1.6 Conservation lot subdivision as notified, particularly the requirement to put conservation covenants in place on the gully or bush area.		
Decision Reasons:	<ul style="list-style-type: none"> The requirement to covenant gullies or bush areas encourages the preservation, on-going care and restoration of these areas and the proposed lot size reduces the area that the landowner is responsible for. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.111		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision		
Summary of Decision Requested	Amend Rule 22.4.1.6 RDI-Conservation lot subdivision as follows: <i>(i) The lot must contain:</i> <u>A. a contiguous area of existing Significant Natural Area either as shown on the planning maps, and/ or</u> <u>B. a contiguous area to be enhanced and/or restored;</u>		

as determined by an experienced and suitably qualified ecologist in accordance with the table below...:

(ii) The area of Significant Natural Area and/or area to be enhanced and/or restored is assessed by a suitably qualified person as satisfying at least one criteria in Appendix 2 (Criteria for Determining Significance of Indigenous Biodiversity);

(iii) The Significant Natural Area or area to be restored is not already subject to legal protection a conservation covenant pursuant to the Reserves Act 1977 or the Queen Elizabeth II National Trust Act.

(iv) The subdivision proposes to legally protect all areas of Significant Natural Area and/or area to be restored by way of a conservation covenant pursuant to the Reserves Act 1977 or the Queen Elizabeth National Trust Act.

(v) An ecological management plan is prepared to address the ongoing management of the covenant protected area to ensure that the Significant Natural Area area to be protected is a self-sustaining and that plan:

A. Addresses fencing requirement for the covenant protected area;

B. Addresses ongoing pest plan and animal control;

C. Identifies any enhancement and/or restoration or edge planting required within the covenant area to be protected.

...

(b) Council's discretion is restricted to the following matters:

(i) Subdivision layout and proximity of building platforms to Significant Natural Area the area to be protected;

(ii) Matters contained in an ecological management plan for the covenant protected area;

(iii) Effects of the subdivision on localised rural character and amenity values;

(iv) Extent of earthworks including earthworks for the location of building platform and access ways;

(v) Mechanism of legal protection for the area to be protected.

Decision Reasons:

- The submitter supports the incentivisation of legally and physically protecting Significant Natural Areas and other areas of existing biodiversity which offers positive benefits for the Region.
- There is no provision for ecological enhancement and/or restoration in the Conservation Lot Rules.
- There are significant biodiversity and water quality benefits to be gained from ecological enhancement particularly along waterways and wetland areas. Water quality is a key issue identified by the Regional Policy Statement and The Vision and Strategy (which requires an improvement of water quality in the Waikato catchment, not simply maintenance).
- It is also recognised in the corresponding Rural Objectives and Policies which seek enhancement of surface and ground water quality and the natural characteristics of waterways.
- The Plan should be enabling of improving both biodiversity and water quality within the Waikato Catchment and incentivise enhancement and/or restoration of areas that meet one or more criteria in Appendix 2: Criteria for Determining Significance of Indigenous Biodiversity.
- Revegetation approximately costs \$45,000 to \$70,000 per hectare, excluding fencing of revegetated areas from stock. Incentivisation through subdivision would assist in offsetting this cost and encourage enhancement and/or restoration planting.
- The submitter seeks that provisions for ecological enhancement and/or restoration of appropriate areas be included in the Conservation Lot Subdivision rules. Appropriate features to be restored should meet one or more criteria in Appendix 2: Criteria for Determining Significance of Indigenous Biodiversity, or areas identified as Significant Natural Areas that don't meet the minimum size requirements for subdivision are able to be increased in size through additional enhancement and/or restoration planting.
- The submitter agrees that any area that enables subdivision under these rule be legally protected by way of a registered interest on the Record of Title. However other forms of legal protection, such as the vesting of the conservation area in Council ownership (such as an esplanade reserve to afford public access) or by way of a section 221 consent notice (for areas that have unusual management requirement) may be appropriate. The submitter suggests that this rule require legal protection only and leave the mechanism of protection to the discretion of Council when assessing the application (eg. encumbrance, bond, consent notice, covenant or vesting as a reserve).

Summary of Decision Requested

Amend Rule 22.4.1.6 Conservation lot subdivision as follows:

RD1

(a) The subdivision must comply with all of the following conditions:

(i) The lot must contain:

A, a contiguous area of existing Significant Natural Area either as shown on the planning maps; and/or

B, a contiguous area to be protected, enhanced and/or restored

as determined by an experienced and suitably qualified ecologist in accordance with the table below:

...

(ii) The area of Significant Natural Area and/or area to be enhanced and/or restored is assessed by a suitably-qualified person as satisfying at least one criteria in Appendix 2 (Criteria for Determining Significance of Indigenous Biodiversity);

(iii) The Significant Natural Area or area to be restored is not already subject to legal protection a conservation covenant pursuant to the Reserves Act 1977 or the Queen Elizabeth II National Trust Act 1977;

(iv) The subdivision proposes to legally protect all areas of Significant Natural Areas and/or areas to be restored by way of a conservation covenant pursuant to the Reserves Act 1977 or the Queen Elizabeth II National Trust Act 1977.

(v) An ecological management plan is prepared to address ongoing management of the covenant protected area to ensure that that the Significant Natural Area area to be protected is self-sustaining and that plan:

A. Addresses fencing requirement for the covenant protected area

B. Addresses ongoing pest plant and animal control;

C. Identifies any enhancement and/or restoration or edge planting required within the covenant area to be protected.

...

(b) Council's discretion is rested to the following matters:

(i) Subdivision layout and proximity of building platforms to Significant Natural Area the area to be protected;

(ii) Matters contained in an ecological management plan for the covenant protected area;

(iii) Effects of the subdivision on localised rural character and amenity values;

(iv) Extent of earthworks including earthworks for the location of building platforms and access ways.

(v) Mechanism of legal protection for the area to be protected.

Decision Reasons:

- The submitter supports the incentivisation of legally and physically protecting Significant Natural Areas and other areas of existing biodiversity which offers positive benefits.
- There us no provision for ecological enhancement and/or restoration within the Conservation Lot rules.
- There are significant biodiversity and water quality benefits to be gained from ecological enhancement along waterways and wetlands.
- Regional Policy Statement identified water quality is a key issue.
- Rural Zone objectives and policies also seek enhancement of surface and ground water quality.
- Incentivisation through subdivision would assist in offsetting the cost of enhancement and restoration.
- Provisions for ecological enhancement and/or restoration of appropriate areas to be included in the conservation lot subdivision rules. Minimum areas for enhancement and/or restoration should be in accordance with Rule 22.4.1.6.
- Agree that any area that enables subdivision under this rule be legally protected by way of a registered interest on the Record of Title. Suggest that this rule require legal protection only and leave the mechanism to the discretion of Council when assessing.

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested

Amend Rule 22.4.1.6 Conservation lot subdivision, so that this rule provides for riparian planting and clarification on enhancement planting for Significant Natural Areas.

Decision Reasons:

- Allowing conservation lots to be created in exchange for riparian planting will incentivise farms to produce significant ecological gains for the district and increase the amount of native vegetation.
- The cost of planting, fencing and on-going maintenance is substantial and needs to be offset in order to incentivise ecological enhancement.
- The Auckland Unitary Plan has resulted in a significant drop in riparian planting and Waikato District Council should not follow this example.
- The rules imply that the current amount of native vegetation is adequate.
- A sign-off from an ecologist to certify that the riparian planting is self-sustaining would be necessary.

(ii) Matters contained in an ecological management plan for the covenant protected area.

(iii) Effects of the subdivision on localised rural character and amenity values;

(iv) Extent of earthworks for the location of building platform and accessways.

(v) Mechanism of legal protection for the area to be protected.

Decision Reasons:

- The submitters support the incentivising of legally and physically protecting Significant Natural Areas and other areas of existing biodiversity, which offers positive benefits for the Region.
- There is no provision for ecological enhancement and/or restoration in the Conservation Lot Rules.
- There are significant biodiversity and water quality benefits to gain from ecological enhancement particularly along waterways and wetland areas. Water quality is a key issue identified by the Regional Policy Statement and The Vision and strategy (which requires an improvement of water quality in the Waikato catchment, not simply maintenance). It is also recognised in the corresponding Rural Objectives and Policies which seek enhancement of surface and ground water quality and the natural characteristics of waterways. The Plan should be enabling of improving both biodiversity and water quality within the Waikato Catchment and incentivise enhancement and/or restoration of areas that meet one or more criteria in Appendix 2: Criteria for Determining Significance of Indigenous Biodiversity. Re-vegetation approximately costs \$45,000 per hectare, excluding fencing of re-vegetated areas from stock. Incentivising through subdivision would assist in offsetting this cost and encourage enhancement and/or restoration planting.
- The submitter seeks that provisions for ecological enhancement and/or restoration of appropriate areas be included in the Conservation Lot Subdivision rules. Appropriate features to be restored should meet one or more criteria in Appendix 2: Criteria for Determining Significance of Indigenous Biodiversity. Minimum areas for enhancement and/or restoration should be in accordance with Rule 22.4.1.6.
- Rule 22.4.1.6 (iii) requires the legal protection of the conservation feature. The submitter suggests that this rule require legal protection only and leave the mechanism of protection to the discretion of Council when assessing the application (e.g.

Point Number

877.23

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested

Add a discretionary rule to Rule 22.4.1.6 Conservation lot subdivision as follows:

DL

(a) Conservation lot subdivision around an existing dwelling and associated curtilage that does not comply with Rule 22.4.1.6 RD1 (vi-vii).

(b) Conservation lot subdivision around established rural activities that does not comply with Rule 22.4.1.6 RD1 (vi-vii).

Decision Reasons:

- Subdivision creating a child lot around an existing dwelling, where a curtilage is established and farming regime is already in place on the balance lot, should be provided flexibility in lot size to ensure that the existing farming regime can continue. This will ensure the boundaries proposed are a practical outcome to ensure the most efficient ongoing management of the land and not to meet an arbitrary rule. A lot size consistent with the established farming regime will avoid the redevelopment of farm tracks and fence lines to access what is a relatively small piece of land.
- A discretionary rule should also be provided for lots less than 8,000m² and greater than 1.6ha where they contain an existing dwelling. There may be site specific factors that create a unique situation that is conducive to the proposed lot size whilst remaining consistent with the objectives and policies and achieving the Anticipated Environmental Results.
- For lots smaller than 8,000m², it is only necessary to confirm the provision of services within the lot boundaries.
- Lots greater than 1.6ha may need an assessment with respect to the productive potential of the land. If the land comprises productive potential, then a Farm Management report should be provided to demonstrate that both the proposed lot and the balance lot are sized to ensure rural land uses continue to predominate.

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested

Retain Rule 22.4.1.6(a)(vi) and (vii) Conservation lot subdivision which enables the creation of a vacant lot between 8000m² and 1.6ha as a Restricted Discretionary Activity.

Decision Reasons:

- The creation of an additional vacant lot between 8,000m² and 1.6ha as a restricted discretionary activity is supported.

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.6 Conservation lot subdivision

Summary of Decision Requested

Amend Rule 22.4.1.6 Conservation lot subdivision, so that this rule provides for riparian planting and clarification on enhancement planting for Significant Natural Areas.

Decision Reasons:

- The Conservation Lot subdivision rules are generally positive, but further allowance can still be made for additional lots through riparian planting of streams

- and rivers.
- This will provide incentive for farmers to plant the sides of their waterways which will obviously bring significant ecological gain to the district.
- The cost to a property owner of protecting and maintaining in perpetuity, significant stands of vegetation are substantial.
- The cost of appropriate bush covenant fencing alone is currently around \$30 per meter.
- Generally speaking, farmers are becoming more and more acceptable to riparian planting on their properties, but this significant cost will need to be offset to incentivise this ecological enhancement.
- The usual signoff requirements with ecologists certifying that the riparian planting is self-sustaining would obviously still be applicable.

Summary of Decision Requested	Retain Rule 22.4.1.7 Subdivision to create a reserve		
Decision Reasons:	<ul style="list-style-type: none"> Support the enhancement of public access and incentivising the provision of access through subdivision provides a win for both landowners and the public. 		

Submitter Number:	938	Submitter:	Neil and Linda Porritt
Point Number	938.1		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.1 > 22.4.1.7 Subdivision to create a reserve		
Summary of Decision Requested	Amend Rule 22.4.1.7 Subdivision, to create a reserve, as follows: <i>RD1</i> (a) Subdivision to create a reserve must comply with all of the following conditions: (i) The lot being subdivided must contain an area that is identified in a Waikato District Council Parks Strategy as being required for permanent public access or for reserve purposes; (ii) The area identified in the Parks Strategy as being required for permanent public access or for reserve purposes is to be vested in Council <u>or public access is permanently secured by way of easement</u> ; (iii) No more than one additional lot is created <u>from each lot being subdivided</u> , excluding any land vested in Council. (iv) The proposed additional lot, excluding the reserve, has a minimum size of 8,000 5000m² . (b) Council's discretion is restricted to the following matters: (i) Size and location of area for which public access or reserve is secured; (ii) Method of securing public access; (iii) Management of any land remaining in private ownership over which access rights are granted; (iv) Location of additional lot. <i>DL</i> <u>A reserve lot subdivision that does not comply with Rule 22.4.1.7 RD1, conditions, (a)(ii)-(iv).</u> <i>NC1</i> A reserve lot subdivision that does not comply with Rule 22.4.1.7 RD1 <u>conditions (a)(i).</u>		
Decision Reasons:	<ul style="list-style-type: none"> The Reserve Lot Subdivision provisions should apply to all areas that are identified in any Waikato District Council strategy documents as being required for permanent public access or reserve purposes, not just areas identified in the Parks Strategy; ((a)(i)). The Reserve Lot Subdivision provisions should apply where land access is to be secured by way of an easement not only where it is to be vested in Council; ((a)(ii)). It should be clear that one additional Lot being subdivided ((a)(iii)). The minimum lot size for consideration as a RD activity should be 5000m², not 8000m²; ((a)(iv)). Reserve Lot Subdivision not complying with conditions (a)(ii)-(iv) should be considered as a discretionary activity, not as a non-complying activity. 		

Plan chapter: Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.2 Title boundaries – natural hazard area, contaminated land, Significant Amenity Landscape, notable trees, intensive farming activities, aggregate extraction areas

Point Number	345.25		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.2 Title boundaries – natural hazard area, contaminated land, Significant Amenity Landscape, notable trees, intensive farming activities, aggregate extraction areas		
Summary of Decision Requested	<p>Delete Rule 22.4.2 RD1(a)(iii) Title boundaries - natural hazard area, contaminated land, Significant Amenity Landscape, notable trees, intensive farming activities, aggregate extraction areas and the associated matters of discretion.</p> <p>AND</p> <p>Delete from every zone the subdivision rule which requires the boundary of every proposed lot to not divide any of the following:</p> <ul style="list-style-type: none"> • A natural hazard area; • Contaminated land; • Significant Amenity Landscape; • Notable trees <p>and the associated matters of discretion.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • This rule concerns the submitter, along with the same rule that appears anywhere else, particularly in Country Living and Village zones. • Agrees that a boundary should ideally not go through a notable tree, but there are instances where a boundary could go through a contaminated area, natural hazard or significant landscape. • Much of Waikato's rural land is contaminated due to high levels of cadmium, thus any rural boundary line would not be allowed. • Vast lengths of the coast may also be determined to be a natural hazard, therefore any coastal subdivision where lots are required to intersect the coastal reserve will likely be affected by this rule. 		
Submitter Number:	424	Submitter:	Grant Ryan
Point Number	424.2		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.2 Title boundaries – natural hazard area, contaminated land, Significant Amenity Landscape, notable trees, intensive farming activities, aggregate extraction areas		
Summary of Decision Requested	<p>Amend Rule 22.4.2 Title boundaries - natural hazard area, contaminated land, Significant Amenity Landscape, notable trees, intensive farming activities, aggregate extraction areas to review or delete the property size.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter has 19 lifestyle properties on Pool Road, Pukekohe and these are no longer rural properties. • This needs to be reduced to allow for property exit strategy. 		
Submitter Number:	463	Submitter:	Environmental Management Solutions Limited
Point Number	463.4		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.2 Title boundaries – natural hazard area, contaminated land, Significant Amenity Landscape, notable trees, intensive farming activities, aggregate extraction areas		
Summary of Decision Requested	<p>Delete contaminated land from Rule 22.4.2 Title boundaries – natural hazard area, contaminated land, Significant Amenity Landscape, notable trees, intensive farming activities, aggregate extraction areas</p> <p>AND</p> <p>Add a new set of rules specifically relating to contaminated land that align with National Environmental Standard for Assessing and Managing Contaminants in Soil to protect Human Health provisions (sections 30 and 31 of Wellington City Council Plan provides an example of this).</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter considers it unacceptable and nonsensical to include Contaminated Land in with notable trees, intensive farming and aggregate extraction areas, significant amenity landscapes etc. • The provisions set out within the rules contradict those detailed within the Resource Management (National Environmental Standard for Assessing and Managing Contaminants in Soil to protect Human Health) Regulations 2011 which overrides any planning provision. • Regulation 5(5) of the NESCS specifies subdivision as an activity to which the standard applies where an activity that can be found on the Ministry for Environment Hazardous Activities and Industries List has, is or is more likely than not to have occurred on a property. The regulations have a specific pathway to follow. • In many cases, it is through the subdivision application that a report investigating and identifying the contamination on a property is identified. This may include several areas, large or small irrespective of proposed subdivision boundaries. • For subdivision to be enabled, soil contaminant concentrations have to meet the soil contaminant standards set by the NESCS or the site has to be satisfactorily managed. • It is considered most appropriate for potentially contaminated land to have a separate rule that reflects the requirements of the NESCS. 		
Submitter Number:	471	Submitter:	Andrew Wood
Organisation:	CKL		
Point Number	471.23		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.2 Title boundaries – natural hazard area, contaminated land, Significant Amenity Landscape, notable trees, intensive farming activities, aggregate extraction areas		
Summary of Decision Requested	<p>Amend Rule 22.4.2-Title boundaries – natural hazard area, contaminated land, Significant Amenity Landscape, notable trees, intensive farming activities, aggregate extraction areas to clarify the intent. However, no specific details of the relief sought are provided.</p> <p>AND</p> <p>Any consequential amendments necessary.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • It is not clear when this rule would apply and why it would affect built form in a subdivision. • The reference to contaminated land is likely to catch activities covered under the National Environmental Standard for Contaminated Soil where central government has recommended that local authorities remove provisions from their district plans to avoid duplication of planning processes.

On behalf of:	Lochiel Farmlands Limited		
Point Number	349.24		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.3 Title boundaries – Significant Natural Areas, heritage items, Maaori sites of significance and Maaori areas of significance		
Summary of Decision Requested	Delete Rule 22.4.3RD1(a)(i) Title boundaries - Significant Natural Areas, heritage items, Maaori sites of significance and Maaori areas of significance.		
Decision Reasons:	<ul style="list-style-type: none"> Within large Significant Natural Area site area it may be difficult to ensure that a boundary of a proposed lot does not divide a Significant Natural Area. There may be geographical reasons as to why the boundary of a proposed lot runs through a Significant Natural Area. A boundary does not stop a Significant Natural Area from continuing to be considered a Significant Natural Area. Landowners of large Significant Natural Areas should be encouraged to protect the Significant Natural Areas as conservation lots and not be required to encompass all of the Significant Natural Area where it is large. 		
Point Number	349.26		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.3 Title boundaries – Significant Natural Areas, heritage items, Maaori sites of significance and Maaori areas of significance		
Summary of Decision Requested	Amend Rule 22.4.3 Title boundaries - Significant Natural Areas, heritage items, Maaori sites of significance and Maaori areas of significance so that subdivision that does not comply with the standards for Title Boundaries on SNAs and Maaori sites/areas of significance is a discretionary activity.		
Decision Reasons:	<ul style="list-style-type: none"> Subdivision that divides a Significant Natural Area becomes a non-complying activity and this is unreasonable. The effects of dividing a Significant Natural Area into a new lot can be managed as a Restricted Discretionary criterion without triggering a non-complying activity status. 		
Point Number	349.6		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.3 Title boundaries – Significant Natural Areas, heritage items, Maaori sites of significance and Maaori areas of significance		
Summary of Decision Requested	Delete the limitation in Rule 22.4.3(a)(i) Significant Natural Areas on title boundaries not dividing Significant Natural Areas.		
Decision Reasons:	<ul style="list-style-type: none"> It should be an incentive to further protect Significant Natural Areas even if only part of the Significant Natural Areas is to be protected as a conservation lot. There is an inconsistency between Rule 22.4.3 and Policy 22.4.3 if applied to large sites within Significant Natural Areas.

Point Number	680.243		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.3 Title boundaries – Significant Natural Areas, heritage items, Maaori sites of significance and Maaori areas of significance		
Summary of Decision Requested	Amend Rule 22.4.3 Title boundaries – Significant Natural Areas, heritage items, Maaori sites of significance and Maaori areas of significance from Non-complying Activity status to Discretionary Activity status, as follows: NC+D1 Subdivision that does not comply with Rule 22.4.3 RD1 AND Any consequential changes needed to give effect to this relief. AND Any consequential amendments to Chapter 23: Country Living Zone to address areas of existing farmland zoned as Country Living Zone.		
Decision Reasons:	<ul style="list-style-type: none"> Submitter considers discretionary activity status to be more appropriate than non-complying. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.833		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.3 Title boundaries – Significant Natural Areas, heritage items, Maaori sites of significance and Maaori areas of significance		
Summary of Decision Requested	Amend Rule 22.4.3 Title boundaries - Significant Natural Areas, heritage items, Maaori sites of significance and Maaori areas of significance heading, as follows: <i>Title boundaries – Significant Natural Areas, heritage items, Maaori sites of significance and Maaori areas of significance, <u>notable trees</u></i>		
Decision Reasons:	<ul style="list-style-type: none"> In response to the changes made to Rule 22.4.2 and in respect to notable trees, it is logical to add it to this rule. 		
Point Number	697.834		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.3 Title boundaries – Significant Natural Areas, heritage items, Maaori sites of significance and Maaori areas of significance		
Summary of Decision Requested	Add a new rule to Rule 22.4.3 RD1 (a) Title boundaries - Significant Natural Areas, heritage items, Maaori sites of significance and Maaori areas of significance as follows: <i>(y) <u>Notable trees.</u></i>		
Decision Reasons:	<ul style="list-style-type: none"> This is as a consequential amendment of the removal of notable tree from Rule 22.4.2 RD1. 		
Point Number	697.835		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.3 Title boundaries – Significant Natural Areas, heritage items, Maaori sites of significance and Maaori areas of significance		
Summary of Decision Requested	Add a new matter of discretion to Rule 22.4.3 RD1 (b) Title boundaries - Significant Natural Areas, heritage items, Maaori sites of significance and Maaori areas of significance, as follows: <i>(y) <u>Effects on notable trees.</u></i>		
Decision Reasons:	<ul style="list-style-type: none"> This is as a consequential amendment to the removal of notable tree from Rule 22.4.2 RD1. 		

Submitter Number:	706	Submitter:	Francis and Susan Turton
Point Number	706.5		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.3 Title boundaries – Significant Natural Areas, heritage items, Maaori sites of significance and Maaori areas of significance		
Summary of Decision Requested	No specific decision sought, but the submission opposes Rule 22.4.3 RD1(a) Title boundaries - Significant Natural Areas, heritage items, Maaori sites of significance and Maaori areas of significance.		
Decision Reasons:	<ul style="list-style-type: none"> The restrictions are opposed because some Significant Natural Areas are already divided by existing title boundaries. 		

Plan chapter: Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.4 Subdivision - Road frontage

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.165		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.4 Subdivision - Road frontage		
Summary of Decision Requested	No specific decision sought, however submission refers to Rule 22.4.4 Subdivision - Road frontage.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	345	Submitter:	Brent Trail
Point Number	345.27		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.4 Subdivision - Road frontage		
Summary of Decision Requested	Delete Rule 22.4.4 Road Frontage. OR Amend Rule 22.4.4 RDI(a) Road Frontage, to be reduced to 40m.		
Decision Reasons:	<ul style="list-style-type: none"> A narrower road frontage, as long as it is not on all lots, can still manage the necessary separation of access and can be an advantage for amenity and rural character, enabling dwellings and buildings to locate further from the road. 		
Point Number	345.28		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.4 Subdivision - Road frontage		
Summary of Decision Requested	Amend Rule 22.4.4 Road Frontage to change all references to "lot" to "record of title".		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	349	Submitter:	Kim Robinson
On behalf of:	Lochiel Farmlands Limited		
Point Number	349.25		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.4 Subdivision - Road frontage		
Summary of Decision Requested	Amend Rule 22.4.4 RDI Subdivision - Road frontage, to a discretionary activity rather than a restricted discretionary activity and read RD+D/		
Decision Reasons:	<ul style="list-style-type: none"> No reasons stated. 		

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.22		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.4 Subdivision - Road frontage		
Summary of Decision Requested	Delete Rule 22.4.4 RDI (a) Subdivision - Road frontage.		
Decision Reasons:	<ul style="list-style-type: none"> A 60m width may not always be appropriate in the event that the actual or potential adverse effects on traffic safety are less than minor. Contends that a more meaningful road frontage dimension be provided through an assessment of the existing and proposed traffic effect of any development, as well as the criteria contained within the district plan detailing the required sight visibility and operational speed environment. Considers that the frontage rule is superfluous, as engineering criteria alone should be used to regulate road frontage widths. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.231		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.4 Subdivision - Road frontage		
Summary of Decision Requested	Retain Rule 22.4.4 RDI Subdivision - Road frontage, except for the amendments sought below AND Amend matter of discretion (b)(i) in Rule 22.4.4 RDI Subdivision - Road frontage as follows: <i>Safety and efficiency of vehicle access and roadland transport network;</i> AND Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports a 60m width minimum for lots with a road boundary as this will enable safe separation distance between vehicle entrances. 		

- Retaining discretion over safety and efficiency of the road network is also supported with minor amendment.

Plan chapter: Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.5 Subdivision within identified areas

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.175		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.5 Subdivision within identified areas		
Summary of Decision Requested	Amend Rule 22.4.5 Subdivision within identified areas to make subdivision of land containing an Significant Natural Area that is not a conservation lot subdivision, a discretionary activity.		
Decision Reasons:	<ul style="list-style-type: none"> Subdivision of land containing an SNA could be considered a restricted discretionary activity under Rule 22.4.1.2 (if the conservation lot opportunity is not taken up). However, for other overlay areas subdivision is a discretionary activity under Rule 22.4.5. In order to manage the effects of subdivision and any subsequent land use activities on SNA's it is considered that a discretionary activity status is more appropriate. This would give effect to Policy 11.1 and 11.2 and associated implementation methods in the WRPS. 		

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.166		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.5 Subdivision within identified areas

Point Number	482.13		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.6 Subdivision of land containing all or part of an Environmental Protection Area		
Summary of Decision Requested	Delete Environmental Protection Areas; AND		

Delete Rule 22.4.6 Subdivision of land containing all or part of an Environmental Protection Area.

Decision Reasons:

- Environmental Protection Area is not defined in the Proposed District Plan and there is no apparent reason for having these as well as Significant Natural Areas.

Submitter Number: 680 **Submitter:** Federated Farmers of New Zealand

Point Number 680.245

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.6 Subdivision of land containing all or part of an Environmental Protection Area

Summary of Decision Requested **Delete** Rule 22.4.6 RD1 Subdivision of land containing all or part of an Environmental Protection Area.

AND

Delete Rule 22.4.6 D1 Subdivision of land containing all or part of an Environmental Protection Area.

AND

Any consequential changes needed to give effect to this relief.

AND

Any consequential amendments to Chapter 23: Country Living Zone to address areas of existing farmland zoned as Country Living Zone.

Decision Reasons:

- Submitter is unsure what Environmental Protection Areas are and what the purpose of identifying them is. There is no mention of these areas within the policy framework and no definition provided in Chapter 13. Without knowing how they have been identified and what the purpose is they are unable to assess the merits or otherwise of this proposed rule.

Submitter Number: 695 **Submitter:** Sharp Planning Solutions Ltd

Point Number 695.98

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.6 Subdivision of land containing all or part of an Environmental Protection Area

Summary of Decision Requested **Add** to Rule 22.4.6 RD1(a)(i) Subdivision of land containing all or part of an Environmental Protection Area a reasonable setback (trigger threshold applied) e.g. where an overlay occurs in or within 100m of lots being proposed to be developed, with the exception of the balance lot;

AND

Amend Rule 22.4.6 RD1(a)(i) Subdivision of land containing all or part of an Environmental Protection Area, as follows:

A planting and management plan is submitted to Council for the Environmental Protection Area prepared by a suitably-qualified person, containing ~~the~~ The plan is to contain details of exclusively indigenous species suitable to the area and conditions for the purpose of planting enhancement and management where this is considered necessary after qualified ecological assessment of the Environmental Protection Area Planning Overlay on the site.

Decision Reasons:

- This blanket imposition is concerning.

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.837

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.6 Subdivision of land containing all or part of an Environmental Protection Area

Summary of Decision Requested **Add** a new matter of discretion to Rule 22.4.6 D1(b) Subdivision of land containing all or part of an Environmental Protection Area, as follows:

(v) legal protection if appropriate.

Decision Reasons:

- An additional matter of discretion is required to enable the assessment as to whether legal protection is required.

Submitter Number: 794 **Submitter:** Middlemiss Farm Holdings Limited

Point Number 794.24

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.6 Subdivision of land containing all or part of an Environmental Protection Area

Summary of Decision Requested **Delete** Rule 22.4.6 Subdivision of land containing all or part of an Environmental Protection Area

and

Add more enabling provisions as a replacement.

AND

Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.

Decision Reasons:

- To enable appropriate subdivision.

Plan chapter: Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.7 Esplanade reserves and esplanade strips

Submitter Number: 330 **Submitter:** Andrew and Christine Gore

Point Number 330.168

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.7 Esplanade reserves and esplanade strips
Summary of Decision Requested	No specific decision sought, however submission refers to Rule 22.4.7 Esplanade reserves and esplanade strips.
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.

Submitter Number:	433	Submitter:	Mischa Davis
Organisation:	Auckland Waikato Fish and Game Council		
Point Number	433.62		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.7 Esplanade reserves and esplanade strips		
Summary of Decision Requested	<p>Amend Rule 22.4.7 Esplanade reserves and esplanade strips, as follows:</p> <p>RD+PL (a) An esplanade reserve or strip 20m wide (or such other width stated in Appendix 4 (Esplanade Priority Areas) is required to shall be created and vested in Council from every subdivision where the land being subdivided is:</p> <p>...</p> <p>AND</p> <p>Delete Rule 22.4.7 RD1 (b) Esplanade reserves and esplanade stripes</p> <p>AND</p> <p>Amend Rule 22.4.7 D1 Esplanade reserves and strips as follows:</p> <p>RD Subdivision that does not comply with Rule 22.4.7 RD1 PL</p> <p><u>Council's discretion is restricted to the following matters:</u></p> <p><i>(i) the type of esplanade, provided reserve or strip;</i></p> <p><i>(ii) width of the esplanade reserve or strip;</i></p> <p><i>(iii) provision of legal access to the esplanade reserve or strip;</i></p> <p><i>(iv) matters provided for in an instrument creating an esplanade strip or access strip;</i></p> <p><i>(v) works required prior to vesting any reserve in the Council, including pest plant control, boundary fencing and the removal of structures and debris</i></p> <p>AND/OR</p> <p>Any alternative relief to address the issues and concerns raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The notified rule is too restrictive as a means of creating esplanade strips. The Waikato Regional Policy Statement requires local authorities to enhance public access to and along the coastal marine area, wetlands, and lake and rivers and their margins and the rule should allow for esplanade reserves and esplanade strips to be created as a permitted activity. The council should make the most of every opportunity to increase the coverage of esplanade strips along Waterbodies. 		

Submitter Number:	471	Submitter:	Andrew Wood
Organisation:	CKL		
Point Number	471.25		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.7 Esplanade reserves and esplanade strips

Point Number	559.252		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.8 Subdivision of land containing heritage items		
Summary of Decision Requested	Retain Rule 22.4.8 RD1 Subdivision – land containing heritage items, except for the amendments sought below. AND Amend Rule 22.4.8 RD1 Subdivision – land containing heritage items as follows: <i>(a) Subdivision of land containing a heritage item listed in Schedule 30.1 (Historic Heritage Items)</i> <i>(b) Council's discretion is restricted to the following matters:</i> <i>(i) Effects on heritage values;</i> <i>(ii) Context and setting of the heritage item;</i> <i>(iii) The extent to which the relationship of the heritage item with its setting is maintained <u>within one lot</u>.</i> AND Amend Rule 22.4.8 RD1 Subdivision – land containing heritage items to be consistent with the equivalent rules in other zone chapters, including heritage items being retained in one lot.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports in part the restricted discretionary activity status of the rule relating to the subdivision of land containing heritage items and the associated matters of discretion, as these assessment criteria will assist to give effect to the related policy. • An amendment is required to the assessment criteria to recognise that the retention of a heritage item and its setting is best achieved when they are located within the same lot. • The inclusion of threshold creates a clear distinction for those administering the Plan as to when the activity becomes a non-complying activity. 		
Point Number	559.259		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.8 Subdivision of land containing heritage items		
Summary of Decision Requested	Retain Rule 22.4.8 NCI Subdivision – land containing heritage items, except for the amendments sought below. AND Amend Rule 22.4.8 NCI Subdivision – land containing heritage items to be consistent with the equivalent rules in other zone chapters.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the non-complying status of the rule relating to the subdivision of land containing heritage items, when the restricted discretionary 		

activity status of the rule is not achieved.

- This stringent assessment will assist to ensure that the heritage values of the heritage item with its setting are maintained.

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.838

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.8 Subdivision of land containing heritage items

Summary of Decision Requested **Amend** Rule 22.4.8 Subdivision of land containing heritage items heading, as follows:
Subdivision of land containing a heritage items

Decision Reasons:

- This is to provide clarity to this rule.

Plan chapter: Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.9 Subdivision - Building platform

Submitter Number: 197 **Submitter:** Jeska McHugh

Organisation: NZ Pork

Point Number 197.30

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.9 Subdivision - Building platform

Summary of Decision Requested **Retain** Rule 22.4.9 RD1 Subdivision - Building platform, insofar as it requires a specified building platform for proposed lots
AND

Add a new matter of discretion to Rule 22.4.9 RD1 Subdivision – Building platform, as follows:

(b)(vii) The relationship of the building platform and future use of the site with surrounding rural production activities and measures to avoid for reverse sensitivity effects.

Decision Reasons:

- The requirement for a specified building platform for a proposed lot is supported.
- The matters of discretion need to be expanded to consider the relationship of the building platform and future use of the site with surrounding rural production activities.

Submitter Number: 276 **Submitter:** Ted and Kathryn Letford

Point Number 276.16

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.9 Subdivision - Building platform

Summary of Decision Requested **Retain** Rule 22.4.9 Subdivision - Building Platform.
AND

Retain the number of car parks for a dwelling in Table 14.12.5.7 Required parking spaces and loading bays.

Decision Reasons:

- Support the number of car parking spaces for the dwelling.
- This is an improvement on the Operative District Plan, requiring one parking space per bedroom.

Submitter Number: 330 **Submitter:** Andrew and Christine Gore

Point Number 330.170

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.9 Subdivision - Building platform

Summary of Decision Requested No specific decision sought, however submission refers to Rule 22.4.9 Subdivision - Building platform.

Decision Reasons:

- No reasons provided.

Submitter Number: 345 **Submitter:** Brent Trail

Point Number 345.15

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.9 Subdivision - Building platform

Summary of Decision Requested **Amend** Rule 22.4.9 RD1 (a)(i) Subdivision building platform, to be reduced to 300m2.
AND

Amend the equivalent rule in all zones, to reduce the building platform requirement to 300m2.

Decision Reasons:

- The rule concerns submitter and thus oppose it along with the same rule appearing anywhere else, particularly in Country Living and Village Zones.
- It is unrealistic.
- A building site of 300m2 is more realistic.
- 100m2 is clearly not meant to cater for wastewater treatment and disposal as well as buildings.

Point Number	345.16
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.9 Subdivision - Building platform
Summary of Decision Requested	Amend Rule 22.4.9 RD1 (a)(ii) Subdivision building platform, to have an average gradient of 1:5. AND Amend the equivalent rule in all zones to an average gradient of 1:5.
Decision Reasons:	<ul style="list-style-type: none"> • Rule concerns submitter, along with the same rule appearing anywhere else, particularly in Country Living and Village Zones. • It is unrealistic. • Given earthworks take place, a grade of 1.5 would be acceptable. • Given you require evidence from a geotechnical engineer even steeper may be acceptable.
Point Number	345.17
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.9 Subdivision - Building platform
Summary of Decision Requested	No specific decision sought, but submission opposes Rule 22.4.9 RD1(a)(iii) Building platform and the equivalent requirement for certification by a geotechnical engineer of a building platform for subdivision in all other zones.
Decision Reasons:	<ul style="list-style-type: none"> • Rule concerns submitter, along with the same rule appearing anywhere else, particularly in Country Living and Village Zones. • It is unrealistic. • It is inappropriate for a flat site. • A soils engineer should be able to certify such a site up to 1:5. • Council should seek independent advice on the matter and to not over specify the level of engineer required on straight forward sites. • Sites can be readily constructed on sloping ground subject to the recommendation and supervision from soils engineers without particular geotechnical qualifications, if they consider it out of their field they are expected to engage an expert.

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.41		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.9 Subdivision - Building platform		
Summary of Decision Requested	Add a new matter of discretion to Rule 22.4.9 RD1 (b) Subdivision - Building platform, as follows: <i>(vi) The relationship of the building platform and residential activity with surrounding current and future rural production activities and measures to avoid or mitigate reverse sensitivity effects.</i> AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • The requirement for a specific building platform for a proposed lot is a common subdivision standard. • This enables an assessment of the platform and the residential activity it will support, relative to a number of matters. • This should include the relationship of the platform, its residential use and the surrounding current or future rural production activities. • The matters of discretion should be expanded for this purpose. 		

Submitter Number:	471	Submitter:	Andrew Wood
Organisation:	CKL		
Point Number	471.26		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.9 Subdivision - Building platform		
Summary of Decision Requested	Amend Rule 22.4.9 RD1 (a)(i) Subdivision - Building platform, as follows: <i>(i) Has an area of 1000m² exclusive of boundary setbacks;</i> <i>A shape factor, being either:</i> <ul style="list-style-type: none"> • <i>A circle with a diameter of at least 30m, exclusive of boundary setbacks, or</i> • <i>A rectangle of at least 1000m², exclusive of setbacks, and;</i> • <i>Containing a building platform being a circle with a diameter of at least 18m.</i> AND Delete Rule 22.4.9 RD1 (a) (iii). AND Any consequential amendments necessary.		
Decision Reasons:	<ul style="list-style-type: none"> • Retain the shape factor and building platform dimensions from the Operative District Plan which have been proven effective. • Certification of a building platform by a geotechnical engineer is not always necessary. Council can require this on a case by case basis by retaining discretion over this matter in respect to clause (b)(ii). 		

Submitter Number:	489	Submitter:	Ann-Maree Gladding
Point Number	489.17		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.9 Subdivision - Building platform		
Summary of Decision Requested	Amend Rule 22.4.9 RD1 (a)(ii) Building platform, as follows: <i>(ii) Has an average gradient not steeper than 1:9 1:6;</i>		

Decision Reasons:	<ul style="list-style-type: none"> • An average of 1:8 is too restrictive in the rural area, especially in the upper Waikato District, where the building sites are more likely to be on more undulating topography. • The objectives and policies promote new lots away from high class soils, this will force new lots and their building sites onto steeper topography. • A grade of 1:6 is still very workable as long as a geotechnical report supports the location.
--------------------------	---

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.23		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.9 Subdivision - Building platform		
Summary of Decision Requested	Retain Rule 22.4.9 RD1 Subdivision - building platform, except for the amendments sought below AND Amend Rule 22.4.9 RD1(a)(i) Subdivision - building platform as follows: (i) Has an area of 1,000m² 500m² exclusive of boundary setbacks;		
Decision Reasons:	<ul style="list-style-type: none"> • Supports the Proposed Plan providing clear design guidance on the subdivision process- such as the location and dimension for building platforms. • The reason for the sought amendment is so that overly restrict design criteria are removed from the Proposed District Plan and that more adaptive solutions can be considered by the developer without the need for expanded assessment matters. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.247		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.4 Subdivision > 22.4.9 Subdivision - Building platform		
Summary of Decision Requested	Amend Rule 22.4.9 RD1 Subdivision - Building platform, as follows: a) <u>Subdivision, other than an access, or utility allotment or boundary adjustment or boundary relocation, must provide a building platform on the proposed lot that: ...</u> AND Any consequential changes needed to give effect to this relief. AND Any consequential amendments to Chapter 23: Country Living Zone to address areas of existing farmland zoned as Country Living Zone.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter is concerned that the building platform requirement may be triggered in every instance where boundary adjustment or relocation is being undertaken. Amendment is required for clarity sake, to avoid any confusion and provides increased certainty.

Point Number	637.15		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.5 Specific Area – Agriculture Research Centres > 22.5.2 Permitted Activities – Agricultural and Horticultural Research		
Summary of Decision Requested	Amend Rule 22.5.2 Permitted Activities – Agricultural and Horticultural Research as follows: <i>P6 Disposal or storage of solid organic waste or cleanfill that is incidental to agricultural or horticultural research where the extracted material is used on the Agricultural Research Centre site.</i> AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> P6 is not necessary to provide for the on-site disposal or storage of solid organic or cleanfill waste, or an extractive industry for on-site use. The relevant Waikato Regional Plan rules are adequate and can be relied upon. 		
Point Number	637.16		

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.5 Specific Area – Agriculture Research Centres > 22.5.2 Permitted Activities – Agricultural and Horticultural Research
Summary of Decision Requested	<p>Amend Rule 22.5.2 Permitted Activities – Agricultural and Horticultural Research as follows:</p> <p>P7 A staff facility that is incidental to agricultural or horticultural research that includes:</p> <ol style="list-style-type: none"> 1. A dwelling located at least 200m from the site containing Inghams Feed Mill in Hamilton City Council's jurisdiction; 2. A recreational facility; 3. <u>Social club;</u> 4. <u>Cafeteria or cafe.</u> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> • P7 is not necessary, as there is no need for a 200m setback for a dwelling in relation to the Inghams Feed Mill under P7(1). • This rule has been transferred from Rule 25C.4.1(j) of Schedule 25C of the Operative DP. • It was only relevant to the AgResearch Centre, which is no longer located within the Waikato District (now within HCC). • The Inghams Feed Mill is located over 2.5km from the nearest boundary of the LIC or DairyNZ Agricultural Research Centres. • 200m setback is not necessary. • A "social club" has not been included as an example of a staff facility despite being included in the original Rule 25C.4.1(j) of Schedule 25C of the Operative DP.
Point Number	637.17
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.5 Specific Area – Agriculture Research Centres > 22.5.2 Permitted Activities – Agricultural and Horticultural Research
Summary of Decision Requested	<p>Add the following activities to Rule 22.5.2 Permitted Activities – Agricultural and Horticultural Research as follows:</p> <p><u>P7 A Commercial activity that is incidental to agricultural or horticultural research.</u></p> <p><u>P8 Offices that are incidental to agricultural or horticultural research.</u></p> <p><u>P9 Laboratories that are incidental to agricultural or horticultural research.</u></p> <p><u>P10 Warehouse or storage facilities that are incidental to agricultural or horticultural research.</u></p> <p><u>P11 Conference facilities that are incidental to agricultural or horticultural research.</u></p> <p>Amend Rule 22.5.2 Permitted Activities – Agricultural and Horticultural Research as follows:</p> <p>P7 A staff facility that is incidental to agricultural or horticultural research that includes:</p> <ol style="list-style-type: none"> 1. A dwelling located at least 200m from the site containing Inghams Feed Mill in Hamilton City Council's jurisdiction; 2. A recreational facility; 3. <u>Social club;</u> 4. <u>Cafeteria or cafe.</u> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> • Under Rule 22.5.2, there are a number of other key activities integral and essential to the operation of the LIC and DairyNZ Agricultural Research Centres which are not listed as permitted activities. • These include: offices, laboratories, conference facilities, warehouse or storage facilities and staff cafeterias or cafes. • Concern that these activities would default to a non-complying activity. • This was not as problematic with the Operation District Plan because it has a more effects based where any activity is permitted if it complies with the relevant performance standards (and is not listed as restricted discretionary, discretionary or prohibited).
Point Number	637.8
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.5 Specific Area – Agriculture Research Centres > 22.5.2 Permitted Activities – Agricultural and Horticultural Research
Summary of Decision Requested	<p>Amend Rule 22.5.2 Permitted Activities – Agricultural and Horticultural Research, as follows:</p> <p>(a) The rules that apply to a permitted activity within the Agricultural Research Centres Specific Area as identified on the planning maps are as follows:</p> <p>(i) Rule 22.2 Land use – Effects;</p> <p>(ii) Rule 22.3 Land Use – Building; except for building within a Campus.</p> <p>A. Rule 22.3.4.1 Height – Building general will not apply and Rule 22.5.3.4 will apply instead; and Rule 22.5.3.4 will apply instead; and</p> <p>B. Rule 22.3.6 Building coverage will not apply and Rule 22.5.4.2 will apply instead.</p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> • Rule 22.5.2 lists permitted activities within the Agricultural Research Centres Specific Area. "An agricultural or horticultural research activity" is permitted in addition to various activities incidental to agricultural or horticultural research. • Under Schedule 25C (Agricultural Research Centres) of the Operative District Plan, Rule 25C.4.1(e) provides for "a commercial activity" that is "incidental to agricultural and horticultural research" as a permitted activity. • This rule has not been transferred to Rule 22.5.2. • As a result, Rule 22.1.5(1)(D), a discretionary activity resource consent would be required for a "commercial activity". • The submitter seeks a continued permitted activity status consistent with Schedule 25C of the Operative District Plan.

Point Number	639.15		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.5 Specific Area – Agriculture Research Centres > 22.5.2 Permitted Activities – Agricultural and Horticultural Research		
Summary of Decision Requested	<p>Amend Rule 22.5.2 Permitted Activities – Agricultural and Horticultural Research as follows:</p> <p>P6 Disposal or storage of solid organic waste or cleanfill that is incidental to agricultural or horticultural research where the extracted material is used on the Agricultural Research Centre site.</p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • P6 is not necessary to provide for the on-site disposal or storage of solid organic or cleanfill waste, or an extractive industry for on-site use. The relevant Waikato Regional Plan rules are adequate and can be relied upon. 		

Point Number	639.16
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.5 Specific Area – Agriculture Research Centres > 22.5.2 Permitted Activities – Agricultural and Horticultural Research
Summary of Decision Requested	<p>Amend Rule 22.5.2 Permitted Activities – Agricultural and Horticultural Research as follows:</p> <p>P7 A staff facility that is incidental to agricultural or horticultural research that includes:</p> <ol style="list-style-type: none"> 1. A dwelling located at least 200m from the site containing Inghams Feed Mill in Hamilton City Council's jurisdiction; 2. A recreational facility; 3. <u>Social club;</u> 4. <u>Cafeteria or cafe.</u> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> • P7 is not necessary, as there is no need for a 200m setback for a dwelling in relation to the Inghams Feed Mill under P7(1). • This rule has been transferred from Rule 25C.4.1(j) of Schedule 25C of the Operative DP. • It was only relevant to the AgResearch Centre, which is no longer located within the Waikato District (now within HCC). • The Inghams Feed Mill is located over 2.5km from the nearest boundary of the LIC or DairyNZ Agricultural Research Centres. • 200m setback is not necessary. • A "social club" has not been included as an example of a staff facility despite being included in the original Rule 25C.4.1(j) of Schedule 25C of the Operative DP.
Point Number	639.17
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.5 Specific Area – Agriculture Research Centres > 22.5.2 Permitted Activities – Agricultural and Horticultural Research
Summary of Decision Requested	<p>Add the following activities to Rule 22.5.2 Permitted Activities – Agricultural and Horticultural Research as follows:</p> <p><u>P7 A Commercial activity that is incidental to agricultural or horticultural research.</u></p> <p><u>P8 Offices that are incidental to agricultural or horticultural research.</u></p> <p><u>P9 Laboratories that are incidental to agricultural or horticultural research.</u></p> <p><u>P10 Warehouse or storage facilities that are incidental to agricultural or horticultural research.</u></p> <p><u>P11 Conference facilities that are incidental to agricultural or horticultural research.</u></p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> • Under Rule 22.5.2, there are a number of other key activities integral and essential to the operation of the LIC and DairyNZ Agricultural Research Centres which are not listed as permitted activities. • These include: offices, laboratories, conference facilities, warehouse or storage facilities and staff cafeterias or cafes. • Concern that these activities would default to a non-complying activity. • This was not as problematic with the Operation District Plan because it has a more effects based where any activity is permitted if it complies with the relevant performance standards (and is not listed as restricted discretionary, discretionary or prohibited).
Point Number	639.8
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.5 Specific Area – Agriculture Research Centres > 22.5.2 Permitted Activities – Agricultural and Horticultural Research
Summary of Decision Requested	<p>Amend Rule 22.5.2 Permitted Activities – Agricultural and Horticultural Research as follows:</p> <p>(a) <i>The rules that apply to a permitted activity within the Agricultural Research Centres Specific Area as identified on the planning maps are as follows:</i></p> <p>(i) <i>Rule 22.2 Land use – Effects;</i></p> <p>(ii) <i>Rule 22.3 Land Use – Building; except for building within a Campus</i></p> <p><i>A. Rule 22.3.4.1 Height – Building general will not apply and Rule 22.5.3.4 will apply instead; and Rule 22.5.3.4 will apply instead; and</i></p> <p><i>B. Rule 22.3.6 Building coverage will not apply and Rule 22.5.4.2 will apply instead.</i></p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> • Rule 22.5.2 lists permitted activities within the Agricultural Research Centres Specific Area. "An agricultural or horticultural research activity" is permitted in addition to various activities incidental to agricultural or horticultural research. • Under Schedule 25C (Agricultural Research Centres) of the Operative District Plan, Rule 25C.4.1(e) provides for "a commercial activity" that is "incidental to agricultural and horticultural research" as a permitted activity. • This rule has not been transferred to Rule 22.5.2. • As a result, Rule 22.1.5(1)(D), a discretionary activity resource consent would be required for a "commercial activity". • The submitter seeks a continued permitted activity status consistent with Schedule 25C of the Operative District Plan.

Submitter Number:	781	Submitter:	Ministry of Education
Point Number	781.28		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.5 Specific Area – Agriculture Research Centres > 22.5.2 Permitted Activities – Agricultural and Horticultural Research		
Summary of Decision Requested	<p>Amend Rule 22.5.2 P2 Permitted Activities - Agricultural and Horticultural Research as follows:</p> <p><u>P2 An education facilities that is incidental to agricultural or horticultural research.</u></p> <p><u>Any education facilities which are not incidental to agricultural or horticultural research is a restricted discretionary activity.</u></p> <p>AND</p> <p>Add a new Rule 22.5.3 Restricted Discretionary Activities as follows:</p> <p><u>22.5.3 Restricted Discretionary Activities</u></p> <p><u>(1) The activities listed below are restricted discretionary activities</u></p> <p>Activity</p> <p><u>RD3 Education facilities</u></p> <p>Council's discretion shall be restricted to the following matters:</p>		

- a. The extent to which it is necessary to locate the activity within the Rural Zone.
- b. Reverse sensitivity effects of adjacent activities.
- c. The extent to which the activity may adversely impact on the transport network.
- d. The extent to which the activity may adversely impact on the streetscape.
- e. The extent to which the activity may adversely impact on the noise environment.

Decision Reasons:

- The submitter supports the permitted activity status for agricultural and horticultural research in the Rural Zone.
- However, other education facilities such as schools, community education, early childhood education, tertiary education institutions, outdoor education centres and sports training establishments locate within rural areas are an essential social infrastructure.
- A restricted discretionary activity status is therefore requested for education facilities that are not incidental to agricultural and horticultural research.

Organisation:	Genesis Energy Limited		
Point Number	924.38		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.6 Specific Area - Huntly Power Station - Coal and Ash Water		

Summary of Decision Requested	Amend Section 22.6 Specific Area-Huntly Power Station-Coal and Ash Water to create a stand alone set of rules for the Huntly Power Station as set out in the submission.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of the Waikato District Council in addressing concerns raised in the previous feedback provided by the submitter in relation to coal and ash management. However, the rules proposed in the Rural Zone chapter are unnecessarily complex and involve a significant degree of cross referencing. The submitter considers that given the specificity of the ash management practices to the Huntly Power Station (in that few other activities in the district would require rules of this nature) a standalone rule, specific to the Huntly Power Station activities should be created that does not rely on cross referencing. The ash ponds are not the final location for disposal of the ash. It is an ash management facility where by the suspended solids (i.e. ash) are separated from the ash water. The ash water is returned to the Huntly Power Station and discharged via the cooling water outfall. The solid ash is reclaimed from the ponds, stockpiled (for drying) and then transported to an appropriate offsite disposal facility. The submitter considers that all of these activities should be covered by way of a specific permitted activity rule. Therefore, the specific area should be renamed "Huntly Power Station: Coal and Ash Management Specific Area."

Submitter Number: 553 **Submitter:** Malibu Hamilton

Point Number 553.23

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.7 Specific Area – Whaanga Coast Development Areas

Summary of Decision Requested **Retain** the following rules in Rule 22.7 Specific Area – Whaanga Coast Development Areas:

- 22.7.1.1 Permitted Activities
- 22.7.1.2 Discretionary Activities (1)
- 22.7.1.3 Earthworks within a Development Area
- 22.7.1.4 Building height within a Development Area

- 22.7.1.5 Accessory building within a Development Area
- 22.7.1.6 Building setback within a Development Area
- 22.7.1.7 Papakainga Building – Gross Floor Area
- 22.7.1.8 Dwelling – Gross Floor Area

Decision Reasons:

- The New Zealand Coastal Policy Statement 2010 in Policy (d) recognises Tangata whenua needs for papakāinga, marae.
- The Waikato Regional Policy Statement, 2016 also has Policy 6.4 Marae and papakāinga provisions.
- The Future Proof Strategy Planning for Growth November 2017 has Priority 15 that seeks developments of papakāinga housing that meets the needs and aspirations in the sub-region.
- RMA sections 6(e), 7(a), and 8 set out legal obligations when managing the natural and physical resources of the region to Tangata whenua.

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.843

Plan chapter Section C Rules > Chapter 22: Rural Zone > 22.7 Specific Area – Whaanga Coast Development Areas

Summary of Decision Requested Amend the heading of Rule 22.7 Specific Area - Whaanga Coast Development Areas, as follows:

Whaanga Coast

AND

Amend to make consequential changes where relevant.

Decision Reasons:

- This is to provide consistency with the name for the Whaanga Coast Specific Area.

~~22.1.3 (Restricted Discretionary Activities);~~
~~22.1.4 (Discretionary Activities); and~~
~~22.1.5 (Non-complying Activities);~~*

(2) The rules that apply to a permitted activity in 22.8.2 P1-18 within the Lakeside Te Kauwhata Precinct are as follows:

(a) Rule 22.2 (Land Use - Effects), except:

(i) Rule 22.2.7.1 (Earthworks - General) does not apply where earthworks consent has been obtained under Rule 22.8.8 (Comprehensive Land Development Consent);

(b) The following provisions in Rule 22.3 (Land Use - Building):

(i) Rule 22.3.4 (Height);

(ii) Rule 22.3.5 (Daylight admission);

(iii) Rule 22.3.6 (Building coverage);

(iv) Rule 22.3.7 (Building setbacks);

(3) Rule 22.8.6 and 22.8.7 apply to subdivision in the Te Kauwhata Precinct in addition to:

(a) Rule 22.4.1.7 Subdivision creating Reserves; and

(b) Rule 22.4.7 (Esplanade reserves and Esplanade strips);

~~(4) The following precinct plan applies to the Rural Zone in the Lakeside Te Kauwhata Precinct as identified on the planning maps.~~

AND

Amend the Proposed District Plan to make any amendments or consequential changes that are necessary to give effect to the matters raised in the submission.

Decision Reasons:

- Needs to be reformatted so that it is clear which provisions apply within the Precinct and also to be consistent with the layout of the Business Zone provisions.

Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.8 Lakeside Te Kauwhata Precinct > 22.8.3 Restricted Discretionary Activities		
Summary of Decision Requested	Add a new matter of discretion to Rule 22.8.3 RD1 - Restricted Discretionary Activities, as follows: <u>(v) environmental effects.</u>		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	579	Submitter:	Simon Ash
Organisation:	Lakeside Developments 2017 Limited		
Point Number	579.21		
Plan chapter	Section C Rules > Chapter 22: Rural Zone > 22.8 Lakeside Te Kauwhata Precinct > 22.8.3 Restricted Discretionary Activities		
Summary of Decision Requested	Add a new restricted discretionary activity rule to Rule 22.8.3(1) as follows: <u>Activity;</u> <u>RDI</u> <u>(a) A comprehensive land development consent (CLDC) that meets all of the following conditions:</u> <u>(i) is in accordance with Te Kauwhata Lakeside Precinct Plan 16.5.1(3)(a); the roading network, walkways and cycle ways shown on Precinct Plan 16.5.1(3)(v); and the open space shown on Precinct Plan 16.5.1(3)(c) as set out in the precinct parameters below; and</u> <u>(b) A CLDC is in accordance with the Lakeside Precinct Plans identified below if:</u> <u>(i) Primary roads are within 50m of the location shown on Precinct Plan 16.5.1(3)(b); and</u> <u>(ii) Bus route is either on the alignment shown on Precinct Plan 16.5.1(3)(b) or a continuous alignment that achieves the same circulation; and</u> <u>(iii) Subject to (v) below, the indicative walkways/cycle ways are within 100m of the location shown on Precinct Plan 16.5.1(3)(b), provided that connections are retained between the Lakeside Walkway and the residential development; and</u> <u>(iv) Subject to (v) below, the Lakeside Walkway is within 30m of the location shown on Precinct Plan 16.5.1(3)(b);</u> <u>(v) Any walkway/cycle way or the Lakeside Walkway that needs to be aligned so as to avoid an area of infested alligator weed as identified within in alligator weed management plan may be relocated from the alignment shown on 16.5.1(3)(b) to the extent necessary to avoid the infested area.</u> <u>(c) A CLDC can relate to the entire Te Kauwhata Lakeside Precinct Plan Area, or may be for an individual stage or stages beyond the business zone, provided that an individual stage is 5ha or more.</u> <u>(d) Applications for approval of a CLDC as a restricted discretionary activity will be considered without public notification and without the need to serve notice on or obtain the written approval of any affected persons.</u>		

(g) LDC approval does not constitute authorization by the Waikato District Council as road controlling authority in terms of Section 357 of the Local Government Act 1974. Written authorisation is required from the Waikato District Council prior to any works commencing that affect public roads.

Matters of Discretion:

(g) Council's discretion is reserved over:

(i) consistency with the Te Kauwhata Lakeside Precinct Plans in 16.5.1(3)(a), 16.5.1(3)(b) and 16.5.1(3)(c);

(ii) managing the effects of wastewater and stormwater;

(iii) roading network and compliance with a Council-approved roading standard;

(iv) provision and location of existing and future utilities and connections;

(v) location of roads and their connections;

(vi) provision of open space, including linkages between residential areas, open space and Lake Waikare;

(vii) effects of natural hazards (including flooding), geotechnical suitability and land contamination.

AND

Amend the Proposed District Plan to make any amendments or consequential changes that are necessary to give effect to the matters raised in the submission.

Decision Reasons:

- The provision for a Comprehensive Land Development Consent (CLDC) has been omitted from the provisions.
- The inclusion of a CLDC as a restricted discretionary activity is necessary as there is infrastructure and earthworks that need to be installed in the Rural Zone within the Te Kauwhata Precinct to service the residential development.
- The provision for a CLDC in the Rural Zone was accepted as part of Plan Change 20.

Point Number

579.26

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.8 Lakeside Te Kauwhata Precinct > 22.8.3 Restricted Discretionary Activities

Summary of Decision Requested

Add a provision for a CLDC as a restricted discretionary activity to Rule 22.8.3 RD1 Restricted Discretionary Activities.

AND

Amend the Proposed District Plan to make any amendments or consequential changes that are necessary to give effect to the matters raised in the submission.

Decision Reasons:

- Provision for a CLDC is necessary to enable the required infrastructure to be installed within the Rural zoned land in the Te Kauwhata precinct.

Point Number

579.74

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.8 Lakeside Te Kauwhata Precinct > 22.8.3 Restricted Discretionary Activities

Summary of Decision Requested

Delete Rule 22.8.3 RD1 Restricted Discretionary Activities (relating to Intensive Farming).

AND

Amend the Proposed District Plan to make any amendments or consequential changes that are necessary to give effect to the matters raised in the submission.

Decision Reasons:

- Rural industry and intensive farming are not appropriate to adjoin large scale residential development.

Point Number

Point Number

695.103

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.8 Lakeside Te Kauwhata Precinct > 22.8.3 Restricted Discretionary Activities

Summary of Decision Requested

Amend Rule 22.8.3 RD1(c)(ii) A and B Restricted Discretionary Activities, to have a 1200m setback apply to the said zones and if an existing pig farm already occurs at that setback, then the effects of that have to be taken into account as well;

AND

Amend Rule 22.8.3 RD1(c)(ii) A and B Restricted Discretionary Activities, to require any development occurring within that setback to have an enforced Council non complaints covenant applied.

Decision Reasons:

- The concern with inequitable distribution rules such as this is that they do not relate to real world operations and realistic assessment of effects.
- If a consented activity with 500 pigs approved later wishes to expand to 550 pigs in the same location and is 1,320m setback, the setback per pig is just the same as 500 pigs at 1,200m.
- If the same operator starts a second pig farm at 1,200m setback it would have the same effect as a 1,000 pig operation at 1,200m setback.

Point Number

695.104

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.8 Lakeside Te Kauwhata Precinct > 22.8.3 Restricted Discretionary Activities

Summary of Decision Requested

Amend Rule 22.8.3 RD1(c)(ii) A and B Restricted Discretionary Activities, to include a setback requirement of equivalent distance (1200m) from the Paa Zone.

Ministry of Education

Point Number

781.14

Plan chapter

Section C Rules > Chapter 22: Rural Zone > 22.8 Lakeside Te Kauwhata Precinct > 22.8.4 Discretionary Activities

Summary of Decision Requested

Delete Rule 22.8.4 D6 Discretionary Activities for an education facility.

AND

Amend Rule 22.8.3 Restricted Discretionary Activities as follows:

Activity

[RD3 Education facilities](#)

Council's discretion shall be restricted to the following matters:

- a. The extent to which it is necessary to locate the activity in the Lakeside Te Kauwhata Precinct.
- b. Reverse sensitivity effects of adjacent activities.
- c. The extent to which the activity may adversely impact on the transport network.
- d. The extent to which the activity may adversely impact on the streetscape.
- e. The extent to which the activity may adversely impact on the noise environment.

Decision Reasons:

- Opposes the activity status given to education facilities in this zone.
- Education facilities such as schools, community education, tertiary education institutions, work skills training centres, outdoor education centres and sports training establishments within rural areas are essential social infrastructure.
- The submitter requests consistency with their requested definition of 'Education facilities'.

Plan chapter: Section C Rules > Chapter 23: Country Living Zone

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.92		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone		
Summary of Decision Requested	No specific decision sought, however submission refers to Chapter 23 Country Living Zone.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	418	Submitter:	Ethan Findlay
Point Number	418.16		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone		
Summary of Decision Requested	No specific decision sought, but submission opposes Chapter 23 Country Living Zone.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.74		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone		
Summary of Decision Requested	<p>Retain Chapter 23: Country Living Zone subject to ensuring alignment and giving effect to the submitter's 'Area of Interest' (shown in map attached to submission) and supporting objectives, policies, rules and methods. Objectives and policies are sought which ensure that land use within the 'Area of Interest' (shown in map attached to submission) is controlled and enabled at a rate which is consistent with and prioritises Hamilton City Council's strategic land use plans and urban growth strategies including avoidance of urban sprawl, inefficient use of land and infrastructure and non-rural land uses.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Sustainable management requires a cross boundary and integrated approach to strategic land use issues. Objectives and policies are sought to ensure that land use within this area if controlled and enabled at a rate which is consistent with Hamilton City Council's strategic land use plans and urban growth strategies that address the avoidance of urban sprawl, inefficient land use and infrastructure and non-rural land uses. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.844		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone		
Summary of Decision Requested	<p>Amend Chapter 23 Country Living Zone heading, as follows:</p> <p><i>Chapter 23: Country Living Zone – Rules</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> This is to assist in clarifying that all of the provisions within the chapter are rules. 		
Point Number	697.845		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone		
Summary of Decision Requested	<p>Amend Rule 23(2) Country Living Zone, as follows:</p> <p><i>The rules that apply to subdivision in the Country Living Zone are contained in Rule 23.4 and the relevant rules in 14 Infrastructure and Energy, and 15 Natural Hazards and Climate Change (Placeholder).</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> This is to clarify that the rules in Chapter 14: Infrastructure and Energy and Chapter 15: Natural Hazards and Climate Change apply to subdivision as well as to land use activities. 		

Submitter Number:	738	Submitter:	Shand Properties Limited
Point Number	738.4		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone		
Summary of Decision Requested	Retain Chapter 23 Country Living Zone Rules, except Rule 23.4 Subdivision.		
Decision Reasons:	<ul style="list-style-type: none"> The proposed rules generally provide an appropriate framework for assessing and managing effects of activities in the Country Living Zone. 		

Submitter Number:	830	Submitter:	Linda Silvester
Point Number	830.22		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone		
Summary of Decision Requested	Add new provisions to Chapter 23 Country Living Zone to include energy efficiency policies and rules (see submission for wording)		
Decision Reasons:	<ul style="list-style-type: none"> The Proposed District Plan only makes passing reference to climate change and says nothing about coal, gas and oil's effect on global warming. It is disappointing that Stage 2 of the Proposed District Plan is to be published in 2019 and that is not possible to consider it in context with this part of the Plan. Section 1.9.5 reflects the Resource Management Act requirements around climate change and renewable energy. 		

Submitter Number:	845	Submitter:	Grace M Wilcock
Point Number	845.6		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone		
Summary of Decision Requested	Add a new rule to Rule 23.4 Subdivision similar to Policy 3.2.8 (Natural Environment – Incentivise subdivision); AND Amend Policy 3.2.8 Incentivise subdivision, to apply to the Country Living Zone.		
Decision Reasons:	<ul style="list-style-type: none"> Property owners in the Country Living Zone are equally affected by this new environmental policy. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.1		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone		
Summary of Decision Requested	Amend Chapter 23: Country Living Zone to add a statement of purpose and anticipated outcomes of corresponding zone or subzone, and where appropriate make links to health and wellbeing considerations.		
Decision Reasons:	<ul style="list-style-type: none"> Currently there are no statements of purpose or descriptions for any of the zones or the intended outcomes to be achieved, leading to a reliance on objectives, policies and explanations within Section B of the Plan, which are based under generic heading topics with little zone based commentary. There is an opportunity to clarify the purpose of a zone and increase understanding of outcomes, and appropriate types of activities for the different environments. The amendments would assist with a clear understanding of the purpose and character of the various zones. 		

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.68		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities		
Summary of Decision Requested	No specific decision sought, however submission refers to Rule 23.1 - Land Use- Activities and/or all rules sitting under Rule 23.1 Land Use-Activities.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		
Point Number	330.93		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities		
Summary of Decision Requested	No specific decision sought, however submission refers to Rule 23.1 Land Use - Activities, and all rules sitting under Rule 23.1.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	419	Submitter:	Lucy Deverall
--------------------------	-----	-------------------	---------------

Organisation:	Horticulture New Zealand
Point Number	419.42
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities
Summary of Decision Requested	Add a new permitted activity to Rule 23.1 Land use - Activities, that provides for rural production that is existing at the time the Proposed Plan is made operative. AND Any consequential or additional amendments as a result of changes sought in the submission.
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers that existing rural production activities should be provided for as a permitted activity, although no reasons have been provided.
Point Number	419.43
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities
Summary of Decision Requested	Add a new discretionary activity to Rule 23.1 Land use - Activities, that provides for rural production activities within the Country Living Zone. AND Any consequential or additional amendments as a result of changes sought in the submission.
Decision Reasons:	<ul style="list-style-type: none"> Under the proposed planning framework, farming would be a non-complying activity. This is inconsistent with Policy 5.6.9 Existing non-residential activities, which supports expansion and operation of existing non-residential activities within the Country Living Zone.

Submitter Number:	466	Submitter:	Brendan Balle
Organisation:	Balle Bros Group Limited		
Point Number	466.28		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities		
Summary of Decision Requested	Amend Rule 23.1 Land Use – Activities to include farming as a specified activity within the Country Living Zone.		
Decision Reasons:	<ul style="list-style-type: none"> Lot sizes within the Country Living Zone area must have a net site area of 5000m2. Many people will buy these as lifestyle lots. Farming however, has not been listed as PA, RDA or DA within this zone and by default is therefore considered to be noncomplying in accordance with NC12. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.457		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities		
Summary of Decision Requested	Add new provisions to Chapter 23 Country Living Zone for alterations and additions to existing retirement villages as a Restrictive Discretionary Activity; AND Add new policies in Chapter 5 (Rural Environment) for the Country Living Zone.		
Decision Reasons:	<ul style="list-style-type: none"> This will enable additions or alterations to existing retirement villages within the Country Living Zones and provide a range of housing options for older persons. 		

Submitter Number:	765	Submitter:	Tamahere Eventide Home Trust
On behalf of:	Atawhai Assisi Retirement Village		
Point Number	765.4		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities		
Summary of Decision Requested	Add a restricted discretionary table into Rule 23.1 Land Use- Activities with a new restricted discretionary activity for retirement villages as follows: <i>RD1 (g) The following Retirement Village Activities are Restricted Discretionary in the Country Living Zone:</i> 1. <i>A new retirement village</i> 2. <i>Alterations to existing retirement villages (excluding Tamahere Eventide);</i> 3. <i>Alterations to Tamahere Eventide that do not comply with the Activity Specific Conditions in Rule 23.1.1.</i> AND Any consequential amendments that are required to give effect to the above submission.		
Decision Reasons:	<ul style="list-style-type: none"> Activity Tables in Chapter 23 do not include any provisions for Restricted Discretionary Activities. Restricted Discretionary activity status is considered appropriate for the activities identified in 1-3. 		

Submitter Number:	945	Submitter:	First Gas Limited
--------------------------	-----	-------------------	-------------------

Point Number	945.22
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities
Summary of Decision Requested	<p>Add a new Restricted Discretionary Activity to Rule 23.1 Land Use Activities as follows:</p> <p><u>Establishment of a residential activity or use within 20m of a gas transmission pipeline.</u></p> <p><u>Establishment of a residential activity or use within 60m of the gas network (other than a gas transmission pipeline).</u></p> <p><u>Establishment of a sensitive land use (excluding residential activities within 60m of the gas network.</u></p> <p>AND</p> <p>Add the following matter of discretion to Rule 23.1 Land Use Activities:</p> <p>(a) <i>The extent to which the development will avoid or mitigate conflict with the gas network.</i></p> <p>AND</p> <p>Any consequential amendments and other relief to give effect to the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> In order to protect the gas network inclusive of delivery points the submitter seeks to include a minimum setback between a delivery point and sensitive land use. The submitter seeks to include an additional matter over which Council's discretion shall be limited under RD1 (b) to address potential reverse sensitivity effects on the gas network inclusive of delivery points.

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.68		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities		
Summary of Decision Requested	<p>Add new matters of discretion relating to non-compliance with the 5m Building setback - railway corridor (sought elsewhere in other submission points) in Rule 23.1 Land Use Activities as follows (or similar amendments to achieve the requested relief):</p> <p><u>1. The size, nature and location of the buildings on the site.</u></p> <p><u>2. The extent to which the safety and efficiency of rail and road operations will be adversely affected.</u></p> <p><u>3. The outcome of any consultation with KiwiRail.</u></p> <p><u>4. Any characteristics of the proposed use that will make compliance unnecessary.</u></p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail accepts that there will be at times situations where the proposed 5 metre Building setback - railway corridor rule cannot be met, or it is inappropriate to require compliance It is noted that some zones have restricted discretionary activity categories and some don't. It's been KiwiRail's policy to seek restricted discretionary activity status for non-compliance with its noise and vibration performance standards. The criteria allow for a bespoke consideration of site specific effects. Application for resource consent under this rule can be decided without public notification. KiwiRail are likely to be the only affected person determined in accordance with section 95B of the Resource Management Act 1991. 		

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities

Submitter Number:	328	Submitter:	Paula Dudley
Point Number	328.6		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities		
Summary of Decision Requested	Amend Rule 23.1.1 P3 (c) Permitted Activities for Operating hours of temporary events to be shortened with some flexibility during daylight savings.		
Decision Reasons:	<ul style="list-style-type: none"> Safety concerns with public entry and activity(s) on neighboring historical reserve to property owners and residents. Safety concerns for neighbouring residents near public reserves. 		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.38		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities		
Summary of Decision Requested	<p>Add a new activity to Rule 23.1.1 Permitted Activities as a permitted activity as follows:</p> <p><u>(x) Emergency services training and management activities.</u></p> <p>AND</p> <p>Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand opposes the range of activities listed in Rule 23.1.1 to the extent that no provision is explicitly made for emergency services training and management activities. The rules should be expanded to provide for emergency services training and management activities in order to better achieve the sustainable management purpose of the Act and better enable Fire and Emergency New Zealand to achieve its statutory function by facilitating firefighting and emergency response. 		

Submitter Number:	389	Submitter:	Jonathan Quigley
Organisation:	J and T Quigley Ltd		
Point Number	389.8		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities		
Summary of Decision Requested	<p>Add a new activity for childcare facility to Rule 23.1.1 Permitted Activities, as follows:</p> <p><u>P5 Child Care Facility A child care facility established prior to notification of the District Plan and within 1km of a Village Zone</u></p> <p>AND</p> <p>Amend the Proposed District Plan to include all necessary, consequential or further relief required to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • JTQL is concerned that JTQLs activities may not fit within the definition of Rural Activity. • There is no confirmation in the plan, that a child care facility fits within activity. • Therefore, the child care facility that has been legally established potentially is not considered as a permitted activity in the Rural Zone or Country Side Living. • Village Living Zone appears to be the best zone for the JTQL site (25 Tamahere Drive). 		

Submitter Number:	435	Submitter:	Jade Hyslop
Point Number	435.15		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Home stay provisions in Rule 23.1.1 Permitted Activities, to provide for registration of Homestay or Visitor accommodation.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Raglan needs a plan similar to Queenstown to avoid more residential accommodation becoming available only to visitors. • Residents tend to move to and from surrounding country areas, the same policy needs to apply there also. 		

Submitter Number:	696	Submitter:	Brenda and Gavin Butcher
Organisation:	Parkmere Farms		
Point Number	696.2		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 23.1.1 Permitted Activities, to include a small-scale childcare as a permitted activity.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Small-scale childcare offers a vital social service to the community. • Small-scale childcare has no effects greater than a large family. • The activity is appropriate in the Country Living Zone. • Inclusion of small-scale childcare as a separate activity will clarify the distinction between home occupations (which are permitted) and education facility (which currently requires consent as a Discretionary activity). 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.846		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 23.1.1 P1 Permitted Activities, as follows:</p> <p>(g) Activity-specific conditions; (b) Land Use – Effects rules in Rule 22.2 (unless the activity rule and/or activity-specific conditions identify a condition(s) that does not apply); (c) Land Use – Building rules in Rule 22.3 (unless the activity rule and/or activity-specific conditions identify a condition(s) that does not apply); (e) Activity-specific conditions.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The list of rules (a) – (c) should follow the order that they appear. 		
Point Number	697.847		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 23.1.1 P2 Permitted Activities, as follows:</p> <p>Home stay <u>for up to 4 people</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • This amendment makes it clear that the activity is permitted for up to 4 people. 		
Point Number	697.848		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 23.1.1 P4(d) and (e) Permitted Activities, as follows:</p> <p>(d) Unloading and loading of vehicles and/or the receiving of customers at and deliveries can only occur after 7:30am and before 7:00pm on any day; (e) Machinery may only be operated after 7:30am and up to 9pm on any day.</p>		

Decision Reasons:	<ul style="list-style-type: none"> To align the hours for the activity with the noise rule (23.2.1) for this zone.
Point Number	697.849
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities
Summary of Decision Requested	<p>Add a new permitted activity (P5) to Rule 23.1.1 P5 Permitted Activities, as follows:</p> <p><u>P5</u> <u>Travellers' Accommodation.</u></p> <p><u>(g) For up to 5 people.</u></p>
Decision Reasons:	<ul style="list-style-type: none"> Travellers' accommodation has been provided for as a Discretionary Activity, but not a permitted activity. This needs to be consistent with other zone chapters.
Point Number	697.850
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities
Summary of Decision Requested	<p>Add a new permitted activity (P6) to Rule 23.1.1 Permitted Activities, as follows:</p> <p><u>Amendment or alteration to an existing retirement village.</u></p> <p><u>Specific activity conditions:</u></p> <p><u>(a) The site is already serviced with water, wastewater and stormwater infrastructure;</u> <u>(b) Total building coverage of the site or combination of sites does not exceed 6.5% including all impervious surfaces areas; and</u> <u>(c) Building height does not exceed 8m, except for 10m on 30% of the total site coverage.</u></p>
Decision Reasons:	<ul style="list-style-type: none"> A new rule is required to accommodate Tamahere Eventide.

Submitter Number:	724	Submitter:	Sue Robertson
Organisation:	Tamahere Community Committee		
Point Number	724.3		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 23.1.1 P4 Permitted Activities - home occupations, by replacing the notified conditions with the conditions for home occupations in this zone as set out in the Waikato Section of the Operative Waikato District Plan.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The notified conditions will result in the amenity of the Countryside Living Zone being degraded. This is because these conditions: <ul style="list-style-type: none"> defer to the infrastructure requirements in Chapter 14 Infrastructure; allow home occupations to operate up to 9pm; set no limit on daily vehicle movements or heavy vehicle movements; and do not manage interference with neighbours' televisions, radios, telephones or electronic equipment. The aspects of Rule 23.1.1 P4 that are supported: <ul style="list-style-type: none"> The removal of the 40m² gross floor area limit. The requirement for the activity to be wholly contained in the dwelling or ancillary building.

Point Number	765.3		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities		
Summary of Decision Requested	<p>Add a new activity to Rule 23.1.1 Permitted Activity for Tamahere Eventide as follows:</p> <p><u>PS. A retirement village (including alterations, expansions) at the Tamahere Eventide.</u></p> <p>AND</p> <p>Add activity specific conditions to Rule 23.1.1 PS Permitted Activity for Tamahere Eventide as follows:</p> <p><u>Any additions or expansion at the Tamahere Eventide Retirement Village</u></p> <p><u>(a) Minimum living court or balcony area and dimensions:</u></p> <p><u>(iv) Apartment- 10m² area within minimum dimension horizontal and vertical of 2.5m;</u></p> <p><u>(v) Studio unit or 1 bedroom unit- 12.5m² area with minimum dimension horizontal and vertical of 2.5m; or</u></p> <p><u>(vi) 2 or more bedroomed unit- 15m² area with minimum dimension horizontal and vertical of 2.5m;</u></p> <p><u>(g) Minimum service court is either:</u></p> <p><u>(iii) Apartment- communal outdoor space (i.e. no individual service courts required); or</u></p> <p><u>(iv) All other units- 10m² for each unit;</u></p> <p><u>(g) Building height does not exceed 8m, except 15% of total building coverage, where buildings may be up to 10m high;</u></p> <p><u>(b) Building setbacks – a 7.5m setback is required from a local road, and a 12m setback is required from all other boundaries; except internal site boundaries where no setback shall apply;</u></p> <p><u>(c) The following Land Use- Effects rule in Rule 23.2 do not apply;</u></p> <p><u>(i) Rule 23.2.6 (Signs- General);</u></p> <p><u>(ii) Rule 23.2.6.2 (Signs- Effects on traffic);</u></p> <p><u>(g) The following Land Use- Building rules in Rule 23.3 do not apply;</u></p> <p><u>(i) Rule 23.3.1 (Dwelling);</u></p> <p><u>(ii) Rule 23.3.4.1 (Height- Building General);</u></p> <p><u>(iii) 23.3.5 Daylight Admission</u></p> <p><u>(iv) 23.3.6 Building Coverage</u></p> <p><u>(v) Rule 23.3.7.2 Building Setback- Sensitive Land Use.</u></p> <p><u>(g) The following Infrastructure and Energy Rule in Chapter 14 does not apply;</u></p> <p><u>(i) Rule 14.12.1 P4 10 (g).</u></p> <p>AND</p> <p>Any consequential amendments that are required to give effect to the above submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Permitted Activity Table in Rule 23.1.1 does not include any provisions for existing and future retirement villages at Tamahere Eventide and is therefore opposed. Operative District Plan includes a site specific schedule for Tamahere Eventide Village and allows for a range of Retirement Village activities as a Permitted Activity. In the Proposed Plan, Tamahere Eventide is a Non-Complying in the Country Living Zone. Submitter recognises adoption of zone wide provisions for retirement villages provides appropriate certainty and guidance for operations establishing new retirement village developments, however it does not appropriately recognise or protect existing retirement village developments. The Proposed District Plan does not differentiate between establishment of a 'new' retirement village and/or minor alterations or additions to an 'existing' retirement village. Minor alterations/extensions would require resource consent for a non-complying activity under the Proposed Plan provisions and is opposed.

On behalf of:	Tamahere Eventide Retirement Village		
Point Number	769.4		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities		
Summary of Decision Requested	<p>Add a new activity rule to Rule 23.1.1 Permitted Activities as follows:</p> <p><u>PS. A retirement village including alterations and expansions at Atawhai Assisi.</u></p> <p>AND</p> <p>Add activity specific conditions for the new Rule 23.1.1 PS as follows:</p> <p><u>Any additions or expansion at the Atawhai Assisi Retirement village</u></p> <p><u>(a) Minimum living court or balcony area and dimensions:</u></p> <p><u>(iv) Apartment- 10m² area within minimum dimension horizontal and vertical of 2.5m;</u></p> <p><u>(v) Studio unit or 1 bedroom unit- 12.5m² area with minimum dimension horizontal and vertical of 2.5m; or</u></p> <p><u>(vi) 2 or more bedroomed unit- 15m² area with minimum dimension horizontal and vertical of 2.5m;</u></p> <p><u>(b) Minimum service court is either:</u></p> <p><u>(iii) Apartment- communal outdoor space (i.e. no individual service courts required); or</u></p> <p><u>(iv) All other units- 10m² for each unit;</u></p> <p><u>(c) Building height does not exceed 8m, except for 15% of the total building coverage, where buildings may be up to 10m high;</u></p> <p><u>(d) Building setbacks- a 7.5m setback is required from a local road, and 12m setback is required from all other boundaries; except internal site boundaries where no setback shall apply. A 12m setback is required from the Waikato Expressway.</u></p> <p><u>(e) The following Land Use- Effects rule in Rule 23.2 do not apply;</u></p> <p><u>i. Rule 23.2.6 (Signs-General);</u></p>		

ii. Rule 23.2.6.2 (Signs- effects on traffic).

(f) The following Land Use- Building rules in Rule 23.3 do not apply:

i. Rule 23.3.1 (Dwelling);

ii. Rule 23.3.4.1 (Height- Building General)

iii. 23.3.5 Daylight Admission

iv. 23.3.6 Building Coverage

v. Rule 23.3.7.1 Building Setbacks- all boundaries

vi. Rule 23.3.7.2 Building Setback- Sensitive land use

(g) The following Infrastructure and Energy Rule in Chapter 14 does not apply;

i. Rule 14.12.1 P4(10), (g) Traffic Generation

AND

Amend the Proposed District Plan to make consequential amendments to give effect to the submission.

Decision Reasons:

- Retirement village is specifically identified as a Non-Complying activity in the Country Living Zone.
- The submitter seeks to retain existing permitted activity status for a retirement village activity, including any future alterations or expansion at Atawhai Assisi and include site specific standard for retirement village activities for Atawhai Assisi.
- Adoption of zone wide provisions for retirement villages provides appropriate certainty and guidance for those establishing new retirement developments, however it doesn't recognize/protect existing developments.
- The Proposed District Plan does not differentiate between establishment of a 'new' and 'existing' retirement village and/or minor alterations.
- Minor alterations/extensions would require resource consent as a non-complying activity.
- The Permitted Activity Table in Rule 23.1.1 requires amending to include activity specific conditions for a retirement village.
- While the Residential Zone rules contain activity specific standards for a retirement village, there are no equivalent rules for the Country Living Zone.

Point Number

769.5

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities

Summary of Decision Requested

Add a new restricted discretionary rule into Rule 23.1 Land Use Activities as follows:

(a) RD1 The following Retirement Village Activities are Restricted Discretionary in the Country Living Zone

1. A new retirement village;
2. Alterations to existing retirement villages (excluding Atawhai Assisi);
3. Alterations to Atawhai Assisi that do not comply with the Activity Specific Conditions in Rule 23.1.1

Decision Reasons:

- A restricted discretionary activity is considered appropriate for the three activities.
- Activity tables in Chapter 23: Country Living Zone do not include any provisions for Restricted Discretionary Activities.

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities

Summary of Decision Requested

Amend Rule 23.1.1 P2 Permitted Activities to provide for the registration of Homestay or Visitor accommodation.

Decision Reasons:

- Raglan needs a plan similar to that of Queenstown to avoid more residential accommodation becoming available only to visitors. As residents tend to move to and from the surrounding country areas, the same policy needs to apply there. Queenstown has rules requiring registration as a Homestay, or a Holiday Home and, for larger properties, resource consent for change of use. Raglan needs similar rules.

788.11

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities

Summary of Decision Requested

Amend Rule 23.1.1 P2 Permitted Activities for homestays, to be more regulated in Raglan, all homestays and holiday house accommodation to be registered with Council, to prohibit new owners of existing houses or newly built houses from offering homestay accommodation or holiday rentals, unless they live onsite at the time of guests staying, and a maximum of 4 temporary residents.

Decision Reasons:

- The submitters had spoken with Waikato District Council regarding at least two residentially zoned properties having 15 or more short-term guests per night. However, the submitters were told that Council could investigate the complaints but not enter a property, nor had they any means to enforce the more than four persons per night rule. The submitters were told to bring this up at the next District Plan Review, hence this submission.
- Most 'Airbnb' and 'bookabach' listings in Raglan allow over five people to stay per night. It should be simple to regulate this as all of these are non-complying activities are listed online.
- This would allow the rules to be explained and therefore allow the Council to enforce these rules.
- As it is important for commercial businesses to have fire service and building warrants checked every year, it should be important for property owners running similar businesses out of residentially zoned properties.
- Raglan has a severe housing shortage for long-term tenants, but this can be helped by regulating the use of holiday houses, similar to what is done in Canada, European cities like Berlin, and other holiday towns in New Zealand like Queenstown.
- It would be easier to ban the use of new houses or new ownership from short-term rental use than retrospectively introducing this to those already relying on the income (as long as these existing house stick to the under five-person rule.)
- It should be possible for neighbours to complain if guest numbers and/or noise gets out of hand in a country living property as well.

Point Number	831.80		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities		
Summary of Decision Requested	Amend Rule 23.1.1 P2 Permitted Activities, to require registration of homestay or visitor accommodation.		
Decision Reasons:	<ul style="list-style-type: none"> Air bnb does not contribute a fair share to seasonal infrastructure costs. Raglan needs a plan similar to that of Queenstown to avoid more residential accommodation becoming available only to visitors. As residents tend to move to and from the surrounding country areas, the same policy needs to apply there. Queenstown has rules requiring registration as a homestay, or a holiday home and, for larger properties, resource consent for a change of use. Raglan needs similar rules. 		

Submitter Number:	947	Submitter:	Stuart Quigley
Point Number	947.5		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.1 Permitted Activities		
Summary of Decision Requested	Add a new activity to Rule 23.1.1 Permitted Activities, as follows (or with words to similar effect): <u>P5 - child care facility - A child care facility established prior to notification of the District Plan and within 1 km of a Village Zone.</u> AND Amend the Proposed District Plan as necessary including provisions, consequential additions and cross references.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter is concerned that their activities "may not fit within the definition of Rural Activity on the basis that 16 large country living lots have been developed", but states that they are "confident they would fit within the definition of rural activity, under permitted activities". A Village Living Zone would be the best for the property at 233 Wilton Collieries Road, Glen Massey. 		

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.2 Discretionary Activities

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.39		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.2 Discretionary Activities		
Summary of Decision Requested	Add a new discretionary activity to Rule 23.1.2 Discretionary Activities, as follows: <u>(x) Emergency service facilities.</u> AND Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand opposes Rule 23.1.2 as no provision is made for emergency service facilities. As no provision is made under this rule, emergency service facilities would instead default to non-complying activities under Rule 23.1.2. The default non-complying activity is overly restrictive and inappropriate. Fire and Emergency New Zealand therefore seeks the inclusion of emergency facilities as a discretionary activity in the Country Living Zone for the following reasons: <ol style="list-style-type: none"> Fire stations must be strategically located within and throughout communities to maximise their coverage and response times so that they can efficiently and effectively provide for the health and safety of people and communities by being able respond to emergency call outs in a timely way, thus avoiding or mitigating the potential for adverse effects associated with fire hazard and other emergencies; The actual or potential effects of fire stations are minor and can be adequately predicted and subsequently managed by conditions of consent and subsequent matters for control; Restricted Discretionary activity status better implement the Objectives and Policies of the Proposed District Plan. Restricted Discretionary activity status better achieves the purpose of the RMA and better enables Fire and Emergency New Zealand to meet its statutory obligations. 		

Submitter Number:	389	Submitter:	Jonathan Quigley
Organisation:	J and T Quigley Ltd		
Point Number	389.9		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.2 Discretionary Activities		
Summary of Decision Requested	Amend Rule 23.1.2(1) and D5 Discretionary Activities, as follows: (1) The activities listed below are discretionary activities, <u>unless in close proximity 1 km to a Village Zone</u>		

D5 An education facility, excluding a child care facility for up to 10 children and P5 above

AND

Amend the Proposed District Plan to include all necessary, consequential or further relief required to give effect to the submission.

Decision Reasons:

- Consideration for some of these activities given the proximity to the Tamahere Village Green, specifically D3, D4, D5, D7 and D9.

Hamilton City Council

Point Number

535.75

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.2 Discretionary Activities

Summary of Decision Requested

Amend Rule 23.1.3 Discretionary Activities, to ensure existing commercial centres are maintained (currently listed as D3) in the Country Living Zone;

AND

Add objectives and policies as a consequential amendment.

AND

Any consequential amendments and/or additional relief required to address the matters raised in the submission.

Decision Reasons:

- Almost all of the Country Living zone is located near Hamilton or main towns.
- It is therefore important to maintain the primacy of existing commercial centres in Hamilton and the main towns by restricting commercial activities in this zone or add objectives and policies that better direct commercial activities to zones that are more appropriate than the Country Living Zone.

Submitter:

Waikato District Council

Point Number

697.851

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.2 Discretionary Activities

Summary of Decision Requested

Amend Rule 23.1.2 D1 Discretionary Activities, as follows:

Any permitted activity that does not comply with one or more of the ~~en-~~Activity Specific Conditions' in Rule 23.1.1

Decision Reasons:

- This is to provide consistency with other chapters and additional clarity of the rule.

Point Number

697.852

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.2 Discretionary Activities

Summary of Decision Requested

Delete Rule 23.1.2 D2 Discretionary Activities.

Decision Reasons:

- This rule is not needed as it refers to Land Use Effects and Land Use Building rules, which are in subsequent parts of the chapter.

Point Number

697.853

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.2 Discretionary Activities

Summary of Decision Requested

Amend Rule 23.1.2 D9 Discretionary Activities, as follows:

Travellers' accommodation for more than 5 people

Decision Reasons:

- This amendment makes it clear that the activity is for more than 5 people, which is consistent with other zone chapters.

Point Number

697.854

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.2 Discretionary Activities

Summary of Decision Requested

Add a new discretionary activity (D12) to Rule 23.1.2 Discretionary Activities, as follows:

A home stay for more than 4 people.

Decision Reasons:

- A homestay activity has been provided for as a permitted activity (Rule 23.1.1 P2), which has also been proposed to be amended to include provision for up to 4 people. However for clarity; homestay for more than 4 people needs to be provided as a Discretionary activity.

Ministry of Education

Point Number

781.15

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.2 Discretionary Activities

Summary of Decision Requested

Delete Rule 23.1.2 D5 Discretionary Activities for an education facility

AND

Add a Restricted Discretionary activity rule that provides for education facilities in Rule 23.1.2 as follows:

23.1.2 Restricted Discretionary Activities

(1) The activities listed below are restricted discretionary activities

Activity

RD1 Education facilities

Council's discretion shall be restricted to the following matters:

- a. The extent to which it is necessary to locate the activity in the Country Living Zone.
- b. Reverse sensitivity effects of adjacent activities.
- c. The extent to which the activity may adversely impact on the transport network.
- d. The extent to which the activity may adversely impact on the streetscape.
- e. The extent to which the activity may adversely impact on the noise environment.

Decision Reasons:

- Opposes the activity status of education facilities in this zone.
- Education facilities such as schools, community education, tertiary education institutions, work skills training centres, outdoor education centres and sports training establishments within rural areas are essential social infrastructure.
- The submitter requests consistency with their requested definition of 'Education facilities'.

Organisation: J and T Quigley Ltd

Point Number: 389.5

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.3 Non-Complying Activities

Summary of Decision Requested: No specific decision sought, but the submission supports in part Rule 23.1.3 Non-Complying Activities.

Decision Reasons:

- Notes that in the Countryside Living Zone a Retirement Village is a non-complying activity yet the JTQL site has a consented retirement village (zoned Residential) across the road at 650 Airport Road. Therefore, the current zoning of Rural does not suit the JTQL site anymore.

Submitter Number: 697 Submitter: Waikato District Council

Point Number: 697.855

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.3 Non-Complying Activities

Summary of Decision Requested: Add a new non-complying activity (NC13) to Rule 23.1.3 Non-Complying Activities, as follows:

(g) The following activities located within the Urban Expansion Area:

(i) intensive farming,

(ii) storage, processing or disposal of hazardous waste,

(iii) correctional facility,

(iv) extractive industry,

(v) industrial activity,

(vi) motorised recreation activity.

- (vii) transport depot;
- (viii) rural industry;

Decision Reasons:

- A new rule is required to provide consistency with the rural zone for activities situated within the Urban Expansion Area.

On behalf of: Atawhai Assisi Retirement Village

Point Number 765.5
Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.3 Non-Complying Activities

Summary of Decision Requested Delete Rule 23.1.3 NC3- Non-Complying Activities.
 AND
 Any consequential amendments that are required to give effect to the above submission.

- Decision Reasons:**
- Opposes non-complying activity status for a 'retirement village' in the Country Living Zone.
 - Under Operative District Plan, a retirement village activity is specifically provided for as a Permitted Activity at Tamahere Eventide.

Submitter Number: 769 **Submitter:** Tamahere Eventide Trust
On behalf of: Tamahere Eventide Retirement Village

Point Number 769.6
Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.3 Non-Complying Activities

Summary of Decision Requested Delete Rule 23.1.3 NC3- Non-Complying Activities.
 AND
Amend the Proposed District Plan to make consequential amendments to give effect to the submission.

- Decision Reasons:**
- The submitter opposes non-complying activity status in Rule NC3 for a "retirement village" in the Country Living Zone.
 - Existing Retirement Village and Hospital Activities at Atawhai Assisi are well established and provide an essential service to the local community.
 - Non-complying activity status for any future additions, redevelopment or expansion is also opposed.
 - The activities associated with retirement villages are sought by the submission to become permitted or restricted discretionary activities.

Submitter Number: 797 **Submitter:** Fonterra Limited

Point Number 797.36
Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.1 Land Use – Activities > 23.1.3 Non-Complying Activities

Summary of Decision Requested Add a new activity to Rule 23.1.3 Non Complying activities as follows (or words to similar effect):
NC13 (a) Within the Te Rapa Dairy Manufacturing Site Noise Control Boundary:
 (i) a child care facility;
 (ii) a hospital or hospice;
 (iii) an education facility;
 (iv) travellers accommodation.
 AND
 Any consequential amendments or further relief to give effect to the concerns raised in the submission.

- Decision Reasons:**
- Supports the identified activities as non-complying activities.
 - Seeks amendment to include additional activities as non-complying activities to avoid reverse sensitivity effects in respect to the Te Rapa Dairy Manufacturing site.

Summary of Decision Requested	Amend Rule 23.2.4 P1(a)(i) Hazardous substances, as follows: <i>(i) The aggregate quantity of any hazardous substance of any hazard classification on a site is less than the quantity specified for the Country Living Zone in Table 6.1 contained within Appendix 5 (Hazardous Substances); and</i>		
Decision Reasons:	<ul style="list-style-type: none"> The words "contained within" are not required. 		
Point Number	697.871		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects		
Summary of Decision Requested	Delete Rule 23.2.4 C1 Hazardous substances. AND Amend Rule 23.3.4 D1 Hazardous substances, as follows: <i>Rule 23.2.4 P1, or P2 or C1</i>		
Decision Reasons:	<ul style="list-style-type: none"> C1 is not appropriate within the Country Living Zone and is to be replaced with a Non-Complying Activity. 		
Point Number	697.872		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects		
Summary of Decision Requested	Amend Rule 23.2.4 to insert NC1 Hazardous substances, as follows: <u>NC1</u> <i>The storage of fuel for retail sale within service station in the Country Living Zone.</i>		
Decision Reasons:	<ul style="list-style-type: none"> This new rule provides a more restrictive approach than current C1, as this is a sensitive environment. 		
Point Number	697.873		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects		
Summary of Decision Requested	Add a new non-complying activity (NC2) to Rule 23.2.4 Hazardous substances, as follows: <u>NC2</u> <i>Any new hazardous facility that involves the storage and handling of hazardous substances with explosive or flammable intrinsic properties within 12m of the centre line of a National Grid Transmission Line</i>		
Decision Reasons:	<ul style="list-style-type: none"> This is to replicate the hazardous facilities rule within the National Grid from Chapter 14 into Chapter 23 for increased clarity and usability of the Plan. 		

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		
Point Number	831.61		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects		
Summary of Decision Requested	Delete Rule 23.2.8 Indigenous vegetation clearance inside a Significant Natural Area AND Add provisions that will increase natural habitats.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports bush regeneration, such as that at Wainui Bush Reserve. The Proposed District Plan makes no attempt to indicate how much bush has been lost, or will be lost by these and other provisions in the Proposed District Plan. Screening with trees should be applied to improve and protect views from Raglan and its beaches. Much of the attraction of Raglan derives from its beaches and the north shore of the harbour having rural aspects. New subdivisions could diminish that attraction and an active policy of tree planting to establish belts of trees screening those views would help to protect the rural image. Alternatively, the Proposed District Plan could ban development which would detract from those views. 		

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.1 Noise

Point Number	280.2		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.1 Noise		
Summary of Decision Requested	<p>Amend Rule 23.2.1 Noise to align with the Waipa District Council operative District Plan and implement the Environment Court Consent Order (see submission for copy of Consent Order).</p> <p>AND</p> <p>Amend the zoning to align with Waipa District Councils Operative District Plan to manage the Mystery Creek Events Centre and noise generation.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Implement provisions outlined in Environment Court Consent Order issued 28 July 1997 between PM & WR Lang, Waipa District Council, Waikato District Council and the NZ National Fieldays Society. Refer to Appendix C in the submission for Court Order. Court Order contemplated noise provisions in the Waikato District Plan. Provisions contemplated decibel levels between 40dBA and 50dBA and 55dBA during scheduled times. Rules incorporated in Waipa District Plan. Rules not incorporated in Waikato District Plan, believe to be an omission. Society considers WDC's agreement to introduce noise provisions set out in the Memorandum and Consent Order should be incorporated in provisions within the proposed Waikato District Plan.

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.159		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.1 Noise > 23.2.1.1 Noise – General		
Summary of Decision Requested	<p>Amend Rule 23.2.1.1 P2, P3, P4, P5 and DI - Noise- General as follows:</p> <p>P2 Sound measured in accordance with NZS 6801:2008 and assessed in accordance with NZS 6802:2008 must not exceed:</p> <p>(a) Noise measured at the following noise limits at any point within a notional boundary on within any site in the Rural Zone and within any other site in the Country Living Zone must not exceed: (i) 50dB LAeq(15min) dB (LAeq), 7am to 7pm, every day; (ii) 45dB LAeq(15min) dB (LAeq), 7pm to 10pm every day; (iii) 40dB LAeq(15min) dB (LAeq) and 65 dB (LAmox), 10pm to 7am the following day; (iv) 65dB LAfmax, 10pm to 7am the following day; (b) The permitted activity noise limits for the zone of any other site where sound is received.</p> <p>P3 (c) Noise measured within any site in any zone, other than the Country Living Zone and Rural Zone, must meet the permitted noise levels for that zone.</p> <p>P4 (c) Noise generated by any activity in Tamahere Commercial Area A and Tamahere Commercial Area B, as identified on the planning maps, must not exceed the following levels: (i) In Tamahere Commercial Areas A and B does not exceed: (i) 65dB (LAeq), 7am to 10pm; (ii) 50dB (LAeq) and 75 dB (LAmox), 10pm to 7am the following day; (b) Outside Tamahere Commercial Areas A and B, does not exceed: (i) 55dB (LAeq), 7am to 10pm; (ii) 40dB (LAeq) and 70dB (LAmox), 10pm to 7am the following day.</p> <p>P5</p>		

(a) Noise levels shall be measured in accordance with the requirements of NZS 6801:2008 "Acoustics Measurement of Environmental Sound."

(b) Noise levels shall be assessed in accordance with the requirements of NZS 6802:2008 "Acoustic Environmental Noise."

-D1

(a) Sound that is outside the scope of NZS 6802:2008 or a permitted activity standard; and

(b) Sound Noise that does not comply with Rule 23.2.1.1 P1 or P2, ~~P3, P4 or P5.~~

Decision Reasons:

- The proposed noise limits are generally in accordance with guideline values and use current measurement and assessment standards, acoustical metrics, numerical values, time-frames and assessment location. However, the following issues have been identified:
 - Incorrect terminology has been used in conflict with the standards specified,
 - No provision has been made for sound sources outside the scope of NZS 6802.
 - The measurement and assessment standards are an integral part of the noise limits and cannot be a separate permitted activity standard,
 - There is an inconsistent approach for sound received in another zone,
 - Tamahere Commercial Areas A and B have been treated inconsistently with other areas in that a noise limit is based on the source location and not the receiver location. This should be moved onto a separate rule, as for Huntly Power Station in the Rural Zone

Submitter Number:	939	Submitter:	David Totman
On behalf of:	Waipa District Council		
Point Number	939.5		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.1 Noise > 23.2.1.1 Noise – General		
Summary of Decision Requested	Add provisions to Rule 23.2.1.1 Noise - General for the Mystery Creek Event Centre, to mirror that contained in the Operative Waipa District Plan Rule 9.4.2.16 (c).		
Decision Reasons:	<ul style="list-style-type: none">• The Noise Rule should mirror the Noise Rule provided in the Waipa Operative District Plan for the Mystery Creek Events Centre on activity days under Rule 9.4.2.16 which states that noise levels "between 12.30am and 7.30am, noise levels must not exceed LAeq 45dB within the notional boundary of any dwelling within the Waipa District territorial boundary; and LAeq 40dB within the notional boundary of any dwelling within the Waikato District territorial boundary".

Point Number	697.859		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks		
Summary of Decision Requested	<p>Amend Rule 23.2.3(2) Earthworks, as follows:</p> <p><i>There are specific standards for earthworks within rules:</i></p> <p>(a) <u>Rule 23.2.3.1A – Earthworks within the National Grid Yard</u></p> <p>(b) <u>Rule 23.2.3.2 – Maaori Sites and Maaori Areas of Significance;</u></p> <p>(c) <u>Rule 23.2.3.3 – Significant Natural Areas;</u></p> <p>(d) <u>Rule 23.2.3.4 – Landscape and Natural Character Areas.</u></p> <p>AND</p> <p>Add a new rule to Rule 23.2.3 Earthworks as follows:</p> <p><u>23.2.3.1A Earthworks within the National Grid Yard</u></p> <p><u>P1</u></p> <p><u>(a) The following earthworks within the National Grid Yard:</u></p> <p><u>(i) Earthworks undertaken as part of domestic cultivation; or repair, sealing or resealing of a road, footpath or driveway;</u></p> <p><u>(ii) Vertical holes not exceeding 500mm in diameter that are more than 1.5m from the outer edge of the pole support structure or stay wire;</u></p> <p><u>(iii) Earthworks for which a dispensation has been granted by Transpower under New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663.</u></p> <p><u>P2</u></p> <p><u>(a) Earthworks activities within the National Grid Yard near National Grid support poles or any stay wires must comply with the following conditions:</u></p> <p><u>(i) Do not exceed a depth of 300mm within 2.2m of the pole or stay wire; and</u></p> <p><u>(ii) Do not exceed a depth of 750mm between 2.2m and 5m of the pole or stay wire.</u></p> <p><u>P3</u></p> <p><u>(a) Earthworks within the National Grid Yard near National Grid support towers (including any tubular steel tower that replaces a steel lattice tower) must comply with all of the following conditions:</u></p> <p><u>(i) Do not exceed 300m depth within 6m of the outer edge of the visible foundation of the tower;</u></p> <p><u>(ii) Do not exceed 3m between 6m and 12m of the outer edge of the visible foundation of the tower;</u></p> <p><u>(iii) Do not compromise the stability of a National Grid support structure;</u></p> <p><u>(iv) Do not result in the loss of access to any National Grid support structure; and</u></p> <p><u>(v) Must be less than the minimum ground to conductor clearance distances in Table 4 of the New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663.</u></p> <p><u>RD1</u></p> <p><u>(a) Earthworks within the National Grid Yard that do not comply with one or more of the conditions of Rules 23.2.3.1A P1, P2 or P3.</u></p> <p><u>(b) Discretion is restricted to:</u></p> <p><u>(i) Impacts on the operation, maintenance, upgrading and development of the National Grid;</u></p> <p><u>(ii) The risk to the structural integrity of the affected National Grid support structure(s);</u></p> <p><u>(iii) Any impact on the ability of the National Grid owner (Transpower) to access the National Grid;</u></p> <p><u>(iv) The risk of electrical hazards affecting public or individual safety, and the risk of property damage.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> This is to replicate the earthworks rule within the National Grid from Chapter 14 into Chapter 23 for increased clarity and usability of the Plan. 		
Point Number	697.860		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks		
Summary of Decision Requested	<p>Amend Rule 23.2.3(1) Earthworks, as follows:</p> <p><i>(1) Rule 23.2.3.1 – Earthworks General, provides the permitted rules for earthworks activities for the Rural Zone. This rule does not apply in those areas specified in Rule 23.2.3.1A, 23.2.3.2, 23.2.3.3 and 23.2.3.4.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> The wording of the rule does not make it clear that the rules in 23.2.3(2) apply to the areas specified in that rule instead of the general earthworks rule. 		

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.24		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General		
Summary of Decision Requested	Retain Rule 23.2.3.1 PI Earthworks - General, except for the amendments sought below		

AND

Amend Rule 23.2.3.1 P1 (a)(iii) Earthworks - General as follows:

(iii) A building platform and accessway for a residential activity including an accessory building.

Decision Reasons:

- Support the permitted activity rule for earthworks in part.
- Seeks that the permitted activity rule be amended to include earthworks associated with the construction of accessways.
- This currently gets overlooked by many developers and often triggers an unexpected land use consent.
- Earthworks for accessways is inherent in subdivision consent and subsequently already been considered by Council on the basis of effects.
- Earthworks restrictions will still comply in regard to NZS 443 1:1989

Point Number

662.25

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General

Summary of Decision Requested

Amend Rule 23.2.3.1 P2 Earthworks - General as follows:

(a) Earthworks within a site for purposes other those contained in P1 (excluding the importation of fill material) must meet all of the following conditions:

(i) Do not exceed a volume of more than ~~250~~500m³ and an area of more than 1000m² within a site over any single 12 month period;

...

(iii) Earthworks are set back +0.5m from any boundary;

...

Decision Reasons:

- Notes that a 250m³ limit is the same as for the Residential Zone. Given the different activities undertaken for rural residential purposes, an increase in the limit to 500m³ is appropriate.
- It is noted that a soil disturbing quantum would be better to align with the provisions of the Waikato Regional Plan.
- Seeks a 0.5m setback within the rural environment.

Point Number

695.105

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General

Summary of Decision Requested

Retain the maximum area of earthworks in Rule 23.2.3.1 P2 Earthworks – General.

Decision Reasons:

- No reasons provided.

Point Number

695.106

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General

Summary of Decision Requested

Amend Rule 23.2.3.1 P2 Earthworks – General, so that earthworks limits be applied as a ratio of the site area i.e. 1:1 so that a 450m² site would provide 450m³ of earthworks.

Decision Reasons:

- The Proposed District Plan penalises bigger sites for no apparent planning outcome, especially when a bigger site is likely to be able to absorb and diffuse effects.
- Earthworks totals should be counted as not cancelling each other out i.e. cut and fill are added together.

Point Number

695.107

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General

Summary of Decision Requested

Amend Rule 23.2.3.1 P4(i) Earthworks – General, to increase the infill volume from 20m³ to 50m³.

Decision Reasons:

- The imported infill volume is too low and should be 50m³ to be realistic for works outside of a building form.

Point Number

695.108

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General

Summary of Decision Requested

Amend Rule 23.2.3.1 P4(ii) Earthworks – General, to increase the maximum depth from 1m to 1.5m.

Decision Reasons:

- A depth of 1.5m is not realistic.

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General

Summary of Decision Requested

Delete Rule 23.2.3.1 P1 (a)(ii) Earthworks - General.

Decision Reasons:

- The content of this rule is already contained within the definition of ancillary rural earthworks.

Point Number

697.862

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General

Summary of Decision Requested

Amend Rule 22.2.3.1 P1 (a)(iii) Earthworks - General, as follows:

(iii) A building platform for a residential activity, including an accessory building, carried out in accordance with NZS 4431:1989 Code of Practice for Earth Fill for Residential Development.

Decision Reasons:

- For clarity of the rule, it makes sense that the NZS 4431:1989 Code of Practice for Earth Fill for Residential Development is applied to this rule instead of P3.

Point Number 697.863

Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General

Summary of Decision Requested **Amend** Rule 23.2.3.1 P2(a) Earthworks - General, as follows:

(i) Do not exceed a volume of more than 250m³ and an area of more than 1000m² within a site over any single consecutive 12 month period;

...

(iii) Earthworks are setback at least 1.5m from any boundary;

Decision Reasons:

- The words "consecutive" and "at least" provide clarity to this rule.

Point Number 697.864

Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General

Summary of Decision Requested **Delete** Rule 23.2.3.1 P3 Earthworks - General;

AND

Amend Rule 23.2.3.1 RD1 (a), as follows:

(a) Earthworks that do not comply with Rule 23.2.3.1 P1, P2, ~~P3~~ or P4.

Decision Reasons:

- P3 has been included in Rule 23.2.3.1 P1 (a)(iii) for efficiency and clarity.
- As a consequential amendment.

Point Number 697.865

Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General

Summary of Decision Requested **Amend** Rule 23.2.3.1 P4(a)(iv) Earthworks - General, as follows:

(iv) Fill material is setback at least 1.5m from all boundaries;

Decision Reasons:

- The words "at least" provide clarity to this rule.

Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General

Summary of Decision Requested No specific decision sought, but submission recognises that the importation of fill to enable residential development is appropriate in Rule 23.2.3.1 Earthworks -

General, and questions whether this would be a permitted activity (P2) or a non-complying activity (NC1).

Decision Reasons:

- These provisions seem workable but the submitter is interested in the thoughts of other submitters
- Clean-fill may be required in residential zones to enable green-field land to be developed for residential purposes. It is unclear to the submitter whether it is P2 permitted activity or NC1 non-complying activity. NC1 would be too restrictive and needs to be more lenient to enable green-field development within residential zones.

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General

Summary of Decision Requested

Amend Rule 23.2.3.1 P1 (a)(iii) Earthworks – General, to include access/driveway.

Decision Reasons:

- Earthworks for access/driveway is a part of the residential earthworks to establish a dwelling.

Submitter Number:

Submitter:

First Gas Limited

Point Number

945.23

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General

Summary of Decision Requested

Add a new condition to Rule 23.2.3.1.P2(a)(vii) Earthworks-General:

(vii) Earthworks to a depth of greater than 200mm are to be located a minimum of 12m from the centerline of a gas pipeline.

AND

Any consequential amendments and other relief to give effect to the matters raised in the submission.

Decision Reasons:

- To address reverse sensitivity effects, the submitter seeks the inclusion of a new earthworks rule requiring a 12m setback from gas transmission pipelines where earthworks are proposed to a depth of greater than 200mm.

Point Number

945.24

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General

Summary of Decision Requested

Add a matter of discretion to Rule 23.2.3.1 RD1 (b) Earthworks-General as follows:

(xii) Effects on the safe, effective and efficient operation, maintenance and upgrade of infrastructure, including access.

AND

Any consequential amendments and other relief to give effect to the matters raised in the submission.

Decision Reasons:

- The submitter seeks to include an additional matter over which Council's discretion shall be limited under RD1 (b) to address potential effects of earthworks on gas transmission lines.

Submitter Number:

Submitter:

Pam Butler

On behalf of:

KiwiRail Holdings Limited (KiwiRail)

Point Number

986.105

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General

Summary of Decision Requested

Add a new clause (vii) to Rule 23.2.3.1 P2(a) Earthworks – General as follows (or similar amendments to achieve the requested relief):

(vii) Be located more than 1.5 m horizontally from any infrastructure, including a waterway, open drain or overland flow path;

AND

Any consequential amendments to link and/or accommodate the requested changes.

Decision Reasons:

- KiwiRail supports that earthworks are required to be setback from services and network systems. The rail track itself is most susceptible from adverse effects if adjacent earthworks are not adequately set back. KiwiRail seeks that rule relating to setbacks in certain zones should be amended to reflect that there should be an earthworks setback of 1.5m from infrastructure, to ensure that the efficient and effective operation of the existing network is maintained.

Point Number

986.113

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.3 Earthworks > 23.2.3.1 Earthworks – General

Summary of Decision Requested

Amend Rule 23.2.3.1 P2(a)(iv) Earthworks general as follows (or similar amendments to achieve the requested relief):

(iv) Areas exposed by the earthworks are stabilized to avoid runoff within 1 month of the cessation-re-vegetated to achieve

90% ground cover 6 months of the commencement of the earthworks

AND

Any consequential amendments to link and/or accommodate the requested changes.

Decision Reasons:

- KiwiRail also seeks that the rule relating to revegetation in certain zones be amended to include other available methods to stabilise the ground to prevent runoff, including building or hard cover development. As notified, these rules are ambiguous.

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.4 Hazardous substances

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.41		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.4 Hazardous substances		
Summary of Decision Requested	<p>Amend Rule 23.2.4 Hazardous Substances, as follows:</p> <p>(a) The use, storage or disposal of any hazardous substance where:</p> <p>(i) The aggregate quantity of any hazardous substance of any hazard classification on a site is less than the quantity specified for the Country Living Zone in Table 5.1 contained within Appendix 5 (Hazardous Substances); and</p> <p>(ii) The storage or use of radioactive materials is in approved equipment for medical and diagnostic purposes, or specified as an exempt activity or article in the Radiation Safety Act and Regulations 2017.</p> <p>(iii) <u>Rule 23.2.4 (a) (i) excludes fire stations and associated fire service operations.</u></p> <p>AND</p> <p>Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand oppose Rule 23.2.4 as while fire stations and associated firefighting activities involve the use and storage of hazardous substances at quantities that are considered minor, it is possible that the permitted provisions may not enable this, and could affect Fire and Emergency New Zealand's ability to operate as easily and smoothly as needed. Fire and Emergency New Zealand request that fire stations and associated firefighting activities should be excluded from the Rule 23.2.4 for the following reasons: <ol style="list-style-type: none"> The 8.3 classification (Table 5.1 contained within Appendix 5 (Hazardous Substances)) has a relatively low limit in the Business Town Centre Zone, and is quite low in other areas- lots of household products are eye corrosives from dishwashing to laundry powder. This would limit and potentially prevent Fire and Emergency New Zealand having a HAZMAT vehicle based in this zone because they carry neutralizing agents which are eye corrosives. A greater concern is that some of Fire and Emergency New Zealand's fire retardants and foams also have this classification and this limit could potentially require that Fire and Emergency New Zealand need a resource consent to hold a small amount or and other these chemicals on site, as a lower limit would be largely taken up by ordinary household chemicals used on site. The 8.3A classification is for eye corrosion. A person is only affected by this hazard class if they come into direct contact with a product with this classification. This hazard is also managed under the health and safety at work and HSN0 legislation usually via labeling and PPE requirements. Fire and Emergency New Zealand considers that there is no logic in restricting the amount of these substances held as it relates to Fire and Emergency New Zealand operations, particularly if they are in enclosed containers for systems. Some of Fire and Emergency New Zealand's fire retardants are solids rather than liquids and the reasons for the limits specified in the plan do not make sense for solids. Fire and Emergency New Zealand current main fire retardant is a powder but Fire and Emergency New Zealand are also looking at new foams which come in bricks. As such, higher restrictions for waterways do not make sense for these products as they do not leak or flow. Fire and Emergency New Zealand often requires the temporary storage of chemicals necessary for providing an emergency response, during an emergency and within a short period after the emergency, i.e. there is a small grace period for example if Fire and Emergency New Zealand need a truck to remove a container which has firefighting chemicals in it, they may need to wait for a few working days after the emergency has finished for a contractor to do that work. Not providing for this could restrict Fire and Emergency New Zealand's ability to respond to bush or other major events, e.g. large acid spills and other HAZMAT events. This could also result in a breach of the RMA in order to bring in the necessary products to resolve the issue and prevent harm to people/the environment. 		

Submitter Number:	785	Submitter:	Z Energy Limited, BP Oil NZ Limited and Mobil Oil NZ Limited
Organisation:	'Oil Companies'		
Point Number	785.3		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.4 Hazardous substances		
Summary of Decision Requested	<p>Delete Rule 23.2.4 – Hazardous Substances.</p> <p>AND</p> <p>Any consequential amendments or further relief to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The proposed provisions are opposed and the submitter seeks the deletion of all proposed hazardous substances controls relating to storage, use, disposal or transportation of hazardous substances at service station sites (as broadly defined) or refuelling sites. The submitter also supports the deletion of all rules pertaining to control hazardous substances where such controls are inappropriate, unnecessary, ineffective, inefficient and unable to be justified via a Section 32 analysis. These rules are all designed to address risk associated with hazardous substances. Risk is appropriately managed via other legislation and the Section 32 Report fails to identify why additional controls are required. The Resource Legislation Amendment Act 2017 removed the explicit function of district and regional councils to control adverse effects of the storage, use, disposal, or transportation of hazardous substances under sections 30 and 31 of the Resource Management Act 1991 (RMA). The changes came into effect on 19 April 2017 and are intended to ensure councils only place controls on hazardous substances where necessary to control effects under the RMA that are not covered by Hazardous Substance New Organisms Act 1996 or Health and Safety At Work Act 2015. The purpose of the Hazardous Substances New Organisms Act is to protect the environment, and the health and safety of people and communities, by preventing or managing the adverse effects of hazardous substances and new organisms. The Hazardous Substances New Organisms Act covers a range of matters including: <ol style="list-style-type: none"> site and building requirements for where a hazardous substance may be used, including requirements for storage and primarily requiring primary and secondary containment; the safe transportation of hazardous substances; emergency management requirements in relation to the substance in the event of a spill or other emergency; and how the substance may be disposed of. The Health and Safety At Work Act 2015 provides a framework to secure the health and safety of works and workplaces and integrates the regulation of workplace use of hazardous substances. The Resource Legislation Amendment Act 2017 followed the decision of the Independent Hearing Panel on the Christchurch Replacement District Plan. That decision was to reject Christchurch City Council's hazardous substance controls (which were based on an activity status table (AST) approach and to only retain controls relating to hazardous substances in close proximity to the National Grid. The Ministry for the Environment considers that in most cases the Hazardous Substances New Organisms Act and the Health and Safety At Work Act 2015 controls will be adequate to avoid, remedy or mitigate adverse environmental effects of hazardous substances and that RMA controls may be used if existing HSN0 or Work safe controls are not adequate to address the environmental effects of hazardous substances in any particularly case. The submitter strongly supports the Ministry for the Environment's position in this regard. The submitter seeks that any proposed controls around hazardous substances do not duplicate those controls addressed under other legislation. Any duplication is considered unnecessary and inefficient. 		

- The section 32 report for Hazardous Substances acknowledges the removal of Council's functions in regards to hazardous substances and recognizes the "Resource Management Plans should not be in conflict with HSNO requirements and should not repeat them".
- The report further recognizes that "rationale for a higher level of protection through additional land use controls under the Act may be appropriate for substances both controlled by the Hazardous Substances New Organisms Act or for issues which are not within the scope of the Hazardous Substances New Organisms Act, such as reverse sensitivity".
- However there is a significant disconnect between the overview and purpose sections of the Section 32 Report and the regulatory provisions in the Proposed District Plan.
- As an example, in regard to service stations the Section 32 Report concludes that, "the controlled activity status has been assigned to the storage and retail sale of fuel within service stations above a certain level in some zones to recognize that these substances are well managed through standards and industry practice. However, above these thresholds, the opportunity to consider potential adverse effects on the surrounding environment is considered.
- No rational/analysis is provided within the section 32 report to justify why specific volume thresholds apply to service stations or why the opportunity to consider potential adverse effects on the surrounding environment is considered reasonable if quantities are above those limits.
- The Section 32 Report does not provide analysis to justify why hazardous substances associated with service stations are only addressed in certain zones and in what way the Council considers the Hazardous Substances New Organisms Act to not adequately control potential adverse effects associated with hazardous substances at service station - for example, why the Council considers site design, layout and monitoring and reporting of incidents are matters that the Council should reserve control over.
- In light of the Resource Legislation Amendment Act 2017 and controls under other legislation and the lack of rationale/analysis within the Section 32 Report for hazardous substances, it is considered the proposed hazardous substance controls are largely unnecessary and should therefore be deleted.

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.5 Notable Trees

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.99		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.5 Notable Trees		
Summary of Decision Requested	No specific decision sought, however submission refers to Rule 23.2.5 Notable Trees, and/or all rules sitting under 23.2.5.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided.

Point Number	697.474		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.5 Notable Trees		
Summary of Decision Requested	Amend Rule 23.2.5.2 P1 (a)(ii) Notable tree - trimming, to consider whether 10% removal of foliage as a permitted activity condition is the most appropriate measure, and the most appropriate percentage.		
Decision Reasons:	<ul style="list-style-type: none"> • Consider whether 10% removal of foliage as a permitted activity is the most appropriate measure. The rule stipulates 10%, but this is relatively restrictive and somewhat subjective in terms of how this is measured (i.e. is it a count of all branches and leaves). The Operative District Plan: Waikato Section rules allowed for 15%. 		
Point Number	697.874		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.5 Notable Trees		
Summary of Decision Requested	Amend Rule 23.2.5.1 RD1 (b)(i) Notable tree - removal or destruction, as follows: <i>(i) timing and manner in which the activity is carried out; <u>and</u>.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The word "and" provides clarity to the rule. 		
Point Number	697.875		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.5 Notable Trees		
Summary of Decision Requested	Amend Rule 23.2.5.2 RD1 (b)(i) Notable tree - trimming, as follows: <i>(i) Timing and manner in which the activity is carried out; <u>and</u>.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The word "and" provides clarity to the rule. 		
Point Number	697.876		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.5 Notable Trees		
Summary of Decision Requested	Amend Rule 23.2.5.3 P1 (a) Notable tree - activities within the dripline, as follows: <i>(a) Any activity within the dripline of a notable tree identified in Schedule 30.2 (Notable Trees) must not involve: (i) <u>involve</u> excavation, compaction, sealing or soil disturbance and <u>or</u> placement of fill material, <u>or cleanfill</u>, except for sealing of an existing road or footpath; (ii) <u>involve</u> parking or storage of materials, vehicles or machinery; (iii) discharge of an eco-toxic substance; and (iv) <u>involve</u> construction of any structure.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • This is to provide clarity to the rule and consistency across all zone chapters. 		
Point Number	697.877		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.5 Notable Trees		
Summary of Decision Requested	Amend Rule 23.2.5.3 RD1 (a) Notable tree - activities within the dripline, as follows:		

(b) Any activity within the dripline of the notable tree that does not comply with Rule 23.2.5.3 P1

Decision Reasons:

- The words “within the dripline of the notable tree” provide clarity to the rule.

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.6 Signs

Submitter Number: 765 **Submitter:** Tamahere Eventide Home Trust

On behalf of: Atawhai Assisi Retirement Village

Point Number 765.6
Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.6 Signs

Summary of Decision Requested **Add** a new rule to Rule 23.2.6 Signs as follows:
(3) Rules 23.2.6.1 and 23.2.6.2 do not apply to a retirement village.
OR
Add a new row to the activity table in Rule 23.2.6 Signs- General as follows:
(x) Rules P1, P2, P3 and RD1 above do not apply to a retirement village.
AND
Any consequential amendments that are required to give effect to the above submission.

Decision Reasons:

- Signage forms an integral part of a retirement village development and is necessary to clearly identify the various buildings, facilities and car parking areas within a retirement village.
- Opposed to any restrictions regarding signage for Tamahere Eventide.
- The rules relating to signage (particularly those limiting the number, area and height of signage in Rule 23.3.6.1 P2) should not be applicable to Tamahere Eventide.

Submitter Number: 769 **Submitter:** Tamahere Eventide Trust

On behalf of: Tamahere Eventide Retirement Village

Point Number 769.7
Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.6 Signs

Summary of Decision Requested **Amend** Signs Rule 23.2.6 so that signage provisions in Rules 23.2.6.1- General and 23.3.6.2- Effects on Traffic don't apply to a retirement village as follows:
(3) Rules 23.2.6.1 and 23.2.6.2 do not apply to a retirement village.
OR
Add a new row to Rule 23.2.6.1 Signs General as follows:
(x) Rules P1, P2, P3 and RD1 above do not apply to a retirement village.
AND
Add a new row to Rule 23.2.6.2 Signs- effects on traffic as follows:
(x) Rules P1, P2, P3 and RD1 above do not apply to a retirement village.
AND
Amend the Proposed District Plan to make consequential amendments to give effect to the submission.

Decision Reasons:

- Rules relating to signage should not be applicable to Atawhai Assisi.
- Signage forms an integral part of a retirement village development and is necessary to clearly identify the various buildings, facilities and car parking areas.
- Private internal roads are often sign posted with signage that imitates traffic signs.

Submitter Number:	433	Submitter:	Mischa Davis
Organisation:	Auckland Waikato Fish and Game Council		
Point Number	433.25		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.6 Signs > Signs – General		
Summary of Decision Requested	<p>Amend Rule 23.2.6.1 P1 Signs - General, as follows:</p> <p><i>A public information sign erected by a government agency <u>and Auckland Waikato Fish and Game Council</u></i></p> <p>AND/OR</p> <p>Any alternative relief to address the issues and concerns raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Fish and Game erects important public information signs but it is not a recognised government agency. 		
Point Number	433.26		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.6 Signs > Signs – General		
Summary of Decision Requested	<p>Delete Rule 23.2.6.1 P2 (a) (i) and (vii) Signs - General, relating to a single sign</p> <p>AND</p> <p>Delete Rule 23.2.6.1 P2 (a) (viii) Signs-General relating to the Waikato Expressway</p> <p>AND/OR</p> <p>Any alternative relief to address the issues and concerns raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> These conditions are too restrictive for signs required by Auckland Waikato Fish and Game as there may be occasions when they need to be breached in order to main and enhance access to sports fisheries and game bird hunting areas and maintain public safety. Resource consent should not be required in these instances as Fish and Game signs are permitted around much of New Zealand. 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.86		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.6 Signs > Signs – General		
Summary of Decision Requested	<p>Amend Rule 23.2.6.1 P2 Signs - general to exclude any type of signage on Heritage Items and Maori Sites of Significance.</p> <p>AND</p> <p>Amend Rule 23.2.6.1 RD1 Signs - general to include signage on Heritage items and Maori Sites of Significance.</p> <p>AND</p> <p>Add an advice note under this new rule to advise of the other heritage building related rules within the Chapter.</p> <p>AND</p> <p>Provide for any consequential amendments as required.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter cannot support the P2 Signs General where the zone rules that relate to signage, including on heritage items or Maori sites of significance are permitted activities with variations between the zones as to the permitted size and height of signage. While signs generally are not permitted in heritage buildings or Maori sites of significance, a sign of 3m2 on a heritage building could be permitted in some zones if the sign was for identification or interpretation purposes. The generic, zoned based approach does not reflect the need to assess the suitability of a signage proposal against the specific heritage values of the individual building or site. The generic approach has the potential to cause adverse effects of historic heritage and Maori sites of significance. To avoid adverse effects to heritage items and Maori sites of significance it would be more appropriate for any signage on heritage items and Maori sites of Significance to be elevated to a restricted discretionary activity level of assessment and subject to the matters of discretion already included (i.e. (vi) and (vii). 		

Submitter Number:	602	Submitter:	Greig Metcalfe
Point Number	602.53		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.6 Signs > Signs – General		
Summary of Decision Requested	<p>Amend Rule 23.2.6.1. P3 (a) Signs - general as follows:</p> <p>(a) Any real estate 'for sale' sign relating to the site on which it is located must comply with all of the following conditions:</p> <p>(i) There is no more than 1 sign per agency measuring 600mm x 900mm per road frontage of the site to which the sign relates;</p> <p>(ii) There is no more than 1 sign measuring 1800mm x 1200mm per site to which the sign relates;</p> <p>(iii) There is no more than 1 real estate header sign measuring 1800mm x 1200mm on one other site;</p> <p>(iv) The sign is not illuminated;</p> <p>(v) The sign does not contain any moving parts, fluorescent, flashing or revolving lights or reflective materials;</p> <p>(vi) The sign does not project into or over road reserve.</p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>		

Decision Reasons:	<ul style="list-style-type: none"> The notified rules for real estate signs are too restrictive. Corner sites should be able to have additional sign opportunities without adversely affecting residential character and amenity. Allowance should be made for feature signs which are commonly used for properties going to auction or tender. Header signs should be able to be established on another sign (often on a high volume road) to direct purchasers to the site which is for sale (often on a low volume road).

Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.6 Signs > effects on traffic		
Summary of Decision Requested	<p>Amend Rule 23.2.6.2 P1 (a)(ii) Signs – Effects on traffic, to delete the words “and any other sign”;</p> <p>OR</p> <p>Amend Rule 23.2.6.2 P1 (a)(ii) Signs – Effects on Traffic, as follows:</p> <p><i>Be located at least 60m from controlled intersections, pedestrian crossings and any other sign <u>on the same site.</u></i></p> <p>OR</p> <p>Amend Rule 23.2.6.2 P1 (a)(ii) Signs – Effects on Traffic, as follows:</p> <p><i>Be located at least 60m from controlled intersections, pedestrian crossings and any other sign <u>railway crossings (or roads under Council jurisdiction).</u></i></p>		
Decision Reasons:	<ul style="list-style-type: none"> This is unrealistic. The cost of the consent would usually be more than the cost of the sign. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.880		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.6 Signs > effects on traffic		
Summary of Decision Requested	<p>Amend Rule 23.2.6.2 P1 (a) Signs - effects on Traffic, as follows:</p> <p><i>(a) Any sign directed at road users must <u>meet the following conditions:</u></i></p> <p><i>(i) Not imitate the content, colour or appearance of any traffic control sign; and</i></p> <p><i>(ii) Be located at least 60m from controlled intersections, pedestrian crossings and any other sign; and</i></p> <p><i>(iii) Not obstruct sight lines of drivers turning into or out of a site entrance and intersections; and</i></p> <p><i>(iv) Be able to be viewed by drivers for at least 250m; and</i></p> <p><i>(v) Contain no more than 40 characters and no more than 6 symbols; and</i></p> <p><i>(vi) Have lettering that is at least 200mm high; and</i></p> <p><i>(vii) Comply with the following Where the sign directs traffic to a site entrance <u>the sign must be at least:</u></i></p> <p><i>A. 1.75m from the site entrance on any road with a speed limit of 80 km/hr or less; or</i></p> <p><i>B. 250m from the site entrance on any road with a speed limit of more than 80km/hr.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> The amended wording provides clarity for the rule and consistency with other rules. This rule is unachievable and not appropriate for the purpose of the Country Living Zone. 		

Submitter Number:	742	Submitter:	Kim Harris-Cotte
Organisation:	New Zealand Transport Agency		
Point Number	742.236		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.6 Signs > effects on traffic		
Summary of Decision Requested	<p>Retain Rule 23.2.6.2 P1 Signs- effects on traffic, except for the amendments sought below</p> <p>AND</p> <p>Amend Rule 23.2.6.2 P1 v) Signs - effects on traffic as follows</p> <p><i>Contain no more than 40 characters and no more than 6 <u>words, symbols or graphics.</u></i></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of Rule 23.2.6.2 P1 but seeks amendment to provide clarification on the maximum amount of words permitted. This will ensure that signage erected does not cause unnecessary visual clutter or affect the efficient, safe and effective functioning of the transport network. 		
Point Number	742.237		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.6 Signs > effects on traffic		
Summary of Decision Requested	Retain Rule 23.2.6.2 D1 Signs - effects on traffic as notified.		

Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Council having full discretion over signs that do not comply with permitted activity standards.
--------------------------	--

Submitter Number:	765	Submitter:	Tamahere Eventide Home Trust
On behalf of:	Atawhai Assisi Retirement Village		
Point Number	765.7		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.6 Signs > effects on traffic		
Summary of Decision Requested	<p>Add a new rule to Rule 23.2.6 Signs as follows:</p> <p><i>(3) Rule 23.2.6.1 and 23.2.6.2 do not apply to a retirement village.</i></p> <p>OR</p> <p>Add a new rule to Rule 23.3.6.2 Signs-Effects on traffic as follows:</p> <p><i>(x) Rules P1, P2, P3 and RD1 above do not apply to a retirement village.</i></p> <p>AND</p> <p>Any consequential amendments that are required to give effect to the above submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Signage forms an integral part of a retirement village development and is necessary to clearly identify the various buildings, facilities and car parking areas within a retirement village. Opposed to any restrictions regarding signage for Tamahere Eventide. The rules relating to signage (particularly those preventing signs from imitating the content, colour or appearance of any traffic control sign and those restricting the location of the sign and the number of character or symbols) in Rule 23.2.6.2 should not be applicable to Tamahere Eventide. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.120		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > 23.2.6 Signs > effects on traffic		
Summary of Decision Requested	<p>Amend Rule 23.2.6.2 P1 Signs – Effects on traffic as follows (or similar amendments to achieve the requested relief):</p> <p><i>(a) Any sign directed at road land transport users must:</i></p> <p>...</p> <p><i>(iii) Not obstruct sight lines of drivers turning into or out of a site entrance and intersections or at a level crossing;</i></p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Signs erected in the City should not have an adverse effect on the safe and efficient functioning of the land transport network, including railways, and the health and safety of road users. Traffic on the railway network will grow, and with more trains the issue of minimizing driver distraction is important to ensure the efficient running of the land transport network. Further, signs should be restricted where they breach the level crossing sightline areas developed from the NZTA Traffic Control Devices Manual 2008, Part 9 Level Crossings as sought in KiwiRail submission 67. It is appropriate to restrict and prevent the placement of signs within required sight lines for vehicles access and intersections, and within the sight lines required for rail crossings. 		

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Outdoor Storage

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.102		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Outdoor Storage		
Summary of Decision Requested	No specific decision sought, however submission refers to Rule 23.2.7 Outdoor Storage.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.881		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Outdoor Storage		
Summary of Decision Requested	Delete Rule 23.2.7 Outdoor Storage.		
Decision Reasons:	<ul style="list-style-type: none"> This rule needs to be deleted, as this is difficult to enforce in the Country Living Zone. There are no rules included in the plan for Residential, Village or Rural zones. 		

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Indigenous vegetation clearance inside a Significant Natural Area

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.43		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Retain Rule 23.2.8 D1 Indigenous vegetation clearance inside a Significant Natural Area.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter is supportive of indigenous vegetation clearance beyond permitted thresholds becoming a discretionary activity (D1). 		
Point Number	81.52		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Retain Rule 23.2.8 P2 Indigenous vegetation clearance inside a Significant Natural Area, except for the amendments sought below AND Amend Rule 23.2.8 P2 Indigenous vegetation clearance inside a Significant Natural Area to exclude clearance of Manuka and Kanuka in wetlands and the coastal environment from this rule.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the provision for sustainable clearance of regenerating Manuka or Kanuka for domestic firewood purposes or for arts or crafts in P2. However, the submitter does not support the removal of Manuka or Kanuka from wetlands or vegetation that is naturally short in stature. It is important to ensure that vegetation that is naturally short does not get included in the rules intended to provide for clearance of Manuka and Kanuka colonising pasture. Manuka, in particular, can be a permanent and important component of some types of ecosystems. These are generally wetlands, dunes and other coastal vegetation, but can be gumland vegetation that remains in the leached soils following kauri forest removal. These persistent shrublands are important habitats for lizards, orchids, mistletoes and a range of threatened species. Exclusion of permitted clearance of Manuka or Kanuka from wetlands and from the Coastal Environment is likely to prevent clearance of these ecosystems of concern. The exclusion of Manuka and/or Kanuka clearance in the Coastal Environment from this rule would give effect to the 'avoid' direction in the New Zealand Coastal Policy Statement (NZCPS) and Policy 11.4 of the WRPS. Vegetation clearance within an SNA needs to be remedied to give effect to Policy 3.2.3(a)(ii). 		
Point Number	81.53		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Amend Rule 23.2.8 P2 Indigenous vegetation clearance inside a Significant Natural Area to ensure that weeds are controlled in the cleared area and native vegetation is allowed to regenerate.		
Decision Reasons:	<ul style="list-style-type: none"> Vegetation clearance within an SNA needs to be remedied to give effect to Policy 3.2.3(a)(ii). 		
Point Number	81.54		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Delete P6 of Rule 23.2.8 Indigenous vegetation clearance inside a Significant Natural Area.		
Decision Reasons:	<ul style="list-style-type: none"> P6 duplicates P2. 		
Point Number	81.63		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Amend Rule 23.2.8 P3 Indigenous vegetation clearance inside a Significant Natural Area by giving it restricted discretionary activity status. AND/OR Amend to provide tighter thresholds/ activity status in the Coastal Environment.		
Decision Reasons:	<ul style="list-style-type: none"> P3 Provides for clearance of 250m² of indigenous vegetation removal within an SNA for building/access purposes if there is no alternative development area on the site outside the SNA. Natural values will not necessarily be evenly spread across the SNA and it is likely that some parts will be of higher natural value or of greater sensitivity than others. It is appropriate to retain discretion about the location of clearance in order to avoid as much as possible the adverse effects of the vegetation clearance. It is appropriate to require mitigation or offsetting to give effect to Policy 3.2.3(a)(iii) or (iv). As currently drafted this rule does not give effect to the 'avoid' direction in the New Zealand Coastal Policy Statement and Policy 11.4 for the coastal environment. 		
Point Number	81.69		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Retain Rule 23.2.8 Indigenous vegetation clearance inside a Significant Natural Area, except for the amendments sought below. AND Amend Rule 23.2.8 P4 Indigenous vegetation clearance inside a Significant Natural Area to a restricted discretionary activity. AND/OR Amend Rule 23.2.8 P4 Indigenous vegetation clearance inside a Significant Natural Area to assign a lower threshold than clearance off indigenous vegetation outside of SNA for the same activity. AND/OR Amend Rule 23.2.8 P4 Indigenous vegetation clearance inside a Significant Natural Area to provide an overall cap on clearance as a permitted activity. AND/OR Amend to clarify the location and extent of areas that might be subject to this rule in order to determine if it is likely to have a significant effect on indigenous biodiversity. AND/OR Amend to provide tighter thresholds/ activity status in the Coastal Environment.		

Decision Reasons:	<ul style="list-style-type: none"> P4 provides for up to 1500m² of vegetation removal for marae complex, 500 m²/dwelling, 500 m²/ building, as a permitted activity. Cumulatively this could be a large loss of significant indigenous vegetation and habitat without the ability to address adverse effects through avoiding, remedying, mitigating or offsetting. It is noted that this is the same amount of clearance is provided for non-significant indigenous vegetation. As currently drafted this rule does not give effect to the 'avoid' direction in the New Zealand Coastal Policy Statement and Policy 11.4 for the coastal environment.

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.103		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	No specific decision sought, however submission refers to Rule 23.2.8 Indigenous vegetation clearance inside a Significant Natural Area.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.76		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	<p>Delete Rule 23.2.8 P2 Indigenous vegetation clearance inside a Significant Natural Area.</p> <p>AND</p> <p>Delete Rule 23.2.8 P6 Indigenous vegetation clearance inside a Significant Natural Area.</p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Any vegetation clearance from a Significant Natural Area is not appropriate. The protection of significant vegetation and significant habitats of indigenous fauna is a matter of national importance and therefore such vegetation should not be eroded through a harvesting activity. 		

Submitter Number:	553	Submitter:	Malibu Hamilton
Point Number	553.28		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Retain Rule 23.2.8 P3, P4, P5, and P6 Indigenous vegetation clearance inside a Significant Natural Area.		
Decision Reasons:	<ul style="list-style-type: none"> The New Zealand Coastal Policy Statement 2010 in Policy (d) recognises Tangata whenua needs for papakāinga, marae. The Waikato Regional Policy Statement, 2016 also has Policy 6.4 Marae and papakāinga provisions. The Future Proof Strategy Planning for Growth November 2017 has Priority 15 that seeks developments of papakāinga housing that meets the needs and aspirations in the sub-region. RMA sections 6(e), 7(a), and 8 set out legal obligations when managing the natural and physical resources of the region to Tangata whenua. 		

Submitter Number:	585	Submitter:	Lucy Roberts
Organisation:	Department of Conservation		
Point Number	585.20		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	<p>Amend Rule 23.2.8 Indigenous vegetation clearance inside a Significant Natural Area as follows:</p> <ul style="list-style-type: none"> Include a maximum vegetation clearance permitted activity rule for all purposes; and Include a minimum setback distance from water bodies for all purposes; and Change P2 to a maximum area of clearance rather than a maximum volume; <p>AND</p> <p>Any other relevant amendments.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The current rules for vegetation clearance within Significant Natural Areas fails to adequately protect or manage biodiversity values present in these areas. It is important to appropriately manage indigenous vegetation clearance to prevent further fragmentation and loss in the Waikato District. P2 describes a maximum volume of manuka and kanuka that may be removed per 12 months outside of the coastal environment. A volume of timber is dependent on the size of trees and their density where 5m³ may be clearance of an area of a few 5m², where a few large trees have been harvested. An area limit is more suitable to ensure consistency of removal. 		
Point Number	585.30		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Retain Rule 23.2.8 D1 Indigenous vegetation clearance inside a Significant Natural Area, in particular, retain the cascade to discretionary activity upon non-compliance with the permitted activity standards.		
Decision Reasons:	<ul style="list-style-type: none"> The Director-General supports vegetation clearance outside permitted activity standards becoming a discretionary activity. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.882		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Amend Rule 23.2.8 Indigenous vegetation clearance inside a Significant Natural Area heading, as follows: <i>Indigenous vegetation clearance made within a Significant Natural Area</i>		
Decision Reasons:	<ul style="list-style-type: none"> This wording provides clarity. 		
Point Number	697.883		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Add a new clause (vi) to Rule 23.2.8 P1 (a) Indigenous vegetation clearance inside a Significant Natural Area, as follows: <i>(vi) <u>Removing vegetation for conservation activities.</u></i>		
Decision Reasons:	<ul style="list-style-type: none"> This new rule ensures indigenous vegetation can be cleared for conservation activities. 		
Point Number	697.884		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Amend Rule 23.2.8 P2 Indigenous vegetation clearance inside a Significant Natural Area, as follows: <i>Removal of up to 5m3 of manuka and/or kanuka outside of the Coastal Environment per year per property site for domestic firewood purposes or arts and crafts provided the removal will not directly result in the death, destruction or irreparable damage of any other tree, bush or plant.</i>		
Decision Reasons:	<ul style="list-style-type: none"> This will provide additional clarity that the rule is intended to apply “per site” rather than “per property” which is not a defined term. 		
Point Number	697.885		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Delete Rule 23.2.8 P5 Indigenous vegetation clearance inside a Significant Natural Area; AND Amend Rule 23.2.8 D1 Indigenous vegetation clearance inside a Significant Natural Area, as follows: <i>...P4, P5 or P6.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Rule P5 duplicates P1 with the only difference being that P5 captures Maaori Freehold land or Maaori Customary land, which is already captured by P1. As a consequential amendment. 		

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > outside a Significant Natural Area

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.34		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > outside a Significant Natural Area		
Summary of Decision Requested	Amend Rule 23.2.9 P1(a)(ii) and P2(a)(ii) Indigenous vegetation clearance outside a Significant Natural Area to exclude clearance in wetlands.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter does not support the removal of Manuka or Kanuka from wetlands, this is potentially permitted through P1(a)(ii) and P2(a)(ii). Wetlands are underrepresented with approximately 20% of original extent remaining in the Waikato District. 		
Point Number	81.35		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > outside a Significant Natural Area		
Summary of Decision Requested	Add an additional clause to Rule 23.2.9 P1(a)(vii) and P3(a) Indigenous vegetation clearance outside a Significant Natural Area as follows: <i><u>There is no alternative development area on the site outside of the area of indigenous vegetation clearance.</u></i>		
Decision Reasons:	<ul style="list-style-type: none"> P1 and P3 encourage dwellings, marae and papakainga to locate outside of areas of indigenous vegetation, as is the case for SNAs. 		
Point Number	81.36		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > outside a Significant Natural Area		
Summary of Decision Requested	Amend Rule 23.2.9 P3 Indigenous vegetation clearance outside a Significant Natural Area to provide a total cap on clearance, after which a consent for a restricted discretionary activity is required.		
Decision Reasons:	<ul style="list-style-type: none"> P3 does not provide a total cap for clearance, at which point a restricted discretionary activity will be triggered. An unlimited amount of clearance could occur under this rule with no ability to require avoid, remedy, mitigate or offset. 		
Point Number	81.37		

Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > outside a Significant Natural Area
Summary of Decision Requested	Retain Rule 23.2.9 RD1 Indigenous vegetation clearance outside a Significant Natural Area with the permitted thresholds becoming a restricted discretionary activity.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports clearance beyond the permitted thresholds becoming a restricted discretionary activity.
Point Number	81.38
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > outside a Significant Natural Area
Summary of Decision Requested	Add an additional assessment criteria to Rule 23.2.9 RD1 Indigenous vegetation clearance outside a Significant Natural Area as follows: <u>the extent to which adverse effects have been avoided, remedied, mitigated or offset.</u>
Decision Reasons:	<ul style="list-style-type: none"> Discretion should include the adverse effects on the indigenous biodiversity on the site and the extent to which these adverse effects have been avoided, remedied, mitigated or offset to allow consideration of the mitigation hierarchy in WRPS Implementation Method 11.1. 3.

Submitter Number:	330	Submitter:	Andrew and Christine Gore

Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > outside a Significant Natural Area		
Summary of Decision Requested	Delete Rule 23.2.9 Indigenous vegetation clearance - outside a Significant Natural Area, to make indigenous vegetation clearance outside of a Significant Natural Area permitted in all circumstances. AND Amend the Proposed District Plan to make consequential or further additional relief, as is appropriate to give effect to the intent of the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Indigenous vegetation clearance outside of Significant Natural Area should be permitted in all circumstances but no reasons have been provided. 		

Submitter Number:	553	Submitter:	Malibu Hamilton
Point Number	553.29		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > outside a Significant Natural Area		
Summary of Decision Requested	Retain Rule 23.2.9 P1 (a)(vi), P1 (a)(vii), P2, and P3 Indigenous vegetation clearance outside a Significant Natural Area.		
Decision Reasons:	<ul style="list-style-type: none"> The New Zealand Coastal Policy Statement 2010 in Policy (d) recognises Tangata whenua needs for papakāinga, marae. The Waikato Regional Policy Statement, 2016 also has Policy 6.4 Marae and papakāinga provisions. The Future Proof Strategy Planning for Growth November 2017 has Priority 15 that seeks developments of papakāinga housing that meets the needs and aspirations in the sub-region. RMA sections 6(e), 7(a), and 8 set out legal obligations when managing the natural and physical resources of the region to Tangata whenua. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.886		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > outside a Significant Natural Area		
Summary of Decision Requested	Delete Rule 23.2.8 P6 Indigenous vegetation - outside a Significant Natural Area; AND Amend Rule 23.2.8 D1 Indigenous vegetation clearance - outside a Significant Natural Area, as follows: ...P4, or P5 or P6.		
Decision Reasons:	<ul style="list-style-type: none"> The activity in P6 is a repeat of P2. As a consequential amendment. 		
Point Number	697.887		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > outside a Significant Natural Area		
Summary of Decision Requested	Amend Rule 23.2.9 Indigenous vegetation clearance - outside a Significant Natural Area heading, as follows: <u>Indigenous vegetation clearance – outside a Significant Natural Area-general</u>		
Decision Reasons:	<ul style="list-style-type: none"> The heading "outside a Significant Natural Area" is confusing, as the provision relates to all areas of the Country Living Zone that is not covered by a Significant Natural Area. 		

Point Number 697.888

Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > outside a Significant Natural Area

Summary of Decision Requested **Amend** Rule 23.2.9 P1(a)(ii) Indigenous vegetation clearance - outside a Significant Natural Area, as follows:
(ii) maintaining productive pasture through the removal of up to 1000m² per single consecutive 12 month period year of manuka and/or kanuka that is at least more than 10m from a waterbody, and less than 4m in height; or

Decision Reasons:

- The additional wording in this rule provides clarity.

Point Number 697.889

Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > outside a Significant Natural Area

Summary of Decision Requested **Amend** Rule 23.2.9 RD1 (b) (iii) Indigenous vegetation clearance - outside a Significant Natural Area, as follows:
(iii) The ~~extent to which~~ cumulative effects of the vegetation clearance have been considered and addressed.

Decision Reasons:

- Amendments required to wording to ensure that the intent of the rule is correct and formatting changed in (b)(iii) to be clear.

Submitter Number: 831 **Submitter:** Gabrielle Parson

On behalf of: Raglan Naturally

Point Number 831.89

Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.2 Land Use - Effects > outside a Significant Natural Area

Summary of Decision Requested **Delete** Rule 23.2.9 Indigenous vegetation clearance outside a Significant Natural Area
 AND
Add provisions that will increase natural habitats.

Decision Reasons:

- The submitter supports bush regeneration, such as that at Wainui Bush Reserve.
- The Proposed District Plan makes no attempt to indicate how much bush has been lost, or will be lost by these and other provisions in the Proposed District Plan.
- Screening with trees should be applied to improve and protect views from Raglan and its beaches.
- Much of the attraction of Raglan derives from its beaches and the north shore of the harbour having rural aspects.
- New subdivisions could diminish that attraction and an active policy of tree planting to establish belts of trees screening those views would help to protect the rural image.
- Alternatively, the Proposed District Plan could ban development which would detract from those views.

Point Number 697.896

Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building

Summary of Decision Requested **Add** a new rule to Rule 23.3 Land Use - Building after Rule 23.3.6 Building coverage, as follows:

Rule 23.3.6A Impervious surfaces.

PI

The impervious surface of a site must not exceed 70%.

RD1

(a) Impervious surfaces that does not comply with Rule 23.3.4A PI

(b) Council's discretion is restricted to the following matters:

- (i) Site design, layout and amenity;
- (ii) The risk of flooding, nuisance or damage to the site or other buildings and sites.

Decision Reasons:

- This is to include the impervious surfaces rule from Rule 14.1.1.1(P2) and 14.1.2(RD2) into Chapter 23 to make it easier to find.

Point Number

697.904

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building

Summary of Decision Requested

Amend location of Rule 23.3.7.4 Building - Airport Noise Outer Control Boundary to follow rule 23.3.8 Building – Horotiu Noise Acoustic Area.

Decision Reasons:

- This rule is a noise rule, not a setback requirement and needs to be relocated.

Point Number

697.907

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building

Summary of Decision Requested

Add a new rule to Chapter 23 Country Living Zone after Rule 23.3.8 Horotiu Noise Acoustic Area, as follows:

23.3.8B Building – Te Kowhai Noise Buffer

PI Construction of, or addition, or alteration to, a dwelling within the Te Kowhai Noise Buffer that is designed and constructed to achieve the internal design sound levels specified in Section 3.2 of Appendix 1 (Acoustic Insulation).

RD1 (a) Construction of, or addition, or alteration to, a dwelling that does not comply with Rule 23.3.8B PI

(b) Council's discretion shall be restricted to the following matters:

- (i) on-site amenity values;
- (ii) noise levels received at the national boundary of the dwelling;
- (iii) timing and duration of noise received at the national boundary of the dwelling;
- (iv) potential for reverse sensitivity effects.

Decision Reasons:

- An area of Country Living Zone lies in close proximity to the Te Kowhai Airpark. In order to manage internal noise levels, the rule regarding noise buffers needs to be inserted in Chapter 23.

Decision Reasons:

- No reasons provided.

Submitter Number:

378

Submitter:

Fire and Emergency New Zealand

Point Number

378.42

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.4 Height

Summary of Decision Requested

Amend Rule 23.3.4.1 Height, to include the following:

This Standard does not apply to emergency service facilities and hose drying towers up to 1.5m associated with emergency service facilities.

AND

Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- Inclusion of a specific exemption for emergency service facilities and hose drying towers will appropriately provide for the operational requirements of Fire and Emergency New Zealand.
- Fire stations are single storied buildings of approximately 8-9m in height and are typically able to achieve the height standards in a District Plan. Some fire stations also include a hose drying tower of between 12-15m in height.
- Fire and Emergency New Zealand considers that the inclusion of an exemption for associated structures better provides for the health and safety of the community by enabling the efficient functioning of Fire and Emergency New Zealand.

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.4 Height

Summary of Decision Requested

Amend Rule 23.3.4.2 Buildings, structures and vegetation within an airport obstacle limitation surface, to include a calculation to determine the permitted height with the airport obstacle limitation surface.

Decision Reasons:

- This rule needs to be able to be clearly interpreted by customers in relation to the Waikato Regional Airport.

Point Number	697.893
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.4 Height
Summary of Decision Requested	Amend Rule 23.3.4(2) Height, as follows: <i>(2) Rule 23.3.4.1 – Height - Building general provides permitted height levels across the entire Rural Zone for buildings, structures or vegetation. This rule does not apply in those areas specified in Rule 23.3.4.2.</i>
Decision Reasons:	<ul style="list-style-type: none"> The wording of the rule does not make it clear that Rule 23.3.4.2 applies to the areas specified in that rule instead of the height building general rule.
Point Number	697.894
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.4 Height
Summary of Decision Requested	Amend Rule 23.3.4.2 P1 Height - Buildings, structures and vegetation within an airport obstacle limitation surface, as follows: <i>Any building, structure or vegetation that does not protrude through any the airport obstacle limitation surface as shown identified on the planning maps in Appendix 9 – Te Kowhai Airfield, and defined in Section E, Designation N – Waikato Regional Airport.</i>
Decision Reasons:	<ul style="list-style-type: none"> This rule applies to both the Te Kowhai Airfield and the Waikato Regional Airport so needs to be specified. The additional wording provides clarity to the rule.
Point Number	697.895
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.4 Height
Summary of Decision Requested	Amend Rule 23.3.4.2 NC1 Height - Buildings, structures and vegetation within an airport obstacle limitation surface to be a Discretionary activity rather than a non complying activity as follows: NC1-D1 <i>Any building, structure or vegetation that does not comply with Rule 23.3.4.2 P1.</i>
Decision Reasons:	<ul style="list-style-type: none"> This additional wording provides clarity to the rule. Non-compliance with the permitted activity standards is more appropriate as a discretionary activity.

Submitter Number:	765	Submitter:	Tamahere Eventide Home Trust
On behalf of:	Atawhai Assisi Retirement Village		
Point Number	765.8		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.4 Height		
Summary of Decision Requested	Amend Rule 23.3.4.1- Height- Building Control so that it does not apply to Tamahere Eventide. AND Any consequential amendments that are required to give effect to the above submission.		
Decision Reasons:	<ul style="list-style-type: none"> An alternative height standard is proposed for Tamahere Eventide (in activity specific conditions elsewhere in the submission). The maximum permitted building height (7.5m) shouldn't be applicable to a retirement village development. Modern retirement village developments typically comprise of multi-level buildings that are often greater than 7.5m in height. Retirement village sites are of sufficient size and area so that buildings higher than 7.5m can be appropriately positioned within the site to comply with the building setback and height-boundary requirements. A height rule is proposed for 'a new retirement village or alterations to an existing retirement village' should apply, similar to Residential Zone Rule 16.1.2 P3 (f). 		

Submitter Number:	769	Submitter:	Tamahere Eventide Trust
On behalf of:	Tamahere Eventide Retirement Village		
Point Number	769.8		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.4 Height		
Summary of Decision Requested	Amend Building Rule 23.3.4.1-Height - Building General so that it does not apply to Atawhai Assisi. AND Amend the Proposed District Plan to make consequential amendments to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter opposes 7.5 maximum height (7.5m) proposed under Rule 23.2.4.1 P1. Should not be applicable to a retirement village development. Modern retirement village developments typically comprise of multi-level buildings that are often greater than 7.5m in height. Retirement village sites are of sufficient size and area so that buildings higher than 7.5m can be appropriately positioned within the site to comply with building setback and height to boundary requirements. Height rule proposed for in 16.1.2 P3 (f) should also apply to retirement villages in the Country Living Zone. An alternative height is proposed as an activity specific condition elsewhere in the submission. 		

Submitter Number:	823	Submitter:	NZTE Operations Limited
Point Number	823.11		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.4 Height		
Summary of Decision Requested	Amend Rule 23.3.4.2 – Height - Buildings, structures and vegetation within an airport obstacle limitation surface, as follows:		

PI

Any building, structure, tree or other vegetation ~~must that does~~ not protrude through any airport obstacle limitation surface identified in Appendix 9 Te Kowhai Airpark and as shown on the planning maps.

~~NEPI~~

Any building, structure, tree or other vegetation that does not comply with Rule 23.3.4.2 PI.

AND

Amend the Proposed District Plan for any consequential relief required to give effect to this submission.

Decision Reasons:

- The OLS (as notified) is necessary to ensure compliance with Civil Aviation Circular AC139-7 Aerodrome Standards and Requirements for Code I aerodromes operating on a VFR and an IFR (non-air transport) basis. The extent of the OLS is described in Chapter 29 – Appendix 9.
- Rules are also provided in the PWDP to protect the OLS from being breached by buildings, structures and vegetation.
- Although Rule 27.3.1 as notified correctly protects the proposed OLS from buildings, structures, trees and other vegetation, the corresponding height rules in other zones omits reference to 'trees'.
- It is critical that there is consistency amongst OLS provisions and that the provisions control 'trees' as well as buildings, structures and other vegetation.
- It is proposed that the relevant rules in each chapter are amended to align with the (correct) wording in Chapter 27, Rule 27.3.1.

Summary of Decision Requested	Retain Rule 23.3.5 RD1-Daylight admission.		
Decision Reasons:	<ul style="list-style-type: none"> Restricted Discretionary Activity Status is supported. 		
Point Number	769.9		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.5 Daylight admission		
Summary of Decision Requested	Retain Rule 23.3.5 P1 Daylight admission, except for amendments sought below AND Amend Rule 23.3.5- Daylight admission so that it only applies to the external boundaries of Atawhai Assisi, not the internal boundaries between the individual certificates of title. AND Amend the Proposed District Plan to make consequential amendments to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Retention of existing height-boundary provision (37 degrees at 2.5m above ground level) is supported. Existing rest home and retirement village development at Atawhai Assisi currently comprises of a single certificate of title, however the site may be expanded in future. In order to future proof the site, height-boundary requirement should only be applicable to the external boundaries of the retirement village. 		

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.6 Building coverage

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.111

Point Number	695.117		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.6 Building coverage		
Summary of Decision Requested	Amend Rule 23.3.6 P1 Building coverage, as follows: <i>The total building coverage must not exceed 10% of the site area or 300m2, whichever is the larger.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers re-phrasing is required. 		

Submitter Number:	696	Submitter:	Brenda and Gavin Butcher
Organisation:	Parkmere Farms		
Point Number	696.5		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.6 Building coverage		
Summary of Decision Requested	Amend Rule 23.3.6 P1 Building coverage, as follows: <i>The total building coverage must not exceed 10% or 300m2 400m2, whichever is the larger.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • This is a consequential amendment to enabling a smaller minimum site size. • It will still enable a useable gross floor area of principal dwelling, minor dwelling and accessory buildings. • It will still ensure an open and spacious character is in accordance with the large lot residential form of the Country Living Zone. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.898		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.6 Building coverage		
Summary of Decision Requested	Amend Rule 23.3.6 P1 Building coverage, as follows: <i>The total building coverage must not exceed 10% or 300m2, whichever is the larger.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The word “total” is not required. • This is to provide consistency across zone chapters. 		
Point Number	697.899		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.6 Building coverage		
Summary of Decision Requested	Amend Rule 23.3.6 D1 Building coverage, as follows: <i>Total Building coverage that does not comply with Rule 23.3.6 P1.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • This is to provide consistency across zone chapters. 		

Submitter Number:	724	Submitter:	Sue Robertson
Organisation:	Tamahere Community Committee		
Point Number	724.4		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.6 Building coverage		
Summary of Decision Requested	Retain Rule 23.3.6 Building coverage, which permits up to 10% building coverage or 300m2, whichever is the larger.		
Decision Reasons:	<ul style="list-style-type: none"> • The alternative limit of 300m2 provides flexibility for development on smaller land holdings (eg: 2500m2), rather than the previous 10%. • Recognises that building coverage is subject also to the impervious surface rules and building setback rules. 		

Submitter Number:	735	Submitter:	Cindy and Tony Young
Point Number	735.3		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.6 Building coverage		
Summary of Decision Requested	Amend Rule 23.3.6 P1 Building coverage, to read as follows: <i>The total building coverage must not exceed 10% or 300m2 500m2, whichever is the larger.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • This is a consequential amendment to enabling a smaller minimum site size. • It will still enable a useable gross floor area of principal dwelling, minor dwelling and accessory buildings. • It will still ensure an open and spacious character in accordance with the large lot residential form of the Country Living Zone. 		
Point Number	735.7		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.6 Building coverage		
Summary of Decision Requested	Amend Rule 23.3.6 P1 Building Coverage, to increase the permitted building coverage limits.		
Decision Reasons:	<ul style="list-style-type: none"> • For genuine rural enterprises, accessory buildings such as hay sheds, stables, garages, tractor sheds are necessary. • The proposed limit of 2% or 500m2 (whichever is the larger) is too constraining to enable the level of buildings required to support rural production activities. 		

Submitter Number:	754	Submitter:	Pieter Van Leeuwen
--------------------------	-----	-------------------	--------------------

Point Number	754.3
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.6 Building coverage
Summary of Decision Requested	Amend Rule 23.3.6 P1- Building Coverage to read as follows: <i>The total building coverage must not exceed 10% or 300 400m2, whichever is the larger.</i>
Decision Reasons:	<ul style="list-style-type: none"> This is a consequential amendment to enabling a smaller minimum site size. Still enable a useable gross floor area of principal dwelling, minor dwelling and accessory buildings. Will still ensure an open and spacious character is accordance with the large lot residential form of the Country Living Zone.
Point Number	754.8
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.6 Building coverage
Summary of Decision Requested	Amend Rule 23.3.6 P1 Building coverage to increase the permitted building coverage limits.
Decision Reasons:	<ul style="list-style-type: none"> For genuine rural enterprises, accessory buildings (e.g. hay shed, stables, garages, tractor sheds) are necessary. The proposed limit of 2% or 500m2 (whichever is the larger) is too constraining to enable the level of buildings required to support rural production activities.

Submitter Number:	765	Submitter:	Tamahere Eventide Home Trust
On behalf of:	Atawhai Assisi Retirement Village		
Point Number	765.21		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.6 Building coverage		
Summary of Decision Requested	Amend Rule 23.3.6- Building Coverage so that the building coverage rules do not apply to Tamahere Eventide. AND Any consequential amendments that are required to give effect to the above submission.		
Decision Reasons:	<ul style="list-style-type: none"> Rules relating to building coverage in 23.3.6 (P1) should not be applicable to Tamahere Eventide. Larger sized buildings (greater than 300m2) form an integral part of a retirement village development and are necessary to accommodate the shared services and specialised medical facilities that are essential for a retirement village. 		

Submitter Number:	769	Submitter:	Tamahere Eventide Trust
On behalf of:	Tamahere Eventide Retirement Village		
Point Number	769.20		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.6 Building coverage		
Summary of Decision Requested	Amend Rule 23.3.6 P1- Building coverage so that the building coverage requirements do not apply to Atawhai Assisi. AND Amend the Proposed District Plan to make consequential amendments to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Rule relating to building coverage in Rule 23.3.6 P1 should not be applicable to Atawhai Assisi. Larger sized buildings (greater than 300m2) form an integral part of a retirement village development and are necessary to accommodate the shared services and specialised medical facilities essential for a retirement village. The submitter is opposed to any restrictions regarding building coverage for Atawhai Assisi. 		

Submitter Number:	838	Submitter:	Madsen Lawrie Consultants
Point Number	838.16		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.6 Building coverage		
Summary of Decision Requested	Amend Rule 23.3.6(P1) Building coverage to increase the percentage of permitted building coverage.		
Decision Reasons:	<ul style="list-style-type: none"> Total building coverage of 10% or 300m2 is too small, rural sized dwellings with accessory buildings could easily exceed this whilst still being entirely appropriate for areas of country living. 		

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks

Submitter Number:	161	Submitter:	Martin Lynch
Point Number	161.3		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks		
Summary of Decision Requested	Delete the requirement for a 23m building setback apply to artificial water bodies in Rule 23.3.7 (Building Setbacks).		

Decision Reasons:	<ul style="list-style-type: none"> It is inappropriate for a setback to apply to artificial water bodies which have been developed for the purpose of adding character and amenity value on private property. The rule does not take into account elevation, screening and other material items. The rule prevents the provision of a small hut or bird viewing shelter which would be a great attribute for children and adults interested in conservation.

Point Number	378.43		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks		
Summary of Decision Requested	Retain Rule 23.3.7.5 Building setback - Waterbodies.		
Decision Reasons:	<ul style="list-style-type: none"> The Rule will safeguard the wellbeing of communities in accordance with the purpose of the RMA and purpose of Fire and Emergency New Zealand in the effective protection of lives, property and the surrounding environment. 		

Submitter Number:	401	Submitter:	Robert Hugh Maclennan
Point Number	401.1		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks		
Summary of Decision Requested	Amend Rule 23.3.7 Building Setbacks, to reduce the required boundary setback from 12m to 1.5m.		
Decision Reasons:	<ul style="list-style-type: none"> The current required boundary setback is now too restrictive on the current and proposed site sizes. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.44		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks		
Summary of Decision Requested	Retain Rule 23.3.7 P1 Building setbacks - All boundaries, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the 12m setback from boundaries, other than a road boundary. Requiring an adequate buffer between new urban/residential development from existing, legitimate rural production activities will assist in avoiding or mitigating the potential for reverse sensitivity to arise. Although farming noise is permitted within the zone, there are a number of other effects associated with legitimate farming activities which are part of rural character and amenity. Rural character and amenity is often not clearly understood by new residents and providing adequate buffers can assist in minimising complaints. 		
Point Number	419.45		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks		
Summary of Decision Requested	Add a new clause (iv) to Rule 23.3.7.1 P2 (a) Building setbacks - All boundaries, as follows: <i>(a) Any building located on a lot containing 1000m² or less must be set back a minimum of:</i> ... <u><i>(iv) 10m from every boundary adjoining a Rural Zone.</i></u>		
	AND		

Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- A 1.5m setback from all boundaries as proposed is not sufficient to avoid or mitigate potential reverse sensitivity effects that arise between residential activities and rural activities.
- When compared with the 12m setback proposed in Rule 23.3.7 for lots greater than 1000m², the 1.5m setback incentives creation of smaller lots which results in a high density of residential development in close proximity to the rural environment.
- This has the potential for greater reverse sensitivity issues.

Point Number

419.46

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks

Summary of Decision Requested

Add a new clause (v) to Rule 23.3.7.1 RD1 (b) Building setbacks - All boundaries as follows:

(v) reverse sensitivity effects.

AND

Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- An additional matter is sought to enable the potential for reverse sensitivity effects to be included as a matter to which discretion is restricted in determining the location of buildings within the relevant setbacks from Rural zoned land.
- This is a matter of restricted discretion in Rule 26.3.6.1 of the Village Zone and is also relevant to the Country Living Zone.

Point Number

419.48

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks

Summary of Decision Requested

Retain Rule 23.3.7.2 D1 Building setback - Sensitive land use, as notified.

Decision Reasons:

- The discretionary activity status is supported.

Summary of Decision Requested

Retain Rule 23.3.7 PI Building setbacks as notified.

Decision Reasons:

- The submitter supports this.
- An adequate buffer is essential in managing reverse sensitivity matters.

Point Number

466.30

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks

Summary of Decision Requested

Amend Rule 23.3.7 RD1 Building setbacks to include consideration of reverse sensitivity as a matter of discretion.

Decision Reasons:

- An additional provision is sought to enable the potential for reverse sensitivity effects to be included as a matter to which discretion is restricted, particularly

about the siting of buildings adjoining land used for commercial vegetable production.

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.26		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks		
Summary of Decision Requested	Amend Rule 23.3.7.5 P1 Building setback - Waterbodies as follows: <i>(a) Any building must be set back a minimum of:</i> <i>(i) 23m from the margin of any:</i> A. Lake <u>over 4ha</u> ; and B. Wetland; ... <i>(v) 10m from a managed wetland.</i>		
Decision Reasons:	<ul style="list-style-type: none">• Opposes the use of the generic term "wetland" as this all-encompassing terminology is inappropriate for use within the Proposed District Plan as it will a significant impact on land development in Country Living Zone that may not carry any reasonable environmental benefit.• The setbacks for man-made stormwater infrastructure and/or modified waterbodies be identified under all applicable waterbody setback rules be 10m.• As a 'lake' can constitute a large array of waterbodies., the submitter contends that a starting point of 4ha be used in the Proposed District Plan before the setback applies.		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.118		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks		
Summary of Decision Requested	Amend Rule 23.3.7.1 P2(a)(ii) Building setbacks – All boundaries, to include an exemption where an indicative road has been constructed and is open to the public but the indicative road has not been removed from the Planning Maps.		
Decision Reasons:	<ul style="list-style-type: none">• Difficulties have been encountered with inflexible Council Planner's interpretations in Raglan and Tamahere that insisted on proposals being a prohibited activity in one instance , and in the other, on considering the effects of future development on an indicative road where the road had been constructed just 50m away and was open to the public.		
Point Number	695.119		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks		
Summary of Decision Requested	Amend Rule 23.3.7.1 P2(a)(iii) Building setbacks – All boundaries to reduce the minimum setback to 6m for all sites.		
Decision Reasons:	<ul style="list-style-type: none">• This rule to be changes to a reduced setback to be realistic.• The minimum setback at 23.3.7.1 P2(a)(ii) is just 1.5m, yet for the an allotment over 1,000m2 is 12m.• The 24m distance requirement from a dwelling on an adjoining lot is completely impractical. If a dwelling is placed 1.5m from the existing boundary, adjoining site of 1,000m2 application site losses 22.5mx31.623m equals a loss of 711m2, which cannot be used for the building platform.• It is impractical.		
Point Number	695.120		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks		
Summary of Decision Requested	Amend Rule 23.3.7.5 Building setbacks – Waterbodies and Rule 22.3.7.5 Building setbacks, to be made the same.		
Decision Reasons:	<ul style="list-style-type: none">• There does not appear to be a regulatory or logical reason for a difference with the Rural Zone .

Summary of Decision Requested	<p>Add a new clause (v) to Rule 23.3.7.1 RD1 (b) Building setbacks - All boundaries, as follows:</p> <p><i>(v) <u>reverse sensitivity</u>.</i></p>
Decision Reasons:	<ul style="list-style-type: none"> This additional matter of discretion is required to be included in the planner's assessment of effects of this activity.
Point Number	697.903
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks
Summary of Decision Requested	<p>Add new clauses to Rule 23.3.7.2 Building Setback - sensitive land use, as follows:</p> <p><u>P2</u></p> <p><i>(a) Any building for a sensitive land use must be set back a minimum of:</i></p> <p><i>(i) 10m from the centre line of any electrical distribution or transmission lines, not associated with the National Grid, that operate at a voltage of up to 110kV;</i></p> <p><i>(ii) 12m from the centre of line of any electrical distribution or transmission lines, not associated with the National Grid, that operate at a voltage of 110kV or more.</i></p> <p><u>P3</u></p> <p><i>(a) Within the National Grid yard, alterations or additions to a building used for an existing sensitive land Yard must comply with all the following conditions:</i></p> <p><i>(i) Not increase the building height or footprint; and</i></p> <p><i>(ii) Comply with the New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663 under all National Grid transmission line operating conditions; and</i></p> <p><i>(iii) Locate a minimum 12m from the outer visible foundation of any National Grid tower and locate a minimum 12m from any pole and associated stay wire, unless Transpower has given written approval in accordance with clause 2.4.1 of the New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663.</i></p> <p><u>D1</u></p>

Any building for a sensitive land use that does not comply with Rule 23.3.7.2 P1 or P2.
NC1
Any activity within the National Grid Yard that does not comply with Rule 23.3.7.2 P3.
NC2
Any new building for a sensitive land use within the National Grid Yard.
NC3
Any change of use of an existing building to a sensitive land use within the National Grid Yard.
NC4
The establishment of any new sensitive land use within the National Grid Yard

Decision Reasons:

- This is to replicate the rule regarding sensitive landuses from Chapter 14 into Chapter 23 for increased clarity and usability of the Plan.

Point Number 697.905

Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks

Summary of Decision Requested **Delete** Rule 23.3.7.5 P1(b) Building setback - waterbodies;
AND
Add a new permitted activity P2 to Rule 23.3.7 Building setbacks as follows:
P2
A public amenity of up to 25m², or a pump shed (public or private) within any building setback identified in rule 23.3.7.5 P1.
AND
Amend Rule 23.3.7.5 D1 Building setbacks, as follows:
Any building that does not comply with Rule 23.3.7.5 P1 or P2

Decision Reasons:

- This is to provide consistency with other zone chapters.
- As a consequential amendment.

Point Number 697.906

Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks

Summary of Decision Requested **Amend** Rule 23.3.7.5 Building setback - waterbodies, as follows:
P1
(a) Any building must be set back a minimum of:
(i) ~~23.2~~ 25m from the margin of any;
A. lake; and
B. wetland;
(ii) ~~23.2~~ 37m from the bank of any river (other than the Waikato River and Waipa River);
(iii) 37m from the banks of the Waikato River and the Waipa River; and
(iv) ~~27.5-32~~ 25m from mean high water springs.

Decision Reasons:

- This is so that the setback represents 25m esplanade reserve plus the yard setback for the Waikato and Waipa Rivers, and 20m esplanade plus the yard setback for all other waterbodies.

Submitter Number: 742 **Submitter:** Kim Harris-Cottle

Organisation: New Zealand Transport Agency

Point Number 742.238

Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks

Summary of Decision Requested **Amend** Rules 23.3.7.1 P1 and P2 Building Setbacks - All boundaries to require 35m setbacks from the Waikato Expressway designation boundary, and 15m setbacks from all other state highways.

Decision Reasons:

- Rules 23.3.7.1 P1 and P2 do not differentiate between different road types as described in the road hierarchy.

Point Number 742.239

Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks

Summary of Decision Requested **Retain** Rule 22.3.7.1 Building Setbacks- All boundaries, except for the amendments sought below
AND
Amend matter of discretion (b)(ii) in Rule 22.3.7.1 RD1 Building Setbacks - All boundaries, as follows:
Effects on traffic ~~Transport~~ network safety and efficiency;
AND
Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter supports matter of discretion (b)(ii) under Rule 23.3.7.1 RD1.

Point Number 742.240

Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks

Summary of Decision Requested **Retain** Rule 23.3.7.2 P1 Building setback - sensitive land use as notified (subject to relief sought in other submissions on acoustic treatment).

Decision Reasons:

- The proposed setbacks will not be sufficient to avoid adverse effects on occupiers on their own and buildings will also require acoustic treatment.
- Relief sought in this respect assumes submission points regarding acoustic treatment are accepted.

Point Number 742.241

Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks
Summary of Decision Requested	Retain Rule 23.3.7.2 D1 Building setback - sensitive land use, as notified.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Council having full discretion over sensitive land use activities that do not comply with permitted activity standards.

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.119		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks		
Summary of Decision Requested	Add to Rule 23.3.7.5 P1-Building Setbacks - Waterbodies as follows: <u>a building must be set back a minimum of 10 metres from the bank of a perennial or intermittent stream (named or unnamed).</u>		
Decision Reasons:	<ul style="list-style-type: none"> Rule 22.3.7.5 has not included minimum setbacks from the bank of a perennial or intermittent stream. 		

Submitter Number:	765	Submitter:	Tamahere Eventide Home Trust
On behalf of:	Atawhai Assisi Retirement Village		
Point Number	765.22		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks		
Summary of Decision Requested	Amend Rule 23.3.7.1- Building setbacks - All boundaries so that the setback requirements do not apply to Tamahere Eventide. AND Any consequential amendments that are required to give effect to the above submission.		
Decision Reasons:	<ul style="list-style-type: none"> Requirements for building setbacks and height-boundary should only apply to the external boundaries of the submitter's site, not the internal boundaries of the individual certificates of title that collectively apply to the site. Site specific building setbacks are proposed for Tamahere Eventide elsewhere in the submission. 		
Point Number	765.23		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks		
Summary of Decision Requested	Amend Rule 23.3.7.2 Building setback- Sensitive Land Use so that the setback requirements do not apply to Tamahere Eventide. AND Any consequential amendments that are required to give effect to the above submission.		
Decision Reasons:	<ul style="list-style-type: none"> P1 (a)(iii) requires a 35m setback from the designated boundary of the Waikato Expressway, which is larger than what currently exists at the site (as per the existing Operative District Plan) Site specific setbacks are proposed for Tamahere Eventide elsewhere in the submission. 		

Submitter Number:	769	Submitter:	Tamahere Eventide Trust
On behalf of:	Tamahere Eventide Retirement Village		
Point Number	769.21		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks		
Summary of Decision Requested	Amend Rule 23.3.7.1- Building setbacks - All boundaries so that the building set back requirements do not apply to Atawhai Assisi. AND Amend the Proposed District Plan to make consequential amendments to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Setbacks should only apply to a external boundaries, not internal boundaries between individual certificates of title. While the existing retirement village currently comprises of a single certificate of title, this could change in the future (either by subdividing the existing site or acquiring additional land in the future). Alternate setback standards are sought as an activity specific condition elsewhere in the submission.

Organisation:	Genesis Energy Limited		
Point Number	924.37		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks		
Summary of Decision Requested	Add a new setback requirement to Rule 22.3.7.2 P1 Building Setback- Sensitive Land Use as follows: <u>(x) 500m from the boundary of the Huntly Power Station.</u>		
Decision Reasons:	<ul style="list-style-type: none"> Land surrounding Huntly Power Station is zoned Rural. Huntly Power Station is not listed in P1 and The submitter considers it appropriate for the power station to also be listed. 		

Submitter Number:	943	Submitter:	McCracken Surveys Limited
Point Number	943.65		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks		
Summary of Decision Requested	Amend Rule 23.3.7.5 P1 (a) – Building setback – Waterbodies, to carry over existing rule from the Operative District Plan.		
Decision Reasons:	<ul style="list-style-type: none"> The setbacks in the Notified version need to be workable and known parameters as to when the rule applies. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.55		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.7 Building setbacks		
Summary of Decision Requested	<p>Amend Rule 23.3.7.2 Building setback sensitive land use as follows (or similar amendments to achieve the requested relief):</p> <p>Building setback sensitive land use</p> <p>P1 Sensitive land use</p> <p>(a) Any new building or alteration to an existing building for a sensitive land use must be set back a minimum of:</p> <p>(i) 5m from the designated boundary of the railway corridor</p> <p>...</p> <p>P2 Railway corridor</p> <p>any new buildings or alterations to an existing building must be setback 5 metres from any designated railway corridor boundary.</p> <p>OR</p> <p>Retain Rule 23.3.7.2 P1(a)(i) Building setback sensitive land use if the primary relief above is not accepted</p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail seeks that a 5metre setback apply to all new building development adjacent to operational railway corridor boundaries (i.e. not just sensitive land uses). Ensuring all new structures in all zones are set back from the rail corridor allows access and maintenance to occur without the landowner or occupier needing to gain access to the rail corridor- potentially compromising their own safety. Setting back buildings from the rail corridor boundary is a means of ensuring people's health and wellbeing through good design. Construction of buildings in close proximity to the rail corridor has significant safety risk if it is not managed appropriately in accordance with relevant standards. A 5m setback is not an acoustic setback. It allows for vehicular access to the backs of buildings (e.g. a cherry picker) and would also allow scaffolding to be erected safely. This in turn fosters visual amenity as lineside properties can then be regularly maintained. A setback is the most efficient method of ensuring intensification does not result in additional safety issues for activities adjacent to the rail corridor, whilst not restricting the ongoing operation and growth of activity within the rail corridor. The proposed provisions would require any development within the setback to obtain consent with matters of discretion relating to: <ul style="list-style-type: none"> (i) location, design and use of the proposed building or structure as it relates to the rail network (ii) impacts on the safe operation, maintenance and development of the rail network (iii) construction and maintenance management. The relief provides for the rejection of the primary relief. This setback applies only to sensitive land use buildings which does not achieve the safety and amenity benefits sought throughout the district. 		

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.9 Historic Heritage

Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.9 Historic Heritage		
Summary of Decision Requested	Retain Rule 23.3.9.2 D1 Group B heritage item – Demolition, removal or relocation.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the discretionary activity rule for the demolition, removal or relocation of a Group B heritage item as this activity status recognises that demolition, removal or relocation of a heritage item must be subject to a high level of scrutiny. 		

Point Number	559.104
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.9 Historic Heritage
Summary of Decision Requested	Delete Rule 23.3.9.3 PI All heritage items – Alterations or additions.
Decision Reasons:	<ul style="list-style-type: none"> • The submitter has concerns regarding the permitted activity rule related to alterations or additions. • Concerned that that only protecting the significant physical features or specified facades of buildings has the potential for adverse effects on the heritage values of the entire building • Works that are located out of public view or that do not involve significant features could have the potential to adversely affect or undermine heritage values. • The rule ignores the intrinsic heritage values of the whole of the heritage items. • Alterations and additions under this rule as a permitted activity could cumulatively impact on the overall building, not just the significant features or specified facades. • In addition it is incorrect to assume that works that are located out of public view or that do not involve significant features are unimportant and do not have the potential to adversely affect or undermine heritage values. • Any alterations or additions should be assessed through a resource consent process to consider the holistic impact of the proposed works on the historic heritage item, ensuring minimal loss of heritage fabric, and that the design, form, scale, workmanship, location of works and the curtilage and setting are respected.
Point Number	559.111
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.9 Historic Heritage
Summary of Decision Requested	Retain Rule 23.3.9.3 RD1 All heritage items – Alterations or additions, except for the amendments sought below. AND Amend Rule 23.3.9.3 RD1 as follows: <i>(a) Any activity that does not comply with Rule 23.3.9.3 PI- Any alteration or addition to a heritage item in Schedule 30.1 Heritage items</i> <i>(b) Council's discretion is restricted to the following matters:</i> <i>(i) Location, Form, scale, style, materials and appearance; and</i> <i>(ii) Effects on heritage values;</i> <i>(iii) <u>Effects on the setting of the heritage item.</u></i>
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports that additions and alterations are a restricted discretionary activity. • The existing restricted discretionary activity should be amended to include any alteration or addition to a heritage building to ensure that any potential to negatively impact on the building is captured through the resource consent process. • Further amendments are also required to address relevant matters to achieve an appropriate level of assessment.
Point Number	559.119
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.9 Historic Heritage
Summary of Decision Requested	Retain Rule 23.3.9.4 PI All heritage items – Maintenance or repair, except for the amendments sought below. AND Amend Rule 23.3.9.4 PI All heritage items – Maintenance or repair as follows: <i>(a) Maintenance or repair of a heritage item listed in Schedule 30.1 (Historic Heritage Items), where:</i> <i>(i) No significant feature of interest is destroyed or damaged;</i> <i>(b) Replacement materials are the same as, or similar to, the original in terms of colour, texture, form and design to the original that it replaces. form, style and appearance.</i>
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports Rule 23.3.9.4 PI All heritage items – Maintenance or repair in part only. • The permitted activity of maintenance and repair should occur in alignment with the definition of such works. • Any proposed works not within the scope of the defined term should be assessed as an alteration or addition. • The permitted activity and definition both need to be amended to offer a greater level of guidance to plan users.
Point Number	559.126
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.9 Historic Heritage
Summary of Decision Requested	Delete Rule 23.3.9.4 RD1 All heritage items – Maintenance or repair.
Decision Reasons:	<ul style="list-style-type: none"> • The submitter is concerned regarding the restricted discretionary activity relating to repairs and maintenance. • When works on a heritage building no longer fit within the defined terms of maintenance and repair, they elevate into additions or alteration that are assessed under a related rule. • Using this type of rule cascade sets a clear framework for those undertaking works on their heritage building.
Point Number	559.130
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.9 Historic Heritage
Summary of Decision Requested	Delete Rule 23.3.9.5 PI All heritage items – Site development.
Decision Reasons:	<ul style="list-style-type: none"> • The submitter cannot support the permitted activity rule. • While the parameters of the rule are clear for a permitted activity, it is unclear how this rule effectively protects each heritage item and its setting from adverse effects of the proposed activity in every specific instance, as the nature of the site development is not defined and the special features of the heritage items varies from the whole item in some instances to particular facades or specific features for others. • The protection of heritage items from potential adverse effects of site development would be better achieved through the case by case analysis of a restricted discretionary activity resource consent assessment.
Point Number	559.135

Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.9 Historic Heritage
Summary of Decision Requested	Retain Rule 23.3.9.5 RDI All heritage items – all site development, except for the amendments as sought below: AND Amend Rule 23.3.9.5 RDI All heritage items – all site development as follows: (a) Any activity that does not comply with a condition for a permitted activity. Site development is a restricted discretionary activity. (a) <u>Discretion is restricted to:</u> (i) Effects on the values, context and setting of the heritage item (ii) Location, design, size, materials and finish (iii) Landscaping (iv) The relationship of the heritage item with the setting.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports only the restricted discretionary activity, as this allows for the appropriate level of assessment of the possible impacts that site development could have on the heritage values of the heritage item and its setting. The trigger for the rule will be the activity of site development itself, rather than not meeting the permitted activity performance standards. The submitter is concerned that the matters of discretion are slightly different between the zones. The submitter seeks that the matters of discretion are amended to be consistent throughout the zones.
Point Number	559.93
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.3 Land Use – Building > 23.3.9 Historic Heritage
Summary of Decision Requested	Retain Rule 23.3.9.1 NCI Group A heritage item – Demolition, removal or relocation.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the non-complying rule as this activity status recognises that demolition, removal or relocation of a heritage item must be subject to a high level of scrutiny.

Point Number	345.18		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision		
Summary of Decision Requested	Delete Rule 23.4 Subdivision.		

Decision Reasons:

- It is an extraordinary measure.
- It will undoubtedly cause future significant hurdles for interim management of land resources.
- There will be cases where, with appropriate planning, subdivision could take place considering future development and thus there will undoubtedly be requirements for subdivision in relation to infrastructure.

Submitter Number: 624 **Submitter:** Glenn Soroka & Louise Meredith

Organisation: Trustees of the Pakau Trust

Point Number 624.2

Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision

Summary of Decision Requested **Add** new Country Living Zone subdivision rules in Rule 23.4 Subdivision, to recognise Pakau Trust's residual entitlement of 35 Environmental Lots which can be used as transferable rural title rights, as follows:

Rule 23.4.XX Pakau Trust Entitlement Rule

For the purpose of Rule 23.4.XX, 35 transferable rural lot rights exist, that were secured by the protection of 204 hectares of significant indigenous vegetation at Klondyke Road, Port Waikato. Those transferable rural lot rights may be utilised under Rule 23.4.XXX where:

(i) The number of transferable rural lot rights available, will reduce by the number utilised at each receiving property when a survey plan is lodged for the subdivision approved at that receiving property;

(ii) A subdivision plan is only required for the receiver property;

(iii) Transferable rural lot rights cannot be generated on any other donor property.

Rule 23.4.XXX Transferable Rural Lot Right Subdivision

RD1

(a) Transferable Rural Lot Right Subdivisions utilising transferable rural lot rights under Rule 23.4.XX [Pakau Trust Entitlement Rule] must comply with all of the following conditions:

(i) All proposed lots must have a net site area of at least 2500m²;

(ii) Two additional lots can be created on the receiver property for every one transferable lot right originating under Rule 23.4.XX [Pakau Trust Entitlement Rule].

(b) For the purposes of this rule a subdivision plan is required only for the receiver property and not the donor property.

(c) Council's discretion is restricted to the following matters at the receiving property:

(i) subdivision layout and design including dimensions, shape and orientation of the proposed lots;

(ii) adverse effects on amenity values.

DL

Transferable rural lot right subdivision that does not comply with Rule 23.4.XXX RD1

AND

Amend the Proposed District Plan further with any necessary consequential or other relief that addresses Pakau Trust's concerns.

Decision Reasons:

- The Proposed District Plan fails to provide an appropriate opportunity for, and recognition of, the protection in perpetuity of significant indigenous vegetation.
- The cost to a property owner of protecting and maintaining, in perpetuity, significant stands of indigenous vegetation are substantial, in real financial terms.
- The property owner foregoes development potential, and subdivision of that property, where a significant environmental and community benefit is achieved by the protection of significant indigenous vegetation.
- In effect, the legal protection of significant indigenous vegetation provides a public benefit, at the expense of the private property owner. This should be recognised and compensated for.
- The subdivision application lodged in April 2012 secured Pakau Trust's entitlement to 64 Environmental Lots - 29 of which have been used and 35 remain to be used as transferable rural lot rights.
- Transferable rural lot rights enable an environmental feature to be protected while relocating the development potential elsewhere on appropriate receiver properties.
- Pakau Trust's position is unique.

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.917

Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision

Summary of Decision Requested **Amend** Rule 23.4 Subdivision heading, as follows:

23.4 Subdivision Rules

Decision Reasons:

- These additional words in this rule provide clarity.

Point Number 697.918

Plan chapter Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision

Summary of Decision Requested **Add** a new clause (xi) to Rule 23.4(2) Subdivision, as follows:

(xi) Rule 23.4.6B – subdivision of land within the National Grid Corridor

AND

Amend consequential renumbering;

AND

Add a new rule to Rule 23.4 Subdivision after Rule 23.4.6, as follows:
23.4.6B Subdivision of land within the National Grid Corridor

RD1

(a) The subdivision of land within the National Grid Corridor must comply with all of the following conditions:

(i) All allotments intended to contain a sensitive land use must provide a building platform for the likely principal building(s) and any building(s) for a sensitive land use located outside of the National Grid Yard, other than where the allotments are for roads, access ways or infrastructure; and

(ii) The layout of allotments and any enabling earthworks must ensure that physical access is maintained to any National Grid support structures located on the allotments, including any balance area.

(b) Council's discretion is restricted to the following matters:

- (i) The subdivision layout and design in regard to how this may impact on the operation, maintenance, upgrading and development of the National Grid;*
- (ii) The ability to provide a complying building platform outside of the National Grid Yard;*
- (iii) The risk of electrical hazards affecting public or individual safety, and the risk of property damage;*
- (iv) The nature and location of any vegetation to be planted in the vicinity of National Grid transmission lines.*

NCL

Any subdivision of land within the National Grid Corridor that does not comply with one or more of the conditions of Rule 23.4.6B RDL.

Decision Reasons:

- This is to replicate the subdivision rule within the National Grid Corridor from Chapter 14 into Chapter 23 for increased clarity and usability of the Plan.

Submitter Number:

738

Submitter:

Shand Properties Limited

Point Number

738.5

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision

Summary of Decision Requested

Amend Rule 23.4 Subdivision, 23.4.4 Title boundaries and 23.3 Land use - Building, to address issues related to natural hazards and contaminated land in a more targeted and specific way.

This could include through:

- The replacement of standards 23.4.4(1)(iii)A and B;
- The rewording of matters for discretion 23.4.4(b)(v) and (vi);
- Addition of standards e.g. floor levels, in 23.3.

Decision Reasons:

- The rules should allow for addressing the issues related to natural hazards and contaminated land rather than have a blanket requirement for a non-complying activity resource consent where a boundary divides such an area.

Submitter Number:

741

Submitter:

Waikato Regional Airport Ltd

Point Number

741.2

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision

Summary of Decision Requested

Delete Rule 23.4.2 General subdivision RDL (a)(ii), (a)(iii), (b) and NCL;

AND

Add a new prohibited subdivision rule in Rule 23.4.1 Prohibited subdivision as follows:

PR2 (g) Any subdivision inside the Airport Subdivision Control Boundary or inside the SEL95 Boundary identified on the planning maps where the average net site area is less than 1.1ha.

(b) Where the land is being subdivided straddles the Airport Subdivision Control Boundary any subdivision that creates more lots than the number calculated by the following formula.

Number of new lots = (area/ha) outside the Airport Subdivision Control Boundary / 0.5 + (area (ha) inside the Airport Subdivision Control Boundary / 1.1).

AND

Any further relief and/or amendments to the Proposed Plan as may be necessary.

Decision Reasons:

- This prohibited subdivision rule for subdivision inside the Airport Subdivision Control Boundary or inside the SEL95 Boundary is in the Operative District Plan.
- There is no change to resource management issues to suggest that the Proposed Plan should be any different.
- The issue is the potential reverse sensitivity effects of aircraft noise on residential development.
- The prohibited subdivision rules have been in the Waikato District Plan since about 2001 when they were developed by Waikato Regional Airport Ltd in consultation with Waikato District Council and a group of Tamahere landowners.
- The rules are designed to maintain the density of development within the Airport Subdivision Control Boundary generally at its current level.
- To relax this subdivision rule and allow a higher density could lead to additional houses being built in an area where they are subject to adverse noise effects from aircraft and could exacerbate reverse sensitivity conflicts.
- The prohibited activity subdivision rule was the subject of scrutiny and decision making in 2001 and again in 2011 as part of Variation 14 to the Waikato District Plan.
- The inclusion of the prohibited subdivision rule will:
 - i) be consistent with the purpose and principles of the RMA
 - ii) promote the sustainable management of natural and physical resources
 - iii) enable people to provide for their social and economic well-being
 - iv) meet the reasonably foreseeable needs of future generations
 - v) be consistent with sound resource management practices.

Submitter Number:

945

Submitter:

First Gas Limited

Point Number

945.25

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision

Summary of Decision Requested

Add a new rule to Rule 23.4 - Subdivision as follows:

Subdivision-Site containing a gas transmission pipeline:

(a) The subdivision of land containing a gas transmission pipeline is a restricted discretionary activity.

(b) Council's discretion shall be restricted to the following matters:

(i) The extent to which the subdivision design avoids or mitigates conflict with the gas infrastructure and activities.

(ii) The ability for maintenance and inspection of pipelines including ensuring access to the pipelines.

(iii) Consent notices on titles to ensure on-going compliance with AS2885 Pipelines-Gas and Liquid Petroleum-Parts 1 to 3.

(iv) The outcome of any consultation with First Gas Limited.

AND

Any consequential amendments and other relief to give effect to the matters raised in the submission.

Decision Reasons:

- To address reverse sensitivity effects, the submitter seeks the inclusion of a new rule under the Subdivision rules within the Rural Zone.
- The addition of a new rule would make subdivision of a site containing a gas transmission pipeline a restricted discretionary activity.

Submitter Number:	161	Submitter:	Martin Lynch
Point Number	161.2		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.1 Prohibited subdivision		
Summary of Decision Requested	Amend Rule 23.4.1 (Prohibited subdivision) to remove a blanket ban on subdivision of properties in the Country Living Zone within the Hamilton Urban Expansion Policy Area.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter opposes the blanket ban of subdividing properties inside the Hamilton Urban Expansion Area as this is a blunt instrument which locks up value for the property owners for a significant period of time when there is the ability to design subdivisions to cater for future intensification at a later date. Prohibiting subdivision would have a material adverse economic and social outcome which goes against Objective 5.6.1 which calls for a balanced policy approach. Prohibiting subdivision in this areas does not take into account the ability to future proof for residential intensification. A blanket ban would be a blunt tool which does not take into account the existing layout of Country Living Zones and whether future development would materially impact upon the long term strategy of protecting Hamilton's Urban Expansion Area. The proposed change does not reflect public consultation phases and is contrary to ratepayers' expectations and the submitter's.

Organisation:	Hamilton City Council		
Point Number	535.77		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.1 Prohibited subdivision		
Summary of Decision Requested	Retain the Prohibited Activity status of Rule 23.4.1 Prohibited subdivision, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> A prohibited activity status for subdivision is imperative in the Urban Expansion Area to ensure that the objectives and policies for this area are achieved. 		

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.27		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.1 Prohibited subdivision		
Summary of Decision Requested	Delete Rule 23.4.1 PR1 Prohibited Subdivision AND Add a cascading objective, policy and rule set whereby subdivision of Country Living Zone land within the Urban Expansion Area is a Non-Complying Activity and will be subject to an approved Concept Plan of development.		
Decision Reasons:	<ul style="list-style-type: none"> Recognises that land within the Urban Expansion area is being preserved so as to enable future urban growth that is aligned with strategic agreements between Hamilton City Council and Waikato District Council; however prohibiting the future use of the area is too heavy handed. Urban expansion boundary across the country are subject to a higher level of land use management, whereby a well-considered and strategic concept land development plan can precede subdivision scheme plans. Market conditions and the rights of landowners should not be unreasonably withheld through limited district plan provisions. Rather a collaborative approach between all parties should be supported whilst aligning with their primary objectives in serving the local communities in a fair and reasonable manner. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.919		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.1 Prohibited subdivision		
Summary of Decision Requested	Amend Rule 23.4.1 PR1 Prohibited Activities, as follows: Any subdivision within Hamilton's Urban Expansion Area <u>as identified on the planning maps</u> involving the creation of any additional lot <u>record of title</u> .		
Decision Reasons:	<ul style="list-style-type: none"> This provides additional clarity. 		

Submitter Number:	7	Submitter:	Jason Howarth
Organisation:	Howarth Consulting		
Point Number	7.1		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.2 General Subdivision		
Summary of Decision Requested	Delete Rule 23.4.2 (a)(ii) and (iii) General Subdivision, in relation to a 1.1ha lot size.		
Decision Reasons:	<ul style="list-style-type: none"> • There is no rationale for 1.1ha. • The shape of the Airport Noise Subdivision Control Boundary does not reflect the operational nature of larger aircraft using Hamilton Airport. • The Air Noise Subdivision Control Boundary has no ground reference, the shape combined with different subdivision limits creates unusual and perverse outcomes. • Plan Change 19 cited that Hamilton International Airport proposed schedules wide body jet operations on more than three occasions per week. This no longer occurs. • There are no provisions relating to noise within the zone that address reverse sensitivity issues. • There is a lack of operational knowledge of the airport when the boundaries were set. Current regional Air New Zealand aircraft conduct their visual approach west of the boundaries that have been set and the aircraft are conducting approaches in areas not inside the Air Noise Subdivision Control Boundary and over areas that have subdivided down to 5000m². • Current noise control boundaries do not allow for the visual approach of aircraft arriving from the south. • The boundaries do not account for instrument approaches made on other navigational aids • Light aircraft operations are operating under visual flight conditions and account for 75% of all Hamilton airports aircraft movements between the airport and the river (See attachment to submission for full details). • Traffic management systems implemented by Airways Corporations have limited circuit training traffic to no more than 4 at any one time. Similar limitations on other training has also been limited to 4 by Airways Corporation. • The noise restriction boundaries lack operational understanding. Air New Zealand operated on average 12 flights a day with last arrivals scheduled before 9pm. Aircraft noise is minimal as the aircraft are turbo prop and not jet or turbo fan. • Other practical measures include landing and take off on the opposing runway. 		

Submitter Number:	50	Submitter:	Gary McMahon
Point Number	50.1		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.2 General Subdivision		
Summary of Decision Requested	Amend Rule 23.4.2 RD1 (a)(i) General subdivision to reduce the net site area from 5000m ² to 3000m ² .		
Decision Reasons:	<ul style="list-style-type: none"> • 3000m² is appropriate for Tamahere because in future it will become a dormintary suburb of Hamilton and greater density of development will help to meet the demand. • Waste water disposal is still possible with 3000m² lots. • This lot size will also be adequate to preserve the green open nature of Tamahere. 		

Submitter Number:	147	Submitter:	Haley Bicknell-McMahon
Point Number	147.2		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.2 General Subdivision		
Summary of Decision Requested	Amend Rule 23.4.2 RD1 (a)(i) General subdivision by reducing the minimum net site area from 5000m ² to 3000m ² .		
Decision Reasons:	<ul style="list-style-type: none"> • A minimum net lot size of 3000m² is appropriate for Tamahere because this area will become a future dormitory suburb of Hamilton and a greater density of development will help to meet the demand. • Wastewater disposal is still feasible within 3000m² lots. The open nature of Tamahere will be preserved. 		

Submitter Number:	196	Submitter:	Derek and Colleen Hartley
Point Number	196.1		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.2 General Subdivision		
Summary of Decision Requested	Delete Rule 23.4.2 RD 1(a) (i) and (ii)so that net site areas are not prescribed.		
Decision Reasons:	<ul style="list-style-type: none"> • Rule should allow for discretion and subdivision to net site areas which do not materially/significantly affect the amenity values. • Rule that creates the Airport Subdivision Control Boundary unnecessarily constrains subdivision potential of land within that boundary. • Many sites in surrounding area are considerably less than 5000 m² and do not materially or significantly affect amenity values of the country living zone. • Councils section 32 report dated July 2018 acknowledges a balanced approach is most beneficial to achieve country living zone objectives. • Report further states there must be recognition of having land too small for farming but too large to maintain as gardens. 		
Decision Reasons:			

Submitter Number:	276	Submitter:	Ted and Kathryn Letford
Point Number	276.11		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.2 General Subdivision		
Summary of Decision Requested	Amend Rule 23.4.2 RD1 (a) (i) General Subdivision, to reduce the minimum lot size to allow lots below 5000m ² .		
Decision Reasons:	<ul style="list-style-type: none"> • WDC needs to think about productivity of land and the use of it as most Waikato District towns are surrounded by very fertile land. 		

- Council should concentrate on developing smaller blocks as they have the inability to be used for productive purposes.
- More intensive subdivision in Tamahere should be catered for as a priority due to its proximity to Hamilton, which would require reducing the lot sizes to 2500m2 for all of the Country Living zone.
- it is important for Waikato farmland to be maintained to a viable size.
- Enabling the Country Living Zone to be more intensively developed leaves the Rural Zone available for productive purposes.
- Leaving the minimum lot size at 5000m2 seems like a very inefficient way of conserving large lots for farming purposes.
- Better to intensify the land that is already zoned for Country Living.
- Other councils in the Waikato Region manage to successfully have 2500m2 and the residents still enjoy a 'large lot' feel. Submission questions where the 5000m2 requirement came from.
- Reducing lot size to 2500m2 reduces the amount of land being taken out of productivity.
- Minimum lot size of 5000m2 encourages the loss of landscaped/garden areas as they are harder to maintain the lawn, reflecting a changing society which places less priority on gardening and more on family and recreation.
- Tamahere is in a location where development should be encouraged and catered for options, retaining some larger blocks, and allowing smaller country living blocks. Tamahere is also close to places of work, shopping areas and services, close to entertainment, the Waikato expressway and Airport.

Submitter Number:	328	Submitter:	Paula Dudley
Point Number	328.5		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.2 General Subdivision		
Summary of Decision Requested	Amend Rule 23.4.2 RD1 (a)(i) General Subdivision, to be 3000m2 minimum site area rather than 5000m2.		
Decision Reasons:	<ul style="list-style-type: none"> • As the submitter's property must also adhere to the various subdivision constraints imposed from the south boundary (historical reserve), west boundary (highway) and east boundary (SNA), it is more difficult for the submitter to meet the complex subdivision criteria. • The complexity of the submitter's boundaries seeks flexibility on the net site area to 3000m2 to ensure a fair solution in optimising subdivision potential. • Optimise division of land into smaller sized lots. 		

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.117		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.2 General Subdivision		
Summary of Decision Requested	No specific decision sought, however submission refers to Rule 23.4.2 General Subdivision.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	345	Submitter:	Brent Trail
Point Number	345.19		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.2 General Subdivision		
Summary of Decision Requested	Amend Subdivision Rule 23.4.2 RD1(a)(i) General Subdivision, to reduce the minimum lot size from 5000m2 to 2500m2.		
Decision Reasons:	<ul style="list-style-type: none"> • This will match requirements for on-site treatment and disposal of wastewater. • This will allow for much better use of resource. • This will assist in making housing land more affordable. • So much land is being wasted with this rule. • People do not necessarily want to have to maintain 5000m2. 		

Submitter Number:	376	Submitter:	Jolene Francis
Point Number	376.3		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.2 General Subdivision		
Summary of Decision Requested	Amend Rule 23.4 Subdivision provisions to permit additional allotments where appropriate for larger lifestyle properties.		
Decision Reasons:	<ul style="list-style-type: none"> • In the next 10 years, at the current growth we are seeing, it is likely there will be increasing pressure from urban expansion out into the Waikato district, particularly in the northern part of the district. • Provisions within the proposed plan should permit additional allotments where appropriate for larger lifestyle properties to allow fill in of current housing areas and ease the requirements for entirely new subdivisions to address a housing shortage. 		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.44		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.2 General Subdivision		
Summary of Decision Requested	Amend Rule 23.4.2 General Subdivision, as follows: <i>(a) Subdivision must comply with all of the following conditions:...</i> <i>(x) Proposed lots must be connected to water supply sufficient for firefighting purposes.</i> <i>(b) Council's discretion is limited to the following matters:...</i> <i>(i) Provision of infrastructure, including water supply, for firefighting purposes.</i>		

AND

Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- Fire and Emergency New Zealand support Rule 23.4.2 as subdivision of land in the Country Living Zone is a Restricted Discretionary activity, however, Fire and Emergency New Zealand requires proposed lots to be connected to public-reticulated water supply or water supply sufficient for firefighting purposes. Subdivision that does not comply is a Non-complying activity.
- The changes sought promotes consistency across all zones in the District Plan.

Submitter Number:	466	Submitter:	Brendan Balle
Organisation:	Balle Bros Group Limited		
Point Number	466.31		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.2 General Subdivision		
Summary of Decision Requested	Amend Rule 23.4.2 RD1 General Subdivision to include consideration of reverse sensitivity as a matter of discretion.		
Decision Reasons:	<ul style="list-style-type: none"> An additional provision is sought to enable the potential for reverse sensitivity effects to be included as a matter to which discretion is restricted, particularly about the siting of buildings adjoining land used for commercial vegetable production. 		

Submitter Number:	489	Submitter:	Ann-Maree Gladding
Point Number	489.18		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.2 General Subdivision		
Summary of Decision Requested	Delete Rule 23.4.2 RD1 (a) General subdivision; AND Amend the zoning of Country Living Zoned properties to the Village Zone; AND Amend Rule 24.4.1 RD1 (a) Subdivision-General as follows: <i>(a) Proposed lots must have a minimum net site area of 3,000m² 2000m², except where the proposed lot is an access allotment, utility allotment or reserve to vest.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The Countryside Living Zone provides for an inefficient rural -residential living opportunity. At a minimum lot size of 5000m², the lots created are too small to be productive or grazed, yet they are too big to be easily managed as lifestyle properties. A smaller lot size of 2000m² still creates a rural-residential character, of open space, but at the same time can be planted, fenced, mowed and maintained easily. New houses are generally no larger than 300m² and an effluent disposal field is generally 600m² in size, this still leaves over 1000m² for additional curtilage area and will maintain consistency with the draft objectives and policies of this zone whilst making more efficient use of the land. An appropriate level of amenity is still achieved, yet at the same time there is a lower intensity of development, and a rural outlook and character. 		

Submitter Number:	551	Submitter:	Dinah Robcke
Point Number	551.2		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.2 General Subdivision		
Summary of Decision Requested	Amend Rule 23.4.2(a)(i) General Subdivision requiring a 5000m ² minimum net site area to enable greater flexibility in subdivision development standards as they relate to the Country Living Zone in Glen Massey e.g. minimum net site area of 2500m ² with an average of 5000m ² ; OR Amend the zoning of the land on 859 and 889 Waingaro Road, Glen Massey that was zoned Country Living Zone in the Operative District Plan to Village Zone; AND Amend the Proposed District Plan to make consequential changes.		
Decision Reasons:	<ul style="list-style-type: none"> Introduce greater flexibility in subdivision development standards in Glen Massey. 5000m² development in the Country Living Zone is marginal/uneconomic. 2500m² lots are able to be serviced onsite. Careful design will ensure character and amenity values can be maintained and enhanced. Land in and around Glen Massey is poor quality in terms of productive capacity. 5000m² net site area is inappropriate for available land resource and creates pressure for 'infill' subdivision. Opportunity to develop subdivision standards for the Country Living Zone to enable innovative development designs to be explored (e.g. averaging, reduced minimum lot sizes). 		

Submitter Number:	564	Submitter:	Mark Chrisp
Point Number	564.1		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.2 General Subdivision		
Summary of Decision Requested	Amend Rule 23.4.2(a)(i) - General Subdivision, as follows: <i>(i) All proposed lots must have a net site area of at least 5000 3000m².</i>		
Decision Reasons:	<ul style="list-style-type: none"> The 5000m² minimum net site area results in a very inefficient use of land. It is contrary to the purpose and principals of the Resource Management Act 1991 and cannot be justified in relation to section 32 of the Resource Management Act. All of the objectives of the Proposed Waikato District Plan can easily be achieved with a minimum net area of 3,000m². A reduction in the minimum net site area to 3,000m² will not result in the further subdivision of the vast majority of existing lots within the Country Living Zone that have already been subdivided for 'large lot' residential purposes. This is because most of the existing lots that have already been subdivided are less than 6,000m² and would therefore be ineligible for further subdivision. Many properties that are over 6,000m² have a substantial dwelling located in the middle of the property whereby it would be impossible to further subdivide without demolishing the existing dwelling and it would be uneconomic to do so. The relief sought provides for a more efficient use of land in relation to any 'greenfield' subdivision. The relief sought provides for a reconfiguration of existing lots where the boundaries of two or more existing lots could be reconfigured to create one or more additional lots.

Summary of Decision Requested	Delete Rule 23.4.2 RD1 (a)(i) General Subdivision AND		

Amend the zoning of properties from Country Living Zone to Village Zone

AND

Amend Rule 24.4.1 RD1 (a) General Subdivision, as follows:

(a) Proposed lots must have a minimum net site area of ~~3,000m²~~ 2000m², except where the proposed lot is an access allotment, utility allotment or reserve to vest.

Decision Reasons:

- The submitter states that all Village zoned lots must have a minimum net site area of 2000m².
- The Country Living Zone which requires a minimum lot size of 5000m² creates lots too small to be productive or grazed and too big to be easily managed for lifestyle purposes.
- A smaller lot of 2000m² is efficient and it still retains an open rural residential character which can be planted, fenced, mowed and easily maintained.
- New houses are generally no larger than 3000m² and with an effluent disposal field of approximately 600m², this would leave more than 1000m² for additional curtilage.
- This outcome would remain consistent with the objectives and policies for the Country Living Zone.

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.2 General Subdivision

Summary of Decision Requested

Amend Rule 23.4.2(RD1)(a)(i) General subdivision to decrease the minimum net site area from 5,000m² to 2,500m²-3,500m².

Decision Reasons:

- A minimum lot size of 5,000m² is too large for an area designated as a country living zone.
- A lot size closer to 2,500m² would be more appropriate whilst maintaining a country atmosphere and density development.
- Would be consistent with the Auckland Unitary Plan.
- A minimum lot size of 5,000m² is very generous and has a high probability of resulting in fragmentation of rural land and will potentially designate productive land for inappropriate use in large residential lots.
- 5,000m² is not a manageable sized lot and rural usage of the land will not be maximised.
- Regional Council has a 2,500m² minimum in the rural zone to minimise urban sprawl and best maintain and enable efficient usage of rural land.

Summary of Decision Requested

Amend Rule 23.4.2 RD1 (a)(i) General Subdivision, as follows:

(i) All proposed lots must have a minimum net site area of ~~at least 3000m²~~ and average net size area of 5000m².

Decision Reasons:

- A blanket minimum lot size can present challenges when designing a subdivision where there are different parent lot shapes sizes and topographical/vegetative/other constraints. Incorporating a minimum net size area and average net size area for subdivision will provide for greater flexibility in the instances where physical constraints exist.
- 5000m² is an awkward size to maintain for some people, being too large to maintain the large curtilage area but too small to have stock grazing.
- An average net size area of 5000m² would maintain the amenity values of the Country Living Zone, whilst a minimum net site area of 3000m² would provide a variety of housing living styles and greater flexibility in the instances where physical constraints exist.
- The submitters have obtained subdivision consent (SUB0130/18) to create six lots of at least 5000m² including around their existing dwelling. The submitters only need an area to contain the existing dwelling, new effluent disposal area and orchard. The additional area comprises of pasture and a pond that is surplus to their needs and ability to maintain and has only been included with their dwelling to comply with an arbitrary rule.

Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.5 Site boundaries – Significant Natural Areas, heritage items, archaeological sites, sites of significance to Maaori		
Summary of Decision Requested	Amend Rule 23.4.5 RDI (a) Site boundaries - Significant Natural Areas, heritage items, archaeological sites, sites of significance to Maaori, as follows: (a) Any boundary of a proposed lot must not divide any of the following: (i) A Significant Natural Area; (ii) A heritage item as identified in Schedule 20.1 (Heritage Items); (iii) A Maaori site of significance as identified in Schedule 20.2 (Maaori Sites of Significance); or (iv) A Maaori area of significance as identified in Schedule 20.4 (Maaori Areas of Significance); (iii) notable tree		
Decision Reasons:	<ul style="list-style-type: none"> The removal of clause (ii) is because it is already covered in Rule 23.4.6. The removal of clauses (iii) and (iv) are to set these rules apart and create a new rule entirely (proposed Rule 23.4.6A). 		
Point Number	697.927		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.5 Site boundaries – Significant Natural Areas, heritage items, archaeological sites, sites of significance to Maaori		
Summary of Decision Requested	Add new matter of discretion (vi) to Rule 22.4.5 RDI (b) Site boundaries - Significant Natural Areas, heritage items, archaeological sites, sites of significance to Maaori, as follows: (vi) effects on notable trees.		
Decision Reasons:	<ul style="list-style-type: none"> This is as a consequential amendment arising from the removal of notable trees from Rule 23.4.5 RDI. 		
Point Number	697.928		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.5 Site boundaries – Significant Natural Areas, heritage items, archaeological sites, sites of significance to Maaori		
Summary of Decision Requested	Add new rule to Rule 23.4 Subdivision after Rule 23.4.5 Site boundaries - Significant Natural Areas, heritage items, archaeological sites, sites of significance to Maaori, as follows:		

23.4.6A Subdivision of land containing archaeological sites, Maaori sites of significance and Maaori areas of significance

RD1

- (a) The boundaries of every proposed lot must not divide any of the following:
(i) Maaori sites of significance as identified in Schedule 30.3 (Maaori sites of significance);
(ii) Maaori areas of significance as identified in Schedule 30.4 (Maaori areas of significance);
(b) Council's discretion is restricted to the following matters:
(i) effects on heritage values;
(ii) context and setting of the heritage item; and
(iii) the extent to which the relationship of the heritage item with its setting is maintained.

D1

Subdivision that does not comply with Rule 23.4.6A RD1.

Decision Reasons:

- Amendment arising from splitting out archaeological sites and Maaori sites and areas of significance in Rule 23.4.5.

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.5 Site boundaries – Significant Natural Areas, heritage items, archaeological sites, sites of significance to Maaori

Summary of Decision Requested

Retain and strengthen Rule 23.4.5 Site boundaries - Significant Natural Areas, heritage items, archaeological sites, sites of significance to Maaori, to celebrate and protect archaeological sites.

Decision Reasons:

- To celebrate and protect archaeological sites, so as to enhance understanding of our history, improve the tourist experience and preserve our inheritance for future generations.

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.6 Subdivision of land containing heritage items

Summary of Decision Requested

Retain Rule 23.4.6 RD1 Subdivision of land containing heritage items, except for the amendments sought below.

AND

Amend Rule 23.4.6 RD1 Subdivision of land containing heritage items as follows:

(a) *Subdivision of land containing a heritage item listed in Schedule 30.1 (Historic Heritage Items)*

(b) *Council's discretion is restricted to the following matters:*

(i) *Effects on heritage values;*

(ii) *Context and setting of the heritage item;*

(iii) *The extent to which the relationship of the heritage item with its setting is maintained within one lot.*

AND

Amend Rule 23.4.6 RD1 Subdivision of land containing heritage items to be consistent with the equivalent rules in other zone chapters, including heritage items being retained in one lot.

Decision Reasons:

- The submitter supports in part the restricted discretionary activity status of the rule relating to the subdivision of land containing heritage items and the associated matters of discretion, as these assessment criteria will assist to give effect to the related policy.
- An amendment is required to the assessment criteria to recognise that the retention of a heritage item and its setting is best achieved when they are located within the same lot.
- The inclusion of threshold creates a clear distinction for those administering the Plan as to when the activity becomes a non-complying activity.

Point Number

559.256

Plan chapter

Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.6 Subdivision of land containing heritage items

Summary of Decision Requested

Retain Rule 23.4.6 NCI Subdivision – land containing heritage items, except for the amendments sought below.

AND

Amend Rule 23.4.6 NCI Subdivision – land containing heritage items to be consistent with the equivalent rules in other zone chapters.

Decision Reasons:

- The submitter supports the non-complying status of the rule relating to the subdivision of land containing heritage items, when the restricted discretionary activity status of the rule is not achieved.
- This stringent assessment will assist to ensure that the heritage values of the heritage item with its setting are maintained.

Submitter Number:	328	Submitter:	Paula Dudley
Point Number	328.7		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.7 Subdivision - Road frontage		
Summary of Decision Requested	Amend Rule 23.4.7 RD1 (a) Road frontage to include more specific details on rules about what/how the number(s) of dwellings/lots/activities can determine the width(s) of a right of way and the 15m width is excessive.		
Decision Reasons:	<ul style="list-style-type: none"> An excessive width from the modest 7-9m width required for a property wishing to explore subdivision potential. Not enough information is provided in the Proposed Plan (or various public mediums) to property owners and residents on what/ how the width of a right of way can influence and/or affect the number of dwellings permitted. A land acquisition involving the submitter's original privately owned right of way (approx. 9m) to be replaced with only a 7m, reducing their chances for any future subdivision potential. 		

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.122		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.7 Subdivision - Road frontage		
Summary of Decision Requested	No specific decision sought, however submission refers to Rule 23.4.7 Subdivision - Road frontage.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.140		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.7 Subdivision - Road frontage		
Summary of Decision Requested	Amend Rule 23.4.7 RD1(a) Subdivision – Road frontage, to change the minimum width along the road boundary in the Country Living Zone from 15m to 20m.		
Decision Reasons:	<ul style="list-style-type: none"> It is 20m in Rule 24.4.9 RD1(a). 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.929		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.7 Subdivision - Road frontage		
Summary of Decision Requested	Amend Rule 23.4.7 RD1(a) Subdivision - Road frontage, as follows: <i>(a) Every proposed lot as part of the subdivision having with a road boundary, other than one designed as an access allotment or utility allotment or lot accessed via an access leg containing a road access leg, must have a width along the road boundary of at least 15m.</i>		
Decision Reasons:	<ul style="list-style-type: none"> This is to provide clarity to this rule. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.144		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.7 Subdivision - Road frontage		
Summary of Decision Requested	Amend Rule 23.4.7 RD1(a) Subdivision - Road frontage as follows: <i>(a) Every proposed lot as part of the subdivision having a road boundary, other than one designed as an access allotment or utility allotment containing a road access leg, must have a width along the road boundary of at least 15m 50m.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers there is no justification as to why the road frontage rule within the Country Living Zone has been changed from 50m (under the Operative Plan) to 15m. 50m is appropriate to ensure the safe and efficient operation of the transport network. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.121		

Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.7 Subdivision - Road frontage
Summary of Decision Requested	Amend Rule 23.4.7 RD1(a)-Subdivision - Road Frontage. AND Amend Rule 23.4.7-Subdivision-Road Frontage as per Rule 26.6.4-Vehicular Access Requirement of the Operative Waikato District Plan- Franklin Section.
Decision Reasons:	<ul style="list-style-type: none"> The layout of a development is dependent on the size and shape of the site as well as its topography (amongst other constraints). While a 15m minimum width along a road boundary can generally work in many developments that have the ability to follow a grid design, not every site is flat with no size/shape constraints. Sites with topographical natural or physical constraints may be unable to practically implement a layout that achieves 15m road frontage for all lots with the road. There may also be sites where the lay of the land is best suited to an alternative roading design. There is no analysis in the s32 regarding this relevance or practicality of this rule.

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.8 Subdivision - Building platform

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.123		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.8 Subdivision - Building platform		
Summary of Decision Requested	No specific decision sought, however submission refers to Rule 23.4.8 Subdivision- Building platform.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	345	Submitter:	Brent Trail
Point Number	345.22		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.8 Subdivision - Building platform		
Summary of Decision Requested	Delete Rule 23.4.8 Building platform.		
Decision Reasons:	<ul style="list-style-type: none"> Rule concerns submitter and opposite, along with the same rule appearing anywhere else, particularly in Country Living and Village Zones. It is unrealistic. A building site of 300m2 is more realistic. Given earthworks take place, a grade of 1.5 would be acceptable. Given that evidence is required from a geotechnical engineer, even steeper may be acceptable. With a proposed size of 1000m2 it is clearly not meant to cater for wastewater treatment and disposal as well as building. It is inappropriate for a flat site. A soils engineer should be able to certify such a site up to 1:5. Council should seek independent advice on the matter and to not over specify the level of engineer required on straight forward sites. Sites can be readily constructed on sloping ground subject to the recommendation and supervision from soils engineers without particular geotechnical qualifications, if they consider it out of their field they are expected to engage an expert. 		

Submitter Number:	551	Submitter:	Dinah Robcke
Point Number	551.3		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.8 Subdivision - Building platform		
Summary of Decision Requested	Amend Rule 23.4.8(a)(i) Subdivision – Building Platform requiring 1000m2 minimum building platform sizes to enable greater flexibility in subdivision development standards e.g. building platform of 500m2 as they relate to the Country Living Zone in Glen Massey.		
Decision Reasons:	<ul style="list-style-type: none"> Careful design will ensure character and amenity values can be maintained and enhanced. 		
Point Number	551.4		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.8 Subdivision - Building platform		
Summary of Decision Requested	Amend Rule 23.4.8(a)(ii) Subdivision – Building Platform requiring average gradients to be no steeper than 1:8, to enable greater flexibility in building development standards as they relate to the Country Living Zone in Glen Massey;		
	OR		
	Amend the zoning of the land on 859 and 889 Waingaro Road, Glen Massey that was previously zoned Country Living Zone in the Operative District Plan to Village Zone;		
	AND		
	Amend the Proposed District Plan to make consequential changes.		
Decision Reasons:	<ul style="list-style-type: none"> Opportunity to develop subdivision standards for the Country Living Zone to enable innovative development designs to be explored (e.g. averaging, reduced minimum lot sizes). Potential for steeper areas to be set aside from development. 		

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.30		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.8 Subdivision - Building platform		

Summary of Decision Requested	Amend Rule 23.4.8 RD1(a)(i) Subdivision - Building platform as follows: <i>(i) has an area of 1,000m² 500m² exclusive of boundary setbacks;</i>
Decision Reasons:	<ul style="list-style-type: none"> Do not support requiring a 1,000m² building envelope as this presents an excessively conservative development footprint. Generally supportive of the Propose District Plan providing design guidance on the subdivision process. It is an overly restrictive design criteria. More adaptive solutions can be considered by the developer without the need for an expanded assessment matter through Council's unrestricted discretion.

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.122		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.8 Subdivision - Building platform		
Summary of Decision Requested	Amend Rule 23.4.8 RD1(a)(i) Subdivision – Building platform, to decrease the area from 1000m² to 600m² (exclusive of boundary setbacks).		
Decision Reasons:	<ul style="list-style-type: none"> A building platform area of 600m² would suffice for most Country Living Zone dwellings, access and servicing curtilage. 		
Point Number	695.123		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.8 Subdivision - Building platform		
Summary of Decision Requested	No specific relief sought for Rule 23.4.8 RD1(a)(v) Subdivision – Building platform, but submission notes that a 1% AEP requirement normally applies although the submitter is not opposed to a lesser requirement provided this is consistent with regulatory practice elsewhere.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter is not opposed to a lesser requirement provided this is consistent with regulatory practice elsewhere. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.930		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.8 Subdivision - Building platform		
Summary of Decision Requested	Amend Rule 23.4.8 RD1(a) Subdivision - Building platform, as follows: <i>(a) Subdivision, other than an access allotment or utility allotment, must provide a building platform on <u>every</u> the proposed lot. <u>The building platform must meet all of the following conditions:</u> <i>(i) has an area of 1000m² exclusive of boundary setbacks;</i> <i>(ii) has an average gradient no steeper than 1:8;</i> <i>(iii) has vehicular access in accordance with Rule 14.12.1 P1;</i> <i>(iv) is certified by a geotechnical engineer as geotechnically stable <u>and suitable for a building platform</u>;</i> <i>(v) is not subject to inundation in a 2% AEP storm or flood event;</i> <i>(vi) a dwelling could be built on as a permitted activity in accordance with Rule 23.3.</i></i>		
Decision Reasons:	<ul style="list-style-type: none"> Wording to provide clarity to this rule. 		

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.9 Subdivision creating Reserves

Submitter Number:	328	Submitter:	Paula Dudley
Point Number	328.8		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.9 Subdivision creating Reserves		
Summary of Decision Requested	Amend Rule 23.4.9 RD1 (b) Subdivision creating Reserves to require consultation with neighbouring property owners directly affected by planning and implementation of public owned reserves.		
Decision Reasons:	<ul style="list-style-type: none"> The sharing of information between parties (council and owner(s)) can only improve the effectiveness on the operation of any public reserves. To be amended to also consult with affected property owners. To build relationships. 		

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.124		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.9 Subdivision creating Reserves		
Summary of Decision Requested	No specific decision sought, however submission refers to Rule 23.4.9 Subdivision creating Reserves.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	405	Submitter:	Counties Power Limited
--------------------------	-----	-------------------	------------------------

Point Number	405.77
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.9 Subdivision creating Reserves
Summary of Decision Requested	Add a matter of discretion to Rule 23.4.9 RD1 (b) Subdivision creating Reserves as follows: <i>The subdivision layout and design in regard to how this may impact on the operation, maintenance, upgrading and development of existing infrastructure assets:</i>
Decision Reasons:	<ul style="list-style-type: none"> To prevent assets becoming landlocked. Similar to Transpower rules.

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.122		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.9 Subdivision creating Reserves		
Summary of Decision Requested	Delete Rule 23.4.9 RD1(a)-Subdivision Creating Reserves and make it a matter of discretion		
Decision Reasons:	<ul style="list-style-type: none"> Roading infrastructure is expensive and the rule will result in additional costs for developers which may not be justifiable from an economic perspective. The enforcement of the rule may increase the cost of development which could be passed onto purchasers. This is an arbitrary standard which may not be relevant for all reserve types or developments. Safety and surveillance of reserves may be achieved with less road frontage. There is no analysis in the s32 stating why the 50% road frontage rule has been applied. While this may be a principle to follow it should not be enforced through a rule. 		

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.10 Subdivision of land containing mapped off-road walkways

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.125		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.10 Subdivision of land containing mapped off-road walkways		
Summary of Decision Requested	No specific decision sought, however submission refers to Rule 23.4.10 Subdivision of land containing mapped off-road walkways.

Point Number	697.933		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.11 Subdivision of land containing all or part of an Environmental Protection Area		
Summary of Decision Requested	Add to Rule 23.4.11 C1(b) Subdivision of land containing all or part of an Environmental Protection Area, a new clause (iii) as follows: <i>(iii) Legal protection if appropriate.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Adding legal protection as a matter of discretion enables Council to protect areas of planting in perpetuity. 		

Plan chapter: Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.12 Esplanade reserves and esplanade strips

Submitter Number:	330	Submitter:	Andrew and Christine Gore
Point Number	330.127		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.12 Esplanade reserves and esplanade strips		
Summary of Decision Requested	No specific decision sought, however submission refers to Rule 23.4.12 Esplanade reserves and esplanade strips.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.78		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.12 Esplanade reserves and esplanade strips		
Summary of Decision Requested	Add a matter of discretion to Rule 23.4.12 RD1 (b) Esplanade reserves and esplanade strips as follows: <i>The subdivision layout and design in regard to how this may impact on the operation, maintenance, upgrading and development of existing infrastructure assets;</i>		
Decision Reasons:	<ul style="list-style-type: none"> To prevent assets becoming landlocked. Similar to Transpower rules. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.934		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.12 Esplanade reserves and esplanade strips		
Summary of Decision Requested	Amend Rule 23.4.12 RD1(a) Esplanade reserves and esplanade strips, as follows: <i>(a) Subdivision of an esplanade reserve or strip 20m wide (or other width stated in Appendix 5.4 Esplanade Priority Areas) is required to be created from every proposed lot and shall vest in Council where the following situations apply:</i>		
Decision Reasons:	<ul style="list-style-type: none"> This is to correct a referencing error. 		

Submitter Number:	943	Submitter:	McCracken Surveys Limited
Point Number	943.66		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.12 Esplanade reserves and esplanade strips		
Summary of Decision Requested	Add clause (v) to Rule 23.4.12 RD1 (b) – Subdivision – Esplanade reserves and esplanade strips, as follows: <i>(v) costs and benefits of acquiring the land</i>		
Decision Reasons:	<ul style="list-style-type: none"> To allow Council to consider the costs and benefits of land purchase. 		
Point Number	943.72		
Plan chapter	Section C Rules > Chapter 23: Country Living Zone > 23.4 Subdivision > 23.4.12 Esplanade reserves and esplanade strips		
Summary of Decision Requested	Amend Rule 23.4.12 RD1 (b) e – Subdivision – Esplanade reserves and esplanade strips, to include as a matter of discretion, RMA s230(3).		
Decision Reasons:	<ul style="list-style-type: none"> RMA s230(3) provides for the requirement for esplanade reserves to be waived through the resource consent process and hence provide the full gambit of possibilities allowed by the RMA notwithstanding identified high priority areas. 		

- Too often a presumption in plans is that reserves must be taken in all cases. This presumption is further negatively amplified by Council refusals to help the cost of fencing esplanade reserves (there is no legislation that precludes payments) or reluctance to take responsibility to manage and maintain esplanade reserves.

Plan chapter: Section C Rules > Chapter 24: Village Zone

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.180		
Plan chapter	Section C Rules > Chapter 24: Village Zone		
Summary of Decision Requested	Amend subdivision provisions to implement the objectives and policies of Chapter 4 subject to previous submission points.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter requests amendments as per other submission points. Refer to submission point regarding the Village Zone in Chapter 4 Urban Environment. • It is unclear the exact submission point that has been referred to as there are a number of submission points by the submitter (81.123, 81.134, 81.135, 81.136 and 81.150) that have reference to both Chapter 4 and the Village Zone. 		
Point Number	81.74		
Plan chapter	Section C Rules > Chapter 24: Village Zone		
Summary of Decision Requested	Amend Chapter 24: Village Zone to manage buildings, structures and subdivision within landscape and natural character overlay areas, which may be through activity status, rules and assessment criteria.		
Decision Reasons:	<ul style="list-style-type: none"> • Apart from Rule 16.2.4.4/24.2.4.4 which relates to earthworks in landscape and natural character areas, it appears that no other provisions apply to buildings, structures and subdivision that fall within an overlay area. • This does not give effect to WRPS Policy 12.1, 12.2 and associated Implementation Methods. 		

Submitter Number:	110	Submitter:	GD Jones
Point Number	110.2		
Plan chapter	Section C Rules > Chapter 24: Village Zone		
Summary of Decision Requested	Retain all elements of the Village Zone including Section 4.3 Village Zone except for the amendments sought below. AND Amend Rule 24.4.2 RD1(a) Subdivision - Te Kowhai and Tuakau, to reduce the minimum net site area from 3000m2 to 2500m2. AND Amend Rule 24.4.2 RD2(a) Subdivision - Te Kowhai and Tuakau, to reduce the minimum net site area from 1,000m2 to 800m2.		
Decision Reasons:	<ul style="list-style-type: none"> • 2500m2 is sufficient to enable an environmentally safe on-site wastewater solution and the site reduction allows for more flexibility in subdivision design. • 2500m2 is in line with the non-serviced single lot zone minimum size requirements in the Auckland Unitary plan. • Reducing the minimum size will allow more flexible design while keeping the larger residential lot objective of the zone. • 800m2 is in line with the non-serviced single lot zone minimum size requirements in the Auckland Unitary plan. 		

Submitter Number:	296	Submitter:	Richard Falconer
Organisation:	Terra Consultants (CNI) Ltd		
Point Number	296.2		
Plan chapter	Section C Rules > Chapter 24: Village Zone		
Summary of Decision Requested	Retain the subdivision and activity provisions and development controls of Chapter 24 - Village Zone as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Supports in particular the 3,000m2 minimum lot size as it is a reasonable sized rural-residential holding with it being large enough to retain the character of Te Kowhai while avoiding maintenance issues for future owners that has occurred in the Operative District Plan Country Living Zone. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.78		
Plan chapter	Section C Rules > Chapter 24: Village Zone		
Summary of Decision Requested	Retain Chapter 24: Village Zone subject to ensuring alignment and giving effect to the submitter's 'Area of Interest' and supporting objectives, policies and rules and methods.		
Decision Reasons:	<ul style="list-style-type: none"> • Objectives and policies are sought which ensure that land use within the Area of Interest is controlled and enabled at a rate which is consistent with the priorities of Hamilton City Council's strategic land use plans and urban growth strategies including avoidance of urban sprawl, insufficient use of land and infrastructure and non-rural land uses. • Sustainable management requires a cross boundary and integrated approach to strategic land use issues. • Objectives and policies are sought to ensure that land use within this area is controlled and managed at a rate that is consistent with Hamilton City Council's strategic land use plans and urban growth strategies that address the avoidance of urban sprawl, inefficient land use and infrastructure and non-rural land uses. 		

Submitter Number:	689	Submitter:	Greig Developments No 2 Limited
Point Number	689.16		
Plan chapter	Section C Rules > Chapter 24: Village Zone		
Summary of Decision Requested	Retain Chapter 24 Village Zone, except for those addressed in the submission points.		
Decision Reasons:	<ul style="list-style-type: none"> • It provides for the efficient use of the land resources • Enables the subdivision of land to provide for the growth of the district. 		
Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.935		
Plan chapter	Section C Rules > Chapter 24: Village Zone		
Summary of Decision Requested	Amend Chapter 24 Village Zone heading, as follows: <i>Chapter 24: Village Zone – <u>Rules</u></i>		
Decision Reasons:	<ul style="list-style-type: none"> • This is to assist in clarifying that all of the provisions within the chapter are rules. 		
Point Number	697.936		
Plan chapter	Section C Rules > Chapter 24: Village Zone		
Summary of Decision Requested	Amend Rule 24(2) Village Zone, as follows: <i>The rules that apply to subdivision in the Village Zone are contained in Rule 24.4 and the relevant rules in 1.4 Infrastructure and Energy, and 1.5 Natural Hazards and Climate Change (Placeholder).</i>		
Decision Reasons:	<ul style="list-style-type: none"> • This is to clarify that the rules in Chapter 14: Infrastructure and Energy and Chapter 15: Natural Hazards and Climate Change apply to subdivision as well as to land use activities. 		
Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.123		
Plan chapter	Section C Rules > Chapter 24: Village Zone		
Summary of Decision Requested	Retain Chapter 24: Village Zone as notified, except for the amendments sought below.		
Decision Reasons:	<ul style="list-style-type: none"> • Village Zone provisions provide for the efficient use of the urban land resources. • Village Zone provisions enable the subdivision of land to provide for the growth of the district. 		
Submitter Number:	830	Submitter:	Linda Silvester
Point Number	830.23		
Plan chapter	Section C Rules > Chapter 24: Village Zone		
Summary of Decision Requested	Add new provisions to Chapter 24 Village Zone to include energy efficiency policies and rules (see submission for wording)		
Decision Reasons:	<ul style="list-style-type: none"> • The Proposed District Plan only makes passing reference to climate change and says nothing about coal, gas and oil's effect on global warming. • It is disappointing that Stage 2 of the Proposed District Plan is to be published in 2019 and that it is not possible to consider it in context with this part of the Plan. • Section 1.9.5 reflects the Resource Management Act requirements around climate change and renewable energy. 		
Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.2		
Plan chapter	Section C Rules > Chapter 24: Village Zone		
Summary of Decision Requested	Amend Chapter 24: Village Zone to add a statement of purpose and anticipated outcomes of corresponding zone or subzone, and where appropriate make links to health and wellbeing considerations.		
Decision Reasons:	<ul style="list-style-type: none"> • Currently there are no statements of purpose or descriptions for any of the zones or the intended outcomes to be achieved, leading to a reliance on objectives, policies and explanations within Section B of the Plan, which are based under generic heading topics with little zone based commentary. • There is an opportunity to clarify the purpose of a zone and increase understanding of outcomes, and appropriate types of activities for the different environments. • The amendments would assist with a clear understanding of the purpose and character of the various zones. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.458		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.1 Land Use - Activities		
Summary of Decision Requested	<p>Add new provisions to Chapter 24 Village Zone allowing for new retirement villages to be established as a permitted activity;</p> <p>AND</p> <p>Add provisions for alterations and additions to existing retirement villages as a Permitted Activity;</p> <p>AND</p> <p>Add new policies similar to Policies 4.2.19 and 4.2.13 (Residential Zone) to Chapter 4 Urban Environment to support the proposed provisions.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Retirement Villages have been provided for in the Residential Zone only. Council are seeking to include Retirement Villages into the Village Zone. Retirement Villages provide a range of housing options for older persons. New policies are required to support these proposed provisions. 		

Submitter Number:	781	Submitter:	Ministry of Education
Point Number	781.16		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.1 Land Use - Activities		
Summary of Decision Requested	<p>Add a new restricted activity rule to Rule 24.1 Land Use - Activities as follows:</p> <p><u>24.1.2 Restricted Discretionary Activities</u></p> <p><i>(1) The activities listed below are restricted discretionary activities</i></p> <p><i>(2) Discretion to grant or decline consent and impose conditions is restricted to the matters of discretion set out in the following table:</i></p> <p>Activity</p> <p><u>RD1 Education facilities</u></p> <p>Council's discretion shall be restricted to the following matters:</p> <ol style="list-style-type: none"> <u>The extent to which it is necessary to locate the activity in the Village Zone.</u> <u>Reverse sensitivity effects of adjacent activities.</u> <u>The extent to which the activity may adversely impact on the transport network.</u> <u>The extent to which the activity may adversely impact on the streetscape.</u> <u>The extent to which the activity may adversely impact on the noise environment.</u> 		
Decision Reasons:	<ul style="list-style-type: none"> Education facilities are not listed in the Village Zone. Opposes the non-complying activity status. Education facilities such as schools, community education, tertiary education institutions, work skills training centres, outdoor education centres and sports training establishments within village areas are essential social infrastructure. The submitter requests consistency with their requested definition of 'Education facilities'. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.69		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.1 Land Use - Activities		
Summary of Decision Requested	<p>Add new matters of discretion relating to non-compliance with the 5m Building setback</p> <p>- railway corridor (sought elsewhere in other submission points) in Rule 24.1 Land Use Activities as follows (or similar amendments to achieve the requested relief):</p> <ol style="list-style-type: none"> <u>The size, nature and location of the buildings on the site.</u> <u>The extent to which the safety and efficiency of rail and road operations will be adversely affected.</u> <u>The outcome of any consultation with KiwiRail.</u> <u>Any characteristics of the proposed use that will make compliance unnecessary.</u> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail accepts that there will be at times situations where the proposed 5 metre Building setback - railway corridor rule cannot be met, or it is inappropriate to require compliance. It is noted that some zones have restricted discretionary activity categories and some don't. It's been KiwiRail's policy to seek restricted discretionary activity status for non-compliance with its noise and vibration performance standards. The criteria allow for a bespoke consideration of site specific effects. Application for resource consent under this rule can be decided without public notification. KiwiRail are likely to be the only affected person determined in accordance with section 95B of the Resource Management Act 1991. 		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.45		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.1 Land Use - Activities > 24.1.1 Permitted Activities		
Summary of Decision Requested	<p>Add a new activity to Rule 24.1.1 Permitted Activities, as follows:</p> <p><i>(z) Emergency services training and management activities.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Fire and Emergency New Zealand opposes range of activities listed in Rule 24.1.1 as permitted activities to the extent no provision is made for emergency services training and management activities. • The rules should be expanded to provide for emergency services training and management in order to better achieve the sustainable management purpose of the Act and better enable Fire and Emergency New Zealand to achieve its statutory function by facilitating firefighting and emergency response. 		

Submitter Number:	496	Submitter:	Andrea Millar
Organisation:	The Department of Corrections		
Point Number	496.9		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.1 Land Use - Activities > 24.1.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 24.1.1 P5 Permitted Activities, to provide an exclusion for community corrections activity as follows:</p> <p><i>P5 Community activity –</i></p> <p><i>Activity specific conditions</i></p> <p><i>Excluding a community correction activity.</i></p> <p>AND</p> <p>Any other consequential amendments required to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • This would result in community correction activities being permitted in the Village Zone. The submitter considers it appropriate that this activity in the Village Zone should be subject to a resource consent application process to allow the Council to assess the effects on the environment. 		

Submitter Number:	553	Submitter:	Malibu Hamilton
Point Number	553.30		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.1 Land Use - Activities > 24.1.1 Permitted Activities		
Summary of Decision Requested	Retain Rule 24.1.1 Permitted Activities.		
Decision Reasons:	<ul style="list-style-type: none"> • The New Zealand Coastal Policy Statement 2010 in Policy (d) recognises Tangata whenua needs for papakāinga, marae. • The Waikato Regional Policy Statement, 2016 also has Policy 6.4 Marae and papakāinga provisions. • The Future Proof Strategy Planning for Growth November 2017 has Priority 15 that seeks developments of papakāinga housing that meets the needs and aspirations in the sub-region. • RMA sections 6(e), 7(a), and 8 set out legal obligations when managing the natural and physical resources of the region to Tangata whenua.

Point Number	697.941		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.1 Land Use - Activities > 24.1.1 Permitted Activities		
Summary of Decision Requested	<p>Delete Rule 24.1.1 P7(b) Homestay.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Condition (b) is unnecessary for a home occupation activity. 		
Point Number	697.942		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.1 Land Use - Activities > 24.1.1 Permitted Activities		
Summary of Decision Requested	<p>Add a new activity to Rule 24.1.1 after P8 for retirement villages, as follows:</p> <p><u>A new retirement village or alterations to an existing retirement village:</u></p> <p>Activity Specific Conditions:</p> <p>(a) The site or combination of sites where the retirement village is proposed to be located has a minimum net site area of 3ha; (b) The site is either serviced by or within 400m walking distance of public transport; (c) The site is connected to public water and wastewater infrastructure; (d) Minimum living court or balcony area and dimensions; (i) Apartment – 10m2 area with minimum dimension horizontal and vertical of 2.5m;</p>		

- (ii) Studio unit or 1 bedroom unit – 12.5m² area with minimum dimension horizontal and vertical of 2.5m; or
- (iii) 2 or more bedroomed unit – 15m² area with minimum dimension horizontal and vertical of 2.5m;.
- (e) Minimum service court is either:
- (i) Apartment – Communal outdoor space (ie no individual service courts required) of at least 5m² with a minimum dimension of 1.5 metres for each apartment; or
- (ii) All other units – 10m² with a minimum dimension of 1.5 metres for each unit;.
- (f) Building height does not exceed 8m, except for 15% of the total building coverage, where buildings may be up to 10m high;.
- (g) The following Land Use – Effects rule in Rule 24.2 does not apply;.
- (i) Rule 24.2.7 (Signs);.
- (h) The following Land Use – Building rules in Rule 24.3 do not apply;.
- (i) Rule 24.3.1 (Dwelling);.
- (ii) Rule 24.3.3 (Building Height);.
- (j) The following Infrastructure and Energy rule in Chapter 14 does not apply;.
- (i) Rule 14.12.1 P4(1)(g) (Traffic generation);.

Decision Reasons:

- Retirement villages in the Village Zone should be provided for on the boundaries of towns and villages provided they can be serviced by infrastructure. Retirement villages provide opportunities for residential development (aged care) that is not only confined to the residential zone.

Plan chapter

Section C Rules > Chapter 24: Village Zone > 24.1 Land Use - Activities > 24.1.1 Permitted Activities

Summary of Decision Requested

Retain Rule 24.1.1 P3 Home occupation, except for the amendments sought below

AND

Add a new condition to Rule 24.1.1 P3 Permitted activity - Home occupation as follows:

(f) There are no heavy vehicle movements associated with the activity.

AND

Add a new Restricted Discretionary Activity rule for home occupations not complying with 24.1.1 P3(f), with discretion restricted to the effects of heavy vehicle traffic on the safety and efficiency of the transport network.

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- Within the Village Zone, home occupations should not involve heavy vehicles without assessment of effects.

Point Number

742.146

Plan chapter

Section C Rules > Chapter 24: Village Zone > 24.1 Land Use - Activities > 24.1.1 Permitted Activities

Summary of Decision Requested

Retain Rule 24.1.1 P4 Permitted Activities - Temporary event as notified.

Decision Reasons:

- The submitter supports no direct access from a national route or regional arterial road.
- Temporary events are subject to Rule 14.12.1.4 which would ensure that for events exceeding a certain size, any effects on the transport network could be addressed.

Submitter:

Fire and Emergency New Zealand

Point Number

378.46

Plan chapter

Section C Rules > Chapter 24: Village Zone > 24.1 Land Use - Activities > 24.1.2 Discretionary Activities

Summary of Decision Requested

Add a new activity to Rule 24.1.2 Discretionary Activities, to include the following as a Discretionary activity:

(x) Emergency service facilities.

AND

Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- Fire and Emergency New Zealand opposes Rule 24.1.2 as no provision is made for emergency service facilities. As provision is not made under the rule, emergency service facilities would instead default to a non-complying activity under Rule 24.1.3.
- The non-complying activity status is restrictive and inappropriate.

- Fire and Emergency New Zealand seek the inclusion of emergency service facilities as a discretionary activity in the Village Zone for the following reasons:
 1. Fire stations must be strategically located within and throughout communities to maximise their coverage and response times so that they can efficiently and effectively provide for the health and safety of people and communities by being able respond to emergency call outs in a timely way, thus avoiding or mitigating the potential for adverse effects associated with fire hazard and other emergencies;
 2. The actual or potential effects of fire stations are minor and can be adequately predicted and subsequently managed by conditions of consent and subsequent matters for control;
 3. Restricted Discretionary activity status better implement the Objectives and Policies of the Proposed District Plan.
 4. Restricted Discretionary activity status better achieves the purpose of the RMA and better enables Fire and Emergency New Zealand to meet its statutory obligations.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.943		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.1 Land Use - Activities > 24.1.2 Discretionary Activities		
Summary of Decision Requested	Amend Rule 24.1.2 D1 Discretionary Activities as follows: <i>Any permitted activity that does not comply with one or more of the 'Activity-Specific Conditions' in Rule 24.1.1.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • Consistency with other chapters and additional clarity of the rule. 		
Point Number	697.944		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.1 Land Use - Activities > 24.1.2 Discretionary Activities		
Summary of Decision Requested	Delete Rule 24.1.2 D2 Discretionary Activities.		
Decision Reasons:	<ul style="list-style-type: none"> • This rule is not needed as it refers to Land Use Effects and Land Use Building rules which are in subsequent parts of the chapter. 		

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.1 Land Use - Activities > 24.1.3 Non Complying Activities

Submitter Number:	823	Submitter:	NZTE Operations Limited
Point Number	823.19		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.1 Land Use - Activities > 24.1.3 Non Complying Activities		
Summary of Decision Requested	Add an additional activity to Rule 24.1.3- Non-Complying Activities as follows: <u>NC2</u> <u>Noise Sensitive Activities within Te Kowhai Airpark Air Noise Boundary, (Ldn 65), except this restriction does not apply to Noise Sensitive Activities within Te Kowhai Airpark.</u> AND Amend the Proposed District Plan for any consequential relief required to give effect to this submission.		
Decision Reasons:	<ul style="list-style-type: none"> • This change is a consequential amendment of introducing new Te Kowhai Airpark Airport Noise Control Boundaries. • Rule 24.1.3 does not provide for the proposed ANCB as notified. • Amendment is required to Rule 24.1.3 to clarify that noise sensitive activities within the ANB (inner control boundary) are a Non-Complying Activity unless the dwelling comprises part of Te Kowhai Airpark, in which case alternative site-specific noise management methods will be in place.

Point Number	923.161		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.1 Noise - General		
Summary of Decision Requested	<p>Amend Rule 24.2.1 P2, P3 and D1 Noise - General, as follows:</p> <p>P2</p> <p><u>Sound measured in accordance with NZS 6801:2008 and assessed in accordance with NZS 6802:2008 must not exceed:</u></p> <p>(a) Noise measured <u>The following noise limits at any point</u> within any other site in the Village Zone must not exceed:</p> <p>(i) 50dB LAeq(15min); dB (LAeq), 7am to 7pm, every day;</p> <p>ii) 45dB LAeq(15min); dB (LAeq), 7pm to 10pm, every day; and</p> <p>(iii) 40dB LAeq(15min); dB (LAeq) and 65dB (LAmx), 10pm to 7am the following day;</p> <p>(iv) 65dB LAfmax, 10pm to 7am the following day;</p> <p>(b) <u>The permitted activity noise limits for the zone of any other site where sound is received.</u></p> <p>P3</p> <p>(a) Noise levels shall be measured in accordance with the requirements of NZS 6801:2008 "Acoustics Measurement of Environmental Sound"; and</p> <p>(b) Noise levels shall be assessed in accordance with the requirements of NZS 6802:2008 "Acoustic Environmental Noise."</p> <p>D1</p> <p>(a) <u>Sound that is outside the scope of NZS 6802:2008 or a permitted activity standard; and</u></p> <p>(b) <u>Sound Noise</u> that does not comply with Rule 24.2.1 P1 <u>or</u> P2 or P3.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The proposed noise limits are generally in accordance with guideline values and use current measurement and assessment standards, acoustical metrics, numerical values, time-frames and assessment location. However, the following issues have been identified: <ul style="list-style-type: none"> - Incorrect terminology has been used in conflict with the standards specified, - No provision has been made for sound sources outside the scope of NZS 6802. - The measurement and assessment standards are an integral part of the noise limits and cannot be a separate permitted activity standard, - No noise limits are specified for sound received in adjoining zones.

Point Number	697.948		

Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.2 Noise - Construction
Summary of Decision Requested	Amend Rule 24.2.2 P1 (a) Noise - construction, as follows: <i>(a) Construction noise must <u>not exceed</u> meet the limits in NZS 6803:1999 (Acoustics – Construction Noise); and</i>
Decision Reasons:	<ul style="list-style-type: none"> Amend the rule for additional clarity.

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.3 Glare and artificial light spill

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.949		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.3 Glare and artificial light spill		
Summary of Decision Requested	Delete Rule 24.2.3 P1 (b) Glare and artificial light spill.		
Decision Reasons:	<ul style="list-style-type: none"> This rule is not required as the matters are not typical of the Village Zone. Consistency with the Residential Zone. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.147		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.3 Glare and artificial light spill		
Summary of Decision Requested	Retain Rule 24.2.3 P1 Glare and artificial light spill, as notified. AND Retain Rule 24.2.3 RD1 Glare and artificial light spill, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports all rules in this section. 		

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.950		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks		
Summary of Decision Requested	Amend Rule 24.2.4(1) Earthworks, as follows: <i>(1) Rule 24.2.4.1 – Earthworks General, provides the permitted rules for earthworks activities for the Rural Zone.</i> <i><u>This rule does not apply in those areas specified in rules 24.2.4.1A, 24.2.4.2, 24.2.4.3 and 24.2.4.4.</u></i>		
Decision Reasons:	<ul style="list-style-type: none"> The wording of the rule does not make it clear that the rules specified in 24.2.4(2) apply instead of the general earthworks rule. 		
Point Number	697.951		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks		
Summary of Decision Requested	Amend Rule 24.2.4(2) Earthworks, as follows: There are specific standards for earthworks within rules: <i>(a) Rule 24.2.4.1A – Earthworks within the National Grid Yard</i> <i>(e-b) Rule 24.2.4.2 – Maori Sites and Maori Areas of Significance;</i> <i>(b-g) Rule 24.2.4.3 – Significant Natural Areas;</i> <i>(e-d) Rule 24.2.4.4 – Landscape and Natural Character Areas.</i> AND Add new rule after Rule 24.2.4.1 Earthworks General, as follows: 24.2.4.1A Earthworks within the National Grid Yard P1 <i>(a) The following earthworks within the National Grid Yard:</i> <i>(i) Earthworks undertaken as part of domestic cultivation; or repair, sealing or resealing of a road, footpath or driveway;</i> <i>(ii) Vertical holes not exceeding 500mm in diameter that are more than 1.5m from the outer edge of the pole support structure or stay wire;</i> <i>(iii) Earthworks for which a dispensation has been granted by Transpower under New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663.</i> P2 <i>(a) Earthworks activities within the National Grid Yard near National Grid support poles or any stay wires must comply with the following conditions:</i> <i>(i) Do not exceed a depth of 300mm within 2.2m of the pole or stay wire; and</i> <i>(ii) Do not exceed a depth of 750mm between 2.2m and 3m of the pole or stay wire.</i> P3 <i>(a) Earthworks within the National Grid Yard near National Grid support towers (including any tubular steel tower that replaces a steel lattice tower) must comply with all of the following conditions:</i> <i>(i) Do not exceed 300m depth within 6m of the outer edge of the visible foundation of the tower;</i> <i>(ii) Do not exceed 3m between 6m and 12m of the outer edge of the visible foundation of the tower;</i> <i>(iii) Do not compromise the stability of a National Grid support structure;</i> <i>(iv) Do not result in the loss of access to any National Grid support structure; and</i> <i>(v) Must be less than the minimum ground to conductor clearance distances in Table 4 of the New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663.</i> BDL <i>(a) Earthworks within the National Grid Yard that do not comply with one or more of the conditions of Rules 24.2.4.1A P1, P2 or P3.</i> <i>(b) Discretion is restricted to:</i>		

(i) Impacts on the operation, maintenance, upgrading and development of the National Grid;
(ii) The risk to the structural integrity of the affected National Grid support structure(s);
(iii) Any impact on the ability of the National Grid owner (Transpower) to access the National Grid;
(iv) The risk of electrical hazards affecting public or individual safety and the risk of property damage.

Decision Reasons:

- Replicate the earthworks rule within the National Grid from Chapter 14 into Chapter 24 (where this is relevant to the Village Zone) for increased clarity and usability of the Plan.

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General

Submitter Number:	397	Submitter:	Horotiu Properties Limited
Point Number	397.7		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	Delete Rule 24.2.4.1 P1 (a)(i) Earthworks - General. AND Amend the Proposed District Plan to make any consequential amendments necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • Earthworks within 1.5m of a boundary are inevitable and even the most minor activities such as digging a posthole would trigger a requirement for resource consent. 		
Point Number	397.8		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	Delete Rule 24.2.4.1 P3 (a)(iv) Earthworks - General. AND Amend the Proposed District Plan to make any consequential amendments necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • Earthworks within 1.5m of a boundary are inevitable and even the most minor activities such as digging a posthole would trigger a requirement for resource consent.

Organisation:	Balle Bros Group Limited		
Point Number	466.50		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	Delete the requirement for 1.5m setback from the boundary where effects are mitigated from Rule 24.2.4.1 P1 Earthworks.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter questions the requirement for a 1.5m setback from all boundaries where appropriate erosion and sediment controls are in place and effects are mitigated. • This is unworkable. 		

Submitter Number:	602	Submitter:	Greig Metcalfe
Point Number	602.47		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	Delete Rule 24.2.4.1 P1 (a)(i) Earthworks - General. AND Delete Rule 24.2.1 P3(a)(iv) Earthworks - General. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • Earthworks within 1.5m of a boundary are inevitable and even the most minor activity, such as digging a posthole, would trigger the requirement for resource consent. 		
Point Number	602.48		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	Delete Rule 24.2.4.1 NCI Earthworks - General. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • The importation of cleanfill is provided for as a permitted activity by other rules (P2 and P3). 		

Submitter Number:	689	Submitter:	Greig Developments No 2 Limited
Point Number	689.18		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	No specific decision sought, but submission recognises the importation of fill to enable residential development is appropriate in Rule 24.2.4.1 Earthworks - General and questions whether this should be a permitted activity (P2) or a non-complying activity (NC1).		
Decision Reasons:	<ul style="list-style-type: none"> • These provisions seem workable but the submitter is interested in the thoughts of other submitters • Clean-fill may be required in residential zones to enable green-field land to be developed for residential purposes. It is unclear to the submitter whether it is a P2 permitted activity or a NC1 non-complying activity. NC1 would be too restrictive and needs to be more lenient to enable green-field development within residential zones. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.124		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	Retain a maximum area of earthworks in Rule 24.2.4.1 P1 Earthworks – General.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		
Point Number	695.125		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	Amend Rule 24.2.4.1 P1 Earthworks – General, so that earthworks limits be applied as a ratio of the site area i.e. 1:1 so a 450m2 site would provide 450m3 of earthworks.		
Decision Reasons:	<ul style="list-style-type: none"> • The Proposed District Plan penalises bigger sites for no apparent outcome, especially when a bigger site is likely to be better able to absorb and diffuse effects. • Earthworks totals should not cancel each other out, i.e.cut and fill add together. 		
Point Number	695.126		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	Amend Rule 24.2.4.1 P3(a)(i) Earthworks – General, to increase the infill volume from 20m3 to 50m3.		
Decision Reasons:	<ul style="list-style-type: none"> • The infill volume is too low and should be realistic for works outside of a building platform. 		
Point Number	695.127		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	Amend Rule 24.2.4.1 P3(a)(ii) Earthworks – General, to increase the depth from 1m to 1.5m.		
Decision Reasons:	<ul style="list-style-type: none"> • The relief sought is realistic. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.952		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	Amend Rule 24.2.4.1 P1 (a) Earthworks - General, as follows: <i>(a) Earthworks (excluding the importation of fill material) within a site must meet all of the following conditions:</i> <i>(i) Be located more than 1.5 m horizontally from any waterway, open drain or overland flow path;</i> <i>(ii) Not exceed a volume of more than 250m3 and an area of more than 1,000m2 over any single consecutive 12 month period;</i> <i>(iii) Not exceed an area of more than 1,000m2 over any single consecutive 12 month period;</i> <i>(iv) The total depth of any excavation or filling does not exceed 1.5m above or below ground level;</i> <i>(v) The slope of the resulting cut, filled areas or fill batter face in stable ground, does not exceed a maximum of 1:2 (1 vertical to 2 horizontal);</i> <i>(vi) Earthworks are set back <u>at least</u> 1.5m from all boundaries;</i> <i>(vii) Areas exposed by earthworks are revegetated to achieve 80% ground cover within 6 months of the commencement of the earthworks;</i> <i>(viii) Sediment resulting from the earthworks is retained on the site through implementation and maintenance of erosion and sediment controls;</i> <i>(ix) Do not divert or change the nature of natural water flows, water bodies or established drainage paths.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The rule needs to apply over a single consecutive 12 month period for both volume and area thresholds. This is also consistent with other zone chapters. 		
Point Number	697.953		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	Amend Rule 24.2.4.1 P3(a)(iv) Earthworks - General, as follows: <i>(iv) Fill material is setback <u>at least</u> 1.5m from all boundaries;</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The words "at least" provide clarity to this rule. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.125		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	Amend Rule 24.2.4.1 P1 (a)(ii)-Earthworks - General to increase the earthworks volume to 500m ³ .		
Decision Reasons:	<ul style="list-style-type: none"> Where subdivision has been approved by Council there should be no requirements for land owners to apply for additional consents for earthworks to undertake permitted activities on the land. The earthworks thresholds need to be lenient enough to ensure the land can be developed without additional consents. Permitted land use standards should be able to control the adverse effects of any earthworks. 		
Point Number	746.126		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	No specific decision is sought, but the submission recognises that the importation of fill to enable residential development is appropriate in Rule 24.2.4.1 Earthworks General, and questions whether this would be a permitted activity (P2) or a non-complying activity (NC1).		
Decision Reasons:	<ul style="list-style-type: none"> These provisions seem to be workable but we are interested in the thoughts of other submitters. Cleanfill may be required in residential zoned sites to enable greenfield land to be developed for residential purposes. It is unclear whether cleanfill is a permitted activity (P2) or a non-complying activity (NC1). Non complying would be too restrictive and needs to be more lenient to enable greenfield development within residential zones. 		
Point Number	746.146		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	No specific decision sought, but submission supports with amendments Rule 24.2.4.1 P2 Earthworks - General and considers that where subdivision has been approved, there should be no requirements for land owners to apply for additional resource consents for earthworks to undertake permitted activities on the land		
Decision Reasons:	<ul style="list-style-type: none"> The earthworks thresholds need to be lenient enough to ensure the land can be developed without additional consents. Permitted land use standards should be able to control the adverse effects of any works. 		
Point Number	746.147		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	No specific decision sought, but submission supports with amendments Rule 24.2.4.1 P3 Earthworks - General and considers that where subdivision has been approved, there should be no requirements for land owners to apply for additional resource consents for earthworks to undertake permitted activities on the land.		
Decision Reasons:	<ul style="list-style-type: none"> The earthworks thresholds need to be lenient enough to ensure the land can be developed without additional consents. Permitted land use standards should be able to control the adverse effects of any works. 		

Submitter Number:	945	Submitter:	First Gas Limited
Point Number	945.26		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	Add a new condition to Rule 24.2.4.1.P1 (a) Earthworks - General as follows: <i>(x) Earthworks to a depth of greater than 200mm are to be located a minimum of 12m from the centre line of a gas pipeline.</i> AND Any consequential amendments and other relief to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> To address reverse sensitivity effects, the submitter seeks the inclusion of a new earthworks rule requiring a 12m setback from gas transmission pipelines where earthworks are proposed to a depth of greater than 200mm. 		
Point Number	945.27		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General		
Summary of Decision Requested	Add a new matter of discretion to Rule 24.2.4.1 RD1 (b) Earthworks - General RD1 as follows: <i>(xii) Effects on the safe, effective and efficient operation, maintenance and upgrade of infrastructure, including access.</i> AND Any consequential amendments and other relief to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter seeks to include an additional matter over which Council's discretion shall be limited under RD1 (b) to address potential effects of earthworks on gas transmission lines. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		

Point Number	986.114
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General
Summary of Decision Requested	Amend Rule 24.2.4.1 PI(a)(vii) Earthworks general as follows (or similar amendments to achieve the requested relief): <i>(iv) Areas exposed by the earthworks are stabilized to avoid runoff within 1 month of the cessation-re-vegetated to achieve 90% ground cover 6 months of the commencement of the earthworks</i> AND Any consequential amendments to link and/or accommodate the requested changes.
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail also seeks that the rule relating to revegetation in certain zones be amended to include other available methods to stabilise the ground to prevent runoff, including building or hard cover development. As notified, these rules are ambiguous.
Point Number	986.99
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.1 Earthworks - General
Summary of Decision Requested	Amend Rule 24.2.4.1 PI (a) Earthworks-General as follows (or similar amendments to achieve the requested relief): <i>(j) Be located more than 1.5 m horizontally from any infrastructure, including a waterway, open drain or overland flow path;</i> AND Any consequential amendments to link and/or accommodate the requested changes.
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail supports that earthworks are required to be setback from services and network systems. The rail track itself is most susceptible from adverse effects if adjacent earthworks are not adequately set back. KiwiRail seeks that rule relating to setbacks in certain zones should be amended to reflect that there should be an earthworks setback of 1.5m from infrastructure, to ensure that the efficient and effective operation of the existing network is maintained.

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.2 Earthworks for Maaori Sites and Maaori Areas of Significance

Summary of Decision Requested	Retain Rule 24.2.4.2 Earthworks for Maaori Sites and Maaori Areas of Significance		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	553	Submitter:	Malibu Hamilton
Point Number	553.31		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.2 Earthworks for Maaori Sites and Maaori Areas of Significance		
Summary of Decision Requested	Retain Rule 24.2.4.2 Earthworks for Maaori Sites and Maaori areas of Significance.		
Decision Reasons:	<ul style="list-style-type: none"> The New Zealand Coastal Policy Statement 2010 in Policy (d) recognises Tangata whenua needs for papakainga, marae. The Waikato Regional Policy Statement, 2016 also has Policy 6.4 Marae and papakainga provisions. The Future Proof Strategy Planning for Growth November 2017 has Priority 15 that seeks developments of papakainga housing that meets the needs and aspirations in the sub-region. RMA sections 6(e), 7(a), and 8 set out legal obligations when managing the natural and physical resources of the region to Tangata whenua. 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.24		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.2 Earthworks for Maaori Sites and Maaori Areas of Significance		
Summary of Decision Requested	Retain Rule 24.2.4.2 RD1 Earthworks – Maaori Sites and Maaori Areas of Significance, except for the amendments sought below. AND Amend Rule 24.2.4.2 RD1 Earthworks – Maaori Sites and Maaori Areas of Significance as follows: <i>(a) Earthworks ancillary earthworks and rural ancillary earthworks within a Maaori site of Significance as identified in Schedule 30.3 (Maaori sites of Significance) and shown on the planning maps.</i> <i>(b) Council's discretion is restricted to the following matters:</i> <i>(i) Nature, design, extent and location of activity in relation to the site;</i> <i>(ii) Effects of the proposal on heritage and cultural values</i> <i>(iii) The purpose and necessity for the works and any alternatives considered.</i> AND Amend Rule 24.2.4.2 RD1 Earthworks - Maaori Sites of Significance to be consistent with the equivalent rule in other zone chapters.		
Decision Reasons:	<ul style="list-style-type: none"> Submitter considers that the matters of discretion are not of sufficient breadth to understand the nature of the impacts on the Maaori Areas of significance of any proposed earthworks. 		

Point Number	559.31
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.2 Earthworks for Maaori Sites and Maaori Areas of Significance
Summary of Decision Requested	<p>Retain Rule 24.2.4.2 RD2 Earthworks – Maaori Sites and Maaori Areas of Significance, except for the amendments sought below.</p> <p>AND</p> <p>Amend Rule 24.2.4.2 RD2 Earthworks – Maaori Sites and Maaori Areas of Significance as follows:</p> <p>(a) <u>Earthworks, ancillary earthworks and rural ancillary earthworks within a Maaori area of Significance as identified in Schedule 30.4 (Maaori area of Significance) and shown on the planning maps.</u></p> <p>(b) <u>Council's discretion is restricted to the following matters:</u></p> <p>(i) <u>Nature, design, extent and location of activity in relation to the site;</u></p> <p>(ii) <u>Effects of the proposal on heritage and cultural values</u></p> <p>(iii) <u>The purpose and necessity for the works and any alternatives considered.</u></p> <p>AND</p> <p>Amend Rule 24.2.4.2 Earthworks – Maaori Sites and Maaori Areas of Significance to be consistent with the equivalent rule in other zone chapters.</p>
Decision Reasons:	<ul style="list-style-type: none"> • Submitter considers that the matters of discretion are not of sufficient breadth to understand the nature of the impacts on the Maaori Areas of significance of any proposed earthworks. • The submitter is also concerned that works covered under the definition of ancillary earthworks and rural ancillary earthworks could occur as a permitted activity within these sites. • Considers that these other types of earthworks should also be assessed for their suitability to occur within these sites and the effect that they will have on heritage values.

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.128		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.2 Earthworks for Maaori Sites and Maaori Areas of Significance		
Summary of Decision Requested	Amend Rule 24.2.4.2 PI (a) Earthworks – for Maaori Sites and Maaori Areas of Significance, to provide clarity as to whether the 100m setback of a Maaori Area of Significance applies to adjoin sites.		
Decision Reasons:	<ul style="list-style-type: none"> • It is unclear to the reader if this is the case or not. • Applicants require independent pre-certainty and clarity on these matters. 		
Point Number	695.129		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.2 Earthworks for Maaori Sites and Maaori Areas of Significance		
Summary of Decision Requested	Amend Rule 24.2.4.2 PI (a) Earthworks – for Maaori Sites and Maaori Areas of Significance, to provide a zone specific trigger; and sites that exceed the suggested area/ratio of 1:1 earthworks could be another trigger.		
Decision Reasons:	<ul style="list-style-type: none"> • No earthworks threshold is set out which triggers the requirement. • If there are appropriate sediment management controls, earthworks outside of setback distances and within permitted activity levels are unlikely to cause any actual or potential effect to adjoining property. • Acknowledging it is important to respect and protect cultural sites. • Council uses a standard consent condition cover matters in development and subdivision proposals. • Cultural Reports can cost \$3000 to \$15000 at a time, which is hugely significant for small to medium scale proposals. • This rule will likely lead to frustration among applicants if a report is required but does not produce reasons why, or in the finished report fails to provide development advice. • The result could be a diminishing of and disrespect for the important role of mana whenua.

Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.2 Earthworks for Maaori Sites and Maaori Areas of Significance		
Summary of Decision Requested	<p>Amend Rule 24.2.4.2 PI Earthworks-Maaori Sites and Maaori Areas of Significance, as follows:</p> <p>RD1 #1</p> <p>(a) Earthworks within 100m of a Maaori site of significance as identified in Schedule 30.4 (Maaori sites of Significance) must submit to Council as shown on the planning maps.</p> <p>(b) A cultural assessment from the appropriate mana whenua representatives that demonstrates that there will be no adverse effects on cultural values.</p> <p>(c) Earthworks within a Maaori area of significance as identified in Schedule 30.4 (Maaori area of Significance) must submit to Council.</p> <p>(d) A cultural assessment from the appropriate mana whenua representatives that demonstrates that there will be no adverse effects on cultural values.</p> <p>(b) Council's discretion is restricted to the following matters:</p> <p>(i) location of activity in relation to the site.</p> <p>(ii) effects on heritage and cultural values.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Wording provides clarity to the rule. Also consistent approach across all zone chapters. 		
Point Number	697.955		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.2 Earthworks for Maaori Sites and Maaori Areas of Significance		
Summary of Decision Requested	<p>Amend Rule 24.2.4.2 RD1 Earthworks-Maaori Sites and Maaori Areas of Significance, as follows:</p> <p>RD+2</p> <p>(a) Earthworks that do not comply with a condition of Rule 24.2.4.2 PI Earthworks within a Maaori area of significance as identified in Schedule 30.4 (Maaori Areas of Significance) and shown on the planning maps.</p> <p>(b) Council's discretion is restricted to the following matters:</p> <p>(i) location of activity in relation to the site.</p> <p>(ii) Effects on heritage and cultural values.</p>		

Decision Reasons:

- Wording provides clarity to the rule. Also consistent approach across all zone chapters.

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.3 Earthworks - within Significant Natural Areas

Submitter Number: 697 Submitter: Waikato District Council

Point Number: 697.956
Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.3 Earthworks - within Significant Natural Areas

Summary of Decision Requested: **Amend** Rule 24.2.4.3 P1 Earthworks-within Significant Natural Areas, as follows:
(a) Earthworks are for the maintenance of existing tracks, fences or drains within an identified Significant Natural Area must not:
(i) Exceed a volume of 50m³ in a single ~~calendar year~~ consecutive 12 month period;
(ii) Exceed an area of 250m² in a single ~~calendar year~~ consecutive 12 month period; and
(iii) Import any fill material.
(iv) The total depth of any excavation or filling does not exceed 1.5m above or below ground level with a maximum slope of 1:2 (1 vertical to 2 horizontal);
(v) Earthworks are setback at least 1.5m from all boundaries;
(vi) Areas exposed by earthworks are revegetated to achieve 80% ground cover within 6 months of the commencement of the earthworks;
(vii) Sediment resulting from the earthworks is retained on the site through implementation and maintenance of erosion and sediment controls;
(viii) Do not divert or change the nature of natural water flows, water bodies or established drainage paths.

Decision Reasons:

- Additional clarity of the rule and consistency with the equivalent rule in other chapters

Point Number: 697.957
Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.3 Earthworks - within Significant Natural Areas

Summary of Decision Requested: **Amend** Rule 24.2.4.3 D1 Earthworks-within Significant Natural Areas to be Restricted Discretionary rather than Discretionary.

Decision Reasons:

- The activity status becomes a restricted discretionary activity, not a Discretionary activity.

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.4 Earthworks - Landscape and Natural Character Areas

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.4 Earthworks - Landscape and Natural Character Areas

Summary of Decision Requested: **Amend** Rule 24.2.4.4 P1 (a)(ii) Earthworks – within Landscape and Natural Character Areas, so that the 50m² area figure is volume and the 250m³ volume is area.

Decision Reasons:

- This is considered an error.

Submitter Number: 697 Submitter: Waikato District Council

Point Number: 697.958
Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.4 Earthworks - Landscape and Natural Character Areas

Summary of Decision Requested: **Amend** Rule 24.2.4.4 P1 (a) Earthworks - landscape and natural character areas, as follows:
(e) Earthworks are for the maintenance of existing tracks, fences or drains within the following landscapes, natural features and natural character areas:
(i) Significant Amenity Landscape (SAL) – sand dune
(ii) Natural Character area
(iii) Outstanding Natural Character area of the coastal environment
~~an identified Landscape or Natural Character Area and must meet all of the following conditions;~~

Decision Reasons:

- The additional wording provides clarification as to which areas are being encompassed by this rule.

Point Number: 697.959
Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.4 Earthworks > 24.2.4.4 Earthworks - Landscape and Natural Character Areas

Summary of Decision Requested: **Delete** the table under Rule 24.2.4.4 P1 (a)(iii) Earthworks - Landscape and Natural Character Areas;
AND
Amend Rule 24.2.4.4 P1 (c) Earthworks - Landscape and Natural Character Areas:
(c) The earthworks must not exceed the following areas and volumes an area of 50m² and a volume of 250m³ within a single consecutive 12 month period.

Decision Reasons:

- This change removes the table and makes the volumes and thresholds clearer.

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.5 Hazardous substances

Submitter Number: 378 Submitter: Fire and Emergency New Zealand

Point Number	378.48
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.5 Hazardous substances
Summary of Decision Requested	<p>Amend Rule 24.2.5 Hazardous Substances, as follows:</p> <p>(a) <i>The use, storage or disposal of any hazardous substances where:</i></p> <p>(i) <i>The aggregate quantity of hazardous substances of any hazard classification on a site is less than the quantity specified for the Residential Zone in Table 5.1 contained within Appendix 5 (Hazardous Substances)</i></p> <p>(ii) <u>Rule 24.2.5 (g) (i) excludes fire stations and associated fire service operations.</u></p> <p>AND</p> <p>Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand opposes Rule 24.2.5 as while fire stations and associated firefighting activities involve the use and storage of hazardous substances as quantities that are considered minor, it is possible that the permitted provisions may not enable for this, and could affect Fire and Emergency New Zealand's ability to operate as easily and smoothly as needed. Fire and Emergency New Zealand requests fire stations and associated firefighting activities are excluded from the permitted activity Rule 24.2.5 for the following reasons: <ol style="list-style-type: none"> The 8.3 classification (Table 5.1 contained within Appendix 5 (Hazardous Substances)) has a relatively low limit in the Business Town Centre Zone, and is quite low in other areas- lots of household products are eye corrosives from dishwashing to laundry powder. This would limit and potentially prevent Fire and Emergency New Zealand having a HAZMAT vehicle based in this zone because they carry neutralizing agents which are eye corrosives. A greater concern is that some of Fire and Emergency New Zealand's fire retardants and foams also have this classification and this limit could potentially require that Fire and Emergency New Zealand need a resource consent to hold a small amount or and other these chemicals on site, as a lower limit would be largely taken up by ordinary household chemicals used on site. The 8.3A classification is for eye corrosion. A person is only affected by this hazard class if they come into direct contact with a product with this classification. This hazard is also managed under the health and safety at work and HSNO legislation usually via labeling and PPE requirements. Fire and Emergency New Zealand considers that there is no logic in restricting the amount of these substances held as it relates to Fire and Emergency New Zealand operations, particularly if they are in enclosed containers for systems. Some of Fire and Emergency New Zealand's fire retardants are solids rather than liquids and the reasons for the limits specified in the plan do not make sense for solids. Fire and Emergency New Zealand current main fire retardant is a powder but Fire and Emergency New Zealand are also looking at new foams which come in bricks. As such, higher restrictions for waterways do not make sense for these products as they do not leak or flow. Fire and Emergency New Zealand often requires the temporary storage of chemicals necessary for providing an emergency response, during an emergency and within a short period after the emergency, i.e. there is a small grace period for example if Fire and Emergency New Zealand need a truck to remove a container which has firefighting chemicals in it, they may need to wait for a few working days after the emergency has finished for a contractor to do that work. Not providing for this could restrict Fire and Emergency New Zealand's ability to respond to bush or other major events, e.g. large acid spills and other HAZMAT events. This could also result in a breach of the RMA in order to bring in the necessary products to resolve the issue and prevent harm to people/the environment.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.960		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.5 Hazardous substances		
Summary of Decision Requested	<p>Amend Rule 24.2.5 P1(a) Hazardous Substances, as follows:</p> <p>(b) <i>The use, storage or disposal of any hazardous substances <u>must meet the following conditions where:</u></i></p> <p>(i) <i>The aggregate quantity of hazardous substances of any hazard classification on a site is less than the quantity specified for the Residential Village zone in Table 5.1 contained within Appendix 5 (Hazardous Substances).</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Correction required. Residential Zone referred to in error. 		
Point Number	697.961		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.5 Hazardous substances		
Summary of Decision Requested	<p>Add Rule 24.2.5 Hazardous substances, as follows:</p> <p><u>NC1. The storage of fuel for retail sale within service station in the Village Zone.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> This new rule provides a more restrictive approach than D1, as this is a sensitive environment. 		
Point Number	697.962		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.5 Hazardous substances		
Summary of Decision Requested	<p>Add new Rule 24.2.5 NC2 Hazardous substances, as follows:</p> <p><u>NC2 Any new hazardous facility that involves the storage and handling of hazardous substances with explosive or flammable intrinsic properties within 17m of the centre line of a National Grid Transmission Line</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> Replicate the hazardous facilities rule within the National Grid from Chapter 14 (where it is relevant to the Village Zone) into Chapter 24 for increased clarity and usability of the Plan. 		

Submitter Number:	785	Submitter:	Z Energy Limited, BP Oil NZ Limited and Mobil Oil NZ Limited
Organisation:	'Oil Companies'		
Point Number	785.4		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.5 Hazardous substances		
Summary of Decision Requested	<p>Delete Rule 24.2.5 – Hazardous Substances.</p> <p>AND</p> <p>Any consequential amendments or further relief to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The proposed provisions are opposed and the submitter seeks the deletion of all proposed hazardous substances controls relating to storage, use, disposal or transportation of hazardous substances at service station sites (as broadly defined) or refuelling sites. 		

- The submitter also supports the deletion of all rules pertaining to control hazardous substances where such controls are inappropriate, unnecessary, ineffective, inefficient and unable to be justified via a Section 32 analysis.
- These rules are all designed to address risk associated with hazardous substances. Risk is appropriately managed via other legislation and the Section 32 Report fails to identify why additional controls are required.
- The Resource Legislation Amendment Act 2017 removed the explicit function of district and regional councils to control adverse effects of the storage, use, disposal, or transportation of hazardous substances under sections 30 and 31 of the Resource Management Act 1991 (RMA).
- The changes came into effect on 19 April 2017 and are intended to ensure councils only place controls on hazardous substances where necessary to control effects under the RMA that are not covered by Hazardous Substance New Organisms Act 1996 or Health and Safety At Work Act 2015.
- The purpose of the Hazardous Substances New Organisms Act is to protect the environment, and the health and safety of people and communities, by preventing or managing the adverse effects of hazardous substances and new organisms. The Hazardous Substances New Organisms Act covers a range of matters including:
 - a. site and building requirements for where a hazardous substance may be used, including requirements for storage and primarily requiring primary and secondary containment;
 - b. the safe transportation of hazardous substances;
 - c. emergency management requirements in relation to the substance in the event of a spill or other emergency; and
 - d. how the substance may be disposed of.
- The Health and Safety At Work Act 2015 provides a framework to secure the health and safety of works and workplaces and integrates the regulation of workplace use of hazardous substances.
- The Resource Legislation Amendment Act 2017 followed the decision of the Independent Hearing Panel on the Christchurch Replacement District Plan. That decision was to reject Christchurch City Council's hazardous substance controls (which were based on an activity status table (AST) approach and to only retain controls relating to hazardous substances in close proximity to the National Grid.
- The Ministry for the Environment considers that in most cases the Hazardous Substances New Organisms Act and the Health and Safety At Work Act 2015 controls will be adequate to avoid, remedy or mitigate adverse environmental effects of hazardous substances and that RMA controls may be used if existing HSNO or Work safe controls are not adequate to address the environmental effects of hazardous substances in any particularly case. The submitter strongly supports the Ministry for the Environment's position in this regard.
- The submitter seeks that any proposed controls around hazardous substances do not duplicate those controls addressed under other legislation. Any duplication is considered unnecessary and inefficient.
- The section 32 report for Hazardous Substances acknowledges the removal of Council's functions in regards to hazardous substances and recognizes the "Resource Management Plans should not be in conflict with HSNO requirements and should not repeat them".
- The report further recognizes that "rationale for a higher level of protection through additional land use controls under the Act may be appropriate for substances both controlled by the Hazardous Substances New Organisms Act or for issues which are not within the scope of the Hazardous Substances New Organisms Act, such as reverse sensitivity".
- However there is a significant disconnect between the overview and purpose sections of the Section 32 Report and the regulatory provisions in the Proposed District Plan.
- As an example, in regard to service stations the Section 32 Report concludes that, "the controlled activity status has been assigned to the storage and retail sale of fuel within service stations above a certain level in some zones to recognize that these substances are well managed through standards and industry practice. However, above these thresholds, the opportunity to consider potential adverse effects on the surrounding environment is considered.
- No rationale/analysis is provided within the section 32 report to justify why specific volume thresholds apply to service stations or why the opportunity to consider potential adverse effects on the surrounding environment is considered reasonable if quantities are above those limits.
- The Section 32 Report does not provide analysis to justify why hazardous substances associated with service stations are only addressed in certain zones and in what way the Council considers the Hazardous Substances New Organisms Act to not adequately control potential adverse effects associated with hazardous substances at service station - for example, why the Council considers site design, layout and monitoring and reporting of incidents are matters that the Council should reserve control over.
- In light of the Resource Legislation Amendment Act 2017 and controls under other legislation and the lack of rationale/analysis within the Section 32 Report for hazardous substances, it is considered the proposed hazardous substance controls are largely unnecessary and should therefore be deleted.

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.6 Notable trees > 24.2.6.1 Notable tree - Removal or destruction

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.963		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.6 Notable trees > 24.2.6.1 Notable tree - Removal or destruction		
Summary of Decision Requested	<p>Amend Rule 24.2.6.1 C1 Notable tree-removal or destruction, as follows:</p> <p>€-RDL</p> <p>(a) Removal or destruction of a tree identified in Schedule 30.2 (Notable Trees) that does not comply with Rule 24.2.6.1 P1.</p> <p>(b) Council shall reserve its control over restrict its discretion to the following matters:</p> <p>(i) Timing and manner in which the activity is carried out;</p> <p>(ii) Effects on amenity values; and</p> <p>(iii) Effects on heritage values.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Restricted discretionary activity is more appropriate to reflect the importance of notable trees. 		

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.6 Notable trees > 24.2.6.2 Notable tree - Trimming

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.475		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.6 Notable trees > 24.2.6.2 Notable tree - Trimming		
Summary of Decision Requested	<p>Amend Rule 24.2.6.2 P1 (a)(ii) Notable tree - trimming, to consider whether 10% removal of foliage as a permitted activity condition is the most appropriate measure, and the most appropriate percentage.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Consider whether 10% removal of foliage as a permitted activity is the most appropriate measure. The rule stipulates 10%, but this is relatively restrictive and somewhat subjective in terms of how this is measured (i.e. is it a count of all branches and leaves). The Operative District Plan: Waikato Section rules allowed for 15%. 		
Point Number	697.964		

Plan chapter Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.6 Notable trees > 24.2.6.2 Notable tree - Trimming

Summary of Decision Requested **Amend** Rule 24.2.6.2 RD1(b)(i) Notable tree - trimming, as follows:

(i) timing and manner in which the activity is carried out; and

Decision Reasons:

- All matters of discretions need to be included.

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.6 Notable trees > 24.2.6.3 Notable tree - Activities within the dripline

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.965

Plan chapter Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.6 Notable trees > 24.2.6.3 Notable tree - Activities within the dripline

Summary of Decision Requested **Amend** Rule 24.2.6.3 P1(a)(i) Notable tree - activities within the dripline, to read as follows:

(i) Involve excavation, compaction, sealing or soil disturbance ~~and~~ or placement of fill material, or cleanfill except for sealing of an existing road or footpath;

Decision Reasons:

- Provides clarity to the rule and alignment with other zone chapters.

Point Number 697.966

Plan chapter Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.6 Notable trees > 24.2.6.3 Notable tree - Activities within the dripline

Summary of Decision Requested **Amend** Rule 24.2.6.3 RD1(a) Notable tree-activities within the dripline, as follows:

(a) Any activity within the dripline of the notable tree that does not comply with Rule 24.2.6.3 P1

Decision Reasons:

- The words "within the dripline of the notable tree" provide clarity to the rule.

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.7 Signs > 24.2.7.1 Signs - General

Submitter Number: 559 **Submitter:** Sherry Reynolds

On behalf of: Heritage New Zealand Lower Northern Office

Point Number 559.87

Plan chapter Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.7 Signs > 24.2.7.1 Signs - General

Summary of Decision Requested **Amend** Rule 24.2.7.1 P2 Signs - general to exclude any type of signage on Heritage Items and Maaori Sites of Significance.

AND

Amend Rule 23.2.7.1 RD1 Signs - general to include signage on Heritage items and Maaori Sites of Significance.

AND

Add an advice note under this new rule to advise of the other heritage building related rules within the Chapter.

AND

Provide for any consequential amendments as required.

Decision Reasons:

- The submitter cannot support the P2 Signs General where the zone rules that relate to signage, including on heritage items or Maori sites of significance are permitted activities with variations between the zones as to the permitted size and height of signage.
- While signs generally are not permitted in heritage buildings or Maaori sites of significance, a sign of 3m2 on a heritage building could be permitted in some zones if the sign was for identification or interpretation purposes.
- The generic, zoned based approach does not reflect the need to assess the suitability of a signage proposal against the specific heritage values of the individual building or site.
- The generic approach has the potential to cause adverse effects of historic heritage and Maaori sites of significance.
- To avoid adverse effects to heritage items and Maaori sites of significance it would be more appropriate for any signage on heritage items and Maaori sites of Significance to be elevated to a restricted discretionary activity level of assessment and subject to the matters of discretion already included (i.e. (vi) and (vii).

Submitter Number: 602 **Submitter:** Greig Metcalfe

Point Number 602.54

Plan chapter Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.7 Signs > 24.2.7.1 Signs - General

Summary of Decision Requested **Amend** Rule 24.2.7.1. P3 (a) Signs - general, as follows:

(a) Any real estate ~~for sale~~ sign relating to the site on which it is located must comply with all of the following conditions:

(i) There is no more than 1 sign per agency measuring 600mm x 900mm per road frontage of the site to which the sign relates;

(ii) There is no more than 1 sign measuring 1800mm x 1200mm per site to which the sign relates;

(iii) There is no more than 1 real estate header sign measuring 1800mm x 1200mm on one other site;

~~(iv)~~ *(iv) The sign is not illuminated;*

~~(v)~~ *(v) The sign does not contain any moving parts, fluorescent, flashing or revolving lights or reflective materials;*

~~(vi)~~ (vi) The sign does not project into or over road reserve.

(vii) Any real estate sign shall be removed from display within 60 days of sale/lease or upon settlement, whichever is the earliest.

AND

Any consequential amendments and/or additional relief required to address the matters raised in the submission.

Decision Reasons:

- The notified rules for real estate signs are too restrictive.
- Corner sites should be able to have additional sign opportunities without adversely affecting residential character and amenity.
- Allowance should be made for feature signs which are commonly used for properties going to auction or tender.
- Header signs should be able to be established on another sign (often on a high volume road) to direct purchasers to the site which is for sale (often on a low volume road).

697.967

Plan chapter

Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.7 Signs > 24.2.7.1 Signs - General

Summary of Decision Requested

Delete Rule 24.2.7.1 P2(a) (viii) Signs - general.

Decision Reasons:

- 24.2.7.1 P2 (a) (viii) is not required as the village zone provisions do not apply within the road reserve.

Point Number

697.968

Plan chapter

Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.7 Signs > 24.2.7.1 Signs - General

Summary of Decision Requested

Amend Rule 24.2.7.1 P2(a)(xi) Signs - general, as follows:

~~(xi) The sign is for the purpose of identification and interpretation not attached to a Maaori site of significance listed in Schedule 30.3 (Maaori Sites of Significance) except for the purpose of identification and interpretation.~~

Decision Reasons:

- Re-wording this rule provides clarity.

Point Number

697.969

Plan chapter

Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.7 Signs > 24.2.7.1 Signs - General

Summary of Decision Requested

Amend Rule 24.2.7.1 P3 Signs - general, as follows:

~~(b) A real estate 'for sale' or 'for rent' sign relating to the site on which it is located must comply with all of the following conditions:~~

- ~~(i) There is no more than **4** signs per site agency;~~
- ~~(ii) The sign is not illuminated;~~
- ~~(iii) The sign does not contain any moving parts, fluorescent, flashing or revolving lights or reflective materials;~~
- ~~(iv) Project into or over road reserve.~~

Decision Reasons:

- This rule excluded signs for rental properties and requires additional words to ensure consistency with rule 24.2.7.1. Additionally, P3(a)(i) is not required as the village zone provisions do not apply within the road reserve.

Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.7 Signs > 24.2.7.2 Signs - Effects on Traffic		
Summary of Decision Requested	<p>Amend Rule 24.2.7.2 P1 (a)(ii) Signs - Effects on Traffic, to delete the words "and any other sign";</p> <p>OR</p> <p>Amend Rule 24.2.7.2 P1 (a)(ii) Signs – Effects on Traffic, as follows:</p> <p>To be located at least 60m from controlled intersections, pedestrian crossings and any other sign <u>on the same site</u></p> <p>OR</p> <p>Amend Rule 24.2.7.2 P1 (a)(ii) Signs – Effects on Traffic, as follows:</p> <p>To be located at least 60m from controlled intersections, pedestrian crossings and any other sign <u>railway crossings (or roads under Council jurisdiction)</u>.</p>		
Decision Reasons:	<ul style="list-style-type: none"> This is unrealistic. The cost of the consent would usually be more than the cost of the sign. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.970		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.7 Signs > 24.2.7.2 Signs - Effects on Traffic		
Summary of Decision Requested	<p>Amend Rule 24.2.7.2 P1 (a) Signs - effects on traffic, as follows:</p> <p>(a) Any sign directed at road users <u>must meet the following conditions:</u></p> <p>(i) Not imitate the content, colour or appearance of any traffic control sign;</p> <p>(ii) Be located at least 60m from controlled intersections, pedestrian crossings and any other sign;</p> <p>(iii) Not obstruct sight lines of drivers turning into or out of a site entrance and intersections;</p> <p>(iv) Be able to be viewed by drivers for at least 130m;</p> <p>(v) Contain a no more than 40 characters and no more than 6 symbols;</p> <p>(vi) Have lettering that is at least 150mm high;</p> <p>(vii) Be located at least 130m from a site entrance, where the sign directs traffic to the entrance.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The amended wording provides clarity for the rule and consistency with other rules. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.149		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.7 Signs > 24.2.7.2 Signs - Effects on Traffic		
Summary of Decision Requested	<p>Retain Rule 24.2.7.2 Signs- Effects on Traffic, except for the amendments sought below</p> <p>AND</p> <p>Amend Rule 24.2.7.2 P1 (v) Signs - Effects on Traffic as follows:</p> <p>Contain no more than 40 characters and no more than 6 <u>words, symbols or graphics.</u></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of Rule 24.2.7.2 P1 but seeks amendment to provide clarification on the maximum amount of words permitted. This will ensure that signage erected does not cause unnecessary visual clutter or affect the efficient, safe and effective functioning of the transport network. 		
Point Number	742.150		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.7 Signs > 24.2.7.2 Signs - Effects on Traffic		
Summary of Decision Requested	Retain Rule 24.2.7.2 D1 Signs - Effects on Traffic as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Council having full discretion over signs that do not comply with permitted activity standards. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.121		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.7 Signs > 24.2.7.2 Signs - Effects on Traffic		
Summary of Decision Requested	<p>Amend Rule 24.2.7.2 P1 Signs – Effects on traffic as follows (or similar amendments to achieve the requested relief):</p> <p>(a) Any sign directed at road <u>land transport users must:</u></p>		

...

(iii) Not obstruct sight lines of drivers turning into or out of a site entrance and intersections or at a level crossing;

AND

Any consequential amendments to link and/or accommodate the requested changes.

Decision Reasons:

- Signs erected in the City should not have an adverse effect on the safe and efficient functioning of the land transport network, including railways, and the health and safety of road users. Traffic on the railway network will grow, and with more trains the issue of minimising driver distraction is important to ensure the efficient running of the land transport network.
- Further, signs should be restricted where they breach the level crossing sightline areas developed from the NZTA Traffic Control Devices Manual 2008, Part 9 Level Crossings as sought in KiwiRail submission 67.
- It is appropriate to restrict and prevent the placement of signs within required sight lines for vehicles access and intersections, and within the sight lines required for rail crossings.

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.196		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Retain Rule 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area, except for the amendments sought below AND Amend Rule 24.2.8 P2 Indigenous vegetation clearance inside a Significant Natural Area to exclude clearance of Manuka and Kanuka in wetlands and the coastal environment from this rule.		
Decision Reasons:	<ul style="list-style-type: none">• The submitter supports the provision for sustainable clearance of regenerating Manuka or Kanuka for domestic firewood purposes or for arts or crafts in P2.• However, the submitter does not support the removal of Manuka or Kanuka from wetlands or vegetation that is naturally short in stature.• It is important to ensure that vegetation that is naturally short does not get included in the rules intended to provide for clearance of Manuka and Kanuka colonising pasture.• Manuka, in particular, can be a permanent and important component of some types of ecosystems. These are generally wetlands, dunes and other coastal vegetation, but can be gumland vegetation that remains in the leached soils following kauri forest removal.• These persistent shrublands are important habitats for lizards, orchids, mistletoes and a range of threatened species.• Exclusion of permitted clearance of Manuka or Kanuka from wetlands and from the Coastal Environment is likely to prevent clearance of these ecosystems of concern.• The exclusion of Manuka and/or Kanuka clearance in the Coastal Environment from this rule would give effect to the 'avoid' direction in the New Zealand Coastal Policy Statement (NZCPS) and Policy 11.4 of the VWRPS.• Vegetation clearance within an SNA needs to be remedied to give effect to Policy 3.2.3(a)(ii).		
Point Number	81.197		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Amend Rule 24.2.8 P2 Indigenous vegetation clearance inside a Significant Natural Area to ensure that weeds are controlled in the cleared area and native vegetation is allowed to regenerate.		
Decision Reasons:	<ul style="list-style-type: none">• Vegetation clearance within an SNA needs to be remedied to give effect to Policy 3.2.3(a)(ii).		
Point Number	81.198		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Delete P6 of Rule 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area.		
Decision Reasons:	<ul style="list-style-type: none">• P6 duplicates P2.		
Point Number	81.44		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Retain Rule 24.2.8 D1 Indigenous vegetation clearance inside a Significant Natural Area.		
Decision Reasons:	<ul style="list-style-type: none">• The submitter is supportive of indigenous vegetation clearance beyond permitted thresholds becoming a discretionary activity (D1).		
Point Number	81.64		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Amend Rule 24.2.8 P3 Indigenous vegetation clearance inside a Significant Natural Area by giving it restricted discretionary activity status. AND/OR Amend to provide tighter thresholds/ activity status in the Coastal Environment.		
Decision Reasons:	<ul style="list-style-type: none">• P3 Provides for clearance of 250m² of indigenous vegetation removal within an SNA for building/access purposes if there is no alternative development area on the site outside the SNA. Natural values will not necessarily be evenly spread across the SNA and it is likely that some parts will be of higher natural value or of greater sensitivity than others. It is appropriate to retain discretion about the location of clearance in order to avoid as much as possible the adverse effects of the vegetation clearance.• It is appropriate to require mitigation or offsetting to give effect to Policy 3.2.3(a)(iii) or (iv).		

- As currently drafted this rule does not give effect to the 'avoid' direction in the New Zealand Coastal Policy Statement and Policy 11.4 for the coastal environment.

Point Number	81.70
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area
Summary of Decision Requested	<p>Retain Rule 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area, except for the amendments sought below</p> <p>AND</p> <p>Amend Rule 24.2.8 P4 Indigenous vegetation clearance inside a Significant Natural Area to a restricted discretionary activity.</p> <p>AND/OR</p> <p>Amend Rule 24.2.8 P4 Indigenous vegetation clearance inside a Significant Natural Area to assign a lower threshold than clearance off indigenous vegetation outside of SNA for the same activity.</p> <p>AND/OR</p> <p>Amend Rule 24.2.8 P4 Indigenous vegetation clearance inside a Significant Natural Area to provide an overall cap on clearance as a permitted activity.</p> <p>AND/OR</p> <p>Amend to clarify the location and extent of areas that might be subject to this rule in order to determine if it is likely to have a significant effect on indigenous biodiversity.</p> <p>AND/OR</p> <p>Amend to provide tighter thresholds/ activity status in the Coastal Environment.</p>
Decision Reasons:	<ul style="list-style-type: none"> • P4 provides for up to 1500m² of vegetation removal for marae complex, 500 m²/dwelling, 500 m²/ building, as a permitted activity. • Cumulatively this could be a large loss of significant indigenous vegetation and habitat without the ability to address adverse effects through avoiding, remedying, mitigating or offsetting. • It is noted that this is the same amount of clearance is provided for non-significant indigenous vegetation. • As currently drafted this rule does not give effect to the 'avoid' direction in the New Zealand Coastal Policy Statement and Policy 11.4 for the coastal environment.

Submitter Number:	499	Submitter:	Adrian Morton
Point Number	499.25		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Amend Rule 24.2.8 P6 Indigenous vegetation clearance inside a Significant Natural Area to reduce the 5m ³ limit to 3m ³ and remove reference to the Coastal Environment.		
Decision Reasons:	<ul style="list-style-type: none"> • Manuka and kanuka are important habitat environments and provide visual amenity. Therefore, 3m³ should be adequate for heating purposes with non-native wood sources available. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.79		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	<p>Delete Rule 24.2.8 P2 Indigenous vegetation clearance inside a Significant Natural Area.</p> <p>AND</p> <p>Delete Rule 24.2.8 P6 Indigenous vegetation clearance inside a Significant Natural Area.</p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter does not consider any vegetation clearance within a Significant Natural Area is not appropriate. • The protection of significant vegetation and significant habitats of indigenous fauna is a matter of national importance and therefore such vegetation should not be eroded through a harvesting activity. 		

Submitter Number:	553	Submitter:	Malibu Hamilton
Point Number	553.32		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Retain Rule 24.2.8 P1 (a)(v), P4, P5, and P6 Indigenous vegetation clearance inside a Significant Natural Area.		
Decision Reasons:	<ul style="list-style-type: none"> • The New Zealand Coastal Policy Statement 2010 in Policy (d) recognises Tangata whenua needs for papakāinga, marae. • The Waikato Regional Policy Statement, 2016 also has Policy 6.4 Marae and papakāinga provisions. • The Future Proof Strategy Planning for Growth November 2017 has Priority 15 that seeks developments of papakāinga housing that meets the needs and aspirations in the sub-region. • RMA sections 6(e), 7(a), and 8 set out legal obligations when managing the natural and physical resources of the region to Tangata whenua. 		

Submitter Number:	585	Submitter:	Lucy Roberts
Organisation:	Department of Conservation		

Point Number	585.21
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area
Summary of Decision Requested	Amend Rule 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area as follows: <ul style="list-style-type: none"> • Include a maximum vegetation clearance permitted activity rule for all purposes; and • Include a minimum setback distance from water bodies for all purposes; and • Change P2 to a maximum area of clearance rather than a maximum volume; and • Any other relevant amendments.
Decision Reasons:	<ul style="list-style-type: none"> • The current rules for vegetation clearance within Significant Natural Areas fails to adequately protect or manage biodiversity values present in these areas. • It is important to appropriately manage indigenous vegetation clearance to prevent further fragmentation and loss in the Waikato District. • P2 describes a maximum volume of manuka and kanuka that may be removed per 12 months outside of the coastal environment. A volume of timber is dependent on the size of trees and their density where 5m3 may be clearance of an area of a few 5m2, where a few large trees have been harvested. • An area limit is more suitable to ensure consistency of removal.
Point Number	585.31
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area
Summary of Decision Requested	Retain Rule 24.2.8 D1 Indigenous vegetation clearance inside a Significant Natural Area, in particular, retain the cascade to discretionary activity upon non-compliance with the permitted activity standards.
Decision Reasons:	<ul style="list-style-type: none"> • The Director-General supports vegetation clearance outside permitted activity standards becoming a discretionary activity.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.971		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Amend Rule 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area heading, as follows: <i>Indigenous vegetation clearance inside <u>within</u> a Significant Natural Area</i>		
Decision Reasons:	<ul style="list-style-type: none"> • Wording provides clarity. 		
Point Number	697.972		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Add to Rule 24.2.8 P1 (a) Indigenous vegetation clearance inside a Significant Natural Area a new clause (vi), as follows: <u>(vi) Removing vegetation for conservation activities.</u>		
Decision Reasons:	<ul style="list-style-type: none"> • This new rule ensures indigenous vegetation can be cleared for conservation activities. 		
Point Number	697.973		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Amend Rule 24.2.8 P2 Indigenous vegetation clearance inside a Significant Natural Area, as follows: <i>Removal of up to 5m3 of manuka and/or kanuka outside of the Coastal Environment per year per property site for domestic firewood purposes or arts and crafts provided the removal will not directly result in the death, destruction or irreparable damage of any other tree, bush or plant.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • Additional clarity that the rule is intended to apply "per site" rather than "per property" which is not a defined term. 		
Point Number	697.974		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Delete Rule 24.2.8 P5 Indigenous vegetation clearance inside a Significant Natural Area; AND Make consequential change to Rule 24.2.8 D1, as follows: <i>...P4, P5 or P6.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • Rule P5 duplicates P1 with the only difference being that P5 captures Maaori Freehold land or Maaori Customary land, which is captured by P1 anyway. 		
Point Number	697.975		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Delete Rule 24.2.8 P6 Indigenous vegetation clearance inside a Significant Natural Area; AND Make consequential change to Rule 24.2.8 D1 as follows: <i>...P4, or P5 or P6.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The activity is a repeat of P2. 		

Submitter Number:	757	Submitter:	Karen White
Point Number	757.14		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	<p>Amend Rule 24.2.8- Indigenous vegetation clearance inside a Significant Natural Area to reduce the removal of Manuka and Kanuka from 5m³ to 3m³.</p> <p>AND</p> <p>Delete reference to "Coastal Environment" from Rule 24.2.8- Indigenous vegetation clearance inside a Significant Natural Area.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Manuka and Kanuka are important habitat environments. • Manuka and Kanuka provide visual amenity. • 3m³ should be adequate for heating purposes with non-native wood sources available. 		

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		
Point Number	831.62		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.2 Land Use - Effects > 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	<p>Delete Rule 24.2.8 Indigenous vegetation clearance inside a Significant Natural Area</p> <p>AND</p> <p>Add provisions that will increase natural habitats.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports bush regeneration, such as that at Wainui Bush Reserve. • The Proposed District Plan makes no attempt to indicate how much bush has been lost, or will be lost by these and other provisions in the Proposed District Plan. • Screening with trees should be applied to improve and protect views from Raglan and its beaches. • Much of the attraction of Raglan derives from its beaches and the north shore of the harbour having rural aspects. • New subdivisions could diminish that attraction and an active policy of tree planting to establish belts of trees screening those views would help to protect the rural image. • Alternatively, the Proposed District Plan could ban development which would detract from those views. 		

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.1 Dwelling

Submitter Number:	405	Submitter:	Counties Power Limited

Decision Reasons:	<ul style="list-style-type: none"> • Works to comply with NZECP34:2001. 		

Submitter Number:	689	Submitter:	Greig Developments No 2 Limited
Point Number	689.19		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.2 Minor dwelling		
Summary of Decision Requested	Retain Rule 24.3.2 PI Minor dwelling as proposed in terms of a maximum gross floor area of 70m2 and requiring a net site area of 1000m2 or more.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.977		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.2 Minor dwelling		
Summary of Decision Requested	Amend Rule 24.3.2 PI Minor dwelling, to read as follows: <i>(a) One minor dwelling up to 70m2 gross floor area contained within the site a record of title must comply with all of the following conditions;</i> <i>(i) The net site area is 1000m2 or more;</i> <i>(ii) The gross floor area shall not exceed 70m2.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Rewording of this rule required to align with the residential zone rule to make the 70m2 requirement a condition of the rule. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.127		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.2 Minor dwelling		
Summary of Decision Requested	Retain Rule 24.3.2 PI Minor dwelling as notified.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.3 Height

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.978		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.3 Height		
Summary of Decision Requested	Amend Rule 24.3.3 (2) Height, as follows: <i>(2) Rule 24.3.3.1 Height – Building general provides permitted height limits across the entire Village Zone. This rule does not apply in those areas specified in Rule 24.3.3(3).</i>		
Decision Reasons:	<ul style="list-style-type: none"> The wording of the rule does not make it clear that rule 24.3.3(2) does not apply in those areas specified in rule 24.3.3(3) 		

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.3 Height > 24.3.3.1 Height - Building general

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.49		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.3 Height > 24.3.3.1 Height - Building general		
Summary of Decision Requested	Amend Rule 24.3.3.1 Height - Building general, to include the following: <u><i>This Standard does not apply to hose drying towers up to 15m associated with emergency service facilities.</i></u> AND Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The inclusion of a specific exemption for emergency service facilities and hose drying towers in order to appropriately provide for the operational requirements of Fire and Emergency New Zealand. Fire stations are single storied buildings of approximately 8-9m in height and are typically able to achieve the height standards in a District Plan. Some fire stations also include a hose drying tower of between 12-15m in height. Fire and Emergency New Zealand considers that the inclusion of an exemption for associated structures better provides for the health and safety of the community by enabling the efficient functioning of Fire and Emergency New Zealand. 		

Submitter Number:	499	Submitter:	Adrian Morton
Point Number	499.14		

Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.3 Height > 24.3.3.1 Height - Building general
Summary of Decision Requested	Amend Rule 24.3.3.1 Height - Building general to encourage the use of variable building heights, stepped facades to maintain the built character of Raglan for example: <u>A maximum height of a building must not exceed 7.5m, and where continuous roof lines occur (more than one unit) then variable roof lines should be implemented to maintain the character and amenity of Raglan</u>
Decision Reasons:	<ul style="list-style-type: none"> The provision for a 'maximum height' makes it more of a target and does not allow/encourage variable roof heights that would be better at complementing the built character of Raglan. Housing in and around Raglan typically have variable heights and forms that contribute to the character of the area, which needs to be reflected in the policy.

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.133		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.3 Height > 24.3.3.1 Height - Building general		
Summary of Decision Requested	Amend Rule 24.3.3.1 P1 Height – Building general, so the rule only applies to that part of the building structure opposite the immediate ground level; AND Amend Rule 24.3.4 P1 Daylight admission as a consequential amendments.		
Decision Reasons:	<ul style="list-style-type: none"> This would avoid giving neighbours perverse objection rights. Height in relation to boundary would need to account for the same. Subdivision design would need to ensure larger lots on steeper sites than the minimums to avoid solar access issues when development occurs. 		

Submitter Number:	757	Submitter:	Karen White
Point Number	757.15		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.3 Height > 24.3.3.1 Height - Building general		
Summary of Decision Requested	Amend Rule 24.3.3.1 Height - Building general to encourage the use of variable building heights, stepped facades to maintain the built character of Raglan. Submission provides the following example: <u>A maximum height of a building must not exceed 7.5m, and where continuous roof lines occur (more than one unit) then variable roof lines should be implemented to maintain the character of Raglan.</u>		
Decision Reasons:	<ul style="list-style-type: none"> Provision for a maximum height makes that height more of a target. Does not allow and encourage variable roof heights that would complement the built character of Raglan. Housing in and around Raglan have variable heights and forms that contribute to character of the area, which needs to be considered. 		

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.3 Height > 24.3.3.2 Height - Buildings, structures or vegetation within an airport obstacle limitation surface

Point Number	602.2		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.3 Height > 24.3.3.2 Height - Buildings, structures or vegetation within an airport obstacle limitation surface		
Summary of Decision Requested	Amend Rule 24.3.3.2 Height - Buildings, structures of vegetation within an airport obstacle limitation surface, as follows: <i>PI A building, structure or vegetation must not protrude through the airport obstacle limitation surface as identified in Appendix 9 - Te Kowhai Airpark and as shown on the planning maps.</i> <i>DI A building, structure or vegetation that does not comply with Rule 24.3.3.2 PI.</i> OR Amend Rule 24.3.3.2 Height - Buildings, structures of vegetation within an airport obstacle limitation surface, as follows: <i>PI A building, structure or vegetation <u>not already existing at 18 July 2018</u> must not protrude through the airport obstacle limitation surface as identified in Appendix 9 - Te Kowhai Airpark and as shown on the planning maps.</i> AND Any consequential amendments to Rule 24.3.3. Height. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Rule 25.49 (c) in the Operative Waikato District Plan only controls the height of buildings in the airport obstacle limitation surface (AOLS), not vegetation. The property legally described as Lot 2 DP 456538 (CFR 590290) contains a large number of trees that will breach the proposed AOLS but will benefits from existing use rights in terms of section 10 of the Resource Management Act. While consultation between the submitter and Te Kowhai Airpark landowners is on-going, there is not yet any understanding or agreement as to how breaches of the proposed AOLS will be managed.

Point Number	697.455		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.3 Height > 24.3.3.2 Height - Buildings, structures or vegetation within an airport obstacle limitation surface		

Summary of Decision Requested	Amend Rule 24.3.3.2 Buildings, structures and vegetation within an airport obstacle limitation surface, to include a calculation to determine the permitted height with the airport obstacle limitation surface.
Decision Reasons:	<ul style="list-style-type: none"> This rule needs to be able to be clearly interpreted by customers in relation to the Waikato Regional Airport.
Point Number	697.979
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.3 Height > 24.3.3.2 Height - Buildings, structures or vegetation within an airport obstacle limitation surface
Summary of Decision Requested	Amend Rule 24.3.3.2 P1 Height-Buildings structures or vegetation within an airport obstacle limitation surface, as follows: <i>Any building, structure or vegetation must not protrude through the airport obstacle limitation surface as identified on the planning maps and defined in Appendix 9 - Te Kowhai Airpark and as shown on the planning maps.</i>
Decision Reasons:	<ul style="list-style-type: none"> This rule relates only to the Te Kowhai Airpark and needs to specifically identify this. Additional wording provides clarity to the rule.
Point Number	697.980
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.3 Height > 24.3.3.2 Height - Buildings, structures or vegetation within an airport obstacle limitation surface
Summary of Decision Requested	Amend Rule 24.3.3.2 D1 Height - Buildings structures or vegetation within an airport obstacle limitation surface, as follows: <i>Any building, structure or vegetation that does not comply with Rule 24.3.3.2 P1.</i>
Decision Reasons:	<ul style="list-style-type: none"> Additional wording provides clarity to the rule.

Submitter Number:	823	Submitter:	NZTE Operations Limited
Point Number	823.12		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.3 Height > 24.3.3.2 Height - Buildings, structures or vegetation within an airport obstacle limitation surface		
Summary of Decision Requested	Amend Rule 24.3.3.2 –Height - Buildings, structures or vegetation within an airport obstacle limitation surface, as follows: <i>P1</i> <i>Any building, structure, tree or other vegetation must not protrude through the airport obstacle limitation surface as identified in Appendix 9 - Te Kowhai Airpark and as shown on the planning maps.</i> <i>D1</i> <i>Any building, structure, tree or other vegetation that does not comply with Rule 24.3.3.2 P1.</i> AND Amend the Proposed District Plan for any consequential relief required to give effect to this submission.		
Decision Reasons:	<ul style="list-style-type: none"> The OLS (as notified) is necessary to ensure compliance with Civil Aviation Circular AC139-7 Aerodrome Standards and Requirements for Code I aerodromes operating on a VFR and an IFR (non-air transport) basis. The extent of the OLS is described in Chapter 29 – Appendix 9. Rules are also provided in the PWDP to protect the OLS from being breached by buildings, structures and vegetation. Although Rule 27.3.1 as notified correctly protects the proposed OLS from buildings, structures, trees and other vegetation, the corresponding height rules in other zones omits reference to 'trees'. It is critical that there is consistency amongst OLS provisions and that the provisions control 'trees' as well as buildings, structures and other vegetation. It is proposed that the relevant rules in each chapter are amended to align with the (correct) wording in Chapter 27, Rule 27.3.1. 		

Submitter Number:	943	Submitter:	McCracken Surveys Limited
Point Number	943.58		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.3 Height > 24.3.3.2 Height - Buildings, structures or vegetation within an airport obstacle limitation surface		
Summary of Decision Requested	No specific decision sought, but the submission opposes Rule 24.3.3.2 P1 - Building, structures or vegetation within an Airport Obstacle Limitation Surface due to a number of effects that the Obstacle Limitation Surface (with respect to the Te Kowhai Airfield) will have on landowners including: <ul style="list-style-type: none"> Requirements for tree topping/removal. No clarity where costs lie to removal any infringing obstacle. Increase setbacks from existing obstacle limitation surface. Two storey dwellings precluded by up to 8m linear. Not known if other items will be prohibited/regulating other than structures. No clarity on the benefits other than future proofing. No reasoning for the 1:5 gradient. 		
Decision Reasons:	<ul style="list-style-type: none"> The submission raises many questions including: <ul style="list-style-type: none"> - What is the demand for IFR capability - What are the effects of IFR - What are the potential effects of other regulations relating to IFR. - How will Te Kowhai purpose meet those commitments. - There is no clarity of the benefits, or details of other changes and effects or commitment by the Te Kowhai Airfield other than a desire to future proof the aerodrome. - The Obstacle Limitation Surface change is required by CAA rules to implement IFR. However given the information available and reviewed, there is no information that confirms the basis or reason why the 1:5 gradient is necessary. - What are the other regulations requiring CAA compliance to allow IFR and what is the potential effect of these regulation on adjoining property owners? - What is the degree of commitment of Te Kowhai Airfield to meet those commitments? Will, for example, Te Kowhai Airfield commit to the relocation of their existing structures to the south that infringe the proposed Obstacle Limitation Surface? - Questions arise concerning the actual level of demand for IFR capability. - What are the probable future effects of IFR. - Will IFR result in additional take off and landings and if so what is the change and effect? Will it extend operation hours that will have associated effects on adjoining and nearby landowners? - Is there an actual need for aircraft operating in poor weather or low visibility that requires IFR and therefore the OLS? - Will IFR lead to flight training and associated effects? - Generally the landowners anticipate no known or assured benefits resulting from imposition of the proposed OLS that outweigh the dis-benefits.

Point Number	689.20		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.4 Daylight admission		
Summary of Decision Requested	<p>Amend Rule 24.3.4 Daylight admission as follows:</p> <p><i>A building must not protrude through a height control plane rising at an angle of 45³⁷ degrees commencing at an elevation of 2.5m above ground level at every point of the site boundary.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Inconsistency with previous Planning documents which are less restrictive • Too restrictive for urban areas • Adequate amenity and daylight for adjoining sites can be achieved with a less restrictive control plane • The 37-degree angle is difficult to calculate 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.134		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.4 Daylight admission		
Summary of Decision Requested	<p>Amend Rule 24.3.4 P1 Daylight admission, as follows:</p> <p><i>A building must not protrude through a height control plane rising at an angle of 37 45 degrees commencing at an elevation of 2.5 3m above ground level at every point of the site boundary.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • There is no logical planning reason for this differentiation. • All daylight control planed should be consistent with each other and that are used by adjoining Councils. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.982		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.4 Daylight admission		
Summary of Decision Requested	<p>Amend Rule 24.3.4 RD1 (b) Daylight admission, as follows:</p> <p><i>(b) Council's discretion is restricted to the following <u>matters</u>:</i></p> <p><i>(i) Height of the building;</i></p> <p><i>(ii) Design and location of the building;</i></p> <p><i>(iii) Extent of shading on adjacent sites; level of shading on any other sites;</i></p> <p><i>(iv) Privacy on other sites; and</i></p> <p><i>(v) Effects on amenity values and residential character of the locality.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Additional wording provides clarity to the rule in respect to shading and other sites. Also provides consistency with other zone chapter. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.128		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.4 Daylight admission		
Summary of Decision Requested	<p>Amend Rule 24.3.4 P1-Daylight Admission as follows:</p> <p><i>A building must not protrude through a height control plane rising at an angle of 45³⁷ degrees commencing at an elevation of 2.5m above ground level at every point of the site boundary.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • An angle of 37 degrees to be harder to follow than the general standard of 45 degrees that is presented across many other Plans in New Zealand. • 45 degrees is clear cut and easy to measure. 		

Submitter Number:	333	Submitter:	Russell Grey
Point Number	333.1		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.5 Building coverage		
Summary of Decision Requested	<p>Amend Rule 24.3.5 P2 Building Coverage, reducing the provision from 20% to 15%.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • On a 5000m2 20% site coverage allows 600m2 of building ground floor area which is excessive. 		

- Most new dwellings are 250m2-350m2 in size with a shed of 100m2 totaling 450m2/15% which is ample for small sites.
- More building area will lead to greater pressure on storm water runoff and local waterways, and ultimately the Waipa River.

Submitter Number:	397	Submitter:	Horotiu Properties Limited
Point Number	397.9		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.5 Building coverage		
Summary of Decision Requested	<p>Amend Rule 24.3.5 Building coverage, as follows:</p> <p><i>P1 On a lot connected to public reticulated waste water and a water supply, the total building coverage must not exceed 40%.</i></p> <p><i>P2 On a lot connected to public reticulated waste water and a water supply, the total building coverage must not exceed 20%.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make any consequential amendments necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • It is feasible that the development in the Village Zone could be serviced by reticulated services that are privately owned, and shouldn't be limited to only publicly owned infrastructure networks. • The Village Zone anticipates lots at 3,000m2 which can be self-sufficient or 1,000m2 if urban infrastructure is provided.

Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.6 Building setbacks > 24.3.6.2 Building setback - Sensitive land use		
Summary of Decision Requested	Retain Rule 24.3.6.2 D1 Building setbacks - Sensitive land use as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Council having full discretion over sensitive land use activities that do not comply with permitted activity standards. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		

Point Number	986.56
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.6 Building setbacks > 24.3.6.2 Building setback - Sensitive land use
Summary of Decision Requested	<p>Amend Rule 24.3.6.2 Building setback - sensitive land use as follows (or similar amendments to achieve the requested relief):</p> <p>Building setback – Sensitive land use</p> <p>P1 Sensitive land use</p> <p>(a) Any new building or alteration to an existing building for a sensitive land use must be set back a minimum of:</p> <p>(i) 5m from the designated boundary of the railway corridor</p> <p>...</p> <p>P2 Railway corridor</p> <p>any new buildings or alterations to an existing building must be setback 5 metres from any designated railway corridor boundary.</p> <p>OR</p> <p>Retain Rule 24.3.6.2 P1(a)(i) Building setback -sensitive land use if the primary relief above is not accepted</p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail seeks that a 5metre setback apply to all new building development adjacent to operational railway corridor boundaries (i.e. not just sensitive land uses). Ensuring all new structures in all zones are set back from the rail corridor allows access and maintenance to occur without the landowner or occupier needing to gain access to the rail corridor- potentially compromising their own safety. Setting back buildings from the rail corridor boundary is a means of ensuring people's health and wellbeing through good design. Construction of buildings in close proximity to the rail corridor has significant safety risk if it is not managed appropriately in accordance with relevant standards. A 5m setback is not an acoustic setback. It allows for vehicular access to the backs of buildings (e.g. a cherry picker) and would also allow scaffolding to be erected safely. This in turn fosters visual amenity as lineside properties can then be regularly maintained. A setback is the most efficient method of ensuring intensification does not result in additional safety issues for activities adjacent to the rail corridor, whilst not restricting the ongoing operation and growth of activity within the rail corridor. The proposed provisions would require any development within the setback to obtain consent with matters of discretion relating to: <ul style="list-style-type: none"> (i) location, design and use of the proposed building or structure as it relates to the rail network (ii) impacts on the safe operation, maintenance and development of the rail network (iii) construction and maintenance management. The relief provides for the rejection of the primary relief. This setback applies only to sensitive land use buildings which does not achieve the safety and amenity

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.6 Building setbacks > 24.3.6.3 Building setback - Waterbodies

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.50		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.6 Building setbacks > 24.3.6.3 Building setback - Waterbodies		
Summary of Decision Requested	Retain Rule 24.3.6.3 Building setback - Waterbodies.		
Decision Reasons:	<ul style="list-style-type: none"> The Rule will safeguard the wellbeing of communities in accordance with the purpose of the RMA and the purpose of Fire and Emergency New Zealand in the effective protection of lives, property and the surrounding environment. 		

Submitter Number:	397	Submitter:	Horotiu Properties Limited
Point Number	397.13		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.6 Building setbacks > 24.3.6.3 Building setback - Waterbodies		
Summary of Decision Requested	<p>Amend Rule 24.3.6.3 P1 (a) Building setback - Waterbodies, as follows:</p> <p>P1 (a) A building must be setback a minimum of 30m:</p> <p>(i) From the margin of any:</p> <p>A. Lake with a bed area of 8ha or more</p> <p>B. Wetland with an area greater than 1ha; and</p> <p>C. River bank other than the Waikato River and Waipa River whose bed has an average width 3m or more.</p> <p>AND</p> <p>Amend the Proposed District Plan to make any consequential amendments necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Building setbacks from lakes should be to protect buildings from flood risk (covered by other rules) or alternatively large lakes which could potentially one day require space for esplanade purposes. Current wording places unjust setback requirement from private, onsite and often artificial ponds/Waterbodies. 		

Submitter Number:	433	Submitter:	Mischa Davis
Organisation:	Auckland Waikato Fish and Game Council		
Point Number	433.24		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.6 Building setbacks > 24.3.6.3 Building setback - Waterbodies		
Summary of Decision Requested	<p>Amend Rule 24.3.6.3 Building setback - Water bodies, as follows:</p> <p>P1(a) A building that is not a maimai must be set back a minimum of 30m from:</p>		

...

P2 A building that is not a maimai must be setback at least 50m from a bank of the Waikato River and Waipa River.

...

P3 A building that is not a maimai must be set back a minimum of 10m from the bank of a perennial or intermittent stream.

AND/OR

Any alternative relief to address the issues and concerns raised in the submission.

Decision Reasons:

- Maimai should be exempt from this rule because they are already controlled by the Building Act 2004 and need to be an adequate size to maintain safe shooting zones and not compromise hunter safety.
- There should be the same or similar provisions as the Waikato Regional Plan which permits maimai subject to a maximum area of 10m² and height of 2.5m measured from floor level.

Plan chapter

Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.6 Building setbacks > 24.3.6.3 Building setback - Waterbodies

Summary of Decision Requested

Amend Rule 24.3.6.3 P1 Building setback - Waterbodies as follows:

(a) A building must be set back a minimum of 30 from:

(i) the margin of any:

A. Lake over 4ha;

B. Wetland; and

C. River bank, other than the Waikato River and Waipa River.

D. 10m from a managed wetland

Decision Reasons:

- Opposes the use of the generic term "wetland" as this all-encompassing terminology is inappropriate for use within the Proposed District Plan as it will have a significant impact on land development in Country Living Zone that may not carry any reasonable environmental benefit.
- The setbacks for man-made stormwater infrastructure and/or modified waterbodies be identified under all applicable waterbody setback rules is 10m.
- As a 'lake' can constitute a large array of waterbodies., the submitter contends that a starting point of 4ha be used in the Proposed District Plan before the setback applies.

Plan chapter

Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.6 Building setbacks > 24.3.6.3 Building setback - Waterbodies

Summary of Decision Requested

Retain Rule 24.3.6.3 Building setback - Waterbodies, except for the amendments sought below

AND

Amend Rule 24.3.6.3 P1 (a)(i)C Building set back - Waterbodies as follows:

Named River bank, other than the Waikato River and Waipa River.

AND

Amend Rule 24.3.6.3 P3 Building setback - Waterbodies as follows:

A building must be setback a minimum of 10m from the bank of a perennial or intermittent named or unnamed stream.

Decision Reasons:

- It is important to define a stream to avoid confusion with the definition of a river. The RMA defines river as "a continually or intermittently flowing body of freshwater; and includes a stream and modified watercourse" if a watercourse is named "Stream" then it should be subject to the appropriate setback by the Plan

On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.94		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.8 Historic Heritage > 24.3.8.1 Group A Heritage item - Demolition, removal or relocation		
Summary of Decision Requested	Retain Rule 24.3.8.1 NCI Group A heritage item – Demolition, removal or relocation		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the non-complying rule as this activity status recognises that demolition, removal or relocation of a heritage item must be subject to a high level of scrutiny. 		

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.8 Historic Heritage > 24.3.8.2 Group B Heritage item - Demolition, removal or relocation

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		

Point Number	559.102
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.8 Historic Heritage > 24.3.8.2 Group B Heritage item - Demolition, removal or relocation
Summary of Decision Requested	Retain Rule 24.3.8.2 D1 Group B heritage item – Demolition, removal or relocation.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the discretionary activity rule for the demolition, removal or relocation of a Group B heritage item as this activity status recognises that demolition, removal or relocation of a heritage item must be subject to a high level of scrutiny.

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.8 Historic Heritage > 24.3.8.3 All heritage items - Alteration or addition

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		

Point Number	559.105
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.8 Historic Heritage > 24.3.8.3 All heritage items - Alteration or addition
Summary of Decision Requested	Delete Rule 24.3.8.3 P1 All heritage items – Alterations or additions.
Decision Reasons:	<ul style="list-style-type: none"> The submitter has concerns regarding the permitted activity rule related to alterations or additions. Concerned that that only protecting the significant physical features or specified facades of buildings has the potential for adverse effects on the heritage values of the entire building Works that are located out of public view or that do not involve significant features could have the potential to adversely affect or undermine heritage values. The rule ignores the intrinsic heritage values of the whole of the heritage items. Alterations and additions under this rule as a permitted activity could cumulatively impact on the overall building, not just the significant features or specified facades. In addition it is incorrect to assume that works that are located out of public view or that do not involve significant features are unimportant and do not have the potential to adversely affect or undermine heritage values. Any alterations or additions should be assessed through a resource consent process to consider the holistic impact of the proposed works on the historic heritage item, ensuring minimal loss of heritage fabric, and that the design, form, scale, workmanship, location of works and the curtilage and setting are respected.

Point Number	559.112
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.8 Historic Heritage > 24.3.8.3 All heritage items - Alteration or addition
Summary of Decision Requested	Retain Rule 24.3.8.3 RD1 All heritage items – Alterations or additions, except for the amendments sought below. AND Amend Rule 24.3.9.3 RD1 as follows: <i>(a) Any activity that does not comply with Rule 24.3.9.3 P1- Any alteration or addition to a heritage item in Schedule 30.1 Heritage items</i> <i>(b) Council's discretion is restricted to the following matters:</i> <i>(i) Location, form, scale, style, materials and appearance; and</i> <i>(ii) Effects on heritage values;</i> <i>(iii) Effects on the setting of the heritage item.</i>
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports that additions and alterations are a restricted discretionary activity. The existing restricted discretionary activity should be amended to include any alteration or addition to a heritage building to ensure that any potential to negatively impact on the building is captured through the resource consent process. Further amendments are also required to address relevant matters to achieve an appropriate level of assessment.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.994		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.8 Historic Heritage > 24.3.8.3 All heritage items - Alteration or addition		
Summary of Decision Requested	Amend Rule 24.3.8.3 P1 (a) All heritage items - Alteration or addition, as follows: <i>(a) Alteration or addition to a heritage item listed in Schedule 30.1 (Historic Heritage Items) where must comply with the following conditions:</i> <i>(i) No significant feature of interest is removed, destroyed or damaged; and</i> <i>(ii) Alterations or additions are not visible from a public place.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Additional words in this rule provide clarity. 		

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.8 Historic Heritage > 24.3.8.4 All heritage items - Maintenance or repair

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		

Point Number	559.120
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.8 Historic Heritage > 24.3.8.4 All heritage items - Maintenance or repair
Summary of Decision Requested	Retain Rule 24.3.8.4 PI All heritage items – Maintenance or repair, except for the amendments sought below. AND Amend Rule 24.3.8.4 PI All heritage items – Maintenance or repair as follows: (a) Maintenance or repair of a heritage item listed in Schedule 30.1 (Historic Heritage Items), where: (i) No significant feature of interest is destroyed or damaged; (b) Replacement materials are the same as, or similar to, the original in terms of colour, texture, form and design to the original that it replaces, form, style and appearance.
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports Rule 24.3.8.4 PI All heritage items – Maintenance or repair in part only. • The permitted activity of maintenance and repair should occur in alignment with the definition of such works. • Any proposed works not within the scope of the defined term should be assessed as an alteration or addition. • The permitted activity and definition both need to be amended to offer a greater level of guidance to plan users.
Point Number	559.127
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.8 Historic Heritage > 24.3.8.4 All heritage items - Maintenance or repair
Summary of Decision Requested	Delete Rule 24.3.8.4 RD1 All heritage items – Maintenance or repair.
Decision Reasons:	<ul style="list-style-type: none"> • The submitter is concerned regarding the restricted discretionary activity relating to repairs and maintenance. • When works on a heritage building no longer fit within the defined terms of maintenance and repair, they elevate into additions or alteration that are assessed under a related rule. • Using this type of rule cascade sets a clear framework for those undertaking works on their heritage building.

Point Number	559.131		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.8 Historic Heritage > 24.3.8.5 All heritage items - All site development		
Summary of Decision Requested	Delete Rule 24.3.8.5 PI All heritage items – Site development.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter cannot support the permitted activity rule. • While the parameters of the rule are clear for a permitted activity, it is unclear how this rule effectively protects each heritage item and its setting from adverse effects of the proposed activity in every specific instance, as the nature of the site development is not defined and the special features of the heritage items varies from the whole item in some instances to particular facades or specific features for others. • The protection of heritage items from potential adverse effects of site development would be better achieved through the case by case analysis of a restricted discretionary activity resource consent assessment. 		
Point Number	559.136		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.3 Land Use - Building > 24.3.8 Historic Heritage > 24.3.8.5 All heritage items - All site development		
Summary of Decision Requested	Retain Rule 24.3.8.5 RD1 All heritage items – all site development, except for the amendments as sought below. AND Amend Rule 24.3.8.5 RD1 All heritage items – all site development as follows: (a) Any activity that does not comply with a condition for a permitted activity. Site development is a restricted discretionary activity.		

(a) Discretion is restricted to:

(i) *Effects on the values, context and setting of the heritage item*

(ii) *Location, design, size, materials and finish*

(iii) *Landscaping*

(iv) *The relationship of the heritage item with the setting.*

Decision Reasons:

- The submitter supports only the restricted discretionary activity, as this allows for the appropriate level of assessment of the possible impacts that site development could have on the heritage values of the heritage item and its setting.
- The trigger for the rule will be the activity of site development itself, rather than not meeting the permitted activity performance standards.
- The submitter is concerned that the matters of discretion are slightly different between the zones.
- The submitter seeks that the matters of discretion are amended to be consistent throughout the zones.

Submitter:

Glenn Soroka & Louise Meredith

Organisation:

Trustees of the Pakau Trust

Point Number

624.3

Plan chapter

Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision

Summary of Decision Requested

Add new Village Zone subdivision rules in 24.4 Subdivision, to recognise Pakau Trust's residual entitlement of 35 Environmental Lots which can be used as transferable rural title rights, such rules shown in underlined italics as follows:

Rule 24.4.XX Pakau Trust Entitlement Rule

For the purpose of Rule 24.4.XX, 35 transferable rural lot rights exist, that were secured by the protection of 204 hectares of significant indigenous vegetation at Klondyke Road, Port Waikato. Those transferable rural lot rights may be utilised under Rule 24.4.XXX where:

(i) The number of transferable rural lot rights available, will reduce by the number utilised at each receiving property when a survey plan is lodged for the subdivision approved at that receiving property;

(ii) A subdivision plan is only required for the receiver property;

(iii) Transferable rural lot rights cannot be generated on any other donor property;

Rule 24.4.XXX Transferable Rural Lot Right Subdivision

RD1

(a) Transferable Rural Lot Right Subdivisions utilising transferable rural lot rights under Rule 24.4.XX (Pakau Trust Entitlement Rule) must comply with all of the following conditions:

(i) All proposed lots must have a net site area of at least 2000m²;

(ii) Two additional lots can be created on the receiver property for every one transferable lot right originating under Rule 24.4.XX (Pakau Trust Entitlement Rule);

(b) For the purposes of this rule a subdivision plan is required only for the receiver property and not the donor property;

(c) Council's discretion is restricted to the following matters at the receiving property;

(i) Shape, location and orientation of proposed lots;

(ii) Matters referred to in the Infrastructure chapter;

(iii) Consistency with the matters, and outcomes sought, in Appendix 3.1 (Residential Subdivision Guidelines);

(iv) Impacts on stormwater and wastewater disposal;

(v) Impacts on Significant Natural Areas;

(vi) Impacts on identified Maaori Sites of Significance; and

(vii) Roads and pedestrian networks.

DL

Transferable rural lot right subdivision that does not comply with Rule 24.4.XXX RD1.

AND

Amend the Proposed District Plan further with any necessary consequential or other relief that addresses Pakau Trust's concerns.

Decision Reasons:	<ul style="list-style-type: none"> The Proposed District Plan fails to provide an appropriate opportunity for, and recognition of, the protection in perpetuity of significant indigenous vegetation. The cost to a property owner of protecting and maintaining, in perpetuity, significant stands of indigenous vegetation are substantial, in real financial terms. The property owner foregoes development potential, and subdivision of that property, where a significant environmental and community benefit is achieved by the protection of significant indigenous vegetation. In effect, the legal protection of significant indigenous vegetation provides a public benefit, at the expense of the private property owner. This should be recognised and compensated for. The subdivision application lodged in April 2012 secured Pakau Trust's entitlement to 64 Environmental Lots - 29 of which have been used and 35 remain to be used as transferable rural lot rights. Transferable rural lot rights enable an environmental feature to be protected while relocating the development potential elsewhere on appropriate receiver properties. Pakau Trust's position is unique.

Point Number	697.1000		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision		
Summary of Decision Requested	<p>Amend Rule 24.4 Subdivision, as follows:</p> <p><i>(1) Rule 24.4.1 provides for subdivision density and applies across in the Village Zone outside of the Te Kowhai and Tuakau area.</i> <i>(2) The following rules apply to specific areas and/or activities:</i> <i>(a) Rule 24.4.2 – Subdivision in Te Kowhai and Tuakau, applies to the Village Zone in these two areas.</i> <i>(b) Rules 24.4.1 and 24.4.2 are also subject to <u>compliance with the following subdivision controls...</u></i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Additional words in this rule provide clarity as to where these rules apply. 		
Point Number	697.1001		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision		
Summary of Decision Requested	<p>Add to Rule 24.4(2) Subdivision a new clause, as follows:</p> <p><i>(vii) <u>Rule 24.4.8A – subdivision within the National Grid Corridor.</u></i></p> <p>AND</p> <p>Undertake consequential renumbering:</p> <p>AND</p> <p>Add new rule after Rule 24.4.8A:</p> <p><i><u>24.4.8A Subdivision of land within the National Grid Corridor.</u></i> <i><u>RD1.</u></i> <i>(a) <u>The subdivision of land within the National Grid Corridor must comply with all of the following conditions:</u></i> <i>(i) <u>All allotments intended to contain a sensitive land use must provide a building platform for the likely principal building(s) and any building(s) for a sensitive land use located outside of the National Grid Yard, other than where the allotments are for roads, access ways or infrastructure, and</u></i> <i>(ii) <u>The layout of allotments and any enabling earthworks must ensure that physical access is maintained to any National Grid support structures located on the allotments, including any balance area.</u></i> <i>(b) <u>Council's discretion is restricted to the following matters:</u></i> <i>(i) <u>The subdivision layout and design in regard to how this may impact on the operation, maintenance, upgrading and development of the National Grid;</u></i> <i>(ii) <u>The ability to provide a complying building platform outside of the National Grid Yard;</u></i> <i>(iii) <u>The risk of electrical hazards affecting public or individual safety, and the risk of property damage;</u></i> <i>(iv) <u>The nature and location of any vegetation to be planted in the vicinity of National Grid transmission lines.</u></i> <i><u>NCL</u></i> <i><u>Any subdivision of land within the National Grid Corridor that does not comply with one or more of the conditions of Rule 24.4.8A RD1.</u></i></p>		
Decision Reasons:	Replicate the subdivision rule within the National Grid Corridor from Chapter 14 into Chapter 24 (where this is relevant to the Village Zone) for increased clarity and usability of the Plan.		
Point Number	697.1014		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision		
Summary of Decision Requested	<p>Add new title as follows:</p> <p><i><u>24.4.14 Subdivision within identified areas</u></i></p> <p>AND</p> <p>Add new rule as follows:</p> <p><i><u>24.4.14 D1.</u></i> <i>(a) <u>Subdivision of any land containing any of the following areas:</u></i> <i>(i) <u>Significant Amenity Landscape;</u></i> <i>(ii) <u>A natural hazard area</u></i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Introduce a new rule to address subdivision within identified areas and provide consistency between zones. 		
Point Number	697.999		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision		
Summary of Decision Requested	<p>Amend Rule 24.4 Subdivision, as follows:</p> <p><i>24.4 Subdivision <u>Rules</u></i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Additional words in this rule provide clarity. 		

Submitter Number:	945	Submitter:	First Gas Limited
Point Number	945.28		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision		

Summary of Decision Requested	<p>Add a new subdivision rule to Rule 24.4 Subdivision as follows:</p> <p><u>Subdivision-Site containing a gas transmission pipeline:</u></p> <p><i>(a) The subdivision of land containing a gas transmission pipeline is a restricted discretionary activity.</i></p> <p><i>(b) Council's discretion shall be restricted to the following matters:</i></p> <p><i>(i) The extent to which the subdivision design avoids or mitigates conflict with the gas infrastructure and activities.</i></p> <p><i>(ii) The ability for maintenance and inspection of pipelines including ensuring access to the pipelines.</i></p> <p><i>(iii) Consent notices on titles to ensure on-going compliance with AS2885 Pipelines-Gas and Liquid Petroleum-Parts 1 to 3.</i></p> <p><i>(iv) The outcome of any consultation with First Gas Limited.</i></p> <p>AND</p> <p>Any consequential amendments and other relief to give effect to the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> To address reverse sensitivity effects, the submitter seeks the inclusion of a new rule under the Subdivision rules within the Country Living Zone. The addition of a new rule would make subdivision of a site containing the gas network a restricted discretionary activity.

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.1 Subdivision – General

Submitter Number:	296	Submitter:	Richard Falconer
Organisation:	Terra Consultants (CNI) Ltd		
Point Number	296.6		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.1 Subdivision – General		
Summary of Decision Requested	Retain Rule 24.4.1 - RD1 (a) Subdivision - General, that has a minimum lot size of 3000m2.		
Decision Reasons:	<ul style="list-style-type: none"> Supports the 3,000m2 minimum lot size as it is a reasonable sized rural-residential holding with it being large enough to retain the character of Te Kowhai while avoiding maintenance issues for future owners that has occurred in the Operative District Plan Country Living Zone. 		

Submitter Number:	345	Submitter:	Brent Trail
Point Number	345.23		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.1 Subdivision – General		
Summary of Decision Requested	Amend Rule 24.4.1 Subdivision - General to reduce the minimum lot size to 2500m2.		
Decision Reasons:	<ul style="list-style-type: none"> 2500m2 is adequate to provide for 'on site' wastewater treatment and disposal. Existing rule in Franklin has been in place for many years and significant planning has gone into some sites. Reduced size will lead to a reduced yield on land already zoned for development, which will not help with availability and affordability of land and therefore is not sustainable. 		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.51		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.1 Subdivision – General		
Summary of Decision Requested	<p>Retain Rule 24.4.1 Subdivision - General, as subdivision is a restricted discretionary activity, except for the amendments sought below</p> <p>AND</p> <p>Amend Rule 24.4.1 Subdivision - General, as follows:</p> <p><i>(a) Subdivision must comply with all of the following conditions...</i></p> <p><i>(x) Proposed lots must be connected to water supply sufficient for firefighting purposes.</i></p> <p><i>(b) Council's discretion is restricted to the following matters...</i></p> <p><i>(x) Provisions of infrastructure, including water supply, for firefighting purposes.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand requires that proposed lots to be connected to public-reticulated water supply or water supply sufficient for firefighting purposes. Subdivision that does not comply is a Discretionary Activity. The changes sought promotes consistency across all zones in the District Plan.

Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.1 Subdivision – General		
Summary of Decision Requested	Amend Rule 24.4.1 RD1 (a) Subdivision - General, so the minimum site area is 2500m ² as in the Operative District Plan.		
Decision Reasons:	<ul style="list-style-type: none"> The existing minimum area is 2500m² and the Proposed Plan would effectively down-zone the land, reducing development opportunities 		

Submitter Number:	438	Submitter:	Wendy Oliver
Point Number	438.2		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.1 Subdivision – General		
Summary of Decision Requested	Add Rule 24.4.1 RD1 (c) Subdivision, which allows a reticulated service option of 3,000m ² lots for 50C Cedar Park Road, Tamahere.		
Decision Reasons:	<ul style="list-style-type: none"> Subdividing the 1.0237 ha block into two 5000m² blocks is inefficient on the counts of land use, and sustainability. The section at 50C Cedar Park Road is also adjacent to the Waikato Expressway, and is on the Hamilton City side of the Waikato Expressway where more urban intensification is envisaged. It is now timely that Waikato District Council (WDC) also considers the draft Futureproof Strategy 2017 - 2018 (DFPS) which this submission is aligned with. To prioritize growth of the District in the best sustainable manner Tamahere should be the highest priority to be investigated for future growth and servicing There is proximity to Hamilton, strong transport linkages in very close proximity, latent demand for prime rural land for country living opportunities, protection of prime rural production land, infrastructure provision potential, and improved development, planning and social outcomes going forward for the Waikato District. This will provide for social, economic and cultural wellbeing by restraining rapid change of the rural character and a high - quality rural land resource. To address population growth pressure in the best manner possible and to continue the close-knit feel of the community To enable growth in a way that makes it sustainable and does not adversely impact on the highly productive farm and horticulture land surrounding the area, see submission for section taken from the draft Future Proof Strategy Update 2017. This will provide an efficient economy of scale for the provision of reticulated infrastructure. The vibrant and commercially successful community would benefit from more sustainable residential development without affecting the rural surrounding land use. Transport links have played a key role in the growth of the Tamahere area and this is becoming more predominant in recent times with new roading infrastructure. Tamahere is only a few minutes' drive by car from Hamilton city. Along with the development of the Waikato Expressway and SH25B, provide state highway linkages to the local road network. This proves that it is inevitable that there will continue to be a high latent demand for land in the Tamahere area for development. Waikato District population is projected to be 105,770 by 2048. Hamilton fringe areas are continuing to increase significantly due to high demand for properties and increased subdivision in the country living and urban areas with 20km of Hamilton. Some of the highest growth is currently being experienced and is predicted to continue in the Tamahere Country Living Zone (source Waikato District projected population). This proves that it is inevitable that there will continue to be a high latent demand for land in the Tamahere area for development. It will provide development, commercial, transport sustainability through economies of scale, development density and numbers of residents in a managed and coordinated manner. Thought now needs to turn to protecting the rural productive land and encouraging urban serviced lots in the surrounding areas. The addressing of serviced infrastructure best addresses sustainable management of natural and physical resources as distinct from sprawling 5,000m² minimum Country Living Zone sized allotments. Section 6.5 of the Future Proof Strategy November 2017 supports the view that creating large non-reticulated lots will not assist integrated growth with Hamilton City's likely expansion into the future where such uses could be better accommodated with 2,000m² service lots, than either 3,000m² Village Zone or 5,000m² Country Living Zone sized lots. 		

Submitter Number:	626	Submitter:	Vineyard Road Properties Limited
Point Number	626.2		

Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.1 Subdivision – General
Summary of Decision Requested	Amend the minimum net site area for general subdivision in the Village Zone to 2000m2, whether or not the lots are publicly reticulated; AND/OR Amend the Proposed District Plan with any necessary consequential or other relief that addresses these concerns.
Decision Reasons:	<ul style="list-style-type: none"> • A lot size of 2000m2 creates an open space rural-residential character but can be planted, fenced, mowed and maintained easily while achieving a rural setting. • This lot size can still accommodate on-site services and it also involves a more efficient use of the land resource compared to 5000m2 lots in the Country Living Zone. • A smaller lot size of 2000m2 achieves an appropriate level of amenity while still having a low intensity of development and a Rural outlook and character.
Point Number	626.4
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.1 Subdivision – General
Summary of Decision Requested	Retain the restricted discretionary activity status for general subdivision in the Village Zone and the matters of discretion for those.
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.1002		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.1 Subdivision – General		
Summary of Decision Requested	Amend title of 24.4.1 Subdivision – General, as follows: 24.4.1 Subdivision – General (<u>outside Te Kowhai and Tuakau</u>). AND Amend Rule 24.4.1 RD1 (a) Subdivision - General as follows: <i>(a) Proposed lots <u>outside of Te Kowhai and Tuakau</u> must have a minimum net site area of 3000m2, except where the proposed lot is an access allotment, utility allotment or reserve to vest.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • Words included to provide clarity to the rule. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.131		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.1 Subdivision – General		
Summary of Decision Requested	Amend Rule 24.4.1 RD1 (a)(i)- Subdivision- General as follows: <i>(i) Proposed lots not connected to public water and wastewater infrastructure must have a minimum net site area of 2500m2 and an average net site area of 3000m2, except where the proposed lot is an access allotment or reserve lot.</i> <i>(ii) Proposed lots connected to public water and wastewater infrastructure must have a minimum net site area of 1,000m2 except where the proposed lot is an access allotment or reserve lot.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • Should reticulation become available in other locations (other than Te Kowhai and Tuakau), then the minimum lot size should reflect this. • A blanket minimum lot size can present challenges when designing a subdivision where there are different parent lot shapes, sizes and topographical/vegetative/other constraints. • Incorporating a minimum net size area and average net size area for the subdivision will provide for greater flexibility in the instances where physical constraints exist. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.162		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.1 Subdivision – General		
Summary of Decision Requested	Amend Rule 24.4.1 - Subdivision- General to allow for more intensive subdivision in Village Zone areas directly adjacent to the commercial zones.		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter is concerned that applying this minimum lot size to areas within the Village Zone that are directly adjacent to commercial areas will not enable the achievement of a range of the Plan's objectives and policies for the villages, such as those relating to housing choice; density aligned with the Future Proof strategy; and promotion of subdivision, land use and development that encourages thriving, sustainable town centres, and integrates with and is supportive of provision of public transport and other infrastructure. This is considered inconsistent with WRPS Policies 6.1, Policy 6.3 and Policy 6.16 and Section 6A.

Plan chapter

Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.2 Subdivision – Te Kowhai and Tuakau

Summary of Decision Requested

Amend Rule 24.4.2 Subdivision - Te Kowhai and Tuakau, as follows:

~~Rule 24.4.2 Subdivision - Te Kowhai and Tuakau - Village Zone~~

AND

Amend Rule 24.4.2 RD1 Subdivision - Te Kowhai and Tuakau, as follows:

~~Rule 24.4.2 RD1 Subdivision - Te Kowhai and Tuakau - Village Zone~~

AND

Amend Rule 24.4.2 RD2 Subdivision - Te Kowhai and Tuakau, as follows:

~~Rule 24.4.2 RD2 D2 Subdivision - Te Kowhai and Tuakau - Village Zone~~

AND

Amend the Proposed District Plan to make any consequential amendments necessary to address the matters raised in the submission.

Decision Reasons:

- Current rule wording is exclusive to the notified village zone areas only which is subject to change.

Plan chapter

Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.2 Subdivision – Te Kowhai and Tuakau

Summary of Decision Requested

Add a new clause (ii) to Rule 24.4.2 RD1 (a) Subdivision - Te Kowhai and Tuakau, as follows:

(a) Subdivision in Te Kowhai and Tuakau must comply with all of the following conditions:

...

(ii) Where a subdivision adjoins Rural Zone land, a buffer strip, no less than 10m wide must be provided along the adjoining boundary.

AND

Add a new matter of discretion to Rule 24.4.2 RD1 (b) Subdivision - Te Kowhai and Tuakau, as follows:

(ix) reverse sensitivity effects on land identified as high class soil, on land with rural production potential and on permitted farming activities.

AND

Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- The submitter is concerned at the extent of rural land proposed to be rezoned for residential/urban purposes in Tuakau.
- The area north of the Waikato River is critical to New Zealand's domestic food supply.
- Any further development in this area needs to be appropriately located to avoid high class soil and versatile land, and to be managed appropriately to avoid reverse sensitivity effects.
- It is appropriate that additional standards be provided to support on-going operation and development of horticulture in this district. This aligns with the proposed policies.

Plan chapter

Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.2 Subdivision – Te Kowhai and Tuakau

Summary of Decision Requested	<p>Add a new clause (ii) to Rule 24.4.2 RD2 (a) Subdivision - Te Kowhai and Tuakau, as follows:</p> <p>(a) <i>Subdivision in Te Kowhai and Tuakau must comply with all of the following conditions:</i></p> <p>...</p> <p><u>(ii) Where a subdivision adjoins Rural Zone land, a buffer strip no less than 8m wide must be provided along the adjoining boundary.</u></p> <p>AND</p> <p>Add a new matter of discretion to Rule 24.4.2 RD2 (b) Subdivision - Te Kowhai and Tuakau, as follows:</p> <p><u>(ix) reverse sensitivity effects on land identified as high class soil, on land with rural production potential and on permitted farming activities.</u></p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> It is appropriate that additional standards be provided to ensure reverse sensitivity effects are avoided or mitigated.

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.80		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.2 Subdivision – Te Kowhai and Tuakau		
Summary of Decision Requested	No specific decision sought, but submission opposes the subdivision provisions for Te Kowhai in Rule 24.4.2 Subdivision Te Kowhai and Tuakau.		
Decision Reasons:	<ul style="list-style-type: none"> The uncertainty about the servicing of these areas, makes quantifying and understanding the effects of the proposals on Hamilton's own infrastructure and the sub-regional land use pattern, difficult. The proposed low densities of the area, may make meeting the District's growth projections difficult. New areas have been included within the Village Zone which were previously zoned Rural or Country living without sufficient justification or comfort that the impacts of such development can be managed; or that the built form will deliver best results for delivering sustainable growth with a compact built urban form. Issues have been created in the past for Hamilton City, by the creation of rural residential enclaves on the City boundary - while this particular zone has a different name (i.e. Village Zone), it will still have the same, if not greater impacts across the boundary. 		

Submitter Number:	602	Submitter:	Greig Metcalfe
Point Number	602.5		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.2 Subdivision – Te Kowhai and Tuakau		
Summary of Decision Requested	<p>Amend Rule 24.4.2 RD1 and RD2 Subdivision, as follows:</p> <p>RD1 (a) <i>Subdivision in Te Kowhai and Tuakau must comply with all of the following conditions:</i></p> <p>(i) <i>Proposed lots not connected to public water and reticulated wastewater infrastructure must have a minimum net area of 3000m2, except where the proposed lot is an access allotment, <u>utility allotment</u> or reserve lot.</i></p> <p>RD2 (a) <i>Subdivision in Te Kowhai and Tuakau must comply with all of the following conditions:</i></p> <p>(i) <i>Proposed lots connected to public water and reticulated wastewater infrastructure must have a minimum net site area of 1000m2, except where the proposed lot is an access allotment, <u>utility allotment</u> or reserve lot.</i></p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> It is feasible for development in the Village Zone to be serviced by reticulated services that are privately owned (i.e. community scale) and therefore this provision should not be limited to publicly owned infrastructure network. 		

Submitter Number:	604	Submitter:	Lee Slomp
Point Number	604.1		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.2 Subdivision – Te Kowhai and Tuakau		
Summary of Decision Requested	Amend Rule 24.4.2 RD1 Subdivision - Te Kowhai and Tuakau to ensure that subdivision in Te Kowhai does not proceed until wastewater infrastructure is available to every property in Te Kowhai (existing, new and proposed capacity).		
Decision Reasons:	<ul style="list-style-type: none"> Wastewater infrastructure would enable better utilization of the land resource by enabling subdivision down to smaller lots. Current minimum lot size of 3000m2 means Te Kowhai will not achieve good growth, land utilization, and future optional sizes of properties (for less than 3000m2). With options for smaller property sizes the village can maintain its tone and not sprawl. 		

Submitter Number:	689	Submitter:	Greig Developments No 2 Limited
Point Number	689.23		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.2 Subdivision – Te Kowhai and Tuakau		
Summary of Decision Requested	Retain Rule 24.4.2 RD2 (a)(i) Subdivision – Te Kowhai and Tuakau		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.

Summary of Decision Requested **Amend** Rule 24.4.9 RD1 (a) Road frontage to adopt the provisions in the Operative District Plan – Franklin Section 26.6.4 Frontage to Road (Vehicular Access Requirement)

Decision Reasons:

- Every proposed lot as part of the subdivision with a road boundary, other than a proposed lot containing an access allotment, utility allotment, right of way or access leg must have a width along the road boundary of at least 20m
- The layout of a development is dependent on the size and shape of the site as well as its topography (amongst other constraints). While a 20m minimum width along a road boundary can generally work in many developments that have the ability to follow a grid design, the reality is that not every site is flat with no topographical or size/shape constraints
- Sites with topographical natural or physical constraints may be unable to practically implement a layout that achieves 20m road frontage for all lots with the road. There may also be sites where the lay of the land is best suited to an alternative roading design
- There is no analysis in Section 32 regarding this relevance or practicality of this rule.

Submitter Number: 695 **Submitter:** Sharp Planning Solutions Ltd

Point Number 695.139

Plan chapter Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.9 Road frontage

Summary of Decision Requested **Retain** the 20m frontage as proposed in Rule 24.4.9 RD1 (a) Road frontage .

Decision Reasons:

- This is only 15m in the Country Living Zone at 23.4.7 RD1 (a) but has larger proposed lots.

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.1012

Plan chapter Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.9 Road frontage

Summary of Decision Requested **Amend** Rule 24.4.9 Road frontage, as follows:

(a) Every proposed lot as part of the subdivision with a road boundary, other than a proposed lot containing other than any access allotment, utility allotment, right of way or access leg, must have a width along the road boundary of at least 20m.
(b) Council's discretion is restricted to the following matters:
(i) Safety and efficiency of vehicle access and road network; and
(ii) Amenity values and rural character.

Decision Reasons:

- Rule needs amending to provide clarity. In respect to (b)(ii) rural character is not relevant in the village zone.

Submitter Number: 742 **Submitter:** Kim Harris-Cottle

Organisation: New Zealand Transport Agency

Point Number 742.155

Plan chapter Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.9 Road frontage

Summary of Decision Requested **Retain** Rule 24.4.9 RD1 Road frontage, except for the amendments sought below

AND

Amend Rule 24.4.9 RD1 Road frontage matter of discretion (b)(i), as follows:

Safety and efficiency of vehicle access and road transport network;

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter supports a 20m minimum width for lots with a road boundary as this will enable safe separation distance between vehicle entrances.
- Retaining discretion over safety and efficiency of the road network is also supported with minor amendment.

Submitter Number: 746 **Submitter:** The Surveying Company

Point Number	746.133
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.9 Road frontage
Summary of Decision Requested	Delete Rule 24.4.9 RD1 (a)-Subdivision - Road Frontage. AND Amend 24.4.9 RD1 (a)-Subdivision-Road Frontage to adopt the Vehicular Access Requirements of the Operative Waikato District Plan - Franklin Section.
Decision Reasons:	<ul style="list-style-type: none"> The layout of a development is dependent on the size and shape of the site as well as its topography (amongst other constraints). While a 20m minimum width along a road boundary can generally work in many developments that have the ability to follow a grid design, not every site is flat with no size/shape constraints. Sites with topographical natural or physical constraints may be unable to practically implement a layout that achieves 20m road frontage for all lots with the road. There may also be sites where the lay of the land is best suited to an alternative roading design. There is no analysis in the s32 regarding this relevance or practicality of this rule.

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.10 Subdivision - Building platform

Submitter Number:	382	Submitter:	Brent Trail
Organisation:	Surveying Services Ltd		
Point Number	382.6		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.10 Subdivision - Building platform		
Summary of Decision Requested	No specific decision sought, but submission states support for Rule 24.4.10 Subdivision - Building Platform.		
Decision Reasons:	<ul style="list-style-type: none"> No reason provided. 		

Submitter Number:	397	Submitter:	Horotiu Properties Limited
Point Number	397.10		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.10 Subdivision - Building platform		
Summary of Decision Requested	Amend Rule 24.4.10 RD1 Subdivision - Building Platform, as follows: <i>(a) Every proposed lot, other than a new lot specifically for access, utility allotment & access allotment, an access allotment, utility allotment or reserve allotment, must be capable of containing a building platform.</i> AND Amend the Proposed District Plan to make any consequential amendments necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Improves wording and includes reserve allotments. 		

Submitter Number:	602	Submitter:	Greig Metcalfe
Point Number	602.8		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.10 Subdivision - Building platform		
Summary of Decision Requested	Amend Rule 24.4.10 (a) RD1 Subdivision - Building platform, as follows: <i>(a) Every proposed lot, other than a new lot specifically for access, utility allotment & an access allotment, utility allotment or reserve allotment, must be capable of containing a building platform upon which a dwelling could be sited as a permitted activity, with the building platform being contained within either of the following dimensions:</i> ... AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The requested wording for RD1 (a) is an improvement to the notified version and reserve allotments need to be included. 		

Submitter Number:	943	Submitter:	McCracken Surveys Limited
Point Number	943.60		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.10 Subdivision - Building platform		
Summary of Decision Requested	Amend Rule 24.4.10 RD1 (a) (i) Subdivision - Building platform, to be inclusive of yards. OR Amend Rule 24.4.10 RD1 (a) (i) - Subdivision - Building platform, as follows: <i>(i) A circle with a diameter of at least 4.8 1.5m exclusive of yards; or</i> AND Any consequential amendments to other residential zones.		

Decision Reasons:

- The 18m diameter is not achievable where a road frontage is 20m (Rule 24.4.9) and side yards (Rule 24.3.6.1) which equates to a 17m maximum diameter circle exclusive of yards.
- The 18m circle exclusive of yards is too restrictive for many sites. The requirement would be difficult to achieve or many sites typically being 20m in length.
- There is no obvious planning outcome or support for an 18m standard.

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.11 Subdivision Creating Reserves

Submitter Number: 382 **Submitter:** Brent Trail

Organisation: Surveying Services Ltd

Point Number 382.7

Plan chapter Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.11 Subdivision Creating Reserves

Summary of Decision Requested Amend Rule 24.4.11 RD1 (a) Subdivision Creating Reserves, by replacing 50% with 20%.

Decision Reasons:

- This rule is not helpful to sustainable development and cost of housing unless Council is doing the development or reimbursing the developer for additional roading requirements due to this rule.
- 205 is reasonable.

Submitter Number: 405 **Submitter:** Counties Power Limited

Point Number 405.83

Plan chapter Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.11 Subdivision Creating Reserves

Summary of Decision Requested Add a matter of discretion to Rule 24.4.11 RD1(b) Subdivision Creating Reserves as follows:
The subdivision layout and design in regard to how this may impact on the operation, maintenance, upgrading and development of existing infrastructure assets;

Decision Reasons:

- To prevent assets becoming landlocked.
- Similar to Transpower rules.

Submitter Number: 689 **Submitter:** Greig Developments No 2 Limited

Point Number 689.25

Plan chapter Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.11 Subdivision Creating Reserves

Summary of Decision Requested Delete Rule 24.4.11(a) Subdivision Creating Reserves and make it a matter of discretion.

Decision Reasons:

- Roading infrastructure is expensive and the rule will result in additional costs for developers, which may not be justifiable from an economic perspective. The enforcement of the rule may increase the costs of development, which could be passed onto purchasers
- This is an arbitrary standard which may not be relevant for all reserve types or developments
- Safety and surveillance of reserves may be achieved with less road frontage
- There is no analysis in Section 32 stating why the 50% rule was applied.

Submitter Number: 746 **Submitter:** The Surveying Company

Point Number 746.134

Plan chapter Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.11 Subdivision Creating Reserves

Summary of Decision Requested Delete Rule 24.4.11 RD1(a)-Subdivision Creating Reserves and make it a matter of discretion

Decision Reasons:

- Roading infrastructure is expensive and the rule will result in additional costs for developers which may not be justifiable from an economic perspective. The enforcement of the rule may increase the cost of development which could be passed onto purchasers.
- This is an arbitrary standard which may not be relevant for all reserve types or developments.
- Safety and surveillance of reserves may be achieved with less road frontage.
- There is no analysis in the s32 stating why the 50% road frontage rule has been applied. While this may be a principle to follow it should not be enforced through a rule.

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.12 Subdivision of Esplanade Reserves and Esplanade Strips

Submitter Number: 405 **Submitter:** Counties Power Limited

Point Number	405.84
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.12 Subdivision of Esplanade Reserves and Esplanade Strips
Summary of Decision Requested	Add a matter of discretion to Rule 24.4.12 RD1 (b) Subdivision of Esplanade Reserves and Esplanade Strips, as follows: <u>The subdivision layout and design in regard to how this may impact on the operation, maintenance, upgrading and development of existing infrastructure assets:</u>
Decision Reasons:	<ul style="list-style-type: none"> To prevent assets becoming landlocked. Similar to Transpower rules.

Submitter Number:	689	Submitter:	Greig Developments No 2 Limited
Point Number	689.26		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.12 Subdivision of Esplanade Reserves and Esplanade Strips		
Summary of Decision Requested	Amend Rule 24.4.12 Subdivision of Esplanade Reserves and Esplanade Strips to adopt the provisions in the Operative District Plan – Franklin Section Rule 11.5 – Esplanade Reserves and Strips		
Decision Reasons:	<ul style="list-style-type: none"> Accept that esplanade reserves and strips enable public access and recreation. This needs to be assessed on a case-by-case basis and Council should allow a waiver or reduction in width in certain circumstances 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.135		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.12 Subdivision of Esplanade Reserves and Esplanade Strips		
Summary of Decision Requested	Amend Rule 24.4.12-Subdivision of esplanade reserves and esplanade strips by adopting Operative Waikato District Plan- Franklin Section Rule 11.5 - Esplanade Reserves and Strips.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter accepts that esplanade reserves and esplanade strips enable public access and recreation. However, this needs to be assessed on a case by case basis and Council should allow a waiver or reduction in width in certain circumstances. 		

Plan chapter: Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.13 Subdivision of land containing mapped off-road walkways

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.1013		
Plan chapter	Section C Rules > Chapter 24: Village Zone > 24.4 Subdivision > 24.4.13 Subdivision of land containing mapped off-road walkways		
Summary of Decision Requested	Amend Rule 24.4.13 Subdivision of land containing mapped off-road walkways, as follows: 24.4.13 Subdivision of land containing mapped off-road walkways, <u>cycleways, bridleways</u> . AND Amend Rule 24.4.13 D1 Subdivision of land containing mapped off-road walkways as follows: (a) Subdivision where walkways shown on the planning maps are to be provided as part of the subdivision must comply with all of the following conditions: (i) The walkway, <u>cycleway or bridleway</u> is at least 3 metres wide and is designed and constructed for shared pedestrian, one cycle use <u>or</u> riding, as per Rule 14.12.1 P8 (Transportation); (ii) The walkway, <u>cycleway or bridleway</u> is generally in accordance with the walkway, <u>cycleway or bridleway</u> route shown on the planning maps; (iii) The walkway, <u>cycleway or bridleway</u> is shown on the plan of subdivision and vested in Council. (b) Council's discretion is restricted to the following matters: (i) Alignment of the walkway, <u>cycleway or bridleway</u> ; (ii) Drainage in relation to the walkway, <u>cycleway or bridleway</u> ; (iii) Standard of design and construction of the walkway, <u>cycleway or bridleway</u> ; (iv) Land stability; (v) Amenity matters including batter slopes; (vi) Connection to reserves.		
Decision Reasons:	<ul style="list-style-type: none"> Rule needs amending to provide clarity. 		

Plan chapter: Section C Rules > Chapter 25: Reserve Zone

Submitter Number:	194	Submitter:	Neil Barker
Organisation:	Ngaruawahia Golf Club Inc		
Point Number	194.2		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone		
Summary of Decision Requested	Amend Chapter 25: Reserve Zone to provide opportunities to develop land for small-scale commercial activities as a Restricted Discretionary Activity, consistent with the objectives of the Reserve Zone – Chapter 8: Reserves. OR		

Delete the Reserves Zone from the Proposed District Plan and replace with the approach used by Hamilton City Council which individually classifies recreation spaces according to their purpose.

Decision Reasons:

- These future initiatives are consistent with what the Proposed District Plan seeks to achieve in the Reserve Zone and what is currently being undertaken on site.
- The site has potential to serve the community in an increased capacity, but is concerned about the flexibility of the plan to allow for this.
- The submitter seeks to clarify its ability to accommodate future ancillary uses of the golf course as a permitted activity. This may include the formalization of the existing driving range, which would see low-level buildings and some fencing along Great South Road. This activity is intended for club members, but a small number of fee-paying participants may look to use the facility. If Council considers this to be a commercial activity, then Council should see this as a minor activity and classify it a Restricted Discretionary Activity, rather than a Non-Complying Activity.

Point Number

194.3

Plan chapter

Section C Rules > Chapter 25: Reserve Zone

Summary of Decision Requested

Amend Chapter 25: Reserve Zone to allow other recreation activities to be accommodated as Restricted Discretionary Activities, consistent with the objectives of the Reserve Zone – Chapter 8: Reserves.

OR

Delete the Reserves Zone from the Proposed District Plan and replace with the approach used by Hamilton City Council which individually classifies recreation spaces according to their purpose.

Decision Reasons:

- Wish to consider further recreational facilities.
- These future initiatives are consistent with what the Proposed District Plan seeks to achieve in the Reserve Zone and what is currently being undertaken on site.
- The site has potential to serve the community in an increased capacity, but is concerned about the flexibility of the plan to allow for this. While the rezoning of the site from Rural to Reserve does not increase restrictions, it does contribute.
- Future population growth to the north of Hamilton and adjacent to site will see increased demand for sport and recreation.
- Future development of the site may include, for example, a fitness suite or squash court.
- These types of uses will benefit the community and Ngaruawahia Golf Club a leading recreation provider in the region, however such activities are currently Non-Complying Activities.

Submitter Number:

697

Submitter:

Waikato District Council

Point Number

697.1015

Plan chapter

Section C Rules > Chapter 25: Reserve Zone

Summary of Decision Requested

Amend Chapter 25 Reserve Zone heading, as follows:

Chapter 25: Reserve Zone -Rules

Decision Reasons:

- To assist in clarifying that all of the provisions within the chapter are rules.

Point Number

697.1016

Plan chapter

Section C Rules > Chapter 25: Reserve Zone

Summary of Decision Requested

Amend Rule 25(2) Reserve Zone, as follows:

The rules that apply to subdivision in the Reserve Zone are contained in Rule 25.4 and the relevant rules in 14 Infrastructure and Energy; and 15 Natural Hazards and Climate Change (Placeholder).

Decision Reasons:

- To clarify that the rules in Chapter 14 Infrastructure and Energy and Chapter 15 Natural Hazards and Climate Change apply to subdivision as well as to land use activities.

Submitter Number:

830

Submitter:

Linda Silvester

Point Number

830.24

Plan chapter

Section C Rules > Chapter 25: Reserve Zone

Summary of Decision Requested

Add new provisions to Chapter 25 Reserve Zone to include energy efficiency policies and rules (see submission for wording)

Decision Reasons:

- The Proposed District Plan only makes passing reference to climate change and says nothing about coal, gas and oil's effect on global warming.
- It is disappointing that Stage 2 of the Proposed District Plan is to be published in 2019 and that is not possible to consider it in context with this part of the Plan.
- Section 1.9.5 reflects the Resource Management Act requirements around climate change and renewable energy.

Submitter Number:

923

Submitter:

Waikato District Health Board

Point Number

923.3

Plan chapter

Section C Rules > Chapter 25: Reserve Zone

Summary of Decision Requested

Amend Chapter 25: Reserve Zone to add a statement of purpose and anticipated outcomes of corresponding zone or subzone, and where appropriate make links to health and wellbeing considerations.

Decision Reasons:

- Currently there are no statements of purpose or descriptions for any of the zones or the intended outcomes to be achieved, leading to a reliance on objectives, policies and explanations within Section B of the Plan, which are based under generic heading topics with little zone based commentary.
- There is an opportunity to clarify the purpose of a zone and increase understanding of outcomes, and appropriate types of activities for the different environments.

- The amendments would assist with a clear understanding of the purpose and character of the various zones.

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.1 Land Use - Activities

Submitter Number:	194	Submitter:	Neil Barker
Organisation:	Ngaruawahia Golf Club Inc		
Point Number	194.1		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.1 Land Use - Activities		
Summary of Decision Requested	<p>Add a Permitted or Controlled Activity to Rule 25.1 Land Use - Activities for golf courses and their ancillary uses</p> <p>OR</p> <p>Delete the Reserves Zones from the Proposed District Plan and replace with the approach used by Hamilton City Council which individually classifies recreation spaces according to their purpose.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Golf courses are classed as non-complying activity. • Ngaruawahia Golf Club is recognised nationally for the quality of the course and ease of access. The location of the golf club allows for ease of access from both Auckland and Hamilton and is played regularly by those travelling the North Island. The course has long brought visitors to the Waikato district, who in turn spend money at local businesses. • Ngaruawahia Golf Club facilities are not only utilised for golf, but community events and fundraisers throughout the year. • The site has potential to serve the community in an increased capacity, but is concerned about the flexibility of the plan to allow for this. While the rezoning of the site from Rural to Reserve does not increase restrictions, it does contribute. • The submitter seeks to clarify its ability to accommodate future ancillary uses of the golf course as a permitted activity. This may include the formalisation of the existing driving range, which would see low-level buildings and some fencing along Great South Road. 		

Submitter Number:	781	Submitter:	Ministry of Education
Point Number	781.17		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.1 Land Use - Activities		
Summary of Decision Requested	<p>Add a new Restricted Discretionary Activity rule to Rule 25.1 Land Use - Activities as follows:</p> <p><u>25.1.3 Restricted Discretionary Activities</u></p> <p><i>(1) The activities listed below are restricted discretionary activities</i></p> <p><i>(2) Discretion to grant or decline consent and impose conditions is restricted to the matters of discretion set out in the following table:</i></p> <p>Activity</p> <p><u>RD1 Education facilities</u></p> <p>Council's discretion shall be restricted to the following matters:</p> <ol style="list-style-type: none"> <u>The extent to which it is necessary to locate the activity in the Reserve Zone.</u> <u>Reverse sensitivity effects of adjacent activities.</u> <u>The extent to which the activity may adversely impact on the transport network.</u> <u>The extent to which the activity may adversely impact on the streetscape.</u> <u>The extent to which the activity may adversely impact on the noise environment.</u> 		
Decision Reasons:	<ul style="list-style-type: none"> • Education facilities are not listed in the Reserve Zone. Education facilities such as schools, community education, tertiary education institutions, work skills training centres, outdoor education centres and sports training establishments within village areas are essential social infrastructure. • The submitter requests consistency with their requested definition of 'Education facilities'. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.70		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.1 Land Use - Activities		
Summary of Decision Requested	<p>Add new matters of discretion relating to non-compliance with the 5m Building setback - railway corridor (sought elsewhere in other submission points) in Rule 25.1 Land Use Activities as follows (or similar amendments to achieve the requested relief):</p> <p><u>1. The size, nature and location of the buildings on the site.</u></p> <p><u>2. The extent to which the safety and efficiency of rail and road operations will be adversely affected.</u></p> <p><u>3. The outcome of any consultation with KiwiRail.</u></p> <p><u>4. Any characteristics of the proposed use that will make compliance unnecessary.</u></p> <p>AND</p> <p><u>Any consequential amendments to link and/or accommodate the requested changes.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • KiwiRail accepts that there will be at times situations where the proposed 5 metre Building setback - railway corridor rule cannot be met, or it is inappropriate to require compliance. • It is noted that some zones have restricted discretionary activity categories and some don't. It's been KiwiRail's policy to seek restricted discretionary activity 		

status for non-compliance with its noise and vibration performance standards. The criteria allow for a bespoke consideration of site specific effects.

- Application for resource consent under this rule can be decided without public notification. KiwiRail are likely to be the only affected person determined in accordance with section 95B of the Resource Management Act 1991.

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.1 Land Use - Activities > 25.1.1 Prohibited Activities

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.1017		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.1 Land Use - Activities > 25.1.1 Prohibited Activities		
Summary of Decision Requested	<p>Amend Rule 25.1.1 PR1 Prohibited activities, as follows:</p> <p><i>Any building, structure, objects or vegetation that obscures the sight lines of the Raglan navigation beacons for vessels entering Whaingaroa (Raglan Harbour) (refer to as identified in Appendix 7 (Raglan Navigation Beacon) for vessels entering Raglan Harbour (Whaingaroa)).</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Additional clarity with the rule. 		

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.1 Land Use - Activities > 25.1.2 Permitted Activities

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.243		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.1 Land Use - Activities > 25.1.2 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 25.1.2 P3 Permitted Activities to include appropriate thresholds or activity status for the clearance of indigenous vegetation as a result of establishing walking, cycling tracks or accessory buildings.</p> <p>AND/OR</p> <p>Amend the definition to exclude the establishment of walkways, cycle ways and accessory buildings.</p>		
Decision Reasons:	<ul style="list-style-type: none"> In the Reserve Zone, Conservation activities are permitted with no activity specific conditions. The definition for conservation activity includes the establishment of walking and cycle tracks and accessory buildings. Therefore these activities would be permitted with no restrictions on the amount of clearance. The submitter considers that this is inappropriate given the potential effect on indigenous biodiversity. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.1018		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.1 Land Use - Activities > 25.1.2 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 25.1.2(1) Permitted Activities, as follows:</p> <p><i>(1) The activities listed below are permitted activities if they meet all the following:</i></p> <p><i>(a) Activity-specific conditions;</i></p> <p><i>(b) Land Use – Effects rules in Rule 25.2 (unless the activity-specific rule and/or conditions identify a condition(s) that does not apply);</i></p> <p><i>(c) Land Use – Building rules in Rule 25.3 (unless the activity-specific rule and/or conditions identify a condition(s) that does not apply);</i></p> <p><i>(d) Activity-specific conditions;</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> The list of rules (a) – (c) should follow the order that they appear. 		
Point Number	697.1019		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.1 Land Use - Activities > 25.1.2 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 25.1.2 P4 Temporary event, as follows:</p> <p><i>(a) The event occurs no more than 15 times per calendar year consecutive 12 month period...</i></p> <p><i>(d) The site is returned to its original previous condition no more than 3 days after the end of the event...</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Consistency with other chapters. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.156		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.1 Land Use - Activities > 25.1.2 Permitted Activities		
Summary of Decision Requested	<p>Retain Rule 25.1.2 P4 Temporary events, except for the amendments sought below</p> <p>AND</p> <p>Add a new condition to Rule 25.1.2 P4 Permitted Activity - Temporary Event, as follows:</p>		

(g) There is a maximum of 100 vehicle movements per day, and no more than 15% of these are heavy vehicle movements.

AND

Add a new Restricted Discretionary Activity rule for temporary activities not complying with 25.1.2 P4(g), with discretion restricted to the effects on the safety and efficiency of the transport network;

OR

Amend Rule 14.12.1.4 Transportation - Permitted Activities, by adding a threshold for traffic generation within the Reserve Zone.

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter supports no direct access from a national route or regional arterial road.
- Temporary events in the Reserve Zone are not subject to Rule 14.12.1.4 which would ensure that, for events exceeding a certain size, any effects on the transport network could be addressed. The submitter therefore seeks that either Rule 25.1.2 is amended to provide maximum traffic generation figures or Rule 14.12.1.4 is amended to provide a threshold for traffic generation in the Reserve Zone.

Submitter Number: 831 **Submitter:** Gabrielle Parson

On behalf of: Raglan Naturally

Point Number 831.52

Plan chapter Section C Rules > Chapter 25: Reserve Zone > 25.1 Land Use - Activities > 25.1.2 Permitted Activities

Summary of Decision Requested **Amend** Rule 25.1.2 P4(a) Permitted Activities to differentiate between summer events and other events.

Decision Reasons:

- Raglan's reserves are increasingly congested in mid-summer and moving events to shoulder seasons, from the summer peak, would help ease the problem.

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.1 Land Use - Activities > 25.1.3 Discretionary Activities

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.1020

Plan chapter Section C Rules > Chapter 25: Reserve Zone > 25.1 Land Use - Activities > 25.1.3 Discretionary Activities

Summary of Decision Requested **Amend** Rule 25.1.3 Discretionary activities, as follows:

Any permitted activity that does not comply with one or more ~~any~~ activity-specific conditions in Rule 25.1.2

Decision Reasons:

- Consistency with other chapters and additional clarity of the rule.

Point Number 697.1021

Plan chapter Section C Rules > Chapter 25: Reserve Zone > 25.1 Land Use - Activities > 25.1.3 Discretionary Activities

Summary of Decision Requested **Delete** Rule 25.1.3(D2), Discretionary Activities.

Decision Reasons:

- Creates confusion as it mixes activity rules with Land Use – Effects and Land Use – Building rules.

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.1 Noise > 25.2.1.1 Noise - General

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.1022

Plan chapter Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.1 Noise > 25.2.1.1 Noise - General

Summary of Decision Requested **Delete** Rule 25.2.1.1 P3 and P4 Noise - General;

AND

Amend Rule 25.2.1.1 P2, to read as follows:

(a) Noise measured within the notional boundary on any site in the Residential Zone, Village Zone, Country Living Zone and Rural Zone must not exceed:

(i) 55dB (LAeq), 7am to 7pm every day;

(ii) 45dB (LAeq), 7pm to 10pm every day; and

(iii) 40dB (LAeq) and 65dB (LAmax), 10pm to 7am the following day.

(b) Noise measured within any site in any zone other than the Reserve Zone, Residential Zone, Village Zone, Country Living Zone and Rural Zone must meet the noise levels permitted for that zone.

(c) Noise levels must be measured in accordance with the requirements of NZS 6801:2008 "Acoustics Measurement of Environmental Sound".

(d) Noise levels must be assessed in accordance with the requirements of NZS 6802:2008 "Acoustic Environmental noise".

AND

Make consequential amendment to Rule 25.2.1.1 D1, as follows:

Noise that does not comply with Rule 25.2.1.1 ~~P3~~, ~~P2~~, ~~P3~~ or P4.

Decision Reasons:

- P3 and P4 need to be conditions of P2 as they are the standards which need to be met.

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.164		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.1 Noise > 25.2.1.1 Noise - General		
Summary of Decision Requested	<p>Amend Rule 25.2.1.1 P1, P2, P3, P4, and D1 Noise - General, as follows:</p> <p>P1</p> <p>(a) Crowd noise, <u>excluding any amplified sound or music</u>;</p> <p>(b) Noise generated by emergency generators and emergency sirens.</p> <p>P2</p> <p><u>Sound received outside the Reserve Zone, measured in accordance with NZS 6801:2008 and assessed in accordance with NZS 6802:2008, must not exceed the permitted activity noise limits for the zone of the site where sound is received.</u></p> <p>(a) Noise measured within the notional boundary on any site in the Residential Zone, Village Zone, Country Living Zone and Rural Zone must not exceed:</p> <p>(i) 50dB (L_{Aeq}), 7am to 7pm, every day;</p> <p>(ii) 45dB (L_{Aeq}), 7pm to 10pm, every day;</p> <p>(iii) 40dB (L_{Aeq}) and 65dB (L_{Amax}), 10pm to 7am the following day;</p> <p>-P3</p> <p>(a) Noise measured within any site in any zone other than the Reserve Zone, Residential Zone, Village Zone, Country Living Zone and Rural Zone must meet the permitted noise levels for that zone.</p> <p>-P4</p> <p>(a) Noise levels shall be measured in accordance with the requirements of NZS 6801:2008 "Acoustics Measurement of Environmental Sound;"</p> <p>(b) Noise levels shall be assessed in accordance with the requirements of NZS 6802:2008 "Acoustic Environmental Noise;"</p> <p>-D1</p> <p>(a) Sound that is outside the scope of NZS 6802:2008 or a permitted activity standard; and</p> <p>(b) Sound Noise that does not comply with Rule 25.2.1.1 P1, <u>or</u> P2, P3 or P4.</p> <p>-----</p>		
Decision Reasons:	<ul style="list-style-type: none"> The proposed noise limits are generally in accordance with guideline values and use current measurement and assessment standards, acoustical metrics, numerical values, time-frames and assessment location. However, the following issues have been identified: <ul style="list-style-type: none"> - Incorrect terminology has been used in conflict with the standards specified, - No provision has been made for sound sources outside the scope of NZS 6802, - The measurement and assessment standards are an integral part of the noise limits and cannot be a separate permitted activity standard, - An exemption has been made for "crowd noise" but this could potentially permit a wider range of sounds than intended. 		

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.1 Noise > 25.2.1.2 Noise - Construction

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.1023		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.1 Noise > 25.2.1.2 Noise - Construction		
Summary of Decision Requested	<p>Amend Rule 25.2.1.2 P1 Noise - Construction, as follows:</p> <p>(a) Construction noise must not exceed <u>meet</u> the limits in NZS 6803:1999 (Acoustics – Construction Noise); and..</p>		
Decision Reasons:	<ul style="list-style-type: none"> Additional clarity of the rule – construction noise should not exceed the limits, rather than meet the limits in the NZ Standard. 		

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.3 Glare and artificial light spill

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.1024		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.3 Glare and artificial light spill		
Summary of Decision Requested	<p>Amend Rule 25.2.3 P1 Glare and artificial light spill, as follows:</p> <p>(a) <u>Illumination from glare and artificial light spill must not exceed 10 lux measured horizontally and vertically at any other site zoned Residential, Village or Country Living Zone.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> Consistency of wording with other chapters. The focus of the rule in the Reserve Zone should be to control light spill outside the Reserve Zone into the residential zones. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.157		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.3 Glare and artificial light spill		
Summary of Decision Requested	<p>Retain Rule 25.2.3 P1 Glare and artificial light spill, as notified.</p>		

AND

Retain Rule 25.2.3 RD1 Glare and artificial light spill, as notified.

Decision Reasons: • The submitter supports all rules in this section.

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.4 Earthworks

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.1025		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.4 Earthworks		
Summary of Decision Requested	Amend Rule 25.2.4(1) Earthworks, as follows: <i>(1) Rule 25.2.4.1 – Earthworks General provides the permitted rules for earthwork activities in the Reserves Zone. This rule does not apply in those areas specified in rules 25.2.4.1A, 25.2.4.2, 25.2.4.3 and 25.2.4.4.</i>		
Decision Reasons:	• The wording of the rule does not make it clear that the rules in 25.2.4(2) apply instead of the general earthworks rule.		
Point Number	697.1026		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.4 Earthworks		
Summary of Decision Requested	Add to Rule 25.2.4(2) Earthworks, as follows: There are specific standards for earthworks within rules: <i>(a) Rule 25.2.4.1A – Earthworks within the National Grid Yard; (a b) Rule 25.2.4.2 – Maaori Sites and Maaori Areas of Significance; (b c) Rule 25.2.4.3 – Significant Natural Areas; (c d) Rule 25.2.4.4 – Landscape and Natural Character Areas.</i> AND Add new rule after Rule 25.2.4.1, as follows: <u>25.2.4.1A Earthworks - within the National Grid Yard</u> <u>P1</u> <i>(a) The following earthworks within the National Grid Yard: (i) Earthworks undertaken as part of domestic cultivation; or repair, sealing or resealing of a road, footpath or driveway; (ii) Vertical holes not exceeding 500mm in diameter that are more than 1.5m from the outer edge of the pole support structure or stay wire; (iii) Earthworks for which a dispensation has been granted by Transpower under New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663.</i> <u>P2</u> <i>(a) Earthworks activities within the National Grid Yard near National Grid support poles or any stay wires must comply with the following conditions: (i) Do not exceed a depth of 300mm within 2.2m of the pole or stay wire; and (ii) Do not exceed a depth of 750mm between 2.2m and 3m of the pole or stay wire.</i> <u>P3</u> <i>(a) Earthworks within the National Grid Yard near National Grid support towers (including any tubular steel tower that replaces a steel lattice tower) must comply with all of the following conditions: (i) Do not exceed 300m depth within 6m of the outer edge of the visible foundation of the tower; (ii) Do not exceed 3m between 6m and 12m of the outer edge of the visible foundation of the tower; (iii) Do not compromise the stability of a National Grid support structure; (iv) Do not result in the loss of access to any National Grid support structure; and (v) Must be less than the minimum ground to conductor clearance distances in Table 4 of the New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663.</i> <u>RD1</u> <i>(a) Earthworks within the National Grid Yard that do not comply with one or more of the conditions of Rules 25.2.4.1A P1, P2 or P3. (b) Discretion is restricted to: (i) Impacts on the operation, maintenance, upgrading and development of the National Grid; (ii) The risk to the structural integrity of the affected National Grid support structure(s); (iii) Any impact on the ability of the National Grid owner (Transpower) to access the National Grid; (iv) The risk of electrical hazards affecting public or individual safety, and the risk of property damage.</i>		
Decision Reasons:	• Replicate the earthworks rule within the National Grid from Chapter 14 into Chapter 25 for increased clarity and usability of the Plan.		

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.4 Earthworks > 25.2.4.1 Earthworks - General

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.1027		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.4 Earthworks > 25.2.4.1 Earthworks - General		
Summary of Decision Requested	Amend Rule 25.2.4.1 Earthworks - general, as follows: <i>(a) Earthworks (excluding the importation of fill material), within a site must meet all of the following conditions: (i) Be located more than 1.5m from a public sewer, open drain, overland flow path or other service pipe; (ii) Not exceed a volume of more than 250m³ and (iii) Not exceed an area of more than 1,000m² over any single consecutive 12 month period within a site; (iv) The height of the resulting cut, filled areas or fill batter face in stable ground, not including any surcharge, does not exceed 1.5m, with a maximum slope of 1:2 (1 vertical to 2 horizontal); (v) Earthworks are set back at least 1.5m from all boundaries; (vi) Areas exposed by earthworks are revegetated to achieve 80% ground cover within 6 months of the commencement of the earthworks; (vii) Sediment resulting from the earthworks is retained on the site through implementation and maintenance of erosion and sediment controls; (viii) Does not divert or change the nature of natural water flows, water bodies or established drainage paths; and (ix) Do not result in the site being unable to be serviced by gravity sewers.</i> <u>P2</u> <i>Earthworks for the purpose of creating a building platform within a site using imported fill material.</i> <u>P23</u> <i>(a) Earthworks for purposes other than creating a building platform within a site, using imported fill material (excluding cleanfill) must meet all of the following conditions. The importation of fill material to a site must meet all of the following conditions, in addition to the conditions in P1. (i) Must not exceed a total volume of 500m³ per site and a depth of 1m; (ii) Is fit for compaction;</i>		

(iii) The slope height of the resulting batter face-filled area in stable ground does ~~not~~ must not exceed ~~4.5m~~ with a maximum slope of 1:2 (1m vertical to 2m horizontal);
 (iv) Fill material is setback at least 1.5m from all boundaries;
 (v) ~~Does not restrict the ability for land to drain;~~
 (vi) ~~Is not located within 3m of a property boundary, with the exception of the following:~~
 A. Landscaping bunds;
 (b) ~~Where a retaining wall exists, the fill is placed to the same level as the retaining wall;~~
 (v) Areas exposed by filling are revegetated to achieve 80% ground cover within 6 months of the commencement of the earthworks;
 (vi) Sediment resulting from the filling is retained on the site through implementation and maintenance of erosion and sediment controls;
 (vii) Do not divert or change the nature of natural water flows, water bodies or established drainage paths.
 RD 1
 (a) Earthworks that do not comply with Rule 25.2.4.1 P1 or P2;
 (b) Council's discretion is restricted to the following matters:
 (i) Amenity values and landscape effects;
 (ii) Volume, extent and depth of earthworks;
 (iii) Nature of fill material;
 (iv) Contamination of fill material;
 (v) Location of the earthworks to waterways, significant indigenous vegetation and habitat;
 (vi) Compaction of the fill material;
 (vii) Volume and depth of fill material;
 (viii) Protection of the Hauraki Gulf Catchment Area;
 (ix) Geotechnical stability;
 (x) Flood risk, including natural water flows and established drainage paths
 (xi) Land instability, erosion and sedimentation;
 (xii) Proximity to underground services and service connections.
 NCL
 Importation of cleanfill to a site

Decision Reasons:

- This rule appears to be different from other zone chapter rules. The additional words are required to provide clarity and consistency with the other zones, reflecting activities that occur in the reserves zone. Also enabling the importation of fill for a building platform as a permitted activity.

Submitter Number:

986

Submitter:

Pam Butler

On behalf of:

KiwiRail Holdings Limited (KiwiRail)

Point Number

986.103

Plan chapter

Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.4 Earthworks > 25.2.4.1 Earthworks - General

Summary of Decision Requested

Amend Rule 25.2.4.1 P1(a) Earthworks General as follows (or similar amendments to achieve the requested relief):

(i) Be located more than 1.5m from infrastructure, including a public sewer, open drain, overland flow path or other service pipe

AND

Any consequential amendments to link and/or accommodate the requested changes.

Decision Reasons:

- KiwiRail supports that earthworks are required to be setback from services and network systems. The rail track itself is most susceptible from adverse effects if adjacent earthworks are not adequately set back. KiwiRail seeks that rule relating to setbacks in certain zones should be amended to reflect that there should be an earthworks setback of 1.5m from infrastructure, to ensure that the efficient and effective operation of the existing network is maintained.

Point Number

986.115

Plan chapter

Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.4 Earthworks > 25.2.4.1 Earthworks - General

Summary of Decision Requested

Amend Rule 25.2.4.1 P1(a)(iv) Earthworks general as follows (or similar amendments to achieve the requested relief):

(iv) Areas exposed by the earthworks are stabilized to avoid runoff within 1 month of the cessation-re-vegetated to achieve

80% ground cover 6 months of the commencement of the earthworks

AND

Any consequential amendments to link and/or accommodate the requested changes

Decision Reasons:

- KiwiRail also seeks that the rule relating to revegetation in certain zones be amended to include other available methods to stabilise the ground to prevent runoff, including building or hard cover development. As notified, these rules are ambiguous.

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.4 Earthworks > 25.2.4.2 Earthworks - Maori Sites and Maori Areas of Significance

Plan chapter

Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.4 Earthworks > 25.2.4.2 Earthworks - Maori Sites and Maori Areas of Significance

Summary of Decision Requested

Retain Rule 25.2.4.2 RD1 Earthworks – Maori Sites and Maori Areas of Significance, except for the amendments sought below.

AND

Amend Rule 25.2.4.2 RD1 Earthworks – Maori Sites and Maori Areas of Significance as follows:

(a) Earthworks ancillary earthworks and rural ancillary earthworks within a Maori site of Significance as identified in Schedule 30.3 (Maori sites of Significance) and shown on the planning maps.

(b) Council's discretion is restricted to the following matters:

(i) Nature, design, extent and location of activity in relation to the site;

(ii) Effects of the proposal on heritage and cultural values

(iii) The purpose and necessity for the works and any alternatives considered.

Decision Reasons:

- Submitter considers that the matters of discretion are not of sufficient breadth to understand the nature of the impacts on the Maori Areas of significance of any proposed earthworks.

Point Number	559.32
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.4 Earthworks > 25.2.4.2 Earthworks - Maaori Sites and Maaori Areas of Significance
Summary of Decision Requested	<p>Retain Rule 25.2.4.2 RD2 Earthworks – Maaori Sites and Maaori Areas of Significance, except for the amendments sought below.</p> <p>AND</p> <p>Amend Rule 25.2.4.2 RD2 Earthworks – Maaori Sites and Maaori Areas of Significance as follows:</p> <p>(a) <u>Earthworks, ancillary earthworks and rural ancillary earthworks within a Maaori area of Significance as identified in Schedule 30.4 (Maaori area of Significance) and shown on the planning maps.</u></p> <p>(b) Council's discretion is restricted to the following matters:</p> <p>(i) <u>Nature, design, extent and location of activity in relation to the site;</u></p> <p>(ii) <u>Effects of the proposal on heritage and cultural values</u></p> <p>(iii) <u>The purpose and necessity for the works and any alternatives considered.</u></p>
Decision Reasons:	<ul style="list-style-type: none"> • Submitter considers that the matters of discretion are not of sufficient breadth to understand the nature of the impacts on the Maaori Areas of significance of any proposed earthworks. • The submitter is also concerned that works covered under the definition of ancillary earthworks and rural ancillary earthworks could occur as a permitted activity within these sites. • Considers that these other types of earthworks should also be assessed for their suitability to occur within these sites and the effect that they will have on heritage values.

Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.5 Hazardous substances

Summary of Decision Requested

Amend Rule 25.2.5 Hazardous substances, as follows:

P1

(a) The use, storage or disposal of any hazardous substance ~~where must meet the following condition:~~

(i) The aggregate quantity of hazardous substances of any hazard classification on a site is less than the quantity specified for the Business Zone in Table 5.1 ~~contained within Appendix 5 (Hazardous Substances)~~

~~(b) The storage or use of radioactive materials is:~~

~~(i) in approved equipment for medical and diagnostic purposes; or~~

~~(ii) specified as an exempt activity or article in the Radiation Safety Act and Regulations 2017.~~

P2

(a) The storage or use of radioactive materials is:

(i) in approved equipment for medical and diagnostic purposes; or

(ii) specified as an exempt activity or article in the Radiation Safety Act and Regulations 2017.

D1

Any activity that does not comply with Rule 25.2.5 P1 ~~or P2~~

Decision Reasons:

- Alignment with the hazardous substances rules in other zones.

Point Number

697.1032

Plan chapter

Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.5 Hazardous substances

Summary of Decision Requested

Add new Rule 25.2.5 NC1 Hazardous substances, as follows:

NCL

The storage of fuel for retail sale within a service station.

Decision Reasons:

- Include a non-complying rule for service stations to align with other chapters.

Point Number

697.1033

Plan chapter

Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.5 Hazardous substances

Summary of Decision Requested

Add new Rule 25.2.5 NC2 Hazardous substances, as follows:

NC2 Any new hazardous facility that involves the storage and handling of hazardous substances with explosive or flammable intrinsic properties within 12m of the centre line of a National Grid Transmission Line

Decision Reasons:

- Replicate the hazardous facilities rule within the National Grid from Chapter 14 (where it is relevant to the Reserve Zone) into Chapter 25 for increased clarity and usability of the Plan.

Point Number

785.5

Plan chapter

Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.5 Hazardous substances

Summary of Decision Requested

Delete Rule 25.2.5 – Hazardous Substances.

AND

Any consequential amendments or further relief to give effect to the submission.

Decision Reasons:

- The proposed provisions are opposed and the submitter seeks the deletion of all proposed hazardous substances controls relating to storage, use, disposal or transportation of hazardous substances at service station sites (as broadly defined) or refuelling sites.
- The submitter also supports the deletion of all rules pertaining to control hazardous substances where such controls are inappropriate, unnecessary, ineffective, inefficient and unable to be justified via a Section 32 analysis.
- These rules are all designed to address risk associated with hazardous substances. Risk is appropriately managed via other legislation and the Section 32 Report fails to identify why additional controls are required.
- The Resource Legislation Amendment Act 2017 removed the explicit function of district and regional councils to control adverse effects of the storage, use, disposal, or transportation of hazardous substances under sections 30 and 31 of the Resource Management Act 1991 (RMA).
- The changes came into effect on 19 April 2017 and are intended to ensure councils only place controls on hazardous substances where necessary to control effects under the RMA that are not covered by Hazardous Substance New Organisms Act 1996 or Health and Safety At Work Act 2015.
- The purpose of the Hazardous Substances New Organisms Act is to protect the environment, and the health and safety of people and communities, by preventing or managing the adverse effects of hazardous substances and new organisms. The Hazardous Substances New Organisms Act covers a range of matters including:
 - a. site and building requirements for where a hazardous substance may be used, including requirements for storage and primarily requiring primary and secondary containment;
 - b. the safe transportation of hazardous substances;
 - c. emergency management requirements in relation to the substance in the event of a spill or other emergency; and
 - d. how the substance may be disposed of.

- The Health and Safety At Work Act 2015 provides a framework to secure the health and safety of works and workplaces and integrates the regulation of workplace use of hazardous substances.
- The Resource Legislation Amendment Act 2017 followed the decision of the Independent Hearing Panel on the Christchurch Replacement District Plan. That decision was to reject Christchurch City Council's hazardous substance controls (which were based on an activity status table (AST) approach and to only retain controls relating to hazardous substances in close proximity to the National Grid.
- The Ministry for the Environment considers that in most cases the Hazardous Substances New Organisms Act and the Health and Safety At Work Act 2015 controls will be adequate to avoid, remedy or mitigate adverse environmental effects of hazardous substances and that RMA controls may be used if existing HSNO or Work safe controls are not adequate to address the environmental effects of hazardous substances in any particularly case. The submitter strongly supports the Ministry for the Environment's position in this regard.
- The submitter seeks that any proposed controls around hazardous substances do not duplicate those controls addressed under other legislation. Any duplication is considered unnecessary and inefficient.
- The section 32 report for Hazardous Substances acknowledges the removal of Council's functions in regards to hazardous substances and recognizes the "Resource Management Plans should not be in conflict with HSNO requirements and should not repeat them".
- The report further recognizes that "rationale for a higher level of protection through additional land use controls under the Act may be appropriate for substances both controlled by the Hazardous Substances New Organisms Act or for issues which are not within the scope of the Hazardous Substances New Organisms Act, such as reverse sensitivity".
- However there is a significant disconnect between the overview and purpose sections of the Section 32 Report and the regulatory provisions in the Proposed District Plan.
- As an example, in regard to service stations the Section 32 Report concludes that, "the controlled activity status has been assigned to the storage and retail sale of fuel within service stations above a certain level in some zones to recognize that these substances are well managed through standards and industry practice. However, above these thresholds, the opportunity to consider potential adverse effects on the surrounding environment is considered.
- No rational/analysis is provided within the section 32 report to justify why specific volume thresholds apply to service stations or why the opportunity to consider potential adverse effects on the surrounding environment is considered reasonable if quantities are above those limits.
- The Section 32 Report does not provide analysis to justify why hazardous substances associated with service stations are only addressed in certain zones and in what way the Council considers the Hazardous Substances New Organisms Act to not adequately control potential adverse effects associated with hazardous substances at service station - for example, why the Council considers site design, layout and monitoring and reporting of incidents are matters that the Council should reserve control over.
- In light of the Resource Legislation Amendment Act 2017 and controls under other legislation and the lack of rationale/analysis within the Section 32 Report for hazardous substances, it is considered the proposed hazardous substance controls are largely unnecessary and should therefore be deleted.

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.6 Notable trees > 25.2.6.1 Notable tree - Removal or destruction

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.1034		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.6 Notable trees > 25.2.6.1 Notable tree - Removal or destruction		
Summary of Decision Requested	<p>Amend Rule 25.2.6.1 Notable Trees, as follows:</p> <p><i>PI</i> Removal or destruction of a notable tree identified in Schedule 30.2 (Notable Trees) where certification is provided to Council by a works arborist that states that the tree is dead, dying, diseased or is unsafe <u>in accordance with Appendix 11 Tree Removal Certificate.</u> RD1 (a) Removal or destruction of a notable tree identified in Schedule 30.2 (Notable Trees) that does not comply with Rule 25.2.6.1 P1. (b) <u>The Council's discretion is restricted to the following matters:</u> (i) <u>Timing and manner in which the activity is carried out;</u> (ii) <u>Effects on amenity values;</u> (iii) <u>Effects on heritage values.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Amend to be consistent with the equivalent rule in other chapters. 		

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.6 Notable trees > 25.2.6.2 Notable tree - Trimming

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.1035		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.6 Notable trees > 25.2.6.2 Notable tree - Trimming		
Summary of Decision Requested	<p>Amend Rule 25.2.6.2 RD1 Notable Tree - trimming, as follows:</p> <p>(a) The trimming of a notable tree that does not comply with a condition in Rule 25.2.6.2 P1. (b) The Council's discretion is limited to the following matters: (i) Timing and manner in which the activity is carried out and by whom;</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Amend to be consistent with the equivalent rules in other chapters. 		
Point Number	697.476		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.6 Notable trees > 25.2.6.2 Notable tree - Trimming		
Summary of Decision Requested	<p>Amend Rule 25.2.6.2 P1(a)(ii) Notable tree - trimming, to consider whether 10% removal of foliage as a permitted activity condition is the most appropriate measure, and the most appropriate percentage.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Consider whether 10% removal of foliage as a permitted activity is the most appropriate measure. The rule stipulates 10%, but this is relatively restrictive and somewhat subjective in terms of how this is measured (i.e. is it a count of all branches and leaves). The Operative District Plan: Waikato Section rules allowed for 15%. 		

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.6 Notable trees > 25.2.6.3 Notable tree - Activities within the dripline

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.1036		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.6 Notable trees > 25.6.3 Notable tree - Activities within the dripline		
Summary of Decision Requested	<p>Amend Rule 25.2.6.3 P1 Notable tree-activities within the dripline as follows;</p> <p>(a) Any activity within the dripline of a notable tree identified in Schedule 30.2 (Notable Trees) must not:</p> <p>(i) Involve excavation, compaction, sealing or soil disturbance and/or placement of fill material <u>or</u> cleanfill, except for the sealing of an existing road or footpath; RD1</p> <p>(a) Any activity within the dripline of a notable tree that does not comply with one or more conditions in Rule 25.2.6.3 P1.</p>		
Decision Reasons:	Amend to be consistent with the equivalent rules in other chapters.		

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.7 Signs

Submitter Number:	194	Submitter:	Neil Barker
Organisation:	Ngaruawahia Golf Club Inc		
Point Number	194.4		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.7 Signs		
Summary of Decision Requested	<p>Amend Rule 25.2.7 Signs to provide for signage on sites with road frontage over 500 metres at a ratio of one non-illuminated sign per 150 metres of road frontage as a controlled activity, with a maximum sign area of 3m2 (or similar wording).</p>		
Decision Reasons:	<ul style="list-style-type: none"> The site has almost 1000 meters of road frontage to this former state highway. The submitter does not seek to swamp the boundary with signage, but see increased flexibility to put more signage up and generate a small amount of revenue to pay for this community asset. They key concern for all Club members when discussing signage is they do not want to see the natural amenity of the area degraded by advertising, because the members value this natural setting too. While two or more signs would be deemed a Restricted Discretionary Activity, this is overly onerous and provision should be made so that the number of signs on a site is dependent on the length of road frontage. 		

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.7 Signs > 25.2.7.1 Signs - General

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.1037		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.7 Signs > 25.2.7.1 Signs - General		
Summary of Decision Requested	<p>Amend Rule 25.2.7.1 P2(a)(viii) Signs - general, as follows:</p> <p>(viii) The sign is for the purpose of identification and interpretation not attached to of a Maaori site of significance listed in Schedule 30.3 (Maaori Sites of Significance) except for the purpose of identification and interpretation;</p>		
Decision Reasons:	<ul style="list-style-type: none"> Re-wording this rule provides clarity. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.158		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.7 Signs > 25.2.7.1 Signs - General		
Summary of Decision Requested	<p>Retain Rule 25.2.7.1 P1 Signs - General, as notified.</p> <p>AND</p> <p>Retain Rule 25.2.7.1 RD1 Signs - General, as notified.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Rule 25.2.7.1 P1 as it allows the Transport Agency to erect signage as a permitted activity. The submitter supports the matters of discretion under RD1, particularly (b)(iii), (b)(iv) and (b)(v), although no reasons have been provided. 		
Point Number	742.159		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.7 Signs > 25.2.7.1 Signs - General		
Summary of Decision Requested	<p>Retain Rule 25.2.7.1 P2 Signs - General, as notified.</p>		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.7 Signs > 25.2.7.2 Signs - Effects on Traffic

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.160		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.7 Signs > 25.2.7.2 Signs - Effects on Traffic		
Summary of Decision Requested	<p>Retain Rule 25.2.7.2 P1 Signs- Effects on Traffic, except for the amendments sought below</p> <p>AND</p> <p>Amend Rule 25.2.7.2 P1 (iv) Signs - Effects on Traffic as follows:</p> <p><i>Contain no more than 40 characters and no more than 6 <u>words, symbols or graphics.</u></i></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of Rule 25.2.7.2 P1 but seeks amendment to provide clarification on the maximum amount of words permitted. This will ensure that signage erected does not cause unnecessary visual clutter or affect the efficient, safe and effective functioning of the transport network. 		
Point Number	742.161		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.7 Signs > 25.2.7.2 Signs - Effects on Traffic		
Summary of Decision Requested	Retain Rule 25.2.7.2 D1 Signs - Effects on Traffic, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Council having full discretion over signs that do not comply with permitted activity standards. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.122		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.7 Signs > 25.2.7.2 Signs - Effects on Traffic		
Summary of Decision Requested	<p>Amend Rule 25.2.7.2 P1 Signs – Effects on traffic as follows (or similar amendments to achieve the requested relief):</p> <p>(a)Any sign directed at road land transport users must:</p> <p>...</p> <p>(iii)Not obstruct sight lines of drivers turning into or out of a site entrance and intersections or at a level crossing;</p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Signs erected in the City should not have an adverse effect on the safe and efficient functioning of the land transport network, including railways, and the health and safety of road users. Traffic on the railway network will grow, and with more trains the issue of minimizing driver distraction is important to ensure the efficient running of the land transport network. Further, signs should be restricted where they breach the level crossing sightline areas developed from the NZTA Traffic Control Devices Manual 2008, Part 9 Level Crossings as sought in KiwiRail submission 67. It is appropriate to restrict and prevent the placement of signs within required sight lines for vehicles access and intersections, and within the sight lines required for rail crossings. 		

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.8 Indigenous vegetation clearance in a Significant Natural Area

Submitter Number:	585	Submitter:	Lucy Roberts
Organisation:	Department of Conservation		
Point Number	585.22		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.8 Indigenous vegetation clearance in a Significant Natural Area		
Summary of Decision Requested	<p>Amend Rule 25.2.8 Indigenous vegetation clearance inside a Significant Natural Area as follows:</p> <ul style="list-style-type: none"> Include a maximum vegetation clearance permitted activity rule for all purposes; and Include a minimum setback distance from water bodies for all purposes; and Change P2 to a maximum area of clearance rather than a maximum volume; and Any other relevant amendments. 		
Decision Reasons:	<ul style="list-style-type: none"> The current rules for vegetation clearance within Significant Natural Areas fails to adequately protect or manage biodiversity values present in these areas. It is important to appropriately manage indigenous vegetation clearance to prevent further fragmentation and loss in the Waikato District. P2 describes a maximum volume of manuka and kanuka that may be removed per 12 months outside of the coastal environment. A volume of timber is dependent on the size of trees and their density where 5m3 may be clearance of an area of a few 5m2, where a few large trees have been harvested. An area limit is more suitable to ensure consistency of removal. 		
Point Number	585.50		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.8 Indigenous vegetation clearance in a Significant Natural Area		
Summary of Decision Requested	Retain Rule 25.2.8 D1 Indigenous vegetation clearance inside a Significant Natural Area, in particular, retain the cascade to discretionary activity upon non-compliance		

with the permitted activity standards.

Decision Reasons:

- The Director-General supports vegetation clearance outside permitted activity standards becoming a discretionary activity.

Raglan Naturally

Point Number

831.63

Plan chapter

Section C Rules > Chapter 25: Reserve Zone > 25.2 Land Use Effects > 25.2.8 Indigenous vegetation clearance in a Significant Natural Area

Summary of Decision Requested

Delete Rule 25.2.8 Indigenous vegetation clearance in a Significant Natural Area

AND

Add provisions that will increase natural habitats.

Decision Reasons:

- The submitter supports bush regeneration, such as that at Wainui Bush Reserve.
- The Proposed District Plan makes no attempt to indicate how much bush has been lost, or will be lost by these and other provisions in the Proposed District Plan.
- Screening with trees should be applied to improve and protect views from Raglan and its beaches.
- Much of the attraction of Raglan derives from its beaches and the north shore of the harbour having rural aspects.
- New subdivisions could diminish that attraction and an active policy of tree planting to establish belts of trees screening those views would help to protect the rural image.
- Alternatively, the Proposed District Plan could ban development which would detract from those views.

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building

Submitter Number:

697

Submitter:

Waikato District Council

Point Number

697.405

Plan chapter

Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building

Summary of Decision Requested

Amend Rule 25.3.5 Land Use - Building, as follows:

(3) Rule 25.3.5.3 Buildings and structures within the National Grid Yard.

AND

Add the following in Rule 25.3.5 Building setbacks:

(3) Rule 25.3.5.3 Buildings and structures within the National Grid Yard.

AND

Add a new rule after Rule 25.3.5.2 as follows:

25.3.5.3 Buildings and structures within the National Grid Yard.

PI.

(g) Within the National Grid yard, building alterations and additions to an existing building or structure must comply with the following conditions:

(i) Not involve an increase in the building height or footprint;

(ii) Comply with the New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663 under all National Grid transmission line operating conditions.

P2.

(g) Within the National Grid yard, the maximum height of fences are 2.5m within 5m from the nearest National Grid Pole or 6m from the nearest National Grid tower.

P2.

Within the National Grid yard, new buildings and structures that are not for a sensitive land use must comply with the following conditions:

(i) Comply with the New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663 under all National Grid transmission line operating conditions.

(ii) Locate a minimum 12m from the outer visible foundation of any National Grid tower and locate a minimum 12m from any pole and associated stay wire, unless it is:

A. A building or structure where Transpower has given written approval in accordance with clause 7.4.1 of the New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663.

NC1.

Any building alterations or additions within the National Grid Yard that does not comply with Rule 25.3.5.3 P1.

NC2.

Any new buildings or structures within the National Grid Yard that does not comply with Rule 25.3.5.3 P2 or P3.

Decision Reasons:

Replicate the rule regarding buildings and structure within the National Grid from Chapter 14 into Chapter 25 (where this is relevant to the Reserve Zone) for increased clarity and usability of the Plan.

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.1 Height > 25.3.1.1 Height - Building general

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.407		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.1 Height > 25.3.1.1 Height - Building general		
Summary of Decision Requested	Amend Rule 25.3.1.1 P1(b) Height - Building general, as follows: (b) Any building must not exceed a maximum height of 5m in any of the following landscape and natural character areas:		
Decision Reasons:	<ul style="list-style-type: none">The additional wording provides clarity to the rule.		
Point Number	697.408		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.1 Height > 25.3.1.1 Height - Building general		
Summary of Decision Requested	Amend Rule 25.3.1.1 P2 (b) Height - Building general, as follows: (b) Any floodlight must not exceed a maximum height of 5m in any of the following landscape and natural character areas:		
Decision Reasons:	<ul style="list-style-type: none">The additional wording provides clarity to the rule.		

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.1 Height > 25.3.1.2 Height - Buildings, structures and vegetation within an airport obstacle limitation surface

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.409		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.1 Height > 25.3.1.2 Height - Buildings, structures and vegetation within an airport obstacle limitation surface		
Summary of Decision Requested	Amend Rule 25.3.1.2 Height - Building, structures, vegetation, and objects within an airport obstacle limitation surface, as follows: PI Any building, structure or vegetation must not protrude through any the airport obstacle limitation surface identified on the planning maps and in Appendix 9 – Te Kowhai Airfield, and defined in Section E Designation N Waikato Regional Airport. NC1 Any building, structure or vegetation that does not comply with Rule 25.3.1.2 P1.		
Decision Reasons:	<ul style="list-style-type: none">Consistency with the equivalent rule in other chapters.		

Submitter Number:	823	Submitter:	NZTE Operations Limited
Point Number	823.13		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.1 Height > 25.3.1.2 Height - Buildings, structures and vegetation within an airport obstacle limitation surface		
Summary of Decision Requested	Amend Rule 25.3.1.2 – Height - Buildings, structures and vegetation within an airport obstacle limitation surface, as follows: PI Any building, structure, tree or other vegetation must not protrude through any Airport Obstacle Limitation Surfaces as identified in Appendix 9 – Te Kowhai Airfield and defined in Section E, Designation N - Waikato Regional Airport. NC1 Any building, structure, tree or other vegetation that does not comply with Rule 25.3.1.2 P1. AND Amend the Proposed District Plan for any consequential relief required to give effect to this submission.		
Decision Reasons:	<ul style="list-style-type: none">The OLS (as notified) is necessary to ensure compliance with Civil Aviation Circular AC139-7 Aerodrome Standards and Requirements for Code I aerodromes operating on a VFR and an IFR (non-air transport) basis. The extent of the OLS is described in Chapter 29 – Appendix 9.Rules are also provided in the PWDP to protect the OLS from being breached by buildings, structures and vegetation.		

- Although Rule 27.3.1 as notified correctly protects the proposed OLS from buildings, structures, trees and other vegetation, the corresponding height rules in other zones omits reference to 'trees'.
- It is critical that there is consistency amongst OLS provisions and that the provisions control 'trees' as well as buildings, structures and other vegetation.
- It is proposed that the relevant rules in each chapter are amended to align with the (correct) wording in Chapter 27, Rule 27.3.1.

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.2 Daylight admission

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.410		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.2 Daylight admission		
Summary of Decision Requested	<p>Amend Rule 25.3.2 Daylight admission, as follows:</p> <p><i>PI</i> Any building must not protrude through a height control plane rising at an angle of 37 degrees commencing at an elevation of 2.5m above ground level at every point of the boundary.</p> <p><i>RD1</i> (a) Any building that does not comply with Rule 25.3.2 P1. (b) Council's discretion is restricted to the following matters: (i) Height of the building; (ii) Design and location of the building; (iii) Admission of daylight and sunlight to the site and other sites; (iv) Extent Level of shading on adjacent any other sites; (v) Privacy of an other sites; (v) Amenity values of the locality.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Consistency with the equivalent rule in other chapters. 		

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.3 Building coverage

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.411		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.3 Building coverage		
Summary of Decision Requested	<p>Amend Rule 25.3.3 Building coverage, as follows:</p> <p><i>PI</i> Total building coverage must not exceed 5% of the site</p> <p><i>D1</i> A building coverage that does not comply with Rule 25.3.3 P1</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Increased clarity of the rule. 		

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.5 Building Setbacks

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.406		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.5 Building Setbacks		
Summary of Decision Requested	<p>Add to Rule 25.3.5 Building Setbacks, as follows:</p> <p><i>(4) Rule 25.3.5.4 Building setback – Sensitive landuses.</i></p> <p>AND</p> <p>Add after new Rule 25.3.5.3:</p> <p><i>25.3.5.4 Sensitive land uses.</i></p> <p><i>P1</i> (a) Any building for a sensitive land use must be set back a minimum of: (i) 10m from the centre line of any electrical distribution or transmission lines, not associated with the National Grid, that operate at a voltage of up to 110kV; (ii) 12m from the centre of line of any electrical distribution or transmission lines, not associated with the National Grid, that operate at a voltage of 110kV or more.</p> <p><i>P2</i> (a) Within the National Grid yard, alterations or additions to a building used for an existing sensitive land use must comply with all the following conditions: (i) Not increase the building height or footprint; and (ii) Comply with the New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663 under all National Grid transmission line operating conditions; and (iii) Locate a minimum 12m from the outer visible foundation of any National Grid tower and locate a minimum 12m from any pole and associated stay wire, unless Transpower has given written approval in accordance with clause 2.4.1 of the New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663.</p> <p><i>D1</i> Any building for a sensitive land use that does not comply with Rule 25.3.5.4 P1.</p> <p><i>NC1</i> Any activity within the National Grid Yard that does not comply with Rule 25.3.5.4 P2.</p> <p><i>NC2</i> Any new building for a sensitive land use within the National Grid Yard.</p> <p><i>NC3</i> Any change of use of an existing building to a sensitive land use within the National Grid Yard.</p> <p><i>NC4</i> The establishment of any new sensitive land use within the National Grid Yard.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Replicate the rule regarding sensitive landuses from Chapter 14 into Chapter 25 (where this is relevant to the Reserve Zone) for increased clarity and usability of the Plan. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.61		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.5 Building Setbacks		
Summary of Decision Requested	<p>Add a new rule to Rule 25.3.5 Building setbacks as follows (or similar amendments to achieve the requested relief):</p> <p><u>Building setback - railway corridor</u></p> <p><u>(g) any new buildings or alterations to an existing building must be setback 5 metres from any designated railway corridor boundary.</u></p> <p>AND</p> <p><u>Any consequential amendments to link and/or accommodate the requested changes.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • KiwiRail seeks that a 5 metre setback apply to all new building development adjacent to operational railway corridor boundaries (i.e. not just sensitive land uses). • Ensuring all new structures in all zones are set back from the rail corridor allows access and maintenance to occur without the landowner or occupier needing to gain access to the rail corridor- potentially compromising their own safety. For these safety reasons setting back buildings from the rail corridor boundary is a means of ensuring people's health and wellbeing through good design. • Construction of buildings in close proximity to the rail corridor has significant safety risk if it is not managed appropriately in accordance with relevant standards. • A 5m setback allows for vehicular access to the backs of buildings (e.g. a cherry picker) and would also allow scaffolding to be erected safely. This in turn fosters visual amenity as lineside properties can then be regularly maintained. A setback is the most efficient method of ensuring intensification does not result in additional safety issues for activities adjacent to the rail corridor, whilst not restricting the ongoing operation and growth of activity within the rail corridor. • The proposed provisions would require any development within the setback to obtain consent with matters of discretion relating to: <ul style="list-style-type: none"> (i) location, design and use of the proposed building or structure as it relates to the rail network (ii) impacts on the safe operation, maintenance and development of the rail network (iii) construction and maintenance management 		

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.5 Building Setbacks > 25.3.5.1 Building setbacks - General

Point Number	742.162		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.5 Building Setbacks > 25.3.5.1 Building setbacks - General		
Summary of Decision Requested	Retain Rule 25.3.5.1 PI Building setbacks - General as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter considers the proposed building setbacks in Rule 25.3.5.1 PI are appropriate. 		

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.5 Building Setbacks > 25.3.5.2 Building setbacks - Waterbodies

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.54		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.5 Building Setbacks > 25.3.5.2 Building setbacks - Waterbodies		
Summary of Decision Requested	<p>Amend Rule 25.3.4.2 PI (a) Building setback - Waterbodies as follows:</p> <p><u>(a) Any building must be setback a minimum of: 32 from:</u></p> <p><u>(i) the margin of any lake over 4ha with a bed of 8ha or more</u></p> <p>AND</p> <p>Amend Rule 25.3.5.2 Building setback- Waterbodies to require the following setback for managed wetland to match the amendments sought for other zones:</p> <p><u>(v) 10m from a managed wetland</u></p> <p>AND</p> <p>Any consequential amendments.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • A wetland as defined under the RMA is broad reaching and covers many features. • Having a nominal setback applied to such a wide variation of water features is inappropriate and introduces significant inefficiencies which is contrary to Part 2 of the RMA and the sustainable management of natural and physical resources. • A lake can constitute a large array of waterbodies and therefore a starting point of 4ha should be used before the setback applies. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.412		
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.5 Building Setbacks > 25.3.5.2 Building setbacks - Waterbodies		
Summary of Decision Requested	<p>Amend Rule 25.3.5.2 Building setbacks - Waterbodies, as follows:</p> <p><u>(a) Any building must be set back a minimum of 32 26m from:</u></p> <p><u>(i) The margin of any lake with a bed area of 8ha or more;</u></p> <p><u>(ii) The bank of any river where the river bed has an average width of 3m or more;</u></p> <p><u>(iii) Any wetland with an area greater than 1ha.</u></p> <p><u>(b) Any building must be set back a minimum of 37 31m from the banks of the Waikato River and the Waipoa River.</u></p>		

(c) Any building must be set back a minimum of:
(i) ~~22-26m~~ from mean high water springs

Decision Reasons:	<ul style="list-style-type: none">Amend the rule so that the setback represents 25m esplanade reserve plus the yard setback for the Waikato and Waipa Rivers, and 20m esplanade plus the yard setback for all other waterbodies.
Point Number	697.470
Plan chapter	Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.5 Building Setbacks > 25.3.5.2 Building setbacks - Waterbodies
Summary of Decision Requested	Amend Rule 25.3.5.2 Building setback - Waterbodies, to be consistent in terms of the terminology of structures across all zone chapters.
Decision Reasons:	<ul style="list-style-type: none">Consistency with the equivalent rule in other chapters.

Point Number 697.418

Plan chapter Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.6 Heritage Items > 25.3.6.4 All heritage items – Maintenance and repair

Summary of Decision Requested **Amend** Rule 25.3.6.4 RD1 (a) All heritage items - maintenance and repair, as follows:
~~Any activity Maintenance or repair that does not comply with a condition of Rule 25.3.6.4 PI.~~

Decision Reasons:

- Consistency across zone chapters.

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.6 Heritage Items > 25.3.6.5 All heritage items – All site development

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.419

Plan chapter Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.6 Heritage Items > 25.3.6.5 All heritage items – All site development

Summary of Decision Requested **Amend** Rule 25.3.6.5 PI (a) All heritage items - all site development, as follows:
 (a) Development on a site containing a heritage item listed in Schedule 30.1 (Heritage Items) must comply with the following conditions:
 (i) Be set back at least 10m from the heritage item; and
 (ii) Not locate a building between the front of the heritage item and the road.

Decision Reasons:

- Additional words in this rule provide clarity.

Point Number 697.420

Plan chapter Section C Rules > Chapter 25: Reserve Zone > 25.3 Land Use – Building > 25.3.6 Heritage Items > 25.3.6.5 All heritage items – All site development

Summary of Decision Requested **Amend** Rule 25.3.6.5 RD1 (b)(iv) All heritage items - all site development, as follows:
 (iv) The relationship of the heritage item with the setting including the area between the front of the heritage item and the road.

Decision Reasons:

- Additional words in this rule provide clarity.

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.4. Subdivision

Submitter Number: 405 **Submitter:** Counties Power Limited

Point Number 405.85

Plan chapter Section C Rules > Chapter 25: Reserve Zone > 25.4. Subdivision

Summary of Decision Requested **Add** the following to Rule 25.4 (a) D1 Subdivision:
The subdivision layout and design in regard to how this may impact on the operation, maintenance, upgrading and development of existing infrastructure assets;

Decision Reasons:

- To prevent assets becoming landlocked.
- Similar to Transpower rules

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.421

Plan chapter Section C Rules > Chapter 25: Reserve Zone > 25.4. Subdivision

Summary of Decision Requested **Amend** Rule 25.4 Subdivision heading, as follows:
 25.4 Subdivision Rules

Decision Reasons:

- Additional words "rules" provide clarity.

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.5 Specific Area - Tamahere Park and Tamahere Village Green > 25.5.2 Land Use - Effects > 25.5.2.1 Signs – Tamahere Village Green

Submitter Number: 742 **Submitter:** Kim Harris-Cottle

Organisation: New Zealand Transport Agency

Point Number 742.163

Plan chapter Section C Rules > Chapter 25: Reserve Zone > 25.5 Specific Area - Tamahere Park and Tamahere Village Green > 25.5.2 Land Use - Effects > 25.5.2.1 Signs – Tamahere Village Green

Summary of Decision Requested **Retain** Rule 25.5.2.1 P1 Signs- Tamahere Village Green, except for the amendments sought below

AND

Add a new clause to Rule 25.5.2.1 PI (a) Signs - Tamahere Village Green as follows:

(v) one sign per site.

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter supports Rule 25.5.2.1 PI (a) but seeks further permitted activity standards to ensure that only one sign is permitted on-site so adverse effects on traffic safety are not compromised.

Point Number 742.164

Plan chapter Section C Rules > Chapter 25: Reserve Zone > 25.5 Specific Area - Tamahere Park and Tamahere Village Green > 25.5.2 Land Use - Effects > 25.5.2.1 Signs – Tamahere Village Green

Summary of Decision Requested Retain Rule 25.5.2.1 RD1 Signs as notified.

Decision Reasons:

- The submitter supports Council retaining discretion over matters (b)(ii), (b)(iii), (b)(iv) and (b)(v).

Plan chapter: Section C Rules > Chapter 25: Reserve Zone > 25.5 Specific Area - Tamahere Park and Tamahere Village Green > 25.5.3 Land Use – Building > 25.5.3.2 Building – Tamahere Village Green

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.422

Plan chapter Section C Rules > Chapter 25: Reserve Zone > 25.5 Specific Area - Tamahere Park and Tamahere Village Green > 25.5.3 Land Use – Building > 25.5.3.2 Building – Tamahere Village Green

Summary of Decision Requested Amend Rule 25.5.3.2 PI Building - Tamahere Village Green, as follows:

(a) Any building in the Tamahere Village Green must comply with the following conditions:
(i) Total building coverage must not exceed 170m²;
(ii) Height must not exceed 6m.
~~(b) Rule 25.2.1.1 (Height Building General) does not apply.~~

Decision Reasons:

- Reduce duplication.

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone

Submitter Number: 657 **Submitter:** Hampton Downs Motorsport Park

Point Number 657.35

Plan chapter Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone

Summary of Decision Requested Amend the introduction to Chapter 26 Hampton Downs Sport and Recreation Zone, to clearly identify and describe the five Precinct Areas within the Hampton Downs Motor Sport and Recreation Zone as follows:

(5) The Hampton Downs Motor Sport and Recreation Zone comprises of the following Precinct Areas:

(a) Precinct A – Operational Motorsport Area

(b) Precinct B – Business and Industrial Area

(c) Precinct C – Travellers Accommodation and Motor Sport and Recreation Area

(d) Precinct D – Residential Apartments

(e) Precinct E – Industrial Units

AND

Amend the Introduction to Chapter 26 Hampton Downs Motorsport and Recreation Zone to clearly state that the planning maps show the location and boundaries of each Precinct Area.

AND

Amend the Introduction to Chapter 26 Hampton Downs Motorsport and Recreation Zone to include the following descriptions of each Precinct Area:

- **Precinct A: The operational motorsport area** – including but not limited to the main race tracks, pit garages and associated race control, spectator and support facilities; a convention centre and general hospitality facilities including retail, restaurant, cafe and food premises; vehicle workshops and garaging; corporate show rooms; parking and helipad facilities; and administration facilities;
- **Precinct B: A business/industrial area**, that also contains an existing residential dwelling;
- **Precinct C: Travellers' accommodation and Motor Sport and Recreation Area**, and includes the consented campground, and existing race track and buildings and storage containers required to support motor sport and recreation related activities;
- **Precinct D: Residential Apartments: 80 residential apartments;**
- **Precinct E: Industrial Units 12 Industrial units.**

Decision Reasons:

- To clearly define the Precinct Areas at the start of the zone provisions and refer Plan users to the relevant Planning Maps (showing the location of each Precinct Area).
- Amendments are necessary so that it is clear that the Hampton Downs motor Sport and Recreation Zone comprises of five separate Precinct areas and there are specific provisions or rules that apply to each Precinct.
- Minor amendments to the wording/name of each Precinct Area is necessary to correspond with the land use activities within each Precinct.

Point Number	657.36
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone
Summary of Decision Requested	Add a paragraph to the introduction of Chapter 26 Hampton Downs Motor Sport and Recreation Zone outlining that Hampton Downs Motorsport Park operates under a number of existing resource consents, and the existing resource consents effectively manage the effects within the Motorsport Park.
Decision Reasons:	<ul style="list-style-type: none"> The introduction is lacking essential background information with respect to the existing resource consents. The Hampton Downs Motorsport Park was established (and operates) by way of resource consent and this will continue to manage any effects at the site. It is important that Plan users know that the site has existing resource consents, which contain conditions regarding bulk and location, traffic and noise. The existing resource consent conditions are not being duplicated in the District Plan, but will continue to apply to the site.

Submitter Number:	830	Submitter:	Linda Silvester
Point Number	830.25		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone		
Summary of Decision Requested	Add new provisions to Chapter 26 Hampton Downs Motor Sport and Recreation Zone to include energy efficiency policies and rules (see submission for wording)		
Decision Reasons:	<ul style="list-style-type: none"> The Proposed District Plan only makes passing reference to climate change and says nothing about coal, gas and oil's effect on global warming. It is disappointing that Stage 2 of the Proposed District Plan is to be published in 2019 and that is not possible to consider it in context with this part of the Plan. Section 1.9.5 reflects the Resource Management Act requirements around climate change and renewable energy. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.4		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone		
Summary of Decision Requested	Amend Chapter 26: Hampton Downs Motor Sport and Recreation Zone to add a statement of purpose and anticipated outcomes of corresponding zone or subzone, and where appropriate make links to health and wellbeing considerations.		
Decision Reasons:	<ul style="list-style-type: none"> Currently there are no statements of purpose or descriptions for any of the zones or the intended outcomes to be achieved, leading to a reliance on objectives, policies and explanations within Section B of the Plan, which are based under generic heading topics with little zone based commentary. There is an opportunity to clarify the purpose of a zone and increase understanding of outcomes, and appropriate types of activities for the different environments. The amendments would assist with a clear understanding of the purpose and character of the various zones. 		

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities

Submitter Number:	781	Submitter:	Ministry of Education
Point Number	781.18		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities		
Summary of Decision Requested	<p>Add a restricted discretionary activity rule to Rule 26.1 Land Use - Activities, as follows:</p> <p><u>26.1.3 Restricted Discretionary Activities</u></p> <p><i>(1) The activities listed below are restricted discretionary activities.</i></p> <p><i>(2) Discretion to grant or decline consent and impose conditions is restricted to the matters of discretion set out in the following table:</i></p> <p>Activity</p> <p><u>RD1 Education facilities</u></p> <p>Matters of discretion</p> <p><i>a. The extent to which it is necessary to locate the activity in the Hampton Downs Sport and Recreation Zone (including Precinct B)</i></p> <p><i>b. Reverse sensitivity effects of adjacent activities</i></p> <p><i>c. The extent to which the activity may adversely impact on the transport network</i></p> <p><i>d. The extent to which the activity may adversely impact on the streetscape</i></p> <p><i>e. The extent to which the activity may adversely impact on the noise environment</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Education facilities are not listed in the Hampton Downs Motor Sport and Recreation Zone. Education facilities such as outdoor education centres, sports training establishments and driving schools may need to be located within this zone. The inference is that the submitter requests consistency with their requested definition of 'Education facilities'. Opposes the non-complying status. 		

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.1 Permitted Activities

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
--------------------------	-----	-------------------	-------------------------------

Point Number	657.38
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.1 Permitted Activities
Summary of Decision Requested	<p>Delete the activity specific conditions in Rule 26.1.1.1 P1 and P2 Permitted Activities - Operational Motorsport Area - Precinct A</p> <p>AND</p> <p>Delete the activity specific conditions in Rule 26.1.1.2 P1, P2, P3 and P4 Permitted Activities - Business and Industrial Area - Precinct B</p> <p>AND</p> <p>Delete the activity specific conditions in Rule 26.1.1.3 P1 Permitted Activities - Minor Race Track Area - Precinct C</p> <p>AND</p> <p>Delete the activity specific conditions in Rule 26.1.1.4 P1 Permitted Activities - Residential Apartments - Precinct D</p> <p>AND</p> <p>Delete the activity specific conditions in Rule 26.1.1.5 P1 Permitted Activities - Industrial Units - Precinct E</p>
Decision Reasons:	<ul style="list-style-type: none"> The heading of each of the above rules already identifies the Precinct to which the Rule applies. There is no reason to duplicate the precinct area as an activity specific condition. This is a double up and so the activity specific conditions are of no use at all.

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.1 Permitted Activities > Permitted Activities - Operational Motorsport Area - Precinct A Activity

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.37		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.1 Permitted Activities > Permitted Activities - Operational Motorsport Area - Precinct A Activity		
Summary of Decision Requested	<p>Amend Rule 26.1.1.1(P1) Permitted Activities - Operational Motorsport Area Precinct A Activity as follows:</p> <p><i>(P1) Motor sport and recreation facilities <u>and/or motor sport and recreation activities</u></i></p>		
Decision Reasons:	<ul style="list-style-type: none"> The permitted activity rules for Precinct A (Rule 26.1.1.1 (P1) & (P2) do not provide for a motor sport and recreation activity as a permitted activity within the operational motorsport area. The current wording only provides for the motor sport and recreation facility (P1); or a day to day activity (P2). A motorsport and recreation activity should also clearly be provided for as a permitted activity within Precinct A; and is one of the main reasons for the site specific zoning. The activities and the facilities should both be permitted within the operational motorsport area. 		

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.1 Permitted Activities > Permitted Activities- Business and Industrial Area - Precinct B Activity

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.39		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.1 Permitted Activities > Permitted Activities- Business and Industrial Area - Precinct B Activity		
Summary of Decision Requested	<p>Delete Rule 26.1.1.2 P1, P2 and P3 Permitted Activities - Business and Industrial Area Precinct B Activity in their entirety</p> <p>AND</p> <p>Add a new rule 26.1.1.2 P1 (insert name) as follows:</p> <p><i><u>P1 A business or industrial activity.</u></i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Permitted Activity Rules for Precinct B are unnecessarily complex. Precinct B is an area of approximately 17 hectares that has been consented for business/industrial development. There is also an existing dwelling located within Precinct B. Development of the consented business/industrial area will occur in accordance with the existing resource consent. No need to impose additional rules/controls within this Precinct Area, nor is there any reason to differentiate between 'automotive activities' non-automotive activities' and 'general warehousing' within the Permitted Activity Rules. Provisions include too many definitions (and relate to activities that have already been consented at the site) P1 – P3 for Precinct B should be simplified to comprise a single rule (P1) that provides for 'a Business or Industrial activity' within Precinct B. 		
Point Number	657.40		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.1 Permitted Activities > Permitted Activities- Business and Industrial Area - Precinct B Activity		
Summary of Decision Requested	<p>Retain Rule 26.1.1.2 P4 Permitted Activities - Business and Industrial Area - Precinct B Activity except for the amendments outlined below.</p> <p>AND</p> <p>Amend Rule 26.1.1.2 P4 Permitted Activities - Business and Industrial Area - Precinct B B Activity as follows:</p> <p><i>A residential activity within an existing dwelling, <u>and alterations or additions to the existing dwelling</u></i></p> <p>AND</p> <p>Delete the Activity Specific Condition for Rule 26.1.1.2 P4 Permitted Activities - Business and Industrial Area - Precinct B Activity</p>		

Decision Reasons:	<ul style="list-style-type: none"> • Rule P4 recognises the existing residential activity within Precinct B and should therefore be retained. • To allow for alterations and extensions to the existing dwelling.
--------------------------	---

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.1 Permitted Activities > Permitted Activities- Minor Race Track Area - Precinct C

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.41		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.1 Permitted Activities > Permitted Activities- Minor Race Track Area - Precinct C		
Summary of Decision Requested	Amend the heading in Rule 26.1.1.3 Permitted Activities Minor Race Track Area- Precinct C by replacing "Minor Race Track Area" with " <u>Travellers' Accommodation and Motor Sport and Recreation Area</u> "		
Decision Reasons:	<ul style="list-style-type: none"> • To ensure the District Plan provisions correspond with the existing (and consented) land use activities in this area of the Motorsport Park. 		
Point Number	657.42		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.1 Permitted Activities > Permitted Activities- Minor Race Track Area - Precinct C		
Summary of Decision Requested	Retain Rule 26.1.1.3 (P1) Permitted Activities - Minor Race Track Area - Precinct C insofar as it provides for traveller's accommodation and facilities as a permitted activity in Precinct C.		
Decision Reasons:	<ul style="list-style-type: none"> • Precinct C (the Traveller's accommodation and Motor Sport and Recreation Area) includes the consented campground, and existing race track and building and storage containers required to support motorsport and recreation related activities. 		
Point Number	657.43		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.1 Permitted Activities > Permitted Activities- Minor Race Track Area - Precinct C		
Summary of Decision Requested	Add a new rule to the permitted activities in Rule 26.1.1.3 Permitted Activities - Minor Race Track Area - Precinct C as follows: <u>P2 A motor sport and recreation facility and/or activity.</u>		
Decision Reasons:	<ul style="list-style-type: none"> • A motorsport and recreation facility and/or activity should also clearly be provided for as a permitted activity within Precinct C. 		

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.1 Permitted Activities > Permitted Activities- Residential Apartments - Precinct D

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.44		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.1 Permitted Activities > Permitted Activities- Residential Apartments - Precinct D		
Summary of Decision Requested	Retain Rule 26.1.1.4 P1 Permitted Activities - Residential Apartments - Precinct D as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The permitted activity rule for 'a residential activity within the residential apartments' within Precinct D is supported. 		

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.1 Permitted Activities > Permitted Activities- Industrial Units - Precinct E

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.45		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.1 Permitted Activities > Permitted Activities- Industrial Units - Precinct E		
Summary of Decision Requested	Retain Rule 26.1.1.5 P1 Permitted Activities - Industrial Units - Precinct E		
Decision Reasons:	<ul style="list-style-type: none"> • The permitted activity for 'an industrial activity within the industrial units' within Precinct E is supported. 		

Submitter Number:	783	Submitter:	Reid Investment Trust
Point Number	783.8		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.1 Permitted Activities > Permitted Activities- Industrial Units - Precinct E		

Summary of Decision Requested	Amend Rule 26.1.1.5 Permitted activities - Industrial Units - Precinct E as follows: An Industrial activities, car parking, y within the industrial units automotive and non-automotive activities AND Any consequential amendments or further relief to give effect to the matters raised in the submission.
Decision Reasons:	<ul style="list-style-type: none"> The proposed changes enable car parking, automotive and non-automotive activities to be established within Precinct E, in addition to industrial activities. This is considered congruent with the zone's primary objective of continued development and operation of the Motorsport Park and allows a wider range of compatible activities to be established within Precinct E, similar to Precinct B.

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.2 Controlled Activities > Controlled Activities – Operational Motor Sport Area – Precinct A

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.46		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > 26.1.2 Controlled Activities > Controlled Activities – Operational Motor Sport Area – Precinct A		
Summary of Decision Requested	Delete Rule 26.1.2.1 C1 Controlled Activities - Operational Motor Sport Area - Precinct A in its entirety.		
Decision Reasons:	<ul style="list-style-type: none"> The definition that is proposed for a Motor sport and recreation activity includes racing events and activities. Rule 26.1.1.1 provides for racing events and activities as a Permitted Activity within Precinct A. No need to differentiate between an 'event' in the rules for Precinct A. The requirement to obtain resource consent for a motor sport and recreation event within an established and operational Motorsport Park site is opposed in its entirety and is contrary to the overall purpose of the site specific zone. Motor sport and recreation events are an integral part of the operational motorsport area (Precinct A) and have already been consented (and established) at the site via the suite of existing resource consents that have been approved for the site. To recognise the existing and consented Motor sport and Recreation Activities at the site and to allow for their continual operation and expansion without requiring additional resource consents (where the scale and intensity is still in accordance with the existing resource consents). Definition for Motorsport and Recreation Activity (refer to submission) was developed in consultation with Council and include both events and activities. Differentiating between "events" and "activities" is potentially confusing.

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > Discretionary Activities – All Precincts

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.49		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > Discretionary Activities – All Precincts		
Summary of Decision Requested	Amend Rule 26.1.3 D1 Discretionary Activities - All Precincts by deleting the existing wording and replace with the following new rule: <u>26.1.3 Discretionary Activities – All precincts</u> <u>D1 Any activity that is not a motorsport and recreation activity or a motorsport and recreation facility or any activity not listed in Rule 26.1.1.</u>		
Decision Reasons:	<ul style="list-style-type: none"> The wording (and purpose) of this rule is unclear. The wording in the Rule Heading applies that this rule applies to all Precincts. Precinct B is later excluded in the same Rule (The latter part of the Rule only applies to Precincts A, C, D and E (Not Precinct B). Clarification is sought with respect to why Precinct B has been excluded (and is non-complying instead of Discretionary). Assumed that the purpose of the Discretionary Activity is to capture those activities that are not 'motor sport and recreation facility' (both of which should be defined terms in the District Plan) and/or activities that are not already consented at the Motor Park site. 		

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > Non-complying Activities – Precinct B

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.1		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > Non-complying Activities – Precinct B		
Summary of Decision Requested	Delete Rule 26.1.4 NC1 Non-complying Activities - Precinct B in its entirety.		
Decision Reasons:	<ul style="list-style-type: none"> The non-complying activity status for Precinct B differs to the discretionary activity status for all other Precincts, and is therefore opposed. It is unclear why the provisions for Precinct B default to non-complying when the provisions for all other Precincts default to discretionary. Activities not provided for under the Permitted Activity rules for Precinct B should be discretionary not non-complying. 		
Point Number	657.2		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.1 Land Use - Activities > Non-complying Activities – Precinct B		
Summary of Decision Requested	Delete Rule 26.1.4 NC2 Non-complying Activities - Precinct B in its entirety.		
Decision Reasons:	<ul style="list-style-type: none"> The reference to 'dangerous activities' is not considered appropriate for an international motorsport park (and the existing consented motor sport and recreation activities that occur on site). There is an existing condition in the main resource consent for the Motorsport Park that appropriately addresses these concerns. It is not appropriate (or necessary) to duplicate those provisions here. 		

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.1 Noise - Motorsport and Recreation Activity

Submitter Number:	412	Submitter:	David Saxton
Point Number	412.3		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.1 Noise - Motorsport and Recreation Activity		
Summary of Decision Requested	Amend Rule 26.2.1 Noise - Motor sport and recreation activity, by specifying that no excessive noise associated with the motor sport park is permitted between 7pm and 7am on any day.		
Decision Reasons:	<ul style="list-style-type: none"> Through the development of this motor sport park, locals largely accepted that the activities would exceed noise levels allowed in the District Plan for the Rural Zone but were reassured that no night-time racing would occur. The park has recently run a very noisy event that had a 24 hour duration which is intolerable for adjacent neighbours and it is considered that this breaches the existing resource consents. 		

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
--------------------------	-----	-------------------	-------------------------------

Point Number	657.3
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.1 Noise - Motorsport and Recreation Activity
Summary of Decision Requested	Delete Rule 26.2.1 P1-D1 Noise - Motorsport and Recreation Activity in its entirety.
Decision Reasons:	<ul style="list-style-type: none"> Noise is already addressed in the existing resource consents for the Motorsport Park site. The addition of noise standards within the zone provisions is effectively duplicating parts of the existing resource consent(s) and has the potential to result in a number of different noise standards applying to the site. The reference to notional boundary of any dwelling is opposed. The existing dwellings to the rear of the Motorsport Park site all have no complaints covenants and were previously part of the HDMP site. The existing resource consent specifies a noise contour boundary for the surrounding area. The proposed wording affords a consented international motorsport no protection against new dwellings looking to develop nearby.

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.165		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.1 Noise - Motorsport and Recreation Activity		
Summary of Decision Requested	Amend Rule 26.2.1 P1, P2 and P3 Noise - Motorsport and Recreation activity, as follows: P1 (a) The sound noise level from motor sport and recreation activities, <u>measured in accordance with NZS 6801:2008 and assessed in accordance with NZS 6802:2008</u> , shall not exceed the following limits measured <u>at any point</u> beyond the 'Hampton Downs Noise Control Boundary' shown in Appendix 12 (Motorsport and Recreation): (i) 65 dB LAeq(15min) dBA L10 on no more than 27 days per year (with no more than 10 of the 27 days to be on a Sunday or public holiday) between the hours of 9.00am-6.00pm; and (ii) 55 dB LAeq(15min) dBA L10 on no more than 40 days per year between the hours of 9.00am-6.00pm; and (iii) 50 dB LAeq(15min) dBA L10 between the hours of 7am to 6pm any other days of the year; and (iv) 45 dB LAeq(15min) dBA L10 , between the hours of 6pm to 10pm every day of the year, and (v) 40 dB LAeq(15min) dBA L10 and 65 dB LAfmax dBA Lmax at all other times (b) The motor racing activities in Rule 26.2.1 P1 (a) (i) and (ii) are exclusive of each other and the activities are considered to be on separate days. P2 The use of a public address system shall only occur between the hours of 7.00am and 7.00pm and shall not exceed a noise limit of 50 dBA L10 dB LAeq(15min) , <u>measured at any point beyond the 'Hampton Downs Noise Control Boundary' shown in Appendix 12 (Motorsport and Recreation) in accordance with NZS 6801:2008 and assessed in accordance with NZS 6802:2008</u> . P3 ... C. A programme of noise management and assessment of compliance with the noise standards, including details of the monitoring of noise levels for vehicles competing in events with a noise limit of 65 dB LAeq(15 min) dBA L10 .		
Decision Reasons:	<ul style="list-style-type: none"> Sound from motorsport and other activity at Hampton Downs is currently authorized by a resource consent. The proposed permitted activity standards closely follow but do not exactly mirror the resource consent. Issues have been identified with the noise controls in both the existing resource consent and proposed rules: <ul style="list-style-type: none"> Noise limits have been written in terms of the outdated "L10" parameter. This doesn't represent good practice and might not adequately represent sound from short duration events. It also inconsistent with other noise limits in the plan. Incorrect notation has been used. Measurement and assessment standards are not specified in the proposed plan (they are in the resource consent). It is submitted these matters should be addressed in the new permitted activity standards. While this does not prevent activity continuing under the existing resource consent, it sets a robust baseline for any further developments or alterations to activity. Council could also update the noise conditions in the resource consent to match the new plan provisions under the review condition (97). 		

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.2 Noise – Business and Industrial Area Precinct B and Minor Race Track Area - Precinct C

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.4		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.2 Noise – Business and Industrial Area Precinct B and Minor Race Track Area - Precinct C		
Summary of Decision Requested	Delete Rule 26.2.2 Noise - Precincts B and C in its entirety.		
Decision Reasons:	<ul style="list-style-type: none"> The activities within Precincts B and C have already been consented under existing resource consents and will be developed in accordance with the conditions of the existing resource consents. Opposed to any new conditions being imposed on either of these areas. The addition of noise standards within the zone provisions is effectively duplicating parts of the existing resource consent(s) and has the potential to result in a number of different noise standards applying to the site. The reference to the notional boundary of any dwelling is also opposed. The existing dwellings to the rear of the Motorsport Park site all have no complaints covenants and were previously part of the HDMP site. The existing resource consent specifies a noise contour boundary for the surrounding area. The proposed wording affords a consented international motorsport park no protection against new dwellings looking to develop nearby. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.166		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.2 Noise – Business and Industrial Area Precinct B and Minor Race Track Area - Precinct C		
Summary of Decision Requested	<p>Amend Rule 26.2.2 P1 and D1- Noise- Business and Industrial Area Precinct B and Minor Race Track Area- Precinct C as follows:</p> <p><i>PI</i></p> <p>(a) Sound The noise level from activities within Precinct B and Precinct C, other than motor racing activities within Precinct B and Precinct C, measured in accordance with NZS 6801:2008 and assessed in accordance with NZS 6802:2008 must not exceed the following noise limits when measured at the at any point within a notional boundary on any other site of any dwelling:</p> <p><i>(i) 50dB LAeq(15min), 7am to 7pm, Monday to Saturday excluding public holidays;</i></p> <p><i>(ii) 40 dB LAeq(15min), 7am to 7pm, Sunday and Public Holidays;</i></p> <p><i>(iii) 40 dB LAeq(15min), 7pm to 7am the following day;</i></p> <p><i>(iv) 75 dB LAfmax, 10pm to 7am the following day;</i></p> <p><i>Monday to Friday 7:00am to 7:00pm 50 dBA L10.</i></p> <p><i>Saturday 7:00am to 6:00pm 50 dBA L10.</i></p> <p><i>All other times including public holidays 40 dBA L10</i></p> <p><i>Monday to Sunday 10:00pm to 7:00am 75 dBA Lmax.</i></p> <p>Noise levels shall be measured and assessed in accordance with the requirements 6801:2008 'Acoustics- Measurement of environmental sound' and NZS 6802:2008 'Acoustics- Environmental noise:'</p> <p>(b) The notional boundary means a line 20m from the façade of any dwelling or the legal boundary, whichever is the closer to the dwelling as defined in NZS 6801:2008 'Acoustics- Measurement of environmental sound:'</p> <p>-D1</p> <p><i>(a) Sound that is outside the scope of NZS 6802:2008 or a permitted activity standard; and</i></p> <p><i>(b) Sound Any activity that does not comply with Rule 26.2.2 P1.</i></p> <p>-</p>		
Decision Reasons:	<ul style="list-style-type: none"> The proposed noise limits are generally in accordance with guideline values and use current measurement and assessment standards, acoustical metrics, numerical values, time-frames and assessment location. However, the following issues have been identified: <ul style="list-style-type: none"> - Incorrect terminology has been used in conflict with the standards specified, - No provision has been made for sound sources outside the scope of NZS 6802, - Noise limits have been written in terms of the outdated "L10" parameter. This doesn't represent good practice and might not adequately represent sound from short duration events. It also inconsistent with other noise limits in the plan. - There is a difference of one hour between noise limits on Monday-Friday and Saturdays, which is inconsistent with other zones and is an unnecessary complication. - Notional boundary is defined in Chapter 13 and should not be redefined or repeated in this rule. - The format of the rule is inconsistent with other zones. 		

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.4 Landscaping and Screening

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.5		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.4 Landscaping and Screening		
Summary of Decision Requested	Delete Rule 26.2.4 Landscaping and screening in its entirety.		
Decision Reasons:	<ul style="list-style-type: none"> Landscaping is already in place (in accordance with the existing resource consent) and is required to be maintained on an ongoing basis in accordance with the existing resource consent. Landscaping is required around part of the perimeter (adjacent to the State Highway), and is not affected by any new development at the site. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.166		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.4 Landscaping and Screening		
Summary of Decision Requested	<p>Retain Rule 26.2.4 P1 Landscaping and Screening, as notified;</p> <p>AND</p> <p>Retain 26.2.4 P2 Landscaping and Screening, as notified.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the need for landscaping and planting to ensure that the events are screened from the state highway. 		

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.5 Earthworks – All Precincts

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
--------------------------	-----	-------------------	-------------------------------

Point Number	657.6
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.5 Earthworks – All Precincts
Summary of Decision Requested	Delete Rule 26.2.5 Earthworks - All Precincts in its entirety.
Decision Reasons:	<ul style="list-style-type: none"> The existing resource consents already include conditions with respect to earthworks.

Submitter Number:	783	Submitter:	Reid Investment Trust
Point Number	783.9		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.5 Earthworks – All Precincts		
Summary of Decision Requested	Amend Rule 26.2.5 P1 (a)(ii) Earthworks - All Precincts as follows: (a) Earthworks within a site must meet the following conditions: ... (ii) Not exceed a volume of more than 250m³ 1,000m ³ and an area of more than 4,000m² 2,000m ² within a site... AND Any consequential amendments or further relief to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The proposed thresholds for requiring earthworks consent in the Hampton Downs Motorsport and Recreation Zone are considered too onerous, given the surrounding rural land uses. Amend to align the thresholds for earthworks consents with those of the Rural Zone. These are considered appropriate to adequately manage the effects of earthworks. 		

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.6 Motorsport and Recreation Events – Precincts A and C

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.7		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.6 Motorsport and Recreation Events – Precincts A and C		
Summary of Decision Requested	Delete Rule 26.2.6 Motorsport and Recreation Events - Precincts A and C in its entirety.		
Decision Reasons:	<ul style="list-style-type: none"> The existing resource consents already include conditions with respect to the number of spectators and events. There is no reason to duplicate those conditions in the zone provisions. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.167		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.6 Motorsport and Recreation Events – Precincts A and C		
Summary of Decision Requested	Retain Rule 26.2.6 P1 Motorsport and Recreation Events – Precincts A and C as notified AND Retain Rule 26.2.6 P2 Motorsport and Recreation Events – Precincts A and C as notified AND Retain Rule 26.2.6 P3 Motorsport and Recreation Events – Precincts A and C, as notified AND Retain Rule 26.2.6 D1 Motorsport and Recreation Events – Precincts A and C as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The thresholds should ensure there are no adverse effects on the safety and efficiency of the transport network that can not be mitigated. 		

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.7 Motorsport and Event Traffic Management – All Precincts

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.53		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.7 Motorsport and Event Traffic Management – All Precincts		
Summary of Decision Requested	Retain Rule 26.2.7 Motor sport and Event Traffic Management - All precincts.		

Decision Reasons:

- Fire and Emergency New Zealand supports provisions in Rule 26.2.7 as a Traffic Management Plan shall be prepared and provision shall be made for emergency service vehicles, e.g. fire, police, ambulance, military, Department of Corrections, vehicles needing emergency access to any site or dwelling located on, or with access from Hampton Downs Road.
- The operation of the Hampton Downs Motorsport Park for a motor sport and recreation event is a Controlled Activity if access provisions are complied with.

Submitter Number: 657 **Submitter:** Hampton Downs Motorsport Park

Point Number 657.8

Plan chapter Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.7 Motorsport and Event Traffic Management – All Precincts

Summary of Decision Requested Delete Rule 26.2.7 Motorsport and Events Traffic Management - All Precincts in its entirety.

Decision Reasons:

- The existing resource consents already include conditions with respect to traffic management, carparking and overflow parking.
- The overflow carparking area that is sometimes used is not formed (and therefore would not comply with the proposed rules).
- There is no reason to duplicate those conditions in the zone provisions.

Submitter Number: 742 **Submitter:** Kim Harris-Cottle

Organisation: New Zealand Transport Agency

Point Number 742.168

Plan chapter Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.7 Motorsport and Event Traffic Management – All Precincts

Summary of Decision Requested Retain Rule 26.2.7 C1 Motorsport and Event Traffic Management – All Precincts, as notified;
AND
Retain Rule 26.2.7 C2 Motorsport and Event Traffic Management – All Precincts; as notified;
AND
Retain Rule 26.2.7 C3 Motorsport and Event Traffic Management – All Precincts, as notified.

Decision Reasons:

- The submitter supports:
 - the requirements in regards to a Traffic Management Plan being undertaken and what is to be included in that Plan;
 - the minimum deceleration lengths at off ramps from the state highway and the travel speed percentages; and
 - having a representative from the NZ Transport Agency for the Implementation Monitoring Committee to address traffic safety matters.

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.8 Car Parking, Access and Roading – All precincts

Submitter Number: 657 **Submitter:** Hampton Downs Motorsport Park

Point Number 657.9

Plan chapter Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.8 Car Parking, Access and Roading – All precincts

Summary of Decision Requested Delete Rule 26.2.8 Carparking, Access and Roading - All Precincts in its entirety.

Decision Reasons:

- Already covered by existing resource consent.

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.9 Hazardous substances - All Precincts

Submitter Number: 378 **Submitter:** Fire and Emergency New Zealand

Point Number 378.54

Plan chapter Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.9 Hazardous substances - All Precincts

Summary of Decision Requested Amend Rule 26.2.9 Hazardous substances - All precincts, as follows:

(a) The use, storage or disposal of any hazardous substances where:

(i) The aggregate quantity of hazardous substances of any hazard classification on a site is less than the quantity specified for the Motorsport and Recreation Zone in Table 5.1 contained within Appendix 5 (Hazardous Substances);

(ii) The storage or use of radioactive materials is in approved equipment for medical and diagnostic purposes, or specified as an exempt activity or article in the Radiation Safety Act and Regulations 2017.

(iii) Rule 26.2.9 (g)(i) excludes fire service operations.

AND

Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- Fire and Emergency New Zealand opposes Rule 26.2.9 as while fire stations and associated firefighting activities involve the use and storage of hazardous

substances at quantities that are considered minor, it is possible that the permitted provisions may not enable for this, and could affect Fire and Emergency New Zealand's ability to operate as easily and smoothly as needed.

• Fire and Emergency New Zealand requests that fire stations and associated firefighting activities are excluded for the following reasons:

1. The 8.3 classification (Table 5.1 contained within Appendix 5 (Hazardous Substances)) has a relatively low limit in the Business Town Centre Zone, and is quite low in other areas- lots of household products are eye corrosives from dishwashing to laundry powder. This would limit and potentially prevent Fire and Emergency New Zealand having a HAZMAT vehicle based in this zone because they carry neutralizing agents which are eye corrosives. A greater concern is that some of Fire and Emergency New Zealand's fire retardants and foams also have this classification and this limit could potentially require that Fire and Emergency New Zealand need a resource consent to hold a small amount or and other these chemicals on site, as a lower limit would be largely taken up by ordinary household chemicals used on site.
2. The 8.3A classification is for eye corrosion. A person is only affected by this hazard class if they come into direct contact with a product with this classification. This hazard is also managed under the health and safety at work and HSNO legislation usually via labeling and PPE requirements. Fire and Emergency New Zealand considers that there is no logic in restricting the amount of these substances held as it relates to Fire and Emergency New Zealand operations, particularly if they are in enclosed containers for systems.
3. Some of Fire and Emergency New Zealand's fire retardants are solids rather than liquids and the reasons for the limits specified in the plan do not make sense for solids. Fire and Emergency New Zealand current main fire retardant is a powder but Fire and Emergency New Zealand are also looking at new foams which come in bricks. As such, higher restrictions for waterways do not make sense for these products as they do not leak or flow.
4. Fire and Emergency New Zealand often requires the temporary storage of chemicals necessary for providing an emergency response, during an emergency and within a short period after the emergency, i.e. there is a small grace period for example if Fire and Emergency New Zealand need a truck to remove a container which has firefighting chemicals in it, they may need to wait for a few working days after the emergency has finished for a contractor to do that work. Not providing for this could restrict Fire and Emergency New Zealand's ability to respond to bush or other major events, e.g. large acid spills and other HAZMAT events. This could also result in a breach of the RMA in order to bring in the necessary products to resolve the issue and prevent harm to people/the environment.

Organisation:	'Oil Companies'		
Point Number	785.6		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.9 Hazardous substances - All Precincts		
Summary of Decision Requested	<p>Delete Rule 26.2.9 – Hazardous Substances- All Precincts.</p> <p>AND</p> <p>Any consequential amendments or further relief to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The proposed provisions are opposed and the submitter seeks the deletion of all proposed hazardous substances controls relating to storage, use, disposal or transportation of hazardous substances at service station sites (as broadly defined) or refuelling sites. • The submitter also supports the deletion of all rules pertaining to control hazardous substances where such controls are inappropriate, unnecessary, ineffective, inefficient and unable to be justified via a Section 32 analysis. • These rules are all designed to address risk associated with hazardous substances. Risk is appropriately managed via other legislation and the Section 32 Report fails to identify why additional controls are required. • The Resource Legislation Amendment Act 2017 removed the explicit function of district and regional councils to control adverse effects of the storage, use, disposal, or transportation of hazardous substances under sections 30 and 31 of the Resource Management Act 1991 (RMA). • The changes came into effect on 19 April 2017 and are intended to ensure councils only place controls on hazardous substances where necessary to control effects under the RMA that are not covered by Hazardous Substance New Organisms Act 1996 or Health and Safety At Work Act 2015. • The purpose of the Hazardous Substances New Organisms Act is to protect the environment, and the health and safety of people and communities, by preventing or managing the adverse effects of hazardous substances and new organisms. The Hazardous Substances New Organisms Act covers a range of matters including: <ol style="list-style-type: none"> a. site and building requirements for where a hazardous substance may be used, including requirements for storage and primarily requiring primary and secondary containment; b. the safe transportation of hazardous substances; c. emergency management requirements in relation to the substance in the event of a spill or other emergency; and d. how the substance may be disposed of. • The Health and Safety At Work Act 2015 provides a framework to secure the health and safety of works and workplaces and integrates the regulation of workplace use of hazardous substances. • The Resource Legislation Amendment Act 2017 followed the decision of the Independent Hearing Panel on the Christchurch Replacement District Plan. That decision was to reject Christchurch City Council's hazardous substance controls (which were based on an activity status table (AST) approach and to only retain controls relating to hazardous substances in close proximity to the National Grid. • The Ministry for the Environment considers that in most cases the Hazardous Substances New Organisms Act and the Health and Safety At Work Act 2015 controls will be adequate to avoid, remedy or mitigate adverse environmental effects of hazardous substances and that RMA controls may be used if existing HSNO or Work safe controls are not adequate to address the environmental effects of hazardous substances in any particularly case. The submitter strongly supports the Ministry for the Environment's position in this regard. • The submitter seeks that any proposed controls around hazardous substances do not duplicate those controls addressed under other legislation. Any duplication is considered unnecessary and inefficient. • The section 32 report for Hazardous Substances acknowledges the removal of Council's functions in regards to hazardous substances and recognizes the "Resource Management Plans should not be in conflict with HSNO requirements and should not repeat them". • The report further recognizes that "rationale for a higher level of protection through additional land use controls under the Act may be appropriate for substances both controlled by the Hazardous Substances New Organisms Act or for issues which are not within the scope of the Hazardous Substances New 		

Organisms Act, such as reverse sensitivity”.

- However there is a significant disconnect between the overview and purpose sections of the Section 32 Report and the regulatory provisions in the Proposed District Plan.
- As an example, in regard to service stations the Section 32 Report concludes that, “the controlled activity status has been assigned to the storage and retail sale of fuel within service stations above a certain level in some zones to recognize that these substances are well managed through standards and industry practice. However, above these thresholds, the opportunity to consider potential adverse effects on the surrounding environment is considered.
- No rationale/analysis is provided within the section 32 report to justify why specific volume thresholds apply to service stations or why the opportunity to consider potential adverse effects on the surrounding environment is considered reasonable if quantities are above those limits.
- The Section 32 Report does not provide analysis to justify why hazardous substances associated with service stations are only addressed in certain zones and in what way the Council considers the Hazardous Substances New Organisms Act to not adequately control potential adverse effects associated with hazardous substances at service station - for example, why the Council considers site design, layout and monitoring and reporting of incidents are matters that the Council should reserve control over.
- In light of the Resource Legislation Amendment Act 2017 and controls under other legislation and the lack of rationale/analysis within the Section 32 Report for hazardous substances, it is considered the proposed hazardous substance controls are largely unnecessary and should therefore be deleted.

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.10 Glare and Artificial Light Spill

Submitter Number:	742	Submitter:	Kim Harris-Cottle

Point Number	742.169		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.10 Glare and Artificial Light Spill		
Summary of Decision Requested	Retain Rule 26.2.10 PI Glare and Artificial Light Spill, as notified. AND Retain Rule 26.2.10 RD1 Glare and Artificial Light Spill, as notified.		
Decision Reasons:	<ul style="list-style-type: none">• The submitter supports all rules in this section.		

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.11 Signs general - All Precincts

Submitter Number:	602	Submitter:	Greig Metcalfe
Point Number	602.55		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.11 Signs general - All Precincts		
Summary of Decision Requested	Amend Rule 26.2.11 P2 (a) Signs - general, as follows: (a) Any real estate for sale sign relating to the site on which it is located must comply with all of the following conditions: (i) There is no more than 1 sign per agency measuring 600mm x 900mm per road frontage of the site to which the sign relates; (ii) There is no more than 1 sign measuring 1800mm x 1200mm per site to which the sign relates; (iii) There is no more than 1 real estate header sign measuring 1800mm x 1200mm on one other site; (iv) (iv) The sign is not illuminated; (v) (v) The sign does not contain any moving parts, fluorescent, flashing or revolving lights or reflective materials; (vi) (vi) The sign does not project into or over road reserve. (vii) Any real estate sign shall be removed from display within 60 days of sale/lease or upon settlement, whichever is the earliest. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none">• The notified rules for real estate signs are too restrictive.• Corner sites should be able to have additional sign opportunities without adversely affecting residential character and amenity.• Allowance should be made for feature signs which are commonly used for properties going to auction or tender.• Header signs should be able to be established on another sign (often on a high volume road) to direct purchasers to the site which is for sale (often on a low volume road).		

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.10		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.11 Signs general - All Precincts		
Summary of Decision Requested	Amend Rule 26.2.11 P1 Signs general - All Precincts so that the signage rule only applies to signage that is orientated towards the public roads as follows: <u>PL</u> (a) A sign shall comply with all of the following conditions A sign that is: (i) Set back less than 7.5m from Hampton Downs Road; and/or (ii) Set back less than 15m from State Highway One <u>And is externally facing so that the main audience is motorists travelling along Hampton Downs Road or State Highway One, shall comply with the following conditions:</u>		

- (i) It does not exceed 3m²;
- (ii) The sign height shall not exceed 10m;
- (iii) Illuminated signs shall not:
 - A. Have a light source that flashes or moves;
 - B. Contain moving parts or reflective materials.
- ~~(iv) It is setback at least 7.5m from the boundary of Hampton Downs Road;~~
- ~~(v) It is set back at least 1.5m from State Highway 1;~~
- ~~(vi) Is orientated to be internally facing so the main audience are spectators on site;~~
- ~~(vii) Is screened from State Highway 1;~~
- ~~(viii)(iv). It relates to:~~
 - A. Any motor sport and creation activity or events facility within the Motorsport and Recreation Zone; or
 - B. A property name sign.

Decision Reasons:

- The rules relating to signage should only apply to signage that is located within the front building setback and that is outward facing to ensure the intended audience is motorists travelling along either the Waikato Expressway or Hampton Downs Road.
- There should be no other restrictions regarding signage within the Motorsport Park.
- 3m² is not considered appropriate or reasonable for signage at a motorsport park.
- Large, clear and legible signage is required for driver safety and as part of the overall Motorsport experience, and is larger than 3m² (i.e. the signs along the sides of the race track (visible to spectators and drivers only).
- There should be no controls/restrictions regarding the size or area of internal signage within the zone.
- The maximum sign height of 10m is supported.
- The restrictions regarding flashing or moving signs are opposed insofar as they relate to internal signage within the zone.
- There should be no restrictions regarding internal signage (including flashing or moving signs) within the Motor Sport and Recreation zone.
- The restrictions regarding flashing or moving signs are associated with driver safety and should only apply to signage that is located within the front setback and is directed at motorists travelling along a public road.
- Provisions around driver safety within the Motorsport Park already provide appropriate control for internal signage.
- Flashing or moving signs are considered appropriate for an International Motorsport Park and contribute to the overall visitor experience.
- The minimum setbacks in Rules (iv) and (v) are supported, however amendments are proposed so that these standards are moved to the beginning/heading of the Rule.
- The suggested amendments in rules (i) – (iii) only apply to signs located within the minimum setback from the Waikato Expressway and Hampton Downs Road.
- Not all signage is internally facing.
- In some situations it is appropriate to erect signage along the State Highway boundary.
- The signage provisions do not allow for these types of signs.
- The requirement that all signage is screened from the State Highway is opposed.
- Due to the size of the Hampton Downs Motorsport Park site and its topography, it is not possible to screen all of the internal signage from the adjacent State Highway.
- Signage that is outward facing and directed towards the State Highway will also not be screened.
- Oppose any restrictions regarding sign content.
- The signage within the Motorsport Park often relates to specific sponsors, team branding and motor related products.
- Signage forms an essential part of the overall experience at the Motor Sport Park, but would be excluded under the existing wording.
- Internal signage is required for safety/information purposes or to add to the overall spectator experience.

Point Number 657.11

Plan chapter Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.11 Signs general - All Precincts

Summary of Decision Requested **Add** a new rule to Rule 26.2.11 P3 Signs General – All Precincts as follows:

P3
(g) Signs that are setback at least 7.5m from Hampton Downs Road and at least 1.5m from State Highway One.

- Decision Reasons:**
- There should be no restrictions regarding internal signage within the Hampton Downs Motorsport and Recreation Zone.
 - This rule will differentiate between signage that is located within the front building setbacks and internal signage within the Hampton Downs Motor Sport and Recreation Zone.

Point Number 657.12

Plan chapter Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.11 Signs general - All Precincts

Summary of Decision Requested **Retain** the Restricted Discretionary activity status in Rule 26.2.11 RD1 Signs General - All Precincts

- Decision Reasons:**
- The restricted discretionary activity status for a sign that cannot comply with Rule 26.2.11(P1).

Submitter Number: 742 **Submitter:** Kim Harris-Cottle

Organisation: New Zealand Transport Agency

Point Number 742.170

Plan chapter Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.11 Signs general - All Precincts

Summary of Decision Requested **Retain** Rule 26.2.11 P1 Signs general - All precincts, as notified.
 AND

Retain Rule 26.2.11 RD1 Signs general - All precincts, as notified.

Decision Reasons:

- The submitter supports Rule 26.2.11 PI and supports the matters of discretion under RD1, particularly (b)(ii), (b)(iii), (b)(iv) and (b)(v).

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.12 Signs - effects on traffic - All Precincts

657.13

Plan chapter

Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.12 Signs - effects on traffic - All Precincts

Summary of Decision Requested

Delete Rule 26.2.12 Signs - effects on traffic - All Precincts in its entirety.

Decision Reasons:

- Any rules restricting internal signage within the Hampton Downs Motor Sport and Recreation Zone are opposed.
- It is not appropriate to impose conditions limiting or controlling the signage within an International Motorsport Park.
- The signage associated with the consented motorsport and recreation activities and facilities forms and integral part of the overall development and can often imitate the content, colour or appearance of a traffic control sign.
- The conditions in Rule 26.2.12 should not apply to the Hampton Downs Motorsport and Recreation Zone.

Plan chapter

Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.12 Signs - effects on traffic - All Precincts

Summary of Decision Requested

Retain Rule 26.2.12 PI Signs- effects on traffic- All Precincts, except for the amendments sought below

AND

Amend Rule 26.2.12 PI (v) Signs - effects on traffic - All Precincts as follows:

Contain no more than 40 characters and no more than 6 words, symbols or graphics;

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter supports the intent of Rule 26.2.12 PI but seeks amendment to provide clarification on the maximum amount of words permitted. This will ensure that signage erected does not cause unnecessary visual clutter or affect the efficient, safe and effective functioning of the transport network.

Point Number

742.172

Plan chapter

Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.12 Signs - effects on traffic - All Precincts

Summary of Decision Requested

Retain Rule 26.2.12 D1 Signs - effects on traffic - All Precinct as notified.

Decision Reasons:

- The submitter supports Council having full discretion over signs that do not comply with permitted activity standards.

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.13 Scale and duration of Travellers Accommodation - Precinct C

Plan chapter

Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.2 Land Use Effects > 26.2.13 Scale and duration of Travellers Accommodation - Precinct C

Summary of Decision Requested

Delete Rule 26.2.13 Scale and duration of Travellers Accommodation - Precinct C in its entirety.

Decision Reasons:

- The traveller's accommodation activities are already consented under the existing land use consent and will establish in accordance with the existing resource consent.
- Opposed to any proposal to impose additional restrictions on an activity that has already been consented at the site.
- The traveller's accommodation activities within Precinct 3 will be developed in accordance with the existing resource consent. Any additional standards are opposed.

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.1 Motorsport and recreational facilities - Precinct A

Point Number 657.15
Plan chapter Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.1 Motorsport and recreational facilities - Precinct A

Summary of Decision Requested **Amend** the heading of Rule 26.3.1 as follows:
 26.3.1 Construction or alteration of a building or structure – All Precincts ~~Motorsport and recreational facilities – Precinct A~~

- Decision Reasons:**
- The reference to 'Motorsport and Recreational facilities – Precinct A' in the heading of Rule 26.3.1 is opposed.
 - The rule permitting the construction or alteration of a building or structure should not be limited to Precinct A only.
 - Amendments are proposed to ensure that this Rule applies to all Precinct Areas.
 - The 'construction or alteration of a building or structure' is for an activity that is permitted within that Precinct Area.
 - Amendments required to ensure permitted rules apply to all Precinct Areas.

Point Number 657.16
Plan chapter Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.1 Motorsport and recreational facilities - Precinct A

Summary of Decision Requested **Retain** the permitted activity status of Rule 26.3.1 P1 Motorsport and recreational facilities - Precinct A
 AND
Amend the wording of Rule 26.3.1 P1 Motorsport and recreational facilities - Precinct A as follows:
 (P1) Construction or alteration of a building or structure for a motor sport and recreation activity or facility in Precinct A ~~(Operational Motorsport Area) identified on the planning maps:~~

AND
Add the following additional Rules (P2) – (P5) to Rule 26.3.1 Motorsport and recreational facilities - Precinct A:
(P2) Construction or alteration of a building or structure, for a business or industrial activity, or a residential activity within an existing dwelling in Precinct B; and
(P3) Construction or alteration of a building or structure, for a Traveller's Accommodation and Motor Sport and Recreation Activity or Facility within Precinct C; and
(P4) Alteration to the existing residential apartment buildings for a residential activity within the existing residential apartments within Precinct D; and
(P5) Alteration to the existing industrial units for an industrial activity within the existing industrial units within Precinct E.

- AND
Amend Rule 26.3.1 D1 Motorsport and recreational facilities - Precinct A, to refer to the additional rules as a consequential amendment.
- Decision Reasons:**
- The permitted activity status in Rule 26.3.1 (P1) is supported and should be retained.
 - Amendments are proposed to the wording of Rule (P1) (if it is retained) to ensure that the Rule applies to both motorsport and recreation 'activities' and 'facilities'.
 - Rule 26.3.1 (P1) provides for the 'construction or alteration of a building or structure for a motor sport and recreation facility in Precinct A as a permitted activity.
 - While permitted activity status is supported, it is unclear why the above rule is necessary when the activities proposed are already permitted by Rule 26.1.1.1 and why a similar rule is not proposed for the construction or alteration of a building or structure within any of the other Precinct Areas.
 - Clarification is sought as to whether 'the construction or alteration of a building or structure' in the other Precinct Areas would also be permitted and why a similar rule is not proposed for each of the other Precinct Areas.
 - Amendments are proposed to Rule 26.3.1 to ensure that the construction or alteration of a building or structure is a permitted activity in all Precinct Areas where the building or structure is for an activity that is permitted in the Precinct.

Point Number 657.17
Plan chapter Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.1 Motorsport and recreational facilities - Precinct A

Summary of Decision Requested **Amend** Rule 26.3.1 Motorsport and recreational facilities - Precinct A from its current location within the 'Land Use Building' Rules to the 'Permitted Activity Rules' in Section 26.1.1.1.

- Decision Reasons:**
- Amendments are proposed in the current format of Rule 26.3.1 and its location within the Chapter.
 - Rule 26.3.1 does not fit within the bulk and location standards in the 'Land Use – Building' Section.
 - It does not manage any bulk and location requirement (height, daylight admission etc.)
 - Its inclusion (and purpose) within this section of the PDP is therefore unclear.
 - It does not make sense that the permitted land use activities in Rule 26.1.1 are subject to compliance with the Land Use Building Rules (26.3).
 - Construction of buildings and structures should already be covered by the Permitted Activity Rules in 26.1.1.

Point Number 657.18
Plan chapter Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.1 Motorsport and recreational facilities - Precinct A

Summary of Decision Requested **Retain** the Discretionary Activity Status of Rule 26.3.1 D1 Motorsport and recreational facilities - Precinct A.

- Decision Reasons:**
- The discretionary activity status in Rule (D1) is supported.

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.2 Height – All precincts

Point Number	657.19
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.2 Height – All precincts
Summary of Decision Requested	Retain Rule 26.3.2 P1 Height - All Precincts as notified.
Decision Reasons:	<ul style="list-style-type: none"> The maximum permitted height that is proposed in Rule 26.3.2 P1 is supported and should be retained as proposed.
Point Number	657.20
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.2 Height – All precincts
Summary of Decision Requested	Amend Rule 26.3.2 P2 Height - All Precincts, as follows: P2 (a) A building or structure in: (i) Precinct B (Business and Industrial Area) (Industrial and Business Precinct) (ii) Precinct C (Travelers Accommodation and Motor Sport and Recreation Area) Minor Race Track Area (iii) Precinct D (Residential Apartments) (iv) Precinct E (Industrial Units) as identified on the planning maps. Shall not exceed 10m in height
Decision Reasons:	<ul style="list-style-type: none"> The maximum permitted heights that are proposed in Rule 26.3.2(P2) are supported. Minor amendments are proposed to the names of each Precinct and the formatting in Rule (P2) to ensure consistency with the rest of the Chapter.
Point Number	657.21
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.2 Height – All precincts
Summary of Decision Requested	Retain the Restricted Discretionary Activity Status in Rule 26.3.2 (RD1) Height - all precincts and the limits of discretion as notified, except for the amendments outlined below. AND Amend Rule 26.3.2 RD1(b)(iii) to refer to the "privacy at adjoining zone boundaries" (as opposed to "privacy at adjoining properties").
Decision Reasons:	<ul style="list-style-type: none"> The Restricted Discretionary Activity status in Rule 26.3.2 (RD1) is supported. The Hampton Downs Motorsport Park site is a large site that comprises several adjacent certificates of title. The limits of discretion should only apply to the external zone boundaries, not the internal boundaries within the site.

Submitter Number:	783	Submitter:	Reid Investment Trust
Point Number	783.2		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.2 Height – All precincts		
Summary of Decision Requested	Amend Rule 26.3.2 P2 (a) (iv) Height - All Precincts as follows: (a) A building or structure in: ... (iv) Precinct E (Industrial Units) as identified on the planning maps shall not exceed 15.4m 10m in height. AND Any consequential amendments or further relief to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The building height of 10m is considered too restrictive for industrial units. In the Industrial Zone, the permitted building height is 15m. There are economic benefits of aligning the permitted building height within the Hampton Downs Motorport and Recreation zone with the Industrial Zone. The interface between the zone and Rural Zone will be managed by building setback and daylight admission standards. 		

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.3 Daylight admission – All precincts

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.22		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.3 Daylight admission – All precincts		
Summary of Decision Requested	Retain Rule 26.3.3 P1 Daylight admission - All Precincts as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Rule 26.3.3 (P1) is supported insofar as the daylight admission rule applies to the zone boundary. The proposed daylight admission Rule applies to the zone boundary (rather than the individual title boundaries). This approach is supported and should be retained. 		
Point Number	657.23		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.3 Daylight admission – All precincts		
Summary of Decision Requested	Retain the Restricted Discretionary Activity Status in Rule 26.3.3 RD1 Daylight admission - all precincts and the limits of discretion, except the amendments outlined below.		

AND

Amend Rule 26.3.3 RDI(b) Daylight admission - all precincts as follows:

- Correct the existing formatting error (whereby items (c) – (g) should be renumbered as (i) – (v)); and
- Replace "Admission of daylight and sunlight to adjoining sites" with "Admission of daylight and sunlight to adjoining zone boundaries"; and
- Replace "Privacy of adjoining properties" with "Privacy on the adjoining zone boundaries".

Decision Reasons:

- The Restricted Discretionary Activity Status in Rule 26.3.3 (RDI) is supported.
- Clarification is sought with respect to the different terms used in Council's exercise of discretion.
- The limits of discretion refer to 'adjoining sites' and 'adjoining properties'.
- It is unclear why Council have differentiated between 'adjoining properties' in the daylight admission rule. The use of differing terms within Chapter 26 is opposed.
- The 'zone boundary' is considered more appropriate for Council's limits of discretion.
- The Hampton Downs Motorsport site is a large site that comprises of several adjacent certificates of title.
- The limits of discretion should only apply to the external zone boundaries, not the internal boundaries within the site.

Submitter Number:

783

Submitter:

Reid Investment Trust

Point Number

783.3

Plan chapter

Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.3 Daylight admission – All precincts

Summary of Decision Requested

Amend Rule 26.3.3 P1 Daylight admission - All precincts as follows:

A building in all precincts identified on the planning maps must not protrude through a height control plane rising at an angle of 37 degrees commencing at an elevation of 2.5m above ground level at every point along the Motorsport and Recreation Zone boundary. Where the zone boundary adjoins a public road, the standard applies from the farthest boundary of that road.

AND

Any consequential amendments or further relief to give effect to the matters raised in the submission.

Decision Reasons:

- Where the Motorsport and Recreation Zone boundary abuts a road corridor, daylight admission to adjoining sites is not being compromised.
- The control can be taken from the farthest boundary of the road without creating potential effects on adjoining sites.

Plan chapter: Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.4 Site coverage

657

Submitter:

Hampton Downs Motorsport Park

Point Number

657.24

Plan chapter

Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.4 Site coverage

Summary of Decision Requested

Retain the 45% site coverage for all Precincts in Rule 26.3.4 Site coverage.

AND

Amend the heading of Rule 26.3.4 Site coverage so that the Rule applies to All Precincts

AND

Amend Rule 26.3.4 Site coverage P1 - P5 by replacing those with a single Rule P1 that applies to all Precinct Areas:

P1 The total site coverage of any buildings or structures shall not exceed 45% within each Precinct.

Decision Reasons:

- The 45% site coverage that is proposed as a permitted activity in Rules (P1)-(P5) is supported.
- Amendments are proposed to the existing formatting to simplify the Rules.
- 45% site coverage is proposed in each Precinct Area.
- A single site coverage rule is therefore proposed in each Precinct Area.

Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.5 Building setbacks – All precincts		
Summary of Decision Requested	Retain Rule 26.3.5 P1 Building setbacks – All precincts as notified; AND Retain Rule 26.3.5 D1 Building setbacks – All precincts as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports a 25m setback from the Waikato Expressway. 		

Submitter Number:	783	Submitter:	Reid Investment Trust
Point Number	783.10		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.5 Building setbacks – All precincts		
Summary of Decision Requested	Amend Rule 26.3.5 P1 (a) (iii) Building Setback as follows: (a) A building or structure in all precincts identified on the planning maps must be set back at least... AND Any consequential amendments or further relief to give effect to the matters raised in the submission. (iii) 25m from the boundary of another zone, <u>except roads</u> .		
Decision Reasons:	<ul style="list-style-type: none"> • The addition seeks to clarify that the building setback standard does not apply along road boundaries. • This increases design flexibility and allows buildings to address the street whilst maintaining the amenity of adjoining rural zoned sites. 		

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.26		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.3 Land Use – Building > 26.3.6 Size and Scale of activities - Precinct B		
Summary of Decision Requested	Delete Rule 26.3.6 Size and scale of activities - Precinct B in its entirety.		
Decision Reasons:	<ul style="list-style-type: none"> • The restrictions regarding the size and scale of activities within Precinct B are opposed in their entirety. • The bulk and location of business and industrial development within Precinct B is already covered by the existing resource consents. • Any duplication of the existing resource consents in the zone chapter is opposed. 		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.55		
Plan chapter	Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.4 Subdivision		
Summary of Decision Requested	Retain Rule 26.4 Subdivision, as subdivision is a discretionary activity, except for the amendments sought below		

AND

Amend Rule 26.4 Subdivision, as follows:

(x) Every allotment is provided with water supply and complies with the requirements of Chapter 14: Infrastructure and Energy;

AND

Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- Fire and Emergency New Zealand require proposed lots to be connected to public-reticulated water supply or water supply sufficient for firefighting purposes. Subdivision that does not comply is a Non-complying Activity.
- The changes sought promotes consistency across all zones in the District Plan.

Submitter Number: 657 **Submitter:** Hampton Downs Motorsport Park

Point Number 657.27

Plan chapter Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.4 Subdivision

Summary of Decision Requested **Amend** the Subdivision Provisions in Rule 26.4 Subdivision so that subdivision is a restricted discretionary activity.

- Decision Reasons:**
- The Discretionary Activity status for subdivision within the Hampton Downs Motor Sport and Recreation Zone is opposed.
 - The activity status should be restricted discretionary.

Point Number 657.28

Plan chapter Section C Rules > Chapter 26: Hampton Downs Motor Sport and Recreation Zone > 26.4 Subdivision

Summary of Decision Requested **Amend** the Non-Complying Activity status in Rule 26.4 NCI Subdivision to be a discretionary activity.

- Decision Reasons:**
- The non-complying activity status should be discretionary.

Plan chapter: Section C Rules > Chapter 27: Te Kowhai Airpark Zone

Submitter Number: 81 **Submitter:** Waikato Regional Council

Point Number 81.227

Plan chapter Section C Rules > Chapter 27: Te Kowhai Airpark Zone

Summary of Decision Requested **Seek** further assessment of Te Kowhai Airpark to enable adequate consideration of the area, including, but not limited to covering alignment with WRPS/Future Proof settlement pattern, assessment of precedent of alternative land release, availability of infrastructure, and impacts of the proposal on the Te Kowhai settlement as a whole.

- Decision Reasons:**
- The proposal represents a departure from the Future Proof settlement pattern that has been given legal weight through its insertion into the WRPS, and if approved, will create a precedent in terms of a departure from that pattern. Alternatives to the agreed settlement pattern can only be allowed if they are justified by a robust, comprehensive evidence base, including following the criteria for alternative land release identified in the WRPS.
 - Further information is sought on the following:
 - Alignment with other land use and development at Te Kowhai, including Plan Change 17, and the strategic direction for the town and the Future Proof sub-region
 - The timing, staging and sequencing of development. Rule 27.4.2 Subdivision Allotment Size provides for lot sizes between 450m² and 2500m², dependent on connection to wastewater. If on-site wastewater disposal only is provided for this becomes essentially a rural residential development, which is not appropriate at this location
 - Assessment regarding the likelihood of the provision of wastewater mains infrastructure, impacts of providing for non-residential activities on Te Kowhai businesses
 - Detail on how to improve connections between the Airpark and Te Kowhai, and better integrate the Airpark into Te Kowhai as a whole.

Submitter Number: 206 **Submitter:** David Horton

Point Number 206.2

Plan chapter Section C Rules > Chapter 27: Te Kowhai Airpark Zone

Summary of Decision Requested **Retain** Chapter 27 Te Kowhai Airpark Zone, as notified.

- Decision Reasons:**
- The submitter considers that the rules for Te Kowhai Airpark as notified should be retained as it will ensure that the aerodrome will be self sufficient and will remain the GA satellite for Hamilton airport just as Ardmore is for Auckland airport.
 - Airparks are highly successful in America and this will be an existing first for New Zealand.

Submitter Number: 208 **Submitter:** Bruce Belfield

Point Number 208.2

Plan chapter Section C Rules > Chapter 27: Te Kowhai Airpark Zone

Summary of Decision Requested **Retain** Chapter 27 Te Kowhai Airpark Zone as notified.

- Decision Reasons:**
- The provisions provide for flexibility of landuse activity that is needed for sustainable use of the aerodrome.

- The proposed OLS will enhance the safety and function regardless of residential uptake in the airpark.
- The airpark meets the niche requirement of the aviation community including the provision of hangars and the ability to taxi from home to hangar.
- Chapter 27 provisions recognise that the airpark is distinct from conventional residential development and is an extremely scarce physical resource reliant on proximity to an airfield without the opportunities and protection afforded by the airpark zone provisions, the ongoing operational needs of the aerodrome could not be guaranteed.
- Rezoning the aerodrome from the Rural to Airpark Zone is totally appropriate.

Submitter Number:	211	Submitter:	Tony Knowing
Point Number	211.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter concurs with the application being sought. 		

Submitter Number:	219	Submitter:	Bruce Cooke
Point Number	219.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The proposal will meet a demand from sport flyers for residential properties that suit the aviation lifestyle and provide additional specialist housing. • It will create a community and become a key regional asset. • The airfield is a critical facility for the sport flying movement in the Waikato and greater NZ. • In order to be viable and secure on an ongoing basis, the proposed development must proceed. 		
Decision Reasons:			

Submitter Number:	220	Submitter:	Peter Jackson
Organisation:	Jackson Property Group and La Valla Functions		
Point Number	220.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The development of Te Kowhai airfield & park is one of the better developments of the area. • Considering the trials authorities have unreasonably thrust upon them, the result is rewarding to all of us who have benefited from the property. • The aerodrome is very important to both aviation people. • Submitter recommends Council recognise this and therefore be encouraging as well as supportive for its growth and permanent existence. 		
Decision Reasons:			

Submitter Number:	221	Submitter:	Sally Readman
Organisation:	Sport Aviation Corp Ltd		
Point Number	221.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • NZTE aerodrome is an essential resource that should be protected. • The O.L.S changes are necessary for future sustainability of aviation operations. 		
Decision Reasons:			

Submitter Number:	222	Submitter:	Barry Readman
Organisation:	Sport Aviation Corp Ltd		
Point Number	222.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The NZTE Aerodrome has been in operation for over forty years and must be protected for the long term. • The "Obstacle Limitation Surface" (height above runway in metres) must be upgraded to allow for future aviation operations. • The development of the AirPark is also essential to allow aviation minded people to live close by. 		

Decision Reasons:

Submitter Number: 224 **Submitter:** Peter Armstrong

Point Number 224.2
Plan chapter Section C Rules > Chapter 27: Te Kowhai Airpark Zone
Summary of Decision Requested **Retain** Chapter 27 Te Kowhai Airpark Zone, as notified.

Decision Reasons:

- Enhances the community value to all of the local community if adopted as requested.

Decision Reasons:

Submitter Number: 225 **Submitter:** Steve Gunn

Point Number 225.2
Plan chapter Section C Rules > Chapter 27: Te Kowhai Airpark Zone
Summary of Decision Requested **Retain** Chapter 27 Te Kowhai Airpark Zone, as notified.

Decision Reasons:

- Due to the ongoing developments within the aviation industry, Te Kowhai airfield needs to continually develop to keep pace with evolving requirements.
- Future plans to develop the airfield and enhance capabilities are driven by safety and demand from current users.
- Enhancements such as VFR and IFR Arrival and Departure procedures are needed to ensure safety and order is maintained in all weather conditions.
- The submitter has operated out of many airparks around the world and Te Kowhai has the potential to be recognised as a world class privately owned airpark. The submitter currently owns and operates their aircraft from Te Kowhai.

Submitter Number: 226 **Submitter:** Mike Griffiths

Point Number 226.2
Plan chapter Section C Rules > Chapter 27: Te Kowhai Airpark Zone
Summary of Decision Requested **Retain** Chapter 27 - Te Kowhai Airpark Zone as notified.

Decision Reasons:

- The submitter owns a hangar and aircraft at Te Kowhai Aerodrome.
- It is an excellent, well run and operated facility
- The submitter would be interested in living at the airpark.
- It is an excellent meeting place for like minded people and is proving an asset to the local community e.g. market days, vintage car groups and so on.

Decision Reasons:

Submitter Number: 227 **Submitter:** Geoffrey Gatenby

Point Number 227.2
Plan chapter Section C Rules > Chapter 27: Te Kowhai Airpark Zone
Summary of Decision Requested **Retain** Chapter 27 Te Kowhai Airpark Zone, as notified.

Decision Reasons:

- The airpark is essential for residential housing for the growth of the area.
- Changes to the Obstacle Limitation Surface are essential to allow for future aviation operations and development.

Submitter Number: 229 **Submitter:** Stuart Parker

Point Number 229.2
Plan chapter Section C Rules > Chapter 27: Te Kowhai Airpark Zone
Summary of Decision Requested **Retain** Chapter 27 Te Kowhai Airpark Zone, as notified.

Decision Reasons:

- The submitter is a regular user of the airfield facilities.
- It provides a easily accessible 'hub' for pilots in the Hamilton area.
- The submitter would not want to see it whittled away by urban development encroaching around it.
- It is a jewel in the aviation world - very few places like it to fly into.

Submitter Number: 237 **Submitter:** Stuart Parker

Organisation: Recreational Aircraft Association (RAANZ)

Point Number	237.2
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone, as notified.
Decision Reasons:	<ul style="list-style-type: none"> • The Recreational Aircraft Association NZ represents 750 microlight pilots from around NZ. • Te Kowhai airfield is a key hub for pilots transiting through the Waikato, and has a long history in microlight aviation. • The Submitter wishes to preserve it as an aviation centre and avoid any restrictions due to urban encroachment.

Submitter Number:	277	Submitter:	Anthony Gurr
Point Number	277.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • This is somewhere the submitter would look to retire later in life, somewhere they can be close to two major centers and still own and operate an aircraft from the comfort of home. The submitter also believes that this will bring an influx of people to and business to Te Kowhai. 		
Decision Reasons:			

Submitter Number:	285	Submitter:	Anatoly Chernyshev
Point Number	285.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 - Te Kowhai Airpark Zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	429	Submitter:	Olivia Henwood
Point Number	429.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Te Kowhai Aerodrome is an asset to the aviation community. • As the surrounding area is facing big development, it is vital to secure the aerodrome for the future. • The proposal will allow the aerodrome to evolve and adopt to technological changes. 		

Submitter Number:	473	Submitter:	James Walker
Point Number	473.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Supports the proposed changes in the Waikato District Plan. • Te Kowhai Aerodrome is a very unique facility supporting aviation enthusiasts and local community activities. • The future of the airstrip is reliant on the proposed changes to advance in the future. 		

Submitter Number:	475	Submitter:	David Reid
Point Number	475.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Te Kowhai Airfield is an amazing resource that should be future proofed as well as grown. • It is unique in the Waikato and nationally. • It will make aviation more accessible, attainable and affordable as Hamilton Airport becomes more expensive and less user friendly. 		

Submitter Number:	476	Submitter:	Kenneth Mitchell
Organisation:	Ventura Inn and Suites		

Point Number	476.2
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone, as notified.
Decision Reasons:	<ul style="list-style-type: none"> • The policy framework recognises the significance of the current airfield asset which can be developed in a unique and sustainable way for the benefit of the local community, businesses and aviators. • The Proposed Obstacle Limitation Surface will help to future proof VFR/IFR operations, safety and the functionality of airpark residences. • Aligns zoning with the substantial investment that has yet to realise its full potential.

Submitter Number:	734	Submitter:	Richard Neave and Sue Campbell
Point Number	734.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain the whole of Chapter 27 Te Kowhai Airpark, Zone as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The airfield represents a scarce resource for the aviation community. • The proposed use is a way of ensuring longevity. • The airfield operators are community minded, sharing this resource in a way which includes local residents as well as aviation enthusiasts. • There is a need to keep as many airfields as possible. 		

Submitter Number:	736	Submitter:	Ian Chapman
Point Number	736.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain the whole of Chapter 27 (Te Kowhai Airpark Zone), as notified.		
Decision Reasons:	Te Kowhai airfield is a fantastic facility that deserves to be secure for the future.		

Submitter Number:	752	Submitter:	Jeff Weake
Organisation:	McGowan-Weake Limited		
Point Number	752.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27- Te Kowhai Airpark Zone (whole of chapter), as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Is going to add to the community. • Is going to add to the region. • Submission is in full support of proposal. 		

Submitter Number:	753	Submitter:	Gavin Brown
Point Number	753.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark zone (whole of chapter), as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Te Kowhai airfield is a valuable resource to the aviation community both locally and nationally. • Hamilton historically has been a hub for aviation innovation and Te Kowhai airfield is an important part of this. • The Airfield offers exceptional facilities and opportunities for those presently in aviation and for pilots of the future. • Proposed changes will ensure the airfield is able to provide the services required to facilitate the advancement of aviation. 		

Submitter Number:	767	Submitter:	Simon Clark
Point Number	767.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	770	Submitter:	Gordon Sanders
Point Number	770.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Te Kowhai Aerodrome provides a safe emergency landing option, convenient refueling place, recreation and educational resources, safe training airfield. • Development as a residential airpark would provide a valuable community amenity similar to popular overseas developments, create additional income for local businesses and rates for Council and show that the district is concentrating on increasing quality of life. 		

Submitter Number:	773	Submitter:	Michael Hayman
Point Number	773.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Te Kowhai Airpark would be a valuable asset for the community. 		

Submitter Number:	808	Submitter:	Tony Unwin
Organisation:	Gyrate International Ltd		

Point Number	808.2
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone, as notified.
Decision Reasons:	<ul style="list-style-type: none"> • The submitter flies from this airfield on a regular basis • It provides a vital service to both the aviation sector and the local community • The proposal should be approved and encouraged.

Submitter Number:	809	Submitter:	Gordon H L Swan
Point Number	809.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • For many years the submitter held the position of President of the Auckland Regional Microlight Club Inc. and during those years a sustainable aviation airfield dedicated to the lighter aircraft gave hours of safe flying, good instruction and was where many of today's pilots learnt to fly. • This airfield gives another airfield close to Auckland City and hospitals in emergencies. • The submitter sees this same situation in the Te Kowhai Airfield. • The aerodrome is an asset that can afford much pleasure to all the public area but in times of emergency, it can give the council and authorities a much-needed second option. • The Te Kowhai airfield would have a sustainable future. • The Te Kowhai airfield is an asset that must not end up disappearing like a lot of other small airfields around the country. 		

Submitter Number:	810	Submitter:	Phil North
Point Number	810.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	811	Submitter:	Martyn Seay
Point Number	811.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • It will protect the future of the airfield, which is a scarce resource becoming increasingly rare. • Small airfields suitable for microlight aircraft are closing up all over New Zealand and few are left. • Microlight aviation is far more affordable and accessible than other aviation activity and is prevented from using most other airfields due to changes in aviation law. 		

Submitter Number:	830	Submitter:	Linda Silvester
Point Number	830.14		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Add new provisions to Chapter 27 Te Kowhai Airpark Zone to include energy efficiency policies and rules (see submission for wording)		
Decision Reasons:	<ul style="list-style-type: none"> • The Proposed District Plan only makes passing reference to climate change and says nothing about coal, gas and oil's effect on global warming. • It is disappointing that Stage 2 of the Proposed District Plan is to be published in 2019 and that it is not possible to consider it in context with this part of the Plan. • Section 1.9.5 reflects the Resource Management Act requirements around climate change and renewable energy. 		

Submitter Number:	868	Submitter:	Huib Volker
Point Number	868.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 - Te Kowhai Airpark Zone, as notified.		

Decision Reasons:	<ul style="list-style-type: none"> • Submitter is a user of the Te Kowhai Airpark as an aircraft operator and would like to ensure it survives. • Submitter is considering buying into an airpark development planned for this location.
--------------------------	--

Submitter Number:	878	Submitter:	David Wilson
Point Number	878.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Te Kowhai aerodrome is an important hub for the aviation community of New Zealand. • It's continued existence contributes to aviation safety in the Waikato region with fuel availability and a good alternate option to Hamilton. • To enable an airpark would safeguard this unique facility and further enhance the considerable infrastructure that already exists at the aerodrome. • This should be viewed as a huge opportunity for the Waikato region to take advantage of a unique and limited site where this type of development could be possible. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.5		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone		
Summary of Decision Requested	Amend Chapter 27: Te Kowhai Airpark Zone to add a statement of purpose and anticipated outcomes of corresponding zone or subzone, and where appropriate make links to health and wellbeing considerations.		
Decision Reasons:	<ul style="list-style-type: none"> • Currently there are no statements of purpose or descriptions for any of the zones or the intended outcomes to be achieved, leading to a reliance on objectives, policies and explanations within Section B of the Plan, which are based under generic heading topics with little zone based commentary. • There is an opportunity to clarify the purpose of a zone and increase understanding of outcomes, and appropriate types of activities for the different environments. • The amendments would assist with a clear understanding of the purpose and character of the various zones. 		

Plan chapter: Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.1 Land Use - Activities

Submitter Number:	369	Submitter:	Linnet Watson
On behalf of:	S W Ranby		
Point Number	369.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.1 Land Use - Activities		
Summary of Decision Requested	No specific decision sought, but submission opposes Chapter 27 Te Kowhai Airpark.		
Decision Reasons:	<ul style="list-style-type: none"> • The range of activities proposed within Precincts A and B of Te Kowhai Airpark will facilitate an increase in aircraft movements (projected to be in the vicinity of 57 aircraft movements per day, or 21,000 per annum). • Aircraft arrivals and departures are not subject to District Plan Rules, and are therefore noted as being outside the scope of the Acoustic Assessment, which focuses on the noise from taxiing aircraft and other on-site activities. If increased aircraft movements are facilitated or supported by the Objectives and Policies of the Plan then there will be an increase in the frequency that neighbouring properties experience the noise of arrivals and departures. This has not been adequately considered in terms of the adverse effect on neighbouring properties, and is an effect that is impossible for the Airpark to internalise. • The Summary Assessment of Environmental Effects for the Section 32 Report for Te Kowhai Airpark Zone compares future aircraft movements with earlier data of aircraft movements experienced in the early 2000's, however the Section 32 Report also acknowledges that the Operative District Plan (ODP) contains no objectives, rules, or other methods that are specifically applicable to airparks and that aircraft movements are currently unrestricted by the ODP (being controlled only by the existing air noise boundary). The inability of the Operative District Plan to manage air traffic using the Te Kowhai runway is being used as justification of the current proposal, when the noise effects of air traffic and the impact on amenity values in this area have not been fully considered. • Proposed Policy 9.2.1.6 refers to airspace protection via an increased Obstacle Limitation Surface (OLS). This would introduce a new height restriction on the Ranby property that is lower than the current permitted height in the Rural zone, including restrictions on vegetation / tree height that will result in obligations that do not currently exist, and resultant financial obligations on property owners within the OLS. In terms of buildings, the OLS intrudes 78.5m into the Ranby property before the District Plan height limit of 10m matches the restrictions of the OLS. • The objectives and policies seem strongly aimed at supporting the social, economic and cultural wellbeing of the aviation sector without considering the short and long term effects outside the Airpark. • The land use activities provided for a range of activities that are not adequately controlled by the proposed rules. • Aircraft arrivals and departures are already clearly heard from the existing residential dwelling on the Ranby property. Rule 27.1 serves to exacerbate that effect by allowing general aviation as an unfettered permitted activity, with no limits on aircraft numbers, and therefore no restriction on the noise emitted from aircraft arrival and departure, i.e. noise from overhead aircraft outside of the Airpark. • The Acoustic Report notes that there is potential for a twin engine aircraft and/or small jets to be domiciled at Te Kowhai Airpark, and that if that was proposed, it should be specifically assessed. However the Proposed District Plan contains no rules that limit the type of aircraft that can use the Airpark, with 'General Aviation' being a permitted activity in Precincts A and B. • Residential subdivision is proposed to be provided for as a restricted discretionary activity in Precincts B - D and residential development as a permitted activity in Precincts C and D upon high class soils (New Zealand Land Resource Inventory Land Use Capability Unit 2w2), which is at odds with other strategies for the District. 		

Plan chapter: Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.1 Land Use - Activities > 27.1.1 Activity Status Table

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.82		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.1 Land Use - Activities > 27.1.1 Activity Status Table		

Summary of Decision Requested	Amend Rule 27.1.1 P31 and P32 Activity Status Table, to ensure commercial zoning at the airpark does not increase in scale and risk impacting on established commercial centres within Hamilton City.
	AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.
Decision Reasons:	<ul style="list-style-type: none"> Cafes and Restaurants, and Retail (up to 300m² within the four precincts), are provided for as a permitted activity in this zone on the outskirts of Hamilton. The submitter questions how this commercial hub fits within Waikato District's own aspirations for the main village of Te Kowhai and how well integrated these will be with the existing community. The submitter has concerns about the impact the Commercial zoning at the airpark will have on the nearby established commercial centres, particularly in relation to the permitted activity status of retail in the Airpark. It is also not immediately clear whether this is 300m² in total spread between the 4 precincts, or whether it is 1200m² of retail. Nevertheless, both of the quantum are questioned, but most particularly the larger one. Te Kowhai is not a major commercial centre, and any commercial activities proposed should be of a scale to serve the community within which it is located.

Submitter Number:	602	Submitter:	Greig Metcalfe
Point Number	602.9		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.1 Land Use - Activities > 27.1.1 Activity Status Table		
Summary of Decision Requested	Add the following activities to Rule 27.1.1 Activity Status Table: <ul style="list-style-type: none"> Flight training school - Non-complying activity in all precincts Circuit training - Non-complying activity in all precincts AND Add definitions for these terms to Chapter 13 Definitions. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Pilot training associated with a flight training school based at Te Kowhai Airpark or another airfield that uses Te Kowhai Airpark as a de facto training runway could lead to increases in noise and neighbour irritation/anxiety. 		

Submitter Number:	781	Submitter:	Ministry of Education
Point Number	781.19		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.1 Land Use - Activities > 27.1.1 Activity Status Table		
Summary of Decision Requested	Amend Rule 27.1.1 Activity Status Table as follows: 27.1.1 Activity Status Table Teaching and Conference Education Facilities Precinct A: Non-complying Restricted Discretionary Precinct B: Permitted Precinct C: Discretionary Restricted Discretionary Precinct D: Discretionary Restricted Discretionary AND Add the following matters of discretion to Rule 27.1 Land Use Activities as follows: <u>27.1.2 Restricted Discretionary Activities</u> (1) <u>The activities listed below are restricted discretionary activities</u> (2) <u>Discretion to grant or decline consent and impose conditions is restricted to the matters of discretion set out in the following table:</u> Activity <u>RD1 Education facilities</u> Matters of discretion a. <u>The extent to which it is necessary to locate the activity in the Te Kowhai Airpark Zone</u> b. <u>Reverse sensitivity effects of adjacent activities</u> c. <u>The extent to which the activity may adversely impact on the transport network</u> d. <u>The extent to which the activity may adversely impact on the streetscape</u> e. <u>The extent to which the activity may adversely impact on the noise environment</u>		
Decision Reasons:	<ul style="list-style-type: none"> Opposes the activity status for education facilities. Teaching facilities such as tertiary education institutions, work skills training centres, flight schools and early childhood education centres may need to be located within the Te Kowhai Airpark Zone for the convenience of parents and students. The submitter requests consistency with their requested definition of 'Education facilities'. 		

Plan chapter: Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects

Submitter Number:	602	Submitter:	Greig Metcalfe
Point Number	602.10		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects		
Summary of Decision Requested	Amend Rule 27.2 Land Use - Effects, by inserting appropriate standards for "general aviation" and "recreational flying" so that these activities are carried out in		

accordance with "Fly Neighbourly" principles to avoid adverse impacts on neighbours. These standards should include, but not be limited to:

- A requirement to adhere to an "Airpark Management Plan" prepared in consultation with neighbours and Te Kowhai community.
- A stipulation on the hours of operation to limit night flying,
- A stipulation on the maximum of aircraft movements being 21,000 per annum.

• AND

Any consequential amendments and/or additional relief required to address the matters raised in the submission.

Decision Reasons:

- Adherence to 'Fly Neighbourly' principles will ensure that the type of, and repetitive nature of, noise from aircraft operations is managed in and around noise-sensitive areas. Further reading can be found in the NZ Aviation Industry Association Environmental Code of Practice and the Helicopter Association International (HAI) "Fly Neighbourly Guide".

Plan chapter: Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.6 Noise - Other than Taxiways

Submitter Number:	304	Submitter:	Graham Taylor
Point Number	304.1		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.6 Noise - Other than Taxiways		
Summary of Decision Requested	Amend Rule 27.2.6 Noise - Other than Taxiways to include a night curfew on general aviation and recreational flying between 10pm and 7am.		
Decision Reasons:	<ul style="list-style-type: none"> • There are many dwellings in close proximity to the airfield and aircraft movements at night would have serious adverse effects on residents. 		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.56		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.6 Noise - Other than Taxiways		
Summary of Decision Requested	Retain Rule 27.2.6 Noise - Other than Taxiways.		
Decision Reasons:	<ul style="list-style-type: none"> • Fire and Emergency New Zealand supports Rule 27.2.6 as it permits noise generated by emergency sirens. This exemption appropriately provides for the operational requirements of Fire and Emergency New Zealand and enables them to meet its statutory obligations in a manner that provides for the on-going health and safety of people and communities. 		

Submitter Number:	602	Submitter:	Greig Metcalfe
Point Number	602.11		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.6 Noise - Other than Taxiways		
Summary of Decision Requested	<p>Amend Rule 27.2.6 P1(a) and P2 Noise - Other than Taxiways, as follows:</p> <p><i>P1 (a) Noise from any activity in PRECINCT B must not exceed the following noise limits when measured at the notional boundary of a site within the Rural Zone or Village Zone....</i></p> <p><i>P2 (a) Noise from any activity in PRECINCTS C OR D must not exceed the following noise limits when measured at the notional boundary of any site in the Rural zone or Village Zone outside of the Te Kowhai Airpark Zone ...</i></p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The Village Zone is located near Te Kowhai Airpark and should therefore be included in this noise rule. 		

Submitter Number:	823	Submitter:	NZTE Operations Limited
Point Number	823.27		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.6 Noise - Other than Taxiways		
Summary of Decision Requested	<p>Amend the title of Rule 27.2.6- Noise- Other than Taxiways as follows:</p> <p><i>27.2.6- Noise- Other than Aircraft Operations than Taxiways.</i></p> <p>AND</p> <p>Amend the Proposed District Plan for any consequential relief required to give effect to this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • This change is a consequential amendment of introducing new Te Kowhai Airpark Airport Noise Control Boundaries. • Rule 27.2.6 as notified does not anticipate the proposed ANCB's, so needs to be amended accordingly. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.168		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.6 Noise - Other than Taxiways		

Summary of Decision Requested

Amend Rule 27.2.6 P1, P2, P3 and D1 Noise - Other than Taxiways, as follows:

P1

~~(a) Noise from any activity in PRECINCT B must not exceed the following noise limits when measured at the notional boundary of a site within the Rural Zone:~~

~~(i) 55dB (LAeq), 7am to 10pm every day; and~~

~~(ii) 40dB (LAeq) and 70dB (LAFmax), 10pm to 7am the following day.~~

~~(a) Sound from emergency sirens.~~

~~(b) Sound from aircraft movements on taxiways received at 98A and 98B Limmer Road.~~

P2

~~(a) Noise from any activity in PRECINCTS C OR D must not exceed the following noise limits when measured at the notional boundary of any site in the Rural Zone outside of the Te Kowhai Airpark Zone:~~

~~(i) 50dB (LAeq), 7am to 7pm every day; and~~

~~(ii) 45dB (LAeq), 7pm to 10pm every day; and~~

~~(iii) 40dB (LAeq), and 65dB (LAFmax) all other times.~~

~~Sound measured in accordance with NZS 6801:2008 and assessed in accordance with NZS 6802:2008 must not exceed:~~

~~(a) For sound from activity in Precinct B, excluding aircraft movements on taxiways, the following noise limits at any point within a notional boundary on any site outside the Te Kowhai Airpark Zone:~~

~~(i) 55 dB LAeq(1.5min), 7am to 10pm;~~

~~(ii) 40 dB LAeq(1.5min), 10pm to 7am the following day;~~

~~(iii) 70dBA LAFmax, 10pm to 7am the following day.~~

~~(b) For sound from activity in Precincts C or D, excluding aircraft movements on taxiways, the permitted activity noise limits for the zone of any site where sound is received outside the Te Kowhai Airpark Zone.~~

~~(c) For sound from aircraft movements on taxiways, the following noise limits at any point within notional boundaries on 202, 212 and 214 Limmer Road:~~

~~(i) 50 dB LAeq(1.5min), 7am to 10pm;~~

~~(ii) 40 dB LAeq(1.5min), 10pm to 7am the following day;~~

~~(iii) 65 dB LAFmax, 10pm to 7am the following day;~~

~~(d) For sound from aircraft movements on taxiways, received at any other sites outside the Te Kowhai Airpark Zone, the permitted activity noise limits for the zone of any site where sound is received.~~

P3

~~(a) In ALL PRECINCTS, Rules P1 and P2 do not apply to:~~

~~(i) Noise from aircraft movement on the taxiways; or~~

~~(ii) Construction noise; or~~

~~(iii) Noise from emergency sirens.~~

D1

~~(a) Sound that is outside the scope of NZS 6802:2008 or a permitted activity standard; and~~

~~(b) Sound Any activity that does not comply with Rule 27.2.6 P1 or P2.~~

Decision Reasons:

- The proposed noise limits are generally in accordance with guideline values and use current measurement and assessment standards, acoustical metrics, numerical values, time-frames and assessment location. Inclusion of rules for specific activity are supported, however, the following issues have been identified:
 - Incorrect terminology has been used in conflict with the standards specified,
 - No provision has been made for sound sources outside the scope of NZS 6802,
 - Measurement and assessment standards need to be specified,
 - There is an inconsistent approach for sound received in another zone,
 - The separation of noise limit into Rules 27.2.6 and 27.2.7 adds unnecessary complexity,
 - The format of the rules is inconsistent with other chapters.

Plan chapter: Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.7 Noise – Taxiways

Submitter Number:	304	Submitter:	Graham Taylor
Point Number	304.2		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.7 Noise – Taxiways		
Summary of Decision Requested	Amend Rule 27.2.7 Noise - Taxiways to include a night curfew on general aviation and recreational flying between 10pm and 7am.		
Decision Reasons:	<ul style="list-style-type: none">• There are many dwellings in close proximity to the airfield and aircraft movements at night would have serious adverse effects on residents.		

Submitter Number:	602	Submitter:	Greig Metcalfe
Point Number	602.12		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.7 Noise – Taxiways		
Summary of Decision Requested	Amend Rule 27.2.7 P1 (a)(ii) Noise - Taxiways, as follows: (ii) <i>When measured at the notional boundary of any other site in the Rural Zone or Village Zone ...</i> AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none">• The Village Zone is near Te Kowhai Airpark and should therefore be included in this noise rule.		

Submitter Number:	823	Submitter:	NZTE Operations Limited
Point Number	823.14		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.7 Noise – Taxiways		
Summary of Decision Requested	<p>Delete Rule 27.2.7- Noise- Taxiways.</p> <p>AND</p> <p>Add a new Rule 27.2.7- Noise- Aircraft Operations as follows:</p> <p><u>27.2.7 Noise- Aircraft Operations</u></p> <p><u>Noise from aircraft operations in ALL PRECINCTS, including aircraft movements on taxiways, shall not exceed 65dB Ldn outside the Air Noise Boundary and 55dB Ldn outside the Outer Control Boundary as shown in the Planning Maps. These limits do not apply inside the Te Kowhai Airpark Zone. For the purpose of this control aircraft noise shall be assessed in accordance with NZS6805:1992 "Airport Noise Management and Land Use Planning" and logarithmically averaged over a three month period. For the purposes of this Rule aircraft operations shall include aircraft taking-off, landing, taxiing and flying on circuit flight paths. The following operations are excluded from the calculation of noise for compliance with noise limits:</u></p> <ul style="list-style-type: none"> • <u>Aircraft engine testing and maintenance</u> • <u>Aircraft landing or taking off in an emergency.</u> • <u>Emergency, flights required to rescue persons from life threatening situations or to transport patients, human vital organs or medical personnel in a medical emergency.</u> • <u>Flights required to meet the needs to a national or civil defence emergency declared under the Civil Defence Emergency Management Act 2002</u> • <u>Aircraft using the airfield due to unforeseen circumstances as an essential alternative to landing at a scheduled airport elsewhere</u> • <u>Aircraft undertaking firefighting duties</u> • <u>Air Shows (for one air shows per year).</u> <p><u>Aircraft movements shall be recorded monthly and once the total movements in the busiest three month period reaches 4 500, noise contours for the purpose of assessing compliance with Rule 27.2.7 shall be calculated once every three years. When the calculated noise level is within 1 decibel of the limit, noise contours for the purpose of assessing compliance with Rule 27.2.7 shall be calculated annually and verified with infield monitoring once every three years.</u></p> <p>AND</p> <p>Amend the Proposed District Plan for any consequential relief required to give effect to this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • This change is a consequential amendment of introducing new Te Kowhai Airpark Airport Noise Control Boundaries. • Taxiing noise is not currently anticipated in the notified OCNB but is provided for through the Te Kowhai Buffer Zone and specific rules in Chapter 27 Rule 27.2.7. • Taxiing noise is included in the proposed ANCB therefore Rule 27.2.7 needs to be deleted and replaced with wording to reflect this.

Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports all rules in this section. 		

Plan chapter: Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.10 Earthworks

Submitter Number:	945	Submitter:	First Gas Limited
Point Number	945.29		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.10 Earthworks		
Summary of Decision Requested	<p>Add a new condition (viii) to Rule 27.2.10 PI as follows:</p> <p><i>(viii) Earthworks to a depth of greater than 200mm are to be located a minimum of 1.2m from the centreline of a gas transmission pipeline.</i></p>		

AND

Any consequential amendments and other relief to give effect to the matters raised in the submission.

Decision Reasons:

- To address reverse sensitivity effects, the submitter seeks the inclusion of a new earthworks rule requiring a 12m setback from gas transmission pipelines where earthworks are proposed to a depth of greater than 200mm.

Point Number

945.30

Plan chapter

Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.10 Earthworks

Summary of Decision Requested

Add a matter of discretion to Rule 27.2.10 RD1 (b) - Earthworks as follows:

(xii) Effects on the safe, effective and efficient operation, maintenance and upgrade of infrastructure, including access.

AND

Any consequential amendments and other relief to give effect to the matters raised in the submission.

Decision Reasons:

- The submitter seeks to include an additional matter over which Council's discretion shall be limited under RD1 (b) to address potential effects of earthworks on gas transmission lines.

Plan chapter: Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.11 Hazardous Substances

Submitter Number:

378

Submitter:

Fire and Emergency New Zealand

Point Number

378.75

Plan chapter

Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.11 Hazardous Substances

Summary of Decision Requested

Amend Rule 27.2.11 Hazardous Substances, as follows:

(a) In ALL PRECINCTS, the use, storage or disposal of any hazardous substance where:

(i) The aggregate quantity of hazardous substance of any hazard classification on a site is less than the quantity specified for Te Kowhai Airpark Zone in Table 5.1 contained within Appendix 5 (Hazardous Substances);

(ii) The storage or use of radioactive materials is in approved equipment for medical and diagnostic purposes, or specified as an exempt activity or article in the Radiation Safety Act and Regulations 2017.

(iii) Rule 27.2.11 (a), (i) excludes fire service operations.

AND

Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- Fire and Emergency New Zealand opposes Rule as while fire stations and associated firefighting activities involve the use and storage of hazardous substances at quantities that are considered minor, it is possible that the permitted provisions may not enable for this, and could affect Fire and Emergency New Zealand's ability to operate as easily and smoothly as needed.
- Therefore, Fire and Emergency New Zealand requests fire stations and associated firefighting activities are excluded from Rule 27.2.11 for the following reasons:
 1. The 8.3 classification (Table 5.1 contained within Appendix 5 (Hazardous Substances)) has a relatively low limit in the Business Town Centre Zone, and is quite low in other areas- lots of household products are eye corrosives from dishwashing to laundry powder. This would limit and potentially prevent Fire and Emergency New Zealand having a HAZMAT vehicle based in this zone because they carry neutralizing agents which are eye corrosives. A greater concern is that some of Fire and Emergency New Zealand's fire retardants and foams also have this classification and this limit could potentially require that Fire and Emergency New Zealand need a resource consent to hold a small amount or and other these chemicals on site, as a lower limit would be largely taken up by ordinary household chemicals used on site.
 2. The 8.3A classification is for eye corrosion. A person is only affected by this hazard class if they come into direct contact with a product with this classification. This hazard is also managed under the health and safety at work and HSNO legislation usually via labeling and PPE requirements. Fire and Emergency New Zealand considers that there is no logic in restricting the amount of these substances held as it relates to Fire and Emergency New Zealand operations, particularly if they are in enclosed containers for systems.
 3. Some of Fire and Emergency New Zealand's fire retardants are solids rather than liquids and the reasons for the limits specified in the plan do not make sense for solids. Fire and Emergency New Zealand current main fire retardant is a powder but Fire and Emergency New Zealand are also looking at new foams which come in bricks. As such, higher restrictions for waterways do not make sense for these products as they do not leak or flow.
 4. Fire and Emergency New Zealand often requires the temporary storage of chemicals necessary for providing an emergency response, during an emergency and within a short period after the emergency, i.e. there is a small grace period for example if Fire and Emergency New Zealand need a truck to remove a container which has firefighting chemicals in it, they may need to wait for a few working days after the emergency has finished for a contractor to do that work. Not providing for this could restrict Fire and Emergency New Zealand's ability to respond to bush or other major events, e.g. large acid spills and other HAZMAT events. This could also result in a breach of the RMA in order to bring in the necessary products to resolve the issue and prevent harm to people/the environment.

'Oil Companies'

Point Number

785.7

Plan chapter

Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.11 Hazardous Substances

Summary of Decision Requested

Delete Rule 27.2.11 – Hazardous Substances.

AND

Any consequential amendments or further relief to give effect to the submission.

Decision Reasons:

- The proposed provisions are opposed and the submitter seeks the deletion of all proposed hazardous substances controls relating to storage, use, disposal or transportation of hazardous substances at service station sites (as broadly defined) or refuelling sites.
- The submitter also supports the deletion of all rules pertaining to control hazardous substances where such controls are inappropriate, unnecessary, ineffective, inefficient and unable to be justified via a Section 32 analysis.
- These rules are all designed to address risk associated with hazardous substances. Risk is appropriately managed via other legislation and the Section 32 Report fails to identify why additional controls are required.
- The Resource Legislation Amendment Act 2017 removed the explicit function of district and regional councils to control adverse effects of the storage, use, disposal, or transportation of hazardous substances under sections 30 and 31 of the Resource management Act 1991 (RMA).

- The changes came into effect on 19 April 2017 and are intended to ensure councils only place controls on hazardous substances where necessary to control effects under the RMA that are not covered by Hazardous Substance New Organisms Act 1996 or Health and Safety At Work Act 2015.
- The purpose of the Hazardous Substances New Organisms Act is to protect the environment, and the health and safety of people and communities, by preventing or managing the adverse effects of hazardous substances and new organisms. The Hazardous Substances New Organisms Act covers a range of matters including:
 - a. site and building requirements for where a hazardous substance may be used, including requirements for storage and primarily requiring primary and secondary containment;
 - b. the safe transportation of hazardous substances;
 - c. emergency management requirements in relation to the substance in the event of a spill or other emergency; and
 - d. how the substance may be disposed of.
- The Health and Safety At Work Act 2015 provides a framework to secure the health and safety of works and workplaces and integrates the regulation of workplace use of hazardous substances.
- The Resource Legislation Amendment Act 2017 followed the decision of the Independent Hearing Panel on the Christchurch Replacement District Plan. That decision was to reject Christchurch City Council's hazardous substance controls (which were based on an activity status table (AST) approach and to only retain controls relating to hazardous substances in close proximity to the National Grid.
- The Ministry for the Environment considers that in most cases the Hazardous Substances New Organisms Act and the Health and Safety At Work Act 2015 controls will be adequate to avoid, remedy or mitigate adverse environmental effects of hazardous substances and that RMA controls may be used if existing HSNO or Work safe controls are not adequate to address the environmental effects of hazardous substances in any particularly case. The submitter strongly supports the Ministry for the Environment's position in this regard.
- The submitter seeks that any proposed controls around hazardous substances do not duplicate those controls addressed under other legislation. Any duplication is considered unnecessary and inefficient.
- The section 32 report for Hazardous Substances acknowledges the removal of Council's functions in regards to hazardous substances and recognizes the "Resource Management Plans should not be in conflict with HSNO requirements and should not repeat them".
- The report further recognizes that "rationale for a higher level of protection through additional land use controls under the Act may be appropriate for substances both controlled by the Hazardous Substances New Organisms Act or for issues which are not within the scope of the Hazardous Substances New Organisms Act, such as reverse sensitivity".
- However there is a significant disconnect between the overview and purpose sections of the Section 32 Report and the regulatory provisions in the Proposed District Plan.
- As an example, in regard to service stations the Section 32 Report concludes that, "the controlled activity status has been assigned to the storage and retail sale of fuel within service stations above a certain level in some zones to recognize that these substances are well managed through standards and industry practice. However, above these thresholds, the opportunity to consider potential adverse effects on the surrounding environment is considered.
- No rationale/analysis is provided within the section 32 report to justify why specific volume thresholds apply to service stations or why the opportunity to consider potential adverse effects on the surrounding environment is considered reasonable if quantities are above those limits.
- The Section 32 Report does not provide analysis to justify why hazardous substances associated with service stations are only addressed in certain zones and in what way the Council considers the Hazardous Substances New Organisms Act to not adequately control potential adverse effects associated with hazardous substances at service station - for example, why the Council considers site design, layout and monitoring and reporting of incidents are matters that the Council should reserve control over.
- In light of the Resource Legislation Amendment Act 2017 and controls under other legislation and the lack of rationale/analysis within the Section 32 Report for hazardous substances, it is considered the proposed hazardous substance controls are largely unnecessary and should therefore be deleted.

Plan chapter: Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.12 Signs

Submitter Number:	602	Submitter:	Greig Metcalfe
Point Number	602.56		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.12 Signs		
Summary of Decision Requested	<p>Amend Rule 27.2.12 P3 (a) Signs - general as follows:</p> <p>(a) Any real estate for sale sign relating to the site on which it is located must comply with all of the following conditions:</p> <p>(i) There is no more than 1 sign per agency measuring 600mm x 900mm per road frontage of the site to which the sign relates;</p> <p>(ii) There is no more than 1 sign measuring 1800mm x 1200mm per site to which the sign relates;</p> <p>(iii) There is no more than 1 real estate header sign measuring 1800mm x 1200mm on one other site;</p> <p>(iv) The sign is not illuminated;</p> <p>(v) The sign does not contain any moving parts, fluorescent, flashing or revolving lights or reflective materials;</p> <p>(vi) The sign does not project into or over road reserve.</p> <p>(vii) Any real estate sign shall be removed from display within 60 days of sale/lease or upon settlement, whichever is the earliest.</p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The notified rules for real estate signs are too restrictive. • Corner sites should be able to have additional sign opportunities without adversely affecting residential character and amenity. • Allowance should be made for feature signs which are commonly used for properties going to auction or tender. • Header signs should be able to be established on another sign (often on a high volume road) to direct purchasers to the site which is for sale (often on a low volume road). 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.175		
Plan chapter	Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.12 Signs		
Summary of Decision Requested	<p>Retain Rule 27.2.12 P1 Signs as notified.</p> <p>AND</p>		

Retain Rule 27.2.12 P2 Signs as notified

AND

Retain Rule 27.2.12 P4 Signs as notified.

AND

Retain Rule 27.2.12 RDI Signs as notified.

Decision Reasons:

- The submitter supports the proposed sign rules as the conditions ensure there will be no adverse effects on the transport network.

Plan chapter: Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.13 Signs - effects on traffic

Plan chapter

Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.13 Signs - effects on traffic

Summary of Decision Requested

Retain Rule 27.2.13 P1 Signs- effects on traffic, except for the amendments sought below

AND

Amend Rule 27.2.13 P1(a)(iv) Signs - effects on traffic as follows:

~~Contain a maximum no more than 40 characters and a maximum no more than 6 words, symbols or graphics;~~

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter supports the intent of Rule 27.2.13 P1 but seeks amendment to provide clarification on the maximum amount of words permitted. This will ensure that signage erected does not cause unnecessary visual clutter or affect the efficient, safe and effective functioning of the transport network.

Point Number

742.177

Plan chapter

Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.13 Signs - effects on traffic

Summary of Decision Requested

Retain Rule 27.2.13 RDI Signs- effects on traffic, except for the amendments sought below

AND

Amend Rule 27.2.13 RDI(b)(ii) Signs - effects on traffic as follows:

~~Effects on the safe and efficient operation of the road-land transport network;~~

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter supports Council retaining discretion over effects on safety and efficiency with minor amendment.

Plan chapter: Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.14 Temporary Events

Submitter Number:

742

Submitter:

Kim Harris-Cottle

Organisation:

New Zealand Transport Agency

Point Number

742.178

Plan chapter

Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.14 Temporary Events

Summary of Decision Requested

Retain Rule 27.2.14 P1 Temporary Events as notified.

Decision Reasons:

- The submitter supports no direct access from a national route or regional arterial road.
- Temporary events are subject to Rule 14.12.1.4 which would ensure that for events exceeding a certain size, any effects on the transport network could be addressed.

Point Number

742.179

Plan chapter

Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.14 Temporary Events

Summary of Decision Requested

Retain Rule 27.2.14 RDI Temporary Events, except for the amendments sought below

AND

Amend Rule 27.2.14 RDI(b)(iv) Temporary Events as follows:

~~Traffic and road safety effects~~ Effects on the safe and efficient operation of the land transport network.

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter supports Council retaining discretion on traffic and road safety effects but seeks minor amendment for consistency.

Submitter Number: 823 **Submitter:** NZTE Operations Limited

Point Number 823.5

Plan chapter Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.2 Land Use – Effects > 27.2.14 Temporary Events

Summary of Decision Requested **Delete** Rule 27.2.14 (d) - Temporary Events.
AND

Amend the Proposed District Plan for any consequential relief required to give effect to this submission.

Decision Reasons:

- Rule 27.2.14(d) does not allow direct site access from a 'national route' or 'regional arterial' road for Temporary Events as a permitted activity. The terminology is not in accord with the One Network Road Classification used by the New Zealand Transport Agency. The One Network Road Classification for Limmer Road (State Highway 39) is 'Arterial'.
- Currently, the only vehicular access into the Te Kowhai Airpark Zone is off State Highway 39, meaning that there is effectively no permitted activity status for temporary events. Submission notes that this appears to be a carry-over from the Operative District Plan Rural Zone rules.

Plan chapter: Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.3 Land Use – Building > 27.3.7 Building setback from a State highway

Submitter Number: 742 **Submitter:** Kim Harris-Cottle

Organisation: New Zealand Transport Agency

Point Number 742.180

Plan chapter Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.3 Land Use – Building > 27.3.7 Building setback from a State highway

Summary of Decision Requested **Retain** Rule 27.3.7 P1 Building setback from a state highway as notified.

Decision Reasons:

- The submitter supports a 15m setback as it will avoid adverse effects on the state highway.

Plan chapter: Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.4. Subdivision

Submitter Number: 945 **Submitter:** First Gas Limited

Point Number 945.31

Plan chapter Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.4. Subdivision

Summary of Decision Requested **Add** a new rule to Rule 27.4 Subdivision as follows:

Subdivision – Site containing a gas transmission pipeline

(a) Subdivision of land containing a gas transmission pipeline is a restricted discretionary activity.

(b) Council's discretion shall be restricted to the following matters:

(i) The extent to which the subdivision design avoids or mitigates conflict with the gas infrastructure and activities.

(ii) The ability for maintenance and inspection of pipelines including ensuring access to the pipelines.

(iii) Consent notices on titles to ensure on-going compliance with AS2885 Pipelines-Gas and Liquid Petroleum-Parts 1 to 3.

(iv) The outcome of any consultation with First Gas Limited.

AND

Any consequential amendments and other relief to give effect to the matters raised in the submission.

Decision Reasons:

- To address reverse sensitivity effects, the submitter seeks the inclusion of a new rule under the Subdivision rules within the Rural zone.
- The addition of a new rule would make subdivision of a site containing a gas transmission pipeline a restricted discretionary activity.

Plan chapter: Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.4. Subdivision > 27.4.2 Subdivision allotment size

Submitter Number: 378 **Submitter:** Fire and Emergency New Zealand

Point Number 378.76

Plan chapter Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.4. Subdivision > 27.4.2 Subdivision allotment size

Summary of Decision Requested **Retain** Rule 27.4.2 Subdivision allotment size, as subdivision is a restricted discretionary activity, except for the amendments sought below
AND

Amend Rule 27.4.2 Subdivision allotment size, as follows:

(a) Subdivision within PRECINCT B.

(b) Council's discretion is restricted to the following matters:...

(x) Proposed lots must be connected to public-reticulated water supply or water supply sufficient for firefighting purposes.

(a) Subdivision within PRECINCT C AND D where:...

(x) Proposed lots must be connected to public-reticulated water supply or water supply sufficient for firefighting purposes.

Council's discretion is restricted to the following matters:...

(x) Provision of infrastructure, including water supply for firefighting purposes.

AND

Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- Fire and Emergency New Zealand requires proposed lots to be connected to public-reticulated water supply or water supply sufficient for firefighting purposes. Subdivision that does not comply is a Discretionary Activity.
- The changes sought promotes consistency across all zones in the District Plan.

Submitter Number: 535 **Submitter:** Lance Vervoort

Organisation: Hamilton City Council

Point Number 535.83

Plan chapter Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.4. Subdivision > 27.4.2 Subdivision allotment size

Summary of Decision Requested **Amend** Rule 27.4.2 Subdivision Allotment Size, to simplify the subdivision framework and clarify what the infrastructure implications are, what quantum of development can occur and what effects are anticipated from subdivision within this zone.

AND

Any consequential amendments and/or additional relief required to address the matters raised in the submission.

Decision Reasons:

- As this area is located very close to the boundary of Hamilton any subdivision increasing the number of urban lots has a strong potential for cross boundary impacts, particularly to Hamilton's roading, waters and community infrastructures.
- The proposal to allow a range of allotment sizes, ranging in size from 450m², to 1000m² to 2500m² and 800m² (depending on the reticulation available, and the location within the precincts) indicates an intensity that may prove unacceptable when there is difficulty in providing all necessary services to the future intended residential of the area.
- There is no clear way to determine the overall maximum allotment number or what infrastructure would be provided.

Plan chapter: Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.4. Subdivision > 27.4.5 Road access

Submitter Number: 742 **Submitter:** Kim Harris-Cottle

Organisation: New Zealand Transport Agency

Point Number 742.181

Plan chapter Section C Rules > Chapter 27: Te Kowhai Airpark Zone > 27.4. Subdivision > 27.4.5 Road access

Summary of Decision Requested **Retain** Rule 27.4.5 RD1 Road access as notified.

AND

Retain Rule 27.4.5 D1 Road access as notified.

Decision Reasons:

- The submitter supports Rules 27.4.5 RD1 and D1 and the requirement to be in general accordance with Appendix 9 (Te Kowhai Airfield precinct zoning).

Plan chapter: Section C Rules > Chapter 28: Rangitahi Peninsula Zone

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.423

Plan chapter Section C Rules > Chapter 28: Rangitahi Peninsula Zone

Summary of Decision Requested **Amend** Rule 28(4) as follows:

The rules that apply to subdivision in the Rangitahi Peninsula Zone are contained in Rule 28.4 and the relevant rules in 14 Infrastructure and Energy; and 15 Natural Hazards and Climate Change (Placeholder).

Decision Reasons:

- To clarify that the rules in Chapter 14: Infrastructure and Energy and Chapter 15: Natural Hazards and Climate Change apply to subdivision as well as to land use activities.

Submitter Number: 830 **Submitter:** Linda Silvester

Point Number 830.15

Plan chapter Section C Rules > Chapter 28: Rangitahi Peninsula Zone

Summary of Decision Requested **Add** new provisions to Chapter 28 Rangitahi Peninsula Zone to include energy efficiency policies and rules (see submission for wording)

Decision Reasons:

- The Proposed District Plan only makes passing reference to climate change and says nothing about coal, gas and oil's effect on global warming.
- It is disappointing that Stage 2 of the Proposed District Plan is to be published in 2019 and that is not possible to consider it in context with this part of the Plan.
- Section 1.9.5 reflects the Resource Management Act requirements around climate change and renewable energy.

Submitter Number:	923	Submitter:	Waikato District Health Board
--------------------------	-----	-------------------	-------------------------------

Point Number 923.6

Plan chapter Section C Rules > Chapter 28: Rangitahi Peninsula Zone

Summary of Decision Requested **Amend** Chapter 28: Rangitahi Peninsula Zone to add a statement of purpose and anticipated outcomes of corresponding zone or subzone, and where appropriate make links to health and wellbeing considerations.

Decision Reasons:

- Currently there are no statements of purpose or descriptions for any of the zones or the intended outcomes to be achieved, leading to a reliance on objectives, policies and explanations within Section B of the Plan, which are based under generic heading topics with little zone based commentary.
- There is an opportunity to clarify the purpose of a zone and increase understanding of outcomes, and appropriate types of activities for the different environments.
- The amendments would assist with a clear understanding of the purpose and character of the various zones.

Plan chapter: Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.1 Land Use – Activities > 28.1.1 Specific Activities – Permitted Activities

Submitter Number:	343	Submitter:	Michael Briggs
On behalf of:	Rangitahi Limited	Organisation:	Harrison Grierson Cosultants Limited

Point Number 343.13

Plan chapter Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.1 Land Use – Activities > 28.1.1 Specific Activities – Permitted Activities

Summary of Decision Requested **Delete** Rule 28.1.1 (b) Permitted Activities.
AND
Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.

Decision Reasons:

- Permitted activity conditions (a) and (b) of Rule 28.1.1 of the Proposed Plan are very similar with respect to both conditions requiring activities to be in accordance with the Rangitahi Peninsula Structure Plan.
- Rule 28.1.1(b) is superfluous.
- Conditions (a) and (b) do not reflect that changes to activity locations may occur through the subdivision process for each precinct. The subdivision standards in the Proposed Plan provide some flexibility for variations to the precinct areas.
- The Submitter seeks that the permitted activity conditions in Rule 28.1.1 refer to the location of residential activities being in accordance with the Rangitahi Peninsula Structure Plan or any approved subdivision.

Point Number 343.22

Plan chapter Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.1 Land Use – Activities > 28.1.1 Specific Activities – Permitted Activities

Summary of Decision Requested **Amend** the activity conditions in Rule 28.1.1 Permitted Activities, to refer to the location of residential activities being in accordance with the Rangitahi Peninsula Structure Plan or any approved subdivision.
AND
Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.

Decision Reasons:

- Permitted activity conditions (a) and (b) of Rule 28.1.1 of the Proposed Plan are very similar with respect to both conditions requiring activities to be in accordance with the Rangitahi Peninsula Structure Plan.
- Rule 28.1.1(b) is superfluous.
- Conditions (a) and (b) do not reflect that changes to activity locations may occur through the subdivision process for each precinct. The subdivision standards in the Proposed District Plan provide more flexibility for variations to the precinct plans.
- The submitter seeks that the permitted activity conditions i Rule 28.1.1 refer to the location of residential activities being in accordance with the Rangitahi Peninsula Structure Plan or any approved subdivision.

Plan chapter: Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.1 Land Use – Activities > 28.1.3 Specific Activities - Restricted Discretionary Activities

Submitter Number:	343	Submitter:	Michael Briggs
On behalf of:	Rangitahi Limited	Organisation:	Harrison Grierson Cosultants Limited

Point Number 343.25

Plan chapter Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.1 Land Use – Activities > 28.1.3 Specific Activities - Restricted Discretionary Activities

Summary of Decision Requested **Amend** Rule 28.1.3 RDI Restricted Discretionary Activities for clarity so that (b) is a subset of (a).
AND
Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.

Decision Reasons:

- The format of Rule 28.1.3 does not make sense in the current form.

--	--

Submitter Number:	781	Submitter:	Ministry of Education
Point Number	781.20		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.1 Land Use – Activities > 28.1.3 Specific Activities - Restricted Discretionary Activities		
Summary of Decision Requested	<p>Add a new rule for education facilities to Rule 28.1.3 Specific Activities - Restricted Discretionary Activities as follows:</p> <p>Activity</p> <p><u>RD4 Education Facilities</u></p> <p>Council's discretion shall be restricted to the following matters:</p> <ol style="list-style-type: none"> <u>The extent to which the location, bulk, scale and built form of building(s) impacts on natural, ecological, landscape and/or historic heritage values.</u> <u>The extent to which the activity may adversely impact on the transport network.</u> <u>Ability to soften the visual impact of buildings from adjoining residential properties.</u> <u>The extent to which the activity may adversely impact on the streetscape.</u> <u>The extent to which the activity may adversely impact on the noise environment.</u> 		
Decision Reasons:	<ul style="list-style-type: none"> Opposes the non-complying activity status. Education facilities are not listed in the Rangitahi Peninsula Zone. The majority of education facilities including community education, early childhood education, tertiary education institutions, work skills training centres, outdoor education centres and sports training establishments are located within residential areas like the Rangitahi Peninsula and are essential social infrastructure. The submitter requests consistency with their requested definition of 'Education facilities'. 		

Plan chapter: Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.1 Noise > 28.2.1.2 Noise - General

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.77		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.1 Noise > 28.2.1.2 Noise - General		
Summary of Decision Requested	Retain Rule 28.2.1.2 Noise General.		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand supports Rule 28.1.2.1 as it permits noise generated by emergency sirens. This exemption appropriately provides for the operational requirements of Fire and Emergency New Zealand and enables them to meet its statutory obligations in a manner that provides for the on-going health and safety of people and communities.

Point Number	923.169		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.1 Noise > 28.2.1.2 Noise - General		
Summary of Decision Requested	<p>Amend Rule 28.2.1.2 P2 and D1 Noise - General, as follows:</p> <p>P2</p> <p><u>Sound measured in accordance with NZS 6801:2008 and assessed in accordance with NZS 6802:2008 must not exceed;</u></p> <p>(a) Noise measured the following limits at any point within any other site in the Rangitahi Peninsula Zone must not exceed:</p> <ol style="list-style-type: none"> <u>50 dB LAeq(15min), dB(A)eq, 7am to 7pm, every day; and</u> <u>45 dB LAeq(15min), dB(A)eq, 7pm to 10pm, every day; and</u> <u>40 dB LAeq(15min), dB(A)eq, and 65 dB(A)max, 10pm to 7am the following day;</u> <u>65 dB LAmax, 10pm to 7am the following day;</u> <p>(b) <u>Noise levels must be measured in accordance with the requirements of NZS 6801:2008 "Acoustics Measurement of Environmental Sound;"</u></p> <p>(c) <u>Noise levels must be assessed in accordance with the requirements of NZS 6802:2008 "Acoustic Environmental noise;"</u></p> <p>-D1</p> <p>(a) <u>Sound that is outside the scope of NZS 6802:2008 or a permitted activity standard; and</u></p> <p>(b) <u>Sound Noise generated by any activity, that does not comply with Rule 28.2.1.2 P1 or P2.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> The proposed noise limits are generally in accordance with guideline values and use current measurement and assessment standards, acoustical metrics, numerical values, time-frames and assessment location. However, the following issues have been identified: <ul style="list-style-type: none"> - Incorrect terminology has been used in conflict with the standards specified. - No provision has been made for sound sources outside the scope of NZS 6802. 		

Plan chapter: Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.4 Earthworks > 28.2.4.2 Earthworks - Maori Sites and Maori Areas of Significance

Submitter Number:	343	Submitter:	Michael Briggs
On behalf of:	Rangitahi Limited	Organisation:	Harrison Grierson Cosultants Limited

Point Number	343.26
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.4 Earthworks > 28.2.4.2 Earthworks - Maaori Sites and Maaori Areas of Significance
Summary of Decision Requested	Delete Rule 28.2.4.2 Earthworks Maaori Sites and Maaori Areas of Significance. AND Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.
Decision Reasons:	<ul style="list-style-type: none"> There are no Maaori sites or areas of significance within the Rangitahi Structure Plan area identified on Proposed Plan maps 23 (Raglan Coast) and 23.3 (Raglan West).

Submitter Number:	553	Submitter:	Malibu Hamilton
Point Number	553.33		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.4 Earthworks > 28.2.4.2 Earthworks - Maaori Sites and Maaori Areas of Significance		
Summary of Decision Requested	Retain Rule 28.2.4.2 Earthworks – Maaori Sites and Maaori Areas of Significance.		
Decision Reasons:	<ul style="list-style-type: none"> The New Zealand Coastal Policy Statement 2010 in Policy (d) recognises Tangata whenua needs for papakainga, marae. The Waikato Regional Policy Statement, 2016 also has Policy 6.4 Marae and papakainga provisions. The Future Proof Strategy Planning for Growth November 2017 has Priority 15 that seeks developments of papakainga housing that meets the needs and aspirations in the sub-region. RMA sections 6(e), 7(a), and 8 set out legal obligations when managing the natural and physical resources of the region to Tangata whenua. 		

Plan chapter: Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.4 Earthworks > 28.2.4.3 Earthworks - Significant Natural Areas

Submitter Number:	343	Submitter:	Michael Briggs
On behalf of:	Rangitahi Limited	Organisation:	Harrison Grierson Cosultants Limited
Point Number	343.27		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.4 Earthworks > 28.2.4.3 Earthworks - Significant Natural Areas		
Summary of Decision Requested	Amend Rule 28.2.4.3 Earthworks - Significant Natural Areas, to make provision for earthworks associated with construction of roads that are in general accordance with the Rangitahi Structure Plan. AND Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.		
Decision Reasons:	<ul style="list-style-type: none"> The Rangitahi Structure Plan area includes planned roads, which cross Significant Natural Areas that are identified under the Proposed Plan. It will therefore be necessary for earthworks to be undertaken in some of the Significant Natural Areas in order to give effect to the Structure Plan. 		

Plan chapter: Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.5 Hazardous substances

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.78		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.5 Hazardous substances		
Summary of Decision Requested	Amend Rule 28.2.5 Hazardous substances, as follows: <i>(a) The use, storage or disposal of any hazardous substances where:</i> <i>(i) The aggregate quantity of hazardous substances of any hazard classification on a site is less than the quantity specified for the Rangitahi Peninsula Zone in Table 5.1 contained within Appendix 5 (Hazardous Substances); and</i> <i>(ii) The storage or use of radioactive materials is in approved equipment for medical and diagnostic purposes, or specified as an exempt activity or article in the Radiation Safety Act and Regulations 2017.</i> <i>(iii) Rule 28.2.5 (a), (i) excludes fire service operations.</i> AND Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand opposes Rule 28.2.5 as while fire stations and associated firefighting activities involve the use and storage of hazardous substances at quantities that are considered minor, it is possible that the permitted provisions may not enable for this, and could affect Fire and Emergency New Zealand's ability to operate as easily and smoothly as needed. Therefore, Fire and Emergency New Zealand requests that the fire stations and associated firefighting activities are excluded from Rule 28.2.5 for the following reasons: <ol style="list-style-type: none"> The 8.3 classification (Table 5.1 contained within Appendix 5 (Hazardous Substances)) has a relatively low limit in the Business Town Centre Zone, and is quite low in other areas- lots of household products are eye corrosives from dishwashing to laundry powder. This would limit and potentially prevent Fire and Emergency New Zealand having a HAZMAT vehicle based in this zone because they carry neutralizing agents which are eye corrosives. A greater concern is that some of Fire and Emergency New Zealand's fire retardants and foams also have this classification and this limit could potentially require that Fire and Emergency New Zealand need a resource consent to hold a small amount or and other these chemicals on site, as a lower limit would be largely taken up by ordinary household chemicals used on site. 		

2. The 8.3A classification is for eye corrosion. A person is only affected by this hazard class if they come into direct contact with a product with this classification. This hazard is also managed under the health and safety at work and HSNO legislation usually via labeling and PPE requirements. Fire and Emergency New Zealand considers that there is no logic in restricting the amount of these substances held as it relates to Fire and Emergency New Zealand operations, particularly if they are in enclosed containers for systems.
3. Some of Fire and Emergency New Zealand's fire retardants are solids rather than liquids and the reasons for the limits specified in the plan do not make sense for solids. Fire and Emergency New Zealand current main fire retardant is a powder but Fire and Emergency New Zealand are also looking at new foams which come in bricks. As such, higher restrictions for waterways do not make sense for these products as they do not leak or flow.
4. Fire and Emergency New Zealand often requires the temporary storage of chemicals necessary for providing an emergency response, during an emergency and within a short period after the emergency, i.e. there is a small grace period for example if Fire and Emergency New Zealand need a truck to remove a container which has firefighting chemicals in it, they may need to wait for a few working days after the emergency has finished for a contractor to do that work. Not providing for this could restrict Fire and Emergency New Zealand's ability to respond to bush or other major events, e.g. large acid spills and other HAZMAT events. This could also result in a breach of the RMA in order to bring in the necessary products to resolve the issue and prevent harm to people/the environment.

Submitter Number:	785	Submitter:	Z Energy Limited, BP Oil NZ Limited and Mobil Oil NZ Limited
Organisation:	'Oil Companies'		
Point Number	785.8		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.5 Hazardous substances		
Summary of Decision Requested	Delete Rule 28.2.5 – Hazardous Substances. AND Any consequential amendments or further relief to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • The proposed provisions are opposed and the submitter seeks the deletion of all proposed hazardous substances controls relating to storage, use, disposal or transportation of hazardous substances at service station sites (as broadly defined) or refuelling sites. • The submitter also supports the deletion of all rules pertaining to control hazardous substances where such controls are inappropriate, unnecessary, ineffective, inefficient and unable to be justified via a Section 32 analysis. • These rules are all designed to address risk associated with hazardous substances. Risk is appropriately managed via other legislation and the Section 32 Report fails to identify why additional controls are required. • The Resource Legislation Amendment Act 2017 removed the explicit function of district and regional councils to control adverse effects of the storage, use, disposal, or transportation of hazardous substances under sections 30 and 31 of the Resource Management Act 1991 (RMA). • The changes came into effect on 19 April 2017 and are intended to ensure councils only place controls on hazardous substances where necessary to control effects under the RMA that are not covered by Hazardous Substance New Organisms Act 1996 or Health and Safety At Work Act 2015. • The purpose of the Hazardous Substances New Organisms Act is to protect the environment, and the health and safety of people and communities, by preventing or managing the adverse effects of hazardous substances and new organisms. The Hazardous Substances New Organisms Act covers a range of matters including: <ul style="list-style-type: none"> a. site and building requirements for where a hazardous substance may be used, including requirements for storage and primarily requiring primary and secondary containment; b. the safe transportation of hazardous substances; c. emergency management requirements in relation to the substance in the event of a spill or other emergency; and d. how the substance may be disposed of. • The Health and Safety At Work Act 2015 provides a framework to secure the health and safety of works and workplaces and integrates the regulation of workplace use of hazardous substances. • The Resource Legislation Amendment Act 2017 followed the decision of the Independent Hearing Panel on the Christchurch Replacement District Plan. That decision was to reject Christchurch City Council's hazardous substance controls (which were based on an activity status table (AST) approach and to only retain controls relating to hazardous substances in close proximity to the National Grid. • The Ministry for the Environment considers that in most cases the Hazardous Substances New Organisms Act and the Health and Safety At Work Act 2015 controls will be adequate to avoid, remedy or mitigate adverse environmental effects of hazardous substances and that RMA controls may be used if existing HSNO or Work safe controls are not adequate to address the environmental effects of hazardous substances in any particularly case. The submitter strongly supports the Ministry for the Environment's position in this regard. • The submitter seeks that any proposed controls around hazardous substances do not duplicate those controls addressed under other legislation. Any duplication is considered unnecessary and inefficient. • The section 32 report for Hazardous Substances acknowledges the removal of Council's functions in regards to hazardous substances and recognizes the "Resource Management Plans should not be in conflict with HSNO requirements and should not repeat them". • The report further recognizes that "rationale for a higher level of protection through additional land use controls under the Act may be appropriate for substances both controlled by the Hazardous Substances New Organisms Act or for issues which are not within the scope of the Hazardous Substances New Organisms Act, such as reverse sensitivity". • However there is a significant disconnect between the overview and purpose sections of the Section 32 Report and the regulatory provisions in the Proposed District Plan. • As an example, in regard to service stations the Section 32 Report concludes that, "the controlled activity status has been assigned to the storage and retail sale of fuel within service stations above a certain level in some zones to recognize that these substances are well managed through standards and industry practice. However, above these thresholds, the opportunity to consider potential adverse effects on the surrounding environment is considered. • No rational/analysis is provided within the section 32 report to justify why specific volume thresholds apply to service stations or why the opportunity to consider potential adverse effects on the surrounding environment is considered reasonable if quantities are above those limits. • The Section 32 Report does not provide analysis to justify why hazardous substances associated with service stations are only addressed in certain zones and in what way the Council considers the Hazardous Substances New Organisms Act to not adequately control potential adverse effects associated with hazardous substances at service station - for example, why the Council considers site design, layout and monitoring and reporting of incidents are matters that the Council should reserve control over. • In light of the Resource Legislation Amendment Act 2017 and controls under other legislation and the lack of rationale/analysis within the Section 32 Report for hazardous substances, it is considered the proposed hazardous substance controls are largely unnecessary and should therefore be deleted. 		
Plan chapter: Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.6 Signs			

Submitter Number:	602	Submitter:	Greig Metcalfe
Point Number	602.57		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.6 Signs		

Summary of Decision Requested

Amend Rule 28.2.6.1 P2 (a) Signs - general as follows:

~~(a) Any real estate 'for sale' sign relating to the site on which it is located must comply with all of the following conditions:~~

~~(i) There is no more than 1 sign per agency measuring 600mm x 900mm per road frontage of the site to which the sign relates;~~

~~(ii) There is no more than 1 sign measuring 1800mm x 1200mm per site to which the sign relates;~~

~~(iii) There is no more than 1 real estate header sign measuring 1800mm x 1200mm on one other site;~~

~~##(iv) The sign is not illuminated;~~

~~##(v) The sign does not contain any moving parts, fluorescent, flashing or revolving lights or reflective materials;~~

~~##(vi) The sign does not project into or over road reserve.~~

~~(vii) Any real estate sign shall be removed from display within 60 days of sale/lease or upon settlement, whichever is the earliest.~~

AND

Any consequential amendments and/or additional relief required to address the matters raised in the submission.

Decision Reasons:

- The notified rules for real estate signs are too restrictive.
- Corner sites should be able to have additional sign opportunities without adversely affecting residential character and amenity.
- Allowance should be made for feature signs which are commonly used for properties going to auction or tender.
- Header signs should be able to be established on another sign (often on a high volume road) to direct purchasers to the site which is for sale (often on a low volume road).

Plan chapter: Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.6 Signs > 28.2.6.3 Signs - Heritage items and Maaori Sites of Significance

Summary of Decision Requested	<p>Delete Rule 28.2.6.3 Heritage items and Maaori Sites of Significance.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • There are no heritage items or Maaori sites of significance within the Rangitahi Structure Plan area identified on Proposed Plan maps 23 (Raglan Coast) and 23.3 (Raglan West). 		

Plan chapter: Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.8 Indigenous vegetation clearance inside a Significant Natural Area

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.45		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Retain Rule 28.2.8 D1 Indigenous vegetation clearance inside a Significant Natural Area.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter is supportive of indigenous vegetation clearance beyond permitted thresholds becoming a discretionary activity (D1). 		
Point Number	81.55		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	<p>Retain Rule 28.2.8 P2 Indigenous vegetation clearance inside a Significant Natural Area, except for the amendments sought below</p> <p>AND</p> <p>Amend Rule 28.2.8 P2 Indigenous vegetation clearance inside a Significant Natural Area to exclude clearance of Manuka and Kanuka in wetlands and the coastal environment from this rule.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the provision for sustainable clearance of regenerating Manuka or Kanuka for domestic firewood purposes or for arts or crafts in P2. • However, the submitter does not support the removal of Manuka or Kanuka from wetlands or vegetation that is naturally short in stature. • It is important to ensure that vegetation that is naturally short does not get included in the rules intended to provide for clearance of Manuka and Kanuka colonising pasture. • Manuka, in particular, can be a permanent and important component of some types of ecosystems. These are generally wetlands, dunes and other coastal vegetation, but can be gumland vegetation that remains in the leached soils following kauri forest removal. • These persistent shrublands are important habitats for lizards, orchids, mistletoes and a range of threatened species. • Exclusion of permitted clearance of Manuka or Kanuka from wetlands and from the Coastal Environment is likely to prevent clearance of these ecosystems of concern. • The exclusion of Manuka and/or Kanuka clearance in the Coastal Environment from this rule would give effect to the 'avoid' direction in the New Zealand Coastal Policy Statement (NZCPS) and Policy 11.4 of the VWRPS. • Vegetation clearance within an SNA needs to be remedied to give effect to Policy 3.2.3(a)(ii). 		
Point Number	81.56		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.8 Indigenous vegetation clearance inside a Significant Natural Area		
Summary of Decision Requested	Amend Rule 28.2.8 P2 to ensure that weeds are controlled in the cleared area and native vegetation is allowed to regenerate.		

Decision Reasons:	<ul style="list-style-type: none"> Vegetation clearance within an SNA needs to be remedied to give effect to Policy 3.2.3(a)(ii).
Point Number	81.57
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.8 Indigenous vegetation clearance inside a Significant Natural Area
Summary of Decision Requested	Delete P6 of Rule 28.2.8 Indigenous vegetation clearance inside a Significant Natural Area.
Decision Reasons:	<ul style="list-style-type: none"> P6 duplicates P2.
Point Number	81.65
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.8 Indigenous vegetation clearance inside a Significant Natural Area
Summary of Decision Requested	Amend Rule 28.2.8 P3 Indigenous vegetation clearance inside a Significant Natural Area by giving it restricted discretionary activity status. AND/OR Amend to provide tighter thresholds/ activity status in the Coastal Environment.
Decision Reasons:	<ul style="list-style-type: none"> P3 Provides for clearance of 250m² of indigenous vegetation removal within an SNA for building/access purposes if there is no alternative development area on the site outside the SNA. Natural values will not necessarily be evenly spread across the SNA and it is likely that some parts will be of higher natural value or of greater sensitivity than others. It is appropriate to retain discretion about the location of clearance in order to avoid as much as possible the adverse effects of the vegetation clearance. It is appropriate to require mitigation or offsetting to give effect to Policy 3.2.3(a)(iii) or (iv). As currently drafted this rule does not give effect to the 'avoid' direction in the New Zealand Coastal Policy Statement and Policy 11.4 for the coastal environment.
Point Number	81.71
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.2 Land Use – Effects > 28.2.8 Indigenous vegetation clearance inside a Significant Natural Area
Summary of Decision Requested	Retain Rule 28.2.8 Indigenous vegetation clearance inside a Significant Natural Area, except for the amendments sought below AND Amend Rule 28.2.8 P4 Indigenous vegetation clearance inside a Significant Natural Area to a restricted discretionary activity. AND/OR Amend Rule 28.2.8 P4 Indigenous vegetation clearance inside a Significant Natural Area to assign a lower threshold than clearance off indigenous vegetation outside of SNA for the same activity. AND/OR Amend Rule 28.2.8 P4 Indigenous vegetation clearance inside a Significant Natural Area to provide an overall cap on clearance as a permitted activity. AND/OR Amend to clarify the location and extent of areas that might be subject to this rule in order to determine if it is likely to have a significant effect on indigenous biodiversity. AND/OR Amend to provide tighter thresholds/ activity status in the Coastal Environment.
Decision Reasons:	<ul style="list-style-type: none"> P4 provides for up to 1500m² of vegetation removal for marae complex, 500 m²/dwelling, 500 m²/ building, as a permitted activity. Cumulatively this could be a large loss of significant indigenous vegetation and habitat without the ability to address adverse effects through avoiding, remedying, mitigating or offsetting. It is noted that this is the same amount of clearance is provided for non-significant indigenous vegetation. As currently drafted this rule does not give effect to the 'avoid' direction in the New Zealand Coastal Policy Statement and Policy 11.4 for the coastal environment.

Summary of Decision Requested	<p>Amend Rule 28.3.1 Dwellings, to exclude lots in the locations shown on Development Outcomes Plan 5 in Appendix 8, which are likely to include multi-unit developments (Rangitahi Integrated Developments).</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> No reasons were provided. 		

Plan chapter: Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.3 Land Use – Building > 28.3.6 Accessory buildings

Submitter Number:	343	Submitter:	Michael Briggs
On behalf of:	Rangitahi Limited	Organisation:	Harrison Grierson Cosultants Limited
Point Number	343.15		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.3 Land Use – Building > 28.3.6 Accessory buildings		
Summary of Decision Requested	<p>Amend Rule 28.3.6 P1 (b) Accessory Buildings, to make it clear that the gross floor area standards apply to individual buildings on a site rather than the total floor area of all accessory buildings.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> No reasons were provided. 		

Plan chapter: Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.3 Land Use – Building > 28.3.9 Building Setbacks > 28.3.9.3 Building setback - Waterbodies

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.79		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.3 Land Use – Building > 28.3.9 Building Setbacks > 28.3.9.3 Building setback - Waterbodies		
Summary of Decision Requested	Retain Rule 28.3.9.3 Building setback - Waterbodies.		
Decision Reasons:	<ul style="list-style-type: none"> The standard will safeguard the wellbeing of communities in accordance with the purpose of the RMA and the purpose of Fire and Emergency New Zealand in the effective protection of lives, property and the surrounding environment. 		

Plan chapter: Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.4 Subdivision > 28.4.1 Subdivision - General

Submitter Number:	343	Submitter:	Michael Briggs
On behalf of:	Rangitahi Limited	Organisation:	Harrison Grierson Cosultants Limited
Point Number	343.16		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.4 Subdivision > 28.4.1 Subdivision - General		
Summary of Decision Requested	<p>Delete the variance standards in Rule 28.4.1 RD1 (a)(ii) Subdivision – General.</p> <p>AND</p> <p>Retain the matters of discretion in Rule 28.4.1 RD1 (b) Subdivision – General.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The Rangitahi Structure Plan was originally investigated and designed at a level suitable for structure planning and plan change purposes. Resource consent phases for each Precinct necessitate further investigations and design that is more detailed which has the potential to result in changes to respond to any development constraints or opportunities that may be identified. Examples include poor ground conditions, which might be identified through additional geotechnical investigations, changes to accommodate stormwater treatment/attenuation, minimization of effects on ecologically sensitive areas, or changes to roading layouts in response to factors such as soil conditions or topography. In some cases, if the identified constraints cannot be avoided then there could be significant costs to the developer and future lot owners and/or potentially greater effects on the environment than alternative options. The variances allowed for as a Restricted Discretionary Activity under Rule 28.4.1 and as a Controlled Activity under Rule 28.4.2 do not provide enough flexibility to respond to some of the issues that may arise. The existing provisions create the potential that resource consents may be required as a Discretionary Activity due to the extent of variances proposed, despite potentially having good reasons for the changes, such as reduced environmental effects or improved suitability of lots. 		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.80		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.4 Subdivision > 28.4.1 Subdivision - General		
Summary of Decision Requested	<p>Amend Rule 28.4.1 Subdivision - General, as follows:</p> <p>(a) <i>Subdivision must comply with the following conditions...</i></p> <p><i>(x) Proposed lots must be able to connect to public-reticulated water supply;</i></p> <p>(b) <i>Council's discretion shall be restricted to the following matters...</i></p> <p><i>(x) Provision of infrastructure, including water supply for firefighting purposes.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand opposes Rule 28.4.1 as there is no explicit requirement to connection to water reticulation. Subdivision that does not comply is a Discretionary Activity. 		

Plan chapter: Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.4 Subdivision > 28.4.2 Subdivision - Boundary adjustments

Submitter Number:	343	Submitter:	Michael Briggs
On behalf of:	Rangitahi Limited	Organisation:	Harrison Grierson Cosultants Limited
Point Number	343.17		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.4 Subdivision > 28.4.2 Subdivision - Boundary adjustments		
Summary of Decision Requested	<p>Delete the variance standards in Rule 28.4.2 C1 (a)(ii) Subdivision – Boundary adjustments.</p> <p>AND</p> <p>Add a matter of control to Rule 28.4.2 C1(c) Boundary adjustments, for the extent to which the subdivision is consistent with the Rangitahi Structure Plan in Rule 28.4.2 Subdivision – Boundary adjustments.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The Rangitahi Structure Plan was originally investigated and designed at a level suitable for structure planning and plan change purposes. Resource consent phases for each Precinct necessitate further investigations and design that is more detailed which has the potential to result in changes to respond to any development constraints or opportunities that may be identified. Examples include poor ground conditions, which might be identified through additional geotechnical investigations, changes to accommodate stormwater treatment/attenuation, minimization of effects on ecologically sensitive areas, or changes to roading layouts in response to factors such as soil conditions or topography. In some cases, if the identified constraints cannot be avoided then there could be significant costs to the developer and future lot owners and/or potentially greater effects on the environment than alternative options. The variances allowed for as a Restricted Discretionary Activity under Rule 28.4.1 and as a Controlled Activity under Rule 28.4.2 do not provide enough flexibility to respond to some of the issues that may arise. The existing provisions create the potential that resource consents may be required as a Discretionary Activity due to the extent of variances proposed, despite potentially having good reasons for the changes, such as reduced environmental effects or improved suitability of lots. 		

Plan chapter: Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.4 Subdivision > 28.4.4 Subdivision – Title boundaries – Contaminated land

Submitter Number:	343	Submitter:	Michael Briggs
On behalf of:	Rangitahi Limited	Organisation:	Harrison Grierson Cosultants Limited
Point Number	343.18		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.4 Subdivision > 28.4.4 Subdivision – Title boundaries – Contaminated land		
Summary of Decision Requested	<p>Delete Rule 28.4.4 Title Boundaries – Contaminated Land.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The National Environmental Standard for Assessing and Managing Contaminants in Soil to Protect Human Health requires the appropriate identification, assessment and if necessary remediation of contaminants contained in soil to make the land safe for human use prior to development. 		

Plan chapter: Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.4 Subdivision > 28.4.5 Subdivision - Title boundaries – Significant Natural Areas and Maaori Sites of Significance

Submitter Number:	343	Submitter:	Michael Briggs
On behalf of:	Rangitahi Limited	Organisation:	Harrison Grierson Cosultants Limited
Point Number	343.19		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.4 Subdivision > 28.4.5 Subdivision - Title boundaries – Significant Natural Areas and Maaori Sites of Significance		
Summary of Decision Requested	<p>Delete Rule 28.4.5 (a)(ii) Title Boundaries – Significant Natural Areas and Maaori Sites of Significance.</p> <p>AND</p> <p>Delete Rule 28.4.5 (b)(ii) Title Boundaries – Significant Natural Areas and Maaori Sites of Significance.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> There are no Maaori sites of significance within the Rangitahi Structure Plan area identified on Proposed Plan maps 23 (Raglan Coast) and 23.3 (Raglan West). 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.266		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.4 Subdivision > 28.4.5 Subdivision - Title boundaries – Significant Natural Areas and Maaori Sites of Significance		
Summary of Decision Requested	<p>Retain Rule 28.4.5 RD1 Title boundaries – Significant Natural Areas, Maaori sites of Significance, except for the amendments sought below.</p> <p>AND</p> <p>Amend Rule 28.4.5 RD1 Title boundaries - Significant Natural Areas, Maaori sites of Significance to be consistent with other zone chapters, including sites and areas not being divided by a proposed lot boundary line.</p> <p>AND</p> <p>Amend Rule 28.4.5 RD1 Title boundaries - Significant Natural Areas, Maaori sites of Significance to be consistent with the equivalent rules in other zone chapters.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Rule 28.4.5 RD1 Title boundaries – Significant Natural Areas, Maaori sites and Maaori areas of Significance. This rule will give effect to Part 2, section 6 Matters of national Importance, in particular s6(e) and 6(f). 		
Point Number	559.271		
Plan chapter	Section C Rules > Chapter 28: Rangitahi Peninsula Zone > 28.4 Subdivision > 28.4.5 Subdivision - Title boundaries – Significant Natural Areas and Maaori Sites of Significance		
Summary of Decision Requested	<p>Retain Rule 28.4.5 NCI Title boundaries – Significant Natural Areas, Maaori sites and Maaori areas of Significance, except for the amendment sought below.</p> <p>AND</p> <p>Amend Rule 28.4.5 NCI Title boundaries - Significant Natural Areas, Maaori sites and Maaori areas of Significance to be consistent with the equivalent rules in other zone chapters, including the provision of heritage items.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Rule 28.4.5 NCI Title boundaries – Significant Natural Areas and Maaori sites of Significance. This rule and the more stringent activity status will give effect to Part 2, section 6 Matters of national Importance, in particular s6(e) and 6(f). 		

Plan chapter: Section D Appendices and Schedules

Submitter Number:	697	Submitter:	Waikato District Council
--------------------------	-----	-------------------	--------------------------

Point Number	697.316
Plan chapter	Section D Appendices and Schedules
Summary of Decision Requested	Amend the names of appendices in the Plan to correctly reflect the contents of the appendices in Section D Appendices and Schedules.
Decision Reasons:	To ensure consistency and to avoid confusion to the plan reader.

Plan chapter: Section D Appendices and Schedules > 29: Appendices

Submitter Number:	312	Submitter:	Brian Putt
Organisation:	Metro Planning Ltd		
Point Number	312.1		
Plan chapter	Section D Appendices and Schedules > 29: Appendices		
Summary of Decision Requested	Add a site-specific precinct as Appendix 13 for the Whatawhata Arboretum at 635 State Highway 23, Whatawhata which: <ul style="list-style-type: none"> provides for not more than 10 house sites; protects all identified trees and planting areas on a precinct tree plan; and enables subdivision associated with the approved house sites and the protection of individual or groups of notable trees. 		
Decision Reasons:	<ul style="list-style-type: none"> A site-specific precinct for the arboretum is sought because: The property at 635 State Highway 23, Whatawhata is unique as it was planted by acknowledged Waikato foresters 60-80 years ago. The register of trees on this property confirms the notable character of the site which has district significance. The site can not be farmed for pastoral or horticultural purposes without adversely affecting the notable trees and the significant environmental value that the site contributes to the district. The proposed precinct secures the permanent environmental qualities of the site while allowing for a rural residential environment to emerge which maintains and enhances those qualities. The protection of the arboretum within a rural residential environment would achieve the purpose of the RMA, particularly Part 2. 		
Decision Reasons:			

Submitter Number:	445	Submitter:	Heather Perring
Organisation:	BTW Company		
Point Number	445.2		
Plan chapter	Section D Appendices and Schedules > 29: Appendices		
Summary of Decision Requested	Add a new Appendix headed 'Structure Plan Content' into Chapter 29 Appendices, which specifies the type of development rules that can be created within a structure plan (aligned with design guidelines) and which replace other zone rules. This should outline a streamlined process for structure planning and not require the same developer to subdivide as well as build.		
Decision Reasons:	<ul style="list-style-type: none"> This new appendix will enable the district plan to remain efficient, flexible and practical for enabling sufficient growth and ensuring quality outcomes. The appendix needs to outline a streamlined process for structure planning and not require a developer to subdivide and build so that smaller developments/developers also have access and flexibility within each structure plan area. The structure plan is an effective planning tool, and utilised in the way suggested, should not become a tome of planning rules such that the structure plan becomes too restrictive. 		

Submitter Number:	720	Submitter:	Spencer and Isabelle Wheeler
Point Number	720.2		
Plan chapter	Section D Appendices and Schedules > 29: Appendices		
Summary of Decision Requested	Amend Appendix J Raglan Navigation Beacon Height Restriction, to lift the navigation light in accordance with the design plans provided to Council on 13th July 2018.		
Decision Reasons:	<ul style="list-style-type: none"> Opposes to the imposition of a height restriction plane as this unduly restricts the ability to build on the property at 12 Long Street, Raglan and does not solve the visibility issues of the navigation beacons. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.151		
Plan chapter	Section D Appendices and Schedules > 29: Appendices		
Summary of Decision Requested	Delete Appendix 3 Design Guidelines AND Delete all references to Appendix 3 in the Proposed District Plan as a consequential amendment. AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally supports design guidelines for residential subdivision, multi-unit development and town centre in principle being utilised by Council to provide further detail and guidance regarding best practice design outcomes, however, opposes any policy or rule approach which would require development proposes to comply with the design guidelines in the Proposed District Plan. Any requirements prescribed in a design guideline should be a specific rule or matter of discretion, not hidden in a design guideline. The design guidelines should be treated as non-statutory documents to inform design and development. 		

Point Number	749.152
Plan chapter	Section D Appendices and Schedules > 29: Appendices
Summary of Decision Requested	<p>Delete Appendix 10 Town Centre Character Statements;</p> <p>AND</p> <p>Delete all references to Character Statements in the Proposed District Plan as a consequential amendment.</p> <p>OR</p> <p>If the desired outcomes are sought, add new specific policies into Chapter 4 Urban Environment of the Proposed District Plan that reflect the guidelines within Appendix 10 Town Centre Character Statements or as specific matters of discretion or rules with the appropriate activity and zone.</p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>
Decision Reasons:	<ul style="list-style-type: none"> The submitter opposes the inclusion of Town Centre Character Statements in the Proposed District Plan. The Town Centre Character Statements help to inform design and development in existing town centres, the outcomes sought and guidelines within these town centre character statements read as desired requirements and rules that a Consent Holder must follow. The submitter opposes any policy or rule approach which would require development proposals to comply with such character statements in the Proposed District Plan. If the guidelines and outcomes are sought, it should be written as specific policies within Chapter 4 of the Proposed District Plan as specific matters of discretion or rules within the appropriate activity and zone. The submitter seeks the deletion of all Town Centre Character Statements from the Proposed District Plan. These non-statutory documents inform design and development and should not be included in the Proposed District Plan.

Submitter Number:	764	Submitter:	Ambury Properties Limited
Point Number	764.6		
Plan chapter	Section D Appendices and Schedules > 29: Appendices		
Summary of Decision Requested	<p>Add an Ohinewai Structure Plan such as Attachment 2 within the submission as a new Appendix 13 in Chapter 29 Appendices.</p> <p>AND</p> <p>Amend the Proposed District Plan as necessary to support the relief set out in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> To be consistent with the purpose and principles of the Resource Management Act. Promote the sustainable management of natural and physical resources. Enable people and communities to provide for their social and economic wellbeing. Meet the foreseeable needs of future generations. Provide industrial, business and residential land to give effect to the National Policy Statement on Urban Development Capacity. Consistent with sound resource management practice. Will enable a standalone manufacturing facility that will have road and rail connections. An area of 9.5ha is proposed to be allocated to business use and shall principally be used as a bulk factory outlet centre associated with the manufacturing business. The property is well suited to a service centre type development as it is accessible from the Waikato Expressway. The site is intended to include a group of neighbourhood shops of a scale to service the local residents. This will result in a residential yield of approximately 900 dwellings to assist staff into affordable housing, that will be a mix of medium to high density. Some of the housing will be offered to the private market. Residential activity and industrial activity will be separated by an open space/recreational buffer area with a width of 100m. Residential area will adjoin Lake Rotokawau and provides connections to Lake Waikare and Te Kauwhata. Waikato District Council have indicated that they are investigating options for reticulated wastewater and water supply to Ohinewai and the submitter is investigating stormwater options. The investment in this location will encourage reinvestment and growth in Huntly. The development provides an opportunity to provide for this anticipated future growth in a strategic location close to transport routes and will provide employment opportunities whilst encouraging redevelopment and planned growth for Huntly. The Waikato Regional Policy Statement recognizes alternative land release and timing where criteria and development principles are met. 		

Submitter Number:	798	Submitter:	Ngati Te Ata
Point Number	798.16		
Plan chapter	Section D Appendices and Schedules > 29: Appendices		
Summary of Decision Requested	Amend the Waikato Urban Design Guidelines Section 4 Connectivity and Movement networks to include "Small" and "Medium" to all guidelines.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		
Point Number	798.17		
Plan chapter	Section D Appendices and Schedules > 29: Appendices		
Summary of Decision Requested	Amend the Waikato Urban Design Guidelines Section 5.3 Guidelines for Neighbourhood Character to include "Small" in all tick boxes.		
Decision Reasons:	<ul style="list-style-type: none"> Over time often small developments intensify. If there is not good urban design from the outset, a good outcome can never be attained. 		
Point Number	798.18		
Plan chapter	Section D Appendices and Schedules > 29: Appendices		
Summary of Decision Requested	Amend the Waikato Urban Design Guidelines to include "small" and "medium" options to Sections 6 and 7 Urban Design.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		
Point Number	798.19		

Plan chapter	Section D Appendices and Schedules > 29: Appendices
Summary of Decision Requested	Amend Section 8.3 Guidelines in the Waikato Urban Design Guidelines to clarify that stormwater can only be discharged into natural wetlands, streams, ponds and watercourses following pre-treatment and that these water bodies are protected outside stormwater devices.
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.
Point Number	798.20
Plan chapter	Section D Appendices and Schedules > 29: Appendices
Summary of Decision Requested	Amend the Tuakau Urban Design Guidelines to address: <ul style="list-style-type: none"> Sustainable development; Road contaminants being treated through vegetated swales or rain gardens; and Enhancement of significant streams- there does not appear to be any discussion around enhancement of these areas.
Decision Reasons:	<ul style="list-style-type: none"> Questions whether this is an intended omission.
Point Number	798.25
Plan chapter	Section D Appendices and Schedules > 29: Appendices
Summary of Decision Requested	Amend Section 8.3 Guidelines in the Waikato Urban Design Guidelines to require all stormwater treatment to be offline to any natural waterbody.
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.
Point Number	798.26
Plan chapter	Section D Appendices and Schedules > 29: Appendices
Summary of Decision Requested	Amend the pictures showing ponds as treatment devices in Section 8.3 Guidelines in the Waikato Urban Design Guidelines.
Decision Reasons:	<ul style="list-style-type: none"> Ponds are proven to be unsuccessful in maintaining water quality. Where possible wetlands should be promoted. Wetlands provide shade, terrestrial habitat and the plants provide contaminant removal once stormwater has passed through the fore bay.
Point Number	798.27
Plan chapter	Section D Appendices and Schedules > 29: Appendices
Summary of Decision Requested	Amend Section 8.3 Guidelines in the Waikato Urban Design Guidelines to show intention for offline stormwater treatment.
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.
Point Number	798.28
Plan chapter	Section D Appendices and Schedules > 29: Appendices
Summary of Decision Requested	Amend the Pokeno Town Centre Design Guidelines to address: <ul style="list-style-type: none"> Sustainable development; Road contaminants being treated through vegetated swales or rain gardens; and Enhancement of significant streams- there does not seem to be any discussion around enhancement of these areas.
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.

Plan chapter: Section D Appendices and Schedules > 29: Appendices > Appendix I: Acoustic Insulation

Submitter Number:	367	Submitter:	Liam McGrath
Organisation:	Mercer Residents and Ratepayers Committee		
Point Number	367.30		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix I: Acoustic Insulation		
Summary of Decision Requested	Add Mercer Airport as its own Appendix under Appendix I Acoustic Insulation.		
Decision Reasons:	<ul style="list-style-type: none"> Mercer Airport is a fully operational business, including leisure activities and accommodation. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.30		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix I: Acoustic Insulation		
Summary of Decision Requested	Retain Appendix I Acoustic Insulation.		
Decision Reasons:	<ul style="list-style-type: none"> Supports Appendix I and considers that it will (in combination with the amendments that are sought to Rule 16.3.10) appropriately avoid, remedy or mitigate 		

the potential reverse sensitivity effects on the Horotiu Industrial Park.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.317		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix I: Acoustic Insulation		
Summary of Decision Requested	Amend Appendix I (Acoustic Insulation) as follows: Appendix 1 - Acoustic Insulation - Section 3 (Te Kowhai Airpark). Te Kowhai Airpark acoustic standards for outer control noise boundary and the noise buffer apply to any building containing a noise sensitive activity.		
Decision Reasons:	<ul style="list-style-type: none">• To ensure consistency and to avoid confusion to the plan reader.• These provisions need to be broader to ensure all activities are captured.		

Submitter Number:	741	Submitter:	Waikato Regional Airport Ltd
Point Number	741.1		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix I: Acoustic Insulation		
Summary of Decision Requested	Amend provisions 1(a)(i)A, 2, 2.1 and 2.1(1)(i)(ii) of Appendix I Acoustic Insulation which refer to 'Waikato Regional Airport', and replace with "Hamilton Airport". AND Any further relief and/or amendments to the Proposed Plan as may be necessary.		
Decision Reasons:	<ul style="list-style-type: none">• The correct descriptive term for the airport is Hamilton Airport.• The term Waikato Regional Airport (Ltd) is the name of the company that operates the airport.• It is correct to use the term Waikato Regional Airport Ltd in the schedule of designations at designation N, as Waikato Regional Airport Ltd is the requiring authority responsible for the designation.• However elsewhere in the Proposed Plan where the airport is being referred to it should be called Hamilton Airport.		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.182		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix I: Acoustic Insulation		
Summary of Decision Requested	Retain Appendix I Acoustic Insulation, except for the amendments sought below AND Amend Appendix I Acoustic Insulation as follows: <i>1. Application</i> <i>(a) This appendix is referred to in the rules related to:</i> ... <i>(j) buildings for sensitive land use within 100 m of a state highway or rail corridor.</i> AND Add to Appendix I Acoustic Insulation, to include standards a new Section 7 for sensitive land use near state highways and rail corridors. AND Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none">• Appendix I needs to be amended to include sound insulation standards, vibration standards and ventilation requirements for buildings near road/rail to ensure that health and wellbeing are protected.		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.150		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix I: Acoustic Insulation		
Summary of Decision Requested	Delete Appendix I Acoustic Insulation; AND Delete all references to Appendix I- Acoustic Insulation in the Proposed District Plan as a consequential amendment; OR If the acoustic standards are sought Add new rules with the appropriate activity and zone in the relevant section of the Proposed District Plan. AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none">• The submitter opposes the inclusion of an Acoustic Insulation document in the Proposed District Plan.• The submitter opposes any policy or rule approach which would require development proposals to comply with standards in the Proposed District Plan. These matters should be addressed during the building consent process.• If the standards are sought, then they should be written out as specific rules with the appropriate activity and zone in the relevant section of the Proposed District Plan.		

- Appendix 1: Acoustic Insulation should be treated as a non-statutory document to inform design and development and not be included in the Proposed District Plan.

Submitter Number:	797	Submitter:	Fonterra Limited
Point Number	797.37		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 1: Acoustic Insulation		
Summary of Decision Requested	<p>Add Appendix 1.1 (a)(i) Acoustic Insulation to include (or words to similar effect): <u>The Te Rapa Dairy Manufacturing Facility Noise Control Boundary.</u></p> <p>AND</p> <p>Add new Appendix 1.2 Acoustic Insulation to include (or words to similar effect): <u>The Te Rapa Dairy Manufacturing Facility Noise Control Boundary identifies an area that experiences high noise levels from activities undertaken on the manufacturing site. Sensitive land uses, including dwellings within the Noise Control Boundary are required to be acoustically insulated to achieve the internal noise standards specified below.</u> <u>Prior to the issue of a building consent for any building to which this rule applies, compliance with the requirements of the rule shall be demonstrated through the production of a design certificate from an appropriately qualified and experienced acoustic specialist certifying that an internal noise level will not exceed Ldn 40dBA within any habitable room.</u></p> <p>AND</p> <p>Any consequential amendments or further relief to give effect to the concerns raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Fonterra seeks the inclusion of additional provisions to avoid reverse sensitivity effects arising from sensitive activities within the Noise Control Boundary of the Te Rapa Dairy Manufacturing Facility. 		

Submitter Number:	807	Submitter:	Pukekohe Motorcycle Club
Point Number	807.4		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 1: Acoustic Insulation		
Summary of Decision Requested	<p>Amend Appendix 1: Acoustic Insulation to include reference to the Harrisville Motocross Track and the Noise Control Boundary overlay.</p> <p>AND</p> <p>Add a specific acoustic insulation/ventilation requirement for any new noise sensitive activity along with suitable internal noise levels to be achieved by any new noise sensitive spaces established within the overlay.</p> <p>AND</p> <p>Any further or consequential relief to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The current Proposed Plan does not promote sustainable management of resources, will not achieve the purpose of the RMA and are contrary to Part 2 and other provisions of the RMA; The current Proposed Plan will not enable the social and economic wellbeing of the community in the Waikato region The current Proposed Plan does not represent the most appropriate means of exercising the Council's functions, having regard to the efficiency and effectiveness of the provisions relative to other means. 		

Submitter Number:	823	Submitter:	NZTE Operations Limited
Point Number	823.21		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 1: Acoustic Insulation		
Summary of Decision Requested	<p>Add a new Figure 3 to Appendix 1 (being Figure 4 of the Marshall Day Report attached to the original submission as Appendix B).</p> <p>AND</p> <p>Amend the Proposed District Plan for any consequential relief required to give effect to this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> This change is consequential amendments of introducing new Te Kowhai Airpark Airport Noise Control boundaries. In order to appropriately determine the level of acoustic treatment for noise sensitive activities between the 55 and 65 dB Ldn OCB a new figure 3 should be included in Appendix 1 showing 2 decibel contours within the OCB. 		
Point Number	823.24		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 1: Acoustic Insulation		
Summary of Decision Requested	<p>Amend Appendix 1- Acoustic Insulation Section 3 Te Kowhai Airpark to introduce the Te Kowhai Airpark Noise Control Boundaries (ANCB) as recommended in the Marshall Day Report (attached to the original submission as Appendix B).</p> <p>AND</p> <p>Amend the Proposed District Plan for any consequential relief required to give effect to this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> This change is a consequential amendment of introducing new Te Kowhai Airpark Airport Noise Control Boundaries. The old OCNB has been rolled over from the Operative District Plan and does not adequately control aircraft noise, future proof the existing Airfield and protect against reverse sensitivity effects. 		
Point Number	823.25		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 1: Acoustic Insulation		
Summary of Decision Requested	<p>Amend Appendix 1- Acoustic Insulation Section 3 Te Kowhai Airpark- Figure 2 "Te Kowhai Airpark, Ldn Contours for Sound Insulation Design" to be replaced by Figure 3 of the Marshall Day Report (attached to the original submission as Appendix B).</p>		

AND

Amend Appendix 1- Acoustic Insulation Section 3 Te Kowhai Airpark as follows:

3. Te Kowhai Airpark

~~The Te Kowhai Airpark Outer Noise Control Boundaries identify areas that experience high noise levels from aircraft landing and taking off from the Te Kowhai Airpark. The Te Kowhai Airpark Noise Buffer identifies land within the Rural Zone around the Te Kowhai Airfield that experiences high noise levels from aircrafts using the taxiways. Noise Sensitive Activities Dwellings within the Te Kowhai Airpark Outer Noise Control Boundaries that are required to be acoustically insulated must to achieve the internal noise standards specified in sections 3.1 and 3.2 below.~~

AND

Amend Appendix 1- Acoustic Insulation 3.1- Conditions for Permitted Activities inside the Te Kowhai Airpark Outer Control Noise Boundary, as follows:

3.1 Conditions for ~~Permitted Activities~~ Noise Sensitive Activities inside the Te Kowhai Airpark ~~Outer Control Noise Boundaries~~

...

(3) Where a building is partly or wholly contained within the Te Kowhai Airpark ~~outer Noise control noise boundaries~~, a mechanical ventilation system or systems that will allow windows to be closed if necessary to achieve the required internal design sound level for habitable rooms is required to be installed. The mechanical systems or systems are to be designed, installed and operating so that a habitable space (with windows and doors closed) is ventilated with fresh air in accordance with the New Zealand Building Code, Section G4- Ventilation.

AND

Delete Rule 3.2- Conditions for Permitted Activities the Te Kowhai Airpark Noise Buffer in Appendix 1.

AND

Amend the Proposed District Plan for any consequential relief required to give effect to this submission.

Decision Reasons:

- This change is a consequential amendment of introducing new Te Kowhai Airpark Airport Noise Control Boundaries.
- The rule refers to the old Te Kowhai Outer Control Noise Boundary (OCNB) which is to be replaced and Te Kowhai Airpark Noise Buffer which is to be deleted.
- The Proposed ANCB's includes taxing noise from aircraft which negates the need for the Te Kowhai Airpark Noise Buffer.

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.104		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 1: Acoustic Insulation		
Summary of Decision Requested	Add a new rule section setting requirements for mechanical ventilation as follows: <u>X. Mechanical ventilation</u> <u>1. Buildings that are required to have acoustic insulation must be designed, constructed and maintained with a mechanical ventilation system so that windows can be kept closed. The mechanical ventilation system must achieve the following requirements:</u> <u>(i) For habitable rooms for a residential activity:</u> <u>A. Provide mechanical ventilation to satisfy clause G4 of the New Zealand Building Code;</u> <u>B. Be adjustable by the occupant to control the ventilation rate in increments up to a high air flow setting that provides at least 6 air changes per hour;</u> <u>C. Provide relief for equivalent volumes of spill air;</u> <u>D. Provide cooling and heating that is controllable by the occupant and can maintain the inside temperature between 18 degree Celsius and 25 degree Celsius;</u> <u>E. Generate less than 35 dB LAeq(30s) when measured 1 m away from any grille or diffuser.</u> <u>(ii) For other spaces, a specification as determined by a suitably qualified and experienced person.</u> <u>2. A commissioning report must be submitted to the Council prior to occupation of the building demonstrating compliance with all of the mechanical ventilation system performance requirements in X.1.</u>		
Decision Reasons:	<ul style="list-style-type: none">• New sensitive land-uses should preferably be located away from areas of high noise exposure. However, in areas where there is not a practicable alternative, requirements to provide sound insulation provides a minimum 'back-stop' for managing adverse health effects.• In all cases where sound insulation is required under Appendix 1 it would be undermined if windows have to be opened. Whilst Appendix 1 does require mechanical ventilation in some instances, the specified performance would not be sufficient to provide thermal comfort. Therefore, occupants would either have to suffer excess noise or excess/insufficient temperature. As occupants would then be forced to open windows, this situation does not address the adverse noise effect.• A ventilation system should be required that provides thermal comfort with windows closed.		
Point Number	923.105		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 1: Acoustic Insulation		
Summary of Decision Requested	Delete Appendix 1- Acoustic Insulation 2.1 (2) AND Add to Appendix 1- Acoustic Insulation a new 2.1 (2) as follows: <u>For both options one and option two, a mechanical ventilation must be installed in accordance with X.</u>		
Decision Reasons:	<ul style="list-style-type: none">• In all cases where sound insulation is required under Appendix 1 it would be undermined if windows have to be opened. Whilst Appendix 1 does require mechanical ventilation in some instances, the specified performance would not be sufficient to provide thermal comfort. Therefore, occupants would either have to suffer excess noise or excess/insufficient temperature. As occupants would then be forced to open windows, this situation does not address the adverse noise effect.• A ventilation system should be required that provides thermal comfort with windows closed.		
Point Number	923.106		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 1: Acoustic Insulation		
Summary of Decision Requested	Delete Appendix 1- Acoustic Insulation 2.1 (3) (i) (C) and 2.1 (3) (i) (D) AND Add to Appendix 1- Acoustic Insulation a new 2.1 (3) (C) as follows: <u>A mechanical ventilation must be installed in accordance with X.</u>		
Decision Reasons:	<ul style="list-style-type: none">• In all cases where sound insulation is required under Appendix 1 it would be undermined if windows have to be opened. Whilst Appendix 1 does require		

mechanical ventilation in some instances, the specified performance would not be sufficient to provide thermal comfort. Therefore, occupants would either have to suffer excess noise or excess/insufficient temperature. As occupants would then be forced to open windows, this situation does not address the adverse noise effect.

- A ventilation system should be required that provides thermal comfort with windows closed.

Point Number 923.107

Plan chapter Section D Appendices and Schedules > 29: Appendices > Appendix I: Acoustic Insulation

Summary of Decision Requested **Delete** Appendix I - Acoustic Insulation 2.2 (6) and 2.2 (7)
AND

Add to Appendix I - Acoustic Insulation a new 2.2 (6) as follows:

A mechanical ventilation must be installed in accordance with X.

Decision Reasons:

- In all cases where sound insulation is required under Appendix I it would be undermined if windows have to be opened. Whilst Appendix I does require mechanical ventilation in some instances, the specified performance would not be sufficient to provide thermal comfort. Therefore, occupants would either have to suffer excess noise or excess/insufficient temperature. As occupants would then be forced to open windows, this situation does not address the adverse noise effect.
- A ventilation system should be required that provides thermal comfort with windows closed.

Point Number 923.108

Plan chapter Section D Appendices and Schedules > 29: Appendices > Appendix I: Acoustic Insulation

Summary of Decision Requested **Delete** Appendix I - Acoustic Insulation 3.1. (3), 3.1.4 and 3.1.5
AND

Add to Appendix I - Acoustic Insulation a new 3.1 (3) as follows:

A mechanical ventilation must be installed in accordance with X.

Decision Reasons:

- In all cases where sound insulation is required under Appendix I it would be undermined if windows have to be opened. Whilst Appendix I does require mechanical ventilation in some instances, the specified performance would not be sufficient to provide thermal comfort. Therefore, occupants would either have to suffer excess noise or excess/insufficient temperature. As occupants would then be forced to open windows, this situation does not address the adverse noise effect.
- A ventilation system should be required that provides thermal comfort with windows closed.

Point Number 923.109

Plan chapter Section D Appendices and Schedules > 29: Appendices > Appendix I: Acoustic Insulation

Summary of Decision Requested **Delete** Appendix I - Acoustic Insulation 3.2 (3), 3.2 (4) and 3.2 (5)
AND

Add to Appendix I - Acoustic Insulation a new 3.2 (3) as follows:

A mechanical ventilation must be installed in accordance with X.

Decision Reasons:

- In all cases where sound insulation is required under Appendix I it would be undermined if windows have to be opened. Whilst Appendix I does require mechanical ventilation in some instances, the specified performance would not be sufficient to provide thermal comfort. Therefore, occupants would either have to suffer excess noise or excess/insufficient temperature. As occupants would then be forced to open windows, this situation does not address the adverse noise effect.
- A ventilation system should be required that provides thermal comfort with windows closed.

Point Number 923.110

Plan chapter Section D Appendices and Schedules > 29: Appendices > Appendix I: Acoustic Insulation

Summary of Decision Requested **Add** a new Permitted Activity Standard 4.1.2 as follows:

2.) A mechanical ventilation must be installed in accordance with X.

Decision Reasons:

- In all cases where sound insulation is required under Appendix I it would be undermined if windows have to be opened. Whilst Appendix I does require mechanical ventilation in some instances, the specified performance would not be sufficient to provide thermal comfort. Therefore, occupants would either have to suffer excess noise or excess/insufficient temperature. As occupants would then be forced to open windows, this situation does not address the adverse noise effect.
- A ventilation system should be required that provides thermal comfort with windows closed.

Point Number 923.111

Plan chapter Section D Appendices and Schedules > 29: Appendices > Appendix I: Acoustic Insulation

Summary of Decision Requested **Amend** Appendix I Acoustic Insulation Table 13 - Internal Sound Levels, as follows:

Area **Internal design sound level**

Waikato Gun Club Noise Control Boundary, ~~CNR 75 (Composite Noise Rating) 40 dB LAfmax~~

Decision Reasons:

- Sound insulation requirements near the Waikato Gun Club are in terms of the "CNR" measure. This is not defined in the Proposed Plan or New Zealand Standards. The CNR cannot be assessed, even by a specialist, without detailed information about the Gun Club that is not in the District Plan or publicly available.

Point Number 923.112

Plan chapter Section D Appendices and Schedules > 29: Appendices > Appendix I: Acoustic Insulation

Summary of Decision Requested **Add** new Permitted Activity Standard 5.1.3 as follows:

3. A mechanical ventilation must be installed in accordance with X.

Decision Reasons:

- In all cases where sound insulation is required under Appendix I it would be undermined if windows have to be opened. Whilst Appendix I does require

mechanical ventilation in some instances, the specified performance would not be sufficient to provide thermal comfort. Therefore, occupants would either have to suffer excess noise or excess/insufficient temperature. As occupants would then be forced to open windows, this situation does not address the adverse noise effect.

- A ventilation system should be required that provides thermal comfort with windows closed.

Point Number 923.113

Plan chapter Section D Appendices and Schedules > 29: Appendices > Appendix 1: Acoustic Insulation

Summary of Decision Requested **Add** new Permitted Activity Standard 6.1.2 as follows:

2. A mechanical ventilation must be installed in accordance with X.

Decision Reasons:

- In all cases where sound insulation is required under Appendix 1 it would be undermined if windows have to be opened. Whilst Appendix 1 does require mechanical ventilation in some instances, the specified performance would not be sufficient to provide thermal comfort. Therefore, occupants would either have to suffer excess noise or excess/insufficient temperature. As occupants would then be forced to open windows, this situation does not address the adverse noise effect.
- A ventilation system should be required that provides thermal comfort with windows closed.

Submitter Number: 924 **Submitter:** Alice Barnett
Organisation: Genesis Energy Limited

Point Number 924.39

Plan chapter Section D Appendices and Schedules > 29: Appendices > Appendix 1: Acoustic Insulation

Summary of Decision Requested **Retain** Appendix 1 6.1 Conditions for Permitted Activities in the same or similar form.

AND

Retain Appendix 1 Table 14: Internal Sound Level in the same or similar form.

Decision Reasons:

- The submitter supports the specific requirements for buildings containing noise-sensitive activities within 350m of the Huntly Power Station site boundary requiring specific internal sound levels.

Plan chapter: Section D Appendices and Schedules > 29: Appendices > Appendix 2: Criteria for Determining Significance of Indigenous Biodiversity

Submitter Number: 332 **Submitter:** Gwyneth & Barrie Smith

Point Number 332.11

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.52		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines		
Summary of Decision Requested	Amend Appendix 3.1 Residential Subdivision Guidelines to prominently include the national guidelines for CPTED to provide further useful information, and not just listed as a reference.		
Decision Reasons:	<ul style="list-style-type: none"> To ensure that there is an obligation to consider CPTED, reducing victimisation, making people safe and feel safe. 		
Point Number	297.55		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines		
Summary of Decision Requested	Retain Section 4.2 in Appendix 3.1 Residential Subdivision Guidelines – Connectivity and Movement Networks – Outcomes Sought as notified.		
Decision Reasons:	<ul style="list-style-type: none"> To consider CPTED, reducing victimisation, making people safe and feel safe. 		
Point Number	297.56		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines		
Summary of Decision Requested	Amend Section 4.3 Page 10, second row of the table in Appendix 3.1 Residential Subdivision Guidelines to provide clarification about pedestrian and cyclist linkages within the guideline around avoiding cul-de-sacs.		
Decision Reasons:	<ul style="list-style-type: none"> To consider CPTED, reducing victimization, making people safe and feel safe. The use of access ways must consider CPTED considerations such as multiple exit points and avoiding entrapment spots. 		
Point Number	297.57		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines		
Summary of Decision Requested	Amend 4.3 Page 12 in Appendix 3.1 Residential Subdivision Guidelines relating to rear lots to have stronger wording about conforming to CPTED guidelines.		
Decision Reasons:	<ul style="list-style-type: none"> To consider CPTED, reducing victimisation, making people safe and feel safe. Rear lots have become a crime attractor at other locations within the Police District, lack of good visibility, sightlines and casual surveillance are key as are elements such as concealment and lack of adequate lighting within the design. Police would like to advise developers of how to avoid replicating the design failings of other sites with rear parking lots. 		

Submitter Number:	368	Submitter:	Ian McAlley
Point Number	368.33		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines		

Summary of Decision Requested	Amend Section 3 of Appendix 3.1 Residential Subdivision Guidelines, to limit the consideration of the "site and contextual analysis" to how the subdivision/development will integrate with the immediately surrounding existing and/or proposed development.
Decision Reasons:	<ul style="list-style-type: none"> Some of the matters proposed for assessment under section 3.3 "Landform and Vegetation" are more appropriately assessed at the time a zoning change is undertaken rather than in reaction to an individual development. Where land has been zoned for residential development the Plan and assessment process must promote the efficient development of that land for that purpose. Efficiently developing residential zoned land for housing limits the potential that urban development will spread into surrounding rural areas. Assessment by way of subjective elements not clearly defined in the Plan leads to uncertainty, delays and increased costs. Where landform elements are clearly assessed and defined and included in the Plan at the time (re)zoning takes place ensures that development can be appropriately undertaken across whole settlements, rather than being assessed on an ad-hoc, site by site basis. Also, where development is occurring within an environment set aside for larger scale change than the individual development being assessed, the larger scale change (the future state) must be considered. This ensures the context the proposal is assessed within is the end result, incorporating the change as enabled by the rezoning that has occurred. Use of subjective assessment methods can lead to re-litigation by way of assessment of outcomes considered to already be enabled by way of the underlying zoning. Such uncertain and potentially protracted assessment processes are counterproductive to development occurring efficiently where such assessment should have occurred at the time a piece of land was considered for rezoning for more intensive, or alternative forms of development.

Submitter Number:	567	Submitter:	Ngati Tamaoho Trust
Point Number	567.15		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines		
Summary of Decision Requested	Amend Table 4.3 in Appendix 3.1 - Residential Subdivision Guidelines to include ticks for all small (s) and medium (m) for connectivity and movement networks.		
Decision Reasons:	<ul style="list-style-type: none"> Over time often small developments intensify. If there is not good urban design from the outset a good outcome can never be attained. 		
Point Number	567.16		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines		
Summary of Decision Requested	Amend Table 5.3 in Appendix 3.1 - Residential Subdivision Guidelines to include ticks for all small (s) for guidelines for neighbourhood character.		
Decision Reasons:	<ul style="list-style-type: none"> Small developments can intensify over time and if good urban design is not achieved at the onset, it cannot be attained in the future. 		
Point Number	567.17		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines		
Summary of Decision Requested	Amend Tables 6.3 in Appendix 3.1 - Residential Subdivision Guidelines to include ticks for all small (s) and medium (m).		
Decision Reasons:	<ul style="list-style-type: none"> Over time often small developments intensify. If there is not good urban design from the outset, a good outcome can never be attained. 		
Point Number	567.18		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines		
Summary of Decision Requested	Amend Tables 7.3 in Appendix 3.1 - Residential Subdivision Guidelines to include ticks for all small (s) and medium (m).		
Decision Reasons:	<ul style="list-style-type: none"> Over time often small developments intensify. If there is not good urban design from the outset, a good outcome can never be attained. 		
Point Number	567.19		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines		
Summary of Decision Requested	Amend Table 8.3 in Appendix 3.1 - Residential Subdivision Guidelines to show intention for offline stormwater treatment.		
Decision Reasons:	<ul style="list-style-type: none"> Not clear if wetlands and waterbodies are to be protected outside of stormwater devices and stormwater can be discharged into them only after pre-treatment. No specific decision sought but submission considers all stormwater treatment must be "offline" to any natural waterbody in the context of Section 8 of Appendix 3.1 Residential Subdivision Guidelines. No specific decision sought but submission considers wetlands should be promoted as they provide shade, terrestrial habitat and contaminant removal. Pictures in 8.3 of Appendix 3.1 Residential Subdivision Guidelines show ponds as treatment devices. Ponds are not successful in maintaining water quality. No specific decision sought, but submission considers Section 8.3 Guidelines in Appendix 3.1 Residential Subdivision Guidelines is not clear that natural wetlands/streams/ponds/watercourses are to be protected outside of stormwater devices and water can be discharged into them only following pre-treatment. 		

Submitter Number:	822	Submitter:	Bob MacLeod
Point Number	822.3		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines		
Summary of Decision Requested	Add to Appendix 3.1 Residential Subdivision Guidelines, details and illustrations of water harvesting systems as per those attached to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Financial benefit of rainwater tanks to the community through the reduction in the cost of water and stormwater infrastructure. Ability of Council to reduce the cost of water and stormwater infrastructure is dependent on the cost benefit of 'Long Run Marginal Cost'. This is used for creating new water supplies and represent the change in cost if new water sources are brought forward or delayed. 		

Submitter Number:	824	Submitter:	Bob MacLeod
Organisation:	Raglan Community Board		

Point Number	824.5
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines
Summary of Decision Requested	Amend Appendix 3.1 Section 8 Residential Subdivision Guidelines – Low Impact Urban Design, to add details and illustrations of water harvesting systems, similar to those attached to the submission.
Decision Reasons:	<ul style="list-style-type: none"> The primary financial benefit of rainwater tanks to the community (in contrast to the individual property owner) is the potential reduction in the cost of water and stormwater infrastructure. The ability of Waikato District Council as the water authorities to reduce the cost of water and storm water infrastructure will depend on the economic cost benefit Long Run Marginal Cost.

Submitter Number:	943	Submitter:	McCracken Surveys Limited
Point Number	943.42		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines		
Summary of Decision Requested	Amend Appendix 3 – Design Guidelines – 3.1: Residential Subdivision Guidelines, to bold the following statement and for it to be implemented in the intent that the words portray as follows: <i>Every application will be different (and not all the outcomes sought and design guidelines will be relevant to the assessment) of the proposed subdivision application. Each subdivision will be assessed on its merits taking into account its context and specific attributes.</i> <i>A degree of flexibility in relation to how the proposals respond to the guidelines is reasonable and to be expected. What is important is that the outcomes sought are clearly achieved and that this able to be demonstrated in the proposal.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The bracketed part of the sentence in the relief sought is potential cause for concern. It states that not all design guidelines will be relevant. Yet the boxes throughout the guideline are ticked or not ticked. Are the ticks in each box to be interpreted as being relevant no matter or can the applicant disagree with Beca and invoke the above statement? Reasonableness must play a part and to ensure that the statements must be given primacy for processing planners. Potential conflicts will arise if the above statement is not held in high regard and consistently implemented by processing planners. 		

Plan chapter: Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines > 3.3 Town Centre Guidelines

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.53		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines > 3.3 Town Centre Guidelines		
Summary of Decision Requested	Amend Appendix 3.3 Town Centre Guidelines to prominently include the national guidelines for CPTED to provide further useful information, and not just listed as a reference.		
Decision Reasons:	<ul style="list-style-type: none"> To ensure that there is an obligation to consider CPTED, reducing victimisation, making people safe and feel safe. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.114		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines > 3.3 Town Centre Guidelines		
Summary of Decision Requested	Retain Appendix 3.3- Town Centre Guidelines as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Submitter supports the good urban design outcomes embodied in these guidelines (Appendix 3.3 Town Centre Guidelines). This includes reference to the NZ Urban Design Protocol of which Crime Prevention through Environmental Design, Universal Access Design, Energy Efficiency, and Street trees are part; as it commits the signatories to specific urban design initiatives intended to raise the quality of urban design within the town/city thereby increasing opportunities for optimal health and wellbeing. 		

Plan chapter: Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines > 3.4 Multi Unit Development

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.54		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines > 3.4 Multi Unit Development		
Summary of Decision Requested	Amend Appendix 3.4 Multi-unit Development to prominently include the national guidelines for CPTED to provide further useful information, and not just listed as a reference.		
Decision Reasons:	<ul style="list-style-type: none"> To ensure that there is an obligation to consider CPTED, reducing victimisation, making people safe and feel safe. 		

Submitter Number:	300	Submitter:	Rolande Paekau
Organisation:	The Te Whaanga 2B3B2 & 2B1 Ahu Whenua Trust		

Point Number	300.5
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines > 3.4 Multi Unit Development
Summary of Decision Requested	No specific decision sought, but submission opposes Section 3.4 Multi-unit development in Appendix 3.1 Residential Subdivision Guidelines. In particular the submission considers the natural character and essence of Raglan CBD will be significantly changed should 2-storey apartments or dwellings be erected along Wainui Road-Fire station area
Decision Reasons:	<ul style="list-style-type: none"> The natural character and essence of Raglan's CBD would significantly change if 2-storey apartments or 2-storey dwellings are developed along Wainui Road and in the area of the fire station. This exploits the landscape values for tourism and economic gain with no benefits being provided to local tangata whenua.

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.136		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines > 3.4 Multi Unit Development		
Summary of Decision Requested	Amend Appendix 3.4-Multi-unit Development to recognise alternative good design outcomes created by variations in setbacks and boundary treatment.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the principles and outcomes sought in the design guide. However, the design guidance preferring consistent front setbacks and separation between buildings as well as consistent fencing and boundary treatment (i.e. through fencing heights/materials, landscaping, the configuration of pedestrian entrances) encouraged by the design guide could create a repetitive built form. There may be good design outcomes created by variations by in setbacks and boundary treatments. 		

Submitter Number:	751	Submitter:	Chanel Hargrave and Travis Miller
Point Number	751.57		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 3.1: Residential Subdivision Guidelines > 3.4 Multi Unit Development		
Summary of Decision Requested	Amend Appendix 3.4 Multi Unit Development to recognise alternative options may be more suitable.		
Decision Reasons:	<ul style="list-style-type: none"> The design guidance preferring consistent front setbacks and separation between buildings as well as consistent fencing and boundary treatment is encouraged by the design guide to create a repetitive form. There may be good design outcomes created by variations in setbacks and treatments. 		

Plan chapter: Section D Appendices and Schedules > 29: Appendices > Appendix 4: Esplanade Priority Areas

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.318		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 4: Esplanade Priority Areas		
Summary of Decision Requested	Amend Appendix 4 (Esplanade Priority Areas) to ensure legal descriptions are correct and accurately reflect the properties they relate to.		
Decision Reasons:	To ensure correct references are detailed.		

Plan chapter: Section D Appendices and Schedules > 29: Appendices > Appendix 5: Hazardous Substances

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.81		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 5: Hazardous Substances		
Summary of Decision Requested	<p>Amend the thresholds within Appendix 5 Hazardous Substances, as follows:</p> <ul style="list-style-type: none"> More permissive levels for 8.3; More permissive levels for 8.3A; To better recognise that fire retardants come in different forms, including as solids rather than liquids, powders and foams, and this alters the applicable thresholds, To provide for the temporary storage of chemicals necessary for providing an emergency response. <p>AND/OR</p> <p>Amend Appendix 5 Hazardous Substances in recognition that the provisions of the Hazardous Substances and New Organisms Act (HSNO) and Health and Safety at Work Act are adequate to manage risks in this regard, without an overlapping district plan framework.</p> <p>OR</p> <p>Delete Appendix 5 Hazardous Substances in recognition that the provisions of the Hazardous Substances and New Organisms Act (HSNO) and Health and Safety at Work Act are adequate to manage risks in this regard without an overlapping District Plan framework.</p> <p>AND</p> <p>Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand supports in part Appendix 5 as while fire stations and associated firefighting activities involve the use and storage of hazardous substances at quantities that are considered minor; it is possible that thresholds within Appendix 5 for some zones will trigger the need for consent, which could affect Fire and Emergency New Zealand's ability to operate as easily and smoothly as needed. Therefore, Fire and Emergency New Zealand requests that the thresholds within Appendix 5 be amended as follows: 		

1. The 8.3 classification (Table 5.1 contained within Appendix 5 (Hazardous Substances)) has a relatively low limit in the Business Town Centre Zone, and is quite low in other areas- lots of household products are eye corrosives from dishwashing to laundry powder. This would limit and potentially prevent Fire and Emergency New Zealand having a HAZMAT vehicle based in this zone because they carry neutralizing agents which are eye corrosives. A greater concern is that some of Fire and Emergency New Zealand's fire retardants and foams also have this classification and this limit could potentially require that Fire and Emergency New Zealand need a resource consent to hold a small amount or and other these chemicals on site, as a lower limit would be largely taken up by ordinary household chemicals used on site.
 2. The 8.3A classification is for eye corrosion. A person is only affected by this hazard class if they come into direct contact with a product with this classification. This hazard is also managed under the health and safety at work and HSNO legislation usually via labeling and PPE requirements. Fire and Emergency New Zealand considers that there is no logic in restricting the amount of these substances held as it relates to Fire and Emergency New Zealand operations, particularly if they are in enclosed containers for systems.
 3. Some of Fire and Emergency New Zealand's fire retardants are solids rather than liquids and the reasons for the limits specified in the plan do not make sense for solids. Fire and Emergency New Zealand current main fire retardant is a powder but Fire and Emergency New Zealand are also looking at new foams which come in bricks. As such, higher restrictions for waterways do not make sense for these products as they do not leak or flow.
 4. Fire and Emergency New Zealand often requires the temporary storage of chemicals necessary for providing an emergency response, during an emergency and within a short period after the emergency, i.e. there is a small grace period for example if Fire and Emergency New Zealand need a truck to remove a container which has firefighting chemicals in it, they may need to wait for a few working days after the emergency has finished for a contractor to do that work. Not providing for this could restrict Fire and Emergency New Zealand's ability to respond to bush or other major events, e.g. large acid spills and other HAZMAT events. This could also result in a breach of the RMA in order to bring in the necessary products to resolve the issue and prevent harm to people/the environment.
- 2018 amendments to sections 30 and 31 of the RMA removed control of hazardous substances as an explicit function of council as the provisions of HSNO and Health and Safety at Work are adequate to managed risks, for the most part.

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.14		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 5: Hazardous Substances		
Summary of Decision Requested	<p>Delete Appendix 5 Hazardous Substances and Table 5.1 Activity Status Table - Permitted activity thresholds.</p> <p>AND</p> <p>Delete references to Appendix 6 and Table 6.1 Activity Status Table in Rule 22.2.4 Hazardous Substances.</p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter does not agree with the use of Activity Status Tables and seeks that Appendix 5 be deleted. • Rule 22.2.4 references Table 6.1 in Appendix 6 which is assumed to be Table 5.1 in Appendix 5.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.319		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 5: Hazardous Substances		
Summary of Decision Requested	<p>Amend Appendix 5 Ecotoxic Class 9 - High Biological Oxygen Demand (>10,000mg/l) as follows:</p> <p>Line one - <u>High Biological Oxygen Demand (BODs)(>10,000 mg/l), <30m of a watercourse</u></p> <p>Line two - <u>High Biological Oxygen Demand (BODs)(>10,000 mg/l), >30m of a watercourse</u></p>		
Decision Reasons:	To avoid confusion to the plan reader.		
Point Number	697.320		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 5: Hazardous Substances		
Summary of Decision Requested	<p>Amend Appendix 5 Hazardous substances to include Assessment Criteria for Discretionary Activities as follows:</p> <p><u>Assessment Criteria</u></p> <p><u>When assessing discretionary applications, the assessment shall include (but is not limited to):</u></p> <p><u>a. How the hazardous facility is located on the site, taking into account separation from boundaries and other more sensitive land uses;</u></p> <p><u>b. How the design and proposed management contributes to the minimisation of adverse effects on the environment;</u></p> <p><u>c. The individual risks of the hazardous facility and cumulative risks with other hazardous facilities in the vicinity, as relevant;</u></p> <p><u>d. The actual and potential adverse effects associated with the transport of a hazardous substance on road infrastructure or on sensitive land uses along transport routes, if this is a significant aspect of the facility;</u></p> <p><u>e. Consideration of the risks posed by the occurrence of identified natural hazard events in the area to the hazardous facility;</u></p> <p><u>f. The degree of social, cultural or economic benefits the facility and its associated storage, use or disposal of hazardous substances will have locally;</u></p> <p><u>g. Whether an assessment of the risks has been provided which contains a level of detail which corresponds to the scale and nature of the facility proposed and the hazardous substances involved. An assessment may need to include the following considerations:</u></p> <p><u>i. the sensitivity of the receiving environment to any risks;</u></p> <p><u>ii. risk identification (inherent risk) and assessment, and risk management response (residual risk);</u></p> <p><u>iii. practicable alternative method of management that would present less risk;</u></p> <p><u>iv. how the proposal minimises or mitigates cumulative adverse effects with respect to other hazardous facilities in the area;</u></p> <p><u>v. proposed emergency management equipment and plans and the adequacy of overall emergency response capability.</u></p> <p><u>Note: a risk assessment should correspond to the scale and significance of the activity and its risks. A quantitative risk assessment may be required for major hazardous facilities where the risk contributors may be significant or complex. A risk assessment should be undertaken by a suitably qualified and experienced professional.</u></p>		
Decision Reasons:	Assessment Criteria provide further information for plan users when preparing applications for Discretionary Activity resource consents.		

Submitter Number:	797	Submitter:	Fonterra Limited
Point Number	797.38		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 5: Hazardous Substances		
Summary of Decision Requested	<p>Delete Appendix 5 Hazardous Substances.</p> <p>AND</p> <p>Any consequential amendments or further relief to give effect to the concerns raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Control of hazardous substances is not a matter that requires RMA management. 		

Plan chapter: Section D Appendices and Schedules > 29: Appendices > Appendix 6: Biodiversity Offsetting

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.187		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 6: Biodiversity Offsetting		
Summary of Decision Requested	<p>Amend Appendix 6 (2) (1) Biodiversity Offsetting as follows:</p> <p><u>Restoration, enhancement and protection actions offered by an applicant will only be considered a biodiversity offset where they are used to offset compensate for the anticipated reasonably-measurable residual effects of activities that are anticipated will remain after appropriate avoidance, remediation and mitigation measures actions have been applied occurred in accordance with Policy 3.2.3.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> Appendix 6 (2) (1) is difficult to follow. A resource consent applicant is not required to propose or agree to biodiversity offset measures, but may choose to do so if they are unable to avoid, remedy or mitigate the adverse effects of the activity they propose. A biodiversity offset is not mitigation. Mitigation is action to reduce the severity of an adverse effect. A biodiversity offset, in contrast, is designed to compensate for residual adverse biodiversity effects that remain after appropriate measures to avoid, remedy or mitigate the effects have been applied. Submitter supports Biodiversity Offsetting Framework outlined in Appendix 6 but seeks the amendments in this submission point. 		
Point Number	81.188		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 6: Biodiversity Offsetting		

Summary of Decision Requested	Amend Appendix 6 Biodiversity Offsetting to take into account the forthcoming national guidance for local government on biodiversity offsetting, <i>Biodiversity Offsetting under the Resource Management Act; A guidance document</i> .		
Decision Reasons:	<ul style="list-style-type: none"> It is recommended to amend the detail relating to offsetting in order to give effect to Policy 11.1 of the WRPS. 		

Submitter Number:	246	Submitter:	Tony Oosten
Point Number	246.3		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 6: Biodiversity Offsetting		
Summary of Decision Requested	Amend Appendix 29:6 Biodiversity Offsetting so that the use of biodiversity offsets is the last resort and the area is 200% of the impacted area.		
Decision Reasons:	<ul style="list-style-type: none"> Biodiversity offsets are not equivalent in quality to the original existing areas of biodiversity as it is impossible to replicate the exact geological and climatic conditions as well as relocate all species of flora and fauna. 		

Submitter Number:	433	Submitter:	Mischa Davis
Organisation:	Auckland Waikato Fish and Game Council		
Point Number	433.63		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 6: Biodiversity Offsetting		
Summary of Decision Requested	Amend Appendix 6: Biodiversity Offsetting, as follows: <i>The following sets out a framework for the use of biodiversity offsets. It should be read in conjunction with the New Zealand government Guidance on Good Practice Biodiversity Offsetting in New Zealand, New Zealand Government et al, August 2014 (or any successor document),</i> ... 2. A proposed biodiversity offset will contain an <u>quantitative</u> assessment of losses and gains commensurate with the scale of effects of the activity, and should demonstrate the manner in which no net loss can be achieved. AND/OR Any alternative relief to address the issues and concerns raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Generally supports Appendix 6. Appendix 6 should better reflect the document 'Guidance on Biodiversity Offsetting' as set out in this website link: https://www.doc.govt.nz/about-us/our-policiesand-plans/guidance-on-biodiversity-offsetting/. 		

Submitter Number:	585	Submitter:	Lucy Roberts
Organisation:	Department of Conservation		
Point Number	585.14		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 6: Biodiversity Offsetting		
Summary of Decision Requested	Retain Appendix 6 Biodiversity offsetting, except for the amendments sought below AND Amend Appendix 6 Biodiversity offsetting as follows: <i>Introduction</i> ... <i>The following sets out a framework for the use of biodiversity offsets. It should be read in conjunction with the New Zealand government Guidance on Good Practice Biodiversity Offsetting in New Zealand, New Zealand Government et al, August 2014 (or any successor document),</i> 2 Biodiversity offsetting framework ... 2. A proposed biodiversity offset will contain an <u>qualitative</u> assessment of losses and gains commensurate with the scale of effects of the activity, and should demonstrate the manner in which no net loss can be achieved. AND Amend bullet 8 of Appendix 6 Biodiversity Offsetting to ensure that any offset not replacing biodiversity on a like for like basis should not 'trade up' from already threatened or at risk biodiversity.		
Decision Reasons:	<ul style="list-style-type: none"> Generally support appendix 6, however requests amendment to better reflect guidance on Biodiversity Offsetting. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.250		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 6: Biodiversity Offsetting		
Summary of Decision Requested	Retain Appendix 6: Biodiversity Offsetting, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter understands the purpose and intent of Appendix 6. 		

Plan chapter: Section D Appendices and Schedules > 29: Appendices > Appendix 7: Raglan Navigation Beacon

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.426		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 7: Raglan Navigation Beacon		
Summary of Decision Requested	Amend Appendix 7 to reflect the increased height of the Raglan navigation beacon, and therefore the elevated height restriction plane which will apply.		
Decision Reasons:	<ul style="list-style-type: none"> The Raglan navigation beacon will be raised in height shortly which means that the height restriction plane diagram and survey data contained in Appendix 7 will no longer be correct. 		

Plan chapter: Section D Appendices and Schedules > 29: Appendices > Appendix 9: Te Kowhai Airfield precincts zoning

Submitter Number:	369	Submitter:	Linnet Watson
On behalf of:	S W Ranby		
Point Number	369.3		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 9: Te Kowhai Airfield precincts zoning		
Summary of Decision Requested	Delete Appendix 9 Te Kowhai Airfield Precincts Zoning.		
Decision Reasons:	<ul style="list-style-type: none"> The proposed Specific Zoning introduces new restrictions on private property in the form of an extended Obstacle Limitation Surface in the vicinity of the proposed Airpark while facilitating unlimited commercial and recreational aviation, which will result in adverse noise effects. The extended Obstacle Limitation Surface will allow aircraft to fly lower over affected properties, which will exacerbate adverse noise effects. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.84		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 9: Te Kowhai Airfield precincts zoning		
Summary of Decision Requested	Delete Appendix 9 Te Kowhai Airfield Precincts Zoning. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The proposal does not appear well connected to the Te Kowhai Village. The s32 mentions that the design has been altered to ensure better connectivity, but this is not immediately obvious from the plans contained within Appendix 9. It would be helpful for the development to better define itself in terms of integration and connectivity with Te Kowhai, particularly from an infrastructure and community services perspective. For example, at present the location of the access to the development potentially lends itself more to connectivity to Hamilton than it does to Te Kowhai. 		

Submitter Number:	602	Submitter:	Greig Metcalfe
Point Number	602.13		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 9: Te Kowhai Airfield precincts zoning		
Summary of Decision Requested	Amend Appendix 9: Te Kowhai Airfield, so that it carries over the existing Obstacle Limitation Surfaces in the Operative Waikato District Plan, which satisfies the requirement in the CAA Advisory Circular Ac 139-7 Section 3.2 Day VFR Runway. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The Obstacle Limitation Surfaces (OLS) in the Operative Waikato District Plan satisfy the Civil Aviation Authority's Advisory Circular AC 139-7 section 3.2 Day VFR Runway. Lot 2 DP 456538 (CRF 590290) is affected by the proposal to lower the OLS to satisfy the Civil Aviation Authority's Advisory Circular AC 139-7 section 3.3 Night or instrument approach runway. This means a reduction in the potential building height (i.e. where the OSL is lower than the zone limit of 7.5m) and a large number of trees that breach the proposed OSL, notwithstanding that they would have existing use rights under section 10 of the Resource Management Act. While consultation between this submitter and Te Kowhai Airpark landowners is on-going, there is not yet any understanding or agreement as to how these breaches would be managed in the future. 		

Submitter Number:	823	Submitter:	NZTE Operations Limited
Point Number	823.6		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 9: Te Kowhai Airfield precincts zoning		
Summary of Decision Requested	Amend the Zoning Plan in Chapter 29 – Appendix 9 – Te Kowhai Airfield precincts zoning, to read "Te Kowhai Airpark Zone" rather than "Special Activity Zone Te		

Kowhai Airpark" to align with the terminology in Chapter 27.

AND

Amend the Proposed District Plan for any consequential relief required to give effect to this submission.

Decision Reasons:

- The Zoning Plan in Appendix 9 refers to 'Special Activity Zone Te Kowhai Airpark'. In the interests of consistency, the Zoning Plan should be changed to refer to the 'Te Kowhai Airpark Zone', which better aligns with the terminology in Chapter 27.

Plan chapter: Section D Appendices and Schedules > 29: Appendices > Appendix 10.1: Raglan Town Centre

Submitter Number: 246 **Submitter:** Tony Oosten

Point Number 246.4

Plan chapter Section D Appendices and Schedules > 29: Appendices > Appendix 10.1: Raglan Town Centre

Summary of Decision Requested **Amend** Appendix 10.1 (Raglan Town Centre) to:

- *Include Raglan town center character statements:*
 - *Enhance the pedestrian-friendly boulevard by de-prioritizing vehicular traffic;*
 - *Control development of buildings on either side of the Historic Harbour View Hotel to 2 storeys maximum;*
 - *Expand to 3 storey while maintaining the ground floor shop and verandah frontage and protection of the Harbour View stance*

Decision Reasons:

- The Raglan Town Center is defined by its pedestrian-friendly boulevard and actions must be taken to enhance this.
- The clear stance of the Historic Harbour View Hotel in the streetscape needs to be maintained and potentially enhanced.

Submitter Number: 253 **Submitter:** Jasmine Hunter

Point Number 253.1

Plan chapter Section D Appendices and Schedules > 29: Appendices > Appendix 10.1: Raglan Town Centre

Summary of Decision Requested **Add** a Special Character Area for Raglan, with a focus on the following qualities:

- Diverse buildings and people
- Relaxed
- No multi-story buildings
- Enabled Individual expression
- Pedestrian friendly
- Bike-friendly
- Water views
- Human-Scale Buildings
- Wild Coast

OR

Amend the District Plan to require any building activity that does not comply with the District Plan in Raglan to be publicly notified.

Decision Reasons:

- Raglan's special character is eroding and there should be better protection of that character.
- There is a need to preserve the quaintness, uniqueness and the kaitiakitanga the Raglan iwi and greater community have.
- Needed so that Raglan does not resemble other holiday towns that only cater for holidaymakers.
- There needs to be a stronger focus on the sensitivity to character of the CBD area.
- The controversy over the recent approval and waivers for an apartment block on Stewart Street highlights the lack of focus within the District Plan.
- The District Plan needs strengthening and making the driver of development.

Plan chapter: Section D Appendices and Schedules > 29: Appendices > Appendix 10.1: Raglan Town Centre > 10.4 Pokeno Town Centre

Submitter Number: 567 **Submitter:** Ngati Tamaoho Trust

Point Number 567.20

Plan chapter Section D Appendices and Schedules > 29: Appendices > Appendix 10.1: Raglan Town Centre > 10.4 Pokeno Town Centre

Summary of Decision Requested No specific decision sought, but submission questions if it is an intended omission that there is no mention of sustainable development in Appendix 10: Town Centre Character Statements - 10.4 - Pokeno Town Centre.

Decision Reasons:

- No reasons provided.

Point Number 567.21

Plan chapter Section D Appendices and Schedules > 29: Appendices > Appendix 10.1: Raglan Town Centre > 10.4 Pokeno Town Centre

Summary of Decision Requested No specific decision sought, but submission questions if it is an intended omission that there is no consideration for road contaminants being treated through vegetated swales or rain gardens in Appendix 10: Town Centre Character Statements - 10.4 - Pokeno Town Centre.

Decision Reasons:

- No reasons provided.

Point Number 567.22

Plan chapter Section D Appendices and Schedules > 29: Appendices > Appendix 10.1: Raglan Town Centre > 10.4 Pokeno Town Centre

Summary of Decision Requested	No specific decision sought, but submission questions if it is an intended omission that there is no discussion of enhancement of streams in Appendix 10: Town Centre Character Statements - 10.4 - Pokeno Town Centre.
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.
Point Number	567.29
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 10.1: Raglan Town Centre > 10.4 Pokeno Town Centre
Summary of Decision Requested	No specific decision sought, but submission questions if it is an intended omission that there is no discussion of enhancement of streams in Appendix 10.4 Town Centre Character Statements for Pokeno Team Centre.
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.

Plan chapter: Section D Appendices and Schedules > 29: Appendices > Appendix 10.1: Raglan Town Centre > 10.5 Te Kauwhata Town Centre

Submitter Number:	384	Submitter:	Te Kauwhata Community Committee
Point Number	384.1		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 10.1: Raglan Town Centre > 10.5 Te Kauwhata Town Centre		
Summary of Decision Requested	<p>Amend Appendix 10.5 Character Statements for Te Kauwhata Town Centre 2017, as per but not limited to the suggestions in the document attached to the submission.</p> <p>Some points for consideration are, but not limited to:</p> <ul style="list-style-type: none"> Ensure that there are fluid connections to walkways/cycleways and also to include those trails etc that are envisaged in the future; Public transport options; Smaller/modern retail features with more options/opportunities eg: rental/lease opportunities for small business in Te Kauwhata to have a physical presence and to be able to contribute more fully to the local economy; Consideration of any effect (positive or negative) of mixed zoning options ie: Residential and Retail; Enhanced/improved cosmetic features whilst retaining the heritage features of the main street eg: better/brighter/modern appearance/features of the retail sector, town centre feature(s)/plantings, improved parking, more park bench setting, usage of the currently vacant land in town; Work with Mana Whenua regarding the development and promotion of cultural features in Te Kauwhata ie: Cultural Repatriation. 		
Decision Reasons:	<ul style="list-style-type: none"> The town character statement should more accurately reflect the village community of Te Kauwhata as it is today, in order to better guide the future direction, yet maintaining links to the past. 		
Decision Reasons:			

Plan chapter: Section D Appendices and Schedules > 29: Appendices > Appendix 10.1: Raglan Town Centre > 10.6 Tuakau Town Centre

Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		
Point Number	567.24		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 10.1: Raglan Town Centre > 10.6 Tuakau Town Centre		
Summary of Decision Requested	No specific decision sought, but submission questions if it is an intended omission that there is no consideration for road contaminants being treated through vegetated swales or rain gardens in Appendix 10: Town Centre Character Statements - 10.6 - Tuakau Town Centre.		
Decision Reasons:	<ul style="list-style-type: none"> Does not feel that the proposed district plan covers environmental future effects. 		
Point Number	567.25		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 10.1: Raglan Town Centre > 10.6 Tuakau Town Centre		
Summary of Decision Requested	No specific decision sought, but submission questions if it is an intended omission that there is no discussion of enhancement of streams in Appendix 10: Town Centre Character Statements - 10.6 - Tuakau Town Centre.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Plan chapter: Section D Appendices and Schedules > 29: Appendices > Appendix 12: Motorsport and Recreation

Submitter Number:	367	Submitter:	Liam McGrath
Organisation:	Mercer Residents and Ratepayers Committee		

Point Number	367.31
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 12: Motorsport and Recreation
Summary of Decision Requested	Add Pukekohe Motorcycle Club, located in Mercer, to Appendix 12 Motorsport and Recreation.
Decision Reasons:	<ul style="list-style-type: none"> Such activities provide great opportunities to showcase small towns and what highly regarded, high class race tracks can be.
Point Number	367.50
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 12: Motorsport and Recreation
Summary of Decision Requested	Add Meremere Dragway, located off SH1 to Appendix 12 Motorsport and Recreation.
Decision Reasons:	<ul style="list-style-type: none"> Includes Jetsprints. Such activities provide great opportunities to showcase small towns and what highly regarded, high class race tracks can be.

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.60		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 12: Motorsport and Recreation		
Summary of Decision Requested	Delete the outdated plans from Appendix 12 Motorsport and Recreation.		
	AND		
	Retain the noise contour plan in Appendix 12 Motorsport and Recreation.		
Decision Reasons:	<ul style="list-style-type: none"> A lot of the plans in Appendix 12 are outdated and require deleting or replacing with updated plans. Several of these plans are outdated and require deleting or replacing with updated plans. The inclusion of the noise contour plan is supported. The identification of precinct areas on the planning maps negates the requirement to include the outdated Concept Plan in the PDP. The old concept plan should either be updated or deleted. 		

Submitter Number:	783	Submitter:	Reid Investment Trust
Point Number	783.11		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 12: Motorsport and Recreation		
Summary of Decision Requested	Amend Attachments A, E and L within Appendix 12 Hampton Downs Motor Sport and Recreation to remove references and annotations of "car parking" from the property at Lot 6 DP 411257 Hampton Downs Road, Hampton Downs, including deleting the site from Area B and deleting the annotation of 233 spaces from the site.		
	AND		
	Amend Rule 26.2.8 P1 (a) Car parking access and Roading as necessary as a consequential amendment.		
	AND		
	Any consequential amendments or further relief to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> These changes reflect that the site is no longer used for event car parking, and in anticipation of the site's inclusion into the Hampton Downs Motorsport and Recreation Zone, Precinct E. 		
Point Number	783.12		
Plan chapter	Section D Appendices and Schedules > 29: Appendices > Appendix 12: Motorsport and Recreation		
Summary of Decision Requested	Delete Attachment M of Appendix 12 Hampton Downs Motor Sport and Recreation		
	AND		
	Amend Rule 14.12.5.7 Required parking spaces and loading bays as a consequential amendment.		
	AND		
	Any consequential amendments or further relief to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The need for car parking and loading bay standards specific top the Hampton Downs Motorsport and Recreation Zone, with the exemption of event parking appears superfluous and is not assessed in the section 32 report 		

Plan chapter: Section D Appendices and Schedules > 30: Schedules

Submitter Number:	8	Submitter:	Geoscience Society of New Zealand
Point Number	8.1		
Plan chapter	Section D Appendices and Schedules > 30: Schedules		
Summary of Decision Requested	Add a new schedule listing scheduled Outstanding Natural Features (ONF) in the district.		
Decision Reasons:	<ul style="list-style-type: none"> Outstanding Natural Features are geological sites and landforms. Marine and terrestrial ecosystems, cultural and historic sites are all protected through other 		

- clauses in the RMA.
- Outstanding natural features were included in the RMA after our Society's submission where a clause was needed to protect the outstanding aspects of NZ's unique geoheritage.
- Outstanding natural features are outstanding geological sites and landforms recognised by other territorial and local authorities in northern NZ: e.g. Far North District Council 113 ONFs, Whangarei District Scheme schedules 56 ONFs, Auckland Unitary Plan schedules 254 ONFs, Waitomo District 75 potential ONFs to be scheduled. All of the above are geoheritage features.
- Identifying and scheduling outstanding natural features are the most critical actions for a District Plan.

Point Number 8.2

Plan chapter Section D Appendices and Schedules > 30: Schedules

Summary of Decision Requested **Add** a new Schedule to Section D Appendices and Schedules, entitled "Important Geological Sites and Landforms", and include the following sites (from the Waikato District Plan - Franklin Section, Part 5, Schedule 5B) in the schedule.

Daff Road Jurassic Plant Beds
Kaawa Creek-Ngatutura Bay Section
Kellyville Tuff Ring
Moeweka Quarry, Jurassic Fauna
Onewhero Tuff Ring
Opuatia Cliff Jurassic Fauna
Port Waikato to Tuakau Bridge Road Jurassic Section
Pukekawa III Scoria Cone
Huriwai Beach Jurassic Plant Beds
Waikato River Delta

Decision Reasons:

- These features are currently Outstanding Natural Features in the Franklin Section of the operative Waikato District Plan.
- These features have been protected as Outstanding Natural Features since the 1990s.
- The Society has attended resource consent hearings and commented on applications which have helped defend them from inappropriate subdivision, use and development as defined in RMA clause 4b.
- Not scheduling or showing these Outstanding Natural Features on planning maps must be an oversight, as it appears to be tantamount to removing the protection they so desperately need and have had for quarter of a century.

Point Number 8.3

Plan chapter Section D Appendices and Schedules > 30: Schedules

Summary of Decision Requested **Add** the following additional Outstanding Natural Features (i.e. geological sites and landforms) as recorded in the NZ Geopreservation Inventory to a new schedule of Outstanding Natural Features as follows:

1. Port Waikato sandspit
2. Ngapuriri natural arch and surrounding karst
3. Huriwai-Waikawau coastal section
4. Waiwiri Beach unconformity and basal Waitemata group
5. Pukeatanga scoria cone
6. Onewhero scoria cone
7. Kauri Rd scoria cone
8. Onepoto volcanic cone
9. Te Kohanga tuff ring
10. Rasmussen Rd tuff ring
11. Waiuku volcanic cone
12. Pokeno scoria cone
13. Serpell Rd tuff ring
14. Puketoka conglomerate
15. Waikorea hot springs
16. Gibsons Beach unconformity and fossil karst
17. Taupiri Gorge
18. Dunphall Bluffs Oligocene sandstone
19. Waingaro hot springs
20. Carters Beach shore platforms
21. Raglan coastal karst
22. Te Toto Gorge lava and pyroclastic sequence
23. Mt Karioi
24. Papnui Pt volcanics
25. Bridal veil Falls columnar jointed basalt
26. Lake Disappear blind valley
27. Lake Disappear karst
29. Taranki Pt karst
30. Aotea dune field
31. Helectite Hole karst

Decision Reasons:

- The significance and location of these outstanding features are outlined in the publicly accessible NZ Geopreservation Inventory.
- Outstanding natural features need to be identified, mapped and scheduled so that they can be protected from inappropriate subdivision, use and development, as required by RMA clause 4B and in Policy 15 of the NZ Coastal Policy Statement which states: avoid adverse effects of activities on outstanding natural features and outstanding natural landscapes in the coastal environment.
- Outstanding Natural Features are geological sites and landforms. Marine and terrestrial ecosystems, cultural and historic heritage sites are protected through other clauses in the RMA.
