Organisation:	Genesis Energy Limited		
Point Number	924.20		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.5 Policy – Natural hazards and climate change		
Summary of Decision Requested	Amend Policy 6.1.5 (a)- Natural Hazards and Climate Change as follows: <i>(a) Encourage the design and location of <u>new</u> infrastructure to take account of natural hazards and the effects of climate change.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of this policy, but recommends it is made explicit that this policy relates to new infrastructure. 		

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.6 Objective – Reverse sensitivity

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.37		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.6 Objective – Reverse sensitivity		
Summary of Decision Requested	Retain Objective 6.1.6 (a) Reverse sensitivity as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Counties Power wants to ensure that infrastructure is protected from any new activities. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.70		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.6 Objective – Reverse sensitivity		
Summary of Decision Requested	Amend Objective 6.1.6 (a) Reverse sensitivity, as follows: <i>(a) Infrastructure is protected from reverse sensitivity effects, and infrastructure (including the National Grid) is not compromised. Manage activities to the extent reasonably possible to reduce the potential for reverse sensitivity effects on infrastructure.</i> AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The objective seeks an outcome to protect. Even the National Policy Statement for Electricity Transmission does not have an objective to 'protect', however it seeks to manage activities to the extent reasonably possible. The important matter is that activities are managed to reduce the potential for reverse sensitivity effects on infrastructure. In essence the objective is seeking to apply an objective for the National Grid, which is recognised as nationally significant on all infrastructure, therefore the general objective for infrastructure should be differentiated from specific Objective 6.2.1 National Grid. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.77		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.6 Objective – Reverse sensitivity		
Summary of Decision Requested	Retain Objective 6.1.6 Reverse sensitivity, except for the amendments sought below AND Amend Objective 6.1.6 Reverse sensitivity, as follows: <i>6.1.6 Objective – Reverse sensitivity Adverse Effects on Infrastructure</i> (a) ... AND Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The provision of an objective specific to reverse sensitivity is supported, as is the specific reference to the National Grid within the objective. However, amendment is sought to the objective title to recognise that it is not only sensitive activities which can compromise infrastructure, but also the adverse effects of subdivision, land use and development. The submitter can be affected by other activities that establish beneath or in close proximity to its lines and/or structures. Such activities can generate reverse sensitivity effects where landowners/operators request a Council to impose constraints on existing infrastructure to manage effects such as noise, reduced visual amenity, radio and television interference, perceived Electric and Magnetic Field (EMF) effects, or interference with business activities beneath the lines. Subdivision, land use and development can also compromise the National Grid through activities such as access to the National Grid assets being blocked, buildings and structures being located close to assets and causing risk and safety issues (such as flashovers) or the location of buildings and activities, particularly 'sensitive activities' such as schools and residential properties, beneath or in close proximity to lines and/or structures can limit the submitter's ability to maintain, upgrade and develop the National Grid. The recognition of subdivision, land use and development activities not compromising infrastructure (and in particular the National Grid) would give effect to Policy 10 of the NPSET. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.92		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.6 Objective – Reverse sensitivity		
Summary of Decision Requested	Retain Objective 6.1.6 Reverse sensitivity, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support objective as notified and the inclusion of an infrastructure chapter. 		

Submitter Number:	580	Submitter:	Andrew Feierabend
Organisation:	Meridian Energy Limited		
Point Number	580.14		

Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.6 Objective – Reverse sensitivity		
Summary of Decision Requested	Retain Objective 6.1.6 Reverse Sensitivity.		
Decision Reasons:	<ul style="list-style-type: none"> • Endorse the explicit protection of infrastructure from reverse sensitivity effects, noting that renewable energy facilities are included in "infrastructure". • Seek to ensure that the Plan rules follow through by genuinely protecting authorised and existing lawfully established large-scale wind farms from adverse reverse sensitivity effects. 		

Submitter Number:	646	Submitter:	Vodafone New Zealand Limited
Point Number	646.43		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.6 Objective – Reverse sensitivity		
Summary of Decision Requested	Retain Objective 6.1.6 Reverse sensitivity.		
Decision Reasons:	<ul style="list-style-type: none"> • This is generally consistent with the policy framework in the draft National Planning Standards for infrastructure. • The provisions are considered to provide a workable policy framework for telecommunications infrastructure framework. 		

Submitter Number:	648	Submitter:	Chorus New Zealand Limited
Point Number	648.44		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.6 Objective – Reverse sensitivity		
Summary of Decision Requested	Retain Objective 6.1.6 Reverse sensitivity as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The provisions are generally consistent with the policy framework in the draft National Planning Standard for Infrastructure. • The provisions are considered to provide a workable policy framework for telecommunications infrastructure. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.81		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.6 Objective – Reverse sensitivity		
Summary of Decision Requested	Amend Objective 6.1.6 (a) Reverse sensitivity, as follows: <i>(g) Existing and/or designated infrastructure (including the National Grid) is protected from reverse sensitivity effects, and infrastructure (including the National Grid) is not compromised.</i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports protection of existing infrastructure from reverse sensitivity effects, but this should not apply to infrastructure that does not yet exist. Submitter seeks that this policy be amended by referring to protection of existing and/or designated infrastructure. 		

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.28		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.6 Objective – Reverse sensitivity		
Summary of Decision Requested	Retain Objective 6.1.6 Reverse sensitivity.		
Decision Reasons:	<ul style="list-style-type: none"> • Objective 6.1.6 ensures that development is managed around infrastructure to avoid potential reverse sensitivity effects. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.49		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.6 Objective – Reverse sensitivity		
Summary of Decision Requested	Retain Objective 6.1.6 Reverse Sensitivity, except for the amendments sought below AND Amend Objective 6.1.6 Reverse Sensitivity as follows: <i>Existing and planned infrastructure (including the National Grid) is protected from reverse sensitivity effects, and infrastructure (including the National Grid) its construction, operation, maintenance, repair, replacement and upgrading is not compromised.</i> AND Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports Objective 6.1.6 as it recognises that sensitive or incompatible activities being established near infrastructure can affect the safe, 		

- effective and efficient operation of infrastructure.
- Amendment is sought to ensure both existing and planned infrastructure is covered and recognises the importance of the construction, operation, maintenance, and upgrading of infrastructure.

Submitter Number:	777	Submitter:	Radio New Zealand Limited
Point Number	777.8		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.6 Objective – Reverse sensitivity		
Summary of Decision Requested	Retain Objective 6.1.6 Reverse sensitivity, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the protection of infrastructure from reverse sensitivity effects. 		

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.16		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.6 Objective – Reverse sensitivity		
Summary of Decision Requested	Retain Policy 6.1.6 Reverse sensitivity as notified		
Decision Reasons:	<ul style="list-style-type: none"> Supports the inclusion of specific provisions that provide for, recognise and enable infrastructure, which is considered to cover the water supply system for the mining site and the pump station at Allcock Road and which should include the slurry pipeline infrastructure. 		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.42		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.6 Objective – Reverse sensitivity		
Summary of Decision Requested	Retain Objective 6.1.6 Reverse Sensitivity, except for the amendments sought below AND Amend Objective 6.1.6 Reverse Sensitivity as follows: (a) Infrastructure is protected from reverse sensitivity effects, and infrastructure (including the National Grid <u>and regionally significant infrastructure</u>) is not compromised.		
Decision Reasons:	<ul style="list-style-type: none"> Avoiding reverse sensitivity effects on infrastructure is supported, however seek that regionally significant infrastructure is explicitly provided for. 		

Submitter Number:	924	Submitter:	Alice Barnett
Organisation:	Genesis Energy Limited		
Point Number	924.21		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.6 Objective – Reverse sensitivity		
Summary of Decision Requested	Retain Objective 6.1.6- Reverse Sensitivity in the same or similar form.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this objective and recommends it is retained in the same or similar form. 		

Submitter Number:	945	Submitter:	First Gas Limited
Point Number	945.37		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.6 Objective – Reverse sensitivity		
Summary of Decision Requested	Retain Policy Objective 6.1.6 - Reverse Sensitivity.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally supports the inclusion of Objective 6.1.6 which seeks to ensure that infrastructure is protected from reverse sensitivity effects and not compromised. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.34		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.6 Objective – Reverse sensitivity		

Summary of Decision Requested	Retain Objective 6.1.6 – Reverse sensitivity as notified.
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail supports the Plan direction to ensure that subdivision, use and development avoids reverse sensitivity effects. The operation, maintenance and development of the land transport network has the potential to adversely impact on the social and economic wellbeing, as well as the health and safety of the community if not able to operate efficiently, effectively and safely.

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.7 Policy – Reverse sensitivity and infrastructure

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.38		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.7 Policy – Reverse sensitivity and infrastructure		
Summary of Decision Requested	Retain Policy 6.1.7(a) Reverse sensitivity and infrastructure as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Counties Power wants to ensure that infrastructure is protected from subdivision, use and development. It is important that Counties Power infrastructure and suitable access is maintained to it so that, the efficient operation and resilience of the network is not compromised. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.71		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.7 Policy – Reverse sensitivity and infrastructure		
Summary of Decision Requested	Delete Policy 6.1.7 Reverse sensitivity and infrastructure AND Add a new replacement Policy 6.1.7 Reverse sensitivity and infrastructure, as follows: <u>Manage the potential adverse effects of activities adjacent to infrastructure, including to reduce the potential for reverse sensitivity effects, by ensuring sensitive activities, and inappropriate subdivision, use and development do not occur in a location or form that significantly constrains the safe, effective and efficient operation, maintenance, upgrade and development of the infrastructure.</u> AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> A policy of 'avoid' is absolute, which will severely limit activities adjacent to infrastructure. The policy should be to manage the potential is reduced. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.78		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.7 Policy – Reverse sensitivity and infrastructure		
Summary of Decision Requested	Retain Policy 6.1.7 Reverse sensitivity and infrastructure, except for the amendments sought below AND Amend Policy 6.1.7 Reverse sensitivity and infrastructure, as follows: 6.1.7 Policy – Reverse sensitivity <u>Adverse Effects on end-</u> infrastructure (a) Avoid reverse sensitivity effects on infrastructure from subdivision, use and development as far as reasonably practicable, and ensure so that the ongoing and efficient operation of infrastructure is not compromised. AND Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The provision of a policy specific to reverse sensitivity is supported. However, amendment is sought to the policy to recognise that it is not only sensitive activities which can compromise infrastructure, but also the adverse effects of subdivision, land use, and development. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.93

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.82		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.7 Policy – Reverse sensitivity and infrastructure		
Summary of Decision Requested	Amend Policy 6.1.7 Reverse sensitivity and infrastructure, as follows: <i>(a) Avoid, <u>remedy or mitigate</u> reverse sensitivity effects on <u>existing and/or designated</u> infrastructure from subdivision, use and development as far as reasonably practicable, so that the ongoing and efficient operation of infrastructure is not compromised.</i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> • This policy should be refocused on existing or designated infrastructure and on proposed subdivision, development and use. Submitter is concerned that this policy will be used to unfairly prejudice against existing farming activity in favour of infrastructure that doesn't exist yet. Infrastructure that doesn't exist should properly be subject to its own consent application or notice of requirement process, where merits can be considered on a case-by-case basis in the context of the surrounding environment and land use. • Some subdivision in rural areas, such as boundary relocation or boundary adjustment where the pattern of land use activity is not being intensified, can support the efficient management of farming and primary production, and is only likely to have minor reverse sensitivity effects on existing infrastructure. The policy should be more appropriately focused on mitigation or remediation of reverse sensitivity effects (rather than avoidance). • Some subdivision, such as small lifestyle lots to facilitate protection of significant natural areas, can have important positive environmental effects. Such subdivision should not be automatically biased against by a policy strictly focused on avoidance of reverse sensitivity effects on infrastructure. 		

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.29		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.7 Policy – Reverse sensitivity and infrastructure		
Summary of Decision Requested	Retain Policy 6.1.7 Reverse sensitivity and infrastructure.		

Decision Reasons:	<ul style="list-style-type: none"> Policy 6.1.7 ensures that development is managed around infrastructure to avoid potential reverse sensitivity effects.

Point Number	836.40		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.7 Policy – Reverse sensitivity and infrastructure		
Summary of Decision Requested	Retain Policy 6.1.7 Reverse sensitivity and infrastructure as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Provide for the development, operation and maintenance of infrastructure and recognise the role they play in social, economic, cultural and environmental well-being of the district. 		

Submitter Number:	924	Submitter:	Alice Barnett
Organisation:	Genesis Energy Limited		
Point Number	924.22		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.7 Policy – Reverse sensitivity and infrastructure		
Summary of Decision Requested	Retain Policy 6.1.7- Reverse sensitivity and Infrastructure in the same or similar form.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this policy and recommends it is retained in the same or similar form. 		

Submitter Number:	945	Submitter:	First Gas Limited
Point Number	945.38		

Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.7 Policy – Reverse sensitivity and infrastructure		
Summary of Decision Requested	<p>Amend Policy 6.1.7 Reverse Sensitivity effects and infrastructure to include reference to the ability to access infrastructure which may be compromised through subdivisions in particular.</p> <p>AND</p> <p>Any consequential amendments and other relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally supports the inclusion of Policy 6.1.7 which seeks to avoid reverse sensitivity effects on infrastructure from subdivision, use and development. The submitter seeks that the policy also include reference to the ability to access the infrastructure which may be compromised through subdivisions in particular. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.35		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.7 Policy – Reverse sensitivity and infrastructure		
Summary of Decision Requested	<p>Amend Policy 6.1.7 Reverse sensitivity and infrastructure as follows (or similar amendments to achieve the requested relief):</p> <p><i>(a) Avoid reverse sensitivity effects on existing and planned infrastructure from subdivision, use and development as far as reasonably practicable, so that the ongoing and efficient operation of infrastructure is not compromised.</i></p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail supports the broad intent to ensure that subdivision, use and development avoids reverse sensitivity effects. The operation, maintenance and development of the land transport network has the potential to adversely impact on the social and economic wellbeing, as well as the health and safety of the community if not able to operate efficiently, effectively and safely. KiwiRail seeks to slightly amend the policy wording to reflect planned as well as existing infrastructure.

Point Number	836.44		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.10 Policy – Infrastructure in identified areas		
Summary of Decision Requested	Retain Policy 6.1.10 Infrastructure in identified areas, except for the amendments sought below AND Amend Policy 6.1.10 Infrastructure in identified areas as follows: <i>(a) Where possible and taking into account the lineal needs of infrastructure, and that the form and function of utilities is generally consistent irrespective of the zone, infrastructure must ensure consideration of the values, qualities and characteristics of Significant Natural Areas, Landscape and Natural Character Areas and Heritage Items when proposing new infrastructure or undertaking significant upgrades to existing infrastructure.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The policies need to take into account that the electricity infrastructure may often traverse sensitive landscapes and multiples zones and overlays. The form and function of utilities is generally consistent irrespective of the zone in which they are located. It is difficult to meet the provision requiring the consideration of the qualities and characteristics of surrounding environments. Focus on avoiding significant adverse effects as what is reasonably practicable. Submitter would like to see recognition that network utilities cannot always be located to avoid all adverse effects on communities. 		

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.27		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.10 Policy – Infrastructure in identified areas		
Summary of Decision Requested	Amend Policy 6.1.10(a) Infrastructure in identified areas to clarify what an identified area is.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the policy but seeks clarification on what an identified area is. 		

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.11 Policy – Undergrounding new infrastructure			
--	--	--	--

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.42		

Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.11 Policy – Undergrounding new infrastructure		
Summary of Decision Requested	Amend Policy 6.1.11 (a) (-iii) Undergrounding new infrastructure, to emphasise the economic limitations of undergrounding especially with 110kV lines. Subject to satisfaction of technical requirements, 110kV lines will only be undergrounded where the party requesting the undergrounding pays. Lines within rural environments to continue to be overhead regardless of voltage.		
Decision Reasons:	<ul style="list-style-type: none"> Counties Power owns an electricity distribution network with a current system length of 3200km. 60% of the area covered by Counties Power falls within the Waikato District and is predominantly Rural. The cost of undergrounding all new infrastructure would be prohibitive. Undergrounding is very expensive.

Summary of Decision Requested			
Decision Reasons:			

Point Number	648.26
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.11 Policy – Undergrounding new infrastructure
Summary of Decision Requested	Retain Policy 6.1.11 - Undergrounding new infrastructure as notified.
Decision Reasons:	<ul style="list-style-type: none"> The provisions are generally consistent with policy framework in the draft National Planning Standard for Infrastructure. The provisions are considered to provide a workable policy framework for telecommunications infrastructure.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.86		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.11 Policy – Undergrounding new infrastructure		
Summary of Decision Requested	Amend Policy 6.1.11 (a) Undergrounding new infrastructure, as follows: <i>(a) Encourage new infrastructure in residential and urban areas to be placed underground unless...</i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter conditionally supports this policy provided that it applies to urban areas. Undergrounding is unnecessary in the context of rural areas, where the disadvantages and costs of undergrounding may far outweigh any benefits. 		

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.33		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.11 Policy – Undergrounding new infrastructure		
Summary of Decision Requested	Amend Policy 6.1.11 Undergrounding new infrastructure, as follows (or other amendments that give effect to the concerns raised): <i>(a) Encourage new infrastructure to be placed underground unless:</i> <i>(i) The adverse effects on the environment are greater than placing the infrastructure above ground;</i> <i>(ii) A natural or physical feature or structure renders underground placement impractical or undesirable; or</i> <i>(iii) There are significant operational, functional, technical, cultural or economic reasons that require the infrastructure be above ground;</i> <i>(iv) within the Rural Zone.</i>		
Decision Reasons:	<ul style="list-style-type: none"> 6.1.11 encourages new infrastructure to be placed underground. It is noted that overhead infrastructure within the Rural Zone is a permitted activity therefore encouraging infrastructure to be placed underground in this zone is unreasonable and contrary to the relevant rural rule. 		

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		
Point Number	831.73		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.11 Policy – Undergrounding new infrastructure		
Summary of Decision Requested	Amend Policy 6.1.11 Undergrounding new infrastructure, to require existing lines to be placed underground when new line work is undertaken.		
Decision Reasons:	<ul style="list-style-type: none"> Overhead power/phone lines currently obstruct views and are generally thought to be unattractive. The cost makes it unlikely that all lines will be underground in terms of this Proposed District Plan, nevertheless it can remain an objective. 		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.45		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.11 Policy – Undergrounding new infrastructure		
Summary of Decision Requested	Retain Policy 6.1.11 Undergrounding new infrastructure as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Provide for the development, operation and maintenance of infrastructure and recognise the role they play in social, economic, cultural and environmental well-being of the district. The above grounding of infrastructure is often needed or required for operational, functional, technical, cultural or economic reasons. 		

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.12 Policy – Co-location of compatible facilities

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.43		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.12 Policy – Co-location of compatible facilities		

Summary of Decision Requested	Retain Policy 6.1.12 (a) Co-location of compatible facilities as notified.		
Decision Reasons:	<ul style="list-style-type: none"> This policy can reduce the sprawl of infrastructure. 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.61		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.12 Policy – Co-location of compatible facilities		
Summary of Decision Requested	<p>Retain Policy 6.1.12 (a) Co-location of compatible facilities, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 6.1.12 (a) Co-location of compatible facilities as follows:</p> <p><i>(a) Encourage compatible infrastructure to share location or facilities where operational advantages can be achieved and adverse effects are reduced avoided, remedied or mitigated.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Policy 6.1.12 in part. The submitter supports the co-location of infrastructure as a method that has the potential to minimise the adverse effects on historic heritage. The wording of this policy does not encourage the reduction of adverse effects and needs to be amended to reflect that this should be sought at the time of co-location of compatible facilities. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.97		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.12 Policy – Co-location of compatible facilities		
Summary of Decision Requested	Retain Policy 6.1.12 Co-location of compatible facilities, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support policy as notified and the inclusion of an infrastructure chapter. 		

Submitter Number:	644	Submitter:	Spark New Zealand Trading Limited
Point Number	644.27		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.12 Policy – Co-location of compatible facilities		
Summary of Decision Requested	Retain Policy 6.1.12- Co-location of compatible facilities as notified.		
Decision Reasons:	<ul style="list-style-type: none"> These provisions are generally consistent with policy framework in the draft National Planning Standard for Infrastructure. These provisions are considered to provide a workable policy framework for telecommunications infrastructure. 		

Submitter Number:	646	Submitter:	Vodafone New Zealand Limited
Point Number	646.27		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.12 Policy – Co-location of compatible facilities

Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.13 Policy – Future growth areas		
Summary of Decision Requested	Retain Policy 6.1.13 Future growth areas.		
Decision Reasons:	<ul style="list-style-type: none"> Policy 6.1.13 enables development and maintenance of infrastructure provided development considers any potential effects on the surrounding environment. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.51		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.13 Policy – Future growth areas		
Summary of Decision Requested	Retain Policy 6.1.13 Future growth areas, except for the amendments sought below AND Amend Policy 6.1.13 Future growth areas as follows: <i>Require infrastructure services to be planned, developed and co-ordinated with development to ensure it a standard that enables the service can to be extended to future growth areas where and when appropriate.</i> AND Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Policy 6.1.13, but considers that for successful planning and development of urban areas to occur, there needs to be an integrated approach to the planning of infrastructure and land use. 		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.47		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.13 Policy – Future growth areas		
Summary of Decision Requested	Retain Policy 6.1.13 Future growth areas as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Provide for the development, operation and maintenance of infrastructure and recognise the role they play in social, economic, cultural and environmental well-being of the district. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.89		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.13 Policy – Future growth areas		
Summary of Decision Requested	Amend Policy 6.1.13- Future growth areas to clearly state how 'where appropriate' will be determined. AND Amend Policy 6.1.13- Future growth areas to clearly state to what extent provision of services shall require that infrastructure services be developed to enable the service to be extended to future growth areas.		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter supports Policy 6.1.13 as development of infrastructure and services to an appropriate standard enables the service, e.g. drinking water infrastructure, to be extended to future growth areas which will have positive public health benefits. • It is less clear how Council will implement this policy, particularly given the substantial 'live' zoning areas identified and the apparent absence of confirmed infrastructure proposals to service these areas. • Policy is too uncertain to operate effectively as written, with issues with how this is implemented, with risks that servicing will be inadequate to meet the needs of the community in particular localities, and potentially undermine community health and wellbeing. 		

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.14 Policy – Electromagnetic and radio frequency fields

Point Number	680.91		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.16 Policy – Water conservation		
Summary of Decision Requested	Delete Policy 6.1.16 Water conservation. OR Amend Policy 6.1.16 Water conservation as follows: 6.1.16 Policy Stormwater management for new development and subdivision Water conservation AND Amend Policy 6.1.6 Water conservation, as follows: <i>(g) Where new development and land use is proposed which may otherwise give rise to stormwater ponding, overland flow and flood management issues, Encourage water conservation measures and, where appropriate, low impact stormwater design and facilities.</i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> If the policy is aimed at water conservation in order to facilitate minimum flows for water allocation, that is a regional council matter, and the district council does not have jurisdiction over this under the Act. Similarly, if the policy is aimed at freshwater quality management, it also has no place in a district plan. If it is aimed at flood control, and managing stormwater ponding and overland flow, then it should be focused in the context of proposed development intensification and subdivision which triggers stormwater management concerns, and in which case the title 'water conservation' is a misnomer. 		
Decision Reasons:			

Submitter Number:	798	Submitter:	Ngati Te Ata
Point Number	798.11		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.16 Policy – Water conservation		
Summary of Decision Requested	<p>Add a new clause (b) to Policy 6.1.16 - Water Conservation as follows:</p> <p><i>(b) clean water is captured for reuse and groundwater recharge.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	822	Submitter:	Bob MacLeod
Point Number	822.1		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.16 Policy – Water conservation		
Summary of Decision Requested	<p>Add clauses to Policy 6.1.16 Water conservation, as follows:</p> <p><i>(g) Encourage water conservation measures and, where appropriate, low impact stormwater design and facilities.</i></p> <p><i>(b) Encourage the installation of rain water tanks (storage) to provide:</i></p> <p><i>i. To reduce the annual water bill</i></p> <p><i>ii. To mitigate the costs and impact of water restrictions on lifestyle, amenity and property value.</i></p> <p><i>iii. To help avoid the environmental impacts of construction a new water sources; and</i></p> <p><i>iv. Community - mindedness (i.e. easing the burden on the Raglan water supply).</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Financial benefit of rainwater tanks to the community through the reduction in the cost of water and stormwater infrastructure. Ability of Council to reduce the cost of water and stormwater infrastructure is dependent on the cost benefit of 'Long Run Marginal Cost'. This is used for creating new water supplies and represent the change in cost if new water sources are brought forward or delayed. 		

Submitter Number:	824	Submitter:	Bob MacLeod
Organisation:	Raglan Community Board		
Point Number	824.3		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.16 Policy – Water conservation		
Summary of Decision Requested	<p>Add to Policy 6.1.16 Water conservation, as follows:</p> <p><i>b) encourage the installation of rain water tanks (storage) to provide:</i></p> <p><i>i. to reduce the annual water bill</i></p> <p><i>ii. to mitigate the costs and impact of water restrictions on lifestyle, amenity and property value</i></p> <p><i>iii. to help avoid the environmental impacts of construction of new water sources; and</i></p> <p><i>iv. community –mindedness (i.e. easing the burden on the Raglan water supply).</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> The primary financial benefit of rainwater tanks to the community (in contrast to the individual property owner) is the potential reduction in the cost of water and stormwater infrastructure. The ability of Waikato District Council as the water authorities to reduce the cost of water and storm water infrastructure will depend on the economic cost benefit Long Run Marginal Cost. 		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.1		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.16 Policy – Water conservation		
Summary of Decision Requested	Retain Policy 6.1.16 Water conservation as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Provide for the development, operation and maintenance of infrastructure and recognise the role they play in social, economic, cultural and environmental well-being of the district. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.90		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.16 Policy – Water conservation		
Summary of Decision Requested	Retain Policy 6.1.16- Water conservation as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Submitter supports Policy 6.1.16 as it has positive environmental benefits. The greater use of on-property multi-purpose landscaping/vegetation also offers human "quality of life" opportunities through offering greener neighbourhoods and contributing to a local community's overall 'liveability', value, sense of place and aesthetics. 		

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.31		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.1 General Infrastructure > 6.1.16 Policy – Water conservation		
Summary of Decision Requested	Retain Policy 6.1.16 Water conservation.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this policy. 		

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid

Submitter Number:	454	Submitter:	Troy Fell
Point Number	454.1		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid		
Summary of Decision Requested	Amend Section 6.2 National Grid to allow for all households to access renewable energies such as solar and wind generation and move away from the National Grid.		
Decision Reasons:	<ul style="list-style-type: none"> There is a need to move away from reliance on the National Grid because of increasing electricity prices. Solar-generated power is more affordable but access to it is made difficult because of the amount of capital investment needed and this usually involves individual house installations rather than a community scale installation. Refer to original submission for the submitter's suggestions for how local and regional councils could manage investments in solar farms for the benefit of ratepayers. If local and regional government was able to assist through subsidies and sponsorship, construction of solar farms on council land, then this cost would be eliminated and direct savings would be passed on to households. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.15		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid		
Summary of Decision Requested	Retain Section 6.2 National Grid, except for the amendments sought to particular provisions addressed elsewhere in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the provision of a policy suite specific to the National Grid as such provisions enable and provide for the NPSET to be given effect to. Given the Proposed District Plan does not distinguish between Infrastructure generally, and Regionally significant infrastructure or infrastructure that is of national importance, specifically policy recognition of the National Grid which is of National significance, is supported. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.24		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid		
Summary of Decision Requested	Delete Section 6.2 National Grid, and all related provisions including the spatial extent of the overlay. AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> Housing New Zealand opposes the National Grid provisions in its current proposed state and seeks the full package of provisions (objectives, policies, rules and definitions) including the spatial extent of the overlay shown in the Proposed District Plan is deleted. Housing New Zealand acknowledges the need for the Proposed District Plan to give effect to the requirements of the National Policy Statement for Electricity Transmission (2008). However, the proposed National Grid provisions are overly restrictive and do not efficiently manage sensitive activities within close proximity to and under the National Grid. 		

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.1 Objective – National grid

Submitter Number:	302	Submitter:	Jeremy Talbot
On behalf of:	EnviroWaste New Zealand Limited	Organisation:	Barker & Associates Limited
Point Number	302.46		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.1 Objective – National grid		
Summary of Decision Requested	Retain the intent of Objective 6.2.1 National Grid insofar as it gives effect to the submitter's sought relief in that the provisions relating to the National Grid Yard are too restrictive.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intention of the objective and policies to recognise and protect of the National Grid however, the provisions relating to the National Grid yard are too restrictive. 		

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.46		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.1 Objective – National grid		
Summary of Decision Requested	Retain Objective 6.2.1 (a) National grid as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Protect access to existing Transpower assets during development, use and subdivision. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.74		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.1 Objective – National grid		
Summary of Decision Requested	Amend Objective 6.2.1 National Grid, as follows: <i>(a) The national significance of the National Grid is recognised and protected <u>provided for</u>.</i> AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The objective seeks an outcome of 'protect'. The National Policy Statement for Electricity Transmission does not have an objective to 'protect', however it seeks to manage activities to the extent reasonably possible. The important matter is that activities are managed to reduce the potential for reverse sensitivity effects on infrastructure. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.16		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.1 Objective – National grid		
Summary of Decision Requested	Retain Objective 6.2.1 National grid, except for the amendments sought below AND Amend Objective 6.2.1 National grid, as follows: <i>6.2.1 Objective – National <u>Grid</u></i> <i>(a) The national significance of the National Grid is recognised, and protected <u>and provided for</u>.</i> AND Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the objective. The submitter seeks amendment to the objective to ensure that the national significance is not only recognised and protected, but that it is also provided for. The insertion of 'provided for' would be consistent with the terminology used in the NPSET, specifically Policy 2 which requires that "in achieving the purpose of the Act, decision makers must recognise and <u>provide for</u> the effective operation, maintenance, upgrading and development of the electricity transmission network". While the requirements to 'recognise and protect' are supported, they do not have the same meaning as 'provide for'. Specifically, 'recognise' does not carry the same weight or directive nature, and 'protect' relates to protecting the grid from subdivision, land use and development activities as opposed to enabling its ongoing development, operation and maintenance. The insertion of 'provide for' would also be consistent with Objective 3.5(e) of the Waikato RPS which requires that "Energy use is managed, and electricity generation and transmission is operated, maintained, developed and upgraded, in a way that: e) recognises and <u>provides for</u> the national, regional and local benefits of electricity transmission and renewable electricity generation". It would be consistent with Policy 6.2.3. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.92		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.1 Objective – National grid		
Summary of Decision Requested	Amend Objective 6.2.1 (a) National grid, as follows: <i>(a) The national significance of the National Grid is recognised and <u>managed in order to meet the needs of present and future generations</u> protected.</i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter opposes this objective as it is not consistent with the National Policy Statement for Electricity Transmission 2010 ('NPSET'). The NPSET is aimed at enabling the management of the effects of the electricity transmission network in light of its national significance being the need to operate, maintain, develop and upgrade the electricity transmission network. It says nothing about protection. The objective of the NPSET is: To recognise the national significance of the electricity transmission network by facilitating the operation, maintenance and upgrade of the existing transmission network and the establishment of new transmission resources to meet the needs of present and future generations, while: <ul style="list-style-type: none"> <i>managing the adverse environmental effects of the network; and</i> <i>managing the adverse effects of other activities on the network.</i> The submitter is concerned that if district plans start to seek protection of assets used or owned by Transpower NZ Ltd, that this will escalate into a requirement all sorts of impositions on farming activity where farms are traversed by part of the National Grid. Submitter seeks that this objective be amended to more closely reflect the objective of the NPSET. 		

Submitter Number:	766	Submitter:	Nicky Hogarth
Organisation:	Holcim (New Zealand) Limited		
Point Number	766.46		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.1 Objective – National grid		
Summary of Decision Requested	Retain Objective 6.2.1 National Grid insofar as it gives effect to the relief sought.		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter supports the intention of the objective to recognise and provide for protection of the National Grid. • Provisions relating to the National Grid yard are too restrictive and should be amended as per relief sought to Chapter 14.4 provisions. 		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.2		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.1 Objective – National grid		
Summary of Decision Requested	Retain Objective 6.2.1 National Grid as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Provide for the development, operation and maintenance of infrastructure and recognise the role they play in social, economic, cultural and environmental well-being of the district. 		

Submitter Number:	945	Submitter:	First Gas Limited
Point Number	945.39		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.1 Objective – National grid		
Summary of Decision Requested	Amend Objective 6.2.1 - National Grid as follows: <i>Objective 6.2.1 - National Grid <u>and Gas Network</u></i> <i>(a) The national significance of the National Grid <u>and Gas Network</u> is recognised and protected.</i> AND Any consequential amendments and other relief to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter is of the opinion that its transmission pipeline is nationally significant and seeks that those provisions referencing the National Grid be amended to also include reference to the gas transmission pipeline. The submitter acknowledges that its distribution pipeline differs from its transmission pipeline in this regard. • The submitter seeks minimum setbacks between the gas network and sensitive activities to ensure the safety of the gas network and the people living and working near this network. 		

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.2 Policy – Recognise the national grid

Submitter Number:	302	Submitter:	Jeremy Talbot
On behalf of:	EnviroWaste New Zealand Limited	Organisation:	Barker & Associates Limited
Point Number	302.52		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.2 Policy – Recognise the national grid		
Summary of Decision Requested	Retain the intent of Policy 6.2.2 Recognise the National Grid, insofar as it gives effect to the submitter's relief sought in the provisions relating to the National Grid Yard being too restrictive.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the intention of the policy to recognise and protect the National Grid, however, the provisions relating to the National Grid Yard are too restrictive. 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.62		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.2 Policy – Recognise the national grid		
Summary of Decision Requested	Retain Policy 6.2.2 (a) Recognise the national grid, except for the amendments sought below. AND Amend Policy 6.2.2 (a) Recognise the national grid as follows: <i>(a) Recognise the operational, functional and technical constraints of the national grid, <u>and the interconnectedness of networks.</u></i>		

Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Policy 6.1.12 in part. The submitter recognises the importance of the National Grid, Heritage New Zealand is concerned the policy appears to include unspecified network utilities as having the same status as the National Grid. Government has determined that the National Grid, as nationally important infrastructure, requires a greater level of recognition and protection than other regional and local infrastructure.
--------------------------	--

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.17		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.2 Policy – Recognise the national grid		
Summary of Decision Requested	<p>Retain Policy 6.2.2 Recognise the national grid, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 6.2.2 Recognise the national grid, as follows:</p> <p><i>6.2.2 Policy – Recognise the <u>needs and constraints of the National Grid</u></i></p> <p><i>(a) Recognise the operational, functional and technical <u>needs and</u> constraints of the National Grid, and the interconnectedness of networks.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Amendment is sought to the policy title to more accurately articulate and convey the content of the policy, and insertion of the word 'needs' to reflect the provided definition of 'functional need' and 'operational need'. The provision of a policy which recognises the constraints associated with the National Grid is supported and gives effect to Policy 3 of the NPSET and Objective 3.5.h) and Policy 6.6.c) of the Waikato BPS. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.93		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.2 Policy – Recognise the national grid		
Summary of Decision Requested	<p>Amend Policy 6.2.2. (a) Recognise the national grid, as follows:</p> <p><i>Recognise the operational, functional and technical constraints of the National Grid, and the interconnectedness of networks <u>where these may be co-located within the National Grid Yard or within public land, including roads.</u></i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter conditionally supports this policy provided that its confined to consideration of National Grid matters within the National Grid Yard and the National Grid Corridor. Outside these areas, farmers have the right to use and to manage access to their farms including the right to refuse access across private land.

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.4 Policy – Maintenance and minor upgrade the National Grid

Submitter Number:	302	Submitter:	Jeremy Talbot
On behalf of:	EnviroWaste New Zealand Limited	Organisation:	Barker & Associates Limited
Point Number	302.54		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.4 Policy – Maintenance and minor upgrade the National Grid		
Summary of Decision Requested	Retain the intent of Policy 6.2.4 Maintenance and minor upgrade the National Grid, insofar as it gives effect to the submitter's relief sought in the provisions relating to the National Grid Yard being too restrictive.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intention of the policy to recognise and protect the National Grid, however, the provisions relating to the National Grid Yard are too restrictive. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.19		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.4 Policy – Maintenance and minor upgrade the National Grid		
Summary of Decision Requested	Amend Policy 6.2.4 (a) Maintenance and minor upgrade the National Grid, as follows: <i>(a) Enable the <u>operation, repair, maintenance, replacement and minor upgrade of the National Grid</u>.</i> AND Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Amendment is sought within the Policy to refer to 'operation', thereby ensuring the ongoing use of the National Grid is also enabled. Policy 5 of the NPSET also refers to 'operation'. The submitter supports Policy 6.2.4 to enable the maintenance and minor upgrade of the National Grid. Such policy recognition gives effect to Policy 5 of the NPSET, and Objective 3.12.i) and Policy 6.3.c) of the Waikato BPS. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.95		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.4 Policy – Maintenance and minor upgrade the National Grid		
Summary of Decision Requested	Amend Policy 6.2.4 (a) Maintenance and minor upgrade the National Grid, as follows: <i>(a) Enable the <u>repair, maintenance, replacement and minor upgrade of the National Grid within the National Grid Corridor</u>.</i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter conditionally supports this policy. Replacement of an underground pipeline, wires and replacement of an electricity tower can be seriously big 		

jobs. Whole paddocks or areas of the farm may be taken over by the network utility operator and unable to be used by the farmer, as well as experiencing significant traffic over their farm by work crews arriving and leaving for work every day and vehicles carrying gear and equipment. Disturbance and disruption includes damage to pasture and soil compaction; damage to property, gates and fence lines; livestock disturbance; having to change farming practice like not being able to graze particular paddocks or continue with irrigation; damage and destruction of crops; and storage of materials and machinery on the property. Landowners are concerned about liability if there is an accident while workers are on their land. All these disruptive matters which occur outside the National Grid Corridor should be handled by landowner agreement with network utility operators, and is outside the sphere of the district plan to control.

- The policy consideration be confined to matters within the National Grid Corridor. In particular, 'replacement' or 'minor upgrade' should not involve any increase in adverse effects beyond this corridor.

Organisation:	Holcim (New Zealand) Limited		
Point Number	766.49		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.4 Policy – Maintenance and minor upgrade the National Grid		
Summary of Decision Requested	Retain Policy 6.2.4 Maintenance and minor upgrade the National Grid insofar as it gives effect to the submitters relief sought.		
Decision Reasons:	<ul style="list-style-type: none"> Submitter supports the intention of the objective to recognise and provide for protection of the National Grid. Provisions relating to the National Grid yard are too restrictive and should be amended as per relief sought to Chapter 14.4 provisions. 		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.27		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.4 Policy – Maintenance and minor upgrade the National Grid		
Summary of Decision Requested	Retain Policy 6.2.4- Maintenance and minor upgrade the National Grid as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Provide for the development, operation and maintenance of infrastructure and recognise the role they play in social, economic, cultural and environmental well-being of the district. 		

Submitter Number:	945	Submitter:	First Gas Limited
Point Number	945.42		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.4 Policy – Maintenance and minor upgrade the National Grid		
Summary of Decision Requested	<p>Amend Policy 6.2.4 - Maintenance and minor upgrade the National Grid as follows:</p> <p><i>Policy 6.2.4 - Maintenance and minor upgrade the National Grid <u>and Gas Network</u>.</i></p> <p><i>(a)Enable the repair, maintenance, replacement and minor upgrade of the National Grid <u>and Gas Network</u>.</i></p> <p>AND</p> <p>Any consequential amendments and other relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter is of the opinion that its transmission pipeline is nationally significant and seeks that those provisions referencing the National Grid be amended to also include reference to the gas transmission pipeline. First Gas acknowledges that its distribution pipeline differs from its transmission pipeline in this regard. The submitter seeks minimum setbacks between the gas network and sensitive activities to ensure the safety of the gas network and the people living and working near this network. 		

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.5 Policy – Environmental effects

Submitter Number:	302	Submitter:	Jeremy Talbot
On behalf of:	EnviroWaste New Zealand Limited	Organisation:	Barker & Associates Limited
Point Number	302.55		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.5 Policy – Environmental effects		
Summary of Decision Requested	Retain the intent of Policy 6.2.5 Environmental Effects , insofar as it gives effect to the submitter's relief sought in the provisions relating to the National Grid Yard being too restrictive.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intention of the policy to recognise and protect the National Grid, however; the provisions relating to the National Grid Yard are too restrictive. 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		

Point Number	559.63
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.5 Policy – Environmental effects
Summary of Decision Requested	<p>Retain Policy 6.2.5 (a) Environmental effects, except for the amendments sought below.</p> <p>AND</p> <p>Amend Policy 6.2.5 (a)(v) Environmental effects as follows:</p> <p><i>(v) Addressing the adverse effects on any heritage values, cultural values, outstanding natural landscapes, areas of high natural character, town centres, areas of high recreation value and existing sensitive activities including the avoidance of adverse effects where practicable.</i></p>
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Policy 6.2.5 in part, as the inclusion of the words “where practicable” serve to dilute the consideration of the protection of historic heritage and cultural values within this policy. These words also weaken the associated rule framework. This is particularly important given that the related energy and infrastructure rules of the Plan do not rely on the heritage protection framework found in the zone rules, rather there is reliance on a generic protection rules framework for “Identified Area” which includes scheduled historic heritage or Maaori sites or areas of significance in addition to such matters as significant natural areas. In addition within this framework, some activities are non-complying in “Identified areas” and this activity status should be supported by a robust policy. To give effect to s6 matters the policy and rule framework must ensure that development of infrastructure avoids adverse effects. To avoid adverse effects on s6 matters this policy also needs to include reference to “Cultural values”.

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.20		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.5 Policy – Environmental effects		
Summary of Decision Requested	<p>Retain Policy 6.2.5 Environmental effects, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 6.2.5 (a) Environmental effects, as follows:</p> <p><i>(i) Recognising and providing for the national, regional and local benefits of sustainable, secure and efficient electricity transmission;</i></p> <p><i>(ii) Considering the extent to which any Avoiding, remedying or mitigating adverse effects through consideration of have been avoided, remedied or mitigated by the route, site and method selection;</i></p> <p><i>(iii) Seeking to reduce, the existing adverse effects as part of any substantial upgrade;</i></p> <p><i>(iv) ...</i></p> <p><i>(v) Within rural environments, seeking to avoid Addressing the adverse effects on any identified heritage values, outstanding natural landscapes, areas of high natural character, town centres, areas of high recreation value and existing sensitive activities, including seeking to the avoidance of adverse effects where practicable.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Amendment is sought to (i) for the insertion of 'providing for' to ensure that the benefits are not only recognised, but they are also provided for. Such wording reflects that used in Policy 1 of the NPSET and RPS Objective 3.5 e). Amendment is sought to (ii) wording to better reflect that in NPSET Policy 4 and make it clear that the key consideration is the extent to which adverse effects have been avoided remedy or mitigated. An amendment is sought to (iii) to better reflect the wording and outcome sought in NPSET Policy 6 which provides that “Substantial upgrades of transmission infrastructure <u>should</u> be used as an opportunity ...”. The wording within the NPSET is less directive than that proposed in clause (iii). On this basis an amendment is sought to clause (iii) to amend the absolute directive nature of the policy and better give effect to NPSET Policy 6. Amendment is sought to (v) to reflect the policy directive within the NPSET Policy 8 “to <u>seek to</u> avoid adverse effects”. The submitter supports the provision of a policy to relating to managing the effects of the National Grid electricity transmission network. The policy largely gives effect to Sections 6 and 7 (policies 1-8) of the NPSET. Notwithstanding its support for the objective as notified, the submitter seeks amendment to the objective to ensure that the national significance is not only recognised and protected, but that it is also provided for. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.96		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.5 Policy – Environmental effects		
Summary of Decision Requested	<p>Add to Policy 6.2.5 (a) Environmental effects new clauses (vi) and (vii) as follows:</p> <p><i>(vi) <u>Avoiding, remedying or mitigating adverse effects, (including intrusion), from operation, maintenance or upgrading of infrastructure, which may intrude on activities outside the National Grid Yard; and</u></i></p> <p><i>(vii) <u>Enabling non-sensitive farming activity, such as; animal grazing, pasture maintenance, pest and weed control, as well as maintaining existing farm infrastructure such as dams and water storage tanks, troughs, water races and water supply pipelines, stock feed pads, stock and vehicle access tracks (including bridges, culverts and fords), fences, rural fire breaks, and farm telecommunication facilities, within the National Grid Yard, except within 12m of a National Grid support structure.</u></i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter conditionally support this policy. Any policy which seeks to manage landowners' activities around utilities and the potential for reverse sensitivity needs to differentiate between rural and urban land uses. Rural and farming land uses will not have the same reverse sensitivity effects on any network utility due to the wider open spaces, low density of buildings, larger property sizes and less people on the property. It is a burden for landowners to host public infrastructure on their property, which has mostly been installed in the past without compensation. Landowners must be prepared to operate their farming activities around public infrastructure, and to have work crews on their property doing operation or maintenance activities. In today's health and safety climate, this is not something that farmers take lightly. <p>The submitter contends that the policy criteria be expanded to include:</p> <ul style="list-style-type: none"> Avoiding, remedying or mitigating adverse effects (including intrusion) of infrastructure servicing requirements in areas outside the National Grid Yard. Enabling farming activity such as; animal grazing, pasture maintenance, pest and weed control, as well as maintaining existing farm infrastructure such as dams and water storage tanks, troughs, water races and water supply pipelines, stock feed pads, stock and vehicle access tracks (including bridges, culverts and fords), fences, rural fire breaks, and farm telecommunication facilities, within the National Grid Yard, except within 12m of a National Grid support structure. 		

Submitter Number:	766	Submitter:	Nicky Hogarth
Organisation:	Holcim (New Zealand) Limited		
Point Number	766.1		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.5 Policy – Environmental effects		
Summary of Decision Requested	Retain Policy 6.2.5 Environmental effects insofar as it gives effect to submitters relief sought.		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter supports the intention of the objective to recognise and provide for protection of the National Grid. • Provisions relating to the National Grid yard are too restrictive and should be amended as per relief sought to Chapter 14.4 provisions.

Decision Reasons:	<ul style="list-style-type: none"> • Provide for the development, operation and maintenance of infrastructure and recognise the role they play in social, economic, cultural and environmental well-being of the district. 		

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.6 Policy – Reverse sensitivity and the National Grid

Submitter Number:	302	Submitter:	Jeremy Talbot
On behalf of:	EnviroWaste New Zealand Limited	Organisation:	Barker & Associates Limited
Point Number	302.56		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.6 Policy – Reverse sensitivity and the National Grid		
Summary of Decision Requested	Retain the intent of Policy 6.2.6 Reverse sensitivity and the National Grid, insofar as it gives effect to the submitter's relief sought in the provisions relating to the National Grid Yard being too restrictive.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the intention of the policy to recognise and protect the National Grid, however, the provisions relating to the National Grid Yard are too restrictive. 		

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.47		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.6 Policy – Reverse sensitivity and the National Grid		
Summary of Decision Requested	Retain Policy 6.2.6 (a) (i-iv) Reverse sensitivity and the National Grid as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Protect access to existing Transpower assets during development, use and subdivision. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.75		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.6 Policy – Reverse sensitivity and the National Grid		
Summary of Decision Requested	<p>Delete Policy 6.2.6 (a) Reverse sensitivity and the National Grid, and replace with the following policy:</p> <p><i>Provide for the National Grid by:</i></p> <p><i>(a) Managing subdivision, use and development to the extent reasonably possible to avoid reverse sensitivity effects on the National Grid and ensure that the functional needs of the National Grid are not compromised by:</i></p> <p><i>(i) Identifying the existing National Grid on Planning Maps; and</i></p> <p><i>(ii) Establish the National Grid Yard where sensitive land uses and intensive farming activities, commercial greenhouses and milking/dairy sheds will generally be avoided;</i></p> <p><i>(iii) Establish the National Grid Subdivision Corridor for managing subdivision and subsequent land use near the National Grid; and</i></p> <p><i>(iv) Not allowing existing activities in the identified corridors to intensify in a way that increases their incompatibility with existing National Grid infrastructure.</i></p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • This policy is absolute in its direction. • Policy 10 of the National Policy Statement for Electricity Transmission (NPSET) includes 'to the extent reasonably possible' so the direction in the NPSET is not as absolute as the proposed policy. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.21		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.6 Policy – Reverse sensitivity and the National Grid		
Summary of Decision Requested	<p>Retain Policy 6.2.6 Reverse sensitivity and the National Grid, except for the amendments sought below.</p> <p>AND</p> <p>Amend Policy 6.2.6 Reverse sensitivity and the National Grid, as follows:</p> <p><i>6.2.6 Policy – Reverse sensitivity, <u>Adverse effects on Infrastructure, and the National Grid</u></i></p> <p>...</p> <p><i>(ii) <u>Sensitive Land uses (including sensitive activities) and buildings and structures that may compromise the National Grid, including intensive farming activities, are excluded from establishing within the National Grid Yard;</u></i></p> <p>...</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submission supports the policy in that it recognises the adverse effects of subdivision, land use and development on the operation, maintenance, upgrading and developing of the National Grid. Such policy recognition gives effect to policies 8 and 9 of the NPSET, and Waikato RPS Policy 4.4f and Policy 6.6a. An amendment is sought to the policy title to reflect that it is not only reverse sensitivity effects which may compromise the National Grid but also the adverse effects from other activities. In particular, the submitter supports: <ul style="list-style-type: none"> (i) as it gives effect to Policy 11 of the NPSET (ii) as in that it recognises sensitive activities what may compromise the National Grid. However, an amendment is sought to the policy to give effect to NPSET Policy 10 and recognise that it is not only sensitive activities which are to be managed, but also those activities which compromise the ongoing operation, maintenance, upgrading and development of the National Grid. NPSET Policy 10 and 11 are to be read together and reflect the Transpower corridor management approach proposed by Transpower throughout NZ, that Policy 11 need not be limited solely to the management of sensitive activities. A buffer corridor is also an efficient and effective method (in terms of is 32 RMA) to give effect to the requirements of Policy 10 and to manage the risks imposed by other activities, such as earthworks, on the transmission network. (iii) and (iv) as it gives effects to the NPSET and reflect the submitter's wide corridor management approach. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.97		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.2 National Grid > 6.2.6 Policy – Reverse sensitivity and the National Grid		
Summary of Decision Requested	<p>Amend Policy 6.2.6 (a) Reverse sensitivity and the National Grid, as follows:</p> <p><i>(a) Manage <u>proposed</u> subdivision, use and development <u>adjacent to the National Grid Yard</u> so that the operation, maintenance, upgrading and development of the National Grid is not compromised by ensuring that:</i></p> <p><i>(i) The National Grid is identified on the planning maps and the National Grid Yard and National Grid Corridor establish buffer distances for managing land use development and subdivision near the National Grid;</i></p> <p><i>(ii) Sensitive <u>proposed</u> land uses and <u>buildings and</u> structures that may compromise the National Grid, <u>including intensive farming activities</u>, are excluded from establishing within the National Grid Yard;</i></p> <p><i>(iii) Subdivision is managed within the National Grid Corridor to avoid subsequent land use from compromising the operation, maintenance, <u>minor</u> upgrading and development of the National Grid; and</i></p> <p><i>(iv) Changes to existing activities within a National Grid Yard do not further restrict the operation, maintenance, upgrading and development of the National Grid.</i></p> <p>AND</p> <p>Add to Policy 6.2.6 (a) Reverse sensitivity and the National Grid, new clause (v) as follows:</p> <p><i>(v) <u>Existing farming activity which is not sensitive to management of the National Grid, such as grazing, intensive stock feeding in open feedlots, land cultivation, maintenance of pasture, existing farm accessways and tracks (including stock bridges, culverts and fords), fences and stock exclusion structures, areas for fodder storage, rural fire breaks, water supply, pipelines, farm dams, stock water troughs, permitted vegetation clearance, and pest and weed control, is permitted within the National Grid Yard, except within 12 metres from the outer edge of any national grid support structure.</u></i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter conditionally supports this policy. Rural and farming land uses will not have the same reverse sensitivity effects on any network utility due to the wider open spaces, low density of buildings, larger property sizes and less people on the property. This includes intensive farming activity where animals are kept in outdoor feedlots. Where intensively farmed animals are kept indoors, the submitter accepts that minimum separation distances between buildings and high-voltage electricity transmission lines and structures is important. However, this can be managed through policy aimed at restriction of new structures and development within the National Grid Yard. The submitter seeks that the policy's focus is such that matters requiring consideration be confined to being within the National Grid Yard, and to network utility activities that can be lawfully carried out within the National Grid Yard. The submitter seeks that the policy be amended so that it clearly only applies to proposed subdivision, use and development within the National Grid Yard, and does not impugn existing lawfully established activity and development. The submitter seeks that existing farming, and maintenance of existing farm accessways and fences within the National Grid Yard, be provided for.

Point Number	524.23		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.2 Policy – Provide adequate infrastructure		
Summary of Decision Requested	Retain Policy 6.4.2 Provide adequate infrastructure.		
Decision Reasons:	<ul style="list-style-type: none"> Support the Policy 6.4.2 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.101		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.2 Policy – Provide adequate infrastructure		
Summary of Decision Requested	Retain Policy 6.4.2 Provide adequate infrastructure, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support policy as notified and the inclusion of an infrastructure chapter. 		

Submitter Number:	598	Submitter:	Withers Family Trust
Point Number	598.14		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.2 Policy – Provide adequate infrastructure		
Summary of Decision Requested	Retain Policy 6.4.2 - Provide adequate infrastructure.		
Decision Reasons:	<ul style="list-style-type: none"> Ensure that the Rules relating to subdivision give effect to the proposed Policies, and that where greenfield sites are identified for urban growth, that the ability to appropriately, effectively and efficiently service these areas in comparison to other areas has been adequately investigated through Section 32 RMA analysis. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.302		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.2 Policy – Provide adequate infrastructure		
Summary of Decision Requested	<p>Amend Policy 6.4.2 (a) Provide adequate infrastructure, as follows:</p> <p><i>(a) Ensure adequate provision of infrastructure, including land transport networks, where proposed subdivision results in an increase in the number of lots adjacent to an existing road, infrastructure corridor or existing infrastructure easement, or its use intensified where resource consent is required for restricted discretionary, discretionary or non-complying land use.</i></p> <p><i>(b) To manage minor effects of subdivision on infrastructure in rural areas, through enabling subdivision as a controlled activity, with appropriate matters of control around separation distance from infrastructure to proposed new lot boundaries.</i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter conditionally supports this policy provided that its focus is confined to considering subdivision which increases the number of lots next to an infrastructure corridor or existing infrastructure easement. Effects of rural subdivision on infrastructure are very minor, and can be managed through controlled subdivision status with appropriate matters of control around minimum lot boundary separation distances. Agreements as to access across private farmland are a matter between utility operators and landowners, and the Council is not involved. The focus of the policy should be amended to refer to substantial changes in land use where resource consent is required, such as for example from farming activity to some non-farming use of land. Use of farmland for farming, even if paddock stocking rates are increased, should not be within the remit of this policy to control. 		

Submitter Number:	692	Submitter:	WEL Networks Limited

Point Number	81.220		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.3 Policy – Infrastructure Location and Services		
Summary of Decision Requested	Retain Policy 6.4.3 Infrastructure Location and Services.		
Decision Reasons:	<ul style="list-style-type: none"> This provision is supported as it helps give effect to WRPS policies 6.1, 6.3, 6.15 and Section 6A in terms of placing emphasis on planned, co-ordinated approach to subdivision and development and provision of supporting infrastructure. 		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.2		

Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.3 Policy – Infrastructure Location and Services		
Summary of Decision Requested	Retain Policy 6.4.3 Infrastructure Location and Services.		
Decision Reasons:	<ul style="list-style-type: none"> Policy ensures subdivision, use and development are provided with infrastructure and services to a level that is appropriate to its location and intended use, including adequate water supply within urban areas for firefighting purposes. 		

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.3		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.3 Policy – Infrastructure Location and Services		
Summary of Decision Requested	Retain Policy 6.4.3(a)(iii) Infrastructure Location and Services as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Counties Power recognises the need to support new development and needs to be able to respond quickly to increased demand for electricity. 		

Submitter Number:	524	Submitter:	Anna Noakes
Point Number	524.24		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.3 Policy – Infrastructure Location and Services		
Summary of Decision Requested	Retain Policy 6.4.3 Infrastructure location and services.		
Decision Reasons:	<ul style="list-style-type: none"> Support Policy 6.4.3. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.102		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.3 Policy – Infrastructure Location and Services		
Summary of Decision Requested	Retain Policy 6.4.3 Infrastructure Location and Services, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support policy as notified and the inclusion of an infrastructure chapter. 		

Submitter Number:	581	Submitter:	Penny Gallagher
Organisation:	Synlait Milk Ltd		
Point Number	581.41		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.3 Policy – Infrastructure Location and Services		
Summary of Decision Requested	Retain Policy 6.4.3 Infrastructure Location and Services.		
Decision Reasons:	<ul style="list-style-type: none"> Supporting that the zoning or urban areas, including Heavy Industrial Zones, is coordinated with the supply of infrastructure and services. This should ensure that the Heavy Industrial Zone is able to be used for its intended purposes without undue limitation on traffic movements and access to water and wastewater services. 		

Submitter Number:	598	Submitter:	Withers Family Trust
Point Number	598.15		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.3 Policy – Infrastructure Location and Services		
Summary of Decision Requested	Retain Policy 6.4.3 Infrastructure Location and Services.		
Decision Reasons:	<ul style="list-style-type: none"> Ensure that the Rules relating to subdivision give effect to the proposed Policies, and that where greenfield sites are identified for urban growth, that the ability to appropriately, effectively and efficiently service these areas in comparison to other areas has been adequately investigated through Section 32 RMA analysis. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.303		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.3 Policy – Infrastructure Location and Services		
Summary of Decision Requested	Retain Policy 6.4.3 (a) Infrastructure Location and Services, as notified.		

Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this policy.
--------------------------	---

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.36		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.3 Policy – Infrastructure Location and Services		
Summary of Decision Requested	Retain Policy 6.4.3 Infrastructure Location and Services.		
Decision Reasons:	<ul style="list-style-type: none"> This ensures that provision for infrastructure such as electricity and telecommunications is provided for as part of the subdivision process 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.562		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.3 Policy – Infrastructure Location and Services		
Summary of Decision Requested	Amend Policy 6.4.3(a)(i) Infrastructure Location and Services as follows: <i>(j) Three waters (water, wastewater and stormwater supply management);</i>		
Decision Reasons:	<ul style="list-style-type: none"> Management is a better term than supply as wastewater and stormwater are not supplied to a site. 		

Submitter Number:	836	Submitter:	Simon Roche

Point Number	836.55		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.3 Policy – Infrastructure Location and Services		
Summary of Decision Requested	Retain Policy 6.4.3- Infrastructure Location and Services as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Provide for the development, operation and maintenance of infrastructure and recognise the role they play in social, economic, cultural and environmental well-being of the district. Provides for integration of infrastructure with subdivision, land use and development including electricity services, particularly Objective 6.4.1 and Policy 6.4.3. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.122		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.3 Policy – Infrastructure Location and Services		
Summary of Decision Requested	Retain Policy 6.4.3- Infrastructure Location and Services as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Policy is supported as it helps to give effect to Waikato Regional Policy Statement policies 6.1, 6.3, 6.15 and Section 6A in terms of placing emphasis on planned, coordinated approach to subdivision and development and provision of supporting infrastructure. Submitter considers that this approach is essential to achieving strong health and wellbeing outcomes for the district's communities. 		

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.4 Policy – Road and rail network

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.221		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.4 Policy – Road and rail network		
Summary of Decision Requested	Retain Policy 6.4.4 Road and rail network.		
Decision Reasons:	<ul style="list-style-type: none"> This provision is supported as it helps give effect to WRPS policies 6.1, 6.3, 6.15 and Section 6A in terms of placing emphasis on planned, co-ordinated approach to subdivision and development and provision of supporting infrastructure. 		

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.40		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.4 Policy – Road and rail network		

Summary of Decision Requested	Amend Policy 6.4.4 Road and rail network as follows: <i>(a) Discourage subdivision, use and development that would compromise:</i> <i>(i) The road function, as specified in the road hierarchy, or the safety and efficiency of the roading network;</i> <i>(ii) <u>The access by emergency services and their vehicles; and</u></i> <i>(iii) the safety and efficiency of the railway network.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • To ensure that there is an obligation to consider access by emergency services and consequently any other service vehicles • This is of specific concern and has been problematic in some new developments under the authority of Auckland Council. 		

Submitter Number:	524	Submitter:	Anna Noakes
Point Number	524.25		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.4 Policy – Road and rail network		
Summary of Decision Requested	Retain Policy 6.4.4 Road and rail network.		
Decision Reasons:	<ul style="list-style-type: none"> • Support Policy 6.4.4. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.103		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.4 Policy – Road and rail network		
Summary of Decision Requested	Add a new clause (b) to Policy 6.4.4 Road and rail network, as follows: <i>(a) Discourage subdivision, use and development that would compromise:</i> <i>(i) The road function, as specified in the road hierarchy, or the safety and efficiency of the roading network; and</i> <i>(ii) The safety and efficiency of the railway network.</i> <i>(b) <u>Encourage subdivision, use and development that makes efficient use of the road and rail network.</u></i>		
Decision Reasons:	<ul style="list-style-type: none"> • Support this policy, however consider that provision needs to be made for the efficient operation of the road and rail network to ensure the infrastructure can integrate efficiently with subdivision, use and development. 		

Submitter Number:	598	Submitter:	Withers Family Trust
Point Number	598.16		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.4 Policy – Road and rail network		
Summary of Decision Requested	Retain Policy 6.4.4 Road and rail network.		
Decision Reasons:	<ul style="list-style-type: none"> • Ensure that the Rules relating to subdivision give effect to the proposed Policies, and that where greenfield sites are identified for urban growth, that the ability to appropriately, effectively and efficiently service these areas in comparison to other areas has been adequately investigated through Section 32 RMA analysis. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.304		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.4 Policy – Road and rail network		
Summary of Decision Requested	Retain Policy 6.4.4 (a) Road and rail network, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports this policy. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.53		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.4 Policy – Road and rail network		
Summary of Decision Requested	Retain Policy 6.4.4 Road and rail network, except for the amendments sought below AND Amend Policy 6.4.4 Road and rail network as follows: 6.4.4 Policy - Road and rail <u>Land transport</u> network		

- (a) ~~Discourage~~ Avoid subdivision use and development that would compromise:
 (i) ~~The road function, as specified in the road hierarchy in 14.12.5.5, or the safety and efficiency of the roading network.~~
 (ii) ~~The safety and efficiency, including the maintenance, upgrading, development and operation of the railway network land transport network.~~

AND

Add a new clause as follows:

(b) Avoid reverse sensitivity effects on the land transport network through setbacks and design controls for new residential and other sensitive land use activities established in proximity to existing or planned transport corridors.

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter supports the intent of Policy 6.4.4 which seeks to discourage subdivision, use and development which compromises regional land transport infrastructure (including both road and rail).
- Change the title to use consistent terminology (i.e. land transport networks which the submitter has sought a definition for).
- Use the stronger word "avoid" (that relates to the RMA purpose and principles) rather than "discourage".
- Take into account the full range of functions and activities on the land transport network.
- A further clause should be added to Policy 6.4.4 to address the specific measures sought to be added to the Plan to address reverse sensitivity effects.

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.56		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.4 Policy – Road and rail network		
Summary of Decision Requested	Retain Policy 6.4.4- Road and rail network as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Provide for the development, operation and maintenance of infrastructure and recognise the role they play in social, economic, cultural and environmental well-being of the district. • Provides for integration of infrastructure with subdivision, land use and development including electricity services, particularly Objective 6.4.1 and Policy 6.4.3. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.123		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.4 Policy – Road and rail network		
Summary of Decision Requested	Retain Policy 6.4.4- Road and rail network as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Policy is supported as it helps to give effect to Waikato Regional Policy Statement policies 6.1, 6.3, 6.15 and Section 6A in terms of placing emphasis on planned, coordinated approach to subdivision and development and provision of supporting infrastructure. • Submitter considers that this approach is essential to achieving strong health and wellbeing outcomes for the district's communities. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.38		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.4 Policy – Road and rail network		
Summary of Decision Requested	<p>Retain Policy 6.4.4 Road and rail network except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 6.4.4 Road and rail network as follows (or similar amendments to achieve the requested relief):</p> <p>6.4.4 Policy – Road and rail Land transport network</p> <p>(a) Discourage <u>Avoid</u> subdivision, use and development that would compromise:</p> <p>(i) The road function, as specified in the road hierarchy, or the safety and efficiency of the roading network; and</p> <p>(ii) The safety and efficiency, including the maintenance, upgrading, development and operation of the railway land transport network.</p> <p>(b) Avoid reverse sensitivity effects on the land transport network through setbacks and design controls for new residential and other noise sensitive activities established in proximity to existing or planned transport corridors.</p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • KiwiRail supports the intent of the Policy, which seeks to discourage subdivision, use and development which compromises regional land transport infrastructure (including both road and rail). • However, it seeks the following amendments: <ul style="list-style-type: none"> o Change the title to reflect that it is specific to land transport networks o Use the Resource Management Act 1991 defined word "avoid" rather than "discourage" subdivision; and o Take into account the full range of functions and activities on the land transport network (including road and rail). • KiwiRail also seeks that further arm is added to the policy to address the specific measures sought to be added to the Plan to address reverse sensitivity effects. An additional item is sought to address the mitigation needed through setbacks and acoustic insulation. 		

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.5 Policy – Roading infrastructure

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.222		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.5 Policy – Roading infrastructure		
Summary of Decision Requested	Retain Policy 6.4.5 Roading infrastructure.		
Decision Reasons:	<ul style="list-style-type: none"> This provision is supported as it helps give effect to WRPS policies 6.1, 6.3, 6.15 and Section 6A in terms of placing emphasis on planned, co-ordinated approach to subdivision and development and provision of supporting infrastructure. 		

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.41		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.5 Policy – Roading infrastructure		
Summary of Decision Requested	Amend Policy 6.4.5(a)(i) Roading infrastructure to read: <i>The design, location, alignment and dimensions of new roads provide safe vehicle (including all emergency services vehicles), pedestrian and cycling access and maneuvering to every site</i>		
Decision Reasons:	<ul style="list-style-type: none"> To ensure that there is an obligation to consider access by emergency services and consequently any other service vehicles especially when other vehicles are parked on the road side This is of specific concern and has been problematic in some new developments under the authority of Auckland Council. 		
Point Number	297.58		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.5 Policy – Roading infrastructure		
Summary of Decision Requested	Retain Policy 6.4.5(a)(iii) Roading Infrastructure as notified.		
Decision Reasons:	<ul style="list-style-type: none"> To ensure that there is an obligation to consider access by emergency services and consequently any other service vehicles especially when other vehicles are parked on the road side. This is of specific concern and has been problematic in some new developments under the authority of Auckland Council.

Point Number	836.57		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.5 Policy – Rooding infrastructure		
Summary of Decision Requested	Retain Policy 6.4.5- Rooding infrastructure as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Provide for the development, operation and maintenance of infrastructure and recognise the role they play in social, economic, cultural and environmental well-being of the district. Provides for integration of infrastructure with subdivision, land use and development including electricity services, particularly Objective 6.4.1 and Policy 6.4.3. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.124		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.5 Policy – Rooding infrastructure		
Summary of Decision Requested	Retain Policy 6.4.5- Rooding Infrastructure as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Policy is supported as it helps to give effect to Waikato Regional Policy Statement policies 6.1, 6.3, 6.15 and Section 6A in terms of placing emphasis on planned, coordinated approach to subdivision and development and provision of supporting infrastructure. Submitter considers that this approach is essential to achieving strong health and wellbeing outcomes for the district's communities. 		

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.56		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.5 Policy – Rooding infrastructure		
Summary of Decision Requested	<p>Add a new clause to Policy 6.4.5(a) Rooding infrastructure as follows:</p> <p><i>(y) <u>Where land is still owned by Maori but has been appropriated by Council without compensation for public use, lease arrangements should be entered into.</u></i></p>		

Decision Reasons:

- The predecessor the the council acquired vast area of inalienable Maori land in Whaingaroa/Raglan for roads and other public purposes.
- Council could be proactive in establishing arrangements with affected landowners.

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.6 Objective – Stormwater and drainage

Submitter Number: 524 **Submitter:** Anna Noakes

Point Number 524.27

Plan chapter Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.6 Objective – Stormwater and drainage

Summary of Decision Requested **Retain Objective 6.4.6 Stormwater and drainage.**

Decision Reasons:

- **Support Objective 6.4.6.**

Submitter Number: 578 **Submitter:** Ports of Auckland Limited

Point Number 578.105

Plan chapter Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.6 Objective – Stormwater and drainage

Summary of Decision Requested **Retain Objective 6.4.6 Stormwater and drainage, as notified.**

Decision Reasons:

- Support objective as notified and the inclusion of an infrastructure chapter.

Submitter Number: 579 **Submitter:** Simon Ash

Organisation: Lakeside Developments 2017 Limited

Point Number 579.41

Plan chapter Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.6 Objective – Stormwater and drainage

Summary of Decision Requested **Amend Objective 6.4.6 Stormwater and drainage, as follows:**

(a) The hydrological characteristics of the natural drainage processes are managed to achieve a treatment train process and minimise stormwater effects effects.

AND

Amend the Proposed District Plan to make any amendments or consequential changes that are necessary to give effect to the matters raised in the submission.

Decision Reasons:

- The effect of the amendment is to provide a managed process to control stormwater and promote best practice.
- The notified objective would prevent development like Lakeside which is a planned growth in Te Kauwhata which was previously rural land.
- The requested amendment will ensure high standards of stormwater management will be achieved in the urban development.

Submitter Number: 598 **Submitter:** Withers Family Trust

Point Number 598.18

Plan chapter Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.6 Objective – Stormwater and drainage

Summary of Decision Requested **Retain Objective 6.4.6 Stormwater and drainage.**

Decision Reasons:

- Ensure that the Rules relating to subdivision give effect to the proposed Policies, and that where greenfield sites are identified for urban growth, that the ability to appropriately, effectively and efficiently service these areas in comparison to other areas has been adequately investigated through Section 32 RMA analysis.

Submitter Number: 680 **Submitter:** Federated Farmers of New Zealand

Point Number 680.306

Plan chapter Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.6 Objective – Stormwater and drainage

Summary of Decision Requested **Delete Objective 6.4.6 (a) Stormwater and drainage.**

OR

Amend Objective 6.4.6 (a) Stormwater and drainage as follows:

(a) The hydrological characteristics of the natural drainage processes are retained where new subdivision, development or land use is proposed.

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- If the focus is management of hydrology to maintain water quantity for the purpose of managing water allocation, the district council does not have the jurisdiction for this under the RM Act.
- If the purpose of this objective is to manage flood control and stormwater ponding and overland flow associated with subdivision, development or land use which intensifies use of land, then this objective should be amended confine its focus to such matters.

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.58		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.6 Objective – Stormwater and drainage		
Summary of Decision Requested	Retain Policy 6.4.6- Stormwater and drainage as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Provide for the development, operation and maintenance of infrastructure and recognise the role they play in social, economic, cultural and environmental well-being of the district. • Provides for integration of infrastructure with subdivision, land use and development including electricity services, particularly Objective 6.4.1 and Policy 6.4.3.

Organisation:	Lakeside Developments 2017 Limited		
Point Number	579.42		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.7 Policies – Stormwater		
Summary of Decision Requested	Amend Policy 6.4.7 Stormwater as follows: <i>(a) Ensure that stormwater and drainage infrastructure for subdivision, land use and development:</i> <i>(i) Adopts, where appropriate, a best-practice low impact design approach to the management of stormwater;</i> <i>(ii) Manages stormwater in accordance with a drainage hierarchy, with a preference for <u>initial</u> on-site treatment;</i> <i>(iii) Minimises <u>Manage</u> impervious surfaces to <u>meet agreed impervious standard within respective zones so as to reduce stormwater runoff;</u></i> <i>(iv) Retains pre-development hydrological conditions as far as practicable;</i> <i>(v) <u>Manage</u> Does not increase the flow of stormwater, to <u>minimise</u> runoff onto adjoining properties or flood plains, or reduce site storage capacity on-site;</i> <i>(vi) ...</i> AND Amend the Proposed District Plan to make any amendments or consequential changes that are necessary to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The effect of the amendment is to provide a managed process to control stormwater and promote best practice. The notified policy would prevent development like Lakeside. The requested amendments will ensure high standards of stormwater management will be achieved in the urban development. The objective and policy are unworkable as no new development that includes roads, houses and paved surfaces will be above the "pre-development hydrological conditions". The incorporation of "as far as practicable" in the policy is recognized by it is considered that this will invite debate on what that means. 		
Submitter Number:	598	Submitter:	Withers Family Trust
Point Number	598.19		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.7 Policies – Stormwater		
Summary of Decision Requested	Retain Policies 6.4.7 Stormwater.		
Decision Reasons:	<ul style="list-style-type: none"> Ensure that the Rules relating to subdivision give effect to the proposed Policies, and that where greenfield sites are identified for urban growth, that the ability to appropriately, effectively and efficiently service these areas in comparison to other areas has been adequately investigated through Section 32 RMA analysis. 		
Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.104		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.7 Policies – Stormwater		
Summary of Decision Requested	Amend Policy 6.4.7 (a) Stormwater, as follows: <i>(a) Ensure that stormwater and drainage infrastructure for subdivision, land use and development in <u>urban and rural residential areas:</u></i> AND		

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter conditionally supports this policy provided that criteria for low-impact design approaches and minimising impervious surfaces is focused so that these only apply in urban areas. In rural areas, the impact of stormwater from development, and the amount of impervious surface in comparison to land area, is insignificant to the point that these are not relevant issues, and the costs of carrying out assessment and design for these matters far outweighs any benefit to be derived.

Plan chapter

Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.7 Policies – Stormwater

Summary of Decision Requested

Retain Policy 6.4.7 Stormwater, except for the amendments sought below

AND

Amend Policy 6.4.7(a)(v) Stormwater, as follows:

Does not increase the flow of stormwater runoff onto ~~adjoining properties~~ adjacent land or flood plains ...

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter supports the intent of Policy 6.4.7 and seeks a minor change to clause (v) to refer to "land" rather than "properties" so it is clear that this also applies to transport corridors which may not be considered properties per se;
- The submitter seeks the replacement of "adjoining" with "adjacent", as the former implies the parcels must be contiguous.

Plan chapter

Section B Objectives and Policies > Chapter 6: Infrastructure > 6.4 Infrastructure, Subdivision and Development > 6.4.7 Policies – Stormwater

Summary of Decision Requested

Add a new clause to Policy 6.4.7 Stormwater as follows:

(ix) Overland flow should be intercepted, and managed to minimise effects like erosion on coastlines and beaches.

(x) Ensure that storm water from overland flow does not adversely affect neighbouring properties.

Decision Reasons:

- One area not mentioned are the stormwater pipes and other infrastructure directed to local beaches, which result in scouring out of dunes, loss of vegetation and backdunes and encroachment on coastal land.
- In terms of residential areas, all developments needs to have infrastructure signed off as compliant with rules especially where the development occurs above existing homes as gravity and the natural flow paths may end up adversely affecting the health of people living below.

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.5 Transport**Submitter Number:**

81

Submitter:

Waikato Regional Council

Point Number

81.223

Plan chapter

Section B Objectives and Policies > Chapter 6: Infrastructure > 6.5 Transport

Summary of Decision Requested**Amend** Section 6.5 Transport Objectives and Policies to take into account the Regional Land Transport Plan.**Decision Reasons:**

- While the provisions in this section are generally supported, the submitter considers the policies could be considerably strengthened to be more consistent with the Waikato Regional Land Transport Plan (RLTP). Road Controlling Authorities play an important role in implementing the policies and implementation actions of the RLTP. The District Plan would benefit from incorporating the following elements into Section 6.5:
- Recognising the important role strategic road and rail corridors play in the district for facilitating the movement of inter and intraregional freight;
- Connecting Regional cycle trails;
- Specifically providing for public transport in new growth areas of the district; and
- Supporting energy efficient transport modes by providing the necessary infrastructure e.g. electric vehicle chargers.

Point Number	923.126		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.5 Transport > 6.5.1 Objective – Land transport network		
Summary of Decision Requested	Amend Objective 6.5.1 (a) (i)- Land Transport Network as follows: <i>All transport modes including public transport and walking and cycling are accessible, safe, effective and efficient.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The objective is supported subject to amendments to align it more strongly to the Waikato Regional Land Transport Plan and to transport modes that can positively impact community health and wellbeing. More explicit recognition of the Waikato Regional Land Transport Plan is required. Transport provides access to economic and social opportunities which is key to supporting social engagement and inclusion, whilst also providing access to essential services e.g. education, healthcare and employment. Public transport infrastructure and services, and walking and cycling infrastructure play an important role not only in increasing the capacity of the network, but in enabling access for those people whose transport choices are limited. Transport system can also enable increased levels of physical activity which can in turn have positive impacts on risk factors associated with chronic conditions. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.39		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.5 Transport > 6.5.1 Objective – Land transport network		
Summary of Decision Requested	Retain Objective 6.5.1(a)(ii) Land transport except for the amendments sought below AND Amend Objective 6.5.1(a)(ii) Land transport network as follows (or similar amendments to achieve the requested relief): (a) An integrated land transport network where: ... (ii) Adverse effects from the construction, maintenance, upgrading and operation of the transport network are managed. AND		

Any consequential amendments to link and/or accommodate the requested changes.

Decision Reasons:

- The objective is supported as it recognises the integral role transport infrastructure plays in the District and that it meets several key community wellbeings. Development which is inappropriately located can result in adverse effects as well as compromised amenity if not appropriately designed and located.

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.5 Transport > 6.5.2 Policy – Construction and operation of the land transport network

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.5 Transport > 6.5.2 Policy – Construction and operation of the land transport network

Summary of Decision Requested: Add to Policy 6.5.2 Construction and operation of the land transport network a new point as follows:
(ix) conforming to the national guidelines for CPTED

Decision Reasons:

- To ensure that there is an obligation to consider CPTED, reducing victimisation, making people safe and feel safe.

Submitter Number: 368 Submitter: Ian McAlley

Point Number: 368.14

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.5 Transport > 6.5.2 Policy – Construction and operation of the land transport network

Summary of Decision Requested: Add to Policy 6.5.2 – Construction and operation of the land transport network the following:
(ix) Recognition that any adverse effects of the development of an integrated and effective land transport network can often be mitigated in a short term time-frame in comparison to the lifetime of the infrastructure

Decision Reasons:

- Provision of adequate and appropriate infrastructure is critical to land development. Infrastructure has particular design characteristics that are required to be adhered to and poor infrastructure provision will lead to medium to long term costs that are borne by the community either through lack of efficiency in terms of price paid per household unit, or greater than anticipated operational and maintenance costs. The design life of infrastructure is normally measured in the tens of years, therefore there is adequate scope for mitigation measures to be applied that enable adequate and appropriate infrastructure to be provided and for effects on landscape, character or ecological values to be remedied and/or mitigated and to enable social, economic, community and health and safety benefits to be enabled.

Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.5 Transport > 6.5.3 Policy – Road hierarchy and function		
Summary of Decision Requested	Retain Policy 6.5.3 Road hierarchy and function, as notified.		

Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this policy.
--------------------------	---

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.58		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.5 Transport > 6.5.3 Policy – Road hierarchy and function		
Summary of Decision Requested	<p>Retain Policy 6.5.3 Road hierarchy and function, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 6.5.3 Road hierarchy and function, as follows:</p> <p>Provide a hierarchy of roads for different functions and modes of land transport while recognising the nature of the surrounding land use within the district.</p> <p><u>(a) Establish a road hierarchy and categorise roads in the district in accordance with their function.</u></p> <p>AND</p> <p>Add a new clause (b) to Policy 6.5.3 Road hierarchy and function as follows:</p> <p><u>(b) Protect the function of roads as identified in the road hierarchy from the adverse effects of subdivision use and development.</u></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of Policy 6.5.3. There should be a framework within the plan that recognises and establishes the road hierarchy (consistent with the Regional Policy Statement), and manages the effects of activities with respect to the relative function of the road within the hierarchy. As written, Policy 6.5.3 relates only to the provision of different types of roads. It is important to recognise that roads perform different functions and that these functions should influence how they are approached and in particular, how adjacent land uses are managed. This would give effect to Regional Policy Statement Method 6.3.1. 		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.61		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.5 Transport > 6.5.3 Policy – Road hierarchy and function		
Summary of Decision Requested	Retain Policy 6.5.3-Road hierarchy and function as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Provide for the development, operation and maintenance of infrastructure and recognise the role they play in social, economic, cultural and environmental well-being of the district. 		

Plan chapter: Section B Objectives and Policies > Chapter 6: Infrastructure > 6.5 Transport > 6.5.4 Policy – Road standards

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.108		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.5 Transport > 6.5.4 Policy – Road standards		
Summary of Decision Requested	<p>Add to Policy 6.5.4 Road standards, a new clause (b) as follows:</p> <p><u>(b) Ensure that in rural areas, the safe and efficient functioning of roads also takes into account safe sight distances, vehicle entranceways, pavement design and construction, road geometry and speed environments.</u></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter conditionally supports this policy and submits that the policy be expanded to recognise that in rural areas, the safe and efficient functioning of roads also takes into account safe sight distances, vehicle entranceways, pavement design, construction and geometry and speed environments. Rural roads are often longer roads with higher speed environments than urban roads, and safe and efficient roads are important for farming communities.

Point Number	986.42		
Plan chapter	Section B Objectives and Policies > Chapter 6: Infrastructure > 6.5 Transport > 6.5.7 Policy – Vehicle access		
Summary of Decision Requested	Retain Policy 6.5.7 Vehicle access as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The policy is supported in that it provides support for Plan rules restricting new access ways near level crossings. 		

Submitter Number:	241	Submitter:	Richard Goode
Organisation:	Waikato Decorators		
Point Number	241.1		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage		
Summary of Decision Requested	No specific decision sought, but submission opposes Chapter 7 Historic Heritage.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.65		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage		
Summary of Decision Requested	Amend Chapter 7 Historic Heritage to include a reference to the individual rules that give effect to those objectives and policies.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter is concerned that the objectives and policies site in isolation from the Historic Heritage rules throughout the plan and vice versa. This does not enable a useful understanding of the overall framework for the protection of historic heritage at the time of resource consent application and provide guidance to avoid adverse effects. The submitter seeks that a reference is made in this section to the historic heritage rule framework and Schedule 30.1 Historic Heritage Items to which the rules are applicable. It would be preferable if a link could be made between the various policies and the rules which give effect to the individual policies. 		
Point Number	559.78		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage		
Summary of Decision Requested	Add a new policy to Chapter 7 Historic Heritage as follows: <u>Earthquake strengthening and safety works</u> <u>Encourage and facilitate the strengthening of buildings included in the heritage schedule to increase their ability to withstand future earthquakes while minimising the significant loss of associated heritage values.</u>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers that there is an obligation under the Resource Management Act, not just the Building Act to provide for the consideration of earthquake strengthening and safety works. It is acknowledged that these works could be undertaken under the current provisions, but seeks to have them specifically identified through policy and rules, with an associated restricted discretionary activity status. 		
Point Number	559.79		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage		
Summary of Decision Requested	Add a new policy to Chapter 7 Historic Heritage to include the following: <u>Fire safety works</u> <u>Encourage and facilitate the planning and implementation of fire safety works to buildings in the heritage schedule to increase their ability to withstand fire while minimising the significant loss of associated heritage values.</u>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers that there is an obligation under the Resource Management Act, not just the Building Act to provide for the consideration of fire safety works. Fire safety works do have the potential to be very intrusive on historic heritage values and consideration of these works needs to be undertaken early if considering works on an historic heritage item. It is acknowledged that these works could be undertaken under the current provisions, but seeks to have them specifically identified through policy and rules, with an associated restricted discretionary activity status. 		

Submitter Number:	590	Submitter:	Jenny Kelly
Point Number	590.2		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage		
Summary of Decision Requested	Amend the Proposed District Plan to consider the inclusion of a central district repository of heritage and community archives within Chapter 7 Historic Heritage.		
Decision Reasons:	<ul style="list-style-type: none"> Following the Waikato District Heritage Strategy in 2015, the need for a central district repository for Heritage and Community Archives was identified. More democracy, respecting the collective knowledge of community representatives, rather than staff-drive bureaucracy might enable wiser expenditure. 		

Submitter Number:	942	Submitter:	Angeline Greensill

Organisation:	Tainui
Point Number	942.59
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage
Summary of Decision Requested	Retain objective and policies in Chapter 7: Historic Heritage
Decision Reasons:	<ul style="list-style-type: none"> • Submitter supports this objective and policies.

Plan chapter: Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees

Submitter Number:	328	Submitter:	Paula Dudley
Point Number	328.9		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees		
Summary of Decision Requested	Retain Section 7.1 Protection of Historic Heritage and Notable Trees.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	367	Submitter:	Liam McGrath
Organisation:	Mercer Residents and Ratepayers Committee		
Point Number	367.12		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees		
Summary of Decision Requested	Retain Section 7.1 Protection of Historic Heritage and Notable Trees.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	980	Submitter:	Christine Madsen
Point Number	980.1		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees		
Summary of Decision Requested	Add a Heritage Precinct for Rangiri to Section 7.1 Protection of Historic Heritage and Notable Trees; AND Add to the Proposed District Plan maps a Rangiriri Precinct to include the area opposite Rangiriri Tavern adjacent to the historic cemetery along to Murphy Street and the area on the same side of Rangiriri Road as the tavern towards Te Wheoro's Redoubt (see map attached to the submission).		
Decision Reasons:	<ul style="list-style-type: none"> • Council should not abandon the Heritage Precinct based on a report by a heritage consultant. • The existing precinct should not be removed without developing an appropriate character plan in consultation with the business community in order to preserve the early appearance of Rangiriri. • Any development within this precinct should be sympathetic to listed heritage items that include the Rangiriri Tavern, cemetery arch, historic paa and Te Wheoro's Redoubt. Rangiriri is a significant part of Waikato District's heritage and the business community has been trying to create tourism opportunities around Maori and British heritage from the period 1863 to the 1940s. • There has been no difficulty working with Council to build or relocate buildings that reflect this era. 		

Plan chapter: Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.1 Objective

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.66		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.1 Objective		
Summary of Decision Requested	Retain Objective 7.1.1(a), except for the amendments sought below. AND Amend Objective 7.1.1(a) as follows: (a) A district that acknowledges its past by: recognising, identifying, protecting, <u>conserving</u> and promoting <u>historic</u> heritage.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports Objective 7.1.1(a) in part as it considers that the policy also needs to include recognition of the need and role for "conservation" in the ongoing retention of heritage items into the future. • The conservation of physical structures ensures the sustainability of the heritage resource for future generations. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.112		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.1 Objective		
Summary of Decision Requested	<p>Amend Objective 7.1.1 (a) as follows:</p> <p><i>(a) A district that acknowledges its past by: recognising, identifying, protecting and promoting <u>historic</u> heritage.</i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter understands the purpose of the Objective however amendment is required to promote consistency and clarity within the Proposed District Plan. We note that the term 'heritage' is not defined in the Proposed District Plan. 		

Submitter Number:	980	Submitter:	Christine Madsen
Point Number	980.2		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.1 Objective		
Summary of Decision Requested	<p>Retain Objective 7.1.1, in particular the relationship between heritage buildings, sites, structures, places and their settings including the view of the identified heritage item.</p>		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Plan chapter: Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.2 Policy – Identification

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.67		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.2 Policy – Identification		
Summary of Decision Requested	<p>Retain Policy 7.1.2 (a) - Identification, except for the amendments sought below.</p> <p>AND</p> <p>Amend Policy 7.1.2(a) - Identification as follows:</p> <p><i>(a) Identify and schedule <u>identify and schedule, and develop a rule framework for</u> historic heritage throughout the District that represent the heritage and cultural themes and activities of the district, where the values may include:</i></p> <p><i>(i) <u>Architectural</u>;</i></p> <p><i>(ii) <u>Archaeological</u>;</i></p> <p><i>(iii) <u>Cultural</u>;</i></p> <p><i>(iv) <u>Technological</u>;</i></p> <p><i>(v) <u>Scientific</u>;</i></p> <p><i>(vi) <u>Intrinsic or amenity values; and</u></i></p> <p><i>(vii) <u>Any other significant feature.</u></i></p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Policy 7.1.2(a) in part as this policy assists to ensure that the heritage recognised within the plan would contribute to the understanding of the District's heritage, however it would be appropriate to amend this policy by including the criteria for identification that are contained within the policy at Policy 7.1.3(b) Heritage Items. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.113		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.2 Policy – Identification		
Summary of Decision Requested	<p>Amend Policy 7.1.2 (a) Identification, as follows:</p> <p><i>(a) Identify and schedule historic heritage identified by the Regional Heritage Forum as requiring protection from inappropriate subdivision, use and development throughout the District that represent the heritage and cultural themes and activities of the district.</i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers this Policy has the potential to unnecessarily duplicate work the Regional Council is facilitating via the Regional Heritage Forum. It is the submitter's understanding this forum is currently scoping an inventory of historic heritage items, sites and areas for inclusion in district plans, which merit some form of heritage management or possibly even protection from inappropriate subdivision, use and development. The submitter prefers that there is some consistency between different agencies managing heritage issues, hence our relief sought in this regard. 		

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		

Point Number	942.60
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.2 Policy – Identification
Summary of Decision Requested	Add a new clause to Policy 7.1.2 Identification as follows: <u>Permission to be sought from Hapū/iwi before releasing locations of significant Maori sites.</u>
Decision Reasons:	<ul style="list-style-type: none"> • Many Maori sites on Maori land are not identified because whānau and hapū have chose to protect them from public scrutiny and disturbance. • Those that have been compiled since the 1960s by NZAA have been accessed, investigated, recorded and sometimes taken taonga without informing Tangata whenua. • Although this record exists in the public domain, a schedule can be kept by Council and provided on a need to know basis when applications to develop are applied for.

Submitter Number:	980	Submitter:	Christine Madsen
Point Number	980.3		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.2 Policy – Identification		
Summary of Decision Requested	Retain Policy 7.1.2 Identification, in particular the relationship between heritage buildings, sites, structures, places and their settings including the view of the identified heritage item.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Plan chapter: Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.3 Policy – Heritage items

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.68		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.3 Policy – Heritage items		
Summary of Decision Requested	Retain Policy 7.1.3 (a) Heritage Items, except for the amendments sought below. AND Amend Policy 7.1.3(a) Heritage Items as follows: <i>(a) The contribution of historic heritage to the Waikato District and its communities is maintained through the protection and conservation of its buildings, sites, structures, places and areas through <u>maintenance and repair</u> restoring, conserving and reusing.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports Policy 7.1.3(a) in part as this policy assists to ensure that the heritage recognised within the plan would contribute to the understanding of the District's heritage, however it would be appropriate to amend this policy by including the criteria for identification that are contained within the policy at Policy 7.1.3(b) Heritage Items. 		
Point Number	559.69		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.3 Policy – Heritage items		
Summary of Decision Requested	Retain Policy 7.1.3 (b) Heritage Items, except for the amendments sought below. AND Amend Policy 7.1.3(b) Heritage Items as follows: <i>(b) Protect scheduled heritage items and their values from inappropriate subdivision, use and development of land where the values may include:</i> <i>(i) Architectural;</i> <i>(ii) Archaeological;</i> <i>(iii) Cultural;</i> <i>(iv) Technological;</i> <i>(v) Scientific;</i> <i>(vi) Intrinsic or amenity values; and</i> <i>(vii) Any other significant features.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports Policy 7.1.3(b) in part as the submitter considers that the list of values for which a heritage item could be selected for protection is better suited to being included as part of policy 7.1.2(a), which relates to the identification of items for protection. • Policy 7.1.3(b) covers the protection of heritage items at the time of subdivision, use and development. 		
Point Number	559.70		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.3 Policy – Heritage items		
Summary of Decision Requested	Retain Policy 7.1.3 (c) Heritage Items, except for the amendments sought below. AND Add new clauses (i), (ii) and (iii) to Policy 7.1.3(c) Heritage Items as follows: <i>(c) Relationships between heritage buildings, sites, structures, places and their settings, <u>are:</u></i> <i>(i) Not adversely affected at the time of site development, and</i> <i>(ii) Retained within one lot at the time of subdivision, and</i>		

(iii) including the view of the identified heritage items are retained.

AND

Clarify the phrase "the view of the identified heritage item are retained".

- Decision Reasons:**
- The submitter supports Policy 7.1.3(b) in part as the submitter recognises that the relationship between heritage items, sites structures, places and their settings is very important to the retention of heritage values. This relationship can be adversely affected by additional buildings, inappropriately placed buildings or structures and subdivision processes.
 - The submitter seeks that the policy is amended to reflect the following:
 - various processes that may adversely affect these important relationships; and
 - the aspirational goal of retaining the building and its entire setting in one lot.
 - These amendments will create improved guidance and create a link between this policy and the related rules of site development and subdivision of land containing heritage items.
 - The submitter also seeks clarification of the following part of the statement "including the view of the identified heritage item is retained".
 - It is unclear if this is the view of the identified heritage item within the site or beyond the site or both?
 - Clarification of this aspect would be helpful for those administering these policies and giving advice to building owners.

Point Number 559.71

Plan chapter Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.3 Policy – Heritage items

Summary of Decision Requested Retain Policy 7.1.3 (d) Heritage Items.

- Decision Reasons:**
- The submitter supports Policy 7.1.3(d) as this gives effect to the need to provide appropriate protection to historic heritage as required under s6 of the Resource Management Act.

Point Number 559.72

Plan chapter Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.3 Policy – Heritage items

Summary of Decision Requested Amend Policy 7.1.3 (e) Heritage Items as follows:

(e) Protect scheduled heritage items from demolition, relocation or removal, ~~unless~~

AND

Delete Policy 7.1.3(e)(i) and (ii) Heritage Items.

- Decision Reasons:**
- The submitter supports Policy 7.1.3(d) in part.
 - The first line of the policy only refers to demolition and removal of items, whereas the related suite of rules also refers to relocation of items, therefore the policy needs to be amended so guidance is available for relocation.
 - It would also be helpful to include the world heritage within the policy.
 - The remainder of the policy provides instances of exemptions where protection is not considered necessary.
 - It is considered that this direction is not appropriate as each instance should be reviewed and assessed on a case by case basis through a resource consent application.
 - The Resource Management Act already allows for the consideration of these matters.

Point Number 559.73

Plan chapter Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.3 Policy – Heritage items

Summary of Decision Requested Retain Policy 7.1.3(f) Heritage Items, except for the amendments sought below.

AND

Amend Policy 7.1.3(f) Heritage Items as follows:

(f) Ensure alterations and additions to identified heritage items and curtilage are:

(i) Consistent with the scale, detailing, style, materials and character of the heritage item;

(ii) Retain cultural and historic heritage values;

(iii) Do not compromise the heritage item, or have a design that competes with its heritage item, or have a design that competes with its historic heritage values; and

(iv) Do not compromise the heritage setting of the item.

- Decision Reasons:**
- The submitter supports Policy 7.1.3(f) in part as the policy only refers to alterations, whereas the related rule framework also refers to additions.
 - For consistency and for the policy framework to be applicable to both additions under s6 of Resource Management Act, the policy should be amended.

Point Number 559.74

Plan chapter Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.3 Policy – Heritage items

Summary of Decision Requested Retain Policy 7.1.3(g) Heritage Items, except for the amendments sought below.

AND

Amend Policy 7.1.3(g) Heritage Items as follows:

(g) Ensure maintenance and repairs protects ~~the significant features~~ the heritage values of the heritage items in (Schedule 30.1 Heritage Item)

- Decision Reasons:**
- The submitter supports Policy 7.1.3(g) in part.
 - The wording of the policy relates to the permitted a restricted discretionary activities relating to maintenance and repairs and significant features of a heritage item.

Point Number 559.75

Plan chapter Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.3 Policy – Heritage items

Summary of Decision Requested Retain Policy 7.1.3(h) Heritage Items, except for the amendments sought below.

AND

Amend Policy 7.1.3(h) Heritage Items as follows:

(h) *Ensure signs on scheduled heritage items are only for the purposes of identification ~~or~~ interpretation, and ...*

Decision Reasons:

- The submitter supports Policy 7.1.3(h) in part as this policy seeks to limit the content and nature of the signage that can occur on a heritage item.
- The submitter considers that the policy needs to adopt a more cautious approach as a heritage building may not have the capacity to accommodate both identification and interpretation signage.
- The change to the policy is sought in conjunction with amendments to the rules ensuring that the adverse effects cannot occur to the heritage item, in fulfilment of s6 of the Resource Management Act.

Submitter Number: 680 **Submitter:** Federated Farmers of New Zealand

Point Number 680.114

Plan chapter Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.3 Policy – Heritage items

Summary of Decision Requested **Amend** Policy 7.1.3 (a) and (d) Heritage items, as follows:
(a) *The contribution of historic heritage to the Waikato District and its communities is maintained through the ~~protection~~ management and conservation of its buildings, sites, structures, places and areas through restoring, conserving and reusing.*

...

(d) *~~Ensure~~ Protect the relationship of identified redoubts and battlefields with their surrounds or settings is from inappropriate subdivision, use and development.*

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter is broadly supportive of the policy approach being taken. Council is appropriately limiting matters to 'inappropriate' subdivision, use and development. Section 6 (f) of the RMA provides for the protection of historic heritage from inappropriate subdivision, use, and development. With this direction, only inappropriate activities that could damage sites need to be managed.

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.567

Plan chapter Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.3 Policy – Heritage items

Summary of Decision Requested **Amend** Policy 7.1.3(f) Heritage items as follows:

Ensure alterations to ~~identified~~ scheduled heritage items and curtilage are...

Decision Reasons:

- Provides clarity to this policy that it applies to scheduled heritage items.

Submitter Number: 980 **Submitter:** Christine Madsen

Point Number 980.4

Plan chapter Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.3 Policy – Heritage items

Summary of Decision Requested **Retain** Policy 7.1.3 Heritage items, in particular the relationship between heritage buildings, sites, structures, places and their settings including the view of the identified heritage item.

Decision Reasons:

- No reasons provided.

Submitter Number: 986 **Submitter:** Pam Butler

On behalf of: KiwiRail Holdings Limited (KiwiRail)

Point Number 986.43

Plan chapter Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.3 Policy – Heritage items

Summary of Decision Requested **Retain** Policy 7.1.3(e) Policy – Heritage items as notified.

Decision Reasons:

- **KiwiRail supports the identification and protection of NZ's archaeological and historic heritage. In selected circumstances, the removal of heritage sites is acceptable and the policy provides for an assessment of the reasons for the removal in these (relatively rare) occurrences.**

Plan chapter: Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.4 Policy – Matangi and Huntly Heritage precinct

Submitter Number: 546 **Submitter:** Lynne Adrienne

Point Number 546.3

Plan chapter Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.4 Policy – Matangi and Huntly Heritage

	precinct
Summary of Decision Requested	Amend Policy 7.1.4 Matangi and Huntly Heritage Precinct, to include the redesign of new buildings and structures and external alterations or additions in Raglan.
Decision Reasons:	<ul style="list-style-type: none"> Buildings should be compatible with the setting, scale, detailing, style, materials, character of the precinct and protect the heritage values. New and existing buildings within the town centre and coastal strips need to have a height limit of two-storeys to retain the seaside village character (no higher than the Raglan hotel). There needs to be a much stronger focus on the character of the CBD area that retains and enhances Raglan's simple, modest architecture rather than commercial development recently approved. Sustainability and alternative design should be a requirement for all developers and buildings.

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.76		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.4 Policy – Matangi and Huntly Heritage precinct		
Summary of Decision Requested	<p>Retain Policy 7.1.4(a) Matangi and Huntly Heritage precinct, except for amendments sought below.</p> <p>AND</p> <p>Amend Policy 7.1.4(a) Matangi and Huntly Heritage precinct as follows:</p> <p>(a) <i>Ensure the design of the new buildings and structures and external alterations or additions to buildings are compatible with the settings, detailing, style, materials and character of the precinct and protect heritage values within:</i></p> <p>(i) <i>Matangi Heritage Precinct</i></p> <p>(ii) <i>Huntly heritage precinct</i></p> <p>(iii) <i>Rangiriri Heritage precinct.</i></p> <p>AND</p> <p>Amend the planning maps to include the Rangiriri Heritage Precinct guidelines, with additional information to protect the relationship of the cemetery to the village.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Policy 7.1.4(a) as the policy recognises these heritage precincts and the importance of ensuring that new builds do not detract from the elements for which the precinct is recognised. The submitter is aware that the Proposed Plan does not include a heritage precinct for the Rangiriri township as found in the Operative Plan. Council have advised that as the Rangiriri Hotel and heritage cemetery are now both included in the heritage schedule, that a precinct is no longer required for the protection of these heritage items. The submitter considers that the rules that relate to heritage items, while protecting the heritage item and the relationship with its own site, do not protect a heritage from the potentially adverse effect of activities for adjacent sites, or protect the relationship between separate heritage items in the same locale. The heritage cemetery and the Rangiriri Hotel are very disparate in nature. Therefore any proposed development needs to be carefully managed to ensure that the heritage values of both items are protected and not eroded. The submitter seeks that the Rangiriri heritage Precinct guideline and map is reinstated to the plan, with additional guidance to protect the relationship of the heritage cemetery to the village. 		

Submitter Number:	780	Submitter:	John Lawson (Whaingaroa Environmental Defence Incorpora
On behalf of:	Whaingaroa Environmental Defence Incorporated Society		
Point Number	780.18		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.4 Policy – Matangi and Huntly Heritage precinct		
Summary of Decision Requested	Add a new clause (iii) to Policy 7.1.4 Matangi and Huntly Heritage precinct for Raglan and policies similar to those for Matangi and Huntly.		
Decision Reasons:	<ul style="list-style-type: none"> In 2017, Waikato District Council often used the phrase "Raglan is the jewel in the crown of the Waikato". The proposed Waikato District Plan still mentions Raglan's "seaside village character" but reduced from 12 in the current plan to 3 in the proposed one and that is only for Rangitahi. The original submission makes reference to 1.6.1 of the current plan ("Raglan will retain its seaside village character as it grows, while protecting the harbour."), as well as a description of Raglan from Lonely Planet. The submission wants "Raglan will retain its seaside village character as it grows, while protecting the harbour." from the current plan included in the proposed. Submitter is of the opinion that Policy 7.1.4 also applies to Raglan. 		

Submitter Number:	825	Submitter:	John Lawson
Point Number	825.18		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.4 Policy – Matangi and Huntly Heritage precinct		
Summary of Decision Requested	Add a new clause (iii) to Policy 7.1.4 Policy Matangi and Huntly Heritage precinct for Raglan (similar to those for Matangi and Huntly (i and ii))		
Decision Reasons:	<ul style="list-style-type: none"> In 2017, Waikato District Council often used the phrase "Raglan is the jewel in the crown of the Waikato". The proposed Waikato District Plan still mentions Raglan's "seaside village character" but reduced from 12 in the current plan to 3 in the proposed one and that is only for Rangitahi. The original submission makes reference to 1.6.1 of the current plan ("Raglan will retain its seaside village character as it grows, while protecting the harbour."), as well as a description of Raglan from Lonely Planet. The submission wants "Raglan will retain its seaside village character as it grows, while protecting the harbour." from the current plan included in the proposed. Submitter is of the opinion that Policy 7.1.4 also applies to Raglan.

On behalf of:	Raglan Naturally		
Point Number	831.27		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.4 Policy – Matangi and Huntly Heritage precinct		
Summary of Decision Requested	Add to Policy 7.1.4- Matangi and Huntly Heritage precinct a new clause (ii) Raglan Heritage Precinct with policies similar to those for the Matangi and Huntly Heritage Precinct.		
Decision Reasons:	<ul style="list-style-type: none"> The Proposed District Plan still mentions Raglan as having a seaside village character. Raglan should retain its seaside village character as it grows, while protecting the harbour. This should be acknowledged in the Proposed District Plan. 		

Plan chapter: Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.5 Policy – Subdivision

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.77		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.5 Policy – Subdivision		
Summary of Decision Requested	Retain Policy 7.1.5 Subdivision, except for the amendments sought below. AND Amend Policy 7.1.5(a) Subdivision as follows: (a) Subdivision and development should retain the heritage item or features and their setting within one lot within an identified precinct do not compromise and are sympathetic to the existing historic heritage items or features.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Policy 7.1.5 in part. The submitter is concerned that the policy does not: <ul style="list-style-type: none"> Include the aspirational goal that the heritage item and its setting are retained within one lot at the time of subdivision and development, and Provide guidance as to the desired outcomes at the time of subdivision and development in relation to a heritage item and its setting in other zones. The submitter considers that both matters need to be addressed to provide appropriate protection to meet the requirements of s6 of the Resource Management Act. 		

Plan chapter: Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.6 Objective notable trees

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.61		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.6 Objective notable trees		
Summary of Decision Requested	Retain Policy 7.1.6 Notable Trees		
Decision Reasons:	<ul style="list-style-type: none"> Submitter supports this policy. 		

Plan chapter: Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.7 Policy – Identification

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.115		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.7 Policy – Identification		
Summary of Decision Requested	Amend Policy 7.1.7 Identification, as follows: (a) Notable trees should be identified and scheduled in Schedule 30.2 in a manner that recognises the important values of each tree. Identify and schedule trees, including groups of trees and assess them for significance and/or notable values. AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> With reference to Schedule 30.2 Notable Trees, submitter is unsure why this policy is necessary. Presumably the relevant Proposed District Plan Schedule should be referenced in any such policy, otherwise there is concern that the policy could be used to justify some sort of assessment or onerous consenting requirement in respect of any old tree. 		

Plan chapter: Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.8 Policy –Tree protection

Submitter Number:	567	Submitter:	Ngati Tamaoho Trust
Point Number	567.10		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.8 Policy –Tree protection		
Summary of Decision Requested	<p>Add a new clause (c) to Policy 7.1.8 - Tree protection, as follows:</p> <p><i><u>(c) trees over 200 years old unless in poor health are automatically protected.</u></i></p>		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.116		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.8 Policy –Tree protection		
Summary of Decision Requested	<p>Amend Policy 7.1.8 (a) Tree protection, as follows:</p> <p><i>(a) Ensure removal of a notable tree listed in (Schedule 30.2 Notable Trees) only occurs if the tree is in an unsafe condition and/or there is a serious risk to human life or property.</i></p> <p><i>(b) Ensure land use or work within the dripline of a notable tree listed in (Schedule 30.2 Notable Trees) does not affect the form or health of the tree.</i></p> <p><i>(c) <u>Enable removal of the protective tree status if the values associated with the protected tree have deteriorated.</u></i></p> <p><i>(d) <u>Enable removal of a notable tree on private property if the reasonable use and enjoyment of the property and surrounds is compromised.</u></i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the practical approach adopted by this policy but consider it needs to go further to enable the removal of a notable tree on private property if the use and enjoyment of that property is compromised. 		

Submitter Number:	798	Submitter:	Ngati Te Ata
Point Number	798.12		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.8 Policy –Tree protection		
Summary of Decision Requested	<p>Add a new clause (c) to Policy 7.1.8 Tree Protection as follows:</p> <p><i><u>(c) trees over 200 years old unless in poor health are automatically protected.</u></i></p> <p>AND</p> <p>Add <i><u>"trees over 200 years old unless in poor health are automatically protected"</u></i> to all sections of the Proposed District Plan where "notable trees" are referred to including Rule 16.2.6- Notable trees.</p>		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		
Point Number	831.70		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.8 Policy –Tree protection		
Summary of Decision Requested	<p>Retain Policy 7.1.8 Tree Protection</p> <p>AND</p> <p>Amend the Proposed District Plan to protect existing large trees and not just those listed in Schedule 30.2.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Notes the importance of trees in the Raglan urban scene and compares with the changes that Mount Maunganui has experienced. 		

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.63		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.8 Policy –Tree protection		
Summary of Decision Requested	<p>Add notable trees to Schedule 30.2 Notable Trees including the following:</p> <ul style="list-style-type: none"> Pohutakawa tree at Te Whaanga 3 Puriri trees, Ngaio and Kowhai located between Iwitahi and Pauaeke <p>AND</p> <p>Undertake a survey by Tangata whenua of notable trees over-bordering Karioi Native reserve.</p>		

Decision Reasons:

- Trees are the first children of Tāne Mahuta and were placed to clothe the earth, store carbon, oxygenate the planet, and provide for human seeds.
- Unfortunately the 20-21 century growth and development have seen the destruction of trees that have stood for centuries.
- Some of these trees protected by tangata whenua as markers, have been felled without regard for their age or purpose within the forest ecosystem.
- Tangata whenua have protected most of the trees within the Karioi Native Reserve for generations but those that are close to roads or beaches are threatened by human activity.

Plan chapter: Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.9 Policy – Tree maintenance

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.117		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.9 Policy – Tree maintenance		
Summary of Decision Requested	<p>Amend Policy 7.1.9 Tree maintenance, as follows</p> <p>(a) <i>Enable the maintenance and management of a notable tree for the purposes of:</i></p> <p>(i) <i>Ensuring the continuing health, structural integrity and amenity value of the tree;</i> OR and</p> <p>(ii) <i>The reasonable use and enjoyment of the property and surrounds.</i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter broadly supports the intention of the policy however we consider that the two purposes are not mutually inclusive. The reasonable use and enjoyment of private property and surrounds is important in and of itself, the amendment is required to acknowledge and recognise that. 		

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.62		
Plan chapter	Section B Objectives and Policies > Chapter 7: Historic Heritage > 7.1 Protection of Historic Heritage and Notable Trees > 7.1.9 Policy – Tree maintenance		
Summary of Decision Requested	No specific decision sought, but the submitter supports Policy 7.1.9 Tree maintenance.		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter supports this policy. 		

Plan chapter: Section B Objectives and Policies > Chapter 8: Reserves

Submitter Number:	367	Submitter:	Liam McGrath
Organisation:	Mercer Residents and Ratepayers Committee		
Point Number	367.13		
Plan chapter	Section B Objectives and Policies > Chapter 8: Reserves		
Summary of Decision Requested	Retain Chapter 8 Reserves.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.281		
Plan chapter	Section B Objectives and Policies > Chapter 8: Reserves		
Summary of Decision Requested	<p>Add a new cultural and heritage based objective and policy to Chapter 8: Reserves as follows:</p> <p><u>Objective – Cultural and Heritage Values</u></p> <p><u>The cultural and historic heritage values of public open space, natural reserves and parks are maintained and conserved.</u></p> <p><u>Policy – Cultural and Heritage Values</u></p> <p><u>(i) Ensure the conservation of cultural and heritage values at the time of the consideration of proposed works through consultation with Tangata Whenua and Heritage New Zealand.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter is concerned that Chapter 8: Reserves contains no Objectives and Policies in recognition of cultural or heritage values that are often prevalent within Reserves, particularly Heritage Reserves, and reserves adjacent to river or coastal locations. • The submitter acknowledges the role of reserve management plans, however considers that just as natural values are covered by objectives and policies, cultural and heritage values should also be part of the land management processes considered under any Resource Management Act process for these important sites and meet the considerations required under section 6 of the Act. 		

Submitter Number:	781	Submitter:	Ministry of Education
Point Number	781.5		
Plan chapter	Section B Objectives and Policies > Chapter 8: Reserves		
Summary of Decision Requested	<p>Add a new policy to Chapter 8: Reserves to provide for education facilities in reserves as follows:</p> <p><u>Policy - Education Facilities and Reserves</u></p> <p><u>Allow activities which are compatible with the role, function and predominant character of the Reserves, while managing the effects of the activities on the environment, including: Education facilities</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> There are no policies that currently provide for education facilities in the reserves. Education facilities such as schools, community education, early childhood education, tertiary education institutions, work skills training centres, outdoor education centres and sports training establishments located within reserves are essential social infrastructure. 		

Plan chapter: Section B Objectives and Policies > Chapter 8: Reserves > 8.1 Reserve Provision

Submitter Number:	18	Submitter:	Kevin Hutchinson
Organisation:	Waikato RiverCare Incorporated		
Point Number	18.1		
Plan chapter	Section B Objectives and Policies > Chapter 8: Reserves > 8.1 Reserve Provision		
Summary of Decision Requested	<p>Amend Chapter 8.1 Reserve Provision, to recognise that the development and day-to-day use and maintenance of reserves are managed through Council's reserve management plans which provide for the continuation of reserve activities.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Maintenance is the key management action required to protect and maintain indigenous plant values on Council administered reserves and prevent the spread of weeds, pests into adjoining areas. 		

Plan chapter: Section B Objectives and Policies > Chapter 8: Reserves > 8.1 Reserve Provision > 8.1.1 Objective

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.128		
Plan chapter	Section B Objectives and Policies > Chapter 8: Reserves > 8.1 Reserve Provision > 8.1.1 Objective		
Summary of Decision Requested	<p>Retain Reserves Objective 8.1.1 as notified.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Policy is supported as the submitter emphasises the importance of public open space, natural reserves, and recreational opportunities, which can make a positive contribution to community health and wellbeing. 		

Plan chapter: Section B Objectives and Policies > Chapter 8: Reserves > 8.1 Reserve Provision > 8.1.2 Policies – Provision, use and development of public open space and reserves

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.47		
Plan chapter	Section B Objectives and Policies > Chapter 8: Reserves > 8.1 Reserve Provision > 8.1.2 Policies – Provision, use and development of public open space and reserves		
Summary of Decision Requested	<p>Add to Policy 8.1.2(c) Provision, use and development of public open space and reserves a new point, as follows:</p> <p><u>(iii) being safe and conforming to the national guidelines for CPTED</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> To ensure that there is an obligation to consider CPTED, reducing victimisation, making people safe and feel safe. 		

Submitter Number:	328	Submitter:	Paula Dudley
Point Number	328.10		
Plan chapter	Section B Objectives and Policies > Chapter 8: Reserves > 8.1 Reserve Provision > 8.1.2 Policies – Provision, use and development of public open space and reserves		
Summary of Decision Requested	<p>Amend Policy 8.1.2(b)(iv) Provision, use and development of public open space and reserves, to ensure the relevant style/type of fencing and lighting is negotiated with neighbouring property owner(s).</p>		
Decision Reasons:	<ul style="list-style-type: none"> Historical reserve on the south boundary of the submitter's property - raises concerns for residents/ owners' safety. Currently, no information has been forwarded outlining plan and implementation pre-development and post-development. 		

Submitter Number:	499	Submitter:	Adrian Morton
Point Number	499.15		
Plan chapter	Section B Objectives and Policies > Chapter 8: Reserves > 8.1 Reserve Provision > 8.1.2 Policies – Provision, use and development of public open space and reserves		
Summary of Decision Requested	Amend Policy 8.1.2 Provision, use and development of public open space and reserves, to require that residential development will conform to the Residential Subdivision Urban Design Guidelines in relation to layout around open space and stormwater design features.		
Decision Reasons:	<ul style="list-style-type: none"> • Developments need to ensure properties integrate with open space and stormwater devices such as wetland ponds rather than have them fenced in or with properties 'turning' their back to them. 		

Submitter Number:	757	Submitter:	Karen White
Point Number	757.16		
Plan chapter	Section B Objectives and Policies > Chapter 8: Reserves > 8.1 Reserve Provision > 8.1.2 Policies – Provision, use and development of public open space and reserves		
Summary of Decision Requested	Amend Policy 8.1.2 Provision, use and development of public open space and reserves, to include the following: <i>Residential development will conform to the Waikato Urban Design Guidelines 'Residential Subdivision' in relation to layout around open space and stormwater design features.</i>		
Decision Reasons:	Developments need to ensure properties integrate with open space and storm water devices rather than have them fenced in or with properties 'turning' their back to them.		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.129		
Plan chapter	Section B Objectives and Policies > Chapter 8: Reserves > 8.1 Reserve Provision > 8.1.2 Policies – Provision, use and development of public open space and reserves		
Summary of Decision Requested	Retain Policy 8.1.2- Provision, use and development of public open space and reserves as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Policy is supported as current research shows that access to open, and especially green spaces, improves people's health and sense of wellbeing. • The use of open spaces to promote physical activity is an important part of addressing these conditions in an urban setting. • Opens spaces promote health behaviors by providing an accessible, affordable and enjoyable place to be physically active, which is emphasized within the NZ Urban Design Guide. 		

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.65		
Plan chapter	Section B Objectives and Policies > Chapter 8: Reserves > 8.1 Reserve Provision > 8.1.2 Policies – Provision, use and development of public open space and reserves		
Summary of Decision Requested	Retain Policy 8.1.2 Provision, use and development of public open space and reserves. AND Add a new clause to Policy 8.1.2 Provision, use and development of public open space and reserves as follows: <i>(e) Where Council do not wish to manage small scale areas of significance to Maori, vested as a contribution to development, a section 33 vesting to the appropriate iwi should be considered.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the policy as it provides for public open space and recreation as well as protection and enhancement of biodiversity and the natural environment. • Commercial activities should be discouraged on the reserves. • Occasionally developers will attempt to vest reserves in Council but are refused as there are underlying issues of the cost management or the presence of Maori cultural sites which need covenanting.

Point Number	433.12		
Plan chapter	Section B Objectives and Policies > Chapter 8: Reserves > 8.1 Reserve Provision > 8.1.3 Policies - Esplanade reserves and walkways		
Summary of Decision Requested	Retain Policy 8.1.3 Esplanade reserves and walkways, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> This policy encourages Council to acquire esplanade reserves or strips around rivers, lakes and wetlands during subdivision to enable the creation of trails and public access. 		

Submitter Number:	435	Submitter:	Jade Hyslop
Point Number	435.24		
Plan chapter	Section B Objectives and Policies > Chapter 8: Reserves > 8.1 Reserve Provision > 8.1.3 Policies - Esplanade reserves and walkways		
Summary of Decision Requested	Add provision for new cycle/walkways to implement Council's Walking, Cycling and Bridle Trails Strategy, not only in major new developments.		
Decision Reasons:	<ul style="list-style-type: none"> Without support from District Plan is unlikely most of strategy will be achieved. 4.1.10 Policy- Tuakau, 4.1.11 Policy- Pokeno, 4.1.12 Policy- Te Kauwhata, 4.1.14 Policy- Taupiri, 4.1.15 Policy- Ngaruawahia, 4.1.16 Policy- Horotiu and 4.1.17 Policy- Te Kowhai all mention walking and cycling provision, however means and locations is unclear. Last plan revision, Council stated detailed rules for walk/cycle ways are not appropriate for a District Plan, yet have 35 pages the detail in 14.12 about vehicle turning circles, road widths etc. versus just a rule about bus space capacities and new buildings should have cycle parking. Page 42 Raglan Naturally states 'There is strong public support for harbor and coastal walkways' and 'Create coastal walkways.' Encouraging tourists to spend more time walking versus driving, could be made a much more valuable asset giving economic, health and recreation impetus to implement policies in recognition of the importance of walking and cycling. Lack of progress indicates opportunities are not taken with subdivisions and more detail needs to be included in the District Plan. 		

Submitter Number:	499	Submitter:	Adrian Morton
Point Number	499.16		
Plan chapter	Section B Objectives and Policies > Chapter 8: Reserves > 8.1 Reserve Provision > 8.1.3 Policies - Esplanade reserves and walkways		
Summary of Decision Requested	Amend Policy 8.1.3 to add provision for new cycle/walkways, not only in major new developments but to implement to Councils Walking, Cycling and Bridle Trails strategy		
Decision Reasons:	<ul style="list-style-type: none"> 1.10.2.3 includes the Strategy as relevant, yet there is no timeframe for implementation of the Strategy. Without support from the District Plan it is unlikely that most of the Strategy will be achieved. 4.1.8 states the Plan will, <ul style="list-style-type: none"> -(a) Ensure effective integration within and between new developments and existing areas, including in relation to public open space networks and infrastructure by: <ul style="list-style-type: none"> (i) Providing good access to facilities and services by a range of transport modes through the provision of integrated networks of roads, public transport, cycle, and pedestrian routes". 4.1.10 Policy - Tuakau, 4.1.11 Policy - Pokeno, 4.1.12 Policy - Te Kauwhata, 4.1.14 Policy - Taupiri, 4.1.15 Policy - Ngaruawahia, 4.1.16 Policy - Horotiu and 4.1.17 Policy - Te Kowhai all mention walking and cycling provision, though leave the means and locations unclear. 		

- 4.1 .18 Policy - Raglan is the only town policy not to mention cycling and walking, despite a May 2018 staff report to Council saying, "Raglan has the district's highest walking/cycling communities".
- For example, 1.4.2.2 mentions, "Revocation of parts of State Highway 1 will offer opportunities for some town centre improvements and cycle/walk ways", yet nowhere in the Plan is it indicated where some might be, though it is clearly a land use issue. At the last Plan revision, Council said detailed rules for walk/cycleways are not appropriate for a District Plan, yet have expanded to 35 pages the detail in 1.4.12 about vehicle turning circles, road widths, sight lines, etc. By contrast, there is just a rule about buses having a space for 200 school students and a rule that some new buildings should have cycle parking.
- On page 42 Raglan Naturally says, "There is strong public support for harbour and coastal walkways." and "Create coastal walkways, eg Raglan to Whale Bay, Whale Bay to Te Toto Gorge." This local support reflects national trends; time use surveys show walking as being ahead of all other active sports and pursuits. European surveys have similar results, so that environmental tourism, encouraging tourists to spend more time walking than driving, could be made a much more valuable asset, giving an economic, as well as health and recreation, impetus to the need to implement policies in recognition of the importance of walking and cycling as noted at 1.4.3.1. The lack of progress indicates that opportunities are not taken with subdivisions and that more detail needs to be included in the District Plan.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.118		
Plan chapter	Section B Objectives and Policies > Chapter 8: Reserves > 8.1 Reserve Provision > 8.1.3 Policies - Eplanade reserves and walkways		
Summary of Decision Requested	<p>Amend Policy 8.1.3 Eplanade reserves and walkways, as follows</p> <p><i>(a) With the exception of subdivision in the Rural Zone, to Acquire esplanade reserves or strips along coasts, rivers, lakes and wetlands during subdivision to enable the creation of trails and public access, particularly in identified high priority areas in Appendix 4.</i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter is opposed to creation of esplanade reserves or strips where land is being subdivided for the purposes of facilitating farming in the Rural Zone. • The disadvantages far outweigh the benefits. Any given member of the public might visit such waterway margins once in their lifetimes, if at all, while farmers have to put up with theft and nuisance on a continual basis. Creation of public access alongside farmland encourages all sorts of problems for farmers, including theft of farm property and stock, and harassment/harm of farm animals by careless dog owners. • In addition, unless any such esplanade reserves that are acquired can be responsibly managed for pests and weeds (and unwanted excess vegetation growth blocking waterways), then provision of esplanade reserves ultimately results in land flooding problems for farmers in the vicinity. Where nuisance plants like tobacco weed get established on riparian margins, this can cause adverse effects on water quality through exposing riparian areas to soil erosion when the tobacco weed etc gets swept away in big flood events • Moreover, due to the pattern of existing land fragmentation, any reliance on a requirement to provide esplanade reserves upon subdivision of land almost certainly never results in continuous esplanade access along any given river or stream margin. Any access that might otherwise result alongside rivers and streams from such subdivision, ends up at best being intermittent due to the ad-hoc and infrequent timing of rural subdivision. • Furthermore, farmers should not have to provide esplanade reserves or strips where they are only seeking boundary relocation or boundary adjustment to enable better practical management of farmland. • Any requirement to acquire esplanade reserves or strips should be accompanied by a strategy which identifies waterways where acquisition of esplanade reserves is a priority for the purposes listed in section 229 and 230 of the RMA, in which all the management issues associated with esplanade reserves (such as enabling safe and practical public access, or pest and weed control etc) are provided for in a comprehensive manner in a way that also sits outside the district plan among the Council's other functions under the Local Government Act 2002 and the Reserves Act 1977. 		

Submitter Number:	757	Submitter:	Karen White
Point Number	757.17		
Plan chapter	Section B Objectives and Policies > Chapter 8: Reserves > 8.1 Reserve Provision > 8.1.3 Policies - Eplanade reserves and walkways		
Summary of Decision Requested	Add provision for new cycle/walkways, not only in major new developments, to implement Council's Walking, Cycling and Bridle Trails Strategy.		
Decision Reasons:	<ul style="list-style-type: none"> • Submission states support for Whaingaroa Environmental Defence's submission in that 1.10.2.3 includes the strategy as relevant, yet there is no implementation of the Strategy. • Without support from the District Plan it is unlikely that most of the Strategy will be achieved. • 4.1.10 Policy- Tuakau, 4.1.11 Policy- Pokeno, 4.1.12 Policy- Te Kauwhata, 4.1.14 Policy- Taupiri, 4.1.15 Policy- Ngaruawahia, 4.1.16 Policy- Horotiu and 4.1.17 Policy- Te Kowhai all mention walking and cycling provision, but leave the means and locations unclear. • 4.1.18 Policy- Raglan is the only town policy <u>not</u> to mention cycling and walking, despite a May 2018 staff report to Council saying "Raglan has the district's highest walking/cycling communities." • At the last Plan revision Council said detailed rules for walk/cycle ways are not appropriate for a District Plan however contains 35 pages detailing (14.2) about vehicle turning circles, road widths, sight lines etc. By contrast, there is just a rule about bus spaces and a rule for some new buildings to have cycle parking. • Page 42 of Raglan Naturally states 'there is strong public support for harbour and coastal walkways' and 'create coastal walkways.' • Local support reflects national trends showing walking being ahead of all other active sports and pursuits. • Encouraging tourists to walk more than drive could become a valuable asset, giving an economic, health/recreation impetus for policy implementation around the importance of walking. • Lack of progress indicates opportunities are not taken with subdivisions. • More detail needs to be included in the District Plan.

--------------------------	-----	-------------------	---------------

Point Number	267.1
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones
Summary of Decision Requested	Amend the Proposed District Plan to require any building that does not comply with the District Plan in Raglan to be publicly notified.
Decision Reasons:	<ul style="list-style-type: none"> • Raglan's special character preserved, with no multi-storey buildings. • Diversity reflecting nature of Raglan-relaxed village town centre. • Natural beauty of town be protected. • More permanent affordable accommodation for locals, rather than only tourists.

Submitter Number:	271	Submitter:	Dave and Fransiska Falconer
Point Number	271.1		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones		
Summary of Decision Requested	Add new zoning policy for a specific Kimihia Lakes Recreation and Events park zone, for the Lake Kimihia project and for the restoration of the former Solid Energy Huntly East Mine.		
Decision Reasons:	<ul style="list-style-type: none"> • Other Councils have done it for Queenstown Events Centre, Lake Wanaka Centre, Rotorua Aquatic Centre, Taupo Events Centre, Taupo Equestrian Centre, etc. • The development of the Lake Kimihia Recreation and Events park would offer significant employment and development opportunities • It would be a popular events venue that is both accessible by the Auckland and Hamilton urban economies, generating income to Huntly —boosting employment opportunities that was forfeited by the closure of the mine • The submitters welcome recreational area to their growing population and significant tourism industry. • The 'Golden Triangle' of Auckland, Hamilton, and Tauranga contains half of the national population and economy, and the present Labour government has committed to building a rapid rail network connecting these areas that run right past Huntly. • Recreational use of the environment is important to the district however the scale of the proposed Kimihia Lakes Recreation and Events Park would be on a scale that could reach the major city centers that are within Hamilton and Auckland • It's time to be supportive to an outstanding vision to make Huntly a popular destination • The significance of the restoration of Lake Kimihia, and wetlands within the former mine area, to their former state embodies the policy 1.5.7.2 Landscape and natural character. • The restored Lake Kimihia would be a complete reflection of the relationship between people and place and it would be a good example of 'de-evolution' • The new owners have undone much of the exploitation of the lake by allowing it to refill and finally have its mana restored. • This is relevant to 1.9.3 Section 5 RMA, 1.9.5 Section 7 RMA, 1.12.5, 1.12.6, 1.12.7, 2.12.8, and Chapter 2: Tangata Whenua in the Proposed District Plan. 		

Submitter Number:	324	Submitter:	Jason Dawson
Organisation:	Hamilton & Waikato Tourism		
Point Number	324.1		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones		
Summary of Decision Requested	<p>Add a new section, 9.5 Kimihia Lakes Recreation and Events Zone, to Chapter 9 Specific Zones, to enable the development of a regionally-significant events and recreation facility at the former Huntly East Mine.</p> <p>AND</p> <p>Add a policy entitled "Tourism Significance" as follows:</p> <p><u>Policy: Tourism Significance</u></p> <p><i>(g) To promote the on-going development of the Kimihia Lakes Recreation and Events Park as a venue for regional, national and international events and outdoor pursuits, whilst providing for the general public to use and enjoy the facilities.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Approach in the PDP is to provide the activity with its own zone due to its unique nature. • Seeks to include only privately owned land and excludes the existing Lake Kimihia Lake which is DOC owned and operated. • Develop the area into a regionally-significant events and recreation facility. • Establishment of a zone with supporting provisions is envisaged to 'fast forward' the development of the Park without onerous and numerous resource consenting processes. • Location of the proposed Kimihia Lakes Recreation and Events Park provides a catchment of 2.3 million people within a 3-hour drive radius. • Kimihia Lakes Recreation and Events Park development is aligned to the following game-changers identified in the plan: <ul style="list-style-type: none"> - Regional Events Strategy - Home of Kingitanga - Activate the Waikato River and environs. • Submitter supports development of Kimihia Lakes Recreation and Events Park to include 3 precincts of facilities/activities including: <ol style="list-style-type: none"> 1. Lake precinct for all types of water-based and lakeside based sports, recreation activities and events; 2. The commercial nodes immediately adjacent to the lake where a community and education focused Aquatic Centre would be built along with ancillary recreation and retail facilities; and 3. Remaining natural areas where all types of non-motorised recreation activities and events could occur.

Summary of Decision Requested	<p>Amend the Proposed District Plan to include a Special/Specific Zone for Kimihia Lakes in accordance with the relevant relief sought by Submission #584 Louise Feathers Planning.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Submission strongly supports submission #584 and its relief sought around the Kimihia Lakes zone. • The closed Huntly Mine was purchased with a vision for developing such land as a recreation and events park. • Scale of vision is vast enabling a regionally significant tourist attraction, as well as a facility for the Huntly community. 		

Point Number	335.3
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones
Summary of Decision Requested	Add a new section 9.5 Kimihia Lakes Recreation and Events Zone within Chapter 9 Specific Zones containing objectives and policies specifically catering for the Kimihia Lakes Recreation and Events Zone, as set out in section 4.2.2 of submission 584. AND Amend the Proposed District Plan to make consequential amendments as necessary to address the matters raised in the submission.
Decision Reasons:	<ul style="list-style-type: none"> There is currently no zone/provisions within the Proposed District Plan that provide for a land use such as the Propose Kimihia Lakes Recreation and Events Park. Neither do the provisions contained within the existing zones be able to be relied on to establish the park. The District Plan provides for these 'out-of-box' developments through the creation of purpose-written zones (e.g. Hampton Downs Motorsport Park Zone). A comparison can be made between these sites and the Recreation and Events Park. Relying on resource consent creates uncertainty and may result on going costs and time delays and is deemed an uneconomic option. A specific overlay is not appropriate. It is recognized that overlays are in relation to significant tracks of land covering various zones (SNA etc). Waikato District Council no longer desire the use of site specific schedules within the district plan. The adoption of specific zoning is appropriate and will achieve the sought outcome.

Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones		
Summary of Decision Requested	Add a new Ruakura Industrial Zone as follows: Add a new set of objectives and policies to Section 9 Specific Zones as Section 9.5 for Ruakura Industrial Zone and that these be based on the existing objectives and policies for the Ruakura Logistics and Ruakura Industrial Park zones contained within Sections 10.2 and 11.2 of the Operative Hamilton City District Plan. AND Add a set of rules to Chapter 29 Appendices that give effect to the requested objectives and policies for Ruakura Industrial Zone based on existing objectives and policies for the Ruakura Logistics and Ruakura Industrial Park Zones contained within Sections 10.2 and 11.2 of the Operative Hamilton City District Plan. AND Add any consequential amendments and refinements to the Proposed District Plan as appropriate in order to allow a new Ruakura Industrial Zone to apply at Tainui Group Holdings Ltd land in Ruakura. AND Amend the Proposed District Plan to make consequential amendments as necessary to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> TGHL's largest investment is the current development of the Ruakura inland port and its associated logistics, industrial, commercial, education, research, retail and residential areas. The process in terms of re-zoning, consenting and now developing the Ruakura area has been long and complex, and has included the preparation of a comprehensive plan change and structure plan and a subsequent Board of Inquiry. TGHL is now in the process of working with a range of local and internationally based operators to confirm site leases at Ruakura, with some initial enabling works completed on-site. Based on these experiences to date, TGHL have a strong understanding of the current demand for developable land of this nature within the Waikato region and the wider country. Ruakura is identified as a Strategic Industrial Node within the Waikato Regional Policy Statement (the RPS), with an allocation of 405 ha of gross developable industrial land to be provided between 2010 and 2061 as directed by Future Proof. Further constraining the ability to deliver on industrial land demand is the continuation of high population growth occurring within the Waikato region. The National Policy Statement on Urban Development Capacity (the NPSUDC) came into effect in December 2016 and requires that high-growth urban areas; of which Waikato District Council is part of the high-growth Hamilton urban area, produce a future development strategy to demonstrate there will be sufficient, feasible development capacity in the medium (3-10 years) and long term (10-30 years). The Phase 2 review of Future Proof Strategy Update, which is currently being undertaken and is proposed to be released in early 2019, is expected to recalibrate the RPS's existing land allocation assumptions and requirements based on the implications of the NPS-UDC. All these factors contribute to the need for long-term, strategic planning to ensure the future demand for industrial land is provided for: A new Ruakura Industrial Zone, aligned with the existing Ruakura Logistics and Ruakura Industrial Park zones within the HCC ODP, is the most appropriate way to enable for the types of activities that will occur within this area. The Ruakura development, in being heard by a Board of Inquiry, has previously been assessed as being of national significance. Providing for a longer-term expansion of TGHL's operations at Ruakura aligns not only with TGHL's intergenerational investment approach but also will help address future demand for developable land of this nature.

Point Number	757.6		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones		
Summary of Decision Requested	Amend Chapter 9 Specific Zones to include Raglan township and surrounds as a Specific Zone.		
Decision Reasons:	<ul style="list-style-type: none"> Inclusion is requested due to it being Waikato's only substantial and special seaside community. Submitter is concerned Raglan's special character is being eroded. Planning policy and rules are inadequate to manage the future growth of Raglan. Raglan has been identified as a special place for local, national and international visitors largely due to its uniqueness. Town's character is related to its 'wild west coast' environment and character. Diverse buildings, mix of people, relaxed quirky and arty environment prevails and individual expression contributes to amenity and character of Raglan. It is pedestrian and bike friendly place with key characteristics and attributes including water-views, human scale buildings and no multi story/row apartment buildings. 		
Submitter Number:	781	Submitter:	Ministry of Education
Point Number	781.6		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones		
Summary of Decision Requested	<p>Add a new policy to Chapter 9: Specific Zones that provides for education facilities in Specific Zones as follows:</p> <p><i>Policy - Education Facilities and Specific Zones</i></p> <p><i>Allow activities which are compatible with the role, function and predominant character of Specific Zones, while managing the effects of the activities on the environment in the following zones:</i></p> <p><i>(i) Hampton Downs motor sport and recreation</i></p>		

(ii) Te Kowhai Airpark

(iii) Rangitahi Peninsula; and

(iv) Business Zone Tamahere

Decision Reasons:

- There are no policies that currently provide for education facilities in Specific Zones.
- Education facilities such as schools, community education, early childhood education, tertiary education institutions, work skills training centres, outdoor education centres and sports training establishments located in various areas are essential social infrastructure to support district growth. Examples include:
 - driver training (including motor racing)
 - pilot training
 - schools
 - tertiary education work skills training centres

Plan chapter

Section B Objectives and Policies > Chapter 9: Specific Zones

Summary of Decision Requested

Amend the planning maps to rezone the North Head mine site as the Maioro Mining Zone

AND

Add provisions for a 'Maioro Mining Zone' within Chapter 9: Specific Zones as follows (or words to similar effect):

Maioro Mining Zone

Objective

(1) The ironsand resource at Waikato North Head is effectively and efficiently utilised.

Policies

(1) Provide for ironsand mining and associated activities at Waikato North Head.

(2) Avoid, remedy or mitigate any significant adverse effects associated with activities that require resource consent under the Waikato District Plan.

AND

Add a new chapter for Maioro Mining Zone within Section C Rules (see submission for specific details).

AND

Any other further or consequential amendments required.

Decision Reasons:

- New Zealand Steel considers that the Waikato North Head Mine is unique and requires its own specific mining zone.
- This approach recognises the long-standing existing nature of the Waikato North Head mine site.
- Consistent with the Operative Waikato District Plan provisions, which identify the mine site as a 'Maioro mining Zone' and provide for specific permitted activities.
- Important to recognise the contribution the Waikato North Head mine makes to the social and economic wellbeing of the district.
- The Proposed District Plan already contains a number of 'other' special zones
- There is little efficiency gained by addressing the mine site within the Rural Zone because specific objectives, policies and rules for New Zealand Steel's activities will still be required.

Section B Objectives and Policies > Chapter 9: Specific Zones

Summary of Decision Requested

Add to Chapter 9 Specific Zones, new zoning policies, rules and methods to create a specific Kimihia Lakes Recreation and Events park zone, for the Lake Kimihia project and for the restoration of the former Solid Energy Huntly East Mine.

Decision Reasons:

- Other Councils have done it for Queenstown Events Centre, Lake Wanaka Centre, Rotorua Aquatic Centre, Taupo Events Centre, Taupo Equestrian Centre, etc.
- Council has responded to their LTDP submission: "WDC is working with the new landowners to support their vision for the Huntly East mine. ... Council and the landowner are in discussions about work programs to effect this rehabilitation. The Council has also been discussing with the New Zealand Transport Agency, the need for south facing expressway ramps to be installed. Activities such as the Huntly East Mine rehabilitation proposal will strengthen the need for such access" This shows Council support for the Kimihia Lake and area development.
- The significance of the restoration of Lake Kimihia, and wetlands within the former mine area, to their former state embodies the policy 1.5.7.2 Landscape and natural character.
- The restored Lake Kimihia would be a complete reflection of the relationship between people and place and it would be a good example of 'de-evolution'.
- The new owners have undone much of the exploitation of the lake by allowing it to refill and finally have its mana restored.
- The natural inclination of the water body is infilling the lake at a rate much faster than anticipated.
- It will be a stunning asset to future generations.
- Any means to allow the lake to refill even faster should be actively supported, as there are options available.
- The mining activity adversely affected the air quality in both odor and dust and was managed by Waikato Regional Council however under Section 31 (b) of the Resource Management Act Council can still control the actual effects of the protection of land.
- The submitters encourage Council to support the restoration of Lake Kimihia as a high priority.
- Once a coal mine is disestablished the adverse effects of the development need to be a high priority of Council to make sure restoration of a significant environmental asset such as a lake are unhindered by 'red tape'.
- Hampton Downs development took over a decade to work through the paperwork, however it was built on existing farm land which was in the flood zone and considered wet land', the defunct mine land is in need of restoration and its water and environmental value is in need of urgent care this can be understood under 1.11 Monitoring.
- The development of the Lake Kimihia Recreation and Events park would offer significant employment and development opportunities.
- It would be a popular events venue that is both accessible by the Auckland and Hamilton urban economies, generating income to Huntly —boosting employment opportunities that was forfeited by the closure of the mine.
- The submitters welcome recreational area to our growing population and significant tourism industry.
- The 'Golden Triangle' of Auckland, Hamilton, and Tauranga contains half of the national population and economy, and the present Labour government has committed to building a rapid rail network connecting these areas that run right past Huntly.
- Recreational use of the environment is important to the district however the scale of the proposed Kimihia Lakes Recreation and Events Park would be on a scale that could reach the major city centers that are within Hamilton and Auckland.
- The huge success of the Placemakers Huntly Speedway attests to the popularity of events drawing the crowds to the area and with the Expressway and envisioned access from/to Huntly this would only make the proposal more popular.
- It's time to be supportive to an outstanding vision to make Huntly a popular destination.
- The park will become a significant contribution to the Waikato District's economy.
- The proposed plan would enhance the Waikato economy and tourism industry.
- It is a picturesque lake and will have many tourism options, which are popular such as walks and sport opportunities, etc.
- Restoring a coalmine is of international interest and supports fully New Zealand's known 'Clean Green' image.
- Solid Energy and Waikato Regional Council assured us the lake would be restored.
- This is relevant to 1.9.3 Section 5 RMA, 1.9.5 Section 7 RMA, 1.12.5, 1.12.6, 1.12.7, 2.12.8, and Chapter 2: Tangata Whenua in the Proposed District Plan.

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park

Organisation:	New Zealand Transport Agency		

Point Number	742.61
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.1 Hampton Downs motor sport and recreation
Summary of Decision Requested	<p>Amend Policy 9.1.1.3 Management of adverse effects as follows:</p> <p>(a) Mitigating Ensure the adverse effects from the operation and development of the Hampton Downs Motorsport Park are avoided or mitigated, by managing:</p> <p>(i) The scale, intensity, timing and duration of activities so that to avoid:</p> <p>A Adverse noise effects on the surrounding Rural Zone are minimized; B Adverse effects on the safety and efficiency of the transport network; and (ii) The adverse traffic safety effects to ensure the safe and efficient operation and functioning of the adjacent transport network and efficient access to surrounding facilities is maintained at all times; and (iii) Signs that are visible from, or located in close proximity to, a public road to ensure adverse effects on safety are avoided; and (iv) (iii) The size, scale and intensity of development to ensure the amenity of the surrounding area is maintained.</p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the recognition in Policy 9.1.1.3 that there is potential for adverse effects from the operation of Hampton Downs Motorsport Park but considers that the word "mitigating" needs to be widened to allow effects to be avoided or mitigated.

Submitter Number:	783	Submitter:	Reid Investment Trust
Point Number	783.6		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.1 Hampton Downs motor sport and recreation		
Summary of Decision Requested	<p>Amend Policy 9.1.1.1 (ii) Operation and development, as follows:</p> <p>(a) Enable the continued operation and development of activities, facilities and events within the Motor Sport and Recreation Zone by providing for:</p> <p>...</p> <p>(ii) The development of <u>activities and facilities</u> to support the motor sport and recreation activities and events.</p> <p>AND</p> <p>Any consequential amendments or further relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The addition broadens the meaning of the policy to include land use activities as well as facilities. 		
Point Number	783.7		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.1 Hampton Downs motor sport and recreation		
Summary of Decision Requested	<p>Amend Policy 9.1.1.2 (v) Precinct-based development as follows:</p> <p>(a) A precinct-based approach enables the ongoing operation and development of the Hampton Downs Motorsport Park by:</p> <p>...</p> <p>(v) Precinct E providing for industrial activities <u>and other land uses that support the continued development and operation of the Hampton Downs Motorsport Park within the industrial units.</u></p> <p>AND</p> <p>Any consequential amendments or further relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The struck out words are superfluous and imply that industrial activities can only be undertaken in existing buildings rather than enabling new industrial buildings and activities. The proposed amendments links the policy to the zones primary objective of enabling continued development and operation. Enables a wider range of activities in support of zone's objective. 		

Plan chapter: Section B Objectives and Policies > Chapter 9: Specific Zones > 9.1 Hampton Downs motor sport and recreation > 9.1.1 Objective – Continued development and operation of the Hampton Downs Motorsport Park

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.56		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.1 Hampton Downs motor sport and recreation > 9.1.1 Objective – Continued development and operation of the Hampton Downs Motorsport Park		
Summary of Decision Requested	<p>Amend Objective 9.1.1 Continued development and operation of the Hampton Downs Motorsport Park by deleting it and replacing it with the following wording:</p> <p><u>9.1.1 Objective – Continued development and operation of the Hampton Downs Motor Sport and Recreation Zone.</u></p> <p><u>To use and develop the Hampton Downs Motor Sport and Recreation Zone as a regionally significant Motor Sport and Recreation facility that meets the current and future needs of the community.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> The identification of a zone specific objective and policies for the Hampton Downs Motor Sport and Recreation Zone is supported. The existing objective is not aspirational. The existing activities and facilities at Hampton Downs Motorsport Park are already regionally significant. The proposed objective does not appropriately recognise or provide for the continued operation and development of the Motorsport Park. Minor amendments are proposed to the wording of the proposed objective and policies, to align with the wording that was previously submitted to Council (and agreed to) as part of the Draft District Plan feedback and to be consistent with the wording of the other specific zone objectives and policies proposed in Chapter 9. The adoption of a consistent policy framework throughout the District Plan is supported. 		

Plan chapter: Section B Objectives and Policies > Chapter 9: Specific Zones > 9.1 Hampton Downs motor sport and recreation > 9.1.1 Objective – Continued development and operation of the Hampton Downs Motorsport Park > 9.1.1.3 Policy – Management of adverse effect

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.4		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.1 Hampton Downs motor sport and recreation > 9.1.1 Objective – Continued development and operation of the Hampton Downs Motorsport Park > 9.1.1.3 Policy – Management of adverse effect		
Summary of Decision Requested	Retain Policy 9.1.1.3 Management of adverse effects.		
Decision Reasons:	<ul style="list-style-type: none"> Policy requires the management of adverse traffic safety effects to ensure the safe and efficient operation and functioning of the adjacent transport network and efficient access to surrounding facilities is maintained at all times. This is important to maintain access to properties for emergency vehicles. 		

Plan chapter: Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.226		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark		
Summary of Decision Requested	Seek further assessment of Te Kowhai Airpark to enable adequate consideration of the area, including, but not limited to covering alignment with WRPS/Future Proof settlement pattern, assessment of precedent of alternative land release, availability of infrastructure, and impacts of the proposal on the Te Kowhai settlement as a whole.		
Decision Reasons:	<ul style="list-style-type: none"> The proposal represents a departure from the Future Proof settlement pattern that has been given legal weight through its insertion into the WRPS, and if approved, will create a precedent in terms of a departure from that pattern. Alternatives to the agreed settlement pattern can only be allowed if they are justified by a robust, comprehensive evidence base, including following the criteria for alternative land release identified in the WRPS. Further information is sought on the following: <ul style="list-style-type: none"> Alignment with other land use and development at Te Kowhai, including Plan Change 17, and the strategic direction for the town and the Future Proof sub-region The timing, staging and sequencing of development. Rule 27.4.2 Subdivision Allotment Size provides for lot sizes between 450m2 and 2500m2, dependent on connection to wastewater. If on-site wastewater disposal only is provided for this becomes essentially a rural residential development, which is not appropriate at this location Assessment regarding the likelihood of the provision of wastewater mains infrastructure, impacts of providing for non-residential activities on Te Kowhai businesses Detail on how to improve connections between the Airpark and Te Kowhai, and better integrate the Airpark into Te Kowhai as a whole. 		

Submitter Number:	206	Submitter:	David Horton
Point Number	206.1		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark		
Summary of Decision Requested	Retain Chapter 9.2 Te Kowhai Airpark Zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers that the objectives and policies for Te Kowhai Airpark as notified should be retained as it will ensure that the aerodrome will be self sufficient and will remain the GA satellite for Hamilton airport just as Ardmore is for Auckland airport. Airparks are highly successful in America and this will be an exciting first for New Zealand. 		

Submitter Number:	208	Submitter:	Bruce Belfield
Point Number	208.1		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark		
Summary of Decision Requested	Retain Chapter 9.2 Te Kowhai Airpark as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The Policy Framework recognises the significance of the existing aerodrome to the Aviation community. The objectives and policies will safeguard the future needs of the aviation community. The policy framework allows for a mix of residential and commercial opportunities, making use of existing infrastructure and which cannot easily be replicated elsewhere. Development of the airpark represents a practical use of a limited and scarce resource. 		

Submitter Number:	211	Submitter:	Tony Knowing
Point Number	211.1		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark		
Summary of Decision Requested	Retain Chapter 9.2: Te Kowhai Airpark, as notified.		

Decision Reasons:

- Submitter concurs with the application being sought.

Submitter Number: 219 **Submitter:** Bruce Cooke

Point Number 219.1

Plan chapter Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark

Summary of Decision Requested **Retain** Chapter 9.2 Te Kowhai Airpark, as notified.

Decision Reasons:

- The proposal will meet a demand from sport flyers for residential properties that suit the aviation lifestyle and provide additional specialist housing.
- It will create a community and become a key regional asset.
- The airfield is a critical facility for the sport flying movement in the Waikato and greater NZ.
- In order to be viable and secure on an ongoing basis, the proposed development must proceed.

Point Number 220.1

Plan chapter Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark

Summary of Decision Requested **Retain** Chapter 9.2 Te Kowhai Airpark, as notified.

Decision Reasons:

- The development of Te Kowhai Airfield & Park is one of the better developments of the area.
- Considering the trials authorities have unreasonably thrust upon them, the result is rewarding to all of us who have benefited from the property.
- The aerodrome is very important to both aviation people.
- The submitter recommends Council recognise this and therefore be encouraging as well as supportive for its growth and permanent existence.

Decision Reasons:

Submitter Number: 221 **Submitter:** Sally Readman

Organisation: Sport Aviation Corp Ltd

Point Number 221.1

Plan chapter Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark

Summary of Decision Requested **Retain** Chapter 9.2 Te Kowhai Airpark, as notified.

Decision Reasons:

- NZTE aerodrome is an essential resource that should be protected.
- The O.L.S changes are necessary for future sustainability aviation operations.

Decision Reasons:

Submitter Number: 222 **Submitter:** Barry Readman

Organisation: Sport Aviation Corp Ltd

Point Number 222.1

Plan chapter Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark

Summary of Decision Requested **Retain** Chapter 9.2 Te Kowhai Airpark, as notified.

Decision Reasons:

- The "Obstacle Limitation Surface" (height above runway in metres) must be upgraded to allow for future aviation operations.
- The development of the AirPark is also essential to allow aviation minded people to live close by.
- The NZTE Aerodrome has been in operation for over forty years and must be protected for the long term. .

Decision Reasons:

Submitter Number: 224 **Submitter:** Peter Armstrong

Point Number 224.1

Plan chapter Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark

Summary of Decision Requested **Retain** Chapter 9.2 Te Kowhai Airpark, as notified.

Decision Reasons:

- Enhances the community value to all of the local community if adopted as requested.

Decision Reasons:

Submitter Number: 225 **Submitter:** Steve Gunn

Point Number 225.1

Plan chapter Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark

Summary of Decision Requested **Retain** Chapter 9.2 Te Kowhai Airpark, as notified.

Decision Reasons:

- Due to the ongoing developments within the aviation industry, Te Kowhai airfield needs to continually develop to keep pace with evolving requirements.
- Future plans to develop the airfield and enhance capabilities are driven by safety and demand from current users.
- Enhancements such as VFR and IFR Arrival and Departure procedures are needed to ensure safety and order is maintained in all weather conditions.
- The submitter has operated out of many airparks around the world and Te Kowhai has the potential to be recognised as a world class privately owned airpark. The submitter currently owns and operates their aircraft from Te Kowhai.

Decision Reasons: C

Submitter Number: 226 **Submitter:** Mike Griffiths

Point Number 226.1

Plan chapter Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark

Summary of Decision Requested **Retain** Chapter 9.2 Te Kowhai Airpark Zone, as notified.

Decision Reasons:

- The submitter owns a hangar and aircraft at Te Kowhai Aerodrome.
- It is an excellent, well run and operated facility
- The submitter would be interested in living at the airpark.
- It is an excellent meeting place for like minded people and is proving an asset to the local community e.g. market days, vintage car groups and so on.

Submitter Number: 227 **Submitter:** Geoffrey Gatenby

Point Number 227.1

Plan chapter Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark

Summary of Decision Requested **Retain** Chapter 9.2 Te Kowhai Airpark Zone, as notified.

Decision Reasons:

- The airpark is essential for residential housing for the growth of the area.
- Changes to the Obstacle Limitation Surface are essential to allow for future aviation operations and development.

Submitter Number: 229 **Submitter:** Stuart Parker

Point Number 229.1

Plan chapter Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark

Summary of Decision Requested **Retain** Chapter 9.2 Te Kowhai Airpark Zone, as notified.

Decision Reasons:

- The submitter is a regular user of the airfield facilities.
- It provides a easily accessible 'hub' for pilots in the Hamilton area.
- The submitter would not want to see it whittled away by urban development encroaching around it.
- It is a jewel in the aviation world - very few places like it to fly into.

Submitter Number: 237 **Submitter:** Stuart Parker

Organisation: Recreational Aircraft Association (RAANZ)

Point Number 237.1

Plan chapter Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark

Summary of Decision Requested **Retain** Chapter 9.2 Te Kowhai Airpark Zone, as notified.

Decision Reasons:

- The Recreational Aircraft Association NZ represents 750 microlight pilots from around NZ.
- Te Kowhai airfield is a key hub for pilots transiting through the Waikato, and has a long history in microlight aviation.
- The Submitter wishes to preserve it as an aviation centre and avoid any restrictions due to urban encroachment.

Submitter Number: 277 **Submitter:** Anthony Gurr

Point Number	277.1
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark
Summary of Decision Requested	Retain Chapter 9.2 Te Kowhai Airpark, as notified.
Decision Reasons:	<ul style="list-style-type: none"> Aviation serves the wider community as a whole, and with the option of living as part of an aviation community, it will help go a long way to bringing more people and move diversity to a community.
Decision Reasons:	

Submitter Number:	285	Submitter:	Anatoly Chernyshev
Point Number	285.1		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark		
Summary of Decision Requested	Retain Section 9.2 - Te Kowhai Airpark as notified.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	369	Submitter:	Linnet Watson
On behalf of:	S W Ranby		
Point Number	369.1		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark		
Summary of Decision Requested	No specific decision sought, but submission opposes Chapter 9.2 Te Kowhai Airpark.		
Decision Reasons:	<ul style="list-style-type: none"> The range of activities proposed within Precincts A and B of Te Kowhai Airpark will facilitate an increase in aircraft movements (projected to be in the vicinity of 57 aircraft movements per day, or 21,000 per annum). Aircraft arrivals and departures are not subject to District Plan Rules, and are therefore noted as being outside the scope of the Acoustic Assessment, which focuses on the noise from taxiing aircraft and other on-site activities. If increased aircraft movements are facilitated or supported by the Objectives and Policies of the Plan then there will be an increase in the frequency that neighbouring properties experience the noise of arrivals and departures. This has not been adequately considered in terms of the adverse effect on neighbouring properties, and is an effect that is impossible for the Airpark to internalise. The Summary Assessment of Environmental Effects for the Section 32 Report for Te Kowhai Airpark Zone compares future aircraft movements with earlier data of aircraft movements experienced in the early 2000's, however the Section 32 Report also acknowledges that the Operative District Plan (ODP) contains no objectives, rules, or other methods that are specifically applicable to airparks and that aircraft movements are currently unrestricted by the ODP (being controlled only by the existing air noise boundary). The inability of the Operative District Plan to manage air traffic using the Te Kowhai runway is being used as justification of the current proposal, when the noise effects of air traffic and the impact on amenity values in this area have not been fully considered. Proposed Policy 9.2.1.6 refers to airspace protection via an increased Obstacle Limitation Surface (OLS). This would introduce a new height restriction on the Ranby property that is lower than the current permitted height in the Rural zone, including restrictions on vegetation / tree height that will result in obligations that do not currently exist, and resultant financial obligations on property owners within the OLS. In terms of buildings, the OLS intrudes 78.5m into the Ranby property before the District Plan height limit of 10m matches the restrictions of the OLS. The objectives and policies seem strongly aimed at supporting the social, economic and cultural wellbeing of the aviation sector without considering the short and long term effects outside the Airpark. 		

Submitter Number:	429	Submitter:	Olivia Henwood
Point Number	429.1		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark		
Summary of Decision Requested	Retain Chapter 9 Te Kowhai Airpark as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Te Kowhai is an asset to the aviation community. As the surrounding area is facing big development, it is vital to secure the aerodrome for the future. The proposal will allow the aerodrome to evolve and adapt to technological changes. 		

Submitter Number:	473	Submitter:	James Walker
Point Number	473.1		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark		
Summary of Decision Requested	Retain Chapter 9.2 Te Kowhai Airpark, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Supports the proposed changes in the Waikato District Plan. Te Kowhai Aerodrome is a very unique facility supporting aviation enthusiasts and local community activities. The future of the airstrip is reliant on the proposed changes to advance in the future. 		

Submitter Number:	475	Submitter:	David Reid
Point Number	475.1		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark		
Summary of Decision Requested	Retain Chapter 9.2 Te Kowhai Airpark, as notified.		

Decision Reasons:

- Te Kowhai Airfield is an amazing resource that should be future proofed as well as grown.
- It is unique in the Waikato and nationally.
- It will make aviation more accessible, attainable and affordable as Hamilton Airport becomes more expensive and less user friendly.

Submitter Number: 476 **Submitter:** Kenneth Mitchell
Organisation: Ventura Inn and Suites

Point Number 476.1
Plan chapter Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark
Summary of Decision Requested **Retain** Chapter 9.2 Te Kowhai Airpark, as notified.

- Decision Reasons:**
- The policy framework recognises the significance of the current airfield asset.
 - The airfield can be developed in a unique and sustainable way for the benefit of the local community, businesses and aviators.
 - The Proposed Obstacle Limitation Surface will help to future proof VFR/IFR operations, safety and the functionality of airpark residences.
 - Aligns zoning with the substantial investment that has yet to realise its full potential.

Submitter Number: 477 **Submitter:** Ben Meyer

Point Number 477.1
Plan chapter Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark
Summary of Decision Requested **Retain** Chapter 9.2 Te Kowhai Airpark, as notified.

- Decision Reasons:**
- This submitter is a pilot who regularly uses Te Kowhai Airfield.

Submitter Number: 478 **Submitter:** Mike Tubbs

Point Number 478.1
Plan chapter Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark

Submitter Number:	809	Submitter:	Gordon H L Swan
Point Number	809.1		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark		
Summary of Decision Requested	Retain Chapter 9.2 Te Kowhai Airpark, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> For many years the submitter held the position of President of the Auckland Regional Microlight Club Inc. and during those years a sustainable aviation airfield dedicated to the lighter aircraft gave hours of safe flying, good instruction and was where many of today's pilots learnt to fly. This airfield gives another airfield close to Auckland City and hospitals in emergencies. The submitter sees this same situation in the Te Kowhai Airfield. The aerodrome is an asset that can afford much pleasure to all the public area but in times of emergency, it can give the council and authorities a much-needed second option. The Te Kowhai airfield would have a sustainable future. The Te Kowhai airfield is an asset that must not end up disappearing like a lot of other small airfields around the country. 		

Submitter Number:	810	Submitter:	Phil North
Point Number	810.1		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark		
Summary of Decision Requested	Retain Chapter 9.2 Te Kowhai Airpark, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	811	Submitter:	Martyn Seay
Point Number	811.1		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark		
Summary of Decision Requested	Retain Chapter 9.2 Te Kowhai Airpark, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Will protect the future of the airfield, which is a scarce resource becoming increasingly rare. • Small airfields suitable for microlight aircraft are closing up all over New Zealand and few are left. • Microlight aviation is far more affordable and accessible than other aviation activity and is prevented from using most other airfields due to changes in aviation law. 		

Submitter Number:	823	Submitter:	NZTE Operations Limited
Point Number	823.1		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark		
Summary of Decision Requested	Add new Objective 9.2.3 as follows: <u>Objective 9.2.3</u> <i>The operational needs of Te Kowhai Airpark are not compromised by sensitive land use activities with the potential for reverse sensitivity conflict.</i> AND Add a new Policy 9.2.3.1 as follows: <u>Policy 9.2.3.1</u> <i>Manage reverse sensitivity risk by:</i> <i>(i) ensuring that noise sensitive activities within the Te Kowhai Airpark Noise Control Boundaries are acoustically insulated to appropriate standards; and</i> <i>(ii) ensuring that Te Kowhai aerodrome operates within the noise limits specified by the Te Kowhai Airpark Noise Control Boundaries.</i> AND Amend the Proposed District Plan for any consequential relief required to give effect to this submission.		
Decision Reasons:	<ul style="list-style-type: none"> • While Policy 9.2.1.6 partially addresses reverse sensitivity, a more specific objective and corresponding policy is required which recognises the importance of that issue in the context of existing infrastructure. • The additional objective and policy proposed in Appendix A will ensure that the operational needs of the Airfield are not compromised by sensitive land use activities with the potential for reverse sensitivity conflict. 		
Point Number	823.23		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark		
Summary of Decision Requested	Retain the objectives and policies in Section 9.2: Te Kowhai Airpark as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The objectives and policies for Te Kowhai Airpark Zone give direction to the rules and other methods that are necessary to manage development of the Airfield and the airpark. 		

Submitter Number:	868	Submitter:	Huib Volker
Point Number	868.1		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark		
Summary of Decision Requested	Retain Chapter 9.2 - Te Kowhai Airpark, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter is a user of the Airfield as an aircraft operator and would like to ensure it survives. • Submitter is considering buying into an airpark development planned for this location. 		

Submitter Number:	878	Submitter:	David Wilson
Point Number	878.1		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark		
Summary of Decision Requested	Retain Chapter 9.2 Te Kowhai Airpark, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Te Kowhai aerodrome is an important hub for the aviation community of New Zealand. • It's continued existence contributes to aviation safety in the Waikato region with fuel availability and a good alternate option to Hamilton. • To enable an airpark would safeguard this unique facility and further enhance the considerable infrastructure that already exists at the aerodrome. • This should be viewed as a huge opportunity for the Waikato region to take advantage of a unique and limited site where this type of development could be possible. 		

Plan chapter: Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark > 9.2.1 Objective –Te Kowhai Airpark > 9.2.1.1 Policy - Development

Submitter Number:	742	Submitter:	Kim Harris-Cottle
--------------------------	-----	-------------------	-------------------

Organisation: New Zealand Transport Agency

Point Number 742.62

Plan chapter Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark > 9.2.1 Objective –Te Kowhai Airpark > 9.2.1.1 Policy - Development

Summary of Decision Requested **Retain** Policy 9.2.1.1.1 Development, except for the amendments sought below

AND

Amend Policy 9.2.1.1(b) Development as follows:

Develop Te Kowhai Airpark in accordance with the Te Kowhai Airpark Framework Plan in Appendix 9.

AND

Clarify whether it is the Framework Plan or the entirety of Appendix 9 which should be referred to in Policy 9.2.1.1(b).

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

- Decision Reasons:**
- The submitter supports the development of Te Kowhai Airpark.
 - Policy 9.2.1.1 refers to the Te Kowhai Airpark Framework Plan - later provisions cross-reference Appendix 9. It would be useful to make the same cross-reference in this part of the Plan.
 - The submitter further questions whether it is just the Framework Plan or the entirety of Appendix 9 which should be referred to.

Plan chapter: Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark > 9.2.1 Objective –Te Kowhai Airpark > 9.2.1.2 Policy - Servicing

Submitter Number: 378 **Submitter:** Fire and Emergency New Zealand

Point Number 378.5

Plan chapter Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark > 9.2.1 Objective –Te Kowhai Airpark > 9.2.1.2 Policy - Servicing

Summary of Decision Requested **Retain** Policy 9.2.1.2 Servicing, as it requires development to be adequately serviced for essential services, except for the amendments sought below

AND

Amend Policy 9.2.1.2 (a) Servicing, as follows:

(a) Development is to be adequately serviced with respect to essential service, water supply (including, for fire fighting purposes), wastewater treatment and disposal and stormwater treatment and disposal.

AND

Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- Fire and Emergency New Zealand supports the policy in part as it requires that development is to be adequately serviced with respect to essential services such as water supply, however Fire and Emergency New Zealand seeks that the provision for water supply is adequate for firefighting purposes.

Plan chapter: Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark > 9.2.2 Objective – Amenity outcomes > 9.2.2.1 Policies - Airpark standards

Submitter Number: 602 **Submitter:** Greig Metcalfe

Point Number 602.37

Plan chapter Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark > 9.2.2 Objective – Amenity outcomes > 9.2.2.1 Policies - Airpark standards

Summary of Decision Requested **Add** clauses to Policies 9.2.2.1 - Airpark standards as follows:

(a) Manage adverse airpark effects through the application of general and airpark-specific performance standards including:

(i) Noise

(ii) Hazardous substances;

(iii) Building setbacks;

(iv) Minimum site areas; ~~and~~

(v) Subdivision allotment size;

(vi) Management Plan based on Fly Neighbourly principles;

(vii) Hours of operation; and

(viii) Maximum aircraft movements.

AND

Any consequential amendments and/or additional relief required to address the matters raised in the submission.

Decision Reasons:

- Adherence to 'Fly Neighbourly' principles will ensure that the operation of aircraft recognises the issues with flying in and around noise-sensitive areas.
- A proactive approach should be taken by managing the type of, and repetitive nature of, aircraft noise. Further reading can be found in the NZ Aviation Industry Association Environmental Code of Practice and the Helicopter Association International (HAI) 'Fly Neighbourly Guide'.

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number	697.568
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.2 Te Kowhai Airpark > 9.2.2 Objective – Amenity outcomes > 9.2.2.1 Policies - Airpark standards
Summary of Decision Requested	Amend Policy 9.2.2.1(b) Airpark standards as follows: (b) To <i>Ensure that bulk and location...</i>
Decision Reasons:	<ul style="list-style-type: none"> This would provide clarity around the wording of this policy.

Plan chapter: Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula

Submitter Number:	454	Submitter:	Troy Fell
Point Number	454.2		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula		
Summary of Decision Requested	Retain Chapter 9.3 Rangitahi Peninsula.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		
Point Number	831.55		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula		
Summary of Decision Requested	Amend Policy 9.3.3.2 Coastal margins, to extend to all areas with water pollution caused by livestock.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter identifies the problem of pollution from agricultural run-off. All the rivers entering Whaingaroa Harbour have unsatisfactory pollution levels, such as the Waitetuna River. 		

Plan chapter: Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.1 Objective – Development > 9.3.1.1 Policy – Development

Submitter Number:	343	Submitter:	Michael Briggs
On behalf of:	Rangitahi Limited	Organisation:	Harrison Grierson Cosultants Limited
Point Number	343.3		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.1 Objective – Development > 9.3.1.1 Policy – Development		
Summary of Decision Requested	Retain Policy 9.3.1.1 Development, except for the amendments sought below AND Amend Policy 9.3.1.1 Development to include "physical characteristics." AND Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.		
Decision Reasons:	<ul style="list-style-type: none"> Policy 9.3.1.1(b) clearly identifies that some variations to the Rangitahi Structure Plan designs are anticipated by the District Plan to respond to development constraints identified through further investigations. There are some potential constraints that may relate to poor ground or soil conditions, and therefore "physical" characteristics needs to be added to the policy. 		

Plan chapter: Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.2 Objective – Non-residential activities

Submitter Number:	343	Submitter:	Michael Briggs
On behalf of:	Rangitahi Limited	Organisation:	Harrison Grierson Cosultants Limited
Point Number	343.4		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.2 Objective – Non-residential activities		
Summary of Decision Requested	Amend Objective 9.3.2 Non-Residential Activities, to refer to significant adverse traffic effects. AND Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.		
Decision Reasons:	<ul style="list-style-type: none"> Objective 15B.3.10 of the Operative Plan requires non-residential activities to contribute to village character without causing significant adverse traffic effects. 		

- Objective 9.3.2 does not include reference to significant adverse traffic effects.

Plan chapter: Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.2 Objective – Non-residential activities > 9.3.2.1 Policies – Commercial activities

Submitter Number:	343	Submitter:	Michael Briggs
On behalf of:	Rangitahi Limited	Organisation:	Harrison Grierson Cosultants Limited
Point Number	343.20		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.2 Objective – Non-residential activities > 9.3.2.1 Policies – Commercial activities		
Summary of Decision Requested	<p>Amend Policy 9.3.2.1 Commercial activities, to provide greater flexibility with regards to the location of activities at ground level, including residential.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Good urban design outcomes can be achieved for mixed-use development with some residential activities at ground floor level. • The submitter seeks greater flexibility within the policy. 		
Point Number	343.5		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.2 Objective – Non-residential activities > 9.3.2.1 Policies – Commercial activities		
Summary of Decision Requested	<p>Amend Policy 9.3.2.1 (b)(i) Commercial Activities, to split the two separate matters relating to active ground-floor business activities and frontages and residential activities above ground floor.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter agrees with the intent of the policy insofar as providing for active ground-floor business activities is generally a good urban design approach for mixed-use developments. • The total area of commercial activity permitted at Rangitahi under the Proposed Plan is limited and in some circumstances it may not possible for the entire ground floor level of mixed-use developments at Rangitahi to accommodate business activities because of these limitations. • Good urban design outcomes can be achieved for mixed-use developments with some residential activities at ground floor level. • The submitter seeks greater flexibility within the policy. 		

Plan chapter: Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.2 Objective – Non-residential activities > 9.3.2.2 Policy - Community facilities

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.6		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.2 Objective – Non-residential activities > 9.3.2.2 Policy - Community facilities		
Summary of Decision Requested	<p>Retain Policy 9.3.2.2 Community facilities, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 9.3.2.2 (a)(ii) Community facilities, as follows:</p> <p><i>(ii) Provide a service or function <u>that provides for the health, safety and well-being to the local neighborhood</u>;</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Fire and Emergency New Zealand supports the policy in part, however seek the amendments to better emphasise the purpose of providing a service or function. 		

Plan chapter: Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.3 Objective - Natural features > 9.3.3.3 Policy – Stormwater management

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.228		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.3 Objective - Natural features > 9.3.3.3 Policy – Stormwater management		
Summary of Decision Requested	<p>Add to Policy 9.3.3.3 Stormwater management as follows:</p> <p><i>(a) Stormwater management systems shall be designed to minimise the erosion potential and rate of run-off into the coastal marine area.</i></p> <p><i>(b) Stormwater management systems designed in accordance with low impact design philosophies.</i></p> <p><i>(c) Provide a high level of water quality treatment.</i></p> <p><i>(d) Minimise change to the existing hydrological cycle.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • To give effect to WRPS Policy 8.3.10 provision should be made for the management of effects of subdivision, use and development in relation to this zone. 		

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		
Point Number	831.83		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.3 Objective - Natural features > 9.3.3.3 Policy – Stormwater management		
Summary of Decision Requested	Amend Policy 9.3.3.3 Stormwater management, to extend to all areas with water pollution caused by livestock.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter identifies the problem of pollution from agricultural run-off. All the rivers entering Whaingaroa Harbour have unsatisfactory pollution levels, such as the Waitetuna River. 		

Plan chapter: Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.3 Objective - Natural features > 9.3.3.4 Policy - Stock exclusion

On behalf of:	Raglan Naturally		
Point Number	831.84		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.3 Objective - Natural features > 9.3.3.4 Policy - Stock exclusion		
Summary of Decision Requested	Amend Policy 9.3.3.4 Stock exclusion, to extent to all areas with water pollution caused by livestock.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter identifies the problem of pollution from agricultural run-off. All the rivers entering Whaingaroa Harbour have unsatisfactory pollution levels, such as the Waitetuna River. 		

Plan chapter: Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.3 Objective - Natural features > 9.3.3.5 Policy – Environmental improvement

Submitter Number:	343	Submitter:	Michael Briggs
On behalf of:	Rangitahi Limited	Organisation:	Harrison Grierson Cosultants Limited
Point Number	343.6		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.3 Objective - Natural features > 9.3.3.5 Policy – Environmental improvement		
Summary of Decision Requested	Delete Policy 9.3.3.5(b) Environmental Improvement. AND Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.		
Decision Reasons:	<ul style="list-style-type: none"> This policy goes further than Objective 9.3.3 in seeking net environmental gain for gullies and streams. It is not consistent with the objective, the Rangitahi Structure Plan is an established Urban Zone, and the maintenance and enhancement of gully systems and stream margins is already sought by subclause (a). 		

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		
Point Number	831.85		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.3 Objective - Natural features > 9.3.3.5 Policy – Environmental improvement		
Summary of Decision Requested	Amend Policy 9.3.3.5 Environmental improvement, to extend to all areas with water pollution caused by livestock.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter identifies the problem of pollution from agricultural run-off. All the rivers entering Whaingaroa Harbour have unsatisfactory pollution levels, such as the Waitetuna River. 		

Plan chapter: Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.3 Objective - Natural features > 9.3.3.6 Policy – Landscape values

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		
Point Number	831.86		

Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.3 Objective - Natural features > 9.3.3.6 Policy – Landscape values
Summary of Decision Requested	Amend Policy 9.3.3.6 Landscape values, to extend to all areas with water pollution caused by livestock.
Decision Reasons:	<ul style="list-style-type: none"> The submitter identifies the problem of pollution from agricultural run-off. All the rivers entering the Whaingaroa Harbour have unsatisfactory pollution levels, such as the Waitetuna River.

Plan chapter: Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.3 Objective - Natural features > 9.3.3.7 Policy – Ecological and habitat values

Submitter Number:	343	Submitter:	Michael Briggs
On behalf of:	Rangitahi Limited	Organisation:	Harrison Grierson Cosultants Limited
Point Number	343.7		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.3 Objective - Natural features > 9.3.3.7 Policy – Ecological and habitat values		
Summary of Decision Requested	<p>Amend Policy 9.3.3.7(b) Ecological and Habitat Values, to adopt the same approach as in Policy 15B.2.23 of the Operative Plan, which seeks:</p> <p><i>“The loss of significant indigenous vegetation and significant habitat of indigenous fauna should be avoided. Short term, minor, or localised degradation effects should be mitigated if they cannot be practically avoided.”</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> This policy fails to recognise that there will be some unavoidable minor and localised loss of indigenous vegetation and habitat required to give effect to the established zoning and the Rangitahi Structure Plan. It would not be possible for all activities to achieve consistency with this policy, which requires that the loss of significant indigenous vegetation and significant habitat of indigenous fauna to be avoided. 		

Plan chapter: Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.4 Objective - Heritage

Submitter Number:	559	Submitter:	Sherry Reynolds

Point Number	831.34		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.4 Objective - Heritage > 9.3.4.1 Policies – Cultural and historic sites of significance		
Summary of Decision Requested	Retain and strengthen Policy 9.3.4.1 Cultural and historic sites of significance, to celebrate and protect archaeological sites.		
Decision Reasons:	<ul style="list-style-type: none"> To celebrate and protect archaeological sites, so as to enhance understanding of our history, improve the tourist experience and preserve our inheritance for future generations. 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.284		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.4 Objective - Heritage > 9.3.4.2 Policy – Heritage protection		
Summary of Decision Requested	Retain Policy 9.3.4.2 Heritage protection.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter is supportive of the continued retention of the existing policies related to the development of the Rangitahi Peninsula. 		

Submitter Number:	343	Submitter:	Michael Briggs
On behalf of:	Rangitahi Limited	Organisation:	Harrison Grierson Cosultants Limited
Point Number	343.21		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.5 Objective – Transport network > 9.3.5.4 Policy – Secondary access		
Summary of Decision Requested	Amend Policy 9.3.5.4 Secondary access, to require the permanent secondary access to be constructed prior to the completion of Precincts F or G. AND Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter understands that Council is seeking greater certainty as to the timing of the permanent secondary access. The construction of the access will be a significant cost to the submitter, and should be undertake to mitigate effects on the safe and efficient operation of the primary access and surrounding road network. 		
Point Number	343.8		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.3 Rangitahi Peninsula > 9.3.5 Objective – Transport network > 9.3.5.4 Policy – Secondary access		
Summary of Decision Requested	Amend Policy 9.3.5.4 Secondary access to fix the list level error as follows: <ul style="list-style-type: none"> Policy 9.3.5.4(a)(i) should be Policy 9.3.5.4(b) Policy 9.3.5.4(a)(ii) should be Policy 9.3.5.4(b)(i) Policy 9.3.5.4(a)(iii) should be Policy 9.3.5.4(b)(ii) <p>(a) <i>From the beginning of development of the Rangitahi Peninsula Structure Plan Area up to completion...</i></p> <p>(b) <i>A permanent secondary access must be constructed:</i></p> <p>(i) <i>Prior to development of any of the Precincts E, F or G: and</i></p> <p>(ii) <i>In accordance with access and road performance standards suitable for its secondary function.</i></p> AND Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.		
Decision Reasons:	<ul style="list-style-type: none"> To correct a list level error. 		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.7		
Plan chapter	Section B Objectives and Policies > Chapter 9: Specific Zones > 9.4 Business Zone Tamahere > 9.4.2 Objective – Adverse effects of land use		
Summary of Decision Requested	Retain Objective 9.4.2 Adverse effects of land use, to the extent that recognition is given to health and well-being of communities and they are protected from adverse effects of land use and development. AND Amend Objective 9.4.2(a) Adverse effects of land use, as follows: <p>(a) <i>The health, safety, and well-being of people, communities and the environment are protected from the adverse effects of land use and development within the Business Zone Tamahere.</i></p> AND Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand supports the objective to the extent that recognition is given to the health and well-being of communities and are protected from the adverse effects of land use and development. However, Fire and Emergency New Zealand recommends the wording better reflect section 5 of the RMA, which also refers to the safety of the community. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.119		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land		
Summary of Decision Requested	<p>Delete Chapter 10 - Hazardous substances.</p> <p>AND</p> <p>Replace with an advice note which states that it is no longer a district council function to control any actual or potential effects of the use, development, or protection of land, for the purpose of the prevention or mitigation of any adverse effects of the storage, use, disposal, or transportation of hazardous substances. Hazardous substances are adequately managed by the Hazardous Substances and New Organisms Act 1996 (HSNO) and there is no need for further regulation in the Waikato District Plan.</p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Federated Farmers is strongly opposed to these hazardous substance provisions and recommends they be replaced with a framework that recognises hazardous substances are already adequately managed by the Hazardous Substances and New Organisms Act 1996 ("HSNO") and there is no need for further regulation in the District Plan. HSNO already provides a comprehensive and far reaching regulatory framework for managing hazardous substances. The Health and Safety at Work Act 2015 also provides regulatory controls that users and handlers of hazardous substances must be appropriately trained and certified. The Council is unnecessarily duplicating existing regulation for no additional benefit, there is also a risk that Council regulation will be inconsistent. FFNZ has provided alternative relief sought in response to the notified Objective and policies below. However, this is in the interests of being thorough rather than accepting of the ultra vires approach. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.569		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land		
Summary of Decision Requested	<p>Add a new introduction in Chapter 10: Hazardous Substances and Contaminated Land as follows:</p> <p><i>The provisions of this chapter are designed to prevent or minimise adverse effects of activities at sites that use, store, transport or dispose of hazardous substances. These activities can include industrial operations (for example chemical warehousing, manufacturing plants or bulk storage facilities), workshops, agricultural and horticultural activities, and some occupations that are carried out from home. The sites where such activities take place are defined as hazardous facilities. Land use activities involving hazardous substances have the potential to result in an increased risk of adverse environmental effects and present a risk to those who use them or may be exposed to them, and the surrounding environment. Risks are influenced by the nature of the hazardous substances, the quantity of the substances, the effects the substance may have, the likelihood of an event occurring and which parts of the environment may be affected. An event may be an accidental release, spill, unintended chemical reaction, fire or explosion. Risks are influenced by the location of an activity and the surrounding environment. For example, hazardous facilities located in areas subject to natural hazards may be exposed to greater risks of damage or failure resulting in an event involving a hazardous substance. Facilities located in proximity to land uses that are sensitive to the potential effects of a hazardous substance may also result in a greater risk. These provisions are a land use planning tool under the Resource Management Act and are designed to apply in addition to requirements of other legislation. Such requirements assist in the management of hazardous substances and they are recognised in the design of the provisions in this chapter.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> An introduction to the topic of hazardous substances will assist the reader to understand the intentions and reasons that accompany the rules relating to hazardous substances in the District Plan. 		

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.68		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land		
Summary of Decision Requested	<p>Retain the objectives and policies in Chapter 10 Hazardous Substances and Contaminated Land.</p> <p>AND</p> <p>Add a requirement for a bond to cover liability to be charged as part of the approval during resource consent process to ensure contaminated land is remediated following use.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the objectives and policies in Chapter 10 Hazardous Substances and Contaminated Land. 		

Plan chapter: Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.229		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances		
Summary of Decision Requested	Retain Section 10.1 Hazardous Substances.		
Decision Reasons:	<ul style="list-style-type: none"> The objective and associated policies address issues around sensitive land uses, incompatible activities and the environment being properly separated from hazardous facilities, giving effect to WRPS Policy 14.4. 		

Submitter Number:	466	Submitter:	Brendan Balle
Organisation:	Balle Bros Group Limited		

Point Number	466.49
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances
Summary of Decision Requested	No specific decision sought but submission considers that the provisions set out within the Plan should not duplicate requirements set out in the Hazardous Substances and New Organisms Act and in the Health and Safety at Work Regulations, 2017, and that the submitter 'opposes in part' Section 10.1 Hazardous substances.
Decision Reasons:	<ul style="list-style-type: none"> The Plan should not duplicate the Hazardous Substances and New Organisms Act and the Health and Safety at Work Regulations 2017.

Submitter Number:	581	Submitter:	Penny Gallagher
Organisation:	Synlait Milk Ltd		
Point Number	581.42		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances		
Summary of Decision Requested	Delete Section 10.1 Hazardous Substances and its attendant Objective 10.1.1 and Policies 10.1.1.4; OR Amend Section 10.1 so that the objectives and policies in the Proposed District Plan only concern the management of the Hazardous Substances in highly sensitive environments such as Significant Natural Areas.		
Decision Reasons:	<ul style="list-style-type: none"> Inclusion of objectives and policies for hazardous substances in the Proposed District Plan duplicates legislation and offer not additional protections. This is particularly relevant in the Heavy Industry Zone where hazardous substances are anticipated. 		

Submitter Number:	797	Submitter:	Fonterra Limited
Point Number	797.18		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances		
Summary of Decision Requested	Delete Section 10.1 Hazardous Substances, comprising Objective 10.1.1 and Policies 10.1.2, 10.1.3 and 10.1.4. AND Any consequential amendments or further relief to give effect to the concerns raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Resource Legislation Amendments Act 2017 amended the RMA to remove hazardous substances as an explicit function of Council. The Proposed District Plan does not provide justification for inclusion of provisions. 		

Plan chapter: Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.1 Objective – Effects of hazardous substances

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.8		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.1 Objective – Effects of hazardous substances		
Summary of Decision Requested	Retain Objective 10.1.1 Effects of hazardous substances.		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand supports the objective on the basis that residual risk associated with storage, use or disposal of hazardous substances is managed to ensure that the effects on people, property and the environment are acceptable. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.77		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.1 Objective – Effects of hazardous substances		
Summary of Decision Requested	Retain Objective 10.1.1 Effects of hazardous substances, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The objective is very similar to the objective in the Christchurch decision. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.110		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.1 Objective – Effects of hazardous substances		

Summary of Decision Requested	Retain Objective 10.1.1 Effects of hazardous substances, as notified.
Decision Reasons:	<ul style="list-style-type: none"> Support objective as notified.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.120		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.1 Objective – Effects of hazardous substances		
Summary of Decision Requested	Amend Objective 10.1.1 Effects of hazardous substances, as follows: <i>(a) Residual risk associated with the storage, use, or disposal of hazardous substances is managed to ensure that the effects on people, property and the environment are acceptable, while recognising the benefits of facilities using hazardous substances.</i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> The risk management approach of the Objective is supported. Primary producers rely on a number of hazardous substances for everyday operations and as such it is vital that farming and horticulture can continue to use and store necessary hazardous substances without being captured by unnecessary land use controls. It is considered the proposed Objective is inappropriately focused on the benefit of the 'facilities' rather than the benefits of using hazardous substances. There is also some concern with the proposed definition of Hazardous Facility. A separate submission point will address this issue under Chapter 13. 		

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.39		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.1 Objective – Effects of hazardous substances		
Summary of Decision Requested	Retain Objective 10.1.1 Effects of Hazardous substances.		
Decision Reasons:	<ul style="list-style-type: none"> The provision sets a clear direction for hazardous facilities. 		

Submitter Number:	785	Submitter:	Z Energy Limited, BP Oil NZ Limited and Mobil Oil NZ Limited
Organisation:	'Oil Companies'		
Point Number	785.41		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.1 Objective – Effects of hazardous substances		
Summary of Decision Requested	Retain Objective 10.1.1 Effects of hazardous substances, except for the amendments sought below AND Amend Objective 10.1.1 Effects of hazardous substances to recognise the benefits of the storage and disposal of hazardous substances, as follows: <i>Residual risk associated with the storage, use, or disposal of hazardous substances is managed to ensure that the effects on people, property and the environment are acceptable, while recognizing the benefits of facilities storing, using or disposing of hazardous substances.</i> AND Any consequential amendments or further relief to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Objective 10.1.1 but also seeks to amend it to recognize the benefits of the storage and disposal of hazardous substances. The submitter supports the objective to 'manage' risk to a level that is 'acceptable' in the context of the activity and the surrounding uses, and also support the intent to recognize the benefits of facilities using hazardous substances should be similarly recognized. 		

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.22		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.1 Objective – Effects of hazardous substances		
Summary of Decision Requested	Retain Objective 10.1.1 Effects of hazardous substances as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support these provisions. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.131		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.1 Objective – Effects of hazardous substances		
Summary of Decision Requested	Retain Objective 10.1.1-Effects of hazardous substances as notified.		

Decision Reasons:	<ul style="list-style-type: none"> • Policy is supported. • The robust management of hazardous substances within the district is important for maintaining community health, safety and wellbeing.

Plan chapter: Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.2 Policy – Location of new hazardous facilities

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.9		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.2 Policy – Location of new hazardous facilities		
Summary of Decision Requested	Retain Policy 10.1.2 Location of new hazardous facilities.		
Decision Reasons:	<ul style="list-style-type: none"> • Fire and Emergency New Zealand supports the policy on the basis that residual risk associated with storage, use or disposal of hazardous substances is managed to ensure that the effects on people, property and the environment are acceptable. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.78		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.2 Policy – Location of new hazardous facilities		
Summary of Decision Requested	Amend Policy 10.1.2 Location of new hazardous facilities, as follows: <i>(a) New hazardous facilities to store hazardous substances minimise the risk to the environment (including people and property) to acceptable levels by:</i> ... AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter opposes the approach in Policy 10.1.2 because of the definition of hazardous facility that includes vehicles for the transport of hazardous substances located at a facility for more than short periods of time. • It is uncertain what a short period of time is and would make a whole farm of rural property a hazardous facility as a vehicle may be used to transport agrichemicals or fertiliser for application. • The application of the policy to such use of hazardous substances is inappropriate. • The policy should only apply to new facilities to store hazardous substances, excluding vehicles. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.111		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.2 Policy – Location of new hazardous facilities		
Summary of Decision Requested	Retain Policy 10.1.2 Location of new hazardous facilities, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Support policy as notified. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.121		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.2 Policy – Location of new hazardous facilities		
Summary of Decision Requested	Amend Policy 10.1.2 (a) Location of new hazardous facilities, as follows: <i>(a) New hazardous facilities minimise the risk to the environment (including people and property) to acceptable levels by:</i> <i>(i) Siting new hazardous facilities in appropriate locations that are separated from incompatible activities such as sensitive land use and infrastructure, and environment;</i> <i>(ii) Avoid locating near to sensitive land use activities and infrastructure</i> <i>(iii) Designing, constructing and operating hazardous facilities in a manner that ensures the adverse effects of the operation or an accidental event involving hazardous substances can be avoided, remedied or mitigated or contained within the site; and</i> <i>(iv) Disposing hazardous wastes to authorised disposal or treatment facilities that have appropriate management systems in place.</i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> • The intention of this policy is understood, however there appears to be unnecessary duplication in parts and it needs to be re-phrased to be clearer and more precise. • Issues with the definition of Hazardous Facility will be addressed in a submission point related specifically to the definitions chapter. 		

Submitter Number:	692	Submitter:	WEL Networks Limited

Point Number	378.10		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.3 Policy – Residual risks of hazardous substances		
Summary of Decision Requested	Retain Policy 10.1.3 Residual risks of hazardous substances.		
Decision Reasons:	<ul style="list-style-type: none"> • Fire and Emergency New Zealand supports the policy on the basis that residual risk associated with storage, use or disposal of hazardous substances is managed to ensure that the effects on people, property and the environment are acceptable. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.79		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.3 Policy – Residual risks of hazardous substances		
Summary of Decision Requested	Amend Policy 10.1.3 (a) Residual risks of hazardous substances, as follows: <i>(a) Facilities for the use, storage or disposal of hazardous substances shall identify and assess potential adverse effects (including cumulative risks and potential effects of identified natural hazards) to prevent unacceptable levels of risk to human health, safety, property and the natural environment.</i> AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • The policy sets out considerations that are required for use, storage or disposal of hazardous substances that are required under other regulations. However, it should apply to the use, storage or disposal of hazardous substances and not be limited to 'facilities'. 		

Submitter Number:	466	Submitter:	Brendan Balle
Organisation:	Balle Bros Group Limited		
Point Number	466.64		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.3 Policy – Residual risks of hazardous substances		
Summary of Decision Requested	No specific decision sought but submission opposes in part Policy 10.1.3 Residual risks of hazardous substances and considers the Plan should avoid duplication of effort with existing legislation/regulation in managing residual risks from hazardous substances.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.112		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.3 Policy – Residual risks of hazardous substances		
Summary of Decision Requested	Retain Policy 10.1.3 Residual risks of hazardous substances, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Support policy as notified. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.122		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.3 Policy – Residual risks of hazardous substances		
Summary of Decision Requested	Retain Policy 10.1.3 Residual risks of hazardous substances as notified (if the definition of Hazardous facility is amended as per amendments sought, as outlined in a separate submission point): OR		

Amend Policy 10.1.3 Residual risks of hazardous substances as follows:

(a) Facilities for the use, storage, or disposal of hazardous substances shall identify and assess potential adverse effects (including cumulative risks and potential effects of identified natural hazards) to prevent unacceptable levels of risk to human health, safety, property and the natural environment. Promote better understanding of the potential adverse effects of the use, storage or disposal of hazardous substances, and the methods and controls for avoiding remedying or mitigating such effects.

(b) Establish thresholds of acceptable risks from the use, storage, transportation and disposal of hazardous substances on the health and safety of people, and the environment.

(c) To provide for the manufacture, storage, use, disposal and transportation of hazardous substances in accordance with industry protocols and regulations established under the Hazardous Substances and New Organisms Act 1996.

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter considers the all-encompassing nature of the *Hazardous Facility* definition renders this policy ineffective and inappropriate. A garden shed or storage cupboard in the laundry or garage would meet the definition of *hazardous facility* and as such trigger the requirement for a user of garden sprays to identify and assess adverse effects to prevent unacceptable levels of risk to human health, safety, property and the natural environment. It is acknowledged from the Section 32 report that this is not Council's intention, and seek the suggested amendments to remedy the presumed drafting error.
- The Section 32 report lists on page 3 the additional situations where supplementary controls over and above those imposed by the HSNO Act or other statutes may be necessary including managing the effects of hazardous facilities on sensitive land uses and cumulative effects from multiple facilities. The purpose of the proposed policy in this suite is to manage adverse effects and risks but it has a significantly wider reach than that and is unmanageable in its present form. The proposed new policy 10.1.3 (b) provides the necessary policy support for the activity list approach for Rule 22.2.4.

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.60		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.3 Policy – Residual risks of hazardous substances

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.574		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.4 Policy – Reverse sensitivity effects		
Summary of Decision Requested	Amend Policy 10.1.4 Reverse sensitivity effects as follows: (a) Separate as far as practicable sensitive land use activities from lawfully-established hazardous facilities; (b) Separate new hazardous facilities from existing sensitive land use activities; and (c) Avoid the storage, processing or disposal of hazardous waste in sensitive environments.		
Decision Reasons:	<ul style="list-style-type: none"> • This would provide clarity to this policy and support the changes requested under other submission points. 		

Submitter Number:	785	Submitter:	Z Energy Limited, BP Oil NZ Limited and Mobil Oil NZ Limited
Organisation:	'Oil Companies'		
Point Number	785.44		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.1 Hazardous Substances > 10.1.4 Policy – Reverse sensitivity effects		
Summary of Decision Requested	Amend Policy 10.1.4 – Reverse Sensitivity Effects as follows: a. Separate Ensure that the expansion and value of existing and future investment by hazardous facilities is recognized by avoiding reverse sensitivity effects between sensitive land use activities and lawfully established hazardous facilities; b. Separate new hazardous facilities from existing sensitive land use activities; and c. Avoid the storage, processing or disposal of hazardous waste in sensitive environments. AND Any consequential amendments or further relief to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • The policy is supported in part subject to amending. • The requirement for activities to be separated to a requirement for reverse sensitivity effects to be managed by avoidance and the deletion of clause (b) and (c). • Reverse Sensitivity is not provided for in HSNO and/or Health and Safety legislation. • It is considered appropriate for Council's to recognize and manage the potential reverse sensitivity effects that may be associated with the storage, use or disposal of hazardous substances. • Policy 10.1.4 simply does this by requiring 'separation' between activities. Separation may be one means of managing reverse sensitivity effects but it may not be the only means. • The policy should seek to avoid reverse sensitivity effects: to both recognize the value of the existing facilities and to provide for their future development. • The storage, processing or disposal of hazardous waste in sensitive environments is not considered appropriate in the context of reverse sensitive effects and therefore should be detailed from the policy.

Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.2 Contaminated Land > 10.2.2 Policy – Managing the use of contaminated land		
Summary of Decision Requested	Retain Policy 10.2.2(b) Managing the use of contaminated land.		
Decision Reasons:	<ul style="list-style-type: none"> • The use of 'human health and the environment' is supported as it aligns with the National Environmental Standard for Assessing and Managing Contaminants in Soil to Protect Human Health (NESCS) and section 31(1)(b) of the RMA. 		
Point Number	81.232		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.2 Contaminated Land > 10.2.2 Policy – Managing the use of contaminated land		
Summary of Decision Requested	Amend Policy 10.2.2(d) Managing the use of contaminated land as follows: <i>(d)Ensure that the use, subdivision and development of contaminated land management approaches contaminated land management approaches associated with the use, subdivision and development of actually or potentially contaminated land include...</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The National Environmental Standard for Contaminated Soil provides a framework for the management of contaminated sites, and Implementation Method 14.4.1 of the WRPS requires that District Plans shall include provisions that support the implementation of the National Environmental Standard for Contaminated Soil. • To clarify the intent of Policy 10.2.2(d) the wording should be rewritten. 		
Point Number	81.233		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.2 Contaminated Land > 10.2.2 Policy – Managing the use of contaminated land		
Summary of Decision Requested	Add to Policy 10.2.2(d) Managing the use of contaminated land reference to 'preliminary site investigations' .		
Decision Reasons:	<ul style="list-style-type: none"> • To clarify the intent of Policy 10.2.2(d) the wording should be rewritten, with additional wording to include reference to 'preliminary site investigations' • To align with the National Environmental Standard for Contaminated Soil reference to preliminary site investigations should also be included. 		
Point Number	81.234		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.2 Contaminated Land > 10.2.2 Policy – Managing the use of contaminated land		
Summary of Decision Requested	Add to Policy 10.2.2(d) Managing the use of contaminated land an additional sub-point the requirement that any preliminary or detailed site investigation reports, remedial action plans, site validation reports and ongoing site management plans are prepared in accordance with the Ministry for the Environment's Contaminated Land Management Guidelines #1 and #5, and are provided to both Waikato District Council and the submitter for their records.		
Decision Reasons:	<ul style="list-style-type: none"> • To clarify the intent of Policy 10.2.2(d) the wording should be rewritten, with additional wording to include reference to 'the Ministry for the Environment's Contaminated Land Management Guidelines #1 and #5'. • The National Environmental Standard for Contaminated Soil provides a framework for the management of contaminated sites, and Implementation Method 14.4.1 of the WRPS requires that District Plans shall include provisions that support the implementation of the National Environmental Standard for Contaminated Soil. 		

Submitter Number:	463	Submitter:	Environmental Management Solutions Limited
Point Number	463.2		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.2 Contaminated Land > 10.2.2 Policy – Managing the use of contaminated land		
Summary of Decision Requested	<p>Retain Policy 10.2.2 Managing the use of contaminated land, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 10.2.2 (d) Managing the use of contaminated land, as follows:</p> <p><i>Ensure that the use, subdivision and development of contaminated land management approaches include <u>where appropriate</u>:</i></p> <p>...</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the Policy but considers that the words “where appropriate” should be added to encourage the appropriate option to be adopted as required. Not all options identified will be required for each site. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.125		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.2 Contaminated Land > 10.2.2 Policy – Managing the use of contaminated land		
Summary of Decision Requested	<p>Add to Policy 10.2.2 Managing the use of contaminated land an advice note as follows:</p> <p><i>Advice note: The status of some activities will be determined by the requirements of the National Environmental Standard for Assessing and Managing Contaminants in Soil to Protect Human Health Regulations 2011. Reference should be made to the Ministry of Environment website for a copy of these regulations, a user's guide, and documents incorporated by reference in these regulations.</i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter understands the purpose and intent of this policy and considers the planning approach which is predicated on land use change is appropriate. Soil tests upon sub-division and the already existing food standards testing allow for the identification of contaminated land when it has an effect on the public and as such there is no need for additional rules proposing tighter regulations for contaminated land or suspected contaminated land without there being a demonstrable effects-based need for these higher standards. It is not cost effective to deal with potential sites proactively, especially if there is no identified need, through either the food chain or land use change. For these reasons the submitter also supports the planning approach which seeks to avoid unnecessary duplication with the National Environmental Standard for Assessing and Managing Contaminants in Soil to Protect Human Health Regulations 2011 (“NES”). This approach is consistent with Implementation Method 14.4.1 of the Waikato Regional Policy Statement. Whilst the alignment approach is supported amendments are required to better ‘signpost’ this alignment within the chapter. This will ensure plan users are better informed and understand the rules framework which applies. 		

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.62		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.2 Contaminated Land > 10.2.2 Policy – Managing the use of contaminated land		
Summary of Decision Requested	Retain Policy 10.2.2 Managing the use of contaminated land.		
Decision Reasons:	<ul style="list-style-type: none"> Sets a clear direction for contaminated land in accordance with the NES. 		

Submitter Number:	785	Submitter:	Z Energy Limited, BP Oil NZ Limited and Mobil Oil NZ Limited
Organisation:	'Oil Companies'		
Point Number	785.10		
Plan chapter	Section B Objectives and Policies > Chapter 10: Hazardous Substances and Contaminated Land > 10.2 Contaminated Land > 10.2.2 Policy – Managing the use of contaminated land		
Summary of Decision Requested	<p>Retain Policy 10.2.2 – Managing the use of contaminated land, except for the amendments sought below</p> <p>AND</p> <p>Amend Policy 10.2.2 Managing the use of contaminated land as follows:</p> <p><i>a. Contaminated land is managed, which may include remediation, or remediated to ensure that contaminants are at a level acceptable for the proposed land use.</i></p> <p>...</p> <p><i>d. Ensure that the use, subdivision and development of contaminated land management approaches include:</i></p> <p><i>i. Undertaking a site investigation of any land identified as actually or potentially contaminated, prior to any new subdivision or change of use of land, that could result in an increase in any adverse effects from the contamination of a piece of land;</i></p> <p><i>ii. Remedial action plans;</i></p> <p><i>iii. Site validation reports;</i></p> <p><i>iv. Site management plans as appropriate for identifying, monitoring and managing contaminated land.</i></p> <p>AND</p> <p>Any consequential amendments or additional relief to give effect to the submission.</p>		

Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the inclusion of a contaminated land policy framework given the absence of objectives and policies within the National Environmental Standard for Assessing and Managing Contaminants in Soil to Protect Human Health. Any applications that may require consent pursuant to the National Environmental Standard for Assessing and Managing Contaminants in Soil to Protect Human Health can therefore be assessed against the proposed policy provisions. The submitter understands that remediation is a form of management and seeks clause (a) be amended to reflect this. The submitter notes that a remedial action plan will only be required if necessary i.e. no remediation may actually be required/necessary for works on contaminated land. Remedial action plans can be considered in any event through clause (d)(iv). Therefore the submitter seeks the deletion of clause (d)(ii).

Plan chapter: Section C Rules

Submitter Number:	19	Submitter:	John Wright
Organisation:	Jet Ski Racing New Zealand Inc		
Point Number	19.2		

Plan chapter	Section C Rules
Summary of Decision Requested	Amend Section C Rules to allow approved and correctly controlled clubs to use Lakes Waahi and Kainui for selected jet ski racing events during the calendar year, excluding shooting months.
Decision Reasons:	<ul style="list-style-type: none"> • There are numerous resources at these reserves and lakes that are available to power boats but excludes jet skis. • Running 1 or 2 day events at these venues would allow greater use of the existing facilities and should be considered on application rather than open all year to limit the effects to existing users. • Existing conditions limit small events to less than 500 people. This would not need to be altered. • Increased turnover for tourism and hospitality providers in the general Hamilton area. • 2 day events would attract riders, family and supporters from all over the country. • Single day events would give local people something to do in their back yard, rather than travelling to Auckland, Tauranga, Rotorua and further south. • Other Council's are supporting local not for profit clubs to use facilities and reserves.
Decision Reasons:	

Submitter Number:	48	Submitter:	Beverley Bell
Point Number	48.2		
Plan chapter	Section C Rules		
Summary of Decision Requested	Add a rule to require fencing of Significant Natural Areas to exclude stock.		
Decision Reasons:	<ul style="list-style-type: none"> • The existing legislation on fencing generally and Significant Natural Areas in particular does not go far enough to protect Significant Natural Areas from roaming stock and their environmental damage. Requests to the property owner from neighbours and Waikato District Council staff, and supplying educational materials have not changed the situation. • Waikato District Council should have the power to back up the requirement to exclude stock. 		

Submitter Number:	52	Submitter:	Roelof Lategan
Point Number	52.2		
Plan chapter	Section C Rules		
Summary of Decision Requested	Amend Section C: Rules to better deal with water runoff due to increased residential developments.		
Decision Reasons:	<ul style="list-style-type: none"> • An increase in residential development has increased water runoff. • Enforce stricter rules for developers to deal with additional stormwater runoff. • Waterways, stormwater runoff and culverts must be taken into consideration. • Property at 123 Travers Road, Te Kauwhata is zoned Country Living Zone and is experiencing increased water run off due to increased residential development in surrounding area. 		

Submitter Number:	58	Submitter:	Kiwi Green NZ Limited
Point Number	58.2		
Plan chapter	Section C Rules		
Summary of Decision Requested	Amend the District Plan to include additional site-specific controls for 115 Whanagamata that align with the mitigation measures described in the acoustic and air quality reports provided with the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • Site specific controls will enable residential development to occur on the submitter's property whilst mitigating the adverse effects of noise and air discharge from nearby industries. 		

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.10		
Plan chapter	Section C Rules		
Summary of Decision Requested	Retain for all zones setbacks from waterbodies that are larger than 10m .		
Decision Reasons:	<ul style="list-style-type: none"> • There are a range of setbacks from water bodies throughout the zones. • A minimum setback of 10m from the bank of a perennial or intermittent stream that is provided for in other zones is supported. 		
Point Number	81.2		
Plan chapter	Section C Rules		
Summary of Decision Requested	Amend each zone chapter to provide details on the purpose and anticipated outcomes of the corresponding zone or subzone.		
Decision Reasons:	<ul style="list-style-type: none"> • There are no descriptions of zones and their intended outcomes. • Clarification on the purpose of each zone will increase understanding of the anticipated outcomes, and appropriate types of activities for the different environments. • These descriptions will assist with understanding the purpose and character of the residential zone and the associated provisions 4.2.1 and 4.2.2. 		
Point Number	81.3		
Plan chapter	Section C Rules		

Summary of Decision Requested	Amend Permitted Activity standards for all zones for earthworks to provide for a minimum 5 metre distance from any waterbody or overland flow path, example of which is as follows: <i>P16.2.4.1 (a)(i) Be located more than 4.5m 5.0m horizontally from any waterway, open drain or overland flow path.</i>
Decision Reasons:	<ul style="list-style-type: none"> The Te Ture Whaimana o Te Awa o Waikato, Vision and Strategy for the Waikato River contains a number of objectives regarding the restoration and protection of the Waikato River; including but not limited to a) The restoration and protection of the health and wellbeing of the Waikato River; e) The integrated, holistic and coordinated approach to management of the natural, physical, cultural and historic resources of the Waikato River and (f). The adoption of a precautionary approach towards decisions that may result in significant adverse effects on the Waikato River, and in particular those effects that threaten serious or irreversible damage to the Waikato River. These provisions are supported by related provisions of the Waikato Regional Policy Statement (WRPS), notably Implementation Method 8.3.10. The provisions as written do not take a sufficiently precautionary approach to managing sediment loadings entering stormwater networks and waterbodies, such as: Managing earthworks in close proximity to water bodies, managing earthworks in a flood plain or flood hazard area and managing the revegetation of earthworked sites in a timely fashion. Amending (or adding) the conditions to provide for a more precautionary approach that minimises the risk of sediment entering waterbodies or stormwater providing a minimum 5 metre setback and 2 month revegetation period aligning with better practice earthworks management.
Point Number	81.4
Plan chapter	Section C Rules
Summary of Decision Requested	Amend Permitted Activity standards for all zones to provide for a shorter period of time for earthworks to be revegetated, as follows: <i>Areas exposed by earthworks are re-vegetated to achieve 80% ground cover within 6 2 months of the commencement of the earthworks.</i>
Decision Reasons:	<ul style="list-style-type: none"> The Te Ture Whaimana o Te Awa o Waikato, Vision and Strategy for the Waikato River contains a number of objectives regarding the restoration and protection of the Waikato River; including but not limited to a) The restoration and protection of the health and wellbeing of the Waikato River; e) The integrated, holistic and coordinated approach to management of the natural, physical, cultural and historic resources of the Waikato River; and f). The adoption of a precautionary approach towards decisions that may result in significant adverse effects on the Waikato River, and in particular those effects that threaten serious or irreversible damage to the Waikato River. These provisions are supported by related provisions of the Waikato Regional Policy Statement (WRPS), notably Implementation Method 8.3.10. The provisions as written do not take a sufficiently precautionary approach to managing sediment loadings entering stormwater networks and waterbodies, such as: Managing earthworks in close proximity to water bodies, managing earthworks in a flood plain or flood hazard area, managing the revegetation of earthworked sites in a timely fashion. Amending (or adding) the conditions to provide for a more precautionary approach that minimises the risk of sediment entering waterbodies or stormwater providing a minimum 5 metre setback and 2 month revegetation period aligning with better practice earthworks management.
Point Number	81.5
Plan chapter	Section C Rules
Summary of Decision Requested	Add to the Proposed District Plan for all zones an additional condition related to earthworks within a flood plain (in addition to identifying these on maps), as follows (or similar): <i><u>Not be located within a flood plain as identified in the Waikato District Plan.</u></i> AND Add to Maps the flood plain.
Decision Reasons:	<ul style="list-style-type: none"> The Te Ture Whaimana o Te Awa o Waikato, Vision and Strategy for the Waikato River contains a number of objectives regarding the restoration and protection of the Waikato River; including but not limited to a) The restoration and protection of the health and wellbeing of the Waikato River; e) The integrated, holistic and coordinated approach to management of the natural, physical, cultural and historic resources of the Waikato River; and f). The adoption of a precautionary approach towards decisions that may result in significant adverse effects on the Waikato River, and in particular those effects that threaten serious or irreversible damage to the Waikato River. These provisions are supported by related provisions of the Waikato Regional Policy Statement (WRPS), notably Implementation Method 8.3.10. Point Number	81.58
Plan chapter	Section C Rules
Summary of Decision Requested	Retain provisions for sustainable clearance of regenerating Manuka or Kanuka for domestic firewood purposes or for arts or crafts in any chapters not covered in previous submission points, and except for the amendments sought below. AND Amend provisions to exclude clearance of Manuka and Kanuka in wetlands and the coastal environment from this rule (Indigenous vegetation clearance inside a Significant Natural Area) any other area of the Proposed Plan where similar provisions apply.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the provision for sustainable clearance of regenerating Manuka or Kanuka for domestic firewood purposes or for arts or crafts. However, the submitter does not support the removal of Manuka or Kanuka from wetlands or vegetation that is naturally short in stature. It is important to ensure that vegetation that is naturally short does not get included in the rules intended to provide for clearance of Manuka and Kanuka colonising pasture. Manuka, in particular, can be a permanent and important component of some types of ecosystems. These are generally wetlands, dunes and other coastal vegetation, but can be gumland vegetation that remains in the leached soils following kauri forest removal. These persistent shrublands are important habitats for lizards, orchids, mistletoes and a range of threatened species. Exclusion of permitted clearance of Manuka or Kanuka from wetlands and from the Coastal Environment is likely to prevent clearance of these ecosystems of concern. The exclusion of Manuka and/or Kanuka clearance in the Coastal Environment from this rule would give effect to the 'avoid' direction in the New Zealand Coastal Policy Statement (NZCPS) and Policy 11.4 of the WRPS. Vegetation clearance within an SNA needs to be remedied to give effect to Policy 3.2.3(a)(ii). The submission notes a number of rules that have amendments or retention sought as relief (subject to separate submission points)
Point Number	81.59
Plan chapter	Section C Rules
Summary of Decision Requested	Amend provisions to ensure that weeds are controlled in the cleared area and native vegetation is allowed to regenerate in a Significant Natural Area, in any chapters not covered in previous submissions.
Decision Reasons:	<ul style="list-style-type: none"> Vegetation clearance within an SNA needs to be remedied to give effect to Policy 3.2.3(a)(ii). The submission notes a number of rules that have amendments or retention sought as relief (subject to separate submission points)
Point Number	81.6
Plan chapter	Section C Rules

Summary of Decision Requested	Add to the Proposed District Plan for all zones a standard to minimise impacts on water bodies as follows: <u>Do not divert or change the nature of natural water flows, water bodies or established drainage paths.</u>
Decision Reasons:	<ul style="list-style-type: none"> The Te Ture Whaimana o Te Awa o Waikato, Vision and Strategy for the Waikato River contains a number of objectives regarding the restoration and protection of the Waikato River; including but not limited to a) The restoration and protection of the health and wellbeing of the Waikato River; e) The integrated, holistic and coordinated approach to management of the natural, physical, cultural and historic resources of the Waikato River; and f). The adoption of a precautionary approach towards decisions that may result in significant adverse effects on the Waikato River; and in particular those effects that threaten serious or irreversible damage to the Waikato River. These provisions are supported by related provisions of the Waikato Regional Policy Statement (WRPS), notably Implementation Method 8.3.10. The provisions as written do not take a sufficiently precautionary approach to managing sediment loadings entering stormwater networks and waterbodies, such as: Managing earthworks in close proximity to water bodies, managing earthworks in a flood plain or flood hazard area, managing the revegetation of earthworked sites in a timely fashion. Amending (or adding) the conditions to provide for a more precautionary approach that minimises the risk of sediment entering waterbodies or stormwater providing a minimum 5 metre setback and 2 month revegetation period aligning with better practice earthworks management.
Point Number	81.60
Plan chapter	Section C Rules
Summary of Decision Requested	Delete duplicate provisions for the Indigenous vegetation clearance inside a Significant Natural Area rules in any chapters not covered in previous submissions.
Decision Reasons:	<ul style="list-style-type: none"> P6 duplicates P2. The submission notes a number of rules that are duplicates (subject to separate submission points) but has requested that the duplicates be removed for any other area of the Proposed Plan where similar provisions apply.
Point Number	81.66
Plan chapter	Section C Rules
Summary of Decision Requested	Amend provisions for Indigenous vegetation clearance inside a Significant Natural Area (P3) by giving it restricted discretionary activity status. AND/OR Amend provisions to provide tighter thresholds/ activity status in the Coastal Environment.
Decision Reasons:	<ul style="list-style-type: none"> P3 Provides for clearance of 250m² of indigenous vegetation removal within a SNA for building/access purposes if there is no alternative development area on the site outside the SNA. Natural values will not necessarily be evenly spread across the SNA and it is likely that some parts will be of higher natural value or of greater sensitivity than others. It is appropriate to retain discretion about the location of clearance in order to avoid as much as possible the adverse effects of the vegetation clearance. It is appropriate to require mitigation or offsetting to give effect to Policy 3.2.3(a)(iii) or (iv). As currently drafted this rule does not give effect to the 'avoid' direction in the New Zealand Coastal Policy Statement and Policy 11.4 for the coastal environment. The submission lists a number of rules subject to the above (subject to their own submission points).
Point Number	81.72
Plan chapter	Section C Rules
Summary of Decision Requested	Amend provisions for Indigenous vegetation clearance inside a Significant Natural Area (P4) in any chapters not covered in previous submissions to a restricted discretionary activity. AND/OR Amend provisions for Indigenous vegetation clearance inside a Significant Natural Area (P4) to assign a lower threshold than clearance off indigenous vegetation outside of SNA for the same activity. AND/OR Amend provisions for Indigenous vegetation clearance inside a Significant Natural Area (P4) to provide an overall cap on clearance as a permitted activity. AND/OR Amend to clarify the location and extent of areas that might be subject to this rule in order to determine if it is likely to have a significant effect on indigenous biodiversity. AND/OR Amend provisions to provide tighter thresholds/ activity status in the Coastal Environment.
Decision Reasons:	<ul style="list-style-type: none"> P4 provides for up to 1500m² of vegetation removal for marae complex, 500m² /dwelling, 500m² / building, as a permitted activity. Cumulatively this could be a large loss of significant indigenous vegetation and habitat without the ability to address adverse effects through avoiding, remedying, mitigating or offsetting. It is noted that this is the same amount of clearance is provided for non-significant indigenous vegetation. As currently drafted this rule does not give effect to the 'avoid' direction in the New Zealand Coastal Policy Statement and Policy 11.4 for the coastal environment. The submission lists a number of rules subject to the above and these are provided for as separate submission points.
Point Number	81.9
Plan chapter	Section C Rules
Summary of Decision Requested	Amend the Proposed District Plan for all zones to provide for a minimum 10m setback from the banks of a perennial or intermittent stream.
Decision Reasons:	<ul style="list-style-type: none"> There are a range of setbacks from water bodies throughout the zones. At a minimum all buildings should be setback a minimum of 10m from the banks of a perennial or intermittent stream, and rules should be provided and/or amended to reflect this. It is recommended that this setback is included for all zones.

Submitter Number:	109	Submitter:	Gareth Wigmore
Point Number	109.1		
Plan chapter	Section C Rules		
Summary of Decision Requested	Amend the noise limits applying at the notional boundary within any zone to reflect World Health Organisation limits db (LA Max), excluding noise generated by farming and noise generated by emergency generators and emergency sirens.		
Decision Reasons:	<ul style="list-style-type: none"> db (LA eq) limits are difficult and expensive to measure. 		

- World Health Organisation Limits use simple db (LA max) levels to measure noise limits to protect people in all zones from excessive noise.

Submitter Number:	184	Submitter:	Vera Wennekens
Point Number	184.13		
Plan chapter	Section C Rules		
Summary of Decision Requested	<p>Add a new Chapter 29 Kimihia Lakes Recreation and Events Zone that contains rules for the Kimihia Lakes Recreation and Events Zone as outlined within section 4.2.4 of the submission.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • There is currently no zone/provisions within the Proposed District Plan that provide for a land use such as the Propose Kimihia Lakes Recreation and Events Park. Neither do the provisions contained within the existing zones be able to be relied on to establish the park. • The District Plan provides for these 'out-of-box' developments through the creation of purpose-written zones (e.g. Hampton Downs Motorsport Park Zone). A comparison can be made between these sites and the Recreation and Events Park. • Relying on resource consent creates uncertainty and may result on going costs and time delays and is deemed an uneconomic option. • A specific overlay is not appropriate. It is recognised that overlays are in relation to significant tracts of land covering various zones (SNA etc). • Waikato District Council no longer desire the use of site specific schedules within the district plan. • The adoption of specific zoning is appropriate and will achieve the sought outcome. 		

Submitter Number:	188	Submitter:	Sheryl Tukiri
Point Number	188.3		
Plan chapter	Section C Rules		
Summary of Decision Requested	Retain the rules for permitted activities on Maaori Freehold land.		
Decision Reasons:	<ul style="list-style-type: none"> • These changes are allowing Maori to use the land and develop the land for more of the Whanau. 		

Submitter Number:	216	Submitter:	Scott Montagu
Point Number	216.2		
Plan chapter	Section C Rules		
Summary of Decision Requested	Retain Chapter 27 Te Kowhai Airpark Zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Supporting this increasingly scarce community and regional asset. • Rezoning in support of an airport would be an excellent asset to the aviation and local community. • This would feed the local community with assets and venues.

Point Number	264.1		
Plan chapter	Section C Rules		
Summary of Decision Requested	<p>Add the Heritage Precinct Guide from the Operative District Plan for Rangiriri, and include the corner of Murphy Street and Rangiriri Road, neighbouring the cemetery and all properties exposed to the SH1 side on Austen St.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Rangiriri holds a unique place in New Zealand's history and as such should hold unique protection and respect. Requests the present Heritage Precinct Guide remains until such time that land/business owners in the precinct and other consultants can collectively respect and protect this towns future. Remain until such time that another more comprehensive plan unique to Rangiriri is created. Disagrees with Dr Ann McEwan for disestablishing the Heritage Precinct Design Guide. The Proposed District Plan, appears to protect and promote the necessary Rangiriri Heritage values and property, but submitter hasn't been able to establish the precinct area to which it will apply or specific specialties. It is essential the precinct at least takes in all that was under the removed guide, plus: <ul style="list-style-type: none"> 1) The corner of Murphy Street and Rangiriri Road (Neighbouring the Cemetery, being exposed to the main entry to the town, a visual part of the Heritage buildings and activities). 		

Submitter Number:	286	Submitter:	Lorraine Dixon
Organisation:	Waikato-Tainui		
Point Number	286.27		
Plan chapter	Section C Rules		
Summary of Decision Requested	<p>Amend the Proposed District Plan to provide setbacks from the waterways that are consistent with Proposed Plan Change 1 to the Waikato Regional Council and gives effect to the Vision and Strategy for the Waikato River and the Waikato-Tainui Environmental Plan.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Waikato-Tainui have concerns that the earthworks setbacks do not adequately protect waterways and fail to be consistent with the notified Proposed Plan Change 1 to the Waikato Regional Plan. This plan change process triggered by the need to give effect to the Vision and Strategy for the Waikato River requires a minimum setback of 5m from a waterway (for cropping only) to be considered a permitted activity. The Proposed Waikato District Plan allows for a 1.5 setback in the Residential Zone and appears to have no setbacks at all for earthworks in the Rural Zone. The lack of a setback is inappropriate and has failed to have regard to the Vision and Strategy for the Waikato River and the Waikato-Tainui Environmental Plan. As a minimum it would be anticipated that the Proposed District Plan change would be consistent with Proposed Plan Change 1 to the Waikato Regional Plan. 		
Point Number	286.28		
Plan chapter	Section C Rules		
Summary of Decision Requested	<p>Retain earthworks on Maaori Sites of Significance and Maaori Areas of Significance as a restricted discretionary activity.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Waikato-Tainui support this as early warning when such activities are being undertaken is desirable. 		
Point Number	286.29		
Plan chapter	Section C Rules		
Summary of Decision Requested	<p>Retain the activity status and clearance thresholds for indigenous vegetation clearance for marae, dwellings and papakainga on Maaori Freehold Land or Maaori Customary Land.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Waikato-Tainui support the ability to clear indigenous vegetation for the purpose of establishing these activities on Maaori Freehold Land or Maaori Customary Land. 		

Submitter Number:	324	Submitter:	Jason Dawson
Organisation:	Hamilton & Waikato Tourism		

Point Number	324.2
Plan chapter	Section C Rules
Summary of Decision Requested	<p>Add a new Chapter 29 Kimihia Lakes Recreation and Events Zone, including the following:</p> <p><u>29.1.1 Permitted Activities</u></p> <p><u>All permitted activities are subject to compliance with the Land Use Effects, Land Use Building and Activity Specific rules below:</u></p> <p><u>- Recreation Activity and Facilities</u></p> <p><u>- Construction, additions and alterations of buildings to support and/or accommodate Recreation Activities</u></p> <p><u>- Construction of structures in and/or over the lake, including (but not limited to), jetties, piers, pontoons and walkways;</u></p> <p><u>- Community Activities and Facilities</u></p> <p><u>- Outdoor Education</u></p> <p><u>- Commercial activities within the Commercial Node Areas;</u></p> <p><u>- Ancillary buildings;</u></p> <p><u>- Operational Facilities;</u></p> <p><u>- Travellers' Accommodation including campgrounds;</u></p> <p><u>- Signs;</u></p> <p><u>- Earthworks;</u></p> <p><u>- Managers'/Caretakers' Dwellings</u></p> <p><u>- Beekeeping</u></p> <p><u>- Temporary Event</u></p> <p><u>- A Conservation activity</u></p> <p>AND</p> <p>Add the new provisions attached to the submission including a new Chapter 29, additions to Chapter 13 Definitions, additions to Chapter 14 Infrastructure and Energy and consequential amendments.</p>
Decision Reasons:	<ul style="list-style-type: none"> Hamilton and Waikato region, especially Waikato District, has an urgent shortage of large quality commercial accommodation and addition of a campground/holiday park to the Kimihia Lakes Recreation and Events Zone. Supports the proposal to develop a recreation zone for rowing, waka ama, sailing, aqua cycles, mountain biking, zip-lines and fitness/confidence courses, but excluding powered/motor activities. This proposal aligns to the 2016 Tourism Opportunities Plan to develop visitor experiences within the North Waikato Corridor around outdoor recreation.

Summary of Decision Requested	Retain the restricted discretionary activity status for earthworks in Maaori Sites of Significance and Maaori Areas of Significance.		
Decision Reasons:	<ul style="list-style-type: none"> • Waikato-Tainui support this as early warning when such activities are being undertaken. 		

Submitter Number:	386	Submitter:	Pokeno Village Holdings Limited
Point Number	386.17		
Plan chapter	Section C Rules		
Summary of Decision Requested	Amend the Proposed Waikato District Plan so that any non-compliance with the permitted building height is assessed as a restricted discretionary activity.		
Decision Reasons:	<ul style="list-style-type: none"> • Rule 16.3.3.1 of the PWDP requires any non-compliance with the permitted building height rule to be assessed as a full discretionary activity. This is inappropriate because the environmental effects of any such non-compliance are easily identifiable (relating to residential amenity, privacy, overshadowing and dominance) 		

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.51		
Plan chapter	Section C Rules		
Summary of Decision Requested	Add wording to Rule 14.4.2.1 RD4 (a)-(d) Subdivision of land within the National Grid Corridor that is similar to the subdivision rules within the zones.		
Decision Reasons:	<ul style="list-style-type: none"> • The need may arise for Counties Power to construct new lines or amend the alignment of its existing lines which cross the Transpower corridor. 		
Point Number	405.54		
Plan chapter	Section C Rules		
Summary of Decision Requested	Add conditions of compliance contained in Rule 14.5.1.3 (a)(ii) Permitted Activities relating to P5 Construction of building for sensitive land use for construction or alteration of ANY building to each of the relevant Zone chapters.		
Decision Reasons:	<ul style="list-style-type: none"> • Construction or alteration of ANY building within the vicinity of overhead lines must comply with the New Zealand Electrical Code of Practice for Electrical Safe Distances (NZCEP34:2001). 		
Point Number	405.88		
Plan chapter	Section C Rules		
Summary of Decision Requested	Add rules to limit the height of amenity planting in the front yard in Rural and Industrial zones to prevent potential interference with installation of overhead lines.		
Decision Reasons:	<ul style="list-style-type: none"> • There are landscaping conditions that have been part of the consent process that may interfere with the construction or maintenance of infrastructure. • Any front yard landscaping conditions should need to consider existing and future infrastructure that is in the road reserve. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.95		
Plan chapter	Section C Rules		
Summary of Decision Requested	Add land preparation for horticultural activities as a permitted activity, with a possible condition being: <i>The activity complies with the Horticulture New Zealand Code of Practice 'Erosion and Sediment Control Guidelines for Vegetable Production' (June 2014)</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter has developed a code of practice for erosion and sediment control to provide guidance at an industry level for cultivation of vegetable crops which has been adopted by Auckland Council, Environment Canterbury and Waikato Regional Council. • The submitter does not support inclusion of land preparation in volume based thresholds for earthworks, as the potential for adverse effects can be managed appropriately through this code of practice. 		

Submitter Number:	435	Submitter:	Jade Hyslop
--------------------------	-----	-------------------	-------------

Point Number	435.4
Plan chapter	Section C Rules
Summary of Decision Requested	Add total limits to the earthworks rules in all zones that prescribe time limits (e.g. within a 12 month period) consistent with maintaining the values of the site.
Decision Reasons:	<ul style="list-style-type: none"> Incremental annual changes can amount to significant destruction of areas which should be protected.
Point Number	435.9
Plan chapter	Section C Rules
Summary of Decision Requested	<p>Add new rules in each zone such as follows:</p> <p><u>Construction of a building or other structure and planting of trees and other vegetation is a permitted activity if:</u></p> <p><u>(g) It can be shown that it will not significantly block views of sea, river, bush or hills from neighbouring properties, or</u></p> <p><u>(b) Neighbouring property owners confirm in writing that any loss of view does not concern them, or</u></p> <p><u>(c) It can be shown that the planted vegetation is of native plants and likely to contribute to reduction of river, or coastal erosion, or</u></p> <p><u>(d) It can be shown that the planting would improve views from public places.</u></p> <p><u>Any activity that does not comply with a condition for a permitted activity is a discretionary activity.</u></p>
Decision Reasons:	<ul style="list-style-type: none"> Sea and other views add many thousands of dollars to the value of properties. Protection of existing ratepayers property rights should take precedence over new rights of developers. Developers should need to get written agreement from neighbors that development doesn't concern them in regards to lost views, unless it consists of native planting to protect land from erosion, hides unsightly development or it is apparent views will not be affected significantly. No requirement in the RMA to protect views, there are no provisions against either. Only 4.7.2 requires 'view sharing,' however only applies to developments needing resource consent of which a great bulk will not.

Submitter Number:	437	Submitter:	KCH Trust
Point Number	437.4		
Plan chapter	Section C Rules		
Summary of Decision Requested	Add a rule to the Proposed District Plan that provides for the verification of the mapped Significant Natural Area by a suitable qualified ecologist when the Significant Natural Area is to be subject to subdivision or development used for the purposes of conservation lot subdivision.		
Decision Reasons:	<ul style="list-style-type: none"> Appreciates that there is considerable cost involved in ground-truthing the district-scale information. Rule 22.4.1.6 (a)(i) already goes some way to achieving this outcome. 		

Submitter Number:	471	Submitter:	Andrew Wood
Organisation:	CKL		
Point Number	471.33

--------------------------	-----	-------------------	-------------

Point Number	524.36
Plan chapter	Section C Rules
Summary of Decision Requested	Amend subdivision rules to enable the required outcomes of Policies 4.7.7-4.7.10.
Decision Reasons:	<ul style="list-style-type: none"> • No reason provided.
Point Number	524.37
Plan chapter	Section C Rules
Summary of Decision Requested	Amend the rules relating to subdivision to give effect to policies 6.4.2-6.4.7 and ensure greenfield sites for urban growth are investigated through section 32 analysis to assess the ability to appropriately, effectively and efficiently service these areas in comparison to other areas.
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided.

Submitter Number:	553	Submitter:	Malibu Hamilton
Point Number	553.4		
Plan chapter	Section C Rules		
Summary of Decision Requested	Amend the home stay provisions to consider wastewater effects on the environment.		
Decision Reasons:	<ul style="list-style-type: none"> • A more targeted approach is needed to ascertain whether areas that do have septic tank systems can cope with extra people onsite. • Many areas with septic tanks such as Whale Bay are under pressure from overcrowding. • Adverse effects on the environment, including the awa and the moana. 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.113		
Plan chapter	Section C Rules		
Summary of Decision Requested	Add a new Restricted Discretionary Activity rule to the District Plan as follows: <i>Rule RD1</i> <i>(g) Any activity required to be undertaken to provide for building or fire safety and/or earthquake strengthening.</i> <i>(b) Council's discretion is restricted to the following matters:</i> <i>(c) Effects on heritage values, including appearance and integrity of the heritage item.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter considers that there is an obligation under the Resource Management Act, not just the Building Act to provide for the consideration of earthquake strengthening and safety works. • It is acknowledged that these works could be undertaken under the current provisions, but seeks to have them specifically identified through policy and rules, with an associated restricted discretionary activity status. • The suggested rules framework seeks to minimise the effects on heritage values. 		
Point Number	559.280		
Plan chapter	Section C Rules		
Summary of Decision Requested	Add a new advice note to zone rules for Land use – Effects that directs the plan reader to the signage rules relating to heritage items and Maaori sites of significance.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter is concerned that the rules that relate to signage on heritage buildings are located within another part of the zone chapter as part of the Land use effects rules – historic heritage and may not be readily located by the plan user. • Signage can cause adverse effects on heritage building the same as buildings can. 		
Point Number	559.33		
Plan chapter	Section C Rules		
Summary of Decision Requested	Add a new earthworks rule to each zone chapter as follows: <i>D1- Earthworks, new ancillary earthworks and new rural ancillary earthworks within a waahi tapu as identified in Schedule 30.6 (Significant Waahi Tapu and Waahi Tapu area) and shown on the planning maps.</i> AND Provide recognition of the full extent of Waahi tapu Te Aukati ki Mangatawhiri, Meremere, Te Teo Teo and Rangiriiri (as this relates to the schedules). (Refer to subsequent submission points).		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter seeks a revised rule and mapping framework to provide elevated recognition in the Plan of four well known wahi tapu sites/areas, being Te Aukati ki Mangatawhiri, Meremere, Te Teo Teo and Rangiriiri. • This would assist the Plan to give improved effect to strategic objective 2.12(a). • These wahi tapu sites/areas are already recognised within the Plan in part through the Maaori sites and areas of significance mapping and rule framework. • The submitter considers that it is important within the Plan that there are examples of significant Maaori sites or areas, whose integrity is protected through full recognition in the Plan maps and an associated rule framework. • As the wahi tapu sites/areas are of local, regional and national importance, it is appropriate to ensure that the entire site is mapped and protected to retain the footprint of the wahi tapu/wahi tapu area as the physical marker, which enables the continued understanding and identification of each site and its history. 		

- The submitter seeks that these four wahi tapu are recognised to the same extent as the Heritage New Zealand wahi tapu listing within the Plan maps, and the rule framework related to earthworks, and destruction-proposed through a HNZPT point of submission, is applied to the same extent.
- It may be over time that additional wahi tapu are included onto this schedule and recognised in this enhanced manner.
- The submitter also seeks that new works covered under the definition of ancillary earthworks, and rural ancillary earthworks are assessed within these sites for their suitability to occur within these sites and the effect that they will have on heritage values.

Point Number 559.34

Plan chapter Section C Rules

Summary of Decision Requested **Add** a new non-complying rule NCI within each zone chapter to regarding the destruction of Maaori sites and areas of significance and wahi tapu sites and scheduled areas (as sought through the submission) as follows:

NCI – the destruction of a site or area of significance to maaori, or a Waahi Tapu or Waahi Tapu area.

AND

Amend the plan to provide for any other consequential amendments as required.

Decision Reasons:

- The submitter is concerned that there is no rule relating to the destruction of Maaori sites or area of significance.
- Considers that in the absence of this rule, results in the Plan being unable to give effect to Strategic Objective 2.12(a) and the requirements of Part 2, s6 Matters of National Importance, in particular s6(e) and s6(f).
- The submitter seeks that the plan is amended to include such a rule and that the proposed rule also covers the new proposed schedule of significant wahi tapu sites and areas.

Submitter Number: 563 **Submitter:** Andrew Mowbray

Point Number 563.2

Plan chapter Section C Rules

Summary of Decision Requested **Amend** the provisions to enable placement of cottages and railway houses on the property at 452 Tauwhare Road, Matangi.

Decision Reasons:

- Density of houses would be significantly beyond what is presently allowed.
- Matangi community happy with proposal.
- Would like to get the land designated for this to happen.
- See full submission for Powerpoint.

Submitter Number: 575 **Submitter:** Fulton Hogan Limited

Point Number 575.17

Plan chapter Section C Rules

Summary of Decision Requested **Add** a new rule - Mineral and aggregate extraction activity - vibrations and blasting rules, as follows (or words to similar effects):

VIBRATION AND BLASTING – MINERAL AND AGGREGATE EXTRACTION ACTIVITIES

- The measurement of blast noise (airblast) and ground vibration from blasting shall be carried out in accordance with best practice standards.
- The noise created by the use of explosives measured at a national boundary of 20 metres from occupied dwellings shall not exceed a peak overall sound pressure of 128 dB.
- Blasting shall be confined to two occasions per day except where necessary for safety reasons.
- Where blasting is irregular and the occupiers of neighbouring sites could be alarmed, they shall be advised of pending blasts, at least one hour before any such blast.
- When blasting, the limit of particle velocity (peak particle velocity) measured on any foundation of an adjacent occupied building not connected with the site, or suitable location adjacent to the building, shall not exceed 25mm/second for commercial buildings or 10mm/second for dwellings and buildings of similar design.
- Every blast shall be recorded with particular attention to details of charge weight and delay practice. Monitoring using reliable and appropriate methods representative of all blasts, at varying distances and various sites of different sensitivity shall be carried out to ensure that clauses ii and vi above are complied with. Blast records and monitoring results shall be made available to the Council on request.

AND

Amend the Proposed District Plan to make consequential and additional amendments as necessary to give effect to the matters raised in the submission.

Decision Reasons:

- Submission states preference for rules currently in the Operative District Plan and as such, seek to add the new rule to define the effects anticipated and accepted and to safeguard both the industry as well as the surrounding properties (insofar as reasonable and practicable). This is particularly important in relation to effects relating to noise, dust and vibration, as these are key elements of an activity of this kind.

Point Number 575.18

Plan chapter Section C Rules

Summary of Decision Requested **Add** a new rule - Mineral and aggregate extraction activity - air emission rules, as follows (or words to similar effect):

AIR EMISSIONS – MINERAL AND AGGREGATE EXTRACTION ACTIVITIES

Subject to any resource consent which may have been obtained, dust or any other airborne contaminant shall not be discharged at a level that is likely to cause a nuisance or affect the amenity values of any property in the area.

AND

Amend the Proposed District Plan to make consequential and additional amendments as necessary to give effect to the matters raised in the submission.

Decision Reasons:

- Submission states preference for rules currently in the Operative District Plan and as such, seek to add the new rule to define the effects anticipated and accepted and to safeguard both the industry as well as the surrounding properties (insofar as reasonable and practicable). This is particularly important in relation to effects relating to noise, dust and vibration, as these are key elements of an activity of this kind.

Point Number 575.22

Plan chapter	Section C Rules
Summary of Decision Requested	<p>Add a new rule - regarding subdivision, as follows (or words to similar effect):</p> <p><u>ALLOTMENT BOUNDARY – MINERAL AND AGGREGATE EXTRACTION ACTIVITIES</u></p> <p><u>Subdivision is a restricted discretionary activity if the boundary of every allotment is drawn so that it is within:</u></p> <p><u>(a) 200m of the boundary of a lawfully established mineral and aggregate extraction activity used for sand extraction; and</u></p> <p><u>(b) 500m of the boundary of a lawfully established mineral and aggregate extraction activity used for rock extraction.</u></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential and additional amendments as necessary to give effect to the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> In order to safeguard existing quarry operations, the proposed rule sought will limit the risk of creating reverse sensitivity effects by ensuring that Fulton Hogan are considered an affected party in situations where properties adjacent to their existing quarries are subject to a subdivision application.

Point Number	584.13		
Plan chapter	Section C Rules		
Summary of Decision Requested	<p>Add a new Chapter 29 to Kimihia Lakes Recreation and Events Zone that contains rules for the Kimihia Lakes Recreation and Events Zone as outlined within section 4.2.4 of the submission.</p> <p>AND</p> <p>Amend the Proposed District Plan for any further or other consequential relief required to give effect to the relief sought in this submission</p>		
Decision Reasons:	<ul style="list-style-type: none"> There is currently no zone/provisions within the Proposed District Plan that provide for a land use such as the Propose Kimihia Lakes Recreation and Events Park. Neither do the provisions contained within the existing zones be able to be relied on to establish the park. The District Plan provides for these 'out-of-box' developments through the creation of purpose-written zones (e.g. Hampton Downs Motorsport Park Zone). A comparison can be made between these sites and the Recreation and Events Park. Relying on resource consent creates uncertainty and may result on going costs and time delays and is deemed an uneconomic option. A specific overlay is not appropriate. It is recognised that overlays are in relation to significant tracts of land covering various zones (SNA etc). Waikato District Council no longer desire the use of site specific schedules within the district plan. The adoption of specific zoning is appropriate and will achieve the sought outcome. 		

Submitter Number:	585	Submitter:	Lucy Roberts
Organisation:	Department of Conservation		
Point Number	585.24		
Plan chapter	Section C Rules		
Summary of Decision Requested	<p>Add rules for Indigenous vegetation clearance inside a Significant Natural Area in all Zones as follows:</p> <ul style="list-style-type: none"> Include a maximum vegetation clearance permitted activity rule for all purposes; and Include a minimum setback distance from water bodies for all purposes; and Include a maximum area of clearance rather than a maximum volume; and Any other relevant amendments. 		
Decision Reasons:	<ul style="list-style-type: none"> The current rules for vegetation clearance within Significant Natural Areas fails to adequately protect or manage biodiversity values present in these areas. It is important to appropriately manage indigenous vegetation clearance to prevent further fragmentation and loss in the Waikato District. A volume of timber is dependent on the size of trees and their density where 5m3 may be clearance of an area of a few 5m2, where a few large trees have been harvested. An area limit is more suitable to ensure consistency of removal. 		

Submitter Number:	588	Submitter:	Peter Buchan
Organisation:	Woolworths NZ Ltd		
Point Number	588.54		
Plan chapter	Section C Rules		
Summary of Decision Requested	<p>Amend the Proposed District Plan to clarify that where buildings (which already require restricted discretionary activity consent) infringe standards, the activity status does not default to discretionary but remains restricted discretionary and a suitably limited set of criteria is applied.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential or alternative relief to give effect to the specific amendments sought.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Restricted discretionary activity status can be accompanied by suitably limited criteria that still ensure an appropriate assessment of effects is undertaken, whilst providing a level of certainty to applicants that where activities of effects is undertaken, whilst providing a level of certainty to applicants that where activities are anticipated, such assessments will be rational and streamlined. 		

Submitter Number:	636	Submitter:	Anna Noakes
Point Number	636.2		
Plan chapter	Section C Rules		
Summary of Decision Requested	Delete the catch all rule from the Proposed District Plan.		

Decision Reasons:	<ul style="list-style-type: none"> • If Council hasn't allowed for an activity it shouldn't automatically be given a non-complying activity status. • A non-complying activity status would pose an applicant a lot of work, time and cost which may not be of value. • It indicates the high possibility of a refusal.
--------------------------	--

Submitter Number:	691	Submitter:	McPherson Resources Limited
Point Number	691.22		
Plan chapter	Section C Rules		
Summary of Decision Requested	<p>Add a vibration and blasting rule associated with mineral and aggregate extraction activities, as follows (or words to similar effect):</p> <p><u>VIBRATION AND BLASTING - MINERAL AND AGGREGATE EXTRACTION ACTIVITIES</u></p> <p><i>a) The measurement of blast noise (air blast) and ground vibration from blasting shall be carried out in accordance with best practice standards.</i></p> <p><i>b) The noise created by the use of explosives measured at a notional boundary of 20 metres from occupied dwellings shall not exceed a peak overall sound pressure of 128 dB</i></p> <p><i>c) Blasting shall be confined to two occasions per day except where necessary for safety reasons.</i></p> <p><i>d) Where blasting is irregular and the occupiers of neighbouring sites could be alarmed, they shall be advised of pending blasts, at least one hour before any such blast.</i></p> <p><i>e) When blasting, the limit of particle velocity (peak particle velocity) measured on any foundation of an adjacent occupied building not connected with the site, or suitable location adjacent to the building, shall not exceed 25mm/second for commercial buildings or 10mm/second for dwellings and buildings of similar design.</i></p> <p><i>f) Every blast shall be recorded with particular attention to details of charge weight and delay practice. Monitoring using reliable and appropriate methods representative of all blasts, at varying distances and various sites of different sensitivity shall be carried out to ensure that clauses ii and vi above are complied with. Blast records and monitoring results shall be made available to the Council on request.</i></p> <p>AND</p> <p>Any consequential amendments or alternative relief to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The McPhersons oppose the removal of the provisions specifically related to aggregate extraction activities in the Operative District Plan, particularly when dealing with effects generally created by the aggregate industry. • It is proposed that rules specific to mineral and aggregate extraction activities are added which specifically defines what effects are anticipated from these sorts of activities. • The proposed rules intend to safeguard both the industry as well as the surrounding properties (insofar as reasonable and practicable). This is particularly important in relation to effects relating to noise, dust and vibration, as these are key elements of an activity of this kind. 		
Point Number	691.23

Point Number	697.329
Plan chapter	Section C Rules
Summary of Decision Requested	<p>Amend for consistency of reading, the following rule:</p> <p>Rule 16.4.6 Subdivision - Amendments and updates to cross lease flats plans and conversion to freehold.</p>
Decision Reasons:	Rules 16.4.6, 17.4.1.3 and 18.4.4 are worded differently from each other and should be worded the same for consistency given that it relates to the same subdivision process.
Point Number	697.330
Plan chapter	Section C Rules
Summary of Decision Requested	Amend Subdivision Rule - Title boundaries relating to Significant Natural Areas, Maaori sites and Maaori areas of Significance, heritage items and notable trees to split it out into separate rules, as already shown in some zone chapters for the subdivision rules.
Decision Reasons:	This provides clarity to the rules and consistency across the zone chapters.

Point Number	697.342
Plan chapter	Section C Rules
Summary of Decision Requested	Amend rules where the rule does not relate to a particular zone or area. For example some landscape areas do not apply across all zones and may need to be removed from the zone chapter. Another example is the battlefield view shaft rule.
Decision Reasons:	To ensure rules do apply in particular zones and those applicable rules are amended where they are not relevant.
Point Number	697.5
Plan chapter	Section C Rules
Summary of Decision Requested	Amend Rule 14.4.1.2(4)(b) Buildings, structures and sensitive land use within the National Grid Yard in all other zones as of 18 July 2018 In its relocated positions, as follows: (4) Artificial crop protection and support structures between 8m and 12m from a single pole support structure and any associated guy wire (but not tower) must: ... (b) Be maximum <u>no higher than 2.5m high</u> .
Decision Reasons:	<ul style="list-style-type: none"> Amend for clarity that artificial crop protection needs to be less than 2.5m. This will apply to the rule that is inserted into the zone chapters.
Point Number	697.56
Plan chapter	Section C Rules
Summary of Decision Requested	Delete Rule 14.11.2(RD2) Restricted Activities and associated matters of discretion from Chapter 14 AND Amend Chapters 16, 28, 24, 23 by relocating Rule 14.11.2 (RD2) and matters of discretion into these chapters.
Decision Reasons:	<ul style="list-style-type: none"> Relocate this rule into chapters 16, 28, 24, 23 as this is more logically located in the zone chapters
Point Number	697.6
Plan chapter	Section C Rules
Summary of Decision Requested	Amend Zone Chapters by replicating Rule 14.4.1 Earthworks activities within the National Grid Yard P3 and its activity-specific conditions in Rule 14.4.1.3 into Chapters 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28 where these zones are relevant to the location of the National Grid. AND Consequential renumbering will be required in the zone chapters.
Decision Reasons:	<ul style="list-style-type: none"> Replicate this rule into the zone chapters so the rule is more easily able to be found. The rule is focused on landuse rather than infrastructure.
Point Number	697.677
Plan chapter	Section C Rules
Summary of Decision Requested	Delete from Rule 20.5.7 PI (a) Signs - General conditions (ii) and (vii).
Decision Reasons:	<ul style="list-style-type: none"> Council cannot support conditions (ii) and (vii) due to the impracticality of these rules.
Point Number	697.9
Plan chapter	Section C Rules
Summary of Decision Requested	Amend Zone Chapters by Replicating Rule 14.4.2 (RD3 and its associated matters of discretion) into Chapters 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28 where these zones are relevant to the location of the National Grid. Consequential renumbering will be required in the zone chapters. AND Retain Rule 14.4.2(RD3) in Chapter 14.
Decision Reasons:	<ul style="list-style-type: none"> Replicate this rule into the zone chapters so the rule is more easily able to be found. The rule is focused on landuse rather than infrastructure.

Submitter Number:	724	Submitter:	Sue Robertson
Organisation:	Tamahere Community Committee		
Point Number	724.1		
Plan chapter	Section C Rules		
Summary of Decision Requested	Retain the rules permitting a Minor Dwelling, particularly the following aspects: <ul style="list-style-type: none"> Permitted activity status Absence of standards restricting the accommodation to a dependent relative Absence of the limitation on the number of kitchens on a property (and the definition of a kitchen) Enabling a minor dwelling to be either attached or detached as the primary dwelling. 		
Decision Reasons:	<ul style="list-style-type: none"> Supports the occupation of a minor dwelling by any person and therefore "levels the playing field" by not limiting it to a dependent relative. Allows the dwelling to be used by anyone when dependent relatives die or move, or if the property is sold. The removal of the limitations on kitchens and the ability to have an attached or detached minor dwelling removes confusion. 		

Point Number	724.10
Plan chapter	Section C Rules
Summary of Decision Requested	Amend the building setbacks from Tamahere Commercial Areas A and B, by reinstating the requirements of the Operative District Plan rule that enables an accessory building or non-habitable building to be built within the 100m setbacks from these areas.
Decision Reasons:	<ul style="list-style-type: none"> A non-habitable building should be able to be built within this setback area.
Point Number	724.18
Plan chapter	Section C Rules
Summary of Decision Requested	Retain the rules regarding Indigenous vegetation clearance inside a Significant Natural Area, which applies to gullies identified as Significant Natural Areas.
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.
Point Number	724.20
Plan chapter	Section C Rules
Summary of Decision Requested	Retain subdivision rules requiring identified off-road walkways be vested and that land is proactively sought while required.
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.

Submitter Number:	731	Submitter:	Jean Tregidga
Point Number	731.7		
Plan chapter	Section C Rules		
Summary of Decision Requested	Delete all rules in Section C relating to indigenous vegetation and habitats.		
Decision Reasons:	<ul style="list-style-type: none"> These rules are unreasonable and unnecessary as the majority of landowners take a responsible approach to managing indigenous vegetation on their properties. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.124

On behalf of:	P & B Day		
Point Number	760.3		
Plan chapter	Section C Rules		
Summary of Decision Requested	Delete the requirement for boundaries to not divide a Significant Natural Area or Significant Amenity Landscape.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons stated. 		

Submitter Number:	774	Submitter:	Stuart Cummings
Organisation:	Surrey Chambers		
Point Number	774.1		
Plan chapter	Section C Rules		
Summary of Decision Requested	No specific decision sought, however the submission opposes the adoption of the identification of landscapes and natural character if that means that existing use rights regarding height and boundary are affected.		
Decision Reasons:	<ul style="list-style-type: none"> If this were allowed, it would amount to retrospective imposition of restrictions on property rights to the detriment of the previously uninformed owner. For example, if an existing height use is allowed to continue, these cannot logically be any increase in the "lost" amenity value or vision disturbance. 		

Submitter Number:	780	Submitter:	John Lawson (Whaingaroa Environmental Defence Incorpora
On behalf of:	Whaingaroa Environmental Defence Incorporated Society		
Point Number	780.1		
Plan chapter	Section C Rules		
Summary of Decision Requested	<p>Add areas of Significant indigenous vegetation or habitat through the use of LENZ and in consultation with conservation and environment groups.</p> <p>AND</p> <p>Add rules for Significant indigenous vegetation and habitat as follows:</p> <p><u>In a significant indigenous vegetation or habitat area the following are discretionary activities:-</u></p> <ul style="list-style-type: none"> • <u>Cultivation.</u> • <u>Spreading soil or other material (including fertilizer or lime) in excess of existing routine application rates.</u> • <u>Drainage works, apart from routine maintenance.</u> • <u>Land reclamation from estuary or other wetlands.</u> • <u>Modifications to watercourses apart from routine maintenance.</u> • <u>Flood defences.</u> • <u>Infilling ditches, ponds, pits, pools, marshes or historic earthwork features.</u> • <u>Clearing vegetation or land (by physical removal, burning, application of herbicides, or deliberate overgrazing, trampling, or rooting by livestock) in preparation for cultivation.</u> • <u>Introducing livestock (including poultry) at intensive stocking rates, or increasing stocking rates to intensive levels.</u> 		
Decision Reasons:	<ul style="list-style-type: none"> • Large amount of indigenous forest and scrub in the Waikato District and that up to 50% of it is threatened and most of that is not legally protected. • The NZ Biodiversity Strategy (page 33) set the 2020 goal as, "A net gain has been made in the extent and condition of natural habitats and ecosystems important for indigenous biodiversity. Scarce and fragmented habitats (such as lowland forests and grasslands, wetlands and dunelands) have increased in area and are in better ecological health due to improved connections and the sustainable management of surrounding areas. Some modified habitats are restored." 		
Point Number	780.10		
Plan chapter	Section C Rules		
Summary of Decision Requested	<p>Add rules for each catchment to Section C Rules - to provide to support the following:</p> <ul style="list-style-type: none"> • on-site stormwater disposal • sufficient capacity to enable disposal of stormwater • best-practice low impact design • on-site treatment • minimises impervious surfaces • retains pre-development hydrological conditions • not increase the flow of stormwater runoff • not reduce storage capacity on-site • stormwater catchment management plan • promotes clean water reuse and groundwater recharge <p>AND</p> <p>Amend Section C Rules to provide rules for individual limits to suit each catchment, rather than permitted up to 70% impermeable cover everywhere.</p> <p>AND</p> <p>No specific decision sought but submission opposes Policy 4.2.7 Site coverage and permeable surfaces, Policy 6.4.7 Storm water and Rule 14.11.1.2 RD2.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter opposes policies 4.2.7 and 6.4.7, as the only rules implementing them in Raglan are discretionary and ill-defined. For example, "where appropriate" is not defined. • No scientific stormwater plan for Raglan has been completed, though a settling pond at AroAro was designed in 2011 as a filtration wetland for the stormwater. Pollutants such as copper are at or near their limits and addition of more sites with 70% impermeable cover will exacerbate the pollution. Application of Rule 14.11.1.2 RD2's discretion without clear scientific evidence of effects will make pollution even worse. 		
Point Number	780.11		
Plan chapter	Section C Rules		
Summary of Decision Requested	Add rules to support Policy 4.2.7 - Site Coverage and Permeable Surfaces.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the policies of having sufficient open space to provide for landscaping, on-site stormwater disposal in the Residential Zone, but objects that they do not appear to have any corresponding rules, except for Te Kowhai Airpark Zone Rule 27.3.3. 		
Point Number	780.29		
Plan chapter	Section C Rules		
Summary of Decision Requested	Delete the Raglan navigation beacon rules from Zone rules to which they have no relevance.		
Decision Reasons:	<ul style="list-style-type: none"> • Although the Raglan navigation beacons are only in Business Town Centre, Reserve and Residential Zones, this policy applies also to Business and Rural zones! Only policies relevant to zones should be included in their chapters. There is already too much repetition in the Plan, which makes it hard to comprehend. 		
Point Number	780.32		
Plan chapter	Section C Rules		
Summary of Decision Requested	Amend the earthworks rules for all zones that prescribe limits over a specified timeframe e.g. 12 month period to add limits to total development, consistent with maintaining the values of the site.		
Decision Reasons:	<ul style="list-style-type: none"> • Incremental annual changes can amount to significant destruction of areas which should be protected. 		

Point Number	780.34
Plan chapter	Section C Rules
Summary of Decision Requested	Add policies and rules to all zones for energy efficiency (refer to the original submission for details)
Decision Reasons:	<ul style="list-style-type: none"> The Resource Management Act requires Council's to have regard to effects of climate change and benefits of renewable energy. The Proposed Waikato District Plan only makes passing reference to climate change and makes no mention of the drivers of climate change. There is also no commitment to solar and wind energy and micro-hydro reference has been removed. The submitter is disappointed on timing of Stage 2 and wants adequate considerations for energy and climate change and noted that the IPCC report came out 24 hours before close of submissions.
Point Number	780.5
Plan chapter	Section C Rules
Summary of Decision Requested	<p>Add new rules for all zones as follows:</p> <p><u>Construction of a building or other structure and planting of trees and other vegetation is a permitted activity if:</u></p> <p>(a) <u>it can be shown that it will not significantly block views of sea, river, bush or hills from neighbouring properties, or</u></p> <p>(b) <u>neighbouring property owners confirm in writing that any loss of view does not concern them, or</u></p> <p>(c) <u>it can be shown that the planted vegetation is of native plants and likely to contribute to reduction of river, or coastal erosion, or</u></p> <p>(d) <u>it can be shown that the planting would improve views from public places.</u></p> <p><u>Any activity that does not comply with a condition for a permitted activity is a discretionary activity.</u></p>
Decision Reasons:	<ul style="list-style-type: none"> Sea and other views add monetary value to properties. Property rights of owners should take precedence over developers. Developers should be required to obtain written agreement from neighbours that the development does not concern them in terms of views lost, unless it is native planting to protect land from erosion, hides unsightly developments or will not significantly affect views. While no requirement under the RMA to protect views, no provisions against either. Feasible to protect views as shown by other district plans. Only 4.7.2 requires view sharing and this will not apply to most developments as they do not require consent.

Submitter Number:	785	Submitter:	Z Energy Limited, BP Oil NZ Limited and Mobil Oil NZ Limited
Organisation:	'Oil Companies'		
Point Number	785.55		
Plan chapter	Section C Rules		
Summary of Decision Requested	<p>Add a new Permitted Activity Rule to any other Zone Chapters not covered by other submission points as follows:</p> <p><u>PX</u></p> <p><u>Any Healthy and Safety signage required by legislation.</u></p> <p>AND</p> <p>Add an additional definition (if necessary) of 'health and safety' sign as follows:</p> <p><u>Health and Safety sign means any sign necessary to meet other legislative requirements (e.g. HSNO/Work-safe).</u></p> <p>AND</p> <p>Any consequential amendments or additional relief to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> There is no existing provision for Health and Safety signs – a new provision is sought by the submitter who opposes this omission. The submitter seeks a permitted activity rule in all zone chapters to provide for health and safety required by legislation. The proposed policy framework does not exempt health and safety signage or signage required by legislation. It is not appropriate or necessary to require such signage to be assessed against the Proposed District Plan signage provisions and therefore a dedicated permitted activity rules is required. If further clarification of what is considered as 'health and safety' signs is required then a definition that includes any signs required by other legislation, should be adopted. 		

Submitter Number:	794	Submitter:	Middlemiss Farm Holdings Limited
Point Number	794.30		
Plan chapter	Section C Rules		
Summary of Decision Requested	<p>Amend the Proposed District Plan to enable the creation of up to 2 additional lots at 95 Jericho Road, Pukekohe East for a minimum 3ha of restoration and protection of indigenous vegetation. The size of the new lots could be between 5000m² to 1.5ha.</p> <p>AND</p> <p>Amend the Proposed District Plan consequential or additional amendments as necessary to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Incentive mechanisms are appropriate and necessary to afford the degraded stream on the property the protection it requires. 		

Submitter Number:	796	Submitter:	New Zealand Defence Force
Point Number	796.3		
Plan chapter	Section C Rules		

Summary of Decision Requested	<p>Add a permitted activity rule for temporary military training activities within a general district wide chapter that applies across all zones, subject to appropriate noise standards;</p> <p>OR</p> <p>Add a new permitted activity rule as shown below for temporary military training activities to the following chapters:</p> <ul style="list-style-type: none"> • Chapter 16 Residential Zone • Chapter 17 Business Zone • Chapter 18 Business Town Centre Zone • Chapter 19 Business Zone Tamahere • Chapter 20 Industrial Zone • Chapter 21 Industrial Zone Heavy • Chapter 22 Rural Zone • Chapter 23 Country Living Zone • Chapter 24 Village Zone • Chapter 25 Reserve Zone • Chapter 26 Hampton Downs Motor Sport Recreation Zone • Chapter 27 Te Kowhai Airpark Zone • Chapter 28 Rangitahi Peninsula Zone <p><u>P*: Temporary military training activities</u></p> <p>Activity-specific conditions</p> <p><u>The activity must comply with the permitted activity noise standards for temporary military training activities.</u></p>
Decision Reasons:	<ul style="list-style-type: none"> • Due to temporary and specialised nature of temporary military training activities, the submitter considers it generally appropriate that those activities be exempt from other rules in other chapters such as transportation and structures. • As the Proposed District Plan is currently drafted, temporary military training activities would be a non-complying activity as they are not provided for as a permitted, restricted discretionary, discretionary or prohibited activity. Considered inappropriate and onerous. • A permitted activity status would have little or no environmental effects, such as search and rescue operations or small construction tasks undertaken for training purposes would require resource consent as a non-complying activity, which is not effects-based or a good resource management process. • The submitter must undertake training in order to fulfil statutory obligations under the Defence Act. Including provision for temporary military training activities as a permitted activity provides certainty that such activities can occur when required, while providing adequate protection of the environment through compliance with noise standards.
Point Number	796.4
Plan chapter	Section C. Rules
Summary of Decision Requested	<p>Add permitted activity noise standards in a general district-wide chapter that applies across all zones for temporary military training activities (see Attachment 2 to the submission for specific standards);</p> <p>OR</p> <p>Add new permitted activity noise standards for temporary military training activities (see Attachment 2 to the submission for specific standards) to the following chapters:</p> <ul style="list-style-type: none"> • Chapter 16 Residential Zone • Chapter 17 Business Zone • Chapter 18 Business Town Centre Zone • Chapter 19 Business Zone Tamahere • Chapter 20 Industrial Zone • Chapter 21 Industrial Zone Heavy • Chapter 22 Rural Zone • Chapter 23 Country Living Zone • Chapter 24 Village Zone • Chapter 25 Reserve Zone • Chapter 26 Hampton Downs Motor Sport Recreation Zone • Chapter 27 Te Kowhai Airpark Zone • Chapter 28 Rangitahi Peninsula Zone
Decision Reasons:	<ul style="list-style-type: none"> • There are currently no permitted activity standards relating to temporary military training activities. • The submitter has prepared noise standards specific to temporary military training activities and has requested that these standards be included in the Waikato District Plan. • See Attachment 3 in the submission for an explanation of the standards.
Point Number	796.5
Plan chapter	Section C. Rules
Summary of Decision Requested	<p>Add a controlled activity rule within a general district wide chapter of the District Plan for temporary military training activities that do not meet Permitted Activity standards;</p> <p>OR</p> <p>Add a new controlled activity rule as shown below for temporary military training activities that do not meet the permitted activity standards to the following chapters:</p> <ul style="list-style-type: none"> • Chapter 16 Residential Zone • Chapter 17 Business Zone • Chapter 18 Business Town Centre Zone • Chapter 19 Business Zone Tamahere • Chapter 20 Industrial Zone • Chapter 21 Industrial Zone Heavy • Chapter 22 Rural Zone • Chapter 23 Country Living Zone • Chapter 24 Village Zone • Chapter 25 Reserve Zone • Chapter 26 Hampton Downs Motor Sport Recreation Zone • Chapter 27 Te Kowhai Airpark Zone • Chapter 28 Rangitahi Peninsula Zone <p><u>C* Any temporary military training activities that do not comply with the permitted activity noise standard.</u></p> <p>Council's discretion shall be restricted to the following matters:</p> <p><u>(g) Noise effects</u></p>
Decision Reasons:	<ul style="list-style-type: none"> • The submitter must undertake training to fulfil its statutory obligations under the Defence Act 1990. • A controlled activity status provides a level of certainty to the submitter that an activity can proceed. • Allows Council discretion to ensure relevant effects (being noise) are appropriately managed. • In determining what conditions to impose, Council should limit its discretion to effects relating to the permitted activity noise standards only.
Submitter Number:	825
Submitter:	John Lawson

Point Number	825.1
Plan chapter	Section C Rules
Summary of Decision Requested	<p>Add areas of Significant Indigenous vegetation or habitat by use of LENZ and in consultation with conservation and environment groups.</p> <p>AND</p> <p>Add rules for significant indigenous vegetation and habitat as follows:</p> <p><i>In a significant indigenous vegetation or habitat area the following are discretionary activities:-</i></p> <ul style="list-style-type: none"> • <u>Cultivation.</u> • <u>Spreading soil or other material (including fertilizer or lime) in excess of existing routine application rates.</u> • <u>Drainage works apart from routine maintenance.</u> • <u>Land reclamation from estuary or other wetlands.</u> • <u>Modifications to watercourses apart from routine maintenance.</u> • <u>Flood defences.</u> • <u>Infilling ditches, ponds, pits, pools, marshes or historic earthwork features.</u> • <u>Clearing vegetation or land (by physical removal, burning, application of herbicides, or deliberate overgrazing, trampling or rooting by livestock) in preparation for cultivation.</u> • <u>Introducing livestock (including poultry) at intensive stocking rates, or increasing stocking rates to intensive levels.</u>
Decision Reasons:	<ul style="list-style-type: none"> • The 2005 WDC State of Environment Report (page 66) states that "Since 1992 the Waikato District has experienced a of approximately 1,345 ha (which could be as high as 1,508ha) of indigenous forest and 1,388ha (which could be as high as 1,706 ha) of indigenous scrub. • Large amount of indigenous forest and scrub in the Waikato District and that up to 50% of it is threatened and most of that is not legally protected. • The NZ Biodiversity Strategy (page 33) set the 2020 goal as, "A net gain has been made in the extent and condition of natural habitats and ecosystems important for indigenous biodiversity. Scarce and fragmented habitats (such as lowland forests and grasslands, wetlands and dunelands) have increased in area and are in better ecological health due to improved connections and the sustainable management of surrounding areas. Some modified habitats are restored."
Point Number	825.10
Plan chapter	Section C Rules
Summary of Decision Requested	<p>Add rules to each catchment to Section C Rules - to provide to support the following:</p> <ul style="list-style-type: none"> • on-site stormwater disposal • sufficient capacity to enable disposal of stormwater • best-practice low impact design • on-site treatment • minimises impervious surfaces • retains pre-development hydrological conditions • not increase the flow of stormwater runoff • not reduce storage capacity on-site • stormwater catchment management plan • promotes clean water reuse and groundwater recharge <p>AND</p> <p>Amend Section C Rules to provide rules for individual limits to suit each catchment, rather than permitted up to 70% impermeable cover everywhere.</p> <p>AND</p> <p>No specific decision sought, but submission opposes Policy 4.2.7 Site coverage and permeable surfaces, Policy 6.4.7 Storm water and Rule 14.1.1.2 RD2.</p>
Decision Reasons:	<ul style="list-style-type: none"> • The submitter opposes policies 4.2.7 and 6.4.7, as the only rules implementing them in Raglan are discretionary and ill-defined. For example, "where appropriate" is not defined. • No scientific stormwater plan for Raglan has been completed, though a settling pond at AroAro was designed in 2011 as a filtration wetland for the stormwater. Pollutants such as copper are at or near their limits and addition of more sites with 70% impermeable cover will exacerbate the pollution. Application of Rule 14.1.1.2 RD2's discretion without clear scientific evidence of effects will make pollution even worse.
Point Number	825.11
Plan chapter	Section C Rules
Summary of Decision Requested	Add rules to support Policy 4.2.7 - Site Coverage and Permeable Surfaces.
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the policies of having sufficient open space to provide for landscaping, on-site stormwater disposal in the Residential Zone, but objects that they do not appear to have any corresponding rules, except for Te Kowhai Airpark Zone Rule 27.3.3.
Point Number	825.29
Plan chapter	Section C Rules
Summary of Decision Requested	Amend Section C Rules to delete the Raglan navigation beacon rules from Zone rules to which they have no relevance.
Decision Reasons:	<ul style="list-style-type: none"> • Although the Raglan navigation beacons are only in Business Town Centre, Reserve and Residential Zones, this policy applies also to Business and Rural zones! Only policies relevant to zones should be included in their chapters. There is already too much repetition in the Plan, which makes it hard to comprehend.
Point Number	825.32
Plan chapter	Section C Rules
Summary of Decision Requested	Amend the earthworks rules for all zones that prescribe limits over a specified timeframe e.g. 12 month period to add limits to total development, consistent with maintaining the values of the site.
Decision Reasons:	<ul style="list-style-type: none"> • Incremental annual changes can amount to significant destruction of areas which should be protected.
Point Number	825.34
Plan chapter	Section C Rules
Summary of Decision Requested	Add policies and rules to all zones for energy efficiency (refer to the original submission for details)
Decision Reasons:	<ul style="list-style-type: none"> • The Resource Management Act requires Council's to have regard to effects of climate change and benefits of renewable energy. The Proposed Waikato District Plan only makes passing reference to climate change and makes no mention of the drivers of climate change. There is also no commitment to solar

and wind energy and micro-hydro reference has been removed.

- The submitter is disappointed on timing of Stage 2 and wants adequate considerations for energy and climate change and noted that the IPCC report came out 24 hours before close of submissions.

Point Number 825.5

Plan chapter Section C Rules

Summary of Decision Requested **Add** new rules for all zones as follows:

Construction of a building or other structure and planting of trees and other vegetation is a permitted activity if:

(a) it can be shown that it will not significantly block views of sea, river, bush or hills from neighbouring properties, or

(b) neighbouring property owners confirm in writing that any loss of view does not concern them, or

(c) it can be shown that the planted vegetation is of native plants and likely to contribute to reduction of river, or coastal erosion, or

(d) it can be shown that the planting would improve views from public places.

Any activity that does not comply with a condition for a permitted activity is a discretionary activity.

Decision Reasons:

- Sea and other views add monetary value to properties.
- Property rights of owners should take precedence over developers. Developers should be required to obtain written agreement from neighbours that the development does not concern them in terms of views lost, unless it is native planting to protect land from erosion, hides unsightly developments or will not significantly affect views.
- While no requirement under the RMA to protect views, no provisions against either. Feasible to protect views as shown by other district plans.
- Only 4.7.2 requires view sharing and this will not apply to most developments as they do not require consent.

Submitter Number: 827 **Submitter:** New Zealand Steel Holdings Ltd

Point Number 827.6

Plan chapter Section C Rules

Summary of Decision Requested **Amend** rules relating to the Coastal Environment overlay to ensure they do not apply to the Waikato North Head mine site.

AND

Any other further or consequential amendments required.

Decision Reasons:

- Considers that the mine site is sufficiently unique that it warrants specific treatment through the application of a mining zone.
- This would override any rules associated with the Coastal Environment overlay.
- That approach is justified given the status of the mining licence.

Submitter Number: 830 **Submitter:** Linda Silvester

Point Number 830.1

Plan chapter Section C Rules

Summary of Decision Requested **Amend** all Earthworks rules that prescribe a time period such as within a consecutive 12 month period to add limits to the total development consistent with maintaining the values of the site.

Decision Reasons:

- Incremental annual changes can amount to significant destruction of areas which should be protected.

Submitter Number: 831 **Submitter:** Gabrielle Parson

On behalf of: Raglan Naturally

Point Number 831.14

Plan chapter Section C Rules

Summary of Decision Requested **Add** new provisions to Chapters 16 to Chapter 28 regarding energy efficiency and solar power (see submission for details).

Decision Reasons:

- The Proposed District Plan only makes passing reference to climate change and says nothing about the effects of coal, gas and oil on global warming.
- Despite mentioning 'passive solar' in the Proposed District Plan, there is no rule requiring use of solar power.
- Waipa District Plan specifically lists solar power generation collector panels up to 6m² as a permitted development. The St Kilda development has covenants covering solar power and stormwater.
- It is disappointing that Stage 2 of the Proposed District Plan is to be published in 2019 and it is not possible to consider it in context with Stage 1.
- There is a need for cooperation between local, regional and national governments.

Point Number 831.2

Plan chapter Section C Rules

Summary of Decision Requested **Amend** all earthworks rules that prescribe limits over a time frame (e.g. within a single consecutive 12 month period) by removing the phrase or reference to "consecutive 12 month period" and replace with a total development limit consistent with maintaining the value of the sites.

Decision Reasons:

- Incremental annual changes can amount to significant destruction of areas which should be protected, including sand dunes, which the Whaingaroa Beachcare group have been attempting to protect.

Point Number 831.31

Plan chapter	Section C Rules
Summary of Decision Requested	Amend P9 in Rule 16.1.2 Permitted Activities, to require registration of homestay or visitor accommodation.
Decision Reasons:	<ul style="list-style-type: none"> • Air bnb does not contribute a fair share to seasonal infrastructure costs. • Raglan needs a plan similar to that of Queenstown to avoid more residential accommodation becoming available only to visitors. • As residents tend to move to and from the surrounding country areas, the same policy needs to apply there. • Queenstown has rules requiring registration as a homestay, or a holiday home and, for larger properties, resource consent for a change of use. • Raglan needs similar rules.
Point Number	831.38
Plan chapter	Section C Rules
Summary of Decision Requested	Add rules within each zone to replicate Rule 23.3.9.5 All heritage items - site developmen, requiring that a development on a site containing a heritage item listed in Schedule 30, be set back at least 10m from the heritage item.
Decision Reasons:	<ul style="list-style-type: none"> • To celebrate and protect archaeological sites, so as to enhance understanding of our history, improve the tourist experience and preserve our inheritance for future generations.
Point Number	831.48
Plan chapter	Section C Rules
Summary of Decision Requested	Add new rules that read as follows <u>In a significant indigenous vegetation or habitat area the following are discretionary activities:</u> <ul style="list-style-type: none"> • <u>Cultivation</u> • <u>Spreading soil or other material (including fertilizer or lime) in excess of existing routine application rates</u> • <u>Drainage works, apart from routine maintenance</u> • <u>Land reclamation from estuary or other wetlands</u> • <u>Modifications to watercourses apart from routine maintenance</u> • <u>Flood defences</u> • <u>Infilling ditches, ponds, pits, pools, marshes or historic earthwork features</u> • <u>Clearing vegetation or land (by physical removal, burning, application of herbicides, or deliberate overgrazing, tramping, or rooting by livestock) in preparation for cultivation</u> • <u>Introducing livestock (including poultry) at intensive stocking rates, or increasing stocking rates to intensive levels.</u>
Decision Reasons:	<ul style="list-style-type: none"> • The 2013 Waikato District Council Statement of the Environment report said "there is evidence to indicate that over 50 per cent of remaining indigenous cover is classified as threatened and much of this land is not legally protected." • The New Zealand Biodiversity Strategy set the 2020 goal as "A net gain has been made in the extent and condition of natural habitats and ecosystems important for indigenous biodiversity. Scarce and fragmented habitats have increased in area and are in better ecological health due to improved connections and the sustainable management of surrounding areas. Some modified habitats are restored."
Point Number	831.5
Plan chapter	Section C Rules
Summary of Decision Requested	Add a new chapter to address the need for recycling centres in rural locations that achieve appropriate screening and vehicle access standards.
Decision Reasons:	<ul style="list-style-type: none"> • Rubbish dumping and areas for recycling are hardly mentioned in the Proposed District Plan. • The locations of these have been controversial and criteria should be set by the Proposed District Plan. • Areas such as Te Uku, Waitetuna and Te Mata need such centres to maximise recycling, but they need to avoid drawbacks such as wind-blown rubbish and noise disturbance.
Point Number	831.72
Plan chapter	Section C Rules
Summary of Decision Requested	No specific decision is sought, but the submitter considers it is not clear that the rules sufficiently identify and protect significant natural areas.
Decision Reasons:	<ul style="list-style-type: none"> • The 2013 Waikato District Council Statement of the Environment report said "there is evidence to indicate that over 50 per cent of remaining indigenous cover is classified as threatened and much of this land is not legally protected." • The New Zealand Biodiversity Strategy set the 2020 goal as "A net gain has been made in the extent and condition of natural habitats and ecosystems important for indigenous biodiversity. Scarce and fragmented habitats have increased in area and are in better ecological health due to improved connections and the sustainable management of surrounding areas. Some modified habitats are restored."

Submitter Number:	838	Submitter:	Madsen Lawrie Consultants
Point Number	838.12		
Plan chapter	Section C Rules		
Summary of Decision Requested	Add clarification of the term "contiguous area" and a "Significant Natural Area", as contained in Rule 22.4.1.6(a)(i) Conservation lot subdivision.		
Decision Reasons:	<ul style="list-style-type: none"> • Further definition of this term will aid in the interpretation of the rule and will assist in the identification of areas eligible for subdivision under this rule. 		
Point Number	838.19		
Plan chapter	Section C Rules		
Summary of Decision Requested	Add clarification of the term "Significant Natural Area" in the context of Rule 22.4.1.6(a)(i) Conservation lot subdivision.		
Decision Reasons:	<ul style="list-style-type: none"> • Further definition of this term will aid in the interpretation of the rule and will assist in the identification of areas eligible for subdivision under this rule.

--------------------------	-----	-------------------	--------------------------

Point Number	862.32
Plan chapter	Section C Rules
Summary of Decision Requested	In the event that the proposed Havelock Village Masterplan and Precinct are not accepted, amend the Proposed District Plan as necessary to enable the efficient development of the Havelock Village site; AND Any consequential amendments and alternative relief to give effect to the matters raised in the submission.
Decision Reasons:	<ul style="list-style-type: none"> To enable the enable the efficient development of the Havelock Village site.

Submitter Number:	929	Submitter:	Chantelle White
Point Number	929.2		
Plan chapter	Section C Rules		
Summary of Decision Requested	Retain Rules as notified in the proposed plan to support Maori land development.		
Decision Reasons:	<ul style="list-style-type: none"> Reasons of support based on submitter's comments on previous point. (921.1). 		

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.29		
Plan chapter	Section C Rules		
Summary of Decision Requested	Add a rule requiring communities to be notified if cell towers or other transmitters are to be located in their area.		
Decision Reasons:	<ul style="list-style-type: none"> While infrastructure that generates electromagnetic or radiation frequency fields must comply with the International Commission on Non-ionising Radiation Protection Guidelines, relevant WHO guidelines and the New Zealand Standard Electromagnetic field (EMF), EMF can still pass through the earth, walls and human or animal bodies and therefore can have adverse effects on the health and wellbeing of humans and their environment. 		

Submitter Number:	984	Submitter:	Glenda Raumati
On behalf of:	Trustee Turangawaewae Trust Board		
Point Number	984.11		
Plan chapter	Section C Rules		
Summary of Decision Requested	Amend the Proposed District Plan to provide setbacks from the waterways that are consistent with Proposed Plan Change 1 to the Waikato Regional Council and gives effect to the Vision and Strategy for the Waikato River and the Waikato-Tainui Environmental Plan.		
Decision Reasons:	<ul style="list-style-type: none"> Turangawaewae Trust Board have concerns that the earthworks setbacks do not adequately protect waterways and fail to be consistent with the notified Proposed Plan Change 1 to the Waikato Regional Plan. This plan change process triggered by the need to give effect to the Vision and Strategy for the Waikato River requires a minimum setback of 5m from a waterway (for cropping only) to be considered a permitted activity. The Proposed Waikato District Plan allows for a 1.5 setback in the Residential Zone and appears to have no setbacks at all for earthworks in the Rural Zone. The lack of a setback is inappropriate and has failed to have regard to the Vision and Strategy for the Waikato River and the Waikato-Tainui Environmental Plan. As a minimum it would be anticipated that the Proposed District Plan change would be consistent with Proposed Plan Change 1 to the Waikato Regional Plan. 		
Point Number	984.12		
Plan chapter	Section C Rules		
Summary of Decision Requested	Retain earthworks on Maaori Sites of Significance and Maaori Areas of Significance as a restricted discretionary activity.		
Decision Reasons:	<ul style="list-style-type: none"> Turangawaewae Trust Board support this activity status as early warning when such activities are being undertaken is desirable. 		
Point Number	984.13		
Plan chapter	Section C Rules		
Summary of Decision Requested	Retain the activity status and clearance thresholds for indigenous vegetation clearance for marae, dwellings and papakainga on Maaori Freehold Land or Maaori Customary Land.		
Decision Reasons:	<ul style="list-style-type: none"> Turangawaewae Trust Board support the ability to clear indigenous vegetation for the purpose of establishing these activities on Maaori Freehold Land or Maaori Customary Land. 		

Plan chapter: Section C Rules > Chapter 12 How to use and interpret the rules

Submitter Number:	559	Submitter:	Sherry Reynolds
--------------------------	-----	-------------------	-----------------

On behalf of:	Heritage New Zealand Lower Northern Office
Point Number	559.285
Plan chapter	Section C Rules > Chapter 12 How to use and interpret the rules
Summary of Decision Requested	<p>Retain Chapter 12.1 How to use and interpret the rules, except for the amendments sought below.</p> <p>AND</p> <p>Add a new section (k) to Chapter 12.1 How to use and interpret the rules as follows:</p> <p><i>(k) The New Zealand Archaeological Association archaeological sites are included on the planning maps for District Plan information purposes only. However these sites are subject to the requirements of the Heritage New Zealand Pouhere Taonga Act 2014. Heritage New Zealand Pouhere Taonga must be contacted regarding development on or in proximity to these sites and the need to undertake an archaeological assessment to determine the need for an archaeological authority. The Heritage New Zealand Pouhere Taonga Act 2014 protects both recorded and unrecorded archaeological sites.</i></p>
Decision Reasons:	<ul style="list-style-type: none"> The submitter is concerned that the New Zealand Archaeological Association (NZAA) sites are shown on the Plan planning maps for information only, yet the purpose is not discussed in the parts of the Chapter 12 that refer to the planning maps. The submitter considers that it needs to be highlighted in Chapter 12, through an advice note that the NZAA sites are included for information as they have the potential to impact on the natural of the proposed development and property owners and developers need to be aware of their obligations under the Heritage New Zealand Pouhere Taonga Act 2014 protects both recorded and unrecorded archaeological sites.

Point Number	697.575		
Plan chapter	Section C Rules > Chapter 12 How to use and interpret the rules		
Summary of Decision Requested	<p>Amend Chapter 12 How to use and interpret the rules as follows;</p> <p>Add a new heading 12.1 Explanation</p> <p>AND</p> <p>Amend by renumbering existing 12.1 Introduction to rules to 12.1.1</p> <p>AND</p> <p>Amend 12.2 Categories of Activities to 12.1.2</p> <p>AND</p> <p>Amend 12.4 Rule Table to 12.1.3</p> <p>AND</p> <p>Amend 12.5 How to find out if a resource consent is needed to 12.1.4</p> <p>AND</p> <p>Add a new heading 12.2 Rules</p> <p>AND</p> <p>Amend 12.3 Additional matters... to 12.2.1</p> <p>AND</p> <p>Add a new Rule 12.2.2. Deeming rules for roads.</p>		
Decision Reasons:	<ul style="list-style-type: none"> This chapter contains a mixture of explanations and actual rules and they need to be organised under two separate sections of the chapter to make it clear which is explanation and which are the rules. 		

Plan chapter: Section C Rules > Chapter 12 How to use and interpret the rules > 12.1 Introduction to rules

Submitter Number:	567	Submitter:	Ngati Tamaoho Trust
Point Number	567.12		
Plan chapter	Section C Rules > Chapter 12 How to use and interpret the rules > 12.1 Introduction to rules		
Summary of Decision Requested	<p>Add the following to Section 12.1 - Introduction, as follows:</p> <p><i>(k) Rules set within the Plan are a minimum requirement, not an aspiration but a starting point. Each activity must set how the development/activity will aspire to more than minimum requirements.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.479		
Plan chapter	Section C Rules > Chapter 12 How to use and interpret the rules > 12.1 Introduction to rules		
Summary of Decision Requested	<p>Amend Rule 12.1(e) Introduction to the rules as follows:</p> <p><i>Chapter 14: Infrastructure and Energy and Chapter 15: Natural Hazards and Climate Change (Stage 2 of the district plan review Placeholder) apply to land use and subdivision across the whole district.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> It needs to be clarified throughout the Proposed District Plan that the provisions in Chapter 14: Infrastructure and Energy and Chapter 15: Natural Hazards and Climate Change apply to subdivision. Also, the term 'Placeholder' should be used for consistency throughout the plan. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.63		
Plan chapter	Section C Rules > Chapter 12 How to use and interpret the rules > 12.1 Introduction to rules		
Summary of Decision Requested	<p>Amend 12.1(d) Introduction as follows:</p> <p><i>Chapter 13 contains all the definitions that are used in the plan rules within Section C. The definitions form part of the rules ...</i></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers that definitions are integral to district plan interpretation, however, clause 12.1(d) states that the definitions in Chapter 13 apply to the rules within Section C (and by omission not to the entire plan, including objectives and policies in Section B). It is unclear why a term defined for the purpose of a rule would not carry the same meaning for the purpose of the whole plan. 		
Point Number	742.65		
Plan chapter	Section C Rules > Chapter 12 How to use and interpret the rules > 12.1 Introduction to rules		
Summary of Decision Requested	<p>Retain Section 12.1(h) Introduction to rules, except for the amendments sought below</p> <p>AND</p> <p>Amend Section 12.1(h) Introduction to rules as follows:</p> <p><i>Roads appear white on the planning maps and are not zoned, <u>nor do policy areas or sites/features apply to roads</u>. Rules relating to activities occurring in the road corridor are set out in Chapter 14: Infrastructure and Energy.</i></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the clarification in clause 12.1(h) that roads are not zoned. However, the submitter considers that clarification is needed regarding whether policy areas and sites/features apply to roads. 		

Submitter Number:	798	Submitter:	Ngati Te Ata
Point Number	798.13		
Plan chapter	Section C Rules > Chapter 12 How to use and interpret the rules > 12.1 Introduction to rules		
Summary of Decision Requested	<p>Add the following text to Section 12.1 Introduction to rules:</p> <p><u><i>Rules set within the Plan are a minimum requirement, not an aspiration but a starting point. Each activity must set how the development/activity will aspire to more than minimum requirements.</i></u></p>		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Plan chapter: Section C Rules > Chapter 12 How to use and interpret the rules > 12.2 Categories of Activities

Submitter Number:	328	Submitter:	Paula Dudley
Point Number	328.11		
Plan chapter	Section C Rules > Chapter 12 How to use and interpret the rules > 12.2 Categories of Activities		
Summary of Decision Requested	<p>Amend Section 12.2 How to use and interpret the rules – Categories of Activities, pertaining to controlled activities to offer provisions to property owners who are affected by multiple public developments.</p> <p>AND</p> <p>Amend Section 12.2 How to use and interpret the rules – Categories of Activities, specifically in relation to the ability for council to refuse to grant a controlled activity subdivision if the provisions of s106 of the Resource Management Act apply, to ensure provisions are offered to support property owners faced with unusual circumstances of multiple public developments.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Both the historical reserve on the south boundary of the property (524B State Highway, Tamahere) and a four-lane highway on the west boundary pose additional complications for a potential subdivision. A case-by-case scenario supports property owners faced with unusual circumstances of multiple public developments. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.462		

Plan chapter Section C Rules > Chapter 12 How to use and interpret the rules > 12.2 Categories of Activities

Summary of Decision Requested Add to 12.2 Categories of Activities, the following new rule:

12.2.2 Deeming rules for roads

(g)The following rules apply with respect to roads:

(i)Any land vested in the Council, or the Crown, as road pursuant to any enactment or provision, then from the date of vesting, the land shall retain its current zoning, but the provisions of that zoning do not apply to the land;

(ii)Where a road has been lawfully stopped under any enactment, and any relevant designation removed, the land shall be subject to the provisions of the adjoining zoned land (as shown on the planning maps), from the date of the stopping or removal of any relevant designation;

(iii)Where a road is stopped or a designation has been removed and the zoning of the land on one side of the road is different to the zoning on the other side of that road, then the road shall be subject to the provisions of the adjoining zoned land (as shown on the planning maps) up to the centre line of the road.

Decision Reasons:

- Roads are created mainly through subdivision and designations. However, in the case of subdivision, there is no immediate change to the planning maps to remove the zoning. That rezoning can only be carried out by means of a plan change. A 'deeming' rule can be used to cover the situation of new roads being created and roads being stopped. A new rule is proposed to address this matter.

Plan chapter: Section C Rules > Chapter 12 How to use and interpret the rules > 12.3 Additional Matters of Control, Matters of Discretion and Matters for Discretionary and Non-Complying Activities

Submitter Number: 827 Submitter: New Zealand Steel Holdings Ltd

Point Number 827.26

Plan chapter Section C Rules > Chapter 12 How to use and interpret the rules > 12.3 Additional Matters of Control, Matters of Discretion and Matters for Discretionary and Non-Complying Activities

Summary of Decision Requested Delete Rule 12.3 Additional Matters of Control, Matters of Discretion and Matters for Discretionary and Non-Complying Activities

Decision Reasons:

- Additional matters of control or discretion are extremely broad, many of them unnecessary as they duplicate Council's powers under the RMA.
- Some effectively extend Council's control or discretion to a level anticipated as part of a discretionary or non-complying activity.

Plan chapter: Section C Rules > Chapter 12 How to use and interpret the rules > 12.3 Additional Matters of Control, Matters of Discretion and Matters for Discretionary and Non-Complying Activities > 12.3.1 Additional matters

Submitter Number: 742 Submitter: Kim Harris-Cottle

Organisation: New Zealand Transport Agency

Point Number 742.66

Plan chapter Section C Rules > Chapter 12 How to use and interpret the rules > 12.3 Additional Matters of Control, Matters of Discretion and Matters for Discretionary and Non-Complying Activities > 12.3.1 Additional matters

Summary of Decision Requested Delete clause 12.3.1 Additional matters.

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter does not consider clause 12.3.1 Additional Matters lists matters which Council needs to reserve its discretion to.
- The matters are otherwise dealt with under the RMA.
- It is inappropriate to attempt to reserve Council's discretion in relation to certain matters for non-complying and discretionary activities. If Council considers it necessary to alert plan users to these matters, this section should be turned into an advice note.

Plan chapter: Section C Rules > Chapter 12 How to use and interpret the rules > 12.4 Rule Tables

Submitter Number: 697 Submitter: Waikato District Council

Point Number 697.480

Plan chapter Section C Rules > Chapter 12 How to use and interpret the rules > 12.4 Rule Tables

Summary of Decision Requested Amend 12.4 Rule Tables as follows:

Land Use – Activities, Land Use – Effects, Land Use – Building and Subdivision rules are in separate tables with a similar format. Rules that set out where the rules within the tables apply are found at the beginning of the tables.

Decision Reasons:

- It needs to be clarified that the introduction to the content of the activity, effects, building and subdivision tables is preceded by a set of rules that set out what rules apply. In some instances the heading does not make it clear that they are rules and changes to the zone headings are also recommended.

Plan chapter: Section C Rules > Chapter 13: Definitions

Submitter Number: 81 Submitter: Waikato Regional Council

Point Number 81.155

Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	Amend the definitions of "Commercial activity" and "Commercial services" to better distinguish large format from small scale activities.
Decision Reasons:	<ul style="list-style-type: none"> • These rules allow for Commercial activity and Commercial services as permitted activities in both the Business and Business Town Centre zones. • Allowing the same activities to occur in both zones creates unnecessary and inappropriate competition between the Town Centre and Business Zones, and does not promote a supportive, complimentary role for them. • This is not consistent with the policy approach set out in Section 4.5, which seeks to encourage a wide range of commercial activities in both zones, the town centres focusing on retail, administration, commercial and civic centre activities, the Business Zone discouraging small scale retail and focusing on large format retail. • The submitter seeks clarification about the rationale behind the rules, and is concerned that they do not give proper effect to the WRPS' Policy 6.16 or the policy framework for these zones contained in Section 4.5: of the Proposed Plan.
Point Number	81.235
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	Add to Chapter 13: Definitions a new definition for "Flood risk area."
Decision Reasons:	<ul style="list-style-type: none"> • Adding this definition will assist with understanding and implementation of provisions that incorporate this term.
Point Number	81.236
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	Add to Chapter 13: Definitions a new definition for "Floodplain."
Decision Reasons:	<ul style="list-style-type: none"> • Adding this definition will assist with understanding and implementation of provisions that incorporate this term.
Point Number	81.237
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	Add to Chapter 13 a new definition for "Low impact design."
Decision Reasons:	<ul style="list-style-type: none"> • Adding this definition will assist with understanding and implementation of provisions that incorporate this term.
Point Number	81.239
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	Add to Chapter 13 a new definition for "Biodiversity offset" as follows: <i>Biodiversity offset</i> <i>A measureable conservation outcome resulting from actions designed to compensate for residual, adverse biodiversity effects arising from activities after appropriate avoidance, remediation, and mitigation measures have been applied. The goal of a biodiversity offset is to achieve a no-net-loss, and preferably a net-gain, of indigenous biodiversity values.</i>
Decision Reasons:	<ul style="list-style-type: none"> • Biodiversity offsetting and its relationship to avoiding, remedying and mitigating adverse effects of an activity is poorly understood. • A new definition is recommended to be added to clarify what this is, and the expectations around it.
Point Number	81.240
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	Add to Chapter 13: Definitions a new definition for "Catchment Management Plan" and ensure it there is delineation between stormwater catchment plans and Waikato Regional Council led Catchment Management Plan or Healthy Rivers Wai Ora sub catchment plans.
Decision Reasons:	<ul style="list-style-type: none"> • It is noted that the term Catchment Management Plan is not defined in the Proposed Plan. There is a need to ensure delineation between storm water catchment plans and Waikato Regional Council led Catchment Management Plan or Healthy Rivers Wai Ora sub catchment plans.
Point Number	81.247
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	Add to Chapter 13: Definitions a new definition for "Identified Area."
Decision Reasons:	<ul style="list-style-type: none"> • It is unclear what the term 'Identified Area' means. This appears throughout Chapter 14. • Is it intended that this captures Outstanding Natural Feature Landscape, Significant Amenity Landscapes, Natural , SNA and non-SNA?

Submitter Number:	310	Submitter:	Fiona McNabb
Organisation:	Whaingaroa Raglan Affordable Housing Project		
Point Number	310.15		
Plan chapter	Section C Rules > Chapter 13: Definitions		
Summary of Decision Requested	<p>Amend the definition of 'minor dwelling' in Chapter 13 Definitions, to allow more than one minor dwelling per site.</p> <p>AND</p> <p>Amend Rule 16.3.1 Dwelling to allow more than one primary dwelling and one minor dwelling per site.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Increased building density in residential zoned land can increase the availability of affordable housing. Increased density while meeting the height to boundary and other restrictions Rule 16.3 currently restricts numbers of dwellings per site therefore requiring discretionary resource consent adding to the cost of development. Amending Rule 16.3 as suggested enables affordable development design in residential zoned land to maximize the number of dwellings on a site without discretionary consent. Other councils have made similar changes, e.g. Auckland & Wellington, to enable increased density by right within the rules of the plan.

Amend the Proposed District Plan to make consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- New provisions are required to support the establishment of a zone to enable development of the Kimihia Lakes Recreation and Events Zone.

Point Number 335.9

Plan chapter Section C Rules > Chapter 13: Definitions

Summary of Decision Requested **Add** a new definition for "Outdoor Pursuits" to Chapter 13 as follows:

Means moving across land by non-powered means for example biking, orienteering, tramping, and horse trekking.

AND

Amend the Proposed District Plan to make consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- New provisions are required to support the establishment of a zone to enable development of the Kimihia Lakes Recreation and Events Zone.

Submitter Number: 378 **Submitter:** Fire and Emergency New Zealand

Point Number 378.12

Plan chapter Section C Rules > Chapter 13: Definitions

Summary of Decision Requested **Add** a new definition of "emergency services" to Chapter 13 Definitions as follows:

Emergency Services

Means the New Zealand Police, Fire and Emergency New Zealand, and hospital and health services.

AND

Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:	<ul style="list-style-type: none"> New definition will provide greater clarity to plan users and to support the relief sought elsewhere in the submission. Proposed definition reflects the definition included in section 4 of the Civil Defence Emergency Management Act 2002.
Point Number	378.13
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	<p>Add a new definition for "Emergency services training and management activities" to Chapter 13: Definitions, as follows:</p> <p><u>Emergency services training and management activities</u></p> <p><u>Means the training activities, operational support and other non-emergency activities undertaken by the New Zealand Police, Fire and Emergency New Zealand, and hospital and health services.</u></p> <p>AND</p> <p>Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> Inclusion of the definition will provide greater clarity to plan users and to support the relief sought elsewhere in this submission.
Point Number	378.14
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	<p>Add a new definition for "non-hazardous gas", to provide clarity with regard to thresholds specified in Appendix 5.</p> <p>AND</p> <p>Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> Provides clarity as to whether the volumes proposed in Appendix 5 are the compressed or uncompressed, e.g. BA cylinder (9L) at 300 Bar has approximately 2.6m³ of air. Definition is important to Fire and Emergency New Zealand as it will assist in determining whether the district plan provides for the storage of a sufficient amount of BA tanks at a station in a residential area. Fire and Emergency New Zealand will work with the Waikato District Council to agree to a wording for the definition as needed.

Plan chapter

Section C Rules > Chapter 13: Definitions

Summary of Decision Requested

Delete the definitions for "Aggregate Extraction Activities", "Extractive Industry", "Mineral Extraction and Processing" from Chapter 13 Definitions.

AND

Add a replacement definition for "Mineral and Aggregate Extraction Activities" to Chapter 13 Definitions as follows (or words to similar effect):

Mineral and Aggregate Extraction Activities

Means those activities associated with mineral and aggregate extraction, including:

- Excavation, blasting, processing, (crushing, screening, washing and blending);
- The storage, distribution and sale of minerals and aggregates by wholesale to industry or by retail;
- Ancillary earthworks;
- The removal and deposition of overburden;
- Treatment of stormwater and wastewater;
- Landscaping and rehabilitation work, including cleanfilling;
- Ancillary buildings and structures; and
- Residential accommodation necessary for security purposes

AND

Any consequential amendments or alternative relief to give effect to the matters raised in the submission.

Decision Reasons:

- There are three different definitions in the PDP covering a range of extractive industries: aggregate extraction activities, mineral extraction and processing, and the extractive industry. This adds unnecessary confusion that can be avoided by removing the superfluous definitions and retaining only one for 'mineral and aggregate extraction activities' as proposed.

Section C Rules > Chapter 13: Definitions

Summary of Decision Requested	Add to Chapter 13: Definitions a new definition for "Caretaker accommodation" as follows: <u>Caretaker accommodation.</u> <u>Means within the Industrial or Industrial Zone Heavy, one residential unit per site for the purposes of providing on-site security and monitoring.</u>
Decision Reasons:	<ul style="list-style-type: none"> This activity is sought to be included in the industrial Zones, and as a consequential amendment a definition would be helpful to provide clarity as to what the activity is.
Point Number	697.375
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	Amend to rationalise the three terms: · Community activity, · Community activity (Te Kawhata Lakeside Precinct) and · Community facilities into a single defined term.
Decision Reasons:	<ul style="list-style-type: none"> There is no need for three separate terms when the terms are similar. A more efficient approach would be to rationalise into a single defined term.
Point Number	697.379
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	Add to Chapter 13: Definitions a new definition for "Design Speed" as follows: <u>Design Speed.</u> <u>Means a speed fixed for the design of those geometric features of a carriageway that influence vehicle operation. Design speed is the 85th percentile speed of traffic through that geometric feature. These can either be measured or estimated (Austroad design guides or similar).</u>
Decision Reasons:	<ul style="list-style-type: none"> Include new definition to clarify the rules in Chapter 14.12 Transportation.
Point Number	697.481
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	Amend Chapter 13: Definitions by adding the following text underneath the heading "Definitions": <u>For the purposes of the defined terms, the singular term means the same as the plural term.</u>
Decision Reasons:	<ul style="list-style-type: none"> It would be helpful if the singular and plural terms could be used interchangeably depending on the context
Point Number	697.482
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	Add to Chapter 13: Definitions new definitions for "boundaries" as follows: <u>Front boundary.</u> <u>Means a site boundary adjoining a public road.</u> AND <u>Side boundary.</u> <u>Means a site boundary that intersects with a front boundary.</u> AND <u>Rear boundary.</u> <u>Means a site boundary that does not intersect with a front boundary or a road.</u>
Decision Reasons:	<ul style="list-style-type: none"> It would be helpful to include definitions for boundaries.
Point Number	697.488
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	Add to Chapter 13: Definitions a new definition for "Motorised sport and recreation" as follows: <u>Motorised sport and recreation.</u> <u>Means any facilities or events associated with motorised vehicles where a fee is charged.</u> <u>Vehicles may include dirt bikes, motorcycles, off-road 4 wheel drive vehicles, quad bikes, jet sprints, stockcars and race cars.</u> <u>This includes competitive racing or rallying of motorised vehicles, and includes training connected with that racing or rallying for people who do not reside at the property.</u> <u>The facilities may include:</u> <u>(a) race tracks, race pads and associated pit garages and support facilities;</u> <u>(b) race control, safety, emergency and media facilities;</u> <u>(c) food and beverage and merchandising retail areas;</u> <u>(d) administration buildings and facilities;</u> <u>(e) general ticketing, toilet and ablution facilities;</u> <u>(f) overnight accommodation;</u> <u>(g) parking;</u> <u>(h) driver training school inclusive of a skid pad;</u> <u>(i) spectator facilities including pedestrian access ways, tunnels, overbridges, spectator viewing platforms and seating areas;</u> <u>(j) a jet sprint course;</u> <u>(k) dirt track;</u> <u>(l) go-kart track and drifting pads;</u> <u>(m) accessory buildings, facilities and structures such as maintenance and storage sheds, decks, shade cloths and storage containers for all items listed above.</u>
Decision Reasons:	<ul style="list-style-type: none"> There are currently no activities other than the Motorsport and Recreation Zone which addresses motorised sport and recreation activities such as motocross tracks or rally events. A definition for this term is an efficient approach and gives clarity as to what activities will be encompassed by this term.
Point Number	697.494
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	Amend the definitions for "Place of assembly and Community activity" to ensure that there is no overlap between the activities that each of the terms encompass.
Decision Reasons:	<ul style="list-style-type: none"> The definitions of "place of assembly" and "community activity" encompass common activities which could create confusion as to which term, and therefore activity status applies. Using a single defined term would result in clearer rules.

Point Number	697.501
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	<p>Add to Chapter 13: Definitions a new definition for "Identified area" as follows:</p> <p><u>In terms of Chapter 14 Infrastructure and Energy, includes the following areas and items identified within this plan:</u></p> <p><u>a. Urban Expansion Area</u> <u>b. Significant Natural Area</u> <u>c. Outstanding Natural Feature</u> <u>d. Outstanding Natural Landscape</u> <u>e. Significant Amenity Landscape</u> <u>f. Outstanding Natural Character</u> <u>g. High Natural Character</u> <u>h. Heritage Precinct</u> <u>i. Heritage Items</u> <u>j. Maaori Sites of Significance</u> <u>k. Maaori Areas of Significance</u> <u>l. Notable Trees</u></p>
Decision Reasons:	<ul style="list-style-type: none"> Provides additional clarity and usability as this term will bring up a comment box in the web version.
Point Number	697.502
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	<p>Add to Chapter 13: Definitions a new definition for "Public floor area" as follows:</p> <p><u>Public floor area</u> <u>Means the undercover floor area usually accessible by the public</u></p>
Decision Reasons:	<ul style="list-style-type: none"> This term would benefit from being defined for additional clarity.
Point Number	697.504
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	<p>Add to Chapter 13: Definitions a new definition for "Stormwater management plan" as follows:</p> <p><u>Stormwater management plan</u> <u>Means a tool for managing stormwater quality and quantity to protect ecological, social, cultural and economic values. A stormwater management plan is used as a tool to ensure that decisions in relation to new and existing developments are made with an understanding of the implications of stormwater impacts and to ensure appropriate, cost-effective and integrated mitigation can be effectively implemented.</u></p>
Decision Reasons:	<ul style="list-style-type: none"> The District Plan would benefit from a definition for stormwater management plans.
Point Number	697.510
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	<p>Add to Chapter 13: Definitions a new definition for "Structure" as follows:</p> <p><u>Structure</u> <u>Means a man-made object.</u></p>
Decision Reasons:	<ul style="list-style-type: none"> The term structure is used throughout the Plan but it would be helpful to include a definition for it to improve clarity.

Submitter Number:	707	Submitter:	Soil & Health Association of New Zealand (S&H)
Point Number	707.3		
Plan chapter	Section C Rules > Chapter 13: Definitions		
Summary of Decision Requested	<p>Add five new definitions to Chapter 13- Definitions, in relation to Genetically Modified Organisms, as follows:</p> <ul style="list-style-type: none"> FIELD TRIALS- <u>Means, in relation to a Genetically Modified Organism, the carrying on of outdoor trials on the effects of the organism under conditions similar to those of the environment into which the organism is likely to be release but, from which the organism, or any heritable material arising from it, could be retrieved or destroyed at the end of trials.</u> GENETICALLY MODIFIED ORGANISM- <u>Means any organism in which any of the genes or other genetic material: a.) have been modified by in vitro techniques; or b.) are inherited or otherwise derived, through any number of replications, from any genes or other genetic material which has been modified by in vitro techniques. For the absence of doubt, this does not apply to Genetically Modified (GM) products that are not viable (and are thus no longer GM organisms), or products that are dominantly, non-GM but contain non-viable GM ingredients (such as processed foods).</u> GENETICALLY MODIFIED VETERINARY VACCINE- <u>Means a veterinary vaccine that is a genetically modified organism as defined in this Plan.</u> GENETICALLY MODIFIED MEDICAL APPLICATIONS- <u>Means the manufacture, trialling or use of viable and/or non-viable genetically modified organisms for medical purposes recognised as medicines under the Medicines Act 1981 and approved as safe to use by the Ministry of Health, including EPA approved releases, except for the outdoor cultivation of pharmaceutical producing organisms.</u> RELEASE- <u>Means, in relation to a Genetically Modified Organism, to allow the organism to move within New Zealand free of any restrictions other than those imposed in accordance with the Biosecurity Act 1993 or the Conservation Act 1987. For the avoidance of doubt this definition covers releases that are subject to conditions set out in Section 38A of the Hazardous Substances and New Organisms Act 1996 as well as any release not subject to conditions.</u> 		
Decision Reasons:	<ul style="list-style-type: none"> Definitions are requested in support of other requested provisions relating to GMOs. 		
Point Number	707.4		
Plan chapter	Section C Rules > Chapter 13: Definitions		
Summary of Decision Requested	<p>Amend the definition of Agricultural and Horticulture Research Facilities, in Chapter 13-Definitions, to include the following:</p> <p><u>...Commercial application of such activities</u></p> <p><u>For the avoidance of doubt, this definition does not include veterinary vaccines that use Genetically Modified Organisms, or any activities that involve Field Trials, or Release of Genetically Modified Organisms.</u></p>		

Decision Reasons:	<ul style="list-style-type: none"> Definitions are requested in support of other requested provisions relating to GMOs.
--------------------------	--

Submitter Number:	723	Submitter:	Tyler Sharratt
On behalf of:	Winstone Aggregates		
Point Number	723.7		
Plan chapter	Section C Rules > Chapter 13: Definitions		
Summary of Decision Requested	<p>Amend the definition of "Extractive Industry" in Chapter 13 Definitions, as follows:</p> <p><i>Means taking, winning or extracting by whatever means, the naturally-occurring minerals (including but not limited to coal, rock, sand, and gravel) and peat from under or on the land surface. The term includes the processing by such means as minerals at or near the site, where the minerals have been taken, won or excavated. The term also includes the removal, stockpiling and filling of overburden sourced from the same site and the following activities:</i></p> <ul style="list-style-type: none"> <i>Blasting;</i> <i>Storing, distributing and selling mineral products;</i> <i>Accessory earthworks;</i> <i>Treating stormwater and waste water;</i> <i>Landscaping and rehabilitation of quarries;</i> <i>Clean, fills and managed fills;</i> <i>Recycling or reusing aggregate from demolition waste such as concrete, masonry, or asphalt;</i> <i>Accessory activities and accessory buildings and structures such as weighbridges, laboratories and site offices.</i> <p><i>It includes all activities and structures associated with underground coal gasification, including pilot and commercial plants and distribution of gas. It excludes prospecting and exploration activities.</i></p> <p>AND</p> <p>Amend the definition of "Aggregate Extraction Activities" and "Mineral Extraction and Processing" in Chapter 13 Definitions to mean the same as "Extractive Industry."</p>		
Decision Reasons:	<ul style="list-style-type: none"> Activities associated with extractive industry are defined separately three times, all with different wording (Aggregate extraction, Extractive Industry and Mineral Extraction and Processing). Term "extractive industry" needs defining, and then the terms "Aggregate extraction activities" and "Mineral Extraction and processing" means the same. 		

Submitter Number:	738	Submitter:	Shand Properties Limited
Point Number	738.7		
Plan chapter	Section C Rules > Chapter 13: Definitions		
Summary of Decision Requested	Add a definition for "natural hazard area" to Chapter 13: Definitions with reference to standards and/or mapped location .		
Decision Reasons:	<ul style="list-style-type: none"> There is no definition provided for "natural hazard area", a term that is used throughout the Proposed Waikato District Plan in relation to subdivision rules. The absence of a definition makes the application of the rules unworkable in practice. 		
Point Number	738.8		
Plan chapter	Section C Rules > Chapter 13: Definitions		
Summary of Decision Requested	Amend definition of "contaminated land" in Chapter 13: Definitions to refer to standards and or mapped locations.		
Decision Reasons:	<ul style="list-style-type: none"> The "contaminated land" definition refers to the Resource Management Act definition. This does not include any objective standards but requires a judgement to be made on effects. Given that this definition determines which rules apply to subdivision it could create uncertainty and difficulties in implementation. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.64		
Plan chapter	Section C Rules > Chapter 13: Definitions		
Summary of Decision Requested	<p>Move Chapter 13 Definitions elsewhere in the Proposed District Plan.</p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		
Point Number	742.75		
Plan chapter	Section C Rules > Chapter 13: Definitions		
Summary of Decision Requested	<p>Delete the definition of "noise-sensitive activity" in Chapter 13: Definitions.</p> <p>AND</p> <p>Amend the definition of "sensitive land use" in Chapter 13: Definitions to cover all of the matters in "noise-sensitive activity" and to include "student accommodation" and "places of assembly".</p> <p>AND</p>		

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The Proposed District Plan defines both "noise-sensitive activity" and "sensitive land use". The two definitions appear to be used interchangeably and inconsistently throughout the Plan.
- The definitions are similar but not identical.
- The submitter considers "noise-sensitive activity" could be removed from the Proposed District Plan and "sensitive land use" definition extended to cover everything in "noise-sensitive activity" including "student accommodation" and "places of assembly", both of which are activities which can be sensitive to noise.

Submitter Number: 749 **Submitter:** Housing New Zealand Corporation

Point Number 749.156

Plan chapter Section C Rules > Chapter 13: Definitions

Summary of Decision Requested **Add** a definition of "Boarding House" within Chapter 13 Definitions as follows:

Boarding house (also known as boarding establishments):

Has the same meaning as section 66B of the Residential Tenancies Act 1986.

AND

Any consequential or further amendments to the Proposed District Plan to give effect and reference the term "Boarding house"

Decision Reasons:

- The term 'boarding establishments' is found in the Proposed WDP however there is no definition for such term.

Point Number 749.26

Plan chapter Section C Rules > Chapter 13: Definitions

Summary of Decision Requested **Amend** Chapter 13: Definitions to align with the final set of New Zealand Planning Standards, when gazetted in 2019.

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- There is a draft National Planning Standard proposed for definitions.
- Any proposed definitions introduced in the Proposed WDP align to the final set of National Planning Standards, when gazetted in 2019.
- In the absence of these standards, further amendments are sought to a number of proposed definitions introduced in the Proposed WDP; see detail below.

Point Number 749.27

Plan chapter Section C Rules > Chapter 13: Definitions

Summary of Decision Requested **Amend** Chapter 13: Definitions to create a list containing all acronyms and abbreviations

AND

Amend the definitions in Chapter 13: Definitions to add all acronyms and abbreviations with the principal term, rather than stand alone in the definitions list.

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- Certain abbreviations and acronyms should be with the principal term (not stand-alone in the definitions list).
- All abbreviations and acronyms should be included in a separate table list as part of Chapter 13: Definitions.

Point Number 749.30

Plan chapter Section C Rules > Chapter 13: Definitions

Summary of Decision Requested **Amend** the heading of the definition of "Boarding, breeding or animal training establishment" in Chapter 13 Definitions as follows:

Animal ~~Boarding~~, breeding, ~~boarding~~ or ~~animal~~ training establishment

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- Separate the definition of boarding from breeding/animal training establishment or make it clear it is for animal purposes i.e. animal breeding, boarding and training establishment.

Submitter Number: 761 **Submitter:** Lyndendale Farms Limited

Point Number 761.16

Plan chapter Section C Rules > Chapter 13: Definitions

Summary of Decision Requested **Amend** Chapter 13-Definitions to include definitions for "habitable" and "non-habitable" buildings.

AND

Amend the Proposed District Plan to make any consequential amendments that are required to give effect to the submission.

Decision Reasons:

- Rule 22.3.7.1 differentiates between "habitable" and "non-habitable" buildings," yet neither of these terms are defined in Chapter 13 of the Proposed District Plan.
- A retirement village has a range of shared buildings/facilities that could arguably be both habitable or non-habitable.
- Appropriate definitions are therefore required to provide certainty.
- Definitions are required to provide clarification with respect to the intended building setbacks.

Submitter Number:	777	Submitter:	Radio New Zealand Limited
Point Number	777.11		
Plan chapter	Section C Rules > Chapter 13: Definitions		
Summary of Decision Requested	Add a new definition for "rural hamlet" to Chapter 13 Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> It is not clear what is meant by "rural hamlet" and a definition would be useful to district plan users. 		
Point Number	777.12		
Plan chapter	Section C Rules > Chapter 13: Definitions		
Summary of Decision Requested	Add a new definition for "urban subdivision" to Chapter 13 Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> A definition of "urban subdivision" would provide clarity. 		

Submitter Number:	785	Submitter:	Z Energy Limited, BP Oil NZ Limited and Mobil Oil NZ Limited
Organisation:	'Oil Companies'		
Point Number	785.34		
Plan chapter	Section C Rules > Chapter 13: Definitions		
Summary of Decision Requested	Add a separate and specific definition for "service station activities" to Chapter 13 – Definitions that includes activities ordinarily considered to be ancillary to service stations as follows:		
	<u>Service Stations: A facility where the primary business is selling motor vehicle fuels and can include the following accessory activities:</u> <ul style="list-style-type: none"> <u>Retail</u> <u>Administrative, storage and ablution facilities;</u> <u>Car wash facilities;</u> <u>Mechanical repair, servicing and testing of motor vehicles;</u> <u>Sale of lubricating oils, kerosene, LPG, or spare parts and accessories for motor vehicles;</u> <u>Trailer hire.</u> 		
	AND		
	Any consequential amendments or further relief to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers that a separate and specific definition for service station activities should be included in the Proposed Plan. Such a definition would appropriately ensure service stations (including activities accessory to service stations) are explicitly provided for and would avoid ambiguity around whether service stations are considered to be a 'commercial activity' or a 'retail activity' (or both). 		

Submitter Number:	796	Submitter:	New Zealand Defence Force
Point Number	796.1		
Plan chapter	Section C Rules > Chapter 13: Definitions		
Summary of Decision Requested	Add a definition for "Temporary Military Training Activities" into Chapter 13 Definitions, as follows:		
	<u>Temporary Military Training Activity means a temporary training activity undertaken for defence purposes in accordance with the Defence Act 1990.</u>		
Decision Reasons:	<ul style="list-style-type: none"> There currently is no definition. A definition is necessary to identify that temporary military training activities are separate from other temporary events. It will provide clarity and ensure particular controls that are appropriate for social, cultural and recreational events do not apply to temporary military training activities. Specific rules would then apply for temporary military training activities to ensure any potential adverse effects are appropriately managed. Use a standardised definition for all district plans nationwide to be consistent with national planning standards approach. A number of district councils have incorporated the recommended definition or similar during their district plan review process. 		

Submitter Number:	797	Submitter:	Fonterra Limited
Point Number	797.19		
Plan chapter	Section C Rules > Chapter 13: Definitions		
Summary of Decision Requested	Add a definition for "Lifestyle Uses" to Chapter 13 Definitions, as follows (or words to similar effect):		
	<u>residential activity outside of a defined urban area or village boundary.</u>		
	AND		
	Any consequential amendments or further relief to give effect to the concerns raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The term is referenced within various plan provisions. Term is undefined. 		

Point Number	797.20
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	<p>Add a definition of "productive rural activities" to Chapter 13 Definitions as follows (or words to similar effect):</p> <p><u>farming, forestry, horticulture and mineral extraction.</u></p> <p>AND</p> <p>Any consequential amendments or further relief to give effect to the concerns raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> The term is referenced within various plan provisions. Term is undefined.
Point Number	797.21
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	<p>Add a definition of "reverse sensitivity" to Chapter 13 Definitions as follows (or words to similar effect):</p> <p><u>the vulnerability of a lawfully established activity to a new activity or land use. It arises when a lawfully established activity causes potential, actual or perceived adverse environmental effects on the new activity, to a point where the new activity may seek to restrict the operation or require mitigation of the effects of the established activity.</u></p> <p>AND</p> <p>Any consequential amendments or further relief to give effect to the concerns raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> The term is referenced in various plan provisions. Term is undefined.
Point Number	797.22
Plan chapter	Section C Rules > Chapter 13: Definitions
Summary of Decision Requested	<p>Add a definition of "factory wastewater irrigation farm" to Chapter 13 Definitions as follows (or words to similar effect):</p> <p><u>The operation of wastewater irrigation on land at Bruntwood Road comprising Lots 2-4 DPS 14934.</u></p> <p>AND</p> <p>Any consequential amendments or further relief to give effect to the concerns raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> The term is referenced with Fonterra's proposals for further plan provisions. The term requires a definition.

Submitter Number:	821	Submitter:	The Poultry Industry Association of New Zealand; I Brinks NZ Chicken; The Egg Producers Federation of
Point Number	821.3		
Plan chapter	Section C Rules > Chapter 13: Definitions		
Summary of Decision Requested	<p>Add a definition for "Poultry Hatchery" in Chapter 13 Definitions, as follows:</p> <p><u>Poultry Hatchery means a place where eggs are incubated and hatched in a managed process.</u></p> <p>OR</p> <p>Amend the definition of "Rural Industry" in Chapter 13 Definitions, as follows:</p> <p><u>Means an industry that involves the direct handling or processing to the first stage of manufacture of any raw produce harvested from farming, rural contractors' depots, poultry hatcheries or any other land-related agricultural activity, but excludes waste disposal, extractive industries and electricity generation.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> Wants a separate definition for 'poultry hatchery' as a hatchery is different from poultry farming and is closer to an industrial activity. Due to the effects, poultry hatcheries can be an activity provided for in the Rural or Industrial Zones. 		

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.51		
Plan chapter	Section C Rules > Chapter 13: Definitions		
Summary of Decision Requested	Delete the definition of the overlays from Chapter 13 Definitions		
Decision Reasons:	<ul style="list-style-type: none"> Overlays are contained in the maps and their purpose should be described in the body of the plan. The definitions are self-explanatory and do not need to be included in definitions. 		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.10		
Plan chapter	Section C Rules > Chapter 13: Definitions		
Summary of Decision Requested	Add a definition of 'Support structures' in Chapter 13: Definitions as follows (or similar words or planning options to address the issues raised):		

Support Structure

Support Structure means any structure associated with a network utility and includes, but is not limited to, support poles and towers for lines, navigational aids, meteorological installations, and similar structures. It does not include lines, antennas and masts.

AND

Add exclusions for "support structures" to Rule 14.2.1.1 (1) (b) (c) and (d) Permitted activities (or alternative planning options to address the issues raised).

Decision Reasons:

- A new definition is suggested due to the locational requirements of support structures and their minimum required height to achieve safe separation distances between conductors, the public, traffic and buildings.

Submitter Number: 877 **Submitter:** Leigh Michael Shaw & Bradley John Hall

Point Number 877.2

Plan chapter Section C Rules > Chapter 13: Definitions

Summary of Decision Requested **Add** to Chapter 13: Definitions a separate definition for "Free Range Poultry Farming" as per the Franklin Section of the Operative District Plan

Decision Reasons:

- There is a separate definition for this in the Franklin Section of the District Plan.

Point Number 877.3

Plan chapter Section C Rules > Chapter 13: Definitions

Summary of Decision Requested **Add** to Chapter 13: Definitions a separate definition for "Poultry Hatcheries" as per the Franklin Section of the Operative District Plan.

Decision Reasons:

- There needs to be a separate definition for this as it was in the Franklin Section of the Operative District Plan

Point Number 877.4

Plan chapter Section C Rules > Chapter 13: Definitions

Summary of Decision Requested **Add** to Chapter 13: Definitions a separate definition for "Farming Visit" as per the Franklin Section of the Operative District Plan.

Decision Reasons:

- There needs to be a separate definition for this as it was in the Franklin Section of the Operative District Plan

Point Number 877.5

Plan chapter Section C Rules > Chapter 13: Definitions

Summary of Decision Requested **Add** to Chapter 13: Definitions a separate definition for "Packhouse" as per the Franklin Section of the Operative District Plan.

Decision Reasons:

- There needs to be a separate definition for this as it was in the Franklin Section of the Operative District Plan

Point Number 877.6

Plan chapter Section C Rules > Chapter 13: Definitions

Summary of Decision Requested **Add** to Chapter 13: Definitions a separate definition for "Sleepout" as per the Franklin Section of the Operative District Plan.

Decision Reasons:

- There needs to be a separate definition for this as it was in the Franklin Section of the Operative District Plan

Point Number 877.7

Plan chapter Section C Rules > Chapter 13: Definitions

Summary of Decision Requested **Add** to Chapter 13: Definitions a separate definition for "On Site Primary Produce Manufacturing" as per the Franklin Section of the Operative District Plan.

Decision Reasons:

- There needs to be a separate definition for this as it was in the Franklin Section of the Operative District Plan

Point Number 877.9

Plan chapter Section C Rules > Chapter 13: Definitions

Summary of Decision Requested **Add** to Chapter 13: Definitions a definition for "horticultural activities" that includes glasshouses/greenhouses and plant nurseries and orchards.

Decision Reasons:

- There needs to be a definition of horticultural activities.

Submitter Number: 923 **Submitter:** Waikato District Health Board

Point Number 923.136

Plan chapter Section C Rules > Chapter 13: Definitions

Summary of Decision Requested **Add** to Chapter 13: Definitions the following definitions:

Access: The means or opportunity to approach or enter a place or facility.

AND

Accessible: Means able to be easily accessed by all members of the community, including those with sight and mobility impairment.

AND

Accessibility: Means the ease with which activities (either economic or social) or facilities, can be reached or accessed by people.

AND

Any consequential amendments

Decision Reasons:

- Chapter 13 provides definitions for Rules, however there are no definitions provided for in Section A Plan Overview and Strategic Directions, in particular related to 'access, accessible or accessibility'. These terms are becoming more relevant for district planning given the District's projected growth and changing population profile.
- The word "access" is used to define access allotment, but beyond that there is no definition to guide the meaning of access or accessibility.
- There are two broad meanings of access. The first dimension is around availability and the second focusing on the use of facilities, services and amenities such as greenspace, which is critical.
- If a population is to have access to a facility, then the facility itself should be able to accommodate a variety of personal needs. This requires a built environment that is appropriate to a wide range of people and their needs.

Submitter Number: 945 **Submitter:** First Gas Limited

Point Number 945.44

Plan chapter Section C Rules > Chapter 13: Definitions

Summary of Decision Requested Add a new definition to Chapter 13: Definitions for "Gas Network" as follows:

Gas Network:

A network for the purpose of conveying high pressure gas and liquid petroleum including pipelines and above ground incidental equipment.

AND

Any consequential amendments and other relief to give effect to the matters raised in the submission.

Decision Reasons:

- The submitter seeks to add a definition of the gas network to ensure that the entire network including gas transmission lines and above ground incidental equipment are provided for within the District Plan.

Plan chapter: Section C Rules > Chapter 13: Definitions > A

Submitter Number: 419 **Submitter:** Lucy Deverall

Organisation: Horticulture New Zealand

Point Number 419.115

Plan chapter Section C Rules > Chapter 13: Definitions > A

Summary of Decision Requested Add a definition for "Artificial crop protection structures" to Chapter 13 Definitions, as follows:

Artificial crop protection structures

Means structures with material used to protect crops and/or enhance growth (excluding greenhouses).

AND

Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- As the term artificial crop protection structure is used in the Plan, it should be defined.

Plan chapter: Section C Rules > Chapter 13: Definitions > A > Accessory building

Submitter Number: 419 **Submitter:** Lucy Deverall

Organisation: Horticulture New Zealand

Point Number 419.112

Plan chapter Section C Rules > Chapter 13: Definitions > A > Accessory building

Summary of Decision Requested Add the following to the definition of "Accessory building" in Chapter 13 Definitions:

Auxiliary building has the same meaning.

AND

Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- The definition sought for primary production uses the term auxiliary building which has the same meaning as an accessory building.

Submitter Number: 578 **Submitter:** Ports of Auckland Limited

Point Number 578.42

Plan chapter	Section C Rules > Chapter 13: Definitions > A > Accessory building
Summary of Decision Requested	Retain the definition of "Accessory building" in Chapter 13 Definitions, as notified.
Decision Reasons:	<ul style="list-style-type: none"> Support the definition as notified.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.483		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Accessory building		
Summary of Decision Requested	Amend the definition of "Accessory building" as follows: Means a building, the use of which is incidental to the use of the principal land use or building on that site. A garage that is integrated into and forms part of a dwelling is not an accessory building. <u>Means a building detached from the principal building on the site, the use of which is incidental to the principal building or the land use. Where no principal building has been established, an accessory building means a building that is incidental to a permitted use on the site.</u>		
Decision Reasons:	<ul style="list-style-type: none"> Additional clarity of the term. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.28		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Accessory building		
Summary of Decision Requested	Amend the definition of "accessory building" in Chapter 13 Definitions, as follows: <i>Means a building, the use of which is incidental to the use of the principal land use or building on that site. A garage that is integrated into and forms part of a dwelling is not an accessory building. <u>Dwellings and minor dwellings are excluded.</u></i> AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the proposed definition with a minor amendment to clarify that dwellings including minor dwellings are not an accessory building. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > A > Activities not provided for in Precinct B in the Motor Sport and Recreation Zone

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.54		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Activities not provided for in Precinct B in the Motor Sport and Recreation Zone		
Summary of Decision Requested	Delete the definition for "Activities not provided for in Precinct B in the Motor sport and Recreation Zone" from Chapter 13 Definitions in its entirety.		
Decision Reasons:	<ul style="list-style-type: none"> The inclusion of a definition for 'Activities not provided for in Precinct B in the Motor sport and Recreation Zone' within the District Plan is opposed. The inclusion of this definition is unnecessary and should be deleted. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > A > AEP

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.484		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > AEP		
Summary of Decision Requested	Amend the definition of "AEP" as follows: <u>Annual exceedance probability or AEP</u>		
Decision Reasons:	<ul style="list-style-type: none"> For clarity, include the abbreviation with the full term. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > A > Aggregate extraction activities

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.485		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Aggregate extraction activities		

Summary of Decision Requested	Delete from Chapter 13: Definitions the definition for "Aggregate extraction activities".
Decision Reasons:	<ul style="list-style-type: none"> This term is covered by three definitions (aggregate extraction activities, extractive industry and mineral extraction and processing) which would be more efficiently rationalised into one.

Plan chapter: Section C Rules > Chapter 13: Definitions > A > Aggregate Extraction Area

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.28		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Aggregate Extraction Area		
Summary of Decision Requested	<p>Delete the definition of "Aggregate Extraction Activities" in Chapter 13 Definitions</p> <p>AND</p> <p>Amend the Proposed District Plan to replace references to "Aggregate Extraction Activities" with "Extractive Activities."</p> <p>AND</p> <p>Any other further or consequential amendments required.</p>		
Decision Reasons:	<ul style="list-style-type: none"> 'Mineral extraction and processing', 'Aggregate Extraction Activities' and 'Extractive Industry' are all defined in the Proposed District Plan. There is overlap between the terms and creates potential for confusion and inconsistency. Definitions need to be streamlined. There is no clear reasons for distinguishing between aggregate and mineral extraction activities and therefore it is considered that it is more efficient to regulate and assess those activities jointly. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > A > Agricultural and horticultural research activities

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.111		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Agricultural and horticultural research activities		
Summary of Decision Requested	Retain the definition of "Agricultural and horticultural research activities" in Chapter 13: Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> These activities are an integral component of rural production, require a rural location and access to the rural resources and are necessary to continue to maintain and grow rural production in New Zealand. 		

Submitter Number:	466	Submitter:	Brendan Balle

Point Number	637.3		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Agricultural Research Centres		
Summary of Decision Requested	Retain the definition of "Agricultural Research Centres" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Supports retention of the definition. 		

Submitter Number:	639	Submitter:	Dairy NZ Incorporated
Point Number	639.3		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Agricultural Research Centres		
Summary of Decision Requested	Retain the definition of "Agricultural Research Centres" in Chapter 13 Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports retention of the definition. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > A > Airfield

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.113		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Airfield		
Summary of Decision Requested	<p>Amend the definition of "Airfield" in Chapter 13 Definitions, as follows:</p> <p><i>Means an area of land set aside from other uses for the purposes of enabling aircraft to land and take off <u>and includes rural airstrips and helicopter landing areas.</u></i></p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> It should be clear if the definition of airfield is meant to include rural airstrips and helicopter landing areas. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.57		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Airfield		
Summary of Decision Requested	Amend the definition of "Airfield" in Chapter 13 Definitions to include areas for aircraft to be stored and maintained, and airport administration buildings.		

Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.
--------------------------	--

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.486		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Airfield		
Summary of Decision Requested	Amend the definition of "Airfield" as follows: <i>Means an area of land set aside from other uses for the purposes of enabling aircraft to land and take off. Does not include airstrips or landing sites used for farming.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Amended to exclude airstrips or landing sites for farming. Fixed wing aircraft and helicopters are essential for farming including top-dressing, animal recovery and aerial spraying. These are intermittently used whereas the term "airfield" is intended to relate to permanent, formed commercial facilities. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > A > Alteration or addition

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.289		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Alteration or addition		
Summary of Decision Requested	Amend the heading of the definition of "addition or alteration" in Chapter 13: Definitions to be "addition" as follows: Alteration or Addition		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the actual definition for "addition or alteration", however considers that this definition should be a definition for additions only, rather than a definition for "addition or alteration", as there is already a separate definition for alterations. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.487		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Alteration or addition		
Summary of Decision Requested	Amend the definition of "Alteration or addition" as follows: Means for heritage items listed in Appendix 30.1, an extension to a structure or building which increases its size, height and volume, including the construction of new floors, walls, ceilings and roofs. Means any changes to the fabric or characteristics of a building including: <ul style="list-style-type: none"> external extensions that increase the size, height and volume of the building; or removal and replacement of windows, ceilings, floors, roofs or external walls; or the attachment of external structures such as canopies, verandahs, pergolas and balustrades. Does not include maintenance or repairs.		
Decision Reasons:	<ul style="list-style-type: none"> The term "alteration or addition" does not just relate to Heritage items. The definition would benefit from additional clarity. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > A > Alterations

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.290		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Alterations		
Summary of Decision Requested	Retain the definition of "Alteration" in Chapter 13: Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the definition of "alteration" as the breadth of works defined as an alteration will ensure the range of works that could impact on heritage values are captured for assessment as an alteration. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.362		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Alterations		
Summary of Decision Requested	Delete from Chapter 13 Definitions the definition for "Alterations".		
Decision Reasons:	<ul style="list-style-type: none"> There is duplication with the term "alteration and addition". 		

Plan chapter: Section C Rules > Chapter 13: Definitions > A > Ancillary equipment

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.363

Plan chapter Section C Rules > Chapter 13: Definitions > A > Ancillary equipment

Summary of Decision Requested **Amend** the definition of "Ancillary equipment" as follows:
... necessary to install within a facility to enable...

Decision Reasons:

- Minor amendment to improve clarity.

Plan chapter: Section C Rules > Chapter 13: Definitions > A > Ancillary rural earthworks

Submitter Number: 81 **Submitter:** Waikato Regional Council

Point Number 81.192

Plan chapter Section C Rules > Chapter 13: Definitions > A > Ancillary rural earthworks

Summary of Decision Requested **Amend** the definition of "ancillary rural earthworks" in Chapter 13: Definitions to provide for flood protection and drainage schemes managed by the Waikato Regional Council.

Decision Reasons:

- Earthworks associated with flood and drainage schemes is not referenced under this definition.

Submitter Number: 197 **Submitter:** Jeska McHugh

Organisation: NZ Pork

Point Number 197.12

Plan chapter Section C Rules > Chapter 13: Definitions > A > Ancillary rural earthworks

Summary of Decision Requested **Amend** the definition for "Ancillary rural earthworks" in Chapter 13 Definitions to include the following activities:
burying of material infected by unwanted organisms as declared by Ministry, for Primary Industries Chief Technical Officer or an emergency declared by the Minister under the Biosecurity Act 1993.

Decision Reasons:

- A permitted activity status and the exclusion of ancillary rural earthworks from the definition of earthworks is supported but should be amended to manage biosecurity responses.

Submitter Number: 419 **Submitter:** Lucy Deverall

Organisation: Horticulture New Zealand

Point Number 419.114

Plan chapter Section C Rules > Chapter 13: Definitions > A > Ancillary rural earthworks

Summary of Decision Requested EITHER:
Add a new definition for "Land preparation" in Chapter 13 Definitions, as follows:
Means the disturbance of soil by machinery for planting, replanting, tending or harvesting pasture or crops. Land preparation includes blading, contour ploughing, ripping, mounding, stepping, contouring, bunding and sediment control measures and drainage associated with horticultural crops but does not include direct drilling or mechanical land preparation associated with plantation forestry.
AND
Amend the definition of "ancillary rural earthworks" in Chapter 13 Definitions, as follows:
Means any earthworks or disturbance of soil associated with:
1. cultivation and land preparation ~~(including establishment of sediment and erosion control measures)~~ for planting and growing operations;
2. harvesting of agricultural and horticultural crops (farming) and forestry (forestry); and
3. maintenance and construction of facilities typically associated with farming and forestry activities including, but not limited to, farm/forestry tracks, roads and landings, stock races, silage pits, farm drains, farm effluent ponds, feeding pads, fencing and sediment control measures.
AND
Amend the definition of "Earthworks" in Chapter 13 Definitions, to specifically exclude "Ancillary rural earthworks" for clarity.
OR
Amend the definition of "Ancillary rural earthworks" in Chapter 13 Definitions, to include contouring, ripping and blading
AND
Amend the definition of "Earthworks" in Chapter 13 Definitions, to specifically exclude "Ancillary rural earthworks".
AND
Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the inclusion of ancillary earthworks activities which are typical of rural operations. The submitter supports the inclusion of cultivation, land preparation and works to enable sediment control measures and farm drainage. While this definition applies to some horticulture grower activities, there are a range of activities that could potentially be classes as earthworks but which have effects that can be sufficiently managed through Horticulture New Zealand's code of practice and have minimal potential for creation of sediment laden stormwater. The submitter seeks that the term 'land preparation' be broadened and included in the definitions. This approach has recently been supported and adopted in the Proposed Northland Regional Plan. Ancillary farming earthworks should be specifically excluded from the definition of earthworks for clarity.
--------------------------	--

Submitter Number:	466	Submitter:	Brendan Balle
Organisation:	Balle Bros Group Limited		
Point Number	466.53		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Ancillary rural earthworks		
Summary of Decision Requested	<p>Amend the definition of "Ancillary Rural Earthworks in Chapter 13 Definitions to provide clarity around the term land preparation, specifically to include:</p> <p><i>means the disturbance of soil by machinery for planting, replanting, tending or harvesting pasture or crops. Land preparation includes blading, contour ploughing, ripping, mounding, stepping, contouring, bunding and sediment control measures and drainage associated with horticultural crops but does not include direct drilling or mechanical land preparation associated with plantation forestry.</i></p> <p>AND</p> <p>Amend the definition for "Earthworks" in Chapter 13 Definitions to exclude ancillary rural earthworks as follows:</p> <p><i>Means modification of land surfaces by blading, contouring, ripping, moving, removing, placing or replacing soil or earth, or by excavation, or by cutting or filling operations, but excludes ancillary rural earthworks.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the definition of Ancillary rural earthworks but consider clarification of land preparation should be further clarified within the definition. Ancillary rural earthworks are a fundamental part of commercial vegetable production operations and should be specifically excluded from the definition of earthworks. 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.286		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Ancillary rural earthworks		
Summary of Decision Requested	<p>Retain the definition of "Ancillary rural earthworks" in Chapter 13: Definitions, subject to below.</p> <p>AND</p> <p>Amend rules to ensure Ancillary rural earthworks are being assessed as a restricted discretionary activity should they occur in a Maori site or area of significance, or wahi tapu site or wahi tapu area, or the setting of a heritage item.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the definition of Ancillary rural earthworks in so far as they should be assessed at the time of works in a cultural site or area of significance, wahi tapu or wahi tapu area, or the setting of a heritage item or as recognised in the schedules of the plan, as the scale of some of the works within this definition have the potential for adverse effects. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.127		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Ancillary rural earthworks		
Summary of Decision Requested	<p>Amend the definition of "Ancillary rural earthworks" in Chapter 13 Definitions, as follows:</p> <p><i>(a) Means any earthworks or disturbance of soil associated with: cultivation, land preparation (including establishment of sediment and erosion control measures), for planting and growing operations of crops and pasture;</i></p> <p><i>(b) harvesting of agricultural and horticultural crops (farming) and forests (forestry); and planting trees, removing trees and horticultural root ripping;</i></p> <p><i>(c) maintenance and construction of facilities typically associated with farming and forestry activities, including, but not limited to, farm/forestry tracks, roads, vehicle manoeuvring areas and landings, stock marshalling yards, stock races, silage pits, offal pits, burying dead stock and plat waste farm drains, farm effluent ponds, feeding pads, digging post holes, fencing and sediment control measures, drilling bores, installing and maintaining services such as water pipes and troughs, off-stream farm water storage dams, hard stand areas for stock, fertiliser storage pads, airstrips and helipads.</i></p> <p><i>(d) Farm quarries where quarry winnings are only used within the farm site</i></p> <p>AND</p> <p>Any consequential amendments needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The definition of <i>Ancillary Rural Earthworks</i> should be congruent with a resource management policy framework which seeks to enable primary production in rural areas, and that it should be a clear as possible. The activities included in the submission point clearly be contemplated, including within any related definition. Off-stream farm water storage dams for stock and domestic water storage are commonplace on many farms. Farm quarries are certainly part of normal day to day farming operation and shouldn't need resource consent. Other district plans make allowance for permitted farm quarries at a scale which is appropriate in the context of the wide open spaces of the rural environment. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.364		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Ancillary rural earthworks		

Summary of Decision Requested	Amend the definition of "Ancillary rural earthworks" as follows: <i>Means any earthworks or disturbance of soil associated with:</i> <i>(g) cultivation, land preparation (including establishment of sediment and erosion control measures), for planting and growing operations;</i> <i>(b) harvesting of agricultural and horticultural crops (farming) and forests (forestry); and</i> <i>(c) maintenance and construction of facilities typically associated with farming and forestry activities, including, but not limited to, farm/forestry tracks, roads and landings, stock races, silage pits, farm drains, farm effluent ponds, feeding pads, fencing and erosion and sediment control measures.</i>
Decision Reasons:	<ul style="list-style-type: none"> Amendments to improve readability and remove references to forestry as this is covered by the National Environmental Standards for plantation Forestry.

Submitter Number:	797	Submitter:	Fonterra Limited
Point Number	797.23		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Ancillary rural earthworks		
Summary of Decision Requested	Retain the definition of "ancillary rural earthworks" in Chapter 13: Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Supports inclusion of a specific definition for ancillary rural earthworks. The definition will assist understanding and interpretation of the Plan. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > A > Animal feed lot

Submitter Number:	281	Submitter:	Zeala Ltd
Organisation:	Trading as Aztech Buildings		
Point Number	281.15		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Animal feed lot		
Summary of Decision Requested	Delete the definition of "Animal Feed Lot" in Chapter 13: Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> It does not appear to be referenced elsewhere in the plan Animal feed lot does not appear in either the list of landuse activities, land use effects, or land use buildings. The reference in the definition to the "intensively feeding animals" could give rise to confusion around "Intensive Farming". 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.128		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Animal feed lot		
Summary of Decision Requested	Retain the definition of "Animal feed lot" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this definition and exemptions. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.365		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Animal feed lot		
Summary of Decision Requested	Delete from Chapter 13: Definitions the definition for "Animal feed lot".		
Decision Reasons:	<ul style="list-style-type: none"> This term is only used in the Specific Area - Agriculture Research Centre and a definition is not needed. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > A > Apartment

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.366		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Apartment		
Summary of Decision Requested	Amend the definition for "Apartment" as follows: <i>Means three or more attached residential units, The residential units can be directly attached to each other, or connected by one...</i>		
Decision Reasons:	<ul style="list-style-type: none"> Improve clarity of the definition to recognise that residential units can be directly attached to each other. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.29		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Apartment		
Summary of Decision Requested	<p>Amend the definition of "Apartment" in Chapter 13 Definitions as follows:</p> <p><i>Means a <u>building containing</u> three or more attached residential units connected by one or more accessory buildings, such as a garage or carport.</i></p> <p>OR</p> <p>Amend the definition of "Apartment" in Chapter 13 Definitions as follows:</p> <p><i>Means a <u>self-contained residential unit that occupies in a building</u> with three or more attached residential units connected by one or more accessory buildings, such as a garage or carport.</i></p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the proposed definition with a minor amendment to clarify that an apartment is a building that contains three or more residential units. • Alternatively, submitter considered whether the definition of an apartment should refer to a 'self-contained residential unit that occupies in a building, generally with three or more attached residential units.' 		

Plan chapter: Section C Rules > Chapter 13: Definitions > A > Automotive activities

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.31		
Plan chapter	Section C Rules > Chapter 13: Definitions > A > Automotive activities		
Summary of Decision Requested	Delete the definition for "Automotive activities" from Chapter 13 Definitions in its entirety.		
Decision Reasons:	<ul style="list-style-type: none"> • The inclusion of a definition for 'automotive activities' within the District Plan is opposed. • The inclusion of this definition is unnecessary and should be deleted. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > B

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.130		
Plan chapter	Section C Rules > Chapter 13: Definitions > B		
Summary of Decision Requested	<p>Add a new definition for "Boundary Adjustment" to Chapter 13: Definitions as follows:</p> <p><i><u>Boundary adjustment – means a subdivision of adjoining allotments to adjust the position of boundaries, in a manner that produces the same number of allotments.</u></i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter seeks a definition of <i>Boundary Adjustment</i>, in recognition that this is a valid form of reorganisation of land parcels, which is useful for supporting rationalisation of farm management. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > B > Blasting

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.58		
Plan chapter	Section C Rules > Chapter 13: Definitions > B > Blasting		
Summary of Decision Requested	Amend the definition for "Blasting" in Chapter 13 Definitions to include an irregular array of blast holes.		
Decision Reasons:	<ul style="list-style-type: none"> • The potential and actual effect of both irregular and regular blast holes is likely to be similar. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > B > Boarding, breeding or animal training establishment

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.129		
Plan chapter	Section C Rules > Chapter 13: Definitions > B > Boarding, breeding or animal training establishment		

Summary of Decision Requested	Amend the definition of "Boarding, breeding or animal training establishment" in Chapter 13 Definitions, as follows: <i>Means an activity carried out on land or within buildings where board and lodging, breeding and training is provided or intended to be provided for more than five animals (excluding offspring up to 3 months of age). This does not include dog kennels, calf rearing sheds, stables, and or similar activities shelters for private farming uses, and activities defined as Agricultural and horticultural research activities and Agricultural research centres.</i> AND Any consequential amendments needed to give effect to this relief.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the exemptions included in this definition but considers the amendment as proposed is necessary to ensure that there is no confusion or uncertainty created when the rules framework is applied.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.367		
Plan chapter	Section C Rules > Chapter 13: Definitions > B > Boarding, breeding or animal training establishment		
Summary of Decision Requested	Amend the definition of "Boarding, breeding or animal training establishment" as follows: <i>Animal boarding, daycare, breeding or animal training establishment</i> <i>Means an activity carried out on land or within buildings where board, daycare and lodging, breeding and or training is provided or intended to be provided for more than five domestic animals (excluding...</i>		
Decision Reasons:	<ul style="list-style-type: none"> Additional clarity and the inclusion of daycare facilities for animals. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > B > Boundary

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.59		
Plan chapter	Section C Rules > Chapter 13: Definitions > B > Boundary		
Summary of Decision Requested	Amend the definition for "Boundary" in Chapter 13 Definitions to be more comprehensive for cross-leases, covering internal boundaries associated with registered exclusive use areas and external boundaries covering the whole of the cross lease site.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter is concerned that this definition is not full enough. Cross leases can also have internal boundaries associated with registered exclusive use area, and external boundaries covering the whole of the cross-lease site. Refer to the definition of "site" and the language used to defined a cross lease. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.368		
Plan chapter	Section C Rules > Chapter 13: Definitions > B > Boundary		
Summary of Decision Requested	Amend the definition of "Boundary" as follows: <i>Means in relation to:</i> <i>(a) a Record of Title - the site boundary;</i> <i>(b) cross-lease titles - the boundary of any restrictive covenant exclusive use area; and</i> <i>(c) unit titles - the boundary of the accessory unit associated with the principal unit.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Increased clarity of the term. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.31		
Plan chapter	Section C Rules > Chapter 13: Definitions > B > Boundary		
Summary of Decision Requested	Retain the definition of "boundary" in Chapter 13 Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the proposed definition. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > B > Building

Submitter Number:	197	Submitter:	Jeska McHugh
Organisation:	NZ Pork		
Point Number	197.13		
Plan chapter	Section C Rules > Chapter 13: Definitions > B > Building		

Summary of Decision Requested	Amend the definition for "Building" in Chapter 13 Definitions to clearly exclude mobile shelters for outdoor pigs from the definition of building.
Decision Reasons:	<ul style="list-style-type: none"> The definition must clearly exclude mobile shelters for outdoor pigs from the definition of building.

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.8		
Plan chapter	Section C Rules > Chapter 13: Definitions > B > Building		
Summary of Decision Requested	Amend the definition of "Building" in Chapter 13 Definitions, to exclude power poles, support structures and mast poles, as per section 9 (a), (ab) and (ac) of the Building Act 2004.		
Decision Reasons:	<ul style="list-style-type: none"> Power poles, support structures and mast poles are not buildings. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.116		
Plan chapter	Section C Rules > Chapter 13: Definitions > B > Building		
Summary of Decision Requested	<p>Delete (e) in the definition of "Building" in Chapter 13 Definitions, and replace with the following:</p> <p><i>Has the meaning the Building Act 2004, excluding:</i></p> <p>...</p> <p><u>(e) artificial crop protection structures and crop support structures</u></p> <p>OR</p> <p>Amend (e) in the definition of "Building" in Chapter 13 Definitions, as follows:</p> <p><i>Has the meaning in the Building Act 2004, excluding:</i></p> <p>...</p> <p><i>(e) a structure that is permeable and less no greater than 4.8 metres in height to protect crops from agricultural use.</i></p> <p>OR</p> <p>Delete the definition of "Building" in Chapter 13 Definitions, and replace with the following:</p> <p><u>Means any impervious structure, whether temporary or permanent, moveable or fixed, that is enclosed with 2 or more walls and a roof, or any structure that is similarly enclosed.</u></p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the exclusion of structures to protect crops for agricultural use. The 4m height restriction is not practical. To be effective, most crop protection structures need to be at least 8m high. These structures are necessary to ensure high quality fruit production through protection from hail, wind and frost. All artificial crop protection structures would automatically trigger building coverage, height and setback controls. These structures are permeable to control temperature and allow rain through. Therefore, coverage and platform rules are irrelevant. These structures are a necessary function of horticulture. It is more appropriate to control height through rules in the Plan. This definition deviates from the Draft National Planning Standards. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.32		
Plan chapter	Section C Rules > Chapter 13: Definitions > B > Building		
Summary of Decision Requested	Retain the definition for "Building" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the proposed definition of 'building' insofar as the definition has the same meaning as that within the Building Act 2004, which excludes a Network Utility Operator pylon from the definition of a building. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.43		
Plan chapter	Section C Rules > Chapter 13: Definitions > B > Building		
Summary of Decision Requested	<p>Add clause (f) to the definition of "building", as follows:</p> <p><i>Building</i></p> <p><i>Has the meaning in the Building Act 2004, excluding:</i></p> <p>...</p> <p><i>(g) a structure that is permeable and less than 4 metres in height to protect crops for agricultural use; or;</i></p> <p><u><i>(f) cargo and containers associated with industrial activities within the Horotiu Industrial Park.</i></u></p> <p>AND</p>		

Amend the Proposed District Plan to make alternative or consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- The stacking of cargo and containers is a permitted activity in the Industrial Zone and will be carried out daily in the inland freight hub. Cargo and containers should be excluded from the definition of 'building'.

Section C Rules > Chapter 13: Definitions > B > Building

Summary of Decision Requested

Amend the definition of "Building" (d) as follows:

(d) a tank with a total capacity of not more than 35,000 litres, provided that ~~no part of~~ the tank protrudes no more than ~~1.2~~ metre above natural ground level; or

Decision Reasons:

- Amended to allow an increased height for tanks to reflect the common dimensions of water tanks.

Submitter Number:

749

Submitter:

Housing New Zealand Corporation

Point Number

749.32

Plan chapter

Section C Rules > Chapter 13: Definitions > B > Building

Summary of Decision Requested

Amend the definition of "building" in Chapter 13 Definitions to include the full text of the Building Act definition (see the submission for the text sought) as part of (a) of the definition.

AND

Amend the definition of "Building" in Chapter 13 Definitions to restructure the list of exclusions and insert it as part (b) of the definition as follows:

(b) Excludes:

a) a pergola, not roofed or enclosed, less than 3 metres in height; or a swimming pool, ornamental pool, deck; or

b) other structure not roofed or enclosed, less than 1.5 metre in height; or

~~b)(c)~~ a fence, or a wall other than a retaining wall, less than 2 metres in height; or

~~b)(d)~~ public or cultural art in a public place less than 3 metres in height; or

~~b)(e)~~ a retaining wall or retaining structure less than 1.5 metres in height, provided that where a fence or non-retaining wall is placed at the top of the retaining wall, the combined height is less than 2 metres; or

~~b)(f)~~ a tank with a total capacity of no more than 35,000 litres, provided that no part of the tank protrudes more than 1 metre above natural ground level; or

~~b)(g)~~ a structure that is permeable and less than 4 metres in height to protect crops for agricultural use.

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- The submitter supports the proposed definition to have the same meaning as in the Building Act 2004.
- For ease of reading insert the Building Act 2004 definition in this section and separate out the exclusions in sub-clause (b).
- The draft National Planning Standards proposed a definition for 'Building'. The submitter has made a submission to the Ministry for the Environment on the draft National Planning Standards and in doing so expressed that a number of abnormalities always arise from this definition in terms of structures which would be included and excluded from the definition inappropriately. The submitter expressed that one option could be to consider using the definition of "building" set out in ss8-9 of the Building Act 2004.

Plan chapter: Section C Rules > Chapter 13: Definitions > B > Building coverage

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.117		
Plan chapter	Section C Rules > Chapter 13: Definitions > B > Building coverage		
Summary of Decision Requested	<p>Amend the definition of "Building coverage" in Chapter 13 Definitions, as follows:</p> <p><i>Means the proportion of the net site area which is covered by any building. It includes:</i></p> <p>(a) <i>overhanging or cantilevered parts of buildings or structures</i></p> <p>(b) <i>covered decks</i></p> <p>...</p> <p><i>It excludes:</i></p> <p>...</p> <p><u>(e) artificial crop protection structures and crop support structures.</u></p> <p>OR</p> <p>Amend the definition of "building" in Chapter 13: Definitions as sought elsewhere in the submission.</p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Artificial crop protection structures are permeable by design to manage temperature and allow for rain penetration. Accordingly, there is no impact on stormwater runoff as a result of these structures. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.44		
Plan chapter	Section C Rules > Chapter 13: Definitions > B > Building coverage		
Summary of Decision Requested	Retain the definition of "building coverage" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support the definition as notified. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.370		
Plan chapter	Section C Rules > Chapter 13: Definitions > B > Building coverage		
Summary of Decision Requested	<p>Amend the definition of "Building coverage" as follows:</p> <p>...</p> <p>(c) uncovered <i>decks less than 1m above ground level; and</i></p> <p>(d) uncovered <i>swimming pools that do not protrude more than 1 metre above ground level.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Increased clarity of the definition with respect to covered swimming pools. Provided addition clarity on the status of swimming pools to match the parameters for decks. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.33		
Plan chapter	Section C Rules > Chapter 13: Definitions > B > Building coverage		
Summary of Decision Requested	<p>Amend the heading of term "Building Coverage" in Chapter 13 Definitions by deleting the term "Building"</p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the proposed definition, however notes that the term could be amended from 'Building Coverage' to 'Coverage'. The draft National Planning Standards proposed a definition for 'Coverage'. The submitter has made a submission to the Ministry for the Environment on the draft National Planning Standards and in doing so expressed that the definition reference to structure should be a reference to "buildings" (as defined in Building Act 2004). 		

Plan chapter: Section C Rules > Chapter 13: Definitions > B > Building platform

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.45		

Plan chapter	Section C Rules > Chapter 13: Definitions > B > Building platform
Summary of Decision Requested	Retain the definition of "Building platform" in Chapter 13 Definitions, as notified.
Decision Reasons:	<ul style="list-style-type: none"> Support the definition as notified.

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.34		
Plan chapter	Section C Rules > Chapter 13: Definitions > B > Building platform		
Summary of Decision Requested	Delete the definition of "Building platform" in Chapter 13 Definitions. AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> It is not clear why the term is included for a definition. It is unclear as to its relevance to building coverage. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > C

Submitter Number:	496	Submitter:	Andrea Millar
Organisation:	The Department of Corrections		
Point Number	496.1		
Plan chapter	Section C Rules > Chapter 13: Definitions > C		
Summary of Decision Requested	Add a new definition for "community corrections activity" in Chapter 13 Definitions, as follows: <u>Community corrections activity.</u> <u>Means the use of land and buildings for non-custodial services for safety, welfare and community purposes, including probation, rehabilitation and reintegration services, assessments, reporting, workshops and programmes, administration, and a meeting point for community works groups.</u> And any other consequential amendments required to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> Non-custodial corrections activities (and the associated facilities) do not clearly fall within any of the current activity definitions of the Plan, and consequently are not specifically provided for under the rules of any of the zones. It would then default to discretionary or non-complying. Community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safe 		

Submitter Number:	548	Submitter:	Murray & Cathy McWatt
Organisation:	Grander Investments Limited		
Point Number	548.10		
Plan chapter	Section C Rules > Chapter 13: Definitions > C		
Summary of Decision Requested	Add a new definition for "Cleanfill facility" in Chapter 13 Definitions, as follows: <u>A facility where clean fill material is accepted for disposal</u> <u>Excludes:</u> <ul style="list-style-type: none"> <u>Storage and use of clean fill material within an earthworks site for the purpose of engineering contours for specific activities;</u> <u>Placement of clean fill material associated with road construction and road maintenance activities; and</u> <u>Onsite storage and use of overburden or aggregate by-product that is clean fill material associated with mineral extraction activities.</u> 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.61		
Plan chapter	Section C Rules > Chapter 13: Definitions > C		
Summary of Decision Requested	Add a definition for "Construction Noise" in Chapter 13 Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> There should be a definition for this. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.11		
Plan chapter	Section C Rules > Chapter 13: Definitions > C		

Summary of Decision Requested	<p>Add a new definition for "Cleanfill Facility" to Chapter 13: Definitions as follows:</p> <p><u>A facility where clean fill material is accepted for disposal.</u></p> <p><u>Excludes:</u></p> <ul style="list-style-type: none"> <u>storage and use of cleanfill material within an earthworks site for the purpose of engineering contours for specific activities;</u> <u>placement of cleanfill material associated with road construction and road maintenance activities; and</u> <u>onsite storage and use of overburden or aggregate by-product that is cleanfill material associated with mineral extraction activities.</u>
Decision Reasons:	<ul style="list-style-type: none"> The submitter seeks a definition for an operation that accepts cleanfill for disposal, distinct from where cleanfill is imported for rural production purposes, or to form buildings sites, roads etc. Cleanfills pose less risk to the environment than other types of waste management facilities and are a necessary consequence of urban growth. Therefore, Cleanfill facilities should be provided for in appropriate zones (Rural and Industrial Zones) where the effects can be managed.

Plan chapter: Section C Rules > Chapter 13: Definitions > C > Cabinet

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.9		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Cabinet		
Summary of Decision Requested	Amend definition of "Cabinet" in Chapter 13 Definitions, to clarify whether cabinets ancillary to the operations of communications equipment for the connectivity of the electricity network should be regarded as a cabinet or minor infrastructure. If regarded as a cabinet, the submitter questions whether it would be excluded because it houses ancillary equipment, or whether this is subject to assessment of dimensions.		
Decision Reasons:	<ul style="list-style-type: none"> Counties Power uses cabinets which are ancillary to the operation of communications equipment which is required for connectivity of the electricity network. These cabinets are generally attached to the lower part of the pole, or on the ground at the base of the pole. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > C > Campus

Submitter Number:	637	Submitter:	Livestock Improvement Corporation
Point Number	637.4		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Campus		
Summary of Decision Requested	Retain the definition of "Campus" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Supports retention of the definition. 		

Submitter Number:	639	Submitter:	Dairy NZ Incorporated
Point Number	639.4		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Campus		
Summary of Decision Requested	Retain the definition of "Campus" in Chapter 13 Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports retention of the definition. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.371		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Campus		
Summary of Decision Requested	Delete from Chapter 13: Definitions the definition for "Campus".		
Decision Reasons:	<ul style="list-style-type: none"> This term is only used in the context of the Specific Area - Agriculture Research Centre and a definition is not needed. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > C > Child care facility

Submitter Number:	343	Submitter:	Michael Briggs
On behalf of:	Rangitahi Limited	Organisation:	Harrison Grierson Cosultants Limited
Point Number	343.9		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Child care facility		
Summary of Decision Requested	Retain the definition for "Child Care Facility" in Chapter 13 Definitions.		

Decision Reasons:	<ul style="list-style-type: none"> The Submitter supports the inclusion of a definition for childcare facility.
--------------------------	--

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.373		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Child care facility		
Summary of Decision Requested	Amend the definition of "Child care facility" as follows: <i>Means any land or buildings used for the care or training of predominantly pre-school children and includes a playcentre, kindergarten or daycare.</i> <i>It excludes...</i>		
Decision Reasons:	<ul style="list-style-type: none"> Inclusion of a child daycare activity in the defined term to cover those activities. 		

Submitter Number:	781	Submitter:	Ministry of Education
Point Number	781.2		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Child care facility		
Summary of Decision Requested	Delete the definition of "Child care facility" from Chapter 13: Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> The notified definition does not accurately reflect the broad range of activities associated with a child care facility, including other education facilities. The requested definition of 'education facility' includes facilities for early childhood education as addressed elsewhere in the submission. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > C > Cleanfill

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.241		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Cleanfill		
Summary of Decision Requested	Amend the definition for "Cleanfill" in Chapter 13: Definitions to reflect the definition in WasteMINZ 'Technical Guidelines for Disposal to Land (August 2018)'.		
Decision Reasons:	<ul style="list-style-type: none"> The definition for cleanfill does not fully align with the latest sector guidelines from WasteMINZ 'Technical Guidelines for Disposal to Land (August 2018)'. Currently the definition specifically limits cleanfill to that which has no adverse effects on people or the environment. This should be removed from the definition, with the rule framework providing the basis for managing effects of cleanfill. 		

Submitter Number:	302	Submitter:	Jeremy Talbot
On behalf of:	EnviroWaste New Zealand Limited	Organisation:	Barker & Associates Limited
Point Number	302.49		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Cleanfill		
Summary of Decision Requested	Amend the definition for "Clean Fill" in Chapter 13 Definitions to be consistent with the clean fill Material definition in the WasteMINZ Technical Guidelines for Disposal to Land. This reads: <i>Clean Fill Material</i> <i>Virgin excavated natural materials (VENM) such as clay, soil and rock that are free of:</i> <ul style="list-style-type: none"> combustible, putrescible, degradable or leachable components; hazardous substances or materials (such as municipal solid waste) likely to create leachate by means of biological breakdown; products or materials derived from hazardous waste treatment, stabilisation or disposal practices; materials such as medical and veterinary waste, asbestos, or radioactive substances that may present a risk to human health if excavated; contaminated soil and other contaminated materials; and liquid waste <i>When discharged to the environment, clean fill material will not have a detectable effect relative to the background.</i> AND Amend the Proposed District Plan to make consequential amendments or additional amendments to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> For consistency. 		

Submitter Number:	548	Submitter:	Murray & Cathy McWatt
Organisation:	Grander Investments Limited		

Point Number	548.3
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Cleanfill
Summary of Decision Requested	Amend the definition of "cleanfill" in Chapter 13 Definitions, to be more consistent with WasteMINZ definition.
Decision Reasons:	<ul style="list-style-type: none"> Support the inclusion of a definition of cleanfill. Amend definition to define what material can be used for cleanfill activities (e.g. re-contouring for roads and building platforms) to minimise risk of contamination of land and water from the use of inappropriate material. Definition of cleanfill is inconsistent with the national technical document for waste management in New Zealand - WasteMINZ Technical Guidelines for Disposal to Land. Different cleanfill standards can lead to inconsistencies between the Regional and District council acceptance criteria. The proposed District Plan definition of cleanfill is more akin to 'Controlled Cleanfill' in the WasteMINZ guidelines. See submission for full comparison of the definitions.

Submitter Number:	723	Submitter:	Tyler Sharratt
On behalf of:	Winstone Aggregates		
Point Number	723.8		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Cleanfill		
Summary of Decision Requested	Retain the definition of "Clean fill" in Chapter 13 Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.6		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Cleanfill		
Summary of Decision Requested	Amend the definition of "clean fill" in Chapter 13: Definitions to be consistent with the WasteMINZ definition as follows: <i>Virgin excavated natural materials (VENM) such as clay, soil and rock that are free of:</i> <ul style="list-style-type: none"> combustible, putrescible, degradable or leachable components; hazardous substances or materials (such as municipal solid waste) likely to create leachate by means of biological breakdown; products or materials derived from hazardous waste treatment, stabilisation or disposal practices; materials such as medical and veterinary waste, asbestos, or radioactive substances that may present a risk to human health if excavated; contaminated soil and other contaminated materials; and liquid waste. When discharged to the environment, clean fill material will not have a detectable effect relative to the background. 		
Decision Reasons:	<ul style="list-style-type: none"> Cleanfill is distinct from other waste given the low risk for contamination of land, water and air. Unlike other 'waste', cleanfill can be used to re-contouring for roads and building platforms. It is therefore important to define what material can be used for these activities to minimise the risk of contamination of land and water from the use of inappropriate material. The definition of cleanfill in the Proposed Plan is inconsistent with the leading national technical document for waste management in New Zealand - WasteMINZ Technical Guidelines for Disposal to Land. Different cleanfill standards can lead to inconsistencies between the Regional and District Council acceptance criteria and require different levels of monitoring/testing. The definition in the Proposed Plan is more akin to 'Controlled Cleanfill' in the WasteMINZ guidelines. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > C > Commercial activity

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.11		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Commercial activity		
Summary of Decision Requested	Retain the definition of "Commercial activity" in Chapter 13 Definitions on the assumption that it includes emergency services. AND Amend the definition of "Commercial Activity" in Chapter 13 Definitions, as follows: <i>Means the use of land and buildings which provides social and cultural services and facilities for the general public in respect of <u>emergency services</u>, education, and religion. Community facilities and leisure, may be associated with health clinics, schools, churches, probation and periodic detention centres.</i> AND Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand supports the definition on the assumption that the definition is intended to encompass emergency services. However, Fire and Emergency New Zealand considers that, in order to provide clarity, the definition should be expanded to make explicit mention of emergency services. 		

Submitter Number:	411	Submitter:	Kelvin Norgrove
Point Number	411.1		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Commercial activity		
Summary of Decision Requested	Retain the definition of "commercial activity" in Chapter 13 Definitions, as notified.		

Decision Reasons:

- The definition provides flexibility for a range of activities (such as restaurants, cafes, shops and offices) within both the Business Zone and Town Centre Business Zone, thus enabling mixed use developments in town centres.

Submitter Number: 749 **Submitter:** Housing New Zealand Corporation

Point Number 749.35

Plan chapter Section C Rules > Chapter 13: Definitions > C > Commercial activity

Summary of Decision Requested **Amend** the definition of "commercial activity" in Chapter 13 Definitions as follows:

Means activities involving the sale or distribution of goods and commercial services.

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- The submitter supports the definition and notes there is a definition for "commercial services". The defined term "commercial services" is not included in this definition or referenced.

Submitter Number: 785 **Submitter:** Z Energy Limited, BP Oil NZ Limited and Mobil Oil NZ Limited

Organisation: 'Oil Companies'

Point Number 785.32

Plan chapter Section C Rules > Chapter 13: Definitions > C > Commercial activity

Summary of Decision Requested **Amend** the definition of "commercial activity" in Chapter 13: Definitions to be more detailed and specific and based on the effects that the activity generates as opposed to being based on the nature of the consumer.

AND

Amend the definition of "commercial activity" in Chapter 13: Definitions to include service stations.

AND

Amend the definition of "commercial activity" in Chapter 13: Definitions to specifically exclude service stations if separate and specific provision is made for service stations as an activity.

OR

Amend the definition of "commercial activity" in Chapter 13: Definitions to specifically exclude service stations if separate and specific provision is made for service stations as an activity.

AND

Any consequential amendments or further relief to give effect to the submission.

Decision Reasons:

- The submitter opposes in part the definition of 'commercial activities' (*Means activities involving the sale or distribution of goods and services*) and 'retail activities' (*Means the sale or hire of goods or services or equipment directly to the public*) as these definitions are uncertain and ambiguous and service stations could be included within both.
- Submitter supports making specific provision for service stations and seeks to either specifically exclude service stations from either activity or to include them in both.
- As currently drafted commercial and retail activities can be interchangeable insofar as an activity that 'involves the sale of goods and services' falls under both definitions.
- While the definition of retail activity specifies that the sale is to be directly to the public, there is nothing stopping direct sales to the public as also being a commercial activity.
- There does not appear to be any particular effects based justification for differentiating between the two activities based on the consumer.

Plan chapter: Section C Rules > Chapter 13: Definitions > C > Commercial services

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.374

Plan chapter Section C Rules > Chapter 13: Definitions > C > Commercial services

Summary of Decision Requested **Delete** from Chapter 13: Definitions the definition for "Commercial services"

AND

Delete all instances where "commercial services" appears as an activity in the Plan and replace with "commercial activities".

Decision Reasons:

- The term "commercial services" overlaps with the term "commercial activity" and creates confusion. Activities of a commercial nature only need to be covered by a single term.

Submitter Number: 749 **Submitter:** Housing New Zealand Corporation

Point Number 749.36

Plan chapter Section C Rules > Chapter 13: Definitions > C > Commercial services

Summary of Decision Requested **Amend** the definition of "commercial services" in Chapter 13 Definitions as follows:

Means a business providing personal, property, financial, household, private or business services to the general public. It includes but is not limited to:

- a) authorised betting shops;
- b) copy and quick print services;
- c) financial and banking facilities;
- d) postal services;
- e) counter insurance services;
- f) dry cleaning and laundrette services;
- g) electrical goods repair services;
- h) footwear and leather goods repair services;
- i) hairdressing, beauty salons and barbers;
- j) internet and computer services;
- k) key cutting services;
- l) real estate agents and valuers;
- m) travel agencies, airline and entertainment booking services;
- n) optometrists;
- o) movie and game hire; ~~and~~
- p) animal welfare and/or grooming services; and
- g). government and administration services.

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- The submitter supports the proposed definition, however notes the term is missing government administration services from the list of inclusions.
- It is unclear to what inclusion listed in the proposed definition would tenancy offices classify under.
- "It includes but is not limited to" would encompass any other commercial services that are not primarily listed under the definition.

Plan chapter: Section C Rules > Chapter 13: Definitions > C > Community service court

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.37		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Community service court		
Summary of Decision Requested	Retain the definition of "community service court" in Chapter 13 Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none">• The submitter supports the proposed definition.		

Plan chapter: Section C Rules > Chapter 13: Definitions > C > Community activity

Submitter Number:	343	Submitter:	Michael Briggs
On behalf of:	Rangitahi Limited	Organisation:	Harrison Grierson Cosultants Limited
Point Number	343.11		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Community activity		
Summary of Decision Requested	Amend the definition for "Community Activity" in Chapter 13 Definitions to exclude childcare facilities. AND Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.		
Decision Reasons:	<ul style="list-style-type: none">• The definition is broad and need to be updated to specifically exclude child care facilities so there is no confusion, particularly to make it clear that the maximum floor area limits for those activities are not relevant to child care facilities.		

Submitter Number:	496	Submitter:	Andrea Millar
Organisation:	The Department of Corrections		
Point Number	496.2		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Community activity		
Summary of Decision Requested	Amend the definition of "community activity" in Chapter 13 Definitions, as follows: <i>Community activity</i> <i>Means the construction and use of public land and buildings which provides for individual or community health, welfare, care, safety, recreation, cultural, ceremonial, spiritual, community corrections activities, art and craft purposes and includes cemeteries.</i> AND Any other consequential amendments required to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none">• A definition is provided for community activity but it does not specifically incorporate community corrections activities.• Community corrections activities are essential social infrastructure and play a valuable role in reducing reoffending. They enable people and communities to provide for their social and cultural well-being and for their health and safety.• This is to allow for their reference and integration with the Plan. The amendment of the definition of community activity will result in community corrections activities becoming a subset of this definition. Adopting this approach means that community corrections activities can be considered together with community activities throughout the Plan where this is appropriate, whilst also allowing reference to them specifically where this is necessary.		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.60		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Community activity		
Summary of Decision Requested	Amend the definition of "Community Activity" in Chapter 13 Definitions to include "sporting activity".		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.38		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Community activity		
Summary of Decision Requested	Amend the definition of "community activity" Chapter 13 Definitions as follows: <i>Means the construction and use of public land and buildings...</i> OR Amend the definition of "community activity" Chapter 13 Definitions as follows: <i>Means the construction and use of public or <u>Crown</u> land and buildings...</i> AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the proposed definition, however notes that land and buildings (other than public) could be used for community activities, including Crown land. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > C > Community activity (Te Kauwhata Lakeside Precinct)

Submitter Number:	732	Submitter:	Lucy Smith
Organisation:	Terra Firma Mining Ltd		
Point Number	732.8		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Community activity (Te Kauwhata Lakeside Precinct)		
Summary of Decision Requested	Amend the definition of "Commercial activity (Te Kauwhata Lakeside Precinct)", by adding text as follows: <i>Commercial activity (Te Kauwhata Lakeside Precinct and Residential Puketirini Area)</i> <i>Means a community activity that relates to the Te Kauwhata Lakeside Precinct Plan area or the Residential Puketirini Area and involves the use of land and buildings that provide for individual or community health, welfare, care, safety, recreation, cultural, ceremonial, spiritual, and art and cultural purposes. It includes any preschool or education facility, place of worship, community hall or centre or recreation facility.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The broader range of community activities permitted in the Puketirini Area is appropriate to provide flexibility as to what might establish there. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > C > Community facilities

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.376		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Community facilities		
Summary of Decision Requested	Amend the definition of "Community facilities" as follows: <i>Means in the Business Zone Tamahere, land or building used for community activities...</i>		
Decision Reasons:	<ul style="list-style-type: none"> Delete the reference to a specific zone so that this term may be used (as appropriate) in other zones. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.39		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Community facilities		
Summary of Decision Requested	Amend the definition of "Community facilities" in Chapter 13 Definitions as follows: <i>Means in the Business Zone Tamahere, land or building used for community activities, generally established on a not-for-profit basis, and <u>may include but is not limited to</u> library, council offices, police station, public toilets or public rooms.</i> AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter does not support proposed term solely relating to, and only applying in, the Business Zone Tamahere. 		

- It is inappropriate to have general terms used for a specific zone and limit the application and use to a specific area.
- The term should be allowed to apply in all zones. There would be wider interest for the use of the term in the Proposed District Plan.

Plan chapter: Section C Rules > Chapter 13: Definitions > C > Comprehensive Land Development Consent

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.40		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Comprehensive Land Development Consent		
Summary of Decision Requested	<p>Amend the definition of "Comprehensive land development consent" as follows:</p> <p><i>Means a bundle of land use consents that apply to an area of land of 5ha or more which provides for staged and integrated development within the Te Kauwhata Lakeside Precinct Plan Area and can cover a range of Residential, Business and Rural zonings.</i></p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter does not support the proposed terms solely relating to and only applying in the Te Kauwhata Lakeside Precinct Plan Area. • It is inappropriate to have general terms used for a specific precinct area and limit the application and use to a specific area. • The term should be allowed to apply in any precinct area or zone. There would be wider interest for the use of the term in the Proposed District Plan.

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.41		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Comprehensive Subdivision Consent		
Summary of Decision Requested	<p>Amend the definition of "Comprehensive subdivision consent" in Chapter 13 Definitions as follows:</p> <p><i>Means a comprehensive subdivision consent that relates to a comprehensive land development consent the Te Kauwhata Lakeside Precinct Plan. A comprehensive subdivision is a subdivision of 5ha or more which provides for staged and integrated development within the Te Kauwhata Lakeside Precinct Plan Area and can cover a range of Residential, Business and Rural zonings.</i></p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter does not support the proposed terms solely relating to and only applying in the Te Kauwhata Lakeside Precinct Plan Area. • It is inappropriate to have general terms used for a specific precinct area and limit the application and use to a specific area. • The term should be allowed to apply in any precinct area or zone. There would be wider interest for the use of the term in the Proposed District Plan. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > C > Conservation activity

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.242		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Conservation activity		
Summary of Decision Requested	<p>Amend the definition of "Conservation Activity" in Chapter 13: Definitions to exclude the establishment of walkways, cycle ways and accessory buildings.</p> <p>AND/OR</p> <p>Amend Rule 25.1.2 P3 Permitted Activities to include appropriate thresholds or activity status for the clearance of indigenous vegetation as a result of establishing walking, cycling tracks or accessory buildings.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • In the Reserve Zone, Conservation activities are permitted with no activity specific conditions. The definition for conservation activity includes the establishment of walking and cycle tracks and accessory buildings. Therefore these activities would be permitted with no restrictions on the amount of clearance. • The submitter considers that this is inappropriate given the potential effect on indigenous biodiversity. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > C > Contiguous

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.377		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Contiguous		
Summary of Decision Requested	<p>Amend the definition of "Contiguous" as follows:</p> <p><i>Means abutting or touching at some any point, e.g....</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Improve clarity of the term. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.68		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Contiguous		
Summary of Decision Requested	<p>Amend the diagram associated with the definition of "contiguous" in Chapter 13: Definitions to display two sites touching.</p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The diagram associated with the definition "contiguous" does not correctly display two sites touching. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.42		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Contiguous		
Summary of Decision Requested	<p>Amend the definition of "Contiguous" in Chapter 13 Definitions as follows:</p> <p><i>Means abutting or touching at some any point, e.g..</i></p> <p>AND</p> <p>Amend the definition of "contiguous" in Chapter 13 Definition by removing the second illustration which shows sites touching at a single point.</p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter does not consider "touching at some any point" to be contiguous. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > C > Continuous landholding

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.378		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Continuous landholding		
Summary of Decision Requested	<p>Amend the definition of "Continuous landholding" as follows:</p> <p><i>Means a series of multiple adjoining Records of Title <u>in the same ownership</u>, including titles that may are only be separated by a road.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Improve clarity of the definition. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.43		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Continuous landholding		
Summary of Decision Requested	<p>Amend the definition of "Continuous landholding" in Chapter 13 Definitions as follows:</p> <p><i>Means a series of adjoining Records of Title, including titles that may <u>be contiguous or</u> only be separated by a road.</i></p> <p>AND</p> <p>Add an illustration to the definition of "Contiguous landholding" in Chapter 13 Definitions.</p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the proposed definition. However it is unclear to how the definition "contiguous" relates to the definition of "continuous land holding". To help the reader an illustration should be provided with the definition. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > C > Correctional facility

Submitter Number:	496	Submitter:	Andrea Millar
Organisation:	The Department of Corrections		

Point Number	496.3
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Correctional facility
Summary of Decision Requested	Retain the definition of "correctional facility" in Chapter 13 Definitions, as notified.
Decision Reasons:	<ul style="list-style-type: none"> This will enable custodial corrections activities to be considered and provided for appropriately.

Plan chapter: Section C Rules > Chapter 13: Definitions > C > Cumulative risk

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.62		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Cumulative risk		
Summary of Decision Requested	Amend the definition for "Cumulative risk" in Chapter 13 Definitions to objectively state if it means other facilities on or off the site.		
Decision Reasons:	<ul style="list-style-type: none"> Use of the term "other facilities" is meaningless. 		

Submitter Number:	785	Submitter:	Z Energy Limited, BP Oil NZ Limited and Mobil Oil NZ Limited
Organisation:	'Oil Companies'		
Point Number	785.35		
Plan chapter	Section C Rules > Chapter 13: Definitions > C > Cumulative risk		
Summary of Decision Requested	Delete the definition for "cumulative risk" from Chapter 13: Definitions. AND Any consequential amendments or further relief to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> In other submission points, the submitter seeks the deletion of Policy 10.1.3 as it is the only Policy which addresses "cumulative risk". In the absence of the Policy, it is not considered necessary to define the term "cumulative risk". 		

Plan chapter: Section C Rules > Chapter 13: Definitions > D

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.64		
Plan chapter	Section C Rules > Chapter 13: Definitions > D		
Summary of Decision Requested	Add a definition for "Disposal" to Chapter 13 Definitions		
Decision Reasons:	<ul style="list-style-type: none"> There should be a definition of "Disposal" 		

Plan chapter: Section C Rules > Chapter 13: Definitions > D > Day-to-day activity

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.50		
Plan chapter	Section C Rules > Chapter 13: Definitions > D > Day-to-day activity		
Summary of Decision Requested	Delete the definition for "day to day activity" from Chapter 13 Definitions in its entirety.		
Decision Reasons:	<ul style="list-style-type: none"> The inclusion of a definition for 'day to day activity' within the District Plan is opposed. The inclusion of this definition is unnecessary and should be deleted. 		

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		
Point Number	831.67		
Plan chapter	Section C Rules > Chapter 13: Definitions > D > Day-to-day activity		
Summary of Decision Requested	Amend the definition of "Day-to-day activity" in Chapter 13: Definitions to provide for skateparks.		

Decision Reasons:	<ul style="list-style-type: none"> Existing skateparks within Raglan are overcrowded and additional parks are required. The Plan should identify criteria for locations.
--------------------------	---

Plan chapter: Section C Rules > Chapter 13: Definitions > D > Dripline

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.65		
Plan chapter	Section C Rules > Chapter 13: Definitions > D > Dripline		
Summary of Decision Requested	Amend the definition of "Dripline" in Chapter 13 Definitions to include, when a tree is deciduous, the ground underneath the furthest extent of the branch system of the tree.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > D > Duplex

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.380		
Plan chapter	Section C Rules > Chapter 13: Definitions > D > Duplex		
Summary of Decision Requested	Amend the definition of "Duplex" as follows: <i>Means two attached residential units, including includes two units connected by an accessory building, such as a garage or a carport. This does not apply to minor dwellings.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Improves clarity of the definition, and clarifies that this definition does not apply to minor dwellings. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.44		
Plan chapter	Section C Rules > Chapter 13: Definitions > D > Duplex		
Summary of Decision Requested	Amend the definition of "Duplex" in Chapter 13 Definitions as follows: <i>Means two attached residential units, including two units connected by a common wall and/or an accessory building, such as a garage or a carport.</i> AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally supports the proposed definition. However a duplex could be connected by a common wall and/or by an accessory building, such as a garage or a carport. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > D > Dwelling

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.381		
Plan chapter	Section C Rules > Chapter 13: Definitions > D > Dwelling		
Summary of Decision Requested	Amend the definition of "Dwelling" as follows: <i>Means the same as a self-contained residential unit for living accommodation.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Provides additional clarity that the terms "dwelling" and "residential unit" can be used interchangeably in the Plan. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.5		
Plan chapter	Section C Rules > Chapter 13: Definitions > D > Dwelling		
Summary of Decision Requested	Amend the definition of "dwelling" in Chapter 13: Definitions to consider the Building Act and Resource Management Act definition AND Amend the definition of "dwelling" in Chapter 13 Definitions to exclude the following:		
	<ul style="list-style-type: none"> Mobile home Campervan Tent 		

- Caravan
- Cabin
- Motel
- Boarding-house
- Hotel
- Travellers' accommodation
- Hostel
- Special housing developments.

Decision Reasons:

- This definition is vague.
- Where a term has a defined meaning in the RMA, the term should not be redefined in Plans. Cross reference the Act so that, if any amendment is made to the legislation, the plan does not need to be changed.
- It is noted that the Building Act 2004 provides a definition of 'household unit' that, from an initial assessment, looks like it could be usefully applied in a planning sense.

Submitter Number: 749 **Submitter:** Housing New Zealand Corporation

Point Number 749.45

Plan chapter Section C Rules > Chapter 13: Definitions > D > Dwelling

Summary of Decision Requested Amend the definition of "Dwelling" in Chapter 13 Definitions as follows:

Means a self-contained residential unit for living accommodation used for a residential purpose as a single household residence contained within one or more buildings, and served by a kitchen.

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- The submitter notes that the draft National Planning Standards proposed a definition for 'Residential Unit' and not for "dwelling".
- The submitter has made a submission to the Ministry for the Environment on the draft National Planning Standards and in doing so expressed that the definition of a 'Residential Unit' is unclear.
- A distinction can be drawn between dwellings (i.e. used for a residential purpose as a single household residence contained within one or more buildings, and served by a kitchen) and an residential unit (a defined part of a building under different ownership).

Plan chapter: Section C Rules > Chapter 13: Definitions > E

Submitter Number: 574 **Submitter:** TaTa Valley Limited

Point Number 574.25

Plan chapter Section C Rules > Chapter 13: Definitions > E

Summary of Decision Requested Add a definition to Chapter 13 Definitions, for "Entertainment Facility", as follows:

A facility used for entertainment, including: cinema, showground, performance/cultural venue.

AND

Any consequential amendments and other relief to give effect to the matters raised in the submission.

Decision Reasons:

- This definition will enable these facilities to be identified and referred to within the Resort Zone.

Submitter Number: 827 **Submitter:** New Zealand Steel Holdings Ltd

Point Number 827.50

Plan chapter Section C Rules > Chapter 13: Definitions > E

Summary of Decision Requested Delete the definition of "Extractive Industry" in Chapter 13 and replace it with the following (or words to similar effect):

Extractive Activity;

Means taking, winning or extracting by whatever means, the naturally-occurring minerals (including but not limited to coal, rock, sand and gravel) and peat from under or on the land surface. The term includes:

- processing by such means as screening, crushing, or chemical separation of minerals at or near the site where the minerals have been taken, won or excavated,
- removal, stockpiling and filling of overburden sourced from the same site,
- all activities and structures associated with underground coal gasification, including pilot and commercial plants and the distribution of gas,
- excavation, blasting, processing (crushing, washing and blending),
- ancillary earthworks,
- storage, management and disposal of tailings,
- the storage, distribution and sale of aggregates by wholesale to industry or by retail,
- the storage, distribution and sale of mineral products,
- treatment of stormwater and wastewater,
- landscaping and rehabilitation works including cleanfilling,
- ancillary buildings and structures,
- residential accommodation necessary for security purposes.

The term excludes prospecting and exploration activities.

AND

Any other further or consequential amendments required.

Decision Reasons:

- 'Mineral extraction and processing', 'Aggregate Extraction Activities' and 'Extractive Industry' are all defined in the Proposed District Plan. There is overlap between the terms and creates potential for confusion and inconsistency.
- Definitions need to be streamlined.
- There is no clear reasons for distinguishing between aggregate and mineral extraction activities and therefore it is considered that it is more efficient to regulate and assess those activities jointly.

Submitter Number:	197	Submitter:	Jeska McHugh
Organisation:	NZ Pork		
Point Number	197.31		
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Earthworks		
Summary of Decision Requested	<p>Amend the definition for "Earthworks" in Chapter 13 Definitions to include the following:</p> <p><u>burying of material infected by unwanted organisms as declared by Ministry for Primary Industries Chief Technical Officer or an emergency declared by the Minister under the Biosecurity Act 1993.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> The plan should identify this to avoid delay in responding to a biosecurity threat. 		

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.10		
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Earthworks		
Summary of Decision Requested	<p>Amend the definition of "earthworks" in Chapter 13 Definitions, to clarify as to whether all forms are included in the definition e.g. thrusting/drilling. Thrusting and drilling should not be included in the definition of "earthworks".</p>		
Decision Reasons:	<ul style="list-style-type: none"> To ensure the definition is clear and whether all forms of earthworks that can occur with infrastructure activities are included. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.118		
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Earthworks		
Summary of Decision Requested	<p>Amend the definition of "Earthworks" in Chapter 13 Definitions, as follows:</p> <p><i>Means modification of land surfaces by blading, contouring, ripping, moving, removing, placing, or replacing soil or earth, or by excavation, or by cutting or filling operations, but excludes ancillary rural earthworks and burying of plant material that is infected by an unwanted organism as declared by the Ministry of Primary Industries Chief Technical Officer or an emergency declared by the Minister under the Biosecurity Act 1993.</i></p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Blading, contouring and ripping are ancillary earthworks for horticulture. The definition should exclude ancillary rural earthworks. There needs to be provision to enable a rapid response to biosecurity matters. Burying of plant material is one means of a biosecurity response and was applied during the PSA incursion on kiwifruit. 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.288		
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Earthworks		
Summary of Decision Requested	<p>Retain the definition of "earthworks" in Chapter 13: Definitions, subject to below.</p> <p>AND</p> <p>Amend rules to ensure earthworks are being assessed as a restricted discretionary activity should they occur in sites and areas of significance to Maaori.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the definition of "earthworks" as all earthworks within sites and areas of significance to Maaori are subject to resource consent. 		

Submitter Number:	581	Submitter:	Penny Gallagher
Organisation:	Synlait Milk Ltd		
Point Number	581.43		
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Earthworks		
Summary of Decision Requested	<p>Retain the definition of "Earthworks" in Chapter 13 Definitions as notified.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The definition provides appropriate interpretation in administration of the District Plan. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.131		
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Earthworks		
Summary of Decision Requested	<p>Amend the definition of "Earthworks" in Chapter 13 Definitions, as follows:</p> <p><i>Means modification of land surfaces by blading, contouring, ripping, moving, removing, placing or replacing soil or earth, or by excavation, or by cutting or filling operations, <u>but does not include Ancillary Rural Earthworks</u>.</i></p> <p>AND</p> <p>Any consequential amendments needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The definition of <i>Earthworks</i> should clearly exclude <i>Ancillary Rural Earthworks</i>, lest the latter get needlessly caught up in a resource consent process which is triggered by the former. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.382		
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Earthworks		
Summary of Decision Requested	<p>Amend the definition of "Earthworks" as follows:</p> <p><i>... or by cutting or filling operations.</i> <i><u>This does not apply to ancillary rural earthworks.</u></i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Additional clarity that ancillary rural earthworks are a different activity from earthworks for the purposes of this Plan. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.46		
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Earthworks		
Summary of Decision Requested	<p>Amend the definition of "Earthworks" in Chapter 13 Definitions by adding exclusions.</p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter notes that the draft National Planning Standards proposed a definition for 'Earthworks' and 'Land Disturbance'. The submitter has made a submission to the Ministry for the Environment on the draft National Planning Standards and in doing so expressed that the definition of a 'Earthworks' needs to include a number of exclusions. The submitter generally supports the proposed definition, however notes there are no exclusions listed.

On behalf of:	Powerco		
Point Number	836.9		
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Earthworks		
Summary of Decision Requested	Retain the definition of "Earthworks" in Chapter 13: Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > E > Education facility

Submitter Number:	697	Submitter:	Waikato District Council
--------------------------	-----	-------------------	--------------------------

Point Number	697.383
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Education facility
Summary of Decision Requested	<p>Amend the definition of "Education facility" as follows:</p> <p><i>Means premises where groups of people are given tuition and training on a formal basis and includes childcare facilities, schools, tertiary education institutions and specialised training facilities, and their ancillary administrative, cultural and health facilities.</i></p> <p><i><u>This does not include childcare facilities.</u></i></p>
Decision Reasons:	<ul style="list-style-type: none"> • Recognition that childcare facilities are a separate activity from an education facility for the purposes of this Plan.

Submitter Number:	781	Submitter:	Ministry of Education
Point Number	781.1		
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Education facility		
Summary of Decision Requested	<p>Amend Chapter 13 Definitions, by deleting the definition of 'Education facility' and replacing with a new definition as follows:</p> <p><i><u>Education facility</u></i></p> <p><i>Means premises where groups of people are given tuition and training on a formal basis and includes childcare facilities, schools, tertiary education institutions and specialised training facilities, and their ancillary administrative, cultural and health facilities:</i></p> <p><i><u>Education Facilities: means land and/or buildings used to provide regular instruction or training and includes schools, community education, early childhood education, tertiary education institutions, work skills training centres, outdoor education centres and sports training establishments and includes their ancillary administrative and support facilities (including cultural, recreational, communal or accommodation).</u></i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • The Ministry of Education supports the principle that education facilities are defined. However, in order to comprehensively recognise the range of activities that may be provided at an education facility, the relief sought will accurately reflect the activities that may be required to support the efficient and effective provision of this education. • The proposed definition is consistent with what the Ministry has provided for other district plans and is in line with the Ministry's national standards for all education facilities. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > E > Emergency generator

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.137		
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Emergency generator		
Summary of Decision Requested	<p>Amend the definition of "emergency generator" in Chapter 13: Definitions as follows:</p> <p><i>Means either a fixed or trailer-mounted generator that can supply reticulated water and wastewater networks or treatment facilities with emergency power where and when necessary. <u>It does not include any generator when running for testing or maintenance.</u></i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • The definition is used to exclude this sound source from noise limits in most zones. The exclusion is reasonable for emergency operation of generators but not for routine testing or maintenance, particularly outside of core daytime hours. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > E > Energy corridor

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.119		
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Energy corridor		
Summary of Decision Requested	No specific decision requested, but the submission is seeking clarification of the definition of "Energy Corridor" in Chapter 13 Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> • The term "Energy Corridor" has the same definition as "Emergency generator". 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.33		
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Energy corridor		
Summary of Decision Requested	<p>Delete the definition for "Energy Corridor" from Chapter 13 Definitions if it is not shown on the planning maps</p> <p>OR</p> <p>Amend the planning maps legend so that plan users can readily identify where the Energy corridor applies if it is shown on the planning maps.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • It is unclear as to where the definition applies as it does not appear to be shown on the planning maps or identified on the planning legend. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.132		
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Energy corridor		
Summary of Decision Requested	Amend the definition of "Energy corridor" in Chapter 13 Definitions to ensure that it is the same, regardless of which format of the Proposed District Plan is being used.		
Decision Reasons:	<ul style="list-style-type: none"> Note that the definition of <i>Energy Corridor</i> is different on the two different formats of the plan uploaded on the Council website. It is assumed the electronic plan version contains an incorrect drafting error as it applies to <i>emergency generator</i>. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > E > Extractive industry

Submitter Number:	591	Submitter:	Stevenson Waikato Ltd
Point Number	591.7		
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Extractive industry		
Summary of Decision Requested	Amend the definition of "Extractive Industry" in Chapter 13 Definitions, as follows: <i>...The term also includes the removal, stockpiling and filling of overburden sourced from the same site and the following activities:</i> <ul style="list-style-type: none"> <u>blasting;</u> <u>storing, distributing and selling mineral products;</u> <u>accessory earthworks;</u> <u>treating stormwater and waste water;</u> <u>landscaping and rehabilitation of quarries;</u> <u>cleanfills and managed fills;</u> <u>recycling or reusing aggregate from demolition waste such as concrete, masonry, or asphalt;</u> <u>accessory activity and accessory buildings and structure such as weighbridges, laboratories and site offices.</u> <i>It includes all ...</i>		
Decision Reasons:	<ul style="list-style-type: none"> The definition does not include all the activities commonly carried out at a quarry or other extractive industry. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.133		
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Extractive industry		
Summary of Decision Requested	Amend the definition of "Extractive industry" in Chapter 13 Definitions, as follows: <i>Means taking, winning or extracting by whatever means, the naturally-occurring minerals (including but not limited to coal, rock, sand, and gravel) and peat from under or on the land surface, but does not include a Farm Quarry...</i> AND Any consequential amendments needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> Farm quarries should be excluded from the definition of <i>Extractive Industry</i>, consistent with our relief sought in relation to the definition of <i>Ancillary Rural Earthworks</i>. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.384		
Plan chapter	Section C Rules > Chapter 13: Definitions > E > Extractive industry		
Summary of Decision Requested	Amend the definition of "Extractive industries" as follows: <i>Means taking, winning or extracting by whatever means, the naturally-occurring minerals (including but not limited to coal, rock, sand, and gravel) and peat from under or on the land surface. This may include one or more of the following:</i> <ol style="list-style-type: none"> <u>blasting, processing (crushing, screening, washing, chemical separation and blending);</u> <u>the storage, distribution and sale of aggregates by wholesale to industry or by retail;</u> <u>the removal, stockpiling and deposition of overburden;</u> <u>treatment of stormwater and wastewater;</u> <u>landscaping and rehabilitation works including cleanfilling;</u> <u>ancillary buildings and structures;</u> <u>a single residential unit for security purposes; and</u> <u>internal roads and access tracks.</u> <i>The term includes the processing by such means as screening, crushing, or chemical separation of minerals at or near the site, where the minerals have been taken, won or excavated.</i> <i>The term also includes the removal, stockpiling and filling of overburden sourced from the same site.</i> <i>It includes all activities and structures associated with underground coal gasification, including pilot and commercial plants and the distribution of gas. It excludes prospecting and exploration activities.</i> <u><i>It does not include a farm quarry or ancillary rural earthworks.</i></u> AND Replace "aggregate extraction activities" and "mineral extraction and processing" with the term "Extractive industries" throughout the rules of the Proposed District Plan.		
Decision Reasons:	<ul style="list-style-type: none"> This term is covered by three definitions (aggregate extraction activities, extractive industry and mineral extraction and processing) which would be more efficiently rationalised into one. 		

Submitter Number:	860	Submitter:	Aggregate and Quarry Association (AQA) and Straterra
--------------------------	-----	-------------------	--

Point Number 860.18

Plan chapter Section C Rules > Chapter 13: Definitions > E > Extractive industry

Summary of Decision Requested **Amend** the definition of "Extractive Industry" in Chapter 13 Definitions to include all the activities associated with the extraction and processing of minerals including:

- blasting;
- storing, distributing and selling mineral products;
- accessory earthworks;
- treating storm water and waste water;
- landscaping and rehabilitation;
- clean fills and managed fills;
- recycling or reusing aggregate from demolition waste such as concrete, masonry, or asphalt;
- accessory activities and accessory buildings and structures such as weighbridges, laboratories and site offices.

Decision Reasons:

- Expand the definition to be more comprehensive.

Plan chapter: Section C Rules > Chapter 13: Definitions > F

Submitter Number: 394 **Submitter:** Gwenith Sophie Francis

Point Number 394.31

Plan chapter Section C Rules > Chapter 13: Definitions > F

Summary of Decision Requested **Add** a definition of "Farm Park" in Chapter 13 Definitions.

AND

Amend the Proposed District Plan to make consequential or further additional relief, as is appropriate to give effect to the intent of the submission.

Decision Reasons:

- No reasons provided.

Submitter Number: 419 **Submitter:** Lucy Deverall

Organisation: Horticulture New Zealand

Point Number 419.136

Plan chapter Section C Rules > Chapter 13: Definitions > F

Summary of Decision Requested **Add** a new definition for "Farm worker accommodation" to Chapter 13 Definitions, as follows:

Accommodation for people whose duties require them to live on-site, and in the rural zones for people who work on the site or in the surrounding rural area.

AND

Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- The provision of seasonal worker accommodation is becoming a necessary supporting activity to horticultural operations.

Submitter Number: 746 **Submitter:** The Surveying Company

Point Number 746.12

Plan chapter Section C Rules > Chapter 13: Definitions > F

Summary of Decision Requested **Add** a new definition for "Free Range Poultry Farming" to Chapter 13: Definitions as per the operative Franklin Section of the Operative District Plan.

Decision Reasons:

- No reasons provided.

Point Number 746.15

Plan chapter Section C Rules > Chapter 13: Definitions > F

Summary of Decision Requested **Add** a new definition for "Farming Visit" to Chapter 13: Definitions as per the Operative Franklin Section of the Operative District Plan.

Decision Reasons:

- No reasons given.

Plan chapter: Section C Rules > Chapter 13: Definitions > F > Farming

Submitter Number: 197 **Submitter:** Jeska McHugh

Organisation: NZ Pork

Point Number 197.32

Plan chapter	Section C Rules > Chapter 13: Definitions > F > Farming
Summary of Decision Requested	Retain the definition of "Farming" in Chapter 13 Definitions as notified.
Decision Reasons:	<ul style="list-style-type: none"> The inter-relationship between rural production activities, mixed farming operations and intensive farming must be encapsulated in the higher order rural production issues, objectives and policies.

Submitter Number:	341	Submitter:	Brian Croad
Organisation:	Tainui Group Holdings Limited		
Point Number	341.11		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Farming		
Summary of Decision Requested	<p>Amend the definition of "Farming" in Chapter 13 Definitions as follows:</p> <p><i>Means an agricultural, horticultural or apicultural activity having as its primary purpose the production of any livestock or crop using the in-situ soil, water and air as the medium for production. It includes:</i></p> <ul style="list-style-type: none"> <i>Ancillary buildings and structures such as barns and dairy sheds;</i> <i>Ancillary produce stalls;</i> <i>Processing of farm produce grown on the land, such as cutting, cleaning, grading, chilling, freezing, packaging and storage</i> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments as necessary to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The relief sought will provide clarity that ancillary buildings and structures associated with farming operations fall within this activity. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.120		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Farming		
Summary of Decision Requested	<p>Delete the term "Farming" in Chapter 13 Definitions, and replace with the term "Primary production" as follows:</p> <p><u>Primary production</u></p> <p><u>Means</u></p> <p><u>(a) any agricultural, pastoral, horticultural, forestry or aquaculture activities for the purpose of commercial gain or exchange; and</u></p> <p><u>(b) includes any land and auxiliary buildings used for the production of the products, including storing, washing and packing of product for market, that result from the listed activities; but</u></p> <p><u>(c) does not include processing of those products into a different product.</u></p> <p>AND</p> <p>Amend the Proposed District Plan by replacing all uses of the term "farming" with "primary production"</p> <p>OR</p> <p>Amend the definition of "Farming" in Chapter 13 Definitions, as follows:</p> <p><i>Means an agricultural, horticultural or apicultural activity having as its primary purpose the production of any livestock or crop using the in-situ soil, water and air as the medium for production, or the indoor production of plants.</i></p> <p><i>It includes:</i></p> <p><i>(a) Ancillary produce stalls;</i></p> <p><i>(b) Processing of farm produce grown on the land, such as cutting, cleaning, grading, chilling, freezing, packaging and storage.</i></p> <p><u>(c) Greenhouses</u></p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The Draft National Planning Standards has a definition for "primary production". The submitter prefers the use of the term "primary production" and seeks that all references to farming be amended to primary production. Alternatively, the submitter seeks that the definitions of "farming" is amended to include indoor horticulture. 		

Submitter Number:	481	Submitter:	Bruce and Kirstie Hill
Organisation:	Culverden Farm		
Point Number	481.3		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Farming		
Summary of Decision Requested	Amend the definition of "farming" by removing the link to soil fertility.		
Decision Reasons:	<ul style="list-style-type: none"> Clarity is needed in respect to whether the use of stock feed or silage brought in from off-site falls within the definition of 'farming' or 'intensive farming'. 		

Submitter Number:	482	Submitter:	Kirstie Hill
--------------------------	-----	-------------------	--------------

On behalf of:	Hill Country Farmers Group
Point Number	482.6
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Farming
Summary of Decision Requested	Amend the definition of "Farming" by removing the link to soil fertility.
Decision Reasons:	<ul style="list-style-type: none"> Clarity is needed in respect to whether the use of stock feed or silage brought in from off-site falls within the definition of 'farming' or 'intensive farming'.
Decision Reasons:	

Submitter Number:	676	Submitter:	T&G Global Limited
Point Number	676.5		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Farming		
Summary of Decision Requested	<p>Retain the definition of "Farming" in Chapter 13 Definitions in terms of providing for horticultural activities as well as the processing of produce grown on the land, except for the amendments sought below</p> <p>AND</p> <p>Amend the definition of "Farming" in Chapter 13 Definitions to allow for the processing of produce grown on other sites owned or leased by the same owners, and the submitter cites the definition of "On-site Primary Produce Manufacturing" in the Operative Waikato District Plan (Franklin Section) as better reflecting the needs of growers</p> <p>AND</p> <p>Amend the definition of "farming" in Chapter 13 Definitions to ensure that horticultural activities undertaken within greenhouses and shade houses, including hydroponics, are included in the definition.</p> <p>AND</p> <p>Any further or consequential amendments necessary to address the concerns raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The definition of "On-site Primary Produce Manufacturing" in the Operative District Plan (Waikato section) provides for the more efficient use of resources by reducing the need for dispersed on-site produce manufacturing which can lead to greater environmental impacts across the district. The submitter also seeks clarification within the definition of farming to ensure that horticultural activities undertaken within greenhouses and shade houses are considered as farming activities. While the proposed definition refers to horticulture, it is not specific in whether or not that includes activities undertaken within greenhouses or under shade cover or that may not rely on the soil, for example hydroponics. The existing definition of farming within the Waikato District Plan – Franklin Section refers to horticulture. No corresponding definition of horticulture has been provided within the Proposed Plan. Furthermore, the definition of Intensive Farming provided under the Proposed Plan creates some uncertainty as it specifically includes farming which is not dependent on the fertility of the soils on which the activity is located, including glasshouse production and nurseries. If horticulture activities undertaken under glass house or shade covers are to be considered as intensive farming then this has considerable ramifications in terms of the Rural Zone activity rules as such activities would require resource consent as a Restricted Discretionary activity. This cannot be the intended outcome of the Proposed Plan and as this would be a departure from the established rules of the operative Plan the submitter would oppose this outcome. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.134		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Farming		
Summary of Decision Requested	<p>Add to the definition of "Farming" in Chapter 13 Definitions, a new clause (c) as follows:</p> <p><u>(c) Ancillary Rural Earthworks</u></p> <p>AND</p> <p>Any consequential amendments needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> <u>Ancillary Rural Earthworks</u> should be included in the list of activities included in the definition of <i>Farming</i>, consistent with our relief sought in relation to the definition of <u>Ancillary Rural Earthworks</u>. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.385		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Farming		
Summary of Decision Requested	<p>Amend the definition of "Farming" as follows:</p> <p><i>Means an agricultural, horticultural or apicultural activity having as its primary purpose the production of any livestock or crop using the in-situ soil, water and/or air as the medium for production.</i></p> <p><i>It includes:</i></p> <p>(a) Ancillary produce stalls;</p> <p><i>(b) Processing of farm produce grown on the land, such as cutting, cleaning, grading, chilling, freezing, packaging and storage.</i></p> <p><i>(c) loading areas for helicopters and airstrips for top dressing and spraying.</i></p> <p><i>It excludes intensive farming.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> There is significant overlap between the definition of "farming" and "rural industry", with a single activity potentially being covered by both terms with different activity statuses. The processing of produce is retained in the definition of "farming" and recognises that produce may not be grown on the land. The definition is expanded to include loading areas for helicopters and airstrips for top dressing and spraying. For clarity the definition needs to recognise that intensive farming is a separate activity. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.7		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Farming		
Summary of Decision Requested	Amend the definition of "farming" in Chapter 13: Definitions to include free-range poultry farming.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.

Decision Reasons:	<ul style="list-style-type: none"> Include free-range poultry as part of "farming" 		

Plan chapter: Section C Rules > Chapter 13: Definitions > F > Farming noise

Submitter Number:	197	Submitter:	Jeska McHugh
Organisation:	NZ Pork		
Point Number	197.33		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Farming noise		
Summary of Decision Requested	Retain the definition of "Farming noise" in Chapter 13 Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The definition is supported. Farming noise must not be subject to regulatory constraints for activities that are a typical and necessary part of the rural production environment. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		

Point Number	419.121
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Farming noise
Summary of Decision Requested	<p>Amend the definition of "Farming noise" in Chapter 13 Definitions, as follows:</p> <p>Farming<u>Primary production</u> noise</p> <p>Means noise generated by <u>primary production</u> agricultural vehicles, <u>machinery or equipment</u>, any aircraft used for aerial spraying <u>or fertiliser application</u>, agricultural machinery or equipment and farm animals, including farm dogs. It does not include bird scaring devices and frost fans.</p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> The definition of "farming noise" is supported but the submitter notes that aircraft are used for both spraying and fertiliser application. To be consistent with the change of farming to primary production, the terms should be amended to "primary production noise". The term should not be limited by 'agricultural' activities as these are only one type of primary production activity.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.135		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Farming noise		
Summary of Decision Requested	Retain the definition of "Farming noise" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the definition. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.386		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Farming noise		
Summary of Decision Requested	<p>Amend the definition of "Farming noise" as follows:</p> <p>Means noise generated by agricultural vehicles, any aircraft used for aerial spraying, agricultural machinery or equipment and farm animals, including farm dogs. It does not<u>This includes</u> bird scaring devices and frost fans.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Recognises that bird scaring devices and frost fans are legitimate parts of farming. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.138		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Farming noise		
Summary of Decision Requested	<p>Amend the definition of "Farming Noise" in Chapter 13: Definitions as follows:</p> <p>Means noise generated by agricultural vehicles, any aircraft used for aerial spraying, agricultural machinery or equipment and farm animals, including farm dogs. It does not include fixed equipment or facilities, bird scaring devices and frost fans.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The definition excludes farming noise sources from noise limits in some zones. Whilst there is justification for making this exclusion for some farming activities, it would be unreasonable with respect to fixed equipment (such as pumps) and facilities (such as dairy sheds). Unless properly designed and attenuated the sound from such sources could cause adverse health effects. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > F > Farm quarry

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.136		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Farm quarry		
Summary of Decision Requested	Retain the definition of "Farm quarry" in Chapter 13 Definitions, as notified.

Plan chapter: Section C Rules > Chapter 13: Definitions > F > Forestry

Submitter Number:

986

Submitter:

Pam Butler

On behalf of:

KiwiRail Holdings Limited (KiwiRail)

Point Number

986.50

Plan chapter

Section C Rules > Chapter 13: Definitions > F > Forestry

Summary of Decision Requested

Amend the definition of "forestry" in Chapter 13 Definitions as follows (or similar amendments to achieve the requested relief):

Means the planting and growing of trees (including shelterbelts and woodlots) and is an integrated land use including land preparation, roading, tree planting and maintenance (i.e. thinning, pruning, noxious weeds and animal control) and harvesting of trees and includes the use of accessory buildings, but not the establishment and/or use of permanent sawmills or other methods of timber processing.

AND

Any consequential amendments to link and/or accommodate the requested changes.

Decision Reasons:

- The National Environmental Standards for Plantation Forestry defines afforestation as 'planting and growing plantation forestry trees on land where there is no plantation forestry and where plantation forestry harvesting has not occurred within the last 5 years'.
- Other Plan definitions do not cover small woodlots, nor shelter belts. The planting of shelter belts and woodlots poses a similar risk and danger to the operation of the railway network as commercial forestry.
- When planted near to the rail corridor, woodlot or commercial forestry species can intrude into sight lines which raises particular safety issues at level crossings and around curves. Such plantings often also drop branches or leaves onto the rail corridor, increasing the risk of derailment.
- Trains cannot stop in a hurry, nor are they able to drive over such impediments. Roots from trees can also result in undermining of the rail corridor through the creation of mud spots.
- Mud spots occur where ballast under the rails is removed. When a train goes over a mud spot, the track bounces, creating a risk that either the track breaks or the train derails.
- Further, replanting trees often get closer and closer to the boundary and can end up encroaching into rail land.
- Modifying the Plan's definition of 'forestry' as sought supports a new rule seeking a 10m setback from the operational railway corridor.

Plan chapter: Section C Rules > Chapter 13: Definitions > F > Functional need

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.34		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Functional need		
Summary of Decision Requested	Retain the definition for "Functional Need" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The term 'Functional need' is used within Policy 6.1.2(a)(i) (noting that the term 'functional' is also elsewhere in the plan but is not specific to 'need'). On the basis the Proposed District Plan also contains the term 'Operational need' and this term is also used within Policy 6.2.1, the definition is supported. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.46		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Functional need		
Summary of Decision Requested	Retain the definition of "Functional need" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support the definition as notified. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.137		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Functional need		
Summary of Decision Requested	<p>Amend the definition of "Functional need" in Chapter 13 Definitions, as follows:</p> <p>Means for Chapter 14 Infrastructure and Energy, the need for a proposal or activity to traverse, locate or operate in a particular environment because it can only occur in that environment for any number of reasons.</p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter conditionally support this definition provided that the effect of this definition doesn't override the prerogative of landowners to refuse access to any member of the public or any network utility operator over private farmland. The definition has wider application than just Chapter 14 and may apply in certain circumstances to rural activities in and around waterbodies for example. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.388		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Functional need		
Summary of Decision Requested	<p>Amend the definition "Functional need" as follows:</p> <p>Means for Chapter 14 Infrastructure and Energy, the need for a proposal...</p>		
Decision Reasons:	<ul style="list-style-type: none"> While this term is most relevant to Chapter 14 Infrastructure and Energy, it is also used in Chapter 5 of the Plan. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.69		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Functional need		
Summary of Decision Requested	<p>Retain the definition for "Functional need" in Chapter 13: Definitions, except for the amendments sought below</p> <p>AND</p> <p>Amend the definition for "Functional need" in Chapter 13: Definitions as follows:</p> <p>Means for Chapter 14 Infrastructure and Energy the need for a proposal or activity to traverse, locate or operate in a particular environment because it can only occur in that environment.</p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the recognition that infrastructure can often have locational constraints. However, this definition should apply across the plan and should not be restricted to Chapter 14. 		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.7		
Plan chapter	Section C Rules > Chapter 13: Definitions > F > Functional need		
Summary of Decision Requested	Retain the definition of "Functional need" in Chapter 13: Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • This term helps other plan users understand that requirements for infrastructure and that there is not always a choice in their design and location. • Infrastructure often has to traverse, locate or operate in a particular environment because it can only occur in that environment or because of technical or operational constraints. • Creates more certainty for the submitter around the ability to establish assets where necessary, particularly within sensitive environments. • The submitter undergoes a rigorous route selection process to identify the best location for infrastructure, taking into consideration a number of environmental and economic factors. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > G

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.122		
Plan chapter	Section C Rules > Chapter 13: Definitions > G		
Summary of Decision Requested	Add a definition for "Greenhouse" to Chapter 13 Definitions, as follows: <u>Greenhouses are a totally enclosed structure where plants are grown in a controlled environment.</u> AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • A definition for greenhouses may assist in interpreting the proposed amendment to the definition of primary production. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.63		
Plan chapter	Section C Rules > Chapter 13: Definitions > G		
Summary of Decision Requested	No specific decision sought but submission supports the absence of "Growth Areas" as a defined term.		
Decision Reasons:	<ul style="list-style-type: none"> • This is supported in principle, to provide Council flexibility in forward planning. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > G > General warehousing

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.51		
Plan chapter	Section C Rules > Chapter 13: Definitions > G > General warehousing		
Summary of Decision Requested	Delete the definition for "General warehousing" from Chapter 13 Definitions in its entirety.		
Decision Reasons:	<ul style="list-style-type: none"> • The inclusion of a definition for 'General warehousing' within the District Plan is opposed. • The inclusion of this definition is unnecessary and should be deleted. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > G > GFA

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.389		
Plan chapter	Section C Rules > Chapter 13: Definitions > G > GFA		
Summary of Decision Requested	Delete from Chapter 13: Definitions the definition for "GFA" , AND Amend the definition of "Gross floor area" as follows: Gross floor area <u>or</u> <u>GFA</u>		

Decision Reasons:

- Delete the term GFA as a defined term and include it in the definition of gross floor area.

Plan chapter: Section C Rules > Chapter 13: Definitions > G > Gross floor area

Submitter Number: 578 **Submitter:** Ports of Auckland Limited

Point Number 578.47

Plan chapter Section C Rules > Chapter 13: Definitions > G > Gross floor area

Summary of Decision Requested **Retain** the definition of "Gross floor area" in Chapter 13 Definitions, as notified.

Decision Reasons:

- Support the definition as notified.

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.390

Plan chapter Section C Rules > Chapter 13: Definitions > G > Gross floor area

Summary of Decision Requested **Amend** the definition to "Gross floor area" as follows:

~~Means the sum of the gross area of all floors of a building, measured either from the exterior faces of the exterior walls, or from the centre line of walls separating two tenancies, as circumstances may require.~~

Means the sum of the total area of all floors of all buildings on the site (including any void area in those floors, such as service shafts or lift or stairwells), measured from the exterior faces of exterior walls or from the centre lines of walls separating 2 buildings and, in the absence of a wall on any side, it shall be measured to the exterior edge of the floor.

Decision Reasons:

- Additional clarity as to how to measure gross floor area.

Submitter Number: 749 **Submitter:** Housing New Zealand Corporation

Point Number 749.47

Plan chapter Section C Rules > Chapter 13: Definitions > G > Gross floor area

Summary of Decision Requested **Amend** the definition of "Gross floor area" in Chapter 13 definitions to include exclusions, which may include some of the exclusions from the definition "Gross leasable floor area".

AND

Amend the definition of "Gross floor area" in Chapter 13 definitions to provide a link to gross leasable floor area.

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- The draft National Planning Standards proposed a definition for 'Gross Floor Area'. The submitter has made a submission to the Ministry for the Environment on the draft National Planning Standards and expressed that the definition of 'Gross Floor Area' needs to include a number of exclusions.
- The submitter generally supports the proposed definition.
- However there are no exclusions listed and no reference to "Gross leasable floor area" that is included in the Proposed District Plan.
- Some of the exclusions listed under the proposed definition of 'Gross leasable floor area' should be included as exclusions under 'Gross Floor Area'.

Plan chapter: Section C Rules > Chapter 13: Definitions > G > Gross leasable floor area

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.391

Plan chapter Section C Rules > Chapter 13: Definitions > G > Gross leasable floor area

Summary of Decision Requested **Amend** the definition of "Gross leasable floor area" as follows:

Means the total sum of any floor areas (within the external walls for buildings or, in the absence of a wall on any side, it shall be measured to the exterior edge of the floor boundary for outdoor areas) designed....

Decision Reasons:

- Amend the definition to provide more clarity.

Submitter Number: 749 **Submitter:** Housing New Zealand Corporation

Point Number 749.48

Plan chapter Section C Rules > Chapter 13: Definitions > G > Gross leasable floor area

Summary of Decision Requested **Amend** the definition of "Gross leasable floor area" in Chapter 13 Definitions to include a link to the definition "Gross floor area".

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- The submitter generally supports the proposed definition; however, is unclear to how it links with the definition of 'Gross floor area'.

Plan chapter: Section C Rules > Chapter 13: Definitions > H

Submitter Number:

496

Submitter:

Andrea Millar

Organisation:

The Department of Corrections

Point Number

496.12

Plan chapter

Section C Rules > Chapter 13: Definitions > H

Summary of Decision Requested

Add a new definition for "household" in Chapter 13 Definitions, as follows:

Household

Means a person or group of people who live together as a unit whether or not:

(a) Any or all of them are members of the same family; or

(b) One or more members of the group (whether or not they are paid), provides day-to-day care, support and supervision to any other member(s) of the group.

AND

Any other consequential amendments required to give effect to this relief.

Decision Reasons:

- The submitter has self-care units both within the grounds of its correctional facilities and in the community. Self-care units are residential accommodation that are occupied by offenders nearing release (located on prison grounds) or following release (located in the community). They are designed to assist offenders with integration back into the community. They encompass a household living scenario. They have all the characteristics of residential activities.
- The definitions of residential activity and residential unit refer to household, however no definition is provided for such.
- A new definition provides for clarity.
- It captures modern living arrangements, including the sort that are supported within self-care facilities provided by the department – not limited to a family unit or flatting agreement.

Submitter Number:

Point Number

695.66

Plan chapter

Section C Rules > Chapter 13: Definitions > H

Summary of Decision Requested

Add a definition for "Horticultural Activity" to Chapter 13 Definitions.

Decision Reasons:

- There should be a definition of "Horticultural Activity".

Submitter Number:

746

Submitter:

The Surveying Company

Point Number

746.8

Plan chapter

Section C Rules > Chapter 13: Definitions > H

Summary of Decision Requested

Add a new definition of "horticultural activities" to Chapter 13: Definitions and include glasshouses, greenhouses, plant nurseries and orchards therein.

Decision Reasons:

- There needs to be a definition for "horticultural activities".

Plan chapter: Section C Rules > Chapter 13: Definitions > H > Hazard

Submitter Number:

749

Submitter:

Housing New Zealand Corporation

Point Number

749.49

Plan chapter

Section C Rules > Chapter 13: Definitions > H > Hazard

Summary of Decision Requested

Delete the term and the definition of "Hazard" in Chapter 13 definitions.

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- It is not clear why the term 'hazard' is included for a definition.
- The term can apply to a range of matters that is not included in the proposed definition such as natural hazards or hazards related to health & safety.
- There are definitions already provided for "hazardous facility", "hazardous substance" and "hazardous waste".
- The submitter considers it is not necessary to have a specific definition of "hazard" included in the Proposed District Plan.

Plan chapter: Section C Rules > Chapter 13: Definitions > H > Hazardous facility

Submitter Number:

419

Submitter:

Lucy Deverall

Organisation:	Horticulture New Zealand
Point Number	419.123
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Hazardous facility
Summary of Decision Requested	Delete the definition of "Hazardous facility" from Chapter 13 Definitions. AND Any consequential or additional amendments as a result of changes sought in the submission.
Decision Reasons:	<ul style="list-style-type: none"> The submitter does not consider that there is a need for a definition of "hazardous facility" given the approach that is sought for hazardous substances. The proposed definition would include a tractor or quad bike with a spray tank with agrichemicals as a hazardous facility and would hence make the whole farm a hazardous facility.
Point Number	419.143
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Hazardous facility
Summary of Decision Requested	Amend the definition of "hazardous facilities" in Chapter 13: Definitions, as follows: <i>Means activities involving hazardous substances and premises at which these substances are used, stored or disposed of. Storage includes vehicles for their transport located at a facility for more than short periods of time. Storage and use does not include vehicles transporting hazardous substances for their intended use, such as agricultural spraying or application of fertiliser.</i> AND Any consequential or additional amendments as a result of changes sought in the submission.
Decision Reasons:	<ul style="list-style-type: none"> It is uncertain what a "short period of time" is and would make a whole farm or rural property a hazardous facility, as a vehicle may be used to transport agrichemicals or fertiliser for application.

Submitter Number:	463	Submitter:	Environmental Management Solutions Limited
Point Number	463.5		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Hazardous facility		
Summary of Decision Requested	Delete the definition for "Hazardous Facility" from Chapter 13 Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter does not support the definition provided for a hazardous facility. The definition currently relates to both activities involving hazardous substances with no quantification, and premises at which these substances are used, stored or disposed of, including vehicles for their transport located at a facility for more than 'short periods of time'. It is considered that the Council has likely tried to make reference to terminology derived from the MfE HAIL, however, the way this definition is written makes no sense. Ultimately the definition could include every quad bike and garage in the District. HSNO and the NES govern the location certification, management and detection of hazardous substances respectively. It is considered that no definition is required in the District Plan. 		

Submitter Number:	466	Submitter:	Brendan Balle
Organisation:	Balle Bros Group Limited		
Point Number	466.1		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Hazardous facility		
Summary of Decision Requested	Delete the definition for "Hazardous Facility" from Chapter 13 Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter does not support the definition provided for a hazardous facility. The definition currently relates to both activities involving hazardous substances (with no quantification) and premises at which these substances are used, stored or disposed of, including vehicles for their transport located at a facility for more than 'short periods of time'. The submitter considers that the Council has likely tried to refer to terminology derived from the MfE HAIL; however, the way this definition is written makes no sense. Ultimately, the definition could include every quad bike and garage in the District. HSNO and the NESCS govern the location certification, management and detection of hazardous substances respectively. No definition for this is required in the District Plan. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.48		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Hazardous facility		
Summary of Decision Requested	Add exceptions to the definition of "Hazardous facility" in Chapter 13 Definitions as follows: <i>Hazardous facility</i> <i>Means activities involving hazardous substances and premises at which these substances are used, stored or disposed of. Storage includes vehicles for their transport located at a facility for more than short periods of time, and excludes:</i> <ul style="list-style-type: none"> <i>fuel in mobile plant, motor vehicles, boats and small engines; and</i> <i>the temporary storage, handling and distribution of national or international cargo.</i> AND Amend the Proposed District Plan to make alternative or consequential amendments as necessary to address the matters raised in the submission.		

Decision Reasons:	<ul style="list-style-type: none"> The inland port operations are such they store hazardous substances within plant and machinery on the site. This needs to be recognised in the definition. Hazardous substances also travel through the freight hub regularly as part of cargo, break bulk and bulk cargo. Maximum dwell times for such cargo is less than one week. Significant cost and operational implications if the above matters are not excluded from the definition of hazardous facilities.
--------------------------	---

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.139		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Hazardous facility		
Summary of Decision Requested	<p>Amend the definition of "Hazardous facility" in Chapter 13 Definition as follows:</p> <p><i>Means activities involving hazardous substances and premises at which these substances are used, stored or disposed of. Storage includes vehicles for their transport located at a facility for more than short periods of time. <u>A Hazardous facility does not include:</u></i></p> <p><i>(a) The incidental use and storage of Hazardous substances in domestic quantities; and</i></p> <p><i>(b) Fuel contained in tanks of motor vehicles, agricultural and forestry equipment, boats and small engines; and</i></p> <p><i>(c) On farm milk and farm effluent storage and disposal; and</i></p> <p><i>(d) Storage of superphosphate or lime or similar fertiliser in the Rural Zone; and</i></p> <p><i>(e) Use and storage of agrichemicals covered by, and in accordance with New Zealand Standard 8409:2004 Management of Agrichemicals.</i></p> <p>AND</p> <p>Any consequential amendments needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The definition as currently worded has the potential to capture a range of activities inappropriately. 		

Submitter Number:	800	Submitter:	Environmental Management Solutions Limited
Point Number	800.5		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Hazardous facility		
Summary of Decision Requested	Delete the definition of "hazardous facility" from Chapter 13 Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> EMS does not support the definition provided for a hazardous facility The definition currently relates to both activities involving hazardous substances with no quantification, and premises at which these substances are used, stored or disposed of, including vehicles for their transport located at a facility for more than 'short periods of time'. Council has likely tried to refer to terminology derived from the MfE HAIL, however, the way this definition is written makes no sense. Ultimately, the definition could include every quad bike and garage in the District. HSNO and the NES govern the location certification, management and detection of hazardous substances respectively. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > H > Hazardous substance

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.49		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Hazardous substance		
Summary of Decision Requested	Retain the definition of "Hazardous substances" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support the definition as notified. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.140		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Hazardous substance		
Summary of Decision Requested	<p>Amend the definition of "Hazardous substance" in Chapter 13 Definitions, as follows:</p> <p><i>Means any substance with hazardous properties, including radioactivity, high BOD (Biological Oxygen Demand) and those properties defined as hazardous for the purpose of the Hazardous Substances and New Organisms Act 1996.</i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The definition should be consistent with the HSNO Act, any variation has the ability to cause confusion and unnecessary duplication. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > H > Health facility

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
--------------------------	-----	-------------------	------------------------------

Point Number	695.67
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Health facility
Summary of Decision Requested	Amend the scope of the definition for "Health Facility" in Chapter 13 Definitions.
Decision Reasons:	<ul style="list-style-type: none"> A business, such as the Caci Clinic in Hamilton, which provides for a range of health as well as beauty and skincare services, would not fit easily into this definition.

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.141		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Health facility		
Summary of Decision Requested	Retain the definition of "Health facility" in Chapter 13: Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the definition. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > H > Heavy vehicle

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.50		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Heavy vehicle		
Summary of Decision Requested	Retain the definition of "Heavy vehicle" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support the definition as notified. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.70		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Heavy vehicle		
Summary of Decision Requested	Retain the definition for "Heavy vehicle" in Chapter 13: Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> It is consistent with the definition within the Land Transport Agency's Planning Policy Manual. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > H > Height

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.51		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Height		
Summary of Decision Requested	<p>Amend the definition of 'Height' in Chapter 13 Definitions as follows:</p> <p><i>Height</i></p> <p><i>Means, in relation to a structure, the vertical ...</i></p> <p><u>No account shall also be taken of:</u></p> <ul style="list-style-type: none"> <i>lift wells;</i> <i>lift towers;</i> <i>elevator and stair bulkheads;</i> <i>roof water tanks;</i> <i>machinery rooms;</i> <i>plant, including cooling towers, air-conditioning units, including any access walkways and screening directly associated with the plant;</i> <i>cranes;</i> <i>derricks;</i> <i>reefer gantries;</i> <i>cargo stacking and lifting devices;</i> <i>conveyors;</i> <i>stacking of cargo;</i> <i>telecommunications equipment associated with industrial activities;</i> <i>lighting poles and associated equipment that are ancillary to industrial activities; and</i> <i>aerials that are ancillary to industrial activities.</i> <p>AND</p> <p>Amend the Proposed District Plan to make alternative or consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> There are a range of ancillary structures that are necessary to ensure the efficient day-to-day operation of the industrial activities, including the inland freight hub, which may have the potential to infringe the maximum permitted height control. 		

- There are a number of structures that require exclusion, those of which are noted in the amendment sought.
- Should not be required to obtain resource consents for these critical ancillary structures imply because they may infringe the height control.
- It is not an effective and efficient use of the Industrial Zoned land.

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.50		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Height		
Summary of Decision Requested	<p>Amend the definition of "Height" in Chapter 13 Definitions to add exclusions.</p> <p>AND</p> <p>Amend the definition of "Height" in Chapter 13 Definitions to include specific methods of measurements such as rolling height and/or average ground level.</p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • That the draft National Planning Standards proposed a definition for 'Height' in relation to a district plan. Housing New Zealand has made a submission to the Ministry for the Environment on the draft National Planning Standards and in doing so expressed that the definition of 'Height' was overly simplistic and requires a method of measurement to be specified and explained (i.e. rolling height and/or average ground level) as well as contain a list of exclusions. • The submitter supports the proposed definition, however notes there are only one or two exclusions listed and no reference to how height is measured on a hill/rolling contours. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > H > Height control plane

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.52		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Height control plane		
Summary of Decision Requested	Retain the definition of 'Height control plane'.		
Decision Reasons:	<ul style="list-style-type: none"> • Support the definition as notified. 		

Submitter Number:	689	Submitter:	Greig Developments No 2 Limited
Point Number	689.31		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Height control plane		
Summary of Decision Requested	Amend the definition for "Height Control Plane" in Chapter 13 Definitions to rise at an angle of 45 degrees rather than 37 degrees.		
Decision Reasons:	<ul style="list-style-type: none"> • Consequential amendment of relief sought elsewhere in the submission. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.68		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Height control plane		
Summary of Decision Requested	Amend the definition of "Height Control Plane" in Chapter 13 Definitions to consider slopes, and the use of 45 degree rather than 37 degree and to be subservient to building height from the ground and setbacks.		
Decision Reasons:	<ul style="list-style-type: none"> • The definition is incomplete and inconsistent with other Councils. • The definition only considers flat sites. Most sites are not flat, but have a slope. The slope directs the overall height of the building. • Sites with steep slopes are unfairly disadvantaged by the standard application of the height in relation to boundary rules. • No other council uses the 37 degree place angle as a general application except for the southern quarter - the sunlight angle in Waikato does not differ from Auckland, Hamilton or Waipa districts. • The height control plane also needs to be subservient to building height from the ground and setbacks. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.392		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Height control plane		
Summary of Decision Requested	<p>Amend the definition of "Height control plane" as follows:</p> <p><i>...drawing height control lines from all points on the boundaries of an element site, or in the case of a cross lease it is boundary of the exclusive area unit site area. Such lines commence at a specified vertical distance above the natural ground level at the boundary, point into the site at right angles to the boundary, and rise at an angle of 37 degrees the specified angle.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Amendments for increased clarity. There are various angles for the height control planes within the rules so it is not appropriate for the definition to contain a specified angle. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.9		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Height control plane		
Summary of Decision Requested	<p>Amend the definition of "height control plane" in Chapter 13: Definitions to refer to an angle of 45 degrees.</p> <p>AND</p> <p>Amend the illustration within the definition for "Height Control Plane" in Chapter 13: Definitions to show an angle of 45 degrees.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • 45 degrees is clear and easy to measure. • 45 degrees is consistent with many other district plans across New Zealand. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.51		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Height control plane		
Summary of Decision Requested	<p>Delete the definition of "Height control plane" in Chapter 13 Definitions;</p> <p>AND</p> <p>Add a definition of "Recession plane" to Chapter 13 Definitions as follows:</p> <p><i>Means the height of a building or structure relative to its distance from the boundary of the site. The allowable height increases as the distance from the boundary increases up to the maximum height allowed.</i></p> <p><i>The Recession Plane is measured by lines that proceed at a prescribed angle (e.g. 45 degrees) from the horizontal, measured from any point at a prescribed height (e.g. 2m) vertically above ground level along site boundaries. The angle of the recessions plan and the height of the starting point vary by Zone.</i></p> <p><i>This control does not apply to chimneys, finials, or other similar decorative features, flues and ventilation shafts, antennas, satellite dishes with a diameter not exceeding 0.6m, flagpoles or any other similar projections not exceeding 2 metres in height and 1 square metre in area.</i></p> <p>AND</p> <p>Consequential or further amendments required to give effect to the new term "recession plane" replacing "height control plane".</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter opposes the angle degrees reference in the definition and seeks it is amended to align with changes sought to the daylight admission rules. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > H > Heritage item

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.141		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Heritage item		
Summary of Decision Requested	Retain the definition of "Heritage item" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Support is extended to the reference to Appendix 30.1 - it is important that these items are identified and scheduled accordingly. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > H > High class soils

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.244		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > High class soils		
Summary of Decision Requested	Amend the definition of "High class soils" in Chapter 13: Definitions to include the peat soil definition as per the definition in the Waikato Regional Policy Statement.		
Decision Reasons:	<ul style="list-style-type: none"> • The definition of high class soils is supported, and aligns with the definition in the WRPS. However, peat soils are excluded from this definition and there is no definition of peat soils in plan. 		

Submitter Number:	394	Submitter:	Gweneth Sophie Francis
Point Number	394.30		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > High class soils		
Summary of Decision Requested	<p>Delete the definition of "High class soils" in Chapter 13 Definitions, and replace with the following:</p> <p><i>(i) Elite soils (Class I); and</i></p> <p><i>(ii) Prime Soils (Class II) and</i></p> <p>AND</p>		

Amend the Proposed District Plan to make consequential or further additional relief, as is appropriate to give effect to the intent of the submission.

Decision Reasons:

- Recognise that not all high quality soils are the same and that there is a difference between 'elite soils' (Class I) and prime soils (Class II and some III).

Submitter Number: 419 **Submitter:** Lucy Deverall

Organisation: Horticulture New Zealand

Point Number 419.124

Plan chapter Section C Rules > Chapter 13: Definitions > H > High class soils

Summary of Decision Requested **Amend** the definition of "High class soils" in Chapter 13 Definitions, as follows:

Means those soils in the Land Use Capability Classes I and II (excluding peat soils) and soils in Land Use Capability IIIe1 and IIIe5, classified as Allophanic Soils, and III using the New Zealand Soil Classification.

AND

Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- The definition of "High class soils" is the key to the implementation of the proposed rural subdivision framework.
- The proposed definition is wholly reliant on the New Zealand Soil Classification System to define these areas.
- While this is a useful starting point, it is the experience of Horticulture New Zealand that there is other land and other factors that make land capable of high value rural production.
- The proposed definition is too limited.
- There are areas of peat soil which are currently high producing for commercial vegetable growing, for instance some areas around Buckland, Te Kauwhata, Waikati and Mercer.
- There are areas where the broader units of LUC III are utilised for commercial vegetable growing, including numerous areas around Pukekawa.

Submitter Number: 466 **Submitter:** Brendan Balle

Organisation: Balle Bros Group Limited

Point Number 466.54

Plan chapter Section C Rules > Chapter 13: Definitions > H > High class soils

Summary of Decision Requested **Amend** the definition for "High Class Soils" in Chapter 13 Definitions after consultation with Pukekohe Vegetable Growers Association and HortNZ to further define high class soils.

Decision Reasons:

- The submitter supports the definition of High Class Soils, however consider that other soils should also be included, such as areas of peat soil which are currently high producing areas for commercial vegetable growing, examples of such areas are located in Te Kauwhata, Waikati and Mercer.
- There are also areas where LUC III are used for commercial vegetable production, such as areas around Pukekawa.

Submitter Number: 680 **Submitter:** Federated Farmers of New Zealand

Point Number 680.142

Plan chapter Section C Rules > Chapter 13: Definitions > H > High class soils

Summary of Decision Requested **Retain** the definition of "High class soils" in Chapter 13 Definitions, as notified.

Decision Reasons:

- It is accepted that this definition describes what is commonly known as 'high class soils'.

Submitter Number: 695 **Submitter:** Sharp Planning Solutions Ltd

Point Number 695.69

Plan chapter Section C Rules > Chapter 13: Definitions > H > High class soils

Summary of Decision Requested **Add** Planning Map references to the definition of "High Class Soils" in Chapter 13 Definitions.

AND

Add maps of High Class Soils to the Proposed District Plan.

Decision Reasons:

- No references currently exist for the public to access, but these are needed to indicate if further investigation is required.

Plan chapter: Section C Rules > Chapter 13: Definitions > H > High Natural Character Area

Submitter Number: 680 **Submitter:** Federated Farmers of New Zealand

Point Number 680.143

Plan chapter Section C Rules > Chapter 13: Definitions > H > High Natural Character Area

Summary of Decision Requested	Delete the definition of "High Natural Character Area" from Chapter 13 Definitions. AND Any consequential amendments needed to give effect to this relief.
Decision Reasons:	<ul style="list-style-type: none"> This definition provides no purpose as there is no <i>High Natural Character Area</i> layer identified on the planning maps.

Plan chapter: Section C Rules > Chapter 13: Definitions > H > Historic heritage

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.291		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Historic heritage		
Summary of Decision Requested	Retain the definition of "Historic heritage" in Chapter 13: Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the definition of "historic heritage as it uses the same definition as section 2 of the Resource Management Act. This ensures consistency of consideration at the time of assessing works in relation to Appendix 30.1 (Historic Heritage Items). 		

Plan chapter: Section C Rules > Chapter 13: Definitions > H > Homestay

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.138		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Homestay		
Summary of Decision Requested	Amend definition the of "Homestay" in Chapter 13 Definitions, as follows: <i>Means accommodation provided to guests who pay a daily tariff to stay in accommodation where it is ancillary to the residential and farming activity on the site and where the host is a permanent resident on the site. This could be in a home with the permanent occupants of the household or in a separate building.</i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> The definition needs to be amended to better reflect current homestay trends and the nature of this activity. It provides for small scale diverse business opportunities within the rural zone which can help to sustain a vibrant rural community. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.70		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Homestay		
Summary of Decision Requested	No specific decision sought in relation to the definition of "Homestay" in Chapter 13 Definitions, however submission notes that there is no maximum duration of stay listed.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > H > Horse training centre

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.393		
Plan chapter	Section C Rules > Chapter 13: Definitions > H > Horse training centre		
Summary of Decision Requested	Amend the definition of "Horse training centre" as follows: <i>Means facilities for the housing and training of thoroughbred and Standardbred horses, and usually involves some form of includes training tracks and arenas (both indoor and outdoor), but does not...</i>		
Decision Reasons:	<ul style="list-style-type: none"> The definition should not be specific to any particular breed and include arenas (both indoor and outdoor). 		

Plan chapter: Section C Rules > Chapter 13: Definitions > I

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
--------------------------	-----	-------------------	----------------------------

Point Number	576.80
Plan chapter	Section C Rules > Chapter 13: Definitions > I
Summary of Decision Requested	Add a new definition for "Identified area" to Chapter 13 Definitions. AND Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of the policy in that infrastructure development in certain areas should require greater consideration. However, it is unclear what exactly constitutes as an "identified area" as the term is not defined within the Proposed District Plan, but is used within policies and widely throughout the rules. While 'lists' of identified areas are provided within the Proposed District Plan provisions in Rule 14.1(3) and Rule 22.4.5, these lists are not consistent and therefore could be confusing to plan users as to whether an "identified area" is caught by the policy or numerous rules which refer to "identified areas".

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.72		
Plan chapter	Section C Rules > Chapter 13: Definitions > I		
Summary of Decision Requested	Add a definition for "Integrated transport assessment" to Chapter 13: Definitions as follows: <i>Means a comprehensive review of all the potential transport impacts of a development proposal.</i> AND Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter seeks the addition of a definition of "integrated transport assessment" which is consistent with the Regional Policy Statement. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > I > Impervious surface

Submitter Number:	197	Submitter:	Jeska McHugh
Organisation:	NZ Pork		
Point Number	197.34		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Impervious surface		
Summary of Decision Requested	Amend the definition of Impervious Surface in Chapter 13 Definitions as follows: <i>Means a surface such as a road, rooftop, footpath, paving, decking, swimming pool, patio, driveway, vehicle access and maneuvering area or highly-compacted soil that is not vegetated and does not infiltrate runoff.</i> <i>It excludes wooden decks with spacing between boards of 4mm or more, where water is allowed to drain through to a permeable surface below the deck.</i> <i><u>It excludes farm tracks comprised of compacted surfaces ancillary to rural production activities.</u></i>		
Decision Reasons:	<ul style="list-style-type: none"> The definition must exclude farm tracks. 		

Submitter Number:	281	Submitter:	Zeala Ltd
Organisation:	Trading as Aztech Buildings		
Point Number	281.17		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Impervious surface		
Summary of Decision Requested	Amend the definition of "Impervious Surface" in Chapter 13: Definitions as follows: <i>Means a surface such as a road, rooftop, footpath, paving, decking, swimming pool, patio, driveway, vehicle access and manoeuvring area or highly-compacted soil that is not vegetated and does not infiltrate runoff. It excludes wooden decks with spacing between boards of 4mm or more, or surfaces such as gobi paving, where water is allowed to drain through to a permeable surface below the deck.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Definition is unduly restrictive and does not cater for 'pervious' materials that may be used for driveways etc. 		

Submitter Number:	524	Submitter:	Anna Noakes
Point Number	524.31		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Impervious surface		
Summary of Decision Requested	Amend the definition for "Impervious surface" in Chapter 13 Definitions, as follows: <i>Means a surface such as a road, rooftop, footpath, paving, decking, swimming pool, patio, driveway, vehicle access and manoeuvring area or highly-compacted soil that is not vegetated and does not infiltrate runoff.</i> <i>It excludes wooden decks with spacing between boards of 4mm or more, or surfaces such as gobi paving, where water is allowed to drain through to a permeable surface below the deck.</i>		

Decision Reasons:	<ul style="list-style-type: none"> • Support in part. • Definition is unduly restrictive and does not cater for 'pervious' materials that may be used for driveways etc.
--------------------------	--

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.53		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Impervious surface		
Summary of Decision Requested	Retain the definition of "Impervious surface" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Support the definition as notified. 		

Submitter Number:	598	Submitter:	Withers Family Trust
Point Number	598.21		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Impervious surface		
Summary of Decision Requested	Retain the definition of "impervious surface" in Chapter 13: Definitions, except for the amendments sought below AND Amend the definition of "impervious surface" in Chapter 13: Definitions as follows: <i>Means a surface such as a road, rooftop, footpath, paving, decking, swimming pool, patio, driveway, vehicle access and manoeuvring area or highly-compacted soil that is not vegetated and does not infiltrate runoff. It excludes wooden decks with spacing between boards of 4mm or more, or surfaces such as gobi paving, where water is allowed to drain through to a permeable surface below the deck.</i>		
Decision Reasons:	<ul style="list-style-type: none"> • The notified definition is unduly restrictive and does not cater for pervious materials that may be used for driveways, etc. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.52		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Impervious surface		
Summary of Decision Requested	Amend the definition of "Impervious surface" as follows: <i>Means a surface such as a road, rooftop, footpath, paving, decking, swimming pool, patio, driveway, vehicle access and manoeuvring area or highly compacted soil that is not vegetated and does not infiltrate runoff. It excludes wooden decks with spacing between boards of 4mm or more, where water is allowed to drain through to a permeable surface below the deck.</i> <i>Means a surface that is not vegetated, does not infiltrate runoff, and prevents or significantly retards the soakage of water into the ground.</i> <i>This includes:</i> <ul style="list-style-type: none"> • <u>roofs;</u> • <u>paved areas including driveways and sealed/compacted metal parking areas;</u> • <u>patios;</u> • <u>sealed and compacted metal roads; and</u> • <u>layers engineered to be impervious such as highly-compacted soil.</u> <i>Excludes:</i> <ul style="list-style-type: none"> • <u>wooden decks with spacing between boards of 4mm or more, where water is allowed to drain through to a permeable surface below the deck;</u> • <u>grass and bush areas;</u> • <u>gardens and other vegetated areas;</u> • <u>porous or permeable paving and living roofs;</u> • <u>permeable artificial surfaces, fields or lawns;</u> • <u>slatted decks;</u> • <u>swimming pools, ponds and dammed water; and</u> • <u>rain tanks.</u> AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter generally supports the inclusion of such term in the Proposed District Plan; however, the definition as it is currently proposed is too complex. • The term should be simplified with clear inclusions and exclusions listed. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > I > Indicative road

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.71		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Indicative road		
Summary of Decision Requested	Amend the definition of "Indicative Road" in Chapter 13 Definitions to include phrasing that where an indicative road is constructed and is open to the public the classification is redundant.		
Decision Reasons:	<ul style="list-style-type: none"> • Previous application of rules when the indicative road has not been removed from the Planning Maps but the maps has been constructed. • Must include phrasing where an indicative road has otherwise been constructed and is open to the public and therefore the indicative road classification is redundant. • Difficulties have been encountered with inflexible Council Planner's interpretations in Raglan and Tamahere that insisted on proposals being a prohibited activity in one instance, and in the other, on considering the effects of future development on an indicative road where the road had been constructed just 50m away and was open to the public. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.394		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Indicative road		
Summary of Decision Requested	<p>Amend the definition of "Indicative road" as follows:</p> <p><i>Means a connective roading route that is identified on the planning maps. It shall not include any area identified on the planning maps as an indicative road where a resource consent has authorised an alternative roading layout, such that the need for the indicative road has become redundant.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> There may be instances where an indicative road has been formed, and there is no value in applying rules to the indicative road when it has been replaced by a formed road. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > I > Indigenous vegetation

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.125		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Indigenous vegetation		
Summary of Decision Requested	<p>Retain the definition of "Indigenous vegetation" in Chapter 13 Definitions, as notified.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The exclusion of planted shelter belts comprising indigenous species from the definition of indigenous vegetation is supported. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.252		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Indigenous vegetation		
Summary of Decision Requested	<p>Amend the definition of 'Indigenous vegetation' in Chapter 13 Definitions as follows:</p> <p><i>Means vegetation that occurs naturally in New Zealand or arrived in New Zealand without human assistance. For the purposes of this plan, domestic or ornamental / landscaping planting or planted shelter belts comprising indigenous species are not included, or forestry undergrowth, or planted indigenous forestry are excluded from the definition of 'indigenous vegetation'.</i></p> <p>AND</p> <p>Any consequential amendments needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The definition of indigenous vegetation needs to include more exemptions. This will ensure it is reasonable and practical in the context of the proposed rules framework. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > I > Industrial activity

Submitter Number:	402	Submitter:	Tuakau Proteins Limited
Point Number	402.10		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Industrial activity		
Summary of Decision Requested	<p>Amend the definition of "Industrial Activity" in Chapter 13 Definitions, as follows (or words to similar effect):</p> <p><i>Industrial Activity</i></p> <p><i>Means the production, processing, bulk moving or storage in bulk of any materials, goods or products:</i></p> <p><i>Production includes:</i></p> <p><i>(a) manufacturing; and</i></p> <p><i>(b) assembly from components.</i></p> <p><i>Processing includes:</i></p> <p><i>(a) repair;</i></p> <p><i>(b) servicing;</i></p> <p><i>(c) maintenance; and</i></p> <p><i>(d) assembly of materials, goods or product.</i></p> <p><i>Bulk storage includes:</i></p> <p><i>(a) warehousing.</i></p> <p><i>Rural industry activities are included within the definition of industrial activity.</i></p> <p>OR</p> <p>Amend policies such as Policy 4.1.10 Tuakau that only mention "industrial activity" to also refer to "rural industry" (or words to similar effect).</p> <p>AND</p>		

Any consequential amendments and/or additional relief to give effect to the concerns raised in the submission.

Decision Reasons:

- Tuakau Protein Limited does not consider that the definition of Industrial activity is adequately described.
- Being an activity that has been changed from located in the Business to Industrial Zone, it is interpreted that Tuakau Protein Limited would therefore fit within the Rural Industry and subsequently the Industrial Activity definitions to ensure consistency.

Submitter Number: 543 **Submitter:** Fellrock Developments Limited and TTT Products Limited

Point Number 543.2

Plan chapter Section C Rules > Chapter 13: Definitions > I > Industrial activity

Summary of Decision Requested **Amend** the definition of 'industrial activity' in Chapter 13 Definitions, as follows:

Means the production, processing, bulk moving or storage in bulk of any materials, goods or products and other accessory activities:

...

Decision Reasons:

- Supports the inclusion of a definition for industrial activities.
- This definition needs to be expanded to include activities that are accessory or incidental to the primary industrial activities such as fuel tanks, lunch rooms, etc.

Submitter Number: 578 **Submitter:** Ports of Auckland Limited

Point Number 578.54

Plan chapter Section C Rules > Chapter 13: Definitions > I > Industrial activity

Summary of Decision Requested **Retain** the definition of "Industrial activity" in Chapter 13 Definitions as notified.

Decision Reasons: Support the definition as notified.

Submitter Number: 581 **Submitter:** Penny Gallagher

Organisation: Synlait Milk Ltd

Point Number 581.20

Plan chapter Section C Rules > Chapter 13: Definitions > I > Industrial activity

Summary of Decision Requested **Amend** the definition of "industrial activity" in Chapter 13 Definitions to be consistent with the definition proposed in the Draft National Planning Standard.

OR

Amend the definition of "industrial activity" in Chapter 13 Definitions to include ancillary activities such as research facilities, laboratories, yard-based activities, logistics and transport related activities.

Decision Reasons:

- The definition in the Proposed District Plan is too limiting and does not take account of ancillary activities associated with industrial activities.
- The definition in the Proposed District Plan is inconsistent with the Draft National Planning Standard.

Submitter Number: 821 **Submitter:** The Poultry Industry Association of New Zealand; I Brinks NZ Chicken; The Egg Producers Federation of

Point Number 821.4

Plan chapter Section C Rules > Chapter 13: Definitions > I > Industrial activity

Summary of Decision Requested **Amend** the definition of "Industrial activity" in Chapter 13 Definitions, as follows:

*Means the production, processing, bulk moving or storage in bulk of any materials, goods or products and includes poultry hatcheries:
Production includes:*

...

Decision Reasons:

- Due to the effects, poultry hatcheries can be an activity provided for in the Rural or Industrial Zones.

Plan chapter: Section C Rules > Chapter 13: Definitions > I > Informal recreation

Submitter Number: 574 **Submitter:** TaTa Valley Limited

Point Number 574.21

Plan chapter Section C Rules > Chapter 13: Definitions > I > Informal recreation

Summary of Decision Requested **Amend** the definition of "Informal Recreation" in Chapter 13 Definitions, as follows:

Means any activity whose primary aim is the enjoyment of leisure of a primarily non-competitive, casual nature. It includes amenity and conservation plantings, children's play areas, shelters, and public toilets and other buildings necessary for the maintenance of the park.

AND

Any consequential amendments and other relief to give effect to the matters raised in the submission.

Decision Reasons:

- It is not appropriate to provide for "other buildings necessary for the maintenance of the park" because this is too loose of a statement.
- There are rules in place in regard to bulk and location of buildings and it is considered that any buildings should be considered in accordance with those rules.
- Deleting the reference in the definition will avoid large buildings being built as of right under this definition.

Plan chapter: Section C Rules > Chapter 13: Definitions > I > Infrastructure

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.193		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Infrastructure		
Summary of Decision Requested	Amend the definition of "infrastructure" in Chapter 13: Definitions to include Waikato Regional Council flood infrastructure with associated flood management regime.		
Decision Reasons:	<ul style="list-style-type: none">• It is noted that flood infrastructure is not included under the definition of infrastructure.• If a standalone approach to flood protection and drainage infrastructure is not included in Chapter 6 (refer to previous submission points) it will be appropriate to provide for it in the definition of Infrastructure. This should be read in conjunction with submission point 81.246.		

Submitter Number:	281	Submitter:	Zeala Ltd
Organisation:	Trading as Aztech Buildings		
Point Number	281.18		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Infrastructure		
Summary of Decision Requested	Amend clause (e) and (f) of the definition of "Infrastructure" in Chapter 13: Definitions to exclude farm irrigation/drains.		
Decision Reasons:	<ul style="list-style-type: none">• It may be interpreted to include farm irrigation and farm drains		

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.11		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Infrastructure		
Summary of Decision Requested	Amend the definition of "Infrastructure" in Chapter 13 Definitions to include lines and fittings used or designed or intended for use, in or in connection with the generation, conversion, transformation, conveyance or use of electricity.		
Decision Reasons:	<ul style="list-style-type: none">• This definition and that of minor Infrastructure Structures does not cover everything utilised on the electricity for its safe and efficient operation.• Allow some scope for those items not specifically defined by expanding on the definition.• The alternative is to list every item of equipment on the network, but this does not necessarily allow for new equipment which will perform the same function.		

Submitter Number:	423	Submitter:	Lindsay Wilson
Organisation:	Watercare Services Limited		
Point Number	423.20		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Infrastructure		
Summary of Decision Requested	Amend the definition of "Infrastructure" in Chapter 13 Definitions to include the following: <i>(i) Storage and treatment facilities for water supply distribution; and</i> <i>(ii) Storage, treatment and discharge facilities for drainage or sewerage systems.</i> AND Any consequential amendments or further relief to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none">• Does not appropriately enable the provision of infrastructure or recognize the technical or operational needs of infrastructure.• The Proposed District Plan definition of infrastructure doesn't include the storage and treatment of water and wastewater.		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.35		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Infrastructure		
Summary of Decision Requested	Retain the definition for "Infrastructure" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none">• The submitter supports the proposed definition of 'Infrastructure', specifically reference to lines and support structures to convey electricity.		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.81		
Plan chapter	Section C Rules > Chapter 13: Definitions > 1 > Infrastructure		
Summary of Decision Requested	Retain the definition of "Infrastructure" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Support the definition as notified. 		

Submitter Number:	580	Submitter:	Andrew Feierabend
Organisation:	Meridian Energy Limited		
Point Number	580.1		
Plan chapter	Section C Rules > Chapter 13: Definitions > 1 > Infrastructure		
Summary of Decision Requested	<p>Retain the core activities listed in the definition of "Infrastructure" in Chapter 13 Definitions.</p> <p>AND</p> <p>Amend the definition of "Infrastructure" in Chapter 13 Definitions to explicitly include large-scale wind farms, subject to the confirmation of the National Planning Standards definition of "Infrastructure".</p> <p>OR</p> <p>Amend the definition of "Infrastructure" in Chapter 13 definitions to include large-scale wind farms and the ancillary activities necessary to support these including earthworks, access tracks, and ancillary structures, subject to the confirmation of the National Planning Standards definition.</p> <p>OR</p> <p>Amend the policies and rules for addressing "Infrastructure" to explicitly include "large scale windfarms" in a manner that includes all necessary supporting ancillary activities, subject to confirmation of the final Natural Planning Standards definitions.</p> <p>OR</p> <p>Add equivalent objectives, policies, and rules for "large scale wind farms" (including all ancillary activities and structures) as are currently provided for "Infrastructure" as sought in the submission.</p> <p>AND</p> <p>Amend the Proposed District Plan as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The definition of "Infrastructure" only includes the core activities of a wind farm. • The rules for establishing new wind farms refer to "large scale wind farms". The definition of 'large-scale wind farms' refers to access tracks, buildings and structure and is inclusive of most of the ancillary activities. • The definition of "Infrastructure" is silent on these integral ancillary activities. The definition of "Infrastructure" should include these ancillary activities so that they are embraced by the policies and rules. • This could be achieved by explicitly referencing "large-scale wind farms" in the definition of "Infrastructure". 		

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.42		
Plan chapter	Section C Rules > Chapter 13: Definitions > 1 > Infrastructure		
Summary of Decision Requested	Retain the definition of "Infrastructure" in Chapter 13 Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> • Supports the definition as it would include network utility activities. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle

Point Number	742.71		
Plan chapter	Section C Rules > Chapter 13: Definitions > 1 > Infrastructure		
Summary of Decision Requested	Retain the definition for "Infrastructure" in Chapter 13: Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports this definition. 		

Submitter Number:	777	Submitter:	Radio New Zealand Limited
Point Number	777.15		
Plan chapter	Section C Rules > Chapter 13: Definitions > 1 > Infrastructure		
Summary of Decision Requested	Retain clause (c) in the definition of "infrastructure" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	796	Submitter:	New Zealand Defence Force
Point Number	796.2		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Infrastructure		
Summary of Decision Requested	Amend the definition of "Infrastructure" in Chapter 13 Definitions to include "national defence facilities" as clause (m).		
Decision Reasons:	<ul style="list-style-type: none"> The submitter would like to see the significance of defence activities recognised. Although the submitter does not currently have any permanent facilities in the Waikato District, this does not preclude the need for future defence infrastructure in the district. Defence facilities are critical for New Zealand's security and for the safety and well-being of the community. National defence facilities should be identified as significant infrastructure. Consistent with the approach taken in a number of district and regional plans throughout New Zealand. 		

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.27		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Infrastructure		
Summary of Decision Requested	Add a new clause (m) to the definition of 'Infrastructure'in Chapter 13 Definitions as follows (or word to similar effect): <u>m. Material slurry, pipelines and associated facilities including pump stations are considered to be infrastructure.</u>		
Decision Reasons:	<ul style="list-style-type: none"> The district-wide rules relating to infrastructure should also apply to the material slurry pipelines. It is noted that the approach of specifically recognising important regional infrastructure within the definition of infrastructure in order to meet objectives and policies. The slurry pipeline and slurry pump station are similar in nature to other infrastructure. It fits within "any other means" in clause (g). 		

Submitter Number:	945	Submitter:	First Gas Limited
Point Number	945.45		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Infrastructure		
Summary of Decision Requested	Amend the definition of "Infrastructure" in Chapter 13: Definitions as follows: <i>(a) pipelines that distribute or transmit natural or manufactured gas, petroleum, biofuel or geothermal energy and above ground incidental equipment;</i> AND Any consequential amendments and other relief to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter seeks to amend the definition of infrastructure to ensure this includes not only gas transmission pipelines but also above ground incidental equipment. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.44		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Infrastructure		
Summary of Decision Requested	Retain the definition of "infrastructure" in Chapter 13 Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail support that this replicates the definition in s2 of the RMA, and that at (g) this includes rail. This is consistent with the Proposed National Planning Standards. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > I > Intensive farming

Submitter Number:	197	Submitter:	Jeska McHugh
Organisation:	NZ Pork		
Point Number	197.35		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Intensive farming		
Summary of Decision Requested	Delete reference to "free-range pig farming" from the definition of "Intensive farming" in Chapter 13: Definitions. AND Add a new definition to Chapter 13 Definitions for "Extensive Farming" as follows: <u>Extensive Farming</u>		

Decision Reasons:

- NZPork opposes the inclusion of free-range pig farming in the definition of an intensive farming.
- These activities are dependent on the fertility of the soils on which the activity is located and in accordance with good management practice required to maintain grass cover
- Supplementary feed is brought on to the site, as is the case in many farming activities.

Submitter Number: 281

Submitter:

Zeala Ltd

Organisation:

Trading as Aztech Buildings

Point Number

281.19

Plan chapter

Section C Rules > Chapter 13: Definitions > 1 > Intensive farming

Summary of Decision Requested

Delete the whole definition of "Intensive Farming" in Chapter 13: Definitions
AND

Add the following replacement definition for "Intensive Farming" in Chapter 13: Definitions:

Means the commercial raising and keeping of plants or animals contained in buildings or outdoor enclosures, that occurs independent of the soil fertility on the site, is dependent on a high input of food or fertiliser from beyond the site, and may, (but not necessarily) involve artificially controlled growing conditions. It may include the use of feedlots for farmed animals; free range farming where feed is introduced from off site, and vegetable, fruit and herb growing operations indoors in artificially controlled growing conditions.

Decision Reasons:

- The proposed definition of "Intensive Farming" does not make sense and is not consistent with the Objectives and Policies relating to Rural Productivity and Rural Effects and should be amended.
- What constitutes Intensive Farming throughout various Local Authorities varies, but the overriding theme relates to the lack of reliance on the productive capacity of the soils on site. I.e. factory farming where feed is imported and not grown in-site.

Submitter Number: 419

Submitter:

Lucy Deverall

Organisation:

Horticulture New Zealand

Point Number

419.126

Plan chapter

Section C Rules > Chapter 13: Definitions > 1 > Intensive farming

Summary of Decision Requested

Delete the definition of "Intensive farming" in Chapter 13 Definitions and replace with a definition of "intensive primary production" as follows:

Intensive primary production

Means primary production activities that involve the production of fungi, livestock or poultry that principally occur within buildings.

OR

Amend the definition of "Intensive farming" in Chapter 13 Definitions, as follows:

Means farming

It excludes the following, provided the building is used for the purpose for which it was built:

(a) woolsheds;

(b) dairy sheds;

(c) calf pens or wintering accommodation for less than 30 stock (except where stock are being reared for the replacement of breeding stock to be used on the same property); and

(d) ~~glasshouse~~ greenhouse production or nurseries

AND

Delete reference to the number of stock if the definition of "Intensive primary production" is retained, and instead include those in the rules or conditions.

AND

Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- The submitter supports the definition of "Intensive farming", particularly the exclusion of glasshouses, however suggests using the term 'greenhouse' (although no reasons have been provided).
- The proposed National Planning Standards has a definition for "intensive primary production" which would be appropriate to include in the Proposed District Plan.
- Standards relating to the number of stock should be included in the rules or conditions.

481.4

Plan chapter

Section C Rules > Chapter 13: Definitions > 1 > Intensive farming

Summary of Decision Requested

Amend the definition of "intensive farming" in Chapter 13 Definitions, to be more detailed, in the context of Rule 22.4.1.3 RD1 Restricted Discretionary Activities.

Decision Reasons:

- There is no consistency with the activities that are included or excluded from the definition of "intensive farming."
- Glasshouses present a significant visual impact on the landscape and do not rely on the fertility of in-situ soils.
- There is no consistency with the activities that are included or excluded from the definition of "intensive farming."
- It is unclear whether the use of stock feed or silage brought in from off-site might turn a farming activity into intensive farming.

Point Number	676.6		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Intensive farming		
Summary of Decision Requested	Amend the definition of "Intensive farming" in Chapter 13 Definitions to specifically exclude horticulture activities under cover of either a greenhouse or shade house. AND Any further or consequential amendments necessary to address the concerns raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • This reflects the existing provisions of the Operative Waikato District Plan – Franklin Section. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.253		
Plan chapter	Section C Rules > Chapter 13: Definitions > I > Intensive farming		
Summary of Decision Requested	Delete the definition of "Intensive farming" in Chapter 13 Definitions AND Replace with the following definition of "Intensive Farming" in Chapter 13: Definitions: <i>Means the commercial raising and keeping of plants or animals permanently contained in buildings or outdoor enclosures that occurs independent of the soil fertility on the site, is dependent on a high input of food or fertiliser from beyond the site, and may (but not necessarily) involve artificially controlled growing conditions and includes boarding kennels or catteries, but does not include the sheltered rearing and weaning of calves, lambs or goats undertaken indoors as part of a farming activity nor the use of wintering barns, stabling of horses, feed pads and stand-off pads where stock are not held on a permanent basis.</i>		

AND

Any consequential amendments needed to give effect to this relief.

Decision Reasons:

- The proposed definition is overly complicated and has potential to extend the meaning of 'intensive' farming beyond usual definitions and capture normal farming activity (such as calf or lamb rearing and weaning in shelters, or feeding stock on standoff pads or in temporary feedlots, or break-feeding) within an onerous resource consent process for little or no environmental benefit.

Submitter Number:

697

Submitter:

Waikato District Council

Point Number

697.395

Plan chapter

Section C Rules > Chapter 13: Definitions > I > Intensive farming

Summary of Decision Requested

Amend the definition of "Intensive farming" as follows:

Means farming which is not dependent on the fertility of the soils on which it is located and which may be under cover or within an outdoor enclosure, and be is dependent on supplies of food produced on and/or off the land where the operation is located....

Decision Reasons:

- Additional clarity for the definition.

Submitter Number:

705

Submitter:

Jean Hamilton

Point Number

705.1

Plan chapter

Section C Rules > Chapter 13: Definitions > I > Intensive farming

Summary of Decision Requested

Delete the definition of "intensive farming" from Chapter 13 Definitions.

Decision Reasons:

- The definition is contradictory. The definition states that intensive farming is not dependent on the fertility of soil, but also states feed can be produced on the land.
- Soil fertility is an important part of producing food for any farming and if the farming type is reliant on it, it can not be deemed to be intensive. Intensive farming is usually reliant on food being brought in to the site and not the productive capacity of the soil of the site. Therefore, farming dependent on the soil capacity should not be termed 'intensive'.
- The housing of animals are buildings are normal for farms.

Plan chapter

Section C Rules > Chapter 13: Definitions > I > Intensive farming

Summary of Decision Requested

Amend the definition of "intensive farming" in Chapter 13: Definitions as follows:*Intensive pig farming undertaken wholly or principally in sheds or other shelters or buildings;*

(a) Intensive pig farming undertaken wholly or principally in sheds or other shelters or buildings;

~~*(b) Free-range pig farming;*~~

(c) Poultry or game bird farming undertaken wholly or principally within sheds or other shelters or buildings;

~~*(d) Free-range poultry or game bird farming;*~~

(e) Mushroom farming; and

~~*(f) Intensive goat farming animal feedlots, feeding livestock on food other than pasture grasses.*~~

It excludes the following, provided the building is used for the purpose for which it was built:

...; and

~~*(d) Glass house production or nurseries;*~~

~~*(e) Free-range poultry or game bird farming;*~~

~~*(f) Free-range pig farming; and*~~

~~*(g) Concentrated but temporary wintering of stock as part of normal farming operations, such as using animal feedpads and standoff pads.*~~

~~*(h) Poultry Hatcheries*~~

Decision Reasons:

- Intensive farming is the growing of fungi, livestock, or poultry within a building or structure, or an animal feed lot with limited or no dependence on natural soil quality on the site.
- Free-range farming is a distinct land based activity that should not come under the definition of intensive farming.
- Poultry Hatcheries should also be excluded from this definition.

Point Number	695.72		
Plan chapter	Section C Rules > Chapter 13: Definitions > L		
Summary of Decision Requested	Add a definition of "Landfill" to Chapter 13 Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> A definition of "landfill" should be added. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.73		
Plan chapter	Section C Rules > Chapter 13: Definitions > L		
Summary of Decision Requested	Add a definition for "land transport network" to Chapter 13: Definitions as follows: <i>The network used for the land-based transportation of people and/or goods including by road, rail, cycling, walking and public transport.</i> AND Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers it is important to recognise the whole transport system and the parts that road, rail, cycling and walking facilities have within the network. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > L > Landscape Restoration Area

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.254		
Plan chapter	Section C Rules > Chapter 13: Definitions > L > Landscape Restoration Area		
Summary of Decision Requested	Delete the definition of "Landscape Restoration Area" in Chapter 13 Definitions. AND Any consequential amendments needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> This definition is unnecessary and inappropriate. The active management approach outlined in this definition is more appropriately addressed, if required, as resource consent conditions when a land use activity within the Rangitahi Peninsula triggers the need for one. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.53		
Plan chapter	Section C Rules > Chapter 13: Definitions > L > Landscape Restoration Area		
Summary of Decision Requested	Amend the definition of "Landscape restoration area" in Chapter 13 Definitions as follows: <i>Means an area shown on the planning maps within the Rangitahi Peninsula Zone, where existing native vegetation is to be complemented by additional landscape restoration planting. The purpose of the area is to promote stabilisation of steep slopes, encourage ecological and habitat linkages and enhance landscape amenity, particularly in and near coastal areas and on visually-prominent landforms.</i> AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter does not support the proposed term solely relating to and only applying in the Rangitahi Peninsula Zone. It is inappropriate to have general terms used for a specific precinct area and limit the application and use to a specific area. The term should be allowed to apply in any precinct area or zone. There would be wider interest for the use of the term in the Proposed District Plan. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > L > Large-scale wind farm

Submitter Number:	580	Submitter:	Andrew Feierabend
Organisation:	Meridian Energy Limited		
Point Number	580.3		
Plan chapter	Section C Rules > Chapter 13: Definitions > L > Large-scale wind farm		
Summary of Decision Requested	Retain the definition of "Large-scale wind farm" in Chapter 13 Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> The definition refers to access tracks, buildings and structures and is inclusive of most ancillary activities in addition to the core generation activity. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > L > Limited access road

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.74		
Plan chapter	Section C Rules > Chapter 13: Definitions > L > Limited access road		
Summary of Decision Requested	<p>Amend the definition of "limited access road" to Chapter 13: Definitions as follows:</p> <p><i>Means the following roads in the district to which sections 98 to 99 of the Government Roading Powers Act 1989 apply:</i></p> <p><i>(a) State Highway 1, except those parts within Huntly town boundaries and in Taupiri between Mangawera bridge and Kaimi Road;</i></p> <p><i>(b) State Highways 2 and 26; and</i></p> <p><i>(c) State Highway 23 from the Hamilton City boundary to the Okete Stream Bridge south abutment.</i></p> <p><i>Any road declared a limited access road under Section 88 of the Government Roading Powers Act 1989, Section 346A of the local Government Act 1974 or the corresponding provisions of any former enactment.</i></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The definition of "limited access road" refers to specific sections of roads which does not account for the situation of new roads being classified as Limited Access Roads. Given the process of declaring Limited Access Roads is covered by legislation and cannot be overridden by a district plan, it could be misleading and/or unnecessarily trigger a plan change if new sections of Limited Access Road are declared. The definition also excludes the situation of Limited Access Roads declared or existing under the Local Government Act 1974. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > L > Living court

Submitter Number:	689	Submitter:	Greig Developments No 2 Limited
Point Number	689.32		
Plan chapter	Section C Rules > Chapter 13: Definitions > L > Living court		
Summary of Decision Requested	<p>Amend the definition for "Living Court" in Chapter 13 Definitions as follows:</p> <p><i>Means an area of outdoor space directly related to the living area of a household unit, and for the household's exclusive use. It does not include parking, manoeuvring areas and buildings, but does include swimming pools, pergolas and similar open-framed structures <u>including a covered deck</u>.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.73		
Plan chapter	Section C Rules > Chapter 13: Definitions > L > Living court		
Summary of Decision Requested	<p>Amend the definition of "Living Court" in Chapter 13 Definitions to state the proximity on a site to the downstairs or upstairs of a dwelling, including covered area such as porticos, decks, conservatories, and indoor-outdoor flow areas; and a swimming pool on its own is insufficient.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Some persons value indoor space more than outdoors. A swimming pool on its own is not sufficient for living court purposes for all residents year-round. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.396		
Plan chapter	Section C Rules > Chapter 13: Definitions > L > Living court		
Summary of Decision Requested	<p>Amend the definition of "Living court" as follows:</p>		

Means an area of outdoor space directly related to the living area of a household residential unit, and for the household's residential unit's exclusive use. It does not include parking, manoeuvring areas and buildings, but does include swimming pools, pergolas and similar open-framed structures.

Decision Reasons:

- Consistent use of terminology.

Submitter Number: 746 **Submitter:** The Surveying Company

Point Number 746.19

Plan chapter Section C Rules > Chapter 13: Definitions > L > Living court

Summary of Decision Requested Amend the definition of "Living Court" in Chapter 13" Definitions as follows:

Means an area of outdoor space directly related to the living area of a household unit, and for the household's exclusive use. It does not include parking, manoeuvring areas and buildings, but does include swimming pools, pergolas and similar open-framed structures including a covered deck.

Decision Reasons:

- Covered decks form part of an outdoor living court and should be included in the definition.

Submitter Number: 749 **Submitter:** Housing New Zealand Corporation

Point Number 749.54

Plan chapter Section C Rules > Chapter 13: Definitions > L > Living court

Summary of Decision Requested Amend the definition of "Living court" in Chapter 13 Definitions, as follows:

living court Outdoor Living Space

Means an area of outdoor open space directly related to the living area of a household unit, and for the household's exclusive use. It does not include parking, manoeuvring areas and buildings, but does include swimming pools, pergolas and similar open-framed structures.

AND

Consequential or further amendments required to give effect and reference the new term 'Outdoor living space' as replacing "Living court".

Decision Reasons:

- The submitter generally supports the proposed definition.
- It is noted that the draft National Planning Standards proposed a definition for 'outdoor living space' that is slightly different to the Proposed District Plan definition however both align in regards to approach.

Plan chapter: Section C Rules > Chapter 13: Definitions > L > Lot

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.397

Plan chapter Section C Rules > Chapter 13: Definitions > L > Lot

Summary of Decision Requested Amend the definition of "Lot" as follows:

Means the same as allotment a parcel of land held, or proposed to be held, under a Record of Title.

Decision Reasons:

- For clarity, it is more efficient to have "lot" meaning the same as "allotment" so that the terms can be used interchangeably.

Plan chapter: Section C Rules > Chapter 13: Definitions > L > Lux

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.398

Plan chapter Section C Rules > Chapter 13: Definitions > L > Lux

Summary of Decision Requested Delete from Chapter 13: Definitions the definition for "Lux".

Decision Reasons:

- Delete the definition of lux as it is a standard unit of measure.

Plan chapter: Section C Rules > Chapter 13: Definitions > M

Submitter Number: 580 **Submitter:** Andrew Feierabend

Organisation: Meridian Energy Limited

Point Number 580.2

Plan chapter Section C Rules > Chapter 13: Definitions > M

Summary of Decision Requested	Retain the definition of "minor upgrading" in Chapter 13 Definitions, provided it explicitly includes all the ancillary activities and structures necessary to support large-scale wind farms through the amended definition of "infrastructure" as sought elsewhere in the submission, and subject to confirmation of the National Planning Standards definition.
Decision Reasons:	<ul style="list-style-type: none"> There is ambiguity about whether all of the ancillary activities that are essential to large-scale wind farms are included in the permitted activity provision for 'minor upgrading' of 'infrastructure'. Ancillary activities and structures need to be included by definition, either including 'large-scale wind farms' in the definition of 'infrastructure' or by explicitly referencing the ancillary activities and structure sin the definition of infrastructure.

Decision Reasons:

- The submitter seeks the definitions applying to Maori land are clarified.
- Some definitions remain undefined and very broad.
- The submitter seeks greater clarity of these definitions.

Point Number 493.33

Plan chapter Section C Rules > Chapter 13: Definitions > M > Marae complex

Summary of Decision Requested **Amend** the definition of "Marae Complex" in Chapter 13 Definitions, although submission does not set out specific amendments sought.

Decision Reasons:

- No reasons provided.

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.399

Plan chapter Section C Rules > Chapter 13: Definitions > M > Marae complex

Summary of Decision Requested **Amend** the definition of "Marae complex" as follows:
... a papakainga/papakainga building and utility services. These facilities provide for cultural events that take place on a marae.

Decision Reasons:

- More complete definition of marae complex.

Point Number 697.513

Plan chapter Section C Rules > Chapter 13: Definitions > M > Marae complex

Summary of Decision Requested **Amend** the definition of 'marae' in Chapter 13: Definitions as follows:
See Definitions of marae complex

Decision Reasons:

- Correcting an error.

Submitter Number: 984 **Submitter:** Glenda Raumati

On behalf of: Trustee Turangawaewae Trust Board

Point Number 984.6

Plan chapter Section C Rules > Chapter 13: Definitions > M > Marae complex

Summary of Decision Requested **Amend** the definition of "Marae Complex" in Chapter 13 Definitions to provide greater clarity and include individual definitions where appropriate.

Decision Reasons:

- Turangawaewae Trust Board seek the definitions that apply to Maori land are clarified. Some definitions remain undefined and very broad.

Plan chapter: Section C Rules > Chapter 13: Definitions > M > Meremere Dragway activity

Submitter Number: 791 **Submitter:** Andrew Michael Basford Green

Organisation: Meremere Dragway Inc

Point Number 791.4

Plan chapter Section C Rules > Chapter 13: Definitions > M > Meremere Dragway activity

Summary of Decision Requested **Amend** the definition of "Meremere Dragway activity" in Chapter 13 Definitions to read as "Drag Way Park Specific Activity".
AND
Amend the definition of "Meremere Dragway activity" in Chapter 13 Definitions to provide for the addition of non-motorised activities as follows (or a similar variation):
~~Meremere Dragway activity~~ Drag Way Park Specific Activity

Means an activity at Meremere Dragway activity Drag Way Park Specific Area as shown on the planning maps that involves motor propulsion to provide entertainment, education or training for the general public or to an individual participating in the activity, and includes but is not limited to driver training or education, police or security training, and vehicle testing motorised recreational activity, non-motorised recreational activity, static automotive activity and a film and advertising production activity.

AND

Any consequential amendments to the Proposed District Plan to give effect to the relief sought in this submission.

Decision Reasons:

- The submitter seeks the name change to provide consistency with the name change of the overlay sought in this submission.
- Appropriate provision should be made for the activities that are currently being undertaken on the site and future activities, which are not incompatible with the existing environment that includes Hampton Downs Motorsport Park, landfill and prison.
- The Proposed District Plan does not realise the potential of the Meremere Dragway as a multipurpose site, including for the provision of non-motorised activities. A number of organisations have approached the Meremere Dragway seeking to use the facility.
- The Meremere Dragway is a specialist facility needed for the safe conduct of potentially harmful activities that may be inappropriate elsewhere.
- The Meremere Dragway is an ideal location for motorsport activity that is not acceptable in an urban area.

Plan chapter: Section C Rules > Chapter 13: Definitions > M > Mineral

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.31		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Mineral		
Summary of Decision Requested	<p>Amend the definition of "Mineral" in Chapter 13: Definitions to cross-reference the Crown Minerals Act 1991.</p> <p>AND</p> <p>Any other further or consequential amendments required.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Coal Mining Area is separately defined and includes reference to the Crown Minerals Act 1991. This approach is supported and therefore it is proposed that the definition of minerals should cross reference the Crown Minerals Act 1991.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.400		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Mineral extraction and processing		
Summary of Decision Requested	<p>Delete from Chapter 13: Definitions the definition for "Mineral extraction and processing"</p> <p>AND</p> <p>Replace the term "Mineral extraction and processing" in all chapters with "Extractive industry" where appropriate.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • This term is covered by three definitions (aggregate extraction activities, extractive industry and mineral extraction and processing) which would be more efficiently rationalised into one. 		

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.29		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Mineral extraction and processing		
Summary of Decision Requested	<p>Delete the definition of "Mineral extraction and processing" in Chapter 13 Definitions</p> <p>AND</p> <p>Amend the Proposed District Plan to replace references of "Mineral extraction and processing" with "Extractive Activity."</p> <p>AND</p> <p>Any other further or consequential amendments required.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • 'Mineral extraction and processing', 'Aggregate Extraction Activities' and 'Extractive Industry' are all defined in the Proposed District Plan. There is overlap between the terms and creates potential for confusion and inconsistency. • Definitions need to be streamlined. • There is no clear reasons for distinguishing between aggregate and mineral extraction activities and therefore it is considered that it is more efficient to regulate and assess those activities jointly. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > M > Minor dwelling

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.74		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Minor dwelling		

Summary of Decision Requested	Amend the definition of "Minor Dwelling" in Chapter 13 Definitions to provide an exclusion for decks and garaging from the dwelling area.
Decision Reasons:	<ul style="list-style-type: none"> It is considered decks and garaging should be included.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.401		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Minor dwelling		
Summary of Decision Requested	Amend the definition of "Minor dwelling" as follows: Means a second dwelling independent of the principal dwelling(s) on the same site. Means a self-contained residential unit that is ancillary to the principal residential unit and is held in common ownership with the principal residential unit on the same site. A minor dwelling can be attached to the principal residential unit, or a detached stand-alone building.		
Decision Reasons:	<ul style="list-style-type: none"> Additional clarity that a minor dwelling is in the same ownership as the principal residential unit, and that it can be detached from or attached to the principal dwelling. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.55		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Minor dwelling		
Summary of Decision Requested	Retain the definition of "Minor dwelling" in Chapter 13 Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the proposed definition. It is noted that the draft National Planning Standards proposed a definition for "Minor residential unit" that is different to the Proposed District Plan definition. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > M > Minor infrastructure structure

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.194		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Minor infrastructure structure		
Summary of Decision Requested	Amend the definition of "Minor Infrastructure Structure" in Chapter 13: Definitions to clarify the terminology.		
Decision Reasons:	<ul style="list-style-type: none"> The definition of Minor Infrastructure Structure includes "water infrastructure" would this include the infrastructure associated with flood and drainage schemes? 		

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.12		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Minor infrastructure structure		
Summary of Decision Requested	<p>Amend the definition of "Minor infrastructure structure" in Chapter 13 Definitions, to include the following relating to boxlike structures (dimensions can be provided for ground and pole mounted equipment in order to decide whether to adopt extensive list or refer to utility and dimension of infrastructure):</p> <ul style="list-style-type: none"> <u>service pillars;</u> <u>switch gear;</u> <u>voltage generator;</u> <u>autotransformer;</u> <u>cabinetry for electricity network connectivity;</u> <p>AND</p> <p>Amend the definition of "Minor infrastructure structure" in Chapter 13 Definitions, to include the following equipment mounted on power poles (dimensions can be provided for ground and pole mounted equipment in order to decide whether to adopt extensive list or refer to utility and dimension of infrastructure).</p> <ul style="list-style-type: none"> <u>transformer;</u> <u>switch gear;</u> <u>voltage regulator;</u> <u>autotransformer;</u> <u>cabinetry for electricity network connectivity;</u> <u>control boxes;</u> <u>capacitor.</u> <p><u>Dimensions can be provided for ground and pole mounted equipment in order to decide whether to adopt extensive list or refer to utility and dimension of infrastructure.</u></p> <p>AND</p> <p>Add plinths to the definition of "Minor infrastructure structure" in Chapter 13 Definitions, and state that conditions which quote a height for ground/pad mounted infrastructure should not include height of plinth in overall height.</p> <p>OR</p> <p>Amend definition of "Minor infrastructure structure" definition in Chapter 13 Definitions, to allow box-like structures to be defined by use, e.g. electricity, telecommunications etc., and by maximum dimensions (m2/m3).</p>		
Decision Reasons:	<ul style="list-style-type: none"> The current wording suggests this definition applies to box-like structures installed at ground level in which case, the list needs to include other structures. The electricity industry has equipment which is mounted on power poles which performs the same function as the ground/pad mounted equipment. This definition does not appear to include these items. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.55		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Minor infrastructure structure		
Summary of Decision Requested	Retain the definition of "Minor infrastructure structure" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support the definition as notified. 		

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.43		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Minor infrastructure structure		
Summary of Decision Requested	Retain the definition of "Minor Infrastructure Structure" in Chapter 13: Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> Supports the definition as it would include activities that WEL would undertake regularly (i.e. on a daily basis) 		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.11		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Minor infrastructure structure		
Summary of Decision Requested	Amend the definition of "Minor infrastructure structure" in Chapter 13: Definitions as follows: <i>Means any above-ground box-like structure or enclosure associated with infrastructure or that receives or transmits to or from any part of an infrastructure network, which includes:</i> <i>(a) electricity junction pillars</i> <i>(b) transformers (including pole mounted transformers);</i> <i>(c) regulator stations;</i> <i>(d) compressor stations; and</i> <i>(e) pumping stations.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Inclusion of regulator stations, compressor stations and pumping stations and pole mounted transformers will provide more clarity around rules. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > M > Minor upgrading of existing infrastructure			
--	--	--	--

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.13		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Minor upgrading of existing infrastructure		
Summary of Decision Requested	Retain the definition of "Minor upgrading of existing infrastructure" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.127		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Minor upgrading of existing infrastructure		
Summary of Decision Requested	Amend the definition of "Minor upgrading of existing infrastructure" in Chapter 13 Definitions, as follows: <i>Means an increase in the capacity, efficiency or security of existing infrastructure where this utilises existing structures and networks and/or structures and networks of a similar scale and character.</i> <u><i>An increase in voltage of the National Grid or electricity distribution lines can only occur as minor upgrading if the line was constructed for the increased voltage.</i></u> AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The definition is supported in that the work should be of similar scale and character. It should be clear that an increase in voltage can only be undertaken if the line was constructed for that voltage. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.37		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Minor upgrading of existing infrastructure		
Summary of Decision Requested	Retain the definition for "Minor upgrading of existing infrastructure" in Chapter 13 Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The definition is supported on the basis it provides clarity for plan users as to what constitutes minor upgrading, and therefore assists in plan interpolation and application. It is noted the NESETA provides specific provisions for upgrade works to the National Grid which prevail over the Proposed District Plan rules. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.56		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Minor upgrading of existing infrastructure		
Summary of Decision Requested	Retain the definition of "Minor upgrading of existing infrastructure" in Chapter 13 Definitions, as notified.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.257		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Minor upgrading of existing infrastructure		
Summary of Decision Requested	Retain the definition of "Minor upgrading of existing infrastructure" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support to the extent that this definition is consistent with the National Policy Statement on Electricity Transmission and National Environmental Standard for Electricity Transmission. 		

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.44		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Minor upgrading of existing infrastructure		
Summary of Decision Requested	Retain the definition of "Minor upgrading of existing infrastructure" in Chapter 13: Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> Supports the definition as it would include activities that WEL would undertake regularly (i.e. on a daily basis) 		

Submitter Number:	777	Submitter:	Radio New Zealand Limited
Point Number	777.16		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Minor upgrading of existing infrastructure		
Summary of Decision Requested	Retain the definition of "Minor upgrading of existing infrastructure" in Chapter 13 Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	945	Submitter:	First Gas Limited
Point Number	945.46		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Minor upgrading of existing infrastructure		
Summary of Decision Requested	Retain the definition of "Minor Upgrading of Existing Infrastructure" in Chapter 13: Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the definition of 'minor upgrading of existing infrastructure' which provides for the realignment, configuration, relocation or replacement of infrastructure as a permitted activity providing this meets the specified conditions. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > M > Motor sport and recreation events

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
--------------------------	-----	-------------------	-------------------------------

Point Number	657.29
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Motor sport and recreation events
Summary of Decision Requested	<p>Amend the District Plan definition for 'Motorsport and Recreation Event in Chapter 13 Definitions by deleting the definition and replacing it with the following:</p> <p>Motorsport and Recreation <u>Activity Event</u></p> <p><u>Means any activity in the Hampton Downs Motorsport and Recreation Zone that provides motorised and/or non-motorised entertainment, sport, education or training, and includes but is not limited to:</u></p> <ul style="list-style-type: none"> • <u>Racing events and activities</u> • <u>Off-road racing such as moto-cross or bmx</u> • <u>Driver training or education</u> • <u>Club days</u> • <u>Vehicle testing and practise activities</u> • <u>Organised events</u> • <u>Go karts and go kart drifting</u> • <u>Multi sport and off road running events</u> • <u>Paintball, lazer tag, outdoor skate parks and clay bird shooting</u> • <u>Drifting for motor vehicles</u>
Decision Reasons:	<ul style="list-style-type: none"> • The proposed definition is opposed. • It does not correspond with the definition that was submitted and agree to as part of the Draft District Plan feedback and the Council workshops that Hampton Downs Motorsport Park previously attended. • A definition for a 'motorsport and recreation activity' is proposed instead of a 'motorsport and recreation event'. • The reference to 'events' in the definition appears to be a duplication of one of the existing resource consent conditions. • Hampton Downs Motorsport Park is opposed to any proposal to duplicate the existing resource consent conditions as zone provisions. • The purpose of the zone is to recognise and provide for existing (and consented) motor sport and recreation activities and facilities at the site, and their future operation and expansion. • A new definition is required to provide greater certainty to all parties in relation to the existing and consented land use activities at the site.

Plan chapter: Section C Rules > Chapter 13: Definitions > M > Motor sport and recreation facilities

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.30		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Motor sport and recreation facilities		
Summary of Decision Requested	<p>Amend the definition for "Motor sport and recreation facilities" in Chapter 13: Definitions as follows:</p> <p><i>Motor sport and recreation facilities</i></p> <p><i>Means any buildings or structures in the Motor Sport and Recreation Zone that support the development and operation of the Hampton Downs Motorsport Park and are associated with motor sport and recreation activities and include:</i></p> <ul style="list-style-type: none"> (a) Race tracks, race pads and associated pit garages and support facilities; (b) Race control, safety, emergency and media facilities; (c) Corporate boxes and hospitality facilities; (d) Restaurants, cafes, food and beverage and merchandising retail areas; (e) Administration buildings and facilities; (f) (f) General ticketing, toilet and ablation facilities; (g) (g) Industrial units, vehicle workshops and storage sheds; (h) (h) Corporate showrooms and expo areas, including areas for the display of racing-related memorabilia; (i) (i) Residential accommodation and swimming pool and tennis court facilities; (j) (j) A convention centre; (k) (k) Traveller's accommodation, including a camping ground and hotel accommodation; (l) (l) Parking and helipad facilities; (m) (m) Driver training school inclusive of a skid pad; (n) (n) Spectator facilities including pedestrian accessways, tunnels, overbridges, spectator viewing platforms and seating areas; (o) (o) A jet sprint course; (p) (p) Go-kart and drifting pads; (q) <u>A commercial/industrial area</u> (r) (r) Accessory buildings, facilities and structures such as maintenance and storage sheds, decks, shade cloths and storage containers for all items listed of the above. 		
Decision Reasons:	<ul style="list-style-type: none"> • The definition for motorsport and recreation facility is supported. • Minor amendments are proposed to align with the wording that was previously submitted to Council (and agreed to) as part of the District Plan feedback. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > M > Multi-unit development

Submitter Number:	689	Submitter:	Greig Developments No 2 Limited
--------------------------	-----	-------------------	---------------------------------

Point Number	689.33
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Multi-unit development
Summary of Decision Requested	<p>Amend the definition for "Multi-Unit Development" in Chapter 13 Definitions as follows:</p> <p><i>Means multiple residential units, <u>being attached or detached</u> which are integrated in a comprehensive manner It includes:</i></p> <p>(a) an apartment building; and</p> <p>(b) a duplex</p> <p>(c) <u>Terraced housing</u></p> <p>...</p>
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.489		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Multi-unit development		
Summary of Decision Requested	<p>Amend the definition of "Multi-unit development" as follows:</p> <p>...</p> <p><i>It excludes:</i></p> <p>(a) retirement villages;</p> <p>(b) papakainga housing development; and</p> <p>(c) papakainga building; <u>and</u></p> <p>(d) <u>a minor dwelling</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> Needs to exclude a minor dwelling for clarity. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.20		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Multi-unit development		
Summary of Decision Requested	<p>Amend the definition of "multi-unit development" in Chapter 13: Definitions as follows:</p> <p><i>Means multiple residential units <u>being attached or detached</u> which are integrated in a comprehensive manner.</i></p> <p><i>It includes:</i></p> <p>a) an apartment building;</p> <p>b) a duplex; <u></u></p> <p>c) <u>terraced housing</u>.</p>		
Decision Reasons:	<ul style="list-style-type: none"> This definition needs to be expanded to include multiple detached dwellings for clarity. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.56		
Plan chapter	Section C Rules > Chapter 13: Definitions > M > Multi-unit development		
Summary of Decision Requested	<p>Amend the definition of "Multi-unit development" in Chapter 13 Definitions as follows:</p> <p><i>Means multiple residential units <u>or buildings</u> which are <u>planned and designed in an integrated the and comprehensive manner</u> <u>and achieve compatibility between all buildings on a single site or multiple sites.</u></i></p> <p><i>It includes:</i></p> <p>a) an apartment; building and</p> <p>b) a duplex;</p> <p>c) <u>terrace housing; and</u></p> <p>d) <u>townhouses.</u></p> <p>....</p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally supports the inclusion of such term in the Proposed District Plan and seeks minor additions and edits to the proposed definition. There is a definition of 'Multi-unit development' in the Multi-unit development urban design guidelines. This definition is slightly different to the definition listed in Chapter 13. The submitter is seeking the deletion of the guidelines (reasons outlined later in this submission) from the Proposed District Plan and if that happens then the duplication of definition in the guidelines will be removed. The Proposed District Plan should only contain one definition of 'multi-unit development' and this should only be in the definitions section. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > N > National Grid

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
--------------------------	-----	-------------------	----------------------------

Point Number	576.38
Plan chapter	Section C Rules > Chapter 13: Definitions > N > National Grid
Summary of Decision Requested	<p>Retain the definition for "National grid" in Chapter 13 Definitions, except for the amendment sought below</p> <p>AND</p> <p>Amend the definition for "National grid" in Chapter 13 Definitions, as follows:</p> <p><i>National gGrid</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> A minor grammatical correction is sought. The definition of "National grid" is supported as it provides clarity for plan users as to what is the National Grid. The definition is consistent with that provided in the NPSET 2008.

Plan chapter: Section C Rules > Chapter 13: Definitions > N > National Grid yard

Submitter Number:	302	Submitter:	Jeremy Talbot
On behalf of:	EnviroWaste New Zealand Limited	Organisation:	Barker & Associates Limited
Point Number	302.1		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > National Grid yard		
Summary of Decision Requested	<p>Amend the definition for "National Grid Yard" in Chapter 13 Definitions to reduce the yard setbacks to align with the decisions on appeals and consent orders on the Auckland Unitary Plan and the current Auckland Unitary Plan rules.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments or additional amendments to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The Overlay and its provisions should reflect the minimums allowed under the Auckland Unitary Plan, whereby the "Yard" is measured at 12m in any direction from the outer edge of a National Grid support structure and 12m either side of the centerline of any overhead National Grid line (rather than up to 37m either side of transmission lines for 220kv lines under the Proposed Plan). There is no reason for the Waikato District Plan to have a wider restriction buffer than Auckland (when the effect on the National Grid would be the same regardless of Region and cognizant that the Auckland rules apply immediately adjoining the submitter's site). As Auckland has the most recent case law on the National Grid network through the Auckland Unitary Plan appeals process, it is not unreasonable to consider that its provisions are suitable to meet the National Policy Statement for Electricity Transmission. 		

Submitter Number:	341	Submitter:	Brian Croad
Organisation:	Tainui Group Holdings Limited		
Point Number	341.12		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > National Grid yard		
Summary of Decision Requested	<p>Amend the definition of "National Grid Yard" in Chapter 13 Definitions as follows:</p> <p><i>National Grid Yard means the area located measured either side of the centre line of any above ground electricity transmission as follows:</i></p> <ul style="list-style-type: none"> 12 metres in any direction from the outer edge of a national grid support structure; and 10 metres either side of the centre line of any above-ground 110kV national grid line on single poles; and 12 metres either side of the centre line of any above-ground national grid line on towers; 14m for the 110kV national grid lines on single poles; <p>16m for the 110kV national grid lines on pi-poles;</p> <p>32m for 110kV national grid lines on towers; and</p> <p>37m for the 220kV transmission lines;</p> <p>Refer to the diagram in the definition for "National grid corridor".</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments as necessary to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The definitions for the National Grid Yard and National Grid Corridor as notified within the Proposed Plan are transposed, as it is in fact the National Grid Corridor that extends up to 37m; rather than the National Grid Yard. Making these amendments will help ensure the associated National Grid provisions are implemented correctly. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.128		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > National Grid yard		
Summary of Decision Requested	<p>Amend the term "National Grid yard" in Chapter 13: Definitions to "National Grid subdivision corridor".</p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The definition for "National Grid yard" sets out the distances that should apply to the "National Grid corridor". 		

- The "National Grid corridor" is specific to subdivision so the words "Subdivision Corridor" should be included.

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.39		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > National Grid yard		
Summary of Decision Requested	<p>Retain the definition for "National Grid yard" in Chapter 13 Definitions, except for the amendments sought below</p> <p>AND</p> <p>Amend the definition for "National Grid yard" in Chapter 13 Definitions, as follows:</p> <p><i>National Grid Subdivision Corridor yard</i></p> <p><i>Means the area measured either side of the centre line of any above-ground electricity transmission line as follows:</i></p> <p>(a) 14m for the 110kV national grid lines on single poles;</p> <p>(b) 16m for the 110kV national grid lines on pi poles;</p> <p>(b) 32m for 110kV national grid lines on towers; and</p> <p>(c) 37m for the 220kV transmission lines.</p> <p><i>The National Grid Yard and National Grid Subdivision Corridor does not apply to underground cables or any transmission line (or sections of lines) that are designated by Transpower. The measurement of setback distances from National Grid lines shall be taken from the centre line of the transmission line and the outer edge of any support structure. The centre line at any point is a straight line between the centre points of the two support structures at each end of the span.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The subdivision 'National Grid Corridor' width of 37m (maximum) is based on the distance from the centerline between the support structures to a point where the conductor would swing under possible high wind conditions, and is the swing of the 95th percentile span across the country, as well as other variables. It is important that the swing of conductors can be taken into account in the subdivision process so that the allotment(s) can be safely developed and used. This is why differing widths are provided for different voltage lines. • In essence the Corridor is wider than the Yard and it should be noted that the Corridor and Yard overlap. • However, while generally supported, two amendments are sought as follows: <ol style="list-style-type: none"> 1. By way of summary, the National Grid yard applies to land use and the National Grid Corridor applies to subdivision. Amendment to the definition title would accurately reflect this. It is noted the terms are used correctly throughout the PWDP; it is only the definition titles which are incorrect. 2. Removal of reference to pi poles as there are none in the district. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.258		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > National Grid yard		
Summary of Decision Requested	Retain the definition of "National grid yard" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Support to the extent that this definition is consistent with the National Policy Statement on Electricity Transmission and National Environmental Standard for Electricity Transmission. 		

Submitter Number:	766	Submitter:	Nicky Hogarth
Organisation:	Holcim (New Zealand) Limited		
Point Number	766.5		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > National Grid yard		
Summary of Decision Requested	<p>Amend the definition of "National Grid" in Chapter 13 Definitions so that yard setbacks are reduced to align with decisions on appeals and consents orders on Auckland Unitary Plan and the current Auckland Unitary Plan rules.</p> <p>AND</p> <p>Any additional or consequential relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The overlay and its provisions should reflect the minimums allowed under the Auckland Unitary Plan, whereby the 'Yard' is measured at 12m in any direction from outer edge of a National Grid support structure and 12m either side of the centerline of any overhead National Grid line rather than up to 37m either side of a 220kV transmission line. • There is no reason for Waikato District Plan to have a wider restriction buffer than Auckland when effect on the National Grid would be the same regardless of region. • Auckland rules apply immediately adjoining the submitter's site. • Since Auckland has the most recent case law on the National Grid network through Auckland Unitary Plan appeals process, it is not unreasonable to consider that its provisions are suitable to meet the NPS for Electricity Transmission. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > N > National Grid corridor

Submitter Number:	341	Submitter:	Brian Croad
Organisation:	Tainui Group Holdings Limited		
Point Number	341.13		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > National Grid corridor		
	Amend the definition of "National Grid Corridor" in Chapter 13 Definitions as follows:		

Summary of Decision Requested

National grid corridor means the area ~~measured either side of the centre line of any above-ground electricity transmission line as follows-located:~~

- ~~14m for the 110kV national grid lines on single poles;~~
- ~~16m for the 110kV national grid lines on pi poles;~~
- ~~32m for 110kV national grid lines on towers; and~~
- ~~37m for the 220kV transmission lines;~~
- ~~12 metres in any direction from the outer edge of a national grid support structure; and~~
- ~~10 metres either side of the centre line of any above ground 110kV national grid line on single poles; and~~
- ~~12 metres either side of the centre line of any above ground national grid line on towers~~

AND

Amend the Proposed District Plan to make consequential amendments as necessary to give effect to the matters raised in the submission.

Decision Reasons:

- The definitions for the National Grid Yard and National Grid Corridor as notified within the Proposed Plan are transposed, as it is in fact the National Grid Corridor that extends up to 37m; rather than the National Grid Yard.
- Making these amendments will help ensure the associated National Grid provisions are implemented correctly.

Submitter Number: 419 **Submitter:** Lucy Deverall
Organisation: Horticulture New Zealand

Point Number 419.129
Plan chapter Section C Rules > Chapter 13: Definitions > N > National Grid corridor

Summary of Decision Requested **Amend** the term "National Grid corridor" in Chapter 13: Definitions to "National Grid yard."
 AND
 Any consequential or additional amendments as a result of changes sought in the submission.

- Decision Reasons:**
- The definition of "National Grid corridor" sets out the distances that should apply to the "National Grid yard".

Submitter Number: 576 **Submitter:** Transpower New Zealand Ltd

Point Number 576.40
Plan chapter Section C Rules > Chapter 13: Definitions > N > National Grid corridor

Summary of Decision Requested **Retain** the definition for "National Grid Corridor" in Chapter 13 Definitions, except for the amendments sought below
 AND

Amend the definition for "National Grid corridor" in Chapter 13 Definitions, as follows (see submission for diagram):

National ~~Grid corridor~~ Yard

Means the area located within:

- (a) 12 metres in any direction from the outer visible edge of a national grid support structure foundation; and
- (b) 10 metres either side of the centre line of any above-ground 110kV national grid line on single poles; and
- (c) 12 metres either side of the centre line of any above-ground national grid line on towers.

The National Grid Yard and National Grid Subdivision Corridor does not apply to underground cables or any transmission line (or sections of lines) that are designated by Transpower. The measurement of setback distances from National Grid lines shall be taken from the centre line of the transmission line and the outer edge of any support structure. The centre line at any point is a straight line between the centre points of the two support structures at each end of the span.

AND

Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.

Decision Reasons:

- The 'National Grid Yard', is a 12m width calculated as the distance from the centerline between the support structures to the point where the conductor would swing under everyday conditions (noting that maintenance is not generally undertaken in high wind conditions).
- However, while generally supported, three amendments are sought to the definition as follows:
 1. By way of summary, the National Grid Yard applies to land use and the National Grid Corridor applies to subdivision. Amendment to the definition title would accurately reflect this.
 2. Inclusion of a statement to clarify when the term applies to assist in its application.
 3. Minor amendment to insert 'foundation' in relation to measurement from a support structure, and 'within'.

Submitter Number: 680 **Submitter:** Federated Farmers of New Zealand

Point Number 680.259
Plan chapter Section C Rules > Chapter 13: Definitions > N > National Grid corridor

Summary of Decision Requested **Retain** the definition of "National grid corridor" in Chapter 13 Definitions, as notified.

- Decision Reasons:**
- Support to the extent that this definition is consistent with the National Policy Statement on Electricity Transmission and National Environmental Standard for Electricity Transmission.

Submitter Number: 695 **Submitter:** Sharp Planning Solutions Ltd

Point Number	695.75
Plan chapter	Section C Rules > Chapter 13: Definitions > N > National Grid corridor
Summary of Decision Requested	Amend the definition of "National Grid Corridor" in Chapter 13 Definitions to be consistent with the NZECP34:2001 requirements, and recognise that in some cases, high voltage line pylons and/or their conductor wires also set out a 22.5m setback.
Decision Reasons:	<ul style="list-style-type: none"> High voltage line pylons and/or their conductor wires also set out a 22.5m setback.

Plan chapter: Section C Rules > Chapter 13: Definitions > N > Neighbourhood centre

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.490		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Neighbourhood centre		
Summary of Decision Requested	Amend the definition of "Neighbourhood centre" as follows: ...local community. Neighbourhood centres are identified in structure plans or on the planning maps.		
Decision Reasons:	<ul style="list-style-type: none"> These are not shown on the planning maps so the amendment is needed to correct the error. 		

Submitter Number:	862	Submitter:	Havelock Village Limited
Point Number	862.25		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Neighbourhood centre		
Summary of Decision Requested	Amend the definition of "Neighbourhood centre" in Chapter 13: Definitions as follows: <i>Means a single or small grouping of commercial activities that service the day-to-day needs of the local community. Residential use above ground floor is provided. Neighbourhood centres are identified in <u>masterplans</u>, structure plans or on the planning maps.</i> AND Any consequential amendments or alternative relief to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter seeks to amend the definition of Neighbourhood Centres to enable residential activities above the ground floor. With a focus on Neighbourhood Centres being within a walkable catchment and convenient for the community they serve, it is logical that residential activities are provided for. The Business Zone and Business Town Centre Zone under the Proposed Waikato District Plan and the Neighbourhood Centre Zone under the Auckland Unitary Plan all provide for residential activities above the ground floor. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > N > Net site area

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.75		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Net site area		
Summary of Decision Requested	Retain the definition of "Net site area" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support the definition as notified. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.57		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Net site area		
Summary of Decision Requested	Retain the definition of "Net site area" in Chapter 13 Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the proposed definition. It is noted that the draft National Planning Standards proposed a definition for 'Net site area' that is slightly different to the Proposed District Plan definition. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > N > Network utility operator

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.14		

Plan chapter	Section C Rules > Chapter 13: Definitions > N > Network utility operator		
Summary of Decision Requested	Retain the definition of "Network utility operator" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.45		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Network utility operator		
Summary of Decision Requested	Retain the definition of "Network Utility Operator" in Chapter 13 Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> Supports the definition as it has the same meaning as the RMA, which would include WEL. 		

Submitter Number:	777	Submitter:	Radio New Zealand Limited
Point Number	777.17		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Network utility operator		
Summary of Decision Requested	Retain the definition of "Network utility operator" in Chapter 13 Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.8		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Network utility operator		
Summary of Decision Requested	Retain inclusion of electricity storage, and generators (less than 10m2 in area and 2.5m in height in the definition of "Network utility operator" in Chapter 13: Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> These small-scale generators are not visually intrusive and do not create adverse visual or dominance effects on the environment or neighbouring properties. Therefore, their use and placement should not trigger the need for a resource consent, They are often located in rural or isolated areas, where access to the electricity grid is not always possible or practical, which lessens any visual effects. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.45		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Network utility operator		
Summary of Decision Requested	Retain the definition of "network utility operator" in Chapter 13 Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail supports that the definition directly references s166 of the Resource Management including at (f) it includes rail. This is consistent with the Proposed National Standards. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > N > Noise-sensitive activity

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.130		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Noise-sensitive activity		
Summary of Decision Requested	Amend the definition of "Noise-sensitive activity" in Chapter 13 Definitions, as follows: <i>Means the following:</i> (a).... (b) marae and marae complex <i>sensitive land uses within marae complex</i> ... AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The definition of "Noise-sensitive activity" includes a marae complex as defined in the Proposed District Plan. 		

- The definition should be limited to the buildings where sensitive activities are undertaken.

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.76		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Noise-sensitive activity		
Summary of Decision Requested	<p>Amend the definition of "Noise-sensitive activity" in Chapter 13 Definitions, as follows:</p> <p><i>Noise-sensitive activity</i></p> <p><i>Means the following:</i></p> <p>(a) buildings for residential activities, including boarding establishments, rest homes, retirement villages, papakainga housing development, in-house aged care facilities, travellers' accommodation, and other buildings used for residential accommodation but excluding camping grounds, <u>and worker's accommodation</u>;</p> <p>...</p> <p>AND</p> <p>Amend the Proposed District Plan to make alternative or consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Does not incorporate worker's accommodation which is required to be located on land where noisy activities are likely to occur. • Without the amendment sought, workers accommodation within the Industrial Zone will require resource consent as noise-sensitive activities. 		

Submitter Number:	581	Submitter:	Penny Gallagher
Organisation:	Synlait Milk Ltd		
Point Number	581.14		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Noise-sensitive activity		
Summary of Decision Requested	<p>Retain the definition of 'Noise-sensitive activity' in Chapter 13 Definitions as notified.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The definition provides appropriate interpretation in administration of the District Plan. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.491		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Noise-sensitive activity		
Summary of Decision Requested	<p>Amend the definition of "Noise-sensitive activity" as follows:</p> <p><i>Means the following:</i></p> <p>(a) buildings used for residential activities, including boarding establishments, rest homes, retirement villages, papakainga housing development, in-house aged care facilities, travellers' accommodation, and other buildings used for residential accommodation but excluding camping grounds;</p> <p>(b) ...</p> <p>AND</p> <p>Any consequential amendments.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The definition of retirement village and rest home is sought to be rationalised into one term. • Consequential amendments are needed for definitions that use the terms. 		

Submitter Number:	777	Submitter:	Radio New Zealand Limited
Point Number	777.18		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Noise-sensitive activity		
Summary of Decision Requested	<p>Retain the definition of "Noise-sensitive activity" in Chapter 13 Definitions as notified.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.139		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Noise-sensitive activity		
Summary of Decision Requested	<p>Delete definition of "noise-sensitive activity" from Chapter 13: Definitions.</p> <p>AND</p> <p>Amend the Proposed District Plan to change all uses of the term "noise sensitive activity" to refer instead to "Sensitive Land Use."</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Whilst the concept of the definition is broadly supported, it is used in the proposed plan interchangeably and inconsistently with the definition of "sensitive land use," which is similar but not identical, and only one of these two definitions should be required. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.48		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Noise-sensitive activity		
Summary of Decision Requested	<p>Amend the definition of "noise-sensitive activity" in Chapter 13 Definitions as follows (or similar amendments to achieve the requested relief):</p> <p><i>Means the following:</i></p> <p><i>buildings used for residential activities, including boarding establishments, rest homes, retirement villages, papakainga housing development, in-house aged care facilities, travellers accommodation, and other buildings used for residential accommodation but excluding</i></p> <p><i>(a) camping grounds;</i></p> <p><i>(b) marae and marae complex;</i></p> <p><i>(c) hospitals;</i></p> <p><i>(d) educational facilities including teaching areas and sleeping rooms in an education facility and student accommodation;</i></p> <p><i>(e) places of assembly;</i></p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The definitions of noise sensitive activity and sensitive land use are used interchangeability in the Proposed Plan. KiwiRail seeks changes to the definition of 'noise sensitive activity' to better align it with its proposed noise and vibration standards to address reverse sensitivity in the Plan. The definition of noise sensitive activity proposed is wider than the proposed definition for 'sensitive activity'. KiwiRail would support the definitions being consolidated; as it could be confusing when using the Plan when there are two very similar terms. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > N > Non-automotive activities

Submitter Number:	657	Submitter:	Hampton Downs Motorsport Park
Point Number	657.52		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Non-automotive activities		
Summary of Decision Requested	Delete the definition for "Non-automotive activities" from Chapter 13 Definitions in its entirety.		
Decision Reasons:	<ul style="list-style-type: none"> The inclusion of a definition for 'Non-automotive activities' within the District Plan is opposed. The inclusion of this definition is unnecessary and should be deleted. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > N > Notional boundary

Submitter Number:	581	Submitter:	Penny Gallagher
Organisation:	Synlait Milk Ltd		
Point Number	581.15		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Notional boundary		
Summary of Decision Requested	Retain the definition of "Notional boundary" in Chapter 13 Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The definition provides appropriate interpretation in administration of the District Plan. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.76		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Notional boundary		
Summary of Decision Requested	Amend the definition of "Notional Boundary" in Chapter 13 Definitions consistent with Section 218 of the Resource Management Act and other Councils.		
Decision Reasons:	<ul style="list-style-type: none"> Notional boundaries are not provided for in the Resource Management Act as quasi-considerations of future subdivision. Council practice is only to apply it to primary dwellings where two are sought to be placed on a certificate of title and not minor dwellings, which is also inconsistent with the terms of the District Plan definition that is used. This term and its application is unnecessary (likely ultra-vires) and inappropriate virtual encumbrance stifling potential intensification of land use in residential areas and effective utilization of existing infrastructure. The term does not appear in the Resource Management Act. It places a future requirement on a proposal that is not part of that proposal or yet known, as the potential for subdivision would be considered under subdivision rules. It is not relevant effects-based consideration of s95 or s104 of the Resource Management Act as no effect can be properly ascertained, implied, or derived in terms of the actual use that is being proposed. Section 87BA would provide for a notional boundary to be a permitted activity under implicit written approval, and this Resource Management Act definition legally overrides the District Plan definition. Other Councils do not use this definition so it is inconsistent practice. Other Councils provide for lesser subdivision lot sizes than minimums around approved dwellings as part of combined land use consent applications immediately followed by subdivision - given compliance with other minimum provisions. This practice occurs within Auckland, Tauranga and Hamilton City Council. 		

- This would create regional consistency.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.492		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Notional boundary		
Summary of Decision Requested	Amend the definition of "Notional boundary" as follows: ... site boundary where this is <u>less than 20 metres from</u> closer to the residential unit or sensitive land use.		
Decision Reasons:	<ul style="list-style-type: none"> • Increased clarity of the definition. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > N > Noxious, dangerous, offensive or toxic activities

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.131		
Plan chapter	Section C Rules > Chapter 13: Definitions > N > Noxious, dangerous, offensive or toxic activities		
Summary of Decision Requested	Delete the definition of "Noxious, dangerous, offensive or toxic activities" from Chapter 13 Definitions. AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • Discharges to air are managed by the Waikato Regional Council. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > O

Submitter Number:	574	Submitter:	TaTa Valley Limited
Point Number	574.23		
Plan chapter	Section C Rules > Chapter 13: Definitions > O		
Summary of Decision Requested	Add a definition to Chapter 13 Definitions for "Outdoor Recreation", as follows: <u>Physical activity undertaken in outdoors or natural settings to connect to the outside environment and whose primary aim is the enjoyment of leisure. Activities include: Walking and cycling, bush walks, bird watching, mini golf, paintball, zip lining, golf driving range.</u> AND Any consequential amendments and other relief to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • Definition will enable these types of activities to be identified and referred to within the Resort Zone. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.14		
Plan chapter	Section C Rules > Chapter 13: Definitions > O		
Summary of Decision Requested	Add a new definition for "On Site Primary Produce Manufacturing" to Chapter 13:Definitions as per the Operative Franklin Section of the Operative District Plan.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > O > Operational need

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.41		
Plan chapter	Section C Rules > Chapter 13: Definitions > O > Operational need		
Summary of Decision Requested	Retain the definition for "Operational need" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The term 'Operational need' is used within Policy 6.1.2(a)(i) (noting that the term 'operational' is also elsewhere in the plan but is not specific to 'need'). • On the basis the Proposed District Plan also contains the term 'Functional need' and this term is also used within Policy 6.2.1, the definition is supported. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.77		
Plan chapter	Section C Rules > Chapter 13: Definitions > O > Operational need		
Summary of Decision Requested	Retain the definition of "Operational need" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support the definition as notified. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.76		
Plan chapter	Section C Rules > Chapter 13: Definitions > O > Operational need		
Summary of Decision Requested	Retain the definition of "Operational need" in Chapter 13: Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this definition. 		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.6		
Plan chapter	Section C Rules > Chapter 13: Definitions > O > Operational need		
Summary of Decision Requested	Retain the definition of "Operational need" in Chapter 13: Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> This term helps other plan users understand that requirements for infrastructure and that there is not always a choice in their design and location. Infrastructure often has to traverse, locate or operate in a particular environment because it can only occur in that environment or because of technical or operational constraints. Creates more certainty for the submitter around the ability to establish assets where necessary, particularly within sensitive environments. The submitter undergoes a rigorous route selection process to identify the best location for infrastructure, taking into consideration a number of environmental and economic factors. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > O > Outstanding Natural Feature

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.42		
Plan chapter	Section C Rules > Chapter 13: Definitions > O > Outstanding Natural Feature		
Summary of Decision Requested	Retain the definition for "Outstanding Natural Feature" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The definition is supported on the basis it applies to the area as identified on the planning maps. Such identification assists plan users and provides clarity on the application of the Proposed District Plan provisions that relate to the definition. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.260		
Plan chapter	Section C Rules > Chapter 13: Definitions > O > Outstanding Natural Feature		
Summary of Decision Requested	Amend the definition of "Outstanding Natural Feature" in Chapter 13 Definitions, as follows: <i>Means a feature identified as an Outstanding Natural Feature on the planning maps, <u>listed in Appendix XX and described in the individual assessment sheet.</u></i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> Conditional support is extended to this definition. Submitter supports the principle of identifying these areas, listing them on a schedule, which summaries the associated values, and including the overlay on planning maps. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > O > Outstanding Natural Character Area

Decision Reasons:	<ul style="list-style-type: none"> The definition is supported on the basis it applies to the area as identified on the planning maps. Such identification assists plan users and provides clarity on the application of the Proposed District Plan provisions that relate to the definition. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.262		
Plan chapter	Section C Rules > Chapter 13: Definitions > O > Outstanding Natural Landscape		
Summary of Decision Requested	Amend the definition of "Outstanding Natural Landscape" in Chapter 13 Definitions as follows: <i>Means a landscape identified as an Outstanding Natural Landscape on the planning maps, <u>listed in Appendix XX and described in the individual assessment sheet.</u></i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> Conditional support is extended to this definition. Submitter supports the principle of identifying these areas, listing them on a schedule, which summaries the associated values, and including the overlay on planning maps. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > O > Overland flow path

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.238		
Plan chapter	Section C Rules > Chapter 13: Definitions > O > Overland flow path		
Summary of Decision Requested	Amend the definition of "Overland flow path" in Chapter 13: Definitions as follows: <i>Overland flow path</i> <i>Means either a primary or secondary Overland flow path - route taken by stormwater runoff not captured in a reticulated or natural stormwater system.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Current definition for overland flow path does not align with the definition in WRC's Waikato Stormwater Management Guideline. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > P

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.13		

Plan chapter	Section C Rules > Chapter 13: Definitions > P
Summary of Decision Requested	Add a new definition for "Poultry Hatcheries" to Chapter 13: Definitions as per the Franklin section of the Operative District Plan.
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.
Point Number	746.16
Plan chapter	Section C Rules > Chapter 13: Definitions > P
Summary of Decision Requested	Add a new definition for "Packhouse" in Chapter 13: Definitions as per the Operative Franklin Section of the Operative District Plan.
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.

Plan chapter: Section C Rules > Chapter 13: Definitions > P > Papakainga housing development

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.493		
Plan chapter	Section C Rules > Chapter 13: Definitions > P > Papakainga housing development		
Summary of Decision Requested	Amend the definition of "Papakainga housing development" as follows: <i>Means a comprehensive residential development for a recognised Tangata Whenua group or organisation residing in the Waikato district to support...</i>		
Decision Reasons:	<ul style="list-style-type: none"> There is no need for the definition to require residing in the Waikato District. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > P > Produce stall

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.21		
Plan chapter	Section C Rules > Chapter 13: Definitions > P > Produce stall		
Summary of Decision Requested	Amend the definition of "Produce stall" in Chapter 13: Definitions to include the sale of farm and garden produce grown or produced on a site owned by the same landholder.		
Decision Reasons:	<ul style="list-style-type: none"> There can be multiple sites either side by side or throughout the District that may be owned by the same person and therefore it makes sense for this landowner to sell produce from their stall that is grown on other land that they own. 		

Submitter Number:	877	Submitter:	Leigh Michael Shaw & Bradley John Hall
Point Number	877.11		
Plan chapter	Section C Rules > Chapter 13: Definitions > P > Produce stall		
Summary of Decision Requested	Amend the definition for "Produce Stall" in Chapter 13: Definitions to include the sale of farm and garden produce grown or produced on a site owned by the same landowner.		
Decision Reasons:	<ul style="list-style-type: none"> This definition should include the sale of farm and garden produce grown or produced on a site owned by the same landholder. There can be multiple sites side-by-side or throughout the District that may be owned by the same person and therefore it makes sense for this landowner to sell produce from their stall that is grown on other land that they own. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > P > Public transport facility

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		
Point Number	831.24		
Plan chapter	Section C Rules > Chapter 13: Definitions > P > Public transport facility		
Summary of Decision Requested	Amend the definition of "Public transport facility" in Chapter 13: Definitions, to include water and ferry transport.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter envisages resumption of ferry services to ease congestion. The current definition only applies to land based public transport. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > R

Submitter Number:	389	Submitter:	Jonathan Quigley
Organisation:	J and T Quigley Ltd		
Point Number	389.10		
Plan chapter	Section C Rules > Chapter 13: Definitions > R		
Summary of Decision Requested	<p>Amend the definition of "Rural Activities" in Chapter 13: Definitions to confirm that childcare is included or provide more examples of what rural industry activities would be.</p> <p>AND</p> <p>Amend the Proposed District Plan to include all necessary, consequential or further relief required to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> This is necessary to recognise JTQL activities. 		

Submitter Number:	394	Submitter:	Gwenith Sophie Francis
Organisation:			
Point Number	394.32		
Plan chapter	Section C Rules > Chapter 13: Definitions > R		
Summary of Decision Requested	<p>Add a definition of "Restoration or enhancement planting subdivision" in Chapter 13 Definitions.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential or further additional relief, as is appropriate to give effect to the intent of the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.133		
Plan chapter	Section C Rules > Chapter 13: Definitions > R		
Summary of Decision Requested	<p>Add a definition for "Reverse Sensitivity" to Chapter 13 Definitions, as follows:</p> <p><i>means the potential for the operation of an existing lawfully established activity to be compromised, constrained, or curtailed by the more recent establishment or alteration of another activity which may be sensitive to the actual, potential or perceived adverse environmental effects generated by an existing activity.</i></p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Terms used in the plan should be defined. The Draft National Planning Standard includes a definition of "reverse sensitivity".

Organisation:	New Zealand Transport Agency		
Point Number	742.77		
Plan chapter	Section C Rules > Chapter 13: Definitions > R		
Summary of Decision Requested	<p>Add a definition of "reverse sensitivity" Chapter 13: Definitions as follows:</p> <p><u>Means the vulnerability of a lawfully established activity to a new activity or land use. It arises when a lawfully established activity causes potential, actual or perceived adverse environmental effects on the new activity, to a point where the new activity may seek to restrict the operation or require mitigation of the effects of the established activity.</u></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter seeks a definition of "reverse sensitivity" as per the Regional Policy Statement definition. 		
Point Number	742.78		
Plan chapter	Section C Rules > Chapter 13: Definitions > R		
Summary of Decision Requested	<p>Add a definition of "regionally significant infrastructure" to Chapter 13: Definitions as follows:</p> <p><u>Means:</u></p> <p>(a) Pipelines for the distribution or transmission of natural or manufactured gas or petroleum;</p> <p>(b) Infrastructure required to permit telecommunication as defined in the Telecommunications Act 2001;</p> <p>(c) Radio apparatus as defined in section 2(1) of the Radio Communications Act 1989;</p>		

- (g) The national electricity grid as defined by the Electricity Industry Act 2010;
 (e) A network as defined in the Electricity Industry Act 2010;
 (f) Infrastructure for the generation and/or conveyance of electricity that is fed into the national grid or a network (as defined in the Electricity Industry Act 2010);
 (g) Significant transport corridors as defined in Maps 6.1 and 6.1A of the Waikato Regional Policy Statement (2016);
 (h) Lifeline utilities, as defined in the Civil Defence and Emergency Management Act 2002 and their associated essential infrastructure and services;
 (i) Municipal wastewater treatment plants, water supply treatment plants and bulk water supply wastewater conveyance and storage systems municipal supply dams (including Mangatangi and Mangatawhiri water supply dams) and ancillary infrastructure; and
 (j) Flood and drainage infrastructure managed by Waikato Regional Council.

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The Waikato Regional Policy Statement defines "regionally significant infrastructure" (including "significant transport corridors") and recognises the local, regional and national benefits that these provide.

Point Number 742.80

Plan chapter Section C Rules > Chapter 13: Definitions > R

Summary of Decision Requested **Add** a definition for "rural activities" to Chapter 13: Definitions.

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The term rural activities is used in Rule 14.12.1.2(1)(a)(iv) but is not defined.
- A definition is needed to clarify what the term "rural activities" covers.

Submitter Number: 986 **Submitter:** Pam Butler
On behalf of: KiwiRail Holdings Limited (KiwiRail)

Point Number 986.46

Plan chapter Section C Rules > Chapter 13: Definitions > R

Summary of Decision Requested **Add** a definition for "reverse sensitivity" to Chapter 13 Definitions based on the Proposed National Planning Standards as follows (or similar amendments to achieve the requested relief):

means the potential for the operation of an existing lawfully established activity to be compromised, constrained, or curtailed by the more recent establishment or alteration of another activity which may be sensitive to the actual, potential or perceived adverse environmental effects generated by an existing activity

AND

Any consequential amendments to link and/or accommodate the requested changes.

Decision Reasons:

- The definition for reverse sensitivity is sought to be added to support KiwiRail's requested measures to avoid and manage reverse sensitivity effects.

Plan chapter: Section C Rules > Chapter 13: Definitions > R > Rangitahi commercial activity

Submitter Number: 343 **Submitter:** Michael Briggs
On behalf of: Rangitahi Limited **Organisation:** Harrison Grierson Cosultants Limited

Point Number 343.10

Plan chapter Section C Rules > Chapter 13: Definitions > R > Rangitahi commercial activity

Summary of Decision Requested **Amend** the definition for "Rangitahi Commercial Activity" in Chapter 13 Definitions to exclude childcare facilities.

AND

Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.

Decision Reasons:

- The definition is broad and needs to be updated to specifically exclude child care facilities so there is no confusion, particularly to make it clear that the maximum floor area limits for those activities are not relevant to child care facilities.

Plan chapter: Section C Rules > Chapter 13: Definitions > R > Rangitahi Integrated Development

Submitter Number: 343 **Submitter:** Michael Briggs
On behalf of: Rangitahi Limited **Organisation:** Harrison Grierson Cosultants Limited

Point Number 343.12

Plan chapter Section C Rules > Chapter 13: Definitions > R > Rangitahi Integrated Development

Summary of Decision Requested **Retain** the definition for "Rangitahi Integrated Development" in Chapter 13 Definitions, except for the amendments sought below

AND

Amend the definition for "Rangitahi Integrated Development" in Chapter 13 Definitions to include "or an approved subdivision".

AND

Amend the Proposed District Plan to make consequential amendments to address the matters raised in this submission.

Decision Reasons:

- The Submitter supports the inclusion of a definition for "Rangitahi Integrated Development", but seeks flexibility to allow for changes between Development Outcomes Plan 5 of the Rangitahi Peninsula Structure Plan and approved subdivision consents for the relevant precincts.

Plan chapter: Section C Rules > Chapter 13: Definitions > R > Rear Record of Title

Submitter Number:

695

Submitter:

Sharp Planning Solutions Ltd

Point Number

695.77

Plan chapter

Section C Rules > Chapter 13: Definitions > R > Rear Record of Title

Summary of Decision Requested

Amend the definition of "Rear Record of Title" in Chapter 13 Definitions to describe the situation where an allotment although approved, has not yet had a Record of Title issued.

Decision Reasons:

- This is an incomplete definition.
- Does not describe the situation where an allotment although approved, has not yet had a Record of Title issued.

Submitter Number:

697

Submitter:

Waikato District Council

Point Number

697.496

Plan chapter

Section C Rules > Chapter 13: Definitions > R > Rear Record of Title

Summary of Decision Requested

Delete from Chapter 13: Definitions the definition for "Rear record of title"

Decision Reasons:

- This term is not used in the Plan and therefore a definition is not required.

Plan chapter: Section C Rules > Chapter 13: Definitions > R > Record of Title

Submitter Number:

662

Submitter:

Blue Wallace Surveyors Ltd

Point Number

662.32

Plan chapter

Section C Rules > Chapter 13: Definitions > R > Record of Title

Summary of Decision Requested

Retain the definition of "Record of Title" in Chapter 13 Definitions.

Decision Reasons:

- Supports the definition given that it reflects the most recent terminology within the LT Survey Act 2017.

Submitter Number:

697

Submitter:

Waikato District Council

Point Number

697.495

Plan chapter

Section C Rules > Chapter 13: Definitions > R > Record of Title

Summary of Decision Requested

Add to Chapter 13: Definitions a new definition for "Record of title" as follows:

Record of title

Means a record of title issued pursuant to section 12 of the Land Transfer Act 2017. Where more than one record of title is issued under that section for multiple concurrent interests in the same parcel of land (including for example a lease, or for an undivided share in the land), Record of Title includes, for the purposes of this plan, all records of title issued in respect of the same parcel of land, as if only one record of title had issued.

Where the context requires, Record of Title includes the land comprised in that record of title.

Decision Reasons:

- Including a new definition for record of title will assist in clarity of the Plan.

Plan chapter: Section C Rules > Chapter 13: Definitions > R > Renewable electricity generation activities

Submitter Number:

692

Submitter:

WEL Networks Limited

Point Number

692.46

Plan chapter

Section C Rules > Chapter 13: Definitions > R > Renewable electricity generation activities

Summary of Decision Requested

Retain the definition of "Renewable Electricity Generation Activities" in Chapter 13: Definitions.

Decision Reasons:	<ul style="list-style-type: none"> Supports the definition as it includes small and community-scale distributed renewable generation activities and the system of electricity conveyance required to convey electricity to the distribution network

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.132		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Reservoir		
Summary of Decision Requested	<p>Amend the definition for "Reservoir" in Chapter 13 Definitions, to include water storage for irrigation.</p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> There should be inclusion of water storage for irrigation. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > R > Residential activity

Submitter Number:	496	Submitter:	Andrea Millar
Organisation:	The Department of Corrections		
Point Number	496.4		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Residential activity		
Summary of Decision Requested	<p>Retain the definition of "residential activity" in Chapter 13 Definitions as notified.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter has self-care units both within the grounds of its correctional facilities and in the community. Self-care units are residential accommodation that are occupied by offenders nearing release (located on prison grounds) or following release (located in the community). They are designed to assist offenders with integration back into the community. They encompass a household living scenario. They have all the characteristics of residential activities. The proposed definition reflects living and care arrangements within the community, including that undertaken by the Department in its self-care units. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.497		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Residential activity		
Summary of Decision Requested	<p>Amend the definition of "Residential activity" as follows:</p> <p>...For the purpose of this definition, <u>it</u> includes emergency and refuge accommodation...</p>		
Decision Reasons:	<ul style="list-style-type: none"> Minor amendment to improve readability. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.58		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Residential activity		
Summary of Decision Requested	<p>Amend the definition of "Residential activity" in Chapter 13 Definitions, as follows:</p> <p>Means the use of land and buildings by people for living accommodation in a household unit, where the occupants will generally refer to the site as their home and permanent address. For the purpose of this definition, includes emergency and refuge accommodation, or accommodation for supervision staff and residents, where residents are subject to care or supervision (e.g. homes for people with disabilities). Residential activity includes home detention (as defined in the Criminal Justice Act 1985), but not prisons or other places where residents are subject to detention.</p> <p><u>Means the use of land and a building or group of buildings for residential units. This includes:</u> <u>- emergency and refuge accommodation, or accommodation for supervision staff and residents,</u> <u>- where residents are subject to care or supervision (e.g. homes for people with disabilities), and</u> <u>- home detention (as defined in the Criminal Justice Act 1985), but not prisons or other places where residents are subject to detention.</u></p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally opposes the inclusion of such term in the Proposed District Plan as it is unclear how it links to the proposed terms and definitions of 'residential unit' and 'dwelling'. The current definition is too complex. There are two terms in the Proposed District Plan that speak to residential activity – this is "residential unit" and "dwelling". Both terms need to be linked to the definition of 'residential activity'. 		

Submitter Number:	761	Submitter:	Lyndendale Farms Limited
--------------------------	-----	-------------------	--------------------------

Point Number	761.13
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Residential activity
Summary of Decision Requested	Amend the definition of "Residential Activity" in Chapter 13: Definitions to specifically include (and refer to) a Retirement Village. AND Amend the Proposed District Plan to make any consequential amendments that are required to give effect to the submission.
Decision Reasons:	<ul style="list-style-type: none"> A retirement village is clearly a residential activity and should be expressly stated within the definition.

Submitter Number:	765	Submitter:	Tamahere Eventide Home Trust
On behalf of:	Atawhai Assisi Retirement Village		
Point Number	765.14		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Residential activity		
Summary of Decision Requested	Amend the definition of "Residential activity" in Chapter 13: Definitions to specifically include and refer to a Retirement Village. AND Any consequential amendments that are required to give effect to the above submission.		
Decision Reasons:	<ul style="list-style-type: none"> A retirement village is clearly a residential activity and should be expressly stated within the definition. 		

Submitter Number:	769	Submitter:	Tamahere Eventide Trust
On behalf of:	Tamahere Eventide Retirement Village		
Point Number	769.14		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Residential activity		
Summary of Decision Requested	Amend the definition of "Residential Activity" in Chapter 13: Definitions to specifically include, and refer to, a retirement village. AND Amend the Proposed District Plan to make consequential amendments to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none"> A retirement village is clearly a residential activity and should be expressly stated within the definition. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > R > Residential unit

Submitter Number:	496	Submitter:	Andrea Millar
Organisation:	The Department of Corrections		
Point Number	496.11		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Residential unit		
Summary of Decision Requested	Retain the definition of "Residential unit" in Chapter 13 Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter has self-care units both within the grounds of its correctional facilities and in the community. Self-care units are residential accommodation that are occupied by offenders nearing release (located on prison grounds) or following release (located in the community). They are designed to assist offenders with integration back into the community. They encompass a household living scenario. They have all the characteristics of residential activities. The definition reflects living and care arrangements, such as those provided within self-care units monitored by the Department. The definition recognises and captures a variety of household types. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.498		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Residential unit		
Summary of Decision Requested	Amend the definition of "Residential unit" as follows: <i>Means a building or group of buildings, or part of a building or group of buildings that is:</i> <i>(a) used, or intended to be used, only or mainly for residential activities; and</i> <i>(b) occupied, or intended to be occupied, exclusively as the home or residence of not more than one household; and</i> <i>(c) is self-contained for living accommodation.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Provides additional clarity that a residential unit is self contained, as different from a sleepout which would be an accessory building. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
--------------------------	-----	-------------------	---------------------------------

Point Number	749.59
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Residential unit
Summary of Decision Requested	<p>Amend the definition of "Residential unit" in Chapter 13 Definitions as follows:</p> <p><i>Means a building or group of buildings, or part of a building or group of buildings that is:</i></p> <p><i>a) used, or intended to be used as a dwelling or intended to be used, only or mainly for residential activities;</i></p> <p><i>a) occupied, or intended to be occupied, exclusively as the home or residence of not more than one a single household.</i></p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>
Decision Reasons:	<ul style="list-style-type: none"> Similar to Residential Activity, Housing New Zealand generally opposes the inclusion of such term in the Proposed WDP as it is unclear to how it links to the proposed terms and definitions of 'residential activity' and 'dwelling'. The current definition is confusing. The definition needs to include the term 'dwelling'. It is noted that the draft National Planning Standards proposed a definition for 'residential unit' that is slightly different to the Proposed WDP definition.

Plan chapter: Section C Rules > Chapter 13: Definitions > R > Rest home

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.499		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Rest home		
Summary of Decision Requested	<p>Delete from Chapter 13: Definitions the definition for "Rest home"</p> <p>AND</p> <p>Delete all references in the Plan to "rest home" and replace with "Retirement village".</p>		
Decision Reasons:	<ul style="list-style-type: none"> There is considerable crossover and duplication between the terms "rest home" and "retirement village". It would be more efficient to rationalise these into a single comprehensive defined term which recognised all the different living options and levels of care available in a retirement village. 		

Submitter Number:	761	Submitter:	Lyndendale Farms Limited
Point Number	761.14		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Rest home		
Summary of Decision Requested	<p>Delete the definition of "Rest home" from Chapter 13- Definitions.</p> <p>AND</p> <p>Amend the Proposed District Plan to make any consequential amendments that are required to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> There are no rules relating to the definition. There are no reasons to differentiate between a "retirement village" and a "rest home." The definition for rest home should be deleted in its entirety. 		

Submitter Number:	765	Submitter:	Tamahere Eventide Home Trust
On behalf of:	Atawhai Assisi Retirement Village		
Point Number	765.15		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Rest home

Decision Reasons:	<ul style="list-style-type: none"> There are no rules relating to this definition. No reason to differentiate between a "retirement village" and a "rest home." 		

Submitter Number:	769	Submitter:	Tamahere Eventide Trust
On behalf of:	Tamahere Eventide Retirement Village		
Point Number	769.15		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Rest home		
Summary of Decision Requested	<p>Delete the definition of "Rest home" from Chapter 13: Definitions.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to give effect to the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> There are no rules relating to Rest home definition. There is no reason to differentiate between a "retirement village" and "rest home." 		

Plan chapter: Section C Rules > Chapter 13: Definitions > R > Restoration

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.145		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Restoration		
Summary of Decision Requested	Delete the definition of "Restoration" in Chapter 13: Definitions.		
Decision Reasons:	<ul style="list-style-type: none">• The submitter is concerned that the defined term for "Restoration" does not appear to be reflected within the rule framework and is already included as part of the proposed definition of maintenance and repair.• Some of the activities within the defined term would warrant scrutiny as part of a resource consent process as there would be potential for adverse effects to occur to heritage values when undertaking these activities• These activities are already covered by the defined terms of maintenance and repair or additions and alterations.		

Plan chapter: Section C Rules > Chapter 13: Definitions > R > Retail activity

Submitter Number:	785	Submitter:	Z Energy Limited, BP Oil NZ Limited and Mobil Oil NZ Limited
Organisation:	'Oil Companies'		
Point Number	785.33		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Retail activity		
Summary of Decision Requested	Amend the definition of "retail activity" in Chapter 13: Definitions to be more detailed and specific and one that is based on the effects that the activity generates as opposed to being based on the nature of the consumer. AND Amend the definition of "retail activity" in Chapter 13: Definitions to include service stations. AND Amend the definition of "retail activity" in Chapter 13: Definitions to specifically exclude service stations if separate and specific provision is made for service stations as an activity. AND Amend the definition of "retail activity" in Chapter 13: Definitions to specifically exclude service stations if separate and specific provision is made for service stations as an activity. AND Any consequential amendments or further relief to give effect to the submission.		
Decision Reasons:	<ul style="list-style-type: none">• The submitter opposes in part the definition of 'commercial activities' (Means activities involving the sale or distribution of goods and services) and 'retail activities' (Means the sale or hire of goods or services or equipment directly to the public) as these definitions are uncertain and ambiguous and service stations could be included within both.• Submitter supports making specific provisions for service stations on that basis seeks to either specifically exclude service stations from either activity or to include them in both.• As currently drafted commercial and retail activities can be interchangeable insofar as an activity that 'involves the sale of goods and services' falls under both definitions.• While the definition of retail activity specifies that the sale is to be directly to the public, there is nothing stopping direct sales to the public as also being a commercial activity.• There does not appear to be any particular effects based justification for differentiating between the two activities based on the consumer.		

Plan chapter: Section C Rules > Chapter 13: Definitions > R > Retirement village

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.500		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Retirement village		
Summary of Decision Requested	Delete (c) from the definition for "Retirement village" in Chapter Definitions AND Add (d)(iv) to the definition for "Retirement village" in Chapter 13 Definitions as follows: <i>(iv) independent residential units.</i>		
Decision Reasons:	<ul style="list-style-type: none">• Additional clarity to recognise that retirement villages may have independent residential units. The definition needs to recognise that some retirement villages may have higher levels of care and no residential units.

Point Number	986.47		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Road network activities		
Summary of Decision Requested	<p>Amend the definition of "Road network activities" in Chapter 13 Definitions as follows (or similar amendments to achieve the requested relief):</p> <p>Road Land transport network activities</p> <p>Means road or rail infrastructure and transport services provided within a land transport network corridor the road, including:</p> <p>....</p> <p>(p) railway tracks, bridges, tunnels, signaling, access tracks and facilities</p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The "road network activities" definition contains specific road and rail activities and others which could equally apply to all land based linear transport networks including rail. The definition should be amended to clarify that it provides coverage for all listed infrastructure activities within the railway corridor by changing the definition to "road and rail network activities". 		

Plan chapter: Section C Rules > Chapter 13: Definitions > R > Rural ancillary earthworks

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.195		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Rural ancillary earthworks		
Summary of Decision Requested	Amend the definition for "Rural Ancillary Earthworks" in Chapter 13: Definitions to clarify the terminology and to be consistent.		
Decision Reasons:	<ul style="list-style-type: none"> The Plan refers to both 'Rural Ancillary Earthworks' and 'Ancillary Rural Earthworks'. Clarification is sought that these refer to the same activity, and consistency is sought in the terminology. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.134		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Rural ancillary earthworks		
Summary of Decision Requested	<p>Delete the definition for "Rural ancillary earthworks" from Chapter 13 Definitions.</p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> This is the same definition as "Ancillary Rural Earthworks". It is unnecessary repetition. 		

Submitter Number:	466	Submitter:	Brendan Balle
Organisation:	Balle Bros Group Limited		
Point Number	466.56		

Plan chapter	Section C Rules > Chapter 13: Definitions > R > Rural ancillary earthworks		
Summary of Decision Requested	Delete the definition for "Rural ancillary earthworks" from Chapter 13 Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> This is a duplication of the definition for Ancillary Rural Earthworks. 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.287		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Rural ancillary earthworks		
Summary of Decision Requested	Delete the definition of "Rural Ancillary Earthworks" in Chapter 13: Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers that the definition of "Rural Ancillary Earthworks" replicates the definition for "ancillary rural earthworks". 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.263		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Rural ancillary earthworks		
Summary of Decision Requested	Retain the definition of "Rural ancillary earthworks" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the definition. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.505		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Rural ancillary earthworks		
Summary of Decision Requested	Delete from Chapter 13: Definitions the definition for "Rural ancillary earthworks" AND Replace all references in the Plan to "Rural ancillary earthworks" to "Ancillary rural earthworks".		
Decision Reasons:	<ul style="list-style-type: none"> This term is defined twice as "rural ancillary earthworks" and "ancillary rural earthworks" – rationalise into a single defined term. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > R > Rural industry

Submitter Number:	197	Submitter:	Jeska McHugh
Organisation:	NZ Pork		
Point Number	197.15		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Rural industry		
Summary of Decision Requested	Retain the definition for "Rural Industry" in Chapter 13 Definitions subject to clarifying that rurally located feedmills and feed manufacturing activities are included in this definition.		
Decision Reasons:	<ul style="list-style-type: none"> The definition is generally supported subject to clarity that rural located feedmills and feed manufacturing activities are included in this definition. 		

Submitter Number:	402	Submitter:	Tuakau Proteins Limited
Point Number	402.11		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Rural industry		
Summary of Decision Requested	Confirm the inclusion of rendering in the definition of "Rural Industry" in Chapter 13 Definitions. OR Amend the definition of "Rural Industry" in Chapter 13 Definitions to provide more clarity or examples of what rural industry activities would be. AND Any consequential amendments and/or additional relief to give effect to the concerns raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> It is considered that Tuakau Proteins Limited's operation does fit within the definition of Rural Industry as it written. However, it is requested that Waikato District Council confirm this interpretation. It is acknowledged that the definition is more succinct than the existing definition in the Franklin Section of the plan. Therefore, it is important to ensure that the definition has not become more ambiguous in application. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.135		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Rural industry		
Summary of Decision Requested	<p>Delete the definition of "Rural Industry" from Chapter 13 Definitions</p> <p>AND</p> <p>Add a new definition for "Rural Industry and Services" to Chapter 13 Definitions, as follows:</p> <p><u>Rural industry and services</u></p> <p><u>means an activity undertaken within a rural area where the activity is directly related to rural production activities and includes:</u></p> <ul style="list-style-type: none"> • <u>facilities for processing, packing and storing primary products and</u> • <u>activities which service rural production</u> • <u>rural contractors depots</u> • <u>post harvest facilities</u> • <u>research facilities</u> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The proposed definition is too narrow. • There are a number of activities which are undertaken within the rural area that support primary production and are appropriately located within rural areas. • These supporting activities are critical to the future growth of the wider horticulture industry. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.265		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Rural industry		
Summary of Decision Requested	Retain the definition of "Rural industry" in Chapter 13 Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Rural contractors' depots need to be defined separately. It is clear from this definition of <i>rural industry</i> that Waikato District Council is making a distinction between the activities and this is supported. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.506		
Plan chapter	Section C Rules > Chapter 13: Definitions > R > Rural industry		
Summary of Decision Requested	<p>Amend the definition for "Rural industry" as follows:</p> <p><u>Means an industry that involves the direct handling or processing to the first stage of manufacture of any raw produce harvested from farming, rural contractors' depots, or any other land-related agricultural activity, but excludes waste disposal, extractive industries and electricity generation.</u></p> <p><u>Within the Rural Zone, activities that directly support farming through supplying a product or service to farms, such as rural contractors.</u></p> <p><u>It excludes transport depots and retail services.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • There is significant overlap between the definition of "farming" and "rural industry", with a single activity potentially being covered by both terms with different activity statuses. The processing of produce is retained in the definition of "farming" and recognises that produce may not be grown on the land. The definition of "rural industry" needs to be re-focused to recognise the rural services and products that service the farming sector. It needs to exclude activities that are more appropriate in a business or industrial zone. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > S

Submitter Number:	574	Submitter:	TaTa Valley Limited
Point Number	574.15		
Plan chapter	Section C Rules > Chapter 13: Definitions > S		
Summary of Decision Requested	<p>Add a definition to Chapter 13 Definitions or "Special Event", as follows:</p> <p><u>A temporary event that exceeds the permitted noise standard of the Resort Zone.</u></p> <p>AND</p> <p>Any consequential amendments and other relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The definition will enable these types of activities to be identified and referred to within the Resort Zone. 		

Submitter Number:	588	Submitter:	Peter Buchan
Organisation:	Woolworths NZ Ltd		

Point Number	588.28
Plan chapter	Section C Rules > Chapter 13: Definitions > S
Summary of Decision Requested	<p>Add a new definition of "Supermarket" in Chapter 13 Definition as follows:</p> <p><i>An individual retail outlet having a store footprint over 1,000m² GFA that sells, primarily by way of self-service, a comprehensive range of:</i></p> <p><i>a) domestic supplies, fresh food, groceries, such as fresh meat and produce; chilled, frozen, packaged, canned and bottled foodstuffs and beverages; and general housekeeping and personal goods, including (but not limited to) cooking, cleaning and washing products; kitchenwares; toilet paper, diapers and other paper tissue products; pharmaceuticals; health and personal hygiene products and other toiletries; cigarettes, magazines and newspapers, greeting cards and stationery, batteries, flashlights, light bulbs and related products; and</i></p> <p><i>b) non-domestic supplies and comparison goods comprising not more than 20 per cent of all products offered for sale as measured by retail floor space, including (but not limited to) clothing and footwear, furniture, electrical appliances, office supplies, barbeque and heating fuels; audio visual products.</i></p> <p>Note</p> <p><i>Retail floor space means that area of the premises to which the public has access for the purpose of shopping, together with any area:</i></p> <p><i>a) taken up for the purpose of display of goods; and</i></p> <p><i>b) any counter areas used by or occupied exclusively by staff members whilst actively engaged in serving the public.</i></p> <p><i>This area does not include floor space used for:</i></p> <ul style="list-style-type: none"> • storerooms • back of house including delivery areas • trolley storage areas • entrance lobbies • behind counter areas, and • checkouts <p>AND</p> <p>Amend the Proposed District Plan to make consequential or alternative relief to give effect to the specific amendments sought.</p>
Decision Reasons:	<ul style="list-style-type: none"> • Supermarkets are distinct from general retail activity. • The Proposed District Plan provides for supermarkets as a distinct category within the Transport chapter. • Seeks inclusion of a suitable definition of a Supermarket.

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.17		
Plan chapter	Section C Rules > Chapter 13: Definitions > S		
Summary of Decision Requested	Add a new definition for "Sleepout" in Chapter 13: Definitions as per the Operative Franklin Section of the Operative District Plan.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.66		
Plan chapter	Section C Rules > Chapter 13: Definitions > S		
Summary of Decision Requested	<p>Add to Chapter 13 Definitions a definition of "structure" as follows:</p> <p><i>Means any building, equipment, device or other facility made by people and which is fixed to or located on land; and includes any raft, but excludes motorised vehicles that can be moved under their power.</i></p> <p>AND</p> <p>Add a list of exclusions to the new definition of "Structure".</p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Other definitions include the term 'structure'. • The draft National Planning Standards proposed a definition for 'structure'. • The submitter has made a submission on the draft National Planning Standards and in doing so expressed that the definition of 'structure' was problematic because it would include things such as trailers and caravans parked in a driveway, even temporarily. • The submitter has sought that the proposed definition on the draft National Planning Standards is amended to include a list of exclusions. • The submitter seeks a similar approach is taken with the inclusion of the definition of 'structure' in the Proposed District Plan. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > S > Self-contained power unit

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.47		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Self-contained power unit		
Summary of Decision Requested	Retain the definition of "Self Contained Power Unit" in Chapter 13: Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> • Supports the definition as it includes battery units which are essential in the storage of electricity 		

Plan chapter: Section C Rules > Chapter 13: Definitions > S > Sensitive land use

Submitter Number:	197	Submitter:	Jeska McHugh
Organisation:	NZ Pork		
Point Number	197.16		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Sensitive land use		
Summary of Decision Requested	<p>Amend the definition for "Sensitive land use" in Chapter 13 Definitions as follows:</p> <p><i>Means an education facility including a childcare facility, waananga, and kohanga reo, a residential activity, papakainga building, rest home, retirement village, travellers accommodation, home stay, health facility or hospital, <u>cafes, restaurants, tourism/entertainment activities, community services.</u></i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Sensitive land use activities from a pork production perspective are broader than the activities listed in the proposed definition and are activities often located or seeking to locate in rural areas. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.45		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Sensitive land use		
Summary of Decision Requested	<p>Retain the definition for "Sensitive land use" in Chapter 13 Definitions, as notified.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The definition of 'sensitive land use' is used within Policy 6.2.5 and 6.2.6 specific to the National Grid, as well as within Chapter 14. The definition is supported insofar as it is applied to the National Grid corridor management provisions within the Proposed District Plan. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.79		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Sensitive land use		
Summary of Decision Requested	<p>Add the definition of "Sensitive land use" as follows:</p> <p><i>Sensitive land use</i></p> <p><i>Means an education facility including a childcare facility, waananga and kohanga reo, a residential activity <u>excluding worker's accommodation,</u> ...</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make alternative or consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Exclude worker's accommodation from the definition of sensitive land uses. Without the amendment sought, workers accommodation within the Industrial Zone will require resource consent as sensitive land uses. 		

Submitter Number:	581	Submitter:	Penny Gallagher
Organisation:	Synlait Milk Ltd		
Point Number	581.16		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Sensitive land use		
Summary of Decision Requested	<p>Retain the definition of "Sensitive land use" in Chapter 13 Definitions as notified.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The definition provides appropriate interpretation in administration of the District Plan. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.266		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Sensitive land use		
Summary of Decision Requested	<p>Amend the definition of "Sensitive land use" in Chapter 13 Definitions, as follows:</p> <p><i>Means an education facility including a childcare facility, waananga and kohanga reo, a residential activity, papakainga building, rest home, retirement village, travellers' accommodation, home stay, health facility or hospital.</i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter understands the purpose and intent of this definition however considers that homestays and residential activity, as defined in the plan do not need to be elevated to this status and subject to the associated planning response. 		

Submitter Number:	777	Submitter:	Radio New Zealand Limited
--------------------------	-----	-------------------	---------------------------

Point Number	777.19
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Sensitive land use
Summary of Decision Requested	<p>Amend the definition of "sensitive land use" in Chapter 13 Definitions as follows:</p> <p>Means an education facility including a childcare facility, waananga and kohanga reo, a residential activity, papakainga building, rest home, retirement village, travellers' accommodation, home stay, health facility or hospital.</p> <p><i>Means:</i></p> <p>(a) <u>an education facility including a childcare facility and waananga and kohanga reo;</u></p> <p>(b) <u>buildings used for residential activities including a papakainga building, rest home, retirement village, travellers' accommodation and home stay; and</u></p> <p>(c) <u>a health facility or hospital.</u></p> <p>AND</p> <p>Amend the definitions of "sensitive land use" and "noise-sensitive activity" in Chapter 13 Definitions to consider combining into a single defined term.</p>
Decision Reasons:	<ul style="list-style-type: none"> The notified definition implies that all "sensitive land uses" are education facilities, yet it expands to include places and activities that are not strictly 'educational'. The definitions for "noise-sensitive activity" and "sensitive land use" are very similar and may therefore be able to be merged into a single definition.

Submitter Number:	797	Submitter:	Fonterra Limited
Point Number	797.24		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Sensitive land use		
Summary of Decision Requested	Retain the definition of "sensitive land use" in Chapter 13 Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Supports inclusion of specific definition for sensitive land use. The definition will assist understanding and interpretation of the Plan. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.140		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Sensitive land use		
Summary of Decision Requested	<p>Amend the definition of "Sensitive Land Use" in Chapter 13: Definitions as follows:</p> <p>Means an education facility including a childcare facility, Waanaga and Kohanga Reo, a Residential activity, Papakainga building, rest home, retirement village, travelers' accommodation, Student accommodation, home stay, place of assembly, health facility or hospital.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Definition is used to define where controls are required to protect certain land-use activities from noise, which is appropriate. The definition covers most but not all sensitive land uses, and amendments are requested. It should also be adapted to avoid the need for a separate definition of 'noise-sensitive activity.' 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.49		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Sensitive land use		
Summary of Decision Requested	<p>Retain the definition of "sensitive land use" in Chapter 13 Definitions except for the amendments sought below;</p> <p>AND</p> <p>Amend the definition of "sensitive land use" in Chapter 13 Definitions except for the amendments sought below (or similar amendments to achieve the requested relief);</p> <p><i>Means</i></p> <p>(a) <u>an education facility including a childcare facility, waananga and kohanga reo;</u></p> <p>(b) <u>a residential activity, including papakainga building, rest home, retirement village, travellers' accommodation, home stay; or</u></p> <p>(c) <u>health facility or hospital.</u></p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail supports the definition of sensitive land use, but considers it should be amended to provide clarity as to the activities that fall within the definition. As notified, the definition could be read as saying that all sensitive land uses are education facilities. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > S > Service connection

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.48		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Service connection		

Summary of Decision Requested Retain the definition of "Service Connection" in Chapter 13: Definitions.

Decision Reasons:

- Supports the definition as it includes the service line that would connect WEL to the customer

Plan chapter: Section C Rules > Chapter 13: Definitions > S > Service court

Submitter Number: 749 **Submitter:** Housing New Zealand Corporation

Point Number 749.61

Plan chapter Section C Rules > Chapter 13: Definitions > S > Service court

Summary of Decision Requested **Amend** the definition of "Service court" in Chapter 13 Definitions as follows:

Means an area of outdoor space for the exclusive use of the household unit for domestic requirements, such as garbage storage and clothes line, but excludes any space required for outdoor living space, a living court, parking, manoeuvring, or buildings.

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- The submitter generally supports the inclusion of the term in the Proposed District Plan with minor amendments to align with relief sought to the definition of 'living court'.

Plan chapter: Section C Rules > Chapter 13: Definitions > S > Sign

Submitter Number: 742 **Submitter:** Kim Harris-Cottle

Organisation: New Zealand Transport Agency

Point Number 742.81

Plan chapter Section C Rules > Chapter 13: Definitions > S > Sign

Summary of Decision Requested **Retain** the definition for "signs" in Chapter 13: Definitions, except for the amendments sought below

AND

Amend the diagram in the definition for "sign" demonstrating "two signs" to include the situation where signs are at 90 degrees.

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The illustrations of two-faced signs do not cover the situation where the signs are at 90 degrees to one another.

Submitter Number: 785 **Submitter:** Z Energy Limited, BP Oil NZ Limited and Mobil Oil NZ Limited

Organisation: 'Oil Companies'

Point Number 785.37

Plan chapter Section C Rules > Chapter 13: Definitions > S > Sign

Summary of Decision Requested **Retain** the definition of "signs" in Chapter 13: Definitions, except for the amendments sought below

AND

Amend the definition of "signs" in Chapter 13: Definitions as follows:

Sign

Means any device, graphic or display of whatever nature that is ~~visible from~~ directed to and legible to a person in a public place, for the purposes of:

1. *Providing information to the general public;*
2. *Identifying and providing information about any activity, site or building;*
3. *Providing directions; or*
4. *Promoting goods, services or forthcoming events.*

A building or structure that is painted in whole or part in corporate colours does not, of itself, constitute a sign or signage.

AND

Any consequential amendments or further relief to give effect to the submission.

Decision Reasons:

- The submitter opposes in part the proposed definition of 'Sign' to the extent that the definition is exceptionally broad and could be read to include any face of a building or structure that is painted in recognizably "corporate colours".
- The definition could capture any sign necessary for traffic direction or instruction within a site (e.g. a sign identifying accessibility parking, opening hours inscribed onto a shop door or signs limiting parking to, say 120 mins. or internal traffic signs).
- The test of "visibility" from outside the site is too restrictive: the test should relate to whether the signage is directed to and clearly legible to people outside the site.

Plan chapter: Section C Rules > Chapter 13: Definitions > S > Significant Amenity Landscape

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.46		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Significant Amenity Landscape		
Summary of Decision Requested	Retain the definition for "Significant Amenity Landscape" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The definition is supported on the basis it applies to the area as identified on the planning maps. Such identification assists plan users and provides clarity on the application of the Proposed District Plan provisions that relate to the definition. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.267		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Significant Amenity Landscape		
Summary of Decision Requested	Delete the definition of "Significant Amenity Landscape" in Chapter 13 Definitions. AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter understands the purpose of the definition and subsequent policy framework is to give effect to the Waikato Regional Policy Statement (WRPS). However, the submitter considers the Proposed District Plan has not implemented the WRPS direction appropriately and identified rural productive areas as Significant Amenity Landscapes (SAL) unnecessarily. The primary concern is with the use of the SAL overlays affecting everyday farming operations in the Rural Zone by triggering an onerous and unnecessary requirement for farmers to have to seek and obtain resource consent for any practical development of farms for farming, for what amounts to little or no environmental benefit. Farming is part of the landscape character of rural areas, and farming should not be subject to onerous requirements for resource consent to develop their farms for farming purposes. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.508		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Significant Amenity Landscape		
Summary of Decision Requested	Amend the definition for "Significant Amenity Landscape" as follows: <i>Significant amenity landscape or SAL</i>		
Decision Reasons:	<ul style="list-style-type: none"> Amend to be consistent with other abbreviated terms. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > S > Significant Natural Area

Submitter Number:	332	Submitter:	Gwyneth & Barrie Smith
Point Number	332.8		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Significant Natural Area		
Summary of Decision Requested	Retain the definition of Significant Natural Area in Chapter 13: Definitions, except for the amendment sought below AND Amend the definition of Significant Natural Area in Chapter 13: Definitions as follows: <i>Means an area of significant indigenous biodiversity that is identified as a Significant Natural Area on the planning maps- or has been assessed as meeting one or more of the Criteria for Determining Significance of Indigenous Biodiversity (Appendix 2) by a suitably qualified Ecologist.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The definition needs to be expanded to include areas that have been assessed by a suitably qualified Ecologist as meeting one more of the criteria in Appendix 2 of the Proposed District Plan. This would align with the wording of the Conservation Lot Subdivision provisions which allow for subdivision where an Significant Natural Area is identified as being protected or meets the criteria for determining significance of indigenous biodiversity. 		

Submitter Number:	362	Submitter:	CYK Limited
Point Number	362.8		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Significant Natural Area		
Summary of Decision Requested	Retain the definition for "Significant Natural Area" in Chapter 13: Definitions, except for the amendments sought below AND Amend the wording of the definition for "Significant Natural Area" in Chapter 13: Definitions, as follows: <i>Means an area of significant indigenous biodiversity that is identified as a Significant Natural Area of the planning maps or has been assessed as meeting one or more of the Criteria for Determining Significance of Indigenous Biodiversity (Appendix 2) by a suitably qualified Ecologist.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Support the inclusion of Significant Natural Area's definition. Would like to see definition expanded to also include areas that have been assessed by a suitably qualified Ecologist as meeting one or more of the criteria in Appendix 2 of the Proposed Plan - <i>Criteria for Determining Significance of Indigenous Biodiversity.</i> 		

- Aligns with the wording of the Conservation Lot Subdivision provisions which allow for subdivision where an identified as Significant Natural Area is being protected or an area meeting the Criteria for Determining Significance of Indigenous Biodiversity.

Decision Reasons:

Submitter Number:	514	Submitter:	DP & LJ Ramsey Limited
Point Number	514.8		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Significant Natural Area		
Summary of Decision Requested	<p>Retain the definition for "Significant Natural Area" in Chapter 13 Definitions, except for the amendment sought below</p> <p>AND</p> <p>Amend the definition for "Significant Natural Area" in Chapter 13 Definitions, as follows:</p> <p><i>Means an areas of significant indigenous biodiversity that is identified as a Significant Natural Area on the Planning maps or has been assessed as meeting one or more of the Criteria for Determining Significance of Indigenous Biodiversity, (Appendix 2), by a suitably qualified Ecologist.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Support definition with amendments to be assessed by a suitably qualified ecologist. This would align with the wording of the Conservation Lot Subdivision provisions which allows for subdivision where an area meets the Criteria for Determining Significance of Indigenous Biodiversity. 		

Submitter Number:	529	Submitter:	Wilcox Properties Limited
Point Number	529.8		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Significant Natural Area		
Summary of Decision Requested	<p>Retain the definition for "Significant Natural Area" in Chapter 13: Definitions, except for the amendments sought below</p> <p>AND</p> <p>Amend the definition for "Significant Natural Area" in Chapter 13: Definitions, as follows:</p> <p><i>Means an area of significant indigenous biodiversity that is identified as a Significant Natural Area on the planning maps or has been assessed as meeting one or more of the Criteria for Determining Significance of Indigenous Biodiversity, (Appendix 2), by a suitably qualified Ecologist.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Support definition in part. Definition for Significant Natural Area needs to be expanded to include areas assessed by a suitably qualified Ecologist. This would align with the wording of the Conservation Lot Subdivision provisions.

Point Number	540.8		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Significant Natural Area		
Summary of Decision Requested	<p>Amend the definition of "Significant Natural Area" in Chapter 13 Definitions, as follows:</p> <p><i>Means an area of significant indigenous biodiversity that is identified as a Significant Natural Area on the planning maps or has been assessed as meeting one or more of the Criteria for Determining Significance of Indigenous Biodiversity, (Appendix 2), by a suitably qualified Ecologist.</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Supports the inclusion of Significant Natural Area's definition. This definition needs to be expanded to include areas that have been assessed by a suitably qualified ecological as meeting the criteria in Appendix 2 of the Proposed Plan (Criteria for Determining Significance of Indigenous Biodiversity). This would align with the wording of the subdivision rule for conservation lots. 		

Submitter Number:	574	Submitter:	TaTa Valley Limited
Point Number	574.13		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Significant Natural Area		
Summary of Decision Requested	<p>Delete the definition of Significant Natural Area in Chapter 13 Definitions, and replace with a new definition that is more descriptive as to what a Significant Natural Area is.</p> <p>AND</p> <p>Any consequential amendments and other relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Significant Natural Areas can be comprised of significant indigenous vegetation, exotic vegetation and significant habitats of indigenous fauna. The current definition just directs users back to the planning maps, and as such is insufficient. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.47		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Significant Natural Area		

Summary of Decision Requested	Retain the definition for "Significant Natural Area" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The definition is supported on the basis it applies to the area as identified on the planning maps. Such identification assists plan users and provides clarity on the application of the Proposed District Plan provisions that relate to the definition. 		

Submitter Number:	581	Submitter:	Penny Gallagher
Organisation:	Synlait Milk Ltd		
Point Number	581.17		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Significant Natural Area		
Summary of Decision Requested	Retain the definition of "Significant Natural Areas" in Chapter 13 Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The definition provides appropriate interpretation in administration of the District Plan. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.268		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Significant Natural Area		
Summary of Decision Requested	Amend the definition of "Significant Natural Area" in Chapter 13 Definitions, as follows: <i>Means an area of significant indigenous biodiversity that is identified as a Significant Natural Area on the planning maps <u>and listed in Appendix XX and described in the individual assessment sheet</u></i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> Conditional support is extended to this definition. The submitter supports the principle of identifying these areas, listing them on a schedule, which summaries the associated values, and including the overlay on planning maps. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.507		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Significant Natural Area		
Summary of Decision Requested	Amend the definition for "Significant Natural Area" as follows: <i>Significant Natural Area <u>or SNA</u></i>		
Decision Reasons:	<ul style="list-style-type: none"> Amend definition so that Significant Natural Area and significant amenity area are interchangeable. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.22		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Significant Natural Area		
Summary of Decision Requested	Amend the definition of "Significant Natural Area" in Chapter 13: Definitions as follows: <i>Means an area of significant indigenous biodiversity that is identified as a Significant Natural Area on the planning maps <u>or has been assessed as meeting one or more of the Criteria for Determining Significance of Indigenous Biodiversity (Appendix 2) by a suitably qualified Ecologist</u></i>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the inclusion of Significant Natural Area's definition. The submitter would like to see it expanded to also include areas that have been assessed by a suitably qualified ecologist as meeting one more of the criteria in Appendix 2 of the Proposed Plan - Criteria for Determining Significance of Indigenous Biodiversity. This would align with the wording of the Conservation Lot Subdivision provisions which allow for subdivision where an identified Significant Natural Area is being protected or an area meeting the Criteria for Determining Significance of Indigenous Biodiversity. 		

Submitter Number:	862	Submitter:	Havelock Village Limited
Point Number	862.27		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Significant Natural Area		
Summary of Decision Requested	Delete the definition of "Significant Natural Area" in Chapter 13: Definitions and replace with a more descriptive definition of Significant Natural Area. AND Any consequential amendments or alternative relief to give effect to the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter seeks to amend the definition of Significant Natural Area as it is currently written. Significant Natural Areas can be comprised of significant indigenous vegetation, exotic vegetation and significant habitats of indigenous fauna. As such, the current definition provided for Significant Natural Areas is deemed to be inadequate by the submitter. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > S > Significant feature of interest

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.146		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Significant feature of interest		
Summary of Decision Requested	Amend the definition of "Significant feature of interest" in Chapter 13: Definitions as follows: <i>Means those parts of a historic heritage building, which is shown on the planning maps and listed in Appendix 30.1, that area described in the individual historic heritage item record form.</i>		
Decision Reasons:	<ul style="list-style-type: none">• The submitter generally supports the recognition of significant features of interest as part of the historic heritage item record form and in relation to the Heritage Items identified in the Plan.• The submitter is concerned that listing the significant features and developing a rule framework around the significant features risks encouraging a piecemeal approach and not considering the heritage place holistically.• Changes to non-protected elements can incur negative effects on significant features if they are compromised by what happens around them.• The column in the schedule referring to significant features implies that everything else is not of particular significance.• This approach is not helpful to the retention of the heritage values of the whole of the heritage item.• It would be more appropriate if the schedule is tied to the record form descriptions and the significant features are seen in the context of the entire building.		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.269		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Significant feature of interest		
Summary of Decision Requested	Retain the definition of "Significant feature of interest" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none">• Conditional support is extended to this definition. The submitter supports the principle of identifying these areas, listing them on a schedule, which summaries the associated values, and including the overlay on planning maps.		

Plan chapter: Section C Rules > Chapter 13: Definitions > S > Site

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.33		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Site		
Summary of Decision Requested	Retain the definition of "Site" in Chapter 13 Definitions, except for the amendments sought below; AND Add new clause (5) to the definition of "Site" in Chapter 13 Definitions, as follows: Site <i>Means:</i> ... <u>5. Subdivided land that requires no further consent from Council.</u>		
Decision Reasons:	<ul style="list-style-type: none">• Generally supports the proposed definition for a "site."• Such an amendment is applied in the Operative Hamilton City District Plan where land use consent is required for a recently subdivided allotment, and where sections of policy notations do not affect the newly created allotment.• Such provision will enable land use consents to be assessed based on their merits, as opposed to irrelevant planning notations.		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.509		
Plan chapter	Section C Rules > Chapter 13: Definitions > S > Site		
Summary of Decision Requested	Amend the definition for "Site" as follows: ... <i>(b) in the case of land developed under the Unit Titles Act 2010, the area comprised in a principal unit or and associated accessory unit excluding any common property; in the case of cross-leases, the flat, and any the area reserved for the exclusive use of the lease of that flat, comprised within the cross-lease, but excluding any common areas property.</i>		
Decision Reasons:	<ul style="list-style-type: none">• Amendments to improve clarity and accuracy of terms used.		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
--------------------------	-----	-------------------	---------------------------------

Point Number 749.62

Plan chapter Section C Rules > Chapter 13: Definitions > S > Site

Summary of Decision Requested Retain the definition of "Site" in Chapter 13 Definitions as notified.

Decision Reasons:

- The submitter supports the proposed definition.
- It is noted that the draft National Planning Standards proposed a definition for 'Site' that is slightly different to the Proposed District Plan definition.

Plan chapter: Section C Rules > Chapter 13: Definitions > S > Small-scale electricity generation

Submitter Number: 692 **Submitter:** WEL Networks Limited

Point Number 692.49

Plan chapter Section C Rules > Chapter 13: Definitions > S > Small-scale electricity generation

Summary of Decision Requested Retain the definition of "Small-Scale Electricity Generation" in Chapter 13: Definitions.

Decision Reasons:

- Supports the definition as it includes small renewable generation activities and connecting to the network

Plan chapter: Section C Rules > Chapter 13: Definitions > S > SNA

Submitter Number: 419 **Submitter:** Lucy Deverall

Organisation: Horticulture New Zealand

Point Number 419.137

Plan chapter Section C Rules > Chapter 13: Definitions > S > SNA

Summary of Decision Requested Delete the acronym "SNA" in Chapter 13 Definitions
AND
Add a glossary of abbreviations in the Proposed District Plan.
AND
Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- The definition of "SNA" refers to the definition of Significant Natural Area which is unnecessarily repetitive.
- The submitter considers that abbreviations could be placed in a separate glossary.

Plan chapter: Section C Rules > Chapter 13: Definitions > S > Spectator

Submitter Number: 657 **Submitter:** Hampton Downs Motorsport Park

Point Number 657.55

Plan chapter Section C Rules > Chapter 13: Definitions > S > Spectator

Summary of Decision Requested Delete the definition for "Spectator" from Chapter 13 Definitions in its entirety.

Decision Reasons:

- The inclusion of a definition for 'Spectator' within the District Plan is opposed.
- The inclusion of this definition within the District Plan is unnecessary and should be deleted.

Plan chapter: Section C Rules > Chapter 13: Definitions > S > Storage

Submitter Number: 419 **Submitter:** Lucy Deverall

Organisation: Horticulture New Zealand

Point Number 419.138

Plan chapter Section C Rules > Chapter 13: Definitions > S > Storage

Summary of Decision Requested Amend the definition of "Storage" in Chapter 13 Definitions, as follows:
Means in the context of a hazardous substance or hazardous waste, the containment of a hazardous substance or hazardous waste, either above ground or underground, in enclosed packages, containers or tanks. ~~It includes vehicles used to transport any hazardous substance that are stationary within a hazardous facility for more than short periods of time.~~
AND
Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:	<ul style="list-style-type: none"> The proposed definition would mean that a tractor or quad bike with a spray tank containing agrichemicals is a storage facility.
--------------------------	--

Plan chapter: Section C Rules > Chapter 13: Definitions > T > Temporary event

Submitter Number:	574	Submitter:	TaTa Valley Limited
Point Number	574.16		
Plan chapter	Section C Rules > Chapter 13: Definitions > T > Temporary event		
Summary of Decision Requested	<p>Amend the definition for "Temporary Event" in Chapter 13 Definitions, as follows:</p> <p><i>Means a social, cultural or recreation event that has a duration of less than 72 hours, including entertainment events, carnivals, festivals, fairs, markets, and exhibitions, and associated temporary buildings and car parks.</i></p> <p>AND</p> <p>Any consequential amendments and other relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Reference to duration is more appropriately included in the permitted activity standards, and as such should be removed from the definition. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.511		
Plan chapter	Section C Rules > Chapter 13: Definitions > T > Temporary event		
Summary of Decision Requested	<p>Amend the definition for "Temporary event" as follows:</p> <p><i>Means a social, cultural or recreation event that has a duration of less than 72 hours, including entertainment...</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> The standards associated with duration of a temporary event are already in each of the rules. Therefore duration is not necessary in the definition. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > T > Temporary infrastructure

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.15		
Plan chapter	Section C Rules > Chapter 13: Definitions > T > Temporary infrastructure		
Summary of Decision Requested	<p>Retain the definition of "Temporary infrastructure" in Chapter 13 Definitions, as notified.</p>		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.48		
Plan chapter	Section C Rules > Chapter 13: Definitions > T > Temporary infrastructure		
Summary of Decision Requested	<p>Retain the definition for "Temporary Infrastructure" in Chapter 13 Definitions, as notified.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The definition is supported as it recognises and provides for infrastructure that is not permanent. 		

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.1		
Plan chapter	Section C Rules > Chapter 13: Definitions > T > Temporary infrastructure		
Summary of Decision Requested	<p>Retain the definition of "Temporary Infrastructure" in Chapter 13: Definitions.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Supports the definition as it includes the installation of poles and other equipment and generators, necessary for maintenance and emergency works. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.82		

Plan chapter Section C Rules > Chapter 13: Definitions > T > Temporary infrastructure

Summary of Decision Requested **Retain** definition for "temporary infrastructure" in Chapter 13: Definitions as notified.

Decision Reasons:

- The submitter supports this definition.

Plan chapter: Section C Rules > Chapter 13: Definitions > T > Travellers' accommodation

Submitter Number: 574 **Submitter:** TaTa Valley Limited

Point Number 574.14

Plan chapter Section C Rules > Chapter 13: Definitions > T > Travellers' accommodation

Summary of Decision Requested **Amend** the definition for "Travellers' Accommodation" in Chapter 13 Definitions, as follows:
...and recreation facilities for the use of the guests staying at the site. It includes hotels...
 AND
 Any consequential amendments and other relief to give effect to the matters raised in the submission.

Decision Reasons:

- It is commonplace for members of the public to use certain amenities or facilities at accommodation whilst not necessarily staying onsite (e.g. hotel restaurant).

Submitter Number: 657 **Submitter:** Hampton Downs Motorsport Park

Point Number 657.53

Plan chapter Section C Rules > Chapter 13: Definitions > T > Travellers' accommodation

Summary of Decision Requested **Retain** the definition for "Travellers Accommodation" in Chapter 13 Definitions as notified.

Decision Reasons:

- The inclusion of a definition for 'Travellers Accommodation' within the District Plan is supported.

Submitter Number: 680 **Submitter:** Federated Farmers of New Zealand

Point Number 680.270

Plan chapter Section C Rules > Chapter 13: Definitions > T > Travellers' accommodation

Summary of Decision Requested **Amend** the definition of "Travellers' accommodation" in Chapter 13 Definitions, as follows:
... excludes the accommodation used by the permanent resident. Provided that Travellers accommodation does not include activities defined in this Plan as Homestay activities.
 AND
 Any consequential changes needed to give effect to this relief.

Decision Reasons:

- This is a consequential amendment required to give effect to the relief sought under Homestay submission point.

Plan chapter: Section C Rules > Chapter 13: Definitions > U > Use

Submitter Number: 419 **Submitter:** Lucy Deverall

Organisation: Horticulture New Zealand

Point Number 419.139

Plan chapter Section C Rules > Chapter 13: Definitions > U > Use

Summary of Decision Requested **Amend** the definition of "Use" in Chapter 13 Definitions, so that the application of agrichemicals and fertiliser is excluded.
 AND
 Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- The definition should specifically exclude the application of agrichemicals and fertilisers for the intended use.
- Applications of agrichemicals and fertilisers are managed by the Waikato Regional Council as discharges and Waikato District Council should not also be regulating them.

Submitter Number: 581 **Submitter:** Penny Gallagher

Organisation: Synlait Milk Ltd

Point Number 581.18

Plan chapter	Section C Rules > Chapter 13: Definitions > U > Use
Summary of Decision Requested	Retain the definition of "Use" in Chapter 13 Definitions as notified.
Decision Reasons:	<ul style="list-style-type: none"> The definition provides appropriate interpretation in administration of the District Plan.

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.63		
Plan chapter	Section C Rules > Chapter 13: Definitions > U > Use		
Summary of Decision Requested	Amend the heading of the definition of "Use" in Chapter 13 Definitions to refer to "Hazardous use".		
	AND		
	Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> The term "use" is too broad and should not be included in the definitions chapter. The definition provided with the term "use" should include the words "hazardous" as it relates more to "Hazardous Use" than in a general application of "use". 		

Plan chapter: Section C Rules > Chapter 13: Definitions > U > Utility allotment

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.16		
Plan chapter	Section C Rules > Chapter 13: Definitions > U > Utility allotment		
Summary of Decision Requested	Retain the definition of "Utility allotment" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.2		
Plan chapter	Section C Rules > Chapter 13: Definitions > U > Utility allotment		
Summary of Decision Requested	Retain the definition of "Utility Allotment" in Chapter 13: Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> Supports the definition as it includes an allotment used exclusively for the purposes of accommodating infrastructure. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > V > Vegetation clearance

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.140		
Plan chapter	Section C Rules > Chapter 13: Definitions > V > Vegetation clearance		
Summary of Decision Requested	<p>Amend the definition of "Vegetation clearance" in Chapter 13 Definitions, as follows:</p> <p><u>Indigenous Vegetation clearance</u></p> <p><i>Includes the modification, burning, cutting, crushing, spraying and removal by physical, mechanical, chemical or other means of indigenous vegetation, of all forms of vegetation, including indigenous, and may include exotic plants. It does not include vegetation clearance relating to routine cultivation or grazing, clearing;</i></p> <p><i>(a) hedges, shelter belts and amenity plants, or</i></p> <p><i>(b) vegetation along fences and around dams and ponds, or</i></p> <p><i>(c) vegetation around public utility networks, or</i></p> <p><i>(d) vegetation that impedes or is likely to impede flood flows</i></p> <p><i>(e) vegetation for the maintenance of roads and tracks, or</i></p> <p><i>(f) scattered trees, shrubs or regenerating bush amongst pasture or horticultural crops, or</i></p> <p><i>(g) vegetation that is infected by an unwanted organism as declared by the Ministry of Primary Industries Chief Technical Officer or an emergency declared by the Minister under the Biosecurity Act 1993.</i></p> <p>AND</p> <p>Any consequential or additional amendments as a result of changes sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter seeks clarity with the relationship between the use of "indigenous vegetation" and "vegetation clearance" used in the Proposed District Plan. Throughout the Proposed District Plan, the wording in rules relates to "indigenous vegetation clearance". The submitter is unable to locate any rules within the Proposed District Plan that relate to vegetation clearance of non-indigenous species. All relevant rules appear to apply to indigenous vegetation only. The submitter supports the exclusion of vegetation clearance relating to routine cultivation. Productive rural land use requires the ability to manage vegetation species and growth to ensure production activities are not compromised. 		

Submitter Number:	581	Submitter:	Penny Gallagher
Organisation:	Synlait Milk Ltd		
Point Number	581.19		
Plan chapter	Section C Rules > Chapter 13: Definitions > V > Vegetation clearance		
Summary of Decision Requested	Retain the definition of "Vegetation clearance" in Chapter 13 Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The definition provides appropriate interpretation in administration of the District Plan. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.271		
Plan chapter	Section C Rules > Chapter 13: Definitions > V > Vegetation clearance		
Summary of Decision Requested	<p>Amend the definition of "Vegetation clearance" in Chapter 13 Definitions, as follows:</p> <p><i>Includes the modification, burning, cutting, crushing, spraying and removal by physical, mechanical, chemical or other means, of all forms of vegetation, including indigenous, and may include exotic plants.</i></p> <p><i>It does not include vegetation clearance relating to routine cultivation or grazing, which is ancillary to farming, such as:</i></p> <p><i>(a) clearance for the purpose of maintaining rural fire breaks,</i></p> <p><i>(b) pasture maintenance</i></p> <p><i>(c) clearance of airstrips, helipads, vehicle entranceways, accessways and driveways, farm tracks and stock crossings of waterways,</i></p> <p><i>(d) clearance around farm buildings and farm infrastructure, water supply dams, pipelines and troughs,</i></p> <p><i>(e) pest plant/weed management, including clearance of pest plants including: thistles, ring ferns, carpet ferns, rushes, ink weed, briar rose, barberry, introduced pampas grass (other than toetoe), mingimingi, wilding pinus species, etc</i></p> <p><i>(f) cultivation,</i></p> <p><i>(g), forestry harvesting, pruning and thinning,</i></p> <p><i>(h) clearance or disturbance by animals including grazing,</i></p> <p><i>(i) activities undertaken for the purpose of establishing a fence line,</i></p> <p><i>(j) maintaining shelterbelts, (including cutting of shelterbelt roots,</i></p> <p><i>(k) activities associated with fruit tree or fruit vine plantations,</i></p> <p><i>(l) clearance of vegetation that is fallen or dead,</i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> This definition should be amended to specifically exclude vegetation clearance undertaken in association with day-to-day farming. The submitter has concerns that the definition will still catch many instances of ordinary pastoral farming practice in which vegetation clearance may have to be undertaken on a day-to-day basis, and trigger the requirement for resource consent unnecessarily. Farmers should not have to incur unnecessary delay and cost for routine vegetation clearance which will result in no more than minor adverse environmental effects. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.64		
Plan chapter	Section C Rules > Chapter 13: Definitions > V > Vegetation clearance		
Summary of Decision Requested	<p>Amend the definition of "Vegetation clearance" to include exclusions and method of measurements.</p> <p>AND</p> <p>Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally supports the inclusion of the term in the Proposed District Plan; however, seeks the term is quantified with measurements that determine what is included and excluded. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > V > Vehicle movement

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.83		
Plan chapter	Section C Rules > Chapter 13: Definitions > V > Vehicle movement		
Summary of Decision Requested	Retain the definition for "vehicle movement" in Chapter 13: Definitions as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this definition. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > V > Viable Record of Title

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.80		
Plan chapter	Section C Rules > Chapter 13: Definitions > V > Viable Record of Title		
Summary of Decision Requested	Delete the definition of "Viable Record of Title" in Chapter 13 Definitions		
Decision Reasons:	<ul style="list-style-type: none">• Likely to be ultra-vires.• The Resource Management Act does not provide for active discrimination in defining which record of title is viable or not, only in specific zones.• The same rules have to apply all lots in all zones if they are to be applied.		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.512		
Plan chapter	Section C Rules > Chapter 13: Definitions > V > Viable Record of Title		
Summary of Decision Requested	Amend the definition for "Viable record of title" as follows: <i>Means in the Rural Zone, a Record of Title that contains at least 5000m2, is not a road severance or <u>stopped road</u>, and can...</i>		
Decision Reasons:	<ul style="list-style-type: none">• Needs to address the scenario of a stopped road.		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.23		
Plan chapter	Section C Rules > Chapter 13: Definitions > V > Viable Record of Title		
Summary of Decision Requested	Amend the definition of "Variable Record of Title" in Chapter 13: Definitions as follows: <i>Means in the Rural Zone, a Record of Title that contains at least 5000m², is not a road severance, and can accommodate a suitable building platform as a permitted activity under Rule 22.4.9 (subdivision rule for building platform), which satisfies one of the following criteria:</i> <i><u>- contains at least 5000m², or</u></i> <i><u>- is a lot approved or granted consent by a territorial local authority, or</u></i> <i><u>- was separately recorded on the valuation roll of the former Franklin County Council as at 22 September 1977, or</u></i> <i><u>- had the right to erect one dwelling as a Permitted activity as at 30 May 1994 in terms of the Transitional District Plan of the Franklin District Council.</u></i>		
Decision Reasons:	<ul style="list-style-type: none">• This definition is a simplistic interpretation that will change the status of existing lawfully established titles that are less than 5,000m².• It also refers to rule 22.4.9 which includes a new standard for an area of 1,000m² exclusive of boundary setbacks and is suitable for building. Previously created titles were not assessed against (and future titles may be granted consent as a discretionary activity) this ridiculous rule.• There are existing lawfully established allotments that are less than 5,000m². There are also titles larger than 5,000m² that have restricted building areas that would not comply with rule 22.4.9. These are also considered to be viable certificates of title and any change in definition to take away existing rights would open Council up to legal proceedings.		

Plan chapter: Section C Rules > Chapter 13: Definitions > V > Village Green

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.81		
Plan chapter	Section C Rules > Chapter 13: Definitions > V > Village Green		
Summary of Decision Requested	Amend the definition of "Village Green" in Chapter 13 Definitions to not be restricted only to Tamahere, so as to be later used as a general development term when Villages are more widely developed.		
Decision Reasons:	<ul style="list-style-type: none">• The term should not be inappropriately restricted only to Tamahere.		

Plan chapter: Section C Rules > Chapter 13: Definitions > V > Visually permeable

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
Point Number	695.82		
Plan chapter	Section C Rules > Chapter 13: Definitions > V > Visually permeable		
Summary of Decision Requested	Amend the definition of "Visually permeable" in Chapter 13 Definitions as follows:		

~~Means materials on a fence or wall that have continuous vertical or horizontal gaps of at least 50mm width that result in at least 50% visual permeability that include continuous vertical or horizontal gaps of at least 50mm width.~~

Decision Reasons:

- The definition cannot be applied as it reads.
- It suggests only the gaps have the visual permeability.

Submitter Number: 749 **Submitter:** Housing New Zealand Corporation

Point Number 749.65

Plan chapter Section C Rules > Chapter 13: Definitions > V > Visually permeable

Summary of Decision Requested **Retain** the definition of "Visually permeable" in Chapter 13 as notified.

Decision Reasons:

- The submitter supports the proposed definition.

Plan chapter: Section C Rules > Chapter 13: Definitions > W

Submitter Number: 574 **Submitter:** TaTa Valley Limited

Point Number 574.22

Plan chapter Section C Rules > Chapter 13: Definitions > W

Summary of Decision Requested **Add** a definition to Chapter 13 Definitions, for "Workers Accommodation", as follows:

Means a dwelling for people whose duties require them to live onsite. This definition includes seasonal workers.

AND

Any consequential amendments and other relief to give effect to the matters raised in the submission.

Decision Reasons:

- The operation of the proposed Resort and other activities is likely to require some staff to live onsite and as such, a definition is required.

Submitter Number: 578 **Submitter:** Ports of Auckland Limited

Point Number 578.80

Plan chapter Section C Rules > Chapter 13: Definitions > W

Summary of Decision Requested **Add** a definition of "Worker's accommodation" in Chapter 13 Definitions, as follows:

Worker's accommodation

A dwelling for people whose duties require them to live on-site, and in the rural zones for people who work on the site or in the surrounding rural area.

Includes:

a) accommodation for rangers;

b) artists in residence;

c) farm managers and workers; and

d) staff.

AND

Amend the Proposed District Plan to make alternative or consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- Provision has been sought for worker's accommodation within the Industrial Zone. A corresponding definition is therefore proposed.

Submitter Number: 742 **Submitter:** Kim Harris-Cottle

Organisation: New Zealand Transport Agency

Point Number 742.84

Plan chapter Section C Rules > Chapter 13: Definitions > W

Summary of Decision Requested **Add** a definition for "watercourse" to Chapter 13: Definitions that excludes artificial waterways such as stormwater swales.

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- There is no definition of the term "watercourse". Refer to submitter's submission on Rule 14.3.1.3(1)(c).

Plan chapter: Section C Rules > Chapter 13: Definitions > W > Waste management

Submitter Number: 425 **Submitter:** Envirofert Limited

Point Number	425.1
Plan chapter	Section C Rules > Chapter 13: Definitions > W > Waste management
Summary of Decision Requested	Retain the definition for "Waste management" in Chapter 13 Definitions.
Decision Reasons:	<ul style="list-style-type: none"> This definition is supported.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.272		
Plan chapter	Section C Rules > Chapter 13: Definitions > W > Waste management		
Summary of Decision Requested	Amend the definition of "Waste management" in Chapter 13 Definitions, as follows: <i>Means <u>industrial or commercial</u> activities relating to the minimisation or reduction of waste material and reuse, recycling, recovery, treatment, storage and disposal processes.</i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> The amendment is required to add clarification and certainty to the proposed definition. 		

Plan chapter: Section C Rules > Chapter 13: Definitions > W > Waste management facility

Submitter Number:	425	Submitter:	Envirofert Limited
Point Number	425.2		
Plan chapter	Section C Rules > Chapter 13: Definitions > W > Waste management facility		
Summary of Decision Requested	Retain the definition for "Waste management facility" in Chapter 13 Definitions.		
Decision Reasons:	<ul style="list-style-type: none"> The definition is supported. 		
Decision Reasons:	None		

Submitter Number:	548	Submitter:	Murray & Cathy McWatt
Organisation:	Grander Investments Limited		
Point Number	548.4		
Plan chapter	Section C Rules > Chapter 13: Definitions > W > Waste management facility		
Summary of Decision Requested	Amend the definition for "Waste management facility" in Chapter 13 Definitions, as follows: <i>waste management facilities include: <u>disposal of waste to land (excluding cleanfill)</u>, landfills, cleanfills, commercial composting operations, recovery operations, transfer stations, recycling centres and resource recovery centres.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Definition needs to be in accordance with the WasteMINZ Technical Guidelines for Disposal to Land. The current definition only refers to Landfill and Cleanfill. Amend definition to accept cleanfill for disposal, distinct from where cleanfill is imported for rural production purposes, or to form building sites, roads etc. Cleanfill facilities should be provided for in appropriate zones (Rural and Industrial Zones) where the effects can be managed. Refer to submission for suggested waste management definition. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.10		
Plan chapter	Section C Rules > Chapter 13: Definitions > W > Waste management facility		
Summary of Decision Requested	Amend the definition of "Waste Management Facility" in Chapter 13: Definitions as follows: <i>Waste management facilities include: <u>disposal of waste to land (excluding cleanfill)</u>, commercial composting operations, recovery operations, transfer stations, recycling centres and resource recovery centres.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this definition being revised to include all types of waste disposal to land classes excluding cleanfill (solid waste landfill, construction and demolition waste fill, managed fill, controlled fill), in accordance with the leading technical document for waste management in New Zealand - WasteMINZ Technical Guidelines for Disposal to Land. The definition recognises ancillary activities associated with waste disposal including recycling centres. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.273		
Plan chapter	Section C Rules > Chapter 13: Definitions > W > Wetland		
Summary of Decision Requested	Retain the definition for "Wetland" in Chapter 13 Definitions, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support is extended to keeping the same meaning of wetland as is defined in the RMA. 		

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.246		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy		
Summary of Decision Requested	Amend Chapter 14 to ensure it is consistent with the approach to overlay areas in the zone chapters. For example, there should be consistency between permitted activity thresholds and activity status between Chapter 14 and the zone chapters.		
Decision Reasons:	<ul style="list-style-type: none"> Paragraph 14.1(1) of the Infrastructure and Energy Chapter states that the provisions of that chapter apply across the district in all the zones and overlays in the district plan. It goes on to say that the zone chapters and their associated overlays, objectives, policies and rules do not apply to infrastructure and energy activities unless specially referred to within Chapter 14. Therefore, it appears that Chapter 14 is largely intended to be a standalone/ self-contained chapter. See submission for examples of inconsistencies in Chapter 14. Amendments are required to Chapter 14 to ensure that Chapter 11 and 12 of the WRPS and the NZCPS are given effect to. 		

Submitter Number:	164	Submitter:	Hiini Kapa
Point Number	164.5		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy		
Summary of Decision Requested	No specific decision sought, but submission states support for Chapter 14 Infrastructure and Energy.		
Decision Reasons:	<ul style="list-style-type: none"> Allows autonomy, growth and independence. 		

Submitter Number:	286	Submitter:	Lorraine Dixon
Organisation:	Waikato-Tainui		
Point Number	286.35		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy		
Summary of Decision Requested	Amend Chapter 14 Infrastructure to provide clear provisions to manage the effects of infrastructure and energy activities on Maaori Areas of Significance and Maaori Sites of Significance. This may include amending the activity status, rules and defining terms such as "identified areas".		
Decision Reasons:	<ul style="list-style-type: none"> Chapter 14 states that the zone chapters are their associated overlays, objectives, policies and rules do not apply to infrastructure and energy activities unless specifically referred to within the Infrastructure and Energy Chapter. In other words, Chapter 14 is largely designed to be self-contained and standalone. Clarity is sought to what activity status and provisions would apply to infrastructure and energy activities proposed on Maaori Areas of Significance or Maaori Sites of Significance. Throughout the Chapter the terminology "identified areas" is used. This term is not defined in Chapter 13 Definitions and therefore it is unclear if this is intended to capture Maaori Areas of Significance or Maaori Sites of Significance. Without clear provisions regarding infrastructure and energy activities Maaori Areas of Significance or Maaori Sites of Significance there is a risk that these areas and sites may be adversely affected by activities with very few checks and balances in place. It is important to note that not all Areas of Significance or Waikato-Tainui are listed or public knowledge, this is well understood by all parties. For this reason, concerns exist that if infrastructure development was occurring, site disturbance could occur at sites of significance without the knowledge of Waikato-Tainui or the infrastructure provider. 		

Submitter Number:	423	Submitter:	Lindsay Wilson
Organisation:	Watercare Services Limited		
Point Number	423.21		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy		
Summary of Decision Requested	Amend Chapter 14 Infrastructure and Energy to include comprehensive rules specifying the activity status for infrastructure (including water, wastewater and storm water infrastructure) in all zones, overlays and areas covered by the Proposed District Plan including permitted activity rules, on a similar basis to Chapter E26 Infrastructure in the Auckland Unitary Plan (Operative in Part).		
	AND		
	Any consequential amendments or further relief to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Does not appropriately enable the provision of infrastructure or recognize the technical or operational needs of infrastructure. With respect to the potential for rules in other chapters of the Proposed District Plan (e.g. Chapter 2 and the zone chapters) to effectively override the permitted activity rules for infrastructure in chapter 14, Watercare seeks that this be addressed in the same manner as in chapter E26 infrastructure of the Auckland Unitary Plan Operative in Part. In other words, that the Proposed District Plan includes rules setting out the activity status for infrastructure in all 		

zones, overlays and areas covered by the Proposed District Plan and permitted activity rules for infrastructure with appropriate standards in all zones, overlays and areas.

Submitter Number:	493	Submitter:	Jackie Collier
Point Number	493.18		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy		
Summary of Decision Requested	Amend Chapter 14 Infrastructure and Energy, to provide clear provisions to manage the effects of infrastructure and energy activities on Maaori Areas of Significance and Maaori Sites of Significance. This may include making amendments to the activity status, rules and defining terms such as "identified areas."		
Decision Reasons:	<ul style="list-style-type: none">The first paragraph of Chapter 14 Infrastructure and Energy states that the zone chapters and their associated overlays, objectives, policies and rules do not apply to infrastructure and energy activities unless specifically referred to within the Infrastructure and Energy Chapter. Chapter 14 is largely designed to be self-contained and standalone.The submitter seeks clarity as to what activity status and provisions would apply to infrastructure and energy activities proposed on Maaori Areas of Significance or Maaori Sites of Significance.Throughout the Chapter the terminology 'identified areas' is used. This term is not defined in Chapter 13 definitions and therefore it is unclear if this is intended to capture Maaori Areas of Significance or Maaori Sites of Significance.Without clear provisions regarding infrastructure and energy activities in Maaori Areas of Significance or Maaori Sites of Significance there is a risk that these areas and sites may be adversely affected by activities with very few checks and balances in place.It is important to note that not all Areas of Significance to mana whenua are listed or public knowledge; this is well understood by all parties.		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.68		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy		
Summary of Decision Requested	Add a new advice note under Section 14.4.4 Non-Complying Activities, as follows: <u>Transpower or a suitably qualified engineer should be contacted for assistance with clearance requirements in NZCEP 34:2001.</u> <u>(1) Compliance with the New Zealand Electrical Code of Practice for Electrical Safe Distances (NZCEP 34:2001) is mandatory under the Electricity Act 1992. All activities regulated by NZCEP34:2001, including buildings, structures, earthworks and the operation of mobile plant, must comply with that regulation. Activities should be checked for compliance even if they are permitted by the District Plan.</u> <u>(2) An activity, including buildings and structures, earthworks, quarrying and planting vegetation, within the National Grid Corridor or National Grid Yard may require resource consent. Transpower New Zealand limited will be considered to be an affected party where consent is required. Where an activity requires resource consent solely because it is within the National Grid Yard and/or Corridor public notification of the application is precluded. However, limited notification will be given to Transpower unless the written approval from Transpower is provided at the time the application is lodged.</u> <u>(3) The Electricity (Hazards from Trees) Regulations 2003 applies to vegetation planted within the National Grid Corridor or near sub-transmission or distribution electricity lines and must be complied with. Vegetation to be planted within the National Grid Yard as shown on the District Plan Maps should be selected and/or managed to ensure that it will not result in that vegetation breaching the Electricity (Hazards from Trees) Regulations 2003 or prevent access to support structures. To discuss works, including tree planting near any electricity line especially works within the National Grid Yard, contact the relevant network utility operator.</u> OR Add a new advice note into the Introduction to Chapter 14 Infrastructure and Energy, as follows: <u>Transpower or a suitably qualified engineer should be contacted for assistance with clearance requirements in NZCEP 34:2001.</u> <u>(1) Compliance with the New Zealand Electrical Code of Practice for Electrical Safe Distances (NZCEP 34:2001) is mandatory under the Electricity Act 1992. All activities regulated by NZCEP34:2001, including buildings, structures, earthworks and the operation of mobile plant, must comply with that regulation. Activities should be checked for compliance even if they are permitted by the District Plan.</u> <u>(2) An activity, including buildings and structures, earthworks, quarrying and planting vegetation, within the National Grid Corridor or National Grid Yard may require resource consent. Transpower New Zealand limited will be considered to be an affected party where consent is required. Where an activity requires resource consent solely because it is within the National Grid Yard and/or Corridor public notification of the application is precluded. However, limited notification will be given to Transpower unless the written approval from Transpower is provided at the time the application is lodged.</u> <u>(3) The Electricity (Hazards from Trees) Regulations 2003 applies to vegetation planted within the National Grid Corridor or near sub-transmission or distribution electricity lines and must be complied with. Vegetation to be planted within the National Grid Yard as shown on the District Plan Maps should be selected and/or managed to ensure that it will not result in that vegetation breaching the Electricity (Hazards from Trees) Regulations 2003 or prevent access to support structures. To discuss works, including tree planting near any electricity line especially works within the National Grid Yard, contact the relevant network utility operator.</u> AND Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none">To assist plan users in understanding the National Grid and relationship with external documents, the submitter supports the provision of three advice notes. Such advice notes would assist in plan interpretation and application.The three advice notes relate to:<ul style="list-style-type: none">Advising that notwithstanding the PWDP, compliance with the New Zealand Electrical Code of Practice for Electrical Safe Distances (NZCEP 34:2001) is mandatory under the Electricity Act 1992Advising that Transpower New Zealand limited will be considered to be an affected party where consent is required.Advising that notwithstanding the Proposed District Plan, the Electricity (Hazards from Trees) Regulations 2003 applies to vegetation planted within the National Grid Corridor or near sub-transmission or distribution electricity lines and must be complied with.

Summary of Decision Requested	Retain Chapter 14 Infrastructure and Energy as notified, particularly Sections 14.1-14.3 and 14.10, except where specific amendments have been requested in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Generally, Chapter 14 is supported in regard to infrastructure and particularly sections 14.1-14.3 and 14.10 - Telecommunications, except where specific amendments have been requested. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.310		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy		
Summary of Decision Requested	Amend the location of the following rules currently in Chapter 14 into the zone chapters: <i>(a) Rules regarding buildings and structures within the National Grid Yard (rule 14.4.1 P1, P2 and 14.4.4 NC3, NC4 and NC9)</i> <i>(b) Rules regarding subdivision within the national Grid Corridor (rule 14.4.2 RD4 and 14.4.4 NC10)</i> <i>(c) Rules regarding sensitive landuses within the National Grid Yard (rule 14.4.1 P1 and P2, 14.4.4 NC3, NC4, NC5, NC6 and NC7)</i> <i>(d) Earthworks within the National Grid yard (rule 14.4.1 P3 and 14.4.2 RD3)</i> <i>(e) New hazardous facilities within the National Grid yard (rule 14.4.4 NC8)</i> <i>(f) Rules regarding sensitive landuses within close proximity to electricity distribution lines (rule 14.5.1 P5 and 14.5.2 RD2)</i> <i>(g) Rules regarding maximum impervious surface (rule 14.1.1.1 P2 and 14.1.1.2 RD2)</i>		
Decision Reasons:	Certain rules currently in chapter 14 (Infrastructure) should be located into the zone chapter so they are more easily able to be found. The rules in question are focused on land use rather than infrastructure.		
Point Number	697.514		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy		
Summary of Decision Requested	Amend Chapter 14 Infrastructure and Energy by replacing acronyms with the full terms eg RTS, ROW.		
Decision Reasons:	<ul style="list-style-type: none"> Increased ease of reading the chapter. 		
Point Number	697.515		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy		
Summary of Decision Requested	Amend Chapter 14: Infrastructure and Energy to ensure numbering is logical and clear.		
Decision Reasons:	<ul style="list-style-type: none"> Inconsistent approach to numbering makes referencing rules difficult. 		
Point Number	697.516		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy		
Summary of Decision Requested	Amend Chapter 14: Infrastructure and Energy by amending the numbering so it is sequential.		
Decision Reasons:	<ul style="list-style-type: none"> Numerical order of numbers. 		
Point Number	697.517		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy		
Summary of Decision Requested	Amend Chapter 14: Infrastructure and Energy so the structure of the chapter is consistent with other chapters.		
Decision Reasons:	<ul style="list-style-type: none"> Inconsistent structure and layout with other chapters. 		
Point Number	697.518		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy		
Summary of Decision Requested	Amend in Chapter 14: Infrastructure and Energy, the term "Heavy Industrial Zone" to be "Industrial Zone Heavy".		
Decision Reasons:	<ul style="list-style-type: none"> Consistency of zone names. 		

Point Number	697.519
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy
Summary of Decision Requested	Amend Chapter 14: Infrastructure and Energy the term "Te Kowhai Airpark" to be "Te Kowhai Airpark <u>Zone</u> " in the following rules: Permitted Activity Rules <ul style="list-style-type: none"> • Rule 14.4.1.2 • Rule 14.10.1.7 • Rule 14.12.1.7 Restricted Discretionary Activity Rule <ul style="list-style-type: none"> • Rule 14.12.2 RD7
Decision Reasons:	<ul style="list-style-type: none"> • Consistency of zone names.
Point Number	697.526
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy
Summary of Decision Requested	Reconsider the numbering structure in Chapter 14 Infrastructure and Energy.
Decision Reasons:	<ul style="list-style-type: none"> • It is difficult to quote a rule given the numbering structure.

Submitter Number:	827	Submitter:	New Zealand Steel Holdings Ltd
Point Number	827.21		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy		
Summary of Decision Requested	Amend Chapter 14: Infrastructure and Energy by moving the permitted activity contained in General Infrastructure (Rule 14.3.1 PI The operation, maintenance, repair and removal of existing infrastructure) to Rule 14.2 applying to all infrastructure. AND Any other further or consequential amendments required.		
Decision Reasons:	<ul style="list-style-type: none"> • Considers that the rules in section 14 are generally appropriate, however amendments are required to provide certainty for existing infrastructure, particularly infrastructure that is subject to identified areas. • The provisions for maintenance, repair, replacement, upgrading or removal of existing infrastructure are duplicated and should be streamlined for clarity. 		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.13		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy		
Summary of Decision Requested	Retain Chapter 14.2 rules relating to all infrastructure as notified, except where rules are specifically addressed elsewhere in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • In general, the submitter supports Chapter 14.2 as drafted apart from the sections specifically addressed. 		
Point Number	836.23		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy		
Summary of Decision Requested	No specific decision sought, but submission states it is unclear if Rule 14.5.1 supersedes Rule 14.2.1 for new infrastructure and Rule 14.5.3 which makes new infrastructure in identified areas non-complying.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		
Point Number	836.32		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy		
Summary of Decision Requested	Retain Chapter 14 Infrastructure and Energy as a separate section within the Proposed Waikato District Plan. AND Retain Chapter 6 Infrastructure as an Infrastructure chapter covering objectives and policies for utilities on a district-wide basis.		
Decision Reasons:	<ul style="list-style-type: none"> • Containing these in a separate chapter will assist with plan administration and allow for the determination of an activity status to be much easier. 		
Point Number	836.66		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy		
Summary of Decision Requested	Add a new introduction to Chapter 14: Infrastructure and Energy as follows: <u>Introduction</u>		

The provisions within this chapter of the district plan apply across the district in all zones. The underlying zone objectives and policies do not apply to infrastructure activities unless specifically referred to within this chapter.

Decision Reasons:

- Considering utilities on a district-wide basis and containing all rules in a separate section will assist with plan administration.
- Enable both network utility operators and the community to be able to easily determine the status of an activity.

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.1 Introduction

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.147		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.1 Introduction		
Summary of Decision Requested	Amend Chapter 14 Infrastructure and Energy to make the activities subject to the relevant zone rules as they apply to Heritage Precincts, Heritage Items, Maori sites of significance.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter is concerned with the statement at (i). • While provision has been made within this Infrastructure and Energy Chapter for the assessment of activities on Identified features, as outline in section (3) of the introduction, that includes: <ul style="list-style-type: none"> h. Heritage Precincts, i. Heritage Items j. Maori sites of significance k. Maori areas of significance • This level of assessment is not as robust as the assessments that would take place as if the actual rules related to Heritage Precincts, Heritage Items, Maori sites of significance and Maori areas of significance. • Such assessment would provide greater protection as required under s6 of the Resource Management Act. 		
Point Number	559.148		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.1 Introduction		
Summary of Decision Requested	Add the following advice note to Chapter 14.1 Introduction: <u>The New Zealand Archaeological Association</u> <u>Archaeological sites are included on the planning maps for District Plan information purposes only. However these sites are subject to the requirements of the Heritage New Zealand Pouhere Taonga Act 2014. Heritage New Zealand Pouhere Taonga must be contacted regarding development on or in proximity to these sites and the need to undertake an archaeological authority.</u> <u>The Heritage New Zealand Pouhere Taonga Act 2014 protects both recorded and unrecorded archaeological sites.</u>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter considers that as many of the proposed activities in this chapter will include earthworks, some of which are potentially substantial in terms of depth and area, that an advice note relating to the obligations and requirements of the Heritage New Zealand Pouhere Taonga Act 2014 should be included within the introduction section of the chapter. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.23		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.1 Introduction		
Summary of Decision Requested	Retain Section 14.1 (1) Introduction as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the introductory statement within Section 14.1 that clarifies the relationship between Chapter 14, and other plan provisions. The statement provides clarity to plan users and will assist in plan interpretation and application. 		
Point Number	576.24		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.1 Introduction		
Summary of Decision Requested	Retain Section 14.1 (6) Introduction, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Paragraph 6 of Section 14.1 outlines the relationship between the Proposed District Plan and the NESETA. The clarification is supported and will assist plan users in plan interpretation and application. In particular, the reference to the NESETA provisions 'shall prevail', is supported. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.274		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.1 Introduction		
Summary of Decision Requested	Add to Section 14.1 Introduction a new paragraph as follows: <u>Rural land uses, such as farming, do not present the same threats to the efficient functioning of infrastructure networks that urban patterns of development present. Rural land use is characterised by low density development and low population density, with wide open spaces and relative sparsity of built form. Many aspects of farming activity, such as pasture maintenance, animal grazing, land cultivation, pest and weed control, maintenance of farm access and farm infrastructure such as fences, stock bridges and culverts, water pipelines, troughs and stock drinking water storage tanks are not sensitive to network utility and energy infrastructure operation. Where such land use is not incompatible with infrastructure networks, then it presents an efficient use of resources to enable their coexistence in order to maximise benefits and minimise costs. Such activity should be provided</u>		

for in order to ensure efficient allocation of resources in a way that ensures farmers and rural communities can provide for their social, cultural and economic well-being, without adversely impacting on the functioning of infrastructure networks.

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter conditionally supports this introductory statement, provided it is amended to take rural land use into consideration when analysing resource management issues for infrastructure services and networks. The compatibility of many aspects of rural land use, particularly as these relate to farming, should be recognised in the introductory statement.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.520		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.1 Introduction		
Summary of Decision Requested	Amend Rule 14.1(3) Introduction as follows: <i>(3) The Identified areas within the activity tables below this chapter covers the following areas and items identified within this plan: ...</i>		
Decision Reasons:	<ul style="list-style-type: none">• Refers to activity tables but there are no longer activity tables.		
Point Number	697.521		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.1 Introduction		
Summary of Decision Requested	Amend Rule 14.1(4) Introduction as follows: <i>(4) In the activity tables-rules within this chapter, the letters below mean the following: ...</i>		
Decision Reasons:	<ul style="list-style-type: none">• Refers to activity tables but there are no longer activity tables.		
Point Number	697.522		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.1 Introduction		
Summary of Decision Requested	Amend from 14.1 Introduction by relocating Rules 14.1.5, 14.1.6, 14.1.7 under the heading 14.2 Rules applying to all infrastructure as follows: <i>14.2 Rules applying to all Infrastructure (1) Where relevant, the requirements of the National Code of Practice for Utility Operators' Access to Transport Corridors will apply to the placement, maintenance, improvement and removal of utility structures in roads (or unformed roads). (2) The requirements of the Resource Management (National Environmental Standards for Electricity Transmission Activities) Regulations 2009 ("NESETA") apply directly to the operation, maintenance, upgrading, relocation or removal of transmission line(s) that were operating or able to be operated on or before 14 January 2010 and remain part of the National Grid. In the case of conflict with any other provision of this plan, including any provision in the activity rules in this section, the NESETA provisions shall prevail. (3) The Resource Management (National Environmental Standards for Telecommunication Facilities) Regulations 2016 ("NESTF") provides national consistency in the rules surrounding the deployment of telecommunications infrastructure across New Zealand. This means that many telecommunications facilities may potentially be deployed as a permitted activity. However, telecommunications facilities which do not comply with the conditions within the NESTF, or are not covered by the regulations of the NESTF, will have the activity status specified in this plan. In the case of conflict with any other provision of this plan, the NESTF provisions shall prevail.</i>		
Decision Reasons:	<ul style="list-style-type: none">• These are rules, but have no legal effect when they are included in the Introductory section.• In order to have legal effect as rules, they need to be moved under the heading 14.2 Rules Applying to all Infrastructure		
Point Number	697.523		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.1 Introduction		
Summary of Decision Requested	Amend Rule 14.1(6) Introduction as follows: <i>In the case of conflict with any other provision of this plan, including any provision in the activity table-rules in this section, the NESETA provisions shall prevail.</i>		
Decision Reasons:	<ul style="list-style-type: none">• Refers to activity tables but there are no longer activity tables.		
Point Number	697.524		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.1 Introduction		
Summary of Decision Requested	Add to Rule 14.1(7) Introduction as follows: <i><u>In the case of conflict with any other provision of this plan, the NESTF provisions shall prevail.</u></i>		
Decision Reasons:	<ul style="list-style-type: none">• Clarification that the Proposed District Plan does not override the National Environmental Standards for Telecommunications Facilities.		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.14		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.1 Introduction		
Summary of Decision Requested	Retain section 14.1(1) Introduction as notified.		
Decision Reasons:	<ul style="list-style-type: none">• Considering utilities on a district-wide basis and within a separate section will assist in the administration of the Proposed District Plan and enable both network utility operators and community to determine an activity status.• The submitter supports the clear statement in the first sentence of section 14.1 (1).		

Submitter Number:	945	Submitter:	First Gas Limited
Point Number	945.47		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.1 Introduction		
Summary of Decision Requested	Retain section 14.1(1) - Introduction.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the inclusion of 14.1(1) and the approach that the Infrastructure and Energy chapter shall apply across the district in all zones and overlays in the district plan and that the zone chapters and their associated overlays, objectives, policies and rules do not apply to infrastructure and energy activities unless specifically referred to within this Infrastructure and Energy Chapter. 		

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.525		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure		
Summary of Decision Requested	Add to Rule 14.2 Rules applying to infrastructure as follows: <i>(4) Where compliance with Rule 14.2 or 14.3 would contravene a rule in Rule 14.4, 14.5, 14.6, 14.7, 14.8, 14.9, 14.10, 14.11, or 14.12, then the requirements of Rule 14.4, 14.5, 14.6, 14.7, 14.8, 14.9, 14.10, 14.11, or 14.12 shall prevail.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Would benefit from a rule which provides clarity over which rule prevails where there is a general rule and a specific rule which could cover the same structure or activity. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.86		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure		
Summary of Decision Requested	Retain Rule 14.2.3 DI Rules applying to all infrastructure, except for the amendments sought below AND Amend Rule 14.2.3 DI Discretionary activities applying to all infrastructure as follows: <i>Any infrastructure not specifically listed provided for as a permitted restricted discretionary or non-complying activity, within Chapter 14 ...</i> AND Delete Rule 14.2.3 NC3 Rules applying to all infrastructure. AND Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> These rules refers to "any infrastructure not specifically listed within Chapter 14", but it is unclear what this covers. For example, 14.2.1.1 mentions "roads" - does this mean they are excluded from this rule? What does "specifically listed" mean in this rule? 		

Submitter Number:	924	Submitter:	Alice Barnett
Organisation:	Genesis Energy Limited		
Point Number	924.25		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure		
Summary of Decision Requested	Retain rules in Section 14.2- Rules applying to all Infrastructure in the same or similar form.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter is generally supportive of the proposed rule framework in section 14.2 of the Proposed District Plan. 		

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.17		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities		
Summary of Decision Requested	Amend Rule 14.2.1.1 (1) (b) Permitted Activities relating to PI New infrastructure, to allow for new poles and support structures in other zones or roads adjacent to a zone other than Rural.		

Decision Reasons:	<ul style="list-style-type: none"> These height restrictions do not allow for new poles and support structures in any zone (or roads adjacent to a zone) other than Rural.
Point Number	405.18
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities
Summary of Decision Requested	Delete Rule 14.2.1.1 (1) (c) and (d) Permitted Activities relating to P1 New infrastructure.
Decision Reasons:	<ul style="list-style-type: none"> It does not make sense to have a rule that requires compliance with height in relation to boundary when the height limit is 2.5m. Will cause confusion in interpretation.
Point Number	405.19
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities
Summary of Decision Requested	Amend Rule 14.2.1.1 (2) (a) Permitted Activities relating to P1 New infrastructure, by including the following: <u>except where the actual or % increase in height or area for minor upgrading would be less than allowed for in 14.2.1.1(1)(a-b), in which case 14.2.1.1(1)(a) & (b) would apply.</u>
Decision Reasons:	<ul style="list-style-type: none"> The proposed percentage increase in area (and height) of above ground infrastructure under minor upgrading may be less than the limits proposed for new infrastructure of the same type; in which case it would make sense for the greater of the two measurements to apply.
Point Number	405.20
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities
Summary of Decision Requested	Amend Rule 14.2.1.2 Permitted Activities relating to P2 Construction Noise, based on clarifying where the noise limits are measured. AND Amend Rule 14.2.1.2 Permitted Activities relating to P2 Construction Noise, to clarify which noise standards would apply when a transformer is in the road.
Decision Reasons:	<ul style="list-style-type: none"> The proposed percentage increase in areas and height of above ground infrastructure under minor upgrading may be less than the limits proposed for new infrastructure of the same type; in which case it would make sense for the greater of the two measurements to apply.
Point Number	405.21
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities
Summary of Decision Requested	Retain Rule 14.2.1.3 Permitted Activities relating to P3 Any activity emitting electric and magnetic fields, as notified.
Decision Reasons:	<ul style="list-style-type: none"> Counties Power supports the management of electric and magnetic fields via the International Commission on Non-ionising Radiation Protection Guidelines.

Submitter Number:	423	Submitter:	Lindsay Wilson
Organisation:	Watercare Services Limited		
Point Number	423.8		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities		
Summary of Decision Requested	Amend Activity specific condition 14.2.1.1(1)(a) Permitted Activities relating to P1 new infrastructure as follows: Not exceed 40m² <u>40m²</u> in area above ground; AND Any consequential amendments or further relief to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Does not appropriately enable provision of infrastructure or recognise the technical or operational needs of infrastructure. Most Watercare pump stations (at least the area above ground) are likely to exceed 20m² in above ground area and will consistently be up to 40m². 		
Point Number	423.9		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities		
Summary of Decision Requested	Amend Activity specific condition 14.2.1.1(1)(b) Permitted Activities relating to P1 new infrastructure as follows: Not exceed 2.5m <u>3m</u> in height. AND Any consequential amendments or further relief to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Does not appropriately enable the provision of infrastructure or recognise the technical or operational needs of infrastructure. Most Watercare pump stations are likely to be up to 3m in height. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.114		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities		
Summary of Decision Requested	Retain Rule 14.2.1 Permitted Activities, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Considers that it appropriately enables the provision of new infrastructure to service development. 		

Submitter Number:	579	Submitter:	Simon Ash
Organisation:	Lakeside Developments 2017 Limited		
Point Number	579.60		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities		
Summary of Decision Requested	<p>Amend activity specific conditions in Rule 14.2.1.1 (1) (a) relating to P1 New Infrastructure as follows:</p> <p>(a) <u>Not exceed 10m2 in area above-ground for any one structure</u></p> <p>AND</p> <p>Amend the Proposed District Plan to make any amendments or consequential changes that are necessary to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The restriction on the size of above-ground infrastructure should apply individual structures. In developments it is possible there could be multiple structures such as pump stations. 		

Submitter Number:	644	Submitter:	Spark New Zealand Trading Limited
Point Number	644.32		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 14.2.1.1 New Infrastructure- Activity Specific Conditions relating to P1 New Infrastructure by providing an exemption for service connections including any associated support poles from all heights in relation to boundary controls.</p> <p>AND</p> <p>Any consequential amendments necessary as a result of the amendments to grant the relief sought.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Support poles associated with service connections should be exempt from any height in relation to boundary controls either within a road or outside of a road (e.g. along a right of way) on the basis that they have very minor bulk compared with more substantial buildings and structures.

Decision Reasons:	<ul style="list-style-type: none"> Support poles associated with service connections should be exempt from any height in relation to boundary controls either where within a road or outside of a road on the basis that have very minor bulk compared with more substantial buildings and structures. 		

Submitter Number:	648	Submitter:	Chorus New Zealand Limited
Point Number	648.32		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 14.2.1.1 New Infrastructure relating to P1 New infrastructure- Activity Specific conditions by providing an exemption for service connections including any associated support poles from all heights in relation to boundary controls.</p> <p>AND</p> <p>Any consequential amendments necessary as a result of the amendments to grant the relief sought.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Support poles associated with service connections should be exempt from any height in relation to boundary controls either where within a road or outside of a road (e.g. along a right of way) on the basis that they have very minor bulk compared with more substantial buildings and structures. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.275		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 14.2.1.1 P1 New infrastructure (relating to Rule 14.2.1 P1 New Infrastructure) as follows:</p> <p>(1) Any new infrastructure activity and associated structures listed as a permitted activity within Chapter 14 must meet all of the following conditions <u>except within the Rural Zone</u>:</p> <p>(a) ...</p> <p>(2) The conditions in Rule 14.2.1.1(1) do not apply to:</p> <p>(a) ...</p> <p><u>(e) Any infrastructure within the Rural Zone</u></p>		

And

Any consequential amendments needed to give effect to this relief.

Decision Reasons:

- The submitter conditionally supports Rule 14.2.1, provided that it is amended to reflect their relief sought in respect of the introductory statement in 14.1
- It is not appropriate to limit infrastructure activity and structures within the Rural Zone with the same scale of restriction that applies to urban areas. Rural areas encompass wide open spaces with relatively low development and population density and sparse built form, which can easily absorb visual and amenity impacts of above ground infrastructure and associated structures which have larger bulk and height characteristics than in urban areas.
- The cost of undergrounding infrastructure in rural areas makes the imposition of underground facilities hugely prohibitive and is an inefficient allocation of resources.
- To apply the same restrictions in rural areas would trigger unnecessary cost and delay burdens to obtain resource consent, for little or no environmental benefit. This would place an onerous burden on farmers who need to install, maintain, repair, replace or upgrade infrastructure used on farms.
- Provision should be made for appropriate infrastructure requirements within the Rural Zone that reflect these opportunities and constraints, and that infrastructure within the Rural Zone be exempt from compliance with stricter requirements that apply to urban areas, because such restrictions are inappropriate within rural areas.

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.3		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities		
Summary of Decision Requested	Retain Rule 14.2.1 P1 Permitted Activities relating to new infrastructure.		
Decision Reasons:	<ul style="list-style-type: none">• P1 would ensure that network utility equipment such as pillar boxes, service pillars and ring main units (which are small but essential and a common part of WEL's electricity) network are permitted.		
Point Number	692.4		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities		
Summary of Decision Requested	Add a new activity to Rule 14.2.1 Permitted Activities, that applies to the design and location of infrastructure services, as follows (or other amendments to give effect to the concerns raised): <u>P5 Design and location of infrastructure services</u> <u>14.2.1.5 Within all Zones new subdivision and development shall provide utilities corridors in the road reserve free of tree plantings and in accordance with Tables 14.12.5.14 and 14.12.5.15.</u> AND Add a new activity to Rule 14.2.3 Discretionary Activities, that applies where the activity cannot comply with the new P5 as follows (or other amendments to give effect to the concerns raised): <u>D2 Design and location of infrastructure services</u> <u>Any infrastructure development that cannot comply with 14.2.1.5.</u>		
Decision Reasons:	<ul style="list-style-type: none">• Allowing adequate berm space is necessary to ensure sufficient space is available for WEL to install its network utility equipment. Ensuring adequate berm space will ensure greater urban planning and provide sufficient areas for footpaths and landscaping along the road exclusive of each other, which will enhance the amenity of any subdivision or development.		
Point Number	692.63		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities		
Summary of Decision Requested	Retain Rule 14.2.1 P2 Permitted Activities, relating to construction noise.		
Decision Reasons:	<ul style="list-style-type: none">• P2 would ensure that works comply with NZS 6803:1999 Acoustics – Construction noise, which WEL acknowledges is a recognised standard for construction noise.		
Point Number	692.64		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities		
Summary of Decision Requested	Retain Rule 14.2.1 P3 Permitted Activities, relating to any activity emitting electric and magnetic fields.		
Decision Reasons:	<ul style="list-style-type: none">• P3 would ensure that any activity emitting electric magnetic fields would comply with International Commission on Non-ionising Radiation Protection Guidelines which WEL acknowledges is a recognised standard for electric and magnetic fields.		
Point Number	692.65		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities		
Summary of Decision Requested	Retain Rule 14.2.1 P4 Permitted Activities, relating to any activity emitting radio frequency fields.		
Decision Reasons:	<ul style="list-style-type: none">• P4 would ensure that any activity emitting radio frequency fields would comply with New Zealand Standard for Radiofrequency Fields Part 1: Maximum Exposure Levels 3 kHz to 300GHz (NZS 2772.1:1999) which WEL acknowledges is a recognised standard for radio frequency fields.		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.527		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities		
Summary of Decision Requested	Delete Rule 14.2.1(1)(a) New infrastructure AND Delete Rule 14.2.1 (1)(b) New infrastructure		

AND

Amend Rule 14.2.1.1(2)(a) New infrastructure as follows:

(a) Activities with specific conditions relating to ~~area, height, location and noise~~ listed elsewhere within Rules 14.3–14.12;

Decision Reasons:

- A more efficient approach is to insert maximum height and area for those structures that require it rather than a blanket height and area which applies to all structures unless otherwise stated. There are many structures specifically listed in Chapter 14 have their own permitted dimensions.

Submitter Number: 742 **Submitter:** Kim Harris-Cottle
Organisation: New Zealand Transport Agency

Point Number 742.85
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities

Summary of Decision Requested **Retain** Rule 14.2.1.1(2)(b) New infrastructure as notified.
AND

Retain Rule 14.2.1.1(2)(c) New infrastructure as notified.

Decision Reasons:

- The submitter supports conditions 14.2.1.1(2)(b)-(c) which state that the conditions in 14.2.1.1(1) do not apply to roads or other lineal transport networks, or road network activities.

Submitter Number: 749 **Submitter:** Housing New Zealand Corporation

Point Number 749.68
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities

Summary of Decision Requested **Retain** Rule 14.2.1 Permitted Activities as notified.

Decision Reasons:

- The submitter supports the activities listed under 14.2.1.

Submitter Number: 836 **Submitter:** Simon Roche
On behalf of: Powerco

Point Number 836.12
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities

Summary of Decision Requested **Retain** Rule 14.2.1.1 - Permitted Activities which allows for new infrastructure as a permitted activity not exceeding 10m² in area above ground and 2.5m in height as a permitted activity.

AND

Amend Rule 14.2.1.1 (2) Permitted Activities relating to PI New Infrastructure as follows (or alternative wording or planning approach to address the issues raised) as follows:

(2) The conditions in Rule 14.2.1.1(1) do not apply to:

...

(e) *Support structures for the distribution of electricity.*

Decision Reasons:

- This rule allows for new infrastructure as a permitted activity, not exceeding 10m² in area above-ground and 2.5m in height is supported.
- The Proposed District Plan includes support structures in the definition of 'infrastructure'.
- Under Rule 14.12.1.1(1)(b)(c) and (d) all new infrastructure is required to comply with height to boundary within various zones and be under 2.5m in height.
- This is not practical, due to the locational requirements of support structures and their minimum required height to achieve safe separation between conductors, the public, traffic and buildings.

Point Number 836.74
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities

Summary of Decision Requested **Retain** Activity Table 14.2.1 relating to all infrastructure as notified except where rules are specifically addressed elsewhere in the submission.

Decision Reasons:

- No reasons provided.

Submitter Number: 923 **Submitter:** Waikato District Health Board

Point Number 923.142
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities

Summary of Decision Requested **Amend** Rule 14.2.1.1 (1. (e)- Permitted Activities: New Infrastructure as follows:

Not exceed the relevant noise limits that are applicable to that zone, ~~when measured at the nearest boundary of the site.~~

Decision Reasons:

- The Rule refers to zone noise limits, which is appropriate. However, the rule then refers to application of noise limits at the "...boundary of the site," which is inconsistent with some zone noise limits that are specified at notional boundaries.
- As drafted the rule contradicts itself. As each zone noise limit explicitly specifies a receiver point it should not be referenced here.
- As noted in other submissions, regardless, all assessment locations should be "at any point within" rather than "at" site or notional boundaries.

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.70		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities		
Summary of Decision Requested	Add a new clause to Activity specific condition 14.12.1.1(1) as follows: <i>(g) Not be sited on Maori sites of significance</i>		
Decision Reasons:	<ul style="list-style-type: none"> Over the last 150 years Maori cultural landscapes and sites of significance have been sacrificed for growth and development. A few years ago Contact Energy sought a consent which covered numerous Maaori areas of significance from south of Port Waikato to north of Raglan. With the enactment of the Resource Management Act 1991 attention to the effects of land use on people are more closely scrutinised. Today with tourism growing there is an opportunity to enhance Maaori sites of significance as well as have infrastructure that meets the needs of communities. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.77		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.1 Permitted Activities		
Summary of Decision Requested	Retain Rule 14.2.1 P1 Permitted activities as notified. AND Retain Rule 14.2.1 P2 Permitted activities as notified.		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail supports P1 as this provides for the maintenance of the railway network. KiwiRail supports P2 as it enables the maintenance upgrading and operation of land transport networks across a range of routine activities within reasonable parameters. 		

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.2 Restricted Discretionary Activities

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.59		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.2 Restricted Discretionary Activities		
Summary of Decision Requested	Add a new matter of discretion to Rule 14.12.2 RD2 Restricted discretionary activities as follows: <i>(f) the foreseeable needs for access by emergency services and their vehicles.</i>		
Decision Reasons:	<ul style="list-style-type: none"> To ensure that there is an obligation to consider access, this is critical for the access of emergency services and other service vehicles. This of specific concern and has been problematic in some new developments under the authority of Auckland Council. The minimum width required for a Fire and Emergency Service general appliance is 4 metres. The minimum requirement for an aerial appliance is 6 metres. 		

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.22		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.2 Restricted Discretionary Activities		
Summary of Decision Requested	No specific decision sought, but submission states Rule 14.2.2 RD1 (a) Restricted Discretionary Activities enables new infrastructure/technology.		
Decision Reasons:	<ul style="list-style-type: none"> The objectives and policies list new technological advancements as an important part of infrastructure. 		
Point Number	405.90		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.2 Restricted Discretionary Activities		
Summary of Decision Requested	Amend Rule 14.2.2 RD2(a) Restricted Discretionary Activities based on clarifying where the noise limits are measured.		
Decision Reasons:	<ul style="list-style-type: none"> Where a transformer is in the road, it needs to be clarified as to which noise standard would apply. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
--------------------------	-----	-------------------	---------------------------

Point Number	578.115
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.2 Restricted Discretionary Activities
Summary of Decision Requested	Retain Rule 14.2.2 Restricted Discretionary Activities as notified.
Decision Reasons:	<ul style="list-style-type: none"> • Supports the restricted discretionary activity status for new infrastructure that does not comply with the standards of rule 14.2.1 • Considers the matters of discretion to be appropriate.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.276		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.2 Restricted Discretionary Activities		
Summary of Decision Requested	Amend Rule 14.2.2 (RD1) Restricted Discretionary Activities as follows: <i>Discretion is restricted to:</i> <i>(a) The functional and operational needs of, and benefits derived from, the infrastructure</i> <i>(b) Visual, landscape, streetscape and amenity effects <u>except within the Rural Zone</u>:</i> <i>(c) Noise levels</i> AND Any consequential amendments needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter conditionally supports Rule 14.2.2, provided that whatever permitted activity conditions may be imposed on infrastructure in rural areas do not inappropriately trigger resource consent for <i>Discretionary Activity</i> or <i>Non-Complying Activity</i>, as there would be little or no environmental benefit in doing so. • Visual, landscape, streetscape and amenity effects that may be of concern in relation to infrastructure within urban areas, are not appropriate as a basis for consideration within rural areas, and that infrastructure within the Rural Zone should be exempt from any such assessment requirement where <i>Restricted Discretionary Activity</i> status is triggered. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.69		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.2 Restricted Discretionary Activities		
Summary of Decision Requested	Retain Rule 14.2.2 Restricted Discretionary Activities as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the activities listed under 14.2.2, in particular to RD1 and matters of discretion. 		

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.3 Discretionary Activities

Organisation:	Trading as Aztech Buildings		
Point Number	281.10		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.3 Discretionary Activities		
Summary of Decision Requested	Amend Rule 14.2.3 Discretionary Activities to exclude farm irrigation/drains. (This relates to the changes sought to the definition of "Infrastructure" to exclude farm irrigation/drains elsewhere in the submission).		
Decision Reasons:	<ul style="list-style-type: none"> • Infrastructure includes drainage - Discretionary or Non Complying Activities status may apply for earthworks associated with farm drainage. This is in conflict with the Rural Objectives and Policies relating to Earthworks. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.32		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.3 Discretionary Activities		
Summary of Decision Requested	Retain Rule 14.2.3 Discretionary Activities, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Supports a discretionary activity status for 'activities not otherwise provided for' and consider such an approach to be consistent with section 87B of the RMA. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.277		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.3 Discretionary Activities		
Summary of Decision Requested	Amend Rule 14.2.3 DI Discretionary Activities, as follows:		

DI Any infrastructure not specifically listed within Chapter 14, including associated earthworks, not located within an Identified Area except within the Rural Zone.

AND

Any consequential amendments needed to give effect to this relief.

Decision Reasons:

- Identified Areas within the Infrastructure and Energy chapter covers the following areas and items identified within the proposed plan:

Urban Expansion Area
Significant Natural Area
Landscape and Natural Character Areas
Outstanding Natural Feature
Outstanding Natural Landscape
Significant Amenity Landscape
Outstanding Natural Character
High Natural Character
Heritage Item
Heritage Precinct
Maori Site of Significance
Maori Area of Significance
Notable Tree

Such Identified Areas affect many farms and result in a cost and delay burden for unnecessary resource consent applications for little or no environmental benefit where infrastructure has to be supplied to develop use or subdivision land in the Rural Zone.

- It is not appropriate to require infrastructure within any Identified Area that is within the Rural Zone to have to seek resource consent for a Discretionary Activity where district plan activity-specific conditions for permitted activities are not complied with.
- This is hugely inefficient and presents a highly onerous and inappropriate burden on farmers who need to install, maintain, repair, replace or upgrade infrastructure, including associated earthworks, where these are within an Identified Area, in order to develop, use or subdivide farms.
- Farm activity should be a Permitted Activity with appropriate activity-specific conditions, and subdivision in the Rural Zone should be a controlled activity with appropriate activity-specific conditions and matters of control, with a Restricted Discretionary Activity pathway for situations where permitted activity or controlled activity conditions are not met.

Decision Reasons:

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.15		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.3 Discretionary Activities		
Summary of Decision Requested	Amend Rule 14.2.3 DI Discretionary Activities so that Infrastructure in identified areas is a Discretionary activity rather than non complying: <i>Any infrastructure not specifically listed within Chapter 14, including associated earthworks, not locate and those within an Identified Area.</i> AND Delete Rule 14.2.3 NC3 Non complying activities.		
Decision Reasons:	<ul style="list-style-type: none">The submitter considers that new infrastructure in "identified areas" should be a discretionary activity rather than a non-complying activity.		

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.3 Non-Complying Activities

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.149		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.3 Non-Complying Activities		
Summary of Decision Requested	Retain Rule 14.2.3 NC3 Non-Complying Activities.		
Decision Reasons:	<ul style="list-style-type: none">The submitter supports Rule 14.2.3 NC3 as this catch all rule will ensure that the Identified Areas are protected from the adverse effects of energy and infrastructure activities.		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.278		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.3 Non-Complying Activities		
Summary of Decision Requested	Amend Rule 14.2.3 NC3 Non Complying Activities, as follows: <i>NC3 Any infrastructure not specifically listed within Chapter 14, including associated earthworks, located within an Identified Area, <u>except within the Rural Zone.</u></i> AND Any consequential amendments needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none">It is not appropriate to require infrastructure within the Rural Zone, or within any Identified Area that is within the Rural Zone, to have to seek resource consent for a Non-Complying Activity where district plan activity-specific conditions for permitted activities are not complied with. A restricted discretionary activity status would be more appropriate in such situations.The Rural Zone should be exempt from the requirement to seek resource consent for a Non-Complying Activity for any infrastructure not specifically listed within Chapter 14, including associated earthworks, located within an Identified Area within the Rural Zone. To do otherwise would trigger unnecessary cost and delay burden to obtain resource consent, for little or no environmental benefit. This would place an onerous burden on farmers who need to install, maintain, repair, replace or upgrade infrastructure used on farms, including undertaking any associated earthworks, that is not listed in Chapter 14.		
Point Number	680.279		

Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.3 Non-Complying Activities
Summary of Decision Requested	Amend Rule 14.2.3 Non-Complying Activities by renumbering to Rule 14.2.4.
Decision Reasons:	<ul style="list-style-type: none"> To avoid confusion with Rule 14.2.3 Discretionary Activities.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.528		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.3 Non-Complying Activities		
Summary of Decision Requested	Amend Rule 14.2.3 Non-Complying Activity as follows: 14.2.3 <u>14.2.4</u> Non-Complying Activities		
Decision Reasons:	<ul style="list-style-type: none"> Rule 14.2.3 is duplicated in the numbering. 		

Submitter Number:	836	Submitter:	Simon Roche
On behalf of:	Powerco		
Point Number	836.16		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.2 Rules applying to all infrastructure > 14.2.3 Non-Complying Activities		
Summary of Decision Requested	Amend Rule 14.2.3 Non-Complying Activities as follows: 14.2.3 <u>14.2.4</u> Non-Complying Activities AND Delete 14.2.3 NCI Non-Complying Activities.		
Decision Reasons:	<ul style="list-style-type: none"> Correct the numbering of the rules. Rule 14.2.3NCI is considered to be too onerous and requires providers to prove they comply with electric and magnetic field emissions standards. This would require proving compliance each time work is undertaken. The electric magnetic field produced by Powerco's infrastructure are well below that of the levels allowed by the International Commission on Non-ionising Radiation Protection Guidelines. Given the low levels, it is suggested that this rule is deleted. Issue of electromagnetic field emissions is adequately managed through performance standard 14.2.1.3(1) 		

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure

Submitter Number:	924	Submitter:	Alice Barnett
Organisation:	Genesis Energy Limited		
Point Number	924.26		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure		
Summary of Decision Requested	Retain rules in Section 14.3- General Infrastructure in the same or similar form.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter is generally supportive of the proposed rule framework in section 14.3 of the Proposed District Plan. 		

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.15		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities		
Summary of Decision Requested	Retain the standards for subdivision in Section 14.3 General infrastructure, particularly Rule 14.3.1.8 relating to service connections for subdivision. AND Amend Rule 14.3.1.8 relating to P12 Permitted Activities as follows: <u>14.3.1.8 (3) Within all zones, except the Rural and Country Living Zones, the water supply required under Rule 14.3.1.8 (1)(b) must be adequate for firefighting purposes in accordance with New Zealand Fire Service Firefighting Water Supplies Code of Practice SNZ PAS 4509:2008. Compliance with this Code of Practice can typically be achieved through connection to a Council reticulated water supply.</u> <u>14.3.1.8(4) Within the Rural and Country Living Zones, provision shall be made for an adequate supply of water and access to water supplies for firefighting purposes in accordance with New Zealand Fire Service Firefighting Water Services Code of Practice SNZ PAS 4509:2008.</u> AND Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand generally supports 14.3.1.8 as it requires all new lots created as part of a subdivision must be designed and located so that provision is made for access and service connections up to the boundary of the lot, including water supply and vehicle access. Amendments will require provision for water supply in the Rural and Country Living Zones that are adequate for firefighting purposes. Is consistent with the priority given to firefighting water supply in section 14(3) of the RMA. 		

- Better enables FENZ to achieve its statutory obligations under the FSA.
- Better gives effect to the RPS.
- Achieves the purpose of the RMA by enabling people and communities to provide for their health, safety and well-being by managing a potential adverse effect of relatively low probability but high consequence.

Submitter Number:	397	Submitter:	Horotiu Properties Limited
Point Number	397.4		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 14.3.1.8 relating to P12 Service connections for subdivision, as follows:</p> <p>(2) <u>Rule 14.3.1.8 (1)(a) does not apply to any allotment that is serviced by a site-contained wastewater system in accordance with Rule 14.1.1.3; and Rule 14.3.1.8(1)(b) does not apply where reticulated water supply is unavailable.</u></p> <p>(3) <u>Within all zones, except the Rural, Village and Country Living Zones, the water supply required under Rule 14.3.1.8(1)(b) must be adequate for fire fighting purposes.</u></p> <p>AND</p> <p>Amend the Proposed District Plan to make any consequential amendments necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • In some situations, water supply for an allotment will be from roof water harvesting or bore and will not be provided by a service connection at the boundary. • Like the Rural and Country Living Zones, water supply in the Village Zone may not be pressurised. 		

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.23		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities		
Summary of Decision Requested	<p>Add the following clauses to Rule 14.3.1 P1 The operation, maintenance, repair and removal of existing infrastructure:</p> <p><u>(1) The maintenance and repair of existing infrastructure that meet the following condition:</u></p> <p><u>(a) Does not increase the capacity, efficiency, or security of existing infrastructure.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Clarification between repair of existing and minor upgrade of existing to make it easier to read the plan. 		
Point Number	405.24		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 14.3.1.1 Permitted Activities relating to P2 Minor upgrading of existing infrastructure, as follows:</p> <p><u>(1) The realignment, configuration, relocation or replacement of infrastructure and associated structures that meet all of the following conditions:</u></p> <p><u>(a) Are within 510m of the existing alignment or location;</u></p> <p><u>(b) Do not increase the height of any existing pole or support structure by more than 4540% to a maximum height of 15m in all zones except the Rural Zone;</u></p> <p><u>(c) Do not increase the diameter (width) of any existing pole or support structure by more than 4550 or 100% increase in the case of a double pole in ALL zones;</u></p> <p><u>(d) Do not increase the diameter of any existing aboveground pipe by more than 4520%;</u></p> <p><u>(e) Do not increase the area of any existing aboveground structure by more than 4525% to a maximum of 10m² as per Rule 14.2.1.1 (1) (a)</u></p> <p><u>(f) Do not increase the height of cabinet or box-like structures to more than 2.5m as per Rule 14.2.1.1 (1)(b).</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Need to allow for up to 40% increase in pole height to a maximum of 15m in ALL zones except the Rural Zone where Rule 14.5.1.1 (a) (ii) & (iii) should apply as this will allow for the use of modern equipment. • The height restrictions apply to poles and should be a similar permitted percentage increase in height for the upgrade of pad/ground mounted equipment. • percentage increase in area should not apply to ground/pad mounted equipment. The area of autotransformer is for the footprint of the pad, not the autotransformer itself, which is smaller. 		
Point Number	405.25		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities		
Summary of Decision Requested	<p>Retain Rule 14.3.1.1 (2) (a-k) Permitted Activities relating to P2 Minor upgrading of existing infrastructure (particularly clauses (f) and (j)), except for the amendments outlined below.</p> <p>AND</p> <p>Amend Rule 14.3.1.1 (2)(f) Permitted Activities as follows:</p> <p><u>(f) The addition, replacement or relocation of transformers or visually similar fixtures:</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter particularly supports (f)-the addition and relocation of transformers and fittings on existing poles or support structures and (j)-increase in voltage to 110kV. • Amendment to 14.3.1.1 (2) (f) relates to comments made regarding what should be covered under the definition of Infrastructure and Minor Infrastructure structures. 		
Point Number	405.26		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 14.3.1.2 (1) (c) Permitted Activities relating to P3 Temporary infrastructure as follows:</p> <p><u>(c) The activity, including the requirements of Rule 14.3.1.2 (1) (a) and (b), must not exceed 2224 months in total.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Infrastructure as opposed to other land uses is generally in place for a much longer period of time and a temporary solution for infrastructure may be required for longer than anticipated. • In many cases temporary infrastructure is required before a long-term solution is put in place or projects such as road widening which may require a temporary diversion of an overhead line, can be delayed meaning that the infrastructure is in place for longer than anticipated. 		

Point Number 405.27

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Retain** Rule 14.3.1.3 (1) (a) and (b) Permitted Activities relating to P4 Earthworks activities associated with infrastructure, except for the amendments outlined below.
AND
Amend Rule 14.3.1.3 (g) Permitted Activities relating to P4 Earthworks activities associated with infrastructure as follows:
(g) Earthworks shall not obstruct or divert any stormwater overland flow path ~~or~~ in such a way as to result in changed stormwater drainage patterns on another site.
AND
Amend Rule 14.3.1.3 (1) (h) Permitted Activities relating to P4 Earthworks activities associated with infrastructure to confirm earthworks does not include drilling, therefore allowing trenchless construction within a Historic Heritage site.

Decision Reasons:

- The submitter supports this rule with the exception of (g) as they believe that where there is no other alternative it should be permitted to install equipment (at their own risk), within a stormwater overland flow path so long as it does not result in flooding or altered drainage patterns on any other sites.

Point Number 405.28

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Retain** Rule 14.3.1.4 (1) Permitted Activities relating to P5 Trimming, maintenance or removal of vegetation or trees associated with infrastructure as notified.

Decision Reasons:

- No reasons provided.

Point Number 405.29

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Amend** Rule 14.3.1.6 (1) (a) Permitted Activities relating to P7 Electric vehicle chargers, to increase the height of EV chargers to 2m (total height allowed not to include concrete pad).

Decision Reasons:

- Allows for a 0.2m concrete pad which is the average height of EV chargers.
- Counties Power have a number of EV chargers which are 2m in height, installed in carparks with dedicated parking bays.

Point Number 405.30

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Retain** Rule 14.3.1.8 Permitted Activities relating to P12 Service connections for subdivision as notified.

Decision Reasons:

- Submission notes that while provision is made for connection to the network, in private ROW and private subdivisions where there is no vested road, the submitter may not own the service cables or lines from the network connection point to the boundary of each lot.

Submitter Number: 419 **Submitter:** Lucy Deverall

Organisation: Horticulture New Zealand

Point Number 419.142

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Delete** the note in 14.3.1.4 relating to P5 Trimming or removal of vegetation or trees associated with infrastructure
AND
Add a new activity specific condition 14.3.1.4 in Rule 14.3.1 Permitted Activities, relating to P5 Trimming or removal of vegetation or trees associated with infrastructure, as follows:
(2) Trimming, maintenance or removal of vegetation or trees in and around electrical assets shall be managed in accordance with the Electricity (Hazards from Trees) Regulations 2003.
AND
Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- The submitter supports reference to the Electricity (Hazards from Trees) Regulations 2003, however the word "managed" needs to be added.
- The note has limited status in the Plan.

Point Number 419.81

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Amend** activity specific conditions 14.3.1.1 (2) in Rule 14.3.1 Permitted Activities, relating to P2 Minor upgrading of existing infrastructure, as follows:
(2) Alterations and additions to overhead electricity and telecommunication lines on existing poles or support structures involving any of the following:
...
(b) The reconductoring of the line with higher capacity conductors if the line was previously designed to operate at the higher capacity;
...
(j) The increase in voltage of electric lines up to 110kV if the line was previously designed to operate at the higher capacity;
AND
Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- The submitter seeks to ensure that reconductoring of lines at higher capacity do not affect landowners.
- The rules permit minor upgrading of existing infrastructure which includes reconductoring lines at a higher capacity and any increase in voltage up to 110kV.
- If the lines are on private property the distances in the New Zealand Code of Practice for Electrical Safe Distances will apply, meaning that the greater the voltage, the greater the clearance distance required for buildings and structures below the lines.

- The increase in voltage can affect landowners and should not be able to done as a permitted activity.

Point Number 419.82

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Amend** activity specific conditions 14.3.1.4 in Rule 14.3.1 Permitted Activities, relating to P5 Trimming, maintenance or removal of vegetation or trees associated with infrastructure, by adding "or" at the end of 2) (ii).

AND

Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- No specific reasons have been provided for the request to add the word "or".

Submitter Number: 423 **Submitter:** Lindsay Wilson

Organisation: Watercare Services Limited

Point Number 423.17

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Amend** Activity specific condition 14.3.1.1(1) Permitted Activities relating to P1 Minor Upgrading of existing infrastructure as follows:

(1) The realignment, configuration, relocation or replacement of infrastructure and associated structures that meet all of the following conditions:

(a) Are within 1.5m of the existing alignment or location;

...

(d) Do not increase the diameter of any existing above-ground pipe by more than +550% and

(e) Do not increase the area of any existing above-ground structure by more than +550%.

AND

Any consequential amendments or further relief to address the matters raised in the submission.

Decision Reasons:

- Does not appropriately enable provision of infrastructure or recognise the technical or operational needs of infrastructure.
- Rule 14.3.1.1 sets the permitted standards for the minor upgrading of existing infrastructure. Watercare considers these standards are overly restrictive.

Submitter Number: 559 **Submitter:** Sherry Reynolds

On behalf of: Heritage New Zealand Lower Northern Office

Point Number 559.150

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Retain** Rule 14.3.1 P4, condition (1)(h), except for the amendments sought below.

AND

Amend Rule 14.3.1 P4 condition (1)(h) Permitted Activities as follows:

(h) Earthworks are not located within any Historic Heritage sites identified within Appendix 30.1, or any Maaori Sites or areas of Significance as identified in Appendix 30.3 and 30.4.

Decision Reasons:

- The submitter supports in part only permitted activity specific condition (h), as the reference to only Appendix 30.1 does not cover the identified items of both Historic Heritage and cultural importance and the activity specific condition needs to be amended to include the other appendices so as to provide protection as required under section 6 of the Resource Management Act 1991.

Point Number 559.151

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Retain** activity specific condition 14.3.1.7 relating to P8 Service Connections.

Decision Reasons:

- The submitter supports in part permitted activity specific condition 14.3.1.7 as this activity specific condition ensures that the activity will provide protection as required under section 6 of the Resource Management Act 1991.

Point Number 559.152

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Retain** activity specific condition 14.3.1.7 relating to P9 Minor infrastructure structure.

Decision Reasons:

- The submitter supports in part permitted activity specific condition 14.3.1.7 as this activity specific condition ensures that the activity will provide protection as required under section 6 of the Resource Management Act 1991.

Point Number 559.153

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Retain** activity specific condition 14.3.1.7 relating to P10 Closed-circuit television (CCTV) systems attached to existing buildings and structures.

Decision Reasons:

- The submitter supports in part permitted activity specific condition 14.3.1.7 as this activity specific condition ensures that the activity will provide protection as required under section 6 of the Resource Management Act 1991.

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.25		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities		
Summary of Decision Requested	<p>Retain Section 14.3.1 Permitted Activities.</p> <p>AND</p> <p>Amend to clarify the relationship between the rules within Section 14.3 and those in the subsequent sections.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the provision of permitted activity rules. With respect to the sought amendment, it is presumed the rules apply in addition to the National Grid provisions within Section 14.4. Clarification as to the relationship between the rules within Section 14.3 and the subsequent sections would be beneficial to assist plan users. It is presumed only limited provisions within Section 14.2 apply to the National Grid in that the more specific provisions within Section 14.4 apply. 		
Point Number	576.26		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities		
Summary of Decision Requested	Retain Rule 14.3.1 P1 Permitted Activities, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The provision of a permitted activity rule for the ongoing operation, maintenance, repair and removal of existing infrastructure is supported as it recognises existing infrastructure and provides for its ongoing use. A permitted activity status reflects that provided within the NESETA. 		
Point Number	576.27		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities		
Summary of Decision Requested	Retain Rule 14.3.1 P2 Permitted Activities, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> A permitted activity status for the minor upgrading of existing infrastructure is supported as it appropriately recognises existing infrastructure and enables its ongoing use. Specific to the National Grid, the NESETA provides for various 'upgrade' works as permitted activities. While there are some inconsistencies with the conditions within rule P2 and the NESETA, given the NESETA prevails over the Proposed District Plan provisions, Rule P2 is of limited relevance to the National Grid. 		
Point Number	576.28		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities		
Summary of Decision Requested	Retain Rule 14.3.1 P3 Permitted Activities, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> A permitted activity status for temporary activities is supported as it recognises that in some circumstances, temporary infrastructure is required to either support existing infrastructure or facilitate the development of new infrastructure. A permitted activity status reflects Regulation 17 of the NESETA. 		
Point Number	576.29		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities		
Summary of Decision Requested	<p>Retain Rule 14.3.1.3 P4 Permitted Activities, except for the amendments sought below</p> <p>AND</p> <p>Amend Activity specific condition 14.3.1.3 P4 Permitted Activities, as follows:</p> <p><i>(1) Any earthworks associated with infrastructure, including formation and maintenance of access tracks, must comply with all of the following conditions:</i></p> <p>....</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Earthworks are often required to provide access to, and enable the ongoing operation, maintenance, repair and removal of infrastructure. Specific to the National Grid, the submitter regularly undertakes earthworks to either access existing National Grid assets (such as for the formation and maintenance of suitable access tracks) or to undertake routine maintenance or upgrade works such as structure replacements, tower strengthening, foundation works, or reconductoring. The NESETA provides for earthworks as a permitted activity subject to conditions where the earthworks are within a natural area (being an Outstanding natural feature or landscape or Significant Natural area in the Proposed District Plan). The 50m³ within Rule P4 matches that within NESETA Regulation 33. While the submitter largely supports Rule P4, a minor amendment is sought to provide clarify for plan users, that the permitted earthworks rule also applies to access tracks. As noted above, the submitter is often required to undertake earthworks on access tracks in order to gain access to National Grid support structures. The insertion would fit within the proposed condition framework in that proposed limits relate to an activity as opposed to a site. 		
Point Number	576.30		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities		
Summary of Decision Requested	<p>Retain Rule 14.3.1.4 P5 Permitted Activities, except for the amendments sought below</p> <p>AND</p> <p>Amend Activity Specific Condition 14.3.1.4 P5 Permitted Activities, as follows:</p> <p><i>(1) Any trimming, maintenance or removal of vegetation or trees associated with infrastructure, including access tracks, that meet all of the following conditions:</i></p> <p>...</p>		

(2) Any trimming, maintenance or removal of vegetation where required for the safe operation or maintenance of the National Grid or to remove a potential fire risk associated with the National Grid

AND

Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.

Decision Reasons:

- It is important the submitter is able to trim, maintain or remove any vegetation that could affect the safe operation, maintenance or upgrade of its lines. Where tree branches are close to or in contact with a transmission line they can create a flashover from the conductor to the tree which may cause:
 - A circuit fault that affects the operation and supply of the National Grid;
 - Injury or death to anyone who may be near the tree at the time of the fault; and
 - Damage to the tree, land or property.
- If a tree causes a flashover, dangerous voltages may arise in the tree itself or in the ground around the tree. These voltages have the potential to cause severe injury or death. Flashover to a tree where high voltages are involved can cause the tree to ignite and cause a wider fire hazard if the tree is near buildings. As such, it is vital that trees and all other vegetation are able to be trimmed, maintained or removed.
- The NESETA provides for trimming, felling or removal of any trees or vegetation as permitted activities subject to conditions. Resource consent is required if the tree or vegetation is in a natural area, or a rule prohibits or restricts the works. P5 restricts works to scheduled trees only. However, the NESETA restriction to 'natural areas' still applies and a restricted discretionary activity status would apply. The provision of a permitted activity rule specific to the National Grid would reflect the permitted activity status within the NESETA.
- The submitter supports Rule P5 but a minor amendment is sought to provide clarity for plan users that the permitted tree and vegetation rule also applies to access tracks, and a new condition specific to the National Grid be inserted.

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested

Retain the permitted activity provision for minor upgrading in Rule 14.3.1 P2, except for the amendments sought below
AND

Amend the activity specific conditions in Rule 14.3.1.1(1) as follows:

The realignment, configuration, relocation or replacement of infrastructure and associated structures that meet all of the following conditions:

- Are within 100m ~~5m~~ of the existing alignment or location;
- Do not increase the height of any existing pole or support structure by more than 50% ~~45%~~;
- Do not increase the diameter (width) of any existing pole or support structure by more than 50% ~~45%~~;
- Do not increase the diameter of any existing above-ground pipe by more than 15%; and
- Do not increase the area of any existing above-ground structure by more than 15%.

AND

Amend the Proposed District Plan as necessary to address the matters raised in the submission.

Decision Reasons:

- The proposed limits do not allow flexibility to enable re-powering and upgrading of existing facilities and the consequential location changes that result from upgrading wind electricity generation componentry.

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested

Amend Rule 14.3.1.8 P12 Permitted Activities, as follows:

14.3.1.8

...

(2) Rule 14.3.1.8(1)(a) does not apply to any allotment that is serviced by a site-contained wastewater system in accordance with Rule 14.1.1.3; and Rule 14.3.1.8(1)(b) does not apply where reticulated water supply is unavailable.

(3) Within all zones, except the Rural, Village and Country Living Zones, the water supply required under Rule 14.3.1.8(1)(b) must be adequate for fire fighting purposes.

AND

Any consequential amendments and/or additional relief required to address the matters raised in the submission.

Decision Reasons:

- In some situations, water supply will be from roof water harvesting or a bore and will not be provided by a service connection at the boundary. Like the Rural and Country Living Zones, water supply in the Village Zone may not be pressurised.

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested

Amend Rule 14.3.1.1 Minor Infrastructure Upgrading- Activity Specific Conditions, as follows:

(1) (b) Amend the existing the permitted height increase for an existing pole to "the lesser of 25m or 30%."

(1) (c) Amend the permitted pole or support structure width to twice the width of the existing pole at the widest point, unless a double pole is required to replace a single pole where the permitted pole or support structure width required is three times the width of the existing pole at the widest point (double poles may be required for electricity networks).

(3) The addition, replacement or relocation of existing antennas where:

(a) The antennas shall not increase in the face area by more than 20% of the relevant permitted standard for new panel antennas and shall not increase the diameter of a dish antenna by more than 20% of the relevant permitted standard for a new dish antenna; and

(b) The antennas shall not increase in height by more than 20% of the relevant permitted standard for new dish and panel antennas.

Note that area controls are not applied to other antenna types such as those made up of rods and tubes, which are controlled by standard (3)(b).

AND

Any consequential amendments necessary as a result of the amendments to grant the relief sought.

Decision Reasons:

- A number of proposed conditions relevant to telecommunications are impractical to support rapid technical changes or maintenance requirements.
- Not aligned with draft National Planning Standard for Network Utilities.
- Submitter seeks various amendments to seek more alignment with the National Planning Standard that is currently under development and intended to provide a practical envelope for typical infrastructure upgrading activity to respond with rapidly changing technology requirements and/or necessary maintenance activities.

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested

Amend Rule 14.3.1.3 Earthworks associated with infrastructure- Activity Specific Conditions and the related rules cascade so that it is clear what the activity status is in all Identified Areas where earthworks either exceed the permitted volumes in Rule 14.3.1.3, are restricted by a clause in Rule 14.3.1.3 (e.g. scheduled historic heritage site), or where the rule is silent (e.g. Significant Natural Area).

AND

Amend Rule 14.2.3 NC3 Non-Complying Activities so that earthworks ancillary to infrastructure do not cascade by default to non-complying status under the rule 14.2.3 NC3.

AND

Any consequential amendments necessary as a result of the amendments to grant the relief sought.

Decision Reasons:

- These standards include earthworks thresholds in many Identified Areas, including Significant Natural Areas, and includes a standard not allowing earthworks on scheduled historic heritage sites.
- It is unclear if earthworks not subject to a specific threshold in an overlay, or subject to a rule that does not allow any earthworks as a permitted activity, would then default to be a non-complying activity regardless of scale under Rule 14.2.3, NC3.
- For avoidance of doubt, the submitter seeks Rule 14.3.1.3 and associated rules cascade makes it clear what the status is of earthworks either not covered by a standard in 14.3.1.3 or are subject to a rule not providing for them as a permitted activity in a particular area (e.g. scheduled historic heritage) and ensure they do not cascade by default to non-complying under Rule 14.2.3 NC3.

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested

Amend the activity specific conditions in Rule 14.3.1.1 for Minor Infrastructure Upgrading (P2), as follows:

(1)(b) Permitted height increase for an existing pole to the "lesser of 25m or 30%".

(c) Amend permitted pole or support structure width to twice the width of the existing pole at the widest point, unless a double pole is required to replace a single pole where the permitted pole or support structure width required is three times the width of the existing pole at the widest point (double poles may be required for electricity networks).

(3) The addition, replacement or relocation of existing antennas where:

(a) The antennas shall not increase in the face area by more than 20% of the relevant permitted standard for new panel antennas and shall not increase the diameter of a dish antenna by more than 20% of the relevant permitted standard for a new dish antenna; and

(b) The antennas shall not increase in height by more than 20% of the relevant permitted standard for new dish and panel antennas.

Note that the area controls are not applied to other antennas types such as those that are made up of rods and tubes, which are controlled by standard (3)(b).

AND

Any consequential amendments necessary as a result of the amendments to grant the relief sought.

Decision Reasons:

- A number of proposed conditions relevant to telecommunications are impractical to support rapid technical changes or maintenance requirements.
- Not aligned with draft National Planning Standard for Network Utilities.
- Submitter seeks alignment with National Planning Standard that is currently under development, currently under development to provide a practical means for typical infrastructure upgrading activity to respond with rapidly changing technology requirements.

Point Number

646.34

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested

Amend Activity-specific conditions Rule 14.3.1.3 for P4 Earthworks activities associated with infrastructure and the related rules cascade such that it is clear what the activity status is in all Identified Areas where earthworks either exceed the permitted volumes in Rule 14.3.1.3, are restricted by a clause in Rule 14.3.1.3 (e.g. scheduled historic heritage site), or where the rule is silent (e.g. SNA).

AND

Amend Rule 14.2.3 NC3 Non-Complying Activities so that earthworks ancillary to infrastructure do not cascade by default to non-complying activity status under the rule 14.2.3 NC3.

AND

Any consequential amendments necessary as a result of the amendments to grant the relief sought.

Decision Reasons:

- These standards include earthworks thresholds in many Identified Areas, but not all of the Identified Areas (e.g. SNA) and includes a standard not allowing earthworks on a scheduled historic heritage sites.
- For the avoidance of doubt, submitter seeks relief the Rule 14.3.1.3 is made clearer what the status of earthworks either not covered by a standard in 14.3.1.3 or are subject to a rule not providing for them as a permitted activity in a particular area (e.g. scheduled historic heritage).
- It is unclear if earthworks not subject to a specific threshold in an overlay, or subject to a rule that does not allow any earthworks as a permitted activity, would then default to be a non-complying activity regardless of scale under Rule 14.2.3 NC3 (earthworks in an Identified Area not otherwise provided for by a rule in Chapter 14).
- Submitter seeks such relief for avoidance of doubt.

Submitter:

Federated Farmers of New Zealand

Point Number

680.280

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested

Amend Activity specific condition 14.3.1.1 P2 (1) (e) Minor upgrading of existing infrastructure as follows:

(e) Do not increase the area of any existing aboveground structure by more than 15%; and

(f) Shall be contained within an appropriate infrastructure easement or, if part of the National Grid, within the National Grid Yard

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter conditionally support Rule 14.3.1 provided that appropriate provision is made to reflect infrastructure requirements within the Rural Zone, and/or exemption from urban scale standards within this rule.
- Any "minor upgrading" to network utilities should either be contained within an appropriate easement, or if related to the National Grid, within the existing National Grid Yard. Farmers often experience disruption to farming activities from activities associated with maintenance, upgrading or replacement of network utilities. The submitter wishes to ensure that certain parameters are provided around ability to undertake such upgrading, in order to limit disruptions associated with incremental creeping of intrusion on landowners' ability to manage their farms arising from network utilities seeking allowances for upgrades. Among other things, farmers are concerned about occupational health and safety implications of incremental infrastructure upgrading activity intruding in private farmland and farming operations such as droving, lambing, calving, fodder cropping, irrigator/effluent disperser operation, and land cultivation.
- Rural land uses, such as farming, do not present the same issues vis-à-vis infrastructure provision, that urban patterns of development present. Rural land use is characterised by low density development and population density, with wide open spaces and relative sparsity of built form. Infrastructure in these areas should be enabled by appropriate standards that reflect rural amenity character, intensity and scale, whilst being limited in order to avoid disruption to farming landowners.

Point Number

680.281

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested

Amend Rule P12 Service connections for subdivision and activity specific conditions 14.3.1.8 as follows:

P12 Service connections for subdivision except within the Rural Zone

Activity-specific conditions

14.3.1.8

(1) All new lots created as part of...

(a) Wastewater, except within the Rural Zone;

(b) Except within the Rural Zone, a water supply connection;

(c) Except within the Rural Zone, a stormwater (a management system that complies with Rule 14.1.1.1),

(g) Except where unavailable adjacent to the lot boundary within the Rural Zone, an Electricity supply connection;

(e) Except where unavailable adjacent to the lot boundary within the Rural, a Telecommunications connection that is hardwired or wireless; and

(f) Vehicle access that complies with Rule 14.12.1.1

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- Rural subdivision should not have to have connections to a public water supply, wastewater collection system, electricity connection, telecommunications connection, if no such services are available adjacent to the lot boundary. Rural landowners may get their water supply from a dam, bore or other form of water collection, such as roof-water collection, and have to have fire-fighting water tank capacity with connected building sprinkler systems, and have on-site wastewater treatment and disposal. They may also have to generate their own electricity, and may be unfortunate enough not to have broadband telecommunications connections in the vicinity. There is typically sufficient land within the wide open space of rural areas not to have any concern about managing stormwater runoff. So requirements for these services are unnecessary and there is little or no environmental benefit to be derived.

Submitter Number:	692	Submitter:	WEL Networks Limited
Point Number	692.10		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities		
Summary of Decision Requested	Retain Rule 14.3.1 P6 Permitted Activities, relating to pipe and cable bridges.		
Decision Reasons:	<ul style="list-style-type: none">Supports this rule as it would provide for the installation of electricity cables to bridge structures as a permitted activity		
Point Number	692.11		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities		
Summary of Decision Requested	Amend Rule 14.3.1.6 Permitted Activities relating to P7 Electric vehicle chargers as follows (or other amendments to give effect to the concerns raised): 14.3.1.6 <i>(1) Electric vehicle chargers that meet all of the following conditions:</i> <i>(a) Do not exceed maximum height of 4.0 4m each;</i> <i>(b) Do not exceed a maximum area of 1.5m² each;</i> <i>(c) Have a socket connection, or a fitted cable management accessory;</i> <i>(d) Have at least one formed car park (in accordance with the relevant requirements of Table 14.12.5.11) per connection or charging cable if the site is located outside the road;</i> <i>(e) Are not located in an Identified Area.</i>		
Decision Reasons:	<ul style="list-style-type: none">This height of 4m would be consistent with the new infrastructure rules and will enable the installation of high powered chargers which are slightly larger than electric vehicle chargers and bus chargers which are almost double the height of vehicle chargersIt should be noted that the height of a standard electric vehicle charger is 2.5mWEL are unsure why Council would want to apply point (c) – this rule would limit technologies such as inductive chargingRemove (d) – as a carpark is not always appropriate, particularly if the charger is located on private property.

Summary of Decision Requested	Add a new clause (1) to Rule 14.3.1.4 Permitted Activities, relating to P5 Trimming, maintenance or removal of vegetation or trees associated with Infrastructure as follows (or other amendments to give effect to the concerns raised): 14.3.1.4 <i>(1) Trimming and pruning of trees and vegetation necessary to protect all overhead electric lines or telecommunication lines; or</i> (2) Any trimming, maintenance...
Decision Reasons:	<ul style="list-style-type: none"> To ensure that it is clear that WEL has the ability to trim and prune trees where they pose a risk or are currently affecting the electricity network. Trees if not maintained near electricity lines may strike the lines causing faults or more seriously snap the line posing a risk to the general public.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.529		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities		
Summary of Decision Requested	Add to Rule 14.3.1 P2 Permitted Activity Minor upgrading of existing infrastructure as follows: <i>(7) The conditions in Rule 14.3.1.1(1) do not apply to road network activities or other linear transport networks.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The standards are too constraining for roads given the length and width of roads (particularly new roads). They are not the most efficient approach to managing structures and activities associated with the road and transport network. 		
Point Number	697.530		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities		
Summary of Decision Requested	Add to Rule 14.3.1.3 P4 Earthworks activities associated with infrastructure as follows: <i>(i) Earthworks are not located within any Maaori Sites of Significance or Maaori Areas of Significance identified within Appendix 30.3 or 30.4.</i>		

(j) Earthworks are not located within the dripline of a notable tree listed in Appendix 30.2.

Decision Reasons:

- For completeness, insert references to Maaori Sites of Significance, Maaori Areas of Significance, and within the dripline of a notable tree.

Point Number 697.531

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Amend** Rule 14.3.1.3(1)(h) Permitted Activities Earthworks activities associated with infrastructure to hyperlink the references to Appendix 30.1.

Decision Reasons:

- Appendix 30.1 requires highlighting and a hyperlink for clarity and consistency.

Point Number 697.532

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Add** to Rule 14.3.1.8 Permitted Activities Service connections for subdivision a new clause (4) as follows:

(4) Rule 14.3.1.8(1)(b) and (c) do not apply to any Rural or Country Living Zone site.

Decision Reasons:

- Recognition for Rural and Country Living Zoned sites that water supply will be provided on site, and stormwater will be managed on site.

Point Number 697.533

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Amend** Rule 14.3.1.8(3) Permitted Activity Service connections for subdivision to include more specific standards for what constitutes adequate supply for fire fighting purposes.

Decision Reasons:

- More clarity is required as to what standards are required for firefighting water supply.

Point Number 697.534

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Amend** Rule 14.3.1(P12)(1)(e) Permitted Activity Service connections for subdivision to reconsider the District Plan's telecommunications requirements for subdivision are further investigated, with amendments to this rule and policies to address the issue.

Decision Reasons:

- A subdivision consent was issued on the basis of advice from a telecommunications provider that there was capacity for a connection.
- The property was subsequently subdivided and sold but the telecommunications provider can no longer supply an adequate connection due to latent capacity being taken up in the meantime.
- One option is to require a hard wire connection in the Plan, however technology is changing so quickly that this will quickly become obsolete. Another option is that the Plan does not require a telecommunications connection.

Point Number 697.535

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Amend** Rule 14.3.1(P12)(1)(d) Permitted Activity Service connections for subdivision to reconsider the District Plan's electricity requirements for subdivision and are further investigated, with amendments to this rule and policies to address the issue.

Decision Reasons:

- This rule currently requires an electricity supply, but with technology changing so quickly connecting to an electricity distribution network may not be needed.
- Subdivision consent applications require a third party electricity provider to verify that a connection is possible.
- One option is to require a physical electricity connection in the Plan as currently required by Rule 14.3.1(P12)(1)(d), however technology is changing so quickly that this may become obsolete. Another option is that the Plan does not require an electricity connection up to the boundary.

Submitter Number: 742 **Submitter:** Kim Harris-Cottle

Organisation: New Zealand Transport Agency

Point Number 742.87

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Retain** Rule 14.3.1 P1 The operation, maintenance, repair and removal of existing infrastructure, as notified.

Decision Reasons:

- The submitter supports this rule which provides for operation, maintenance, repair and removal of infrastructure.

Point Number 742.88

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Retain** Rule 14.3.1.P2 Minor upgrading of existing infrastructure as notified, subject to relief sought on Rule 14.3.1.3 and Schedule 30.2.

Decision Reasons:

- The submitter supports this rule which provides for minor upgrading of infrastructure.

Point Number 742.89

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Amend** Rule 14.3.1.3((1)(c) Earthworks activities associated with infrastructure as follows:

Within 10m of a watercourse (excluding artificial watercourses),...

OR

Add a definition of "watercourse" to Chapter 13: Definitions that excludes artificial watercourses, including roadside swales and other stormwater devices;

AND

Amend the maximum volume of earthworks in Rule 14.3.1.3 (1(c), dependent on the definition of "watercourse".

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter supports the rule in principle but subject to an appropriate definition of "watercourse". If the definition of "watercourse" includes features such as roadside swales, the submitter is opposed to the maximum volume of earthworks outlined in 14.3.1.3(1)(c).

Point Number

742.90

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested

Retain Rule 14.3.1 P7 Electric vehicle chargers, as notified.

Decision Reasons:

- The submitter supports the provision of facilities for electric vehicles.

Raglan Naturally

Point Number

831.45

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested

Amend condition for P4 Earthworks in Rule 14.3.1 Permitted Activities, to recognise that that new development should not encroach on nature and that all natural character areas (not just those of higher value) be protected through tools such as cat free covenants and similar rules imposed by the Palmerston North District Plan.

Decision Reasons:

- The natural character has been lost in most of the district, so it is important that any new development shows environmental awareness and does not encroach on nature.
- Cats are major predators of native wildlife, so new developments close to natural character area should be cat free.

Point Number

831.6

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested

Delete Rule 14.3.1.8 (3) relating to P12 Service connections for subdivision.

AND

Amend Plan to consider extending town water supplies to coastal developments, in particular provision of fire fighting water.

OR

Amend Plan to ensure storage tanks are provided at strategic points for fire fighting.

Decision Reasons:

- Fire hydrants should be required in wooded areas, especially if developments are distant from the main supply.
- Most of the Whaanga Coast is wooded, but has no mains supply. A lot of housing has been permitted in the area and the Proposed District Plan allows for more. This is a safety issue.

On behalf of: KiwiRail Holdings Limited (KiwiRail)

Point Number 986.78

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Retain Rule 14.3.1 P1 Permitted activities as notified.**

Decision Reasons:

- KiwiRail supports the provision which permits the operation, maintenance, repair and removal of existing infrastructure as this enables the District to meet its requirements for effective and efficient land transport network systems.

Point Number 986.79

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Retain Rule 14.3.1 P2 Permitted activities as notified.**

Decision Reasons:

- KiwiRail supports the provision for minor upgrades to existing infrastructure.

Point Number 986.80

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Retain Rule 14.3.1 P3 Permitted activities as notified.**

Decision Reasons:

- KiwiRail supports provision for Temporary infrastructure activities in the Plan subject to criteria.

Point Number 986.81

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Amend Activity specific conditions 14.3.1.3(1)(a) and (b) relating to P4 Permitted activities as follows (or similar amendments to achieve the requested relief):**

(1) Any earthworks associated with infrastructure must comply with all of the following conditions:

(a) Do not exceed a volume of more than 2,500m³ for any single activity (with the exception of works associated with Regionally Significant Infrastructure);

(b) Do not exceed an area of more than 2,500m² for any single activity (with the

exception of works associated with Regionally Significant Infrastructure);

AND

Any consequential amendments to link and/or accommodate the requested changes.

Decision Reasons:

- Parts of the railway corridor lie either within Landscape and Natural Character Areas, Significant Amenity Landscape (SAL), High or Outstanding Natural Character areas of the coastal environment or Outstanding Natural Feature (ONF) or Outstanding Natural Landscapes (ONLs).
- As the operator of a linear transport network KiwiRail carries out linear project works within the railway corridor. These projects are usually carried out either during operations, or during blocks of line - when as much work is done as possible.
- The small limits applying to any works undertaken for the operation, maintenance or upgrading of the railway corridor would create significant difficulties where for instance work sites may need to set-up, only a small amount of the works completed, then the site(s) had to be broken down await another 'activity' period. Linear projects on the railway corridor tend to be relatively narrow.

Point Number 986.82

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Amend Activity specific condition 14.3.1.3(3) relating to P4 Permitted activities as follows (or similar amendments to achieve the requested relief):**

(3) Earthworks associated with infrastructure in Landscape and Natural Character Areas must not:

(a) Exceed 1.5m in height in relation to the cut or fill batter face; and

(b) Use imported soil, other than the placement of aggregate/metal on any access track or in association with laying underground infrastructure and clean fill associated with Regionally Significant Infrastructure; and

(c) Disturb or move more than 50m³ or exceed an area of 250m² in a Significant Amenity Landscape sand dune over any consecutive 12 month time period; and

(d) Disturb or move more than 50m³ or exceed an area of 250m² in a High or Outstanding Natural Character Area of the coastal environment over any consecutive 12 month time period; and

(e) Disturb or move more than 50m³ or exceed an area of 250m² in an Outstanding Natural Feature or Outstanding Natural Landscapes over any consecutive 12 month time period (except for Regionally Significant Infrastructure works);

AND

Any consequential amendments to link and

Decision Reasons:

- Parts of the railway corridor lie either within Landscape and Natural Character Areas, Significant Amenity Landscape (SAL), High or Outstanding Natural Character areas of the coastal environment or Outstanding Natural Feature (ONF) or Outstanding Natural Landscapes (ONLs).
- Works associated with Regionally Significant Infrastructure often require the use of clean fill. As these works cannot be carried out elsewhere, KiwiRail seeks that the Plan appropriately provides for the use of clean fill in limited circumstances, where necessary to carry out required works on the rail corridor.

Point Number 986.83

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.1 Permitted Activities

Summary of Decision Requested **Delete Activity specific condition 14.3.1.3(1)(c) relating to P4 Permitted activities (or similar amendments to achieve the requested relief)**

OR

Amend Activity specific condition 14.3.1.3(1)(c) relating to P4 Permitted activities as follows (or similar amendments to achieve the requested relief):

(1) Any earthworks associated with infrastructure must comply with all of the following conditions:

...

(c) Within 10m of a watercourse or 20m of mean high water springs do not exceed a volume of more than 5m³ and an area of more than 5m² for any single activity (excluding existing rail infrastructure);

AND

Any consequential amendments to link and/or accommodate the requested changes.

Decision Reasons:

- This clause is unreasonably restrictive for linear land transport networks like KiwiRail.
- KiwiRail supports Council in requiring activities to be setback from rivers, lakes and the coastal marine area, however this policy as worded gives no recognition to existing encroachments or existing activities already located in these areas.
- The rail network is not able to be easily relocated and given the function it provides for the district, the region and the country, the rail network often crosses over watercourses. It is therefore likely that works exceeding the limit in (c) would not be capable of being setback in most cases more than 20m from the rivers, lakes or the coastal marine area.
- Further, there is limited scope to relocate the rail network away from watercourses so that no river crossings were ever required. Parts of the railway corridor lie either within Landscape and Natural Character Areas, Significant Amenity Landscape (SAL), High or Outstanding Natural Character areas of the coastal environment or Outstanding Natural Feature (ONF) or Outstanding Natural Landscapes (ONLs).
- The thresholds in (c) are unreasonably low when considering long linear land transport operations like railways; where parts of the corridor are on embankments, in cuttings or in remote and topographically challenging areas.
- KiwiRail seek that the rule be deleted as the effects of any works are adequately address in the remaining rule criteria e.g. control of sedimentation and overall works limits.

Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.3 Restricted Discretionary Activities

Summary of Decision Requested

Add a new matter of discretion to Rule 14.3.3 RD1 Restricted Discretionary Activities, as follows:

x. effects on affected landowners.

AND

Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- It is important that the effects on owners of land, where infrastructure is to be located, is a matter of discretion for restricted discretionary activities.

Submitter Number:

559

Submitter:

Sherry Reynolds

On behalf of:

Heritage New Zealand Lower Northern Office

Point Number

559.154

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.3 Restricted Discretionary Activities

Summary of Decision Requested

Retain Rule 14.3.3 RD2 Earthworks associated with infrastructure that do not comply with one or more of the conditions of Rule 14.3.1.3, except for the amendments sought below.

AND

Amend Rule 14.3.3 RD2 Earthworks associated with infrastructure that do not comply with one or more of the conditions of Rule 14.3.1.3 as follows:

Discretion is restricted to:

(a) *Management of sediment and dust, including the staging of works;*

(b) *The volume, extent and depth of the earthworks activities;*

(c) *The location of the earthworks activities, taking into account any effects on the values, qualities and characteristics of the site, including sites and areas of Significance to Maaori and any Heritage Items;*

(d) *Any flood or land stability risks; and*

(e) *Visual, landscape and amenity effects.*

Decision Reasons:

- The submitter supports in part only the Restricted Discretionary rule RD2 and the matters of discretion.
- While the matter of discretion (c) could be applicable in part to heritage items and cultural sites, it is considered that the clause should be amended to be readily applicable to heritage items and cultural sites so as to provide protection as required under section 6 of the Resource Management Act 1991.

Point Number	749.72		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.3 General infrastructure > 14.3.4 Discretionary Activities		
Summary of Decision Requested	Add a new activity to Rule 14.3.3 Restricted Discretionary Activities and matters of discretion as follows: <u>RD7</u> <u>Access and service connections for subdivision that do not comply with one or more of the conditions of 14.3.1.8</u> <u>Discretion is restricted to:</u> <u>a) The adequacy of the service connection;</u> <u>b) The functional and operational needs of, and benefits derived from, the infrastructure;</u> <u>c) Site design, layout and amenity;</u> <u>d) Visual, streetscape and amenity effects; and</u> <u>e) Road network safety and efficiency.</u> AND Delete Rule 14.3.4 D3 Discretionary Activities. AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter does not support the activity 'Access and service connections for subdivision that do not comply with one or more of the conditions of Rule 14.3.1.8' to be a Discretionary Activity. The submitter seeks the activity is changed to a Restricted Discretionary Activity with matters of discretion added. The activity does not need to be subject to a range of matters when it has a number of conditions attached already to Rule 14.3.1.8. 		
Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid			
Submitter Number:	302	Submitter:	Jeremy Talbot
On behalf of:	EnviroWaste New Zealand Limited	Organisation:	Barker & Associates Limited
Point Number	302.2		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid		
Summary of Decision Requested	Amend Rules 14.4.1 - 14.4.4 National Grid to reduce the yard setbacks to align with decisions on appeals and consent orders on the Auckland Unitary Plan. The current Auckland Unitary Plan rules, and the activities within the yard allow for car parking or hard stand surfaces (and associated drainage) with limited storage height, on Industrial Zoned land, rather than the current proposed provisions which sterilize large tracts of Industrial Zone land for any activities. AND Amend the Proposed District Plan to make consequential amendments or additional amendments to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The Overlay and its provisions should reflect the minimums allowed under the Auckland Unitary Plan, whereby the "Yard" is measured at 12m in any direction from the outer edge of a National Grid support structure and 12m either side of the centerline of any overhead National Grid line (rather than up to 37m either side of transmission lines for 220kv lines under the Proposed Plan). There is no reason for the Waikato District Plan to have a wider restriction buffer than Auckland (when the effect on the National Grid would be the same regardless of Region and cognizant that the Auckland rules apply immediately adjoining the submitter's site). As Auckland has the most recent case law on the National Grid network through the Auckland Unitary Plan appeals process, it is reasonable to consider that its provisions are suitable to meet the National Policy Statement for Electricity Transmission. 		
Submitter Number:	341	Submitter:	Brian Croad

Point Number	341.8		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid		

Summary of Decision Requested	Amend Section 14.4 National Grid to ensure undue limitations are not placed on land subject to these provisions. AND Amend the Proposed District Plan to make consequential amendments as necessary to give effect to the matters raised in the submission.
Decision Reasons:	<ul style="list-style-type: none"> Both the Huntly and Meremere Power Station sites owned by TGHL currently contain the following National Grid transmissions lines/assets which are owned and operated by Transpower New Zealand Limited. The presence of Transpower's transmission lines places limitations on the ability for TGHL to develop their land. Rule 14.4.1.2 allows a limited range of buildings and structures as a permitted activity to occur within the National Grid Yard. Rule 14.4.1.3 allows a limited range of earthworks activities as a permitted activity to occur within the National Grid Yard. The non-complying activity status under Rule 14.4.4 (NC4) for any activity within the National Grid Yard that does not comply with one or more of the conditions of Rule 14.4.1.2 is unnecessarily onerous.

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.52		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid		
Summary of Decision Requested	Retain Section 14.4 National Grid, subject to amendments sought elsewhere in this submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the provision of a suite of rules and associated conditions specific to the National Grid. The proposed rules are specific to the National Grid Yard and the National Grid (subdivision) Corridor, both of which are identified on the planning maps and further defined in Chapter 13 Definitions. The provision of a specific suite of provisions is consistent with the approach adopted across New Zealand, gives effect to the NPSET, and also gives effect to the Waikato RPS, specifically Implementation Method 6.6.2. As highlighted in the higher order policy documents (specifically the NPSET and the RPS) a significant resource management issue in the district and across New Zealand is inappropriate development, land use and subdivision in close proximity to the National Grid which can compromise its operation, maintenance, development and upgrade. Given the national significance of the National Grid, inappropriate development is a potential issue. In order to manage subdivision and other land uses that have the potential to compromise the operation, maintenance, upgrading and development of the National Grid, the submitter supports the provision of a corridor management approach which allows for the reasonable use of land inside the transmission line corridor, with several standards and rules imposed to ensure that any subdivision, land use and development that might compromise the Grid is either avoided or managed. The approach sought by the submitter has been rolled out across New Zealand for the past seven years as plans have come up for review. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.284		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid		
Summary of Decision Requested	Add new controlled subdivision Rule '14.4.X.X' as follows: <i>CX Subdivision that is otherwise a controlled subdivision in the Rural Zone that is within a lot containing the National Grid</i> <u>Activity-specific conditions</u> <u>14.4.X.X</u> <i>(1) Any new lot boundary shall be situated outside the National Grid Corridor; and</i> <i>(2) Shall comply with controlled subdivision standards and terms of the Rural Zone.</i> <u>Matters of control</u> <u>Control is reserved over:</u> <i>(a) The adequacy of the allotment for its intended use;</i> <i>(b) maintenance of existing physical and legal vehicular access to the National Grid Corridor.</i>		
Decision Reasons:	AND Any consequential changes elsewhere in the plan to give effect to this relief. <ul style="list-style-type: none"> The submitter is opposed to Rule 14.4.2 RD4 and submit that a more pragmatic approach would be to provide for controlled activity subdivision of land containing the National Grid (at least in the Rural Zone). In particular, farmers may have need for boundary adjustments and boundary relocations, where no additional lots are being created, and where there is no overall increase in land use intensity, in order to enable more efficient management and utilisation of the productive rural land resource. Controlled subdivision standards (or activity-specific conditions) could apply, and matters of control could be set forth that require new lot boundaries to be outside the National Grid Corridor, and control of ensuring existing legal and physical vehicular access to the National Grid Corridor. There is no need to manage this via a <i>restricted discretionary activity</i> rule. Please refer also to our submission on Rule 14.4.2. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.73		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid		
Summary of Decision Requested	Delete Section 14.4 National Grid and the full package of objectives, policies, rules and definitions including the spatial extent of the overlay. AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter opposes the National Grid provisions in its current proposed state and seeks the full package of provisions (objectives, policies, rules and definitions) including the spatial extent of the overlay shown in the Proposed WDP is amended. The submitter acknowledges the need for the Proposed WDP to give effect to the requirements of the National Policy Statement for Electricity Transmission (2008). However, the proposed National Grid provisions are overly restrictive and do not efficiently manage sensitive activities within close proximity to and under the National Grid

Point Number	576.53		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.1 Permitted Activities		

Summary of Decision Requested

Retain Activity Specific Conditions 14.4.1.1 P1 Permitted Activities, except for the amendments sought below

AND

Amend Activity Specific Conditions 14.4.1.1 P1 Permitted Activities, as follows:

(1)

(a)

(b) ~~New, or additions to existing buildings and/or structures that are not for a sensitive land use;~~

(c) ~~Infrastructure Network Utilities (other than for the reticulation and storage of water for irrigation purposes) or any part of electricity infrastructure undertaken by a network utility operator as defined in the Resource Management Act 1991.~~

~~(d) New non-habitable accessory buildings or structures.~~

~~(e) Fences less than 2.5m in height~~

(2) ...

(a)

(b) Locate a minimum of 12m from the outer visible foundation of any National Grid ~~support structure tower and a minimum 12m from any pole and~~ associated stay wire, unless it is one of the following:

i. A building or structure where Transpower has given written approval in accordance with clause 2.4.1 of the ~~New Zealand Electrical Code of Practice for Electrical Safe Distances NZECP34:2001 ISSN 0114-0663;~~

~~(ii) The maximum height of fences are 2.5m within 5m from the nearest National Grid Pole or 6m from the nearest National Grid Tower. Fences less than 2.5m in height and located a minimum of 5m from the nearest National Grid support structure foundation~~

~~iii. Network utilities (other than for the reticulation and storage of water for irrigation purposes) or any part of electricity infrastructure undertaken by a network utility operator as defined in the Resource Management Act 1991, that connects to the National Grid.~~

~~(c) Not permanently, physically impede existing vehicular access to a national grid support structure~~

AND

Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.

Decision Reasons:

- Amendments are sought to Rule P1 in the form of reformatting/restructuring to clarify the intent of the provisions and recognition of network utilities.
- A condition is inserted requiring that any new structures or buildings not permanently physically impede existing vehicular access to a National Grid support structure. Such a condition would ensure physical access is maintained to the line and assets to enable the ongoing operation, maintenance and upgrade of the National Grid.
- The submitter supports the provision of permitted activity rules which is based on the corridor management approach.

Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.1 Permitted Activities

Summary of Decision Requested

Retain Activity Specific Condition 14.4.1.2 P2 Permitted Activities, except for the amendments sought below

AND

Amend Activity Specific Condition 14.4.1.2 P2 Permitted Activities, as follows:

~~(1) Within the National Grid Yard in the Business, Industrial, Country Living, Heavy Industrial, Rural, Town Centre Business, Hampton Downs Motorsport and Recreation, Tamahere Business, Te Kowhai Airpark, or Reserves Zone, or Coal Mining Area, Aggregate Extraction Area or Aggregate Resource Area:~~

(a) Building alterations and additions to an existing building or structure ~~for sensitive activities~~ that does not involve an increase in the building height or footprint; or

(b) ~~Infrastructure Network Utilities (other than for the reticulation and storage of water for irrigation purposes) or any part of electricity infrastructure undertaken by a network utility operator as defined in the Resource Management Act 1991; or~~

(c) Non-habitable buildings or structures for farming activities in rural zones (but not including any intensive farming buildings, commercial greenhouses and milking/dairy sheds (accessory structures are permitted)); or

~~(d) Yards for milking/dairy sheds; or~~

~~(d) Non-habitable horticultural buildings; or~~

(e) Artificial crop protection and support structures (excluding commercial greenhouses and PSA structures).

~~(f) Fences less than 2.5m in height~~

(2) ...

(a) ...

(b) Locate a minimum 12m from the outer visible foundation of any National Grid ~~support structure foundation tower and locate a minimum 12m from any pole and~~ associated stay wire, unless it is:

i. A building or structure where Transpower has given written approval in accordance with clause 2.4.1 of the ~~New Zealand Electrical Code of Practice for Electrical Safe Distances NZECP34:2001 ISSN 0114-0663; or~~

~~ii. Fences less than 2.5m in height and located a minimum of 5m from the nearest National Grid support structure foundation; or~~

~~iii. Artificial crop protection Network utilities (other than for the reticulation and storage of water for irrigation purposes) or any part of electricity infrastructure undertaken by a network utility operator as defined in the Resource Management Act 1991, that connects to the National Grid; and~~

~~(2) The maximum height of fences are 2.5m within 5m from the nearest National Grid Pole or 6m from the nearest National Grid tower.~~

~~(c) Not permanently, physically impede existing vehicular access to a national grid support structure~~

~~(4) Artificial crop protection structures and crop support structures between 8m and 12m from a single pole support structure (but not a tower), and any associated guy wire (but not towers) must that:~~

(a) Meets the requirements of the ~~New Zealand Electrical Code of Practice for Electrical Safe Distances NZECP34:2001 ISSN 0114-0663~~ for separation distances from the conductor;

(b) ~~Be Are a~~ maximum of 2.5m high;

(c) ~~Be Are~~ removable or temporary, to allow a clear working space of at least 12 metres from the pole when necessary for maintenance and emergency repair purposes;

(d) ...

AND

Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.

Decision Reasons:

- Within Rural and other zones (Rule P2), the submitter is satisfied that there are some activities that are appropriate within the National Grid Yard due to their nature and small scale, and because they will not compromise the operation, maintenance or any upgrade of the network itself. Certain structures (such as rural hay barns, pump sheds and implement sheds) are less problematic within 10-12m of the line (noting that they will still need to be set back 12m from National Grid support structures) on the basis they are unlikely to "build out" a line.
- The notified provisions allow for paddocks, fencing (as high as deer fences), landscaping and small sheds, and larger farm buildings in proximity to conductors not used for intensive farming purposes.
- Grazing, cropping, and car parking activities are not restricted.
- Conversely, examples of development that has severely restricted or blocked the submitters ability to effectively access its assets include dairy sheds, piggeries, poultry sheds and commercial hothouses and glass houses, as well as sensitive activities. These activities can cover an extensive area of land, and it maybe expensive to disrupt or require these activities to be relocated while the submitter carries out work on its transmission assets.

- Amendments are sought to Rule P2 in the form of reformatting/restructuring to clarify the intent of the provisions; as well as recognition of network utilities (as opposed to Infrastructure generally). Amendment is also sought to clause 1) to clarify where the rule applies noting that existing National Grid assets do not traverse all zones and any new lines would be designated and therefore not be subject to Rule P2.
- For the avoidance of doubt reference is also made to mining and extractions resource areas as it is not clear if they are subject to the rule as notified.
- No more restrictive provisions are sought than those notified.

Point Number	576.55
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.1 Permitted Activities
Summary of Decision Requested	<p>Retain Activity Specific Conditions 14.4.1.3 P3 Permitted Activities, except for the amendments sought below</p> <p>AND</p> <p>Amend Activity Specific Conditions 14.4.1.3 P3 Permitted Activities, as follows:</p> <p>(1) Earthworks within the National Grid Yard for National Grid support poles and any stay wires that comply with the following conditions:</p> <p>(a) Do not exceed a depth (measured vertically) of 300mm within 1.2m of the outer visible edge any National Grid support structure foundation, 2.2m of the pole or stay wire, and</p> <p>(b) Do not exceed a depth of 750mm between 2.2m and 5m of the pole or stay wire.</p> <p>(2) Earthworks for National Grid support towers (including any tubular steel tower that replaces a steel lattice tower) that comply with all of the following conditions:</p> <p>(a) Do not exceed 300m depth within 6m of the outer edge of the visible foundation of the tower;</p> <p>(b) Do not exceed 3m between 6m and 12m of the outer edge of the visible foundation of the tower;</p> <p>(c) ...</p> <p>(d) ...</p> <p>(e) Do not result in a reduction in the ground to conductor clearance distances of less than 6.5m (measured vertically) from a 110kV National Grid transmission line, or 7.5m (measured vertically) from a 220kV National Grid transmission line. Must be less than the minimum ground to conductor clearance distances in Table 4 of the New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663.</p> <p>(2) The following earthworks activities are exempt from Rules 14.4.1.3(1) (a) and (2):</p> <p>(a)...</p> <p>(d) Earthworks for which a dispensation has been granted by Transpower under New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663.</p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the provision of permitted activity earthwork provisions on the basis such activities can compromise the National Grid and are a form of development contemplated by the NPSET. • Amendments are sought to Rule P3 to simplify the rule and also recognise that the risks to the National Grid extend beyond those addressed by NZECP34.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.282		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.1 Permitted Activities		
Summary of Decision Requested	<p>Add to activity-specific standards Rule 14.4.1.2 relating to P2 (1) Buildings, structures and sensitive land use within the National Grid Yard in all other zones as of 18 July 2018, a new clause (f), as follows:</p> <p>(inter alia)</p> <p>(f) Minor structures associated with farming activity that are not situated within 6m of the outer visible foundation of any National Grid tower, including fences, gates, stock exclusion structures, cattle-stops, stock underpasses, stock bridges and culvert crossings, and drinking water supply pipelines, troughs, and water storage tanks.</p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter conditionally support this rule, provided that the list of exempted farming activities is expanded to reflect a more comprehensive list of activities that are not sensitive to the operation of the national grid. • Where such land use is not incompatible with infrastructure networks, then it presents an efficient use of resources to enable their coexistence in order to maximise benefits and minimise costs. • Where activity-specific conditions are not able to be complied with, appropriate consideration could be given via a consent pathway which triggers Restricted Discretionary Activity status, with appropriate discretion around the benefits to be had from the National Grid, and the benefits to be had from enabling minor farming activity, and the effects of non-compliance with the relevant specified permitted activity standard. • Please also refer to relief sought in respect of Rule 14.4.4.

Point Number	766.6		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 14.4.1 Permitted Activities by reducing yard setbacks to align with the decisions on appeals and consent orders on the current Auckland Unitary Plan rules which allow for carparking or hard stand surfaces (and in associated drainage) with limited storage height on Industrial zoned land within the National Grid Yard.</p> <p>AND</p> <p>Any additional or consequential relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The Overlay and its provisions should reflect the minimums allowed under the Auckland Unitary Plan, whereby the 'Yard' is measured at 12m in any direction from the outer edge of a National Grid support structure and 12m either side of the centerline of any overhead National Grid line, rather than up to 37m either side of 220kV transmission line. 		

- There is no reason for Waikato District Plan to have a wider restriction buffer than Auckland when the effect on the National Grid would be the same regardless of region.
- Auckland rules apply immediately adjoining the submitter's site.
- Since Auckland has the most recent case law on the National Grid network through the Auckland Unitary Plan appeals process, it is not unreasonable to consider that its provisions are suitable to meet the NPS for Electricity Transmission.

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.2 Restricted Discretionary Activities

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.104		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.2 Restricted Discretionary Activities		
Summary of Decision Requested	Retain Rule 14.4.2 RD3 Restricted Discretionary Activities, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports a restricted discretionary activity rule for earthworks that are not permitted activities. 		

Submitter Number:	576	Submitter:	Transpower New Zealand Ltd
Point Number	576.56		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.2 Restricted Discretionary Activities		
Summary of Decision Requested	Retain Rule 14.4.2 RD1 Restricted Discretionary Activities, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • It provides an appropriate consenting framework in which to consider new National Grid assets. • The distinction between identified areas and non-identified area is supported (however, noting that as outlined below, the non-complying activity status for identified areas is opposed). 		
Point Number	576.57		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.2 Restricted Discretionary Activities		
Summary of Decision Requested	Retain Rule 14.4.2 RD2 Restricted Discretionary Activities, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • It provides an appropriate consenting framework in which to consider new National Grid assets. • The distinction between identified areas and non-identified area is supported (however, noting that as outlined below, the non-complying activity status for identified areas is opposed). 		
Point Number	576.58		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.2 Restricted Discretionary Activities		
Summary of Decision Requested	<p>Retain Rule 14.4.2 RD3 Restricted Discretionary Activities, except for the amendments sought below</p> <p>AND</p> <p>Amend Rule 14.4.2 RD3 Restricted Discretionary Activities, as follows:</p> <p><i>Earthworks within the National Grid Yard that does not comply with one or more of the conditions (a)(e) or (d) of Rules 14.4.1.3(1) and 14.4.1.3(2) but complies with conditions (c), (d) and (e) of Rule 14.4.1.3(1).</i></p> <p><i>Discretion is restricted to:</i></p> <p>(a)</p> <p><i>(e) Technical advice provided by the National Grid owner (Transpower);</i></p> <p><i>(f) Any effects on National Grid support structures including the creation of an unstable batter</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the provision of standards specific to earthworks on the basis such activities can compromise the National Grid, and are a form of development contemplated by the NPSET. Specifically, earthworks restrictions are supported as earthworks have the potential to undermine transmission line structures, generate dust, reduce the clearances between the ground and conductors. • They have the potential to restrict the submitters ability to access the line and locate the heavy machinery required to maintain support structures around the lines and may lead to potential tower failure and significant constraints on the operation of the line. • Amendment is sought to Rule RD3 to include two additional matters of discretion to better reflect the range of issues relevant in the consideration of earthworks in proximity of the National Grid support structures. An important distinction is also sought for those earthworks which result in a reduced conductor clearance and which pose significant potential safety issues (condition (e)), compromise the stability of a National Grid support structure (condition (c)), and earthworks that result in a permanent loss of vehicular access to any National Grid support structure (condition (d)). For such earthworks, a non-complying activity status is sought. For remaining earthworks, a restricted discretionary activity status is supported where permitted condition (a) (being depth) is not complied with. 		
Point Number	576.59		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.2 Restricted Discretionary Activities		
Summary of Decision Requested	<p>Retain Rule 14.4.2.1 RD4 Restricted Discretionary Activities, except for the amendments sought below</p> <p>AND</p> <p>Amend Rule 14.4.2.1 RD4 Restricted Discretionary Activities, as follows:</p> <p><i>The subdivision of land in any zone within the National Grid Corridor that complies with all of the following conditions:</i></p> <p><i>(a) All resulting allotments intended to contain a sensitive land use must provide be able to demonstrate that they are capable of accommodating a building platform for the likely principal building(s) and any building(s) for a sensitive land use to be located outside of the National Grid Yard, other than where the allotments are for roads, access ways or</i></p>		

infrastructure; ~~or~~ and

(b) ...

Discretion is restricted to:

(a) The subdivision layout and design in regard to how this may impact on the operation, maintenance, upgrading and development of, including access to, the National Grid;

(b) ...

(d) The nature and location of any vegetation to be planted in the vicinity of National Grid transmission lines, and the how such landscaping will impact on the operation, maintenance, upgrade and development (including access) of the National Grid;

(e) The risk to the structural integrity of the National Grid;

(f) The extent to which the subdivision design and consequential development will minimise the potential reverse sensitivity on and amenity and nuisance effects of the National Grid asset

AND

Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.

Decision Reasons:

- The submitter supported the suite of rules for subdivision within the National Grid (Subdivision) Corridor: allotments are for roads, access ways or Subdivision within the National Grid Subdivision Corridor would be a restricted discretionary activity where the newly created lots are infrastructure; or capable of accommodating all building platforms outside the National Grid Yard.
- Where the subdivision application is unable to demonstrate that this can be achieved, a non-complying activity status would apply to the subdivision.
- A restricted discretionary activity status for subdivision provides an appropriate incentive to design subdivision layouts that avoid building sites within the National Grid Yard.
- Subdivision is considered the most effective point at which to ensure future reverse sensitivity effects, balance area maintenance access issues, and adverse effects of transmission lines (including amenity issues) are avoided.
- This can be achieved by designing subdivision layouts to properly accommodate transmission corridors (including, for example, through the creation of reserves and/or open space where buffer corridors are located).
- Slightly amended wording is sought to the rule to reflect the current approach.
- A minor reference is sought to the wording to make it clear both conditions (a) and (b) must be met, as appears the intent from the opening text to the rule.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.285		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.2 Restricted Discretionary Activities		
Summary of Decision Requested	<p>Amend Rule 14.4.2.1 RD4 Restricted Discretionary Activities in accordance with the submitter's relief sought for a new controlled activity subdivision rule ("14.XX"), as follows:</p> <p>(inter alia) ...</p> <p>RD4 14.4.2.1</p> <p><u>Except for subdivision in the Rural Zone provided for as a Controlled Activity under Rule 14.4.x.x, the subdivision of land in any zone within the National Grid Corridor that complies with all of the following conditions: ...</u></p> <p>Discretion is restricted to:</p> <p>(a) The subdivision layout and design in regard to how this may impact on the operation, maintenance, upgrading and development of the National Grid;</p> <p>(b) The ability to provide a complying building platform outside of the National Grid Yard;</p> <p>(c) The risk of electrical hazards affecting public or individual safety, and the risk of property damage;</p> <p>(d) The nature and location of any vegetation to be planted in the vicinity of National Grid transmission lines.</p> <p><u>RDX Subdivision in the Rural Zone which does not comply with activity specific standards for Controlled Activity subdivision in Rule CX 14.4.XX;</u></p> <p><u>Discretion is restricted to:</u></p> <p>(a) <u>The functional and operational needs of, and benefits derived from, the infrastructure</u></p> <p>(b) <u>The functional and operational needs of, and benefits derived from, the subdivision</u></p> <p>(c) <u>Maintenance of legal and physical vehicular access to the infrastructure</u></p> <p>AND</p> <p>Any consequential changes elsewhere in the plan to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none">• The submitter is opposed to Rule 14.4.2 RD4 and submit that a more pragmatic approach would be to provide for controlled subdivision of land containing the National Grid, with a back-up default to restricted discretionary activity status for subdivision that does not meet the suggested controlled activity rule conditions, whereby discretion could be reserved over ensuring existing legal and physical vehicular access to the National Grid Corridor.• There is no need to manage all subdivision via a restricted discretionary activity status.

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.4 Non-Complying Activities

Summary of Decision Requested

Delete Rule 14.4.4 NC1 Non-Complying Activities.

AND

Delete Rule 14.4.4 NC2 Non-Complying Activities.

AND

Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.

Decision Reasons:

- The Proposed District Plan is required to give effect to the NPSET. Policy 8 of the NPSET directs that within rural environments planning and development of the National Grid should seek to avoid adverse effects on certain identified environments (being outstanding natural landscapes, area of high natural character and recreation values and amenity and existing sensitive activities) areas.
- The wording of NPSET Policy 8 ("should seek to avoid") does not impose an absolute requirement for the National Grid to avoid all adverse effects. Rather, the NPSET recognises total avoidance is not always possible given the technical and operational requirements of the National Grid (as recognised in Policy 3 of the NPSET). On this basis, given the locational constraints of RSI, and the national significance of the National Grid (as provided for in the NPSET), the submitter supports a discretionary activity status for new structures associated with the National Grid within the identified areas. As a discretionary activity, a full assessment of effects would be required as well as a robust route, site and method selection process (Policy 4, NPSET), appropriate conditions imposed, and the application able to be granted or declined.
- The non-complying activity status of the activities provided in Rule NC 1 is inconsistent with the activity status for similar activities provided in Section 14.5.
- Section 14.5 relates to Electricity distribution (essentially local line companies). The most restrictive activity status for new overhead distribution lines, support structures or substations is as a discretionary activity where as the equivalent for the National Grid would be Non-Complying.
- The differing activity status does not reflect the national significance of the National Grid and requirement to give effect to the NPSET, and provides an inconsistent consenting framework for very similar activities with very similar visual and construction and ongoing operational effects.

Point Number

576.63

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.4 Non-Complying Activities

Summary of Decision Requested

Retain Rule 14.4.4 NC5 Non-Complying Activities, except for the amendments sought below;

AND

Amend Rule 14.4.4 NC5 Non-Complying Activities, as follows:

NC5 Any new building for a sensitive land use, or addition to an existing building that involves an increase in the building envelope or height for a sensitive land use, within the National Grid Yard

AND

Amend Rule 14.4.4 NC5 Non-Complying Activities, to clarify intent and application of the rules and provide better linkage to permitted activity rules.

AND

Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.

Decision Reasons:

- The submitter supports the provision of permitted activities status for certain activities and structures (specifically fences, network utilities, existing sensitive activity structures which do not increase the height or footprint and non-intensive/uninhabitable farm or horticultural buildings and structures) within the National Grid Yard, but also supports the provision of a non-complying activity status for new sensitive activities, or additions to existing sensitive activities, milking and dairy sheds and other intensive farm buildings, and any buildings and structures which do not meet safe conductor (line) clearances.
- A non-complying activity status is considered the most effective means of given effect to the NPSET's objective of managing the adverse effects of the network and managing the adverse effects of other activities on the network.
- A non-complying activity status most appropriately recognises and provides for the effective operation, maintenance, upgrading and development of the network, as required by NPSET Policy 2.
- A non-complying activity status is the best method to manage other activities to ensure the operation, maintenance, upgrading, and development of the network is not compromised, as required by NPSET Policy 10.
- A non-complying activity status recognises the policy directive within Policy 11 to identify an appropriate buffer corridor within which it can be expected that sensitive activities will generally not be provided for.
- NPSET Policy 10 contains the phrase 'avoid reverse sensitivity effects' and 'to ensure that the operation, maintenance, upgrading and development of the electricity transmission network is not compromised'. NPSET Policy 11 gives a clear direction that 'sensitive activities will generally not be provided for in plans and/or given resource consent'. The use of the words 'avoid' and 'ensure' and the phrase 'will generally not be provided for' provide a strong direction that cannot be achieved by use of the restricted discretionary activity status. Such policy direction can only be achieved by way of a non-complying activity status.
- A non-complying activity status promotes consistency in decision-making, and more effectively manages landowner expectations about what activities are appropriate or otherwise in the National Grid Yard.
- The Environment Court has noted in the past that there are many reasons why activities might have non-complying status in district plans: one of those reasons is the activity in question is, in some way, likely to produce significant adverse effects. This contrasts with the approach that a discretionary activity status implies that, in general, a particular activity is an efficient use and development of resources.
- Given the potential adverse effects that encroachments could have on the National Grid corridor, such an indication is inappropriate.
- Minor amendment is sought to clarify the intent and application of the rules and provide better linkage to the permitted activity rules.

Point Number

576.64

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.4 Non-Complying Activities

Summary of Decision Requested

Retain Rule 14.4.4 NC9 Non-Complying Activities, except for the amendments sought below;

AND

Amend Rule 14.4.4 -NC9 Non-Complying Activities, as follows:

NC9 Dairy/milking sheds (excluding accessory structures and buildings), commercial glass houses, PSA structures or buildings for intensive farming within the National Grid Yard

AND

Amend Rule 14.4.4 NC9 Non-Complying Activities, to clarify intent and application of the rules and provide better linkage to permitted activity rules.

AND

Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.

Decision Reasons:

- The submitter supports the provision of permitted activities status for certain activities and structures (specifically fences, network utilities, existing sensitive activity structures which do not increase the height or footprint and non-intensive/uninhabitable farm or horticultural buildings and structures) within the National Grid Yard, but also supports the provision of a non-complying activity status for new sensitive activities, or additions to existing sensitive activities, milking and dairy sheds and other intensive farm buildings, and any buildings and structures which do not meet safe conductor (line) clearances.
- A non-complying activity status is considered the most effective means of given effect to the NPSET's objective of managing the adverse effects of the network and managing the adverse effects of other activities on the network.
- A non-complying activity status most appropriately recognises and provides for the effective operation, maintenance, upgrading and development of the network, as required by NPSET Policy 2.
- A non-complying activity status is the best method to manage other activities to ensure the operation, maintenance, upgrading, and development of the network is not compromised, as required by NPSET Policy 10.
- A non-complying activity status recognises the policy directive within Policy 11 to identify an appropriate buffer corridor within which it can be expected that sensitive activities will generally not be provided for.
- NPSET Policy 10 contains the phrase 'avoid reverse sensitivity effects' and 'to ensure that the operation, maintenance, upgrading and development of the electricity transmission network is not compromised'. NPSET Policy 11 gives a clear direction that 'sensitive activities will generally not be provided for in plans and/or given resource consent'. The use of the words 'avoid' and 'ensure' and the phrase 'will generally not be provided for' provide a strong direction that cannot be achieved by use of the restricted discretionary activity status. Such policy direction can only be achieved by way of a non-complying activity status.
- A non-complying activity status promotes consistency in decision-making, and more effectively manages landowner expectations about what activities are appropriate or otherwise in the National Grid Yard.
- The Environment Court has noted in the past that there are many reasons why activities might have non-complying status in district plans: one of those reasons is the activity in question is, in some way, likely to produce significant adverse effects. This contrasts with the approach that a discretionary activity status implies that, in general, a particular activity is an efficient use and development of resources.
- Given the potential adverse effects that encroachments could have on the National Grid corridor, such an indication is inappropriate.
- Minor amendment is sought to clarify the intent and application of the rules and provide better linkage to the permitted activity rules.

Point Number

576.65

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.4 Non-Complying Activities

Summary of Decision Requested

Retain Rule 14.4.4 NC10 Non-Complying Activities, except for the amendments sought below

AND

Amend Rule 14.4.4 NC10 Non-Complying Activities, as follows:

NC10 Any subdivision of land in any zone within the National Grid Corridor that does not comply with ~~one or more of the conditions of~~ Rule 14.4.2.1 (RD4)

AND

Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.

Decision Reasons:

- The submitter supports the provision of permitted activities status for certain activities and structures (specifically fences, network utilities, existing sensitive activity structures which do not increase the height or footprint and non-intensive/uninhabitable farm or horticultural buildings and structures) within the National Grid Yard, but also supports the provision of a non-complying activity status for new sensitive activities, or additions to existing sensitive activities, milking and dairy sheds and other intensive farm buildings, and any buildings and structures which do not meet safe conductor (line) clearances.
- A non-complying activity status is considered the most effective means of given effect to the NPSET's objective of managing the adverse effects of the network and managing the adverse effects of other activities on the network.
- A non-complying activity status most appropriately recognises and provides for the effective operation, maintenance, upgrading and development of the network, as required by NPSET Policy 2.
- A non-complying activity status is the best method to manage other activities to ensure the operation, maintenance, upgrading, and development of the network is not compromised, as required by NPSET Policy 10.
- A non-complying activity status recognises the policy directive within Policy 11 to identify an appropriate buffer corridor within which it can be expected that sensitive activities will generally not be provided for.
- NPSET Policy 10 contains the phrase 'avoid reverse sensitivity effects' and 'to ensure that the operation, maintenance, upgrading and development of the electricity transmission network is not compromised'. NPSET Policy 11 gives a clear direction that 'sensitive activities will generally not be provided for in plans and/or given resource consent'. The use of the words 'avoid' and 'ensure' and the phrase 'will generally not be provided for' provide a strong direction that cannot be achieved by use of the restricted discretionary activity status. Such policy direction can only be achieved by way of a non-complying activity status.
- A non-complying activity status promotes consistency in decision-making, and more effectively manages landowner expectations about what activities are appropriate or otherwise in the National Grid Yard.
- The Environment Court has noted in the past that there are many reasons why activities might have non-complying status in district plans: one of those reasons is the activity in question is, in some way, likely to produce significant adverse effects. This contrasts with the approach that a discretionary activity status implies that, in general, a particular activity is an efficient use and development of resources.
- Given the potential adverse effects that encroachments could have on the National Grid corridor, such an indication is inappropriate.

- Minor amendment is sought to clarify the intent and application of the rules and provide better linkage to the permitted activity rules.

Point Number 576.66

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.4 Non-Complying Activities

Summary of Decision Requested **Add** a new non-complying activity (NC11) to Rule 14.4.4 Non-Complying Activities, as follows:

NC11 Earthworks within the National Grid Yard that is not a permitted activity under Rule 14.4.1.P3 or a restricted discretionary activity under Rule 14.4.2.RD3.

AND

Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.

Decision Reasons:

- NC11 relates to earthworks and provides a linkage to the sought amendment to restricted discretionary rule RD3, and provides a non-complying activity status for earthworks which do not achieve the necessary conductor clearance distances to ensure safety, do not maintain access to support structures, or earthworks which compromise the stability of a support structure. Given the safety risks of the works and potential effects on the operation, maintenance and upgrade of the assets, a non-complying activity is sought to reflect that the activity is not appropriate.
- A non-complying activity status also gives a very strong policy signal that under-build and earthworks that increase ground level or result in destabilisation of a National Grid support structure or permanently physically restrict vehicular access, within the National Grid Yard are not appropriate as they can potentially compromise the security of supply, safety, and impinge on the ability of Transpower to maintain its assets. Whilst an application can still be made under the RMA, it would need to show the proposed activity would not be contrary to the objectives and policies of the District Plan or that its adverse effects on the environment would be no more than minor

Point Number 576.67

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.4 Non-Complying Activities

Summary of Decision Requested **Add** a new non-complying activity (NC12) to Rule 14.4.4 Non-Complying Activities, as follows:

NC12 Any building or structure within the National Grid Yard that is not a permitted activity under Rule 14.4.1, Restricted discretionary activity under Rule 14.4.2 or Discretionary activity under Rule 14.4.3.

AND

Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.

Decision Reasons:

- It provides a linkage to the other rules within Section 14.4.1 relating to the National Grid and acts as a default 'catch all' rule.
- A non-complying activity status also gives a very strong policy signal that under-build and earthworks that increase ground level or result in destabilisation of a National Grid support structure or permanently physically restrict vehicular access, within the National Grid Yard are not appropriate as they can potentially compromise the security of supply, safety, and impinge on the ability of the submitter to maintain its assets. Whilst an application can still be made under the RMA, it would need to show the proposed activity would not be contrary to the objectives and policies of the District Plan or that its adverse effects on the environment would be no more than minor.

Point Number 576.82

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.4 Non-Complying Activities

Summary of Decision Requested **Retain** Rule 14.4.4 NC3 Non-Complying Activities, except for the amendment sought below

AND

Amend Rule 14.4.4 NC3 Non-Complying Activities, to clarify intent and application of the rules and provide better linkage to permitted activity rules.

AND

Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.

Decision Reasons:

- The submitter supports the provision of permitted activities status for certain activities and structures (specifically fences, network utilities, existing sensitive activity structures which do not increase the height or footprint and non-intensive/uninhabitable farm or horticultural buildings and structures) within the National Grid Yard, but also supports the provision of a non-complying activity status for new sensitive activities, or additions to existing sensitive activities, milking and dairy sheds and other intensive farm buildings, and any buildings and structures which do not meet safe conductor (line) clearances.
- A non-complying activity status is considered the most effective means of given effect to the NPSET's objective of managing the adverse effects of the network and managing the adverse effects of other activities on the network.
- A non-complying activity status most appropriately recognises and provides for the effective operation, maintenance, upgrading and development of the network, as required by NPSET Policy 2.
- A non-complying activity status is the best method to manage other activities to ensure the operation, maintenance, upgrading, and development of the network is not compromised, as required by NPSET Policy 10.
- A non-complying activity status recognises the policy directive within Policy 11 to identify an appropriate buffer corridor within which it can be expected that sensitive activities will generally not be provided for.
- NPSET Policy 10 contains the phrase 'avoid reverse sensitivity effects' and 'to ensure that the operation, maintenance, upgrading and development of the electricity transmission network is not compromised'. NPSET Policy 11 gives a clear direction that 'sensitive activities will generally not be provided for in plans and/or given resource consent'. The use of the words 'avoid' and 'ensure' and the phrase 'will generally not be provided for' provide a strong direction that cannot be achieved by use of the restricted discretionary activity status. Such policy direction can only be achieved by way of a non-complying activity status.
- A non-complying activity status promotes consistency in decision-making, and more effectively manages landowner expectations about what activities are appropriate or otherwise in the National Grid Yard.
- The Environment Court has noted in the past that there are many reasons why activities might have non-complying status in district plans: one of those reasons is the activity in question is, in some way, likely to produce significant adverse effects. This contrasts with the approach that a discretionary activity status implies that, in general, a particular activity is an efficient use and development of resources.
- Given the potential adverse effects that encroachments could have on the National Grid corridor, such an indication is inappropriate.
- Minor amendment is sought to clarify the intent and application of the rules and provide better linkage to the permitted activity rules.

Point Number 576.83

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.4 Non-Complying Activities

Summary of Decision Requested **Retain** Rule 14.4.4 NC4 Non-Complying Activities, except for the amendments sought below

AND

Amend Rule 14.4.4 NC4 Non-Complying Activities, to clarify intent and application of the rules and provide better linkage to permitted activity rules.

AND

Amend the Proposed District Plan to make consequential amendments to address the matters raised in the submission.

Decision Reasons:

- The submitter supports the provision of permitted activities status for certain activities and structures (specifically fences, network utilities, existing sensitive activity structures which do not increase the height or footprint and non-intensive/uninhabitable farm or horticultural buildings and structures) within the National Grid Yard, but also supports the provision of a non-complying activity status for new sensitive activities, or additions to existing sensitive activities, milking and dairy sheds and other intensive farm buildings, and any buildings and structures which do not meet safe conductor (line) clearances.
- A non-complying activity status is considered the most effective means of given effect to the NPSET's objective of managing the adverse effects of the network and managing the adverse effects of other activities on the network.
- A non-complying activity status most appropriately recognises and provides for the effective operation, maintenance, upgrading and development of the network, as required by NPSET Policy 2.
- A non-complying activity status is the best method to manage other activities to ensure the operation, maintenance, upgrading, and development of the network is not compromised, as required by NPSET Policy 10.

- A non-complying activity status recognises the policy directive within Policy 11 to identify an appropriate buffer corridor within which it can be expected that sensitive activities will generally not be provided for.
- NPSET Policy 10 contains the phrase 'avoid reverse sensitivity effects' and 'to ensure that the operation, maintenance, upgrading and development of the electricity transmission network is not compromised'. NPSET Policy 11 gives a clear direction that 'sensitive activities will generally not be provided for in plans and/or given resource consent'. The use of the words 'avoid' and 'ensure' and the phrase 'will generally not be provided for' provide a strong direction that cannot be achieved by use of the restricted discretionary activity status. Such policy direction can only be achieved by way of a non-complying activity status.
- A non-complying activity status promotes consistency in decision-making, and more effectively manages landowner expectations about what activities are appropriate or otherwise in the National Grid Yard.
- The Environment Court has noted in the past that there are many reasons why activities might have non-complying status in district plans: one of those reasons is the activity in question is, in some way, likely to produce significant adverse effects. This contrasts with the approach that a discretionary activity status implies that, in general, a particular activity is an efficient use and development of resources.
- Given the potential adverse effects that encroachments could have on the National Grid corridor, such an indication is inappropriate.
- Minor amendment is sought to clarify the intent and application of the rules and provide better linkage to the permitted activity rules.

Point Number 576.84

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.4 Non-Complying Activities

Summary of Decision Requested **Retain** Rule 14.4.4 NC6 Non-Complying Activities, as notified;
AND
Retain Rule 14.4.4 NC7 Non-Complying Activities, as notified;
AND
Retain Rule 14.4.4 NC8 Non-Complying Activities, as notified.

Decision Reasons:

- The submitter supports the provision of permitted activities status for certain activities and structures (specifically fences, network utilities, existing sensitive activity structures which do not increase the height or footprint and non-intensive/uninhabitable farm or horticultural buildings and structures) within the National Grid Yard, but also supports the provision of a non-complying activity status for new sensitive activities, or additions to existing sensitive activities, milking and dairy sheds and other intensive farm buildings, and any buildings and structures which do not meet safe conductor (line) clearances.
- A non-complying activity status is considered the most effective means of given effect to the NPSET's objective of managing the adverse effects of the network and managing the adverse effects of other activities on the network.
- A non-complying activity status most appropriately recognises and provides for the effective operation, maintenance, upgrading and development of the network, as required by NPSET Policy 2.
- A non-complying activity status is the best method to manage other activities to ensure the operation, maintenance, upgrading, and development of the network is not compromised, as required by NPSET Policy 10.
- A non-complying activity status recognises the policy directive within Policy 11 to identify an appropriate buffer corridor within which it can be expected that sensitive activities will generally not be provided for.
- NPSET Policy 10 contains the phrase 'avoid reverse sensitivity effects' and 'to ensure that the operation, maintenance, upgrading and development of the electricity transmission network is not compromised'. NPSET Policy 11 gives a clear direction that 'sensitive activities will generally not be provided for in plans and/or given resource consent'. The use of the words 'avoid' and 'ensure' and the phrase 'will generally not be provided for' provide a strong direction that cannot be achieved by use of the restricted discretionary activity status. Such policy direction can only be achieved by way of a non-complying activity status.
- A non-complying activity status promotes consistency in decision-making, and more effectively manages landowner expectations about what activities are appropriate or otherwise in the National Grid Yard.
- The Environment Court has noted in the past that there are many reasons why activities might have non-complying status in district plans: one of those reasons is the activity in question is, in some way, likely to produce significant adverse effects. This contrasts with the approach that a discretionary activity status implies that, in general, a particular activity is an efficient use and development of resources.
- Given the potential adverse effects that encroachments could have on the National Grid corridor, such an indication is inappropriate.

Submitter Number: 680 **Submitter:** Federated Farmers of New Zealand

Point Number 680.286

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.4 Non-Complying Activities

Summary of Decision Requested **Amend** Rule 14.4.4 NC3 Non-Complying Activities, as follows:
NC3 Except within the Rural Zone, any activity within the National Grid Yard that does not comply with one or more of the conditions of Rule 14.4.1.1
AND
Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter is opposed to the requirement in Rule 14.4.4 for activity-specific conditions that are not met in Rule 14.4.1 or 14.4.2 to default to a non-complying activity status within the Rural Zone.
- It is not necessary to trigger a default to non-complying activity status, in this situation. Enabling farming activity should be afforded a higher priority in the Rural Zone, in order to provide for efficient utilisation of the productive rural land resource. In this regard, a restricted discretionary activity status would be appropriate to ensure sufficient consideration of the relative priorities to be afforded to farming, versus management of the National Grid. There is little or no environmental benefit in triggering non-complying activity status, yet the pathway to granting consent is much more burdensome for the applicant. Farmers should not be presented with potentially insurmountable consent hurdles in seeking to manage their farms.
- Where activity-specific conditions are not able to be complied with, appropriate consideration could be given via a consent pathway which triggers *Restricted Discretionary Activity* status, with appropriate discretion restricted to the benefits to be had from the National Grid, and the benefits to be had from enabling minor farming activity, and the effects of non-compliance with the relevant specified permitted activity or controlled activity standard(s)
- Please refer to our relief sought in respect of Rules 14.4.1 and 14.4.2.

Point Number 680.287

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.4 Non-Complying Activities

Summary of Decision Requested **Amend** Rule 14.4.4 NC4 Non-Complying Activities, as follows:
NC4 Except within the Rural Zone, any activity within the National Grid Yard that does not comply with one or more of the conditions of Rule 14.4.1.2
AND
Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter is opposed to the requirement in Rule 14.4.4 for activity-specific conditions that are not met in Rule 14.4.1 or 14.4.2 to default to a non-complying activity status within the Rural Zone.
- It is not necessary to trigger a default to non-complying activity status, in this situation. Enabling farming activity should be afforded a higher priority in the Rural Zone, in order to provide for efficient utilisation of the productive rural land resource. In this regard, a restricted discretionary activity status would be appropriate to ensure sufficient consideration of the relative priorities to be afforded to farming, versus management of the National Grid. In this regard, a restricted discretionary activity status would be appropriate to ensure sufficient consideration of the relative priorities to be afforded to farming, versus management of the National Grid. There is little or no environmental benefit in triggering non-complying activity status, yet the pathway to granting consent is much more burdensome for the applicant. Farmers should not be presented with potentially insurmountable consent hurdles in seeking to manage their farms. Where activity-specific conditions are not able to be complied with, appropriate consideration could be given via a consent pathway which triggers <i>Restricted Discretionary Activity</i> status, with appropriate discretion restricted to the benefits to be had from the National Grid, and the benefits to be had from enabling minor farming activity, and the effects of non-compliance with the relevant specified permitted activity or controlled activity standard(s). Please refer to our relief sought in respect of Rules 14.4.1 and 14.4.2.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.12		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.4 Non-Complying Activities		
Summary of Decision Requested	<p>Amend Rule 14.4.4 NC2 Non-Complying Activities as follows:</p> <p><i>Transformers, substations and switching stations associated with the National Grid located within identified areas identified areas</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Minor amendment to remove duplication. 		

Submitter Number:	766	Submitter:	Nicky Hogarth
Organisation:	Holcim (New Zealand) Limited		
Point Number	766.9		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.4 National Grid > 14.4.4 Non-Complying Activities		
Summary of Decision Requested	<p>Amend Rule 14.4.4 Non-Complying Activities by reducing yard setbacks to align with decisions on appeals and consent orders, in the current Auckland Unitary Plan rules which allow for carparking or hard stand surfaces (and associated drainage) with limited storage height on Industrial zoned land within the National Grid Yard.</p> <p>AND</p> <p>Any additional or consequential relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The Overlay and its provisions should reflect the minimums allowed under the Auckland Unitary Plan, whereby the 'Yard' is measured at 12m in any direction from the outer edge of a National Grid support structure and 12m either side of the centerline of any overhead National Grid line, rather than up to 37m for a 220kV transmission line. There is no reason for Waikato District Plan to have a wider restriction buffer than Auckland when effect on the National Grid would be the same regardless of region. Auckland rules apply immediately adjoining the submitter's site. Since Auckland has the most recent case law on the National Grid network through the Auckland Unitary Plan appeals process, it is not unreasonable to consider that its provisions are suitable to meet the NPS for Electricity Transmission. 		

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.1 Permitted Activities

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.52		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 14.5.1.1 Permitted Activities relating to P2 and P3 Overhead distribution lines to allow for new overhead lines to be constructed in the road corridor adjacent to industrial and open space zones.</p> <p>AND</p> <p>Amend Rule 14.5.1.1 Permitted Activities relating to P2 and P3 Overhead distribution lines to allow for new overhead lines to be constructed in the road corridor adjacent to pockets of residential zoning in an otherwise predominantly rural or industrial zone.</p>		
Decision Reasons:	<ul style="list-style-type: none"> P2 and P3 only allow for new overhead lines in Rural Zone and roads adjacent to the Rural Zone. This needs to allow new overhead lines in Industrial/Heavy Industrial zones at least. Substations are allowed as a Permitted Activity in Heavy Industrial Zones but not overhead lines. 		
Point Number	405.53		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 14.5.1.2 Permitted Activities relating to P4 Substations and associated transformers and switching stations to allow for construction of substations in the Rural Zone.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Many of the sites Counties Power utilities are located are in the Rural Zone. 		
Point Number	405.92		

Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.1 Permitted Activities
Summary of Decision Requested	Amend Rule 14.5.1.2 (a) (iii) Permitted Activities relating to P4 Substations and associated transformers and switching stations to increase the floor area to 250m2 per ancillary building.
Decision Reasons:	<ul style="list-style-type: none"> A typical switch room (submitter presumes this is what is meant by "ancillary building") have a floor area up to 250m2.

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.106		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.1 Permitted Activities		
Summary of Decision Requested	Delete the activity specific condition 14.5.1.3 in Rule 14.5.1 Permitted Activities, relating to P5 Construction or alteration of a building for a sensitive land use. AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> NZCEP34:2001 sets out distances that apply within proximity to electrical distribution lines. The submitter does not consider that it is necessary to require additional requirements in the District Plan. The distances sought in 14.5.1.3 are greater than those required by NZCEP34:2001. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.289		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.1 Permitted Activities		
Summary of Decision Requested	Amend Activity Specific conditions 14.5.1.1 relating to P2 Overhead distribution lines and support structures within the Rural Zone and P3 overhead distribution lines and support structures within road or unformed road located adjacent to the Rural Zone, as follows: (a) <i>Overhead distribution lines and support structures that comply with the following:</i> (i) Do not exceed a voltage up to and including 110kV; and (ii) Do not exceed a maximum height of 25m; or (iii) Do not exceed a maximum height of 30m for colocation of at least two operators; and (iv) Are not located within an Identified Area. AND Any necessary consequential amendments needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter opposes parts of Rule 14.5.1 and conditionally support other parts of it. In the Rural Zone, there should be few restrictions on overhead electricity distribution lines. In rural areas, it is inefficient to require undergrounding of electricity and other lines services, because of the greater distances involved compared to urban areas. If the Council is minded to permit co-located overhead lines at a permitted height of 30 metres, there is practically no visual difference between co-located lines and non-co-located lines mounted on poles up to 30 metres height, and therefore the maximum permitted height should be simplified to 30 metres. Identified Areas within the Infrastructure and Energy chapter covers the following areas and items identified within the proposed plan: Urban Expansion Area Significant Natural Area Landscape and Natural Character Areas Outstanding Natural Feature Outstanding Natural Landscape Significant Amenity Landscape Outstanding Natural Character High Natural Character Heritage Item Heritage Precinct Maaori Site of Significance Maaori Area of Significance Notable Tree Identified Areas overlay many farms and the submitter questions the wisdom of restricting farming activity in these areas by imposing extra requirements on infrastructure development. The submitter doubts that there will be any commensurate environmental benefit from requiring farming activity, and ancillary activity such as construction of electricity distribution lines required to service farms, to trigger resource consent where lines are above-ground. Electricity lines for farms are virtually always characterised by overhead power lines. Agriculture and pastoralism form part of the landscape character of rural areas. The wide open spaces and low intensity of built form means these areas are able to absorb development and land use more easily than urban areas. Submitter questions the validity of extra layers of amenity analysis to these areas, for what arguably amounts to little or no environmental benefit. It is not appropriate to require infrastructure within any <i>Identified Area</i> that is within the Rural Zone to have to seek resource consent for overhead electricity distribution lines. Getting services into rural areas is difficult and costly - even for overhead lines. Requiring underground lines in the wide open spaces of rural areas, even though these might exhibit qualities identified within these 'Identified Areas', is nonsensical. Farmers shouldn't be burdened by unnecessary resource consent requirements aimed at managing visual amenity, landscape, natural character and natural features, such as the Identified Area provisions are aimed at. The trigger for resource consent for such activity is hugely inefficient and presents a highly onerous and inappropriate burden on farmers who need to install, maintain, repair, replace or upgrade infrastructure, including associated earthworks, albeit that these may be within an <i>Identified Area</i>, in order to develop, use or subdivide farms. Separation distances for sensitive activities (including 'residential activity') in relation to overhead electricity distribution lines, will result in arguably unnecessary cost and delay burden for farm dwellings in seeking resource consent for building additions to existing dwellings that may be within close proximity to existing power lines, for little or no environmental benefit. 		
Point Number	680.290		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.1 Permitted Activities		
Summary of Decision Requested	Amend Activity specific condition 14.5.1.3 P5 relating to Construction or alteration of a building for a sensitive land use, as follows: (a) Except within the Rural Zone, the construction or alteration of a building for a sensitive land use that complies with all of the following conditions... AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter opposes parts of Rule 14.5.1 and conditionally support other parts of it. In the Rural Zone, there should be few restrictions on overhead 		

electricity distribution lines. In rural areas, it is inefficient to require undergrounding of electricity and other lines services, because of the greater distances involved compared to urban areas. If the Council is minded to permit co-located overhead lines at a permitted height of 30 metres, there is practically no visual difference between co-located lines and non-co-located lines mounted on poles up to 30 metres height, and therefore the maximum permitted height should be simplified to 30 metres.

- Identified Areas within the Infrastructure and Energy chapter covers the following areas and items identified within the proposed plan:

Urban Expansion Area
 Significant Natural Area
 Landscape and Natural Character Areas
 Outstanding Natural Feature
 Outstanding Natural Landscape
 Significant Amenity Landscape
 Outstanding Natural Character
 High Natural Character
 Heritage Item
 Heritage Precinct
 Maaori Site of Significance
 Maaori Area of Significance
 Notable Tree

Identified Areas overlay many farms and the submitter questions the wisdom of restricting farming activity in these areas by imposing extra requirements on infrastructure development. The submitter doubts that there will be any commensurate environmental benefit from requiring farming activity, and ancillary activity such as construction of electricity distribution lines required to service farms, to trigger resource consent where lines are above-ground. Electricity lines for farms are virtually always characterised by overhead power lines. Agriculture and pastoralism form part of the landscape character of rural areas. The wide open spaces and low intensity of built form means these areas are able to absorb development and land use more easily than urban areas. Submitter questions the validity of extra layers of amenity analysis to these areas, for what arguably amounts to little or no environmental benefit.

- It is not appropriate to require infrastructure within any *Identified Area* that is within the Rural Zone to have to seek resource consent for overhead electricity distribution lines. Getting services into rural areas is difficult and costly - even for overhead lines. Requiring underground lines in the wide open spaces of rural areas, even though these might exhibit qualities identified within these 'Identified Areas', is nonsensical. Farmers shouldn't be burdened by unnecessary resource consent requirements aimed at managing visual amenity, landscape, natural character and natural features, such as the Identified Area provisions are aimed at.
- The trigger for resource consent for such activity is hugely inefficient and presents a highly onerous and inappropriate burden on farmers who need to install, maintain, repair, replace or upgrade infrastructure, including associated earthworks, albeit that these may be within an *Identified Area*, in order to develop, use or subdivide farms.
- Separation distances for sensitive activities (including 'residential activity') in relation to overhead electricity distribution lines, will result in arguably unnecessary cost and delay burden for farm dwellings in seeking resource consent for building additions to existing dwellings that may be within close proximity to existing power lines, for little or no environmental benefit.

Decision Reasons:	<ul style="list-style-type: none"> Provides for lines and support structures as permitted if not exceeding 110KV, a height of 25m or 30m for co-location of two operators. 		
Point Number	836.19		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.1 Permitted Activities		
Summary of Decision Requested	Amend Activity specific condition 14.5.1.2 Permitted activities relating to P4 as follows: <i>(a) Substations and associated transformers and switching stations distributing electricity that comply with the following:</i> ... <i>(ii) Are located within the Business Zone, Business Town Centre Zone, Tamahere Business zone, Te Kowhai Airpark ZONE, Industrial Zone, Heavy Industrial Zone and Motor Sport and Recreation Zone; <u>and the Rural Zone.</u></i> ...		
Decision Reasons:	<ul style="list-style-type: none"> The Proposed District Plan permits lines and support structures in the Rural Zone, and as it is not considered to be a sensitive receiving environment the submitter believed substations and associated transformers and switching stations should also be permitted. 		

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.2 Restricted Discretionary Activities

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.55		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.2 Restricted Discretionary Activities		
Summary of Decision Requested	Amend Rule 14.5.2 RD1 (a) (i) Overhead distribution lines and support structures not exceeding a voltage up to and including 110kV: Not located within the Rural Zone, to allow for new overhead lines to be constructed in the Road corridor adjacent to industrial and open space zones as a Permitted activity. AND Amend Rule 14.5.2 RD1 (a) (i) Overhead distribution lines and support structures not exceeding a voltage up to and including 110kV: Not located within the Rural Zone, to allow new overhead lines to be constructed in the road corridor adjacent to pockets of Residential zoning in an otherwise predominantly rural or industrial zone, as a Permitted Activity.		
Decision Reasons:	<ul style="list-style-type: none"> Overhead lines should be permitted in Heavy Industrial zones and roads adjacent to Heavy Industrial Zones and in roads adjacent to pockets of Residential zoning in a predominantly Rural Zone. 		
Point Number	405.93		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.2 Restricted Discretionary Activities		
Summary of Decision Requested	Amend Rule 14.5.2 RD2 (a) (iv) Construction or alteration of a building for a sensitive land use that does not comply with Rule 14.5.1.3, so construction of ANY building within the vicinity of overhead electricity lines must comply with the New Zealand Electrical Code of Practice for Electrical Safe Distances (NZECP34:2001).		
Decision Reasons:	<ul style="list-style-type: none"> Construction or alteration of ANY building within the vicinity of overhead electricity lines should comply with the New Zealand Electrical Code of Practice for Electrical Safe Distances (NZECP34:2001). 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.291		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.2 Restricted Discretionary Activities		
Summary of Decision Requested	Amend Rule 14.5.2 RD1 (a) Restricted Discretionary Activities, as follows:		

(a) Except within the Rural Zone, overhead distribution lines and support...

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- This is consequential relief in relation to relief sought in respect of Rule 14.5.1.

Point Number

680.292

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.2 Restricted Discretionary Activities

Summary of Decision Requested

Amend Rule 14.5.2 RD2 Construction or alteration of a building for a sensitive land use that does not comply with Rule 14.5.1.3, as follows:

RD2 Except within the Rural Zone, construction or alteration of a building for a sensitive land use ...

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- This is consequential relief sought in relation to relief sought in respect of Rule 14.5.1

Point Number

680.293

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.2 Restricted Discretionary Activities

Summary of Decision Requested

Add a new Rule RD3 to Rule 14.5.2 Restricted Discretionary Activities, as follows:

RD3 Construction of electricity distribution lines in the Rural Zone that do not comply with Rule 14.5.1.1

(a) Discretion is restricted to:

(i) Effects on the amenity values from non-compliance with the permitted activity standard;

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- This is consequential relief sought in relation to relief sought in respect of Rule 14.5.1.

Submitter Number:

831

Submitter:

Gabrielle Parson

On behalf of:

Raglan Naturally

Point Number

831.7

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.2 Restricted Discretionary Activities

Summary of Decision Requested

Amend Rule 14.5.2 RD1 Restricted Discretionary Activities, to require existing lines to be underground when new line work is undertaken.

Decision Reasons:

- Overhead power/phone lines currently obstruct views and are generally thought to be unattractive.
- The cost makes it unlikely that all lines will be underground in terms of this Proposed District Plan, nevertheless it can remain an objective.

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.2 Restricted Discretionary Activities

Summary of Decision Requested

Delete Rule 14.5.2 RD2 Restricted Discretionary Activities

AND

Add a new non-complying activity rule as follows:

14.5.4 Non-Complying Activities

The activities listed below are non-complying activities:

NC1

Construction or alteration of a building for a sensitive land use that does not comply with Rule 14.5.1.3 (a).

Decision Reasons:

- Requests this becomes a non-complying activity to ensure such activities are discouraged

Point Number

836.24

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.2 Restricted Discretionary Activities

Summary of Decision Requested

Amend the matters of discretion in Rule 14.5.2 RD1 Restricted Discretionary Activities as follows:

(a) Discretion is restricted to:

(i) The functional need and operational need of, and benefits derived from, the infrastructure;

(ii) The extent to which alternative technologies and techniques have been considered;

(iii) The extent to which co-location of overhead lines is technically, economically and practically reasonable;

(iv) The extent to which the proposal is in accordance with relevant industry standards and meets specified clearance requirements for operational and safety reasons;

(v) The extent to which the proposal will adversely affect the amenity values of the site and locality;

(vi) The extent to which there are difficult ground conditions, topography or obstructions which make undergrounding impractical.

Decision Reasons:

- No reasons provided.

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.3 Discretionary Activities

Submitter Number:	405	Submitter:	Counties Power Limited
Point Number	405.94		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.3 Discretionary Activities		
Summary of Decision Requested	Amend Rule 14.5.3 D3 Discretionary Activities to increase the floor area of ancillary buildings to 250m2 as a permitted activity.		
Decision Reasons:	<ul style="list-style-type: none">• Switch rooms cannot be accommodated in a gross floor area of 100m2.		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.159		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.3 Discretionary Activities		
Summary of Decision Requested	Retain Rule 14.5.3(a) D2 Discretionary activities.		
Decision Reasons:	<ul style="list-style-type: none">• The submitter supports Discretionary activity Rule D2, as this level of resource consent activity provides the appropriate level of protection and assessment to provide protection as required under section 6 of the Resource Management Act 1991.		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.294		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.5 Electrical distribution > 14.5.3 Discretionary Activities		
Summary of Decision Requested	Amend Rule 14.5.3 Discretionary Activities, as follows: <i>(a) Except within the Rural Zone, the activities listed below are discretionary activities...</i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none">• The submitter opposes Rule 14.5.3. In the Rural Zone, it is unnecessary to require overhead electricity distribution lines to have to obtain resource consent for a Discretionary Activity. In rural areas, it is inefficient to require undergrounding of electricity and other lines services, because of the greater distances involved compared to urban areas. Please refer to relief sought in relation to Rules 14.5.1 and 14.5.2.		

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.1 Permitted Activities

Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Permitted activity Rule P2, as the activity specific condition ensures that the activity will provide protection as required under section 6 of the Resource Management Act 1991. 		
Point Number	559.162		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.1 Permitted Activities		
Summary of Decision Requested	Retain activity specific condition 14.6.1.2(a)(v) relating to P3 Research and exploratory-scale investigations for renewable electricity generation activities.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Permitted activity Rule P3, as the activity specific condition ensures that the activity will provide protection as required under section 6 of the Resource Management Act 1991. 		

Submitter Number:	580	Submitter:	Andrew Feierabend
Organisation:	Meridian Energy Limited		
Point Number	580.5		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.1 Permitted Activities		
Summary of Decision Requested	<p>Amend the activity-specific conditions in Rule 14.6.1.2(a)(ii) for research and exploratory-scale investigations for renewable electricity generation activities, as follows:</p> <p><i>(ii) The height of any equipment must not exceed <u>80m</u> the building height limit of the zone in which they are located by more than 3m;</i></p> <p>AND</p> <p>Amend the Proposed District Plan as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The proposed height limit is too low to practically allow for meaningful investigations of potential wind energy at the height required for large-scale wind farms. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.295		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Activity specific standard 14.6.1.1 (a)(a) relating to P1 Small-scale electricity generation and P2 community scale electricity generation, as follows:</p> <p><i>(a) Small scale electricity generation and community scale electricity generation that comply with each of the following conditions where applicable:</i></p> <p><i>(a) Is not located within an Identified Area, <u>except within the Rural Zone, where small scale electricity generation and community scale electricity generation are permitted in any Identified Area;</u></i></p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter conditionally support Rule 14.6.1 including the definitions of 'small-scale' and 'community-scale' electricity generation, provided that the activity-specific restrictions on Identified Areas is removed. Identified Areas overlay many farms and the submitter questions the wisdom of constraining ability of farms to utilise small-scale and appropriately sized community-scale electricity generation in such areas, especially where this could augment the resilience of farming activity in remoter rural areas. The submitter doubts that there will be any commensurate environmental benefit from requiring small-scale and appropriately sized community-scale electricity generation, to trigger resource consent where these are proposed to be located within an Identified Area that is within a Rural Zone. In rural areas, it is inappropriate to require resource consent for small-scale and community-scale electricity generation where these are within an Identified Area in the Rural Zone. The benefits of small-scale, and appropriately sized community-scale, renewable electricity generation far outweigh any adverse effects on visual amenity and natural character in rural areas. The relative isolation of rural areas in relation to electricity supply and distribution networks, means that farmers will be penalised on amenity and natural character grounds, if they want to install small-scale or community-scale renewable electricity generation facilities to augment electricity supply and increase rural resilience. The definitions of these types of electricity generation, which restrict maximum sizes of wind turbines and solar cells, will ensure that any adverse effects on amenity and natural character values of rural areas will be minor, without needing to resort to triggering resource consent applications where these facilities are proposed to be situated within an Identified Area. 		

- The relatively low population density of rural areas (compared to urban areas) will ensure that wind turbine noise from small-scale and appropriately sized community-scale wind turbines, will at most, present only minor adverse effects. Any noise effects can be appropriately managed through triggers on permitted noise levels in rural areas.
- In comparison to urban areas, rural areas have much wider open-space, bigger visual scale and amenity of rural areas, which can absorb development more easily than in urban areas.

Point Number 680.296

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.1 Permitted Activities

Summary of Decision Requested **Amend** Activity specific condition 14.6.1.2 (a)(v) relating to P3 Research and exploratory-scale investigations for renewable electricity generation activities, as follows:

(a) Research and exploratory-scale investigations for renewable electricity generation activities that comply with all of the following:

...

(v) Is not located within an identified area, except within the Rural Zone, where research and exploratory investigation for renewable electricity generation is permitted in any Identified Area;

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter conditionally support Rule 14.6.1 including the definitions of 'small-scale' and 'community-scale' electricity generation, provided that the activity-specific restrictions on Identified Areas is removed.
- Identified Areas overlay many farms and the submitter questions the wisdom of constraining ability of farms to utilise small-scale and appropriately sized community-scale electricity generation in such areas, especially where this could augment the resilience of farming activity in remoter rural areas. The submitter doubts that there will be any commensurate environmental benefit from requiring small-scale and appropriately sized community-scale electricity generation, to trigger resource consent where these are proposed to be located within an Identified Area that is within a Rural Zone.
- In rural areas, it is inappropriate to require resource consent for small-scale and community-scale electricity generation where these are within an Identified Area in the Rural Zone. The benefits of small-scale, and appropriately sized community-scale, renewable electricity generation far outweigh any adverse effects on visual amenity and natural character in rural areas.
- The relative isolation of rural areas in relation to electricity supply and distribution networks, means that farmers will be penalised on amenity and natural character grounds, if they want to install small-scale or community-scale renewable electricity generation facilities to augment electricity supply and increase rural resilience.
- The definitions of these types of electricity generation, which restrict maximum sizes of wind turbines and solar cells, will ensure that any adverse effects on amenity and natural character values of rural areas will be minor, without needing to resort to triggering resource consent applications where these facilities are proposed to be situated within an Identified Area.
- The relatively low population density of rural areas (compared to urban areas) will ensure that wind turbine noise from small-scale and appropriately sized community-scale wind turbines, will at most, present only minor adverse effects. Any noise effects can be appropriately managed through triggers on permitted noise levels in rural areas.
- In comparison to urban areas, rural areas have much wider open-space, bigger visual scale and amenity of rural areas, which can absorb development more easily than in urban areas.

Submitter Number: 692 **Submitter:** WEL Networks Limited

Point Number 692.18

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.1 Permitted Activities

Summary of Decision Requested **Delete** Activity specific condition 14.6.1.1 (a)(b) – Permitted Activities relating to P1 Small scale electricity generation (or other amendments to give effect to the concerns raised).

~~*(b) Is not located on a road, or unformed road;*~~

Decision Reasons:

- WEL is unsure why Council is proposing to restrict Community-scale electricity generation within road reserve and unformed roads. The CAR process would ensure that any safety effects of the proposal are considered.

Point Number 692.19

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.1 Permitted Activities

Summary of Decision Requested **Delete** Rule 14.6.1.1 (a)(b) and (a)(c) Permitted Activities, relating to P2 Community scale electricity generation (or other amendments to give effect to the concerns raised) as follows:

14.6.1.1

...

(a) is not located within an Identified Area;

~~*(b) Is not located on a road, or unformed road;*~~

~~*(c) Less than 20kW of electricity is generated;*~~

Decision Reasons:

- The conditions require energy generation to not exceed 20kW which is acceptable for small-scale generation but impractical and unreasonable and would likely discourage this type of generation.
- 5 to 10 kW would likely supply a normal-sized dwelling, therefore 20 kW would likely supply two dwellings.
- The other conditions imposed would restrict the size of any structures installed.
- WEL is unsure why community scale electricity generation within a road reserve or unformed road would be restricted. The CAR process would ensure any safety effects of the proposal are considered.

Point Number 692.20

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.1 Permitted Activities

Summary of Decision Requested **Amend** Activity specific condition 14.6.1.2 P3 relating to Research and exploratory-scale investigation for renewable electricity generation activities (or other amendments that give effect to the concerns raised) as follows:

(a) Research and exploratory-scale investigations for renewable electricity generation activities that comply with all of the following:

(i) The noise limits that are applicable to the zone, except within the Rural Zone where the height of any equipment must not exceed of 20m;

(ii) The height of any equipment must not exceed the building height limit of the zone in which they are located by more than 3m;

(iii) The size and location of any equipment must not exceed height in relation to boundary relevant to the zone in which it is located; and

(iv) Setbacks relevant to the zone in which it is located;

(v) Is not located within an identified area

~~(vi) is not located on a road, or unformed road.~~

Decision Reasons:	<ul style="list-style-type: none">• WEL is unsure why Council is proposing to restrict research and exploratory-scale investigations for renewable electricity generation activities within road reserve and unformed roads. The CAR process would ensure that any safety effects of the proposal are considered, so (vi) should be deleted.• All structures not exceeding 20m within the Rural Zone would be in line with the permitted height of poles and masts in that zone.
Point Number	692.21
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.1 Permitted Activities
Summary of Decision Requested	Retain Rule 14.6.1 P4– Permitted Activities relating to temporary diesel-fuelled electricity generation activities.
Decision Reasons:	<ul style="list-style-type: none">• Supports this rule as it would provide for temporary diesel-fuelled electricity generation activities as a permitted activity.

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number	697.25
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.1 Permitted Activities
Summary of Decision Requested	Amend Rule 14.6.1(b) Permitted Activities as follows: <i>(b) Rule 14.2.1.1 will apply to the activities set out in this table unless there is a specific area, height, location and noise condition listed below.</i>
Decision Reasons:	<ul style="list-style-type: none">• Consequential amendment of changes to Rule 14.2.1(P1)(1).

Point Number	697.26
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.1 Permitted Activities
Summary of Decision Requested	Add to Rule 14.6.1.1(a) Permitted Activity a new clause (l) as follows: <i>(l) All other structures not listed above must not be higher than the maximum building height limit of the zone in which they are located.</i>
Decision Reasons:	<ul style="list-style-type: none">• Identify a maximum area as a consequential amendment of changes to 14.2.1(P1)(1).

Submitter Number: 836 **Submitter:** Simon Roche

On behalf of: Powerco

Point Number	836.21
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.1 Permitted Activities
Summary of Decision Requested	Retain Activity Table 14.6.1 Permitted activities, in particular P1 and P4 and the associated performance standards, except where rules are specifically addressed elsewhere in the submission. AND Amend Activity-specific condition 14.6.1.1(j) Permitted activities relating to to read: <i>(j) Solar panels on the roof of a building must not exceed 1.5m in height above the existing roof; or attached to a ground mounted frame</i>
Decision Reasons:	<ul style="list-style-type: none">• The submitter has small scale electricity generation units with solar panels that are at times attached to a ground mounted frame. Solar panels attached in this manner are not covered in the plan and therefore default to a non-complying activity.• The effects of a small scale solar panel attached to a ground mounted frame are not significantly different to those attached to a building.

Submitter Number: 924 **Submitter:** Alice Barnett

Organisation: Genesis Energy Limited

Point Number	924.27
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.1 Permitted Activities
Summary of Decision Requested	Retain Rule 14.6.1-Permitted Activities except for the amendments outlined below AND Add a new permitted activity to Rule 14.6.1- Permitted Activities as follows: Activity <i>P5 Electricity generation within the Huntly Power Station Heavy Industrial Zone.</i> Activity-Specific Conditions <i>14.6.1.(X)</i> <i>Electricity generation within the Huntly Power Station Heavy Industrial Zone that complies with the Huntly Power Station Heavy Industrial rules.</i> AND Add a new activity to Rule 14.6.2- Restricted Discretionary Activities as follows: Activity <i>RD4 Electricity generation within the Huntly Power Station Heavy Industrial Zone that do not comply with one or more conditions of the Rule 14.6.1.(X).</i> Activity-Specific Conditions

Decision Reasons:

- Electricity generation is the primary activity undertaken within the Huntly Power Station Heavy Industrial Zone.
- The submitter considers it to be unclear whether "electricity generation" is an industrial activity provided for within the zone or whether the electricity generation provisions in section 14.6 apply.

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.2 Restricted Discretionary Activities

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.163		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.2 Restricted Discretionary Activities		
Summary of Decision Requested	Amend Rule 14.6.2 Restricted Discretionary Activities RD1, RD2 and RD3 to become Discretionary Activities for works in an identified area that do not comply with the permitted standards.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter does not support the Restricted Discretionary activity status for Rule 14.6.2 RD1, RD2 and RD3 for activities that do not comply with the permitted standards, as this level of resource consent activity would not provide the appropriate level of protection and assessment to provide protection for works in an "identified area" as required under section 6 of the Resource Management Act 1991. 		

Submitter Number:	585	Submitter:	Lucy Roberts
Organisation:	Department of Conservation		
Point Number	585.11		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.2 Restricted Discretionary Activities		
Summary of Decision Requested	Add additional matters of discretion to Rule 14.6.2 Restricted Discretionary activities to address any adverse effects to the environment associated with the construction, operation and decommissioning of small-scale and community-scale electricity generation projects, particularly wind farms.		
Decision Reasons:	<ul style="list-style-type: none"> • Wind farms have the potential to have significant ecological impacts, particularly on avifauna and bats. Additional matters of discretion are requested to address these impacts for small-scale and community-scale electricity generation. 		

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.3 Discretionary Activities

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.6 Electricity generation > 14.6.4 Non-Complying Activities
Summary of Decision Requested Amend Rule 14.6.4 NCI Non-Complying Activities as follows:
NCI Large-scale wind farms ~~not located within a zone other than the Rural Zone, including within an Identified Area~~
AND
Add new 14.6.4 NC2 as follows:
NC2 Large-scale wind farm located within the Rural Zone and within an Identified Area
Decision Reasons:

- No reasons provided.

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.7 Liquid fuels and gas > 14.7.1 Permitted Activities

Submitter Number: 559 **Submitter:** Sherry Reynolds
On behalf of: Heritage New Zealand Lower Northern Office

Point Number 559.165
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.7 Liquid fuels and gas > 14.7.1 Permitted Activities
Summary of Decision Requested Retain activity specific condition 14.7.1.1(a)(iii) relating to P1 Below ground pipelines for the conveyance of liquid fuels and gas.
Decision Reasons:

- The submitter supports permitted activity P1 and specific activity condition (a)(iii) as this condition ensures that the activity will provide protection as required under section 6 of the Resource Management Act 1991.

Point Number 559.166
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.7 Liquid fuels and gas > 14.7.1 Permitted Activities
Summary of Decision Requested Delete Rule 14.7.1 P2 and activity specific condition 14.7.1.2(a) Below ground pipelines located within an Identified Area.
AND
Amend Rule 14.7.1 P2 Below ground pipelines located within an Identified Area by changing the activity status from a permitted activity to a discretionary activity.
Decision Reasons:

- The submitter cannot support permitted activity P2, as it is not clear why the below ground pipelines are able to be located within the identified areas as a permitted activity.
- This appears to be inconsistent with the similar activities that are only permitted if they are not located within the identified areas.

Point Number 559.167

Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.7 Liquid fuels and gas > 14.7.1 Permitted Activities
Summary of Decision Requested	Retain activity specific condition 14.7.1.3(a) relating to P3 Storage facilities and pump stations for liquid fuels and gas.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports permitted activity P3 and specific activity condition 14.7.1.3(a), as this activity specific condition ensures that the activity will provide protection as required under section 6 of the Resource Management Act 1991.

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.33		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.7 Liquid fuels and gas > 14.7.1 Permitted Activities		
Summary of Decision Requested	Retain Rule 14.7.1 Permitted Activities as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Retain the rule as notified. A high-pressure gas line intersects the eastern portion of the Ports of Auckland Limited's site at Horotiu Industrial Park. Ports of Auckland limited currently hold a resource consent to lower the gas line as part of the development of the inland freight hub. 		

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.297		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.7 Liquid fuels and gas > 14.7.1 Permitted Activities		
Summary of Decision Requested	Amend Activity specific condition 14.7.1.2 (a)(i) relating to P2 Below ground pipelines located within an Identified Area as follows: <i>(a) Below ground pipelines for the conveyance of liquid fuels and gas located within an Identified Area that comply with the following:</i> <i>(i) <u>Except within the Rural Zone, there shall be no aboveground sections of pipeline within the Identified Area; and</u></i> ... AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter conditionally supports Rule 14.7.1, provided that the activity-specific restrictions on Identified Areas is removed. Identified Areas overlay many farms and the submitter questions the wisdom of constraining ability of farms to maintain above-ground fuel storage and gas tanks in such areas. The submitter doubts that there will be any commensurate environmental benefit from requiring above ground fuel storage and gas tanks, to trigger resource consent where these are proposed to be located within an Identified Area that is within a Rural Zone. The relative isolation of rural areas, means that farmers will be penalised on amenity and natural character grounds, if they want to install above ground tanks. Fuel storage supplies are commonplace on many farms. Agriculture and pastoralism form part of the landscape character of rural areas. The wide open spaces and low intensity of built form means these areas are able to absorb development and land use more easily than urban areas. Submitter questions the validity of extra layers of amenity analysis in the form of Identified Areas in rural areas, for what arguably amounts to little or no environmental benefit. It is not appropriate to require above-ground fuel storage and gas tanks within any <i>Identified Area</i> that is within the Rural Zone to have to seek resource consent. Farmers shouldn't be burdened by unnecessary resource consent requirements aimed at managing visual amenity, landscape, natural character and natural features, such as the Identified Area provisions are aimed at. The trigger for resource consent for such activity is hugely inefficient and presents a highly onerous and inappropriate burden on farmers who need to install, maintain, repair, replace or upgrade infrastructure, including associated earthworks, albeit that these may be within an <i>Identified Area</i>, in order to develop, use or subdivide farms. 		
Point Number	680.298		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.7 Liquid fuels and gas > 14.7.1 Permitted Activities		
Summary of Decision Requested	Amend Activity specific condition 14.7.1.3 (a)(i) relating to P3 Storage facilities and pump stations for liquid fuels and gas, as follows: <i>(a) Storage facilities and pump stations for liquid fuels and gas that comply with all of the following:</i> <i>(i) <u>Is not located within an Identified Area, except within the Rural Zone, where above-ground storage facilities and pump stations for liquid fuels and gas are a permitted activity, within an Identified Area; and</u></i> ... AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter conditionally support Rule 14.7.1, provided that the activity-specific restrictions on Identified Areas is removed. Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.7 Liquid fuels and gas > 14.7.2 Discretionary Activities		
Summary of Decision Requested	Retain Rule 14.7.2 D1 Discretionary Activities, subject to amendments sought elsewhere in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Discretionary Rule D1, as this level of resource consent activity provides the appropriate level of protection and assessment to provide protection as required under section 6 of the Resource Management Act 1991. 		
Point Number	559.169		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.7 Liquid fuels and gas > 14.7.2 Discretionary Activities		
Summary of Decision Requested	Retain Rule 14.7.2 D2 Discretionary Activities, subject to amendments sought elsewhere in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Discretionary Rule D2, as this level of resource consent activity provides the appropriate level of protection and assessment to provide protection as required under section 6 of the Resource Management Act 1991. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited				
Point Number	578.34						
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.7 Liquid fuels and gas > 14.7.2 Discretionary Activities						
Summary of Decision Requested	<p>Amend Rule 14.7.2 Discretionary Activities, to provide for pipelines and storage facilities that do not comply with the permitted activity rule as a restricted discretionary activity as follows:</p> <p>14.7.2 Discretionary Activities</p> <p>(a) The activities listed below are discretionary activities</p> <p>⊕</p> <p>Pipelines for the conveyance of liquid fuels and gas that do not comply with one or more of the conditions of Rule 14.7.1.1 or 14.7.1.2</p> <p>⊖</p> <p>Storage of facilities and pump stations for liquid fuels and gas that do not comply with one or more of the conditions of Rule 14.7.1.3</p> <p><u>14.7.2 Restricted Discretionary Activities</u></p> <p><u>(a) The activities listed below are restricted discretionary activities.</u></p> <p><u>(b) Discretion to grant or decline consent and oppose conditions is restricted to the matters of discretion set out in the following table:</u></p> <table border="0"> <thead> <tr> <th><u>Activity</u></th> <th><u>Matters of Discretion</u></th> </tr> </thead> <tbody> <tr> <td><u>RDI</u></td> <td> <p><u>(a) The functional and operational needs of, and benefits derived from the infrastructure;</u></p> <p><u>(b) Visual, landscape, streetscape and amenity effects;</u></p> <p><u>(c) The risk of hazards affecting public or individual safety and risk of property damage;</u></p> </td> </tr> </tbody> </table>			<u>Activity</u>	<u>Matters of Discretion</u>	<u>RDI</u>	<p><u>(a) The functional and operational needs of, and benefits derived from the infrastructure;</u></p> <p><u>(b) Visual, landscape, streetscape and amenity effects;</u></p> <p><u>(c) The risk of hazards affecting public or individual safety and risk of property damage;</u></p>
<u>Activity</u>	<u>Matters of Discretion</u>						
<u>RDI</u>	<p><u>(a) The functional and operational needs of, and benefits derived from the infrastructure;</u></p> <p><u>(b) Visual, landscape, streetscape and amenity effects;</u></p> <p><u>(c) The risk of hazards affecting public or individual safety and risk of property damage;</u></p>						

RD2

Storage facilities and pump stations for liquid fuels and gas that do not comply with one or more of the conditions of Rule 14.7.1.3.

(d) Effects on the values, qualities and characteristics of any Identified Area.

(a) The functional and operational needs of, and benefits derived from the infrastructure;

(b) Visual, landscape, streetscape and amenity effects;

(c) The risk of hazards affecting public or individual safety and risk of property damage;

(d) Effects on the values, qualities and characteristics of any Identified Area.

AND

Amend the Proposed District Plan to make alternative or consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- The matters that are required to be considered can be clearly determined and primarily relate to visual effects and safety.
- A Restricted Discretionary Activity status is considered appropriate in respect of pipeline or storage facilities that do not comply with one or more of the conditions.

Submitter Number: 680 **Submitter:** Federated Farmers of New Zealand

Point Number 680.299

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.7 Liquid fuels and gas > 14.7.2 Discretionary Activities

Summary of Decision Requested No specific decision sought, but Rule 14.7.2 is supported, provided the relief sought in relation to Rule 14.7.1 is granted.

Decision Reasons:

- The submitter supports Rule 14.7.2, provided that the relief sought in relation to Rule 14.7.1 is granted.

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.31

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.7 Liquid fuels and gas > 14.7.2 Discretionary Activities

Summary of Decision Requested **Amend** Rule 14.7.2 P2 Permitted Activities Below ground pipelines located within an Identified Area as follows:
PI Below ground pipelines for the conveyance of liquid fuels and gas, located within an Identified Area.

Decision Reasons:

- This would provide additional clarity.

Submitter Number: 945 **Submitter:** First Gas Limited

Point Number 945.4

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.7 Liquid fuels and gas > 14.7.2 Discretionary Activities

Summary of Decision Requested **Retain** Rule 14.7.2 Discretionary Activities.

Decision Reasons:

- The submitter supports a Discretionary activity status where the permitted activity conditions in 14.7.1 are not complied with.

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.8 Meteorological > 14.8.1 Permitted Activities

Submitter Number: 559 **Submitter:** Sherry Reynolds

On behalf of: Heritage New Zealand Lower Northern Office

Point Number 559.170

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.8 Meteorological > 14.8.1 Permitted Activities

Summary of Decision Requested **Retain** activity specific condition 14.8.1.1 (a)(iii) relating to P1 Meteorological enclosures and buildings including automatic weather stations.

Decision Reasons:

- The submitter supports Permitted Rule P1 and the activity specific conditions 14.8.1.1.

Point Number 559.171

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.8 Meteorological > 14.8.1 Permitted Activities

Summary of Decision Requested **Retain** activity specific condition 14.8.1.2a)(iii) relating to P2 Meteorological and air quality monitoring structures and devices.

Decision Reasons:

- The submitter supports Permitted Rule P2 and the activity specific conditions 14.8.1.2.

Submitter Number:	580	Submitter:	Andrew Feierabend
Organisation:	Meridian Energy Limited		
Point Number	580.8		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.8 Meteorological > 14.8.1 Permitted Activities		
Summary of Decision Requested	<p>Amend the activity specific conditions of Rule 14.8.1.1(a)(ii) for Meteorological enclosures and buildings, including automatic weather stations, as follows:</p> <p><i>(ii) Meteorological measurement masts must not exceed 80 metres in height and all other structures must comply with any relevant building height condition for the applicable zone;</i></p> <p>AND</p> <p>Amend the Proposed District Plan as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The proposed height limit is too low to practically allow meaningful investigations of potential wind energy at the height required for large-scale wind farms. 		
Point Number	580.9		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.8 Meteorological > 14.8.1 Permitted Activities		
Summary of Decision Requested	<p>Amend the activity-specific conditions of Rule 14.8.1.2(a)(i) for Meteorological and air quality monitoring structures and devices, as follows:</p> <p><i>(i) Do not exceed 80m+2m in height;...</i></p> <p>AND</p> <p>Amend the Proposed District Plan as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The proposed height limit is too low to practically allow meaningful investigations of potential wind energy at the height required for large-scale wind farms.

Point Number	559.172
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.8 Meteorological > 14.8.3 Discretionary Activities
Summary of Decision Requested	Retain Rule 14.8.3 D1 Discretionary Activities.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Discretionary Rule D1 as this level of resource consent activity provides the appropriate level of protection and assessment to provide protection as required under section 6 of the Resource Management Act 1991.
Point Number	559.173
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.8 Meteorological > 14.8.3 Discretionary Activities
Summary of Decision Requested	Retain Rule 14.8.3 D2 Discretionary Activities.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Discretionary Rule D2 as this level of resource consent activity provides the appropriate level of protection and assessment to provide protection as required under section 6 of the Resource Management Act 1991.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.36		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.8 Meteorological > 14.8.3 Discretionary Activities		
Summary of Decision Requested	Add to Rule 14.8.3 Discretionary Activities as follows: <u>D3 Meteorological enclosures and buildings, including automatic weather stations that do not comply with one or more conditions in Rule 14.8.3(P1).</u> <u>D4 Meteorological and air quality monitoring structures and devices that do not comply with one or more conditions in Rule 14.8.3(P2).</u>		
Decision Reasons:	<ul style="list-style-type: none"> There is currently no activity cascade for meteorological structure or activities that do not comply with one of more conditions in Rule 14.8.1(P1) or (P2). Include a discretionary rule to cover this scenario. 		

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.9 Amateur radio > 14.9.1 Permitted Activities

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.174		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.9 Amateur radio > 14.9.1 Permitted Activities		
Summary of Decision Requested	Retain activity specific condition 14.9.1.1 (a)(iii) relating to P1 Antennas associated with amateur radio configurations.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Permitted activity Rule P1 Antennas associated with amateur radio configurations, activity specific condition 14.9.1.1 (iii) as this condition will ensure the integrity of the identified areas is retained. 		
Point Number	559.175		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.9 Amateur radio > 14.9.1 Permitted Activities		
Summary of Decision Requested	Retain activity specific condition 14.9.1.2(a)(vii) relating to P2 Aerials associated with amateur radio configurations.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Permitted activity Rule P2 Aerials associated with amateur radio configurations, activity specific condition 14.9.1.2 (vii) as this condition will ensure the integrity of the identified areas is retained. 		
Point Number	559.176		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.9 Amateur radio > 14.9.1 Permitted Activities		
Summary of Decision Requested	Retain activity specific condition 14.9.1.3 (a)(v) relating to P3 Permitted Activities - Support Structures associated with amateur radio configurations.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Permitted activity Rule P3, Support structures associated with amateur radio configurations activity specific condition 14.9.1.3 (v) as this condition will ensure the integrity of the identified areas is retained. 		

Submitter Number:	594	Submitter:	Douglas Birt
Organisation:	NZ Association of Radio Transmitters Inc (NZART)		
Point Number	594.3		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.9 Amateur radio > 14.9.1 Permitted Activities		
Summary of Decision Requested	Amend Rule 14.9.1 Permitted Activities, by removing inconsistencies between P2 Aerials associated with amateur radio configurations (Rule 14.9.1.2) and P3 Support structures associated with amateur radio configurations (Rule 14.9.1.3), so that there are consistent references across the clauses in these two rules to zone height plus 2 metres (as per Rule 14.9.1.3 (a)(iv)).		
Decision Reasons:	<ul style="list-style-type: none"> It is appropriate to have consistency across the rules in respect to expressing the allowable dimensions for aerials and support structures. 		

Point Number	594.4
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.9 Amateur radio > 14.9.1 Permitted Activities
Summary of Decision Requested	Retain Rule 14.9.1 P1 Antennas associated with amateur radio configurations, as notified.
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.
Point Number	594.5
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.9 Amateur radio > 14.9.1 Permitted Activities
Summary of Decision Requested	Amend Rule 14.9.1 P2 (a) (v) Aerials associated with amateur radio configurations, to correct a reference error as follows: <i>(a)(v) No part of the aerial exceeds the maximum stated height applying to buildings in the applicable zone by more than 2m (except for vertical aerials as provided for in Rule 14.9.1.2(f) below Rule 14.9.1.2(g)(vi));</i>
Decision Reasons:	<ul style="list-style-type: none"> The reference to Rule 14.9.1.2(f) appears to be an error and needs to be replaced with a reference to Rule 14.9.1.2(a)(vi) instead.
Point Number	594.6
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.9 Amateur radio > 14.9.1 Permitted Activities
Summary of Decision Requested	Amend Rule 14.9.1.2 P2 Aerials associated with amateur radio configurations, to enable at least one additional pole structure which exceeds the height limits applying to zone height rules, but this second pole need not be 20m.
Decision Reasons:	<ul style="list-style-type: none"> For 3.6MHz aerials, one end of such a wire could be attached to the main supporting structure, but unless some other provision is made in say 14.9.12(a), there is no way of holding up the other end at the required height because zone height plus 2m is not high enough. There needs to be provision for just one additional pole to be at, say, 14m height. Without this exception, the very simple low visual impact wire antenna cannot be used in its preferential horizontal configuration.
Point Number	594.7
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.9 Amateur radio > 14.9.1 Permitted Activities
Summary of Decision Requested	Amend Rule 14.9.1 P2 (a)(vi) Aerials associated with amateur radio configurations, to correct a referencing error as follows: <i>(a)(vi) For vertical aerials, one vertical aerial to a maximum height of 20m, provided there is only one vertical aerial or one supporting structure (and attached aerial(s) or antenna(s) under Rule 14.9.1.3(i) below Rule 14.9.1.3(g)(iii) per site that exceeds the maximum stated height applying to buildings in the applicable zone by more than 2m;</i>
Decision Reasons:	<ul style="list-style-type: none"> The reference to Rule 14.9.1.3(i) appears to be an error and should be replaced with a reference to Rule 14.9.1.3(a)(iii).
Point Number	594.8
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.9 Amateur radio > 14.9.1 Permitted Activities
Summary of Decision Requested	Amend Rule 14.9.1 P3 Support structures associated with amateur radio configurations, so that the numbering of clauses and format are improved. AND Amend Rule 14.9.1.3 P3 Support structure associated with amateur radio configurations to be clearer and replace with the following: <i>(a) Support structures associated with amateur radio configurations that comply with all of the following;</i> <i>(i) For wire aerials of less than 11.5mm in outside diameter, no more than six support poles per site provided that:</i> <i>A. The maximum height of the support poles does not exceed the maximum building height in the zone in which they are located by more than 2m;</i> <i>B. The setback and height in relation to boundary shall not apply to these support poles;</i> <i>(ii) Where guy wire are used these must not exceed 12mm in diameter;</i> <i>(iii) At no point must any guy wire or aerial overhang the boundary;</i> <i>(iv) For each site, one support structure can exceed the maximum stated height applying to buildings in the applicable zone by more than 2m provided that:</i> <i>A. The maximum height of the support structure and any attached aerials or antennas is 20m;</i> <i>B. The support structure may be a pole or lattice mast, it may be guyed or self supporting but the inscribed circle of the structure below 9m shall be 1000mm, and above 9m must fit within a tapering envelope with a maximum inscribed circle of 660mm at 9m, and 420mm at 20m.</i> AND Amend Rule 14.9.1.2 P2 (a) (vi) as follows: <i>(a)(vi) For each site, one pole structure or vertical antenna to a maximum height of 14 metres provided there is only one vertical aerial in addition to the one supporting structure under rule 14.9.1.3 below per site that exceeds the maximum stated height applying to buildings in the applicable zone by more than 2m.</i>
Decision Reasons:	<ul style="list-style-type: none"> The numbering and format of clauses in Rule 14.9.1 P3 need improvement.

Point Number	559.189
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities
Summary of Decision Requested	Retain activity specific condition 14.10.1.11 (a)(i) and (ii) relating to P13 - Self-contained power units. AND Provide for any consequential amendments as required.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the permitted activity conditions as they will ensure the integrity and the historic heritage values of the identified areas are retained.
Point Number	559.190
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities
Summary of Decision Requested	Retain activity specific condition 14.10.1.13 (a)(ii) relating to P15 - Lightning rods. AND Provide for any consequential amendments as required.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the permitted activity conditions as they will ensure the integrity and the historic heritage values of the identified areas are retained.

Point Number 644.36
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities
Summary of Decision Requested **Amend** Rule 14.10.1.3 (a) (iii) P4- Antennas and lines attached to retaining walls, tunnels, bridges and other structures located within the road by changing the permitted dish antenna size descriptor from 0.6m "width" to 0.6m "diameter".
 AND
 Any consequential amendments necessary as a result of the amendments to grant the relief sought.

Decision Reasons:

- Activity specific controls in 14.10.1.3 include a 0.6m "width" restriction for dish antennas and should be changed to "diameter."

Point Number 644.37
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities
Summary of Decision Requested **Amend** Activity Rule 14.10.1 P7- Antennas not attached to a building and/or structure and any other rules as necessary so that the equipment covered by the activity specific conditions in Rule 14.10.1.5 may be attached to buildings, structures and poles covered in Rules P4, P5 and P9 as follows:

Activity title: Other Antennas not attached to a building and/or structure.

14.10.1.5

(a) Antennas that comply with all of the following conditions are excluded from any height standards in 14.10.1 P4, P5 and P9:

(i) GPS antennas that do not exceed the following dimensions:

A. 300mm high; and

B. 130mm in diameter.

(ii) Omni-directional 'whip' or di-pole type antennas that do not exceed the following dimensions:

A. 1.6m high;

B. 1.5m horizontal length whip or rod; or

C. Cross-section element no more than 60mm in diameter.

~~(iii) Are not located within an Identified Area.~~

(iv) Do not connect to an area, façade or item specifically listed in Schedule 30.1.

AND

Any consequential amendments necessary as a result of the amendments to grant the relief sought.

Decision Reasons:

- It is unclear what the rule is intended to cover.
- All antennas will be attached to a building or a structure (even if a purpose-built pole).
- These types of antennas could be deployed on an existing building or structure covered by Rules P4 and P5, or on a pole as provided for under P9.
- These antennas have low visual impact, making them appropriate on top of buildings and poles or in an Identified Area.

Point Number 644.38
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities
Summary of Decision Requested **Amend** Rule 14.10.1 P8- Small cell units exceeding the permitted volumetric dimension of 0.11m² regulated in the NESTF- and related activity standard by changing all use of "m²" to "m³".

AND

Any consequential amendments necessary as a result of the amendments to grant the relief sought.

Decision Reasons:

- Rule uses m² rather than m³ in activity rules and standards and needs to be amended to m³.
- Volumetric dimension in the NESTF 2016 is 0.11m³.

Point Number 644.39
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities
Summary of Decision Requested **Amend** Rule 14.10.1.7 (c) - Poles, antennas and head frames+1 as follows:

(c) Rules 14.10.1.7(4)(a) does not apply to lightning rods and GPS antennas, omni directional whip antenna, ancillary telecommunication devices and earth peaks.

AND

Any consequential amendments necessary as a result of the amendments to grant the relief sought.

Decision Reasons:

- Appears to be an incorrect reference in Rule 14.10.1.7 (c) to Rule 14.10.1.7 (1) rather than 14.10.1.7 (a), as there is no Rule 14.10.1.7 (1).

Point Number 644.40
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities
Summary of Decision Requested **Amend** activity Specific Standard 14.10.1.8 (a) (i) P10- Externally mounted telecommunication satellite dishes and ancillary components to read as the following:

(a) Externally mounted telecommunication satellite dishes and ancillary components that comply with the following conditions:

(i) Do not exceed 1.0m in diameter, or 1.8m in diameter in industrial, rural residential and rural zones.

(ii) Are attached to existing buildings, and/or including a pole or structure other than a building when located in the rural residential and rural zones.

AND

Any consequential amendments necessary as a result of the amendments to grant the relief sought.

Decision Reasons:

- Activity specific condition 14.10.1.8 (a)(i) limits the diameter of a satellite dish to 1m.
- As part of Rural Broadband Initiative Phase 2 Project, which includes parts of Waikato District, some rural communities may need to be connected to broadband via satellite link.
- Higher capacity links may require a satellite dish up to 1.8m in diameter.

Point Number 644.41

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities

Summary of Decision Requested **Amend** Rule 14.10.1 C7- Small cell units as follows:
~~C7 Small cell units located in an Identified Area that connect to an area, façade or item specifically listed in Schedule 30.1 exceeding the maximum volumetric dimension of 0.11m³ regulated in the NESTF, up to a maximum volume of 0.25m³.~~

AND

Any consequential amendments necessary as a result of the amendments to grant the relief sought.

Decision Reasons:

- Rule uses m2 rather than m3 in activity rules and standards and needs to be amended to m3.
- it is unnecessary to restrict equipment in an Identified Area given its very small scale.
- Rule should instead only cover equipment connecting to a scheduled heritage item, which would not be a permitted activity under amended Rule P7.

Point Number 644.42

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities

Summary of Decision Requested **Delete** activity specific condition Rule 14.10.1.6 P8 (ii) that relates to Identified Areas.

AND

Any consequential amendments necessary as a result of the amendments to grant the relief sought.

Decision Reasons:

- It is unnecessary to restrict equipment in an Identified Area given its very small scale.
- This rule would restrict connecting to a scheduled heritage item.

Submitter Number: 646 **Submitter:** Vodafone New Zealand Limited

Point Number 646.36

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities

Summary of Decision Requested **Amend** specific conditions Rule 14.10.1.3(a)(iii) Antennas and lines attached to retaining walls, tunnels, bridges and other structures located within the road, by changing the permitted dish antennas size descriptor from 0.6m "width" to 0.6m "diameter".

AND

Any consequential amendments necessary as a result of the amendments to grant the relief sought.

Decision Reasons:

- Activity-specific controls in 14.10.1.3 include 0.6m "width" restriction which needs to be changed to "diameter".

Point Number 646.37

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities

Summary of Decision Requested **Amend** Activity Rule 14.10.1 P7 Antennas not attached to a building and/or structure, and any other rules as necessary such that the equipment covered by activity specific conditions in Rule 14.10.1.5 may be attached to buildings, structures and poles covered in Rules P4, P5 and P9 as follows:
 Activity Title: ~~Other antennas not attached to a building and structure.~~

14.10.1.5

(a) Antennas that comply with all of the following conditions are excluded from any height standards in 14.10.2 P4, P5 and P9:

(i) GPS antennas that do not exceed the following dimensions:

A. 300mm high; and

B. 130mm in diameter.

(ii) Omni-directional 'whip' or di-pole type antennas that do not exceed the following dimensions

A. 1.6m high;

B. 1.5m horizontal length whip or rod; or

C. Cross section element no more than 60mm in diameter.

~~(iii) Are not located within an Identified Area.~~

(iv) Do not connect to an area, façade or item specifically listed in Schedule 30.1.

AND

Any consequential amendments necessary as a result of the amendments to grant the relief sought.

Decision Reasons:

- Unclear what this rule is intended to cover.
- All antennas will be attached to a building or structure.
- Types of antennas used could be deployed on a existing building/structure covered by rules P4 and P5, or on a pole as provided for under P9.
- Antennas have low visual impact and therefore are appropriate on top of buildings and poles in an Identified Area.

Point Number 646.38

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities

Summary of Decision Requested **Amend** activity-specific condition Rule 14.10.1.6 for P8- Small cell units exceeding the permitted volumetric dimension of 0.11m³ regulated in the NESTF and related activity standards by changing all use of "m2" to "m3".

AND

Any consequential amendments necessary as a result of the amendments to grant the relief sought.

Decision Reasons:

- Rule use m2 rather than m3 in activity rules and standards and must be amended to m3.
- Volumetric dimension in NESTF 2016 is 0.11m³.

Point Number	646.39
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities
Summary of Decision Requested	Delete activity specific condition rule 14.10.1.6 (ii) P8 that relates to "Identified Areas". AND Any consequential amendments necessary as a result of the amendments to grant the relief sought.
Decision Reasons:	<ul style="list-style-type: none"> It is unnecessary to restrict equipment in an Identified Area given its very small scale. This Rule would restrict connecting to a scheduled heritage item.
Point Number	646.40
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities
Summary of Decision Requested	Amend activity-specific conditions Rule 14.10.1.7 (c) for P9 Poles, antennas and head frames, as follows: <i>(c) Rule 14.10.1.7(4g) does not apply to lighting rods and GPS antennas, omni-directional whip antennas, ancillary telecommunication devices and earth peaks.</i> AND Any consequential amendments necessary as a result of the amendments to grant the relief sought.
Decision Reasons:	<ul style="list-style-type: none"> Appears to be an incorrect reference in Rule 14.10.1.7 (c) as rule refers to Rule 14.10.1.7(1) rather than 14.10.1.7(a) as there is no Rule 14.10.1.7(1).
Point Number	646.41
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities
Summary of Decision Requested	Amend activity-specific condition Rule 14.10.1.8(a)(i) for P10 Externally-mounted telecommunication satellite dishes and ancillary components, as follows: <i>(a) Externally-mounted telecommunications satellite dishes and ancillary components that comply with the following conditions:</i> <i>(i) Do not exceed 1.0m in diameter, or 1.8m in diameter in industrial, rural residential and rural zones.</i> <i>(ii) Are attached to existing buildings, and/or including a pole or structure other than a building when located in the rural residential and rural zones.</i> AND Any consequential amendments necessary as a result of the amendments to grant the relief sought.

Point Number	648.40
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities
Summary of Decision Requested	Amend activity-specific standard 14.10.1.8(a)(i) relating to P10 - Externally-mounted telecommunication satellite dishes and ancillary components as follows: <i>(a) Externally-mounted telecommunication satellite dishes and ancillary components that comply with the following conditions:</i> <i>(i) Do not exceed 1.0m in diameter, or 1.8m in diameter in industrial, rural residential and rural zones;</i> <i>(ii) Are attached to existing buildings, and/or including a pole or structure other than a building when located in the rural residential and rural zones.</i> AND Any consequential amendments necessary as a result of the amendments to grant the relief sought.
Decision Reasons:	<ul style="list-style-type: none"> • Activity-specific condition 14.10.1.8(a)(i) limits the diameter of a satellite dish to 1m. • As part of Rural Broadband Initiative Phase 2 Project, which includes parts of Waikato District, some rural communities may need to be connected to broadband via satellite link. • Higher capacity links may require a satellite dish up to 1.8m in diameter.
Point Number	648.41
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities
Summary of Decision Requested	Amend activity Rule 14.10.1 C7 Controlled Activities relating to Small cell units as follows: <i>C7 Small cell units located in an Identified Area that connect to an area, facade or item specifically listed in Schedule 30.1 exceeding the maximum volumetric dimension of 0.11m³ regulated in the NESTF, up to a maximum volume of 0.25m³.</i> AND Any consequential amendments necessary as a result of the amendments to grant the relief sought.
Decision Reasons:	<ul style="list-style-type: none"> • Rule uses "m2" rather than "m3" in activity rules and standards and needs to be amended to "m3". • Unnecessary to restrict equipment in an Identified Area given its very small scale. • Rule should instead only cover equipment connecting to a scheduled heritage item, which would not be a permitted activity under amended rule P7.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.144		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities		
Summary of Decision Requested	Amend Activity specific condition 14.10.1.6 (a)(ii) relating to P8 Small cell units exceeding the permitted volumetric dimension of 0.11m ³ regulated in the NESTF, as follows: <i>(a) Small cell units exceeding the permitted volumetric dimension of 0.11m² regulated in the NESTF that comply with all of the following conditions</i> <i>(ii) Are not located within an Identified Area, except within the Rural Zone, where small cell units are a permitted activity within any Identified Area; and...</i> AND Any consequential changes needed to give effect to this relief.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter conditionally supports Rule 14.10.1, provided that restrictions on telecommunication and radio communication equipment in the Rural Zone, that are aimed at managing visual amenity, are appropriate to reflect the wide-open space scale and rural amenity character of rural areas. • It is not appropriate to impose the same degree of restriction on masts and aerials and the like in rural areas. In remote rural areas where internet connection is unavailable, farmers typically have need of farm telecommunication and radio communication equipment in order to augment the efficient and safe operation of farms. • Imposing the same degree of constraint on masts and aerials in rural areas to that of urban areas, unfairly penalises farmers who have to rely on such equipment, for what amounts to little or no environmental benefit. Efficiency and safety of farm operations can be compromised if farmers are required to have a high regulatory hurdle to overcome in order to be able to install practically-sized functional aerials and masts, which are arbitrarily constrained by way of inappropriately-scaled visual amenity criteria. • If the Council is minded to permit co-located poles antennas and headframes at a permitted height of 30 metres in the Rural Zone, there is practically no visual difference between co-located devices and non-co-located devices mounted on poles up to 30 metres height in rural areas, and therefore the maximum permitted height should be simplified to 30 metres. 		
Point Number	680.145		

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities

Summary of Decision Requested **Amend** Activity specific condition 14.10.1.7 relating to P9 Poles, antennas and headframes, as follows:

(a) Any poles and attached antenna that comply with the following conditions:

(i) Are not located within an Identified Area, except within the Rural Zone, where poles, antennas and headframes are a permitted activity within any Identified Area;

...

(iv) Not exceed the height limits set out in the following table:

Zone	Permitted height
Rural, Country Living	25m (and 30m for colocation of at least two operators)

.....

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter conditionally supports Rule 14.10.1, provided that restrictions on telecommunication and radio communication equipment in the Rural Zone, that are aimed at managing visual amenity, are appropriate to reflect the wide-open space scale and rural amenity character of rural areas.
- It is not appropriate to impose the same degree of restriction on masts and aerials and the like in rural areas. In remote rural areas where internet connection is unavailable, farmers typically have need of farm telecommunication and radio communication equipment in order to augment the efficient and safe operation of farms.
- Imposing the same degree of constraint on masts and aerials in rural areas to that of urban areas, unfairly penalises farmers who have to rely on such equipment, for what amounts to little or no environmental benefit. Efficiency and safety of farm operations can be compromised if farmers are required to have a high regulatory hurdle to overcome in order to be able to install practically-sized functional aerials and masts, which are arbitrarily constrained by way of inappropriately-scaled visual amenity criteria.
- If the Council is minded to permit co-located poles antennas and headframes at a permitted height of 30 metres in the Rural Zone, there is practically no visual difference between co-located devices and non-co-located devices mounted on poles up to 30 metres height in rural areas, and therefore the maximum permitted height should be simplified to 30 metres.

Point Number 680.146

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.1 Permitted Activities

Summary of Decision Requested **Amend** Activity specific conditions 14.10.1.8 (a)(iv) relating to P10 Externally-mounted telecommunication satellite dishes and ancillary components, as follows:

(a) Externally-mounted telecommunication satellite dishes and ancillary components that comply with the following conditions:

(iv) Are not located within an Identified Area (except within the Rural Zone, where externally mounted telecommunication satellite dishes and earthpeaks are a permitted activity).

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter conditionally support Rule 14.10.1, provided that restrictions on telecommunication and radio communication equipment in the Rural Zone, that are aimed at managing visual amenity, are appropriate to reflect the wide-open space scale and rural amenity character of rural areas.
- It is not appropriate to impose the same degree of restriction on masts and aerials and the like in rural areas. Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.2 Controlled Activities

Submitter Number: 559 **Submitter:** Sherry Reynolds

On behalf of: Heritage New Zealand Lower Northern Office

Point Number 559.191

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.2 Controlled Activities

Summary of Decision Requested **Retain** matters of control 14.10.2(a)(iv) relating to Controlled Activities C1, C2, C5, C6, C7, except for the amendments sought below.
AND

Amend matters of control 14.10.2 (a)(iv) relating to Controlled Activities C1, C2, C5, C6, C7 as follows:
~~(iv) Effects on the values, qualities and characteristics of the site and/or items in Schedule 30.1.~~

Decision Reasons:

- The submitter supports the controlled activity status of the activities C1, C2, C5, C6, C7 and supports in part the associated matters of control.

Point Number 559.192

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.2 Controlled Activities

Summary of Decision Requested **Amend** Rule 14.10.2 Controlled Activities C8 activity status to become a restricted discretionary activity status.

Decision Reasons:

- The submitter cannot support the controlled activity status of activity C8 as it is considered that compliance with the Rule 14.10.1.7, which would allow poles and head frames of a height of between 15-30m, dependant on the zone, within an identified area has the potential to cause adverse effects on historic heritage and cultural values.
- While there are relevant assessment criteria, the activity should have restricted discretionary activity status to ensure that the activity could be refused, if inappropriate.

Point Number 559.193

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.2 Controlled Activities

Summary of Decision Requested **Retain** Rule 14.10.2 (iii) Controlled Activities C9, except for the amendments sought below.
AND

Amend Rule 14.10.2 Controlled Activities C9 as follows:
~~(a) Externally-mounted telecommunications satellite dishes and ancillary components:...~~
~~(iii) Are not located within an Identified Area~~

AND
Amend Rule 14.10.2 Controlled activities, C9 activity status to become Restricted Discretionary activity status.
AND

Provide for any consequential amendments,

Decision Reasons:

- The submitter cannot support the inclusion of the identified areas within the controlled activity status of activity C9 as the activity has the potential to cause

adverse effects on historic heritage and cultural values.

- While there are relevant assessment criteria relating to effects, the activity should have restricted discretionary activity status to ensure that the activity could be refused, if inappropriate.
- An amendment is sought to ensure that identified areas are not included as part of the controlled activity.

Point Number 559.194

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.2 Controlled Activities

Summary of Decision Requested **Retain** Rule 14.10.2 C10 Telecommunication kiosks, located within road or unformed road adjacent to an Identified Area, that complies with the conditions for a new infrastructure activity and associated structures under Rule 14.2.1.1.

Decision Reasons:

- The submitter supports this controlled activity and the need to comply with the conditions for new infrastructure.

Submitter Number: 646 **Submitter:** Vodafone New Zealand Limited

Point Number 646.42

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.2 Controlled Activities

Summary of Decision Requested **Amend** activity-specific condition Rule 14.10.2 for C7 - Small cell units as follows:
C7 Small cell units that connect to an area, facade or item specifically listed in Schedule 30.1 exceeding the maximum volumetric dimension in 0.11m² regulated in the NESTF, up to a maximum volume of 0.25m².

AND

Any consequential amendments necessary as a result of the amendments to grant the relief sought.

Decision Reasons:

- The Rule uses m² rather than m³ in the activity rules and standards, which needs to be amended to m³.
- It is unnecessary to restrict this equipment in an Identified Area given its very small scale.
- The Rule should instead only cover equipment connecting to a scheduled heritage item, which would not be a permitted activity under amended Rule P7.

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.46

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.2 Controlled Activities

Summary of Decision Requested **Amend** Rule 14.10.2 Controlled Activities by renumbering C5 (a) Dish antennas... as C6
AND

Consequentially **renumber** the remaining controlled activities.

Decision Reasons:

- There are two C5 activities. Renumber for improved clarity.

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.3 Restricted Discretionary Activities

Submitter Number: 559 **Submitter:** Sherry Reynolds

On behalf of: Heritage New Zealand Lower Northern Office

Point Number 559.195

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.3 Restricted Discretionary Activities

Summary of Decision Requested **Retain** Rule 14.10.3 Restricted Discretionary Activities RD1, RD2, RD3, RD4, RD6, RD7, except for the amendments sought below

AND

Amend matters of discretion 14.10.3 (e) relating to RD1, RD2, RD3, RD4, RD6, RD7, as follows:

...

(e) *Effects on the values, qualities and characteristics of the site, the heritage item or area.*

Decision Reasons:

- The submitter supports the restricted discretionary status of the activities at 14.10.3.
- The submitter supports in part only the matters of discretion, as it is considered that the matters of discretion need to reflect the items or areas that are part of the identified areas, for the assessment to provide for the protection required under section 6 of the Resource Management Act.

Submitter Number: 680 **Submitter:** Federated Farmers of New Zealand

Point Number 680.148

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.3 Restricted Discretionary Activities

Summary of Decision Requested **Amend** Rule 14.10.3 (a)(ii) RD5 Restricted Discretionary Activities, as follows:

(a) *Aerial telecommunication lines and...*

...

(ii) Are not located within an Identified Area (except within the Rural Zone, where aerial telecommunication lines and associated support structures complying with regulations 41-21 of the NESTF are a permitted activity within Identified Areas),...

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter opposes Rule 14.10.3 and submits that aerial telecommunication lines and associated support structures complying with regulations 41-21 of the NESTF should be a permitted activity within Identified Areas in the Rural Zone, for the same reasons as given in relation to the relief sought in respect of Rule 14.10.1.

Retain Rule 14.10.4 Discretionary Activities D1, D2, D3, D4, D5, D6, D7, D8.

Decision Reasons:

- The submitter supports the discretionary activity status of the activities at 14.10.4, as these activities are located within the Identified areas, which include heritage items and Maaori sites and areas of significance.
- This is an appropriate level of resource consent activity providing the appropriate level of protection and assessment as required under section 6 of the Resource Management Act 1991.

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.10 Telecommunications and radiocommunications > 14.10.4 Discretionary Activities

Summary of Decision Requested

Amend Rule 14.10.4 D3 Discretionary Activities, as follows:

Antennas attached to a building and/or structure located within an Identified Area, except within the Rural Zone, where antennas attached to a building and/or structure located within an Identified Area are a permitted activity.

AND

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter opposes Rule 14.10.4 and submits that aerial telecommunication lines and associated support structures complying with regulations 41-21 of the NESTF should be a permitted activity within Identified Areas in the Rural Zone, for the same reasons as given in relation to the relief sought in respect of Rule 14.10.1

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater

Summary of Decision Requested

Amend Chapter 14.11 Water wastewater and stormwater, to confirm cost sharing, to enable developers to recover a fair, equitable and proportionate proportion of the total cost of capital expenditure necessary to service growth or existing development upstream of new developments.

Decision Reasons:

- Existing infrastructure from neighbouring properties and the road reserve, which is legally unprotected, is being conveyed into the subject properties at 94 and 100D Bollard Road, Tuakau, increasing the overall volume for catchment analysis and calculations for further subdivision.
- Waikato District Council have advised that in order to satisfy the conditions of a subdivision consent on the subject property, the developer is required to upgrade the servicing of the entire stormwater catchment, without compensation.
- If developers have to cater for publically owned land, existing or future development of private land upstream, and subsequently be required to increase capacity of the new water, wastewater and stormwater infrastructure to accommodate this additional volume, then a fair, equitable and proportionate portion of the total cost of capital expenditure necessary to service growth or existing development up-catchment should be provided to the developer by the territorial authority and or contributing properties.
- In order to be consistent with the Local Government Act which allows territorial authorities to recover costs from developers for the additional burden on infrastructure through financial Development Contributions, it is only fair that private developers receive the same if they incur additional costs to cater for wider catchments.

Point Number	724.5		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater		
Summary of Decision Requested	No specific decision sought, but submission opposes the activity specific conditions for stormwater management in Rule 14.11.1.1 Permitted Activities unless clarification is provided on the workings of this rule and confirmation is given that there will be no requirement to obtain resource consent.		
Decision Reasons:	<ul style="list-style-type: none"> In terms of the operative rule, resource consent is required if building coverage exceeds 700m2 on a site in the Countryside Living Zone. The new rule 14.11.1.1 is not supported if that also involves resource consents which can be time consuming and costly. The provisions in Chapter 14 seem to be much more relevant to urban development.

Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities		
Summary of Decision Requested	Retain Rule 14.11.1.3 (a)(ii) relating to P3 Wastewater servicing for new development or subdivision, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Allows for a range of waste water solutions to be considered at the time of subdivision or development. 		

Submitter Number:	435	Submitter:	Jade Hyslop
Point Number	435.11		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities		
Summary of Decision Requested	Retain wastewater disposal that complies with AS/NZS 1547:2012 in Rule 14.11.1.3 Permitted Activities.		
Decision Reasons:	<ul style="list-style-type: none"> • AS/NZS 1547:2012 covers the whole range of options which may be appropriate, including Waterless composting toilets, covered in related AS/NZS 1546.2:2008. • Supports investigation of such systems to minimize water consumption and sewage volumes, thus making it easier to treat sewage as a valuable resource. 		

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.58		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities		
Summary of Decision Requested	Amend Activity specific condition 14.11.1.1(a)(ii) relating to PI Stormwater systems for new development or subdivision, to include a higher standard that is aligned with Hamilton City Council's requirements. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • The attenuation standard (10% annual exceedance probability (AEP)) is inadequate. Attenuation to at least 1% AEP of pre-development rates should be used when discharging upstream of a catchment shared with Hamilton City. • If there are existing downstream/flooding issues, then further mitigation should be required so that Hamilton City Council's requirements are not compromised (such as its Comprehensive Stormwater Discharge Consent). 		
Point Number	535.59		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities		
Summary of Decision Requested	Amend Activity specific condition 14.11.1.1(a)(iv) relating to PI Stormwater systems for new development or subdivision, to clarify the meaning of the phrase "specific to the area". AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • It is unclear whether the phrase "specific to the area" creates a requirement to undertake local rainfall gauging where existing data is not "specific" enough, or whether the intent is to allow for the use of the "most relevant existing rainfall data". 		
Point Number	535.60		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities		

Summary of Decision Requested	Amend Activity specific condition 14.11.1.1 (a)(v) relating to P1 Stormwater systems for new development or subdivision, to clarify how the hierarchical permitted condition will be implemented. For example, what and who determines how the choice of stormwater measure moves down the hierarchy. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.
Decision Reasons:	<ul style="list-style-type: none"> Given the use of permitted conditions, there is no certainty that the stormwater treatment measures are appropriate to the particular catchment and its values. For example, what type of contaminants are an issue and will the treatment measures address them). The provision also needs to allow measures which ensure the protection and enhancement of the Waikato and Waipa rivers.
Point Number	535.61
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities
Summary of Decision Requested	Amend Activity specific control 14.11.1.3 relating to P3 Wastewater servicing for new development or subdivision, to clarify that the options are a hierarchy: clause (ii) - connection to a community-scale wastewater system and clause (iii) - a site-contained alternative method that complies with AS/NZS 1547:2012, are not allowed if the method set out in clause (i) - connection to a public, reticulated wastewater network is available. AND Add an equivalent rule for water servicing. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.
Decision Reasons:	<ul style="list-style-type: none"> Amend rule to ensure that if a reticulated wastewater network is available, this should be required before considering the other options set out in clauses (ii) and (iii). If development exceeds the capacity of the existing system, upgrades should be required before other options are used. An equivalent rule for water servicing would give clear guidance on water management at the time of subdivision.
Point Number	535.62
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities
Summary of Decision Requested	Amend Activity Specific condition 14.11.1.8 relating to P8 Stormwater ponds or wetlands, so it is relevant to the control of stormwater infrastructure. AND Any consequential amendments and/or additional relief required to address the matters raised in the submission.
Decision Reasons:	<ul style="list-style-type: none"> The sizing/design of stormwater infrastructure should not be constrained by building coverage rules in a zone which have not been developed with infrastructure in mind. The area to be calculated needs to be made clear. For example, there is uncertainty as to whether the surface area of standing water during normal flow should be calculated up to a design level (e.g. 10% annual exceedance probability), including all slopes, batters, etc.

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.197	Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities
Summary of Decision Requested	Retain activity specific condition 14.11.1.4(a)(ii) relating to P4 Below ground pipelines for the conveyance of water, wastewater and stormwater. AND Delete activity specific condition 14.11.1.4(b) relating to P4 Below ground pipelines for the conveyance of water, wastewater and stormwater.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports 14.11.1 Permitted activities P4 and the activity specific condition, as this will ensure that works are not located within the Heritage items or Maaori sites or areas of significance. The submitter cannot support the exception in activity specific condition 14.11.1.4(b), as some of the bridges within the Waikato District are heritage items and an assessment should take place to consider the impact on heritage values. 		
Point Number	559.198	Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities
Summary of Decision Requested	Amend Rule 14.11.1 Permitted Activity P5 Below ground pipelines for the conveyance of water, wastewater and stormwater located within an Identified Area from a permitted activity status to become a Restricted Discretionary Activity status.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter cannot support the permitted activity rule P5 and the associated Activity specific condition 14.11.1.5(a) as the pipes both above and below ground have the potential to impact on cultural and heritage values and need to be assessed. 		
Point Number	559.199	Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities
Summary of Decision Requested	Retain activity specific condition 14.11.1.6(a)(i) relating to P6 Pump stations for the conveyance of water, wastewater and stormwater.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Rule 14.11.1 Permitted activities P6 and the activity specific condition 14.11.1.6(a)(i), as this will ensure that works are not located within the Heritage items and Maaori sites or areas of significance and will avoid adverse impacts on heritage values.

Summary of Decision Requested

Amend Rule 14.11.1 P5 Below ground pipelines for the conveyance of water, wastewater and stormwater located within an Identified Area, as follows:

Except within the Rural Zone, ~~b~~Below ground pipelines for the conveyance of water, wastewater and stormwater located within an Identified Area

and

Any consequential changes needed to give effect to this relief.

Decision Reasons:

- The submitter opposes Rule 14.11.1 to the extent that it seeks to impose inappropriate regulation on water, wastewater and stormwater management in rural areas.
- The issues around these services in rural area are quite different to the issues confronted within urban areas for a range of reasons, including different spatial and geographical scale and differences in the natural resource characteristics and opportunities to manage these.
- Farmers should not have to be unnecessarily burdened with delay and cost in managing their farms on a day-to-day basis from having to be confronted with inappropriate resource consent requirements which will have little or no environmental benefit.
- For farms in rural areas, the Waikato Regional Plan manages water take and water discharge issues, and there is no need to duplicate that regime with a range of inappropriate regulations aimed at urban-scale 3-water management issues.

Point Number

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.47		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities		
Summary of Decision Requested	Amend Rule 14.11.1(2) Permitted Activities as follows: (2) <u>Rule 14.2.1.1 will apply to the activities set out in this table unless there is a specific area, height, location and noise condition listed below.</u>		
Decision Reasons:	<ul style="list-style-type: none"> Consequential amendment of changes to Rule 14.2.1(P1)(1). 		
Point Number	697.48		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities		

Summary of Decision Requested	<p>Add a new rule to Rule 14.11.1 Permitted Activities as follows:</p> <p><u>Water servicing for new development or subdivision</u></p> <p>AND</p> <p>Add new activity specific conditions (14.11.1.10) as follows: <u>(g) Development or subdivision within the Residential, Village, Business, Business Town Centre, Industrial, Industrial Zone Heavy, Reserve, Te Kowhai Airpark and Rangitahi Peninsula Zone must have a water supply that complies with the following conditions:</u> <u>(i) Is connected to public, reticulated water network if a reticulated system is within 20m of the site;</u> <u>(ii) Water supply must be provided on site if a public, reticulated water supply is not available;</u> <u>(b) Development in the Rural, Country Living and Motorsport and Recreation Zone must have a water supply on-site.</u></p>
Decision Reasons:	<ul style="list-style-type: none"> • Include a rule with standards regarding water supply. There are currently rules requiring stormwater and wastewater to be managed, but there is no equivalent rules requiring an adequate water supply to be provided. Further investigation is needed as to the most appropriate condition because the rule needs to apply where a reticulated supply is in close proximity to the newly created site, but may not be adjacent (i.e. it may be across the other side of the road).
Point Number	697.50
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities
Summary of Decision Requested	<p>Amend Rule 14.11.1 (i) Permitted Activities Notes to replace the reference of the "Regional Infrastructure Technical Specifications" to the correctly reference and renumber the notes.</p> <p>AND</p> <p>Amend Rule 14.11.1 Permitted Activities to correct numbering.</p>
Decision Reasons:	<ul style="list-style-type: none"> • Update the reference to Regional Infrastructure Technical Specifications. Numbering of the notes needs correcting.
Point Number	697.51
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities
Summary of Decision Requested	<p>Delete Rule 14.11.1 P2 Permitted Activities The establishment of impervious surfaces associated with new development or subdivision and 14.11.1.2 from Chapter 14;</p> <p>AND</p> <p>Amend Chapters 16, 28, 24, 23 by relocating Rule 14.11.1 P2 and activity specific conditions in 14.11.1.2 into these chapters.</p>
Decision Reasons:	<ul style="list-style-type: none"> • Relocate this rule into chapters 16, 28, 24, 23 as this is more logically located in the zone chapters.
Point Number	697.52
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities
Summary of Decision Requested	<p>Amend Rule 14.11.1(P4) Permitted Activities as follows:</p> <p>Below-ground Pipelines for the conveyance of water, wastewater and stormwater</p>
Decision Reasons:	<ul style="list-style-type: none"> • Correct the activity so that it more accurately reflects the conditions.
Point Number	697.53
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities
Summary of Decision Requested	<p>Add new clauses (ii) and (iii) to Rule 14.11.1.6 P6 (a) Permitted Activities as follows:</p> <p><u>(ii) Not exceed 10m² in area above-ground;</u> <u>(iii) Not exceed 2.5m in height</u></p>
Decision Reasons:	<ul style="list-style-type: none"> • Include maximum height and area as a consequential amendment to Rule 14.2.1(P1)(1).
Point Number	697.54
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities
Summary of Decision Requested	<p>Amend Rule 14.11.1 P7 Permitted Activities as follows:</p> <p><u>(a) Stormwater treatment, detention and retention facilities or devices, excluding stormwater wetlands or ponds that comply with the following:</u> <u>(i) is not a stormwater wetland or pond.</u></p>
Decision Reasons:	<ul style="list-style-type: none"> • Amend so that the activity description is more accurate.
Point Number	697.55
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities
Summary of Decision Requested	<p>Amend Rule 14.11.1.8 P8 Permitted Activities Stormwater ponds or wetlands to correct numbering</p> <p>AND</p> <p>As a consequential amendment renumber P9 and P10.</p>
Decision Reasons:	<ul style="list-style-type: none"> • The numbering of the conditions needs correcting to avoid duplication.

Submitter:

John Lawson (Whaingaroa Environmental Defence Incorpora

On behalf of:	Whaingaroa Environmental Defence Incorporated Society
Point Number	780.12
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities
Summary of Decision Requested	Retain Activity specific standard 14.11.1 (a)(iii)- Permitted Activities pertaining to P3 waste water servicing which requires wastewater to comply with AS/NZS 1547:2012
Decision Reasons:	<ul style="list-style-type: none"> AS/NZS 1547:2012 covers the whole range of options which may be appropriate, including Waterless composting toilets, covered in the related AS/NZS 1546.2:2008. I support investigation of such systems to minimise water consumption and sewage volumes, thus making it more possible to treat sewage as a valuable resource, rather than an expensive waste.

Submitter Number:	822	Submitter:	Bob MacLeod
Point Number	822.2		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities		
Summary of Decision Requested	Add a new activity to Rule 14.11.1 Permitted Activities, as follows: <u>PII - Rain harvesting</u> <u>4.11.1.1 - Installation of rain tanks (storage), for water conservation.</u>		
Decision Reasons:	<ul style="list-style-type: none"> Financial benefit of rainwater tanks to the community through the reduction in the cost of water and stormwater infrastructure. Ability of Council to reduce the cost of water and stormwater infrastructure is dependent on the cost benefit of 'Long Run Marginal Cost'. This is used for creating new water supplies and represent the change in cost if new water sources are brought forward or delayed. 		

Submitter Number:	824	Submitter:	Bob MacLeod
Organisation:	Raglan Community Board		
Point Number	824.4		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities		
Summary of Decision Requested	Add to Rule 14.11.1 Permitted Activities, as follows: <u>PII Rain harvesting</u> <u>14.11.1.1 Installation of rain tanks (storage), for water conservation.</u>		
Decision Reasons:	<ul style="list-style-type: none"> The primary financial benefit of rainwater tanks to the community (in contrast to the individual property owner) is the potential reduction in the cost of water and stormwater infrastructure. The ability of Waikato District Council as the water authorities to reduce the cost of water and storm water infrastructure will depend on the economic cost benefit Long Run Marginal Cost.

Organisation:	Tainui		
Point Number	942.72		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities		
Summary of Decision Requested	Add new clauses to Activity specific conditions 14.11.1 relating to Rule 14.11.1 PI as follows <i>(a) New development or subdivision must have a stormwater system that complies with all of the following conditions:</i> ... <i>(v) Stormwater management measures, including low impact design measures, must be implemented as appropriate in accordance with the following drainage hierarchy:</i> ... <u><i>F. Re-routing of stormwater to avoid coastal discharge into sandy areas.</i></u> ... <i>(b) Where the existing management of stormwater does not meet the requirement for New Developments and problems are resulting, upgrading may be required to mitigate adverse effects in accordance with 14.11.1 section (a).</i> <i>(c) Manages stormwater in the following manner: No stormwater discharges into coastal sandy beach areas to minimise the risks of erosion.</i>		
Decision Reasons:	<ul style="list-style-type: none">• Stormwater outlets have been responsible for numerous land sourced erosion events along the Ngarunui - Te Kopua Beaches.• Efforts by Beachcare and Coast care volunteers have helped mitigate effects through having outlets stopped and re-routed, affected areas fences, followed by focused planting of dune species.		
Point Number	942.73		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.1 Permitted Activities		
Summary of Decision Requested	Retain Activity Specific condition 14.11.3(a)(iii) relating to Rule 14.11.1 P3.		
Decision Reasons:	<ul style="list-style-type: none">• The submitter has fought for over 50 years for a circular system of wastewater treatment and disposal, and are open to considering options which would better protect the mauri of waterways which are currently used for wastewater disposal.• Most of the multiply owned land available to whanau and hapu for development are sited in areas which are not serviced by reticulated systems so again other options need to be investigated.		

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.2 Restricted Discretionary Activities

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.4 Non-Complying Activities

Submitter Number:	243	Submitter:	Shaun McGuire
Point Number	243.3		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.4 Non-Complying Activities		
Summary of Decision Requested	<p>Amend Rule 14.11.4 NC2 for wastewater treatment plants to be a Restricted Discretionary activity for wastewater treatment plants located in the Residential Zone. If wastewater and stormwater infrastructure is not available, an engineer-designed wastewater treatment system approved by Waikato District Council's engineering department may be used.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Some parts of Tuakau do not have wastewater and stormwater. Many of these areas have small lots made up of multiple owners. The costs to install these services for small developments is prohibitively expensive. Engineered waste and stormwater systems are successfully servicing dwelling in this area now. Approval via resource consent on a Restricted Discretionary basis will allow this to continue until suitable waste and stormwater can be provided. Placing this as a non-complying activity will make this process unreasonably difficult to obtain approval. Restricted Discretionary is a fair category. 		

Point Number	243.8
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.4 Non-Complying Activities
Summary of Decision Requested	Delete Rule 14.11.4 (xix) Non-Complying Activities.
Decision Reasons:	<ul style="list-style-type: none"> In the Residential Zone where reticulated wastewater is not available, this prevents being able to provide adequate alternative solutions to disposing of wastewater.

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.203		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.4 Non-Complying Activities		
Summary of Decision Requested	Retain Rule 14.11.1 NCI, NC2 and NC3 Non Complying Activities.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Rule 14.11.4 Non-Complying activities NCI, NC2 and NC3 as this level of resource consent activity provides the appropriate level of protection and assessment to provide protection as required under section 6 of the Resource Management Act 1991. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.38		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.4 Non-Complying Activities

Decision Reasons:	<ul style="list-style-type: none"> The submitter opposes Rule 14.11.4 for the same reasons that they oppose Rule 14.11.1, and the relief sought reflects that accordingly. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.60		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.4 Non-Complying Activities		
Summary of Decision Requested	Amend Rule 14.11.4 NC1 Non-Complying Activities as follows: <i>Water treatment plants located within the following:</i> <i>(vii) Road and or unformed road; or</i> <i>(viii) Identified Area</i>		
Decision Reasons:	<ul style="list-style-type: none"> This will correct the numbering and improve clarity of the rule. The amendments as they are currently are hard to read. 		
Point Number	697.61		

Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.4 Non-Complying Activities	
Summary of Decision Requested	Amend Rule 14.11.4 NC2 Non-Complying Activities as follows: <i>Wastewater treatment plants located within the following:</i> (xxxj) Residential Zone (xxxii) Rangitahi Peninsula Zone (xxxiii) Village Zone (xxxiv) Business Zone (xxxv) Business Town Centre Zone (xxxvi) Tamahere Business Zone (xxxvii) Te Kowhai Airpark Zone (xxxviii) Road and unformed road (xxxix) Identified Area	
Decision Reasons:	<ul style="list-style-type: none"> This is to correct the numbering. The amendments as they are currently are hard to read. 	

Submitter Number:	698	Submitter:	Simon Dromgool
On behalf of:	Christine Dromgool John and Caroline Vincent Mark Dromgool		
Point Number	698.1		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.4 Non-Complying Activities		
Summary of Decision Requested	Amend Rule 14.11.4(a) NC2 Non-Complying Activities, to be a controlled activity so that any acceptable wastewater system should be a requirement.		
Decision Reasons:	<ul style="list-style-type: none"> This negates the ability to have a septic tank servicing a dwelling on an existing 1/4 acre section even though this practice has been acceptable since the township was formed. Technologies in wastewater treatment systems have progressed significantly in recent decades with more efficiency gained and less land area required. These legal titles, rated separately, should have the right to a building consent without restriction. 		

Submitter Number:	823	Submitter:	NZTE Operations Limited
Point Number	823.2		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.4 Non-Complying Activities		
Summary of Decision Requested	Delete Rule 14.11.4- Non-Complying Activities NC2 (g). AND Amend the Proposed District Plan for any consequential relief required to give effect to this submission.		
Decision Reasons:	<ul style="list-style-type: none"> Intends to have on-site treatment and disposal of wastewater in the form of a Packed Bed Reactor (or similar) to meet relevant Waikato Regional Council standards. As such, a wastewater treatment plan is a permitted activity in Chapter 27.1.1. Chapter 14 (Infrastructure and Energy) is inconsistent with this rule because Rule 14.11.4 classifies wastewater treatment plants as a non-complying activity for the Te Kowhai Airpark Zone. The permitted activity rule in Chapter 27 should therefore take precedence over the general rule in Chapter 14. 		

Submitter Number:	942	Submitter:	Angeline Greensill
Organisation:	Tainui		
Point Number	942.74		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.11 Water, wastewater and stormwater > 14.11.4 Non-Complying Activities		
Summary of Decision Requested	Add an exemption to Rule 14.11.4 NC2 (xx) Non-Complying Activities as follows: (xx) Rangitahi Peninsula Zone; <u>Land made available for treatment of sewage through wetlands or land based treatment is exempted</u> AND Add a new clause to Rule 14.11.4 NC2 Non-Complying Activities as follows: (xxx) <u>In conjunction with the planning, consideration shall be given to the identification of areas suitable for wastewater polishing and mini treatment plants to mitigate the risk of disposal in the event of failure to the existing networks from significant events or natural disasters.</u>

Decision Reasons:	<ul style="list-style-type: none"> To achieve sub-regional consistency, as there is no reason for variation to occur. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.244		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation		
Summary of Decision Requested	Add new rules to Rule 14.12.1 Permitted Activities concerning sensitive activities, as per Attachment 3 to the submission. AND Add new rules to 14.12.2 Restricted Discretionary Activities concerning sensitive activities, as per Attachment 3 to the submission. OR Add new rules to each zone adjacent to a state highway or rail corridor. Refer to submission for full details. AND Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter seeks provisions be inserted requiring all new buildings, or alterations to existing buildings containing a noise sensitive activity to be appropriately mitigated in relation to road and rail noise and vibration. The Proposed District Plan defines 'reverse sensitivity' and acknowledges it with some supportive policies and objectives which are supported by the submitter. The Plan protects some activities sensitive to noise but not the effects from operational railway and road noise and vibration within in the District. The submitter seeks to introduce new rules, which has been developed collaboratively with Kiwirail, in various chapters of the Plan. This will ensure potential adverse effects (including conflicts between activities and reverse sensitivity effects) are mitigated. Rules could either be inserted as district-wide rules (applying to all zones) or alternatively within each of the zones where state highways and/or rail networks are located. The rail network is a 24 hours a day, 7 days a week operation, and the frequency, length and weight of trains can change without community consultation. The road network is similarly operating 24 hours a day, 7 days a week with variability in traffic. Noise and vibration effects can interrupt amenity and enjoyment, as well as ability to sleep which can have significant impacts on people's health and wellbeing. Appropriate mitigation is critical to ensure that undue restrictions are not placed on the operation of these transport networks and the health and wellbeing of those residing or otherwise occupying nearby sites is protected. Part 2 of the Act supports the efficient use and development of the road and rail network while also enabling people and communities to provide for their well-being and their health and safety. An appropriate balance needs to be achieved between ensuring the transport network is efficiently utilised and adjacent development can be facilitated, without compromising safety of people and communities. The proposed new rules provide for new or altered buildings within 100 m of the railway boundary, which can achieve the required internal noise standard, to be permitted activities. Where windows need to be closed to achieve the desired internal noise levels then ventilation performance is prescribed. Where a new or altered building is 50m away from the railway corridor boundary and there is a line of sight i.e. a cut or a physical barrier removing line of sight to 3.8m high, this can also be assessed as a permitted activity. Enhancements to buildings are best achieved at the time of construction. The further removed from the road or rail corridor a building is, the less additional mitigation may be required. The noise level proposed is in accordance with World Health Organisation standards. The mitigation for adverse effects on human health proposed through these provisions reflects that in some circumstances, e.g. smaller residential sites near the transport corridor, requiring a greater setback from the transport corridor boundary as a means of addressing noise and vibration effects may not always be practicable. The rules seek to ensure that building development options can still maximise the use of a site, while at the same time having standards for mitigating noise and vibration effects arising from the transport corridor. 		

Submitter Number:	751	Submitter:	Chanel Hargrave and Travis Miller
Point Number	751.37		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation		
Summary of Decision Requested	No specific decision sought, however the submitter states that the proposed access standards are excessive.		
Decision Reasons:	<ul style="list-style-type: none"> The access standard will result in inefficient use of land and prevent infill development. The extra seal width will also increase impervious surfaces and stormwater runoff without any benefits relating to traffic. Will add additional costs to developments. There are national documents that cover access to properties. 		

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Submitter Number:	123	Submitter:	Libby Gosling
Organisation:	Classic Builders Waikato Limited		
Point Number	123.1		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	Retain Rule 14.12.1.3(1)(a)(i) Permitted Activities – exemption of Local Roads within the Residential and Village Zones with a posted speed limit of less than 60km/h from providing on-site manoeuvring, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The currently operative District Plan requires that all sites provide onsite manoeuvring and the submitters find that this requirement is very restrictive and 		

results in poor outcomes where the house functionality and onsite amenity is sacrificed to cater to car parking and manoeuvring space.

- The submitters support the proposed change to remove this requirement for residential properties in low speed environments.

Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested

Add clause (b) to Activity-specific conditions 14.12.1.8 relating to P8 off-road pedestrian and cycle facilities as follows:

(b) In the Kimihia Lakes Recreation and Events Zone there shall be no activity specific conditions.

AND

Any consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- New provisions are required to support the establishment of a zone to enable development of the Kimihia Lakes Recreation and Events Zone.

Submitter Number: 297 **Submitter:** Dave Glossop

Organisation: Counties Manukau Police

Point Number 297.49

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested **Amend** Rule 14.12.1.6 P6(1) Permitted Activities – New public roads as follows:

New public roads, and private access, including where....

Decision Reasons:

- To ensure that there is an obligation to consider access, this is critical for the access of emergency services and other service vehicles.
- This is of specific concern and has been problematic in some new developments under the authority of Auckland Council.

Submitter Number: 299 **Submitter:** ZSEN Limited and Tuakau Estates Limited

Point Number 299.16

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested **Delete** Rule 14.12.1.6(d)(iii) Transportation – Permitted Activities.

AND

Any consequential changes necessary to give effect to the relief sought.

Decision Reasons:

- Whilst swales are not generally opposed as a method of stormwater management, they will not be suitable in all circumstances. The rule is not specific enough to be a permitted activity standard eg: terms are not defined or quantifiable (poor drainage; infiltration system).
- This matter is more appropriately dealt with by an engineering code of practice requirement

Submitter Number: 302 **Submitter:** Jeremy Talbot

On behalf of: EnviroWaste New Zealand Limited **Organisation:** Barker & Associates Limited

Point Number 302.3

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested **Delete** Rule 14.12.1 P4(e) Permitted Activities.

AND

Amend the Proposed District Plan to make consequential amendments or additional amendments to address the matters raised in the submission.

Decision Reasons:

- The applicant is concerned at the traffic generation threshold allowable for the Light Industrial Zone, being "Maximum 250 vehicle movements per day and no more than 15% of these vehicle movements are heavy vehicle movements".
- Heavy vehicle movements characterize industrial zones and to limit these to only 15% of the trip generations are unnecessarily restrictive on industrial operations.
- The objectives and policies contained in Chapter 6.5 do not support this restriction on transportation.

Point Number 333.4

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested **No specific decision sought**, but submission considers Horotiu Road should be the main vehicle access to 702 Horotiu Road, Te Kowhai.

Decision Reasons:

- Horotiu Road is classified as an Arterial Road, whereas Woolrich Road is a local road and thus the main access for the property.
- Horotiu Road provides excellent linkage through to Limmer Road and SH39 and is fully road marked.
- Woolrich Road has a sealed width of 5.5m with limited road markings and two sharp corners.
- Submitter notes an increase in traffic flow resulting from more dwelling constructions on Woolrich, Bedford, Richards and Collie Road, all utilizing Woolrich Road for SH39 access.
- There is still a number of vacant blocks yet to be developed which will lead to increased traffic.
- Potential for additional blocks to be developed within 702 Horotiu Road would exacerbate traffic problem by using Woolrich Road for access.
- Recommend no vehicle access from Woolrich Road for 702 Horotiu Road for safety reasons.
- Rule 14.12.5.1 requires the minimum sealed width for a road within such a development is 8m, greater than Woolrich Road's width.

Point Number	368.17		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	Amend Rule 14.12.1.1(6)(f), to delete specific requirements for development within the Te Kauwhata Structure Plan area.		
Decision Reasons:	<ul style="list-style-type: none"> This area has not been defined in the Proposed Plan. In particular the existing site gradients have been found to be too steep for road side swales to be provided without scour occurring. Unclear referencing to other documents not notified with the Proposed Plan creates uncertainty in terms of being able to effectively assess the issues associated with a particular project. Certainty is required to enable appropriate planning to occur, both for Council and for private landowners/developers to ensure that the relevant requirements of the District Plan can be administered with both efficiency and certainty. 		

Submitter Number:	372	Submitter:	Steve van Kampen
Organisation:	Auckland Council		
Point Number	372.15		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	Retain Transportation 14.12.1 (a) Permitted Activities.		
Decision Reasons:	<ul style="list-style-type: none"> General alignment of the definition of "road network activities" will make it more efficient for Auckland Transport to manage roading within Waikato District and across the common boundary. 		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.16		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	<p>Retain Rule 14.12.1.1 relating to P1 Vehicle access, subject to the relief sought in relation to Tables 14.12.5.14 and 14.12.5.15</p> <p>AND</p> <p>Amend Rule 14.12.1.1 relating to P1 Vehicle access for all activities, as follows:</p> <p><i>14.12.1.1 Vehicle access for all activities</i></p> <p>(1) All activities must comply with the following vehicle access conditions:</p> <p>(a) The site has a vehicle access to a formed road that is maintained by a road controlling authority;</p> <p>(b) The site has a vehicle access that is constructed to comply with the relevant requirements of Table 14.12.5.1, Figure 14.12.5.2, Table 14.12.5.3 and Figure 14.12.5, <u>Table 14.12.5.14 and Table 14.12.5.15</u> except:</p> <p>AND</p> <p>Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Subject to relief sought in relation to Table 14.12.5.14 and Table 14.12.5.15, Fire and Emergency New Zealand generally supports the access provisions in 14.12.1.1 as it recognises the need for suitable vehicle access for all activities within the District. For fire appliances to access an emergency, adequate access width, height and gradient is necessary. A 95th percentile pumping appliance has a width of 2.5m, a height of 3.55m and a length of 8.72m. A clearance of greater than 4m is required for firefighters to work around the fire appliance to access hoses and pumps. The maximum negotiable gradient is 1:5, accompanied by a 4m long 1:15 transition grade. In order to provide for ability to access a fire/emergency, amendments must be made to ensure adequate clearance. Inclusion of these tables will ensure all activities comply with the relevant vehicle access requirements to ensure sufficient access for firefighting purposes. Vehicle access that does not comply with one or more of the conditions of Rule 14.12.1.1 is a Restricted Discretionary Activity.

Point Number	386.15		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	Amend Rule 14.12.1 Permitted Activities, so that the minimum parking requirement in the Residential Zone is for one car park per dwelling.		
Decision Reasons:	<ul style="list-style-type: none"> The requirement is unnecessary. Such a requirement also is likely to lead to the inefficient use of residentially zoned land, where for instance on-site space could better be utilized to provide for useable private outdoor space. Amendment will enable locational specifics and market demand to determine whether the provision of two car parks per dwelling is needed or desired for any given residential development proposal. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.107		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	Amend activity specific condition 14.12.1.4 (1)(d)(i) in Rule 14.12.1 Permitted Activities, as it relates to P4 Traffic Generation, as follows:		

(d) Within the Rural Zone:

(i) There is a maximum 200 vehicle movements per day and no more than 15% of these vehicle movements are heavy vehicle movements; or

For activities directly associated with horticulture harvesting, a maximum of 300 vehicle movements once in a 12 month period and no more than 33% of these vehicle movements are heavy vehicle movements; or

...

AND

Any consequential or additional amendments as a result of changes sought in the submission.

Decision Reasons:

- The proposed maximum permitted traffic movements for rural activities is sufficient for everyday horticultural operations. However, at harvest time the volume of product significantly increases and requires a considerably higher number of trucks to transport produce for processing and distribution.
- The 15% maximum heavy vehicles equate to 30 trucks.
- The submitter seeks an exemption to allow for an increased volume of traffic movements once every 12 months, and only associated with harvest time.
- A total of 50 trucks or 100 vehicle movements is sought to allow for the contingency.

Submitter Number: 466 **Submitter:** Brendan Balle
Organisation: Balle Bros Group Limited

Point Number 466.3
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested Amend Rule 14.12.1.4 P4 Traffic Generation to enable annual exemption for horticultural activities during harvest time.

Decision Reasons:

- It is too restrictive for harvest time.
- It is considered that for most of the year this level is achievable however, once a year during harvest time this will be unachievable.
- Commercial vegetable growers do not want to be in a position that they require a consent to harvest.

Submitter Number: 535 **Submitter:** Lance Vervoort
Organisation: Hamilton City Council

Point Number 535.63
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested Amend Activity specific condition 14.12.1.8 (a)(i) relating to P8 Off-road pedestrian and cycle facilities, to provide for instances when the minimum width of 2 metres is not appropriate.

AND

Amend Activity specific condition 14.12.1.8 (a)(i) relating to P8 off-road pedestrian and cycle facilities, to define/clarify what is meant by "off-road pedestrian and cycling facilities".

AND

Any consequential amendments and/or additional relief required to address the matters raised in the submission.

Decision Reasons:

- There are some circumstances when off-road pedestrian and cycle facilities need to be wider than 2 metres (such as along arterial corridors or when forming, or connecting to, part of a wider network with a wider standard). Shared facilities should be at least 2.5 metres.
- The rule is unclear as to whether the conditions only apply to facilities outside the road corridor or whether it also includes off-carriageway facilities located inside the road corridor.

Point Number 535.64
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested Amend Activity specific condition 14.12.1.8 (a)(iii) relating to P8 off-road pedestrian and cycle facilities, to clarify what effects this rule is managing.

AND

Any consequential amendments and/or additional relief required to address the matters raised in the submission.

Decision Reasons:

- Pedestrian and cycling facilities do not generate bulk or dominance related effects.
- Having to comply with a zone setback (particularly if off-road facilities are still within the road corridor) is an inefficient use of land.

Summary of Decision Requested	Retain activity specific condition 14.12.1.7(4) relating to P7 Access and New Roads – Te Kowhai Airpark Zone.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Permitted activity P7 and the activity specific condition 14.12.1.7(4) as this will ensure that works are not located within the Heritage items or, subject to the acceptance of the related Heritage New Zealand submission point, Maaori sites or areas of significance, and therefore adverse impacts on heritage values will be avoided.
Point Number	559.207
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities
Summary of Decision Requested	Retain activity specific condition 14.12.1.8(iv) and(v) relating to P8 Off-road pedestrian and cycle facilities.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports permitted activities P8 and activity specific condition 14.12.1.8(iv) and (v) as this will ensure that works are not located within the Heritage items or Maaori sites or areas of significance, and therefore adverse impacts on heritage values will be avoided.
Point Number	559.208
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities
Summary of Decision Requested	Retain activity specific condition 14.12.1.9 (1)(a) and (b) relating to P9 Stock underpasses located within (a) Road and unformed road (b) Rural Zone.
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports permitted activities P9 and activity specific condition 14.12.1.9(a) and (b) as this will ensure that works are not located within the Heritage items or Maaori sites or areas of significance, and therefore adverse impacts on heritage values will be avoided.

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.39		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	<p>Retain Rule 14.12.1 Permitted Activities, except for the amendments sought below.</p> <p>AND</p> <p>Amend activity specific condition 14.12.1.4 relating to P4 Traffic Generation as follows:</p> <p>(1) Any activity must comply with the following traffic generation conditions:</p> <p>...</p> <p>(j) from the Horotiu Industrial Park: does not exceed 15.4 trips/ha gross land area/peak hour.</p> <p>Note: Where the likely traffic generation rates of the actual generation rates of the actual activity are unknown, Table 14.12.5. provides indicative traffic generation rates for various activities.</p> <p>AND</p> <p>Amend the Proposed District Plan to make alternative or consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Supports rule 14.12.1, with the exception of rule 14.12.1P4 Traffic generation The Proposed District Plan does not retain schedule 24B - Horotiu Industrial Park (from the Operative District Plan) and therefore the maximum permitted traffic generation has been altered. The Operative Waikato District Plan requires trip generation from the Horotiu Industrial Park not to exceed 15.4 trips per gross hectare of land during the peak hour, whereas the Proposed District Plan would result in the maximum permitted traffic generation being reduced to 250 vehicle movements per day. This will have implications on the operation of the Horotiu Industrial Park. Such a control does not recognise the regional significance of the Horotiu industrial Park. Clarification is required to the note that table 14.12.5.13 only applies where the likely traffic generation of the activity is unknown. 		

Submitter Number:	581	Submitter:	Penny Gallagher
Organisation:	Synlait Milk Ltd		
Point Number	581.22		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 14.12.1P4(l)(e) Permitted Activities to increase the maximum number of vehicle movements per day and the maximum percentage of heavy vehicle movements.</p> <p>OR</p> <p>Delete Rule 14.12.1P4(l)(e) Permitted activities and replace with a new rule where developments over 10,000m2 trigger a requirement for an integrated transport assessment.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The rule is restrictive and the place for heavy vehicle movements is in a Heavy Industrial Zone. Any limit within this rule should reflect the types of activities anticipated in the zone. Require larger scaled developments to undertake an integrated transport assessment will enable the specific traffic profile associated with larger scaled activities and the characteristics of the locality to be assessed.

Submitter Number:	591	Submitter:	Stevenson Waikato Ltd
Point Number	591.8		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 14.12.1 P4(d) Traffic Generation, as follows:</p> <p>(d) Within the Rural Zone:</p>		

(i) There is a maximum 200 vehicle movements per day and no more than 15% of these vehicle movement are heavy vehicle movements; or

(ii) Within the Agricultural Research Centres identified on the planning maps as a Specific Area there is maximum 3000 vehicle movements per day; or

(iii) Within the Aggregate Extraction Areas or Aggregate Resource Areas identified on the planning maps there is a maximum of 400 vehicle movements per day including heavy vehicle movements.

Decision Reasons:

- There is no provision in the permitted traffic generation rule for lawfully established extractive industry and their associated truck movements other than a specific provision for the "Huntly Quarry".
- Most extractive industry sites are located in the Rural Zone. The rule has a maximum of 200 vehicle movement of which no more than 15% can be heavy vehicle movements. Quarries cannot comply with this rule and some lawfully established extractive industry can generate up to a maximum of 400 heavy vehicle movements a day.
- It cannot have been Council's intention to make all quarries non-compliant with regard to this rule.

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested

Delete Rule 14.12.1 P4(c) Permitted Activities in its entirety.

AND

Any consequential amendments and/or additional relief required to address the matters raised in the submission.

Decision Reasons:

- Concerns at the traffic generation threshold allowable for the Business zone. Being a maximum 300 vehicle movements per day and no more than 15% of these vehicle movements are heavy vehicle movements.
- The Business zones are characterised by heavy vehicle movements and to limit these to only 15% of the trip generations unnecessarily restricts business operations.
- The objectives and policies do not support this restriction on transportation.

Point Number

633.18

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested

Delete Rule 14.12.1P4(e) Permitted Activities in its entirety.

AND

Any consequential amendments and/or additional relief required to address the matters raised in the submission.

Decision Reasons:

- The applicant is concerned at the traffic generation threshold allowable for the industry zone, being "Maximum 250 vehicle movements per day and no more than 15% of these vehicle movements are heavy vehicle movements".
- The Industrial zones are characterised by heavy vehicle movements and to limit these to only 15% of the trip generations unnecessarily restrictive on industrial operations.
- The objectives and policies and contained in Chapter 6.5 do not support this restriction on transportation.

Summary of Decision Requested	Retain Rule 14.12.1.4(d)(ii) Permitted Activities - Traffic Generation.
Decision Reasons:	<ul style="list-style-type: none"> Rule 14.12.1.4(d)(ii) Permitted Activities Traffic Generation retains the permitted traffic movements for an Agricultural Research Centre from Schedule 25C of the Operative Waikato District Plan, which is supported.

Submitter Number:	680	Submitter:	Federated Farmers of New Zealand
Point Number	680.174		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	<p>Delete Activity specific conditions 14.12.1.9 (1)(b) relating to P9 Stock underpasses located within:</p> <p>(a) Road and unformed road (b) Rural Zone</p> <p>AND</p> <p>Any consequential changes needed to give effect to this relief.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter opposes Rule 14.12.1, and submits that restrictions on stock underpasses in the Rural Zone, that are aimed at managing visual amenity, should be appropriate to reflect the wide-open space scale and rural amenity character of rural areas. It is not appropriate to superimpose the same visual amenity values on structures in rural areas as in urban areas. In rural areas, farmers typically have need of stock underpasses to augment the efficient and safe operation of farms. Imposing a requirement to trigger resource consent for stock underpasses in Identified Areas, unfairly penalises farmers who have to rely on such equipment, for what amounts to little or no environmental benefit. Efficiency and safety of farm operations can be compromised if farmers are required to have a high regulatory hurdle to overcome in order to be able to install practically-sized functional stock underpasses, for the sake of unnecessary visual amenity criteria.

- i. All ~~traffic~~ vehicle movements generated from all activities on the site combined (including those movements which were lawfully established prior to 5 December 2012), there is a maximum 750 vehicle movements per day; and
- ii. ...
- (g) ...
- i. All ~~traffic~~ vehicle movements generated from all activities on the site combined (excluding those movements which were lawfully established prior to 5 December 2012), there is maximum 350 vehicle movements per day;

Decision Reasons:

- This will provide consistency between the terms used.

Point Number 697.68

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested **Amend** Rule 14.12.1.4 Permitted Activities Traffic generation as follows:

(1) ~~Any activity~~ Each site must comply with the following traffic generation conditions:

Decision Reasons:

- Clarity that the traffic generation applies per site as it is not clear from the rules.

Point Number 697.69

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested **Amend** Rule 14.12.1.6(1)(d)(ii) Permitted Activities New public roads, including where the road has been identified on the planning maps as an Indicative road, and associated road network activities as follows:

ii. Have swale drains on both sides of the carriageway capable of collecting all road runoff and overland flow towards the road or right of way from a 20% Annual Exceedance ~~Period~~ Probability event; and

Decision Reasons:

- Consistency with defined terms.

Point Number 697.70

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested **Amend** Rule 14.12.1.6(1)(a) Permitted Activities New public roads, including where the road has been identified on the planning maps as an Indicative road, and associated road network activities as follows:

(a) The public road is located within road or unformed road as shown on the planning maps;

Decision Reasons:

- Improved clarity of the rule.

Point Number 697.71

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested **Amend** Rule 14.12.1 P8 Permitted Activities Off-road pedestrian and cycle facilities as follows:
Off-road pedestrian and cycleways ~~facilities~~

AND

Amend Rule 14.12.1.8(a) as follows:

(a) Off-road pedestrian and cycleways ~~cycling facilities~~ that comply with all of the following conditions:

Decision Reasons:

- Improved clarity of the rule and consistency of terminology.

Point Number 697.80

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested **Add** to Rule 14.12.1 Permitted Activities a new rule as follows:

P10
Esplanade reserves and strips where a road is stopped.

14.12.1.10.
(a) Where land comprising a stopped road or any part of a stopped road adjoins:

- (i) the mark of mean high water springs of the sea; or
- (ii) the bank of any river with an average width of 3 metres or more; or
- (iii) the margin of any lake with an area of 8 hectares or more.

Section 345(3) of the Local Government Act 1974 and section 118 of the Public Works Act 1981 will apply only where the land comprising the stopped road or part of the stopped road is identified.

(iv) in Appendix 5 (Esplanade Priority Areas); or

(v) on the planning maps as requiring an esplanade reserve, esplanade strip or access strip to be set aside.

AND

Add a new rule in Discretionary Rule 14.12.3 as follows:

D3
Esplanade reserves where a road is stopped that does not comply with Rule 14.12.1.10.

Decision Reasons:

- Include a rule to clarify the situation for road stopping and esplanade reserves and strips. Even though this rule is regarding esplanade reserves, it needs to apply district-wide.

Submitter Number: 723

Submitter: Tyler Sharratt

On behalf of: Winstone Aggregates

Point Number 723.9

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested	Amend Rule 14.12.1.4 (1) (d) Permitted Activities relating to P4 Traffic Generation, as follows: (d) <i>Within the Rural Zone:</i> (i) <i>There is maximum 200 vehicle movements per day and no more than 15% of these vehicle movements are heavy vehicle movements; or</i> (ii) <i>Within the Agricultural Research Centres identified on the planning maps as a Specific Area there is maximum 3000 vehicle movements per day; or</i> (iii) <u><i>All traffic movements generated from sites identified on the planning maps as Aggregate Extraction Areas, there is a maximum of 400 vehicle movements per day; or</i></u>
Decision Reasons:	<ul style="list-style-type: none"> There is no provision in the permitted traffic generation rule for lawfully established extractive industry and their associated truck movements. Most extractive industry sites are located appropriately in the Rural Zone. Rule P4 has a maximum of 200 vehicle movements, of which 15% can be heavy vehicles. An estimated 90% of vehicle movements from quarries are heavy vehicle movements. It is unlikely that it is Council's intention to make all quarries in the district non-compliant with regard to this rule or is it expected quarries all seek consent for a lawfully established activity.

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		

Point Number	742.100
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities
Summary of Decision Requested	<p>Retain Rule 14.12.1.3(1)(b)P3 On-site manoeuvring and queuing, except for the amendments sought below</p> <p>AND</p> <p>Amend Rule 14.12.1.3(1)(b)P3 On-site manoeuvring and queuing as follows:</p> <p><i>A 90th percentile car, as defined in Figure 14.12.5.8, can enter and exit all parking spaces without making more than one reverse movement, excluding spaces required for a dwelling;</i></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Rule 14.12.1.3(1)(b) but seeks an amendment to ensure the correct abbreviation.

Point Number	742.101
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities
Summary of Decision Requested	<p>Amend Rule 14.12.1.3(1)(c) P3 onsite manoeuvring and queuing, as follows:</p> <p><i>On-site manoeuvring space for any heavy vehicle shall comply with the tracking curve (relevant for the type of activities to be carried out on the site and <u>the largest combination standard configuration heavy vehicle permitted on the road(s) to which the site has frontage trucks to be used</u>), as set out in the guideline <u>RTS 18 - New Zealand on-road tracking curves for heavy motor vehicles (2007)</u>;</i></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> Rule 14.12.1.3(1)(c) refers to 'RTS 18 - New Zealand on-road tracking curves for heavy motor vehicles' (2007). RTS 18 is a 2007 document and was produced before High Productivity Motor Vehicles (HPMV) were permitted on some roads. The Proposed District Plan should refer to tracking curves for the largest combination standard configuration heavy vehicle permitted on the roads to which the site has frontage.

Point Number	742.102
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities
Summary of Decision Requested	<p>Retain Rule 14.12.1.4 P4 Traffic generation except for the amendments sought below.</p> <p>AND</p> <p>Amend all references to "per day" in Rule 14.12.1.4(1)P4 Traffic generation to "<u>per site</u> per day."</p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Rule 14.12.1.4(1) which refers to a given number of vehicle movements per day in various zones. The rule requires further clarity that the threshold relates to vehicle movements per site rather than per zone.

Point Number	742.103
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities
Summary of Decision Requested	<p>Amend Rule 14.12.1.5(1) P5 Operation, maintenance and minor upgrading of existing public roads, as follows (subject to relief sought on Rule 14.3.1.3):</p> <p><i>Operation, maintenance and minor upgrading of existing public roads, State Highways and associated road network activities must comply with the following conditions:</i></p> <p>(a) <i>The works occur within the road reserve or unformed road;</i> (b) <i>Works within the road must <u>be for the purpose of:</u></i></p> <p>(i) <i>maintaining or improving effectiveness or efficiency consistent with the incidental to, and serve a supportive function of for, the existing public road; or</i> (ii) <i>Maintaining or improving safety for road users or adjacent properties Required for the safety of road users; or</i> iii. Required for the safety of adjacent landowners or occupiers;</p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>

Decision Reasons:	<ul style="list-style-type: none"> The submitter opposes Rule 14.12.1.5(1)(b)(i) P5 as the term "supportive function" is not defined in the Plan so the rule is vague. Each road's function is defined by its categorisation in the road hierarchy which is considered a clearer reference point. Notes this rule also requires compliance with Rule 14.3.1.3 which the Transport Agency has sought changes to elsewhere in this submission.
Point Number	742.242
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities
Summary of Decision Requested	<p>Retain Rule 14.12.1.6(1) P6 New public roads, except for the amendments sought below</p> <p>AND</p> <p>Amend Rule 14.12.1.6(1) P6 New public roads as follows (subject to relief sought on Rule 14.3.1.3):</p> <p>(c)(i) <i>Any national routes or regional arterial roads would shall be subject to Rule 14.12.2 (RD6) ...</i></p> <p>(d)(i) <i>Comply with the the minimum widths specified in Figure 14.12.5.17;</i></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> Minor grammatical corrections are required. This rule also requires compliance with Rule 14.3.1.3 which the submitter has sought changes to elsewhere in this submission.
Point Number	742.243
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities
Summary of Decision Requested	<p>Retain Rule 14.12.1.8(a) P8 Off road pedestrian and cycle facilities, except for the amendments sought below</p> <p>AND</p> <p>Amend Rule 14.12.1.8(a) P8 Off road pedestrian and cycle facilities, as follows (subject to relief sought on Rule 14.3.1.3):</p> <p><i>Off-road pedestrian and and cycling facilities that comply with all of the following conditions...</i></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of this rule but suggest it should provide flexibility regarding pedestrian, cycle and shared facilities. Note this rule also requires compliance with Rule 14.3.1.3 which the submitter has sought amendments to.
Point Number	742.95
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities
Summary of Decision Requested	<p>Retain Rule 14.12.1.1 P1 Vehicle access for all activities, except for the amendments sought below</p> <p>AND</p> <p>Amend Rule 14.12.1.1 P1 (a) Vehicle access for all activities as follows:</p> <p><i>The site has a vehicle legal physical access to a formed road that is maintained by a road controlling authority;</i></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally supports the conditions in 14.12.1.1. Clarification is required for (1)(a) so that access should be both legal and physical. The Transport Agency particularly supports the requirement that vehicle access should be to a road with the lowest available classification in the road hierarchy.
Point Number	742.96
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities
Summary of Decision Requested	<p>Retain Rule 14.12.1.1 Advice Note, except for the amendment sought below</p> <p>AND</p> <p>Amend Rule 14.12.1.1 Advice Note as follows:</p> <p><i>Any new vehicle access (or additional land use utilising an existing vehicle entrance) on a limited access road or state highway will require the approval of the NZ Transport Agency; as the road controlling authority.</i></p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the Advice Note for Rule 14.12.1.1(P1), but seeks minor amendments. Not all limited access roads are administered by the submitter. No works can be undertaken within a state highway without the prior approval of the submitter pursuant to section 51 of the Government Roadway Powers Act 1989.
Point Number	742.97
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities
Summary of Decision Requested	<p>Retain Rule 14.12.1.2 (1)(a)(ii) P2 Onsite parking and loading, except for the amendments sought below</p>

AND

Amend Rule 14.12.1.2(1)(a)(ii) P2 Onsite parking and loading as follows:

If the calculation results in a fraction, then that figure shall be rounded up to the nearest whole number;

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter supports Rule 14.12.1.2(1)(a)(ii), but considers an amendment is required for certainty.

Point Number

742.98

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested

Delete Rule 14.12.1.2(1)(a)(iv) P2 On-site parking and loading.

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- Rule 14.12.1.2(1)(a)(iv) refers to "rural activities" which is not defined in the Plan. This could be interpreted as any activity occurring in a Rural Zone or any activity of a rural nature. The rule also states that the parking and loading requirements in Table 14.12.5.7 do not apply to "residential activities" (which is defined in the Plan), however Table 14.12.5.7 includes figures for dwellings.
- It is unclear why residential and rural activities would be exempt from the parking and loading space requirements, or why activities are included in Table 14.12.5.7 if they are exempt from Rule 14.12.1.2.

Point Number

742.99

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities

Summary of Decision Requested

Delete Rule 14.12.1 P4(e) Permitted Activities.

AND

Any additional or consequential relief to give effect to the matters raised in the submission.

Decision Reasons:	<ul style="list-style-type: none"> Concerned at traffic generation threshold allowable for Light Industrial Zone (Maximum 250 per day and no more than 15% of these heavy vehicle). The Industrial zones are characterised by heavy vehicle movements and to limit these to only 15% of the trip generations unnecessarily restrictive on industrial operations. The objectives and policies in Chapter 6.5 do not support this restriction on transportation.
--------------------------	---

Submitter Number:	791	Submitter:	Andrew Michael Basford Green
Organisation:	Meremere Dragway Inc		
Point Number	791.2		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Activity specific condition 14.12.1.4 (1)(d)(i) relating to P4, to increase the maximum vehicle movements per day from 200 to 350 vehicle movements per day with no more than 15% of these vehicle movements being heavy vehicles.</p> <p>AND</p> <p>Any consequential amendments to the Proposed District Plan to give effect to the relief sought in this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers that 200 vehicle movements a day is overly restrictive within the Rural Zone. Many activities within the Rural Zone are reliant upon vehicle movements and there are no other viable transport alternatives due to the distances involved. The submitter considers that 350 vehicle movements a day is more appropriate and accordingly seeks relief. 		

Submitter Number:	821	Submitter:	The Poultry Industry Association of New Zealand; I Brinks NZ Chicken; The Egg Producers Federation of
Point Number	821.14		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 14.12.1 P4 (l)(e)(i) Permitted Activities relating to traffic generation, as follows:</p> <p>(e) <i>Within the Industrial Zone and Heavy Industrial Zone (excluding the Huntly Power Station and Huntly Quarry):</i></p> <p>(i) <i>Maximum 250 vehicle movements per day and no more than 15% of these vehicle movements are heavy vehicle movements, or</i></p> <p>...</p>		
Decision Reasons:	<ul style="list-style-type: none"> The purpose of the Industrial and Heavy Industrial Zone is to provide for industrial activities, which typically have a large volume of heavy vehicles. Restrictions on the number of heavy vehicles to an industrial site is unwarranted, as the zone should be supportive of the activities and their anticipated effects. 		

Submitter Number:	823	Submitter:	NZTE Operations Limited
Point Number	823.3		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 14.12.1.4 -Permitted Activities relating to P4 Traffic generation, as follows:</p> <p>...</p> <p>(h) <i>Within Precincts A and B of the Te Kowhai Airpark Zone there is a maximum 250 vehicle movements <u>per site</u> per day and no more than 15% of these vehicle movements are heavy vehicle movements.</i></p> <p>(i) <i>Within Precincts C and D of the Te Kowhai Airpark Zone there is a maximum of 30 vehicle movements <u>per site</u> per day and no more than 4 of these vehicle movements are heavy vehicle movements except:</i></p> <p>(i) <i>Movement restrictions do not apply if the activity is an event or promotion (including temporary events) in Precinct C or a community facility in Precinct C.</i></p> <p>...</p> <p>AND</p> <p>Amend the Proposed District Plan for any consequential relief required to give effect to this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Precincts A and B are limited to 250 vehicles and Precincts C and D are limited to 30 vehicles before a restricted discretionary status is triggered. However it is not clear that these limits are per site limits and they could be interpreted as being limits that apply to the whole of the precincts. The insertions will clarify that this limit does not apply for the whole of the precincts taken together. 		
Point Number	823.4		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 14.12.1.7 - Permitted Activities relating to P7 Access and New Roads – Te Kowhai Airpark Zone, as follows:</p> <p>...</p> <p>(2) <i>Road alignment and the taxiway network within the Te Kowhai Airpark Zone shall be in <u>general</u> accordance with Appendix 9 – The Te Kowhai Airpark Framework Plan.</i></p> <p>(3) <i>The western boundary of the Te Kowhai Airpark Zone shall provide for future connectivity options (vehicular and / or pedestrian) in <u>general</u> accordance with the location identified in Appendix 9 – The Te Kowhai Airpark Framework Plan.</i></p> <p>...</p> <p>AND</p> <p>Amend the Proposed District Plan for any consequential relief required to give effect to this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The rules are too prescriptive and will not allow for minor amendments in layout that are in general accordance with the road alignment and taxiway network detailed in Appendix 9. 		

Submitter Number:	924	Submitter:	Alice Barnett
Organisation:	Genesis Energy Limited		
Point Number	924.28		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	Retain Activity specific condition 14.12.1.4 P4 (1)(f)- relating to- Traffic Generation as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports retaining the specific permitted activity conditions for traffic generation from Huntly Power Station. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.84		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 14.12.1 P5 Permitted Activities as follows (or similar amendments to achieve the requested relief):</p> <p><i>Operation, maintenance and minor upgrading of existing public roads, State Highways, rail corridors, and associated transport road network activities</i></p> <p>AND</p> <p>Amend the Activity specific conditions 14.12.1.5 relating to P5 Permitted activities as follows (or similar amendments to achieve the requested relief):</p> <p><i>(1) Operation, maintenance and minor upgrading of existing public roads, State Highways, railways, and associated road network activities must comply with the following conditions:</i></p> <p><i>(a) The works occur within the road or unformed road or railway corridor;</i></p> <p><i>(b) Works within the road or railway corridor must be:</i></p> <p><i>(i) Incidental to, and serve a supportive function for, the existing public road or railway corridor; or</i></p> <p><i>...</i></p> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> There are many elements in the 14.12.1 Permitted Activities in the Transport section of Chapter 14 which could equally apply to railway corridor activities, and should be amended so to make this clear. 		
Point Number	986.85		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	Retain Activity specific condition 14.12.1.(g) relating to PI Permitted activities as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The Rule is consistent with Part 9 of the NZTA Traffic Control Devices Manual, Section 7.8. This rule will ensure that the potential conflicts between new vehicle access ways and level crossings are avoided. Level crossing accidents, whilst rare, are severe and as such require strict safety design criteria. The 30 metre distance enables sufficient stacking distance between the level crossing and the adjacent access way and minimises the risk of traffic being stopped across the railway line. 		
Point Number	986.87		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.1 Permitted Activities		
Summary of Decision Requested	<p>Add a new Activity specific condition to Rule 14.12.1.1 relating to PI Permitted activities as follows (or similar amendments to achieve the requested relief):</p> <p><i>(1) All activities must comply with the following vehicle access conditions:</i></p> <p><i>...</i></p> <p><i>(h) All existing and new accesses and roads that cross an operational rail network via a level crossing must be maintained in accordance with the sight line triangles provided in 14.12.5 Railway Level Crossing Sight Triangles and Explanations</i></p> <p>AND</p> <p>Add new Railway Level Crossing Sight Triangles and Explanations to Rule 14.12.5 Transportation tables and figures. See submission for details of the provisions sought and diagrams (or similar amendments to achieve the requested relief)</p> <p>AND</p> <p>Add a new activity RD10 to Rule 14.12.2 Restricted Discretionary activities as follows (or similar amendments to achieve the requested relief):</p> <p><i>RD10 Buildings and structures within a road/rail level crossing sight triangle</i></p> <p><i>Discretion is restricted to:</i></p> <ol style="list-style-type: none"> <i>The extent to which the safety and efficiency of rail and road operations will be adversely affected</i> <i>The outcome of any consultation with KiwiRail</i> <i>Any characteristics of the proposed use that will make compliance unnecessary</i> <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> KiwiRail seeks the inclusion of the level crossing sightline controls. KiwiRail has developed a sight triangles standard which requires areas are kept free of physical obstructions (erected or placed) from the standards developed by NZTA, contained in the Traffic Control Devices Manual 2008, Part 9 Level Crossings, which prescribes the formula for sight lines. Including these diagrams in the District Plan addresses the need to avoid the poor location of land uses which can obstruct the required safety sight lines for uncontrolled (i.e. no barriers) railway level crossings. One of the key factors in maintaining safety is to ensure road vehicle drivers are presented with sufficient visibility along the rail tracks and obstructions do not 		

block the visibility of level crossing signs or alarms to approaching drivers.
 • 6.5.2 Policy – Construction and operation of the land transport network supports the inclusion of level crossing sightline diagrams in the Plan.

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities

Submitter Number:	297	Submitter:	Dave Glossop
Organisation:	Counties Manukau Police		
Point Number	297.51		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities		
Summary of Decision Requested	<p>Add a new matter of discretion to Rule 14.12.2 RD1 Restricted Discretionary Activities as follows:</p> <p><i>(f) the foreseeable needs for access by emergency services and their vehicles</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • To ensure that there is an obligation to consider access, this is critical for the access of emergency services and other service vehicles • This is of specific concern and has been problematic in some new developments under the authority of Auckland Council • The minimum width required for a Fire and Emergency Service general appliance is 4 meters • The minimum requirement for an aerial appliance is 6 metres. 		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.17		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities		
Summary of Decision Requested	<p>Retain the matters of discretion in Rule 14.12.2 Restricted Discretionary Activities, to the extent that discretion is required for vehicle access that does not comply with Rule 14.12.1.1</p> <p>AND</p> <p>Amend Rule 14.12.2 RD1 Restricted Discretionary Activities, as follows:</p> <p><i>Discretion is restricted to:</i></p> <p>(a) <i>Traffic generation by the activities to be served by the access;</i></p> <p>(b) <i>Location, design, construction and materials of vehicle access;</i></p> <p>(c) <i>Safety for vehicles and pedestrians;</i></p> <p>(d) <i>Road network safety and efficiency; and</i></p> <p>(e) <i>Mitigation to address safety, including access clearance requirements for firefighting purposes.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Fire and Emergency New Zealand generally supports the matters of discretion to the extent that it recognises that discretion is required for vehicle access that does not comply with one or more of the conditions of Rule 14.12.1.1. • While discretion addresses matters in relation to mitigation to address safety, Fire and Emergency New Zealand is concerned that access to a site for emergency purposes may be overlooked. • Fire and Emergency New Zealand seek clarity around the discretion Council have for access infringements, specifically in relation to access widths. 		

Submitter Number:	559	Submitter:	Sherry Reynolds
On behalf of:	Heritage New Zealand Lower Northern Office		
Point Number	559.209		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities		
Summary of Decision Requested	<p>Retain matters of discretion 14.12.2(g) relating to RD5 Operation, maintenance and minor upgrading of existing public roads, State highways and associated road network activities that does not comply with one or more of the conditions of Rule 14.12.1.5.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports activity RD5 and the matter of discretion (g). • This is an appropriate level of resource consent activity providing the appropriate level of resource consent activity providing the appropriate level of protection and assessment as required under section 6 of the Resource Management Act 1991. 		
Point Number	559.210		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities		
Summary of Decision Requested	<p>Retain Rule 14.12.2 RD6 Restricted Discretionary Activities.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports activity RD6, as new roads are excluded from the restricted discretionary activity status. • This is appropriate as new roads have the potential to cause significant adverse effects on heritage and cultural values and should be assessed with a more stringent level of resource consent activity to ensure the protection as required under s6 of the Resource Management Act is achieved. 		
Point Number	559.211		

Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities
Summary of Decision Requested	Amend matters of discretion 14.12.2(i) relating to RD7 Access and New Roads – Te Kowhai Airpark Zone that do not comply with one or more of the conditions of Rule 14.12.1.7 as follows: (i) <i>The location of the earthworks activities, taking into account any effects on the values, qualities and characteristics of the site or area.</i>
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the restricted discretionary activity status of activity RD7 and the associated matters of discretion in part. While this is an appropriate level of resource consent activity providing the appropriate level of resource consent activity providing the appropriate level of protection and assessment as required under section 6 of the Resource Management Act 1991, the matters of discretion need to be expanded by including the word "area" as some sites are part of larger Maaori areas and this larger context needs to be acknowledged and considered as part of the consenting process.
Point Number	559.212
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities
Summary of Decision Requested	Add a new matter of discretion (e) to 14.12.2 relating to RD8 Off-road pedestrian and cycle facilities that do not comply with one or more of the conditions of Rule 14.12.1.8 as follows: (e) <i>The location of the earthworks activities, taking into account any effects on the values, qualities and characteristics of the site or area.</i>
Decision Reasons:	<ul style="list-style-type: none"> The submitter is concerned that the matters of discretion for Restricted Discretionary Activities RD8 do not include any assessment related to the identified areas as found for example in Rule 14.12.2 Restricted Discretionary Activities RD7, matters of discretion (i).

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.40		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities		
Summary of Decision Requested	Retain Rule 14.12.2 Restricted Discretionary Activities, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> Support rule as notified and the inclusion of an infrastructure chapter. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.72		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities		
Summary of Decision Requested	Amend Rule 14.12.2 RD2 Restricted Discretionary On-site parking and loading that does not comply with one or more of the conditions of Rule 14.12.1.2 by adding a new matter of discretion as follows: <i>Discretion is restricted to:</i> (a) <i>The number, area, type, location and marking of parking spaces;</i> (b) <i>The area, design, gradient, stormwater management, construction and materials of parking and loading spaces,</i> (c) <i>Accessibility of parking areas from on-site activities;</i> (d) <i>Safety for vehicles and pedestrians;</i> (e) <i>Mitigation to address amenity and connectivity.</i> (f) <u><i>Need for parking spaces.</i></u>		
Decision Reasons:	<ul style="list-style-type: none"> Inclusion of a new matter of discretion to address parking demand and requirements. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.104		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities		
Summary of Decision Requested	Retain Rule 14.12.2 RD3 On-site manoeuvring and queuing, except for the amendments sought below AND Amend Rule 14.12.2 RD3 On-site manoeuvring and queuing matter of discretion (c) as follows: <i>Safety design for vehicles and pedestrians. The design of features intended to ensure safety for all users of the access site, and/or intersecting road including but not limited to vehicle occupants, vehicle riders and pedestrians.</i> AND Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the intent of matter of discretion (c) but seeks amendment to clarify the intention of the term "safety design". 		
Point Number	742.105		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities		
Summary of Decision Requested	Retain Rule 14.12.2 RD4 Traffic generation, except for the amendments sought below AND Amend the title of Rule 14.12.2 RD4 Traffic generation as follows: <i>Traffic generation that does not comply with one or more of the conditions of Rule 14.12.1.4 and that is subject of an Integrated Transport Assessment</i>		

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter is concerned at the absence of provisions requiring an Integrated Transport Assessment as these are necessary to understand the potential adverse transport effects associated with an activity.

Point Number 742.106

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities

Summary of Decision Requested **Retain** Rule 14.12.2 RD4 Traffic Generation, except for the amendments sought below
AND

Amend Rule 14.12.2 RD4 matter of discretion (a) Traffic generation as follows:

~~The trip characteristics of associated with the proposed activity on the site;~~

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The matter of discretion (a) refers to trips "on the site" which could be confused with meaning the trips on the site, as opposed to the trips associated with the activity on the site.

Point Number 742.107

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities

Summary of Decision Requested **Retain** Rule 14.12.2 RD4 Traffic generation, except for the amendments sought below
AND

Amend Rule 14.12.2 RD4 matter of discretion (b) Traffic generation as follows:

~~Safety design for vehicles and pedestrians~~ The design of features intended to ensure safety for all users of the access site and/or intersecting road including but not limited to vehicle occupants, vehicle riders and pedestrians;

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter supports the intent of matter of discretion (b) but seeks amendment to provide clarification of the intention of the term "safety design".

Point Number 742.108

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities

Summary of Decision Requested **Retain** Rule 14.12.2 RD4 Traffic generation, except for the amendments sought below
AND

Amend Rule 14.12.2 RD4 matter of discretion (e) Traffic generation as follows:

~~Road and transport network safety and efficiency, particularly at peak traffic times (of both the activity and road network);~~

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter supports the intent of matter of discretion (c) but seeks amendments to ensure that the term "peak traffic times" relates to the peak times for the activity and for the road to which vehicle movements associated with the activity connect.

Point Number 742.109

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities

Summary of Decision Requested **Retain** Rule 14.12.2 RD7 Access and New Roads- Te Kowhai Airpark, except for the amendments sought below
AND

Add to Rule 14.12.2 RD7 Access and New Roads - Te Kowhai Airpark the following matter of discretion:

(j) adverse effects on the safety and efficiency of the land transport network.

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

-

Decision Reasons:

- The submitter seeks a new matter of discretion to ensure that potential adverse effects on the safety and efficiency of the transport network are considered.

Point Number 742.245

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities

Summary of Decision Requested **Retain** Rule 14.12.2 RD1 Vehicle Access, except for the amendments sought below
AND

Amend Rule 14.12.2 RD1 Vehicle Access matters of discretion as follows:

(c) Safety for ~~vehicles and pedestrians~~ all users of the access and/or intersecting road including but not limited to vehicle occupants or riders and pedestrians;

...

(e) Mitigation to address safety and/or efficiency.

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter considers some minor changes are required to the matters of discretion.
- For example, it is not the safety of the vehicles that is of concern from a road safety perspective, but the safety of the vehicle occupants or riders.

Point Number

742.246

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities

Summary of Decision Requested

Retain Rule 14.12.2 RD2 Onsite parking and loading matter of discretion, except for the amendments sought below

AND

Amend Rule 14.12.2 RD2 Onsite parking and loading matter of discretion (d) as follows:

Safety for ~~vehicles and pedestrians~~ all users of the access and/or intersecting road including but not limited to vehicle occupants vehicle riders and pedestrians;

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- It is not the safety of the vehicles that is of concern from a road safety perspective, but the safety of the vehicle occupants or riders.

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities

Summary of Decision Requested

Retain Rule 14.12.2 Restricted Discretionary Activities as notified.

Decision Reasons:

- The submitter supports the permitted activities with the restricted discretionary activities listed under 14.12.2 with matters of discretion listed.

Submitter Number:

986

Submitter:

Pam Butler

On behalf of:

KiwiRail Holdings Limited (KiwiRail)

Point Number

986.86

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.2 Restricted Discretionary Activities

Summary of Decision Requested

Add a new matter of discretion to Rule 14.12.2 RD1 Restricted Discretionary Activities as follows (or similar amendments to achieve the requested relief):

(a)The extent to which the safety and efficiency of rail and road operations will be

adversely affected, including;

(b)The outcome of any consultation with KiwiRail.

(c)Any characteristics of the proposed use that will make compliance unnecessary.

AND

Any consequential amendments to link and/or accommodate the requested changes.

Decision Reasons:

- Rule 14.12.1.1(g) provides "No new vehicle access shall be created within 30 metres of a railway level crossing".
- KiwiRail seeks the addition of new matters of discretion for new vehicle accesses within 30 metres of a railway level crossing, as the general matters identified in RD1 do not address specific effects on the rail network.

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.3 Discretionary Activities

Submitter Number:

680

Submitter:

Federated Farmers of New Zealand

Point Number

680.175

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.3 Discretionary Activities

Summary of Decision Requested

No specific decision sought, but submission opposes Rule 14.12.3 Discretionary Activities as a consequence of relief sought in the submission to Rule 14.12.1 P9.

Decision Reasons:

- The submitter opposes Rule 14.12.3 in accordance with the relief sought in relation to Rule 14.12.1 regarding removal of any requirement that triggers a need for a resource consent for stock underpasses within an Identified Area in the Rural Zone, and submit that stock underpasses should not need resource consent due to being situated within an Identified Area, and there will be little or no environmental benefit to be obtained, and farmers will be unnecessarily subjected to costs and delays in order to get stock underpasses installed in roads.

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures

Submitter Number:	367	Submitter:	Liam McGrath
Organisation:	Mercer Residents and Ratepayers Committee		
Point Number	367.19		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures		
Summary of Decision Requested	Add Koheroa Road as an Arterial Road to Transportation tables and figures 14.12.5.		
Decision Reasons:	<ul style="list-style-type: none"> • Koheroa Road was defined as a Collector Road in the Franklin District Plan in Part 9- Transportation, Para 9.4- Roading Hierarchy. • Koheroa Road is well used by other activity organisers for day outings, main arterial for tourists, users of Mercer Airport and main access to Glass Road (used for Mercer School and Cemetery). • Due to its significance and users, it needs to be incorporated in the Proposed District Plan. • This is the major alternative road for detours as a result of accidents on State Highways 1 and 2. 		

Submitter Number:	368	Submitter:	Ian McAlley
Point Number	368.18		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures		
Summary of Decision Requested	Delete figures 14.12.5.19, 14.12.5.20 and 14.12.5.21 from the Proposed District Plan.		
Decision Reasons:	<ul style="list-style-type: none"> • The Te Kauwhata Structure Plan area has not been defined on the planning maps therefore it is uncertain as to the applicability of these cross section requirements. Instead the standard engineering provisions should apply. • Unclear referencing to other documents or areas not notified with the Proposed Plan creates uncertainty in terms of being able to effectively assess the issues associated with a particular project. Certainty is required to enable appropriate planning to occur, both for Council and for private landowners/developers to ensure that the relevant requirements of the District Plan can be administered with both efficiency and certainty 		

Submitter Number:	579	Submitter:	Simon Ash
Organisation:	Lakeside Developments 2017 Limited		
Point Number	579.58		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures		
Summary of Decision Requested	<p>Amend Table 14.12.5.14 Access and road conditions (Residential, Village, Business, Business Town Centre and Industrial Zones) to insert specific provisions which provide for a minimum local road width of 16m and a reduction in the seal width from 8m to 6m.</p> <p>AND</p> <p>Amend Table 14.12.5.14 Access and road conditions (Residential, Village, Business, Business Town Centre and Industrial Zones) to insert specific provisions which provide for private ways which have passing bays and/or dual carriageway to serve more than 8 allotments.</p> <p>AND</p> <p>Amend the Proposed District Plan to make any amendments or consequential changes that are necessary to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Plan change 20 identified a special parking control for Lakeside applying for sites less than 300m2 to recognise the lower car ownerships of smaller households and promote affordable housing. • Recognition of possible future public transport services to Te Kauwhata. 		
Point Number	579.59		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures		
Summary of Decision Requested	<p>Amend Table 14.12.5.19 Te Kauwhata Structure Plan - Road cross sections - Collector Roads to insert specific provisions which provide for a minimum local road width of 16m and a reduction in the seal width from 8m to 6m.</p> <p>AND</p> <p>Amend Table 14.12.5.19 Te Kauwhata Structure Plan - Road cross sections - Collector Roads to insert specific provisions which provide for private ways which have passing bays and/or dual carriageway to serve more than 8 allotments.</p> <p>AND</p> <p>Amend the Proposed District Plan to make any amendments or consequential changes that are necessary to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Plan change 20 identified a special parking control for Lakeside applying for sites less than 300m2 to recognise the lower car ownerships of smaller households and promote affordable housing. • Recognition of possible future public transport services to Te Kauwhata.

Point Number	535.65		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.1 - Separation distances		
Summary of Decision Requested	<p>Amend Table 14.12.5.1 - Separation distances, to require compliance with more onerous district plan provisions of an adjoining District Plan.</p> <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The amendment will improve consistency and avoid potential cross-boundary related effects, such as new vehicle accesses in the vicinity of an adjoining local authority. 		

Submitter Number:	679	Submitter:	Greenways Orchards Limited
Point Number	679.7		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.1 - Separation distances		
Summary of Decision Requested	<p>Amend Table 14.12.5.1 - Separation distances, by replacing with the Operative Waikato District Plan - Franklin Section rules in Part 9.5 Location of Vehicle Crossings for arterial and collector roads.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The section 32 analysis does not justify the separation distances set out in proposed Table 14.12.5.1. In the operative Franklin Section, roads are classified in terms of their importance for traffic movement and access functions. For properties on roads listed at the top of the hierarchy, access to them is either restricted or managed through design. In contrast, the objective is to maximise ease and access to properties located on local roads. 		

Submitter Number:	689	Submitter:	Greig Developments No 2 Limited
Point Number	689.27		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.1 - Separation distances		
Summary of Decision Requested	<p>Amend Table 14.12.5.1 Separation distances to adopt the provisions in the Operative District Plan – Franklin Section 9.5 – Location of Vehicle Crossings for arterial and collector roads.</p>		
Decision Reasons:	<ul style="list-style-type: none"> There is no analysis in Section 32 regarding this relevance or practicality of this table Roads are classified in terms of the relative importance of their movement and access functions. At the 'top' of the hierarchy are those roads, which have as their principal purpose the unrestricted movement of vehicles. Accordingly, the access available to properties along the route of such roads is either totally restricted or strictly managed through design. At the other extreme (local roads) the objective is to maximize the ease and safety of access to properties

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.3 - Minimum sight distances

Summary of Decision Requested

Retain Table 14.12.5.3 minimum sight distances, except for the amendments sought below

AND

Amend Table 14.12.5.3 minimum sight distances as shown in Attachment 2 to the submission.

AND

Add definitions for "Rural Areas" and "Urban Areas" as referenced in Table 14.12.5.3.

Refer to submission for full details.

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- There is no clear correlation between the distances in Table 14.12.5.3 and other sight distance sources. For example, the sight distances are not aligned with those in Appendix 5B of the Transit NZ Policy Planning Manual.
- Table 14.12.5.3 stipulates different minimum sight distances depending on whether the activity is in a 'rural area' or 'urban area', however, these terms are not defined. It is important to provide certainty, perhaps by reference to the posted speed limit (e.g. urban areas being defined as anywhere with a posted speed limit of 70 km/h or below).

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.3 - Minimum sight distances

Summary of Decision Requested

Delete Table 14.12.5.3- Minimum sight distances

AND

Add reference to RTS6 Guidelines for Visibility at Driveways to Table 14.12.5.3- Minimum sight distances.

Decision Reasons:

- There is no analysis in the s32 regarding this relevance or practicality of this table.
- There are national documents (New Zealand Transport Agencies Road Traffic Standards 06) that cover sight distances so this matter should not form part of the Plan so that, if any amendment is made to the legislation, the plan does not need to be changed.

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Figure 14.12.5.4 - Minimum sight distances

Point Number

742.113

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Figure 14.12.5.4 - Minimum sight distances

Summary of Decision Requested

Retain Figure 14.12.5.4 Minimum sight distances, except for the amendments sought below

AND

Delete Figure 14.12.5.4 Minimum sight distances

AND

Add Perspective A diagram from Appendix 5b of Transit NZ Planning Policy Manual (2007).

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- The submitter considers Figure 14.12.5.4 is critical to interpretation of Table 14.12.5.3 but requires amendment to ensure it is consistent with the Transit NZ Planning Policy Manual and Austroads Guide to Road Design Part 4A: Unsignalised and Signalised Intersections (2017 Edition).

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.5 - Functions of roads within the Road Hierarchy

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.114		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.5 - Functions of roads within the Road Hierarchy		
Summary of Decision Requested	Retain Table 14.12.5.5 Functions of roads within the Road Hierarchy as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The description of the functions of the various categories of road is important when focus is on protecting those functions. Council should ensure that terms and abbreviations are consistent throughout the Plan. 		

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.6 - Road Hierarchy list

Submitter Number:	535	Submitter:	Lance Vervoort
Organisation:	Hamilton City Council		
Point Number	535.67		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.6 - Road Hierarchy list		
Summary of Decision Requested	Amend Table 14.12.5.6 - Road Hierarchy list, as follows: <ul style="list-style-type: none"> Clarifying whether the "Gordonton Road" length identified as a regional arterial is different to, or a duplicate of, the "Gordonton Road" length identified as an arterial; Adding the following roads as arterials: Kay Road (River Road to Borman Road (west)), Horsham Downs Road (Kay Road to Waikato Expressway/HCC boundary); Adding these roads as collectors: Exelby Road (SH39 to Hamilton City Council boundary), Rotokauri Road (Bagust Road to Hamilton City Council boundary), Kay Road (Borman Road (west) to Horsham Downs Road), Brymer Road (Rotokauri Road to Hamilton City Council boundary). <p>AND</p> <p>Any consequential amendments and/or additional relief required to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Inclusion of the listed roads as arterials or collectors will align with the road hierarchy in Hamilton City. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.115		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.6 - Road Hierarchy list		
Summary of Decision Requested	Retain Table 14.12.5.6 Road hierarchy list as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports listing the road hierarchy in the Plan. 		

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.7 – Required parking spaces and loading bays

Submitter Number:	123	Submitter:	Libby Gosling
Organisation:	Classic Builders Waikato Limited		
Point Number	123.2		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.7 – Required parking spaces and loading bays		
Summary of Decision Requested	Retain Rule 14.12.5.7 Required parking spaces and loading bays which requires two car parks per dwelling, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The currently operative plan requires one onsite car park to be provided per bedroom in a dwelling. The submitters support the proposed change for two car parks per dwelling. More than two car parks is excessive, results in poor outcomes for the site, and is counterproductive to encouraging the use of public transport. 		

Submitter Number:	281	Submitter:	Zeala Ltd
Organisation:	Trading as Aztech Buildings		

Point Number	281.11
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.7 – Required parking spaces and loading bays
Summary of Decision Requested	Amend Table 14.12.5.7 Required parking spaces and loading bays – Industrial activities as follows: <i>1 car space per 1002m2 GFA for the first 500m2 of any tenancy and thereafter 1 space per 500m2.</i>
Decision Reasons:	<ul style="list-style-type: none"> The parking standard for industrial buildings does not recognise the differing nature of Industrial buildings or the nature of the activities within such buildings with failure triggering Restricted Discretionary Assessment. A large storage warehouse will not necessarily require 20 times as many car parking spaces as an industrial building 1/20th the scale. Most TA's use a sliding scale to recognise this.

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.18		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.7 – Required parking spaces and loading bays		
Summary of Decision Requested	Retain Table 14.12.5.7 Required parking spaces and loading bays relating to emergency service facilities.		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand supports the parking requirements in Standard 14.12.5.7 that requires emergency service facilities to provide 1 car space per on-duty staff person, plus sufficient space for all the emergency vehicles that use the site. This is considered an effective and practical standard for emergency facilities. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.108		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.7 – Required parking spaces and loading bays		
Summary of Decision Requested	Add provisions to Table 14.12.5.7 Required parking spaces and loading bays, as follows: <ul style="list-style-type: none"> <u>Coolstores 1 space per 1000m2 GFA</u> <u>Workers' accommodation 1 space per 12 workers accommodated</u> AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter seeks that specific consideration is given to parking provision for seasonal worker accommodation and coolstores. Coolstores may have a large floor area but very few people working in the area. The requirements for parking are less than that for industrial activities. Seasonal workers are usually transported by car so parking requirements are less than travellers' accommodation. 		

Submitter Number:	578	Submitter:	Ports of Auckland Limited									
Point Number	578.41											
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.7 – Required parking spaces and loading bays											
Summary of Decision Requested	Amend Table 14.12.5.7 Required parking spaces and loading bays, as follows: <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: left;"><i>Activity</i></th> <th style="text-align: left;"><i>Minimum Required Parking Spaces</i></th> <th style="text-align: left;"><i>Minimum Required Loading Bays</i></th> </tr> </thead> <tbody> <tr> <td>...</td> <td>...</td> <td>...</td> </tr> <tr> <td><i>Industrial activity</i></td> <td><i>1 car park space per 100m2 GFA or 0.7 per FTE employe (where the number of employeess is known), whichever results in requiring a lower amount of on-site parking</i></td> <td><i>1 HGV</i></td> </tr> </tbody> </table> AND Amend the Proposed District Plan to make alternative or consequential amendments as necessary to address the matters raised in the submission.			<i>Activity</i>	<i>Minimum Required Parking Spaces</i>	<i>Minimum Required Loading Bays</i>	<i>Industrial activity</i>	<i>1 car park space per 100m2 GFA or 0.7 per FTE employe (where the number of employeess is known), whichever results in requiring a lower amount of on-site parking</i>	<i>1 HGV</i>
<i>Activity</i>	<i>Minimum Required Parking Spaces</i>	<i>Minimum Required Loading Bays</i>										
...										
<i>Industrial activity</i>	<i>1 car park space per 100m2 GFA or 0.7 per FTE employe (where the number of employeess is known), whichever results in requiring a lower amount of on-site parking</i>	<i>1 HGV</i>										
Decision Reasons:	<ul style="list-style-type: none"> Warehousing and distribution activities are to be undertaken within the inland freight hub and will require large building footprints with comparatively low levels of staff. The standard to provide 1 car park per 100m2 GFA is excessive. An example is within the first warehouse activity that will be established will be expected to provide 137 parking spaces under the Proposed District Plan, with only 9 FTE staff employed. This is not an efficient method for such activities within an Industrial Zone. Provide a more flexible approach to parking that recognises situations where staff numbers are low compared to the size of the building.

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.7 – Required parking spaces and loading bays

Summary of Decision Requested **Amend** Table 14.12.5.7 - Required parking spaces and loading bays, so that the calculation for the minimum required parking spaces for a retailing activity reads, as follows:
Retail activity 1 car space per ~~30m²~~ 45m² GFA, including indoor and outdoor retail area.
 AND
 Any consequential amendments and/or additional relief required to address the matters raised in the submission.

Decision Reasons:

- The calculation for retail activities should be carried over from the Operative Waikato District Plan (Waikato Section).

Point Number 602.58

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.7 – Required parking spaces and loading bays

Summary of Decision Requested **Retain** the provisions for dwellings in Table 14.12.5.7 Required Parking Spaces and loading bays.

Decision Reasons:

- The notified parking requirements for dwellings are appropriate.

Point Number 602.59

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.7 – Required parking spaces and loading bays

Summary of Decision Requested **Retain** the provisions for multi-unit development in Table 14.12.5.7 Required for parking spaces and loading bays.

Decision Reasons:

- The notified parking requirements for multi-unit developments are appropriate.

Submitter Number: 697 **Submitter:** Waikato District Council

Point Number 697.73

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.7 – Required parking spaces and loading bays

Summary of Decision Requested **Amend** Table 14.12.5.7 Required parking spaces and loading bays to add two new activities as follows:
Activity:
Dwellings located within the Lakeside Te Kauwhata Precinct:
Minimum Required Parking Spaces:
1 car space per dwelling on a site less than 300m² in area; or
2 car spaces per dwelling on a site greater than 300m² in area.
Minimum Required Loading Bays: Nil
Activity:
Retirement villages located within the Lakeside Te Kauwhata Precinct.
Minimum Required Parking Spaces:
0.5 car spaces per independent dwelling or unit and 1 visitor car space per 10 residents.
Minimum Required Loading Bays: Nil

Decision Reasons:

- The car parking provisions for Lakeside (as per the decisions version of Plan Change 20) have been inadvertently missed from the table.

Point Number 697.74

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.7 – Required parking spaces and loading bays

Summary of Decision Requested **Amend** Table 14.12.5.7 Required parking spaces and loading bays in the activity for "Health facility, veterinary and personal services", the minimum required parking spaces (second column) to read:
 3 car spaces per ~~professional~~ full time staff equivalent

Decision Reasons:

- In the activity "health facility, veterinary and personal services", the requirements for 3 spaces per professional should be amended to be "full time staff equivalent" to be consistent with the requirements for other activities.

Point Number 697.75

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.7 – Required parking spaces and loading bays

Summary of Decision Requested **Amend** Table 14.12.5.7 Required parking spaces and loading bays in the activity for "Indoor sports facility", the minimum required parking spaces (second column) as follows:
 4 car spaces per sports court or 1 car space per 4 persons provided for in the design, whichever is the greater number of carparks

Decision Reasons:

- Additional clarity for the rule regarding indoor sports facilities

Point Number 697.76

Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.7 – Required parking spaces and loading bays

Summary of Decision RequestedAmend Table 14.12.5.7 Required parking spaces and loading bays by replacing throughout the table, "HGV" with "heavy goods vehicle"**Decision Reasons:**

- Additional clarity by reducing the number of acronyms.

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.7 – Required parking spaces and loading bays

Summary of Decision Requested

Amend Table 14.12.5.7 Required parking spaces and loading bays as follows:

Activity	Minimum Required Parking Spaces	Minimum Required Loading Bays
Bulk retail and car yards	...	
Minor dwelling	1 car space per dwelling	Nil
Dwelling	2 car spaces are required for dwellings with 2 or more bedrooms and one car space is required for studio or 1-bedroom residential units <u>1 car space per dwelling or unit</u>	Nil
Retirement village	1 car space per dwelling or unit	1 HGV
<u>Boarding houses / boarding establishments</u>	<u>1 car space per three units</u>	Nil
Multi-unit development	<u>0.5 space per dwelling or unit with only one bedroom, 1 car space per dwelling or unit with two or more bedrooms</u>	Nil
Emergency service facilities	...	

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.**Decision Reasons:**

- The submitter opposes the minimum required parking spaces for the following activities:
 - Minor dwelling
 - Dwelling
 - Multi-unit development
- Housing New Zealand seeks the minimum required parking spaces are reduced for dwelling and multi-unit development, and no parking spaces should be required for a minor dwelling. This will enable better utilisation of the site for residential development than parking spaces.
- Minimum required parking spaces should also be outlined for the activity 'boarding houses / boarding establishments' in the Proposed WDP.

Decision Reasons:**Submitter Number:**

761

Plan chapter

Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.7 – Required parking spaces and loading bays

Summary of Decision Requested**Delete** the following standards from Table 14.12.5.7- Required parking spaces and loading bays:

- Retirement Village: 1 car space per dwelling or unit.
- Housing for the elderly/residential care: 1 car space per 4 occupants.
- Hospital or care facilities associated with retirement village: 2 car spaces per 3 patients accommodated plus 1 per 2 full time staff equivalents.

AND

Add the following standard to Table 14.12.5.7- Required Parking spaces and loading bays:Retirement Village: 1 car space per 4 occupants that the facility can accommodate and one per dwelling or freestanding unit.

AND

Amend the Proposed District Plan to make any consequential amendments that are required to give effect to the submission.**Decision Reasons:**

- Provisions under Table 14.12.5.7 (Required parking spaces and loading bays) are confusing.
- Provisions are essentially 3 different standards for the same activity and all 3 could be applied to a retirement village.
- District Plan does not need to differentiate between the specified activities in Table 14.12.5.7.
- A single standard for a retirement village would suffice.
- The standards for "housing for the elderly/residential car" and "hospital and care facilities" should therefore be deleted.

On behalf of:	Whaingaroa Environmental Defence Incorporated Society		
Point Number	780.13		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.7 – Required parking spaces and loading bays		
Summary of Decision Requested	<p>Amend Table 14.12.5.7 Required parking spaces and loading bays - to provide for an option for developments to meet much lower standards of provision for parking, etc, depending on the extent to which they provide for use of public transport, walking, or cycling by people using the site. Submission makes reference to 7.3.1(4) of the Christchurch Plan as an example.</p>		
Decision Reasons:	<ul style="list-style-type: none"> For reasons of climate change, resource use, safety and congestion, the current average of roughly one car per person needs to be reduced. Maintenance of inflexible rules on parking, etc perpetuates the current problem and requires developers to subsidise car transport. Alternatives should be encouraged, as 		

they already are in Auckland, Christchurch, Queenstown, etc.

Submitter Number:	781	Submitter:	Ministry of Education
Point Number	781.7		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.7 – Required parking spaces and loading bays		
Summary of Decision Requested	Amend Table 14.12.5.7 - Required parking spaces and loading bays, so that it reads as follows: Child care Early Childhood Education facility 1 car space per every full-time staff equivalent plus 1 car space per 5 children that the facility is designed to accommodate 2.5 car parks per new classroom or classroom equivalent (to be allocated as visitor parking plus one 99% car loading bay (or pick-up/drop-off bay), per 100 pupils. School: Primary 1 car space for every full-time staff equivalent plus 2 for every 50 students accommodated. Secondary 1 car space for every full-time staff equivalent plus 1 per 10 students accommodated in Years 11 to 13 2.5 car parks per new classroom or classroom equivalent (to be allocated as visitor parking plus one 99% car loading bay (or pick-up/drop-off bay), per 100 pupils. Tertiary education facilities: 1 car space per every full-time staff equivalent plus 1 per every 3 full-time equivalent students provided for by the institution 1 space per 50m2 of GFA, plus 1 space per staff. Except where the Council accepts, on the basis of a specifically commissioned parking study by an appropriate qualified engineer and/or transportation planner, that a lesser level is appropriate.		
Decision Reasons:	<ul style="list-style-type: none">The requested amendments are in line with the Ministry's national standards for all education facilities and are consistent with their requested definition for 'education facilities'.For consistency, "childcare facility" is replaced with "Early childhood education facility."

Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.12 – Queuing space		
Summary of Decision Requested	Retain Table 14.12.5.12 Queuing space as notified.		
Decision Reasons:	<ul style="list-style-type: none">Table 14.12.5.12 recognises that queuing is likely to be affected by the nature of traffic movements on the intersecting road, therefore the queuing length required could be greater than the minimums.		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.118		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.13 – Traffic generation rates		
Summary of Decision Requested	<p>Retain Table 14.12.5.13 Traffic generation rates, except for the amendments sought below</p> <p>AND</p> <p>Delete Table 14.12.5.13 Traffic generation rates</p> <p>AND</p> <p>Add Table 7.4 from Trips and parking related to land use (2011) (NZ Transport Agency research report 453).</p> <p>AND</p> <p>Request any consequential changes necessary to give effect to the relief sought in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • In comparison with Table 7.4 of the quoted source research report (Trips and parking related to land use (2011)), many of the trip generation rates appear to be too low. • It seems unlikely that the trip generation rate for car sales yards will be the same as the trip generation rate for bulk retail. • The amalgamation of land uses (dairies, takeaway food, bottle stores) will result in unreasonable analysis. For example, fast food outlets have a rate of 362 in the original report compared with the rate of 100 quoted in Table 14.12.5.13. The rate for a medical centre is 79.4 trips per day per professional staff member in the original report and the rate in the Table is significantly understated. The rate for "housing for the elderly/residential care" appears less than the original rates of 2.4 per bed for retirement homes and 2.6 per unit for retirement units. "Retail" is too broad a category for "shopping" the original research report describes rates ranging from 56 to 141. • The Plan's traffic generation rates are unlikely to be representative and the submitter requested that more relevant information be used. 		

Submitter Number:	781	Submitter:	Ministry of Education
Point Number	781.8		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.13 – Traffic generation rates		
Summary of Decision Requested	<p>Amend Table 14.12.5.13 - Traffic generation rates as follows:</p> <p><i>Table 14.12.5.13 - Traffic generation movement rates</i></p> <p>...</p> <p>Children <i>Early childhood education and day care facility</i></p> <p>AND</p> <p>Amend the note in Rule 14.12.1 Permitted Activities P4 Traffic Generation as follows:</p> <p>Note: <i>Table 14.12.5.13 provides indicative traffic generation movements rates for various activities</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • The term 'traffic generation' is unclear and does not accurately reflect the activity. Consistency is required with the Ministry's requested definition of 'Education Facilities'. 		

Submitter Number:	110	Submitter:	GD Jones
Point Number	110.3		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.14 – Access and road conditions (Residential, Village, Business, Business Town Centre and Industrial Zones)		
Summary of Decision Requested	<p>Amend Rule 14.12.5.14 Access and Road conditions to increase the access allotment requirement from 5 - 8 to 5 - 10</p> <p>AND</p> <p>Amend Rule 14.12.5.14 Access and Road conditions to increase the local road allotment from >8 to >10.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Under the proposed rule if 221 Dominion Road is developed initially in a non-serviced scenario 10 allotments could be potentially developed via an access allotment. • The proposed access lot rule would limit that unnecessarily to 8 lots. • It would be inefficient and out of place for the property to have a full 20m wide local road requirement. 		

Submitter Number:	276	Submitter:	Ted and Kathryn Letford
Point Number	276.1		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.14 – Access and road conditions (Residential, Village, Business, Business Town Centre and Industrial Zones)		

Summary of Decision Requested	Amend Table 14.12.5.14-Access and Road conditions relating to the access leg widths for the Residential Zone as follows: <ul style="list-style-type: none"> • 1-3 allotments: 3.6m • 4-6 allotments: 4-6m
Decision Reasons:	<ul style="list-style-type: none"> • The access leg for requirement for 1 lot of 4m width is too wide and a waste of residential space. • The access lot requirement for 2-4 lots of 8m required is too wide and a waste of space. • HCC have a requirement for access serving 1-3 allotments and serves well. Suggests adopting the same for urban areas. • HCC also have 4-6 allotments at 4-6m private way width and suggests adopting the same approach for urban areas. • Urban land is going to waste, and is the zone where subdivision should be taking place.

Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.14 – Access and road conditions (Residential, Village, Business, Business Town Centre and Industrial Zones)		
Summary of Decision Requested	Retain Table 14.12.5.14 Access and road conditions (Residential, Village, Business, Business Town Centre and Industrial Zones) which requires the minimum road/right of way access to be no less than 4m.		
Decision Reasons:	<ul style="list-style-type: none"> • To ensure that there is an obligation to consider access, this is critical for the access of emergency services and other service vehicles. • This is of specific concern and has been problematic in some new developments under the authority of Auckland Council • The minimum width required for a Fire and Emergency Service general appliance is 4 meters • The minimum requirement for an aerial appliance is 6 metres. 		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.19		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.14 – Access and road conditions (Residential, Village, Business, Business Town Centre and Industrial Zones)		
Summary of Decision Requested	Retain Table 14.12.5.14 Access and road conditions, as it requires an adequate minimum road/ROW width AND Add a note below Table 14.12.5.14 Access and road conditions (Residential, Village, Business, Business Towne Centre and Industrial Zones) relating to minimum road/ROW reserve width column as follows: <u><i>*Accesses shall have a minimum height clearance of 4.0m and a maximum gradient of 1 in 5 (with minimum 4.0m transition ramps of 1 in 8) except where the access terminates less than 135m from the nearest road that has reticulated water supply (included hydrants).</i></u> AND Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • Fire and Emergency New Zealand generally supports the design requirements for vehicle access as it requires an adequate Minimum Road/ROW Reserve Width to allow for access to properties for firefighting purposes. • Fire and Emergency New Zealand is concerned however that the requirements in Table 14.12.5.14 fail to prescribe height clearance and gradient requirements and therefore would not be able to accommodate a fire appliance. • For fire appliances to access an emergency, adequate access width, height and gradient is necessary. A 95th percentile pumping appliance has a width of 2.5m, a height of 3.55m and a length of 8.72m. A clearance of greater than 4m is required for firefighters to work around the fire appliance to access hoses and pumps. The maximum negotiable gradient is 1:5, accompanied by a 4m long 1:15 transition grade. In order to provide for ability to access a fire/emergency, amendments must be made to ensure adequate clearance.

Summary of Decision Requested	Amend Table 14.12.5.14 Access and road conditions (Residential, Village, Business, Business Town Centre and Industrial Zones) and its heading to include the Te Kowhai Airpark, Rangitahi Peninsula and Motorsport and Recreation zones where appropriate.		
Decision Reasons:	<ul style="list-style-type: none"> Te Kowhai Airpark Zone, Rangitahi Peninsula Zone and Motorsport and Recreation Zone are missing from the heading. 		
Point Number	697.79		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.14 – Access and road conditions (Residential, Village, Business, Business Town Centre and Industrial Zones)		
Summary of Decision Requested	Amend Table 14.12.5.14 Access and road conditions (Residential, Village, Business, Business Town Centre and Industrial Zones) by updating the footnote references to the Regional Integrated Technical Specifications to reflect the correct title and version.		
Decision Reasons:	<ul style="list-style-type: none"> Update the references to the external document "Regional Integrated Technical Specifications". 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.24		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.14 – Access and road conditions (Residential, Village, Business, Business Town Centre and Industrial Zones)		
Summary of Decision Requested	Amend Table 14.12.5.14- Access and road conditions (Residential, Village, Business, Business Town Centre and Industrial Zones) as it applies to the Residential Zone and Village Zone to apply NZS 4404 standards -Table 3.2 Rooding Design Standards. OR Amend Table 14.12.5.14 Access and road conditions as it applies to the Residential Zone and Village Zone to use the standards in the Operative District Plan: Franklin Section as follows:		
	<i>Users</i>	<i>Legal Width</i>	<i>Minimum total seal width</i>
	2-4	3.5m	2.7m
	5-8	8m	5m

Decision Reasons:

- Access Leg and ROW widths are too wide.
- The proposed access standards are excessive and will result in the inefficient use of land and will prevent infill development in existing urban areas. The current standards in the Franklin Section of the Plan are appropriate for the residential zone.
- The extra seal width also increases impervious surfaces and stormwater run-off without any apparent need or benefit relating to traffic effects.
- Excessive width also adds additional costs to developments.

Submitter Number: 749 **Submitter:** Housing New Zealand Corporation

Point Number 749.78
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.14 – Access and road conditions (Residential, Village, Business, Business Town Centre and Industrial Zones)

Summary of Decision Requested Amend Table 14.12.5.14 Access and road conditions (Residential, Village, Business, Business Town Centre and Industrial Zones) as follows:

Road Type	General				Seal Width			
	Number of Allotments or Activities	Design Speed (km/h)	Design Vehicle (RTS 18 Vehicle)	Minimum Road/ROW Reserve Width (m)	Minimum Trafficable Carriageway (m)	Minimum Median Provision (m)	Parking Provision	Minimum Total Seal Width (m) (Does not include concrete kerb width)
Access and road conditions (Residential, Village, Business, Business Town Centre, Industrial and Heavy Induse								
Access leg to an allotment (Residential Village)	1	N/A	8m Rigid	3	N/A			
Access leg to an allotment (Business and Industrial)	1	N/A		3 (Proposed: 3.5m (Residential))	N/A			
Private access, including ROWs and access allotments (Residential Village)	2 to 4	N/A		3	3	N/A	N/A	3
Private access, including ROWs and access allotments (Business and Industrial)	2 to 8	N/A		3 (Proposed: 3.5m)	3.5		N/A	3.5
Access allotment (Residential Village)	5 to 8	N/A		3.5	5		Optional	5
Service Lane (Business and Industrial)	N/A	N/A	Subject to specific design that has been certified		5		No parking	5
Local Road (Residential Village)	8	50	8m Rigid	3 (Proposed: 3.5m)	3.5	None	1m on each side	3.5
Local Road (Business and Industrial)			17m Semi		3		Optional	3

AND
 Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- The submitter opposes the minimum road/ROW reserve, minimum trafficable carriageway and the minimum total seal width for a number of road types and allotments or activities.
- Reducing minimum widths will enable better utilisation of the site for residential development than for vehicle access and roading.

Submitter Number: 871 **Submitter:** Brendon John & Denise Louise Strong

Point Number 871.2
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.14 – Access and road conditions (Residential, Village, Business, Business Town Centre and Industrial Zones)

Summary of Decision Requested Amend Table 14.12.5.14 Access and road conditions by replacing with NZS standards - Table 3.2 Road Design Standards.
 OR
 Amend Table 14.12.5.14: Access and road conditions by replacing with the following standards from the Waikato Operative District Plan - Franklin Section:

Users	Legal Width	Minimum total seal width
2-4	3-5m	2.7m
5-8	8m	5m

Decision Reasons:

- The proposed access standards are excessive, and will result in inefficient use of the urban land resource and will prevent infill development in existing urban areas,
- The extra seal width also increase impervious surfaces and storm water run-off without any apparent need or benefit relating to traffic effects.
- Excessive width also adds additional costs to development.
- NZS 4404:2010 - Land Development and Subdivision Infrastructure is a national document that covers access and road conditions so this matter should not form part of the Plan.
- The current standards in the Franklin Section of the Plan are also more appropriate than the proposed provisions.

Decision Reasons:

Submitter Number: 943 **Submitter:** McCracken Surveys Limited

Point Number 943.63
Plan chapter Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.14 – Access and road conditions (Residential, Village, Business, Business Town Centre and Industrial Zones)

Summary of Decision Requested Amend Table 14.12.5.14 – Access and road conditions (Residential, Village, Business, Business Town Centre and Industrial Zones) to change the following for Access leg to an allotment residential, village:

- Minimum Road/ROW Reserve Width to 3m;
- Seal width of 3m up to 6 units or lots;
- Minimum Road/ROW Reserve Width to 5.5m and 6m for more than 6 units or lots; and
- Seal width of 4m for 6 or more units or lots.

AND

Delete the 'Access lot residential, village' from Table 14.12.5.14.

AND

Any consequential amendments required for all zones.

Decision Reasons:

- Widths sought would be consistent with other Council residential widths.
- Tenure of the access lot is no justification for minimum width.
- Width of access should be based on usage, not tenure as tenure is not relevant in determining access formation requirements.

Plan chapter: Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.15 – Access and road conditions (Rural and Country Living Zones)

Submitter Number:	276	Submitter:	Ted and Kathryn Letford
Point Number	276.2		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.15 – Access and road conditions (Rural and Country Living Zones)		
Summary of Decision Requested	Retain the following access widths in Table 14.12.5.15 Access and Road condition for Rural and Country Living Zone <ul style="list-style-type: none">• 6m wide access for one allotment.• 6m wide access for 2-3 lots.• 10m for 4-8 lots.		
Decision Reasons:	<ul style="list-style-type: none">• Proposed access widths are far more practical than the current requirements under Operative District Plan which wastes too much space.		

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.20		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.15 – Access and road conditions (Rural and Country Living Zones)		
Summary of Decision Requested	Retain Table 14.12.5.15 Access and road conditions, as it contains minimum road/ROW reserve width requirements AND Add note below Table 14.12.5.15 Access and road conditions (Rural and Country Living Zones) relating to the Minimum Road/ROW Reserve Width column, as follows: <i>*Accesses shall have a minimum height clearance of 4.0m and a maximum gradient of 1 in 5 (with minimum 4.0 transition ramps of 1 in 8).</i> AND Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none">• Fire and Emergency New Zealand generally supports the design requirements for vehicle access as it generally recognises Minimum Road/ROW Reserve Width requirements to allow for access to properties for firefighting purposes.• Fire and Emergency New Zealand are concerned, however, that the requirements in Table 14.12.5.15 fail to prescribe height clearance and gradient requirements and therefore would not be able to accommodate a fire appliance and may give rise to situations where access for emergency vehicles is compromised in the Rural and Country Living Zones.• There is also an absence of provisions to provide for height clearance and gradient requirements and therefore would not be able to accommodate a fire appliance.• For fire appliances to access an emergency, adequate access width, height and gradient is necessary. A 95th percentile pumping appliance has a width of 2.5m, a height of 3.55m and a length of 8.72m. A clearance of greater than 4m is required for firefighters to work around the fire appliance to access hoses and pumps. The maximum negotiable gradient is 1:5, accompanied by a 4m long 1:15 transition grade. In order to provide for ability to access a fire/emergency, amendments must be made to ensure adequate clearance.• This amendment will ensure sufficient clearance.		

Submitter Number:	690	Submitter:	Paramjit & Taranpal Singh
Point Number	690.5		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.15 – Access and road conditions (Rural and Country Living Zones)		
Summary of Decision Requested	Amend Table 14.12.5.15 Access and road conditions (Rural and Country Living Zones), to apply NZ Standard NZS4404 Table 3.2 Rooding Design Standards; OR Amend Table 14.12.5.15 Access and road conditions (Rural and Country Living Zones), to replace with Section 22B.7.2 of the Franklin Section of the Operative District Plan; AND Delete the requirement for sealed access and right of ways in the Rural and Country Living Zones from Table 14.12.5.15 Access and road conditions (Rural and Country Living Zones).		
Decision Reasons:	<ul style="list-style-type: none">• Access and right of way widths are too wide.• Opposes the legal widths and seal widths.• Opposes the requirement to seal access and right of ways in the Rural and Country Living Zones as metal access ways are appropriate within Rural Zones and more consistent with the character of Rural areas.		

Submitter Number:	724	Submitter:	Sue Robertson
Organisation:	Tamahere Community Committee		
Point Number	724.8		

Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.15 – Access and road conditions (Rural and Country Living Zones)		
Summary of Decision Requested	Amend Table 14.12.5.15 Access and road conditions (Rural and Country Living Zones) in Chapter 14, by reducing the minimum road reserve width from 20m to 12m for the Country Living Zone where pavement and drainage and services can be accommodated.		
Decision Reasons:	<ul style="list-style-type: none"> • There a few properties in the Country Living Zone that that isolated by 12-15m wide rights-of-way which may not be able to be subdivided. • A 12m road reserve width could be favourably considered where a pavement, drainage and services can still be accommodated. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.119		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.15 – Access and road conditions (Rural and Country Living Zones)		
Summary of Decision Requested	Retain Table 14.12.5.15 Access Roads and conditions (Rural and Country Living Zones) as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Based on the nature of the land use associated with the Rural and Country Living Zones, the submitter considers that the design vehicles are appropriate. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.25		
Plan chapter	Section C Rules > Chapter 14: Infrastructure and Energy > 14.12 Transportation > 14.12.5 Transportation tables and figures > Table 14.12.5.15 – Access and road conditions (Rural and Country Living Zones)		
Summary of Decision Requested	Amend Table 14.12.5.15- Access and road conditions (Rural and Country Living Zones) to apply NZS 4404 Standards - Table 3.2 Road Design Standards. OR Amend Table 14.12.5.15- Access and road conditions (Rural and Country Living Zones) to apply the Operative District Plan: Franklin Section Standards as specified in 22B.7.2		
Decision Reasons:	<ul style="list-style-type: none"> • The access Leg and R-O-W widths in the Rural and Country Living Zone are too wide. • The submitter opposes the requirement to seal access and ROW's in the Rural and Country Living zones. Metal access ways are appropriate in rural zones and are more consistent with the character of rural areas. 		

Plan chapter: Section C Rules > Chapter 16: Residential Zone
--

Submitter Number:	2	Submitter:	Brett Wilkinson
Point Number	2.1		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Amend the minimum lot size for the Residential Zone from 450m2 to 400m2 and initially apply this minimum to sites that have a road frontage AND Amend the building platform/building area for the Residential Zone to 50% of the lot area (ie: 200m2).		
Decision Reasons:	<ul style="list-style-type: none"> • There is a requirement for more infill housing to make a better use of utilities already in place and save costs for the same. • To reduce the continuing subdivision of farmland and or productive land. • Front sites can be smaller as the berm and road are open space and provide necessary amenity. 		

Submitter Number:	3	Submitter:	Gulab Bilimoria
Organisation:	Bilimoria Consulting Ltd		
Point Number	3.1		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	No specific decision sought, but submission states support for Chapter 16 Residential Zone.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		

Submitter Number:	22	Submitter:	Bill McDonald
Point Number	22.1		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Add provisions to require new titles within the proposed Residential Zone abutting the Harrisville Motocross Track to recognise there is a motor sport facility nearby by requiring 'no complaint covenants' and extra sound-proofing for new dwellings.		

Decision Reasons:	<ul style="list-style-type: none"> Residential activities and motocross activities are not always compatible. The Pukekohe Motor Cycle Club and its track form a significant part of the local community and the broader sport of motocross in New Zealand.

Organisation:	Kawasaki NZ		
Point Number	23.1		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Add provisions to require new titles within the proposed Residential Zone abutting the Harrisville Motocross Track to recognise there is a motor sport facility nearby requiring 'no complaint covenants' and extra sound-proofing for new dwellings.		
Decision Reasons:	<ul style="list-style-type: none"> Residential activities and motocross activities are not always compatible. The Pukekohe Motor Cycle Club and its track form a significant part of the local community and the broader sport of motocross in New Zealand. 		

Submitter Number:	24	Submitter:	Lewis Heels
Point Number	24.1		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Add provisions to require new titles within the proposed Residential Zone abutting the Harrisville Motocross Track to recognise there is a motor sport facility nearby requiring 'no complaint covenants' and extra sound-proofing for new dwellings.		
Decision Reasons:	<ul style="list-style-type: none"> Residential activities and motocross activities are not always compatible. The Pukekohe Motor Cycle Club and its track form a significant part of the local community and the broader sport of motocross in New Zealand. 		
Decision Reasons:			

Submitter Number:	25	Submitter:	Maurice Hayman
Point Number	25.1		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Add provisions to require new titles within the proposed Residential Zone abutting the Harrisville Motocross Track to recognise there is a motorsport facility nearby, have a 'no complaints covenant' and require new dwellings to have extra sound-proofing.		
Decision Reasons:	<ul style="list-style-type: none"> Residential activities and motocross activities are not always compatible. The Pukekohe Motor Cycle Club and its track form a significant part of the local community and the broader sport of motocross in New Zealand. 		

Submitter Number:	26	Submitter:	Brian Leatham
Point Number	26.1		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Add provisions to require new titles within the proposed Residential Zone abutting the Harrisville Motocross Track to recognise there is a motorsport facility nearby, have a 'no complaints covenant' and require new dwellings to have extra sound-proofing.		
Decision Reasons:	<ul style="list-style-type: none"> Residential activities and motocross activities are not always compatible. The Pukekohe Motor Cycle Club and its track are a significant part of the local community and the broader sport of motocross in New Zealand. This motorsport facility has also been established for years and has hosted international events. It is supported by a huge number of competitors nationwide. 		

Submitter Number:	27	Submitter:	Josh Charwood
Point Number	27.1		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Add provisions to require new titles within the proposed Residential Zone abutting the Harrisville Motocross Track at 115 Geraghty Maber Road to recognise there is a motor sport facility nearby, have a 'no complaints covenant' and require new dwellings to have extra sound-proofing.		
Decision Reasons:	<ul style="list-style-type: none"> The property at 115 Harrisville Road abuts the eastern boundary of the well established motor sport facility. The track operation should therefore take precedence and not be subjected to any noise complaints if the property at 115 Harrisville Road is rezoned for residential purposes. The Harrisville Motocross Track has been in existence for many years and is a top internationally recognised facility. 		

Submitter Number:	29	Submitter:	Wayne Reilly
Point Number	29.1		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Add provisions to require new titles within the proposed Residential Zone abutting the Harrisville Motocross Track to recognise there is motor sport facility nearby, have a 'no complaints covenant,' regarding noise and dust, and require new dwellings to have extra sound-proofing.		
Decision Reasons:	<ul style="list-style-type: none"> Residential activities and motocross activities are not always compatible. The Pukekohe Motor Cycle Club and its track form a significant part of the local community and the broader sport of motocross in New Zealand.

Point Number	52.1		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	No specific decision sought, but submitter opposes Chapter 16 Residential Zone.		
Decision Reasons:	<ul style="list-style-type: none"> No reason provided. 		

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.124		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Amend rules in Chapter 16: Residential Zone to capture the intended location specific character and density sought.		
Decision Reasons:	<ul style="list-style-type: none"> There are no rules or other methods in Chapters 16 that are clearly targeted to achieve the outcomes sought for particular towns and villages identified in Policies 4.10-4.1.18. The submission notes the relevant sections of the WRPS. 		
Point Number	81.73		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Amend Chapter 16: Residential Zone to manage buildings, structures and subdivision within landscape and natural character overlay areas, which may be through activity status, rules and assessment criteria.		
Decision Reasons:	<ul style="list-style-type: none"> Apart from Rule 16.2.4.4/24.2.4.4 which relates to earthworks in landscape and natural character areas, it appears that no other provisions apply to buildings, structures and subdivision that fall within an overlay area. This does not give effect to WRPS Policy 12.1, 12.2 and associated Implementation Methods. 		

Submitter Number:	182	Submitter:	Kirriemuir Trustee Limited
Point Number	182.14		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Retain Chapter 16.1 to 16.4 Residential Zone, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The provisions provided for suitable controls expected within a residential environment. 		
Point Number	182.3		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	No specific decision sought, but submission states general support for Chapter 16 Residential Zone except as otherwise noted in supplementary points within the submission document.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Submitter Number:	212	Submitter:	Ron Pollock
On behalf of:	Community Living Trust		
Point Number	212.1		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Retain Chapter 16 Residential Zone in terms of combining Residential, Residential 2, Living Zones and Medium density housing areas into a single Residential Zone.		

Decision Reasons:	<ul style="list-style-type: none"> This will allow more intensive development of properties throughout the new Residential Zone; which in turn supports Integration with local services and facilities, including public transport development initiatives. This decision to combine the 4 zones into 1 Residential Zone further supports Councils previous decision to accept our submission in 2005 to change our Mason Road property from Rural to Living Zone during the last District Plan Review.
Decision Reasons:	

Submitter Number:	276	Submitter:	Ted and Kathryn Letford
Point Number	276.3		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	<p>Retain the ability in Chapter 16 Residential Zone to undertake multi unit development</p> <p>AND</p> <p>Amend Chapter 16 Residential Zone to reduce the size of the net site area per residential unit for multi unit development from 300m2 net site area to 150m2 average per apartment and 200m2 net site area per half duplex to be similar to Hamilton City Council.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Supports the ability to cater for Multi Unit Development. Recommend reconsidering 300m2 net site area per residential unit as they may be too large for this type of development. Suggests adopting a similar approach to HCC: 150m2 per apartment, 200m2 net site area per half duplex unit. 		

Submitter Number:	435	Submitter:	Jade Hyslop
Point Number	435.17		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	<p>Add to Chapter 16 Residential Zone rules to the effect that:</p> <p><u>Construction of commercial building within sight of SH23 at Raglan is a permitted activity if it will be screened from SH23 by planting with indigenous species that will achieve an average height of 3m after 5 years, mature to over 9m in the residential zone and 12m in the business zone and be of sufficient density to visually screen the activity, from SH23.</u></p> <p><u>Any activity that does not comply with a condition for a permitted activity is a discretionary activity.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> Zone extensions have increase the extent of urban development along the main approach to Raglan, that could be mitigated by screening further development. 		
Point Number	435.7		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	<p>Add rules to Chapter 16 Residential Zone, to provide for protection of defined views from public places to harbour, coast and natural backdrops which include at least the following defined views:</p> <p><u>(a) From SH23, (north of Maungatawhiri Road) to Kaitoke Creek,</u></p> <p><u>(b) All existing views of the bar from Main Road, Bow Street and Norrie Avenue,</u></p> <p><u>(c) All existing views of Karioi from Raglan CBD,</u></p> <p><u>(d) From Wainui Road to the coast between the Bryant Reserve and the Bible Crusade Camp,</u></p> <p><u>(e) From SH23 summit to Karioi,</u></p> <p><u>(f) AroAro salt marsh, from Wallis Street,</u></p> <p>AND</p> <p>Amend the Planning maps for any consequential relief to give effect to this submission point.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Rules in each zone chapter are needed to apply Outstanding Natural Features and Landscapes Objective 3.3.3a.) And in Raglan to apply Business and Business Town Centre Zone Policy 4.5.14a.)iii.)- Raglan Town Centre. Views are an inherent part of retaining Raglan's seaside character. Raglan's community plan, 'Raglan Naturally', contains 6 references to views. RMA s5 states purpose of RMA which includes reference to social, economic and cultural wellbeings, of which Raglan Naturally sets out that the Raglan community clearly expressed such wellbeings include protection of views. At the last plan revision, Council accepted views were important but change needed to occur via a variation which has not happened and thus needs to be a part of the plan. Excluding an important part of Raglan Naturally is to deny the value of public participation. Plan protects views of navigation beacons. Other authorities' district plans show protection of other views is possible, e.g. Auckland and Hastings 		

Submitter Number:	579	Submitter:	Simon Ash
Organisation:	Lakeside Developments 2017 Limited		
Point Number	579.47		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Retain the Residential zone provisions as they relate to the Te Kauwhata Lakeside Precinct, except the provisions for which amendments are requested.		
Decision Reasons:	<ul style="list-style-type: none"> The Residential Zone is a fundamental tool in enabling the development of 1600 homes. The key enabling mechanism in the zone are the provision for a "Comprehensive Development Consent" and "Comprehensive Subdivision". These provisions enable for a bundled consent for the creation of lots and associated infrastructure. It is a comprehensive approach which will ensure the integration of housing development with the provision of infrastructure. 		

Submitter Number:	598	Submitter:	Withers Family Trust
Point Number	598.28		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Add policies and support for additional residential zoning opportunities to cater for anticipated demand for the next 27 years.		
Decision Reasons:	<ul style="list-style-type: none"> Support sustainable communities and the objective of providing for 13,300-17,500 additional dwellings within the District 2018-2045. 		

Submitter Number:	689	Submitter:	Greig Developments No 2 Limited
Point Number	689.1		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Retain the general residential subdivision provisions in Chapter 16 Residential Zone, with the exception of submission points below.		
Decision Reasons:	<ul style="list-style-type: none"> Provides for the efficient use of the land resources Enables the subdivision of land to provide for the growth of the district 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.84		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Amend Chapter 16: Residential Zone heading as follows: <i>Chapter 16: Residential Zone Rules</i>		
Decision Reasons:	<ul style="list-style-type: none"> To assist in clarifying that all of the provisions within the chapter are rules. 		
Point Number	697.85		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Amend Chapter 16: Residential Zone Rule 16(2) as follows: <i>The rules that apply to subdivision in the Residential Zone are contained in Rule 16.4 and the relevant rules in: 14 Infrastructure and Energy; and 15 Natural Hazards and Climate Change (Placeholder).</i>		
Decision Reasons:	<ul style="list-style-type: none"> To clarify that the rules in Chapter 14: Infrastructure and Energy and Chapter 15: Natural Hazards and Climate Change apply to subdivision as well as to land use activities 		
Point Number	697.86		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Amend Chapter 16: Residential Zone Rule 16(5) as follows: The Residential Zone contains a Specific Area that is Lakeside Te Kauwhata Precinct ...to the rest of the Residential Zone.		
Decision Reasons:	<ul style="list-style-type: none"> Grammar. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.125		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Amend Chapter 16 Residential Zone to align with the activities and rules in the new "Medium Density Residential Zone" chapter sought. AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> Certain rules and activities in the Residential Zone will need to be amended to align with the proposed Medium Density Residential Zone provisions. 		

Submitter Number:	768	Submitter:	Don Jacobs
Point Number	768.2		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	No specific decision sought, but submission supports the intent of the supporting information behind residential plan change density in the Proposed Waikato District Plan.		

Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.
Point Number	768.3
Plan chapter	Section C Rules > Chapter 16: Residential Zone
Summary of Decision Requested	No specific decision sought, but the submission objects to the current location, allocation and distribution of the district's residential zones as proposed in the Proposed Waikato District Plan.
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided.

Submitter Number:	780	Submitter:	John Lawson (Whaingaroa Environmental Defence Incorporated)
On behalf of:	Whaingaroa Environmental Defence Incorporated Society		
Point Number	780.2	Plan chapter	Section C Rules > Chapter 16: Residential Zone
Summary of Decision Requested	<p>Add rules to Chapter 16 Residential Zone to provide for protection of defined views from public places to the harbour, coast and natural backdrops and to include at least the following defined views:</p> <p>(a) from SH23 (north of Maungatawhiri Rd) to Kaitoke Creek</p> <p>(b) all existing views of the bar from Main Road, Bow St and Norrie Avenue</p> <p>(c) all existing views of Karioi from Raglan CBD</p> <p>(d) from Wainui Rd to the coast between the Bryant Reserve and the Bible Crusade Camp</p> <p>(e) from SH23 summit to Karioi</p> <p>(f) AroAro salt marsh from Wallis St.</p> <p>AND</p> <p>Amend the planning maps for any consequential relief required to give effect to this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Rules in each zone are required to give effect to Policies 3.3.3 (a) and 4.5.14 (a) (iii). Views are a part of Raglan's character. Raglan Naturally makes various references to 'view'. The original submission notes these references in detail. RMA (Section 5) includes "well being" which was included in Raglan Naturally and this clearly includes protection of views. Raglan Naturally needs to be considered as a part of the district plan review. Other district plans protect views (Auckland and Hastings). 		
Point Number	780.6	Plan chapter	Section C Rules > Chapter 16: Residential Zone
Summary of Decision Requested	<p>Add provisions to Chapter 16 – Residential Zone, to restrict further holiday accommodation in Raglan's residential and business areas.</p> <p>AND</p> <p>Add provisions for an area of high density development near the cement silos, of similar height to them and to the density and design of a traditional European fishing village, available for low cost purchase and rental by permanent residents for leases of no less than a year.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Raglan is very short of permanent accommodation and the Plan makes no provision for affordable properties protected from use for holiday occupation. 		

Submitter Number:	788	Submitter:	Susan Hall
Point Number	788.5	Plan chapter	Section C Rules > Chapter 16: Residential Zone
Summary of Decision Requested	<p>Add a new set of rules to Chapter 16 Residential Zone to provide for the protection of defined views from public places in Raglan to the harbour, coast and natural backdrops in the chapters on rural, residential, and business town centre zones, to include at least the following defined views:</p> <p>(a) From SH23 (north of Maungatawhiri Road) to Kaitoke Creek;</p> <p>(b) All existing views of the bar from Main Road, Bow Street, and Norrie Avenue;</p> <p>(c) All existing views of Karioi from Raglan CBD;</p> <p>(d) From Wainui Road to the coast between the Bryant Reserve and the Bible Crusade Camp;</p> <p>(e) From SH23 summit to Karioi; and</p> <p>(f) AroAro salt marsh from Wallis Street.</p> <p>AND</p> <p>Amend the planning maps to identify defined views.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Views are an inherent part of retention of Raglan's seaside Character. The Raglan Naturally community plan contains six references to views as follows: <ul style="list-style-type: none"> "Relaxed lifestyles, a tranquil harbour, safe swimming beaches, black sand, internationally renowned surf and spectacular coastal views are characteristic – the Waikato District's only seaside resort;" "What We Don't Want – Buildings blocking views of harbour, coast and mountain." "Priorities for Action – The retention of access to, and views of the harbour, coast, and mountain from within Raglan." "What We Don't Want – Loss of access to or views of the harbour from parked cars, large trees or buildings." "Safeguard coastal views from Wainui Reserve." "Safeguarding the Environment – Maintain the coastal and harbour views, e.g. do not allow the planting of big trees, or the building of high fences or large buildings that destroy existing views." Section 5 of the RMA sets out the purpose (including District Plans) "protection of natural and physical resources in a way, or at a rate, which enables people and communities to provide for their social, economic, and cultural wellbeing." Raglan Naturally sets out how the Raglan community has expressed its views on their well-beings. These very clearly include protection of views. 		

- At the last Plan revision, the Council accepted views as important, but said any change would need to occur through a variation to the District Plan. That has not happened, so it should be a part of this plan. To exclude such an important part of Raglan Naturally in the district plan review is to deny the value of public participation in which over 10% of Raglan's population took part.
- The plan protects views of the navigation beacons and district plans of other authorities, such as Auckland and Hastings show that protection of other views is possible.
- A policy should protect views, e.g. Auckland's protection of volcanic view shafts.
- Each chapter needs to apply Policy 3.3.3.

Submitter Number:	823	Submitter:	NZTE Operations Limited
Point Number	823.15		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	<p>Add new rule 16.3.12- Noise Sensitive Activities to Chapter 16: Residential, as follows:</p> <p><u>16.3.12 Noise Sensitive Activities</u></p> <p><u>PI – Construction, addition, or alteration to a building containing a Noise Sensitive Activity located between the Waikato Regional Airport or Te Kowhai Air Noise Boundary and the Outer Control Boundary must comply with Appendix 1 – Acoustic Insulation.</u></p> <p><u>RD1(a) Construction of, or addition, or alteration to a building that does not comply with a condition in Rule 16.3.12 PI.</u></p> <p><u>(b) Council's discretion is restricted to the following matters:</u></p> <p><u>(i) internal design sound levels;</u></p> <p><u>(ii) on-site amenity values; and</u></p> <p><u>(iii) Potential for reverse sensitivity effects.</u></p> <p>AND</p> <p>Amend the Proposed District Plan for any consequential relief required to give effect to this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • This change is a consequential amendment of introducing new Te Kowhai Airpark Airport Noise Control Boundaries. • Chapter 16 Rule 16.3 does not provide for ANCB's as proposed by this submission. • A new rule (16.3.12) is required to address ANB requirements. 		

Submitter Number:	825	Submitter:	John Lawson
Point Number	825.2		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	<p>Add rules to Chapter 16 Residential Zone to provide for protection of defined views from public places to the harbour, coast and natural backdrops and to include at least the following defined views:</p> <p>(a) from SH23 (north of Maungatawhiri Rd) to Kaitoke Creek</p> <p>(b) all existing views of the bar from Main Road, Bow St and Norrie Avenue</p> <p>(c) all existing views of Karioi from Raglan Central Business District</p> <p>(d) from Wainui Rd to the coast between the Bryant Reserve and the Bible Crusade Camp</p> <p>(e) from SH23 summit to Karioi</p> <p>(f) AroAro salt marsh from Wallis St.</p> <p>AND</p> <p>Amend the planning maps for any consequential relief required to give effect to this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Rules in each zone are required to give effect to Policies 3.3.3 (a) and 4.5.14 (a) (iii). • Views are a part of Raglan's character. Raglan Naturally makes various references to 'view'. The original submission notes these references in detail. • RMA (Section 5) includes "well being" which was included in Raglan Naturally and this clearly includes protection of views. • Raglan Naturally needs to be considered as a part of the district plan review. • Other district plans protect views (Auckland and Hastings). 		
Point Number	825.6		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	<p>Add provisions to Chapter 16 – Residential Zone, to restrict further holiday accommodation in Raglan's residential and business areas.</p> <p>AND</p> <p>Add provisions for an area of high density development near the cement silos, of similar height to them and to the density and design of a traditional European fishing village, available for low cost purchase and rental by permanent residents for leases of no less than a year.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Raglan is very short of permanent accommodation and the Plan makes no provision for affordable properties protected from use for holiday occupation. 		

Submitter Number:	830	Submitter:	Linda Silvester
Point Number	830.8		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Add new provisions to Chapter 16 Residential Zone to include energy efficiency policies and rules (see submission for wording)		

Decision Reasons:	<ul style="list-style-type: none"> The Proposed District Plan only makes passing reference to climate change and says nothing about coal, gas and oil's effect on global warming. It is disappointing that Stage 2 of the Proposed District Plan is to be published in 2019 and that it is not possible to consider it in context with this part of the Plan. Section 1.9.5 reflects the Resource Management Act requirements around climate change and renewable energy.

On behalf of:	Raglan Naturally		
Point Number	831.68		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	<p>Add rules to Chapter 16 Residential Zone to provide for the protection of defined views from public places to the harbour, coast and natural backdrops and to include at least the following defined areas:</p> <ul style="list-style-type: none"> From SH3 (north of Maungatawhiri Road) to Kaitoke Creek All existing views of the bard from Main Road, Bow St and Norrie Avenue All existing views of Kariroi from Raglan CBD From Wainui Road to the coast between the Bryant Reserve and the Bible Crusade Camp From SH23 summit to Karioi Aro Aro salt marsh from Wallis St <p>AND</p> <p>Consequently amend the planning maps as necessary to satisfy the relief sought in this submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Views are an inherent part of Raglan's seaside character and retaining these is a priority action. Policy 3.3.3 needs to be achieved. The protection of views that affect the wellbeing of residents is a matter that needs to be considered in accordance with section 5 of the RMA. 		

Submitter Number:	862	Submitter:	Havelock Village Limited
Point Number	862.23		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	<p>Amend residential and subdivision rules, development and standards and assessment criteria in Chapter 16 Residential Zone to ensure that the Havelock Village master plan and precinct plan are appropriately considered and implemented at the time of subdivision and resource consents.</p> <p>AND</p> <p>Any consequential amendments or alternative relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> There may need to be amendments to the rules, development standards and matters of discretion to ensure that the site specific outcomes envisaged by the masterplan and other technical reports are achieved. 		
Point Number	862.29		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	<p>Amend the rules relating to earthworks and indigenous vegetation clearance inside a Significant Natural Area in Chapter 16 Residential Zone to enable the implementation of the masterplan attached in the original submission and the bespoke approach requested elsewhere in the submission.</p> <p>AND</p> <p>Any consequential amendments and alternative relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter seeks a bespoke approach to the management of biodiversity including Significant Natural Areas. 		
Point Number	862.30		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	<p>Amend the Residential Zone provisions to provide for aggregate extraction activities, for the purpose of road supply for the Havelock Village development or development on adjacent sites as a Restricted Discretionary activity, including suitable matters of discretion and assessment.</p> <p>AND</p> <p>Any consequential amendments and alternative relief to give effect to the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> The submitter considers that the best use of the site is for residential development, however given the extent of roading infrastructure to support this proposal, the potential to establish on-site extractive industries for the purpose of road supply is being explored. 		

Submitter Number:	871	Submitter:	Brendon John & Denise Louise Strong
Point Number	871.15		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	<p>Retain Chapter 16 Residential zone, with the exception of Rule 16.2.4.1 Earthworks General; Rule 16.3.5 PI Daylight admission, Rule 16.3.6 PI Building Coverage; Rule 16.3.9.3 Building setback - waterbodies; Rule 16.4.13 (a) Subdivision creating reserves and Rule 16.4.14 Subdivision of esplanade reserves and esplanade strips (which are addressed in other submission points).</p>		
Decision Reasons:	<ul style="list-style-type: none"> Provides for the efficient use of land resources, Enables the subdivision of land to provide for the growth of the district. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.102		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Amend Chapter 16: Residential Zone to add a statement of purpose and anticipated outcomes of corresponding zone or subzone, and where appropriate make links to health and wellbeing considerations.		
Decision Reasons:	<ul style="list-style-type: none"> • Currently there are no statements of purpose or descriptions for any of the zones or the intended outcomes to be achieved, leading to a reliance on objectives, policies and explanations within Section B of the Plan, which are based under generic heading topics with little zone based commentary. • There is an opportunity to clarify the purpose of a zone and increase understanding of outcomes, and appropriate types of activities for the different environments. • The amendments would assist with a clear understanding of the purpose and character of the various zones. 		
Point Number	923.95		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Amend Chapter 16: Residential Zone by establishing a stronger objective, policy and rule framework than is proposed for un-serviced urban residential areas where there is uncertainty about the funding, staging and timing for infrastructure provision.		
Decision Reasons:	<ul style="list-style-type: none"> • The amendments are requested to ensure activities of an urban nature, including subdivision, are not provided for prior to structure planning processes being undertaken and without certainty about the funding, timing and staging of infrastructure provision and so subdivision, use and development is not compromised in these areas for future development. • The submitter is concerned provisions do not adequately address how subdivision and development activities will be managed where a 'live' residential zoning is proposed for un-serviced land within urban towns and villages. • No obvious strategy as to how Council intends to manage these areas, how long the transition to urban use will be for particular areas, how Council is achieving its Future Proof land allocations obligations, or any framework evaluating other non-identified 'live zoning' areas. • Proposed Plan creates a highly uncertain development environment for communities as to where and how future urban growth will be provided for, and how health and wellbeing outcomes will be managed in parallel to managing growth.

Point Number	943.6		
Plan chapter	Section C Rules > Chapter 16: Residential Zone		
Summary of Decision Requested	Delete Rule 16.4.4 (a)(iv)(Table) – Subdivision – Multi-unit development. AND Add the Table from Rule 16.4.4 (a)(iv) - Subdivision Multi-Unit Development to Rule 16.1.3 RD1 – Multi-Unit development.		
Decision Reasons:	<ul style="list-style-type: none"> • Table is not suited for subdivision rule. • Areas are subject to land use provisions and not a result of subdivision. 		

Plan chapter: Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities

Submitter Number:	299	Submitter:	2SEN Limited and Tuakau Estates Limited
Point Number	299.17		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities		
Summary of Decision Requested	Retain Section 16.1 Activities, except where modifications are sought elsewhere in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> • It provide for suitable controls expected within a residential environment. 		

Submitter Number:	471	Submitter:	Andrew Wood
Organisation:	CKL		
Point Number	471.56		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities		
Summary of Decision Requested	Delete Rule 16.1.4 DI and D2 Discretionary activities AND Add these rules to Rule 16.1.3 Restricted Discretionary activities. AND Any consequential amendments necessary.		
Decision Reasons:	<ul style="list-style-type: none"> • Permitted activities failing standards should be restricted discretionary activities not discretionary. 		

Submitter Number:	986	Submitter:	Pam Butler
On behalf of:	KiwiRail Holdings Limited (KiwiRail)		
Point Number	986.62		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities		
Summary of Decision Requested	<p>Add new matters of discretion relating to non-compliance with the 5m Building setback - railway corridor (sought elsewhere in other submission points) in Rule 16.1 Land Use Activities as follows (or similar amendments to achieve the requested relief):</p> <ol style="list-style-type: none"> 1. The size, nature and location of the buildings on the site. 2. The extent to which the safety and efficiency of rail and road operations will be adversely affected. 3. The outcome of any consultation with KiwiRail. 4. Any characteristics of the proposed use that will make compliance unnecessary. <p>AND</p> <p>Any consequential amendments to link and/or accommodate the requested changes.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • KiwiRail accepts that there will be at times situations where the proposed 5 metre Building setback - railway corridor rule cannot be met, or it is inappropriate to require compliance. • It is noted that some zones have restricted discretionary activity categories and some don't. It's been KiwiRail's policy to seek restricted discretionary activity status for non-compliance with its noise and vibration performance standards. The criteria allow for a bespoke consideration of site specific effects. • Application for resource consent under this rule can be decided without public notification. KiwiRail are likely to be the only affected person determined in accordance with section 95B of the Resource Management Act 1991. 		

Plan chapter: Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.1 Prohibited Activities

Submitter Number:	720	Submitter:	Spencer and Isabelle Wheeler
Point Number	720.1		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.1 Prohibited Activities		
Summary of Decision Requested	Amend Rule 16.1.1 PR1 to change the Prohibited activity status for any building, structure, objects or vegetation to Non-complying activity status.		
Decision Reasons:	<ul style="list-style-type: none"> • Supported by Raglan Coastguard, Raglan Fishing Club and the Waikato Regional Harbormaster (support letters attached to submission) that the Navigational beacon be lifted. • Lifting of beacon would allow current height restriction which runs right through submitters 1920s bach at 12 Long Street, Raglan to be lifted and prohibited activity status for anything over 1.5m must reflect such change. • Non-complying status will still give WDC planners scope to ensure any new building on the site does not interfere with the beacon's raised height. • Submitter referred to previous submission made in 2005 relating to the same issue. • In 2005 submission submitter opposed imposition of height restriction on two grounds- a.) Unduly restricted their ability to build on their property, b.) Height restriction plan wouldn't solve visibility issues surrounding navigation beacon. Previous submission also stated there were problems with the visibility of the navigational beacons. • Submitter does not want to be placed in the same impossible position they were back in 2005 regarding height restrictions and needing to replace the existing old building. 		

Plan chapter: Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Submitter Number:	81	Submitter:	Waikato Regional Council
Point Number	81.148		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Retain Rule 16.1.2 P3 Permitted Activities.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter supports the rule's encouragement for location of retirement villages within 400 metres walking distance of public transport, as this assists with giving effect to the WRPS Policies 6.1 and 6.3, and Section 6A Development Principles. • It also assists with giving effect to the Proposed Plan's Objective 4.2.16 <i>Housing options</i> and Policy 4.2.17 <i>Housing types</i>. 		

Submitter Number:	244	Submitter:	Garth and Sandra Ellmers
Point Number	244.1		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Retain Rule 16.1.2 P3 Permitted Activities A new retirement village or alterations to an existing retirement village.		
Decision Reasons:	<ul style="list-style-type: none"> • More appropriate to have retirement villages in residential zones. 		
Point Number	244.2		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Amend Rule 16.1.2 P3 (a) Permitted Activities, to reduce the minimum area required for a retirement village in Raglan from 3ha to 1ha.		

Decision Reasons:	<ul style="list-style-type: none"> Raglan has very little flat land and retirement villages and facilities needs to be built on flat land to allow easy access. It is unlikely that there would be any area in Raglan of 3ha in which to develop a retirement village. The Ryman retirement village and complex in Gisborne consists of a three level apartment block with one level duplex units. The 3ha requirement should be reduced to 1ha to encourage and enable more retirement housing, especially when there is a dire shortage in Raglan. Attractive and functional retirement complexes are commonly developed on relatively small areas of land. There appears to be no valid reason for a minimum area of 3ha. 3ha is a huge area of land and would be difficult to find in most residential areas and expensive to purchase. This would necessitate demolishing existing properties in city areas. This is not practical or workable.
Point Number	244.3
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities
Summary of Decision Requested	Amend Rule 16.1.2 (f) Permitted Activities to increase the maximum building height to allow for three level retirement developments.
Decision Reasons:	<ul style="list-style-type: none"> Most apartment complexes for the incapacitated elderly are three levels. Setting a maximum building height of 8m would not allow three levels. The elderly feel secure in a unit or apartment that is easily accessible and close to staff and other residents. Helps reduce purchase costs for residents and development costs for providers.

Submitter Number:	259	Submitter:	Wendy Rowell
Organisation:	Pokeno Playcentre		
Point Number	259.1		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Amend Rule 16.1.2 Permitted Activities by adding child care facility as a permitted activity.		
Decision Reasons:	<ul style="list-style-type: none"> ECE confers large benefit to the young, growing Pokeno community. It is appropriate for ECEs to be in the Residential Zone where people live. An ECE will not have adverse effects on residential and recreational activities. The only zone where the proposed plan permits ECEs is the Business Zone. In Pokeno this is a very limited area where pick up /drop offs will be dangerous. Wish to develop a site for the Pokeno playcentre, which we will lose due to the Pokeno school expansion. 		

Submitter Number:	367	Submitter:	Liam McGrath
Organisation:	Mercer Residents and Ratepayers Committee		
Point Number	367.20		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Amend Rule 16.1.2 P4 Permitted Activities, by increasing the number of non-permanent residents working for home occupations to 2x the number of bedrooms.		
Decision Reasons:	<ul style="list-style-type: none"> Restrictions limits those running businesses from home as there are potentially more than 4 people working. Place a ratio of 2x number of bedrooms as long as ensuring sufficient car parking spaces available including toilet facilities will allow for greater growth for small businesses instead of leasing a small office/warehouse which increases overheads and extra costs. 		
Point Number	367.21		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Amend Rule 16.1.2 P5 Permitted Activities, by increasing operating hours or allowing exemptions for temporary activities.		
Decision Reasons:	<ul style="list-style-type: none"> Increasing/allowing exemptions to hours will allow events, e.g. weddings, to continue as they may run past 8.30pm. 		
Point Number	367.22		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Amend Rule 16.1.2 P9 Permitted Activities, by increasing the homestay guests to 2x the number of bedrooms as long as there is sufficient and toilets.		
Decision Reasons:	<ul style="list-style-type: none"> Place a ratio of 2x number of bedrooms as long as ensuring sufficient car parking spaces are available. 		

Submitter Number:	368	Submitter:	Ian McAlley
Point Number	368.19		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Add Show homes as a permitted activity in the Residential Zone		

	AND		
	Add a carpark requirement for show homes over and above that which applies to a standard residential dwelling such that two additional car park spaces be provided		
	AND		
	Add controls on signage for show homes in keeping with Rule 16.2.7.1 Signs permitted activity for real estate signs.		
Decision Reasons:		<ul style="list-style-type: none"> Show homes are residential in character and in a residential subdivision a show home will be on-sold as a residential dwelling once the subdivision sales are completed (if not before). So long as additional car parking is provided for staff and customers, with signage controlled to an appropriate level there appears to be no reason that show homes should require specific land use consent. 	

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.21		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Add a new activity to Rule 16.1.2 Permitted Activities as a permitted activity: <i>x. <u>Emergency services training and management activities.</u></i> AND Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand opposes the range of activities listed in 16.1.2 as permitted activities as there is no provision made for emergency services training and management activities. Fire and Emergency New Zealand seek the rule be expanded to provide for emergency services training and management activities in order to better achieve the sustainable management purpose of the Act and better enable Fire and Emergency New Zealand to achieve its statutory function by facilitating firefighting and emergency response. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.1		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Retain Rule 16.1.2 P10 Agricultural, horticultural and viticultural activities, except for the amendments sought below AND Add the following activity specific condition to Rule 16.1.2 P10 Agricultural, horticultural and viticultural activities: <i>(a) Must be within the Residential West Te Kawhata Area; or</i> <i>(b) Must be in the area around Tuakau being north of the Waikato River, west of State Highway One and east of the Tutaenui Stream.</i> AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports the provision of horticultural activities within the Te Kawhata Area. The provision of horticultural activities as permitted activities should be extended to include all existing horticultural activities. There is a significant amount of land in the Tuakau area that has been rezoned from Rural to Residential Zone and which is actively being cultivated. As outlined in Schedule One, these horticultural areas play a significant role in New Zealand's domestic food supply and it is critical they be protected and that cultivation they be protected and allowed to continue. The submitter strongly opposes the rezoning of these areas. 		

Submitter Number:	435	Submitter:	Jade Hyslop
Point Number	435.13		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Amend Home stay provisions in Rule 16.1.2 Permitted Activities, to provide for registration of Homestay or Visitor accommodation.		
Decision Reasons:	<ul style="list-style-type: none"> Raglan requires a plan similar to Queenstown to avoid more residential accommodation becoming available to only visitors. Since residents tend to move to and from surrounding country areas, the same policy needs to apply there. 		

Submitter Number:	445	Submitter:	Heather Perring
Organisation:	BTW Company		
Point Number	445.8		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Add a new activity to Rule 16.1.2 Permitted Activities to facilitate ease of residential building in new structure planned areas as follows: <i>P2 Residential or multi-unit development, in accordance with an approved structure plan created after 18 July 2018.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Developer led and Council led structure planning should be encouraged to reach up front agreements with local communities on the essential bulk and location standards to create developments suited to the location rather than a 'one size fits all' approach or ad hoc development. Provisions are needed to enable well planned multi-unit developments on smaller sites, rather than across a multiple owned structure planned area. 		

Submitter Number:	457	Submitter:	Anna Cunningham
Point Number	457.1		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Amend Rule 16.1.2 P4(b) Home occupation, by reinstating the condition in Rule 21.11 in the Operative Waikato District Plan that requires the storage of materials or machinery associated with the non-residential activity to not be visible from a public road or neighbouring residential property.		
Decision Reasons:	<ul style="list-style-type: none"> The proposed rule that requires materials or machinery to be stored within a building is very restrictive and not always possible. If the equipment is shielded from view by a fence (for example), no person is adversely affected. 		
Submitter Number:	466	Submitter:	Brendan Balle
Organisation:	Balle Bros Group Limited		
Point Number	466.4		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Amend Rule 16.1.2 P10 Permitted Activities to encompass all existing commercial vegetable production activities on land that has been rezoned residential/urban.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports commercial vegetable production being a Permitted Activity in the Residential West Te Kauwhata area, however, considers that this Permitted Activity status should be extended to encompass all areas of existing commercial vegetable production that has been rezoned residential. 		
Submitter Number:	471	Submitter:	Andrew Wood
Organisation:	CKL		
Point Number	471.35		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Amend Rule 16.1.2 P3 (a) Permitted Activities, to enable retirement villages on a site that has a net area less than 3ha or require resource consent at this scale. AND Any consequential amendments necessary.		
Decision Reasons:	<ul style="list-style-type: none"> There should be better use of standards for a permitted retirement village if that are to be a permitted activity. 		
Point Number	471.36		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Amend Rule 16.1.2 P4 (e) Permitted Activities, as follows: (e) Machinery may <u>only</u> be operated between 7.30am and 9pm on any day. AND Any consequential amendments necessary.		
Decision Reasons:	<ul style="list-style-type: none"> Insert text for clarification. 		
Point Number	471.37		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Amend Rule 16.1.3 RD1 (c) Restricted Discretionary Activities, so that the minimum net site area for multi-unit developments is reduced to 150m ² or 200m ² per residential unit based on average site area (rather than 300m ² per residential unit based on net site area). AND Any consequential amendments necessary.		
Decision Reasons:	<ul style="list-style-type: none"> A minimum average of 300m² net site area does not encourage intensification of infill sites, more so on greenfields land, which often is not inappropriate. There needs to be more alignment with minimum unit sizes in the subdivision standards for the Residential Zone. 		
Submitter Number:	496	Submitter:	Andrea Millar
Organisation:	The Department of Corrections		
Point Number	496.5		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Amend Rule 16.1.2 P7 Permitted Activities, to provided an exclusion for a community corrections activity as follows: <i>P7 Community activity –</i> <i>Activity Specific Conditions:</i> <i>Excluding a community correction activity; ##</i>		

AND

Any other consequential amendments required to give effect to this relief.

Decision Reasons:

- The submission is seeking community correction activities be a subset of community activities.
- This would result in community correction activities being permitted in the Residential Zone. This is not an appropriate outcome for the zone, as the activity has the potential to result in adverse effects on residential character and amenity.
- It is appropriate that any community corrections activity in the Residential Zone is subject to a resource consent application to assess the effects on the environment.

Submitter:

Ports of Auckland Limited

Point Number

578.27

Plan chapter

Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested

Amend Rule 16.1.2 P3 to remove retirement villages as a permitted activity within the Residential Zone.

AND

Amend Rule 16.1.3 Restricted Discretionary Activities, to include rules relating to new or altered retirement villages as follows:

RD2

A new retirement village or alterations to an existing retirement village that meets all of the following conditions:

(a) The Land Use – Effects rules in Rule 16.2, except that the following rules do not apply:

(i) Rule 16.2.7 (Signs);

(b) The Land Use – Buildings rules in Rule 16.3, except the following rules do not apply:

(i) Rule 16.3.1 (Dwelling);

(ii) Rule 16.3.3 (Building Height);

(iii) Rule 16.3.7 (Living Court);

(iv) Rule 16.3.8 (Service Court);

(c) The site or combination of sites where the retirement village is proposed to be located has a minimum net site area of 3ha;

(d) The site is either serviced by or within 400m walking distance of public transport;

(e) The site is connected to public water and wastewater infrastructure;

(f) Minimum living court or balcony area and dimensions:

(i) Apartment – 10m² area with minimum dimensions horizontal and vertical of 2.5m;

(ii) Studio unit or 1-bedroom unit – 12.5m² area with minimum dimension horizontal and vertical of 2.5m; or

(iii) 2 or more bedroomed unit – 15m² area with minimum dimension horizontal and vertical of 2.5m;

(g) Minimum service court is either:

(i) Apartment – Communal outdoor space (i.e. no individual service courts required); or

(ii) All other units – 10m² for each unit;

(f) Building height does not exceed 8m, except for 15% of the total building coverage, where buildings may be up to 10m high.

Council's discretion shall be restricted to the following matters:

(a) Density of the development;

(b) Adequacy of the information provided to address matters specified, and outcomes sought, within Sections 3, 4, 5 and 6 of Appendix XX (Multi-unit Design Guideline);

(c) Avoidance or mitigation of natural hazards;

(d) Geotechnical suitability for building;

(e) Amenity values and streetscapes;

(f) Avoidance of reverse sensitivity effects on industrial activities;

(g) Protection of noise sensitive activities from the effects of noise generated by industrial activities.

AND

Amend the Proposed District Plan to make alternative or consequential amendments as necessary to address the matters raised in the submission.

Decision Reasons:

- Concerned that the residential intensification that would be enabled through a retirement village has the potential to adversely affect the efficient operation of the Horotiu Industrial Park.
- Concerned that traffic generation associated with the permitted retirement villages will not be appropriately managed by the Proposed District Plan as they have unlimited density.
- Concerned that the density of permitted retirement villages will not be appropriately managed and therefore will not protect amenity of the receiving Residential Zone.
- Such an approach would be consistent with the approach taken by the Proposed District plan for 'Multi-unit' development and these are arguably smaller density and built form outcomes compared to that enabled for 'Retirement villages'.

Submitter Number: 596 **Submitter:** Raewyn Detmar

On behalf of: Pokeno Playcentre

Point Number 596.1

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested **Amend** Rule 16.1.2 Permitted Activities, to add a Childcare Facility as a Permitted Activity.

Decision Reasons:

- Supports a play centre being in close vicinity to residential homes.
- Does not support childcare centres being in amongst the commercial buildings as per the current rules.

Submitter Number: 607 **Submitter:** Stephanie Hooper

Point Number 607.1

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested **Amend** Rule 16.1.2 Permitted Activities by adding childcare facility as a permitted activity.

Decision Reasons:

- Pokeno Playcentre is due to lose its facility as Pokeno School is reclaiming the land for expansion.
- Early childcare education allows great benefits for preschools and families within the Pokeno community.
- The Plan permits that early childcare education is in the Business Zone only.
- Within the Business Zone adds further risk to children on the road during drop offs and pick up times.

Submitter Number: 617 **Submitter:** Nicole Falkner

Organisation: Pokeno Playcentre

Point Number 617.1

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested **Amend** Rule 16.1.2 Permitted Activities, by adding childcare facility as a permitted activity.

Decision Reasons:

- Early childcare education provides a large benefit to the young, growing community of Pokeno.
- Appropriate for early childcare education centres to be located in Residential Zone, close to where people reside.
- Will not have adverse effects on residential activities.
- Only zone permitting early childcare education centres is the Business Zone, however the area is limited resulting in dangerous pick ups/drop offs.
- Losing current site due to expansion of school.

Submitter Number: 689 **Submitter:** Greig Developments No 2 Limited

Point Number 689.2

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested **Delete** 16.1.2 P3 (a) and (b) Permitted Activities, relating to a new retirement village or alterations to an existing one.

Decision Reasons:

- There are many examples of retirement villages/facilities located on sites of less than 3 hectares.
- Retirement villages can range in their design including individual detached units, townhouses and apartment-style units in a multi-story building. A minimum site size of 3 hectares will add to urban sprawl rather than provide housing intensification close to existing town centers.
- Finding an area of land over 3 hectares in size in the Residential zone will be challenging, particularly within 400 meters of public transport (which does not exist in Waikato).

Point Number 689.3

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested **Add** a new activity to Rule 16.1.2 Permitted Activities as follows:

P13 Multi-unit development of up to three dwellings is a Permitted Activity

AND

Add similar standards to Rule 16.1.3 RD1 (including proposed amendments) as permitted activity standards to new Rule 16.1.2 P13

AND

Delete Rule 16.1.3(1)(RD1(c) Restricted Discretionary, which requires the minimum net site area per residential unit to be 300m2.

- Decision Reasons:**
- Multi-unit development of up to three dwellings should be a Permitted Activity. This will allow for infill development and avoid unnecessary Resource Consent costs and time delays where the effects could be managed through permitted standards.
 - The construction of up to three dwellings on a residential site is unlikely to result in adverse effects provided the relevant controls can be met.
 - The proposed addition to the permitted activity table will allow existing land to be developed more efficiently without the need to subdivide the land.
 - The rules does not promote higher densities or compact development and will add to urban sprawl rather than housing intensification.
 - Density should be appropriate to the physical attributes of the proposal.
 - There is no analysis in Section 32 regarding this relevance or practicality of this rule.

Decision Reasons:	<ul style="list-style-type: none"> • The correct term is "endorsed" rather than "approved". 		
Point Number	697.90		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 16.1.2 P3 (e)(i) Permitted Activities A new retirement village or alterations to an existing retirement village as follows:</p> <p>Minimum service court is either:</p> <p>(i) Apartment – Communal outdoor space (ie no individual service courts required <u>of at least 5m2 with a minimum dimension of 1.5 metres for each apartment.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • There is no minimum size for the communal service court which is required for a permitted activity standard. A 5m2 area for each apartment would be suitable for outdoor storage and washing lines. 		
Point Number	697.91		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 16.1.2 P3 (e)(ii) Permitted Activity A new retirement village or alterations to an existing retirement village as follows:</p> <p>(ii) All other units – 10m2 <u>with a minimum dimension of 1.5 metres for each unit.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • There is no minimum dimension for the service court. 		
Point Number	697.92		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	<p>Amend Rule 16.1.2 P4 (f) Permitted Activities Home occupation to read as follows:</p> <p><u>(f) For up to 4 people.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • A maximum number of people is required for clarity. 		
Point Number	697.93		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	<p>Delete Rule 16.1.2 P9 Activity Specific Condition (b) Permitted Activity Home stay activity specific condition (b).</p>		
Decision Reasons:	<ul style="list-style-type: none"> • The condition is not relevant to the activity. 		

Point Number 697.94

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested **Add** to Rule 16.1.2 Permitted Activity a new rule as follows:
P13 Childcare Facility
For up to 4 children that are not permanent residents at the home.

Decision Reasons:

- Childcare facilities for up to 4 children should be provided for in the residential zone.

Submitter Number: 732 **Submitter:** Lucy Smith

Organisation: Terra Firma Mining Ltd

Point Number 732.4

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested **Add** a new activity to Rule 16.1.2 Permitted Activities, for a community activity at Puketirini, to the list of permitted activities in the Residential Zone as follows:
Activity:
...
P* Community activity (Puketirini)
Activity-specific conditions:
...
(g) Must be within development at Puketirini

Decision Reasons:

- The submitter prefer that a broader definition of community activities applies to development at Puketirini to give more flexibility as to possible land uses.

Point Number 732.5

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested **Amend** Rule 16.1.2 P10 Agricultural, Horticultural and Viticultural Activities, to allow these activities to occur on the land requested to be rezoned to Residential prior to commencing housing development, by adding text as follows:
Activity:
...
P10 Agricultural, horticultural and viticultural activities
Activity-specific conditions:
...
(a) Must be within the Residential West Te Kauwhata Area Residential Puketirini Area prior commencement of development or within the commencement of development.

Decision Reasons:

- Current grazing activities should be able to continue for as long as possible but are to cease once residential development commences on the Puketirini block.

Point Number 732.6

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested **Add** a new activity to Rule 16.1.2 Permitted Activities for a commercial activity to the list of permitted activities as follows, provided that it is within the area at Puketirini which is requested to be rezoned Business or, alternatively, where a business overlay could apply:
Activity:
...
P* Commercial activity
Activity-specific conditions:
...
(g) Must be within the Puketirini Business Overlay

Decision Reasons:

- A business overlay, as an alternative to a Business Zone, will allow commercial activities to establish within the requested Puketirini residential development.

Submitter Number: 742 **Submitter:** Kim Harris-Cottle

Organisation: New Zealand Transport Agency

Point Number 742.120

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested **Delete** conditions (g) and (i) in Rule 16.1.2 P3 A new retirement village or alterations to an existing retirement village.
AND
Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- Signage and traffic generation matters should not be excluded from the conditions that apply to this activity.

Point Number 742.121

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested **Retain** Rule 16.1.2 P4 Home occupation, except for the amendments sought below

AND

Add to Rule 16.1.2 P4 Home occupation a new condition as follows:

(f) There are no heavy vehicle movements associated with the activity.

AND

Add a new Restricted Discretionary rule for home occupations not complying with 16.1.2 P4(f), with discretion restricted to the effects of heavy vehicle traffic on the safety and efficiency of the transport network.

AND

Request any consequential changes necessary to give effect to the relief sought in the submission.

Decision Reasons:

- Within the Residential Zone, home occupations should not involve heavy vehicles.

Point Number 742.122

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested **Retain** Rule 16.1.2 P5 Temporary event as notified.

Decision Reasons:

- The submitter supports no direct access from a national route or regional arterial road.
- Temporary events are subject to Rule 14.12.1.4 which would ensure that for events exceeding a certain size any effects on the transport network could be addressed.

Submitter Number: 746 **Submitter:** The Surveying Company

Point Number 746.28

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested **Add** a new activity to Rule 16.1.2- Permitted Activities to include multi-unit development of up to three dwellings as follows:

P13 Multi-unit development of up to three dwellings is a Permitted Activity

AND

Add similar activity specific standards to the new rule as Rule 16.1.3 RD1 (including the amendments sought)

Decision Reasons:

- Multi-unit development of up to three dwellings should be a Permitted Activity. This will allow for infill development and avoid unnecessary Resource Consent costs and time delays and effects could be managed through permitted standards.
- The construction of up to three dwellings on a residential site is unlikely to result in adverse effects provided the relevant controls can be met.
- The proposed addition to the permitted activity table will allow existing land to be developed more efficiently without the need to subdivide the land.

Submitter Number: 749 **Submitter:** Housing New Zealand Corporation

Point Number 749.79

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested **Add** a new activity to Rule 16.1.2 Permitted Activities by adding an activity and activity-specific condition as follows:

P13. Boarding House

Activity Specific condition:

(g) No more than 10 people per site inclusive of staff and residents.

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- The submitter generally supports the permitted activities listed in 16.1.2; however, notes that there is no activity for boarding houses / boarding establishments included in the table.

Submitter Number: 751 **Submitter:** Chanel Hargrave and Travis Miller

Point Number 751.3

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested **Add** a new permitted activity to Rule 16.1.2 Permitted Activities as follows:

"P13 Multi-unit development of up to three dwellings is a Permitted Activity,"

with similar standards as Rule 16.1.3 RD1 (including proposed amendments as permitted applied as permitted activity standards).

Decision Reasons:

- Multi-unit development of up to three dwellings should be a permitted activity and will enable infill development and avoid unnecessary resource consent costs and time delays where effects could be managed through permitted standards.
- Construction of up to three dwellings is unlikely to result in adverse effects provided the relevant controls can be met.

- Will allow existing land to be developed more efficiently without the need to subdivide the land.

Submitter Number:	780	Submitter:	John Lawson (Whaingaroa Environmental Defence Incorpora
On behalf of:	Whaingaroa Environmental Defence Incorporated Society		
Point Number	780.22		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Amend Rule 16.1.2 P9 Permitted Activities to provide for the registration of Homestay or Visitor accommodation.		
Decision Reasons:	<ul style="list-style-type: none"> • Raglan needs a plan similar to that of Queenstown to avoid more residential accommodation becoming available only to visitors. As residents tend to move to and from the surrounding country areas, the same policy needs to apply there. Queenstown has rules requiring registration as a Homestay, or a Holiday Home and, for larger properties, resource consent for change of use. Raglan needs similar rules. 		

Submitter Number:	788	Submitter:	Susan Hall
Point Number	788.3		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Retain Rule 16.1.2 P9 (a) Permitted Activities as notified, except for the amendments sought below. AND Amend Rule 16.1.2 P9 Permitted Activities for homestays, to be more regulated in Raglan, all homestays and holiday house accommodation to be registered with Council, and to prohibit new owners of existing houses or newly built houses from offering homestay accommodation or holiday rentals, unless they live onsite at the time of guests staying.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter agrees with having no more than four temporary residents. • The submitters had spoken with Waikato District Council regarding at least two residentially zoned properties having 15 or more short-term guests per night. However, the submitters were told that Council could investigate the complaints but not enter a property, nor had they any means to enforce the more than four persons per night rule. The submitters were told to bring this up at the next District Plan Review, hence this submission. • Most 'Airbnb' and 'bookabach' listings in Raglan allow over five people to stay per night. It should be simple to regulate this as all of these are non-complying activities are listed online. • This would allow the rules to be explained and therefore allow the Council to enforce these rules. • As it is important for commercial businesses to have fire service and building warrants checked every year, it should be important for property owners running similar businesses out of residentially zoned properties. • Raglan has a severe housing shortage for long-term tenants, but this can be helped by regulating the use of holiday houses, similar to what is done in Canada, European cities like Berlin, and other holiday towns in New Zealand like Queenstown. • It would be easier to ban the use of new houses or new ownership from short-term rental use than retrospectively introducing this to those already relying on the income (as long as these existing house stick to the under five-person rule.) • It should be possible for neighbours to complain if guest numbers and/or noise gets out of hand in a country living property as well. 		

Submitter Number:	825	Submitter:	John Lawson
Point Number	825.22		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Amend Rule 16.1.2 P9 Permitted Activities to provide for the registration of Homestay or Visitor accommodation.		
Decision Reasons:	<ul style="list-style-type: none"> • Raglan needs a plan similar to that of Queenstown to avoid more residential accommodation becoming available only to visitors. As residents tend to move to and from the surrounding country areas, the same policy needs to apply there. Queenstown has rules requiring registration as a Homestay, or a Holiday Home and, for larger properties, resource consent for change of use. Raglan needs similar rules.

Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Amend Rule 16.1.2 P3(b) Permitted Activities to clarify if a village cannot be built if there is not public transport available.		
Decision Reasons:	<ul style="list-style-type: none"> Clarification is required. 		
Point Number	942.76		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Clarify Rule 16.1.2 P9 Permitted Activities by identifying how many homes are occupied by residents and how many are reserved for homestay accommodation. AND No specific decision sought, but the submitter supports priority being given to building homes in Residential Zones for residents with respect to Rule 16.1.2 P9 Permitted Activities.		
Decision Reasons:	<ul style="list-style-type: none"> Many long term residents have moved to Hamilton as land and homes that are available for renting have become scarce at realistic and affordable prices. 		

Submitter Number:	943	Submitter:	McCracken Surveys Limited
Point Number	943.34		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Retain A new retirement village as a permitted activity in Rule 16.1.2 P3 Permitted Activities.		
Decision Reasons:	<ul style="list-style-type: none"> No specific reason provided. 		
Point Number	943.35		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	Add an explicit exception to Rule 16.1.2 P3(a) - A new retirement village or alterations to an existing retirement village, (a), to add an explicit exception to allow smaller development without a minimum area to support development in Raglan.		
Decision Reasons:	<ul style="list-style-type: none"> The 3 Ha minimum site area is not appropriate for Raglan contour. No apparent reason to apply a minimum in the Residential Zone in Raglan. Lack of existing near level land may require two storey structures in Raglan. 		

Submitter Number:	946	Submitter:	Dee Bond
Point Number	946.10		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities		
Summary of Decision Requested	No specific decision sought, but submission states that Rule 16.1.2 P5 hours of Temporary Events, precludes multi-day wedding functions, that are normal in some cultures, after 8:30pm at night.		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Point Number 946.11

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested No specific decision sought, but submission considers Rule 16.1.2 P9 Homestay limits to 4 temporary residents should be driven by the size of the property for carparking and number of bedrooms.

Decision Reasons:

- No reasons provided.

Point Number 946.9

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.2 Permitted Activities

Summary of Decision Requested **Amend** Rule 16.1.2 P4(c) Home occupation, to be limited to 2 persons multiplied by the number of bedrooms.

Decision Reasons:

- Submitter does not think that the maximum number (2 persons) as notified, allows for a small business to be run from home and grow.
- Two people is an arbitrary number for which there is no logical basis.
- Submitter runs a business from home and has more than two.
- As long as there is adequate parking and sufficient toilets, the maximum number should not matter.
- Two people in total is too few.

Plan chapter: Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities

Submitter Number: 81 **Submitter:** Waikato Regional Council

Point Number 81.149

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities

Summary of Decision Requested **Add** to Rule 16.1.3 RD 1 A Multi-Unit development a new condition as follows:
The development is either serviced by or within 400m walking distance of public transport.

Decision Reasons:

- The submitter supports the provision and considers that it will assist to some degree with the achievement of Objective 4.2.16 Staging options and Policies 2.2.17 Housing types and 4.2.18 Multi-unit development, however considers that there should be an incentive in the rule, similar to Rule 16.1.2 Permitted Activities - P3 to encourage this type of development to locate within 400 metres walking distance of public transport.
- This would assist with giving effect to the WRPS' direction in Policies 6.1, 6.3 and Section 6A Development Principles.

Submitter Number: 123 **Submitter:** Libby Gosling

Organisation: Classic Builders Waikato Limited

Point Number 123.3

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities

Summary of Decision Requested **Delete** Rule 16.1.3 RD1 (c) Restricted Discretionary Activities, which requires a minimum net site area of 300m2 for multi-unit development
OR
Amend Rule 16.1.3 RD1 (c) Restricted Discretionary Activities to reduce the minimum net site area to less than 300m2 for each unit for multi-unit development.

Decision Reasons:

- Council already has discretion without being fixed on a specific value (e.g. 600m2 for a duplex). In Hamilton, the requirement for a duplex is 400m2.

Submitter Number: 244 **Submitter:** Garth and Sandra Ellmers

Point Number 244.4

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities

Summary of Decision Requested **Amend** Rule 16.1.3 RD1 (c) Restricted Discretionary Activities, to decrease the minimum site area required for duplexes to 200m2.

Decision Reasons:

- The minimum net side area of 300m2 for a duplex residential unit of land is too large.
- The trend for new developments in Australia is for smaller residential and duplex lot sizes.
- The average age in most western countries is steadily rising.
- More people live alone and most do not want large lots and can often not afford to maintain them.
- People are busy and most do not want to spend time maintaining gardens and land, especially if they do not use them.
- The trend in Australia for small homes and duplexes is to have a small outdoor dining at the rear of their dwelling.
- Smaller lot sizes are very popular and very common in Australia, are most attractive once developed and allow development that is more intensive closer to cities.
- The small lots offer a lower cost entry level for sole home occupants or couples, which is they are so popular.
- Housing is fast becoming unaffordable for many people
- Making it possible for single people and couples to live in a new, modern, private, well designed, small home should be the aim of all councils as it would fill a desperate need and provide suitable dwellings for a large number of people who would otherwise not be able to afford them
- A well-planned duplex home on a small lot is preferable to living in an apartment.

Point Number	244.5
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities
Summary of Decision Requested	Amend Rule 16.1.3 RDI (e) Restricted Discretionary Activities, to increase the maximum site coverage to 60%.
Decision Reasons:	<ul style="list-style-type: none"> To allow for homes and duplexes to be built on smaller lots 300m2 minimum is not required for small duplexes Site coverage would need to be increased to 60% to allow for a reasonably sized home with 2 bedrooms and a garage on a 200m2-250m2 duplex site.
Point Number	244.6
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities
Summary of Decision Requested	Amend Rule 16.1.3 RDI (h) Restricted Discretionary Activities, to reduce the minimum living court area for studios and 1 bedroom units to 20m.
Decision Reasons:	<ul style="list-style-type: none"> The trend is heading towards smaller lots and homes Most people, especially the elderly do not require or want to maintain large outdoor living areas and can purchase larger lots if they do There must be provision for those who do not want large sections or cannot afford or maintain large dwellings and sections There is no need to have such a large living court area imposed, especially when most small dwellings and apartments are only occupied by 1-2 people
Point Number	244.7
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities
Summary of Decision Requested	Amend Rule 16.1.3 RDI (h) Restricted Discretionary Activities, to reduce the minimum living court area for 2 bedroom units to 25m2.
Decision Reasons:	<ul style="list-style-type: none"> The trend is heading towards smaller lots and homes Most people, especially the elderly do not require or want to maintain large outdoor living areas and can purchase larger lots if they do There must be provision for those who do not want large sections or cannot afford or maintain large dwellings and sections There is no need to have such a large living court area imposed, especially when most small dwellings and apartments are only occupied by 1-2 people.
Point Number	244.8
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities
Summary of Decision Requested	Amend Rule 16.1.3 RDI Restricted Discretionary Activities, to reduce first level and second level apartment minimum living court areas to 6m2.
Decision Reasons:	<ul style="list-style-type: none"> There is a need to recognise that the trend and requirement is for dwellings Most people, especially the elderly do not require or want to maintain large outdoor living areas and can purchase larger lots if they do There must be provision for those who do not want large sections or cannot afford or maintain large dwellings and sections There is no need to have such a large living court area imposed, especially when most small dwellings and apartments are only occupied by 1-2 people In apartment complexes, due to the close proximity between neighbors it is not desirable to have large outdoor living areas especially on upper levels as it can be dangerous (especially for elderly occupants) can create a noise problem for adjoining residents if too many people socialize on the lower and/or upper balconies Small apartments do not require large living court areas so they should be reduced to provide for those who do not require them Market forces dictate and people should have a choice.

Submitter Number:	368	Submitter:	Ian McAlley
Point Number	368.20		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities		
Summary of Decision Requested	Retain Rule 16.1.3 Restricted Discretionary Activities, as notified AND Add rules for multi unit development to enable it in all residential areas of the District where connection is available, or will be available to reticulated services.		
Decision Reasons:	<ul style="list-style-type: none"> The active provision of multi unit development assists in enabling different development densities, assists in providing a variety of housing types and achieving the required densities of development as per the Waikato Regional Policy Statement. 		

Submitter Number:	372	Submitter:	Steve van Kampen
Organisation:	Auckland Council		
Point Number	372.16		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities		
Summary of Decision Requested	Amend Rule 16.1.3 Restricted Discretionary activities, as it relates to Pokeno and Tuakau as follows: A Multi-Unit development that meets all of the following conditions: (a) The Land Use – Effects rules in Rule 16.2; (b) The Land Use – Building rules in Rule 16.3, except the following rules do not apply:		

- (i) Rule 16.3.1, Dwelling;
- (ii) Rule 16.3.8 Building coverage;
- (iii) Rule 16.3.9 Living court;
- (iv) Rule 16.3.10 Service court;
- ~~(e) The minimum net site area per residential unit is 300m²;~~
- (d) The Multi-Unit development is connected to public wastewater and water reticulation.....

OR

Add an alternative residential zone for Pokeno and Tuakau which provides for terraced housing.

Decision Reasons:

- Growth can be accommodated within Pokeno and Tuakau through expanding the urban areas or through enabling greater densities within existing urban areas. The proposed plan seeks to accommodate growth within Tuakau and Pokeno through increasing the urban footprints of these towns.
- Within the proposed Residential zone there are provisions for multiunit development, however each unit must have a minimum net site area of 300m². The minimum site area for vacant lot subdivision is 450m². The proposed rules within the residential zone will not provide for intensification of the existing urban area nor will they result in a range of housing typologies that facilitate housing choice.
- The proposed rezoning of rural land for urban development and the zone rules will generate further urban sprawl on land and will result in a loss of prime soil. Furthermore, the lack of variety in housing typologies facilitated within the Residential and Village zones will result in a lack of housing choice to cater for a variety of incomes in and around Tuakau and Pokeno.
- Higher minimum densities than those proposed are more appropriate for established residential areas immediately adjacent to the Business Town Centre zones. Higher residential densities around this zone would better support public transport and other infrastructure, the commercial vitality of the town centre and promote people living, working and playing in their local town centres.
- The provision of other bulk and location requirements, site coverage and the assessment criteria included for this type of activity are sufficient enough to address the likely impacts on amenity and residential character, whilst encouraging alternative types of housing design and delivering on the typology enabled by these provisions.
- An alternative to the above is to enable a new zone to be included within established residential areas, such as within walking distance from existing Business Town Centre zoned areas. This could be a more dense residential zone, or one that enables slightly increased building envelopes to enable in-fill and additional residential development to occur close to town centres.

Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities		
Summary of Decision Requested	<p>Add a new activity to Rule 16.1.3 as a Restricted Discretionary Activity:</p> <p><u>(j) Emergency service facilities.</u></p> <p>AND</p> <p>Amend the Proposed District Plan to make further or consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Fire and Emergency New Zealand opposes Rule 16.1.3 to the extent that no provision is made for emergency services facilities. As provision is not made under this rule, emergency service facilities would instead default to non-complying activities under Rule 16.1.5. • Fire and Emergency New Zealand considers the default non-complying activity status is overly restrictive and inappropriate and therefore seek the inclusion of emergency service facilities as a restricted discretionary activity to provide for emergency services in the Residential Zone for the following reasons: <ul style="list-style-type: none"> 1. Fire stations must be strategically located within and throughout communities to maximize their coverage and response times so that they can efficiently and effectively provide for health and safety of people and communities by being able to respond to emergency call outs in a timely way, thus avoiding or mitigating the potential for adverse effects associate with fire hazard and other emergencies; 2. The actual or potential effects of fire stations are minor and can be adequately predicted and subsequently managed by conditions of consent and subsequent matters for control; 3. Restricted Discretionary activity status will better implement the Objectives and Policies of the Proposed District Plan. 4. Restricted Discretionary activity status better achieves the purpose of the RMA and better enables the submitter to meet its statutory obligations. 		

Submitter Number:	445	Submitter:	Heather Perring
Organisation:	BTW Company		
Point Number	445.9		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities		
Summary of Decision Requested	<p>Amend Rule 16.1.3 Restricted Discretionary Activities, by deleting RD1 (a multi-unit development) and consequently creating a new controlled activity rule for multi-unit development.</p>		
Decision Reasons:	<ul style="list-style-type: none"> • Developer led and Council led structure planning should be encouraged to reach up front agreements with local communities on the essential bulk and location standards to create developments suited to the location rather than a 'one size fits all' approach or ad hoc development. Provisions are needed to enable well planned multi-unit developments on smaller sites, rather than across a multiple owned structure planned area. 		

Submitter Number:	464	Submitter:	Perry Group Limited
Point Number	464.15		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities		
Summary of Decision Requested	<p>Amend Rule 16.1.3 RD1 (b) Restricted Discretionary Activities, to correct the cross-referencing as follows:</p> <p>(ii) 16.3.8 <u>16.3.6</u></p> <p>(iii) 16.3.9 <u>16.3.7</u></p> <p>(iv) 16.3.10 <u>16.3.8</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Correcting cross referencing error. • The matter should be assessed as part of Council's restricted discretion for a Restricted Discretionary Activity application. • To reflect previous submission points, as a consequential amendment. The amendment retains these matters as a specific matter of restricted discretion under RD1. • To reflect correct cross referencing. 		

Point Number	464.19
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities
Summary of Decision Requested	<p>Amend Rule 16.1.3 RD1 Restricted Discretionary Activities, to specify that any application for a resource consent for a Multi-Unit development made under this rule shall not be notified or served on affected persons.</p> <p>AND</p> <p>Any consequential amendments or further relief to address the concerns raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> The proposed amendment provides certainty and efficiency in terms of process. Council's matters of restricted discretion and compliance with land use effects under Rule 16.2 adequately address matters of adverse effects at external boundaries.
Point Number	464.8
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities
Summary of Decision Requested	<p>Delete the minimum lot size from Rule 16.1.3 RD1 (c) Restricted Discretionary Activities</p> <p>AND</p> <p>Add a matter of discretion to Rule 16.1.3 RD1 Restricted Discretionary Activities, to address lot size</p> <p>AND</p> <p>Delete the minimum living court areas and dimensions from Rule 16.1.3 RD1 (h) Restricted Discretionary Activities.</p> <p>AND</p> <p>Add a matter of discretion to Rule 16.1.3 RD1 Restricted Discretionary Activities, to address living court areas and dimensions.</p> <p>AND</p> <p>Amend Rule 16.1.4 D3 Discretionary Activities as follows:</p> <p><i>Any Multi-unit development that does not comply with Rule 16.1.3 RD1 <u>except for Rules 16.1.3 RD1 (c) and (h)</u>.</i></p> <p>AND</p> <p>Any consequential amendments or further relief to address the concerns raised in the submission.</p>
Decision Reasons:	<ul style="list-style-type: none"> The requirement per unit and living court areas should be based on specific design considerations for a Multi-Unit development rather than a nominal area. The matter should be assessed as part of Council's restricted discretion for a Restricted Discretionary Activity application. To reflect previous submission points, as a consequential amendment. The amendment retains these matters as a specific matter of restricted discretion under RD1. To reflect correct cross referencing.

Submitter Number:	578	Submitter:	Ports of Auckland Limited
Point Number	578.28		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities		
Summary of Decision Requested	<p>Add matters of discretion to Rule 16.1.3RD1 to give consideration of reverse sensitivity effects as follows:</p> <p><i>(a) Density of the development;</i></p> <p>...</p> <p><i>(j) Provision of infrastructure to individual units,</i></p> <p><i>(k) Avoidance of reverse sensitivity effects on industrial activities;</i></p> <p><i>(l) Protection of noise sensitive activities from the effects of noise generated by industrial activities.</i></p> <p>AND</p> <p>Amend the Proposed District Plan to make alternative or consequential amendments as necessary to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> FutureProof recognises that residential development in this area needs to be carefully considered. There is a risk that significant residential intensification of the type that would be enabled by the Proposed District Plan would implicate the efficient operation of the Horotiu Industrial Park. If multi-unit housing development rule is retained, it is critical to ensure that the Horotiu Industrial Park is not adversely affected by considering reverse sensitivity effects. 		

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.4		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities		
Summary of Decision Requested	<p>Retain Rule 16.1.3 Restricted Discretionary Activities, except for the amendments sought below</p> <p>AND</p> <p>Amend Rule 16.1.3 RD1(c) Restricted Discretionary Activities as follows:</p> <p><i>(c) The minimum net site area per residential unit is 300200m².</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> Rule 16.1.3 provides clear guidance for increasing residential density and infill development. The area requirement for multi-unit developments needs to be reduced to 200m² for each dwelling unit, as such an area will allow for efficient residential intensification without the need for a more onerous development assessment. Whilst many residential properties will be constrained in obtaining a 200m² net site area, a satisfactory urban design can be achieved on smaller allotments. 		

Submitter Number:	695	Submitter:	Sharp Planning Solutions Ltd
--------------------------	-----	-------------------	------------------------------

Point Number	695.83
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities
Summary of Decision Requested	Amend Rule 16.1.3 RDI (h) Restricted Discretionary Activities so that an additional 10m ² per bedroom be required for outdoor living space for 3 bedrooms or more, and that the 4m dimension be reduced to 3m.
Decision Reasons:	<ul style="list-style-type: none"> The Council should be aiming for regional consistency . There is no obvious need for such wide variations to occur. The minimum dimensions in the Proposed District Plan are difficult to achieve, particularly on many narrow sites that occur in the District. This requirement is 60% greater than that for Hamilton City (included in the submission), with no logical explanation for such a great difference. The area requirement is supported in principle, there seem to be more practical consideration that Hamilton has applied, however again there appears to be no reason for either Council, to vary as much as 300% in one example.

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.328		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities		
Summary of Decision Requested	Amend Rule 16.1.3 Restricted Discretionary Activities, to clarify the number of units that can be built based on the 300m ² net site area per residential unit.		
Decision Reasons:	To provide additional clarification to the multi-unit development rules where it applies to duplexes, Unit Titles developments and town house developments (standard 1 dwelling per site).		
Point Number	697.95		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities		
Summary of Decision Requested	Amend Rule 16.1.3 Restricted Discretionary Activities table heading into read as follows: The Council's discretion shall be limited to the following matters: <u>Matters of Discretion</u>		
Decision Reasons:	<ul style="list-style-type: none"> Alignment with other zone chapters. 		
Point Number	697.96		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities		
Summary of Decision Requested	Add a new condition to Rule 16.1.3 RDI Restricted Discretionary as follows: <u>A detailed site plan depicting the proposed record of title boundaries for each residential unit and any common areas (including access and services must be provided, ensuring that a freehold (fee simple or unit title subdivision complied with rule 16.4.4 (Subdivision – Multi-unit development));</u>		
	AND		
	Add a new rule to Rule 16.1.3 as follows: <u>(d) where units or apartments are being proposed, the following minimum unit areas apply:</u>		
	<u>Unit of Multi-Unit</u>	<u>Minimum Unit Area</u>	
	<u>Studio unit or 1 bedroom unit</u>	<u>60m²</u>	
	<u>2 bedroom unit</u>	<u>80m²</u>	
	<u>3 or more bedroom unit</u>	<u>100m²</u>	
Decision Reasons:	<ul style="list-style-type: none"> To set a density standard that would determine the number of units that could be built on a site and to ensure that each residential unit is contained within an area that would enable subdivision. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.123		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities		
Summary of Decision Requested	Add to Rule 16.1.3 RDI A multi-unit development that meets all of the following conditions new matters of discretion as follows. <u>(k) On-site parking and manoeuvring;</u> <u>(l) Safety and efficiency of the land transport network</u> <u>(m) Provision for multi-modal transport</u>		
	AND		
	Request any consequential changes necessary to give effect to the relief sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The potential adverse effects on the transport network from multi-unit developments should be considered. 		

Submitter Number:	746	Submitter:	The Surveying Company
Point Number	746.29		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities		
Summary of Decision Requested	Amend Rule 16.1.3 RDI (c) Restricted Discretionary Activities for Multi-unit development as follows:		

The minimum net site area per residential unit is ~~300m²~~ 250m²;

AND

Amend Rule 16.1.3 RD1 condition (e) Restricted Discretionary Activities (Multi-unit development) as follows:

Total Building coverage of the site does not exceed ~~50%~~ 60%

Decision Reasons:

- The submitter supports the provision for multi-unit housing as it gives effect to the strategic direction outlined in Section A and Chapter B 4.1. The provision supports variety in the future housing stock to help achieve policies 4.1.2, 4.1.5, 4.2.16 and 4.2.17. Multi-unit development of up to three dwellings should be a Permitted Activity. This will allow for infill development and avoid unnecessary Resource Consent costs and time delays where and effects can be managed through permitted standards.
- While the policy directive support variety in housing types the provisions of the Plan encourage typical suburban form rather than enabling medium density development.

Point Number

746.30

Plan chapter

Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities

Summary of Decision Requested

Amend Rule 16.1.3 RD1 Restricted Discretionary Activities to provide for low rise apartments close to town centres as follows

Where multi-unit apartments are proposed apply conditions in 17.1.3 RD1

Decision Reasons:

- This will enable the directive in Policy 4.2.17(a) Housing types.
- There are a number of larger (1000m²) sections within the older existing residential areas in both Tuakau, Te Kauwhata, Ngaruawahia and Poke no. These areas are often close to the Town Centre. Intensification of these sites should be encouraged given their proximity to existing services. These sites could accommodate low-rise apartments and multi-unit development to achieve the policy directives of the Proposed Plan.
- While the policy directive support variety in housing types the provisions of the Proposed Plan encourage a typical suburban form rather than enabling medium density development.

Plan chapter

Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities

Summary of Decision Requested

Amend Rule 16.1.3 RD1 Restricted Discretionary Activities as follows:

Activity

A Multi-Unit development that meets all of the following conditions:

- a. The Land Use – Effects rules in Rule 16.2;
- b. The Land Use – Building rules in Rule 16.3, except the following rules do not apply:
 - i. Rule 16.3.1, Dwelling;
 - ii. Rule 16.3.8 Building coverage;
 - iii. Rule 16.3.9 Living court;
 - iv. Rule 16.3.10 Service court;
 - v. Rule 16.3.3 Height; and
 - vi. Rule 16.3.5 Daylight admission.
- c. ~~The minimum net site area per residential unit is 300m²;~~
- d. The Multi-Unit development is connected to public wastewater and water reticulation;
- e. Total building coverage of the site does not exceed 50%;
- f. ~~Each residential unit is designed and constructed to achieve the internal design sound level specified in Appendix 1 (Acoustic Insulation) – Table 14;~~
- g. Service court areas are provided to meet the following minimum requirements for each residential unit:
 - i. At least 2.25m² with a minimum dimension of 1.5 metres of outdoor or indoor space at ground floor level for the dedicated storage of waste and recycling bins;
 - ii. (ii) At least 3m² with a minimum dimension of 1.5 metres of outdoor space at ground floor level for washing lines; and
 - iii. (iii) The required spaces in (g)(i) or (g)(ii) for each residential unit shall be provided individually, or as a dedicated communal service court.

(h) ~~Living court~~ Outdoor Living Space areas are provided to meet the following minimum requirements for each residential unit:

Duplex dwelling

Area Minimum dimension

Studio unit or 1 bedroom ~~30m²~~ 16m² 4m

2 or more bedrooms ~~40m²~~ 30m² 4m

Apartment Building Ground Level Residential Unit

Area Minimum dimension Building

Studio unit or bedroom 1 ~~20m²~~ 16m² 4m

2 or more bedrooms 30m² 4m

Apartment Building Upper Level Residential Unit

Area Minimum dimension Building

Studio unit or 1 bedroom 10m² ~~2m~~ 1.5m

2 or more bedrooms 15m² ~~2m~~ 1.5m

(i) ~~The maximum height of any building must not exceed 11m in height.~~

(j) ~~Buildings must not project beyond a 45 degree recession plan measured from a point 3m vertically above ground level along side and rear boundaries.~~

(k) ~~Where the boundary forms part of a legal right of way, entrance strip or access site, the standard applies from the farthest boundary of that legal right of way, entrance strip or access site.~~

(l) ~~This standard does not apply to existing or proposed internal boundaries within a site.~~

(m) ~~Add Alternative Height in relation to Boundary controls as prescribed in the Auckland Unitary Plan, Rule H6.6.7 Alternative height in relation to boundary.~~

Council's discretion shall be restricted to any of the following matters:

- a. ~~Density/Intensity~~ of the development;
- b. ~~The manner in which the provisions of the Multi-Unit Design contained in Appendix 2.4 have been incorporated;~~
- c. Contribution of the development to and engagement with adjacent streets and public open space;
- d. ~~The visual quality and interest created through design such as the separation of buildings, variety in built form and architectural detailing, glazing, materials and colour;~~
- e. The incorporation of ~~energy efficiency measures such as~~ passive solar principles;
- f. Amenity values for occupants and neighbours in respect of outlook, privacy, noise, light spill, access to sunlight, living court orientation, ~~site design and layout;~~
- g. Staging needed to ensure that development is carried out in a coordinated and timely manner;
- h. Avoidance or mitigation of natural hazards
- i. Geotechnical suitability for building;
- j. Provision of infrastructure to individual units,
- k. AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- The submitter generally supports, and seeks amendments to Activity RD1, Multi-unit development.
- A minimum density requirement for multi-unit development is not required and seeks a deletion of such rule in the Proposed WDP.
- The bulk, location, site coverage and assessment criteria sufficiently address the likely impacts on amenity values while providing for a range of housing typologies.
- The submitter seeks a maximum height of 11m to enable multi-unit development up to 3 storeys in height.
- The submitter seeks the deletion of the multi-unit development urban design guidelines from the Proposed District Plan (reasons outlined later in this submission), including any reference to such guidelines in a rule or policy approach.

Submitter Number:	751	Submitter:	Chanel Hargrave and Travis Miller
Point Number	751.4		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities		
Summary of Decision Requested	<p>Retain Rule 16.1.3 RD 1 Restricted Discretionary Activities except for the amendments sought below.</p> <p>AND</p> <p>Amend Rule 16.1.3RD1 Restricted Discretionary Activities as follows:</p> <p><i>A Multi-Unit development that meets all of the following conditions:</i></p> <p>....</p> <p>(c) <i>The minimum net site area per residential unit is 300250m²;</i></p> <p>....</p> <p>(e) <i>Total building coverage of the site does not exceed 5060%;</i></p> <p>....</p> <p><u>Where multi-unit apartments are proposed apply conditions in 17.1.3 RD1.</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Supports the provision for multi unit housing as it gives effect to the strategic direction outlined in Section A and Chapter B.4.1. • Achieves policies 4.1.2, 4.1.5, 4.2.16 and 4.2.17 • Will allow for infill development and avoid unnecessary resource consent costs and delays where effects can be managed by standards. • Provision should also be made for low rise apartments close to the centre and support Policy 4.2.17(a). • There are a number of large sections within the older existing residential areas in Tuakau, Te Kauwhata, Ngaruawahia and Pokeno. These sites are close to the Town Centre and could accommodate low-rise apartments and multi-unit developments. • The provisions of the Plan encourage a typical suburban form rather than medium density development. • The minimum net site area does not support diversity in building types. • The building coverage should be increased. 		

Submitter Number:	781	Submitter:	Ministry of Education
Point Number	781.10		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities		
Summary of Decision Requested	<p>Add a new activity for Education Facilities in Rule 16.1.3 Restricted Discretionary Activities as follows:</p> <p>Activity</p> <p><u>RD2 Education Facilities</u></p> <p>Council's discretion shall be restricted to the following matters:</p> <ul style="list-style-type: none"> a. <u>The extent to which the location, bulk, scale and built form of building(s) impacts on natural, ecological, landscape and/or historic heritage values.</u> b. <u>The extent to which the activity may adversely impact on the transport network.</u> c. <u>Ability to soften the visual impact of buildings from adjoining residential properties.</u> d. <u>The extent to which the activity may adversely impact on the streetscape.</u> e. <u>The extent to which the activity may adversely impact on the noise environment.</u> 		
Decision Reasons:	<ul style="list-style-type: none"> • Education facilities are not listed in the Residential Zone and are therefore a non-complying activity in terms of Rule 16.1.5. However, the majority of education facilities including community education, early childhood education, tertiary education institutions, work skills training centres, outdoor education centres and sports training establishments located within residential areas are essential social infrastructure that supports these areas. 		

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.145		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.3 Restricted Discretionary Activities		
Summary of Decision Requested	Retain Rule 16.1.3 RD1- A Multi-Unit Development as notified.		
Decision Reasons:	<ul style="list-style-type: none"> • Submitter supports the encouragement as drafter for multi-unit development in the residential zone to be located within 400m walking distance of public transport. • Compact urban forms that are well connected to community and commercial facilities are to be encouraged, given the public health and well-being benefits that accrue.

Summary of Decision Requested	Retain Rule 16.1.4 D1 Discretionary Activities, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports Council having full discretion over activities that do not comply with permitted activity standards. 		

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.81		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.4 Discretionary Activities		
Summary of Decision Requested	Delete Rule 16.1.4 D2; AND Add a new activity to Rule 16.1.3 RD and matters of discretion as follows: <i>RD2. Any permitted activity that does not comply with the Land Use - Effects Rule 16.2 or Land Use - Building Rule 16.3 unless the activity status is specified as controlled, restricted discretionary or non-complying.</i> <u>Matters of discretion:</u> <i>(a) Intensity of the development;</i> <i>(b) Contribution of the development to and engagement with adjacent streets and public open space;</i> <i>(c) The incorporation of passive solar principles;</i> <i>(d) Amenity values for occupants and neighbours in respect of outlook, privacy, noise, light spill, access to sunlight, living court orientation, site design and layout;</i> <i>(e) Avoidance or mitigation of natural hazards;</i> <i>(f) Geotechnical suitability for building; and</i> <i>(g) Provision of infrastructure.</i>		
Decision Reasons:	AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary. <ul style="list-style-type: none"> The submitter opposes the activity (D2) and seeks it be a restricted discretionary activity with matters of discretion included. 		

Submitter Number:	943	Submitter:	McCracken Surveys Limited
Point Number	943.45		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.4 Discretionary Activities		
Summary of Decision Requested	Amend Rule 16.1.4 Discretionary Activities to reflect where a permitted or restricted discretionary performance standard is failed it should remain restricted discretionary to the failed performance standard. AND No specific relief sought, but submission considers the approach of the Proposed District Plan cascading to a discretionary activity upon non-compliance with a permitted standard has negative and unnecessary implication for increased application cost.		
Decision Reasons:	<ul style="list-style-type: none"> The widening to full discretionary is not warranted. 		

Plan chapter: Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.5 Non-complying Activities

Submitter Number:	588	Submitter:	Peter Buchan
Organisation:	Woolworths NZ Ltd		

Point Number	588.56
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.5 Non-complying Activities
Summary of Decision Requested	Retain Rule 16.1.5 Non-complying Activities, insofar as supermarkets are more appropriately accommodated in zones that provide principally for commercial activities.
Decision Reasons:	<ul style="list-style-type: none"> Supports the non-complying activity status for supermarkets within the Residential Zone as it will suitably assess the activity under section 104D of the Act and this approach is generally consistent with other plans in the region.

Submitter Number:	749	Submitter:	Housing New Zealand Corporation
Point Number	749.82		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.1 Land Use - Activities > 16.1.5 Non-complying Activities		
Summary of Decision Requested	Delete Rule 16.1.5 NC1 Non-complying Activities. AND Add a new activity to Rule 16.1.4 Discretionary Activities as follows: <u>D3 Any activity that is not listed as Prohibited, Permitted, Restricted Discretionary or Discretionary.</u> AND Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter generally opposes the activity, NC1 and seeks it is a discretionary activity. 		

Plan chapter: Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects

Submitter Number:	299	Submitter:	2SEN Limited and Tuakau Estates Limited
Point Number	299.20		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects		
Summary of Decision Requested	Retain Section 16.2 Effects, as notified, except where modifications are sought elsewhere in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> It provide for suitable controls expected within a residential environment. 		

Plan chapter: Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.1 Noise

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.100		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.1 Noise		
Summary of Decision Requested	Delete Rule 16.2.1.1 P3 Permitted Activities Noise-General AND Amend Rule 16.2.1.1 P2 Permitted Activities Noise-General to read as follows: (a) Noise measured within any other site in the Residential Zone must not exceed: (i) 50dB (LAeq), 7am to 7pm, every day; (ii) 45dB (LAeq), 7pm to 10pm, every day; and (iii) 40dB (LAeq) and 65dB (LAmax), 10pm to 7am the following day. (b) Noise levels shall be measured in accordance with the requirements of NZS 6801:2008 "Acoustics Measurement of Environmental Sound"; and (c) Noise levels shall be assessed in accordance with the requirements of NZS 6802:2008 "Acoustic Environmental noise". Amend Rule 16.2.1.1 P3 D1 to read as follows: Rule 16.2.1.1 P1 or P2 or P3.		
Decision Reasons:	<ul style="list-style-type: none"> P3 needs to be conditions of P2 as they are the standards which need to be met. 		
Point Number	697.101		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.1 Noise		
Summary of Decision Requested	Amend Rule 16.2.1.2 P1(a) Permitted Activities Noise-Construction to read as follows: Construction noise must meet not exceed the limits in NZS 6803:1999 (Acoustics – Construction Noise); and		
Decision Reasons:	<ul style="list-style-type: none"> Additional clarity that the rule construction noise should not exceed the limits, rather than meet the limits in the NZS. 		
Point Number	697.99		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.1 Noise		
Summary of Decision Requested	Delete Rule 16.2.1 (1) Noise.		

Decision Reasons:	<ul style="list-style-type: none"> Reduces duplication – this noise rule is adequately covered by points (2) and (3).
--------------------------	--

Submitter Number:	781	Submitter:	Ministry of Education
Point Number	781.11		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.1 Noise		
Summary of Decision Requested	<p>Add new noise standards for education facilities to Rule 16.2.1 Noise as follows:</p> <p><u>16.2.1.2 Noise - Education facilities</u></p> <p><u>The operation of any education facilities shall comply with the following noise limits at the boundary of any site within the residential zone, at a point 20m from the façade of any dwelling, or the site boundary, whichever is closest to the dwelling:</u></p> <p>- Mon-Sun, 7.00am-10.00pm (0700-2200) 55dBA (Leq)</p> <p>- Mon-Sun, 10.00pm-7.00am (2200-0700) 45 dBA (Leq)</p> <p>- LMAX= 75dBA</p> <p><u>These noise levels shall not apply to noise from outdoor school activities occurring between 0800 and 1800 hours Monday to Saturday.</u></p> <p><u>Noise levels shall be measured and assessed in accordance with NZS 6801:2008 "Measurement of Environmental Sound" and NZS 6802:2008 "Environmental Noise".</u></p>		
Decision Reasons:	<ul style="list-style-type: none"> Noise standards for education facilities in the Residential Zone are needed to enable them to operate without hindrance while recognising the surrounding residential environment. 		

Plan chapter: Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.1 Noise > 16.2.1.1 Noise – General

Submitter Number:	378	Submitter:	Fire and Emergency New Zealand
Point Number	378.23		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.1 Noise > 16.2.1.1 Noise – General		
Summary of Decision Requested	Retain Rule 16.2.1.1 Noise - General.		
Decision Reasons:	<ul style="list-style-type: none"> Fire and Emergency New Zealand supports Rule 16.2.1.1 as it permits noise generated by emergency sirens. This exemption appropriately provides for the operational requirements of Fire and Emergency New Zealand and enables them to meet its statutory obligations in a manner that provides for the on-going health and safety of people and communities. 		

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.2		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.1 Noise > 16.2.1.1 Noise – General		
Summary of Decision Requested	Retain Rule 16.2.1.1 PI Noise - General, as notified.		
Decision Reasons:	<ul style="list-style-type: none"> There are a number of residential zones immediately adjoining Rural Zones, particularly around Tuakau and Pokeno. The submitter supports recognising, and providing for, the legitimate farming noises that will impact on these new and existing residential zones. 		

Submitter Number:	693	Submitter:	Alstra (2012) Limited
Point Number	693.8		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.1 Noise > 16.2.1.1 Noise – General		
Summary of Decision Requested	<p>Retain Rule 16.2.1.1 Noise- General, except for the amendments sought below;</p> <p>AND</p> <p>Amend Rule 16.2.1.1 PI Noise – General as follows (or words to similar effect):</p> <p><i>Farming noise (including intensive farming), and noise generated by emergency generators and emergency sirens.</i></p> <p>AND</p> <p>Any consequential amendments or alternative relief to address the matters raised in the submission.</p>		
Decision Reasons:	<ul style="list-style-type: none"> Supports the rule as it provides for current farming activities to occur, now including intensive farming. As intensive poultry farming practices general emit low amounts of noise, apart for in the summer months when the fans are needed more regularly to ensure adequate temperature for the birds, the operations that Alstra run are within the noise regulations that are required for a permitted activity. 		

Submitter Number:	831	Submitter:	Gabrielle Parson
On behalf of:	Raglan Naturally		

Point Number	831.22
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.1 Noise > 16.2.1.1 Noise – General
Summary of Decision Requested	Amend Rule 16.2.1.1 P2 Noise - General, to apply the noise limits and time limits to activities affecting Residential Zones, such as airfields.
Decision Reasons:	<ul style="list-style-type: none"> Raglan, particularly Raglan West, suffers from aircraft noise.

Submitter Number:	923	Submitter:	Waikato District Health Board
Point Number	923.147		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.1 Noise > 16.2.1.1 Noise – General		
Summary of Decision Requested	Amend Rule 16.2.1.1 P2, P3 and D1 as follows: P2 <u>Sound measured in accordance with NZS 6801:2008 and assessed in accordance with NZS 6802:2008 must not exceed:</u> (a) Noise measured the following noise limits at any point within any other site in the Residential Zone must not exceed: (i) 50dB LAeq(15min), dB (LAeq), 7am to 7pm every day; (ii) 45dB LAeq(15min) dB (LAeq), 7pm to 10pm, every day; and (iii) 40dB LAeq(15min) dB (LAeq) and 65dB (LAmax), 10pm to 7am the following day; (iv) 65dB LAFmax, 10pm to 7am the following day; (b) The permitted activity noise limits for the zone of any other site where sound is received. <u>P2</u> (a) Noise levels shall be measured in accordance with the requirements of NZS 6801: 2008 "Acoustics Measurement of Environmental Sound"; and (b) Noise levels shall be assessed in accordance with the requirements of NZS 6802:2008 "Acoustic Environmental noise." D1 (a) Sound that is outside the scope of NZS 6802: 2008 or a permitted activity standard; and (b) Sound Noise that does not comply with Rule 16.2.1.1 P1 or P2 or P3.		
Decision Reasons:	<ul style="list-style-type: none"> It is preferable for noise limits to be district-wide provisions as they should be based on receiver locations/zones rather than based on source locations/zones. The proposed noise limits are generally in accordance with guideline values and use current measurement and assessment standards, acoustical metrics, numerical values, assessment location and time-frames. However, the following issues have been identified: <ul style="list-style-type: none"> Incorrect terminology has been used in conflict with the standards specified, No provision has been made for sound sources outside the scope of NZS 6802, The measurement and assessment standards are an integral part of the noise limits and cannot be a separate permitted activity standard, No noise limits are specified for sound received in adjoining zones. 		

Plan chapter: Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.2 Servicing and hours of operation - Bankart Street and Wainui Road Business Overlay Area

Organisation:	Mercer Residents and Ratepayers Committee		
Point Number	367.23		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.2 Servicing and hours of operation - Bankart Street and Wainui Road Business Overlay Area		
Summary of Decision Requested	Amend Rule 16.2.2 Servicing and hours of operation - Bankart Street and Wainui Road Business Overlay Area, to provide clarification that it relates to Raglan.		
Decision Reasons:	<ul style="list-style-type: none"> Adds clarity. 		

Submitter Number:	732	Submitter:	Lucy Smith
Organisation:	Terra Firma Mining Ltd		
Point Number	732.7		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.2 Servicing and hours of operation - Bankart Street and Wainui Road Business Overlay Area		
Summary of Decision Requested	Amend Rule 16.2.2 Servicing and Hours of Operation - Bankart Street and Wainui Road Business Overlay Area, by adding text as follows to ensure that the stated hours of operation apply to the Puketirini Business Overlay Area: Rule 16.2.2 Servicing and Hours of Operation - Bankart Street and Wainui Road Business Overlay Area P1 The loading and unloading of vehicles and the receiving of customers and deliveries associated with a commercial activity within the Bankart Street and Wainui Road Business Overlay Area <u>and the Puketirini Business Overlay Area</u> may occur between 7.30am and 6.30pm.		
Decision Reasons:	<ul style="list-style-type: none"> The stated hours of operation are appropriate for business activities within the requested Puketirini residential development. 		

Submitter Number:	946	Submitter:	Dee Bond
Point Number	946.5		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.2 Servicing and hours of operation - Bankart Street and Wainui Road Business Overlay Area		
Summary of Decision Requested	Amend Rule 16.2.2 Servicing and hours of operation - Bankart Street and Wainui Road Business Overlay Area, to include "Raglan".		
Decision Reasons:	<ul style="list-style-type: none"> No reasons provided. 		

Plan chapter: Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.3 Glare and artificial light spill

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.102		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.3 Glare and artificial light spill		
Summary of Decision Requested	Amend Rule 16.2.3 PI Permitted Activities Glare and artificial light spill to read as follows: <i>illumination from glare and artificial light spill must not exceed 10 lux measured horizontally and vertically within any other site.</i>		
Decision Reasons:	<ul style="list-style-type: none"> Consistency of wording with other zone chapters. 		

Submitter Number:	742	Submitter:	Kim Harris-Cottle
Organisation:	New Zealand Transport Agency		
Point Number	742.125		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.3 Glare and artificial light spill		
Summary of Decision Requested	Retain Rule 16.2.3 PI Glare and artificial lighting as notified. AND Retain Rule 16.2.3 RD1 Glare and artificial lighting as notified.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports all rules in this section. 		

Plan chapter: Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks

Submitter Number:	471	Submitter:	Andrew Wood
Organisation:	CKL		
Point Number	471.38		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks		
Summary of Decision Requested	Amend Rule 16.2.4.1 PI (a)(ii) Earthworks - General, by increasing the allowable volume from 250m3 to 500m3. AND Any consequential amendments necessary.		
Decision Reasons:	<ul style="list-style-type: none"> A volume of 250m3 can easily be exceeded and due to topography or ground conditions resource consent should not be required in this instance. A maximum volume of 500m3 will allow for variations in topography or ground conditions. The effects of earthworks are well understood and can be managed via performance standards. The volumes are very restrictive and have no bearing on building or development scale. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.103		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks		
Summary of Decision Requested	Amend Rule 16.2.4 Earthworks as follows: <i>(1) Rule 16.2.4.1 – General, provides the permitted rules for earthworks activities for the Residential Zone. This rule does not apply in those areas specified in Rule 16.2.4.2, 16.2.4.3 and 16.2.4.4.</i>		
Decision Reasons:	<ul style="list-style-type: none"> The wording of the rule does not make it clear that the rules in 16.2.4(2) apply instead of the general earthworks rule. 		
Point Number	697.104		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks		

Summary of Decision Requested**Amend Rule 16.2.4(2) Earthworks** as follows:

There are specific standards for earthworks within rules:

- (a) Rule 16.2.4.1A – Earthworks within the National Grid Yard
- (b) Rule 16.2.4.2 – Maaori Sites and Maaori Areas of Significance;
- (c) Rule 16.2.4.3 – Significant Natural Areas;
- (d) Rule 16.2.4.4 – Landscape and Natural Character Areas.

And**Add** new rule after Rule 16.2.4.1 Earthworks-General as follows:16.2.4.1A Earthworks within the National Grid YardP1(a) The following earthworks within the National Grid Yard:(i) Earthworks undertaken as part of domestic cultivation; or repair, sealing or resealing of a road, footpath or driveway;(ii) Vertical holes not exceeding 500mm in diameter that are more than 1.5m from the outer edge of the pole support structure or stay wire;(iii) Earthworks for which a dispensation has been granted by Transpower under New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663.P2(a) Earthworks activities within the National Grid Yard near National Grid support poles or any stay wires must comply with the following conditions:(i) Do not exceed a depth of 300mm within 2.2m of the pole or stay wire; and(ii) Do not exceed a depth of 750mm between 2.2m and 5m of the pole or stay wire.P3(a) Earthworks within the National Grid Yard near National Grid support towers (including any tubular steel tower that replaces a steel lattice tower) must comply with all of the following conditions:(i) Do not exceed 300m depth within 6m of the outer edge of the visible foundation of the tower;(ii) Do not exceed 3m between 6m and 12m of the outer edge of the visible foundation of the tower;(iii) Do not compromise the stability of a National Grid support structure;(iv) Do not result in the loss of access to any National Grid support structure; and(v) Must be less than the minimum ground to conductor clearance distances in Table 4 of the New Zealand Electrical Code of Practice for Electrical Safe Distances 34:2001 ISSN 0114-0663.RD1(a) Earthworks within the National Grid Yard that do not comply with one or more of the conditions of Rules 16.2.4.1A P1, P2 or P3.(b) Discretion is restricted to:(i) Impacts on the operation, maintenance, upgrading and development of the National Grid;(ii) The risk to the structural integrity of the affected National Grid support structure(s);(iii) Any impact on the ability of the National Grid owner (Transpower) to access the National Grid;(iv) The risk of electrical hazards affecting public or individual safety, and the risk of property damage.**Decision Reasons:**

- Replicate the earthworks rule within the National Grid from Chapter 14 into Chapter 16 for increased clarity and usability of the Plan.

Plan chapter: Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General

Submitter Number:	123	Submitter:	Libby Gosling
Organisation:	Classic Builders Waikato Limited		
Point Number	123.4		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General		
Summary of Decision Requested	Delete Rule 16.2.4.1 P1(a) (vi) Earthworks – General requiring earthworks to be a minimum of 1.5m from all boundaries.		
Decision Reasons:	<ul style="list-style-type: none"> • The submitters believe that this minimum setback is impractical, particularly as section sizes get smaller. • Frequently a small batter or retaining wall is required near the boundary, but not at a scale that should require resource consent. • The permitted yard requirement for the residential zone is 1.5m (to cladding), to build 1.5m from a boundary, it is necessary to undertake earthworks to create the footings etc. for the foundation which would be within this 1.5m area and trigger resource consent. 		

Submitter Number:	299	Submitter:	2SEN Limited and Tuakau Estates Limited
Point Number	299.18		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General		
Summary of Decision Requested	Amend Rules 16.2.4.1 P1, P2, and P3 Earthworks- General to clarify how these rules work together. AND Any consequential changes necessary to give effect to the relief sought.		
Decision Reasons:	<ul style="list-style-type: none"> • It is uncertain if the provisions of P1 need to be met when relying on P2 and P3. In particular, it is uncertain whether earthworks that does not involve importation of fill but is for a building platform, would fall within P1 or P2. 		

Submitter Number:	368	Submitter:	Ian McAlley
Point Number	368.21		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General		
Summary of Decision Requested	Amend Rule 16.2.4.1 Earthworks, to enable the assessment of bulk earthworks as part of a subdivision to be assessed as permitted activity where consent has been received from the Waikato Regional Council for those earthworks.		
Decision Reasons:	<ul style="list-style-type: none"> • Earthworks need to be accepted as part of the land development process. • Large scale earthworks are undertaken by experienced contractors under the control of the Waikato Regional Council with appropriate monitoring and enforcement. • For the District Council to double up on earthworks control when the Regional Council is already actively managing this process is not a good use of time and resource and such inefficiencies should be avoided. 		
Point Number	368.22		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General		

Summary of Decision Requested	Delete Rule 16.2.4.1 NCI- Earthworks - General, the assessment of the importation of cleanfill to a site as a non-complying activity.
Decision Reasons:	<ul style="list-style-type: none"> Assessment of the importation of cleanfill to a site as a non-complying activity is overly onerous as this maybe required to bring appropriate material onto a site where such material is required to meet engineering requirements.
Point Number	368.23
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General
Summary of Decision Requested	Amend Rule 16.2.4.1, to only require assessment of amenity and landscape effects related to earthworks where the earthworks are occurring in an area clearly defined in the Plan as being protected for its landscape and/or natural character values.
Decision Reasons:	<ul style="list-style-type: none"> Assessment of amenity and landscape effects of earthworks should only occur where the earthworks are occurring in an area that is clearly defined as being protected for its landscape and/or natural character values.

Submitter Number:	419	Submitter:	Lucy Deverall
Organisation:	Horticulture New Zealand		
Point Number	419.3		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General		
Summary of Decision Requested	Add a new permitted activity rule in Rule 16.2.4.1 Earthworks, as follows: <u>Ancillary rural earthworks</u> AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> Ancillary rural earthworks should be a permitted activity to allow for existing operations to continue where land is rezoned from rural to residential. 		
Point Number	419.4		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General		
Summary of Decision Requested	Add a new matter of discretion to Rule 16.2.4.1 RD1 (b) Earthworks - General, as follows: <u>(xii) Measures to avoid reverse sensitivity effects on any adjoining Rural zoned land.</u> AND Any consequential or additional amendments as a result of changes sought in the submission.		
Decision Reasons:	<ul style="list-style-type: none"> The potential impacts of earthworks on adjoining rural production activities is relevant given the expansion of the rural-urban boundary. Recognition of this as a matter to which discretion is restricted will assist in managing the new urban-rural interface. 		

Submitter Number:	466	Submitter:	Brendan Balle
Organisation:	Balle Bros Group Limited		
Point Number	466.5		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General		
Summary of Decision Requested	Add a new permitted activity to Rule 16.2.4.1 Earthworks – General for Ancillary Rural Earthworks where existing commercial vegetable production operations have been rezoned residential.		
Decision Reasons:	<ul style="list-style-type: none"> Ancillary rural earthworks should be provided for as a permitted activity to enable the continued operation of existing commercial vegetable production operations. 		
Point Number	466.6		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General		
Summary of Decision Requested	Amend Rule 16.2.4.1 RD1 Earthworks to avoid reverse sensitivity effects on any adjoining Rural Zoned land.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter supports this rule however considers that reverse sensitivity issues should be addressed. 		
Point Number	466.65		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General		
Summary of Decision Requested	Delete requirement for 1.5m setback from boundary where effects are mitigated from Rule 16.2.4.1 PI Earthworks – General.		
Decision Reasons:	<ul style="list-style-type: none"> The submitter questions the requirement for 1.5m setback from all boundaries where appropriate erosion and sediment controls are in place and effects are mitigated and consider that this is unworkable. 		

Submitter Number:	662	Submitter:	Blue Wallace Surveyors Ltd
Point Number	662.5		

Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General		
Summary of Decision Requested	<p>Retain Rule 16.2.4.1 P2 Earthworks - General, except for the amendments sought below</p> <p>AND</p> <p>Amend Rule 16.2.4.1 P2 Earthworks - General as follows (or words to similar effect):</p> <p><i>Earthworks for the purpose of creating a building platform <u>and accessway</u> for residential purposes within a site, using imported fill material must meet the following condition:</i></p>		
Decision Reasons:	<ul style="list-style-type: none"> • Seeks to amend the permitted activity rule by expanding the coverage to accessway formation too. • Supports the permitted activity status for earthworks associated with building platforms. 		

Submitter Number:	684	Submitter:	Janet Elaine McRobbie
Point Number	684.4		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General		
Summary of Decision Requested	No specific decision sought, but submission recognises that the importation of fill to enable residential development is appropriate in Rule 16.2.4.1 Earthworks-General and questions whether this would be a permitted activity (P2) or a non-complying activity (NC1).		
Decision Reasons:	<ul style="list-style-type: none"> • The submitter states that the provision seem to be workable but are interested in the thoughts of other submitters. • Cleanfill may be required to enable greenfield land to be developed for residential purposes but it is unclear whether this is permitted P2 or whether resource consent to a non-complying activity NC1 is required. • NC1 would be too restrictive and needs to be more lenient to enable greenfield development. 		

Submitter Number:	689	Submitter:	Greig Developments No 2 Limited
Point Number	689.4		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General		
Summary of Decision Requested	No specific decision sought, but submission recognises the importation of fill to enable residential development is appropriate in Rule 16.2.4.1 Earthworks - General and questions whether this would be a permitted activity (P2) or a non-complying activity (NC1).		
Decision Reasons:	<ul style="list-style-type: none"> • These provisions seem to be workable but the submitters are interested in the thoughts of other submitters. • Clean-fill may be required in residential zoned sites to enable green-field land to develop for residential purposes. It is unclear whether this is a P2 permitted activity or a NC1 non-complying activity. NC1 would be too restrictive and needs to be more lenient to enable green-field development within residential zones.

Point Number	695.84		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General		
Summary of Decision Requested	Amend Rule 16.2.4.1 P1 Earthworks - General so that earthworks are applied as a ratio to site area, i.e. a 1:1 ratio on a 450m2 site would provide 450m3 earthworks.		
Decision Reasons:	<ul style="list-style-type: none"> • The Proposed District Plan penalises bigger sites for no apparent outcome, especially when a bigger site is likely to be better able to absorb and diffuse effects. • Earthworks totals should not cancel each other out, i.e. cut and fill add together. 		
Point Number	695.85		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General		
Summary of Decision Requested	Retain a maximum area of earthworks in Rule 16.2.4.1 P1 Earthworks - General.		
Decision Reasons:	<ul style="list-style-type: none"> • No reasons provided. 		
Point Number	695.86		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General		
Summary of Decision Requested	Amend Rule 16.2.4.1 P3 Earthworks - General so that the volume is applied as a ratio to site, i.e. a 1:5 ratio, so a 450m2 site would therefore provide a 90m3 fill.		
Decision Reasons:	<ul style="list-style-type: none"> • The Proposed District Plan penalises bigger sites for no apparent outcome, especially when a bigger site is likely to be better able to absorb and diffuse effects. 		

Submitter Number:	697	Submitter:	Waikato District Council
Point Number	697.105		
Plan chapter	Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General		
Summary of Decision Requested	<p>Amend Rule 16.2.4.1 P1(a) Permitted Activities to read as follows:</p> <p>(a) Earthworks (excluding the importation of fill material) within a site must meet all of the following conditions:</p> <p>(i) Be located more than 1.5 m horizontally from any waterway, open drain or overland flow path;</p>		

- (iii) Not exceed a volume of 250m³ and an area of more than 1000m² over any consecutive 12 month period;
- ~~(iii) Not exceed an area of 1000m² over any consecutive 12 month period;~~
- (iv) The total depth of any excavation or filling does not exceed 1.5m above or below ground level;
- (v) The slope of the resulting cut, filled areas or fill batter face in stable ground, does not exceed a maximum of 1:2 (1 vertical to 2 horizontal);
- (vi) Earthworks are set back at least 1.5m from all boundaries;
- (vii) Areas exposed by earthworks are revegetated to achieve 80% ground cover within 6 months of the commencement of the earthworks;
- (viii) Sediment resulting from the earthworks is retained on the site through implementation and maintenance of erosion and sediment controls;
- (ix) Do not divert or change the nature of natural water flows, water bodies or established drainage paths.

Decision Reasons:

- The rule needs to apply over a single consecutive 12 month period for both volume and area thresholds. The words “at least” provide clarity to the rule. This is also consistent with other zone chapters.

Point Number 697.106

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General

Summary of Decision Requested **Amend** Rule 16.2.4.1 P3(a)(iv) Permitted Activities to read as follows:

- (iv) Fill material is setback at least 1.5m from all boundaries;

Decision Reasons:

- The wording “at least” provide clarity to the rule.

Submitter Number: 746 **Submitter:** The Surveying Company

Point Number 746.31

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General

Summary of Decision Requested **Amend** Rule 16.2.4.1- Earthworks- General P1(a)(ii) as follows:

- (ii) Not exceed a volume of ~~250m³~~ 500m³

Decision Reasons:

- Where subdivision has been approved by Council and lots have been created there should be no requirements for land owners to apply for additional resource consents for earthworks to undertake permitted activities on the land.
- The earthworks thresholds need to be lenient enough to ensure the land can be developed without additional consents.
- Permitted land use standards should be able to control the adverse effects of any works.

Point Number 746.32

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General

Summary of Decision Requested **Retain** Rule 16.2.4.1 P2 Earthworks-General as notified.

Decision Reasons:

- The submitter supports this provision to enable the creation of stable building platforms.

Point Number 746.33

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General

Summary of Decision Requested **Amend** Rule 16.2.4.1 P3(a)(i) Earthworks- General as follows:

Not exceed a total volume of ~~20m³~~ 100m³

AND

Amend Rule 16.2.4.1 P3(a)(ii) Earthworks- General as follows:

Not exceed a depth of ~~4m~~ 1.5m.

Decision Reasons:

- Cleanfill may be required in residential zoned sites to enable greenfield land to be developed for residential purposes. The requirement to avoid filling in all circumstances may restrict the ability to development residential land where balanced cut to fill earthworks are inappropriate or cannot be achieved.
- The importation volume is too low to enable residential development.

Point Number 746.34

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General

Summary of Decision Requested **Delete** Rule 16.2.4.1 NCI Earthworks General

AND

Add a new restricted discretionary activity (RD2) to Rule 16.2.4.1 as follows:

RD2 Earthworks including the importation of cleanfill to a site.

Decision Reasons:

- The importation volume is too low to enable residential development
- Cleanfill may be required in residential zoned sites to enable greenfield land to be developed for residential purposes. The requirement to avoid filling in all circumstances may restrict the ability to development residential land where balanced cut to fill earthworks are inappropriate or cannot be achieved.
- The Non-Complying status is too restrictive and needs to be more lenient to enable greenfield development within residential zones.

Submitter Number: 749 **Submitter:** Housing New Zealand Corporation

Point Number 749.83

Plan chapter Section C Rules > Chapter 16: Residential Zone > 16.2 Land Use – Effects > 16.2.4 Earthworks > 16.2.4.1 Earthworks - General

Summary of Decision Requested **Amend** Rule 16.2.4.1 P1(a) Earthworks - General as follows:

(a)...

(ii) Not exceed a volume of ~~250m³~~ 1000m³

(iii) Not exceed an area of ~~4000m²~~ 1ha

...

~~(iv) Earthworks are setback 1.5m from all boundaries;~~

...

AND

Amend Rule 16.2.4.1 P3(a) Earthworks - General as follows:

(i) Not exceed a total volume of ~~5000m³~~;

(ii) Not exceed a depth of ~~1.5m~~ 1m;

~~(iv) Fill material is setback 1.5m from all boundaries;~~

...

AND

Amend Rule 16.2.4.1 RD1 Earthworks - General as follows:

(b) The Council's discretion shall be restricted to any of the following matters:

...

~~(viii) Protection of the Hauraki Gulf Catchment Area;~~

...

AND

Amend the Proposed District Plan as consequential or additional relief as necessary to address the matters raised in the submission as necessary.

Decision Reasons:

- The submitter generally opposes the maximum volume and area allowed in the permitted activities listed in 16.2.4.1.
- The submitter generally opposes the matters of discretion listed for RD1 in 16.2.4.1 and seeks the word 'any' is inserted into 16.2.4.1, RD1 (b) so the list is not seen as an inclusive list to which all matters need to be met. It could be that one or more matters may be relevant instead of all matters listed when the activity is triggered for a consent.
